PUGSLEY GETS PORTFOLIO IN EMMERSON'S PLACE

New Brunswick Politician Enters the Laurier Cabinet as Minister of Railways and Canals—His Record.

Hon. William Pugsley, whose appointment as minister of railways and canals is unofficially announced from Ottawa, is a native of New Brunswick, and has lived in that province all his life. He is about 55 years of age, a good law, and of pleasing manners and address. He first entered public life in 1885, when he was returned to the New Brunswick house of assembly, to succeed Hon. Dr. Vall, who died in office. Dr. Pugsley was Speaker of the assembly from 1887 to 1889, and resigned this position to become solicitor-general in the Blair government. In 1892 he resigned as solicitor-general, and in 1896 ran as an independent candidate for the house of commons in the City of St. John. He re-entered the legislature in 1899, and upon the formation of the Tweedie government, in 1900, he became attorney-general. When Hon. Mr. Tweedie was appointed lieutenant-governor, Dr. Pugsley became premier. He resigned a few months later for the purpose of contesting the city and county of St. John, made vacant by the death of the late Dr. A. A. Stockton. Dr. Pugsley has not been credited in the past with any strong party bias in national affairs, belonging to the New Brunswick school of politics, like his former colleagues, the late Hon. A. G. Blair and the present lieutenant-governor.

The new minister is a good speaker, an ardent parliamentarian, exceedingly suave and plausible. He will undoubtedly add strength to the Laurier government on the floor of the house. There are many, however, who question the wisdom of entrusting him with a great spending department like railways and canals. While his personal honesty is not questioned, he has been regarded, in his own province, as a poor administrator and has been referred to as "the splendid spendthrift of New Brunswick." It was on account of his weakness in this respect that he was deemed undesirable as premier, and he decided to turn over that position to the Hon. Mr. Robinson, and to enter Dominion politics, even prior to Mr. Emerson's resignation as minister of railways and canals. He represented Mr. Emerson in the criminal libel suit at Fredericton, and it is supposed that his appointment is satisfactory to the former minister. At any rate, The Montreal Transcript, a strong Emersonian newspaper, declared itself some time ago as favoring Dr. Pugsley's appointment in case Mr. Emerson was not reappointed. It is thought that the appointment will ensure Dr. Pugsley's election as the member for St. John, thereby gaining another seat for the Laurier government.

TUG SWAMPS, 3 DROWN GEORGIAN BAY TRAGEDY

Alert Was Being Towed and Sudden Tightening of Line Caused Accident.

SAULT STE. MARIE, Aug. 28.—(Special.)—According to advices received in the S of this morning from Cutler, a drowning accident, resulting in three fatalities, occurred in Georgian Bay at a late hour yesterday afternoon. The tug Seymour was towing another small tug, the Alert, behind which was attached a raft of logs. The line slackened for a moment, and when they tightened, the small tug was unable to stand the strain and was swamped. Of the five men who were on board three were drowned. Their names are: Capt. Kennedy of Thessalon, Engineer Joseph Smith of Sudbury and William Boyer, a resident of Cutler. The bodies were all recovered this morning.

DERRICK TO RAISE MAN. Had Fallen 35 Feet in Grain Bin—May Die.

WELLAND, Aug. 28.—(Special.)—At the government elevator, Port Colborne, this morning Alfred Jackson, a workman, fell to the hopper of a 30-foot cement bin. He was taken to St. Catharines hospital to-night, but has not since regained consciousness. It was difficult to get him out of the bin. Comrades finally used a rope and derrick. Several ribs were fractured, but the chief injury is to the base of the brain. His home is in Thorold, where his wife resides.

\$5000 FOR AN EYE. Albert McCrory, G. T. R. Engineer, Starts Suit for Damages.

WINDSOR, Aug. 28.—(Special.)—For the partial loss of his eyesight Albert S. McCrory, a former G. T. R. engineer, running out of Windsor, has instituted suit against the Grand Trunk for \$5000. The accident which cost the engineer his eye occurred last March, when pieces of glass from a burst water gauge penetrated the ball of the left eye. His claim sets forth that he is unfit for work on Confederation and charges negligence against the company.

FIRES AT BRICKLAYER LUNCH MAN DISAPPEARS

Charles Vanderfil is Wanted for Using Firearms on Yonge St.—Police Cannot Find Him. The police are looking for Charles Vanderfil, who runs a restaurant at 270 Yonge-street. Bricklayers are working on the building to the south of his premises and bricks, or parts of them, have fallen thru the skylight of his kitchen. Charles has been drinking for days, and when a brick fell yesterday afternoon Charles was mad. He rushed upstairs, and, grasping his trusty Winchester, went to the window to shoot the bricklayers. There he encountered John Rathwood and remarked that he would show him whether skylights and kitchen girls were proper subjects for brick-dropping. Then he fired the gun. He fled from his front door and, going south on Yonge-street, disappeared. He is still at large.

PLUMBERS GET TOGETHER SETTLEMENT IN SIGHT

Bosses and Men Agree on All Points But Open Shop—Employers' Ass'n to Decide. The plumbers' strike is now in an interesting stage. The men have modified their demands so that apprentices shall receive \$7 a week in their fourth year, and \$9.50 a week in their fifth year, instead of \$8 and \$12.50 as first proposed. The minimum wage for men to be 40 cents per hour, instead of 45 cents, and all journeymen to receive an advance of 2 1/2 cents per hour. These conditions have been favorably received by the majority of the employees, and a settlement on these terms would have been made but for the bond the employers lay under not to give way on the open-shop question. The bond agreement is with the Employers' Association, and the majority of the master plumbers keenly regret it was made. As it has another six months to run, strong recommendations from the plumbers to have this rescinded or modified have been made to the executive committee of the Employers' Association, who thus will decide whether or not a settlement shall be made. Should this body take an obstinate stand on the point, the matter may be referred to arbitration.

18,000 HOUSES SUBMERGED. Frightful Havoc Wrought by Torrential Rains in Japan.

TOKIO, Aug. 28.—The havoc wrought by the torrential rains in the central provinces during the last few days is assuming alarming dimensions. In the Gunma prefecture alone more than 18,000 houses have been submerged. 49 lives are known to have been lost and 25 persons are missing.

The Fair Has Lost None of its Popularity With the Rising Generation

BIGGEST CHILDREN'S DAY YET 30,000 SEE THE EVENING SHOW

Attendance at Grounds During Day Estimated at 70,000—Not One Accident to Mar the Day's Pleasure—The Airship Had to Fly but Flight Very Brief. The school children of Toronto, in tens of thousands swept in a mighty wave over the fair grounds yesterday. Never before in exhibition history did young Canada turn out in such overwhelming numbers. The attendance last year was recorded at 65,000. The estimate of President W. K. George is that there were at least 70,000 within the gates yesterday. The weather was perfect. The car service was given a severe test last night in handling the crowds that began to flow out of the gates after the fireworks had flashed "Good Night." Manager Fleming must be given credit for an improved condition over that of last year. The scene before the grand stand last night was one to live long in the memory of the least impressionable of mortals. The magnificent new structure, built to accommodate 15,000, was crowded to the last nook and corner, while the wide lawn below was closely packed. It is estimated that the night performance was witnessed by 30,000, most of them youngsters. Throughout the day it was in the manufacturers' building that the attractions were greatest, and the spacious thoroughfares were jammed to a point of suffocation. But it must not be supposed that the rest of the buildings were neglected. The juveniles took in everything from the cholo paintings in the art gallery to exhibits of butter churns, while the midway did a land office business. Many Get Lost. The wonder of it all was that there were no accidents of more than a merely trivial character. The ambulance hadn't a single call. The physicians on duty daily at the grounds are Drs. Bryce, McMurrich, Arthur Wright, J. J. Graham and E. O'Reilly. One of the miniature railway cars was derailed about 6 p.m. and several children were shaken up. The policemen on the grounds had, on the other hand, a busy time in gathering in the little ones who had strayed away. In all, about 70 youngsters were snugly corralled in the police headquarters, but in nearly every case they were claimed by anxious parents. A few who had apparently been lost in the shuffle were taken to their homes last night. Airship Flew. The airship is rapidly becoming a test and nothing more to the public at large, but the management of the fair does not see humor in the situation, and relations between Dr. Orr and Manager Jackson are slightly strained. No attempt was made at an ascension at the scheduled time yesterday afternoon. A combination of off-shore wind and cranky engine compelled the craft to remain under the shelter of the tent, where a golden harvest was gathered, as hundreds of people who were disappointed in seeing the exhibition of soaring wings were willing to hand over a dime for the privilege of seeing the airship itself. President W. K. George explains that the admission fees go to swell the coffers of the exhibition. "Our contract stipulates that the air-

FRENCH NAVY IN A BAD WAY

Irresponsibility and Indifference Cause of Recent Disaster.

PARIS, Aug. 28.—The report of the senatorial commission which was appointed to investigate the explosion which, on March 12 last, destroyed the French battleship *Lena*, while in dock at Toulon, charges that the disaster was directly traceable to the system of irresponsibility, general indifference and lack of harmony prevailing in the navy. The report severely arraigns the administrative policies of the navy and the Portuguese battleship *Vasco*. The marine artillery did not try to establish the responsibility for the accident, but only sought to defend the powder manufacturers and conceal the powder, so that it could not be examined. The various branches of the service were divided by faction. There is no superior authority. Each branch works apart, resulting in a state of anarchy. Officers who complained of these conditions were not commended. Continuing the report says: "But the real cause of the catastrophe was the absence of accord, as well as the divisions and antagonisms existing in the different branches of the service. The marine artillery did not try to establish the responsibility for the accident, but only sought to defend the powder manufacturers and conceal the powder, so that it could not be examined. The various branches of the service were divided by faction. There is no superior authority. Each branch works apart, resulting in a state of anarchy. Officers who complained of these conditions were not commended." Explosion on Battleship. LISBON, Portugal, Aug. 28.—An explosion of gas occurred to-day on board the Portuguese battleship *Vasco Da Gama*. Several sailors were injured, but no death has been reported.

BABY'S BODY FOUND. Remains Discovered Far Away From the Spot of Crime.

DETROIT, Aug. 28.—(Special.)—The body of a little girl, apparently 2 years old, and undoubtedly that of little Helen Stemmelen, who was thrown into the river Tuesday night from the Belle Isle Bridge by her father, was found this morning near the plant of the Great Lakes Engineering Works. Driven insane by constant meditation on the fancied enormity of his sins until his mind became unbalanced by the idea that he ought to make atonement thru sacrificial offering of his dearest possession, Albert Stemmelen, 20 Baldwin-avenue, bookkeeper for the Weston estate, has confessed at the police station that he had drowned his 2-year-old baby girl, Helen. Stemmelen felt better to-night than he has since he gave himself up. He now refuses to talk and has asked for an attorney to defend him.

Milk Boosted. DETROIT, Aug. 28.—(Special.)—After Sept 1 the milk dealers of this city will boost the price of milk to 7 cents a quart. This is one cent raise over the present price. The increased cost of labor and feed is given as the cause of the lift.

EARL GREY URGES WAR ON WHITE PLAGUE

Dedicates King Edward Sanitarium at Weston—Lauds Working-men's Gift of \$100.00. Before a brilliant assemblage yesterday afternoon, the Governor-General of Canada officially opened the new King Edward Sanitarium for Consumptives, which had been established in connection with the Toronto Free Hospital for Consumptives at Weston, thru the generosity of H. C. Hammond and the generosity of H. C. Hammond and Robert Mulholland. Each donated \$10,000 to build two magnificent buildings for the treatment of advanced cases. A feature of the afternoon was the presentation to Earl Grey, while on his way to attend the proceedings, by the Canada Cycle and Motor Co. employees, of a purse of \$100 for the hospital. His excellency received a great ovation and spoke entertainingly to the men. His excellency and party spent 15 minutes in going over the sanitarium. His address in opening the institution struck the point that the country and individuals should organize to combat the ravages of consumption. "It is a great privilege to be here," said Earl Grey. "I think I am that wrong in assuming that the proceedings here to-day have established conclusively that Canada is in earnest in trying to sweep from the country the terrible white plague. The proceedings commenced with a beautiful reverent prayer from Dr. Potts. He prayed that the country and individuals should organize to combat the ravages of consumption. A Most Beautiful Display. A visit to the fine display of Gerhard Heintzman, Limited, at the exhibition grounds, in the manufacturers' building, will forcibly demonstrate that it pays to buy a good article. There is a subtle something about the Gerhard Heintzman piano that, from the first glance, impresses one with its artistic excellence. The beautifully chaste case serves as a fitting covering for the delightful harmonies it encompasses.

THE WORLD'S HOME MAGAZINE FOR WOMEN

Edited by LAURA E. McCULLY, B.A.

Women's Exhibit at Fair One of Most Attractive

Collection of Handwork of Unusual Merit--Grows in Interest Each Year.

The women's building has grown steadily in interest during the last year, until now it takes rank as the most attractive of the grounds in the collection of exhibits it presents. The ladies are showing a commendable desire to further its success, and the attendance throughout the grounds was none too large owing to the weather's unkindness last night to the building attracted its popularity.

The exhibits gotten together beneath its roof are of more than usual merit this year, which is saying a good deal. The articles of value range from products of household science, such as tempting home-made bread, jam, pickles, etc., to exquisite creations in fine lace, sculpture and works of the brush and palette.

er, and Miss Sutton more powerful than vice versa. Owing his opponent 50 points every other game, Mr. Wright's chances of "making good" looked pretty black at first. Two love, two all, three two, and four two, ran the score in Miss Sutton's favor. It almost looked as if she was to win. Then Wright won two games in succession, capped them with two more, and she stood 4-4 in his favor. It must be remembered that Miss Sutton had played before, and the not tired, was a tired man.

Personal

His Excellency Earl Grey will visit the exhibition grounds this morning, this afternoon at 4 o'clock will lay the cornerstone for the library of the Canadian Military Institute, will be entertained at the Toronto Hunt Club in the evening, and at 10 o'clock p.m. will leave for Ottawa.

The wedding of Mr. William Maddox of 229 West Queen-street and Miss Isabella Wright daughter of Mr. James Wright of 149 Victoria-street, took place last evening in the Metropolitan Church, Rev. Dr. Leage officiating. The bridegroom was Miss Flora Melver and the groomsmen were Mr. Richard Maddox, a brother of the groom. A wedding supper was served to the guests at the residence of the bride's parents. There were many friends and relatives present and the wedding party were numerous and beautiful.

THE WOMAN DID TEMPT ME.

And Paying Teller Stole \$100,000 of Trust Company's Funds. NEW YORK, Aug. 28--Chester E. Runyan, the former paying teller, who stole nearly \$100,000 in cash from the Windsor Trust Co. last June, to-day in the court of general sessions, charged that Laura A. Carter, now on trial, charged with receiving stolen money, led him astray. Runyan testified that he met Mrs. Carter on her home several times. During these visits he told her that he had stolen several thousand dollars from the bank where he was employed. One evening when they were talking about his case, Mrs. Carter said: "You are in bad now, why don't you take some more and have enough for yourself?" A few days later he crammed nearly \$100,000 into a suit case and fled. He was turned over to the police a week later by Mrs. Carter.

The Dangers of Cow's Milk

The whole country is awakened to the grave danger lurking in the Milk Supply of our large cities. Wherever milk is used that has not been properly safeguarded from the consumer, the infant mortality from tuberculosis confirms the menace of Von Behring, that and tuberculosis of cows is a constant menace to the human race, and that consumption developed in later life has often been contracted in infancy, from tuberculous milk.

Nestle's Food

does not require the addition of milk in preparing it for use, as it is a complete diet in itself. The basis of Nestle's Food is milk, so treated and modified that it will be easily digested and will resemble mother's milk in its composition, as closely as possible. The milk supplied to the Nestle's Food factories is collected under the most exact supervision of the Company's veterinarians. Furthermore, the process of manufacture completely sterilizes the milk. This is fully set forth in our pamphlet, "Recent Work in Infant Feeding." A copy of this, with samples of "Nestle's Food," will be glad to send free by mail.

PRETTY PUSSIES, PETTED PURR, PEACEFULLY PLEASED

Cat Show. One of the Most Attractive Features for the Crowds of Yesterday.

The cat show this year not only easily outstrips that of 1906 in the number and quality of the entries, but is the largest collection of the feline aristocracy ever gotten together in Canada. There are no less than 212 pussies on exhibition, and so well are all the different classes filled that no one overshadows the others, as has usually been the case.

The reason for the greatly stimulated interest in the affairs of catdom is stated to be in the recent organization of the Cat Fanciers' Association. This body is international in its scope, and it aims to encourage high-breeding by offering championships, so-called, to tabbies that succeed in winning ten points in competition. A first prize ribbon is awarded to the winner of entries is between 200 and 250 points, and the distinction a cat wins for itself when it graduates into the class of champion is eagerly coveted throughout America.

The great influx of entries this year is largely due to the invasion of United States breeders. The awards thus far show that the laurels rest with the visitors, but Mrs. Elizabeth Brace of the Lockhaven Cat Club, Rochester, which organization is one of the largest exhibitors, cheerfully admits that Canadian fanciers are making very good strides indeed.

A number of laddies from different cities in the United States are at the fair as show exhibitors. Prominent among them is Miss Cathcart of Oradell, New Jersey. Miss Cathcart has the largest entry in the country, covering no less than seventy-five Micals. She has eight entries in the show. Other ladies who are very much interested in the display, and who with unanimous voice declare it to be one of the finest ever held in America, are Mrs. Hardy, Detroit; Mrs. Dykehouse, Grand Rapids; Mrs. Jackson, Washington, D.C. Other visitors are: Dr. and Mrs. D. B. Smith of Cleveland, J. H. Rehhardt and Mrs. Reinhardt and C. H. Jones, Rochester.

Mrs. Brace, who is an ardent cat fancier, and has traveled widely as an exhibitor, remarked that of the last ten shows which she has attended only two have exceeded this. Long-haired white female, blue eyes--Mrs. H. G. Dykehouse's Princess of Paris, 1; Mrs. H. G. Dykehouse's Romeo Blue-Prince in September. Long-haired white male, golden eyes--Miss S. Cox's Meath Rhino, 1. Long-haired white female, golden eyes--Mrs. Alfred Jackson's Angela, 2. Miss S. Cox's Shuniah, 2. Flynn's Homer Wins Second—Buffalo and Providence Break Even Royals and Bronchos Win Foxen and Sullivan Engage in a Scrap—Will Foxen Be Expelled?

Toronto corralled yesterday's double-header from Newark in two of the nicest games seen here this year. The locals had a margin of two in each contest, the scores being 4 to 2 and 6 to 4, respectively. Incidentally Buffalo's coffin received another nail in the lid. The first game was a pitchers' battle between McCarthy and Rudolph, with honors in favor of our Dick. True, Rudolph was touched up for one more safety, but they were so mixed up as to cause the least damage. On the other hand the locals made even out but one double into triple.

In the fifth the Sailors took the lead, scoring three runs on what was eighth. Stange tried to catch the base-runner, Hurley tried to catch the base-runner, but the throw was wild. Stange failed to get the ball, and Hurley failed to get the ball.

The features were Frick's all-round good fielding, Schafly's steal home in the final inning in the first, and Crooks' catch of Jones' drive in the seventh. Sharpe's one-hand stab at Crooks' liner in the eighth, and Sullivan's foul in the ninth, and Flynn's homer in the first, and Flynn's homer in the first.

Foxen and Sullivan Fight. ROCHESTER, Aug. 28.—Rochester beat Jersey City 13 to 6 to-day, but the game was but an incident to what occurred at Cavalry Field after the game. The second inning Umpire Sullivan sent Pitcher Foxen from the grounds for obstructing the catcher in the effort to get the ball into the game had finished. Then he returned to the field and picked up a club. He followed Sullivan into his coop and he followed Sullivan and he wrestled for ten minutes before the police were able to break down the door and get Sullivan out. Sullivan found Foxen getting permission by Sullivan. The police escorted Foxen from the grounds and he was taken to the club before he was able to conquer the enraged pitcher. CHICAGO GETS ELBERFELD. Traded for George Davis—Murray Secures Foxen and Clement. PHILADELPHIA, Aug. 28.—(Special).—One of the most important moves in big league baseball circles in many years was made known here to-day, when the Athletic team returned from its western trip. Should the exchange contemplated cleared the locals, either the way was made known here to-day, when the Chicago Little Shortstop of the New York American League Club, will go to the Philadelphia Athletics in exchange for Shortstop George Davis, the veteran, who has made his first big league appearance in the New York's interest in the deal does not end there, for Davis, with his years of experience, is to be placed in charge of the Highlanders and take the place of Clarke Griffith, who, at a \$10,000 salary, has directed the play of the team as manager since it entered the American League. Griffith has had a fortune in his disposal for the purchase of players and has had a wealth of good material for his teams, but his portion has always been failure. In 1906 when the team gave Boston a fight for the pennant, the Highlanders finished second. This has been the best Griffith has achieved. Elberfeld would greatly strengthen Chicago, as he has hit equals for hitting ability and inside play. The principals in the deal would neither affirm nor deny the proposed deal, but they have indicated such a change had been under advisement. Manager Murray of the Philadelphia Athletics has begun to make his forces for the season by the gathering of a few players before the drafting season comes around. He has made his first dip into the Eastern League, going to his old club, Jersey City. From this team he has signed Foxen, a left-handed pitcher, and Clement, an outfielder. The latter, it is hoped, will be able to fill the place of Roy Thomas, the veteran centerfielder. Murray has also signed Stevens and Spencer, from Altoona of the Tri-State League. Boston Zingaris Behind Five Wickets and Eight Runs—Play To-Day at Mimico.

The touring team of cricketers known as Boston Zingaris lost their match to Rosedale yesterday by 8 runs and 5 wickets. The wicket was in first-class shape, but as that there were 22 (not out) for the visitors, and Astley 18, and Bugweiser 23 for the home team, all in the first inning, were high. The fielding on both sides was snappy and helped to keep down runs.

PROVIDENCE, R.I., Aug. 28.—The third day's racing at Narragansett Park brought one interesting event, the third race, the 2.04 class for pacers, which required four heats, because all the starters were pretty well matched. The event of the day was the Roger Williams Stake of \$800, for 2.12 trotters, attracted a larger crowd than marked either of the first two days, about 600 being present. Highball and Sonoma Girl were both entered and the withdrawal of the latter was a great disappointment to the spectators.

BRUSSELS WOULD PLAY

Green River at Galt or Berlin and Promise to Repeat Victory. In reply to the suggestion from Green River, the president of the Brussels team, the following fair communication: "In reference to the challenge from the Green River which appeared in your issue of the 27th inst., the facts are wholly distorted. Both games were played under the supervision of the Ontario Association, and the referee in each case was quite fair. It is rather poor sport to complain after having fairly beaten. As to the challenge to play in Toronto, it is quite absurd. Why should Brussels, the winners, go 120 miles in a crowded exhibition excursion train to meet the Toronto? The game for the 27th inst. is over, but if the Green River support a game at Galt or Berlin (supervising central points), upon request, the Brussels will be pleased to meet the Green River team and repeat the victory."

BEAUCOUP, 8 TO 5, WINS FEATURE AT SARATOGA

Tourenne Second to Kennytto in Mile Handicap, Charles Edward Outside the Money.

SARATOGA, Aug. 28--Beaucoup, a Futurity candidate, won the Adron-dagk Handicap, 6 furlongs, here to-day. Falcada, stable mate of Beaucoup, was second, and Fultonville was third. The stable was backed down from 3 to 1. Beaucoup jumped into the lead at the start and led by three lengths in the stretch, but was under a drive to win by a head. The stable, 2 to 1, was with Falcada. This caused the close finish because E. Dugan was waiting for Falcada to come up and win.

### Three Days More

As advertised, we will continue to sell our Furs at a special discount of 25 per cent. off actual values during August. But this discount will be positively withdrawn September first.

It is the unlikely season that influences our prices in August. The Furs are all new and in the latest designs. The August discount encourages people to anticipate their winter needs. During the fall, the weather is usually cool enough to keep people in mind of the need for furs.

#### LAMBTON.

LAMBTON, Aug. 28.—The Toronto Junction Gun Club held the 10th shoot of the summer series on the Lambton grounds to-day. The weather was fine, with a strong wind, which made the shooting very difficult, and the scores were consequently not up to the average. The regular meeting will be held to-morrow evening, when arrangements will be made for the annual shoot. To-day's scores are as follows:

Shoot No. 1, 10 birds each; Fleming 9, Sheppard 8, Capell 8, Albert 8, Thompson 8, Ellis 8, P. Wakefield 7, Archer 7, Roberts 7, Smith 7, Taylor 7, W. Wakefield 8.

Shoot No. 2, summer handicap, 25 birds each:

Class A—P. Wakefield 19 and 23, W. Wakefield 17 and 19, Roberts 17, Taylor 12.

Class B—Fleming 21 and 23, Ellis 19, Sheppard 16, Capell 14, Smith 9, Albert 13 and 9.

### JUNCTION CONDUCTOR MEETS SUDDEN DEATH

Runaway in East Toronto—Mimico Boys Visit Fair—General County News.

TORONTO JUNCTION, Aug. 28.—In a rear-end collision on the C. P. R. at Manvers at 8:30 o'clock this morning Edward Wansborough, a brakeman, who resides at 44 Victoria-street, Toronto, was instantly killed. The brakes on a train coming down the grade refused to act and the train crashed together with such force that several of the cars were piled on top of one another. Wansborough was traveling as a brakeman and was asleep in the caboose on the outgoing journey when the accident occurred. Several other brakemen, one of whom is Herbert Gonnabahn, 87 Dundas-st., were on the train, and they also were asleep, as they did not have to report for duty till the return journey. The third section of the train was following on a down-grade and when it was found that a collision was imminent, the men were warned and had just time to spring from their beds and off the train before the crash. Wansborough was asleep and did not hear the warning till too late. Deceased, who was 40 years old, is survived by his widow and two children. He has been a resident of Toronto Junction for about 15 years. The coroner, Dr. Grey of Peterboro, held an inquest at 5:30 p.m. to-day. The body will be brought to the Junction early to-morrow morning, where interment will take place. Williams Speers will have charge of the funeral arrangements. He went to Manvers this morning with James Wansborough, brother of the deceased, to recover the body. Mr. Wansborough was in particularly good spirits last night when he left his home at about 11 o'clock. On being asked by his wife as to when he would return he replied, "God knows," but added, jokingly that he would be all right except a collision should take place. The governor-general passed through the Junction this afternoon in a private car of the Toronto Street Railway Co. on his way to open the new King Edward Sanatorium at Weston. There were besides 15 special cars, which went directly from the city to the sanatorium. Seven crowded passenger cars left the corner of Keele and Dundas-streets shortly afterwards, and John Richardson of Wallaceburg, 17th Town Clerk Common at his home, 139 Bloor-st. The executive committee of the town council will meet to-morrow evening. Toronto Junction, will be glad to hear of his safe arrival at Murray-field Cottage, Tain, Scotland, after a pleasant voyage on the R.M.S. Empress of Britain.

Mrs. Peter Ellis went to Cannington yesterday where her sister, Miss Gillespie, is seriously ill.

Two boys from the Mimico Industrial School escaped from that institution about 10 o'clock this evening. Nearly all the boys had gone to the exhibition, and there were only two guards left to watch those who remained in the building. No trace of them has yet been discovered.

Mayor Fair states that the increases in taxes in the Junction this year are due to many causes. There has been an appropriation of \$5000 for the town hall, \$7000 for remodeling the bridge, an increase of about \$400 in the administration of justice, \$800 in expenditure for schools and increases in official salaries.

A meeting of the management committee of the high school was held to-night to consider the resignation of C. L. Barney, B.A., when the committee decided to advertise for a male teacher, a specialist, to teach English, history and take charge of the first term, at the initial salary of \$1000. The school will open Tuesday, Sept. 3.

Rowntree, the brilliant defender of the Tecumseh Lacrosse Club, whose portrait appears in to-day's World, and who is well and favorably connected with the cattle market, has been matched to race against Jack Thoney of the Eastern Baseball League. The match will take place at the Island on Saturday, Sept. 7, and great interest attaches in the Junction to the event. Rowntree has long been considered the swiftest runner of the Tecumseh team, with few superiors in any club.

But it is not alone in the realm of sports that Mr. Rowntree excels. Among the business men and travelers generally, Fred Rowntree is regarded more especially in the dairy class, in which he is largely interested.

#### EAST TORONTO.

Plate Glass Window Just Nicely in, Must Now Be Replaced.

EAST TORONTO, Aug. 28.—A runaway team dashing thru the big plate glass window in Paterson Bros.' handsome new store front this afternoon created considerable excitement, and the means of collecting a big crowd. George Fitzpatrick, a well-known farmer living on the town line, had driven the Danforth-road, and close to the G. E. P. tracks, to get a load of feed, and while in the mill, they took fright and dashed madly north. The new store at the corner was the first object standing almost directly in the way and dashing over the sidewalk they plunged into the window, shattering it into little pieces.

A painter putting the last finishing touches on the front had a narrow escape from the flying glass and the team, both of which were severely cut and injured, necessitating the services of Dr. Millen. The wagon was somewhat badly smashed.

The results of the university matriculation examinations, as given, reflect great credit on Principal French and Assistant Master Graham of the East

#### DOVERCOURT.

Police Think They Will Be Able to Locate Guilty Parties.

DOVERCOURT, Aug. 28.—The multiplicity of small fires in the Dovercourt district during the summer has convinced the authorities that all is not well, and Inspector Rogers, with a view to eliciting some light on the matter, will hold a fire inquiry on Friday in the Bartlett schoolhouse. T. L. Monahan will appear on behalf of the crown, and some thirty witnesses have been summoned. The county police seem to be hopeful that interesting developments will be forthcoming.

#### NORTH TORONTO.

Popular Young Lady Wins Scholarship—Florist at London.

NORTH TORONTO, Aug. 28.—Councilor W. J. Lawrence, who is president of the Canadian Horticultural Association, is attending the annual convention now in session in London, Ont. Thomas Macdonald of Victoria, who is also attending, is slated for the reading of a paper on "Plants for Flowers for Holiday Trade." Mr. Houle, manager of the Bedford Park Floral Company, and ex-councilor Walter Muston, manager of the Toronto Floral company, Davisville, are also attending the convention.

Miss Gamble, a member of the National Council of Women, and who accompanied the delegates on a trip to the Pacific Coast, has returned home greatly delighted with the trip, and the success of the gathering.

W. W. Judd of Wolland, who will take a position at Ridley College, St. Catharines, is visiting in town for a short time.

Mr. Cordigny presided at the meeting of the temperance department of the Epworth League on Monday evening, when addresses were given by Mr. Lun, and musical selections by Miss L. Davis and Miss G. Whaley.

Miss M. Waddington, pupil at St. Clement's School (one of the most progressive and popular schools in the suburbs), is being warmly congratulated on winning the Burnside scholarship in English, history and geography at the recent Trinity College examinations.

Miss Waddington is about 17 years of age and a daughter of Herbert Waddington of Victoria-avenue.

#### MIMICO.

Scarcity of Stone Delays Work—School Boys Have Great Outing.

MIMICO, Aug. 28.—Work on the Lake Shore-road, which, during the past fortnight, has been pushed rapidly ahead, is again at a full stop owing to the scarcity of stone. It seems probable that the commission-ers will not be able to extend the roadway as far as they otherwise would this season, owing to this fact. Councilor Warner, whose heart is set on carrying out the work outlined, is said to be chafing at the delay.

The village is depopulated to-day by the absence at the exhibition of

almost all the school pupils. In addition to the regular public school pupils, there was a fine turnout from the Mimico Industrial School, fully 200 of the boys taking the early morning train for the city. The boys presented a fine, thrifty appearance, and enjoyed to the full the prospect in store. They were well-provisioned and were accompanied by some 20 of the officers and the industrial band. They reached home to-night about dark, a tired, happy throng.

Supt. Ferguson of the Industrial School, who has been in Muskoka enjoying his holidays, has returned home, accompanied by his family.

#### WESTON.

WESTON, Aug. 28.—There is a chemical company trying to locate in town on part of the Holly estate, between the C. P. R. and G. T. R. tracks. The lot they are looking at is about four acres in extent and they offer \$150 per acre, which is considered a very fair price. All parties connected with the estate except one have signed off.

### ONTARIO MUNICIPALITIES HOLD CONVENTION HERE

Some Facts Concerning Debenture Issues—Many Resolutions Introduced.

That municipal debentures increased in the three years ending Dec. 31, 1906, by \$56,000,000, and were accompanied by \$26,700,000 by the provincial government, and that the municipal indebtedness of Canada totals \$150,000,000, as against a total provincial indebtedness of \$100,000,000, was clearly shown to the convention of Ontario Municipalities, in session at the city hall yesterday afternoon by Dr. Morley Wickert, who delivered, by invitation, an address upon "Municipal Statistics and Debentures."

He suggested that many municipalities stood in their own light by issuing debentures in a slovenly manner, sometimes carelessly written with pen and ink or typewritten and upon flimsy note paper of all shades and sizes, and payable at obscure village banks. He also criticized the dearth of municipal statistics, and comparisons could not be made by students of political economy.

The convention was opened by address from the president, ex-Mayor Ellis, now city treasurer of Ottawa. About 100 delegates are in attendance and nearly every important municipality in old Ontario is represented. Mr. Ellis warned the association against hasty legislation.

The delegates were welcomed by Mayor Coatsworth and Controller Hubbard. Mr. Hubbard recommended that the municipalities keep a man at the collector of the property tax, to watch legislation of the legislature, to watch legislation of the legislature.

Many resolutions were presented and referred to the committee on resolutions.

Many prominent men are attending the convention as delegates, including Mayor D'Arcy, Scott of Ottawa; Col. Belcher of Southey, Ontario; Mitchell, city clerk and city solicitor of Belleville; D. M. McIntyre, city solicitor of Hamilton; H. Fryer, controller of Hamilton; Mayor Sleeman of Guelph; R. W. McKay of St. Thomas, and many others.

**Niagara Power.**  
Yesterday afternoon J. H. Fryer gave a talk on "Niagara Power." He said that during the past few months there had been less talk than formerly about Niagara power. The truth was that the time for talk had gone by and it was time for action. Many municipalities, including Toronto, had capitulated, to watch legislation of the legislature, to watch legislation of the legislature.

Among the resolutions proposed are:

- 1.—To change the election day to the first Monday in December.
- 2.—To repeal the Commone Act and give municipalities power to expropriate.
- 3.—To exempt municipalities from damage suits for neglect of highways or as an alternative make the cases triable without a jury.
- 4.—To exempt incomes of heads of families up to \$1000.
- 5.—To compel the purchaser of real estate to declare in the consideration paid if regulated by the assessor.
- 6.—To permit Sunday street cars if a plebiscite declares for them in any municipality.
- 7.—To give municipalities full control of their highways as against telegraph and other companies.
- 8.—To permit municipalities to expend money without a popular vote or without going to the legislature upon approval by the Ontario Railway Municipal Board.

**Building By-laws.**  
Following the Crystal Hall disaster in London, Ont. Cooper of that city moves the plans for remodeling buildings be signed hereafter by municipal architects and passed by municipal councils. His resolution declares that carelessness and cheap materials are features of modern building and rebuilding.

Because there is a Hamilton liquor firm maintaining an agency in Dundas and taking orders there, Councilor Laurison and Mayor Moss of Dundas propose that in a municipality where there is a liquor store, orders may not be taken for a store in another municipality.

Kingston wants equalization in the business tax as between the wholesaler and retailer. Next is a proposal that incomes of heads of families be exempt up to a thousand dollars.

Councillor Armstrong of Peterboro wants councils elected for two years, half retiring annually.

Mayor Bowley of Brantford proposes that where the poles and wires of the Great Northwestern Telegraph Company are considered a nuisance on a highway the company may be compelled to remove them.
