EX-CONDUCTOR IN BOGUS COIN BUSINESS

"Thomas Brown," Arrested in Hamilton, Identified as Albert Dow of Toronto—Counterfeit Silver and Variety of Acids Were Found in His House.

Thomas Brown, arrested on a charge of passing counterfeit money at a Hamilton hotel Monday, and who then gave his address as 27 Clinton-st, Buffalo, N.Y., has been identified by his photograph as Albert Dow, an ex-street car conductor of this city, living with his wife and family at 85 Perth-avenue. The man was taken into custody by Detective Savers of the Hamilton force just as he was passing a bogus fifty-cent piece across the bar of the Market Hotel in that city.

When taken, the man dropped \$14 in three packages of 25 and 50 cent pieces. These were recovered and found to be bogus. Inspector James Parkinson of the Dominion Police, Ottawa, was notified, and went to Hamilton yesterday morning. He brought back a picture of the man, which was identified by Acting Inspector of Detectives Mackie and Detective Tipton as a man who used to work on the rear platform of a street car. It was shown to Superintendent Nix of the company, who immediately supplied the man's name, saying that he worked with the company for years up till 1905.

Found Acids and Coins.

A search warrant was obtained, and Detectives Tipton and Guthrie accompanied Inspector Parkinson to the premises. There they found an extensive laboratory, in which was every kind of acid used or usable by the chemist. They also discovered a number of packages of 5, 10, 25 and 50 cent pieces labeled as if they had just come from a bank. In these were mixed pieces, some genuine and some counterfeit. The pieces were all of the same size, and had a number of newspaper clippings, giving an account of a minister of the gospel arrested for passing counterfeit money in Springfield, Mass., and also a bogus American half dollar, and some raw metal like that used in the counterfeit pieces.

While the man arrested at Hamilton still persists that his name is Brown, and that he lives in Buffalo, it is ascertained that since he left the employ of the street railway, he has spent his time in running five or six houses which he owns in the neighborhood of Perth-avenue.

Ring Almost True.

The counterfeits are of excellent workmanship, of good appearance and rival almost as well as the genuine coins. In weight the bogus 50 cent pieces are lighter than the genuine by the weight of a ten cent piece.

The police believe that in Dow they have the man who has been spreading the great number of bad quarters and half dollars which have been recently in circulation.

RIGHT FOR SETTLEMENT

Arbitration of Express Strike Depends Now on One Man.

NEW YORK, Nov. 2.—Only the word of Frank H. Platt, son of the late Thomas C. Platt, who succeeded his father as active head of the United States Express Company, is needed to bring about arbitration of the express strike, according to dispatches of the strike leaders to-night. Three conferences to-day at the office of Mayor Gaynor, the willingness of the strikers to submit their grievances to arbitration was obtained, and it was said the heads of all the companies, except Mr. Platt are willing to entrust the settlement of the trouble to a board of arbitration.

The ranks of the strikers were strengthened to-day by the addition of drivers from several more department stores. Aid to the strikers was also tendered by the Longshoremen's Union, which sent a committee to the various steamship companies with a notice that the longshoremen will not handle packages brought to the piers by strikebreakers and threatened a strike to enforce their decision.

SUSPICIOUS OF IMPERIALISM

Nationalist Speaker Distrusts the Navy and the Government.

MONTREAL, Nov. 2.—"We need all our money to develop our country. England has advanced and we are still behind, but we are expected now to spend for a navy. We have already spent millions on a militia," said Albert Lavigne, speaking for the Nationalists, in the absence of Armand Lavigne, at last night's meeting at Warwick, when Mr. Lavigne named Mr. Monk as the leader whom he followed.

"Suppose the fleet were sent to war, and after parliament was called it was decided that the fleet should not have gone. What provision is there in the law to recall the fleet?"

He distrusted the sale of the Niobe to Canada. She was a ship which burned to much coal and was found too expensive to run, so the British Government sold her to Canada.

He was suspicious of the imperialistic movement in Canada, would awaken to find herself in the grip of compulsory naval service, he feared.

COLONIZING NEW ONTARIO

Some of the Problems Affecting the North Country, and Suggestions As To Dealing With Them.

Once more a denial is announced of the rumor that the provincial government had intentions of selling or leasing the T. & N. O. Railway to the Grand Trunk. It is impossible to say what is the object of those who circulate such a report, except it be to have the opportunity of recording the denial.

More and more will the provincial government be judged by its record in dealing with immigration and settlement matters. What the province needs above all things is population, and every false move, and every neglect and omission that interferes with the increase of the people locating upon the crown lands is a black mark against the policy of the department concerned.

The T. & N. O. Railway was designed to further the settlement of the northern lands. It is frequently forgotten that this was its sole object. Since the discovery of Cobalt, many have imagined that the railway set out with that point as its objective. Cobalt was a gift of the gods, and as unexpected as any that ever descended. It made the progress of the railway northwards a much easier matter than was anticipated, and the construction of the national transcontinental line has also been a windfall for the provincial road.

But the T. & N. O. Railway is only a sectional road. It should possess running rights from North Bay to Toronto if a government line be not constructed all the way. Without this direct connection with Toronto, the rates for freight and express goods must be about double what they should be. Bitter complaints are heard from farmers along the line against charges, which are quite fair and reasonable under the conditions. The point has not been settled whether the conditions are as fair and reasonable as they might be.

The government road needs feeding. No one is more alive to this than the far-sighted and competent chairman of the commission. We believe that if he had his way he would carry out a much more active policy than the government seems willing to sanction. Such a policy would certainly provide for running rights to Toronto. It would also carry out the construction of the Charlton line to Elk Lake, and so on thru the Gowanda district to Sudbury. And it would look towards James Bay for a terminal point on the tide water.

Even the road under the control of the present work should be put in ten miles a year constructed for the present the road extended. In hand, and the sections that are of still more importance to the road are the settlers that must be encouraged to come into this northern belt. It does not seem to many experienced men that the most and the best is being done that might be done to this end. A great deal of stereotyped work is being done in England, and excellent pamphlets are being circulated in thousands, but there is no such result as the province requires. It is a question if English people are the best to settle in this country. Certainly any who can be persuaded to go will be welcome. But the conditions and the conditions are those in which the hardy people of the Scandinavian peninsula, the Danes, the Finns, the Icelanders, would find themselves absolutely at home, and in so much more fertile territory than their own countries afford, that they would be delighted with the change and would learn to love their new homes as the average English family would not for a generation.

There is no use trying to obscure the difficulties of the country. The fact that so many go west is clear enough evidence that difficulties exist. Whatever difficulties there may be, should be removed as far as possible. Even the \$75 charged against settlers in some of the northern townships should be remitted to bona fide settlers who take up their permanent residence on the land. The sum of \$75 is a considerable amount to most settlers, and it is nothing at all to the province in contrast with the value of a settler's family living on the land and developing the district, and serving as an inducement to others to follow.

The difficulty of clearing the land is too frequently minimized. It is argued that the early settlers in Old Ontario went thru as great hardships as could possibly be met in the north. But if they did it was under totally different conditions. They certainly had no \$75 to pay. They went where they liked. They took what they wanted. They lived on the game. They hewed and plundered and burned in a way that would not be permitted for a moment to the modern settler.

Clearing the land is a real obstacle on a great deal of the land in some of the northern townships. Much of this is covered with second-growth scrub timber, which might be utilized for pulp wood if it were near a mill. The freight rates make it worthless for this purpose. It is too soft for fuel, and there is nothing to be done with it but to cut it down, pile it in heaps, and burn it. After that the land has to be stumped, and this is a long and costly operation for beginners. A man cannot expect to live on less than fifty acres, and to clear fifty acres is a herculean task sufficient to fill two or three years, or even more, for the inexperienced.

What is he to do in the meanwhile? He can make nothing out of his scrub timber. He is not allowed to burn it down, which the forestry experts declare is the only thing to do with it under the circumstances. In fact, the government pays huge sums annually for fire-rangers to see that this worthless bush is not burned down.

This point should be clearly understood. There is no valuable timber on the districts referred to. The government has not set aside these districts as forest districts, but as agricultural districts. The mistake is in treating them as both at once. If they are for agriculture, then they should be cleared by the most expeditious methods and put in settlement. Hon. W. J. Hanna might organize a semi-military farm-clearing force out of his prison-reform subjects. Efficient gangs of clearing men would come out with a few thousand dollars and get the crop as soon as they arrive, rather than go to the scrub bush sections, where there is several years of hard work ahead before the ground is ready for the seed.

All these things depend upon the railway—the government colonization railway. It ought to be extended, and it must be extended if the settlement policy is to be a success. One of the questions of cost has never yet been taken up as it might. It is the operation of the road by electrical railways all over the territory. The reduction in the cost of operation by using this source of power would be very great. The Hydro-Electric Commission could give expert advice about the matter any time. The government should have it under advisement.

The World is desirous of approaching the question, which is admittedly a difficult one, in a spirit sympathetic towards the government, if the government make it clear that it is not intended to allow things merely to float along. There is a belief in some quarters that the government is standing in the way of settlement projects, in the fear that somebody might make money out of the country. It is absolutely sure that if people are not allowed to make money out of the north country they will go to a country where they can make money. All that the government can do is to see that the land gets into the hands of bona fide settlers who will spend their labor and get such stance in developing the country. If the government cannot get such people on the land by its own exertions, it ought to enlist the assistance of those who can.

APPEAL TO HON. MR. KING BY RAILWAY BROTHERHOODS TO HELP G. T. R. STRIKERS

Labor Minister's Assurance That Company Would Re-employ All Strikers Led to Ending Strike—Time Expires With Some Men Still Disengaged.

MONTREAL, Nov. 2.—(Special.)—The majority of the strikers have been taken back by the Grand Trunk. The company stated to-night that all the men they required were now on the pay roll.

Altho, according to the terms of settlement of the G.T.R. strike, all the men should have been returned back to their former positions, there are still, approximately, 150 conductors, trainmen and yardmen still out on the system. There is bitter feeling amongst them, and Vice-Presidents Murdoch and Berry, representing the Brotherhood of Trainmen and Conductors, are now in Montreal trying to fix it up. Originally 3800 men went on strike on July 19. Mr. Murdoch was communicated with last night, and declared there was no doubt that the matter would be ultimately settled to the men's satisfaction, but he strongly represented the "vindictive and retaliatory policy of the company" in delaying to live up to the understanding. Hon. W. L. Mackenzie King, minister of labor, has been appealed to, and it is from this quarter that Mr. Murdoch hopes to obtain speedy redress. The labor minister asked a telegram to Messrs. Murdoch and Berry on Aug. 17, when the settlement was made, assuring that all the men were to be reinstated. This was in reply to a demurring message from the two vice-presidents named, who wanted a strict interpretation of the words "as soon as possible," contained in the company's agreement to take back the employees.

The greatest obstacle in the way of re-engaging the men has come from Assistant Superintendent Bowker of London, it is reported. The men still out are practically all west of Toronto, viz. Stratford, St. Thomas, London, Palmerston and Windsor, and also at Allandale. There are also a few not reinstated on the Central Vermont Railway.

"I am writing every point on the line to-night," said Mr. Murdoch "to ascertain the exact conditions, and when I receive the replies, I will take the matter again to the minister of labor. Mackenzie King has given us the most positive assurance that the men would be taken back, and I am sure everything will be all right."

A Montreal despatch of Thursday last said Mr. King had conferred with Manager Hays and that the Grand Trunk would make an effort to re-employ all the men still out of work.

Only Four Out of Jobs.

LONDON, Nov. 2.—Only four G.T.R. men are still out of jobs here, all being passenger conductors. It is expected they will have their runs before the week's end. None were taken on this morning.

GAS COMPANY'S FRANCHISE

It Is Not Restricted to the Old City Limits.

Even civic officials are not infallible. Sometimes they fall into error, and lead a whole committee of aldermen into the snare.

Thus it happened that when, on Oct. 19 last, Aid McCausland, at a meeting of the fire and light committee, asked whether dark streets in the outer districts could not be lighted with gas pending the advent of hydro-electric power. Secretary McGowan of the fire department replied that the gas company's franchise was like that of the electric light company, in that it was limited to older Toronto. The committee, believing that gas illumination could only be provided by extending the territory covered by the franchise, dropped the matter.

"Rather remarkable," commented Arthur Hewitt, manager of the Consumers Gas Co., last night. And it is considering that, when the company got its charter in 1853, it covered not only Toronto, as it then was, but Yorkville Village, and the whole Township of York, that, for years, there has been gas lighting in such districts as Dear Park and other suburbs annexed within in late years, and that miles of gas mains have been laid outside the old city limits.

Thirteen Still Out at the Falls.

NIAGARA FALLS, Ont., Nov. 2.—(Special.)—Unemployed Grand Trunk Railway trainmen at this place to the number of thirteen were refused their old jobs here to-day. The unemployed men remained within cell until midnight, in hopes that orders would be

Reciprocity Talk Begins Saturday

Representatives of the United States and Canada Will Confer in Ottawa on Tariff Matters.

OTTAWA, Nov. 2.—(Special.)—A reciprocity conference between representatives of the United States and Canadian governments, will be held here on Saturday, but the news contained in a despatch from Washington, to the effect that a deal will be closed up before the end of the present month is without foundation.

There seems to be a fairly general disposition throughout the Dominion against reciprocity, of which the government is thoroughly aware, and so it may be safely conjectured that no complete reciprocity arrangement will be reached for some time to come at least.

Any call for a change in the tariff is from the grain growers of the west, who desire a reduction in the duties on agricultural implements.

TAFT IS HOPEFUL

Reciprocity Representatives Leave With His Instructions.

WASHINGTON, Nov. 2.—For the purpose of resuming negotiations looking to the establishment of closer relations between the United States and Canada, which was begun last spring, Henry M. Hoyt, counselor, and Charles M. Pepper, commercial adviser of the state department, will leave for Ottawa to-morrow. The preliminary conference with the Canadian officials will be held Nov. 5. Secretary of State Knox expects to visit Ottawa shortly after the negotiations are re-opened.

President Taft is especially anxious that a reciprocity treaty be the outcome of the negotiations. Both Mr. Hoyt and Mr. Pepper have been in conference with the president almost constantly during the past few weeks, and they go to Ottawa bearing his instructions and his confidence that a satisfactory agreement will be reached.

CHARGED WITH MURDER.

VANCOUVER, Nov. 2.—(Special.)—Richard Berryman, formerly of Buffalo, Mont., and for two years resident in this city, was taken into custody to-day by the local police, charged with the murder of Mrs. J. P. Mott Woodworth, her death following an alleged illegal operation, said to have been performed by Berryman yesterday. On the charge of being an accessory before the fact, the police arrested Mrs. Matlock, First-avenue, and Mrs. Annie Morse, Keefer-street, charged with supplying medicine.

More Than a Joke.

PRESCOTT, Nov. 2.—A serious Hal- lowe'en prank was played by a gang of young fellows here. They were going along the street when they met a lad named Miller, aged 12 years. They seized him, frightened him, and to scare him still more, tossed him over a nearby fence, when he fell and broke his arm. None of the offenders are known.

Another Local Option Contest.

NEWCASTLE, Nov. 2.—It is stated that the citizens of Newcastle will be given an opportunity to again vote upon a local option bylaw, the contest to take place in January.

TORONTO MAN IS A RAFFLES IN REAL LIFE

Geo. H. Barnette Wore Evening Clothes and Had Revolver and Jewelry on Him—His Companion, a Toronto Girl, Said to Be Victim of a Fake Marriage.

BALTIMORE, Md., Nov. 2.—(Special.)—George H. Barnette, alias Kemp, aged 23 years, 20 Christie-street, and Miss Florence Tomlinson, aged 18 years, daughter of Albert T. Tomlinson, 528 Delaware-avenue, both of Toronto, Canada, were arrested here to-night by Headquarters Detective Herman Pohler and locked up at the central station.

Barnette is a "Raffles" in real life. When arrested he wore evening clothes, carried two pretty domino masks, had a loaded revolver and \$200 worth of jewelry in his possession. He was arrested when about to enter a pawn shop. He has confessed to Chief of Detective McGovern the committing of a score of burglaries in New York, Philadelphia and other cities.

Miss Tomlinson, whose father is a car inspector of the Grand Trunk Railway, was made the victim of a fake marriage, when she was taken from home by Barnette. The couple went to Niagara, where a fake ceremony was performed on Oct. 24 at headquarters to-night she denounced her supposed husband, and says she shall leave him.

Barnette told the detectives that he made it a rule to wear full dress whenever he made his burglarious expeditions, so that, if discovered, he might reasonably claim to have accidentally entered the wrong house.

About two months ago, while living in Newark, N.J., Miss Tomlinson shot herself accidentally thru the left breast with the revolver taken from Barnette.

After Barnette's arrest, he begged that a minister be sent for to marry him to the girl.

Police chiefs thruout the north have been notified of the capture of Barnette. He has confessed to a number of robberies.

Miss Tomlinson says that Barnette forced her to read "Raffles" to him, with stories of famous detectives, and that Tomlinson will be held by the authorities, pending word from her parents.

REGINA INDIGNANT

General Repudiation of Charges Made by Mr. and Mrs. Wright of London.

REGINA, Nov. 2.—(Special.)—Recentment grows on all sides in the city at the statements made by Mr. and Mrs. Gordon Wright of London, Ont., to the effect that Regina has a well-developed vice district, recognized by the authorities.

Mayor Williams, who is also chairman of the police committee, denies that Regina has or ever had a red light district. Magistrate Traut characterized the statements as lies. White Baccross, for two years president of the social and moral reform council here, described them as "a lot of rot." Mrs. Sinton, president of the local W.C.T.U., expressed her deep surprise at Mrs. Wright's quite unwarranted attack upon the good name of Regina.

C. B. Keenleyside, chief organizer for the social and moral reform movement in Saskatchewan, stated to a reporter that the city was the best he had ever lived in, and to-night Mr. Keenleyside despatched a telegram to Mrs. Wright, suggesting that she had made a mistake, and that she withdraw what she said in St. Thomas in reference to this city. Meanwhile, The Morning Leader is offering to defray all the expenses of Mr. and Mrs. Wright to Regina and back to London, provided they can produce statements that the city has a segregated area, in which vice is permitted by the authorities.

DRUGGIST'S STRANGE DEATH

Probably a Victim of Narcotic Poisoning, Jury Says.

ATWOOD, Nov. 2.—The coroner's jury empaneled to investigate the death of E. T. Foster, a young druggist of this village, who was found dead in bed on the morning of Oct. 19, to-night returned a verdict of death from unknown causes.

They added a rider that the circumstances seemed to point to narcotic poisoning.

Foster is survived by a widow and baby daughter.

ANOTHER SHELDON RUMOR.

MONTREAL, Nov. 2.—It was reported to-day that Sheldon, the defaulting "blind pool" operator, had been arrested, but the Pinkerton Detective Agency, which has charge of the case, denied it.

BOUQUETS FOR TEDDY

Democratic Nominee for Governor of New York Denounces Roosevelt.

NEW YORK, Nov. 2.—The Democratic state campaign here reached flood tide to-night at a meeting in Carnegie Hall, where John A. Dix, the nominee for governor, made his first public address in the city. The meeting also served as the occasion for Mayor Gaynor's long expected formal announcement of his support of the ticket.

Mr. Dix devoted the greater part of a 3000-word speech to a denunciation of Theodore Roosevelt, whom he referred to as an apostle of tumult and the protagonist of misrepresentation, agitator and egoist, creator of unrest, instigator of panic and destructive agent of business depression.

\$25 SUITS \$25 Overcoats

This is a season when men should not be satisfied with anything commonplace, either in Suits or Overcoatings. There never have been such beautiful fabrics, both as regards qualities and color harmonies.

At \$25.00, for either Suit or Overcoat, you get something out of the ordinary. We're more than usually proud of the workmanship, the tailoring, the style, and fit.

In the Suits there's a wonderful range. All the great mills represented. Cheviots and Serges in blue and black, fancy and plain grey effects, stripes and figure designs; Scotch Tweeds, Fancy Worsteds, Fine Twills and Rough-faced Fabrics, at \$25.00.

STORE OPEN UNTIL 9 P.M.

Athenaeum Association. The Athenaeum, Class A, League game last night between the Queen City and Red Roses showed the former in some-thing like their real form.

City Two-Man League. On the Fovalls alleys yesterday afternoon, the Athenaeum won four out of the five from the home team.

Gladstone League. The Gladstones won two from the Canadians in the Gladstone League last night.

HIGH PARK CURLING CLUB Will Be in Operation This Winter With Rink on Indian-road. The charter members hope to have the new High Park Curling Club in operation the coming winter. The proper cognomen, as given in the prospectus, is: The High Park Curling and Lawn Bowling Club. The share capital is to be \$40,000, \$20,000 of which is preferred. The qualifications of members will be, for bowling, \$25, being one share of common stock. The qualifications for curling will be one share of common stock, \$25. The annual fee for the year for the former will be, for the latter, \$20. The subscriptions will be limited to 150 for each, that all members may have abundant opportunity for enjoyment. The preferred shares, \$20,000, will be held for the purpose of developing the propositions of the club. The club has an option on land on Indian-road, 103 feet frontage, running thru to Keele-street, with a frontage there of 114 feet facing High Park. In addition to the above sports there will be six or seven lawn tennis courts, which will be rented in the summer, and in the winter flooded for skating. It is hoped that the club will be ready with its equipment for the coming seasons of sport. The directors are busy at work with this end in view, and they are now open with their books for subscriptions. The prospectus is filed with the provincial secretary, which complies with the rigid rules of that department. There will be a club house with billiard room, and parlors with all modern comforts. There will be no license—therefore no liquor sold or allowed on the premises. The approximate cost of the land and improvements is \$22,500. Shares to the amount of expenditure only will be issued.

Swansea Curling Club. The old Caledonian Curling Club will continue as last year on the open ice on the Rennie property at Swansea, the name may be changed to that of the Swansea Curling Club. This was decided at a special meeting last night with President L. Howard in the chair. An adjournment was made till next week, when the officers will be elected.

THURSDAY MORNING, NOV. 3, 1910.

THE UNITED STATES ELECTIONS.

On Tuesday next the Republicans and Democrats of the United States will again engage in their annual struggle for electoral mastery. The conflict this time is of unusual importance, since it is generally conceded that the emerging house of representatives will differ much in complexion and still more in temper and policy from that which will succeed. Some indeed confidently affirm that a Democratic majority is practically already assured and will be obtained by the revolt of states which have been consistently Republican. This may be too confident an anticipation, but it is certain that the outlook for the party hitherto in power is less hopeful than it has been in many years. The old leaders are thoroughly discredited, not a few of them, including the men who held the Republican machine in the hollow of their hands, have been driven out of active politics. This has in turn reacted injuriously on the administration of President Taft, who unfortunately for his own prestige, has identified himself with the stand pat element in the party, and under its influence, essayed the futile attempt of reading the progressives out of official recognition.

On the other hand, the Democrats have signally failed to rise to the height of the opportunity offered by the internal cleavage of their opponents. They are not united themselves and there is little to choose between their conservative section and the corresponding Republicans. The Democrats sadly lack a really great leader, inspired by genuine democratic ideals and of strong enough personality to impose a real reform policy on the mass of the party. Possibly they may have discovered such a leader in Mr. Woodrow Wilson, now candidate for the governorship of New Jersey, a stamp of public man too seldom seen anywhere on the continent. But whether or not he prove to be the Moses of the Democratic party, who will ultimately lead it out of the wilderness into the land of promise and the sweets of office, there is at the present moment no popular uprising in its favor. For it is the most significant feature of the contest waged from the Atlantic to the Pacific that all the enthusiasm displayed by the masses of the people has been evoked by the declamations of progressive policies and for men only who are believed to be loyal in their support.

This is particularly true of the western States and it is a remarkable fact that the strongest exponents of the new party now in process of formation are westerners. The only notable exception is Ex-President Roosevelt, whose defence of insurgency during his western tour brought into prominence the extraordinary measure of public confidence he enjoys. But it is doubtful whether Mr. Roosevelt is prepared to endorse the advanced platforms of the western insurgents, such, for example, as that adopted by the Wisconsin Republican convention which included among its principal demands—radical downward revision of the tariff, physical valuation of railroads and their more stringent regulation; recall of unsatisfactory elective officials; protection from interference under anti-trust laws with labor unions and farmers' co-operative associations; publicity of campaign contributions and expenditures and limitation of expenses; an anti-lobby law and protection of national resources. The New York State platform framed under Rooseveltian auspices was much more general in its terms and much less extensive in its scope, but it has to be remembered that the east is only beginning to feel the full drift of the progressive spirit. Perhaps the most interesting factor in the coming elections and specially in New York will be the attitude of the standpat Republicans. Will they, in order to destroy Roosevelt's prestige and bar progressive advance, support Democratic candidates? It would be a policy of despair—even temporary success would only make certain ultimate defeat more overwhelming.

BRITISH BY-ELECTIONS.

Altho British by-elections do not always afford reliable indications of the general drift of electoral sentiment, have often, indeed, been contradicted by the national verdict, they should not be altogether ignored. The two last, consequent on the elevation of the late attorney-general to the bench and the appointment of Sir John A. Simon to succeed Sir Rufus Isaacs as solicitor-general, were of more than usual interest. Both occurred in middle and working class constituencies—one, South Shields, in the manufacturing north of England and the other at Walthamstow, an industrial suburb of London. The former remained Liberal by a majority of 2019, a drop of over 1200 from that given at the general election; the latter increased

the Liberal majority by 571 over the previous poll. In both cases the total poll fell off considerably, but at South Shields the opposition vote showed 46 of an increase.

These results are decidedly favorable to the government and so far as they go confirm the belief held in responsible quarters that a general election held now or prior to the coronation in June next would leave the parties in pretty much the same relative position. By-election conditions usually assist the opposition and in both these contests strenuous efforts were made by the tariff reformers to impress the electors with the need of a change in the fiscal system, but without marked result. The industrial situation in Britain is exceptionally good, and the consequent absence of personal discontent rather discounts arguments of considerable appeal when times are bad and unemployment common. Fortune meantime is on the side of the government, and unless the unexpected happens, it appears likely to remain in power during the notable imperial events that will distinguish 1911, unless the house of lords again compels an appeal to the country over the current year's budget.

MUNICIPAL TELEPHONES.

It is a sign of the times that the board of control was unanimous over the proposal to buy out the Bell Telephone Company. The city has been held back so long by reactionary arguments that the necessary measures now heaped up and requiring attention give some people the impression that too much is being attempted. On the contrary, a great deal is being neglected that ought to be attended to at once, and only the most urgent and necessary matters are coming to the surface.

None of these is more important than the telephone service. Every year renders the problem more difficult. The sooner it is settled the easier will the settlement be for the city. Sir James Whitney, it is to be hoped, will take a sympathetic view of the desires of the city in which he resides, and of many places throughout the province which also want to benefit by whatever legislation may be passed for the purpose of municipalizing the telephone service.

That a provincial trunk line must eventually go with the plan need not be concealed from Sir James, for the telephone situation does not lack British precedents.

Berlin has electric power. Waterloo has hydro power. Guelph has Niagara power. Poor little Toronto is patiently waiting her turn.

The C.P.R. has undertaken one of the greatest enterprises in its astounding career. It has set out to teach the Canadian public not to spit.

A perennial candidate at municipal and other elections has been adjudged too weak in the intellect to remain outside the institution made and provided for such cases. The wonder is that he never was elected. Not that we would suggest that there are as good fish in the C—as ever were caught.

A MENU FOR CONSUMPTIVES

With the Muskoka Consumptives at the Dinner Hour.

Mr. Grant Balfour, who recently spent a day at the Muskoka Free Hospital for Consumptives, gives his observations of dinner hours with the patients. Over a hundred sat down to the midday meal. There were few who did not show the effect of Muskoka air on the appetite. The bill of fare included soup, two kinds of meat, potatoes, one additional vegetable, pie and pudding. The lady superintendent said to Mr. Balfour that the patients can have two kinds of meat and two kinds of dessert. They have the best creamery butter, the best quality of milk, and all the bread they can eat, brown and white. To many whose comforts at home have not been the most luxurious, the meals at the hospital are as though they were guests at a fashionable hotel. The lady superintendent intimated that for breakfast porridge and milk, for breakfast sausage, bacon, potatoes, toast, fruit, tea, coffee and milk are served. They have eggs three times a week. The cost of provisions at the Muskoka Free Hospital is one of the heavy items of expense and taxes the treasury. Friends who are disposed to help this work at Muskoka may send contributions to Mr. W. J. Gage, chairman of the executive committee, 84 Spadina avenue, or the secretary-treasurer, 347 King-street west, Toronto.

AN ELECTION REVELATION

New York Post Says Roosevelt Accepted Campaign Funds.

NEW YORK, Nov. 2.—The Evening Post this afternoon declares that early in October, 1904, Henry C. Frick, the Pittsburgh multi-millionaire, and Hamilton McK. Twomey of the Vanderbilt group of capitalists, visited President Roosevelt in the White House and pledged themselves to turn over to the Republican campaign fund for use in the election the following month \$50,000 each. This pledge was kept. The Post declares, and the money was used in New York State. This incident, the Post asserts, immediately preceded the visit of E. H. Harriman to Mr. Roosevelt, which resulted in the railroad king turning over \$200,000 to the Republican campaign fund and with which, Harriman later declared, "50,000 votes were turned to the Republican party in New York City alone."

WARKWORTH, Nov. 2.—The dairy instructor for this district estimates that there has been twenty per cent. more cheese made in his locality this year than last year, with fewer cows.

FRENCH CABINET RESIGNS OWING TO DISAGREEMENT

Premier Briand Accepts the Task of Forming a New Ministry.

PARIS, Nov. 2.—The French cabinet resigned to-day. Altho the fact that there was a divergence of views among the ministers concerning legislative measures designed to prevent crises similar to that brought about by the recent railway strike, was well known, the resignation created a sensation, as it had been expected that Premier Briand would remain and remodel the ministry in harmony with his views.

The exact nature of Briand's program has not been announced, but it is understood that both M. Millerand, minister of public works, posts and telegraphs, and M. Viala, minister of labor, dissented, particularly Millerand, who insisted upon the principle of arbitration.

This afternoon President Fallieres asked Briand to form a new ministry and the latter accepted the task. The new cabinet will be largely the old ministry reorganized, the portfolios being distributed with special reference to a solution of the problems, including the development of means by which employees of public service corporations may obtain redress for grievances, and to the strike, paralyzing traffic and industry generally, and to devise a method of combating the revolutionary element of the proletariat.

A Traveler's Troubles.

Editor World: I have often admired the stand taken by The World against the abuses under which the people suffer, especially from the railways, and for my turn and by much persistence I have been able to put up with the so-called "information" telephone service at the Union Station. Have you, sir, or your numerous correspondents, been able to obtain information from Main 441, the telephone at the central station supposed to give information as to the arrival and departure of trains? I have had occasion to call the number on a number of occasions. Twelve times out of the thirteen the line was busy, and at the thirteenth call, it was only by waiting for some time, that I was able to communicate with the information bureau. My attempts on previous occasions have been even less successful. I should like to know, through your columns how long the public can be expected to put up with this abuse. It is surely absurd that a city like Toronto, with its 600,000 inhabitants, has to rely on a single telephone line—and that not any too well served—for information which it has a right to have. AUTOISTS WANT BETTER ROADS

And Are Willing to Be Taxed to Pay for Them.

A deputation from the Ontario Motor League interviewed Hon. J. O. Reame, minister of public works, yesterday with reference to the subject of road improvement in Ontario. Hon. W. J. Hanna, provincial secretary, and W. A. McLean, engineer of highways, were also in attendance. The deputation expressed themselves as anxious to see an improvement in the roads of the province, and declared that automobile owners would be prepared to accept a substantial tax, based upon the power of the machine. That tax would be applied towards the increasing of the grant for the improvement of road construction. The members of the government were non-committal in their reply, but they have said that the grant will likely be introduced into the legislature.

NO WORK FOR HUSBAND

Six Months' Bride Driven on to the Street Thru Debt, She Says.

KINGSTON, Nov. 2.—(Special.)—Married but six months, Cora Bennett, when arraigned in police court on a charge of vagrancy, said she had been led to a life of shame because her husband could not find work. Her husband, Frank Bennett, was also locked up on a vagrancy charge. They came here from Syracuse two weeks ago. Mrs. Bennett spent most of her time on the streets and in the city parks. "My husband did not get work, we had bills to pay, and I did it as a last resource," she said. As they are American citizens, they will likely be deported.

Busy Business Men's Service.

It is a well known fact that you can enjoy a comfortable night's rest and be ready for business next day when you travel between Toronto and Niagara over the "only double-track line," viz. the Grand Trunk. The 10.30 p.m. train from either end of the line lands you in Montreal or Toronto for breakfast. There are four trains daily in each direction—and if you have time, take advantage of riding on "Canada's" fastest and best train, the International Limited, which leaves daily from Toronto at 8 a.m. and arrives in Montreal at 10.30 a.m. The equipment and service is "up-to-date"—always in the lead. A ticket agent, Mr. Horning, at north-west corner King and Yonge-streets (phone Main 4209), will do the rest.

Looking for a Murderer.

The provincial police are looking for Joseph Glaziano, alias "Perrina Pete," an Italian laborer, wanted for the murder of Joseph Waugh, in a bunk house at O'Brien, 31 miles east of Superior along the National Transcontinental. He is of medium build, 5 feet 5 inches in height, dark, gray hair over right ear and scar under left ear. A reward of \$50 has been offered for information leading to the capture of Peter Couneauux, burglar, who escaped from Bracebridge jail on Aug. 27.

Glasgow Select Choir.

The plans of the two concerts to be given at Massey Hall on Saturday and Monday next, by the famous Glasgow Select Choir, are now open at the hall. Mr. Taggart, the able conductor of the choir, has prepared two very fine programs, the rendering of which will bring out the best that is in this superb company.

A Realty Purchase.

John Macdonald has purchased upwards of 500 feet of land on Balmoral-ave., between Avenue-rd and Yonge-st. It is understood that the intention is to convert this into building lots.

Melton Prior, the famous English war correspondent and artist, is dead.

KINGSTON, Nov. 2.—(Special.)—Married but six months, Cora Bennett, when arraigned in police court on a charge of vagrancy, said she had been led to a life of shame because her husband could not find work. Her husband, Frank Bennett, was also locked up on a vagrancy charge. They came here from Syracuse two weeks ago. Mrs. Bennett spent most of her time on the streets and in the city parks. "My husband did not get work, we had bills to pay, and I did it as a last resource," she said. As they are American citizens, they will likely be deported.

Busy Business Men's Service.

It is a well known fact that you can enjoy a comfortable night's rest and be ready for business next day when you travel between Toronto and Niagara over the "only double-track line," viz. the Grand Trunk. The 10.30 p.m. train from either end of the line lands you in Montreal or Toronto for breakfast. There are four trains daily in each direction—and if you have time, take advantage of riding on "Canada's" fastest and best train, the International Limited, which leaves daily from Toronto at 8 a.m. and arrives in Montreal at 10.30 a.m. The equipment and service is "up-to-date"—always in the lead. A ticket agent, Mr. Horning, at north-west corner King and Yonge-streets (phone Main 4209), will do the rest.

Looking for a Murderer.

The provincial police are looking for Joseph Glaziano, alias "Perrina Pete," an Italian laborer, wanted for the murder of Joseph Waugh, in a bunk house at O'Brien, 31 miles east of Superior along the National Transcontinental. He is of medium build, 5 feet 5 inches in height, dark, gray hair over right ear and scar under left ear. A reward of \$50 has been offered for information leading to the capture of Peter Couneauux, burglar, who escaped from Bracebridge jail on Aug. 27.

Glasgow Select Choir.

The plans of the two concerts to be given at Massey Hall on Saturday and Monday next, by the famous Glasgow Select Choir, are now open at the hall. Mr. Taggart, the able conductor of the choir, has prepared two very fine programs, the rendering of which will bring out the best that is in this superb company.

Herman to have the register of members and memorandum of agreement and stock book of the above named company cancelled, and the name of C. A. Herman therefrom as the holder of \$1000 of the capital stock of the said company. The motion was dismissed with costs, and the said Herman now appeals therefrom. Counsel for appellant concedes that he is the holder of one share. Without waiving any objections as to defect the appeal was argued.

PELLATT'S GIFT

\$2500 Yearly to Society of Knights Bachelor to Acquire London Site.

LONDON, Nov. 2.—Sir Henry M. Pellatt of Toronto, has donated \$2500 yearly to enable the Society of Knights Bachelor to acquire a site for the London headquarters of the society. Sir Henry Pellatt, in responding to the toast of his health, assured the people of Canada. The people were looking for opportunities for closer union, believing that Canada and Britain should co-operate in every way in peace and war. He was glad to say that the Little Englander was diminishing rapidly. The British Empire was no longer a dream, but the acknowledged platform of all statesmen.

like illness, it is often necessary quickly to raise the temperature of a room. For instance, in those hours between midnight and dawn, when the day temperature has been allowed to drop, if you are called upon to get up, the room is chilly and cold. It takes a long time to start up a furnace or fire and raise the temperature by ordinary means. You can instantly heat a room to any desired temperature with a

PERFECTION OIL HEATER

Absolutely smokeless and odorless

It quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be cleaned in an instant. It has a cool handle and a damper top.

An indicator always shows the amount of oil in the font. It has a filler-cap which does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain. The burner body or gallery cannot become wedged, because of a new device in construction, and consequently it can always be easily unscrewed in an instant for reworking.

The Perfection Oil Heater is finished in Japan or nickel. It is strong, durable and well made, built for service, yet light and ornamental.

TECHNICAL EDUCATION OF MINING ENGINEERS

William Frecheville, Noted Expert, Gives Some Advice That Students Will Do Well to Pay Attention to.

The first of a series of evening lectures before the Canadian Institute was given in the university physics building last evening, by William Frecheville, a member of the royal commission, on technical education for the University of London.

"The first of a series of evening lectures before the Canadian Institute was given in the university physics building last evening, by William Frecheville, a member of the royal commission, on technical education for the University of London.

"Then should follow a course, preferably a four years course, in one of the large schools of mines, for special training. The first two years had better be devoted to various sciences, chemistry, physics, geology, mineralogy, leaving for the next two years mechanical engineering, mining, metallurgy.

"Having spent four years in a school of mines, comes the first start, a matter of some difficulty and importance. Few firms care to take a man who has just graduated, and so to tide over this crisis post-graduate courses have been started in England.

"A mining engineer should remember that the first 10 or 15 years of his career are really a continuation of his training. Experience is what he needs, and is what afterwards commands large fees.

"In carrying on the work of schools of mines, buildings and equipment, important as they may be, are secondary as compared to the teaching staff. We need the best material for professors, and to get them must be prepared to pay good salaries.

C.N.R. ROUTE MAP MAY GO TO RAILWAY BOARD

Question of Entrance to Toronto Before Minister of Railways, But Nothing Decided.

OTTAWA, Nov. 2.—The application of the Canadian Northern Railway for approval of the route map entrance to its Ottawa line to Toronto was before the minister of railways this afternoon, but was not determined.

Mr. Scott, on behalf of the C.P.R., objected to the plans on account of the engineering difficulties which would arise in connection with the crossing of the C.P.R. tracks.

Mr. Drayton, solicitor for the City of Toronto, said that if the only object of the plan was to give the Canadian Northern entrance to Toronto on the east as well as the west side of the Don, the city could see no necessity for it.

Mr. Scott suggested that it would be better to refer the matter to the railway commission. Mr. Ruel, for the C.N.R., explained that space had been left along the reservation for the use of the C.N.R.

Mr. Drayton pointed out that the reservation could not be used without the consent of the city. Mr. Ruel stated that the C.N.R. could not reveal its plans as to its northern line, because of the effect it would have on land values.

Mr. Drayton said the city, under the circumstances, consented to the plans. At this point Hon. Mr. Mabee said: "Leave it with me, and I will take it with Justice Mabee and will take his strongest advice."

GAVE UP QUART OF BLOOD

To Help Save the Life of His Brother.

A brother's devotion saved the limb. If not the life, of Norman Allen of Simcoe, Ont., after a rare and remarkable operation performed in the Toronto General Hospital by Dr. Primrose.

Allen, while working with a chisel in an ice house, gashed his leg below the knee, severing the main artery and losing much blood. Recurring hemorrhages helped to weaken him and prevent the wound healing, leaving him also in a condition unfit to risk amputation on the leg.

His younger brother volunteered to replenish the famished veins and arteries. Success in such an operation depends on the most rigid precautions and the finest technique. Briefly, it is carried out by opening the artery of a healthy person, generally one of the brachial arteries, and leading a suture to the artery to be treated.

SIGNERS WERE NOT VOTERS.

NIAGARA FALLS, Ont., Nov. 2.—(Special)—Chippawa Council at its meeting last night rejected a petition asking that the local option bylaw be submitted to voters.

The petition was signed by 79 signers, but the names of 15 temperance advocates were found to be on the voters' list, as required by statute.

A CALL FOR 95 PER CENT.

Issued to the Shareholders of the Ontario Bank.

Official Referee Kappel has authorized a double liability call of 95 per cent. against shareholders of the defunct Ontario Bank. The order was applied for by James Bicknell, K.C., and G. B. Strath, acting for the liquidators.

CUT HIS THROAT

Walter Holden, Carpenter, Aged 40, Ends His Life.

Walter Holden, a carpenter, 40 years of age, committed suicide by cutting his throat in the bathroom of his home at 23 Robinson-street, at 8 o'clock last night. He was despondent, having suffered from asthma for some time. He was a married man with three children. No inquest will be held.

Doctor Told Her She Did Not Have a Pint of Good Blood in Her Body.

Mrs. Dossie F. Corlimer, Middle Sackville, N.B., says: "In the spring of 1887 I was all run down, and the doctor told me I had not a pint of good blood in my body. I took different remedies from doctors, but they did not seem to do me any good. After having taken a lot of different other kinds of medicine, and they did not seem to benefit me, I was almost in despair and did not know what to do until my husband met a lady and told her about my sickness and she told him to try Burdock Blood Bitters as she had received the greatest benefit from using it. My husband went and bought me a bottle, and after having taken it I felt better, so I kept using one bottle after another until I was all right. I was not feeling very well and had a lot of hard work to do. I thought I would procure a bottle of Burdock Blood Bitters and after I had taken two I was able to do a lot of hard work all the summer, and I never felt better in my life. In the winter of 1906 I had pneumonia, and it left me with a severe pain in the side. Every morning when I was in bed I would get up and down for a while it was so painful. After I had used Burdock Blood Bitters the pain disappeared completely. It has also cured me of bleeding piles. I have received so much benefit from Burdock Blood Bitters that you may publish this as it may help others as it has me. Manufactured only by The T. Millburn Co. Limited, Toronto, Ont."

CHANGE IN MANAGEMENT OF MONTREAL RAILWAY

E. A. Robert the New President, With J.W. McConnell as Vice-President.

MONTREAL, Nov. 2.—(Special)—The directors who have managed the affairs of the Montreal Street Railway Company for many years past are down and out, following one of the most brilliant and daring raids ever made by one group of capitalists on another.

It was supposed that Senator Forget, Sir Montague Allan, Robert Melishon, and several other millionaires were imprudently in the street railway contention, and so they were before such bright men as E. A. Robert, D. Lorne McGibbon, J. W. McConnell and others, started in to buy control about a year ago. To-day the old directors did not even make a fight, neither did they ask for a vote. One ballot was cast and the change was made the next day.

The new president is E. A. Robert, while J. W. McConnell is the vice-president, and D. McDonald re-elected general manager. It is said that it took nine millions of money to swing the deal.

AFTER BURIED TREASURE

Fortune Teller Gets Son of Fort Erie Hotel Proprietor Going.

ST. CATHARINES, Nov. 2.—The stories of buried treasure in or near the village of Fort Erie, are being revived by a strange thing that happened the other evening. The buried treasure story is to the effect that in the war of 1812, when Fort Erie fell into the hands of the British, a British commander had buried \$40,000 in gold with which to pay the troops. When he saw that the capture of the fort was inevitable, he detailed a squad of men to bury the gold to prevent its falling into the hands of the invaders. All the squad but one man was killed in the battle following. Harry Hawkins, an American soldier, reported that years afterwards this man, having been liberated, started back to Fort Erie to get the treasure, but died en route, and the secret of its burying place died with him.

The other evening Harry Hawkins, son of the proprietor of the Queen's Hotel, in Fort Erie, was in conversation in the hotel, when a well dressed woman of an Orient caste walked into the room, and offered to tell the fortunes of the men, stating that she needed money to take her to New York. Harry Hawkins took up the challenge, and she said: "see you digging for a buried treasure. I see you walking out the side door, ten twenty steps to the rear, then— At this point Hawkins withdrew from his friend and heard the rest of the story in private. Now, it is said, Harry Hawkins has hired laborers and is going to make a search for the hidden gold.

TOO FRIGHTENED TO SPEAK

Woman Saw Two Men Shoot Husband as He Lay Asleep Beside Her.

MAN FRANCISCO, Nov. 2.—Lying in bed beside her sleeping husband last night, Mrs. Antonio Valentine heard a crash of glass, and a moment later saw two men climb thru the window of the room from the porch roof. Too frightened to move or cry out, Mrs. Valentine watched one of the intruders steal up to the bed, place a pistol at her husband's breast and fire a shot that brought instant death to the sleeping man. By the time the woman recovered her voice the murderers had escaped.

Shot With Air Rifle.

In the afternoon court yesterday, Bert Gibson, aged 19, received an unpleasant surprise when his charge of shooting an air rifle within the city was laid over to the morning court pending the laying of another charge of shooting at Leonard Sullivan, aged 14. Sullivan alleged that Gibson deliberately shot him in Adelaide-place on Saturday. He was hit once in the back and once in the leg. F. H. Richardson was fined \$20 and cost for auto speeding at 25 miles an hour on Oct. 16. S. Mahoney was fined \$20 for motorcycle speeding.

Rev. William Ames Dead.

WOODSTOCK, Nov. 2.—Rev. William Ames, aged eighty-nine, is dead here. Deceased was a well-known Methodist minister, who had been on twenty circuits throughout the province. A Big Trout. A speckled trout, weighing eight and one-quarter pounds, is now on exhibition in the Alcock, Laight and Westwood Company's window, 78 East-street.

THURSDAY MORNING
TYPHOID FROM MILK
M.H.O. ADVISES BOILING

Inspection of Dairy Farms Shows
Where Danger Lies—New Move
to Purchase Street Railway.

TODAY AT THE CITY HALL.
11 a.m.—Board of Control.
3 p.m.—Fire and Light Commit-
tee.
4 p.m.—Harbor Improvement Com-
mittee.

At the meeting of the local board of
health yesterday afternoon, several
important recommendations, made by
Dr. Hastings, medical health officer,
were unanimously adopted.

Declaring that more radical measures
are required for the prevention of
communicable diseases, the M. H. O.
proposed that, in case of diphtheria,
when a patient is sent to the isolation
hospital by the health officer, the
department should supply the patient
with free of charge, doses of anti-toxin
for all children in the house, such
treatment to be administered either by a
physician or by a physician
attending the isolation hospital.

Dr. Hastings reported that traces of
coli bacilli in city water were found
only on three days last month.

His statement that typhoid in To-
ronto frequently resulted from the
milk supplied, he supports, with the
record of the fact, that nine cases of
typhoid had been traced within the
past month to the general supply of
pasteurized milk from the different
farms supplying the dairy, showed
coli bacilli present in three cases,
and on one farm a man was just re-
covered from typhoid. Hence he recom-
mended "that all milk not up to the
standard of a certified milk, or scientifi-
cally pasteurized, be heated to boiling
point in the homes before being
used."

In the case of scarlet fever," he
continued, "these epidemics, like those
of diphtheria, find their origin almost
invariably in milk cases. We can,
therefore, hope for much good to ac-
cure along these lines from the
efficient medical inspection of our school
children, by which these mhd. unrecog-
nized cases may be detected and quar-
antined."

His report shows the number of
cases in the specified diseases during
September and October:

Diphtheria, Scarlet Typhoid
Sept. 1910 126 68 94
Oct. 1910 130 112 60

Dr. Hastings explained that germa-
den water of the dairy farms being
examined, the milk being used to
taminate the cans and pails, and also
through the consumption by cows. In
boiling the milk a heat of 140 degrees
would be difficult to kill all germs.

All Rowland and the head of the
jack
the escapes on the isolation Hospi-
tal, and Aid. McMurry, the chair-
man, promised to take up the matter
with the Board of Health.

Plumbing inspection.
Aid. MacKay announced that, as Dr.
Hastings was to report on the man-
agement of the isolation hospital, he
would stand for the present his
proposal that the hospital be placed
under the control of the general Hospi-
tal or Hospital for Sick Children.

Supporting his contention that plumbing
inspection should be given over to
the city architect or city engineer's
department, he said Dr. Hastings had
no practical knowledge of the subject
and that plumbing inspectors did not
adhere to one standard of inspection.

"I have never seen any particular
conflict," replied Dr. Hastings. "We
must have uniformity, however. My
position is that everything pertaining
to the public health should belong to
my department."

He was instructed, however, to re-
port on Aid. MacKay's proposal.

Examination of Swabs.
Dr. George Nasmith, director of the
city's laboratory, who has returned
from inspecting medical laboratories
in New York and Philadelphia, stated
that, from now on, diphtheria swabs
sent in by doctors will be examined
every day in the week. He will receive
them up till 4.30 p.m. on Saturdays and
reports will be given out before 10 a.m.
on Sunday.

Street Railway Referendum.
Controller Spence suggested to the
board of control that a referendum on
the question of whether the city should
buy the street railway be sub-
mitted to the people on Jan. 1, 1911,
or at a later date, and the board will
consider the proposal to-day. The
mayor expressed the opinion that there
are already too many ballot papers to
go before the electors.

The medical health officer is to re-
port on the mayor's plan of having
circulars advising the people to boil
the water sent out with the water rate
bill.

City Relief Officer Covell reports
that during October there were but 54
applications for general relief, as com-
pared with 66 for the same month last
year.

Refused Laundry License.
The Chinese laundry question again
came before the board of health, when
an application for power to establish
a laundry at 10 College-street. This was
opposed by J. C. Thurston, grocery, of
56 College-street, who made the usual
plea of property depreciation. The
mayor and Controller Church voted for
the license, but Controller Spence,
of the east, declared otherwise.

The Chinaman is a member of West-
minster Presbyterian Church.

Rudolph Kering of New York, who is
reporting on a system of garbage in-
cinerators for Toronto, is to be here
at the end of the week.

The new portion of the Dundas-street
bridge is to be ready for street rail-
way traffic in two weeks.

The ferry company's work of wharves
at the foot of Bay-street expires at
the end of the year, and tenders will
be invited.

Three Boxes of Doan's Kidney Pills
Cured Her.

It is hard to do housework with a
back and aching back.
Backache comes from sick kidneys,
and what a lot of trouble sick kidneys
cause.
But they can't help it. If more work
is laid on them than they can stand, it
is not to be wondered they get out of
order.
Weak back is simply a warning from
the kidneys and should be attended to
immediately to avoid years of
terrible suffering from kidney trouble.
Mrs. N. Larmour-Smith, of Kildare, Ont.,
writes: "I take pleasure in writing you
stating the benefit I have received by
using Doan's Kidney Pills. About a
year ago I was terribly afflicted with
lame back and was so bad I could not
even sweep my own floor. I was ad-
vised to try Doan's Kidney Pills, which
I did, and with the greatest benefit. I
only used three boxes and I am as well
as ever. I highly recommend these pills
to any sufferer from lame back or kid-
ney trouble."

Price 50 cents per box, or 3 for \$1.25.

THREE YEARS FOR PERJURY
Convicted of perjury in having
sworn that the Sikorski had shot
him, whereas his own previous state-
ments, the medical evidence and the
testimony of other witnesses went to
show that he had shot himself, Christo-
pher Yane, a Macedonian, was yesterday
sentenced to three years in penitentiary.
"The offence is a serious one,
and one that must not be tolerated in
this country. He swore falsely against
his roommates, and caused that man,
who was innocent, to spend several
months in jail," said Judge Winchester.

The interpreter didn't divulge the
sentence until Yane had left the court,
whereupon he went violently.

And don't miss these five hundred pieces of Tiffany Art Glassware, in all sorts of useful dishes. Worth about 25c each. Friday, 8c.

Economies That Are Worth While

Though women are, as a rule, keener bargain-hunters than men, there is hardly a woman who wants to see "her man" dressed in what are commonly known as "bargain clothes."

That's one reason why there are no "bargain clothes" to be found in our stock. On Fridays we do sell clothes—popular lines of Suits and Overcoats that have been depleted—at a lowered price, because we do not want to carry broken lines in stock. But we're as willing to have you judge our Men's Store by these clothes at lowered prices as by our regular lines. That's just how good the clothes are that are mentioned here for tomorrow's selling.

Frize Offer in Men's Overcoats

Heavy fancy tweed ones, in attractive patterns—the kind you see priced at nine, ten and twelve dollars. All sizes from 35 to 44. Men's Store, Friday, \$6.45.

Men's English and Canadian Tweed Suits, latest three-button single-breasted sack style, nicely tailored in every way, and perfect fitting. Regular \$7.50 to \$10.00. Sizes 36 to 44. Friday \$5.95.

Boys' English Tweed and Fahey Worsted Two-piece Suits, in the latest Norfolk or double-breasted styles, with plain or bloomer pants; sizes 25 to 32. Regular \$4.50 to \$8.50. Friday \$3.49.

Boys' Strong, Durable Tweed Plain Knee Pants lined throughout with good wearing cotton; sizes 22 to 32. Regular 75c to \$1.00. Friday 59c.

Underwear Overmakes For Men

Two thousand pieces from a famous manufacturer, pure wool, winter weights, which at this time you'd expect to pay a dollar and a quarter for. Friday 69c.

500 Men's Wool Sweater Coats, waistcoat style, elastic rib knit; each coat has two pockets; colors come in grey, with navy or cardinal trimmings; men's sizes only. Regular \$1.00. Friday bargain, 75c.

Men's Sample Soft Hats

Fine fur felt, fawn, grey and black; some worth as much as two dollars. Friday, in the old Wanless building, 49c.

Men's Stiff Hats, fine English fur felt, and fashionable up-to-date styles. Regular up to \$2.50. Friday 98c. Children's Sailor Hats, round or square crowns, in drill and French felt. Regular 75c. Friday 19c.
