Mexican Rebels Win in Tampico—U.S. Fleet Ordered to Tampico—Toronto Officer Slain—Pollman Evans Returning to Toronto—Sir Wm. Whyte Dead

ADVICE OF LIND PREVAILED AT CONFERENCE

Some Members of Wilson Cabinet Unwilling at First to Take Decisive Action to Enforce Demand—Events Leading Up to Crisis.

WASHINGTON, April 14.—The Mexican situation, as summed up by cabinet officers and other officials familiar with the messages that have been passing between Rear-Admiral Mayo, Charge O'Shaughnessy and the Washington government, was described as follows:

"Assistant Postmaster General C. Copp and a boatload of marines landed at Tampico last Thursday to obtain supplies. They were arrested, but later discharged. In accordance with regulations in all navies of the world, Rear-Admiral Mayo, on considering that an unwarranted arrest had been made, and that the uniform of the American navy had been disregarded, demanded reparation in the form of a salute of twenty-one guns. The American flag, while not taken ashore, was flying at the stern of the whaleboat, and all the marines were in uniform. Rear-Admiral Mayo allowed the Huerta commander until six o'clock that evening to fire a salute, but later extended (Continued on Page 7, Column 1.)

PROSECUTION IN BRITAIN LIKELY

John Burns Promises Union Life Shareholders That Full Investigation Will Be Held.

LONDON, April 14.—John Burns, in reply to further questions in parliament regarding the position of English shareholders in the Union Life Assurance Co., promised to make enquiries as to the exact nature of the proceedings to be taken against the directors in Canada. Meanwhile, if there was evidence procurable that a criminal offence had been committed on this side, it should be laid before the public prosecutor.

WILL NOT STOP AT COERCION OF ULSTER

Postmaster-General Hobhouse Says Province's Persistent Refusal to Obey Law Will Make Recourse to Force Necessary—Asquith's Re-Election Indicated Public Support.

LONDON, Wednesday, April 15.—Defiance permeated the speech of Hon. Mr. Hobhouse, postmaster-general, when last night he spoke in support of Holman Gregory, K.C., prospective candidate for South Derby. If the coercion of Ulster, he said, should unfortunately ever become necessary after that province had refused terms reasonable in themselves and persisted in refusing obedience to the law, then the coercion of Ulster would become not merely legitimate but necessary.

SPANISH DEPENDS ON AID FROM U.S.

Britain Not Asked to Assist in Protection of the Spaniards Living in Mexico.

MADRID, April 14.—Premier Dato today authorized the most complete denial of reports published in the United States that King Alfonso had personally asked the British Government to use its influence for the protection of Spanish subjects in Mexico.

BRUTAL ATTACKS ON PROTESTANTS

Several Girls Severely Wounded by Nationalist Sympathizers—Ulster Volunteers Badly Beaten.

LONDON, April 14.—Irish despatches received today tell of a number of outrages that have been committed upon members of the Protestant Church. Two Protestant farmers, Joseph McCartney and Andrew Agnew, of the Ulster volunteer force, were set upon near Ballygawley on Sunday night and severely beaten by a crowd returning from the Gaelic football match. Agnew was thrown into a ditch, and two men held McCartney while two others beat him unmercifully.

LEGAL DOCUMENT PREVENTED WRECK

Moving Picture Thriller Cannot Be Shown at Two Theatres.

A bigger ocean wreck than that of the Titanic was prevented on Yonge street yesterday, not by life-saving appliances or a thrilling rescue, but by a legal document. Of course, a steamship catastrophe is not a common occurrence in the downtown section, except in the moving pictures, and that was where this one was happening when the officer with the papers interferred. It was a big six-reel feature, entitled "Atlantis," which depicts the sinking of an ocean liner, accompanied by heart-rending scenes of stage anguish and a "two-men-and-a-dog" escape in "real lifeboats." On Monday night the reel was shown at a picture house at the corner of Elm and Yonge streets, by arrangement with the Nordisk Film Kompagny, the producers, who associated at the same time that similar pictures, under the same name, were being shown farther down the street at another theatre, which secured them from another concern, called the Consolidated Film Company. Accordingly, the Nordisk people, claiming Canadian copyright, secured an injunction from Mr. Justice Britton, at Osgoode Hall, restraining the Consolidated Company from further exhibitions until April 20, when the dispute will be either settled or proceeded with in the form of a suit.

GRAZED FANATIC SLEW TORONTO OFFICER

Capt. George Brown Meets Death at Hands of Demented Native Soldier in Lonely Hill Station on Afghan Frontier—Two Others Killed, Four Wounded.

Word of the death of Captain George E. Brown, a son of the late P. J. Brown, registrar of the high court at Osgoode Hall, at Wano, a hill post on the Indian frontier, was received in the city yesterday in a cable from the secretary of state for war. From information obtained by his brother Gordon Brown, of the audit department at the parliament buildings, Captain Brown and two others were killed and four were mortally wounded by a crazed private of the forces under them. Captain Brown, who graduated from the Royal Military College at Kingston seventeen years ago, accepted a commission in the British army, and later became attached to the 5th Frontier Regiment.

SIR WILLIAM WHYTE IS DEAD

C.P.R. PIONEER'S END UNEXPECTED

Helped to Build C.P.R.

Former Vice-President of Railway Passed Away at Health Resort in California—Started Railroad Career in Canada as Brakeman on G.T.R.

MONTREAL, April 14.—Word reached C. P. R. headquarters this afternoon of the death of Sir William Whyte at Coronado Beach, Cal. Sir William was for years vice-president and director of the C. P. R. The death of one of the pioneers of the C. P. R. and one of the best known men in Canada, came as a shock to his friends, as messages received up to a few hours previously were to the effect that Sir William's health was improving, and that he would return to his home in Winnipeg quite restored in health. A special car has been sent to California to bring the body back. Lady Whyte will accompany.

Started as Brakeman. Sir William Whyte was born in Fifeshire, Scotland, on September 15, 1843, a son of William Whyte and Christina Mathew. He married Jane Scott of Toronto. He was first junior clerk in the office of the factor of Lord Kilmartin in Scotland. In May, 1862, he worked as a station agent on the West Nile Railway and at Cobourg, five months as freight

VILLA VICTOR IN FIGHT LASTING NINE DAYS

Thousands Reported to Have Fallen in Nine Days' Struggle Forty Miles East of Torreon—Fifteen Thousand Men Engaged in Battle.

VERA CRUZ, April 14.—The Mexican foreign minister, Senator Porfirio Rojas, has transmitted to the American charge d'affaires, Nelson O'Shaughnessy, a note, in effect it says that the Mexican Government cannot see wherein, under international law, the federalists have inflicted any insult on the American nation; that its order, desiring the army publicly to salute the American flag under the circumstances would be an admission of the U. S. influence over this country's free action, and that the president is disposed to uphold the honor and sovereignty of Mexico at any cost.

JUAREZ, Mexico, April 14.—The rebel wounded during a six-day's battle at San Pedro de Las Colonias, east of Torreon, is placed at 3000, in a report of Gen. Villa to Gen. Carranza of the battle, in which the combined forces of the federalists numbering 15,000 to 12,000 were defeated by 10,000 to 12,000 rebels.

JUAREZ, Mexico, April 14.—A nine day's battle, possibly more desperate than those at Gomez Palacio and Torreon, has resulted in a victory for the rebels under Gen. Francisco Villa, according to an official report made public here this afternoon. The combined rebel forces came upon the united federalists, said in the last days of the battle, to have numbered 15,000, at San Pedro de Las Colonias, State of Coahuila, 40 miles east of Torreon. Killed and wounded on both sides, it is said, will number in the neighborhood of 3000. The rebels claimed to have taken 700 prisoners. The federal army is said to have included the Torreon garrison, led intact out of that city in retreat by Gen. Velasco, on April 3; those of Gen. Maad, Gen. Hidalgo, Gen. De Moure and two others.

Meas, Hidalgo and De Moure were on their way to Torreon with reinforcements, but Velasco retired before their arrival. Since then until the concentration at San Pedro and environs the federal columns, their routes determined by the presence of scattered supplies of water, have been moving in force while rebel detachments have scoured hither and thither between Viesca, Parras and San Pedro, to prevent them concentrating.

STUDENT STRIKE ENDED ABRUPTLY

Ottawa Collegians Fear Consequence of Demonstration Against Dismissal of Father Fallon.

OTTAWA, April 14.—The strike of the students of Ottawa University came to a sudden end this afternoon, when those who went out returned to the college, and instead of sending a committee to Rev. Father Roy, rector, protesting against the removal of Father Fallon and discuss what was termed at the afternoon meeting as existing bilingual conditions, two of the students were selected to tender an apology.

Of the couple of hundred students who walked out this morning and held demonstrations through the city, the great majority were in the junior forms. It was said tonight that an examination would be made, and it was thought if there were any ring-leaders or leaders that they would be found out by Saturday. The students, who explained that on the whole the boys were sorry for their conduct and attributed it to the feeling which had been stirred up over the transfer of Father Fallon, were informed by Father Roy that if any of the prominent agitators were discovered they would be severely dealt with.

SALARIES RAISED BY CITY COUNCIL

Efficiency of Service Should Be Paid for, Say Aldermen.

SIMPSON ON WAR PATH Went After Controller Church for His Attitude on Raises.

"I move that there be no salary increases this year," said Controller Church when the city council went into session yesterday to dispose of the estimates. He pleaded hard times. He expected the increase in the pay of the police.

"Efficiency in civic business is the first consideration," said Ald. Hiltz, referring to the tax rate. "I would prefer a 20-mill rate and get efficiency rather than an 18-mill rate and get a deficit. The rate we fix this year should clean up everything. The bulk of the taxes is paid by men who care more for efficiency than the amount of the tax rate. I would rather vote Commissioner Harris \$12,000 a year than see him pick up and go," said Ald. Hiltz on the matter of salary increases.

"And what I say about Mr. Harris applies to the other heads of departments. Those men are away above the average. We want them to feel that they are appreciated. For every employee of the city there should be a living wage for himself and family. I believe in a minimum wage."

Ald. Wanless moved that no salary increase be given to any now receiving \$2500 or over. He said it would strike off \$10,750 and help to reduce the tax rate.

"I will support the motion to strike out all increases of pay," said Ald. Smith. "While Controller Church is generally wrong, his right this time in opposing salary increases is correct. Mr. Spence enquired if the \$427,300 deficit of last year was to be covered when the debentures for local improvements were sold, and Controller McCarthy assured him the deficit would be so covered. The alderman opposed the increases in salaries to heads of departments."

J. A. Ward Present. At this time former Controller Ward took a seat in the council chamber and he was applauded and applauded to have recovered his health.

Ald. Wickert contended that the present salaries were high enough. He complained about civic employees lobbying for salary increases. "The taxpayers are quite willing to pay the minimum of pay to the employees of the city," said Graham declared, "and I am prepared to pay every official as much as he is worth."

Then Controller Simpson opened fire. "The audacity and presumption of Controller Church astounds me," he said. "He moved in the board of control for the large salary increases and now he moves here to strike out all increases."

"I rise to a point of order," Controller Church expostulated. "He's Two-Faced," Ald. McBride, pounding with the gavel. The controller sat down.

"When I tried to get a minimum wage of \$16 per week, Controller Church fought me," Controller Simpson explained, "and when I tried to get the minimum up to \$18, Controller Church again fought me. He is not sincere in his motion now to strike off all increases. He is two-faced. His motion if adopted, would mean I can make getting \$13.50 or \$14 a week would be robbed of the little 50c a week now recommended. There is nothing fair."

"Sit down," thundered Ald. McBride, pounding with the gavel. The controller sat down.

"When I tried to get a minimum wage of \$16 per week, Controller Church fought me," Controller Simpson explained, "and when I tried to get the minimum up to \$18, Controller Church again fought me. NEWS FROM THE CITY HALL

about Controller Church's motion. It is not decent nor humanitarian. Toronto salaries were voted down by big majorities, and the list of recommended increases were then taken up item by item. The first was that of Corporation Counsel Geary, whose salary is \$8000 and an increase of \$1000 was recommended. Ald. Dunn stated that the arrangement with Mr. Geary when he was appointed, was a good one. He gave \$1000 if he made good. The alderman declared that Mr. Geary had made good, and moved that he be given the \$1000.

Secretary Smith of the Oakwood B.L.A. states that the coal given away in charity in the Earlscourt district during the winter months, in dollars runs into the thousands. The next meeting of the association to lay before the members a coal club scheme, which will be a definite means of preventing out of employment. It is the aim of the executive committee to have a coal club for every family. The scheme will be a definite means of preventing out of employment. It is the aim of the executive committee to have a coal club for every family.

Commissioner Harris' salary was raised from \$8000 to \$9000 on a close vote.

Ald. Rowland made a strong appeal for an increase of the salary of Dr. Hastings, M.O.H., from \$6000 to \$7000, but the vote was against. Controller O'Neill moved a \$500 increase, but the motion failed.

The salary of City Solicitor Johnston was increased from \$6000 to \$7500 by a good majority.

Commissioner Forman's salary was increased from \$7500 to \$8500 without much objection and likewise City Clerk Littlejohn's salary was raised from \$4500 to \$4750.

City Auditor Sterling's salary was raised from \$4000 to \$4500. Commissioner Chalmers' from \$3500 to \$4000 and Commissioner Wilson's from \$3500 to \$4000.

The aid and list of heads of departments, and Ald. Wickert remarked, "The salary bug is very strong in the city hall."

Then the recommended increases for thirteen of the civic legal staff were adopted without division.

Ald. McBride moved that there be added to the list for increase in salaries the sixty-two employees recommended by the heads of departments and not approved by the board of control. He said the total amount would be \$2400.

Controller O'Neill also moved that two names not on the list be placed there.

Controller McCarthy objected to the two motions declaring them out of order. There was a lengthy wrangle over the ruling given by the chairman that the motions of McCarthy's objection was sustained.

"Lodge influence," Controller McCarthy moved that the balance of the list of increases in pay be adopted, but before the motion was adopted, Ald. D. Spence moved that A. W. Laver, pay clerk in the treasury department, be increased from \$1500 to \$1600, or \$50 more than the board recommended.

"Lodge influence is rampant; rank favoritism prevails," Controller Church interjected.

Mr. Laver did not get the \$50 additional, although the vote was close. Ald. Robbins tried to get J. B. Sherring, stationery and printing clerk, an additional \$50, but failed.

Ald. McBride worked hard to get increases for 44 employees who had been recommended by the heads of departments for more pay, and who were not recommended by the board of control for increases. He said the extra cost would be about \$4000.

Controller McCarthy explained that the heads of departments are not to be hasty in making recommendations of the board of control. Ald. McBride challenged the statement.

It was now 10 p.m. and the Ald. McBride, who had been quiet up to that time, started in filibustering, and when he was squelched by Controller Simpson, Controller Church tried to keep up the filibustering, but there were cries of "Vote! Vote!"

Controller Church kept at it, and the rest of the council enjoyed themselves making facetious remarks audible to others than Controller Church. "There's not one head of the departments content with the increase of pay recommended by the board of control," Ald. McBride insisted. His motion to give increases to 44 employees not on the board of control list was lost by 15 to 7.

Controller Simpson then moved that the minimum pay of all unskilled workmen and temporary clerks be \$15 per week. He said this would affect over a thousand employees and the cost would be \$60,000.

What effect would a \$15 minimum have upon other interests in the city that employ unskilled labor? Ald. Cameron asked.

"A city council represents the city at large, and its duty is to care for the interests of all citizens," Controller Simpson said, and then asked: "Will \$13.50 a week provide a fair living for a man and his family?" He urged that Toronto is wealthy enough to give its employees a fair living wage.

Ald. Cameron Wicklett, F. Spence, D. Spence, opposed the \$15 minimum, and Ald. Robbins, Ald. Meredith and Controller Church supported it. It carried by a vote of 14 to 5.

On motion of Ald. Cameron, the increase of the salary of Dr. Hastings, M.O.H., from \$6000 to \$7000 was replaced in the report and adopted.

Ald. Spence put through a motion that the board of control consider salary increases for John McMillan, steward; John Wilson, deputy governor, and John Brown, engineer, all employed at Toronto Jail.

STREETS ALERED BUT NOT SWEEPED

Ward Seven Merchants Want to See the Sweepers Busy.

DR. HOPKINS IS BETTER Has Recovered From Accident and Resumed His Practice.

The prayers of the Dundas street merchants have at last been heard, and the dust nuisance, which for the past week has been so annoying to them, is now considerably lessened by the reappearance of the water sprinklers. But while they are grateful for this temporary alleviation, they feel that a staff of street sweepers should be sent out to restore the street to some semblance of cleanliness, for the dust of a long winter still remains on the pavement, the converted for the present into a nuisance.

The dust, which last week blew into the stores in clouds, and merchants alike rejoice. The conditions in the residential streets are in no way improved, and in clouds of every passing breeze. Many of the downtown upper streets have been cleaned for some weeks, and it is hoped that some of the ward seven streets will soon receive a preliminary sprinkling of oil.

Carlton Purple Star, L.O.L. No. 602, held their annual past masters' night in St. James Hall last night with great attendance present, and the offices occupied by the past masters of four initiations were conferred, W. Bro. Geo. Syme, ex. presiding as master. A banquet followed the business session, and the tables were given by several prominent Organizers.

Dr. R. R. Hopkins for the past few weeks recuperating from the effects of a serious accident, is reported to be fully recovered, and has resumed his practice.

The Tailors' Union of ward seven met last night for a business session at the home of Mrs. J. J. Dwyer, 100 Dundas street. The meeting was held in the basement of the church. All boys in the district cordially invited to join the association.

A grand social and dance will be held at the home of Mrs. J. J. Dwyer, 100 Dundas street, on Friday evening, April 17, under the auspices of the Toronto Y.M.C.A. The affair will be devoted to the expenses of the completion of the club house. Gun Club Banquet.

THE SUBURBS, ANNEXATION AND FIRE PROTECTION

The suburbs continue to be visited by fires. Family after family is being rendered homeless in a night. There is no water supply, no fire brigade, no steam pumps or even firemen. But, worse than that, according to The Telegram, no building bylaws. Read this, from its Monday issue:

FAIRBANK, April 13.—That there is great need of legislation whereby York Township Council might be enabled to regulate the erection of buildings in the township, it is apparent when one notes the habits of builders in crowding many houses in small lots. One case in particular might be cited, when a builder is at present erecting eight houses on a forty-foot lot. This will greatly restrict the size of the yard area, and the privies will be almost within reach of the back door of the houses.

This utter lack of building restrictions is being taken advantage of in other places, too, and the council is endeavoring to have a stop put to it by obtaining legislation to prevent it in future.

The legislature has refused the appeal of Reeve Syme of York Township that Toronto be compelled to supply water and drainage to the suburbs. Mayor Hocken says he will take up the question later, perhaps. In the meantime nothing will be done. Only Runnymede proposes to incorporate as a village on the borders of ward seven.

It seems to The Toronto World that the one way out is for the city to make a reasonable proposal to take over the township between the city and the Humber, between St. Clair and Eglinton west of Dovercourt road, and up to St. Clair on the east side, at a fixed assessment for the three years, giving them, in the meantime, water extensions on a local improvement tax, connecting them, in the meantime, with the police, fire and health protection that the city provides. The greatest danger to the city from future annexation is the class of building, such as The Telegram describes, coming into the city later on in great quantity. Surely, in self-defence, the city ought to make a reasonable annexation proposal forthwith. The sooner the problems are tackled the easier it will be for the town. Congested suburbs of inflammable buildings are the hardest of all to digest.

Annexation solved all these problems in the past, and we know of nothing to take its place. A city that ignores its suburbs, that refuses responsibility for them, that does not help them in their municipal problems, does not deserve to grow like Toronto is growing.

Toronto is advancing as a city. Its real estate is growing into immense proportions, factories and people are coming here from the four quarters, and some of the papers, some of the aldermen, regard this ring of live, hustling humanity about the city as a curse.

The Telegram so regards them, and has told them so repeatedly. It has no plan for the problem; it is too busy fighting what it calls the land grabbers, and by blocking the annexation, say of the district north of Danforth avenue, it has added a thousand dollars a year an acre, for the past six years, to twelve hundred acres or more of land that the owners won't butcher because The Telegram allows them to sit on it under the heaviest kind of township taxes, and at the same time prevents the little owners who are building homes, who want water and fire protection, and sewers, from getting them by way of annexation.

Who are these land owners that won't butcher their land, and who enjoy the special protection of The Telegram, and who ineffectually block every effort to cure suburban conditions by the one available recourse, annexation?

YOUTHS CHARGED WITH BURGLARY

Trio Will Be Taken to Schomberg to Stand Trial.

Notionally, charged with vagrancy in yesterday's police court, Gordon Thomas, George Radler and William Moore will be turned over to the county authorities to stand trial for breaking into the warehouse of the Toronto and York Road Company, at Schomberg, on Friday night last.

The waiting room at Schomberg has been entered several times. On Saturday afternoon local detectives found most of the stolen goods "planted" underneath a shack in North Toronto, but not having any report of their loss, did not know to whom they belonged. Acting Detective Young of No. 5 Division eventually learned that the waiting room had been entered, and went on Sunday and got the three men. According to the police, they secured a horse and wagon to take away the haul, which amounted to about \$100. The stunt was to have been disposed of in Toronto yesterday.

THORNHILL

The regular monthly meeting of the Thornhill Branch of the Women's Institute was held on Thursday, April 16, at 2:30 p.m., at the home of Mrs. W. D. Scott. Papers will be given by Mrs. Ashcroft, Mrs. J. J. Dwyer, and Mrs. Carson. Members will respond to the roll call by a quotation from Shakespeare.

HYDRO LIGHTS INSTALLED IN CEDARVALE DISTRICT

People in the Cedarvale district will at last have street lights, as the Sydney Waterworks started to install the lamps. Work was commenced this morning on Gledhill avenue, and will be completed on King Edward, Coleridge, and Woodbine avenues. For some time past the poles and wires have been put up, but the street lights have not been turned on. The dust gets so white with dust, and every thing else is in a terrible mess. Yesterday the dust was flying in clouds, and a very bad case of dust was reported. The people think that the road should be scraped right away, before the dust gets so thick, and that it would not be necessary to oil it very frequently later on. LABORER FOUND DEAD IN EMPLOYER'S STABLE

William Cropp Died From an Attack of Epilepsy — No Inquest.

The body of William Cropp, a laborer who worked for Roger Preston, 280 Danforth avenue, was found yesterday by his employer in a stable at the rear of his premises.

The man was known to be an epileptic, and it is generally supposed that he succumbed to a fit while attending to his duties. He was an Englishman, about 48 years of age, single, and lived at 316 Galloway street. Chief Coroner Johnston decided that an inquest was unnecessary.

FINE CATTLE SHOW AT THISTLETOWN

First Spring Fair Attracted Banner Attendance Yesterday.

COMPETITION WAS KEEN

Single Carriage Horse and Harness the Most Popular Class.

All the dusty roads radiating from Thistletown in the aged horse trail class were routes for the Weston, York and Etobicoke Agricultural Societies Spring Fair.

Vehicles were at a premium in many of the surrounding villages, so many were anxious to take advantage of the market. In fact the presence of so many limousines, taxis and buggies prompted a Yorkshire visitor to jocularly ask if he had "struck" New York.

A Fine Show. The fair itself was voted one of the best held by the society, and many fine specimens of horses and cattle were on exhibition. The class that produced the best of the present of the spring carriage horse and harness. The first prize was awarded to Mrs. R. Boyes of Woodhill, New York.

Among the stallions perhaps the best at the show was the Percheron shown by M. Steen of Derby West, which carried off the first prize in his class.

George Parr of Thistletown carried off the first prize in the aged horse trail class with a really fine specimen, while Bert Barker, also of Thistletown, won first prize in the class of single carriage horse and harness. The first prize was awarded to Mrs. R. Boyes of Woodhill, New York.

The full awards are as follows: Carriage colts (1912)—J. W. Steen, Derby West. Carriage colts (1913)—J. W. Steen, Derby West. Yearling Clydesdale—J. M. Gardhouse, Weston; J. J. Johnson, Woodbridge. Hackney stallion—T. H. and Chas. Percheron stallion—M. Steen, Derby West; D. H. Henson, Etobicoke. Light carriage horse and harness—Mrs. R. Boyes, Woodhill; J. J. Johnson, Woodbridge. Car

CABINET AWAITS RAILWAYS' APPEAL

Roads Have Not Yet Taken Action Regarding Rate Reduction.

By a Staff Reporter. OTTAWA, April 14.—No official announcement has yet been made respecting an appeal to the governor-in-council from the recent judgment of the board of railway commissioners in the western freight rates case.

Technical Points Raised. In this connection there is some surprise at the provision for appeal from the board of railway commissioners to the governor-in-council being retained in the bill to revise and consolidate the Railway Act.

Government's Powers Wide. The powers conferred upon the government at the revision of the act, upon the bill by the railway commission is of the most sweeping character.

SIMPLIFY PROGRAM FOR HIGH SCHOOLS

President of O. E. A. Declares Present System is Too Overloaded.

DELEGATES' RECEPTION

Dr. Colquhoun Says Superannuation Will Come Into Force Next Session.

A simplified program for high schools was the proposal made by G. A. Mayhew, president of the Ontario Educational Association at the reception of the convention in the university buildings.

Dr. Colquhoun, the deputy minister of education, in his address to the state teachers, said that the government had no intention of abandoning efforts in this direction.

Dr. Seath Has No Intention of Abandoning Efforts in This Direction.

That no sane educationist would support the "bread-and-butter" theory of education, which aimed at teaching only that was useful in general life, and that the ignorance of the Bible in Ontario is phenomenal were the salient features of the address delivered by Dr. John Seath, Ontario superintendent of education, before the public school section of the Ontario Educational Association in the main building of the University of Toronto yesterday.

RUGS WERE USED TO EXPRESS THOUGHTS

Ancients Employed Highly Colored Floor Coverings for This Purpose.

ITALIAN RENAISSANCE

Professor Parsons Terms It "the Expression of Art Fundamentally Classic."

In a unique and impressive manner Prof. Parsons demonstrated to the ladies and gentlemen who are profiting themselves by his lectures, the value of being able to discriminate in contrasts and likenesses of the fundamental colors and their qualities. Just as in music or in a nation's language, a definite idea is expressed, so is a color expressive of an individual's idea or thought. Colors, he stated, should express feelings and knowledge. Interior furnishings create what the atmospheric conditions lack. The lecturer used handsome draperies and artistic wall papers in proving his theories, which were certainly well grounded. The unnecessary contrasts and the inharmonious combinations employed because of the lack of knowledge in color values were further explained, and the professor besought his audience to refrain from superfluous decorations, intense contrasts and inartistic combinations.

He proved that we are not always right in scorning a strongly marked rug, which opposed our taste in floor coverings. These rugs were used in ancient times as a means of expressing thoughts that we now write on paper. Contrasting values were at one time certain motifs. The Gothic period was the result of a religious upheaval—hence every thought of God and of some intense thought of that religious period.

The explanation of the various color relations was most fascinating and it was readily agreed after demonstration that full intense complements could never be successfully brought together, that fundamental decorations could never appear to the best advantage when equally disposed and that the larger the area of a room is the less should be the intensity of the coloring. The actual experiences and disposition of an individual greatly influence color.

In dealing with ornamentation the speaker explained the two sources, that of nature and that of absolute abstraction, the proportion in which these occur determining the period. The selection of these periods is vital. "Art is selection," said Prof. Parsons, "selection is a knowledge of relations, and proportion, and not that this understanding of a period, and this period expression is the expression of a nation's thought."

In the afternoon Prof. Parsons favored his audience with an illustrated lantern lecture on the Italian Renaissance and characteristic art were exhibited of his subject, the lecturer led a crowded assembly thru the mysteries of period study. Many phases of the art and characteristic art were explained, and, judging from the intelligent manner in which questions were asked and answered, the lecturer's efforts were highly successful.

"The three essentials in obtaining pure art are simplicity, sincerity and consistency—consistency in the structural decoration and art expression."

Comparisons were made between the various periods and the reasons why they were developed explained.

The Italian Renaissance was the expression of art fundamentally classic, said the speaker, and that it is more than the Italian period when it is done right. It is a wonderful decoration."

Prof. Parsons will address a mass meeting at Massey Hall Wednesday night.

Famous Specialist's Recipe for Catarrhal Deafness and Head Noises.

If you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving them from suffering perhaps the total deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporarily relieve the complaint, and seldom, if ever, effect a permanent cure. This formula, which takes much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at their own drugist 1 oz. Parment (double strength), about 50 worth. Take this home, add to it 1/2 pint hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful three times a day.

The first dose promptly ends the most distressing head noises, headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Head noises and dizziness quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh, therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or occurs in any form, should give this prescription a trial. There is nothing better. Important—In ordering Parment always specify that you want Double Strength; your drugist has it, or he can get it for you. Write to the International Laboratories, 74 St. Antoine street, Montreal, P.Q., who make a specialty of it.

Baby's Illness

It is not difficult to see that something is wrong. Loss of appetite, dry skin, heavy eyes, coated tongue, languor are quickly detected by the careful mother. I think it is well that mothers understand the signs and symptoms of baby illnesses. Not that this knowledge should make the new mothers unduly nervous and worried over their children, and not that this knowledge can take the physician's place in a case of serious illness, but simply that the kind of illness may be understood, and the mother be able to give intelligent assistance to the doctor in charge; or perhaps apply valuable remedies before the doctor's arrival.

If you have had your ears and eyes open when traveling our streets, either on foot or by car, you have noticed a great many coughs and colds this winter. And if you are a mother you have noticed children's coughs, and you have "turned your baby's face away," and hurried home to spray his throat. It is too true that sore throat, tonsillitis, measles, and diphtheria cough have had full sway during this long, cold, windy, dusty season. We have discussed the causes and treatment of grippe and influenza, and today shall deal with bronchitis. By bronchitis is meant inflammation of the air passages of the lungs. Cold, wet weather is especially conducive to this disease, and delicate children are especially liable to contract it. It frequently follows a gripe, and often accompanies attacks of measles and whooping cough. It is always serious, and may begin with an ordinary feverish cold, which gradually spreads downward until it reaches the bronchial mucous membrane.

There is always some fever and the breathing is quick and short, and the nostrils dilate with each breath. The cough is troublesome, especially at night; on awaking the ear to the nostrils dilate with each breath. The Money Earning Home

An interesting discussion is promised readers of this column on the question of earning money at home. Any number of women, militant "women's rights," perhaps, are objecting strenuously to any woman with man's rights, or perhaps, are objecting strenuously to any woman with man's rights, or perhaps, are objecting strenuously to any woman with man's rights.

Books by Kate V. St. Maur tell a great many practical things about home money making for the fortunate woman who has a little ground where small fruits, tender vegetables and a few rare flowers can be raised. These books describe rabbit, guinea pig, cat and bird raising. Bee-keeping, the mushroom industry and many other things are explained in practical ways, but so few women have any ground and in desperation they turn to the sewing machine, and eventually to sweat-shop work. There are businesses that do not require any special equipment to conduct. A woman, real estate broker, who has a beautiful home near this city, says that she has established a remarkable "beauty shop" in their home and their indifferently good perfumes and powders sell as fast as they can make them.

Whether you raise seedlings, do manicuring, sell cookies, keep boarders, make baskets, dry clean laces and gloves, wash lace curtains or mend broken goods, you can make a good thing of it. Anyone will help a woman who is trying to help herself and success is more easily found at home than in the outside world.

FORMING AN IMPERIAL UNION TO SECURE EQUAL FRANCHISE

Remarkable Success of the Extension of the Parliamentary Vote to Women in Australia Explained to Toronto Suffragists by Round the World Advocates.

Australia's advance along the lines of good citizenship and just treatment of women and children since the extension of the parliamentary franchise, came as a revelation as portrayed before the Equal Suffrage Association at the Margaret Eaton Hall yesterday afternoon. Miss Hodge, the eminent educationist, who went from England to Australia 17 years ago, and became identified with the movement for the enfranchisement of women there, while principal of an important collegiate institute, was the speaker. Causes and results were presented in graphic form, and the true private and public status of women. What was of greater importance than statutory enactments was an enlightened public opinion. This was strikingly illustrated in three criminal prosecutions, one in Australia and two in England.

CAUSE OF MILITANCY

Without endorsing the British militant methods, Miss Hodge at the outset declared it to be her sincere belief that the militancy had its birth in the spirit of oppressed motherhood in the old land, where the masculine public opinion was decades behind that of the overseas dominions with respect to the true private and public status of women. What was of greater importance than statutory enactments was an enlightened public opinion. This was strikingly illustrated in three criminal prosecutions, one in Australia and two in England.

PROTECTION OF CHILDREN

Members of parliament have evinced an increasing interest in laws for the protection of childhood. A system of government nurses for the new settlements, and advanced legislation in respect to health, have greatly reduced infant mortality. Before the health laws were enacted 120 infants died under one year out of every 1,000. Despite the extreme heat of the climate the death rate of such infants has been reduced to 88 per thousand.

Clear Up, First Of All

That's the battle cry. Clear up. After you have got the rubbish out of the way, you can settle your mind to an orderly plan of thinking. And clearing up the rubbish means just one thing, that is burning up the rubbish. Don't fill up the lanes. Not that much more rubbish matters as far as most of the lanes of this city are concerned, for they are a disgrace to humanity.

OPRESSED IN ENGLAND

In the northern part of England 66,000 women factory workers sent a deputation to the employers asking for improved conditions, which were refused them. In an address to a meeting of the women of the province, an English economist, he told them frankly that the whole 96,000 were of less consequence to the politicians than one drunken bootmaker who had a parliamentary vote.

WILL DO FLOWERS

CONDUCTED BY RACHEL R. TODD

Spring Beauty

Claytonia Virginica.

"How delicate the leafy veil Thru which you house of God Gleams 'mid the peace of this deep dale."—Wordsworth.

On Good Friday we found Spring Beauty, deep in a sunny, wind-protected dell reveling in a few faint gleams of sunshine that pierced the grey and cloudy sky. Brightly green, the twin leaves stood straight, slowly unfurling from their root stalk, and sheltering within their two pointed lance-like blades a trembling flower stem, so strong enough to bear aloft the four or six tight closed buds just issuing here and there from the bending stem.

"So soft, so delicate, so sweet, she came. Youth's daisies glow just dawnning on her cheek."—Goldsmith.

Notice these twin leaves, three to six inches high, an inch across at widest point, deep veins running parallel from tip to root sheath; in color these twins a true "lily green." Then with tender care run gentle fingers into the soft, cool and moist just an inch from where the leaves spring up. You will find the firm, little, round, nut-shaped tuber, which is the heart and life and soul of Spring Beauty. Leave it alone safe in Mother Nature's care.

A few more days of sunshine are needed to open the blossoms, five-petaled pink-veined and holding the smallest golden within each flower heart. Down these pink-veined paths creep the greedy bees to reach the golden heart, turning always toward the sun. Spring Beauty has too faint a spirit to tolerate the touch of human hand. Pluck the nodding blossom-laden stem and lo!

A pitiless sight, that one so fair, Warm touch of soft and tremulous hand Shall woo to soft and sudden death."

The stem of a single blossom growing naked from the ground is called a scape. If the flower is made up of more than one blossom the main stem is the peduncle, while the short stems of the separate blossoms are pedicels. Spring Beauty's blossoms are pedicel on a peduncle.

TUMOR IN THE STOMACH

Completely Removed When She Took "Fruit-a-tives."

Newbury, Ont., April 4th, 1913. "Some years ago I was sick in bed and thought I was going to die. I had a growth in my stomach which the doctors said was a tumor and they said that the only thing to do was to go to the hospital and have the tumor removed. I dreaded an operation, but some other woman told me of 'Fruit-a-tives' and I decided to try them. I had heard of another woman who had been cured of a similar growth in the stomach by taking 'Fruit-a-tives' and I decided to try them. I began to take 'Fruit-a-tives' with the happy result that they cured me. I have not been to see a doctor since and my health is first-class."

"I recommend 'Fruit-a-tives' every time I get a chance, and will be glad to have you publish this letter, as some other woman may now be a sufferer from the same trouble and 'Fruit-a-tives' will cure her."

MRS. A. McDONALD. 50c a box, \$2 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

tion since the Spanish-American war—six warships and 21,000 men will comprise the force of Tampico.

Huerta's Surrender Expected. Everywhere, at the White House, the state department and the navy department, the hope was expressed that the despatch of the fleet would not lead to serious consequences, and there was a confident prediction among administration officials that Gen. Huerta would see the wisdom of satisfying the American demand and close the incident.

Officials were careful to point out that negotiations with the Huerta government had not ended and the way was still open to Gen. Huerta to make demands. In the meantime, the navy department sent complete instructions to Rear-Admiral Badger, commander-in-chief of the Atlantic fleet, on board the battleship Arkansas at Hampton Roads. Rear Ad-

miral Fliske, chief of the bureau of operations, left here for the Roads tonight to personally explain to Admiral Badger the diplomatic side of the situation and the despatches from Rear-Admiral Mayo thus far received.

Warships For Service. Indicating the exact ships which will accompany Admiral Badger the navy department issued the following: "Admiral Badger will sail with him the battleships Arkansas, Louisiana, New Hampshire, Michigan, Vermont, New Jersey and South Carolina, which last ship has been intercepted on her way from Haiti to Tampico, and will start today tomorrow.

"The gunboat Tacoma, now at Boston, has been ordered also to Tampico, and will start today tomorrow.

"The gunboat Nashville, now at Monte Cristi, San Domingo, has been ordered to Quinsigamont to coal, and then to Tampico.

"The Rhode Island, Nebraska, Virginia and Georgia are now at Boston, and have been decided whether they will join Admiral Badger's force.

"The transport Hancock will leave New Orleans for Tampico today, with the first regiment of the expeditionary force of marines.

The foregoing ships are in addition to the Utah, Connecticut, Minnesota, Des Moines, Connecticut, San Francisco, now at Tampico, and the Florida and Prairie, now at Vera Cruz. The gunboat Florida, at Pensacola, Fla., has been ordered to stand by for orders.

No Orders. While the navy moved on the Atlantic coast, Secretary Daniels tonight was giving his attention to the situation in the Pacific already are in Mexican waters.

While the navy was active, not a wheel turned in the army. Two explanations for this were advanced by the department. The Constitutionalist who are in control of Northern Mexico should not misinterpret the action, and the fact that the United States already has a big fighting force within striking distance of Mexico.

High administration officials do not expect critical developments, but they are prepared for any emergency. Secretary Bryan, who is ill, had intended to leave for Florida, but he cancelled his reservation, and announced that he would stay in Washington indefinitely.

Huerta Made Apology. It became known today that Senator Algiara, chargé of the Mexican Embassy here, called personally on Secretary Bryan last Saturday and transmitted an apology of President Huerta for the Tampico incident. Secretary Bryan returned to Senator Algiara at that time, it was said today, that the United States would insist on the American flag being saluted at Tampico.

Friends of Huerta in Washington, realizing the serious construction put on the Tampico affair by officials here, telegraphed to Mexico City advising that the request for the salute be complied with at once.

No Intervention. Cabinet officers and others were insistent that no change in the general policy toward Mexico was imminent, and that, so far as possible, the factions would be left to fight interference.

News of the despatch of the fleet to Mexican waters was received in congress

Lacrosse Toronto Team May Join N.L.U.

ROSEDALE LACROSSE TEAM FOR THE N.L.U.

Young Torontos, Backed by T. L. and A. A., Have Applied for Admission.

The Young Toronto Lacrosse Club has made application for admission to the National Lacrosse Union on condition that the teams play together on an amateur basis. On this understanding the officers of the Toronto Lacrosse and Athletic Association, owners of the Rosedale grounds, have given the proposition their consent and it will also get their support. The Young Torontos some weeks ago were given the right to practice and play their games this season at Rosedale. They have already entered the senior series of the O.A.L.A.

A delegate will represent the Young Torontos at the annual meeting of the N.L.U. on Wednesday, April 15. Morris Knott is looking after the preliminary arrangements for the Young Torontos, and if the boys are admitted it is his intention to strengthen up as much as possible in order to bring lacrosse back to its own at Rosedale, where it flourishes not so very long ago.

CARPENTER SCORES K.O. IN FIRST ROUND

Mitchell, English Amateur, Outclassed in Bout in Paris.

PARIS, April 14.—George S. Mitchell, the amateur heavyweight champion of North England, was knocked out tonight by the French champion, Georges Carpentier, in the first round, after one minute and thirty-five seconds of fighting. At that he managed to last twenty-two seconds longer against the Frenchman than did Edmond Wells in his bout with Carpentier at the National Sporting Club in London a few months ago.

Mitchell, who is a nephew of P. H. Hinesworth, the chief Liberal whip in the British Parliament, hails from Bradford. He stands six feet three inches and weighs 177 pounds—about the same weight as Carpentier. He had the advantage, however, of his great height and reach.

In the single round of the fight Carpentier knocked the Englishman down five times. Four times he managed to get to his feet after the count of nine, but on the fifth knockdown the referee counted only six and then said: "Gentlemen, the fight is over. This man has had enough."

Mitchell entered the contest, he said in advance, with no idea of beating Carpentier; he was merely curious to see how long he could last. He displayed great pluck and managed to land one or two blows on the Frenchman's chest and shoulders. Before he was finally disposed of, he delivered one vicious swing, which doubtless would have knocked out the Frenchman, but it failed to find the mark by a fraction of an inch.

W. E. Basket Ballers Still Disqualified

The registration committee of the Ontario Amateur Athletic Union scored a great victory last night at a special meeting at 22 College street. President Thos. Brownlee was in the chair, and there was a representative discussion after a lengthy discussion the resolution reinstating the west end basketballers passed at the last meeting was rescinded by about 40 to 19.

Another motion was carried requesting the registration committee, Messrs. Brownlee, Nelson and Crow to withdraw their resignations was carried, and the gentlemen obliged.

At a meeting of the A.A.U. of C. boxing committee later it was decided that no training expenses be allowed as is usually demanded by the clubs.

Eddie Cicotte

Pitcher Eddie Cicotte is another case of a come-back. After being cast off by the Boston Americans he twirled winning ball for the Chicago White Sox. Walter Johnson was the only other pitcher in the league with a better average last season.

Frank Chance Hopes For First Division This Year

Says His Club Is Considerably Strengthened—All He Asks For Is Some Breaks in the Luck.

When asked his opinion about the New York Americans for this season Frank Chance said: "My ideas for training a ball club in the spring differ essentially from those put into practice by many other managers of the big league clubs, but I have obtained good results, and am satisfied with my system. I do not regard the training camp as a school where young men are to learn how to play ball. It is a place where athletes who already know how to play ball can get into physical condition, and so my work is confined to conditioning, not teaching, the ball players.

"I never drive my ball club hard in the spring, for I do not want my players to feel that they have played half a season before the season really opens. While some clubs go south in February, I get my players together earlier than March 1, except that some of the pitchers may be sent to the baths. But the month or six weeks that intervened between March 1 and the opening of the season is sufficient to condition any ball player who is going to get into condition at all.

"In the training camps of which I have had charge, there has never been more than one practice session daily.

"When the Yankees returned from Bermuda last year they were as well trained as any ball club that ever went to the barrier, but they struck some sudden change in the weather when they reached New York, and were practically wrecked before the season opened.

"I have been asked repeatedly what I think are the chances for the Yankees this year, and I will say this: That, if the club gets some good breaks in the luck, and does not run into mishaps such as disabled the players last spring, we should get into the first division. The Yankees are a greatly changed club from the one we started with last season with. Last year we started with a poor ball club, and with most of the pitchers disabled in some way or of the club is not as good as I would like to have. But we have made some valuable additions in speed, and base running will not be a lost art with the Yankees this year. This speed with the pitching staff should make up for much that the club lacks in hitting, and, as I have said above, if the club gets some good breaks, we will let them all know we are in the light, and finish in the first division."

I. A. A. ELECTIONS AT ANNUAL MEETING

Twenty-Seventh Meeting at Strollers' Club Reported Increased Interest.

The twenty-seventh annual meeting of the Island Aquatic Association was held last night at the Strollers' Club, 64 Yonge street, and about fifty members were in attendance. As a fitting finale to one of the most successful seasons in the history of the club, enthusiasm reigned supreme, and all those present displayed a lively interest in the proceedings. Most of the officers were returned by acclamation, but in the few that were balloted for keen rivalry existed.

Magistrate Let Jake Play Ball

NEW YORK, April 14.—A Brooklyn magistrate permitted Jake Daubert of the Brooklyn National League club in the Coney Island police court today so that his team might not be deprived of the services of its captain and first baseman on the opening day of the championship season.

Daubert was in court on a summons to explain why he violated, as alleged, the Sunday law relating to baseball. The Superior's captain is part owner of a semi-professional team which last Sunday was defeated by the Brooklyn National second team, Daubert playing with the professionals. No admission was received, but according to the police a four-page biography of Daubert was sold at the playing grounds.

The magistrate told Daubert he could play with the Brooklyn against Boston today, but to be in court again tomorrow.

Konigsbier (King's Beer)

Is the Popular Beverage of the Day.

Men are fast realizing that they cannot do effective work and use heavily charged alcoholic drinks.

At the same time they must have something more satisfying than merely water as a beverage.

The drink of the modern man must be nourishing, thirst-quenching, refreshing and appetizing, and it must be absolutely pure.

Dawes' *Konigsbier* (King's Beer) meets all these requirements and is the ideal beverage today for men and women.

If your dealer cannot supply *Konigsbier* order direct from us.

HARNESS HORSES WORKING OUT ON FAST TRACK AT DUFFERIN PARK

Dufferin track was alive with horses yesterday morning. E. C. Lewis arrived on Monday from Port Arthur with his string of harness horses for the meeting to be given by the Dufferin Driving Club and Toronto Driving Club, both in June.

Walker's horses expected today. Also Burtchell's string from the South—Warm Wave Strikes the Track.

The warm wave had not arrived when the faithful trainers brought out their horses yesterday morning at Woodbine Park, and the customary jogging was indulged in under blankets. However, there was a more cheerful aspect in the afternoon. Continued rain will soon lay out the track, and the railbirds may look for something in the speed line.

Red Walker is expected from Jamestown today with his string, which comprises about fifteen horses; also Burtchell's string from Charleston. The track was much improved yesterday, and smarter work will be the order if nothing interferes. Everything stabled at Woodbine park was out on the track yesterday and given slow work. A number of them breezed eighth.

A number of gallopers were worked at Dufferin Park yesterday, where the track is really good. Mr. Airheart worked Barrett and Barica three-eighths in .38. The nice and handy, and they were full of run. Another pair were Celerity and handman; they worked the three-eighths

W. A. Collins gave Major Hunter, 2:17 1/2, and Red Wilkes a number of miles slow. None of them are stepping fast, but the track is so good the horses feel the lacker up. Mr. E. C. Lewis and his father worked Jay Worthy (2:18 1/2), by Arworthy, and Rose Stahl by Birgen (2:04 1/2), three times. Another pair were Celerity and handman; they worked the three-eighths

Wm. Fleming had all of his string out and gave them their regular work. He has not stepped any of them as yet, but he is working slow miles with most of them this week. John Fleming had Consequence, by McPherson, and Dexter, by Consequence, as well as Afton L., 2:13 1/2, trotter out, and gave them their usual work. His string looks well and will be let down a notch in a short time. And here is news, but let it be said in a whisper, John Lewis of running horse fame was right up in the sheet this week behind a trotter owned by Mr. Hezlewood. He looks quite natural and will no doubt soon be in the game.

LAWN BOWLING TOURNAMENT AT FERGUS IN JUNE. FERGUS, April 14.—Commencing on Monday, June 22, a large tournament will be held on the beautiful greens here and nothing will be spared to make it a great success, as well as an enjoyment for those present. Suitable prizes will be donated.

At the annual meeting, held recently, the following officers were elected: Patron and patroness, Mr. and Mrs. C. K. McGregor; president, David Psa; vice-president, H. L. Harrison; secretary-treasurer, E. E. Ahrens. Any information will be gladly given to any club regarding the tournament.

OLIVET CRICKET CLUB. At a meeting of the executive of the Olivet Cricket Club last night final arrangements were made for the annual concert which is to be held on Thursday, April 23, instead of Tuesday, 21st, as previously arranged. The date was changed on account of conflicting with a big church meeting. It was also decided that there should not be any charge for admission, but that a collection should be taken up. Some high-class talent has been secured, and the club give a cordial invitation to all Toronto cricketers to this night. The executive have elected the following officers: president, Mr. E. Collier, 237 Davenport road; all the one or two good men, and the secretary will be pleased to hear from anyone wishing to join. We will gladly welcome any newcomer from the old land who has not yet joined one of the Toronto teams.

ANTI-TREATING LEGISLATION MAY SOON BE INTRODUCED

Hon. W. J. Hanna Makes Significant Announcement During His Speech in the Abolish the Bar Debate, Which Occupied All Day in the Legislature.

Temperance day has come and gone upon the floor of the Ontario Legislature, and, according to precedent, the thunders of debate rolled all day long, and even late into the evening. Forth once more into the field the opposition leader led his followers under the banner of abolish-the-bar, and pled up again arguments that would show the day of reckoning with this subject to be at hand, and the tides of public sentiment setting strongly against these places of social entertainment.

ment that their plank was extreme, he would refer to the stand taken by the different churches, and he stated in detail the occasions on which the Methodist, Anglican, Presbyterian, Baptist and all other organizations had pledged themselves for the abolition of the bar. Surely they were not to be counted extreme.

The Shop Sale. Mr. Rowell then dealt with the question as to why shops are not included in this measure, and explained that his party had gone as far as the organized temperance party asked them to go. He pointed out that his measure left this part of the reform entirely to the community. Under the act it would be possible for each district to abolish the sale of liquor in shops should they think it advisable.

Tide is Running. One point he made clear was that the Liberal party, far from being discouraged at by-election returns, would not avert one hair's breadth from their position. It had been said, and rightly, that some who had hitherto stood by them had now departed, but even so there was more to offset this loss. In all English-speaking countries the tide was running against the open bar and the organized traffic and the vote on the Scott Act in Ontario counties showed the determination of the people.

Hon. Mr. Hanna. In his introductory remarks Hon. Mr. Hanna referred to the deputation of young Conservatives and the argument that the government should accede to their request, and that in such a case the opposition, with their leader, would walk across the floor to the government benches. The old Liberal government had enjoyed a request from 192,000 people in a plebiscite and yet had not hearkened. For long years they had waited and no response came, and yet in all that time not a man in the government was condemned by the present leader of the opposition. If today there was any moving along in temperance lines the Whitney government was largely responsible.

The minister drew a comparison between the actual legislation placed on the statute book by the respective governments. That of the Ross government was summed up in the regulating of brewers' licenses, the arranging of drugists' licenses and other minor affairs. They were years of silence, with no progress, and then came Sir James Whitney with a pledge to the province a pledge which had been steadily redeemed from the first day of power. The licenses had been cut from 2516 to 1388 and 81 shop licenses had gone forever.

Whitney was returned," declared Mr. Hanna. His Amendment. He then moved the following resolution: "This house recognizes the duty cast upon it to minimize as far as possible the evil effects of the drink habit by wise restrictions upon the traffic in intoxicating liquors. This house also recognizes that having regard to the decision of the judicial committee of the privy council as to the respective jurisdiction of the Dominion and the province, it is impossible for the province to either legislate to abolish or control the manufacture within or the importation into the province of intoxicating liquors; that great good has resulted from the adoption and operation of local option under the provisions of legislation in that behalf by which in the localities adopting it the sale of intoxicating liquors in both bars and shops is abolished; that the prohibition of the sale of liquor in bars, while permitting it in shops, would be disastrous in the extreme, and increase the evils resulting from the traffic, and this house reaffirms its belief in the evil effects of the treating habit, which should be put an end to if possible by means of legislation or other satisfactory means."

Albert Grigg (Algoma) moved an amendment to the amendment, complimenting the government on their administration. SOCCER NOTES. Gunns will play Ulster United on Saturday at Scarf Road and the following team will line up against the Irishmen: Clarke, Russell, Morgan, Hagerty, Flitt, Rothwell, Brice, Ingham, Davy, Walker, Robertson. Reserves—Wallace, Oakley, Patterson, Heath. Kick off 3:15 p.m. All of Gunns players are requested to be out to practice on Thursday evening for training purposes.

The P.Q.F.A. are going to form a boy's league and it is a good start in the right path. This will put the league at a total strength of ninety clubs. It is expected. All signed players of the Gremplan F.C. and those wishing to sign, are requested to turn out for practice Wednesday night.

Was Rich—Now Poor

Canadian Press Despatch. New York.—Harry B. Hollins, member of the now defunct, but once powerful stock exchange house of H. B. Hollins and Co., testified to-day that he had only \$150, Hollins and Co. failed recently for about \$5,000,000.

The above item which appeared in the newspapers recently illustrates in a striking manner the fickleness of fortune.

And it proves that some of your money should be invested where it cannot be lost in spite of business reverses.

An Imperial Endowment is such an investment. It continues to increase in value no matter what business conditions or the state of the money market may be.

And it will automatically continue in force even though you should at any time be temporarily unable to pay the premiums.

Steel Corporation and Steel of Canada Are Depressed.

C.P.R. ABOUT STEADY

Smallness of Liquidation a Favorable Feature at Toronto Market.

The break in United States Steel shares had some effect upon the Canadian issues of that ilk. Steel Corporation bore the brunt of the pressure in yesterday's markets here and in Montreal and these shares were forced down below 30, making a level established at the time of the passing of the quarterly dividend.

Steel Company of Canada was disposed of in small amounts, and made a dip to below 15. Richelieu, Twin City, Mackay and others showed weakness, but C. P. R. held firm throughout the day, but with almost no recovery.
