Everyone refers to her as one of the most attractive women in town. It wasn't her features, for while regular, they were not unusual. But the charm lay in the head of splendid, ylgorous hair that made a veritable grown. It had that peculiar ustre and the sun gave it an added brilliance—you couldn't look at her without unconsciously commenting on the beauty of her hair.

When asked how she kept it so beautiful she replied that it was no secret, simply proper shampooing, regular combing and the conscientious use of Hirsutone. She admitted it had not always been in that condition, but that she found Hirsutone the best thing she ever got for the hair. It save the scalp such a cool, refreshed teeling, and the hair was so much safer to dress after its use. A Talk With Our Lady Readers.

Have you ever noticed how miserable and unhappy the little pains and aches make one? A stinging cut, badly chapped hands, a nasty burn, a sore foot, a poisoned finger—none of them wounds or ailments ever likely to cause serious trouble, which come to every woman—and man too—and are just sufficient to take the edge off one's temper and give one a "grouch."

Zam-Buk is just the thing at such times. As soon as you put it on to a sore, a cut, a burn, or any skin injury, it stops the pain, and the smarting, and starts up healing. Don't make the mistake that because Zam-Buk is so widely used by medical men, by nurses, and for serious skin diseases and accidents, that it is only for serious cases. Keep it handy and use it immediately you get some trivial injury or have some little sore.

Mrs. Chas. H. Barrett, Harmony Road, Truro, N.S., says: "I had an ingrowing toe nail, which caused me acute agony. Sometimes the pain was so severe I could not sleep. It became so bad that I feared blood-poisoning had set in. I was advised to try Zam-Buk and bound up the sore toe with it. In a tew days it was much easier, and I continued the treatment. The result is that to-day the toe is sound and I have no more trouble with it. We always keep Zam-Buk in our house, and I would strongly recommend it to every housewife."

Zam-Buk is just the thing, too, for the little ones. Pure in its composition, and herbal in nature, it is suitable for the most delicate skin. It also cures piles, eczema, varicose ulcers, cold sores, abscesses, blood poisoning, ringworm, and all similar skin diseases. Sold everywhere at 50c. a box, or post free from Zam-Buk Co., Toronto, upon receipt of price.

A Lancaster newspaper had this interesting paragraph: Apropos of the annual meetings of the Bible Society's Auxuliaries, it is not generally known that the first Bible printed on this continent was Eliot's Indian Bible, whose title was this: "Mamusse Wunneetupusuntamwe Up-Biblum God naneswe Nukkone Testament kah wonk Wusku Testament. Ne quoshkinnumuk nashpe Wuttineumoh Christ noh oscoewesit John Eliot." This was printed in 1663. The Indian lauguage in which it was printed is extinct and only one man living in 1873 could read it. The next Bible printed in America was Saur's, in German, in 1743. The first English Bible printed on this continent was at Boston, in small quarto, in 1752. A Lancaster newspaper had this inter-

The Cause of the Trouble.

A minister found at his door a needy looking knight of the crosstie, who asked for a job that he might earn his breakfast.

The minister could think of no work he needed done, but he had a barrel of potatoes, some of which had become slightly decayed, so he told his guest that he might pay for his meal by sorting out the good potatoes. Coming down from his study later,

he found the stranger with his chin resting between his hands and a look of deep perplexity on his face. "What's the trouble?" he inquired

"Is the work too hard for you?" "No; the work's not hard," was the dispirited reply, "but it's an awful strain on the judgment," - Success Magazine.

A very small negro boy was a regular attendant at a boys' reading club and always called for the same book and always turned to the same place, at which he looked eagerly and then laughed heartily.

The attendant's curiosity was aroused by a performance many times repeated, so he followed the little fellow one night and, looking over his shoulder, saw that he opened the book to a picture of a bull chasing a terrified negro across a field. He was just about to ask what the joke was, for the laugh had again come rippling up

to him, when the boy looked around, grinning.

other, and as they passed one morning in the exercise yard the cow stealer said, with a sneer: "'What time is it?"

# Free to Stock and Poultry Raisers

We will send, absolutely free, for the asking, postpaid, one of our large thirty-two-page booklets on the common diseases of stock and poultry. Tells you how to feed all kinds of heavy and light horses, colts and mares, milch cows, calves and fattening steers, also how to keep and feed poultry so that they will lay just as well in winter as in summer. No farmer should be without it.

You never heard of any other Specific, "Stock Food," doing likewise.

Royal Purple will permanently cure the Bots, Colic, Worms, Skin Diseases and Debility, and restore run - down Animals

I noticed a change after 5 or 6 days, as there was an extra weight of milk. On the 29th, I carefully weighed the milk, and she gave 22 pounds. I am giving an order for 5 boxes, as I consider it the best I have ever used."

"Stock Food" will not do this. Because "Stock Food" is nothing more or less than a mixture of the very things which you, yourself, grow on your own farm. It is not more food your Animals need. They must have something to help their get all the nourishment from the food they are getting. So that they will fatten, and stay fat, all the year 'round. They need something to prevent disease, to cure disease, and to keep them in the best of health, all the time.

Not a Stock Food

Royal Purple is not a "Stock Food," nor a "medicine." It is a Conditioner. It does not contain Grain, nor farm Nor does it contain "Dope," or any other injurious ingredient. Royal strengthens it, permanently.

and heavy. And it builds up the health and restores the former plumpness and vigor. of run-down stock, in little or no time.

The very best time to use this Conditioner is NOW. It digests the hard food properly and prevents the animals getting indigestion or losing flesh.

50 per cent. Cheaper

One 50-cent Package of Royal Purple will last one Animal 70 days. This figures a little over two-thirds of a cent per day.

Most "Stock Foods" in 50-cent Packages last but 50 days, and are given three times a day.

But Royal Purple Specific is given only once a day, and lasts 50 per cent. longer. (A \$1.50 Pail, containing four times unt of the 50-cent Package, lasts 280 days.)

So, you see, it is only necessary to give Royal Purple Specific once each day. Just think of making each Animal worth 25 per cent. over its cost ! What will that mean to you, Mr. Stock Owner !

Royal Purple creates an appetite for

food, and helps nature to digest and turn it into fiesh and muscle.

Never Off Feed

It makes the Hens lay Eggs in Winter

MRS. WM. BURNHAM, Sanford, Ont. mks. wm. Buknham, Sanford, Ont., says: "Dear Sirs,—This is to certify that I have used two boxes of your Poultry Specific for my hens. They laid so well while feeding it to them. I wondered if you would mind sending me word how or where I could get some this winter. I bought it from your agent last winter. I had 32 hens, and some days I got two dozen eggs a day in February and March, while feeding them the Specific."

Royal Purple Poultry Specific prevents Fowls losing flesh at moulting time, and permanently cures every poultry disease. It makes their plumage bright and keeps them always in prime condition.

It makes your Poultry worth more than they could ever be without it.

Centralia, Ont., Feb. 7, '10, The W. A. Jenkins Mfg. Co., London, Ont.: Gentlemen,—We have been using Royal Purple Poultry and Stock Specific for the last three weeks, and must say that results are remarkable. Am feeding the Stock Specific to two milking cows, and they have increased 30 per cent. in their milk, The Poultry results are even more marked than this. We have about 60 hens, laying age. When we commenced hens, laying age. When we commenced feeding, we were getting five and six eggs a day, and in the last five days the same flock of hens laid 150 eggs, almost an average of 31 each day, and those five days have been the coldest this winter.

You can see results plainly in two of three days after the use of "Royal Pur-ple," and the poultry have the same hustle and appearance now as in the sum-mer time. With cows and poultry, am using exactly the same feed and care as before starting to feed "Royal Purple."

When farmers and stockmen get ac-quainted with Royal Purple, it will have a greater demand than all other tonics. stock foods on the market con Yours truly, ANDREW HICKS.

Aug. 28, 1910. W. A. Jenkins Mig. Co., London, Ont.: Gentlemen,—Last Fall we had in our stables a young mare belonging to Miss Clouston, of Montreal. We could not feed her any bran on account of causing violent scouring, consequently causing her to become weak and thin. We commenced using your Royal Purple Stock Specific, and the results were wonderful. After using it three weeks, we found we could feed the animal bran or any other soft feed without scouring her, and she actually took on in this time twenty-five pounds of flesh, we working her at the same time through the hunt. I can heartily recommend your Stock Specific.

one God calls us to our eternal home.

We had delightful and mild weather until near Christmas. During the past five days it has been cold and this morning (Jan, 12) the glass registers about 50 below zero. We have good sleighing now, but the ground was almost bare until five or six days ago.

D. J. Campbell, Edmonton, manager Canada Life Insurance Co., tormerly of the firm of Campbell Bros., Watford, makes an occasional visit to Red Deer. D. J. looks well and is as friendly and jovial as ever. Among some of the old friends from the east who called on us last year were:—Mr. and Mrs. J. D. Meekinson, Strathroy; Mr. Hopperward, Strathroy, sec.-treas. S.S. 7, where your humble correspondent taught in 1883; Mr. Amos Wilton, Mt. Brydges; Mr. A. L. Hunt, ex-pupil of S. S. I. Lobo and Caradoc, famous as a debator; Mr. Arch. McPherson, manager of Wagon Works, Petrolea, whom I had not seen since I left the Collegiate Institute, Ottawa; Arch. A Youth Cut Down In His Prime.

J. Mills Ormrod, only son of Mr. and Mrs. J. G. Ormrod, of Saskatoon, formerly ot Sarnia, Ont., died in Tucson, Ariz., on Jan. 24th, aged 23 years.

The deceased went to Dunsmuir, N. California, about three years ago, where he had a good position, but after serving two years in that city he found that the damp air was affecting his health.

From there he went to Los Angeles, where he got a position, which position he held up until August last.

His parents wrote for him to come to Saskatoon. He thought the winters were too cold in that city. As his physician advised him to try Arizona for the winter months, living in hopes of coming to Saskatoon in the spring.

His parents remembered him kindly by cheery letters and presents, but the change did not prove heneficial.

His parents remembered him kindly by cheery letters and presents, but the change did not prove beneficial. His parents were preparing to leave for Arizona in a few days, to be with him and comfort him. But he quickly grew worse until death finally relieved him of his sufferings on the above date.

The deceased was of retired nature, kind and gentle, and with a kind or cheery word for others who, like himself, would be ill. He leaves behind to mourn the loss of a loving son and brother, his parents, Mr. and Mrs. J. G. Ormrod, of Saskatoon, Sask., and Mrs. H. P. Bourke of Sault Ste Marie, Mich., his only sister. #### Prairie Song.

And rolling prairie's deep ravines
Where flowers abound on every hand
In this, our glorious prairie land.
The white man comes to make his home

Where once the red skins used to roam. He's well rewarded for his toil Of turning up the virgin soil.

Of turning up the virgin soil.

Chorus,
Oh Prairie Land, sweet Prairie Land,
Where every one joins hand and hand.
We are a jolly noble crew,
And we are sure you'd say so too
If you were here to join our band
In this our glorious Prairie Land.
The prairie chickens flip and fly
And they go splendid in a pie,
And if you are a man of luck
You'll perhaps sometimes shoot a duck.
The little gophers skip and play
And oft across our trail they stray.
The badger too may there be found
In holes he digs beneath the ground.
The busy wee mosquitoes too,

The busy wee mosquitoes too,
They come in numbers far from few,
They sing a song, a kind of grace
And then they light upon one's face.
The winters here are very cold,
From ten to sixty-five below.
We dress in big fur coats of skin
And buckskin mitts and moccasins.

The bachelor here lives all alone
In a little shanty called his own.
He darns his socks and bakes his bread

And often wishes he was dead.

Although he's very lonely here
He's waiting ever for his dear.

And soon we know that she will come
To soothe his heart and cheer his home

Burn This Letter.

Burn This Letter.

One unique suggestion coming to the patent office recently is for a self-burning letter. Though the commissioners tried to keep the process secret, the story soon leaked out, and the suggestion was offered as a defence to the ardent swain who pours torth his soul in endearing and eloquent correspondence which later in the hands of some unsympathetic law-yer increases the damages in a breach of promise suit or in the diworce court helps to swell the alimony and excite popular derision.

Love letters have always played a conspicuous part in the affairs of nations and a still more momentous role in the history of hearts, but they generally possess peculiar features that make them "impossible" in cold type. Of course much depends upon the eyes that read them, but no matter how romantic the reader, if the eloquence is not intended particularly for him or her, the sentiments appear "stilted," "silly" or "disgustingly sentimental;" hence the advantage of the self-burning letter. So far as has been learned, however, the "novel" the self-burning letter. So far as has been learned, however, the "novel contrivance" is but a sheet to which a certain brand of very flat match is attached for a suggestion.

> Miss Braddon's First Effort. When Miss Braddon, who lately celebrated her seventy-third birthday, celebrated her seventy-third birthday, was asked some time ago as to her first appearance in print, she replied, "To the best of my recollection, the first thing of mine that ever appeared in print was a song, in the seventeenth-century style, that was published in The Beverley Recorder in May, 1857." This first printed effort of the prolific and popular authoress, which was entitled "Rest," and signed "Mary Seyton," consisted of four verses, and opened thus:—

All joys on earth have we, All fears on earth we see, All cares on earth there be, But never rest.

The Simplon Pass.

The Simplon Pass.

The Simplon Pass was a famous highway of travel long before Napoleon constructed the highroad. Milton came home that way from his grand tour, and so did John Evelyn. The latter traveler went in fear of his life, not only expecting avalanches to fall on him, but being apprehensive lest bears and wolves should issue from the caves in the precipices and assail him. The only actual harm which happened, however, was that his companion's dog killed a goat belonging to one of the peasants and that heavy compensation had to be paid—"a pistole," says the diary, "for the goat and ten more for attempting to ride away."

In Two Divisions. Men are often divided into educated and ignorant, the rich and the poor, the famous and the unknown, but a division more marked than any other division more marked than any other might be made between the strong and the weak. We meet them both in every walk of life. Their birth or education or general surroundings may be the same, but a sharp line divides those who govern their inclinations from those whose inclinations govern them. On the one side we see strength accomplishment and value, on the other weakness, spasmodic and ill directed effort and inefficiency.

Not Sure About It. "You'll be the happiest man on earth, I suppose, when your time's up," suggested the kindly old gentleman.
"Oh, I don't know," answered the convict. "I'm in here for life."

A Spare Diet. The person who lives on hope is seldom troubled with obesity.

What To Do Sickly Children Letters from Mothers

"I wish I could induce every mother, who has a delicate, sickly child, to try your delicious Cod Liver and Iron Tonic VINOL. It re-stored our little daughter to health and strength after everything else had failed."—Mrs. C. W. STUMP, Canton, Ohio.

Mrs. F. P. Skonnard, of Minneapolis, Minn., writes, "I want to recommend VINOL to every mother who has a weak or sickly child. My little boy was sickly, pale, and had no appetite for two years. I tried different medicines and doctors without benefit, but thanks to VINOL, he is a well and healthy

boy to-day."

C. Allen, of New Bedford, Mass., writes,"My two puny childrengained rapidly in flesh and strength in a very short time after taking VINOL."
We positively know VINOL will

build up little ones and make them healthy, strong and robust. Try one bottle, and if you are not satisfied, we will return your money.

NOSEBLEED.

In Most Cases It Is Said to Do More Good Than Harm.

Good Than Harm.

Epistaxis—that is to say, nosebleed—is an accident which will sometimes occur in the best regulated families and happily in most cases need occasion no alarm. In fact, it may often be hailed as an advantageous symptom, especially when it occurs in healthy, full-blooded young people. There are also certain diseases, such as Bright's or cirrhosis of the liver or typhoid fever, when an attack of nosebleed may do good rather than harm—when it is, in fact, simply a sign that Mother Nature is trying to relieve her child in one way because she is balked in another.

In these cases the flow is beneficial, but the subject of the attack should be watched in order that there should not be undue profusion, leading to a weakening of the vital forces or if too prolonged to a genuine anaemia.

uine anaemia.

When an attack of nosebleed seems te be doing no harm, as in the case of a young, healthy boy or girl, it is best to let it alone or at the most after a time to use some very simple remedy, such as the application of cold over the brow by means of a cloth wrung out of quite cold water or by snuffing a little cold water up the nostrils.

There are certain old fashioned

There are certain old fashioned remedies, such as putting the key of the front door down the back, which do neither harm nor good, but which owe their origin to the same theory—the application of cold and shock.

When cold water is snuffed up through the nostrils the addition of some mild astringent—alum or tannin, for example—will make the treatment more quickly efficacious. Sometimes, when other slight remedies seem to fail, pressing on the nostrils will succeed in stopping the flow. As to internal remedies, there is none known that is of any avail in a dangerous nosebleed, and when the danger point is reached there is nothing to do but plug the nostrils. When this treatment is called for the physician should be sent for to

apply it, because he can by caching tion locate the exact point of bleeding and will know just where the pressure should come.

There are cases of nosebleed, for-

There are cases of nosebleed, for-tunately very rare, where it is im-possible to check the flow. These cases are caused by a diseased state of the system which prevents coag-ulation of the blood, so that it sim-ply flows and flows away from the sufferer like water. It is well that these cases are rare, as they are generally fatal in spite of all treat-ment.—Youth's Companion.

So It Seemed.

The day after the arrival of his new sister (six-year-old Bobbie crept into the room to inspect and pass upon the new member. He looked in awe about the dim hushed room, and then, sport the dim nushed room, and steen, peering behind a screen, he beheld a strange and uniformed nurse, who had just given baby its bath, vigorously besprinkling the chubby form from a box of talcum powder.

A moment's gaze, and then, wide eyed with horror, Bobbie toddled hursiedly to his mother's beddide.

eyed with horror, Bobble bodded hur-riedly to his mother's bedside. "Get up quick, mamma," he trem-blingly whispered. "That new nurse is going to eat the baby. She's put-ting salt and pepper on it now!"

It was an English skipper of the olden time, who, having knowledge beyond the seeming needs, as he could read and use the charts, was dispatched to Rotterdam. The skipdispatched to Rotterdam. The skip-per had never been to Rotterdam be-fore, so after getting over the bar and well away to the east he produced his charts and made a learned inspec-tion, but the charts had been a long time in the locker and circumstances combined to alarm him extremely. He went up on dack and called to his mate, "Put her about; the rats have eaten Holland!"

Past Help. The man with the old clock under his arm laid it on the jeweler's show-case. "I wish you'd see what is the matter with this," he said.

The jeweler removed the dial, screwed his eyeglass into place and inspect-ed the works of the ancient time-

Why She Was Anxious.

'Have you fastened up all the windows and the door to the kitchen?' she inquired as they were about to retire for the night.

"Sure," he replied. "But what's the use? I gave you the last dollar I had day before yesterday to pay for that new dress of yours."

"Oh, yes, but the dress is in the lower drawer of the dresser in the front bedroom, just where the burglars would be most likely to get in, and they might ransack the drawers and get the dress all mussed up and ruined."

#### ASIATIC CHOLERA.

It Cannot Thrive Where There Is Absolute Cleanliness.

The plague, or Asiatic cholera, or, as it used to be called, "the black death," has been spreading of late in Europe. There is nothing more tragic in all the history of man than the record of "the black death" in Europe.

In the fourteenth century one epi-demic after another spread among the people. Twenty-five millions of human beings are believed to have perished in this single series of epidemics.

The rich and the poor alike were affected. In Oxford two-thirds of the student population died. In Constantinople the people died at

the rate of 10,000 a day. Charms, incantations, fear, filth, ignorance and superstition fed the dis-

The plague in Europe appears now in the old familiar way-breaking out here and there, always in filth and in

ignorance, spreading gradually.

The disease is not thoroughly under stood now. But the method of fighting it is understood. The people must be well fed. A strong man may have the disease germs within him, resist them and rid his system of them. The weak half fed man dies. That is why the plague was often so violent in the old days just after a famine

As far back as the fourteenth century Gabriel de Mussis observed that those who escaped the plague gave it to others with whom they came in con-

It is some comfort to know that the disease can only be acquired by actually swallowing the disease germs. The man who will be sufficiently care-

ful need not get the plague.

If you will drink only water that you know to be clean and only from vessels that you know to be clean, if you eat no fruit that has not been carefully cooked or carefully peeled with an absolutely clean knife and if all the food that you eat is well cooked and eaten when freely cooked you will not get the plague.

The main thing is not to worry

about it in this country. There is little chance, probably no possibility whatever, of a plague of the old kind among us .- New York American.

The Thanksgiving Dinner. Dr. Woods Hutchinson takes up the Thanksgiving dinner and defends it in the Woman's Home Companion.

The Thanksgiving dinner, according to Dr. Hutchinson, is the most whole-some of all the dinners of the year. The digestion and colic and bilious attacks which are supposed to follow thick and fast upon Thanksgiving feasts exist chiefly in the imagination of the funny man and in the columns of the comic supplement. It is becoming generally acknowledged that eighttenths of the digestive disturbances supposed to be due to gorging or overeating are due not to any excess of sound and wholesome foods, however rich, but often to trifling amounts of spoiled, decaying or infected food which had, by accident or stingy economy, been introduced into the menu.

Bucks and Their Horns.

The theory that a buck deer adds one spike for each year of his age after the first year is being disproved by a young buck in captivity at Hyner. Last year, when he was captured and given shelter by Bruce D. Kurtz, keeper of the hotel in the lumber town, he was a spike buck. Now he is coming out of his velvet and is sporting two prongs on one horn and three on the other. Whether this is due to his captivity or to the peculiar kind of feed he has been eating is not certain, but old hunters, who always thought they could tell a deer's age by the number of his spikes, are becoming skeptical about their theories.—Philadelphia

The Plane. A correspondent of the London Times, convinced that we cannot go on indefinitely talking about "aviators" or "acronauts," suggests "airmen" on the analogy of "seamen." No doubt it will come to that or to "fliers" or something as simple in the end. But what about "aeroplane?" No vehicle can keep more than a fragment of its name when once it becomes familiar.
The monosyllable serenely has it—

#### A Good Idea in Hair Treatment

Treatment

The trouble with most women's hair is that they won't take the time to give it proper treatment. If you want your hair to have that look of lustre and vitality, you must take care of it. You cannot expect to have splendid hair if you simply run a comb through it in the morning—give it a dab on the outer edge with a brush—throw it into a braid—switch it around the head—jab in a few hair pins—and let it go at that.

Hair is like any other growing thing—it needs attention—it needs care—it needs thorough grooming regularly—not only the hair but the scalp.

If you have the time and patience you won't need any hair tonic—but most women haven't. The next best thing is Nyal's Hirsutone. It is the best thing offered to take the place of hours of combing and brushing.

It tones up the roots, brightens the color, improves the texture and makes it stay gracefully where it is put.

Hirsutone literally grevitalizes the neglected hair.

#### NEW POTATO DISEASE.

The "Black Scab" and How to Guard Against It. American farmers are warned by the

department of agriculture to watch for a new potato malady which has develened into a plague in Europe.

The "black scab," "warty" or "cauliflower" disease, starting in Hungary in 1896, has seriously infected Ireland, England, Germany, France, Scandina via and Italy. It appeared on the North American continent last year in Newfoundland. The keenest lookout must be kept, for where the disease has taken hold no healthy tubers will develop. So insidious is the plague that it not only renders all the soil of a field diseased, but bits of dirt clinging to the boots or implements of farmers may carry the pest to uninfected areas. Thereafter the ground will produce unsound crops for a number of years unless an intelligent system of crop ro-

tation is used to heal the soil. Diseased potatoes should invariably be burned or, if too wet to burn, should be buried in a hole and covered with unslaked lime. Seed potatoes should never be taken from ailing If the seed is suspected it should be powdered with sulphur and stored away until planted. Farmers should co-operate with the department of agriculture by reporting any appearance of the disease, so that it may be kept from fastening itself into American soil.-Collier's.

"TAG DAYS" ABROAD.

Flowers Are Used Instead of Bits of

Cardboard. "Tag day" is almost as popular in Europe as in the United States. This custom of setting apart a time at which young people may sell bits of paste-board on the street to passersby with the idea of raising funds for charitable purposes originated in Sweden, but is being adopted in the neighboring coun tries. The foreign methods, however are far more attractive than ours, be cause, in the first place, the sellers do not go about it in such an aggressive manner and, secondly, because they sell flowers instead of hideous card

board dangling on a string.

Two German cities illustrate the success of the plan to get money. At Cassel, in August, the "taggers" netted about 100,000 marks by selling blue ragged sailors, and in Wiesbaden they made 35,000 marks in a day through the sale of daisies, the "flowers of charity," as they are called. The reason for the larger results in Cassel may be found in the fact that the kaiser was staying there at the time, and his example of paying 20 marks instead of 10 pfennigs apiece for his blue flowers fired the citizens of the town to be proportionately generous. New York Post.

What He Told the President.

President Taft attended the recent ero meet at which Mayor Fitzgerald of Boston made a trip with Grahame-White. After the flight the plane was landed near the automobile occupied by the president, who congratulated Mr. Fitzgerald on his coolness and nerve and asked:

"Are you not afraid to go up in such flighty machine?"

"There is only one machine that I am at all afraid of," was the smiling reply of "Honey Fitz," "and that is the Republican machine."

The president, composing himself with an effort, inquired, "And could you see people on earth very plainly while you were away up in the air?"
"Well," replied "Honey Fitz," a droll twinkle in his eye, "I could see you without any difficulty."—Success Mag-

Disappearing Furniture.

Chicago's apartment house problem has been solved. No longer may cartoonists make merry over Mr. Dweller's inability to hang up his hat when the folding bed is down. The answer is disappearing furniture. The Record-Herald of that city says that a builder is about to erect a structure de-voted entirely to three room homes. In the kitchen, after the meal is prepared, the gas range will disappear through a cabinet in the wall, the kitchen table will sink through the floor and the ice chest slide out on the back porch. The dining room table after use will be part of the wall, and in the bedroom no folding bed, no bureau under which to lose your collar button and no chiffonier to knock your head against in searching for it will exist. Everything will disappear after use.

A Luxurious Bath. By next spring Miss Helen Miller Gould will have one of the largest of private swimming pools at her country home in Irvington-on-the-Hudson. The pool will measure 35 by 70 feet. It will be inclosed in a one story brick and limestone building covering an area 55 by 105 feet. The exterior will conform with the architecture of other buildings on the estate. The interior will be fashioned after a Roman bath, in Pompelian style. There will be fountains, with statuary, resting rooms and shower baths. The structure will cost about

A Long Rope.
One of the English exhibits at the Brussels exhibition was an immense coil of rope made from cotton. The rope, which was one and one-half inches in diameter, measured 14,116 feet in one continuous length without piecings of any kind and constituted a world's record for length. It has been estimated that were the individual yarus of the three strands placed end to end they would have encircled the earth at the equator and then have left enough to reach 1,896 miles.

A Valuable Feature. "Of course," said the surgeon who had operated for appendicitis, "there will be a scar."

"That's all right," replied the patient. "Leave any kind of a mark you like that will prevent some strange doctor from coming along and operat-ing again."—Washington Star.

Destruction by Reading of Others.

The subject of imitative suicides has recently attracted attention in the public press. The mental condition of an individual who commits suicide is difficult to fathom. In one class of case a person will fancy that he is being constantly persecuted, that he is always watched, or that he is financially ruined—all these ideas being contrary to fact; he destroys himself in order to escape these imaginary evils. evils.

Such a man is obviously of unsound mind. the newspaper of a mode of self-destruction which is likely to excite great notoriety has been known to induce a similar act in the reader; a suicide of coal gas, especially when a description has been given of the exact manner in which the deed was carried out, has found imitators.

More particularly, however, the sight of a particular spot or locality, where previous suicides have taken place may induce a person, who may hitherto have been unsuspected of any such disposition, to destroy himself. Falls from heights especially come under this heading. Numerous suicides have taken place from the suspension bridge at Clifton, England. A writer in The Yorkshire Evening News has recently said that much harm is done by pictures and descriptions, and that imitative suicide may follow. Chatham, Jan 31.—F. A. Gerber, con.
3, Harwich, brought to this city, yesterday afternoon, the largest hog that has been weighed on local scales for over a year. The big pig weighed 730 pounds, live weight, and Mr. Gerber received for it a check for \$43.80. He did not receive the market price for the hog because it was rather fat for packing purposes. The price he received was six cents a cwt., the market price being seven cents.

## GOOD HEALTH FOR

If You Are Weak and Easily Tired Try Dr. Williams' Pink Pills.

Anaemia is a state into which one talls because of lack of blood, or because the blood is poor, weak and watery. The man or woman who has not enough blood is pale, languid, easily tired and easily depressed. As the trouble progresses other symptons show themselves, and the life of the sufferer is one of misery. Anaemia opens the door to consumption, and gives victims to all the epidemic Anaemia opens the door to consumption, and gives victims to all the epidemic maladies, because the whole body is weakened and unable to resist the inroads of disease. Dr. Williams' Pink Pills are the best remedy in the world for the cure of anaemia, and all its attendent miseries. They make the blood rich, red and pure, thus bringing health and strength to weak, despondent men and women. We do not know of a single case of anaemia where Dr. Williams' Pink Pills have failed to cure if given a fair trial. Mr. John Hastings, Venu, Pink Pills have failed to cure if given a fair trial. Mr. John Hastings, Venn, Sask., was a victim of this trouble and tound new health through Dr. Williams' Pink Pills. He says: "I was working on a railway driving a team and found myself gradually running down. I did not pay much attention to it at first, but soon I began to lose my appetite and it was a trial to get through my day's work. I got medicine from the doctor on the works, but it did not help me, and finally got so bad I told the foreman I would have to quit. He told me not to lose hope, that he would get some medicine that would soon make me all right. That night he went to town and bought me three boxes of Dr. Williams' Pink Pills. I had not taken more than two boxes I had not taken more than two boxes when I began to feel better, and after I had used five boxes I was as well and strong as ever, and could do a day's work with any way on the ich. I way incl. add that before I began taking the Pills I was so run down that I weighed only 122 pounds, and while taking them I gained 22 pounds. I cannot say too much in favor of Dr. Williams' Pink Pills and

strongly recommend them to all run down men."
You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

#### Address and Presentation.

The members of the Bethesda choir, Brooke, met on Tuesday evening, January 24th, at the home of Mr. and Mrs. Thomas Sisson, to bid good-bye to their daughter Gertrude, previous to her departure for Saskatoon. After indulging in music &c., for a time, a dainty lunch was served, after which Miss Blanche Holbrooke read the following address:—

brooke read the following address:—
To Miss Gertrude Sisson.
We, the members of the Bethesda choir, have learned with regret of your intended departure from our midst and have assembled here to-night to spend a pleasant evening before bidding you farewell. We assure you that your kind disposition has won the affection of all and that, in future when we meet, your smiling countenance will be greatly missed among us. We feel that we cannot allow you to separate from us without showing some mark of our appreciation of your services rendered us. Therefore, we beg you to accept this locket and chain as a slight token of our esteem for you, and in the token of our esteem for you, and in the future, as you wear them, may you be reminded of the givers. We all join reminded of the givers. We all join in wishing you every prosperity in your new undertaking, and when this life is ended may we meet, an unbrokenchoir, in the land above.

Signed on behalf of the choir,
BLANCHE HOLBROOKE,
CHAS. JANES.
Miss Sisson made a suitable reply, after which "God be with you till we meet again" was sung, and all dispersed to their homes.
