TWELFTH YEAR—No. 66

IS AN EFFORT BEING MADE TO BUILD UP A CITY POLITICAL MACHINE?

COMMONS PASSES NAVAL BILL ON THIRD READING

Is Disposed of by Majority of Thirty-three Votes; Leader of Opposition Moves Six Months' Hoist, Which is Rejected by Majority of Thirty-two; Sir Wilfrid Laurier and Premier Borden Make Strong Speeches; Five Nationalists Stand With Opposition.

OTTAWA, May 15.—The great parliamentary struggle over the naval bill reached a finality shortly before midnight when the third reading of the measure was adopted after a comparatively quiet division on a vote of 101 to 68, a government majority of 33. The six months' hoist which was moved early in the evening by Sir Wilfrid Laurier, had previously been rejected on a vote of 100 to 68, a government majority of 32. The difference in the two votes was due to the fact that one Liberal and two Conservative members who missed the first revision arrived in time to record their votes on the main motion.

FIVE NATIONALISTS VOTE WITH OPPOSITION.
The divisions were not on strictly party lines. Five Nationalists, Achin, Boulay, Barrette, Belmore and Guilbault, stood up with the opposition on both occasions, while Col. H. H. McLean, of Queens Sudbury, was counted on the side of the government.

During the first division, the Nationalists who stood by the government were greeted with ironical Liberal cheers when they rose to vote, while Col. McLean got a salvo of Conservative cheers when he registered his vote in favor of the government's proposals.

The six months' hoist was moved by Sir Wilfrid Laurier at 9 o'clock after a speech of an hour's duration. Mr. Guilbault, of Joliette, tried to get the floor to move the amendment, but the speaker recognized the leader of the opposition.

The Premier's Speech.
Mr. Borden also spoke with force and at considerable length. He said the duty of Canada is to the empire, and that the naval bill is a measure of national honor. He said that the opposition leaders in control of Canada could not render effective aid to the empire. He believed that when the bill of the naval forces of the empire have been withdrawn to protect the heart of the empire, the time had

come when Canadians should not quibble, but should move forward and do something worthy of themselves. During the day several amendments were offered by the opposition were discussed and rejected on majorities ranging from 39 to 45. The government received the support of the Nationalists in the voting on these amendments, as they involve the same principle of the construction of the empire.

OFFICIAL COMMENT ON CHARGES AGAINST CITY FOREMEN

Mayor Sinnott Thinks Wilson Is Too Astute to Let Himself Be Caught in a Political Jack-Pot, Such as Affidavits Made Yesterday Would Indicate

COMMISSIONER GRAVES OF SIMILAR OPINION.
Asserts Wilson Is Too Much of a Diplomat to Discharge Man Because of His Politics—Says Similar Charges Made Against Liberal Foremen

Mayor Sinnott and Commissioner Graves, while promising the fullest investigation into the charges against Foreman Wilson and others of the public works department, are inclined to minimize the importance of the evidence submitted by Stanley L. Jones in the dozen affidavits from well known city employees. They suspect that Foreman Jim Wilson is a much smoother individual than the informants indicate, and because Mr. Wilson is declared to have

RAMSEY'S "FILTHY KITCHEN" REMARK STIRS UP TROUBLE

(By Alberta West)

It was probably fortunate for Ald. Ramsey that telephones don't carry fire. The phones at The Albertan tingled all day yesterday with protests from women all over the city of Calgary who voiced their resentment against the remarks made by Ald. Ramsey at the meeting of the legislative committee on Wednesday when he declared that the women who attend meetings in this city have filthy kitchens. "Who sweeps out Ald. Ramsey's store while he is running around making these assertions?" asked one irate woman, who sounded like the president of a well-known club. The reporter couldn't say and recommended that the lady ask him herself. "I'd rather not be caught speaking to such a man," said the lady hotly.

"I suppose Alderman Ramsey, being a paper-changer and decorator, judges our houses by the muss and tear-up he creates in them when he comes to decorate our walls," opined another lady after she had relieved herself of other opinions about the unfortunate alderman. "Now if Alderman Ramsey were the policeman who drops in to visit my cook, or the gas man who comes to read my gas meter, or the plumber who comes to repair the taps, or any other mechanic or tradesman who visits my house, at any time, except house-cleaning time, he would, of course, have a different story to tell. It is unfortunate that Alderman Ramsey hasn't more opportunities of viewing our service quarters."

Hung Up the 'Phone Sotly.
The lady was very, very sarcastic! The reporter hung up the 'phone sotly. "If we did have filthy kitchens, I would like to know how that concerns Mr. Ramsey in his capacity as alderman. Just tell him that for me, will you?" said another woman who routed the editor out of his slumbers at 10 a.m. She hung up the receiver before the editor could expostulate. A minister's wife was on the phone next. She didn't want her name mentioned, but she wanted to know whether Alderman Ramsey was thinking of running next year, and which one of the candidates who spoke at the woman's mass meeting was he. She and the president had adopted the same line of argument—they wanted to know who was doing Alderman Ramsey's work, and who was earning a living for his family while he was out campaigning and sitting at committee meetings in the middle of the afternoon. Poor Alderman Ramsey! The reporter sighed softly and hoped his phone was out of order.

From Women Who Vote.
Any number of women informed The Albertan that they would never, never vote for THAT man again—so there now! When Alberta West suggested that it wasn't really nice to hold spite and that Alderman Ramsey was a pretty good sort, really, they rung off.

PARTIZANSHIP CHARGED AGAINST CITY FOREMEN

James Wilson, Nick Serro, Fred Stephenson, Jack Yard, James Grosse and F. Towers are accused of manipulating their departments to exclude Liberals from employment; charge is made by Stanley L. Jones, who presents affidavits from twelve former employees; Mayor and Commissioner promise investigation.

SIX foremen of the city public works department—James Wilson, Nick Serro, Fred Stephenson, Jack Yard, James Grosse, and F. Towers, are accused of manipulating their departments to exclude Liberals from city work, by twelve former city employees who have taken affidavits to prove their assertions. Stanley L. Jones presented copies of these affidavits to the mayor and Commissioner Graves in the mayor's office at the city hall yesterday afternoon; and in view of the gravity of the charges, the mayor and the commissioners promised to have the matter investigated at once.

The informers are nearly all foreigners who have lived from six to ten years in the city, are all naturalized British subjects and are quite well known to city hall officials. Several of them belong to very well known families and bear an excellent reputation among business men of the city.

MANY COMPLAINTS AGAINST CITY FOREMEN.
"I heard that this sort of thing was going on during the election campaign," said Mr. Jones to the mayor, "and many men complained to me that the foremen had threatened to put them out of the city's service if they did not vote Conservative. But I let it go by until after the election, as I did not want to take it up as a political matter."

"However, if these things are true, I think the practice should be discontinued. It must interfere seriously with the service in the public works department and is not a good thing. I think I have brought you positive proof of the charges against five or six foremen. These declarations were taken individually, and the men did not know what any other man had declared in any case. The evidence is so uniform that there seems to be no doubt of the facts."

WILSON SAID TO BE WORST OFFENDER.
"James Wilson seems to have been the worst offender," concluded Mr. Jones. The declarations presented by Mr. Jones bore different dates and were made before various commissioners. In some cases, whole families were discharged at once immediately after the election. Men who have been in the city service for six years were discharged, the reason being bluntly given that they were Liberals.

Jim Wilson, on some occasions, astutely excused himself by declaring to Liberal applicants that the city had no money and could not afford to hire them; and the applicants are still trying to figure out how six Conservatives could be taken on, the next morning.

WILSON WOULD CONVERT SAM, AIELLO.
Something brand new in electioneering arguments, appears to have been advanced by Foreman Jim Wilson, who was endeavoring to convert Sam Aiello to the Conservative cause. Ald. George Ross, it seems, is altogether too youthful to manage the affairs of the province, in the opinion of Mr. Wilson, whose campaign talk to the Italians was beautifully mild, compared to the harangues of R. B. Bennett and other silver-tongued orators, who used much stronger and more vigorous "Anglo-Saxon" in their addresses to the upper-crust of Calgary. Mr. Wilson evidently treated the Italian Liberals with the courtesy of a gentleman and couched his objections in refined English.

Aiello's Statement.
"About ten days or two weeks before the election held on the 17th day of April, 1913, the said Fred Stephenson told Mazzereno Coradetto and me, 'Anyone who voted Liberal will lose their jobs.'"

"I worked for the city of Calgary for about six years, and was dismissed from the city's employ on the 5th April, 1913, by my foreman, Fred Steens, without him giving me any reason for my dismissal," says Giovanni Mannetti. He just said, 'You are fired; go and get your time.'"

"On or about the 23rd of April, 1913, I asked Jim Wilson for a job, and he said 'The city has got no money, and the next day Ciommi, a Conservative worker, sent six men to Wilson and all got work. I lived at Ciommi's house until about six months ago, and Italians wanting jobs would go to Ciommi for them, and if they were Conservatives Ciommi would give them a paper to Wilson, and they would get a job, but if they were Liberals they would not get a job.' Nick Serro also got jobs for them."

"On or about the 21st of April, 1913, I asked Jack Yard, who is a foreman for the city of Calgary, for a job. He asked me my name and pulled a list out of his pocket and looked at it and said, 'I cannot find your name on the list. If you want a job you will have to go to Jim Wilson, and if he gives you a paper I will give you a job right away.' I went to Jim Wilson the same day, and he said, 'No job for you.' I looked over the list in Jack Yard's hands, and all the names were names of Conservatives. No Liberal names were on it. Jack Yard told me he got his list from Jim Wilson."

Vote Right; Keep Job.
"On or about the 15th day of April, 1913, James Wilson, who is a foreman for the city of Calgary, came to me on the street in Riverside and told me that I did not tell him how I would vote, but said I would like the job. On this job for you." He gave no other reason.

DIFFICULT TO ROUSE ALDERMAN TREGILLUS ENTHUSIASM FOR UNIVERSITY

Calgary People, Says Dr. Scott, Want to Go Back to Certain Matters About the Starting of Provincial Seat of Learning

MUST ACKNOWLEDGE BAD TREATMENT OF CALGARY

Co-operation Would Otherwise Be Impossible Between the People of Calgary and Edmonton in the Conduct of the University
The address of Mr. Justice Stuart, chancellor of the University of Alberta, at the convocation at Edmonton on Wednesday, has caused considerable comment in Calgary. Dr. Scott, chairman of the senate of Calgary University, in speaking on the matter yesterday said he did not have a great deal to say at present. "It seems," he said, "as if the judge realizes that there is a lack of interest in the provincial university among the people of Calgary, and like others, he deplors the fact. He may think he sees some way of overcoming that, but I do not think it can be done without going right back to the start. The people of Calgary, I feel sure, would be willing to cooperate if there were an open acknowledgment made of the fact that Calgary was not treated as behind the matter than the mere indifference of which the judge speaks. There were quite a number of things which made the people of Calgary indifferent as to the university and I cannot go into them now, but I feel that, without discussion of these, interest among the people of Calgary cannot be easily roused."

What the West Did Yesterday

WINNIPEG.
Assistant Chief Engineer J. O. Sullivan states that the Canadian Pacific will spend \$2,000,000 upon depot changes in Winnipeg.

NEW WESTMINSTER.
Fraser Valley farmers are adopting the co-operative system of marketing their produce. A resolution was passed inviting the provincial government to organize a co-operative association and establish central selling agencies.

KELOWNA.
Owing to increased number of summer visitors efforts are being made for erection of a new tourist hotel. The new public utility commissioner has been commissioned to sound railroads with view to securing co-operation.

MEDICINE HAT.
Two large cement companies, building plants here, have decided to consolidate their cement mills in construction. The mill will have a capacity of 4,000 barrels per day, and upwards of 700 men to be employed in production. The output will mean at least 27 carloads out-bound every day and inbound 28.

LETHBRIDGE.
Announcement was made of the immediate construction of a iron foundry to meet requirements of building trade.

CALGARY.
City Planner Thomas MacVerson recommends the conversion of Calgary public school grounds into recreation centers. City officials and railway companies are negotiating for construction of largest stock yards in Canada here.

FATHERS AMBITIOUS MARKET SCHEME

Proposal Involves the Establishment of Immense Stock Yards Which Will Entail the Investment of Several Millions of Dollars

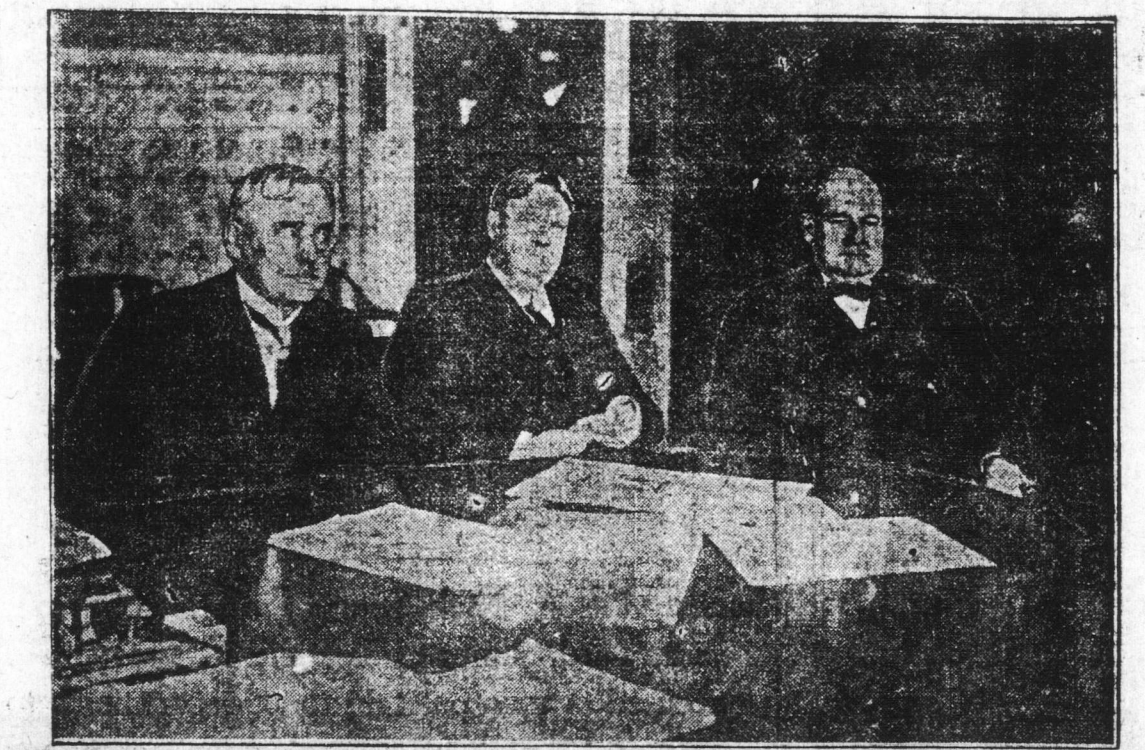

WOULD INTEREST RAILROADS IN THIS CITY

Scheme Contemplates the Purchase of 80 Acres in South-eastern Part of City for the Establishment of Abattoirs, Both Public and Private

The building up of a livestock market which shall be to Canada what Chicago is to the United States and the creation of a commercial institution, the importance of which to the business life of Calgary will not be even second to the C.P.R. shops, is the ultimate object of an ambitious scheme now being promulgated by Alderman W. J. Tregillus and which has the hearty endorsement and support of Mayor Sinnott. Also, the proposition involves a solution of the vexed and much discussed problem of procuring adequate inspecting of all meats distributed in the city without working hardship on the farmers who have been wont to do their own killing and sell the meat in Calgary. The proposal involves the establishment of immense stock yards with abattoirs both public and private in connection. Ultimately it will entail an investment of some two or three millions of dollars. The proposal of Alderman Tregillus embraces the organization of a company which it is expected will be known as the Alberta Union Stock Yards company, for which it proposed to procure a Dominion charter. There are to be five parties interested in the company, the city of Calgary, the Canadian Pacific, Grand Trunk Pacific and Canadian Northern railway companies, each of the four parties to (Continued on Page Thirteen)

CONFERENCE ON CALIFORNIA ALIEN LAND BILL.—Picture shows the secretary of state for California, Governor Johnson (in the center), and William Jennings Bryan, United States secretary of state. Mr. Bryan's protests were over-ruled and the legislature passed the bill. Mr. Johnson was one of the direct consequences in Japan. The alien land law was aimed directly at the Japanese California.

JOURNALISTS MAY HAVE HEARD THIS VALEDICTORY FROM THE LIPS OF THE SILVER-TONGUED ORATOR OF EMPIRE

Are Speeches Now Read? Asks Lord Rosebery—Answer Is in the Negative; Tells Pressmen of Their Powers and Opportunities

The Earl of Rosebery was the guest of the evening at the annual dinner of the London Press Club at De Keyser's Hotel on Saturday night, April 26. E. L. Goodman, chairman of the club, presided, and the other guests included the Hon. J. L. Griffiths, the American consul-general, and Max Beerbohm. In the course of his address Lord Rosebery hinted at his retirement from public life as a speaker.

Lord Rosebery, in proposing the toast of "The Press Club," said that he had become so rusty in the art of speaking that he felt that night as though he were delivering his maiden speech. The great terror of the public speaker in his time, he observed, was the reporter. So far as he could make out the reporter had largely disappeared. He had ceased to report the speeches to which it was understood the whole community were looking forward with breathless interest. His highness had been into a newspaper, what he had done with it he did not exactly know. At any rate, he did not know that he was no longer reported, except the great lions of the front bench, every wag of whose tail it was necessary for every citizen to observe. (Laughter.) But at present outside the proceedings of those who had ceased to the infinite relief of the public speaker, the reporter had ceased to exist.

Are Speeches Now Read? Lord Rosebery went on. "No conscientious speaker ever rose in the morning and had his morning newspaper without having a feeling of that kind, to read it or report it, with agonizing conscientiousness, things which he would rather not have said, and things which he thought ought not to be reported. (Laughter.) The agonizing conscientiousness of the reporter caused a reaction in the speaker which no words can describe, except the testimony of one who has experienced it. Let me take the point of view of the reader, which is the only point of view I now occupy. Did any reader of the last twenty years ever read the speeches that were reported? I have no doubt that those whose duty it is to criticize, to laud them or to report them, the press felt their painful duty to read the speeches. But did anybody else read them? Did any impartial reader of the newspapers, the man who bought a paper on his way to the city in the morning, and an evening paper in the evening, did he ever read a speech? (Laughter.) I can conscientiously say, having been a speaker myself, that I never could find anybody who read any speeches. (Laughter.) It was quite different in the time when I was young, when fathers and mothers and grandfathers sat down after breakfast and read the whole of the papers.

Monopoly and Power of Press. "I believe in the power of the press. I believe in the potentiality of the press even more. I believe even more in the responsibility of the press, and I believe most of all that the British press is the best in the world. But I am not quite sure that that covers the whole ground. There are two other things, I think, should be observed. One is which is no new one—the enormous monopoly which is now exercised by the press. The great daily papers have such a monopoly, owing to the enormous cost of compounding new ones, which is obvious to us all. I do not know what the cost is, but I have heard it put at a half to three-quarters of a million, and even then with indifferent chances of success. Owing to the monopoly which is exercised and exercised by the publishing houses of this country, their responsibility is greater than the newspaper of 40 or 50 years ago. "Secondly, I would point out the great development of the press. Now every day you produce not a newspaper but a library, a huge production of information and knowledge upon every kind of subject. You know as far as it is possible everything about everybody and everywhere. Let me give my point about the responsibility of the press with regard to its conscience. We hear a great deal about the quality of the population about great questions, but it is perfectly true. There is a profound anxiety about the press, not to bother about anything except their own concerns. (Laughter.) But is not that due to the prodigious amount of news which is now being produced? And thus in Valedictory Vain.

"I do not wish to detain this audience," Lord Rosebery said, "but it is perhaps the last time I shall address an assembly of the kind. I shall all I do not wish to say is that I shall be glad to see an assembly of journalists with that critical eye for the should-habitual word man in case I should never have an opportunity to address an assembly of journalists. I speak very warmly and very sincerely when I say that your press is the greatest power in the world. I am sure that you will do your duty with that conscientiousness and honor as I believe you do exercise it, but the potentially is something which is not sure that even you all ways realize.

SHE ASKS CARNEGIE A PERTINENT QUESTION

London, May 15.—Miss Mae Scott-Troy, a San Francisco suffragette, called today to Andrew Carnegie as follows: "What right have you to pose as an American citizen when you are registered as a voter in the Parish of Dornock, in the County of Sutherland, Scotland? You are voter No. 11 on the official list in connection with that fact. He could not vote in that country because he is alien there."

LOCAL CONTROL OF OWN FORCES IS NOT DISPUTED

So Says Lecturer on Colonies in International Law at London University

London, May 14.—The first of a course of lectures on colonial problems organized by the University of London, and delivered yesterday afternoon at King's College, the subject of the opening lecture being "The Colonies in International Law."

The lecturer was Rev. Dr. T. J. Lawrence, formerly deputy professor of international law at Cambridge.

Dr. Lawrence expressed much sympathy for the school of political thought in Canada, which objected to spending their blood and treasure in any wars which do not affect their rights and interests, and which they might hold to be morally indefensible.

Real Imperial War. "If this development of a new organ to perform this most important function ever took place, every war would be an imperial war in reality as well as in name, and therefore no ideal of any attempt to keep it outside would ever arise in any of the political entities whose representatives had agreed to make it.

PARTYISM AT CITY HALL

Complaints have been made that one leading official and other members of the public works department at the city hall used their positions to advance the interests of one political party at the last elections. The complaint has been backed up by a number of affidavits which seem convincing. The commissioners have decided to investigate. They should investigate to the very limit and when convinced, take the most drastic action.

We have proceeded thus far without introducing party politics into municipal affairs very much. It is true that ex-Commissioner Clarke tried to organize a Tammany hall and succeeded fairly well, and this seems to be a sequel to his efforts.

Mayor Sinnott, in private life, is an ardent partisan, but in public life knows no party. Commissioner Samis in private life is also an ardent politician, though of a different party, and in public life is quite as non-partisan. It is for them to say at this time whether there is to be party politics of the worst kind at the city hall.

Some of the commissioners say they have complaints about a foreman of different politics taking the same active part in elections. It makes no difference who the partisan, or what the party, the commissioners must act in the most decisive manner if they are to keep partyism out of municipal affairs. Now is the time to act and act decisively. With our numerous public utilities, the introduction of party politics would be disastrous.

ABOLITION OF WARDS

In the committee in the city council which discussed the question of the abolition of the wards, it is very interesting to notice that the supporters of the antiquated system of representation were the three representatives of Ward III. That is an argument in favor of the abolition of the ward system, if all the conditions are taken into consideration.

Ward III is much the smallest ward in the city. In area and population it is not half as large as any of the other three wards. The vote polled in the last election showed that the ward is much over-represented. One man in Ward III has the voting power of about three in Wards II or IV. That is not fair, but that is the present condition of affairs.

There is no sound argument in favor of the ward system. We do not want representatives in the city council who represent any district or sections of the city. We want men who are big enough to represent the entire city. We shall have them if they abolish the wards. We are liable at any time to have little men if we continue the present system. The entire wards should be abolished.

The present system is antiquated and out of date.

CHANCELLOR STUART'S SUGGESTION

Chancellor Stuart of the University of Alberta, in the commencement address deploring the indifference which the 75,000 Calgary people show to the provincial university, but admitted that the university was getting on very nicely despite that indifference, and then proposed in a very guarded way something which, he seemed to believe, would be the beginning of better relations between the university and the citizens of Calgary. He referred casually to the desire in Calgary for a university and intimated that the wish was inspired largely by commercial reasons. He suggested as a campaign to break down the indifference that the university might permit at its expense, one of its professors to give a course of lectures at Calgary College.

We doubt very much if this crusade will be successful. Chancellor Stuart evidently holds that there is to be but one university in the province, that there is to be but one degree-conferring institution, that there is to be but one centre for such an institution, that the institution of which he is the head shall be the trunk of the educational tree in the province, and there must be but one tree in the orchard and that all others must be regarded as improper upshoots, and that Calgary, however desirous its citizens may be, however great its growing men and young women may desire university advantages, must not have a university of

its own, or any such educational institution which is not directly under the control of the Provincial University.

Chancellor Stuart insisted that though speaking as the chancellor of the provincial university, he was speaking merely for the chancellor and in his radical departure was not stating the policy of the university. We are informed, however, that the ideas of other university authorities are not so very different. It makes but little difference whether they are or not. The suggestion that the indifference of Calgary people to the fate of the university would be overcome by the hallowed influence of an Alberta university professor in full regalia in some institution in this city, is somewhat ridiculous. It is surprising that any person should suggest it.

The people of Calgary want a university. Chancellor Stuart and his Edmonton friends may scoffingly suggest that we need it in our real estate business. But the fact remains that despite all the limitations and difficulties that the Calgary institution has encountered, 150 students attended lectures in the first year of our university. These students were not particularly interested in real estate. Few Calgary students have ever attended the Edmonton institution. The people of Calgary are prepared to support the Calgary institution. As it is doing the work of a university they ask that it have the powers of a university, just as they insist on giving it the name of a university. Chancellor Stuart suggests that Alberta University with great liberality should, at its own expense, mark you, permit a university professor to give lectures occasionally in the Calgary College. That, he believes, would solve the whole difficulty.

KING OF ALBANIA

Now that the powers are casting about for a good man to fill the position of king of the newly formed nation of Albania, we beg to nominate R. B. Bennett for the position. We believe that he has many, if not all, of the qualifications for the position and it seems that we can spare him very well from Alberta at this time. The recent elections seemed to indicate that the people of the province were prepared to get along without him. If the thing were to be put to a vote, Mr. Bennett we are quite confident, would get the Alberta support in the king contest.

This is one of the positions for which Mr. Bennett has not nominated himself. But the job has not been open for very long and the public should give a man time to accommodate himself to new surroundings and to take advantage of new opportunities. A position like that would be much more important than a seat in the provincial legislature, a seat in the Dominion house of commons, with the chance of a cabinet position if one carried Alberta in the provincial election, or even a chance in the imperial house of commons, provided that one had to go in under the patronage of Sir Maxcemet Aitkin and sit at that learned gentleman's feet after he got in.

Mr. Bennett has manifold qualifications. In the first place he is of the right politics. The Albanians have been accustomed to the rule of the Sultan, which one might imagine was not so very different in some respects from railway rule or domination, in which Mr. Bennett has had an admirable experience. Mr. Bennett is a Tory of the most ancient school, who has a distinct dislike for these popular movements. That is the kind of man for the job in Albania, where he would be a credit to his colleagues, the Sultan of Turkey, the Czar of Russia and the King of Spain, and other strong forces in international politics.

There is more or less of the comic opera about the wee kingdoms of that part of Europe. The smaller the kingdom the more grandiloquent its officials and the more gaudy the uniforms of the members of the police force. Albania may never cut much of a figure at the real thing, but unless we are much mistaken, it will have more pomp and demonstration than any other popinjay kingdom in the world. Who would be more fitted to preside over such a kingdom than the Dominion member for Calgary, who, in addition to being most expert in comic opera stunts, in an artistic vaudevilian as well?

In small kingdoms like Albania the standing army makes a gaudy performance, but would be somewhat muddled up in real trouble. But in the Dominion campaign here, Mr. Bennett referred to a certain wind instrument which he could use with deadly effect if it ever became necessary. If a fighting force came in from the south, he informed his public, he would go out on the highest hill and make a speech to it, and if that didn't prove fatal to the enemy, the case would be hopeless. One who could do stunts like that would be invaluable in a kingdom like Albania. That would mean money in the coffers of the kingdom and safety for the Albanians.

There are other qualifications which our nominee possesses. He would be known as the boy orator among the crowned heads, which would bring the new kingdom to the front ranks. He would give some class to the new realm. He would make a first-class king for a country like that. We beg to nominate him.

Editorial Notes

Another day has passed, and yet Premier Borden has not thought of the promise he made about the transfer of the natural resources, and Alberta Conservatives declare that promise breaking is great business and the proof of real statesmanship.

If the industrial bureau had really brought more industries to the city and turned a larger number of promises into the real thing, the ratepayers would be more inclined to support the bylaw to vote on this month. Dr. Clark declares that he is a man of peace and did not mess with Col. Sam Hughes, whose daily diet, we are informed, is gunpowder with a torpedo destroyer as a chaser. That is too strong food for a Western farmer.

Medicine Hat, now being tempted by the capitalists who desire to grab the street railway franchise, does not have far to go to find out just how disastrous to the welfare of a city private-owned street cars really are. We are spending thousands of dollars in city planning and city beautifying, which is right, but at the same time it is necessary for the city to take a strong stand to keep public bodies, such as the industrial bureau, from demoralizing our streets with billboards.

The committee of the city council that decided that ministers of the gospel should not be eligible for aldermanic positions surely are living in the past. We should not exclude from our city a class of men merely because they are intelligent, educated and high minded.

There are some Conservatives who are boasting because Premier Borden has carried out in a kind of a way ten per cent of his promises, and only left about ninety per cent unfulfilled.

A London, Eng., paper refers to Calgary as a city with a population of 22,000, and speaks of our mayor as a person. It will be proper for some of our contemporaries to retaliate by speaking of "that London village" referring to the lord mayor as "the deputy reeve."

The removal of the United States to upon wool would mean much to Alberta, if not had any sheep, and we cannot stock up with sheep to any advantage with any speed unless we take off the duty upon sheep, and there is no sign of Canada doing that. And there was a time when this southern part of the province was mentioned in the reports as a dry country. Mistakes have been made in describing this province.

One swallow does not make a summer any more than one university professor would satisfy the university of Calgary, even if that professor should have his expenses met by the Alberta University.

Letters to The Editor

Bringing the Kingdom into Human Life

Editor, Albertan: I do not wish to entirely protest against your editorial of Wednesday on the closed church. With western frankness the press in general frequently criticizes the church. We may need it and we are quite able to take it; also we are quite aware that debating your criticism will give us further currency. Your editorial allows the enthusiasm for what is being burning in the writer's bones to run into over-emphasis. But hyperbole evidently is the condition, of course being human, like preachers and like the church, the writer of the editorial feels the difference between having something to say and having to say something. And it must be hard to say something each morning. On the whole, I am glad you got that editorial out of your system even though your zeal was not just according to knowledge. The Albertan is not antagonistic to the church. You use us decently in regard to our notices of Sunday services.

The thing you are trying to say, however, and the thing the whole modern cry is about, is that the Kingdom of God is the Kingdom of Human Life, and that our life is a unity—a unity rich in all its complexity. As each individual discovers this, youthful ardor is apt to make him feel that he is first to see, and that the rest of the world is benighted still. This is human, and it is worth while seeing for it begets humility in the discoverer and patience in the initiated and it all helps to make the world go round. There is an eternal youth in things and our convictions are missionary if they are real.

That the church can improve and should, we all believe, that it is asleep is another matter. And after the writer of the editorial has put in his hard work in the office and has refreshed himself with sleep in the day, it would be interesting and cheering for him to take a little journey to St. Andrews in East Calgary and to Hillhurst in Calgary northwest, as well as to other places mentioned in the letters of Thursday's issue. The call of the outer world for just now, but in the time when indoor life is leading a seven-day-a-week church. And we have no prejudice against going as far as the people make possible. Our faith is now away ahead of our collection plate.

Kingdom of God in human life may have to be re-discovered. The gospel of Jesus is the real lantern. Worship is a reality. All our springs are still in God. If The Albertan and the university will help to bring the kingdom into human life, as one of the church, I shall welcome help. Yours sincerely, PETER A. WALKER, Hillhurst Presbyterian church.

SUMMER COMES
Spring is passing, and once more summer is at the door. Soon the winds will round us slide, hot as though they had been fired, and we'll get up in the morn'ning with our heads not been born, muffled, with grievous frowns, as we don our hand-me-downs. "Not a minute have we slept!" Men and women, we'll be kept busy till the summer dies, boiling germs and swatting flies. Soon we'll languish in the shade drinking pale pink lemonade, and the more that we consume, deeper will become our gloom; summer drinks, already yet, but increase the flow of sweat; they reduce the victim's vim, bringing lassitude to him, so he's feeble when he tries boiling germs and swatting flies. Summer comes when men repeat, time-worn lies about the heat. "It was worse in '84," says the Gulliver next door; "our thermometer then made 70° in the shade; you could fry an egg real nice on a block of river ice. It is well to tell such tales in the scorching summer sales, if we work while telling lies, boiling germs and swatting flies. Summer comes, so let us all take our sweaters from the wall, and send forth our battle cries, boiling germs and swatting flies."

BE A WEATHER SHARP.

The following formula of weather signs has been found to give satisfaction.

- 1. When the temperature falls suddenly there is a storm forming south of you.
2. When the temperature rises suddenly there is a storm forming north of you.
3. The wind always blows from a region of fair weather towards a point where a storm is forming.
4. Cirrus clouds always move from a region where a storm is in progress to one of fair weather.
5. Cumulus clouds always come from a region where a storm is forming.
6. When cirrus clouds are moving rapidly from the north or northeast, no matter how high it is, there will be rain within twenty-four hours.
7. When cirrus clouds are moving rapidly from south to southeast there will be a hailstorm on the morrow, if it be in the summer, and if it be in the winter there will be snow.
8. The wind always blows about a storm in a circle; when it blows from the north, the heaviest rain is east of you; if it blows from the south the heaviest rain is west of you; if it blows from the east, the heaviest rain is south.
9. The wind never blows, even moderately, unless rain or snow is falling within a radius of 1,000 miles.
10. Whenever heavy white frost occurs a storm is forming within 1,000 miles north or northwest of you.

A "Mimic" Disease.

Illness among some people has become almost popular since the coming of the insurance act (says The Glasgow News). A certain domestic had gone to her doctor, her mistress having taken the precaution to insist that her mother should accompany her. The mother returned in the time, and reported that according to the diagnosis her daughter was "a mimic and in a very bad way." "A mimic!" said her mistress, in astonishment, "that's easily cured, for it means that she is just taking her feet off us, and that there is nothing wrong with her."

The 'Airtight' Package Keeps Tea 'Good'
Red Rose Tea reaches you with all its virginal flavor, strength and purity. It is sealed in airtight packages (lead or tin)—dust and damp proof. The 40c. quality has the largest sale, but those who use the 50c. find it worth the extra price.

RED ROSE TEA IS NEVER SOLD IN BULK
N.B.—Coffee users will find Red Rose Coffee as generally good as Red Rose Tea.

NATURAL GAS is not a luxury. It is a necessity. It is necessary to the house-keeper who seeks comfort, convenience and economy in lighting, cooking and heating. It is necessary to the houseowner who seeks to get the best price for his property. Houses piped for Natural Gas bring uniformly higher prices than those which are not, and they attract a better class of tenants. Is YOUR house supplied with gas appliances? If not, phone us, and our representative will call on you and take your order or quote you prices. Natural Gas Company Phone M66

"Oh, no," said the mother, "that can't be, for the doctor said that she is a mimic, and that she hadn't enough blood and was very ill indeed." It subsequently transpired that the girl was anemic, a much more serious trouble. Says the Nevada Evening Post: "The New York suffragettes wish only graceful women to take part in processions hereafter and will exclude fat ones. The announcement is equivalent to making a new date for the biggest place with four letters to break loose."

MISS ZELDA SEARS IS A CLEVER COMEDienne

In "The Wardrobe Woman" She Demonstrates Her Versatility With Success

Another Edgar Allen Woolf sketch of a farcical type is the headline offering in the Orpheum bill this week, and it provides a very happy vehicle in which to introduce a vivacious young comedienne, Miss Zelda Sears.

"The Wardrobe Woman" reveals some of the mysteries "behind the scenes" and in her various delineations of stage characters she demonstrates her versatility with pronounced success.

HOW PARIS ENJOYS HER FAIRS

From Opening of Ham Fair Until Montmartre Fete in Nov. She Goes Solemnly in Turn to Each—Much Junk Offered for Sale

Paris, May 15.—Paris takes her fairs... Perhaps the kindest reason for the fairs is that the dealers treat everybody just as they treat him when he stops to look and... The fair season starts out bravely to the unique. First there is the ham fair, then the scrap iron fair and after that the gingerbread fair and come you are getting hams and sausages, gingerbread and scrap iron...

YOUNG FRANCE

(By William Archer)

The entire cordial gives us what... The young generation is considered by grave authorities (and particularly by you.) M. Fagnat's epithet "miraculous" comes from man article by M. Emile Monod...

Agathon's method was to apply for... to what particular youths does not clearly appear. He seems to have issued a sort of circular-catechism, and to have published the replies. Summing up the results of these candid retrospections, he claims for the youth of today five cardinal virtues:—

A love for action, involving a disdain for thought; religious, and particularly Catholic, faith; a return to classic taste; chastity and patriotism. M. Fagnat adds a sixth virtue to the list, namely, a perfect contempt for the older generation, and belief that they, the young, are the inventors and patentees of the virtues which distinguish them. It is need scarcely be said that the luster of these virtues is undimmed by the voice of modesty...

We need not, however, be too much cast down by Agathon's disclosures. If, on the other hand, we are fortified with to denounce the entente cordiale, we might fairly be accused of

LUTHER WILL PERFORM FOR THE LADIES' BENEFIT

Famous Boxer Will Be at Home to Female Fans Next Tuesday at the Majestic

Another "Ladies' day" boxing program, such as has proved so popular in the past, will be given this next week at the Majestic theatre. Luther McCarty is the name of the plastically inclined person who will be the chief attraction at this time. He will go through the routine training camp stunt especially for the benefit of the boxing fans of the gentler sex. The net proceeds of the affair will be devoted to charity, the Children's Aid getting half, and the Locomobile Orphanage the other half.

CHINA'S CALL

By Thomas Cochrane, M.B., C.M. (Of the Union Medical College)

China today is of absorbing interest from every point of view. It is considered her from the historical standpoint we are impressed with her lofty antiquity. From the security of the "Golden Age" nearly 4,000 years ago, she has emerged as a modern nation...

The proposition to observe Sunday, May 18 as "Fathers' Day" is being agitated by several societies, the members of which believe in the over-worked head of the family a champion. Mr. Justice Stuart is in Edmonton.

C. P. R. GETS DRAW WITH BISHOP PINKHAM

C. P. R. proved that they will yet give the other teams in the Junior League a run for their money when they played the Bishop Pinkham team to a draw last night at Hillhurst grounds. They won the toss and played the wind at their backs in the first half, and although Pinkham defended well, Young scored before the interval, and the railroaders crossed over leading by a goal. In the second half Eaton equalized for the college and otherwise played a great game. The result places the college further back in the race for the championship, and incidentally gives the C.P.R. an outside chance of making a sporting finish at the top. The finish should be very exciting, and the brand of football being put up is of the highest class. Ackrod as usual was a good man for the C.P.R. and in fact the whole team did remarkably well. Bishop Pinkham are to be congratulated on the very plucky stand they are making, and are showing good return for the practices they have almost daily on Hillhurst grounds. Mr. D. Scott refereed to the satisfaction of both teams.

ST. JOHN'S TEAMS

The team to represent Calgary St. John's Cricket club on Saturday, May 17, against the Calgary Cricket club at the Mounted Police barracks is as follows: P. W. Johnson (capt.), G. O. Jones, Burroughs, Newborn, Thimes, J. Walker, A. Lambert, Marshall, R. Parker, Roughton, Jackson.

FALKENBERG'S SEVENTH

Falkenberg, the stellar member of the Cleveland American league team, won his seventh straight victory yesterday when he shut out the Philadelphia Athletics 2 to 0, letting them down with three hits. Falkenberg played with the Toledo team in the American Association last year. He was also a member of the Overland five which broke a world's record at the National Bowling tournament.

SUBSTITUTES IN SOCCER

Substitutes in soccer, altogether forbidden by the English rules for the American intercollegiate games by a decision of delegates representing Columbia, Cornell, Harvard, Haverford, Pennsylvania and Yale. The substitutes are to be two in number, one a regular reserve, the other to be allowed in a game in case of an injury to any member of the regular eleven, subject to approval of the referee.

DUNLOP THE ONLY BICYCLE TIRE IN CANADA NOT AN EXPERIMENT

Pre-season orders indicate that the widespread demand for Dunlop Traction Tread Auto Tires has likewise taken hold of Dunlop Traction Tread Bicycle Tires. 1913 will see nearly every bicycle equipped with Dunlop Tires. The big majority of riders will want the new tread—Dunlop Traction or Dunlop Special. The riders know in advance what these treads will do in the way of giving service and providing safety.

Remember all the bicycles worth pinning your faith to are using Dunlop Tires as their standard equipment for 1913, and remember again, that the foreign-made tire is just as much an unknown quantity as the foreign-made bicycle.

Concrete Cases Given of Levying on Domestic Servants Coming Out from Old Country to Work in Canada; More Than Fare Had to Be Repaid

(Special to The Albertan.) Ottawa, May 15.—Employment agencies which induce immigrants to come out to this country will be closely watched by the government. They will be licensed by the Immigration Branch of the Department of the Interior, and they will be required to open to inspection the methods used by them to induce immigrants to come out to Canada, and the fees charged for securing the "passage" which they receive. The actual travelling expenses for the immigrant must not be more than the fee for securing them a position in the country.

MORE LIGHT AND AIR IS NEEDED FOR BUILDINGS

Three-Fourths of Rooms in Buildings Have Not Proper Light and Ventilation

Fresh air and sunlight are factors of prime importance in the solution of the city slum problem. Without these, disease and degeneracy are certain to abound.

In a progressive city in Western Canada, under the building bylaws a building may stand alone, but when the lot, or, if the ground floor is used for business purposes, that portion of the structure may cover the whole lot.

Poor Accommodation. These great "dumb-bell" barracks furnish poor enough housing accommodations when they stand alone, but when two are constructed on adjoining lots, a well is formed by their courts, and all the windows opening on these courts are darkened and shut off from fresh air.

In a lodging-house of 48 rooms on the principal business street, 36 rooms have practically no light or ventilation. Nor is this all. The bulk of the house is constructed that the lavatories ventilate into the court from which a score of bedrooms derive their supply of air.

LONG MISSING VERSES FROM SECOND GOSPEL. Approves of Bryan as Straightforward. The Edinburgh Scotsman of May 3 says: "Mr. Bryan, the United States Secretary of State, and his wife are strict teetotalers. When they gave a banquet to the British ambassador, the other day, there was no wine on the table. The incident seems to have created a tremendous sensation, and the newspapers are discussing the matter with transparent vigor and enthusiasm. Yet why should there be a fuss? If the secretary of state has convictions on the subject of liquor, even those who think him wrong should find it easy to respect them. Every host has the right to his own methods of entertainment, short of eccentricity. In this case, however, Mr. Bryan was not acting as a private citizen, but as a representative of the United States, and it is a nice question whether in such a case private opinion should have intervened in public hospitality. At the same time the public like a straightforward man, and it is not unlikely that Mr. Bryan's action will command a large measure of approval. Only he runs the risk of his witless baroque being avoided just as much as if he had tabooed salt or pepper or potatoes."

MOUNTED POLICE SCOURING THE COUNTRY FOR HORSE RUSTLERS WHO RODE INTO A FIELD IN DOG POND DISTRICT AND DROVE HERD AWAY

After Stealing Horses Men Rode Up to the Corral of James Robertson, and Changed Horses; Five Minutes After Departure the Owners Came Up

Following a barefaced raid committed in broad daylight, mounted police are scouring the country for two men who rode into a field in the Dog Pond district last week, and in full sight of the owner ran off ten head of horses, which they afterward brought to this city where all trace of them has been lost.

After stealing the horses the men rode up to the corral of James Robertson, a well-known rancher, and asked permission to use his corral for changing saddle horses. Permission was granted, and after selecting two new mounts the men rode on. Five minutes later the owner of the horses rode up and after explaining the situation to Robertson asked him to aid in getting the animals back.

Thieves Had Good Lead; Got Away Robertson saddled up, but by the time the pursuers got on the trail again the men had too much of a start, and they accordingly rode to Airdrie and telephoned word of the theft to the police at Calgary. Afterwards they rode into this city to give a description of the horses and swear out an information for the arrest of the horse thieves. They received information on the way that the men had been seen on the trail to Calgary, and traced them right into the city. Since then, however, all trace of them has been lost, and although the theft was committed last week no trace of the horses has been found and no arrests have been made.

It is thought that the horses are being held in a barn in some outlying part of the city, and the mounted police are making an investigation.

WAFYL MUDYR IS HELD FOR THE KILLING OF IGNAZ KALZYK

In the Cells at Blairmore, and Closely Guarded Since His Sensational Break for Liberty, Following a Fight; Inquest Held Yesterday

DEATH OF KALZYK FIXED ON MUDYR BY THE JURY

Men Quarreled During Religious Celebration and in the Fight That Followed Kalzyk Was Hit on Head With Beer Glass, Dying Some Days Later

Closely guarded by a mounted policeman ever since his sensational death for liberty following a fight on April 27 last, Wafyl Mudyk, a Russian, is now held in the cells at Blairmore charged with the murder of Ignaz Kalzyk, a fellow workman.

The murder charge followed the death of Kalzyk, who is said to have come to the injuries which caused his death by being struck on the head with a heavy beer glass in the hands of Mudyk.

The quarrel arose during a religious celebration, and although there were many Russians participating in the street on the afternoon of April 27, during the Russian Easter on April 21, during the afternoon a quarrel arose and in the melee Kalzyk was struck on the head by a heavy beer glass alleged to have been thrown by Mudyk. The glass caused a huge laceration to the victim's right eye, and he was taken to the hospital at Frank, where he died on May 10.

Mudyk Went into Hiding. In the meantime Mudyk had gone into hiding but was finally arrested by the mounted police in a small shack at Bellevue. After the death of Kalzyk a post mortem was held by Dr. Bell at Pasture, and yesterday Coroner P. M. Tinkey of Blairmore held an inquest with the result that the following verdict was brought in: "Ignaz Kalzyk died on May 12 at the Frank hospital from blood poisoning which developed from a wound on the face of the said Ignaz Kalzyk, which was inflicted by a glass in the hands of Wafyl Mudyk during a drunken brawl in a room at Clotie Flat, Pasture, on the afternoon of April 27 last."

The crown was represented at the trial by Inspector William M. Campbell of the H.N.W.M.P., who was assisted by Constable Mead, the officer who made the arrest, and who was also present at the inquest. Mudyk was sent to Blairmore where his preliminary hearing will take place on Tuesday. An effort will be made to have the charge reduced to one of manslaughter before Mudyk is sent up for trial to the supreme court.

The following jurymen were empaneled for the hearing before the coroner: Alex. J. Blais, B. J. Thompson, H. A. Howard, A. C. Deach, Robert Barr, Gerald Gardner and William T. Young.

"Do you think it is wise to send a man to prison for suffragette?" "No," said the London policeman. "The first thing we know there is to be peace and quiet, even in the lock-up."—Washington Star.

WATERWORKS SURVEY PRELIMINARY IS SATISFACTORY

According to a preliminary report submitted by Waterworks Engineer Fawkes, the survey work has been most successful so far.

The first camp was located March 24 on the Elbow river north of Fish Creek, and local explorations were made up and down the river to find a site for a masonry dam which would enable them to drop the intake fifteen feet below water level and so eliminate the difficulties of a dam and a storage reservoir.

The first site for a storage reservoir was located on the north branch of Fish Creek north of O'Hagarty's homestead, but along this section of the Elbow the geological formation of glacial drift is not suitable for a masonry dam.

A splendid site for a dam and reservoir has been located just below the confluence of Canyon Creek, and the site for a dam and improved reservoir is four miles up stream, this latter site may have material advantages over the other.

Explorations are being made for routes for the pipe line and for alternate routes.

RAMSEY'S "FILTHY KITCHEN" REMARKS STIRS UP TROUBLE

It is claimed that this kind sound that bursts one's eardrums awfully. It was heard on Alberta.

"Does Alderman Ramsey stop to think that there are 8,000 women in Calgary who have not kitchens of their own to keep clean?" asked a member of the Business Women's club who met the city hall reporter on Elsie's avenue.

"And that they are not likely to have kitchens either until some men quit spending so much time going to political meetings and running for office," she added with what the city hall reporter thought was unnecessary malice.

"Sh! You shouldn't say anything about the men," advised the reporter. "Bah!" said the business woman, turning on her heel in the approved manner, and moving scornfully away.

When Alberta West came along First street east a little later, Alderman Ramsey was smiling amiably in the doorway of his wall-paper store. He was gazing speculatively at the signs of the Albertan office across the way, and he smiled confidently on the world at large.

DECLARATIONS BY WELL KNOWN MEN

"The Chinese vote isn't a very important factor yet," observed Mr. Jones, "and these declarations are all by well known people. I know several of them, and they are 'red' honest fellows, who have been in Calgary many years."

"The foremen in the city's employ are responsible for the hiring and firing of men," Commissioner Graves is approached by hundreds of laborers every week, but these men are usually referred to the various foremen, and except in the case of destitutes, certified to by the Associated Charities, no recommendation is made to the foremen, the decision being left to their own discretion.

"There are dozens of reasons why men are sometimes fired," explained Commissioner Graves. "Sometimes wages must be cut down, and frequently men are inefficient."

"Some of these are men of long service," pointed out Mr. Jones. "These fellows deteriorate," explained the commissioner. "Frequently they soldier on the job after several years of first class service."

WHY NOT UTILIZE SOME OF EMPTY WAREHOUSES?

Eight Million Dollars Required to Take Care of Necessary Improvements; Public Concerned if Bureau Is to Expend Money Granted by the City

"I cordially concur with the suggestion of the Albertan that in the best interests of ratapayers public meetings be called to discuss the proposed industrial building plan."

"Taxpayers should know all about the industrial building bylaw, said Mr. Valiquette, because there are 250,000 of them for the purpose of constructing an industrial building in this city."

"As a matter of fact," said Mr. Valiquette, "that bylaw was referred to at the last meeting of the board of ratapayers held on the 13th inst. by members of the board present."

"A resolution was unanimously adopted requesting the city council to immediately advise the ratapayers at present, or any other bylaw which was not in the nature of providing for public utility."

"Eight Millions Necessary. In my address to the board of trade, I cited the estimates prepared by the city of the cost of the necessary work to be done this year. Those estimates include water supply, electric lines, sewers, street improvements, bridges, street railway improvements, etc., and showed that for these big works the enormous sum of nearly eight million dollars would be required."

"I am not speaking officially for the board of trade, I am sure that the board has given assurance that the city will co-operate in passing bylaws for the improvement of the city."

"At our last meeting the opinion was freely expressed that the city, in order to improve the city, should have a money market, would have a heavy task to secure the money required for the improvement of the city, and that this should be done this year. For that reason alone, I believe the board of ratapayers is in a position to advise the council to postpone the intervention of any bylaw involving expenditure or taxation until the city is in a position to meet the cost of the same."

"The scheme is one invented by the president and manager of the Industrial Bureau, and it is not a scheme of the city council. It is a scheme of the Industrial Bureau, and it is not a scheme of the city council."

"The bureau is a private institution and so long as the management is not of the city, and they are not public officers, the public is not concerned. But when the management of the Industrial Bureau is taken over by the city council, and committees of the city council, and day by day, solicits the city authorities here in the future is not sufficient ground to pledge our credit for a quarter of a million."

"The management of the bureau has failed to carry out the purpose for which the bureau was organized. It has not brought any factories to Calgary, and such a claim that the bureau will, or rather may, bring factories here in the future is not sufficient ground to pledge our credit for a quarter of a million."

"The attitude of the board of trade is one of concern for the public welfare. It is not antagonistic to the Industrial Bureau. The board did not criticize the city council. It gave expression to the opinion of its members regarding proposed public expenditures—an opinion which has often been welcomed by the city council."

"In public meetings, which I hope will be held before voting day, it would be possible to go fully into details regarding these bylaws."

"It is claimed for instance that the industrial building will house small concerns which have no capital to start here alone."

"Remember that the city has manufacturing sites to sell at cost. Almost any concern will not require much space, and its own building would not involve much outlay. If these industries have no capital are they then to employ so many hands? Surely they are not sufficiently important to the city that at this time of much needed public utilities, the ratapayers should give \$250,000 to find out whether they are or not."

"Business men in the city know there are just now many vacant warehouses in Calgary. The owners would be glad to rent these warehouses to ratapayers to have some opportunity to learn more details of the industrial building bylaw."

COMMONS PASSES NAVAL BILL ON THIRD READING

(Continued from Page One) The opinion of the proposed vessels under the existing naval service bill.

When the house rose there was a little cheering, and the Conservatives sang "Rule Britannia," some of the Liberals joining in.

Some surprise had been expressed at the strenuous opposition which had been shown by the representatives in parliament and they would be expected to be consulted until a final decision was reached.

At the beginning of the session the minister of the house had said that there was an emergency and that serious conditions existed so far as Great Britain was concerned. They did not believe that long before the war would have been in their hands absolute proof of the falsity of this contention.

The minister had reflected that they would have seen what a hollow mockery it was, if there will be an emergency to send our ships into the fire.

SWAT THE FLY!

D. R. MAHOOD, medical health officer, will take the slogan to the city council and will urge the adoption of a bylaw calculated to reduce the fly nuisance to a minimum.

WHEREAS it is commonly known that flies are disseminators of filth, dirt, and disease germs, and are a constant threat against the health, happiness and prosperity of the people.

THEREFORE be it resolved by the mayor and council that it shall be unlawful for any person, firm, or corporation to suffer, permit, or allow on their premises, whether owned or leased, any of the following conditions to exist:

(a) Animal manure in any quantity not properly protected from flies.

(b) Privies, vaults, cesspools, pits or like places not thoroughly protected.

(c) Garbage not securely covered.

(d) Rubbish, litter or rags in which flies may breed or multiply.

The police and sanitary inspectors are empowered to enforce this bylaw and a provision is made for the punishment of any one guilty under these clauses, by a fine of not less than \$5 and not more than \$50.

The bylaw will be effective immediately on being ratified by the council.

CANADIAN TARIFF IS OBSTACLE TO WOOL INDUSTRY HERE

Removal of Duty in States Will Not Have Any Appreciable Effect on the Sheep Industry Here and the Growing of Wool

HEAVY DUTIES PREVENT IMPORTATION OF SHEEP

Farmers Are Prevented by Import Taxes From Engaging in Any Great Extent in Mixed Farming—Most Sheep Bred by Wealthy Farmers

"The farmers of Alberta need something more than a one-sided removal of duty," said P. P. Woodbridge yesterday, in discussing some of the proposed changes in the United States tariff.

"It is said in some quarters that we are now getting all that the reciprocity proposals proposed, but that is wide of the mark." Mr. Woodbridge was speaking particularly of the removal of the duty on wool.

"The removal of the duty on wool would not be of any great benefit to the farmers of Alberta. The wool industry here is not in a position to compete with the wool industry of the United States."

CALGARY MEN HAVE NO DESIRE TO ORGANIZE

Superintendent McCauley, of the Street Railway, Says the Men Here Are Well Contented With Their Positions

MEN HAVE THEIR OWN ORGANIZATIONS HERE

Mr. McCauley Was the First Organizer of Street Railway At Head of the Lakes and Had Charge There for 17 Years

"Calgary is the only western city in which there is no organization of the men into a labor union. And at the same time Calgary is paying the highest wages to its men and is the only system in the city that is paying its way."

The superintendent said that he was not alarmed at the strikes which were occurring at the head of the lakes and at the organization which had taken place in Lebbards. The men here have all signed their agreements for another year and are well contented with their position as they have their own organizations for sickness and other insurances.

Seventeen Years at Port Arthur Mr. McCauley passed through Port Arthur and Port William on April 15, that was before the present strike broke out so that Mr. McCauley has no personal knowledge of the matter other than what he reads in the papers.

SEND IDLE LABORER TO THE COUNTRY, SAYS GRAVES

City Fiscal Agent Slow; City Funds Low; City Laborers Out of Work

If Commissioner Graves could have his way he would very shortly reduce the surplus of laborers in Calgary at present, by settling on farms a few hundred of the men who are calling at the city hall every week for work. The money straggle in Calgary, resulting from the dilatoriness of the city's fiscal agent in depositing the city's securities, and the consequent delay in undertaking public works, has resulted in an unusually quiet period and a lack of work for men who are clamoring for it.

PARTISANSHIP CHARGED AGAINST CITY FOREMEN

"My son Mike has also worked for the city for about two years, and was discharged today without any reason being given for his discharge, and I verily believe the only reason for his discharge is political. Nick Serro told me that everyone of the Liberals would lose their jobs. My brother, Michael, who is also a Liberal, was discharged this morning without any reason being given for his discharge."

GOVERNOR JOHNSON WILL NOT USE VETO

Sacramento, Cal., May 14.—Expressing his determination to sign the alien bill recently passed by the legislature, Governor Hiram Johnson, of California, today telegraphed to Secretary of State Bryan a long explanation of the action taken by the legislature. The message was in answer to the request telegraphed to the Governor by Secretary Bryan at the request of the President, that the bill be vetoed.

upon me for support and I was very hard up, but he said there was no job for me. Two or three days later I again called, and Wilson told me there was no job for me.

Not on Conservative List. "On or about the 29th day of April, 1913," he says, "I went to Jack Yard, a foreman working near the corner of Third avenue and Second street west, in the city of Calgary, and asked him for a job working with his gang digging a ditch in the city. He pulled a paper out of his pocket containing a list of names and asked me for my name, and after looking over the list he said that my name was not on the list of Conservatives and that I could not get a job. He told me that Wilson gave him the list and that I could not get a job because my name was not on the list."

"It is widely understood among the foreigners in Calgary that if any Conservative goes to Nick Serro, Jim Wilson or James Grosse, and asks for a job, they will go and put them to work at once with pick and shovel."

Discharged for Talking Liberal. Raffaele Maratta, 618 Six-and-a-half street west, implicates Foreman Towers. "I have been in the employ of the city for about two years," he says. "On the 15th of April, 1913, while the gang in which I worked were eating dinner at noon, we were talking about the Liberals and Conservatives and I said I thought the Liberals in the Old Country were the best and I thought they were the best here, too. The next day I was discharged by F. Towers, the foreman, without him giving me any reason for discharging me."

"I am told by Liosino Bittari, who was working in the same gang, that the foreman asked him how he voted, and he said that he voted Conservative. 'Well,' said the foreman, 'you are a good man; you can go to work.'"

"I had been in the employ of the city about two and a half years. Mazzarano Coradetto, 413 Third avenue, Riverside, has been in the employ of the city of Calgary for about three years."

"In the month of April, 1913," he says, "I was working under Fred Stephenson, a foreman, and a few days before the election held on the 17th of April, 1913, Fred Stephenson told me and Loretto Serini that all men who voted Liberal would lose their jobs. On the 25th day of April, 1913, Fred Stephenson said to me, 'There is no more job for you; go and get your time.' On the 5th day of May, 1913, I went to Jack Yard, another foreman, and asked him for a job. He said there was no job for me. Just after this Grassie Emilio recommended two men and they both got jobs. Grassie Emilio was one of the leading Conservative workers in the election held on the 17th of April, 1913."

"I do not know of any other Liberals working under him, and I do not know of any Conservatives being discharged by this foreman."

"I have been in the employ of the city of Calgary for about two years," declared Antonio Constantino, 51 Six-and-a-half street west, before Commissioner Hammond.

"A few days before the election held on the 17th of April, 1913, and while I was working for the city of Calgary, Nick Serro, working in the city storehouse, came to me near the corner of Fourth street and Third avenue N. E., and said anybody who voted for the Liberals would lose their job, and anybody who voted Conservative would get plenty of jobs, and then he told me to look out for my job. On or about the 13th of April, 1913, I was discharged by my foreman, F. Towers, without him giving me any reason for my discharge."

"Thinks Discharge Political. "My son Mike has also worked for the city for about two years, and was discharged today without any reason being given for his discharge, and I verily believe the only reason for his discharge is political. Nick Serro told me that everyone of the Liberals would lose their jobs. My brother, Michael, who is also a Liberal, was discharged this morning without any reason being given for his discharge."

"I have lived in the city of Calgary for about seven years, and have worked for the city for about three years," is the declaration of Mike Aiello.

"About two weeks before the election held on the 17th of April, 1913, I went with my brother Sam to see if I could get a job on the city from Jim Wilson. My said brother Sam asked Jim Wilson for a job in my hearing on the street in front of Jim Wilson's house. Without saying whether he could give me a job or not he first asked me, 'How are you going to work, Liberal or Conservative?' Sam said, 'I don't know yet; I am going to wait and see Jim' (referring to another brother). 'Well,' said Wilson, 'there is no job for you now; call around in two or three days. About three days later I again called on Jim Wilson for a job, and he said there was no job for me, but to call again in two or three days. I told him that I had a wife and five young children dependent

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

Famous Wit, Socialist, and Man of Letters "Fall" for a Forged Check

London, May 15—George Bernard Shaw, the playwright, who is a suffragette sympathizer, has been swindled out of \$2,655 by an expert forger. A messenger delivered a letter at Mr. Shaw's residence which was apparently written by Patrick Lawrence, the editor of Votes for Women, with whose handwriting Mr. Shaw is familiar. It enclosed a crossed check for \$2,655, payable to Mr. Lawrence. The letter asked Mr. Shaw as a favor to give the bearer in exchange an open check for the same amount, so that it could be cashed at once. Mr. Shaw complied and the check was immediately presented at his bank and cashed.

The author afterward received the check back from his bank at Tunbridge Wells marked "Drawer has no account." Then for the first time Mr. Shaw consulted Mr. Lawrence, who was dumfounded and knew nothing about it. The forger's handwriting is said to have been remarkably accurate.

He then came out to the States where he has been engaged as a supervisor of games in the western States. He has thus his English army and American experience which should prove a great advantage.

The idea is to put out pans of feed soaked in alcohol. The birds flock to the pans, and soon are drunk. The English sparrows, which kill off the finches, will be killed, and the finches, which destroy harmful insects, will be allowed to get sober and fly away.

ANTI-GAMBLING LAW DEFEATED IN FRANCE

Paris, May 14—The anti-gambling proposal introduced by Deputy Jacques Poincarré, was rejected by the Chamber of Deputies today by a vote of 331 to 229.

The Poincarré amendment sought to revoke all gambling licenses granted under the law of 1897. It first came up in the chamber on Friday last. The chamber adopted a resolution for its further consideration. The acceptance of the amendment would involve the closing of many clubs and summer resorts.

"On or about the 20th day of April, 1913," he says, "I went to Jack Yard, a foreman working near the corner of Third Avenue and Second Street West, in the city of Calgary, and asked him for a job working with his gang digging a ditch in the city. He pulled a paper out of his pocket containing a list of names and asked me for my name, and after looking over the list he said that my name was not on the list of Conservatives and that I could not get a job. He told me that Wilson gave him the list and that I could not get a job because my name was not on the list."

"It is widely understood among the foreigners in Calgary that if any Conservative goes to Nick Serro, Jim Wilson or James Grosse, and asks for a job, they will go and put them to work at once with pick and shovel, but if a Liberal asks for a job he is told there is no job for him."

About two weeks ago Tony Criechi heard James Grosse telling some Italians that there was lots of work on the Bow river, about Twenty-second Street West, for the city of Calgary. I was discharged by the foreman without him giving any reason for discharging me," asserts Giuseppe Feliciano, 81 Six-and-a-half Street West.

"I am told by Liosini Ritari, who was working in the same gang, that the foreman asked him how he voted, and he said that he voted Conservative. 'Well,' said the foreman, 'you are a good man; you can go to work.'"

"I had been in the employ of the city about two and a half years," Mazzarone Coradetto, 413 Third Avenue, Riverside, has been in the employ

of the city of Calgary for about three years. "In the month of April, 1913," he says, "I was working under Fred Stephenson, a foreman, and a few days before the election held on the 17th of April, 1913, Fred Stephenson told me and Laveito Serini that all men who voted Liberal would lose their jobs. On the 25th day of April, 1913, Fred Stephenson said to me: 'There is no more job for you; go and get your time.' On the 5th day of May, 1913, I went to Jack Yard, another foreman, and asked him for a job. He said there was no job for me. Just after this James Grosse recommended two men and they both got jobs. James Grosse was one of the leading Conservative workers in the election held on the 17th of April, 1913."

"I have been in the employ of the city of Calgary for about two years," declared Antonio Constantino, 81 Six-and-a-half Street West, before Commissioner Hammond.

"A few days before the election held on the 17th of April, 1913, and while I was working for the city of Calgary, Nick Serro, working in the city storehouse, came to me near the corner of Fourth Street and Third Avenue N. E. and said anybody who voted for the Liberals would lose their jobs, and anybody who voted Conservative would get plenty of jobs, and then he told me to look out for my job. On or about the 17th day of April, 1913, I was discharged by my foreman, J. Towers, without him giving me any reason for my discharge."

"My Think Mike has also worked for the city for about two years, and was discharged today without any reason being given for his discharge, and I verily believe the only reason for his discharge is political. Nick Serro told me that everyone of the Liberals would lose their jobs. My brother, Michelangelo, who is also a Liberal, was discharged this morning without any reason being given for his discharge."

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

WANTS GUIDANCE IN THE FINANCIAL MARKET

Government Should Have Organism to Assist Dominions Seeking Money in London

London, May 15.—The interesting proposition was made today by Hon. W. Watt, premier of Victoria, Australia, in the Imperial Government, which would interest itself in the financial needs of the overseas dominions and assist them to obtain loans in London. Watt pointed out that the finances of the dominions were in a state of confusion, and that the Imperial Government should take the initiative in providing a means of assistance. He suggested that a special commission be appointed to study the financial needs of the dominions and to report to the Imperial Government. Watt also pointed out that the dominions were in a state of financial confusion, and that the Imperial Government should take the initiative in providing a means of assistance. He suggested that a special commission be appointed to study the financial needs of the dominions and to report to the Imperial Government.

PROROGATION NEXT WEEK

Ottawa, May 14.—During the discussion in the House and the desirability of sitting on Saturday was considered. Hon. Robert Rogers expressed an optimistic hope that the House might be prorogued before that date. This will mean much hurrying up with business of the House during the next few days.

SEVENTY-EIGHT MILLIONS SPENT ON CIGARETTES

Winnipeg, May 15.—Is Canada a Christian or a pagan dominion? Based on how Canadians spend their money, commented Dr. C. W. Gordon, pastor of St. Stephen's church, at today's service, startling facts are revealed. The pastor pointed out that in the past year twelve million dollars had been spent for cigars alone. For cigarettes an outlay of seventy-eight million dollars had been made while fifty-one million dollars were spent in intoxicants. Statistics showed that the enormous sum of one hundred and forty-seven million dollars had been spent by Canadians for automobiles.

TOO MUCH BRAINS TO BE MAN'S DOWNFALL

London, Eng., May 15.—Man's downfall at the end of this geological age is likely to result from excessive brain development. At the London Royal Institution here, Dr. S. Woodward drew attention to what is called "intelligence" in evolution. He illustrated the use of the brain in the evolution of man, and pointed out that the excessive development of the brain in man has led to his downfall. He suggested that man should use his brain more wisely and not waste it on unnecessary things.

STRIKE WILL BE FOUGHT TO THE BITTER END

Fort William, May 14.—The joint board of the street railway commission and the executives of the Trades and Labor Council of the Twin Cities met yesterday at the request of the latter body in order, if possible, to effect a settlement of the strike. The conference lasted all afternoon, and at its conclusion the joint board passed a resolution stating that nothing further was to be gained by negotiations, and that they would maintain the stand taken when the strike was first declared, which was one of absolute determination to give no ground to the strikers. A fairly good service is being maintained.

J. Turnbull Sues Canadian Townsites for \$150,000; Case to Be Heard in London

A five per cent. share in profits amounting to \$150,000, which would mean total profits of \$3,000,000 during the last year is what is claimed by J. Turnbull, Alberta agent of the Canadian Townsites, Limited, a British concern, from the company.

WOMEN DESTROY ORGAN IN HISTORIC CHURCH OF PENN.

London, May 14.—Militants this evening set fire to the organ of the old parish church of Penn, Buckinghamshire, which because of its association with the founder of Pennsylvania, was of great interest to Americans. The great discovery of the flames made it possible to extinguish them before they spread to the church, but the organ was ruined. A paper was found inscribed: "Suffragette causes incineration of votes."

BETTER THAN HALF-A-DOZEN DREADNOUGHTS

London, May 14.—At a meeting of the Canadian Immigration Commission tonight attention was drawn to the Privy Council order which had been passed in connection with the Dominion Government providing that no immigrant could land except he came direct from his native country, and there being no direct steamship service between India and Canada, the effect of the order was to prohibit the further immigration of the Indians. Sir M. B. Shorncliffe, K.C.I.E., who presided, said that the prohibition of immigration was contributing more to the stability of the Empire than by the gift of half a dozen Dreadnoughts.

SIR IAN HAMILTON COMING TO CANADA

Ottawa, May 15.—General Sir Ian Hamilton will arrive in Canada during the first week in June on the trip of inspection of camps which he intends to make throughout the Dominion. Lord the cruiser which will command a cavalry brigade at Petawawa, Ontario, will accompany him, and will arrive about the same time, and will be accompanied by Captain Howard Vaisey of the Royal Horse Guards and the Hon. J. G. Macdonald, M.P., who will be in charge of the inspection of the line here are unable to identify it. They have received a message from the admiralty that the cruiser Forto has been sent to render assistance.

WHEN A PREACHER "BUTTED IN"

Mistook a Red Face for a Whisky Complexion and Got a Beating... Hutchinson, Kas., May 15.—Justice Rickerkecker has been arrested, and the main reason for his arrest was that he mistook a red face for a whisky complexion and got a beating. The preacher told Elliott's father his son had been drinking. The father told his son's wife, who called him home from work he found his wife and four children in tears and no supper ready. They were told nothing to do with him until he denied he had been drinking. Elliott is a teetotaler. He called the father by telephone and the preacher told him that his son had been drinking because his face was red. The jury found this man guilty. If I could make his fine lighter I would do so," Justice Rickerkecker said.

"MADE-IN-CANADA" TRAIN CREATES NO STIR HERE

The attitude of the Calgary board of trade to the "Made-in-Canada" train which is to come here during the summer has not yet been discussed and it is considered highly improbable that any action similar to that taken by the Edmonton board in renouncing the train will be taken here. There will be a meeting of the council this afternoon and the matter may be brought up or not, as may be, but it is not thought that the members would advocate any boycott. The board will not be out to take any stand whatever in the matter and it is felt that the coming of the Montreal train is not so greatly harmful that it calls for any special action or attention.

SCANT SUPPORT FOR "MADE-IN-CANADA" TRAIN

Edmonton, May 15.—Edmonton Board of Trade will ignore the visit of the "Made-in-Canada" train. This was decided upon as a result of the report of the council of the board Tuesday. A communication was received from the secretary of the Canadian Home Market Association advising the approaching visit to Edmonton of the "Made-in-Canada" special. The secretary was instructed to acknowledge this communication, and to state that in the opinion of the board based on the opportunities for observation afforded by last year's visit to Edmonton, the secretary's letter does not contain any recommendation. The aim of the "Made-in-Canada" special, that observation did not tend to the conviction that the train was accompanied by the heads of the industrial concerns, or that the repre-

HEAD OF CEMENT COMPANY ARRIVES IN THE HAT

Canada Cement and Hunt En-
gineering Will Consolidate;
Plant Capacity 3000 Barrels

Medicine Hat, May 14.—A. C. Tagge
of Montreal, general superintendent
for the Canada Cement Co., arrived in
Medicine Hat yesterday and his ad-
venture here is fraught with no little im-
portance to the industrial development
of this city.

It will be remembered that original-
ly, the Canada Cement company's
plans provided for the construction
here of a mill for the production of
2,000 barrels of cement every 24 hours.
The Hunt Engineering Co. also de-
cided to erect a cement mill here
which was to have a similar capacity
per day. A short time ago an an-
nouncement was made that the two
concerns had consolidated and that a
plant would be constructed with a
capacity of 3,000 barrels per day. Mr.
Tagge has now come to Medicine Hat
for the purpose of closing up nego-
ciations and details for the construction
of a cement mill which will turn out
every 24 hours 3,000 barrels.

This mill will be built by the Hunt
Engineering Co., for the Canada Cem-
ent Co. The preliminary plans have
been worked out by the two com-
panies and the details are now being
decided upon. It is the intention to
proceed with the construction, which
will be pushed to completion at the
earliest possible date. The number of
men to be employed in the construc-
tion of this giant cement mill will only
be limited by the supply of labor to be
obtained for that purpose.

To give some idea of what the con-
struction and completion of this ce-
ment concern will mean to Medicine
Hat, it may be stated that upwards of
700, if they can be obtained, will be
employed constantly in the construc-
tion work proper and there is com-
pleted somewhere between 300 and 500
men will be employed in the produc-
tion of cement.

Four thousand barrels daily means
the turning out of 1,400,000 pounds
of cement and that this will be at
least 27 cars outbound each 24 hours.
There will be at least 25 car loads of in-
bound traffic daily. In other words,
this one industry will require the use
of at least one train in and one train
out each 24 hours.

When seen this morning, Mr. Tagge
stated that he had arrived here to
spend a few days to close up with the
Hunt Engineering Co. in regard to
the details of the plant and the get-
ting of actual construction under way
immediately.

Toronto Live Stock

Toronto, May 15.—With another light
run today trade was keen and active.
Receipts were 49 cars, with 477 cattle,
285 calves, 1812 hogs, 148 sheep and
lamb, and 1000 horses and buyers and
landladies and buyers had to move quickly,
everything being cleaned up early at
the close of the day. In some instances
prices ran 5 to 10 cents higher. One
choice lot of heavy steers sold at \$7.50
and a choice load averaging 1200 lbs.

Winnipeg Live Stock

Winnipeg, Man., May 15.—Receipts
at the livestock yards were fairly
heavy and trading was keen. The
quality of the cattle was good and the
prices advanced on choice butcher
steers 25c per 100 pounds, and on good
cows and heifers 25c to 50c. Best
bulls were also quoted at an advance,
being \$4.75 to \$5, as against \$4.75 Mon-
day. Feeders, stockers, milkers and
springers were unchanged, there being
few of these classes on the market.
The supply of the hogs was over
the market, and trade steady, with
no change in the prices. Choice lots
made \$9 per hundred pounds, with
usual reductions on roughs, heavies
and light animals.
