Because she has concentrated her energies in developing the manufacturing end of the business.

comes from Cuba, yet some of the finest cigars are produced in Canada. WHY? Because S. Davis & Sons have devoted over half a century to the manufacture of CIGARS ONLY.

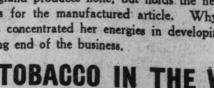

THE "NOBLEMEN" CIGAR

energy.

"NOBLEMEN" being made of the finest Havana tobacco, by Cuban workmen, it naturally has all the characteristics of the "imported" article. It is full of Quality and MODERATE IN PRICE.

"NOBLEMEN" size, 2 for a quarter. S. DAVIS & SONS, LIMITED, MONTREAL "PANETELA" size, 3 for 25c. For half a Century Makers of Fine "CONCHA FINA" size, 3 for 25c. Cigars-and nothing else. Makers of the PERFECTION 10c Cigar-the light cigar for heavy smokers.

is ample proof of the value of CONCENTRATION of It has no equal as a two-for-a-quarter cigar. The

100 and 220 yard championships at the fe-gatta on Friday there was a mere hand-ful of contestants; in fact, the first race had to be postponed until there were a sufficient number of entries to make it worth while holding the event. More swimming contests would go a long way to inducing more people to acquire profi-ciency in the art, and that lessens the chance of drowning accidents.

Aquatic sports form too large a part of Toronto's life to be niggardly dealt with. Three hundred and fifty dollars does not go far in providing prizes for a big re-gatta. Surely the city fathers might forego one of their junketing trips and make the annual contribution an even \$500, or perhaps go better! Aquatic sports, above all others, help to maintain the splendid standard of amateurism, and in these days of ultra-commercialism a little money spent in this direction will yield good dividends.

In the results of the Dominion Day re-gatta announced in The World on Satur-day morning, the junior singles final, one mile, was inadvertently omitted. There were only two contestants. The race was won by F. Lepper of the Don Rowing Club. N. B. Jackes of the Argonaut Row-ing Club was the other entry. Time 8.04 3-5.

Reviewing the career of Earl Grey as Governor-General of Canada, The London Daily Telegraph summarizes his work in one of the most appreciative and eulogistic notices ever given a representative of royalty in any of the overseas dominions. The writer represents him as not only influencing Canadian thought and activity, but as doing much to remove misapprehension regarding the Dominion from the minds of the com-monalty, and, indeed, of those in authority at home. The following is a very short epitome of the personal part of the editorial on our able governor-general and his work:

"General and his work: "Lord Grey's personality is always as invigorating as a sea breeze; we feel a happy stimulus from his short visits. "He has been the most popular governor - general that the Do-minion has ever had; he will leave a permanent impress upon the political ideals of the Canadian mind.

mind. "It may be doubted whether even Canadians themselves know all that they owe him. He has done more, far more, than any other man to awaken imagination at home to the meaning of the great Dominion. He has praised and ex-plained Canada. His influence has helped to swell the tide of emigra-tion thither and to encourage the vast flow of capital in the same direction.

direction. "He has been a practical idealist and a fine realist. No Canadian born, whether statesman, or pro-moter, or manager of huge enter-prises like the great inter-oceanic railways, has worked harder or more effectively than Lord Grey for

the whole development of the Dor inition. He has been one of the best business assets of Canada were the second second second best business assets of Canada "ford Grey, who has the sifts of the deloguence and action, and is never afraid to speak out, has is never afraid to spea

attract both population and capital. "The 'growing-time' of the Do-minion is marvelous. No statesman in Lord Grey's place could have done more to interpret and assist this matchless process of nation-building. He has rendered equal service to the practical interests of the Canadian people, and to all the higher ideals and larger hopes of the empire."

Late J. N. McKendry

IN POLITICS OF UNITED STATES Theodore Roosevelt Was the First Big Man to Rebel Against Old Order of Things and His Example is Being Followed by Prominent Politicians of Both Parties.

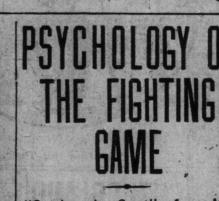

Standing away and above all the political movements in the United States during the past year, has been the insurgency in both the Republican and Democratic parties against the machine elements which have controlled those organizations.

'INSURGENCY" POTENT FACTOR

IS TIME RIPE FOR MOVEMENT HERE?

Some of the best men in politics have revolted against abuses that have crept in, and which have defied honest efforts of loyal party men to eradicate. And now it is getting to be the proper and the patriotic thing to openly declare against the men and the methods which are bringing the great political parties of the United States into disrepute.

Read the accompanying survey of the situation in the United States, and ask yourself if the time has not come for a little "in-

reach. So far this is ,ancient, very ancient history.

The Roosevelt Awakening. Then appeared Theodore Roosevelt,

the strenuous. He was the apostle of a new order of things. To the amazement of all the political interests he did not confine himself to making speeches in an appropriate way on appropriate occasions. In fact he deeloped what his party considered the deplorable habit of saying things that might have been true enough and generally were, in most outspoken fashion and without consideration of time or place. But the people did not follow the leaders of their party-they followed the man who prophesical of things as they were and concerned himself more with propositions and measures for their immediate amelioration, rather than with prophesying smooth things to his hearers. So Theodore cast himself loose from stereotyped party procedures, ignored tradition and did things. He was about the first big insurgent that the United States had known. And his thunderbolts of condemnation and re-form fell thick, fast and unsparing, wherever his acute mind perceived that graft and corruption were holding sway. The men behind the ma-

Continued on Page 7, Column 3.

It is only when Canadian politics are stirred by the advent of

insurgents from the ranks of government and opposition that graft and corruption, which flourish under the regime of the "machine" here, even as across the line, will become less usual and decidedly more unhealthy in our politics. The task of the United States insurgents was far more difficult than such a band would have to undertake here. Those men have triumphed so far. Canada needs a band of political insurgents-men of independent

spirit and unbiased judgment. Are they forthcoming?

Franklin Eldridge, Employed as Trimmer, Fractured Skull-

Came From Chio.

Franklin D. Eldridge, 19 years of age, employed by the Davie Tree Expert Company of Kent, O., fell 35 feet from a tree which he was trimmining on the lawn of Mr. Justice Mac-lennan at 10 Murray-street Saturday afternoon. He was almost instantly killed.

Dr. A. Primrose, 100 College-street, was called and an ambulance sum-moned, but the lad was dead before they arrived. The body was taken to the morgue and the chief coroner notified.

The lad, with Foreman Eli J. Patterson, also of the Davie Company, arrived in the city four days ago and was staying at 250 Jarvis-street. His home is Akron, O. The lad had just sawn a great limb

from the tree and was lowering it with a rope when it struck the trunk of the tree, shaking him to the ground. He struck upon his head, fracturing his skull.

STEEL BONDS ISSUE.

(Canadian Associated Press Cable.) LONDON, July 2 .- It is understood that the Canada Steel Corporation is about to make an issue of 6 per cent.

net gain in the last elections of twenty seats. Seventeen of these, according to the calculation of M. Camille Pelletan, who contributes an article on this sub-ject to The Matin, were won in conse-quence of this unholy alijance between the Collectivity and Passion of M. Camille Pelletan, and the indications point to the present price being maintained for some time at least. Meanwhile the public receives the benefit. Dr. Sheard, M.H.C., does not antici-

recentre to the intractive in this new taw. Setsures will be inade dur-movement, which is no new thing in French politics, but there has been a good deal of opposition on the part of some of the Roman Catholic leaders to a policy which would seem, at all events, to be lacking in prudence, and to have been partly inspired by the same desperate animosity to the Rad-

icals which has induced the certain cases to refuse Christian burial to deputies or senators who supported the separation bill.

The immense influence still possessed by the Roman Catholic organ La Croix which remains almost as virulently anti-Republican as during the most agitated days of the Dreyfus affair. would appear to have been largely utilized during the second ballots against the Radicals of the old Blo In these circumstances, it would cervainly be premature to argue that Col-lectivism has increased in strength in

France, altho the fact that the Social sts possess in the new chamber some twenty additional seats, which they owe to the attitude of the less-reflecting portion of the Reactionary elector-ate, raises the question whether on occasion the electoral pact may not be revived for assaults upon the govern-

ment in critical divisions. this connection the case of the Abbe Lemire, who has for many years been one of the most respected mem-bers of the chamber, is curious and interesting. He is deputy for Hazebrouck where he has always commanded the votion of his constituents, but the fivers. Roman Catholic leaders have done their est in the past to unseat him owing partly to the fact that he is a repubcan-he has been nicknamed l'Aunonier du Bloc-and partly to his attitude during the discussion of the church and state bills. Like the ma-jority of the bishops in 1906, he favored the idea of so amending the separation

bill that it could be accepted by the French Catholics, and M. Briand's device of Associations Cultuelles satisfied him completely. He has never admit-ted the right of the church to intervene in purely civic questions, and this spirit of independence has alien-

ated from him the sympathies of the incompromising Roman Catholic leaders, with the result that he has been more than once constrained in his public utterances to put the French Ro-man Catholics on their guard against the risk of forming a "Catholic party." Naturally the "Catholic party" did

heir utmost in the last elections to lefeat him, but their efforts were fudefeat tile. He himself interprets his success as proof that "the chimera of a French Catholic party has been definitely dissipated." He regards himself as the champion of all the French Roman Catholics in his campaign against the unwarranted meddlesomeness of unuthorized political parties, which pretend in a political interest, reactionary or other, to speak on behalf of French Roman Catholics. His victory he regards, moreover, as being so complete-ly Republican that he intends henceforth to occupy a seat on the left of the chamber. In an interview with a representative of The Temps he says:

PARIS, July 2 .- The Rheims avia-PARIS, July 2.-The Rheims avia-tion meeting probably the biggest sche-the contrary, a cause of mirth and of duled for Europe this year, will begin entertainment, gastronomic as well as astronomic, for the families could be counted by the hundred who, the to-morrow, with every indication that last year's remarkable success will be

last year's remarkable success will be repeated. In the nine days of flying, prizes totaling \$65,000 will be awarded, the largest list ever offered the largest list ever offered. Nearly all the well known men-birds of Europe have entered in one or more persed by the heavily falling rain. of the events. Among these are Rolls Many Parislans remained up all night, some feasting and others prayand Bleriot, the channel crossers: Paulhan, Farman, De Bonnet, Lam-bert and many others of the French world. Thruout the south and centre

of Portugal storms and Sixty-three machines have been ensible to make observations. tered, including 40 biplanes and 23 monoplanes. The Farman biplane and the Bleriot monoplane are the favorite pearance thruout the night, all the cafes, restaurants and brasseries types. There will be 13 Farman biplanes

to four of the Wright type. For the first time the French minister of war has delegated three army officers to take part in the meeting. These will be Capt. Eteve, in a Wright machine; Lieut. Camerman, in a Farman, and Lieut. Anquavin, in a Bleriot monoplane.

Stopping He Will Break All Records.

MONTREAL, July 2 .- Count de Lesseps, the famous French aviator, has stated that, if the big Bleriot in which he crossed the English Channel, arrives in good shape, he will consider undertaking a flight from here to Toronte

Tho the count- has done some wonderful flying during the present meet, he has been handicapped by his machine. He has only his small one here, which he says is but a toy.

CHISIS NUW HEACHED Terror in Turkey. On the continent the transit of the

IN RAILWAY SITUATION omet gave rise to the most diverse celings, from deep apprehension in Turkey to hilarity and festivity in-Spain and Italy. In all parts of the latter country the people celebrated the event with great joy, while Wed-Mass Meeting of Men Held With Doors Closely Tyled-Committee's Statement.

nesday night, May 18, in Madrid was one of extraordinary animation, more resembling Shrove Tuesday. An in-cessant stream of people passed thru the streets proceeding, to the sounds of guitar and tambourine, to elevated points to view the comparison of the street The street railwaymen's committee ints to view the comet, which, howon Saturday issued a statement tracever, was, after all, not visible, as ing the course of negotiations from the sky was overcast. With the tone May 16 when the new agreement was of gayety mingled a comic note Passing in the throng might be seen presented to the company up to the present time. The statement goes on: "On June 23, we went over the whole agreement. Mr. Fleming said that he could do nothing himself, but that Mr. with the inevitable gaping following, quite a number of astrologers, with quite a number of astrologers, with long, pointed headgear and black tunics, waving their dim torches, and who, armed with long measures, ap-Mackenzie might. We asked Mr. Fleming if the president had not been peared to be going to take the scale

acquainted with the facts before, and Mr. Fleming said 'No'; this, too, in spite of the fact that he was to have been notified at the beginning, when of the mysterious astral body. In a word, far from being to the people of Madrid a mysterious terror, the passage of the comet and its portentous he returned from Europe.

"In view of the above facts, we do not think that the citizens will say that we did not give the company lots of time.

Matters have now reached a crisis and on the mass meeting of the men a Saturday night the question of whe-ther to strike or not depends. The ing a thunderstorm broke over the city, and the festive groups were dismeeting was held in strictest secrecy, only men showing their union cards being admitted.

Female End Seat Hog. Editor Sunday World-Often last winter when I arriver home after a ride in the street cars I have said to my wife that I felt sorry for the girls and women who were compelled to sub-mit to the terrible crowding and crishrains occurred, rendering it impos -Rome presented a very animated aping that R. J. allowed to go on, but now that the open cars have been put on, I have changed my mind. I am conmaining open, just as on New Year's Eve. Many people, in carriages and on foot, proceeded to the hills, being vinced that R. J. knew a thing or two about ladies. For instance try to get curious to see whether anything re-

on to an ordinarily filled car and you markable would happen from the comwill find that you will have to crush your way past the female end seat hog parative proximity of Halley's comet in every instance. Last night I tried to board a McCaul-street car, and al-In Constantinople, on the other hand, the predictions of impending disaster in connection with the reaptho it was only about half filled, every pearance of the comet produced a end seat was occupied by a female.

All along the route we took on men highly nervous state among the suppassengers but they, like myself, had to rub knees with the women to get erstitious and ignorant population. Many families on Wednesday with-drew their children from the schools, to the inside seats. I now believe that the women have no objection in order that all should be together in the event of the end coming. to being crowded and crushed in the The closed cars and that Bob knew this night was one of fear and anxiety with a large section of the population. peculiarity and governed himself accordingly.

WHAT WE ARE

Made-to-Order Suit No More - - No Less

THE TORONTO WORLD

What is the Scotland Woolen Mills Company? It is an organization working between mill and man, and making clothes to your measure for one price-fifteen dollars, no more, no less. It guarantees that the clothes when finished will be perfectly satisfactory to you. If you are not pleased with them the Scotland Woolen Mills will return the money you have paid. You get a legal guarantee to this effect with every suit of clothes.

JULY 3 1910 3 mm 3 mm

The good part of it is that you can select the cloth that goes into the clothes you buy and we guarantee that you are getting your pick from the best the mills turn out in Scotland.

Last Wednesday we received an extra shipment direct from Scotland and which included some rarely beautiful fabrics in grey, brown, blue and black. We also put into stock a new supply of our famous blue serge. This serge is guaranteed to be made from the best Botany Bay yarn and is fast dyed Indigo blue.

OUT-OF-TOWN MEN: Ordering with us by mail is as easy for you as if the measure were taken by our own cutter. The chart and the instructions positively insure that your measurement will be properly recorded. Write us for book of samples and for sample plates.

OUR NEW MAGAZINE: Write for our splendid magazine, "Miller's Illustrated." It contains some very useful information on general subjects, besides giving some particular hints on how to dress for different occasions, and what is new thereon in Paris, London and New York. Drop us a postal-the magazine is free.

Catholic Register and Extension.

(From The Christian Guardian)

The Catholic Register and Canadian Extension, published in this city, con-tains the following sentences in its issue of last week: "Reading and hearing so much about "the Protestant faith," we have become somewhat mixed. Will someone kindly define the word 'Protestant' and settle our doubts? We do not want some-thing indefinite. We want a statement

Kay's July Furniture Sale **Opens on Monday Morning**

A "JACOBEAN" SIDEBOARD AND CHAIRS

Year after year July is looked forward to by an increasing number of people as the month of Kay's Furniture Sale.

We have planned this year to make the event a memorable onea month of bargains extraordinary in furniture of unusual excellence.

The sale will commence on Monday morning at 8 o'clock, and during the 22 selling days of July the opportunity will be open to select at will from the immense collection now on our floors at prices reduced in every case much below our regular, always reasonable prices.

Our stocks at this time are larger and present a greater variety of distinctive period and modern designs than we have ever before shown. It is our intention, by radical price reductions such as those listed below, to effect a very material thinning out by the last of July.

for

thing indefinite. We want a statement of particular principles embraced in The latter can be stated in a few sei- man or Greek or Protestant, who own the term 'Protestant faith.' Now this question is not intended to be offensive The s

to the slightest degree by the asking of this question. It is a plain and direct one, and ought to have a clear and definite and unequivocal answer, an answer not in learned and scien- what he is to believe the Bible teaches. tific terms, but in the plain language of the street, that any man can sound Bible in his own hand. He asks the and fathom and compass for himselt. Of course, the editor of The Register is, as are the readers of this paper, experience of the church and of good familiar with that most interesting bit and learned men; but the Book is God's message to him,and no one come of history that gave to the world the name Protestant. When the reforming in between him and that message to

members of the Diet of Spires in 1529 tell him what it must mean to him. brought in their memorable statement That may mean, it does mean, variety which began with the "we protest," of interpretation in many unimportant they were not so much finding fault with or complaining of their brethren and intelligence in the reading of matters, but it means, also, honesty as they were setting fomth their own God's Word, and it keeps it ever a faith and convictions. Protestantism. living message as from Himself, The

even from the very first, did not mean mere protesting, and we make a groat mistake if we put too great emphasis upon the negative thought that is contained in the word. If one were to judge from the issue of The Register from which we quote, for instance, which mentions several of the Protestant churches by name, and criticizes and berates them for numerous things. Roman Catholicism is quite as much given to protesting as is Protestantism.

Nevertheless it may perhaps be easier to first of all try to answer this question from the negative point of view, and tell what the Protestant faith is by telling what it is not. It is not the faith of the Roman Catholic Church he saveral vital and important not a mass; that the bread remains No. No. No. No. No. No.

What is known as the Creed of Pius IV. embodies the faith of Roman Catholicism. It is a summary of the dogmatic decisions of the Council of of Protestantism have been inclined to

A Convenient Time for Decorating and Papering

We beg to remind our customers that a most convenient time to have the papering and decorating of rooms attended to is now, while the family is away for the summer. Our stock of wall coverings, while very large, consists entirely of papers and fabrics from makers of high repute. There is a complete absence of commonplace patterns, so that the selection of appropriate hangings for the different rooms is made easy and pleasant. /

on Conversation With Outside World Thru New Invention.

LONDON, July 2.—Half the terrors of mining accidents will probably be done away with by the use of the wireless

away with by the use of the wireless telephone of A. J. Sharman. An entombed miner buried some hundreds of feet in the bowels of the earth can carry on a conversation with a rescue party above with perfect ease with Mr. Sharman's instruments. The apparatus is so simple that no skill whatever is required to work it, and it s light and portable.

Subterranean caves at Chislehurst, which form tortuous passages deep under the earth, were an ideal spot for testing the new instrument. After testing the new instrument. After climbing up the slippery sides of the hill over the caves to a convenient spot, one of the instruments were erected by fixing the camera-like apparatus on a light tripod stand and connecting it by two wires to iron pegs which were plunged into the earth. Leaving Mr. Sharman to speak above

the ground with the instrument fixed there others entered the caves. After following some 200 yards along the he subterranean passage with the aid of oil lanterns a similar instrument was fixed up in the darkness. A signal wis given and Mr. Sharman at once began to carry on a conversation from above the earth with the wireless instruments. The spoken words were clearer and crisper than with an ordinary telephone, and a conversation was carried on without the slightest hitch for some minutes. By the use of a key attached to the instruments Morse messages were also exchanged by wireless telegraphy. The principle of Mr. Sharman's instru-

ment is to utilize the earth for transmitting electric waves just as sound waves are transmitted thru the air. The telephone is made to actuate an "impulse coil," which sends electric impulses thru the earth, which reach the iron pegs of the receiving instru-

"Isn't it reasonable to suppose that the 'one price' shoe store will prove a better drawing card than the one with an elastic scale of prices?'

"If any one should whisper that you cannot make and sell a good shoe for three-fifty, take him gently by the arm and head for 119 Yonge Street--- The Brockton Shoe Store."

"If the 'Brockton' didn't go to you direct from the factory it could not be sold at \$3.50. Even with all the intermediate profits cut out it takes a lot of 'Brocktons' at \$3.50 to keep the rent paid up."

We are looking to the public to make the \$3.50 shoe go. We have shaved profits to the narrowest margin. It is up to you to take advantage of this and make the "Brockton" a success in Toronto. It has made good elseu here.

The Brockton is made in all sizes and fractions thereof, and in lasts of all designs. It is made on the celebrated Goodyear welt.

The "Brockton" is an American-designed shoe, it comes in all designs and in the different popular leathers. It is the shoe for the particular man, young or old or young-old. Only one price, \$3.50.

A wedding took place at the residence of Mr. and Mrs. Ernest S. Browne in Ontario-street on Wednesday, June 29, when Miss Emily Thom was united in marriage to Mr. Lawrence K. Hergert. The ceremony was performed by Rev Mr. MacPherson of Chalmers Church The bride was attended by Mrs. Brown The bride was attended by Mrs. Browne as matron of honor, while Mr. Garnet Browne of Hamilton attended the groom. The bride wore her traveling suit of grey broadcloth, with hat to match. The groom's gift to the bride was a paved heart of pearls, to the ma-tron of honor a sterling silver belt pin and a gold scarfpin to the groomsman.

and a gold scarfpin to the groomsman. They left for a short trip to Buffalo and Cleveland, after which they will reside in their new house, 137' Ferna venue

A wedding took place in St. Andrew's Church. Barrie, Mabel Bell, daughter of Mr. and Mrs. Vair, being united in marriage to Alfred Cyrus Grasley of Toronto. The bride, whose father gave her away, was attired in cream silk mull, and carried white roses and lilles of the valley. Her sister, Bessle, at-tended her in light yellow satin and carried yellow daisies. The church was beautifully decorated with palms and dalsies. The groom's mother and sister of Toronto, also Charles Grasley and wife, attended. After the ceremony breakfast was served at the home of the bride's mother, and the happy couple took train for New York. On re-turning they will make their home in North Bay.

Miss Pearl L. Davis of Gloucesterstreet is spending a few weeks with her friend, Miss Wright, at their summer home, Niagara-on-the-Lake.

Mrs. L. Huff, Lake-front, Kew Geach, announces the engagement of her sis-ter, Miss Louise (Topsy) Munt, to Mr. A. G. Knowland, Winnipeg. The wed-ding will take place on July 20 at St. Stephen's Church.

The residence of Mr. and Mrs. W. G. Harris, 148 Close-avenue, Parkdale, was the scene of an event at 3 o'clock last Wednesday afternoon, when their only daughter, Ada F., was married to Mr. G. Howard Anderson, eldest son of Dr. Jos. R. Anderson. The drawing-room where the ceremony was performed was decorated wit h marguerites. A wedding bell of flowers was suspended above where the bridal par-ty stood, from which white satin streamers extended to corners of the room, where they were caught with bunches of marguerites. Palms were also used about the rooms. Miss Irene Jarrott played the wedding march and she wore the wedding veil worn by her nother on a similar occasion, wrought with her monogram in pearls and held with a chaplet of orange blossoms, and carried a shower bouquet of lilles of the valley and roses. The groom's gift to the bride was a hoop of diamonds. She was attended by Miss Beth Leng as bridesmaid and little Miss Audrey Harris as flower girl. The former wore a pretty pink chiffon gown, with a pink atin overdress, and carried pink roses Her gift was a pearl sunburst, the litthe flower girl receiving a cross of est daughter of David Hunter, young-frock over pink and carrying a basket Hunter, was on Wednesday morning A wedding was quietly solemnized in St. John's Presbyterian Church on Thursday at 3 o'clock. A WEDDING OF TUESDAY.

At ten o'clock on Tuesday morning St. Peter's Church, Bloor-street west St. Peter's Church, Bloor-street west, was the scene of the marriage of Marie Agnes, daughter of the late Mr. Hohistein and Mrs. William Manion, Kendal-avenue, to Mr. John Lorne Bigley, son of Mr. Richard Bigley, Jarvis-street. The Rev. Father Mine-han celebrated the post-nuptial mass, and during the signing of the register Mr. Arthur Lelutheuser sang "Be-cause." The bride was given away by Mr. William Manion, and looked lovely in a gown of chiffon cloth over charmeuse, with Duchess lace garnicharmeuse, with Duchess lace garni-

ture. She carried roses and lilies-of-the valley. The long tulle vell was caught with orange blossoms. She was attended by her cousin, Miss Loretto Mary McGee, and Miss Ellen Cullen Mosier, both from Buffalo, and so with alike in pink cashmere de soie, with alike in million and small overdress of pink chiffon and small hats of Chantilly lace, with shower hats of Chantilly lace, with shower bouquet of pink rosebuds and white sweet peas. Mr. Harold Shapley was best man, and the ushers were Dr. John Menas, Mr. Gordon Hackland and Mr. Charles Hohlstein. The bride-groom's gift to the bride was a pearl and diamond brooch, and the brides-maids received pendants, the best man and ushers coral scarf pins. Mrs.

and ushers coral scarf pins. Mrs. William Manion wore a mauve meteor crepe dress with large white hat with willow plume. Mr. R. Bigley was in blue marquisette, with black plumed hat. A small reception followed at the residence of Mr. and Mrs. Manion, 112 Kendal-avenue. Mr. and Mrs. Bigley left by the two o'clock boat and will spend their honeymoon in the Adiron-dacks and after their return will reside in Kendal-avenue

JOHNS-MILLER.

The marriage took place on the 29th of June at the residence of the bride's brother, Mr. William Miller, Sudbury, at 5 o'clock p.m., of Miss Thressa May Miller to Mr. Frank A. Johns, Toronto. The ceremony was performed by the Rev. A. J. Paul on the lawn, which was a very beautiful setting for the wedding party. The bride, who was given away by her brother, looked very pretty and graceful in her gown of cream crepe de chene with wreath of orange blossoms and tulle vell, and Jarrott played the wedding march and during the signing of the register Mrs. J. Patton sang "Because God Made Thee Mine." The Rev. W. D. Caswell performed the ceremony. The bride was given away by her father and was gowned in beautiful ivory duchess satin with chiffen and seed nearl samilure. carried a shower of bride roses and H. Breckenridge, wearing a pretty and Mrs. Miller held a reception under Turnbull and Rev. N. St. John, Cooksthe trees, where the bride's table and cake was set and decorated with cake was set and decorated with guests wearing a handsome gown of marguerites and ferns. Later in the black slik with white lace. Later in evening Mr. and Mrs. Johns left for Toronto and other eastern cities, the phreys left for a short western trip, the bride travelling in a tailormade of latter wearing a tailor-made of green navy blue panama cloth with hat to match. INSURGENCY" IN S. POLITICS Continued From Page 1.

chine suffered equally with the men-behind the trusts and corporations, but they were powerless to remove the ruler they had set up to destroy themselves. He was a popular presi-dent and that is something more than president by virtue of than president by virtue of party connt and support. A Comparison and a Contrast.

A Comparison and a Contrast. So the original and insurgent presi-dent taught the people their position and their power in politics, taught them that it was possible to avoid wickedness in high places and that by virtue of popular rule, which also was a desirable possibility, liberty might become a reality rather than remain a cherished ideal. And they learned and retained the lesson. Then arned and retained the lesson. Then after two strenuous terms of effective club-swinging, Roosevelt stepped out and Taft reigned in his steud. Some people are unkind enough to say that Roosevelt knew just about how cap-able or incapable, according to the point of view, Taft was of filling such a position as his successor. If so he certainly adopted a very effective method of instituting a glaring con-trast. And Theodore is certainly a

Taft and the "Machine." Taft and the "Machine." Taft is a machine man. Under his non-assertive regime the big private and corporate interests began to breathe easy again, and to get busy along old lines witha. Also, the "machine" asserted it-self as the moulder of policies and the governor of the people. And there was none to say them nay. With there was none to say them nay. With a great flourish of trumpets. Taft had announced at his inauguration that he would revise the tariff so that it would bear micre equably on the people. The promised revision took-place, as per promise, but somehow or other the benefits of the revision did not percolate thru to the masses. And there were loud murmurs, that

Rise of the Insurgents. But the insurgency of Theodore' Roosevelt had leavened the whole lump of his party following. Many Republicans there were who could forget neither the man nor his methods, not were they prepared to tamely submit to the dictation of the "machine." Then they got busy, very busy, on what was apparently an impossible task, that of teaching the "machine" that its supremacy was not so assured

as it was wont to assert. And a poli-Passing along I noticed eleven steamers in various stages of contical earthquake was the result. Cannon, speaker of the house of represen struction in one yard. Users of Toronto The Bread Sales Act Province of Ontario, No. 180, 1910 1-21- 170 ·

To the Bread

This law, to express it in a few words, does enact that all standard loaves must be one-and-a-half pounds each-or 24 ounces in weight -or three pounds each, or 48 ounces in weight.

JULY 3 1910

What the New Bread Law Means

It means a fair chance for fair competition and a chance for the public to get value for their money without being on their guard against deceptive sizes of loaves. The new law makes the "fancy" loaf a thing of the past, and the public now know that all bakers must supply the same weight in all standard bread offered for sale or be guilty of an infringement of the law.

The New Law Compels a **Re-Adjustment of Prices**

The new act adds 25 to 50 per cent. more bread to each loaf. This makes my bread cheaper than ever, as the increase in size more than makes up for the advance in price. It is found impossible to sell.

TORE

the Winnipeg Automobile Endurance Race covering a periol of four days and approximately 800 miles, out of seventeen cars taking part in the contest, twelve are equipped with Dunlops-

"Tires for service is the 'Dunlop Slogan'."

DUNLOP Automobile Tires

The Straight Wall type of Autumobile Tire is not a new thing. It was featured by the Dunlop Tire Company in 1905, and the prediction was then made that it would be the tire of the future.

This Straight Wall tire is also variously called the "Non-Clinch," "Straight Side," "Straight Bead," or "Universal Quick Detachable Tire." As the name Straight Wall implies this Tire has no toe extensions-is not made like the solid clincher or clincher detachable tire—has no projecting ends that fit in under a fixed, hooked shape side of the rim.

The Straight Wall tire cannot become cemented to the rim. It is a readily detachable tire under all conditions, and at the same time it sets solidly and cannot slip or come off until the bead on the rim, that holds the tire in place, is removed.

Back to the Dunlop Idea

Since 1905 developments have been fulfilling the claims for the Straight Wall type tire. It has finally made good on every count.

Cricket Notes. A match in the Church and Mercantile Cricket League was played at Bedford Park, when the home team lost to the being their first defeat in a league game but In fairness to them it must be stated that they had to bat in a very bad light, the haze being very thick, and after a hot afternoon's work in the field, made little resistance to excellent bowling of the visitors, who played a good all-round sume of cricket. The T.A.A. Cricket Club would like a game for July 9 at Centre Island. The T.A.A. Cricket Club would like a game for July 9 at Centre Island. The t.A.A. Cricket Club would like a game for July 9 at Centre Island.

Racing to Form On Canadian Tracks

Review of Situation in Ontario-Jubilation of a Newcomer -Agitation in England Against the Standing Start-How a Charity Gift Horse Has Become Famous.

Is there anything more jolly than the chalk, or to take a flyer against the races It is becoming more noticeable that An amusing incident cropped up at When classy public choices get the the Canadian starters are using their

When classy public choices get the An amusing incident cropped up at the close of one of the most formful discretion in using either a walk up days at Hamilton. A horsey English newcomer called Dick by his companions had followed the favorite as conducive to the horses getting off to far back as the books would take his a good break it is probably also time that the public should, so far as conning of the horses. There was not **a** day for example at the Woodbine when a progressive following of the first choice at the Woodbine failed to re-coup those whe were on speculation bent, and adhered to form. This too, despite a rather uncertain condition of the track. At Montreal the conditions were less favorable owing to a heavy track fol-lowing a month of racing weather, but the bolder contingent was concerned while a clear demonstration was elici-ted of the running proclivities of teh when the transition was elici-ted of the running proclivities of teh when the running proclivities of teh the track. At Montreal the conditions were less the bolder contingent was concerned while a clear demonstration was elici-ted of the running proclivities of teh the track when the public should, so far as con-venient and practicable be apprised of the track. So n Paul Davis, and had also a win-ning on G. M. Miller. His joy was of his good fortune. Nothing would do but he must treat his chums to a hotel dinner at the Burlington Beach 'ome in a fortnight," naturally evoked a peal if laughter from those within ear shot. WHAT THE ROBIN CALL

ted of the running proclivities of teh juveniles.

At Hamilton a fast track contributed to formful results. And now that the season for fast tracks to be the rule has arrived the choices will doubtthe less a gain confirm the high reputa-tion of teh Canadian circuit for genu-

TO THE HIGHEST BIDDER

The guests of the Hamilton Jockey won out easily. As will be seen else-where in these columns the method of Club included a confiding pair of robin redbreasts from the sunny southland. redbreasts from the sunny southland. The feahered songsters had built their has become a live issue in England

ine tests of the thorobreds in train-ing at the respective courses. The week at Fort Erie, will probably contri-bute a number of close finishes but the "good things" at "long prices" put and attracted the attention of many bird lovers. Some of the bookies took especial pleasure in pointing it out to their friends. The hen bird sat sedate-It is fortunate that it is being solved by the evolutionary method on this side the Atlantic.

the "good things" at "long prices put especial pleasure in pointing it out to over such as they used to be prom-ised by the tipsters in pre-Miller days are likely to be few and far between. It is a sign of the times, and a good birdship gazind down meditatively at NO EASY MONEY THERE. United States Horsemen will have to Meet Good Company.

One of the interesting features of a Jockey Club meeting is the race track post office. Owners, trainers, jockeys and even the solored rubbers make frequent calls for their mail. While no government appointment is invol-ved, the post master de facto at the races is an important official. This season the various clubs have an ex-cellent post master in Meville Allen, of Toronto, who has been in the ser-

of Toronto, who has been in the ser-vice of the O. J. C. in various capaci-

WHAT THE WALK UP DOES.

Public Should Get Wise to the New

Policy Being Adopted.

several years.

It is a sign of the times, and a good birdship gazing down meditatively at one at that when the pencillers taboo tricky odds and place before the pub-lic their real line on the horses. It is then up to the public either to follow "what fools these mortals be," A glance at the book for the summer meeting of the Windsor Fair Association which runs from July 16 to 23 in clusive, indicates that seven days excellent racing is to be expected. Presi-dent George M. Hendrie and Secretary O. Parmer have alawys maintained a reputation for racing on a scale ac-ceptable to Canadian and United States semen and the racing public. The Seagram, Hendrie, Dyment and other Canadian stables will all be well rep-resented while the Tennessee and Kentucky owners will be thoroly represented by the champions from the Blu Grass region. Owners from the United States even

the they have entered such cracks as Donau and Handbridge at Windsor will not have any walk-over. If they hold their own they will do well as at Hamilton the Canadian owners were well in the lead.

umblest member on their co-operaion in a most humane and interesting **HORSE EXCHANCE** as well as patriotic work. If the in-fluence of the Dominion Day, Queen's Park horse show was limited to the additional care and interest promoted

additional care and interest promoted for the horses exhibited the work would well repay all who devote them-selves to the arrangements for the event, but it is far reaching in its ed-ucational and kindly tendencies. As a patriotic celebration on a fine Domin-ion Day nothing better could be sug-gested in the beautiful Queen's Park for the morning of July 1, every refor the morning of July 1, every re-turning year. The enthusiastic support received by the association from the military men of the city affords a pleasing commentary. The Toronto Open Air Horse Show is a thing of beauty and will be heauty and will be a joy for ever, its merits are too deep-rooted for so xcellent an idea to do otherwise than increase in popularity. Thousands of Toronto children, roung and old, are turnished by it with a half-day's unalloyed enjoyment, and no happier graph wires of the compar movement was ever launched by lovers fered severely and at pres of the horse. When it comes to a genuine pleasure-offering, good-accom-plishing event the Dominion Day Open Air Horse Show is the real thing.

MIXED RACE MEETINGS.

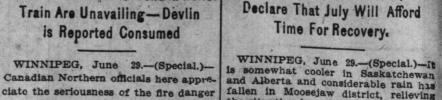

Light Harness Horse Men and the Miller Bill. T. S. Tobin, secretary of the London, Ont., Trotting and Racing Association tive, with a caboose attached, ap-has sent to the United States horse proached. The head was completely preeding papers, the following, as his no other injuries. **AUCTION SALES** definition of the Miller Bill, in respect to the duration of mixed racing

meets The law is, that as to those at which there are trotting and pacing races exclusively, no such race meeting shall for more than three days. continue The law also provides that as to those at which there are running races they may continue for seven days. Now, the section limiting a race meeting to three days applies only to HARNESS a meeting at which there are only trotting and pacing races. The other section allows a meeting at which Monday, July 4, '10 there are running races to continue for seven days, so that a meeting consisting of trotting, pacing and running races can continue for seven days. This is recognized as the law here, and Wednesday, July 6, '10 the places that have usually given four or more days of harness racing, as London, St. Thomas, Winnipeg, Brandon, and others, are putting on a four or five-day program of trotting, pacing and running, at which meetings

SPECIAL FOR MONDAY Heavy Draughts, General Purpose, Ex-press and Wagon Horses, Drivers, Car-riage Horses, including betting will be on every day, both pools and books.

volume and venemence and promises to eventually influence even that ultra-conservative body, the English Jockey Club. The dissatisfaction with the present mode of starting is find-ing utterance in the most outspoken and vigorous Anglo-Saxon to be found and vigorous Anglo-Saxon to be found within the limits of the vocabulary of British journalism. The climax of bad starting appears to have been reached starting appears to have been reached at the recent meeting at Epsom Downs, and to some extent was manifested even in the send off given the contestants in the Derby. The "farcical standing start" is one description

"Augur" in The London Sporting Life says: "If you mix any speculation with your sport it is practically impossible to enjoy an afternoon's racing nowato enjoy an afternoon's racing nowa-days owing to the constant anxiety as to whether you are going to get a run Maid of Corinth. No declaration, howfor your money. No good sportsman grumbles at being fairly and squarely beaten, and the majority of men take string wear the white cap. The own-their losses with exemplary fortitude, er's preference was for his Maid of but even the most philosophical and stoical temperament cannot patiently suffer a succession of well backed

candidates being left at the post. "To put it mildly the attendances at various meetings around London have not increased of late years, and, tho I make no doubt that there are other causes contributing to this undesirable state of affairs, I am quite convinced that the flascos which occurat seven out of ten races are the main factor

"The most wicked injustice about the standing start is that it penalizes the into the stretch, where the Maid of contestants which come up to the requirements of the Jockey Club by rang- same point that Lemberg took up the ing themselves as quiet as sheep with noses to the tape. Eight horses out of ed up and took the lead. From this ten will not do it, and when it happens point all but the leader were in trouthat a raging favorite does so his backers might as well pay over at time to pat the neck of Rosedrop, at once for any chance they have of the distance so easily was she sailing winning.

"Broadly speaking, the more figetty and on his toes a horse is at the post the better he gets away, and so long as equine nature remains what the late Mr. J. H. Doyle. it is so long will the vast majority of horses be restless at the gate. Truly, for her at the Doncaster sales as a we are a terribly conservative race yearling. Last year she ran unplaced and loth to try any new experiment. in her first start and won her next The standing start has proved itself the Rangemore Stakes at Derby. This beyond any shadow of a doubt to be year she ran third in the one thous-a hopeless and abject failure, and and guineas. yet for some obsure reason the suggestion that the walk-up start should be given a trial for just one season, is treated with contempt." Quoting the third day of the Epsom meeting it is pointed out that ten of

British Government Making Headway.

Threatened governments like threatened individuals often disappoint expectation by not only surviving but actually enjoying a novel measure of prosperity. This peculiarity is again illustrated in the case of the British Liberal administration, which, apparently, is more than holding its own, is indeed making good headway. Certainly there are no symptoms of that lassitude apt to afflict governments that have been an appreciable time in power, and, as in this instance, continue to hold office by dint of a tacit alliance with an independent party fighting for its own hand. Stress of circumstance affords a better incentive to bring out the best and strongest in men than does the command of overwhelming force, and certain it is that to-day Mr. Asquith and his colleagues are pursuing a far more vigorous and assertive policy than at any time in their conjoint historyvigorous, that is, in its nature and not so greatly in the manner of its enforcement. Their appointments to high state offices, notably that of Sir Charles Hardinge to the vicerovalty of India and that of Lord Islington. better known as Sir John Dickson Poynder to the governor-generalship of the Dominion of New Zealand have called forth practically unanimous approval, and the large increase in naval expenditure contemplated for the current fiscal year shows them as in no way inclined to conciliate sectional opinion.

The premier's invitation to the opposition leaders to join in conference over the conflicting claims of the representative and hereditary branches of the legislature, altho attributed to the influence of the King, would not have been extended by other than a strong and confident government. The conference, now in progress, is naturally regarded with extreme suspicion by the Irish Nationalists, by the Labor party and by the extremer Radicals. It is, of course, equally true that the corresponding truculent section of the Conservative party are by no means pleased at Mr. Balfour's ready acceptance of the proposal, and would rather have seen the controversy run to the embittered lengths which it threatened to do and might have done had final issue been joined according to the first intention. But the government, being dependent on the maintenance of the coalition, have more at stake than the opposition leaders, who know that they can command obedience and bring their recalcitrant followers to heel at any moment. This very considerable advantage renders the present attitude of the official opposition and the representative newspapers of the party towards the constitutional question all the more remarkable. For it distinctly discloses them as by no means assured regarding the defensibility of the position assumed by the house of lords, and also as compelled to admit that the Liberal party has a genuine grievance in the fact that its composition has been and is so preponderantly and hopelessly Conservative.

Are We Becoming The Imperial Census of 1911 Too Scientific?

Is the world becoming so tremen fords of taking an enumeration of the dously scientific that people are being scared to death long before their time? Wherever we go, we run up against some scientific theory that starts the worry that ends eventually in the grave.

Germs, we are told, lurk in every corner ready to spring in countless millions on every unsuspecting individu. al. There are germs in the water and upon oath every five years. This was in beer. Millions of germs cling to every car strap; they hide in every nook or corner. There is no place a germ will not penetrate.

History shows, in fact, that unless a man was killed in battle, fell a victim to the plague or was knocked in the head at a shindy, the probability of have existed, was not discovered, and the public at large did not know to what dangers they were exposed. Consequently they did not worry.

What is the answer to this? won't do to stop scientific investigation. but it must be admitted that scientific men have added many new terrors to, those which confronted our forefathers. Worry is the most dreadful disease of all that afflict humanity, and the knowledge that modern men possess of the

people are those under direction of Moses, 1490 B.C., and of David, 1017 B.C., A census of Attica was taken under Phalerius, 317 B.C. In the old Roman polity a general estimate of the numbers of the people and of every man's estate and personal effects was delivered to the government

germs in the milk, and there is no safety begun by by Servius Tullus, 566 B.C. The constitutions of the United States and of Canada both provide for a census to be taken every ten years.

In the good old days man stood a The first census of the United States fair chance of living to a ripe old age. was taken in 1790. In England th census was formerly taken, when ordered, and at irregular periods, but since the beginning of the nineteent his reaching the allotted span was sur- century there has been a numbering of prisingly good. But that was a time the people once in every ten years. The when science had not made such head- regular period falls one year later than way. The germ family, while it may in the United States. One after another, but not all of the British colonies adopted the ten-pear census and a date nearly the same as that fixed for the United Kingdom.

Next year, 1911, the census is due to be taken in the British Isles, and Canada, Australia and some other portions of the British Empire. Correspondence is now going on between the different governments of the empire with a view to having this censur taken thruout the entire dominions of germ evil but adds to the worry of life. King George simultaneously, as nearly as may be, and on aproximately the

of a new Book of Numbers to contain

the record

While it doubtful whether the conferences will result in an agreement upon the principal points in dispute the admissions already made and others that are sure to be made can hardly fail to strengthen the hands of the government. Thus, in a recent editorial, The London Times observed that "Sensible Conservatives feel as strongly as Liberals that the house of commons is, and must continue to be, the dominant branch of the legislature. Conservatives are not less ready to acknowledge in the clearest terms the right of the commons to initiate and to control all that can properly be called finance. Again, all Conservatives, except a band of stalwarts who need not be taken seriously into account, acknowledge that the house of lords needs reform, and that its numbers ought to be greatly reduced. They go further, for few of them dispute that from the party point of view the Liberals are at a standing disadvantage in the house. which gives the ma legitimate grievance. We believe that they are ready and even anxious to consider as favorably as possible any fair and practical project for the removal of that grievance."

In a letter to that influential newspaper, Mr. F. E. Smith, M.P., perhaps the most brilliant of the younger generation of Conservatives. also made some significant admissions. Speaking of the impossibility of defending the existing disparity of party representation in the house of lords, he says: "What is required is such a house of lords as will give to the Liberal party when in power as good a chance-or as bad a chance -of carrying their legislation as it will give to the Conservative party when in power." He added the alternative "or as bad a chance," because it was quite conceivable that a more evenly balanced second chamber might reject-and in doing so might reflect public opinion-both Conservative and Liberal bills, but, "be the chance good or bad, it should be the same for both parties." Mr. Smith ventured to suggest two principles, "each of which, tho elementary, seems to be completely ignored by one of the two great parties-(1) The principle of a second chamber is to ensure that the electorate shall be consulted before great legislative changes are made effective. (2) An efficient second chamber will discharge this primary function impartially whichever party be in power." To his mind the veto proposals of the government ignore the first of these, stereotyped Conservative contention stolidly disregards the second.

These quotations show that the case for the house of lords, as now constituted, has been abandoned by moderate Conservatives, and that its radical reform is well within the domain of practical politics. Such expressions of opinion are bound materially to influence the electoral mind, and will correspondingly assist the Liberal campaign against the peers, who have themselves entirely to blame for the situation that has arisen. By asserting their right to control the financial measures sanctioned by the house of commons and to compel their submission to the country they attempted to lay the foundation for claims which, if conceded, would have placed them on a par with the United States senate and deprived the representative chamber of a righ unchallenged for generations. This was their fatal and irreparable mistake. It at once threw the house of lords into the melting pot, and, even at that the peers had after all, to swallow the leek and pass the budget without alteration. Premier Asquith is not the man to abandon the vantage ground he has gained, and his position will be improved whatever be the upshot of the conference. Either the house of lords will be shorn of its partizan preponderance or it will be again the main electoral issue with a vastly weakened defence.

A CERTAIN LOSER

Cod (eaves-dropping at the Hague)-"I don't know why I should take any interest in the result of this confer-

JULY 3 1910

CRUST'S & CRUMBS Albert Ernest Stafford. as we grow older and learn to appreciate the really lovely aspects of life the approach of the inevitable end human earth and life better. preciate the really lovely aspects of must affect the natural man with sadness. I meet every returning spring with joyous anticipation and part with it with regret. The glories of summer never quite compensate for the sweetness and freshness and delicacy of the new life of the year. And every year now I reflect that there is one less

spring for me. I grudge that one less out of the eternity of springs. God goes on making springs forever, for they are so beautiful and so bountiful and so blessed. 'Is it any wonder that there is nothing else so satisfying if once you can learn to rest your heart in the miracle of life. The people you trust most and love most devotedly have a sad way of getting tired of you or finding something else more worth while, or throwing you aside on one pretext or another. But the year re-

necessary in the acons to come. I can appreciate indefinitely the rep-etition of the miracles of spring and life renewed.

We were talking about the failure of great literary production during the reign of King Edward. There have been some very respectable writers continuing their work from the pru-dish times of Queen Victoria, and recent years have indicated a tenden-

sy to revert to the salacious times of great Elizabeth. But in an out-standsy to revert to the salaclous times of great Elizabeth. But in an out-stand-ing literary way there is, to use the street phrase, nothing doing. Perhaps that is doing injustice to Thomas Har-dy, as poet, and William de Morgan the novelist, whom The Bookman men-tions as newly distinguished. The Bookman adds G. K. Chesterton, but immortality cannot be won by a paradox. John Galsworthy, Archibaid Marshall, Alfred Noyes, W. H. Davies, Herbert Trench are The Bookman's other candidates for distinction from the Edwardian era. We shall see. I believe that there must be a border-land for the creative imagination to exercise itself in. Tennyson was the great transition poet who pierced into the future with the aid of science and led the way in exhausting the region opened up by scientific discovery. Until the chemistry and physics, and biology of our day have been thor-oughly assimilated, and the creative imagination has gained courage to take a firm stand on the new know-ledge, and, levelling that lift, to go beyond, farther than human eye can see, we can have no more great and original poetry.

"Catch my Pal" is the watch-word of a new temperance movement which has been originated in Armagh, Ireland, pretext or another. But the year re-turns with its greenness and its flow-ers, and its bird song, and its dew, and the heart is refreshed. People -some people-yearn for a golden city with metallic pavements and jewelled entrances in which to spend eternity. I shall be quite content to return to earth as often as it may be the movement has made petty sess unnecessary in dozens of towns in the north of Ireland. Dr. Crozier, like nearly all the Irish clergymen, is an earnest temperance man. His hist

see of Down and Connor and Drome contains the great city of Belfas where temperance is more needed that almost anywhere else in Ireland.

In the Baltimore Sun last week ther Was an editorial article deploring the fascinations of the occult for people in general and the guilibility of many in particular who fall victims to impostors. The article conta sentence: "For one who has entence: "For one who has anything toproaching a correct idea of God it i nconceivable that he would make us of such instruments as n communication between Himself a His creatures." It is almost inconce able that anyone brought up in tact with ordinary religious ter should use such an argument. ostors do not come pr elves as such. The lessons of ture are all in the direction the meek and lowly and de those of high degree. Those who uperior insight in spot are generally found to have such insight from the experi others. on authority.

Emigration Takes Jump While our visitors are here it is well to draw attention to the lamentable fact that the emigration figures have taken another jump upwards. The report of the registrar general shows that in May last 550 more emigrants left Ireland than in May, 1909, and that during the first five months of this years 1530 more emigrants left than in the corresponding period of the pre-

ceding year. Think of it! The population of a large village is represented by this increase in emigration alone in less than half a year. It may be argued that these people are going to better conditions abroad, but that is all the more damning indictment of conditions at home. The well meaning people who advocate emigration as a remedy for social ills are in the same position as the old leeches who bled for every disease, weakening the patient ut removing the cause of the ailment. Hreland, which forty years ago supported twice the population it has now, is being bled systematically by emigration and is being'weakened. The remedy, of course, is to build up in-dustries which will keep our people at home and enable them to live in com-

New Steamship Line.

Out in Galway the people have taken hold with enthusiasm of a project for establishment of a steamship line to the United States. Galway has one of the finest natural harbors in the world and a comparatively small experditure would make it one of the great ports of the kingdom. The cooperation of the railways is being sought and there are strong hopes that capital for the enterprise will be found. Such a line in addition to benefiting Galway would benefit the whole of Ireland, for it would reduce materially the cost of shipment of Irish goods to America. The absence of a direct line makes it necessary for the great bulk of their goods to be sent by Irish manufacturers to Liverbool or Southampton and the cost of this is often about as great as the cost of the subsequent voyage across the Atlantic. This, of course, is a serious handicap to suc-

cessful competition with English and

Scottish manufacturers who are with-

City Band Concerts a Fruitful But Untended Field of Culture

Police Magistrate Rupert E. Kings-the music and without in any way in-conveniencing those who desire to ford believes that Toronto's band conomenade

certs are fruitful but untended fields of culture. Mr. Kingsford, who is an or culture. Mr. Kingsford, who is an information s to the music whic is enlightened and enthusiastic lover of music, declares that the music thus publicly offered in the city does much good but fails of doing a deal more by reason of the neglect of a few things which, while small in themselves, would go far to enhance the value of this feature, of public education.

The lack of any general knowledge of the dates of concerts at particular parks, is one of the chief weaknesses of Toronto's system according to Mr. Kingsford's view. He says that were it known that on a particular day of the week a concert would be regularly held in a particular park while on another particular day of the week the concert would be in another and so on, with particular and set times for each place, then these dates would be-come known and easy matters of ap-pointment for meeting and attendance t the concerts. In the next place, he points out that

there is not sufficient variety in the material offered and that even the stock in hand is not generally used LINA CAVALIERI

to the greatest advantage. He is of opinion that in the interest of musi-cians themselves the bandmasters should be required to offer a certain number of new pieces yearly and a certain variety of offerings at each concert given. The banndmasters are no doubt anxious to encourage talent and a good musician is always ready to do his very best if he has any sym pathy shown to him. He further points out that the ac-commodations for those who go to hear

the music rather than to gossip are sadly inadequate. He declares that in other cities there are provided a certain number of seats grouped about the band stands in the public parks and squares where music-lovers may sit and listen, uninterrupted by the noise and distraction of strollers. In To-ronto this is not the case and here a devotee of music cannot enjoy the genuine treat of a band concert to the full by reason of the fact that his ears are filled with a babel of idle conversa tion and laughter while he is jostled and trodden upon by those for whom the band is little more than a filler of

water fountain

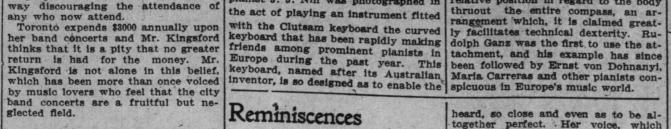

Lina Cavalieri, the opera singer who married Robert Winthrop Chanler of Warting a few years later. The Winter silence like the fizz tank at a soda New York, in Paris, says she will not Garden was afterward built on the Mr. Kingsford believes that such give up the stage. The couple will same site.

A further point is the lack of preby the printing of dodgers set-ting out the program of the evening and the further setting of transparency boards upon the bandstand upon which should be displayed the name of

each number as played. In this con-nection it is also suggested that when medleys are offered a list of the pieces in the medley should be set out. This would greatly enhance the educative value of the band concert, and the

keeping of a more perfect order and decorum would attract a better class of people to the concert while in no discouraging the attendance of any who now attend. Toronto expends \$3000 annually upo her band concerts and Mr. Kingsford thinks that it is a pity that no greater

minds.-Alexander Pope. Such as the music is, such are the people of the Commonwealth .- Turkish

Preparing Music For Eucharistic Congress

There will be no holidays for anybody connected with the music of Catholic churches of Montreal, during the present summer. Every organist, every choirmaster and director and every singer of importance is engaged upon the preparations for the musical events of the coming Eucharistic Congress of September next, which is acclesiastical ceremonial ever held upon this continent.

Every parish church in the city and district is making the most earnest efforts to have its music in a state worthy of the thousands of promin- of our English speaking-songsters is Before leaving Berlin for Cuba the player's arms to retain the same

Millions of dollars have already been planist J. J. Nin was photographed in relative position in regard to the body engress, and out of this the musical side of the worship, in the matter of new organs, organ enlargements and training of choirs, has received its full share. The task of completing the

of Jenny Lind together perfect. Her volce, which she said herself was naturally stiff and stubborn, she had educated and practiced into such a degree of per-fection that her roulades and cadenzas were unparalleled in their execution. I trip on and off, as if in of delight at the oppor-mging, bowing and smiling dience, and giving every a flattering sense of con-n a measure toward the finished singing the aria, "I Know na measure toward the fes which showed the com-onderful power of her volce, more of these was called y concert. A Swedish Echo the made a remarkable din-the time the greatest living authority that time the greatest living authority that time the greatest living authority the time the greatest living authority that time the greatest living authority the time the greatest living of many other of the city churches. The great central event of the con-gress, which lasts from September 6 to 15, will be the public procession of the train Fucharist and the celebra-

Catholic choirs of the city are al-ready being rehearsed in sections, and general rehearsals will begin in a few weeks. The parts usually taken by solo voices will be sung in unison by

the corresponding voices of the com-bined Cathedral and Notre Dame

the corresponding voices of the com-bined Cathedral and Notre Dame Church choirs, 300 in all. At the particular desire of Arch-bishop Bruchesi, the whole of the music in connection with the congress will be of the strictest Gregorian type According to Dr. Frederic Pelletier, organist of St. Leo's Church, it will be "the first occasion in America Cathedral and Notre Dame Church choirs, 300 in all. This is a typical example of the idiotic pronounciation of otherwise ac-complished concert vocalists. Both beautiful poetry and the beauti-ful vowel music of the words of this song are ruined by the slovenly pro-nounciation of the vocalist. This state of affairs would be amusing, if it were not the fact that no critic dare tell our concert vocalist that mo critic dare tell of the strict dare tell

Psychological. Review By DR. LOGAN Recently the musical magazines and the musical columns of the leading American dailies have had a plethora expected to be the most tremendous of editorials on the importance and expediency of having the European Grand

Operas sung in English. This, how-ever, would not be of any real advantage. For, as it happens, the pro-nounciation (that is, the emission of vowels and articulation of consonants)

ent Catholic clergy and laymen who will be visiting here for the occasion. Millions of dollars here and in the singling diction—is no more understandable than if it were Italian, Millions of dollars have already been German or French. In short, there spent upon the preparations for the is no use demanding opera in English until English-speaking vocalists first acquire perfection of vocalization and enunciation in the diction of their own language

Proof By Example.

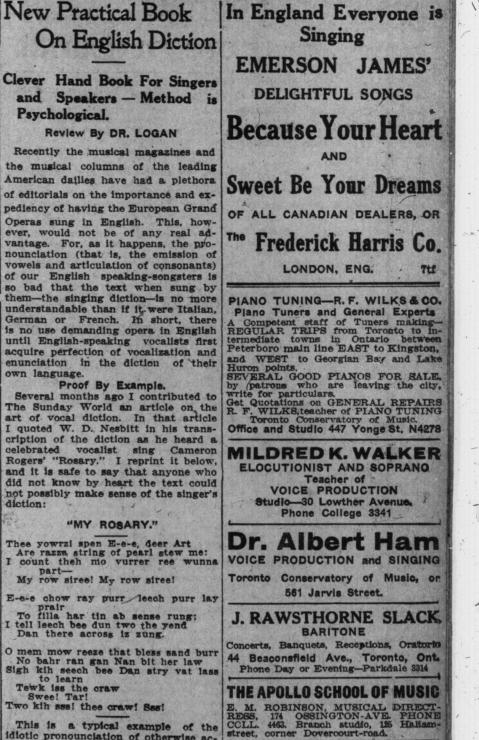

brought to a level such as it never before attained. The same is true of many other of the city churches.

ways possible to get the refund if it

wit. For this reason, many experiened tourists advise the payment of the Auties beforehand. It is possible in New York to pay the duty for nearly every country in Europe, thus avoid-

ending foreign tourist should familerize himself is the rule of the road, which varies here and there. In genral. cars must be driven on the right of the road and the left when overtaking another vehicle. In France. ertain documents must be obtained before a tour begins, such as the permis de conduire and the permit de irculation. Cars not of French manuacture are carefully examined before he authorities will grant the latter Iccument.

It is also advisable to be informed of the speed limits in the various countries. It is well understood that France there is practically no speed mit outside of towns or villages. The equirement is that the driver shall exercise proper caution, and accidents tre visited with heavy penalties. Belgium has a nominal speed limit of pineteen miles in the country, but hare must be exercised in the towns, sspecially Brussels, where the police on some streets place the limit at less than four miles an hour.

In parts of Germany speed limits are now in force. In Berlin and along the Rhine there are police traps, ten housand summonses being issued last ear for infractions of the regulations. As in France, the law is stringent

A REPLY TO THE KNOCKERS

Why should the hoarders of gold cry "wolf" every time they see an automobile go by? It is easy enough to understand the mutterings of those who, in view of their cuteness, coupled with a little learning, are trying to earn their stipend. But, why should men who have money to lend want to stifle an industry? The automobile has the fault of being relatively new; for this reason it is open to suspicion. It is right to be conservative, but it is a crime to be stupidly so.

The best answer to the charge that men who cannot afford it arebuying automobiles, is at the beck and call of every man in America; let him but look over his list of acquaintances, and decide for himself whether or not the owners of automobiles that he knows are beggaring themselves.

It is claimed that the automobile is a plaything; that it has no economic value; that it lures men into idleness. Must a man work his nails off, reduce himself to a stage of mute idiocy by all work and no play, and then step aside for a newer, fresher slave? Is there no sign of economic advantage in going out into God's fair country, filling his lungs with oxygen, getting a glimpse of the green fields, recouping the energies that lag, and, in fine, come back invigorated, ready to do more and better work? Is it an economic advantage to die acquiring experience? Do bankers object to having men purchase beef to eat? Why should not these same men purchase oxygen to consume? Is beef a better preserver of life than oxygen? Is it not necessary to go to a slaughter house for beef? Can pure oxygen be had in an ill-smelling shop? Is it not an economic advantage to jump into a swift running automobile and ride out to the storehouse of oxygen for the supply that cannot be obtained otherwise?

Wise financiers long ago recognized the economic advantage of quick transportation, the liberal dissemination of information, and the results which follow when men and women learn more about each other than they are likely to know if they all stay at home. Are we to forget the fate of China; what befell 400,000,000 of the earth's inhabitants when they elected to isolate themselves and forbade communication? Is there any difference between the "Wall of China" and the wall that surrounds the man who does nothing but go to business and come home at night? His family gets to know him as a dull bore; his neighbors forget that he is on earth.

Does the economic situation demand that men shall so abuse themselves by all work and no play that they will be hated by those who do not know them excepting as dollar-chasing plodders, and hated more by those who know them best, because they are made into cranks by overwork and lack of fresh air? Must men surrender the love and esteem of all who are in a position to judge of their qualities in order to satisfy the economic situation? Can a man command love and esteem when the smile that cheers wears off, and its place is taken by a pensive drawn map of dull care? Who ever succeeded in keeping dull care as a companion in an automobile for more than the time it took to ride out past the last house and give the weazen-faced beggar one glimpse of nature?---(Aut

ter and son, who have gone abroad for a motor trip, sailed on Wednesday last River which runs into the east branch of the Montreal River near Duncan Lake. They are reached from Gow-ganda via Hangingstone, Elkhorn, Frying Pan and other lakes, together with many portages, from half a mile to Mr. Ed. Foy was over for the last two miles in length, some of them muskeg and very swampy. The Wapoose River is generally traversed on the route to Shining Tree. These falls have been appropriately named. A mist like a bridal veil constantly hangs over them, thru which the sun scintillates and glinstens with a dazzling radiance of color and tints suggestive of orange blossoms and bridal array. The falls are about 75 feet in height and decidedly picturesque. They are not unlike the Swallow falls near Bettoos-Y-Coed in North wales which are world famous and considered among the most beautiful known The Wapoose is a slow, winding river which converges into a very narrow channel just before it falls over the precipice. Two logs are placed across the falls at the narrow part, which are a part of the portage which prospec

tors use. A slip on either of those logs would mean instant death. Canoes have been known to run to the verge of the precipice without realizing that there were falls on the river. These logs, however are the means of preventing canoes from going under. A snap shot taken during a rain storm the coast on Thursday and will be at home to her friends, Manning-avenue. We should be there CHAPTER XVI.

A FIGHT NEAR THE CLOUDS.

I awoke both the secretary and Mr. Grayman as soon as the new situa-tion developed, and they came out on deck. Mr. Grantham immediately fell in with my opinion.

"The rascal has another port there." he said. "I wish the other aeros would come up." "The Skylark." I replied "will soon

be here, but we cannot wait for her. Payton has either run out of power. or he means to make a stand. We are so close upon him that he will have to make a stand anyhow, or else try to escape under our guns; and if I know Ethan Haight's style of shooting, the fellow won't run far."

"But, remember, sir, my daughter is aboard," broke in Grayman. Her life must not be endangered." "Surely not," I replied, "Yet, you

see yourself that some risk must be taken. What I shall try to do is to disable the Chameleon. A shell into her motors, or the breaking of one of her aeroplanes, would do it." "But then she might be precipitated

to the ground." "But she is not likely to. She would flutter down if she fell at all, like a how the wounded bird. Remember Eagle behaved last night, and she was badly hit. Then, of course, Pay ton has parachutes, and he would save his prisoners in that way."

"I'm not so sure of that," said the secretary. "He would probably think only of saving his own neck. But But Payton was not such a fool as really, Gralman, the danger of a tumble is slight. In the battle above the English channel, between the French and British aero squadrons, during the last war, thirty fliers were completely disabled-shot to pieces, as far as any further utility as fighting machines was concerned-but not one of them fell into the water. All succeeded in skimming to land on one side or the

> "If we can " said I. "we'll stop him before he can get afly. "You think he is on this side of the

hummock?" asked the secretary. "Ethan thinks so, but is not sure. We'll have to look closely now."

oming. you, and send the Crow after us. Then I turned again to the work be-

fore us. Mr. Grayman, utterly cast down and looking very miserable, was moping about the de "Suppose you take him into the cabin

and try to cheer him up." I said to the "I'm not in despair yet by secretary. any means."

"Good for you, my boy," he respond ed heartily. "I've put a big stake you, and I have no notion of your failing."

"I won't fail!" I replied

And I really felt that I wouldn't. I'd die first. Somehow the image of guns in quick succession. The two were now not more than a mile and that poor girl, whom I had never se a half apart, and the shots ought to was ning more and more clearly imprinted on my mind. I began to fee a personal interest in her rescue and a corresponding detestation of Alfonso nacious. He instantly answered the Skylark's fire, and then they went at Payton. I imagined her looking to us -looking to me-to save her, and 1

rowed that I would do it. Love at first sight has become a commonplace, but if I had stopped to analyze my feelings I might have concluded that my case was one of love without sight.

Possibly the inscrutable hints of the secretary, who, as I did not then know, was a man of romantic sentiments, had kindled this fire in my breast.

Mr. Grantham did as I requested with regard to the billionaire; and when the "They ought to hit a crow at that two issued together from the cabin an hour later, Mr. Grayman's face wore a range." Still the firing went on, as we could omparatively contented look, and tell by the faint blue flashes and the had good news to impart, which made him quite cheerful, and the secretary may, I saw that it was only the Chamexultant.

We were actually gaining on the chase!

The Osprey, for some time, had been making 139.8 miles, a little better than her best during the night. I estimated that the Chameleon had dropped to not over 139. At this rate, we should overhaul her in the course of five hours. In two hours we should be within effective range, and an hour later we ought to be near enough to enable Ethan to knock her aeroplanes splinters.

impatience and continually consulting his range finder, changing the elevation of his gun and drawing imaginary

IMPRESSIONS OF AN

ENGLISH SWOMAN

St. Regis Hotel, New York.

CANADA

Dearest Susan: You will be surprised to see that we are back in New York again and sail next week on the Mauretania. Aunt Kitty grew suddenly upset from having performed too many gastro-nomic feats and decided that the only place for her was her "ain fireside." I am afraid I rather put my foot in it in Montreal before I left. Quite lightheartedly I began complaining of the bad roads in Canada. I didn't mean anything personal, but it seems the Canadian is very sensitive to criticism and strongly resents anything being said by an "outsider" that is not flattering to himself or his country. Don't you think this a little curious? We rather invite adverse criticism of England or the English. We are amused and interested and nearly al- looks a little untidy and unkempt in ways "go one better." When people from "the other side" revile our cli- sons between an old civilization and nuate we "quite agree" and if any of the male persuasion are there, they put a touch of finality to the remarks Now, I never thought much about saying with fervour it is "ab-so-ly the most rotten climate in the lutely the most rotten climate in the world." When visitors say they dis-like spending a Sunday in London, that there is nothing to see and no where to go, we join in, and their horror is as nothing compared to ours, while the Englishman again responds with "ghastly place, London, Sunday, beastly hole, dead to the world." The only thing in which we come to a deadlock where there can be no years it animity of sentiment seems to be on the matter of heating the houses. They shudder in dismay at the coldness of our "barns" and the draught- roads to bother much about the old iness of our passages, while we pant and expire in the heat of theirs, and of being taken out to a most charm-on this point, there seems to be no ing Country Club called the Hunt final way of reaching any agreement. Everywhere is the clat-tering of the trams, or else bad roads. on. was before him in practical results, when, in 1890, as president of the the moment one leaves the thorough-fares. The Canadian is not a "kicker." British League of Empire, he not only published a book of patriotic songs, He bears the "ills he has," without a but gathering the school children taught them, in the story of the flag, murmur. No one appears to write to the papers to voice their complaints, unless they have an axe to grind and the imperial unity of the empire. In Toronto, Oct. 13, 1890, a great depeople with a public-spirited grievance are looked upon by the majority as monstration in open air was attend-ed by thousands, and brought before bores. I suppose it is because England is a finished production and there is the child mind, by its flag-flying and patriotic speech-making and song sing-ing a most enduring impress of this aspect of imperialism. But we must go further back, back to find wherein plenty of time to complain about the last touches. But if one considers what Canada was a hundred years ago, it is marvellous how much has been accomplished. No wonder she these numerous aspects of imperialism found beginnings. To me, tho made manifest in the places. It isn't fair to make compariupspringing of numberless loyal and Now, I never thought much about roads in England, they seemed Mke Topsy "never to have been born, they growed." But when I went to Alask and saw three men setting out to make a road through a virgin forest with only axes and pickaxes I began to realize just what was meant by a road; rees to be chopped down, stumps and roots to be taken out, stones removed, the road levelled and if after weeks of hard work, and months, and even was still a bad road, wouldn't have the heart to write to The Times about it would you? I expect the Canadian is too busy making new

historic societies, in the splendid teaching of the schools, it traces its pa-rentage to one great imperial act-confederation In the spirit of this great foresha which brooded over the of our national life were found many varying aspects-and mine was the inspiration that quickened life "the imperial child now rendering due and loyal educational service by legislative enactment in our schools on a set day thruout the empire." Its inception was made manifest when, on Dec. 2, 1897, Hamilton passed the first due and loyal educational service by inception was made manifest when, on Dec. 2, 1897, Hamilton passed the first resolution of "a day for patriotic ex-Mr. Taylor, to a member of the Labo ercises in our schools." The Hon. Mr. party, and the two parties have sor toss, who had asked me for this, presented it to the Ontario teachers in day nights, but the crowds are sented it to the Ontario teachers in March, 1898, where it was accepted, then passed on to the Dominion Teach-ers' Association, meeting in Halifax Aug. 8, 1898, and by them unanimously adopted and made known to the world ones. But I have a vivid recollection as Empire Day. It must be here noted that, as I had no place on the school board or department of education, I could only act thru its head, the Hon. G. W. Ross. -when you get there; but all the way then minister of education, who most heartily encouraged my work, and I have yet to hear the first word from him claiming the day, which Mr. Hop-kins must think a good one, when, after

seventeen years, he takes up battle for Mr. Ross, who is quite able to defend himself, and is, according to Mr. Hopescape the torture. But we, who resigned expression until the car gave eap in the air, whi

THE TORONTO WORLD

ABOR Sam Landers

A pleasant feature of the convention was the attention of the police and civic officials to the delegates. This was as a result of the action of City Commissioner Harry Keffer, who by the way is an old "bookie" himself.

Labor Temples in Canada. a recent write up of his visit to Canada, Will Crooks, labor ex-m.p.,

"We had a great labor meeting in the Labor Temple at Toronto, and this leads me to say that I wish cur fellows at home had their own halls to meet in, as is the case in Canada." This is a tribute to Canada. One that in the near future will be more deserving than it is at this writing,

at the present time, Hamilton has a special Labor Temple committee map-ping out plans and raising money for a building owned and controlled by oraginzed labor. Work has begun on the construction of the new \$100,000 labor temple at Vancouver, B. C. At Saskatoon, Sask., a labor temple co. has been incorporated with a capital stock of \$50,000. Shares of one dollar each are now being offered and a good start has been made in the selling of stock. It is hoped to have the project in shape for building by next season. The Ottawa Allied Trades and Labor

Assembly has appointed a building committee with the object in view of a abor temple. At Lethbrigde, Alta., the trades council has had a building site for some time, but now has had a splendid offer for the same with a ubstantial profit and the question of selling is being considered and with the profits in the land starting to build

at once on a cheaper site. The Toronto Labor Temple is pro-nounced as one of the best on the confound it. tinent and only surpassed by such as Seattle, Los Angeles, etc.

Provincial Federations.

Jno. The Winnipeg Voice says: Joy of Halifax has written to J. C. pretty clashes on the Market on Sun-Watters, Victoria, president of the British Columbia Federation of Labor, asking for information regarding procedure, by-laws, etc., with a view to organizing a provincial federation of abor in Nova Scotia. The movement is favorably looked upon by maritime wage-workers.

feared by those who have for years labored to maintain and give status to the Trades and Labor Congress of The summer boarder in the village hu didate against the Labor part's nominee, declaring that since they adopted the initiative and referen they have Canada. It may be said by some, "the more the merrier," but there is Inlet department of The Parry Sound a possibility of too many organizations Star-for Byng Inlet proudly

The Lure of the Lordly 'Lunge-or was it the Beck of the Big Black Bass? -or shouldn't I credit it to the Point of the Pickerel and Pike?-led me northward last summer and landed me, with

five other persons, at Byng Inlet And Byng Inlet is a name to conjure with, when a happy, healthful, economical summer outing is up for discussion: and it designates a station 200 miles north of Toronto, and stands for an unorganized village two miles inland on the Magnetawan River, five miles from where that fine tributary empties into the Georgian Bay. Every mile of the way is full of attraction to the lover of the grand, rough and picturesque. Byng Inlet is typical of For as yet regulations are fairly loo the stations along the line, neat, co modious, well-equipped, with a resi-dence near-by for the station master, a courteous, capable official, who leaves nothing undone for the accommodation of the travelling public A single company owns the mam-

moth saw-mills and allied industries on which the village of probably 1200 souls, all told, mostly depends. There is an extensive general store, wh tourist supplies, except one (and that's wet), can be had. The houses are frame, and with a few exceptions, plain but comfortable. The streets are laid out on solid bare rock, just as nature fashioned it and the company

Up here in the brave, beautiful bracing Byng Inlet environments, the soul of the summer tourist, whose vision can be adjusted to see beyond the essentially fashionable round-ups finds rich, ripe, rare retirement, with as it were, press-the-button attach ments. In the heart of the wilderness

yet you can get the Toronto dallies you can reach the telegraph and tele phone, you can attend a comfortable place of worship; you can get freshmeats, milk and vegetables, if you begin to tire of fried bass, pike and pickerel-but who'd ever begin to tire of that?; and you can have the This is the very thing that was doctor come and fix you up, should you

"Thirty-eight, eh?" I repeated; "Oh, well, I was only eight thousand out. That's not bad for a stranger." "Sure!" agreed the Captain. "But, an odd twinkle in his dark, keen eyes. tarlo is not giving a reason for its ex- never once have the dog set on him. never heard a yarn about a man and a mule in all my life." "So? Well, I tell you. He was a mule dealer. 'Long cam' coon wid an impositions of city domestic life. Her The trouble will be local unions will it makes no difference, from the view ol' w'ite skate. 'Ow much for dat affiliate with the provincial bodies and point of others, what you eat or how 'Fifty, hell! I give you fifteen!' 'Fifty dollars I want right, de mule's yours. I ain't goin' to stick at t'irty-five dollar on a mule dicker!' See ample. These are all matters of such entire freedom of choice that the only Clark's Island (I mention it just to give a hint of the rare sport) is at Bay Fin-a run from the Inlet dowy State Federation of Labor-this is no comparison-first because the United States has a population of over ninety million compared with Canada's seven million, and such state federations as Not state for the state federations as the state federation of the bay shore, of a couple of hours. I don't know why it is called Bay Fin-you pronounce the Fin as it is spelled-for while there is fine fishing there, no fish has ever the state federation of the state federation of the bay shore, of a couple of hours. I don't know why it is called Bay Fin-you pronounce the fine fishing there, no fish has ever the state federation of the bay shore, of a couple of hours. I don't know why it is called Bay Fin-you pronounce the fine fishing there, no fish has ever the state federation of the bay shore, of a couple of hours. I don't know why it is called Bay Fin-you pronounce the fine fishing there, no fish has ever that of New York, Massachusetts, Il-linois, Indiana, etc., are larger than the entire Trades and Labor Congress and of rest and recreation-would name; no good member of the tribe of Phins would own it. The Frenc don't waste nasal accent on it; so it is their nomenclature. But it's a fam ous pleasure ground and fshing ous pleasure ground and fshing spot for the community, is Bay Fin, and the first day we had at it simply made us wild to get back again. We The month was August-a month in made us wild to get back again. took the fishing fever that day. Even an 80-1b catch, in one aftern huge bass didn't allay it-it only increased the temperature of the patients. Wonderful are the everlasting roc ribbed, verdure-clad, enduringly pic-turesque and yielding from out the that make the segrated shore line form the heterogenous creations which lie like superfluous beauty moles on the rounded cheek of the Bay. Winnipeg is perhaps the only city in clear depths of the waters that laugh Hoary with age are these islands and rich in legendary lore. The haunts of the florce Hurons in the red man's halcyon days when, in Nye's exquisite imaginary, no sound save the wigwam broke the stillness, and the tommy-hawk and scalping-knife constituted a full kit of working tools. The Indian still lives in this region of the Isle-genmed Georgian; but the romance has simmered out of his life and the glamour which sentimentalists have cast about his noble, nomad in-dividuality has gone the way of that justly celebrated fabric of a vision, leaving the modern savage somewhat wracked and not entirely baseless. How, I'd like to go along here and try to initelligently tell all I saw and learned about this well-appointed, well-governed, peaceful, moral, law-abiding, industrious, thriving Inlet, whose other name is plebeian Bing-a very Utopia; of the northland backmunicipal status, has no boodling hich, though it boasts no alderman, haughty commissioners or blundering trustees, yet enjoys celfgovernment, with churches, schools ublic library and reading room, hotel store, post office, telegraph and telephone service, police court, lock-up, and total prohibition of the presence of Mr. John /Barleycorn. After which I would glide gracefully into details of the surroundings of Byng Inlet on the Mag., with more duly authenticated pictures of the fisher folk, feminine and masculine, the boats, the balt and the famious But, /as the gobbler hoarsely white pered to the ladies of his entourage, as the turkeys watched the farmer grinding his ax; "To be continued ira our necks!" Billie Burke, accompanied by her mother, niece, and adopted protegee, has sailed for England to be gone until the reopening of her season in the fall in "Mrs. Dot.' As in the case of "Love Watches," Miss Burke will go on tour for the first half of the theatrical season in "Mrs. Dot," and then in January come into New York in a new

THE MAN IN THE BOX.

By many theatregoers the man in the box office is classed with janitors, trust presidents and other autocrats, the security of whose positions is responsible for the absolute disregard for the public's feelings which is generally alleged to characterize their actions. The classification is libelous; box office men are the gentlest, most considerate of creatures,) and it is only once in a long, long while that anything like the following incident occurs.

Scene: The Hudson Theatre lobby during the first act of "The Spendthrift." Time About 9 o'clock.

evening dress, apparently sophisticated, and well satisfied with himself. He approaches the box office and addresses the occupant thereof (one George Loomis) in a tone of voice indicating great condescension. Y. G. "I'll take three seats in the third row for to-morrow night." Loomis (politely). I'm sorry, sir, but the best I can give you will be two seats in the last row and another directly in front of them." Y. G. (indignantly). "What? You

Still it makes a man a bad actor for a time until he gets rid of the superabundance of stechnics he "When my eyes grew better I deter-mined to go into newspaper work. I had been a "cub" reporter on a local paper and the work appealed to me. I was ambitious tho. No little 'din-key' home sheet for me. I aimed at New York. I got letters of introduc-tion and endorsement and rambled into the office of The New York World in a showing him human nature."

of these schools has been on the stage about three years and begins to be himself a little, he will understand what the school has done for him in showing him human nature." In "Her Own Way," which The Players will present next week, Mr. Gordon will be seen as Lieutenant Coleman, a role that he is exceeding-ly familiar with. It is entirely dif-ferent from anything he has hitherto done here and gives him greater opdone here and gives him greater opportunities than he has yet had.

GOOD ACTOR, BAD FARMER.

Frank Moulan, the famous come dian, who is now amusing New York as Simplicitas Smith in "The Arcadians." finds amusement for himself

in his acheivements as a farmer Once upon a time, Mr. Moular thought that he would like to be a ranchman. So he settled upon the ranch in New Mexico which he and Mrs. Moulan jointly own. It back and kicked it. Then it felt soft, so I reached down and touched a face. It was a body cast up by the sea. I saw the 'story' of it at once. I saw, too, the necessity of keeping others from a like discovery. So I dragged the body into the weeds and hid it. Before that, I lighted a match and went thru the pockets of the man for clues of identification. I found his watch, pocketbook, card case and the like and took possession of them. "Then I started for The World. I occurred to him one day that a large quantity of cut grass was badly in need of being raked up, so he instruc-ted the Mexican "greasers" to "hurry up and get that hay in." When the harvesting was half done, Mr. Mou-lan's farm-wise father-in-law learned what was going on, and rather rough-ly informed him that the "hay" was marsh grass which he had intended

A professor Ashley H. Thorndike wrote an illuminating volume on English Tragedy" and now Dr. Franc H. Ris-tine has traced the development of "English Tragloomedy" in a volume soon to appear. Some of your favorites who will play the track the party and has a delightful comedy scene playing hide-midst of this comedy the fact is brought out that Stephen Carley, Geor-giana's brother has lost heavily in Haswell, of course, will appear in the the scenery and stage scenery and scenery and stage scenery and stage scenery and scene scenery and stage scenery and stage scenery and scene scenery and scenery scenery and scenery and

wright of comedies of manners. It was also the first play in which Maxine above all others identified Clyde Fitch as a keen observer of women. His careful regard for the niceties of dress actors and actresses are given full scope to wear clothes suitable to on the family. He leaves to go back west, where his primitize methods and

The Singer of the West ×

You can talk about your winners in the artists' race for fame But among the world's big singers of to-day, Is a mokey-lookin' specimen? O'Dunnigan by name,

Who never yet has seen a modern play. His face is long and solemn as a snowslide in a thaw,

His wrinkled cheeks resemble a creek bed in a drouth; A brush- heap of red whiskers adorns his lower jaw; And pathos draws the corners of his mouth.

O'Dunnigan is starrin' in the playhouse of the hills. And he charges no admission to the play; The sunset's his drop curtain, his orchestra the rills, And the little birds that sing at close of day.

His stage is a wide splash of green that slopes down to the lake, His audience the wild things of the plain; He sings the gophers soft to sleep, the night-owls all awake. And the coyotes simply dote on his refrain.

O'Dunnigan ain't carrin' for the praise of man that thrills. He only knows a song or two at best; But the wild things sorter need him in God's playhouse of the hills. So, he'll keep on playin' stock away out west.

From the point of view of form, the type of all the arts is the art of the sician. From the point of view of feeling, the actor's craft is ins type The Preface to "The Picture of Do-

At Scarboro Beach.

William H. Crane is now

urday, June 4.

William Collier in "A Lucky Star" visited Salt Lake City for a brief engagement early in June, and then went on to the Pacific Coast, where

cess' company, was asked recently what was the proper day for the ap-pearance of the straw hat. He reolled. "The first day that it is com fortably warm enough to wear one. The idea of holding on to the heavy, uncomfortable black derby or "pot" hat until June 1st is absurd. No man with independence will regard it."

Arthur Bourchier has been playing the role of Colonel Phillipe Bridau in Charles Frohman's London produc-tion of "The Honor of the Family" under the new title "The Parasites." MISSS PERCY HASWELL, IN "HER OWN WAY," AT THE ROYAL THIS This it will be remembered is the role in which Otis Skinner made such a great success two years ago. Constance Collier, who was last year seen in Mr. Frohman's production of "Israel," is supporting Mr. Bourchier as "Flora."

Eight of the "big, black, bounding Arthur Byron, who played Jaques own desires. He tens Georgiana that he is going to marry her in spite of herself. To this end he systematically plans to ruin Steve, and in fact the whole family, by giving them bad tips in the stock market. Steve is a weakbeggars," of whom Kipling wrote in ling and falls linto Sam's power. Coast bats. These children of the desert Knows." Mr. Byron thus returns to the position he held as leading actor in Miss Adams' company when she played "The Little Minister," and the one-act play, "'Op O' Me Thumb.'

> Laura Hope Crews, leading woman for Henry Miller in that actor's successful comedy, "Her Husband's Wife," has made so much of her part of the injured wife that she is now easily within touching distance of stardom. In fact, it is fairly generally supposed that when "Her Husband's Wife" next year resumes its road tour at the end of its New York season, Laura Hope Crews, and not Henry Miller, will be the star.

From surprised comments when the choice was first announced, public opinion-by now more definitely ineach week finds new features in opformed as to the internal nature of Rostand's "Chantecler"-has drifted to the view that this wonderful play would lose all its wonder if entrusted to any but the hands of Maude Adams. In fact, as one reads the text it is difficult to imagine how many of its delicate passages could be projected at all from the mouth of a man.

of Richard Sheridan

Aubrey Boucicault opines that the screen scene in "The School for Scan-dal" has not the skillful treatment its acting possibilities merit. He ar-gues that the emotions of Lady Teazle during the discussion between her hus-band and Joseph Surface, must be of an interesting nature—yet hidden be-hind the screen she is unable to give ah interesting nature-yet model be hind the screen she is unable to give the audience any indication of how excited she feels. "Think" says Mr. Boucleault, "think of the opportunity ost to a clever actress."

What Well May Be

Learned From Critics

chait is worth while to recall that famous passage, for it is always amusing and significant.

significant. About twenty-five years ago, (1883), Mrs. Oliphant wrote the life of Rich-ard Sheridan for the "English Men of Letters" series, edited by John Morley. Commenting on "The School for Scan-dal," she made this observation about the scene in Joseph's Horary:

"It would, no doubt, have been higher art could the dramatist have deceived his audience as well as the personages of the play, and made us also ages of the play, and made us also parties in the surprise of the discovery. But this is what no one has yet at-tempted, not even Shakspere; and we have no right to object to Sheridan that we are in the secret of Joseph's baseness all the time, just as we are in the secret of Tartuffe's, and we can with difficulty understand how it is he deceives anyone. There remains for the deceives anyone. There remains for the comedy of the future (or the tragedy, which, wherever the deeper chords of life are struck, comes to very much life are struck, comes to very much the same thing) a still greater achieve-ment—that of inventing an Iago who shall deceive the audience as well as the Othello upon whom he plays, and be found out by us and our hero, at the same moment. Probably, could could such a thing be done, the ef-fect would be too great, and the indig-nation and horror of the crowd, thus skillfully excited, would produce a sen-sation beyond that which is permis-sible to fiction."

When she was eatin' the portion of my lunch that her babies had left they sible to fiction

Now it is hardly just to say that this shows the typically British attit-ude toward dramatic art, because it cally a dramatic art, because it feeling any too comfortable. About the time the bears had my shoes un-tied son-in-law came back. When the really would be difficult to find any-thing else, even in English criticism, quite so delicious. When one consiold she-bear saw him standin' there

lost to a clever actress." The poor old screen scene! It has suffered much at the hands of the critics; yet, here is one more inspira-tion: Lady Teazle should be visible to the audience! One is reminded of that earlier bit of criticism (it has be-come famous) which protested quite the contrary-namely that the audi-ence should not even know that Laly Teazle was behind the screen. Since the subject has been broached, it is worth while to recall that famous is to begin in February, 1911. Con-spicuous by their absence from the Barker-whom I have already noti-fied to readers on the other side of the Atlantic as seconders from the move-ment-and John Galsworthy. Natur-ally this brought up Bernard Shaw, who is always thirsting for a fight. ally this brought up Bernard Shaw, who is always thirsting for a fight, with a lengthy manifesto, in which he warmly contended that Frohman had fallen away from his high purpose and that his latest declaration simply prov-ed him to be nothing more nor less than an ordinary commercial manager. Evidently it galled Shaw to think that any man should be so base-minded as to run a theatre with the object or making profit.

*

"According to Frohman's method," Shaw continued, "you can have no higher drama at all, for both the public higher drama at all, for both the public and the press regard the higher dra-ma so much as medicine." Now, if you want to dos the public with nasty medicine you must hide it in a lot of jam, and in these laborious times /?u can't obtain jam without paying pretty heavily for it. So, proceeds Shaw, in order to keep his Repertory Theatre together Frohman is compelled to fall back upon the ordinary commercial playwright, and to turn his back on unremunerative geniuses like Granplaywright, and to turn his back on unremunerative geniuses like Gran-ville Barker and himself. All of which obviously is in Shaw's accustomed vein, and just what one expects of him

vein; and just what one expects of him when he assumes the cap and bells of the familiar court jester. The centroversy has been much too long to be pursued to its bitter end Enough that it has brought a rejoinder from Frohman who says he will be only teo delighted to accept and produce any plays that Shaw and Barker may offer him. The discussion possesses very little real interest for the public at large, to whom the spectacle of Shaw

bohm Tree's phrase-is by no means and in the performance Tree is an uncommon one. What is of more have the co-operation"-that is, the importance is that from this rupture phrase mutually agreed upon by the an uncom

really would be difficult to find any-thing else, even in English criticism, quite so delictous. When one consi-ders its serene oblivion to the fact that there is, or ever was, such a thing as dramatic fromy, its casual way of im-plicating Shakspere and Moliere along with Sheridan in a charge of being a little dense where the highest art is concerned, its confident suggestion of how Shakspere might have improved the character of lago, and the prepos-terous conclusion to which it all swings around in the end, one feels that it is the part of failness to refrain from pronouncing it typical at all. However, the stibborn fact remains that there those naive observations are to the present day, in a reputable biography which forms part of a similar. The Germans, over-philosophical as they are, have so profoundly studied The Germans, over-philosophical as just received, he writes as follows: they are, have so profoundly studied "There is nothing settled; but it is now The Germans, over-philosophical as they are, have so profoundly studied the relation of art to. life that they are able to find in human nature the one unchangeable thing in all the fundamental laws of dramatic art. And so they are safe from such amaz-ing opinionism as that just quoted. As for the French, they practice untiringly that "ferocious" analysis of ways and means for which they are noted, and which they never hesitate to push to the extremest limit. They know, audiences as well as actors, precisely why, from the stage; and they delight in explaining and athey delight standpoint, things must be as they are upon the stage; and they delight in explaining, and amplifying and de-fending their reasons. With their knowledge, then, of time-honored meth-ods, they are in no danger of making or tolerating such a suggestion as that about "deceiving the audience"—a ods, they are in no uanger of maxing or tolerating such a suggestion as that about "deceiving the audience"—a suggestion, which ignores, in one care-less sentence, the successful devices of two thousand years and more. And what is all this to us, here and now? Merely another reminder that we, being of Anglo-Saxon blood, are heirs and assigns to strange traditions about art, and especially about drama-tic art. One of the most incurable of these traditions is, that study of TION COMMITTEE OF THE WILD "They won't hurt you, son," says I. "Come on down an' make yourself I could hear his teeth chatter an' it winds of enthusiasm over art. Wher-I could hear his teeth chatter an' it winds of enthusiasm over art. Wher-I could hear his teeth chatter an' it winds of enthusiasm over art. Wher-I could hear his teeth chatter an' it winds of enthusiasm over art. Wher-I could hear his teeth chatter an' it winds of enthusiasm over art. Wher-It was hot in that bush, awful hot. Son-in-law murmured something about the breath of nature an' I said nature's stomach must be out of condition. "You don't know the wild?" says he, "therefore you can't appreciate it like I do." "Where do we fish?" says I, pourin' the perspiration out of my shoe. "Is come round the bead of the creek. As fair sir?". "Not very," says he. "Come, we'll push on." will be out of the bag, before many for them she sat down in a corner of the chimney and cried a long time." Curiously enough, he became in middle life, one of the few French men of letters who really hated the life of cities. He buried himself in the country, at Corbighy, and became the mayor of the village.

English version of Pierre "La Rencontre" originally one an of Pierre Ber success; the other a comedy by an English author. Which of these two pieces she will begin with she has not yet decided. Meanwhile, Paul Arthur, in associa-

How Postoffice Opens Letters. In Russia one letter in every ten passing thru the post is opened by the authorities as matter of course. Indeed, the postal authorities of every country have experts who have raised letter opening to a fine art. Some kinds of paper can be steamed open without leaving any traces, and this simple operation is finished by reburnishing the flap with a bone finstrument. In the case of a seal a matrix is taken by means of new bread before breaking the wax. When other methods fail the envelope is placed between pieces of wood with edge projecting one-twentieth of an inch. The edge of the envelope is first flattened, then roughened, and finally slit open. Later, a hair fine of strong white gum is appled and the edges united under pressure.—London Chronicle.

THE BUSHBOYS TEAR AWAY RALPH'S MASK 66TT'S no use, my boy," said Uncle Richard, "the bushmen I described to you are even more timid than the pygmies, so you haven't the least chance of studying them firsthand, as you have been able to do with

the other tribes." In spite of these words of discouragement, however, Ralph did not give up all hope of seeing the strange boys who were compelled to wear masks until they arrived at a certain age. It was largely his curiosity to see the masked boys that had prompted him to beg Uncle Richard to let him accompany the expedition which was traveling through the bush upon a visit to one of the missions in the interior. The boy had learned a great deal re-

garding the habits of the natives during his short stay in South Africa. He had even met one of the shy pygmies. But he felt that he would not rest content until he had studied one of the masked boys of the bush. Inasmuch as the caravan was passing through the rough uneven country where dwelt this people. Ralph was on the alert for every possible opportunity to effect a meeting.

The idea for what he considered to be his very best plan came to him one day when Uncle Richard, having a slight attack of fever, decided to remain in camp for the day and resume the march upon the day following.

"Uncle Dick has told me so often how the bushboys look that I think I can impersonate one without a great deal of trouble," said he to himself. Thereupon he slyly stained his neck and arms and legs until his skin reser that of a native.; He discarded his clothes and garbed himself in a funny bled. raiment of grass and leaves. Then cov-ering his face with a mask similar to that worn by the bushboys, he slipped from camp and made his way into the forest

Quite a long distance the boy traveled before he discovered any signs of the people whom he was seeking. Suddenly he heard a soft whistle, and at almost the same time saw a young native filt from behind one tree trunk to another. A second wilstle he then heard to his A second whethe he then heard to his left and a third to his right. Ralph now sped from tree to tree, imitating the native he had seen. His boldness was rewarded finally by his coming upon two of the natives-whom he saw, to his joy, were bushboys with masks. joy, were busined toward them they gave As he walked toward them they gave several peculiar little grunis. Then it occurred to Ralph for the first time that, although he might be able to im-personate the bushboys, he could not hope to imitate their language. Never-

"That is not a figure," se teacher

eless, he made the attempt bushboys grunted inquiringly is sponse to his mutterings. Under they were suspicious of him. They evidently took counsel, keeping an eye upon the intrude they began to circle about his while he was watching one b other flung himself upon Ralph. second the other was upon him Ralph was borne to the ground his struggles.

Tearing the mask from the boy's face, the natives gave shrill of rage. They had been shamed ceived. The third bushboy no proached and kindly offered to Ralph, using an arrow tipped wi deadly poison of a species of cat How Ralph longed for a weapon he had foolishly left camp w firearms.

Just as the lad had given himse for lost the two who had capture won their point. It was decided t him to the king of the tribe, who doubtless mete the proper punish Raiph, however, was not minded led away without resistance. He sied himself partly free and succe in giving several loud calls for hel-fore they could gag him.

Still protesting, the boy was dr away. Strangely enough, the pro did not seem a very pleasant one was studying the bushboys, it was but at the time he would have ferred to have studied them at not such a close range.

All at once the bushboys appear become startied. One placed his e the ground, then spoke sharply comrades. They tried to hustle along faster. Finally the white could himself distinguish the sou pursuers. A moment later the bush took to their heels and Ralph was rounded by a party of his uncle's "Your bushboys may be shy, b

certainly have a bold way of sel acquainted with a frilow." said B ruefully as he confessed the en capade to Uncle Richard.

His Figure.

A teacher one day instructed scholars to draw any figure they using only three straight lines. accordingly made three short s

"Yes, it is," retorted the boy, "What figure?" asked the teacher "A hundred and 'leven," was th

A Frightened Bird O NE day a little Indian girl was playing near her father's tent when a little Indian boy came up to her and gave her a bird which he had found not far from the tents. The little girl was pleased and tried to feed the bird and make it drink. And then she played with it, never thinking in the least that poor birdie was very But the little girl's father saw her, and he said, "My daughter, bring your bird to me." So the little girl took the bird to her father, and though he looked a very fierce man, he stroked the poor Then he said, "Daughter, I will tell you what to do with it. Take it gently in your hand out there, where there are

girls and soon became a clever scholar, but she never forgot the lesson which

at Berne and was attended by over 7000 "MAIDENS AWARDED PRIZES" branches and twigs intact, adorned the center of the main street. Drawn between them, in zigzag fashion; were moss wreaths decorated with small flags and purple flowers. Three grades of prizes were given at

600 boys of the cadet corps of Berne. the festival. Silver cups with laurel wreaths, silver cup with oak leaf, wreaths, silver cup with oak leaf. wreaths and laurel wreaths without cups were presented by pretty maids robed in white and wearing long red silken sashes. These girls fastened the wreaths to the banners as the president and the standard-bearer of each prize-winning society stepped forward. Enthusiasm runs high at every choral festival. The Swiss also make a great deal of their sthietic festivals, which are attended with as much ceremony and joyousness. Maidens award prizes at the athletic carnivals as well as at the choral festivals.

They carried drawn rapiers in their hands and were decidedly picturesque. The procession took an hour and a half to cover the route, and the whole town, with its population of about 40,000, held high holiday, crowiding the streets as sightseers. Decorations were plenti-ful and brilliant. Many green moss wreaths, flags and bright-colored win-dow drapings were used. Flagpoles made of young firtrees, with the top

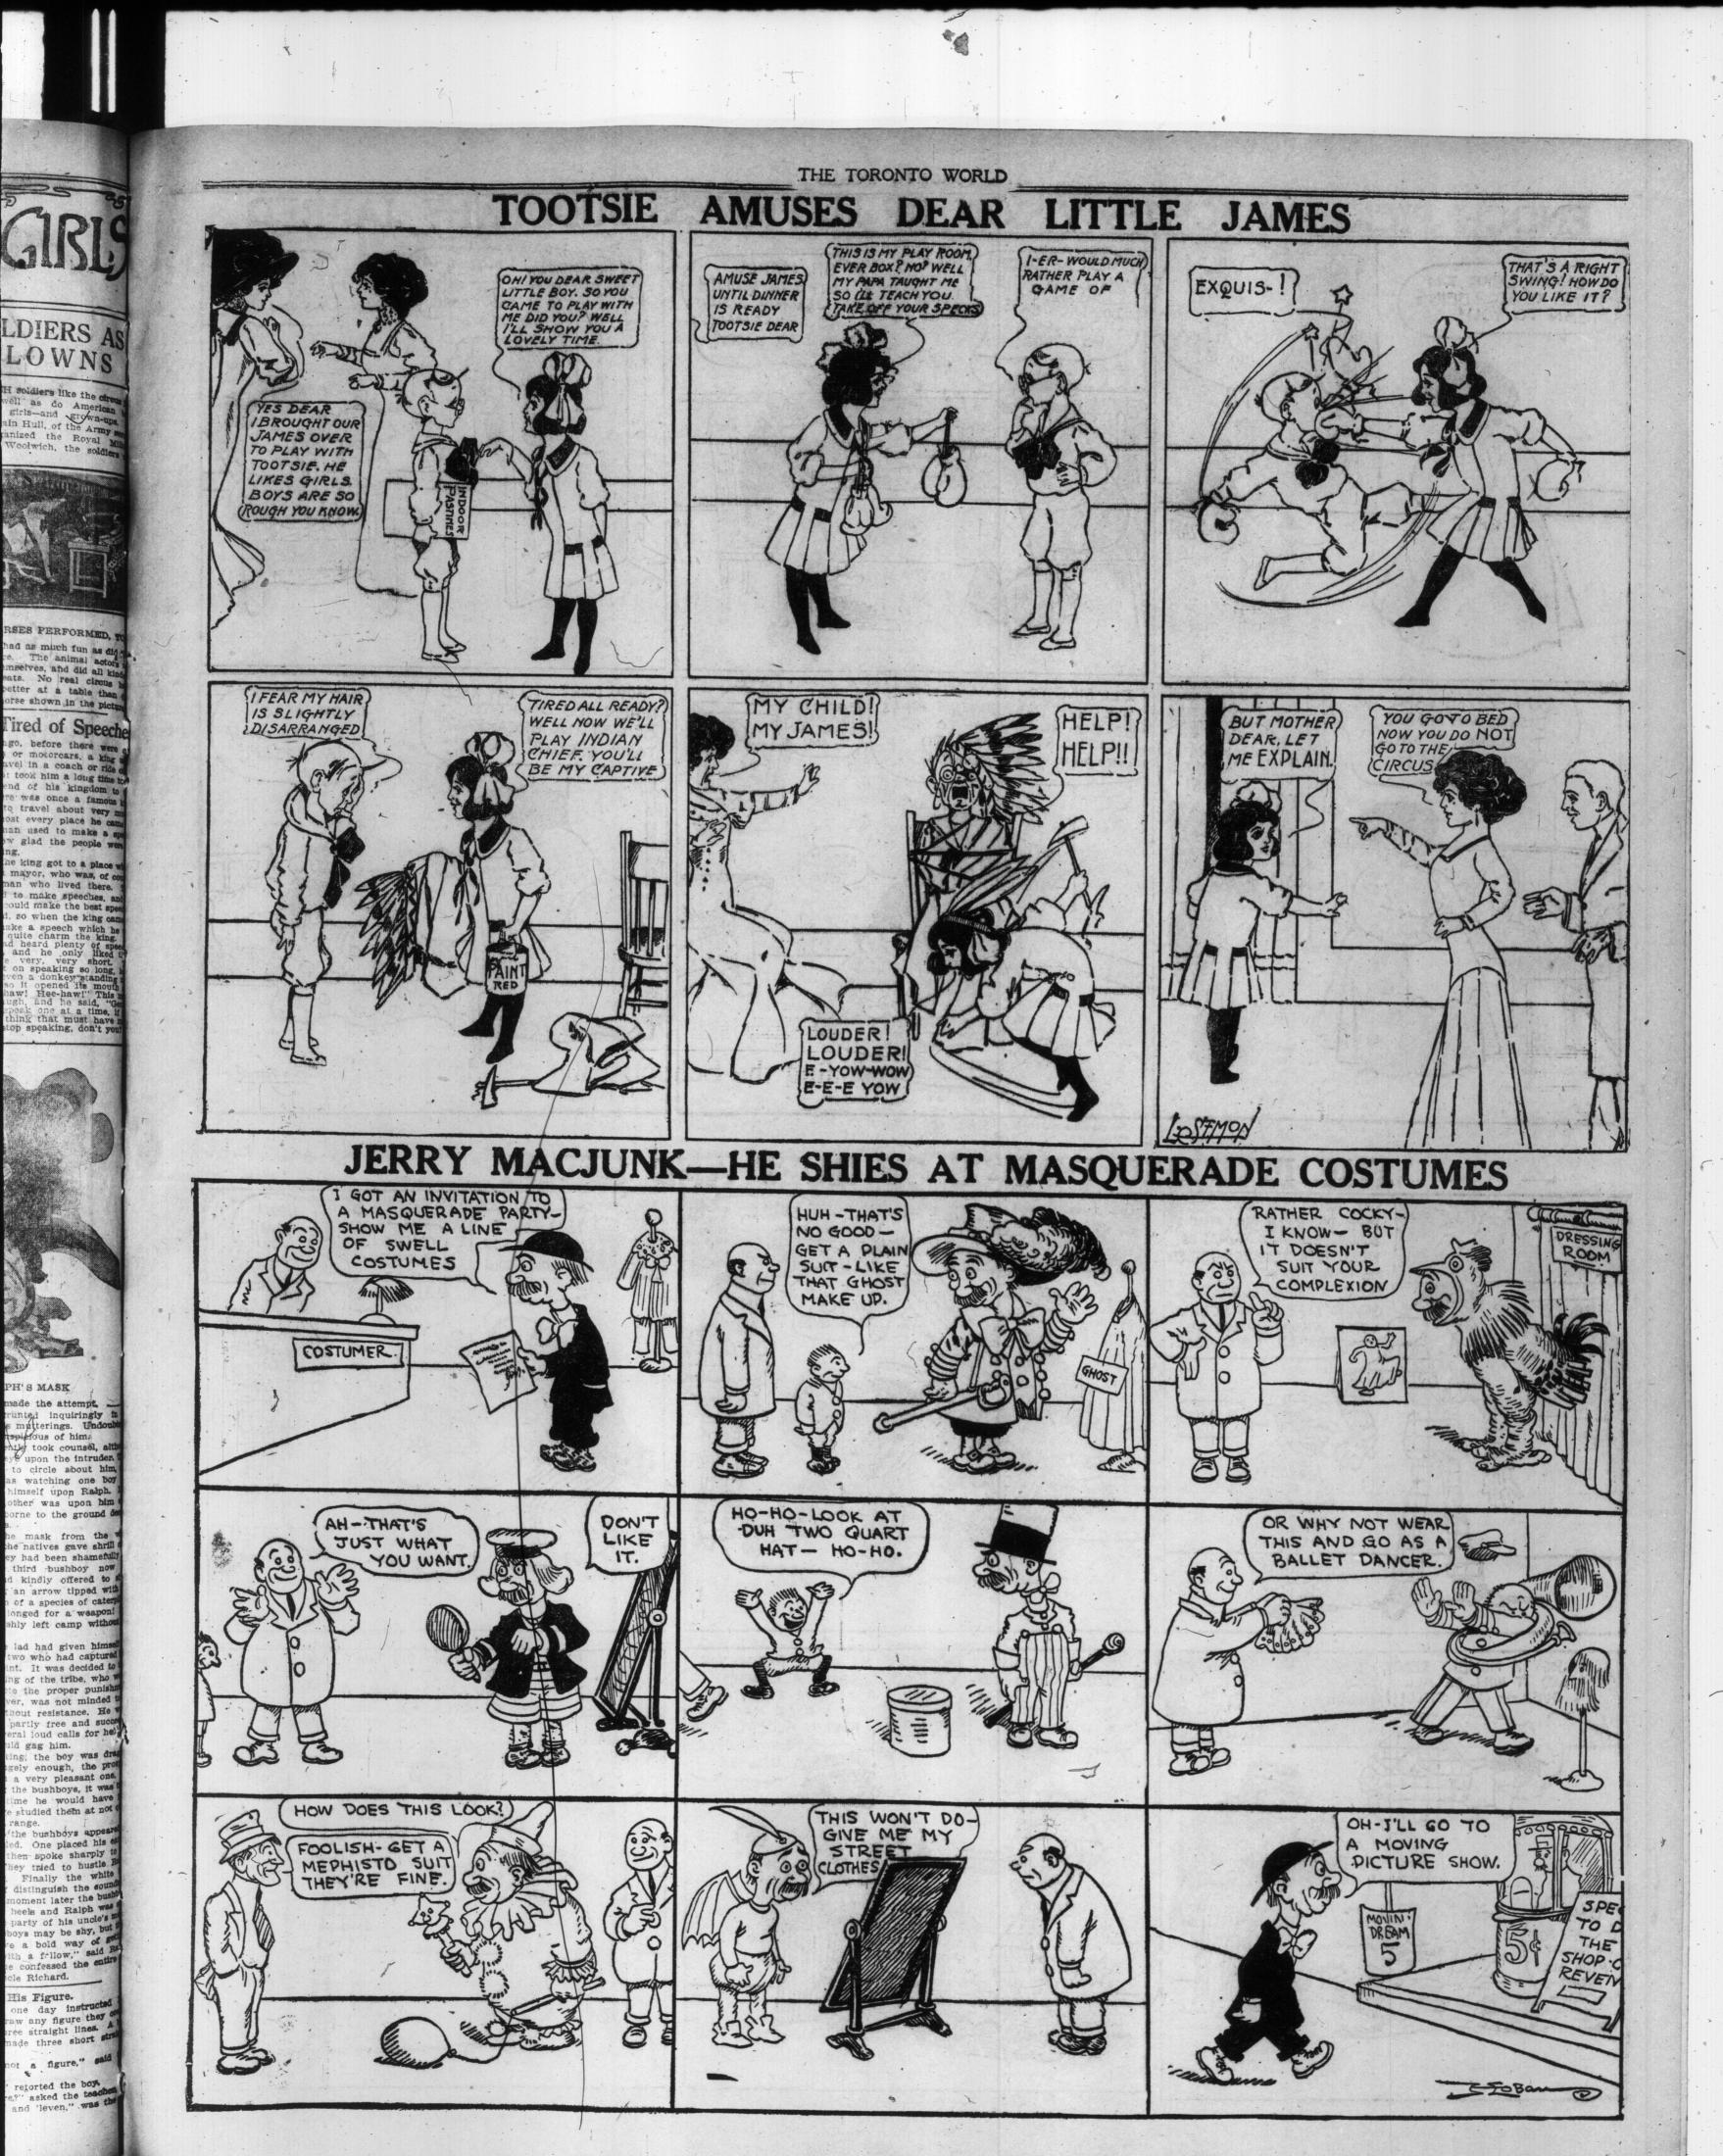

AT A CHORAL FESTIVAL

HE Swiss, you know, are a very musical people, every town .and village in the country possessing its own singing society. At fixed periods a great choral festival is held in one of the large towns of Switzerland, in which choral societies from everywhere throughout the country take part. Such a festival was held not long ago

singers. First, there was a great procession through the town, the signal to. start being given by the booming of cannon. The bands at once struck up a merry marching tune and the procession began to move. Each musical soclety was led by its standard-bearer. and the whole procession was headed by
