## AMERICA WILL SOON BE BUYING DIAMONDS

### Diamond Syndicate Certain That De- mand Will Revive.

### Already Sees Signs of End of Financial Depression -- Sir Wm. Van Horne is Also Optimistic Over Outlook.

LONDON, Jan. 22.—With a view to facilitating the speedy absorption of the present stocks of diamonds, the Premier Mining Co. announces a further reduction in the output of 30,000 carats monthly until the prevailing depression passes off. The diamond syndicate which practically controls the world's output amounting to 40,000,000 or 50,000,000 also has decided that there shall be no reduction from present level in the precious stones. The syndicate is satisfied that the slackness in the American demand will be short lived and says that it already notes distinct signs of a revival in business.

NEW YORK, Jan. 22.—Sir William C. Van Horne, chairman of the Canadian Pacific, who arrived here from Cuba yesterday is optimistic on the business outlook. He expressed the belief that the wheels of business would soon revolve at their normal speed. "This has been a very severe depression," he said, "and in my judgment the rebound will be speedy. One cause why steel and copper industries have been paralyzed, so that not fifty per cent of the normal production or manufacture in the large corporations could not get money because they could not sell their securities except at ruinous prices, now money is becoming abundant. The securities market especially in bonds, is better and boom corporations will be able to sell their securities again."

## HE LEAPED FROM PRISON GALLERY

### Toronto Man Serving Life Sentence Tried to Commit Suicide.

TORONTO, Jan. 22.—(Special)—According to a despatch from Chicago, Frank J. Constantine, formerly of Toronto, who is now serving a life sentence in Joliet penitentiary for the murder of Mrs. Louis H. Gentry, leaped from the seventh gallery in the prison on Sunday last in an attempt to commit suicide. The security was a precarious condition as the result. Mrs. Gentry was murdered on January 8, 1906, at her apartment in La Salle avenue, Chicago. Constantine, formerly a boarder at the woman's home, fled to Toronto and thence to Europe after the tragedy, and was captured in New York a year later, when he ventured to return to his country. He was sent to Joliet four months ago.

## REV. J. J. COLTER TO RESIGN AS YORK CO. SCOTT ACT INSPECTOR

### He Was Mildly Rubbed at York County Council This Morning—Record Price for Charlotte Co. Timber Berths.

FREDERICTON, Jan. 22 (Special)—At the county council meeting this morning it was announced that Rev. J. J. Colter, who has held the position of Scott Act inspector for two years, had decided to retire. The Scott Act committee through Coun. Pond presented a lengthy report, which intimated quite plainly that the inspector was not performing his duties satisfactorily and recommended that a man be appointed who is familiar with all parts of the county and who endeavor to ascertain the truth of charges before laying an information. The number of convictions during the year was eighteen and twelve fines were paid, amounting to \$600. Six cases were dismissed for want of evidence. The report brought a lengthy discussion, during which several councilors expressed the opinion that a Scott Act inspector was not needed. Action was deferred until this afternoon, when Mr. Colter's resignation will be accepted, and probably a new appointment made. The names of ex-Warden McFarlane and John B. Hawthorne are mentioned in connection with the position.

The announcement was made by Secretary-Treasurer Bliss that the examination of the auditor's report had revealed the fact that for a number of years the county had been paying out in jury fees a sum larger than was received from the government for the purpose. At his request, a special committee was appointed to look into the matter and report. The sum of \$300 a mile was paid by the

## BOOMING HON. A. S. WHITE FOR A CAJON POSITION ON THE SUPREME COURT BENCH

### Members of the Bar in Kings and Albert County Have Sent Strong Memorial to Ottawa Nominating Him for a Judgeship---Hon. Mr. Aylesworth's Reply.

OTTAWA, Jan. 22.—(Special)—There is considerable speculation here as to who will be appointed to the vacancy on the New Brunswick supreme court bench created by the resignation of Chief Justice Tuck. Although no announcement has yet been made it is generally expected that Mr. Justice Barker will be elevated to the chief justiceship and that Hon. Albert S. White will be the new judge. That there is a strong non-political influence being used in favor of ex-Attorney General White is evident from a strongly worded memorial from the members of the bar of Kings and Albert counties which has been received by Hon. A. B. Aylesworth. The memorial is as follows: To the Honorable A. B. Aylesworth, Minister of Justice of the Dominion of Canada: The memorial of the undersigned members of the bar of the counties of Kings and Albert, and province of New Brunswick, humbly sheweth: First, That the Honorable Albert S. White, of the town of Sussex, in the county of Kings, and province of New Brunswick, has been an active member and practicing at the bar of the said

provinces for upwards of thirty years, and during that time has steadily risen to the position of leader of the bar, having filled successively the offices of solicitor general and attorney general of New Brunswick. Second, That the said Honorable Albert S. White is justly identified by all the members of the bar, without respect to political affiliations, to possess both intellectual and professional qualifications that place him among the foremost members of the profession in his native province. Third, That his superior intellectual attainments, eminent legal knowledge and recognized judicial and impartial mind distinguish him as one who would add dignity and learning to the judiciary of this province. Fourth, That the resignation of the honorable and esteemed Chief Justice Tuck having left a vacancy on the supreme court bench of New Brunswick, we, the members of the bar of the counties of Kings and Albert in said province, fully believing that only the very ablest and best members of the profession should be elevated to the honorable and responsible position of judges of the said court, do here

by unanimously nominate the said Honorable Albert S. White as the most fit and proper person to be appointed to that vacancy. Signed: GEORGE W. FOWLER, J. M. McINTYRE, ORA P. KING, J. ARTHUR HERRICK, W. B. JONAH, FRED L. FAIRWEATHER, M. H. PARLEE, G. O. DICKSON OTTY, W. D. TURNER, CHARLES A. PECK, MILES S. DIXON.

To this memorial Hon. Mr. Aylesworth has sent the following reply: Ottawa, Jan. 17. Gentlemen, I have to acknowledge receipt of your letter of 15th inst., enclosing memorial on behalf of the bar of Kings and Albert counties, New Brunswick, recommending the appointment of the Honorable Albert S. White to the vacancy in the supreme court of New Brunswick, caused by the resignation of Mr. Chief Justice Tuck, and I assure you that the representations of this memorial will have careful consideration. I remain, yours faithfully, A. B. AYLESWORTH.

## POLICE COURT

### Case Against M. A. Harding Adjudged for a Week—One Drunk Fined.

The case against Matthew A. Harding for selling liquor in prohibited hours was resumed at the police court this morning but owing to the fact that the principal witness one Riley, to whom the liquor is alleged to have been sold, did not put in an appearance or could not be found, was adjourned for a week. James Boyd was fined \$4 or ten days for drunkenness.

## SCHOONER IN COLLISION

The American schooner Norman, in command of Captain Olin, arrived today from Rockland in ballast. The schooner on her recent trip from this port to New Bedford was in collision near Pollock Rip lightship with the schooner Eagle Wing, from Boston for Baltimore. The Norman had her bowsprit sprung and considerable head gear carried away. The schooner also lost 300,000 shingles from her deckload on the same trip in a heavy southeast gale, forty miles south of Cape Elizabeth. R. C. Elkin, of this city, is the schooner's agent.

## Mrs. Bridget O'Keefe

The death occurred suddenly this morning of Mrs. Bridget O'Keefe, widow of the late Cornelius O'Keefe, at her home 28 Harding street. Mrs. O'Keefe, who was 78 years of age, has been in failing health for some time, but her death at the last came very suddenly. She has been a resident of St. John for about 60 years, and was well known in the southern end of the city. She is survived by one son, Timothy, and one daughter, Ella, both residing at home.

## GERMAN MINISTERS ARE DRIVEN OUT WITH SHOUTS

### SAY MONCTON SHOULD WIN Marysville Hockey Players Express Opinions on Tomorrow Night's Game With Fredericton.

MONCTON, Jan. 22 (Special)—"Yes, I believe the Victorias will defeat the Capitals on Thursday night," said Fred Gibson, manager and cover point of the Marysville Crescents, after last night's game here.

"Moncton's forward game gave our defence five times as many shots as did Fredericton, and I think your forward line is the best I have ever seen."

George Hovey, captain of the Marysville team, said: "It will be a great game on Thursday night, and I think the Victorias will win. The Capitals play a better combination game than the Victorias, but that is the only point in which they excel."

Louis Attes was this morning fined \$25 for indecent assault upon Gertrude Eliach. John Weir was arrested last night on a bench warrant. He was implicated in a theft case some time ago, a true bill having been found against him.

## ANNUAL MEETING OF BANK OF NOVA SCOTIA

HALIFAX, Jan. 22 (Special)—The annual meeting of the shareholders of the Bank of Nova Scotia was held here this morning. The attendance of shareholders was more than usually large. General Manager H. C. McLeod gave an interesting statement respecting the business of the bank during the past year, which has been the most profitable in the history of the institution. The recent financial troubles were touched upon. Mr. McLeod stated that before the storm broke the banks had planned to meet any contingency by the accumulation of cash reserves, and the bank experienced no difficulty whatever in meeting the storm.

## AT CITY HALL

### What the Various Committees Are Doing -- Treasury Board Meets Tonight.

A meeting of the treasury board is being held this afternoon to consider what action will be taken regarding the new city loan. This evening the general committee of the council will meet to resume the discussion of the new assessment act. At a meeting of the reorganization committee last evening, the reconstruction of the various departments was again discussed and it is reported that the members favor offering William Murdoch the position of chief engineer, at a salary of \$2,000. Another meeting is to be held at an early date.

## THE HORSE WAS TOO STRENUOUS

The horse loaned to the city by Alderman McGoldrick for the use of the water and sewerage department appears to have been trying to manage him. This morning, while three of the employees of the water department were driving down Carmarthen street the horse got too strong for the harness, and when it gave way the animal started down the hill at the gallop. The driver of the horse, who was the horse was finally halted at St. Andrew's street, the forward wheels had been smashed and the wagon generally demolished, while the horse, like the famous mule "Maud," of comic paper fame, came out O. K.

The illness which caused Mr. Jessup's death was of two years' standing and had necessitated constant treatment. He was 78 years old. The Allan Line steamship Ionian, now on her passage to Liverpool from this port took a cargo valued as follows: Canadian goods, \$128,414, and American goods, \$248,444. Total, \$376,858. ## WAR WITH JAPAN WILL COME SURE AND SOON

### French Visitor to America Predicts That Superior Resources and Money Power of United States Must Win, But 'Twill Be Great Struggle.

NEW YORK, Jan. 21.—"War between the United States and Japan is inevitable. I do not know—no one knows—when it will come, but it cannot be averted. And in my opinion it will not be long delayed." This is the view of Alexander Ular, the eminent French journalist, foreign editor of Le Petit Journal, a paper with a circulation of 1,200,000 a day, and La Vie Financiere. He is a man who weighs in immense studies international finance and politics, and is considered to be an authority on many international questions. "This much is certain," continued Mr. Ular last night, "the completion of the Panama Canal will arrest the commercial development of Japan. The fifteen or twenty men who control the affairs of the empire—the Elder Statesmen—know it. They also know that if Japan is to have the most remote chance of being the victor in a war with the United States that war must come before the canal is completed. Therefore, although the Elder Statesmen realize that the odds are against Japan, I believe that they are willing now to risk a war that will injure the United States rather than wait for the certain in-

THE FINAL WAR.  
FREDERICTON, Jan. 22 (Special)—A matter of great importance is to be brought before the provincial government at its session this evening. The special correspondent of the Times new reporter learned this morning from a gentleman close to the premier that it does not refer to the Valley Railway, the Gloucester iron mines, the "model settlement" on the International Railway, the highway act, the Central Railway, the chair of forestry—or any of these ear-marks of the great era of development upon which we have entered. It appears that Fenian and

Hazen are to appear in Moncton shortly, and the course to be pursued by the premier in that event is the question to be considered. A map of the Hoer war, and one of the Russo-Japanese conflict in Manchuria will be put in evidence, and the editor of the Sun will be present to explain strategic movements made on the eve of great victories. Then the government will go into executive session to decide whether the Premier will appear in Moncton in person, or lay a few experts in the enemy's path and retire to Lantz Mountain to await developments. Much depends upon the decision of this momentous question. The government will be in constant telegraphic communication with Field Marshal Pugsley, who is holding batteries in reserve at Nezess Point.

IN THE DOLLDRUMS.  
Mr. Peter Binks is somewhat worried over the search of news from City Hall. The city fathers have not created a sensation for so long that Mr. Binks fears they are not feeling well. Even the mayor is mute, and the city engineer and the mayor's clerk are unable to remember a dual period in civic circles since the year before the Loyalists landed.

I. C. R. AND C. P. R. A train left Halifax with the fast mail and passengers from the steamer Corsican at 5 o'clock in the afternoon and arrived in Montreal at 6.30 o'clock the next afternoon. A C. P. R. train left Halifax at 9 o'clock the same afternoon and arrived in Montreal at 3.23 o'clock the next afternoon.

There is doubtless some explanation of the failure of the I. C. R. train to make time. Perhaps it is found in the bulletin to the effect that passenger trains on that road must proceed at a higher rate of speed than 35 miles per hour. The C. P. R. limit is 48 miles per hour. Are the I. C. R. roadbed and rolling stock in such condition that only 35 miles per hour is considered the proper limit of speed? If so what has happened in the last year or two? Has the railway department been starving the road in order to be able to retain an army of officials? The matter is perhaps one that could with profit be railroad patrons and the public generally be made the subject of some enquiry. An independent commission would perhaps produce more satisfactory results.

THE JAPANESE QUESTION One fact which stands out very clearly in the report of Hon. Mr. Lemieux on the subject of the treaty with Japan is that the government was unable to see in that document what Canadian corporations and Japanese emigration companies quickly discovered. Parliament was assured that all would be well, but the reverse proved to be the case. It is clear from Mr. Lemieux's report that the Japanese government is disposed to be perfectly fair in the matter, but is nevertheless sensitive and suspicious of its rights. The visit of Mr. Lemieux no doubt had a good effect, but that visit should not have been necessary. The very large number of orientals in British Columbia explains clearly enough the feeling of resentment that has been aroused, and the fear that a continued influx from the east would greatly alter the conditions of life for the white population. The matter is not yet settled, but cool heads on both sides of the Pacific can find a way out of the difficulty. In the meantime offensive demonstrations in British Columbia should be steadily discouraged.

A GREAT SOVEREIGN So admirable is the working of the unwritten British constitution that the personality of the sovereign scarcely appears in the conduct of affairs; and the unthinking observer might be inclined to regard the king as an unimportant personage; more for ornament than use. In reality King Edward is a potent influence in British affairs, and it is due to his great tact not less than to his splendid abilities that his personality is not more largely in evidence. A singularly fine tribute to King Edward was paid in a recent address by Secretary Haldane, at the unveiling of the statue of the king in University College School at Hampstead. His remarks are not less interesting to Canadians than to those to whom they were directly addressed. We quote from the press report: "He (Mr. Haldane) often thought that those who looked at him from across the sea were very apt to misunderstand the position of a Sovereign in this country. Because a monarch was a constitutional monarch, there were some people who assumed that he took no part, took no initiative in the business of government. There never was a more profound mistake. He believed that in all countries, whatever the theory of their constitutions the tendency of the day was that the King should act as the expression, and as no more than the expression in his course of action, of the wishes of the people whom he ruled. That was so even under the most absolute forms of monarchy. A monarch had nowadays to study closely the tendencies and the habits of mind and the resolution of his people. Beyond the wishes of his people he could not go.

even under the least democratic of modern constitutions. With them in this country the machinery worked smoothly, and not the less smoothly because they gave no definition of the relation of the parts to one another. The government of the sovereign and the greater the sovereign, the more initiative did he and could he show, because his greatness consisted in this: that he knew adequately how to interpret the spirit and wishes of his people (cheers). And he thought one characteristic of the King was the gift he had for interpreting the public mind (applause). He was deeply interested in education, the army, the navy, in foreign affairs, and in every department of government. And in all of these his great quality was the capacity of taking the initiative and yet being in complete harmony, not only with his ministers, but with his parliament and with his people. Now, when the constitutional Sovereign had the gift of doing that he was the greatest of all sovereigns (applause). He had the nation behind him, and his action was the action of the nation. He had touched on this delicate topic because he thought that there was a great deal of misunderstanding in the minds of people who did not know the real nature of that delicate organization, their constitution. Its laws were unwritten, but they were none the less real, and they were laws which gave freedom of initiative to the man who knew how to identify himself with the whole and the whole with himself. It was just in so far as a sovereign succeeded in doing that that a sovereign was great, and he thought that they had had no greater sovereign than the one who now occupied the throne (cheers)."

Governor Guild, of Massachusetts, says there is ample provision to house and feed those who are in need in the city of Boston, but the unemployed continue to make demonstrations and demand an opportunity to earn their food and shelter. In all large cities the number of persons out of work is unusually large.

In the resignation of Mrs. Scovil, the N. B. Tourist Association loses an energetic and valued secretary, who has done good service. His conferees on the press extended congratulations to Mr. F. B. Ellis, on his election to the presidency of the association, in whose work he has taken a very active interest.

The members of the bar of Kings and Albert, of both political parties, unite in recommending Hon. A. S. White for appointment to the supreme court bench. They regard him as one of the ablest and best members of the profession. Such an endorsement should have great weight with the government.

THE CHANGE IN MARY (Woman's Home Companion.) Before she went to boarding school she used to wear a simple dress and play. She drove the cows up from the field on her 'beep' like the boys. But she don't do that any more, because she went away as Mary Jane and come back as Miss Marie. She never wear made-over clothes, an' always with a smile. But no dress every one must be the latest style. She don't ride bareback any more, nor climb the apple tree. She went away as Mary Jane, but come back as Miss Marie. Her hair is all in ringles now—she calls 'em 'Marshall waves'. She says it's the latest etiquet, real stylish she believes. Her maid and me are mighty proud o' all she's learned—but gee. We sometimes wish for Mary Jane instid o' Miss Marie!

AWFUL PENALTY. Elderly—"Do you really think it dangerous to dye the hair?" "Kidder—"O! very. I knew a fellow of about your age who did it and the first thing he knew he was married to a widow with six children."

WHY IT WAS IMPOSSIBLE. "It is impossible," cried Mr. Nagget, finally, "for us to live together and not quarrel." "But," snapped Mrs. Nagget, "it is possible not to quarrel if neither of us speak." "Of course, but, as I say, it's impossible for us to live together and not quarrel." Catholic Standard and Times.

THE FLIGHT OF TIME. (Navy League Journal) Two young ladies on the promenade of a seaside resort had been watching the vessel pass through a telescope lens when by an accident a mariner. On handing the glass back one of them remarked that it was a very good one. "Yes, mine," said the old tar; "that 'ere telescope was given me by Lord Nelson."

"Good gracious! Why, Nelson has been dead nearly a hundred years." "Well, I'm blowed," remarked the salty one, "quite abashed; 'low the time do fly!"

A USEFUL ANECDOTE. (Washington Herald.) Once when Richard Kipling was a boy he ran out on the yardarm of a ship. "Mr. Kipling," yelled a scared sailor, "your boy is on 'em yardarm, and if he lets go he'll drown." "Ah," responded Mr. Kipling, with a yawn, "but he won't let go."

This incident also happened to Jim Fiske Horace Walpole, Napoleon Bonaparte, Dick Turpin, Julius Caesar and the poet Byron.

PEOPLE OF NOTE

James F. Smith.

Governor-General James Francis Smith, of the Philippine Islands, is a lawyer whose taste for war has led him to his present lofty position. When the Spanish-American war broke out Governor Smith was practicing law, but he at once headed a regiment of volunteers and did valiant service in the Philippines, winning up the far as brigadier-general of volunteers with a splendid military record. He was born in San Francisco on January 26th, 1859, and studied law at Hastings Law College and was admitted to the bar in 1881. After the war was over General Smith was made an associate-judge of the Philippine supreme court and later Governor-General of the Archipelago.

FAVORS DISPENSARY Rev. Father Minehan in a letter to the Toronto News contends for fair consideration of the rights of persons who now hold liquor licenses, especially hotel keepers, who have gone to considerable expense in fitting up their houses. His letter is drawn out by a proposition to reduce the number of liquor licenses issued in Toronto. He goes further, however, and makes the following interesting remarks on the general question of the sale of liquor: "For my part, I look forward to the time when the principal use of alcohol in its application to humanity will be the preservation for future generations of specimens of the genus 'drunk,' as illustrations of social developments in the past, when our distilleries and breweries, instead of turning out alcoholic beverages will be supplying immense quantities of alcohol for industrial development, and not for industrial paralysis. Alcohol is one of the cheapest sources of motive power, and it is to her intelligent utilization of the same for this purpose that much of Germany's industrial progress is due. Meantime, as a transition to this desirable goal, a government dispensary system seems to be the best solution of the liquor question. If the barroom must go, as it must, I, for my part, want it to go in a way which would not violate fair play and kindly consideration for all."

QUICKLY AS POSSIBLE. The ideal training school is the school in charge of experts, where there are no classes—where the instruction is individual—where the stipulated agreement is to make the pupil expert and competent to take charge of practical affairs—where time is not mentioned in the agreement—where the student is placed in a salary-earning position compatible with his attainments in the shortest time possible—where the student may hold one-half the tuition fee until said agreement is carried out. Such a school is the Currie Business University, Ltd.

RESTRICT EMIGRATION AND PROHIBIT CONTRACT LABOR

Hon. Radolphe Lemieux Says Japan Has Promised to Do This for Canada --- Envoy to Mikado Reports on His Mission.

Ottawa, Jan. 21.—Hon. Radolphe Lemieux, Canada's envoy to Japan, gave the result of his mission to the house today. After referring to the objects thereof, he stated briefly the cause of the anti-Asian agitation existing in British Columbia, and which culminated in riots at Vancouver.

Dealing with Japanese emigration, he pointed out that in 1900 the Japanese authorities gave instructions to prohibit entirely the emigration of Japanese laborers to Canada. This removed all cause of friction and irritation between Canada and Japan. All that was required was some assurance that this action would not be revoked.

Mr. Lemieux next quoted the assurances given by Mr. Nosen, consul general of Japan at Ottawa, before the restriction of emigration would be adhered to. Referring to his visit to Japan Mr. Lemieux stated that he found the Japanese most eager to meet the views of the Canadian government. He submitted the following assurance from the Japanese minister of foreign affairs. The assurance was dated Tokio, Dec. 23.

YESTERDAY IN PARLIAMENT

R. L. Borden Carries His Point in Connection With the Production of Originals of Public Documents—Sir Wilfrid Surrenders.

Ottawa, Jan. 21.—R. L. Borden, upon motion to go into supply, returned to the question of original public documents being presented to parliament. The opposition leader took up the authorities upon the subject and quoted to show that there were only one or two instances in which public documents might be refused to parliament.

In conclusion Mr. Borden moved as follows in amendment: That subject to such considerations of public policy as can be validly urged in any case it is the undoubted right of the people's representatives in parliament to be informed of everything necessary to explain the policy and proceedings of the government, and for that purpose to have an opportunity of seeing and examining all documents connected with the transaction of public business, and the denial of such right by the government justifies the refusal by this house of further supplies to the crown.

FATHER AND SON DROWN TOGETHER

Frank and Blake Titus Drowned Near Westport, N. S., Yesterday Afternoon.

Digby, N. S., Jan. 21.—Another double drowning accident took place off Westport, Brier Island, at 3 o'clock this afternoon, when Frank Titus, aged sixty years, and his son Blake, aged twenty years, of Brier Island, lost their lives.

The men were rowing in their lobster traps, and Mrs. Charles Buckman, wife of a Northern Point lighthouse keeper, saw them pass the point. A big sea was breaking on the shore, caused by the heavy ocean swell coming up the Bay of Fundy.
