PENN'S TRACK TEAM FOR ENGLAND

Orton and Grant to Represent the Quaker Athletes in Long-

Distance Events for England.

Philadelphia, Feb. 19.—Penn's track team will leave for England on June 20 on the steamship New York.

When the men arrive on the other side they will take a month's vacation in the British climate.

On July 7 they will compete in the English championships at London. Here they will have a chance to meet the men of Oxford and Cambridge, who a year ago defeated the team as Princeton.

After the English contests the team will be taken to the city of Paris, where they will have a week's preparation for the games which will be held in London.

Mr. Penn's showing in the games will be a great credit to the school.

Whether he decides to take over graduates will be a matter of course.

This case will be strengthened with C. W. Orton and Grant, possibly Winsor.

With Orton and Grant in the distance races, Winsor and McClean in the sprints, Wilson and Baxter in the hurdles, and McClean and Hare in the weights and the games which will be held in London.

WON TWO FIGHTS LAST NIGHT, SEMI-FINAL AND FINAL, EACH IN THE SECOND ROUND.

HE'S NOW CHAMPION OF THE WORLD

Tom Sharkey Knocked Out Jim Jeffords at Detroit Also in Round No. 2.

New York, Feb. 19.—The A.A.U. boxing and wrestling contests Max Wiley of the Rochester A.C. proved himself the phenomenal wrestler to-night, when the finals of the 145 and 168-pound classes were being contested.

He won in each event, and, as he also won the 168-pound championship Saturday night, he will have a good chance of pulling off the honors in the contests to be held in San Francisco under the auspices of the Olympic A.C. The championship of the 115-pound class was won by Joseph Bonnard of the St. George Club.

In the glove contest John L. Scholes, English and Canadian champion, met Mike O'Brien of the Union Settlement A.C. in the semi-final of the 125-pound class.

Scholes was lucky enough to draw a bye in each of the preliminary bouts, and for a time showed up fairly well in the first round. The Canadian wore him out by hard rushing and a two-hand delivery in the second round, and had O'Brien groggy when the referee stopped it and awarded the semi-final to the Englishman.

The other semi-final was between E. C. Boynton of the Union Settlement A.C. and Ben Schooner of the St. George Club. Boynton securing the decision over the Canadian in the second round.

The Canadian winning in the second round, when his opponent's second threw up the sponge.

Regarding my defeat, Jim Jeffords has no excuse to offer, as excuses don't go for showings on several occasions, made better by the fact that he was a champion of the world.

Jeffords should not think Gans a wonder if he has taken place at a national level, as he has a few friends in Toronto to root for him.

William S. Sullivan.

SPIKE'S VERSION OF THE GANS FIGHT.

The Crescent Athletic club will in all probability put off the Spike Sullivan-Jack Daily 20-round contest at the Bijou Theatre, 100 West 12th-st., until after the matchmaker, received yesterday, Spike Sullivan, has been secured.

"My left ear was badly hurt in my contest with Martin Flaherty at Troy last night, and I am not sure that I can take a 20-round fight with Gans, and is so bad that an operation is necessary."

FRANKLIN AFTER EASTERN FRANCHISE

Buffalo Club Must Pay to Get Back, Says President.

Jersey City, N.J., Feb. 19.—If Buffalo is really trying to break away from the American League, as many have been led to suppose, President Franklin is not making it an easy matter to get back into the Eastern League. He spent several hours in this city last week, and called on President Powers of the Eastern League several times.

John Root, the undefeated local middleweight, and Ed Denton of Philadelphia will have two fights in the wind-up of the Buffalo franchise, but only one will be for the title.

Chris Graham, who was beaten Saturday night by the champion, passed out of the Buffalo franchise, but only one will be for the title.

John Hudson disgusted Chicago Athletic club members Saturday night by one of his best cases of the year for \$1000.

At the end of two rounds Hudson was shown in a ring, Hudson went for a 6-1 victory.

perhaps, in view of his honor than anything else, that he left office a poorer man than when he entered it. [Applause.]

The Consensus of Opinion. Mr. Speaker, the first item of the address is the suggestion that in all probability a grant will be made for the wives and families of the soldiers who have gone to South Africa. In that suggestion I cordially concur. I am not in the least hesitating to support the Government further forward in the positions they take here. I certainly think that they cannot go further than the Opposition are willing to follow them in this regard. [Applause.]

The Ontario Finance. Mr. Whitney referred at length to a meeting of the Finance Committee of the Ontario Government. He said: "This is a House of great importance to the province. It is the House that we have to look to for the future of the province. It is the House that we have to look to for the future of the province. It is the House that we have to look to for the future of the province."

Consider the People. Mr. Whitney said that the people of Ontario are the most important consideration in the eyes of the Government. He said: "The people are the most important consideration in the eyes of the Government. The people are the most important consideration in the eyes of the Government. The people are the most important consideration in the eyes of the Government."

After getting the problem of To-Day. Mr. Whitney said that the Government is faced with a great problem. He said: "The Government is faced with a great problem. Woman's World

Devoted Specially to the Interests of our Women Readers. Conducted by Katherine Leslie.

The Woman's Art Association is one of the most thriving and enterprising of the women's associations of Canada. It is not a year since the association undertook a portrait exhibition, which was a unique and delightful affair in the art history of the country.

It seems ridiculous in these bitter winter days to be thinking of summer frocks, but how can one do otherwise when the shops are full of the loveliest muslins and dainty canton crepes. These muslins and canton crepes are the latest in fashion.

Challies are to be much worn this year and are to be much worn this year. They are to be much worn this year. They are to be much worn this year. They are to be much worn this year.

CANADIAN SPRUCE AREAS. Referring to the increasing value of spruce limits in connection with the paper industry, the Premier of Quebec recently stated that spruce limits which sold for \$81 per mile in 1892 brought \$150 a mile when sold by the Government last year. In the Province of Quebec thirty million acres of timber limits have been licensed, while it is estimated that there are still unlicensed 300,000,000 acres in the old part of Quebec and 70,000,000 acres in the new part recently added to the province. And most of this is timbered with black spruce, the most valuable of all woods for pulp and paper purposes. We do not know how Ontario's spruce limits compare with those of Quebec, but they are very extensive. Canada possesses without doubt a greater supply of the raw material of the paper manufacturer than any other country in the world. That is to say, we must not make application to the Government to improve our educational system for fear the Roman Catholics may steal a march on us and extend the separate school system to high as well as public schools. There is not the least ground for apprehension. Public opinion would not tolerate an extension of the separate school system. Any attempt in this direction would lead to a rebellion. The Roman Catholics must rest content with the exceptional privileges they already enjoy. There is no unanimity among Catholics themselves in favor of separate high schools. At any rate we do not think they would seriously demand a further extension of their privileges. No Government in Ontario could live a year that would entertain a proposition of this kind. But even if it were true that the Roman Catholics would insist on a separate high school in the event of special legislation being applied for by the city, there is no reason why we should not make the application. On the contrary, it is the more reason why we should assert ourselves. If our school system rests on such an unstable basis, it is time we knew it. If separate high schools are to be sprung upon us, we must do it at any moment, the sooner the better. An admission that we are apprehensive that separate high schools may be established in this province is a decided weakness. It affords a good argument for the Roman Catholics to make an attempt to foist them on the community.

MR. TARTE HAS NOT QUIT. Minister Makes This Flat Statement at Ottawa—Nothing, He Says, Has Been Settled. Ottawa, Feb. 19.—Hon. J. L. Tarte has not resigned—that is certain from his own statement. He returned this morning from Montreal, where he went on Friday, and was at once seen by your correspondent. "I have not resigned," he said. "I see by this morning's papers that I have, but I have not." Asked if he could say anything as to the rumors that he would resign on leaving for Paris, and the other report that he would go to Paris as High Commissioner, retaining his portfolio, he said: "I can say nothing about either of these reports. I cannot stay here because of my health. I would like to see the country, but I do not know if it is possible or not. I must make a speech to say I am loyal."

JOHN BULL STILL IN THE RING. We have been led to believe that the British are a slow and conservative people, and so they are. But occasionally we get a glimpse of a swiftness that puts to the blush even a Yankee. On the continent we have not got beyond the use of special trains to aid in the circulation of our newspapers. In Great Britain the telegraph is employed for this purpose. The London Daily Mail, for instance, is sent telegraphically to London and Manchester. This feat being made possible by means of a special telegraph wire between the company's offices in the two cities mentioned. There is hope for John Bull yet. If he will only adopt the enterprise of the proprietor of the Daily Mail in his other lines of business he will have nothing to fear from Yankee up-to-dateness. Entering as the United States papers are, none of them has yet done what has been accomplished by Mr. Harmsworth. Keep it up, John, and you may yet win in the race for the commercial and industrial supremacy of the world.

WINTER NAVIGATION ON THE UPPER LAKES. Winter navigation on the upper lakes would prove a valuable thing to the farmers of this country and the United States. Our own experience in this line is enough to warrant the belief that winter navigation is perfectly feasible. If any doubts exist, these may be set aside by the recent experience of the Russian ice-breaker Ermaek, which has made a speed of 10 knots an hour thru ice two feet thick, and on one occasion encountered a pack which was found to be of a total thickness of 24 feet, 9 feet below the level of the field thru which she successfully forced her way. It is expected that the Ermaek will succeed in keeping the Gulf of Finland and the Baltic open for winter navigation to St. Petersburg. Navigation on Lakes Superior, Michigan and Huron would be child's play compared with what is being done in Russian waters. We have little doubt that before many years there will be an all-year-round service between the head of the great lakes and Georgian Bay ports.

THE B. C. LABOR PROBLEMS. A respectable feast of work troubles of British Columbia is that the agitation among the miners is directed by foreigners. A committee of Sandon business men recently advised a committee of the miners to accept the terms of the managers. The negotiations, however, proved abortive, because the proposal did not meet with the approval of the union officials at Butte, Montana. Speaking of the situation in British Columbia, The Nelson Daily Miner says: "The union secretary at Sandon is in receipt of a large salary from these foreign dictators, a larger salary than he could earn as a miner. He has what in common parlance is called a soft job, and is in no hurry to throw it up. In this respect he is like other union officials. It pays them to keep up the agitation. The mining industry may be destroyed, and the miners may loaf in idleness on their pensions; but they fare sumptuously. It is better that work should stop than that the miners should be driven to the wall by the dictators of Montana, by men who are adepts and abettors of riot, incendiarism and murder. It is time all this was stopped. It can be stopped by our members at Victoria, who have only to legislate in the interest of the province, and not for the benefit of alien agitators. The great bulk of Canadian miners, if they thought themselves free to express their honest opinion, would say they are sick and tired of their wretched and unprofitable life in the interest of a few back to work. They are an honest body of men, who are willing to give a fair day's work for a fair day's pay. The code of labor ethics which found expression in the Code of Alaska, and which distinguishes the sounder elements of the mining industry of British Columbia, has no attractions for them. But, under a mistaken sense of honor, they think they are obliged to sup-

TAX ON CHINKS TO BE INCREASED.

Government Asked to Put the Alien Labor Law into Operation in the Slocan-Ottawa Gossip.

Ottawa, Feb. 19.—(Special).—A senior Judge for Ontario County has been decided upon by the Government. He will be Neil McCormick of Toronto. The matter was looked up before the Cabinet to-day, and brought up before the Cabinet to-day, and on the nomination of Hon. David Mills, Mr. McCormick was accepted by the Cabinet, and all that is now wanted is the signature of His Excellency. This judgeship has been vacant for nearly a year, ever since the death of Judge Darnley. Judge McIntyre was at that time appointed junior judge, while many barristers in the county hunted for the senior judgeship. The race for office has been hot. Among the runners were: Col. Farwell, L. T. Barclay, G. Y. Smith, L. K. Murton and others. Deputations were made and waited on the Government, but the Government would not favor a local man. It is appreciated by all who know the county, that one judge could do all the work and not feel overworked, so this appointment is looked upon as a sinecure. Mr. McCormick is not unknown in the county where he has been on stumping tours in the interest of Mr. Dryden and Mr. Burnett.

office of their business in Paris. After he had been in Paris for several days his letters home ceased, and he disappeared from the little circle of friends that he had made. He had seemed a quiet, steady fellow, and he had chosen his new associates with discretion. When they missed him they wrote to his father, supposing that he knew where his son was. The father, however, was ignorant of his whereabouts, and the police were summoned and a search made of his apartments. On the bed in his room was found his dead body, with a note by his side, which read: "I have lost 25,000 francs of the sum that my father entrusted to me, and as I would not have it believed that I have squandered the money, I am killing myself." This furnished a clue, but nothing more could be learned for several days. Finally, when searching the rooms for the young man, a search in the room for the young man's property, his pocketbook with the 25,000 francs was found in a corner of the bureau drawer, where he had put it and then forgotten.

In the Tunnel.

A young governess, going on a long journey, was recommended, among other means of precaution when passing thru a tunnel, always to put her hand in the pocket in which she kept her money, so that it might not be stolen. She acted upon the advice, and on coming to a tunnel put her hand in her pocket, but was startled on finding it already occupied by another. She grasped the intrusive hand and held it firmly until the gentleman emerged into daylight, when the gentleman sitting next to her explained, with a smile, that both hands were in his pocket.

CRANE IS AFTER THE GRAFTERS

A Lot of Parish Business Transacted at the Three Hours Meeting Yesterday.

The City Council held a three hours session yesterday afternoon and even then did not dispose of all the business that was before them.

The request of the secretary of the Toronto branch of the Canadian Patriotic Fund for a room in the new City Hall was granted.

Who Got the Horse? Aid. Denison rose to a question of privilege. He desired to ask the Mayor if he was aware that some one had stolen, appropriated or removed one of the horses belonging to the city.

The Mayor: I don't see that that is a question of privilege, Aid. Denison, but I have all the correspondence on the matter and it is open to you at any time.

Wants a Fire Commission. A letter was read from Aid. Denison, asking Council to dissolve the Fire and Light Committee and appoint in its stead a fire commission.

Aid. Crane's motion that the proper officer report to the Council of the authority, if any, under which the new City Hall railway company are permitted to extend their line to Toronto Junction, will be acted upon.

Outside Legal Assistance. In the Board of Control's report mention was made of the fact that Lawyer E. A. Du Verne had retained by the city.

Aid. Sheppard undertook to explain matters, and said that it was a trivial matter which to secure outside assistance when the city had an experienced legal department, and demanded an explanation.

Aid. Sheppard undertook to explain matters, and said that it was a trivial matter which to secure outside assistance when the city had an experienced legal department, and demanded an explanation.

The City Hall Finishing. When the board's report regarding the plumbing in the new City Hall came up, a long wrangle was had.

Aid. Uppal said that the firm who did the work was a reliable and well known one. There is no objection to the matter, he contended, was to go to the architect and contractor and go over the specifications with them.

Aid. Denison: Aid. Uppal is jumping at conclusions. Whether Mr. Shercock has tried to blackmail Mr. Wright has nothing to do with it. There is a good reason for his investigation.

Aid. Lamb moved that the Council consent to the proposition to hold in 1901 an exhibition to be on a larger scale than the one annually held in Toronto.

Aid. Uppal said that the Council consent to the proposition to hold in 1901 an exhibition to be on a larger scale than the one annually held in Toronto.

Aid. Sheppard thought the Board of Control had acted very properly in the matter. The contractors had also done what was honorable when they heard of the charges that had been made against them.

Aid. Uppal said that under the contract the architect had never to change work. The time for investigating the matter, he thought, was after the architect has brought in his report showing the actual cost of everything after all deductions had been made.

Let the Investigation Go on. Aid. McMurich wanted the Council to go on at once so as to clear the skirts of the contractors.

The recommendation was passed, but the last two clauses asking that permission be granted to the architect to inspect the plans of the plumbing were thrown out.

The Assembly Rooms. The Mayor made a strong appeal in favor of the controllers' report regarding the completion of the assembly rooms.

to authorize the city to issue debentures for a sum not exceeding \$30,000. Aid. Spence stoutly opposed it. He argued that Council was applying to the Legislature for permission to issue debentures and this was not in harmony with the people's wishes.

Aid. Uppal said he would never agree to application being made for legislation to authorize the issuing of any more debentures. It was Council's duty to get permission from the people and not from the Legislature.

Recommendation Struck Out. On motion the recommendation was struck out. The division was as follows: Ayes—Aid. Spence, Dunn, McMurich, Hubbard, Denison, Foster, Uppal, Bell, Saunders, Russell, and the Mayor.

Return in Board of Control. The Committee on Legislation that reported on the recommendation that application be made to the Legislature for the Board of Control shall be composed of the Mayor and four other persons all of whom were named by the committee.

Aid. Hubbard moved in amendment that the Mayor and shall have served two years in Council. The motion, however, was not carried.

Aid. Cox's Plan. Aid. Cox, seconded by Aid. Russell, moved that the amendment be amended so that the Mayor and four other persons be named by the Mayor and four other persons.

Aid. Crane objected to legislation being applied for to amend the Assessor's Act so that Council shall not be limited to revising the assessment of the City of Toronto. Many and many a time, he said, the Legislature had amended the Assessor's Act.

Aid. Uppal said that under the contract the architect had never to change work. The time for investigating the matter, he thought, was after the architect has brought in his report showing the actual cost of everything after all deductions had been made.

Let the Investigation Go on. Aid. McMurich wanted the Council to go on at once so as to clear the skirts of the contractors.

The recommendation was passed, but the last two clauses asking that permission be granted to the architect to inspect the plans of the plumbing were thrown out.

The Assembly Rooms. The Mayor made a strong appeal in favor of the controllers' report regarding the completion of the assembly rooms.

IT IS AN ELECTRIC LIFE-GIVER. This wonderful Belt of mine pours energy into the weakened parts during the night while the patient sleeps, developing the nerves and muscles and restoring the old vigor, the snap and power of man.

To Deepen the Harbor. A letter was read from the secretary of the Board of Trade, stating that the time was arriving when the improved St. Lawrence Canal will be able to accommodate vessels drawing 14 feet of water, and as Toronto harbor is not capable of accommodating vessels of this size, he asks that a conference be held between the City Council, the Harbor Board, the Harbor Board and the marine section of the Board of Trade.

Council Offers No Rewards. A communication was read from the solicitors for Corley & Armstrong, wholesale boot and shoe dealers, asking the city to offer a reward for the arrest of John P. Hamilton, who was bookkeeper and manager of their firm, and has embezzled about \$15,000. Nothing definite was done regarding the request.

"BUY STOCKS WHEN THE SAP IS RISING."

Don't forget this sage advice of Daniel Webster. Apply it to your past experience with securities and you will see the truth of it. Buy stocks when the sap is rising. Don't wait till midsummer because the water will be over, now that it is run on Kitchener's military timetable.

"A Suitable Suit"

A Tailor's Tale. By P. Jamieson. Author of "A Sensational Past Story," "The Red Letter Sale," etc.

PREFACE. In these over Liberal times, when even murderers are given a free swing and most family trees are chestnuts—Good literature seems to have gone to seed.

To counteract this tendency the author purposes to keep close to truth—all a straight story and point a moral every minute.

Now about 50 rolls of worthy English and Scotch Tweed of the best makers lie at the Rounded Corner waiting the choice of the populace—50 different patterns appeal to the taste of each and all for the adornment of their several persons.

The lowest price quoted in Toronto for a suit to order is 16.00, positively the lowest.

Commencing Wednesday morning with the first chapter we make a suit to your order for

12.75

You'll enjoy the story more—see the points more forcibly—if you have one of these superb suits on. Come to-morrow.

Philip Jamieson, Newfoundland.

INDUSTRIAL EXHIBITION ASSOCIATION

Facta Which Will Be Presented at the Annual Meeting.

At the City Hall this afternoon the annual meeting of the Industrial Exhibition Association will be held.

In the report of the directors that will be presented, special reference is made to the agreement recently entered into with the city, under which the liabilities have been assumed by the city, and the assets also handed over to the city.

The balance on hand after all expenses have been paid is shown this year to be \$212,000, which will be turned over to the city. The total surplus amounted to \$312,700, but there has been paid out of this the sum of \$100,700, as follows:

Interest on mortgages, \$117,000; conveying notices to title ranges, \$22,000; interest on city buildings and equipment account, \$42,000.

During the year 1899 the admission fees, with the exception of 1898, were the largest ever secured from the Gardener's and Florists' Association.
