PERSONAL.—We understand that Mr.
John Anderson for two finely executed
stereoscopic views, one representing the
interior of St. Andrew's Church, and the
other the exterior of the Baptist Church.
The artist is Mr. Esion of Preston. Mr.
Anderson has a number of these views
for sale at a low figure.

POISONED WITH MATCHES.—A little girl
nearly 3 years old, daughter of Henry
Le Poidevin, in the employ of Mr. Tho-
mas Gowly, Limehouse, was poisoned on
Tuesday last by sucking lucifer matches,
which she accidentally had got hold of.
Soon after eating the poison, she became
very sick, and vomited freely, and it was
hoped that the danger of a fatal result
was over. But on Wednesday afternoon
she took a fit, and died in a few minutes.
Persons should be careful and not leave
those poisonous articles where children
can get hold of them.

PERSONAL.—We understand that Mr.
Wm. Young has returned from Fort
Garry where he has been stationed. He
is a member of the Wellington Field Bat-
tery, and it is believed that he has
shortly after he succeeded in taking off a
first-class certificate from the Kingston
School of Gunnery, he enlisted in the
Dominion Artillery. He rose steadily in
the ranks, and when he left Fort Garry,
was a sergeant in the above named corps.
Should Mr. Young stay near or in Guelph,
and resume his duties in connection with
the W. F. B., he will be a valuable ac-
cession to it.

Y. M. C. A.—The first monthly busi-
ness meeting of this Association under the
new constitution takes place to-night.
This constitution requires the Executive
Committee to report monthly, and their
report embodies all the reports of the
chairmen of standing Committees, so
their report will give the members and
others an idea of what the Association is
doing. In this connection we would
mention that the subject for debate in the
Literary Class to-morrow evening is
"Resolve that the Miter is less advan-
tageous to Society than the Profrigate."
Let the members turn out well to-night,
and all who can, whether members or
not, to-morrow evening.

Guelph, Dec. 2, 1874. dtf

Wellington County Council.

Dec. 2nd.
The Council met at 8 p.m. The Warden
in the chair.

The following accounts were referred
to the Finance Committee:—J. Anderson,
\$3.23; Hart & Rawlinson, \$20.75;
an account from J. Webster, amounting
to \$41.10, was referred to the County
Property Committee.

The Warden read the Treasurer's fi-
nancial statement for the year.

It showed that out of the sum of
\$2,000 voted at the recommendation of
the Road and Bridge Committee in June
last, there had been \$1,650 spent, leaving
a balance of \$350. The expenditure on
boundary line bridges from Janu-
ary 1st to June 1st, amounted to
\$1,806.39, and from June to this date
\$3,525, making a total expenditure of
\$5,331.39. On the recommendation of
the Committee having charge of this
branch of expenditure the Council voted
\$9,000. Presuming that the amount
spent during the second half of the year
is the amount properly chargeable against
this vote, there is still at the credit of
the Committee \$5,475. The expenditure
for repairs on County Roads from June
1st to date, is \$6,903.92, inclusive of \$33
charged to the Glanellan Road Commis-
sioners for mutilating a horse. There
remains \$272 to be yet paid to cover
the vote of \$7,173. Expenditure on
bridges, \$500.50. On culverts \$200. Total
expenditure on County roads for all
purposes \$7,604.42. \$1,708 were ex-
pended in paying the 25 cents per cent
to the Volunteers while in camp. \$3,105
has been paid as the first interest on
C. V. R. debentures.

The following liabilities have to be
met on the 31st inst. and lat. prox.:

County debentures maturing. \$6,759 00
interest—coupons. 2,777 89
\$9,536 89

C. V. R. debentures. \$3,700
Interest—coupons. 4,050
7,750 00

Ontario Bank advances. 20,000 00

Total. \$37,286 89

Cash in the Treasury. \$3,915 23

On the 1st day of January last, the
debt of the County was \$109,122
Paid off. \$13,613
Provided for redemp-
tion of debentures maturing
in Jan. 1875. 10,259
Balance. \$85,250

The County Debt during the year has
decreased \$85,250.

The report was referred to the Finance
Committee.

The Warden read communications from
Rev. George Smellie, Fergus, and from
Rev. A. D. Macdonald, Lora, referring
to services rendered as examiners at the
July Examination of School Teachers;
also one from Rev. J. Kilgour in refer-
ence to school matters.

These were referred to the Education
Committee.

A petition was presented from Arthur
Village Council, asking that the
Director of the Guelph General Hospi-
tal, asking the Council to appoint a
special Committee to inspect the build-
ing, for the purpose of seeing if it had
progressed sufficiently to receive the
grant made by the Council at a former
meeting.

On motion of Mr. Hood, seconded by
Mr. Leeson, this communication was
referred to a special Committee, composed
of the Warden, Messrs. Leslie, Rea,
Mair, Roberts, Dalby, McMillan, Ander-
son, Gibson, McKim, Rabb and Lay-
mond, who were instructed to report to
the Council in accordance with the re-
quest of the Hospital Directors.

The Council then adjourned till Thurs-
day morning at 10 o'clock.

LOVE OF THE BEAUTIFUL.—Place a
young girl under the care of a kind-
hearted, graceful woman, and she uncon-
sciously to herself, grows into a graceful
lady. Place a boy in the establishment
of a thorough-going straight-forward busi-
ness man, and he becomes a reliable, prac-
tical business man. Children are suscep-
tible creatures, and circumstances and
associations always impress. As you
influence them, not by arbitrary rules, nor
by stern example alone, but in a
thousand other ways that speak through
beautiful forms, pretty pictures, &c., so
they will grow. Teach your children, then,
to love the beautiful. If you are able,
give them a corner in the garden of
flowers; allow them to have their
favorite tree; teach them to wander in
the prettiest woodlots; show them where
they can best view the sunset; rouse
them in the morning not with stern
"time for work," but with the enthusi-
astic "see the beautiful sunshine." Buy
for them pretty pictures and encourage
them to deck their room in his or her
childish way. Give them an inch and
they will get a mile. Allow them the
privilege, and they will make your house
pleasant and beautiful.—*Christian Age.*

The Kingston Daily News states that
the Kingston and Pembroke Railway
Company have notified the Post Office
Department that they will be prepared
to convey mails over their line next
spring.

The rumor that the Prince Imperial is
to be married to a Russian Grand
Duchess has created considerable dis-
satisfaction among the Bonapartists. The
Grand Duchess referred to is the offspring
of a morganatic marriage, and the Impe-
rialists think that the heir of the Napo-
leons ought to cast his eyes higher.

They say also that the Prince, like his
father, should win his throne before he
wins a wife.

Terrible disaster at sea.

Great loss of life.

Teo Jersey City Scandal.

LONDON, Dec. 3.—The Lord High Chan-
cellor, Lord Cairns, has removed the
name of Dr. Kenealy from the list of
Queen's Counsel.

A special despatch to the 'Daily News'
from Berlin, says it is reported there
that Great Britain has formally and finally
refused to take part in the Interna-
tional Law Conference which Russia pro-
posed to re-open at St. Petersburg.

The steamer La Plata, from Gravesend
for Rio Grande, chartered by the Siemsen
Bros., to repair the telegraph cable,
foundered off Ushant on the 29th of Nov.
Sixty persons were drowned. Fourteen
survivors were rescued by the Garloch of
Glasgow, from a boat in which they had
been floating 25 hours and were trans-
ferred to the steamer Antero, which ar-
rived in the Thames last night. The loss
of the steamer is attributed to the
shifting of the heavy grapple apparatus.
Of 250 miles of telegraph cable on board
150 had been paid out which had to be
abandoned in the unavailing attempt to
save the vessel by lightening. The cap-
tain, surgeon, three officers, engineer,
seven stewards and cooks, eleven stokers,
fourteen seamen, and the whole lot of cable
staff, numbering 16, including Mr.
Ricketts, the chief electrician, were
drowned. The chief steward who was
saved reports that the fire was all out
by 10 o'clock on the morning of the 29th.
A heavy sea carried away two of the
boats. The ship gradually settled by the
stern and at 12:30 foundered stern first.
The Captain and Doctor were on the
bridges and having failed to clear the
steamer's life rafts, went down with the
crew. The decks burst as the steamer
sank.

New York, Dec. 2.—The case of the
Rev. John S. Glendonning, before the
Jersey City Presbytery, concluded to-
day, resulting in a verdict of acquittal
on all the counts.

Marshall's Photograph Gallery.

Mr. W. Marshall has just taken
possession of his newly fitted up Photo-
graph Gallery, next to Mr. Hogg's store,
in the Alma Block. In all respects—
whether we regard its cheerful appear-
ance, the taste and neatness displayed in
fitting it up, its elegance and conveni-
ence—it is equal to any of the first es-
tablishments in the city. On the main
floor we have a well lighted and com-
modious show room, and the spacious
window gives every opportunity for dis-
tributing and examining the beautiful
specimens of photographic art which have
been produced by Mr. Marshall. These
will well repay a careful examination,
and cannot fail to elicit the admiration
of all who delight in perfect pictures.
On the walls of the room, and on the
counters, are displayed many choice oil
chromes, chrome lithographs, mottoes,
picture frames, &c., which are for sale.
Mr. Marshall having now embarked in
this branch of the business. In the rear
of the gallery is a well fitted up photo-
graphic room, and in the rear of the
operating room, which is fur-
nished with two of the largest and most
improved cameras, and with all the
other appliances required by the artist.
On the third floor is the printing room,
where copies are taken from the nega-
tives. In the rear of this is the artist's
studio, where the finishing touches are
given to those pictures requiring such.
No expense or pains has been spared
to make the establishment complete in
every department, and to ensure, not
only the production of first class pictures,
but also the comfort of visitors. Mr.
Marshall deserves great praise for his en-
ergy and enterprise in thus fitting up a
Gallery which is a credit to the town,
and which is as much an evidence of its
progress as in any other department of
business carried on in it. We wish him
every success, and have little doubt but
he will meet with a full measure of it in
his new Gallery.

WISDOM OF THE EGYPTIANS.—Philo-
sophy, astronomy, chemistry, painting,
architecture and physicians must return to
Egypt to learn the origin of writing—a
knowledge of the calendar and solar mo-
tion—the art of cutting granite with a
copper chisel, and of giving elasticity to
a copper sword—of making glass of the
variegated hues of the rainbow—of mov-
ing single blocks of polished syenite nine
hundred tons in weight, for any distance
by land or water—of building arches
round and pointed, with Masonic pre-
cedent by two thousand years to the
Cleopas Maxims of Rome—of sculpturing
a Doric column one thousand years be-
fore Dorians are known in history—of
fresco painting in imperishable colors—
and of practical knowledge in masonry.
And it is no less clear that every crafts-
man can behold on Egyptian monuments
the progress of his art four thousand
years ago, whether it be a wheelwright
building his chariot, a shoemaker draw-
ing his twine, a leather-cutter using that
self-same form of knife which is consid-
ered the best form now, or a weaver
throwing the same hand-shuttle.

The King of the Sandwich Islands,
who is about to pay a visit to the Presi-
dent of the United States, landed on
Saturday at San Francisco, where he
was received with all honour by the Uni-
ted States and California authorities.

levied on the property of the Roman Ca-
tholic Bishop and priests for non-payment
of school taxes according to law.

Dec. 1.

THE AGRICULTURAL COLLEGE.

Mr. Cameron rose to move the follow-
ing resolution:—Whereas it has been
stated in the Guelph Evening Mercury
that a serious disaffection had arisen be-
tween the Principal and heads of the dif-
ferent departments in the Agricultural
College at Guelph, and much had feeling
had in consequence sprung up. A Com-
mittee, comprising the Hon. Mr. Christie,
the Hon. Mr. McKellar, Prof. McLaughlin,
and Mr. James Laidlaw, Warden of the
County, decided to hear and take down
the statements of the Principal first, and
then to take the evidence of the heads of
the Departments and of the pupils—
which statement and evidence were care-
fully reported, and at the close of their
investigation the Committee submitted them to the Govern-
ment, the consequence was that the Gov-
ernment requested the Principal to hand
in his resignation, which was done; and
whereas the irregularities in the said in-
stitution have tended much to impair its
past usefulness and to retard its progress;
and whereas the Hon. Archibald McKellar,
in his place in this House, on being
asked by a member in his place for cer-
tain information, suggested that a Com-
mittee of this House should be appointed
to make enquiry into the management of
the same institution; therefore, he re-
solved, that a Committee be appointed,
composed of Messrs. Boulton, Scott
(Peterborough), Clarke (Wellington),
Hodgins and Boulter, to enquire into the
management, and whether any and what
causes, if any, existed, which might tend
to produce dissatisfaction among the officers
or irregularities in the conduct and con-
trol of the institution impairing its use-
fulness, and the cause of the

through the influence of a local mem-
ber, the Commissioner of Public Works
had appointed another person who, ac-
cording to the representation of the Pro-
fessor, was totally unfit for the position.
Then he was told that another officer
was to be appointed. Mr. Sturton, a
young man, son of Mr. David Sturton, a
representative in the Commons of
South Wellington—a person who was
entirely unfit for the position. Another
gentleman was appointed for the same
position, but it is impossible for the
men to discharge the duties when
there was not work for either. Another
gentleman had to give way, and the
Commissioner of Public Works addressed
a letter to Professor McCandless re-
specting to him that some of the
work as it is possible for Mr. Sturton.
Then disagreements arose. Mr.
Sturton had conducted himself with such
disregard to the proprieties of the in-
stitution that students were permitted to
get intoxicated and come into the in-
stitution at all hours of the night. Though
Mr. Sturton was fully aware of these ir-
regularities on the part of the students,
he made no report to the Principal. The
Principal had been making continual
complaints to the Government, but
though the Attorney-General felt dis-
posed to listen to these complaints, he
found that his colleagues were not. A
Commission had been appointed to make
an investigation. The Commission, in-
stead of taking evidence in the ordinary
way, had examined the witnesses who
had complaints against the Principal, in
the absence of that gentleman, and so
with evidence against other officials.
The Professor was not yet aware what
charges had been preferred against him.
He (Prof. McCandless) stated that he
came from the United States fully qual-
ified to conduct an institution of the kind,
and he courted a full investigation of the
charges against him. The Commission
had, he (Prof. McCandless) understood,
reported the evidence to the Govern-
ment, and he had been led to believe
that the report was favorable to him;
but he had found that certain rules
and regulations had been laid down to
which he would not assent. The consequence
was that they had turned against him,
and he was requested to resign. But be-
fore that resignation took place, a stipu-
lation was made that a considerable
gratuity would be paid him provided cer-
tain charges which he had made to the
Attorney-General should be withdrawn.
These matters required a full investiga-
tion, and he believed the gentlemen
whose names appeared on the Commit-
tee for which he moved, were well qual-
ified to conduct such an investigation.

The Danger of Coal Stoves.
People cannot be too careful in seeing
that their coal stoves are so arranged as
to have draft sufficient to carry off the
noxious gases arising from the coal in
combustion. In Hamilton, on Monday
night, two cases of asphyxia occurred,
consequently upon the inhaling of the coal
gas. It occurred at the residence of Mr.
James Gordon in that city.

The circumstances of the case are as
follows:—In the morning the self-
igniting stove was lighted for the first
time and used during the day, though it
was noticed to burn very badly. Mr.
and Mrs. Gordon were from home dur-
ing the evening and returned some time
after midnight. He rapped at the door,
and his son, a young man of eighteen
years, ran down stairs, opened it, and
proceeded to his room again. As soon
as they entered the house they perceived
that the air was heavily laden with coal
gas. At this moment the lad was heard
to fall on the floor of his room, and Mr.
Gordon went to his assistance and found
him lying on his face and insensible, he
having fallen when attempting to get
into bed again. Mr. Gordon opened the
windows and doors, but in the meantime
his daughter, who had risen on hearing
the noise in her brother's room also be-
came overpowered with the gas, which
had been affecting her, and fell senseless
on the floor. She was partially recover-
ed, but soon swooned away again, the
doctor called was summoned and restoratives
applied. The daughter was restored,
but the lad, who was brought to, again
fainted. He was resuscitated, but both
felt the effects during the day.

In searching for the cause of the ac-
cumulation in the house of this deadly
gas, it was found that there was a bushel
of sand in the chimney. The stove
pipes had been cleaned and no apprehen-
sion was created in that direction. Mr.
Gordon is firmly of opinion that had he
not been out that evening, the family
would have retired without noticing the
presence of the gas, and that the proba-
bilities would be that all would have
been suffocated in their beds before as-
sistance would have come to their rescue.
The escape was so fortunate as almost to
deserve the name of providential.

Eramosa Correspondence.
The Tasmania Temple of Independent
Order of Good Templars held an open
Lodge on Friday evening, 27th ult., at
half-past seven o'clock. Mr. William
Hodgkinson was called to the chair, and
made that office with ability. A dialogue
was the first part of the programme, and
the names of those taking part are as fol-
lows:—Mr. J. Hill, R. Nelson, J. Triffey,
Miss Carter, Miss Hill, Miss Orr, and
the Misses Osborne. Music was provided
by Mrs. Jas. Horton and Miss Herdick,
of Erin. Recitations: Messrs. N. Royce
and Archibald. These were listened
eagerly to by an audience. Mr. Edward
Parkinson and Miss Oldham gave an
organ duet, which was well received and
drew forth much applause. Miss Bessy
Holden and Miss Stanley both played and
sang. Miss Davidson, of Eden Mills,
sang a beautiful selection. Mr. Hanson
and Mr. Wood gave good recitations,
after which Mr. Morton Glary and Dr.
Carr, of Rockwood, gave excellent ad-
dresses upon the subject of Temperance.
The National Anthem brought to a close
the most successful entertainment held
by the Lodge.

Elora Correspondence.
The Fair in Elora on Tuesday last
was not a very large one, and most of the
cattle brought in were not very fat.
Anything like beef was quickly bought
up, and considerable trading was done
between farmers for cattle that wanted
feeding. Several yokes of oxen were on
the ground, selling at from \$60 to \$110.
Some few horses were offered for sale.
A large quantity of wood was brought
in, selling at from \$3 to \$3.25 per cord.
More grain was on the ground than any
day this fall here, selling at from \$0.75
to \$0.85 for spring, and \$0.75 to \$0.85 for
fall. Barley sold at \$1 to \$1.05. If
it was a good fair taken altogether, but
there is no doubt many fat cattle are
held till the Christmas Fair, which takes
place on the 15th inst. We have good
slaughtering and business is much better
than it has been this fall.

A Masonic social will be held on Wed-
nesday evening Dec. 9.

Mechanics' Institute.—Mr.
A. J. Brewster, Principal of the Hesper
school, assisted by Mr. Conaway, has
organized evening classes in connection
with the Mechanics' Institute, which
promise to be largely attended.

McCandless' Slanders.

Knowing as much as we do of the
management of the Agricultural
College and Model Farm, we have no
hesitation in saying that McCandless'
letter, a copy of which he furnished to
the leader of the Opposition, is
crammed full of misrepresentations
and falsehoods, which the Committee
appointed by the House will find out
in due time. The *Globe* in speak-
ing of it says very justly that
"no gentleman would have read it in a
deliberative assembly, and no gentleman
would have published it in a newspaper.
This remark is founded on the portion
of the letter referring to the matron. If
the statements in that portion of the
letter were as true as they are false, no
man of decent conceptions of conduct
would have given them publicity. But
false as they are, and are known to be
by the clever fellows who think that they
will earn the confidence of the people of
this Province by showing that they are
undervaluing of confidence in the small-
est matters of private life, no words
could be too strong to characterize the
policy of the four men who do not shrink
from making public any meanness of
mendacity, any fondness of defamation,
which exhales from the disappointed,
poisonous purloins of their own corrupt
hearts."

The Matron referred to, who is
now in charge of the College, has
been most foully slandered by this
upstart Professor, who because he
could not tyrannize over her, and
force her into the menial position he
wished her to occupy, has sought by
the basest means to injure her
character, in the hope that she may
lose her situation. We say it with
all confidence—and our assertion
will be fully sustained by all who
have known her in Guelph and Fer-
gus—in which latter place she was
born and brought up,—that not a
whisper has ever before been made
against her character, and that to-
day she stands infinitely higher in the
estimation of the public than does
her slanderer, against whom far
more serious charges can be brought
than he has made against her or any
one connected with the establish-
ment. In justice to the lady whose
character has been so foully traduced
and to all the others whom McCand-
less has so unjustly censured, we de-
mand of the Committee that they
make a most thorough enquiry, so
that the blame may be laid on the
right shoulders.

In all our experience we never
came across a man so unscrupulous,
so unjust, and such an adept at mis-
representation as this discharged Pro-
fessor has proved himself to be. Ig-
norant, arrogant, conceited and ty-
rannical, he sought to be the autocrat
of the Institution, where every one
would cringe to him as if they were
his slaves. When they refused to do
that, he marked them out as his ob-
jects for revenge; he set spies to
watch their every footstep, and pur-
sued them with a hate that was little
short of devilish. An upstart at the
best, his head got turned by the in-
fluence he thought he could wield,
and he tried to ride rough-shod over
every one with whom he came in con-
tact. How else can we account for
his unpopularity, and for the feeling
of utter contempt that was felt for
him even by those who were appoint-
ed on his special recommendation,
some of whom were the first to ex-
pose his incapacity, and to protest
against his tyranny. How is it that
he had not a single friend in the
place where he lived, or in the sec-
tion surrounding; and that among all
classes, and people of all shades of
politics, he was looked upon as an
upstart, an incapacity, and altogether
unfit for the position he held?

We have full confidence that the
Committee will bring out all these
things, and we have not the slightest
fear that the character of any one
will be permanently injured by this
disappointed Professor, who thinks
he is going to make capital against
the Government, but who will find
that he has by his own efforts ruined
the little reputation he ever had.

Ontario Legislature.
The business done in the Ontario
Legislature on Wednesday was not of
a very important character. Mr. Gow
presented the petition of the Galt
and Guelph Railway Company for an
Act amending their Act of Incorporation.
After bringing under the at-
tention of the Government some
matters referring to the Land Im-
provement Fund, Mr. Gibson with-
drew his notice of which he had given
notice. A committee was appointed
to prepare an address to the Lieut-
Governor in accordance with the re-
solution of the House in reference to
the manufacture and sale of spirit-
uous liquors. Mr. Hardy moved for
a return, showing the amounts ex-
pended on some of the public institu-
tions. Mr. Charles Clarke with-
drew his Bill for municipal
elections, as the Government had in-
troduced one of a similar character.

Mr. Biggar's majority in East
Northumberland was 285, not 274 as
reported.
Mr. Farewell has been re-nomina-
ted in South Ontario.
The nomination in Niagara takes
place on the 12th; North Simcoe on
the 19th. The writs in both cases
were forwarded yesterday.

Kingston.—The Reformers of King-
ston have again nominated Mr. John
Carruthers, as a candidate for that
city. Will the honorable and gallant
Knight, the head of the Charter
sellers, again face the music after being
unsatisfied? People will be much
interested to hear his decision, and
in the contest, if he consents to run.
Should he do so, it will be the keen-
est fight Kingston has witnessed for
many a day.

FARMERS' DIARIES.

If our farmers knew how little
trouble it is to keep a diary,
and with what satisfaction
they would look over it in a
few years, we feel sure they
would, many of them, be in-
duced to begin one. A simple
record of the weather and the
operations of the farm, the
writing of which would not
occupy two minutes a day, will,
in after years, be not only a
source of pleasure, but also of
great practical benefit; by
reference back to the records
of former years, one can see
how late he planted certain
crops, and at what time they
matured, also items of interest
to the family prices, &c. At
Day's Bookstore will be found
a large stock of Diaries and
Farm Account Books. Day
will sell you a large foolscap
Diary for 35 cents, and Pocket
Diaries from 15 cents upwards.
Begin now, and it will pay you
well for the few minutes lost
in entering your day's work.

FOR SALE— TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has
placed in my hands for sale the Lots in his
new survey, immediately in rear of his resi-
dence and lying on the north side of Grange
street. The situation cannot be surpassed
in the town—convenient to Market, Post
Office, Church and Schools, commanding a
magnificent view of the town and surround-
ing country. The lots are of different sizes,
and well suited for private dwellings, with a
first-class soil for gardening.
These lots on Tyrcathlen Terrace are well
adapted for genteel residences, and will
only be sold to those who will bargain to put
up good buildings.
Plans of the Lots can be seen at my office
and particulars learned.
Terms very liberal. Purchases made
this Fall, interest on balance of purchase
money will not commence until 1st April,
next.
If desired, the lots will be pointed out on
the ground.
Also, if other lots lying to the north of
Palmer street, in Macdonald's survey, and
on Queen and Arthur streets.
An early call is solicited.

HELENA GRAHAM,

THE BRIDE'S SACRIFICE.

CHAPTER VIII.

FICKLE FORTUNE, that often favors the wrong and erring, certainly smiled on the lovers that day. For scarcely had Jessie entered the house, when Mrs. Ben came bustling out, in deep distress, saying in heart-rending tones—

"What is to be done? This five and forty year, rain or shine, I've had a cup o' tea for breakfast, and now there ain't any in the house. I just know as well as if somebody had told me that I shall be fit for nothin' to-morrow, when I ain't got a cup o' tea for my breakfast; and there's no use tryin' to make that good-for-nothin' Fritz go for any to-night. It always was my lot to have most dreadful bad luck; but I never thought things would come to such a pass as this. S'at! you huzzy!"

And Mrs. Ben gave the cat a kick, which was her usual way of winding up an address.

"Aunt Ben," said Jessie, "let me go."

"You! Are you crazy? How are you goin' to go?"

"Mr. Clinton is going over to Craig's End this evening, and he wanted me to go with him," said Jessie, turning away to hide a rising blush. "I can easily get it there."

"So you can," said Mrs. Ben, considering; "but will Mr. Clinton return early?"

"Yes," said Jessie; he has some slight business to transact, and then he is coming immediately home. The sail will be pleasant by moon-light, and I would like to go."

"Well, go then; and don't be gone any longer than you can help. Get two ponies of Bohea at Mr. McPherson's."

"Yes, ma'am," said Jessie, taking the money, and putting on her hat and shawl, in a trembling, agitated sort of way that at any other time Mrs. Ben must have noticed.

She hurried out, and on her way met Herbert coming up to the house.

"Well, has Mrs. Ben given you permission?" he asked, in pleased surprise.

Jessie related her errand.

"The gods favor us!" he cried, gaily. "See, Jessie, the sun is approaching the west, and before it dies out of the sky you will be what heaven destined you for—my wife!"

"And to be that for an hour is bliss enough to pay for a whole life of misery," she said, earnestly.

"With my own Jessie! Will I ever be able to repay you for this greatest earthly blessing that heaven could bestow upon me," he said, fervently.

"The knowledge of your love more than repays me; for I have made no sacrifice," she said, in a low tone.

They had now reached the boat. He handed her in, pushed off the boat, took the oars, and rowed away.

But other eyes they dreamed not of were upon them. From one of the windows of the high chambers of Graham's Lodge, old Allie and her son Evan were taking observations.

"There they go!—off a sailin'. What will Miss Helena say to that?" observed the scandalized and indignant old Allie.

"Goin' out sailin' doesn't signify nothin'. The young gentleman wants somebody to talk to as he rows."

"Tain't right," said old Allie, with an arcaic shake of her head; "There's something wrong somewhere. Don't b'lieve Miss Helena would prove it nohow; these young men ain't to be trusted nowadays."

"It's nat'ral Mr. Clinton would get tired o' one lassie—most young men do—and take up with another, for a change. I'd do it myself," concluded Evan, in a pompous tone.

"You would," said his mother, in high dudgeon; "as if any lassie'd look at you, you fool. Mr. Clinton will get hisself into a hornet's nest if he trifles with the affections of Miss Helena. I shall take upon myself to inform Miss Helena of his goings-on as soon as ever she arrives."

And having settled the matter to her own entire satisfaction, old Allie descended to the kitchen, and soon forgot all sublunary things in the celestial bliss of a sound snore before the kitchen fire.

Meantime, the erring pair were swiftly skimming the bright waters in the direction of Strathmore. The labor of rowing precluded the possibility of conversation, and both were silent and thoughtful. Urged on by his intense desire of completing what he had so successfully begun—urged on, perhaps, by F-te, the boat seemed fairly to fly over the sparkling, sun-bright waves.

Ere the last ray of sunlight had faded from the sky the boat touched the opposite shore; and drawing Jessie's arm within his own, Herbert set off rapidly in the direction of the town of Craig's End.

And having reached it, he led Jessie in the direction of a little, obscure church, where he left her to seek for a licence and a clergyman.

In a short time he returned with both; and without making any unnecessary inquiries he hastened through the marriage ceremony, with on y an old clerk and a pew-opener as witnesses, and in a few moments the passion-blinded young couple were man and wife. Then hastily paying the clergyman his fee, Herbert led his bride from the church.

FILE AT PALMERSTON.—A destructive fire took place in Palmerston on Tuesday night, commencing about 6 o'clock, destroying Thompson's block on Main-st, destroying the whole block in a short time. The block contained Martin's drug store, Mr. C. Pott's hardware store, W. S. Bryant's oyster saloon and dwelling, and the dwelling of W. Nicholson; also the office of the Montreal Telegraph Company. The losses are as follows:—W. Thompson, building \$2,000, insurance \$1,000; H. A. Martin, drugs and books, \$2,900, no insurance; W. S. Bryant, goods and furniture, \$500, insurance; H. McEwing, removal of goods, \$1,500, insured; J. D. McLellan, removal of goods, \$500, insured.

[We have received our Palmerstone correspondent's account of the above fire, just as we go to press, and consequently it is too late for this week's issue.]

MEETING OF PRESBYTERY.—The Presbytery of Guelph, in connection with the Canada Presbyterian Church, met on Wednesday forenoon in Guelph. Only two matters came up for consideration. The report of a moderation of a call by the congregation of Glenallan and Hollin in favor of Mr. Bryant was tabled, and he having signified his acceptance of the same, subjects were assigned him as trials for ordination, and he was appointed to deliver the same at the next ordinary meeting. Notice was received by telegraph that Rev. J. K. Smith had accepted the call from the congregation of Knox Church, Galt, and that the Presbytery of Halifax had agreed to his translation. His induction was appointed for Thursday, 17th December, at eleven o'clock a. m. The Presbytery then adjourned.

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and never cracks or scales. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate color, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

BELL ORGANS AND HALLET & DAVIS PIANOS

STRAUSS, the celebrated Waltz composer, to Hallet, Davis & Co.—GENTLEMEN—Having heard your Pianos at the World's Peace Jubilee, and also used them during my stay in Boston, I am free to say that I have never before seen pianos possessing such a combination of truly wonderful quality and quantity of tone, meeting at once the wants of the largest Concert Hall and the drawing room.

I consider them superior to any pianos that have come under my observation. JOHANN STRAUSS.

The following Musicians Of world wide reputation give these Pianos their hearty commendation: FRANZ LISZT, The First Pianist in the World. GOTTSCHALK, The well-known Pianist. P. S. GILMORE, Professor of the World's Peace Jubilee. WM. MASON, The celebrated Pianist, Organist and Composer. H. SARO, Royal Prussian Musical Director. M. The Fair.—At the Fair on Friday there was an average attendance of men and cattle. Prices were better than those offered at some of the preceding markets. Sales were brisk, and money flush—got 75 cents on an old account and didn't care a rap about writing to the Montreal or doing anything else ever since. The following are a few of the sales. (Cattle sold by live weight brought 4 cents per lb.)—John McLellan, 1 yoke of small steers for \$28, and 1 yoke do, for \$42; James P. Dunn, 1 steer \$31, and 1 do \$52; David Peoples, 1 pair steers \$60; Samuel Peoples, 1 yoke do \$34; John Peoples, 1 yoke oxen \$101; Wm. Gowen, 3 head for \$100; Malachuk Ferguson, 4 steers \$70; W. McLachlin, 1 cow \$25; Edward Irwin, 1 cow \$26; John White, 1 cow \$22; B. Clow, 1 cow, \$27; Robert Arbuckle, 1 yoke oxen \$92; James Baron, 1 yoke oxen \$115; Jacob Wilson, 1 cow \$40; John Craig, 4 steers \$80; Wm. Morrison, 1 cow \$18; Samuel Clarke, 1 yoke steers \$54; Edward Harding, 1 cow, \$19 and 1 steer \$26; John Walker, 1 heifer \$18; Walter Henderson, 1 cow \$20; Wm. Dalby, 1 cow \$40; 1 do \$20; Samuel Clark, 1 yoke steers \$54.

DEER HUNTING.—Mr. Smith, Veterinary Surgeon, from Fergus, who was for a few days on a hunting expedition in this neighbourhood, brought down a fine buck on Wednesday last. Deers are becoming scarce in Minto, and this is the only one brought into the village during the past season. The time for killing them has now expired, and it is to be hoped that however tempting stray chances for a good shot may be that hunting parties will strictly abide by the law and allow them to pass, and thus afford a reasonable prospect of a more abundant supply of venison in time to come.

Partridges, Grouse or Pheasant.—It is pretty difficult to say which—for they are all one and the same bird here—seem very plentiful during the now bygone fall, and very few of them have been killed. This fact is, that the ground to be gone over in search of them is very favourable for their escape. They are most to be found on the edges of swamps. And although one can hear them fly—whirr—whirr—whirr—they are frequently not seen, and almost always under safe cover before the hunter can bring his gun correctly to cover them. It does not seem to be true that the sound of railway whistles on the railway cars dashing through the bush frightens these birds from the neighbourhood, for they were frequently found during the summer quietly sunning themselves in close proximity to the track, and in the early morning and evening might be seen strutting about on the track itself.

BRASS BAND.—An effort is being made for the formation of a band, to be called the Harrison Brass Band—Harrison rather lacks brass—and a few hours devoted to procuring subscriptions yesterday afternoon resulted in the promise of over \$170, and there is little doubt that the necessary sum will soon be guaranteed. There would have been no difficulty whatever in procuring the amount required had it not been for the wretched manner in which the subscribers to the last band fund lost their money—musical instruments and all; but it is intended to place the proposed new one on a more permanent basis, and should the members choose to quarrel amongst themselves the instruments will remain the property of the village. No one should be afraid to venture his mite in such a laudable scheme—just this once. There are lots of musical talent in the village, as the writer can testify, he having been serenaded (specially and gratuitously) by a very creditable band of mouth organs, some half-dozen of times already during the present winter.

CONCERT.—A concert in connection with the opening of the Temperance Hall, was given on Monday night. The weather was not very favorable, but the attendance was large—so large that standing room could scarcely be obtained. Excellent speeches were delivered by the Rev. Messrs. Scott, McLenon and others, enunciating of temperance principles. The various pieces of music by, and under the guidance of Miss Thompson, were well executed, and duly extolled by an appreciative audience. Several adjourned meetings were afterwards held in other places by numbers of those who have not hitherto given their adhesion to the cause, for the purpose of settling in their minds what they had heard, and the proceedings cannot fail to have a lasting impression on the public mind. Proceeds of a concert not known.

THE WEATHER.—We have winter now to the chimney top and higher up. On the ground the snow must be nearly two feet deep—it lies ten inches deep on the top of the fence posts; but there has as yet been no real cold weather.

THE MARKETS.—The price of wheat remains much the same as last week. Last Saturday went up to \$7.80 per hundred, but yesterday it was down to \$7.50. Barley from \$1.03 to \$1.08. Harrison, Dec 1, 1874.

BREAKFAST.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which will save us many heavy doctor's bills.—GUTHRIE'S CURE. Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co., Homoeopathic Chemists, London." 1/6-9m

THE HUMAN EYE AND SPECTACLES.—Dr. Franks has been remarkably successful here, and given the most entire satisfaction. He is now visiting the villages of Wellington County. Such an excellent opportunity may never occur again to our readers to have the best of Spectacles adjusted to the Eye by so scientific a man. In Guelph he received the most complimentary testimonials from our leading citizens, as to his skill in adjusting spectacles to the sight, and the superiority of the spectacles themselves. wif

Puslinch Farmer's Club.

The regular monthly meeting of the above club, which was held at Downie's school house on Saturday last, was well attended. Most of the leading farmers of this section were present, all of whom joined the club, evincing a very lively interest in its welfare, and in the subject for discussion. The subject, however, being an important one, it was thought advisable to adjourn the debate for a week, a motion to that effect having been carried, the meeting adjourned to meet again at the same place on Saturday, 5th December, at 6 o'clock p.m., when the debate will be resumed on the same subject, viz: dairy farming. Mr. Robert Little will open the Debate.

DO NOT TROUBLE YOURSELF TO ASK WHETHER DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATE AND CALCEYRA MAY BE USEFUL IN YOUR PARTICULAR CASE.

Dr. A. L. Scovill, of Cincinnati, Ohio, says: "I have witnessed its effects on the young and the old, and can truly say that it is by far the best expectorant remedy with which I am acquainted. For coughs, and all the early stages of lung complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption. It causes the phlegm and mucus to rise without irritating those delicate organs (the lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night sweats, and changes all the morbid secretions to a healthy state." Sold by all Druggists. Price \$1 per bottle. PERRY DAVIS & SON, Agents.

THE GREAT ENGLISH REMEDY.

Before Taking. After Taking. Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhea, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence. The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all Druggists in 25 cent packages, or six packages for \$1, or will be sent by mail on receipt of the money, by mail.
