ONE CASE ENDED; ANOTHER BEGUN

In the Circuit Court this morning in the case of Manoff vs. Christoff, the jury returned a verdict in favor of the plaintiff for \$530. The plaintiff had originally claimed \$825 under a dissolution of partnership. W. M. Ryan appeared for the plaintiff and D. Mills, Esq., for the defendant.

WITH THE DOG CATCHER.

The city now has as its guests six dogs, the largest number that has been entertained at the pound for any length of time since the dog catcher started operations this spring. There are two black spaniels, two brown alreals, a brown and white bull dog and a brown and white collie, gathered in the city squares. They are cared for by their owners and, unless they are called for soon, will be sold or destroyed. A big hound which was required the combined efforts of two men to get him into the pound, where he was hog-tied, with a lot of harness straps, but he managed to escape during the night. Again yesterday he was on his bad behavior but when the dog catcher attempted to haul him he was called by a whistle and disappeared.

As Hiram Sees It

"Look here!" said Mr. Hiram Hornbeam, "I have a bone to pick with you." "Go to it," said Hiram.

"For several years," said the reporter, "you have been harping on what the Farmers were going to do. You had the millennium just round the corner. You actually persuaded me to believe that a new era had dawned, and the science of government was to be revolutionized. The politicians were to be thrown into the swamp, and a great crop of blessings ripen on the meadows of statesmanship. And now—look at Ontario. How do you account for it?"

"When them farmers up there got into power," said Hiram, "they turned to be politicians. They started in fast to wangle a majority out of the Labor party—an' then they hummed an' hawed 'til they got the sharp commands of officers and instructors and the tramp of men and horses. Clear bugle calls rang across the lines at intervals reminiscent of all within hearing of the never-to-be-forgotten days when thousands of the best blood of Canada swept up and down the same parade grounds imbibing the rudiments of the training that short months later was to enable them to hurl themselves at the throats of the boys."

"A sergeant instructor told his charges 'Put some noise into it. A good bugler never stops blowing his trumpet until he has a hole in it and he doesn't stop unless he is dead.' The boys are taking kindly to life under canvas. Their tents are absolutely waterproof and they were not discommoded by the heavy rain which fell all last night. This morning there was no complaint and the number reporting sick was negligible. For that matter all sick parades to date have been practically nil. The camp shows the effects of the downpour. The grass is bright green and the dust on the roads laid through it has been laid. At parade time today the weather was still threatening but during the evening the clouds began to lift and at noon patches of blue sky were showing. The first parade was for the engineers at 6:30 a.m. and all units were at work at 8:30. The men went to their training with a zest and put a snap and dash into their work that suggests well for the success of the camp."

Mrs. Buzzi Weeps as Trial Nears End for Murder of Schneider

Mrs. Buzzi as she appeared in court. William Turc.

New York, June 27.—Mrs. Anna Buzzi, former circus rider, for whom Frederick Schneider, Bronx contractor, left his wife, wept in court when her brother-in-law, William Turc, swore that she confessed to him that she killed Schneider. "She looked at me and said: 'Well, I've shot Fred. If I couldn't have him, nobody else could,'" he testified. Mrs. Buzzi bent her head and sobbed.

With his testimony and that of James P. Atkinson, for seventeen years chief chemist for the health department, the state rested its case. Atkinson's testimony was to the effect that he had found human blood on Mrs. Buzzi's coat.

Schneider was found dead in his car on a lonely Bronx road, with only two Chow dogs in the back seat to guard the body. Both dogs were vicious, and the defense has sought to have mention of the dogs kept out of the record, since it is thought that if the murder had been committed by someone whom

Mrs. Schneider, facing Mrs. Buzzi in court, testified that she and her husband were on good terms, and that a reconciliation was in prospect. Mrs. Buzzi will accuse Turc of the murder, saying he and Schneider had had a quarrel.

Fit as a Fiddle

AM I fit? I should say so. I eat like a navy and sleep like a top, and the day is not half long enough for all I want to do.

Even the youngsters can't tire me out — and they always expect "Grandpa" to be the leading spirit of the game — whether it's baseball, football, or blind man's buff.

Twenty years ago I didn't feel as fit as I feel now; but at forty they say a man is either a fool or a physician — and I decided to be the latter. Yes — it's twenty years ago since I first started taking Kruschen Salts in my breakfast cup of coffee or tea every morning — just as much as will lie on a 10c piece. Can't taste it, but it makes all the difference. It made a new man of me. Why don't you try it?

You need not hesitate about the price — it only costs half a cent a day — a 7c bottle of Kruschen Salts lasts me three months, so for about 3 cents a week I keep as fit as a fiddle and as happy as a sandboy.

Kruschen Salts

(Pronounced Kroo-shun.) Good health for half a cent a day

The six health-giving salts which make Kruschen Salts necessary for healthy life. Your body must obtain them from somewhere or you could not live. Normally you extract these vital salts from your food, meat, fruit, vegetables, and so on; but when, owing to impaired digestion, errors of diet, worry, and sedentary occupation, your system does not extract from food the correct proportion of these essential salts, then you suffer depression, headaches, and other ills. Kruschen Salts should be your safeguard. Get a 7c bottle today at any drug store, sufficient for three months.

Peddler Is Mobbed As Heat Fells Pony

Owner, Weighing 120, Harassed to Ice Cream Cart and Forced to Pull it a Block—Arrested on Cruelty Charge.

New York, June 27.—Max Lerner's Sledland pony Browne came to grief from the heat at the corner of Myrtle Avenue and Washington Street, Brooklyn, after a hard day's work at the front end of Max's heavy ice-cream-soft drink wagon, and grief came to Max a few minutes later. When Browne dropped limp, the peddler gathered up Lerner and tried to jerk the diminutive pony to its feet. When Browne wouldn't get up Lerner redoubled his efforts.

Some one in the crowd brought a pail of water which was thrown upon the pony. Some one else demanded that Lerner un hitch the animal at once. Apparently he did not respond eagerly enough. Anyway, he heard himself called a "beast" and "cruel," and presently Browne stood up unhitched. It was suggested to Lerner that he take the pony to a livery stable in Washington Street, five blocks or more away, to be bedded down for the night.

"Let's harness the driver and make him drag the wagon while we lead the horse," a youth volunteered. Grown men and youths seized Max and con-

threw the pony's collar over his head. But while Browne, though weighing only about 300 pounds had been able to pull the wagon about the Brooklyn streets all day, Max with his 120 pounds could barely move the load. But the crowd forced him to try the best efforts in that direction, chrousing shouts as the peddler tugged futilely. Lerner hauled the wagon for a block.

The shouts of the crowd, meanwhile had attracted Miss Blanche D. Small of 309 Carlton Avenue, Brooklyn, to the scene. Miss Small is an agent of the Society for the Prevention of Cruelty to Animals. She rushed away for a policeman and soon found Sergeant Walter Joyce and Policeman Caulfield of the Poplar Street Station, riding in a police automobile. Joyce and Caulfield dispersed the crowd to maul Lerner's arrest on the charge of cruelty to an animal.

Joyce towed Lerner's refreshment cart to the Poplar Street station, almost a mile away, while the peddler, on foot and under police escort was forced to carry the pony's harness. A part of the crowd followed and jeered Lerner as he wended his prespiring way.

At the Poplar Street station Lerner burst into tears. He told detectives he had bought Browne on Saturday. Then he changed his story and declared he had hired the pony yesterday morning. He asserted that he was not familiar with American customs, having come here only two years ago from Russia. He said he lived with his wife and four children in a tenement at 751 Fifth Street, Manhattan.

La Malmaison Becomes Popular Retreat for Many of Retired Legislators.

Paris, June 27.—(A.P.)—La Malmaison, on the road from Paris to St. Germain, where the Empress Josephine lived after her divorce from Napoleon, where the emperor stopped for several days after his defeat at Waterloo, and where the French and German forces battled during the winter of 1870, has become a popular retreat for retired statesmen.

Attention was first attracted to its advantages as a cure resort by the late Paul Deschanel, who went there

WORLD'S CHAMPION HUSBAND DWELLS WITH 350 WIVES
London, May 30.—(By Mail)—The world's champion husband has been discovered in the French Cameroons by Mlle. Homburger, one of France's greatest linguists, who speaks a score of native dialects, says the Paris correspondent of "The London Daily Express."
"While she was on a special mission to the interior of Africa to study methods of handling leprosy and to lecture the natives on the evils of cannibalism, she was conceded the rare privilege of visiting Sultan Njora of the kingdom of Bamoun.
She found the Sultan in the midst of his harem of 350 wives, ranging in color from light chocolate to the shiniest ebony.
The pupils of the four lower grades in Winter street school gave a very pleasing performance last night in Knox church school room, about 125 of them taking part. Miss G. Betts and Miss M. How to Make Raspberry or Blackberry Jam

Crush well about 2 quarts ripe berries in separate portions, so that each berry is thoroughly mashed. This allows fruit to quickly absorb sugar during the short boil. Measure 4 level cups (2 lbs.) into large kettle, add 7 level cups (3 lbs.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Boil hard for one full minute,

remove from fire and stir in half bottle (scant 1/2 cup) Certo. From time jam is taken off fire, allow to stand not over 5 minutes, by the clock, before pouring. In the meantime, skim, and stir occasionally to cool slightly. Then pour quickly. If in open glasses, paraffin at once. If in jars, seal at once, and invert for 10 minutes to sterilize the tops.

PLAN FOUR DAYS AND FOUR NIGHTS HIGH IN THE AIR

Tanks of Airplane in Flight Successfully Filled in Preliminary Experiment.

San Diego, June 27—An airplane in flight was refueled for the first time here yesterday.

Rushing through the air at ninety miles an hour, Lieutenants Hines and Seifert guided their craft above that flown by Captain Lowell Smith and Lieut. John P. Richter, ran down a forty foot steel wire encased rubber hose and within two minutes filled the tank of the lower plane.

The tryout was in preparation for the attempt of Captain Smith and Lieut. Richter to attempt to smash all air records for endurance.

Today they plan to go up, and remain aloft four days and nights. Only by refueling in the air could they hope to keep their powerful craft flying for anything like that period.

Quick and plucky action on the part of William Sanbrooks on Monday averted the likelihood of a bad accident. A horse and team belonging to a man named Levine was standing in an alley off Mill street when the horse took fright and bolted. It was just before nine o'clock and the streets were crowded with children on their way to school. Mr. Sanbrooks realized the situation and rushed to the horse, catching it by the bridle and throwing all his weight on its neck, thus bringing it to a stop. This is not the first time Mr. Sanbrooks has been responsible for saving human life as two years ago he rescued a boy from drowning.

Berard, Minister of Public Instruction, and Paul Leon, director of beaux-arts at the institute. Among those on the committee in charge of organization are Count Etienne de Beaumont and Arsene Alexandre, art critic of Le Figaro.

The loss by the stranding of the R. M. E. P. Casquet yesterday on a reef twelve miles north of Bermuda is considered to have occasioned a loss of more than \$1,000,000. Word has been received in the city from Captain Richards, the only St. John passenger on the boat, is safe in Hamilton.

To Rid Ranges of Wild Horses. Victoria, B. C., June 27—A campaign to clear British Columbia stock ranges of wild horses has been initiated by the Provincial Government under Grazing Commissioner T. P. Mackenzie.

Stockmen declare there are thousands of stray horses wandering over the grazing lands and that they are a menace to domesticated horses. Under a clause in the Animals Act, stockmen are given authority to shoot horses straying on their ranges, but owing to the possibility of shooting their neighbor's stock this regulation has been virtually ignored. The present drive against wild horses is being launched under the authority given by the Trespass Act.

BOYS IN RIVER, DEFEY POLICE London, June 27—(By Mail)—Three Carlisle boys who were chased by the police for stoning swans took refuge in the River Eden says "The London Daily News."

Walking up to their necks they defied the police for an hour and a half. One of them then surrendered and was fined. The other two threatened to try to swim to the other bank of the river if the police entered the water, and the police, recognizing that this would end fatally, allowed the two to escape.

Bon Ami Powder Cake or Powder "Hain't Scratched Yet"

Do you know there are two kinds of Bon Ami—cake and powder? Both are made from the same ingredients—both are equally good. It's a matter of taste which you use. Many women prefer the powder in its handy sprinkler-top tin—it's so easy to shake the powder on a damp cloth. Others prefer the solid cake—that's rubbed on the cloth like ordinary soap. Many women keep both kinds on hand—they prefer the cake for some uses, the powder for others. It's a splendid idea to keep both—why not try it? Are you familiar with the principal uses of Bon-Ami—they're listed at the right.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

MONEY AND THE MARKETS

New York Report on Midsummer Business and the Autumn Outlook.

(National Bank of Commerce in New York.)

Business is fundamentally sound, but the psychology of the situation is bad and not being justified by facts, a more hopeful feeling should prevail.

There are not the accumulated stocks of goods today that there were in 1920. Orders generally are small and frequently repeated, indicating a cautious tendency on the part of dealers.

Unfortunate also are the frequent references to a so-called "buyers' strike". The public as a whole is buying carefully.

The prices of many important groups of raw materials have declined, some apparently in response to seasonal influences, others in response to conditions in the international market.

MARGARET ANGLIN IN GREEK DRAMA

California Writer Speaks of "Last Public Appearance" of the Gifted Canadian Actress.

(By MacAonghaigh in The Maple Leaf, Oakland, Cal.)

While visiting Greece last year, Margaret Anglin fell under the spell of the ruins of that ancient civilization. She promised, perchance to the shades of Aeschylus, Sophocles and Euripides that must haunt the Parthenon, that before she left the stage, whercon she had performed her life work, she would present in true Grecian fashion, one of the ancient Greek tragedies.

This was to be the offering of her last public appearance, and the most fitting memorial to the drama would be the presentation of an exemplary tragedy from the land where the theatre was born. No more fitting author could she find than the great Euripides, who lived in the fifth century before Christ. From his few remaining plays she chose "Hippolytus," for it allows the actress a great opportunity for presenting her art.

The sceptics were absolutely sure that the play would be a failure, even though the greatest living actress was taking part. (The great Bernhardt had recently died and there was left no room for dispute.) We moderns do not desire old things. Relics from the tombs of the ancient Egyptians sometimes make us feel that we are really inferior. So it is with plays. The drama had developed from a dance but shortly before the time of Euripides. It was held down with strict rules. But Margaret Anglin lit the candle if receipts would not pay the expenses.

The story of the play deals with the old story of Phaedra, the wife of Theseus, and her stepson Hippolytus. It is one of the myths of ancient Greece. The same story has been treated by the French dramatist Racine in his classical tragedy, "Phaedra."

The presentation of a Grecian drama always presupposes the knowledge of the story in the minds of the audience. The poetry of the author and the acting of the performers bring to the audience that fear and that purging of the emotions that the great Aristotle speaks of in his "Poetics."

The play was presented at the Greek Theatre in Berkeley, California, the ideal stage and the ideal climate for it. But ironically, and as a reminder to us Californians who speak of our state in terms of sunshine and mountains, the sun refused to shine on the night scheduled and the date was postponed. That was May 29, and it was postponed until June 3.

That June night was ideal, the night following one of those rare days in June of which the poet speaks.

On account of the postponement, more tickets were demanded and extra seats had to be erected back of the permanent cement rows. The company of sixty had more than ample time to perfect their play. A sculptor was employed for several weeks constructing the huge statues of the gods. Stage electricians labored for weeks arranging the lighting effects for the marvelous spectacle. The costuming of the characters took time, for the historical accuracy of the costume must be perfect.

The theatre was full on the evening of the performance. People came from great distances. Even Japanese witnessed the Greek play with an American, a Canadian, actress. Margaret Anglin was at the climax and the conclusion of her career. She acted in the manner that made an actress great. The leading man was fairly insignificant, although he was, an excellent actor.

The management of the play reported receipts of \$11,000, a record for the Greek theatre. Of this amount, the Board of Management of the universities receives \$2,500. The amount demonstrated the appreciation of the American public for truly great and higher things. America can appreciate other things than prize fights.

The lighting effects were wonderful, and are hardly describable. The whole performance was the maximum of professional ability.

And when the play was over the audience refused to leave the theatre. They clapped and applauded for many minutes. One by one the minor characters appeared, bowed and stood to the side applauding with the multitude. Margaret Anglin appeared, bowed, and when the applause died down thanked the audience. "Only in California could this have been possible and only too, supported by you Californians people," was her word of thanks.

MARK SLASHES ALIMONY; WOMEN SHUN DIVORCES

Berlin, June 27.—(A. P.)—Alimony is no longer popular in Germany; it shrinks too rapidly.

Divorcees who are trying to live on the incomes paid them by their former husbands are a horrible example to other women who are contemplating separation, and the lawyers, who make

a specialty of divorce actions are in harder straits than those who are expected in other legal lines.

Women who were drawing \$1,000 a month in marks a few years ago are drawing less than one dollar's worth of marks today. The effect of the currency collapse has been to suspend almost completely all litigation among Germans with the resultant hardship upon the legal profession.

SPENCER BREAKS WORLD'S MARK

Lowers Time for Two-thirds of a Mile Bicycle Event to 1.10 1-5 in Newark—Grenda Set Old Record.

Newark, N. J., June 27.—Willie Spencer, bicycle champion of America, broke the world's record for the two-thirds-of-a-mile event at the Velodrome here. He set the new mark in the first heat of the two-thirds-mile handicap race, in which he rode from scratch and beat Cecil Walker and Jack Magin.

Alex McBeath, Australian star, defeated Anthony Beckman of Secaucus, N. J., in an Australian pursuit race. McBeath caught Beckman after going four miles and a half lap. Early this season Beckman defeated McNamara twice, and Alf Grenda, Fred Spencer, Dave Landis and Maurice De Wolfe each once. Beckman said after the race that the heat was too much for him and he intends to quit racing for a few weeks.

Orlando Piani, Italian star, fell a victim to Arthur Spencer, who defeated him in two straight heats of a one-mile match race. Spencer rode from the front each time and Piani did not have the speed to go around him.

Cecil Walker won the ten-mile open, which was raced under a boiling sun. Thirty riders started, but only eleven were left at the finish, as many were forced to quit due to the heat. Walker beat out Wilde, Lorenz, Goulet, McBeath, Van Kempen, Grenda and Ray Eaton.

Alfred Goulet and Reggie McNamara defeated Pete Van Kempen and Gerard Leene in two straight heats of a one-mile team match race. Leene was of little value to Van Kempen, while McNamara more than did his share in helping Goulet win the race.

In each heat Goulet outspurred Van Kempen, winning the first by two feet and the second by inches.

North End Grounds
Thos. A. Armour, Improvement
League Secretary, Makes Call
For Practical Interest by Peo-
ple and Organizations.
To the Editor of The Times:
Sir,—Kindly allow me to publicly ex-
press myself on one matter that should
be of interest to every father, mother
and citizen who is willing to accept the
responsibility as well as the honor of
the status of a citizen.
I refer to the necessity of proper
playgrounds or recreation fields. I pre-
fer the latter name, as it implies more
and is more in keeping with the idea of
the promoters of such grounds for the
young men and women of our com-
munity. We have now in the city four
improvement leagues trying to give
their respective sections such grounds,
but fighting an uphill fight for lack of
financial and physical assistance.
Here we have a ground that, after
the drawing and discouragements, has
been able to finish for the North End
people a baseball diamond on our
field, which compares very favorably
with any in the city.
My object in writing is to place be-
fore the people of the city and the
North End people in particular, the
present opportunity that our present
field presents for development into the
finest recreation field east of Montreal.
Here we have a ground that, after
the drawing we have done, lends itself
to a very easy prospect of development.
This tract of land was purchased by
the city at the name of a large de-
velopment, backed by the North End
people. The city paid for it \$9,000.
This tract is 650 feet by 396 feet and
is within easy reach of all parts of the
city.
Situated as it is at the end of Lan-
sdowne avenue, it has the advantage of
being protected to a large degree by
the drawing we have done, and is
within easy reach of all parts of the
city.

QUINCY SHUTS
OUT ST. PETERS

Pitchers' Duel Between No-
lan and Hansen Ends in
3-0 Victory for Former.

Quincy staged a real comeback last
evening when they shutout St. Peter's
8 to 0 in the Two-I League fixture
played on St. Peter's diamond. The
game was one of the most keenly con-
tested this season and was replete with
exciting plays. In the fourth inning
Quincy got their first run on an error
and from that on until the ninth it
was a case of one trying to increase
their lead and the other vainly en-
deavoring to get back the run and
stave off defeat. In the first of the
ninth darkness started to settle down
and there was a great rush on the part
of St. Peter's team to hurry through
the inning and get their last chance
to win. The hurrying proved disas-
trous, however, and a high fly which
went to center was not seen in time
by the fielders and taking a bounce
struck the clubhouse and caromed off
into the section between it and the left
field bleachers going for a home run.
That ended the scoring as the next
two men were quickly turned back,
but the damage had been done. St.
Peter's vainly tried to stage a rally
but failed. St. Peter's had their chance
to put the game on ice in the eighth
when with two on and none out they
failed to score. Nolan, the new south-
paw for Quincy, pitched a great game
holding the Saints to two hits. The

INJURED EYES
END CAREERS
OF TWO BOKERS

St. Paul, June 27.—(Associated
Press.)—Mike Gibbons, the middle-
weight brother of Tommy Gibbons,
challenger for the heavyweight crown,
known in ring circles around the world
as "The Phantom," and Saph Mc-
Kenna, a bantamweight who was a
pocket edition of the elder Gibbons,
will never box again because of defective
vision.
In his last few starts the Phantom
collided with punches which in other
days would have whizzed harmlessly
by, but were blocked with elbow
or shoulder, or have been picked off with
a glove before well started. It was not
until he visited an eye specialist that
Mike learned that the sight of one eye
was virtually gone, due, it is believed,
to a loose lace of a glove striking it.
McKenna was recently dismissed
from a hospital, where he was taken
following his last bout with Johnny
Ertle, former bantamweight title
claimant, in which Ertle shaded him
and landed a blow which definitely
put out of the ring one of the cleverest
little boxers ever developed in this sec-
tion. Physicians declared McKenna's
eye would never regain its usefulness.
McKenna, who worked with Gib-
bons in training, had Mike's style to
the last detail. He was not so much
inclined as the Phantom to stay in
close, but showed as well in flashy foot-
work and speed.

ST. PETERS AND
VETS TO BATTLE
FOR 2ND PLACE

The fight for second position in the
Two I League will be continued this
evening when St. Peter's and the Vets.
will meet on St. Peter's Park. A win
for St. Peter's will put them back in
second place, while a victory for the
Vets. will place them securely in that
position. King will in all probability
be on the mound for St. Peter's as he
reports his arm in good condition
again, while Parrie or Kirkpatrick will
work for the G. W. V. A. nine. Tip-
pitts was expected to report today and
his reappearance on the line-up should
make a big change in the playing of
the Vets as his presence has a great
tendency to steady them.

date.

MAYOR WRITES ABOUT THE FALLS BRIDGE MATTER

Asks Attorney General if Province Means to Appeal—Affects Grade Crossing Project.

Asked this morning if the decision rendered by Judge Grimmer in the C. P. R. bridge matter would now clear the way for the city to proceed in connection with the elimination of the grade crossing at the end of Douglas avenue, Mayor Fisher said that he had written Hon. J. P. Byrne, Attorney-General of the province, and until a reply was received he thought that it would be unwise to take any further steps. He hoped that Mr. Byrne's answer would remove any doubt as to whether or not the province proposed appealing the case. Should the province decide not to follow the matter any further, the city would be in a position to resume negotiations with the C. P. R. and the Board of Railway Commissioners for Canada in connection with the construction of an overhead crossing.

Commissioner Frink said today that he was looking into the matter to ascertain where it stood when the court case developed and as soon as something definite was decided upon he was ready to go ahead with surveys, etc., for the work. He said that it was practically certain that the grade crossing would have to be removed.

Extension of The Breakwater

It was unofficially reported to the Board of extending the Negro Point breakwater to Partridge Island would be commenced this year, an appropriation of \$100,000 having been included in the federal estimates for that purpose. Plans of the necessary work have been prepared and an early start is hoped for.

blossoms, and she carried a shower bouquet of Ophelia roses. Miss Maude Farish, of Yarmouth, N. S., who acted as bridesmaid, wore a gown of grey crepe, de chine, embroidered in blue, with hat to match, and her bouquet was of Columbia roses. Mrs. Gilliat, mother of the bride, was gowned in electric blue and black figured georgette with black satin and carried a corsage bouquet of tea roses. Miss Dora Wright, cousin of the groom, wore a dainty flower girl dress in white organdie over pink silk. Masters Bobbie and Jamie Duncan, also cousins of the groom, were train-bearers, while Master Donald MacCrack was ring-bearer. Robert H. Bryson, Jr., acted as best man. The ushers were: Dr. R. Percy Wright, Harold Moore and Robert Murray. A reception was held in Stevenson Hall following the ceremony. Later Mr. and Mrs. Murray left on an extended trip, the bride wearing a tailored suit of tawn gabardine with hat to match.

Daley-Monahan.

A wedding of much interest took place in the Cathedral of the Immaculate Conception at nine o'clock this morning when Helen Beatrice Monahan, daughter of Mrs. Annie and the late Dan Monahan of St. Elliott Row was united in marriage to Francis Joseph Daley, son of Mrs. Margaret and the late C. Daley of Boston, Mass. Nuptial mass was celebrated and the ceremony performed by Rev. E. Reynolds. Mrs. Murray Reynolds, sister of the bride, was matron of honor and wore Alice blue satin with grey shoes, hat to match, and carried pink and white carnations. The bride was given in marriage by her brother, Daniel Louis Monahan, and the groom was supported by Gerald Daley, brother of the groom. During the ceremony appropriate music was played by the organist Arthur S. Godsoe, including the wedding march. The bride was a member of the choir for several years. After the ceremony members of both families and relatives returned to St. Elliott row, where a dainty wedding breakfast was served. Many beautiful and costly presents were received including cut glass and silverware. Mr. and Mrs. Daley will leave by train this evening on a three weeks' trip to Buffalo, New York and Niagara. They will then proceed to their home in Cambridge. The gift to the bride was a traveling case with French ivory fittings, to the matron of honor, an amethyst rosary and to the groomsmen a green gold watch chain.

Hooley-Kelcher.
