Language Congress in Quebec Was in Doubt For a Time

Quebec, June 26—There was more than the usual interest attaching to the message sent by the French language congress yesterday to the Academy of France, through the fact that the old country is now an anti-clerical republic. For a time there was considerable doubt whether the Congress in Paris would communicate fraternal greetings to France, or whether France would be recognized as all. There is in the message, however, a deference to the anti-Catholicism of the French republic, though it is sent through the channel of the academy, to them to transmit to the government of the republic. The message is as follows:

INSPECTION OF THE WOOD STAVE PIPE

Commissioners to Look Into Matter of Leaks There

An inspection of wood stave pipe on the Loch Lomond water extension system will be made by the commissioners this afternoon. This section of the line, like some others has been leaking considerably but has not received as much attention as the concrete section owing to the greater urgency in the case of the latter.

The 6700 pitometers which were purchased for testing the pipes for leaks will be used this afternoon on the wood stave section. The first place to be tested will be the section where the pipe runs under Little River. If a leak is found there it will be necessary to divert the river to allow repairs to be made.

MAY SEND UP PRICE OF MEN'S CLOTHING

A Possibility in View of Garment Workers' Strike in Montreal

Montreal, June 26—If the garment workers' strike continues another week or two, fall and winter ready-made clothing for men, may cost from fifteen to forty per cent. more than last season. Factories here were busy on orders for fall and winter trade when the strike began more than two weeks ago, and now that the real, where most of the ready-made attire for Canada is made, retailers say that they will likely be forced to import garments from the United States.

There is a thirty-five per cent. duty on clothes coming into Canada, and the freight on them means a five per cent. outlay, which would result in a forty per cent. increase.

In Toronto, Hamilton and London the large ready-made clothing factories are now working overtime to fill the orders from their books from all parts of Canada which the crippled Montreal factories cannot handle.

AMERICAN FELT TO DEADEN ECHO OF COMMONS SPEECHES

(Special to Times) Ottawa, June 26—When parliament assembles again the commons will sit in a padded room. This has been decided by the government. The commons chamber is now full of workmen and scaffolding and two inches of American felt is being put upon the walls. The object is to kill the echo which has bothered speakers and auditors in the house ever since Confederation. The padding is designed to do this.

It is being obtained from a firm in Newark, N. J. Both parties are trying to kill the echo of the speeches which they make when on the side of the chamber opposite to that which they have occupied since September 21. The work is being done by the department of public works, controlled by Hon. P. Monk, and he is said to be anxious to deaden the echo of speeches he made in the last campaign.

Bryan is not in sympathy with the force, "seemingly in control of the Baltimore convention," Bryan today declined to accept the chairmanship of the resolutions committee. Senator John W. Kern of Indiana was elected.

OUR SPRUCE FORESTS
During the recent election campaign the Times quoted a statement by Dr. B. E. Fernow, dean of the faculty of forestry in the University of Toronto, relative to the length of time it takes to grow a twelve inch spruce, and pointed out how necessary it is to conserve the spruce forests of the country by preventing the destruction of small trees.

On the question of the rate of growth of spruce or any other kind of tree the greatest ignorance prevails, and yet it is a simple matter to settle by counting the annual rings which it has taken to make a given diameter.

The following results will then appear: The average tree in the virgin woods which the lumberman cuts has averaged twelve years to make one inch. The best performance that a single, specially favorably placed tree will make, not in the woods but in open position, may be one inch in three years.

As the Times pointed out in its previous article on this subject, the statement made by Dr. Fernow is of the very great importance to the people of New Brunswick. The crown lands of the province are its spruce asset, and the destruction of its spruce forests would be a calamity.

There are many relations between the leaders of society, male and female, in St. John and the woman who yesterday was thrown into the patrol wagon and taken to the police station? This woman had been released from jail the day before, and has been an apparently hopeless character for many years.

PREMIER BORDEN AND HON. MR. HAZEN are off to London with an imposing retinue to discuss naval affairs with the British government. Last they should be in danger of being carried away by enthusiasm for the Empire they have taken with them the Hon. Mr. Hallett, one of their Nationalist colleagues.

RECENT DEATHS
Sackville, June 25—(Special)—Mrs. Eliza Tower, of Rockport, aged 70 years, was found dead in bed this morning at the home of her daughter, Mrs. Frank Maxwell, Sackville. She had been in failing health for some time but was around as usual yesterday. She leaves one son, Capt. Leonard Tower, and three daughters—Mrs. Mariner Fowler, Westmorland Point; Mrs. Terah Ayer, Frosty Hollow; Mrs. Frank Maxwell, Sackville.

PERSONALITIES
The attention of the Times has been called to the fact that there should be some kind of supervision over motor boats taking passengers up the river. The citizen who broached the subject told of seeing a small motor boat towing another boat off Millidgeville toward the city, both boats being so crowded that very little free-board was visible.

THUNDER STORM COST CHARITY A NICE \$10,000

Came Just at Church Time On London's Hospital Fund Sunday

GREAT SUMS FOR CHARITY

Record Year Was 1903 When Collections on This Day Totaled \$246,000 — How The Money is Apportioned Among The Institutions of London

(Times' Special Correspondence) of London, June 22.—It seems that a lively thunderstorm that broke over London last Sunday morning was probably one of the costliest on record—at least so far as this metropolis is concerned. All because of it, the London hospitals, which are dependent on charity for their support, stand to lose a sum which, at a conservative estimate, may be put at \$10,000, or more, today by the secretary of the Hospital Sunday Fund, who said that exact figures will not be available for a week or two yet.

Last Sunday was Hospital Sunday, on which the collection at practically every place of worship in the metropolis is for the benefit of the London hospitals, and it had been hoped to make it a record, eclipsing the proceeds of Hospital Sunday in 1903, which amounted to \$246,000, the biggest in the history of the fund.

Probably this object would have been achieved, too, had it not been for the thunderstorm, which started just before church-time and lasted for about an hour, thus making the cost of it about \$100,000. It kept at home the bulk of the church-goers—more particularly the extensive class of the aristocracy "West End," who are the most liberal contributors to the Hospital Sunday Fund—and so far the reports received from clerics at the offices of the fund, in Victoria street, and the Hospital Sunday office in the Strand, were that the annual expenditure and the ordinary income of London's hospitals. Last year the former was \$8,462,770 as against an assured income of \$5,396,800, meaning a deficiency of \$3,065,970. Luckily, the legacies received by the hospitals in 1911 were enough to cover the difference and a bit more, but these sums vary widely from year to year, and the Hospital Sunday Fund is the most reliable standby of the medical charities of the metropolis.

The Distribution

The annual proceeds of the fund, which was started in 1871, amount to about 250 hospitals, dispensaries, and nursing homes. These institutions took in 144,387 patients the course of last year, and granted advice and medicine to 6,023,421 out-patients during the same period.

In the distribution of the proceeds from Hospital Sunday among all these charities, there is followed a principle which makes it difficult to state the exact amount of each which these are, the regular income of each institution is taken into account, and the amount of money received in legacies in each particular year. This amount is compared with the ordinary expenditure, and careful consideration is given to the outlay on expenses of management, and the less on management the more favorable is the claim of an institution considered by the distribution committee.

Resides helping the regular medical charities of London, the fund is also to fund the surgical appliances of different kinds for the needy victims of accidents of life-long afflictions. Purchases of this kind total some \$500 every year, and vary from wigs and false teeth and eye to surgical boots and steel jackets. In 1911, the amount apportioned to this branch of the work done was about \$20,000.

Some of the Contributions

Churches to the number of more than 2,000 join in swelling the fund, and as might be expected, St. Paul's Cathedral each year furnishes the biggest collection. Last year, \$21,015 came from the cathedral, the nearest rival being Christ Church, in the fashionable Lancaster Gate neighborhood, which raised \$8,993. From the church in London came \$10,000, from the London Synagogue, \$17,000, from the Greek church \$75, and the Dutch Reformed church \$50,000.

The figures published by the fund show, however, on what a shaky footing the finances of all the big London hospitals stand and how dependent they are on the good-will of the charitable. They have to be the most persistent of beggars, and resort to all sorts of devices for raising money. All over London for example, are penny-in-the-slot arrangements with clock faces showing that the expenses of running the London hospital is one penny, or two cents, a second, and pavers by are entreated to "Please Support the London Hospital for One Second."

Sick to Pastor

Boston, June 25.—Rev. William B. Ayers pastor of the Norfolk Down Congregational church, who is being sued by Chester A. Boynton, a Boston lawyer, for \$25,000 for the alleged alienation of the affections of his wife, Mrs. Helen W. Boynton, will not be asked to resign his pastorate, it is declared by leaders in the congregation.

NECK WAS BROKEN

NOW ABLE TO STAND

Waldorf Miller, injured by Dive into Shallow Water a Year Ago. Rises From His Chair—Mother Frantic With Joy

(New York American)

Waldorf Miller stood up yesterday and every surgeon in an available hospital in St. John thought he would be interested when he learns it.

For Waldorf Miller, who is twenty-one years old, broke his neck—fractured his sixth cervical vertebra—when he dove into shallow water at New Rochelle on July 3, 1911. The presence of the broken bone in his spinal cord paralyzed him completely below the point of injury.

Any surgeon who admitted that the chances were about 1,000 to 1 that he would be paralyzed all his life and that his life would be cut mightly short. But Miller disagreed with the learned surgeons. When he was taken to the hospital he remarked: "I think I'm going to die, but I'll fool them."

His grit and cheerful determination have done much to help him toward recovery, the surgeons say, but the rigid plaster cast with which they encircled his neck has helped, too. Miller was sitting in an invalid's chair at a table at his home No. 131 Clinton avenue, New Rochelle, yesterday. He was proudly showing his friends that he could raise his legs from the chair and sit up.

"Can you stand, Waldy?" asked one of the young fellows on duty. "Sure I can," said Miller, although he had not ventured to try. "Just watch me."

Raising himself, he stood for about five seconds, then fell back in his chair. He was as surprised as his friends were.

"Mother, mother," he cried "come and see me stand!"

Supported by his mother and Edward J. Corraldi, his uncle, Miller stood for half a minute. His mother threw her arms around him and kissed him. In that brief half-minute she had her reward for months of devoted nursing as any loving mother would.

"I'll be out on crutches in a couple of months," Miller prophesied confidently.

Of course, Miller's improvement has been very gradual. Several months after he broke his neck he gave the first sign that the paralysis was decreasing, that his nerves could carry a message from his brain to his muscles—he moved his hand a little. Slowly, very slowly, he regained the use of his fingers and arms. Then he found he could wiggle his toes. No baby on first discovering it could wiggle his toes was ever half so pleased as Miller was when he found he could wiggle his. Now he can write and scribble a pencil and stand for half a minute.

MR. GOODSPEED IN CHARGE

F. G. Goodspeed arrived in the city yesterday at noon from Alberta and at once assumed the duties of resident engineer of the public works department here, succeeding E. J. P. Shewen, who has voluntarily resigned. Mr. Shewen will continue to reside in St. John, however, and the department will retain his services as consulting engineer. Mr. Goodspeed was formerly an assistant to Mr. Shewen and his many friends here will welcome his return to the city. He was accompanied from the west by his wife.

PREMIER AND THE MINISTERS AWAY

Mr. and Mrs. Hazen Among Guests of Duke of Connaught at Dinner Last Night

Premier Borden, Hon. L. P. Pelletier, postmaster general; Hon. J. D. Hazen, minister of marine and fisheries; Hon. C. J. Doherty, minister of justice; Admiral Kingsmill, Sir Joseph Pope, deputy secretary of state for foreign affairs, and Privy Council Secretary Hyndmans and Hackett sailed from Montreal today for Great Britain. The members of the government will discuss naval questions, naturalization, cable rates, copyright and other matters of imperial interest. The ministers' wives accompany them.

Before leaving for England Mr. Hazen consulted with the officers of his department regarding the creation of an advisory board of fisheries and the matter is now under consideration. The board would consist of thirteen members, three from Nova Scotia, two from New Brunswick, one each from P. E. Island, Quebec (gulf portion, Alberta, and Saskatchewan, and three from British Columbia. The members would represent the fishermen, fish merchants, canneries and other interests and would meet semi-annually in Ottawa.

Premier Borden has accepted an invitation from the Ottawa Conservative Association to be the guest of honor at a banquet on his return from England.

Mr. Borden last evening dined with His Royal Highness the Duke of Connaught at Strathcona House. Mrs. Borden, Mr. and Mrs. Hazen, and Sir Donald Mann, who is in Montreal in connection with the work on the C. N. R. tunnel under Mount Royal were also present.

FEARS FINANCIAL CRISIS

French Official Says it is Coming In 1914 or 1917

Paris, June 26.—Pierre Baudin, who has held several important public offices, after quoting Herr von Gwinner's warning of last month that a financial crisis is coming and laying stress on the importance of such a warning coming from the director of the Deutsche Bank, who was the first to announce the industrial crisis of 1907, says the permanent committee against employment, of which he is a member, has concluded that an economic crisis is coming about 1914 to 1917. M. Baudin says these economic crises seem to have chosen two countries as the places of their origin, the United States and Germany, such disturbances arising from excessive production and the over-abuse of credit.

He believes that by the collection of proper statistics such crises might be prevented to a certain degree. It has been proposed to create an office in France for observation of the world's prices. Meanwhile the committee of which M. Baudin is a member, although lacking full equipment, has collected data leading it to expect financial outbreaks in two to five years, and recommends that the government make such an eventuality into account in arranging its programme.

MORNING NEWS OVER THE WIRES

The body of Peter Arsenault postmaster of Howland, Prince county, was found yesterday in a brook into which, it is thought, he slipped. He was missed on Monday morning. He leaves a wife and one child.

The Bench Manager. Fred Clark, manager of the Pirates, I have been requested to state why I believe a baseball club can be managed more advantageously from the bench than from the field.

It is necessary for him to be prepared to do his particular part from the instant the ball leaves the hand of the pitcher.

NICKNAMES OF NOTED MEN IN BASEBALL

As a rule the name by which a baseball player is known to the box scores has belonged to him from the day of his birth, but the handles prefixed to the surnames of diamonds often bear not the slightest relationship to the ones by which they were christened.

Nearly everybody knows that the famed manager of the present world's champions was labelled Cornelius McGillicuddy until he broke into baseball, and that his tag was shortened to Connie Mack by players and writers in sheer desperation at the thought of using so much breath and space every time he was spoken or written of.

In such cases the desire for brevity was the sole cause for the changed nomenclature. The Cubs have a catcher in Dick Coker who started his professional career as "Carter," because he was desirous of retaining his amateur status in Manhattan college while playing summer baseball.

A more unusual case is that of Warhop, a Yankee pitcher. He is a genuine Celt by the name of Fleming, but he posed as an Indian while pitching for the Nebraska Indians some years ago and took the name under which he gained his reputation to help sustain the illusion.

Sam Strang's right name was Nickles, but on account of parental objections to professional baseball he used his middle name for identification purposes on the diamond.

When it comes to nicknames, however, there are scores of men in the game today who have come to be known by their router by the name of something which is nowhere near their real names.

Further Evidence of Oak Hall's Commanding Position as the Premier Haberdashery Shop for Men in Saint John

Earl & Wilson, makers of the highest grade shirts and collars in America, have given us the exclusive selling right of their product in Saint John. In placing their agencies in New York and other large American cities they only give them to the swiftest and most exclusive Haberdashers, and we feel fortunate indeed to be able to offer their product to our trade.

Here is what they say in a recent "ad" about shirt construction:

E. & W. Constructive Standardization in shirt making, means cutting various textile fabrics in accordance with shrinkages varying from one-half to four inches in length and width, and standardizing not only neck measures, as in the usual run of Ready-to-Wear Shirts, but standardizing bust, yoke, belt, arm holes and sleeve lengths as well. Few manufacturers pay any attention to constructive standardization.

E. & W. Shirts are standardized by the E. & W. method of shirt building which eliminates uncertainty of fit whether made from percale, madras, soft mercerized cloth, flannel or silk.

We have just received and are now making a fine showing of these superior shirts and collars, and we would particularly invite the man who is looking for shirt comfort to come and examine these goods.

GREATER OAK HALL
SCOVIL BROS. LIMITED, St. John, N. B.

St. John, N. B., June 26th, 1912.

DEAR SIR:
It takes an alarm clock to get the attention of some people. There are others who can "hear a dollar bill drop."

If a dollar bill should drop at your feet, it would be less important to you than the reading of this letter.

Just imagine I am looking you square in the eye. Lend me your ear. I want to say a few words to you straight from the heart.

You are anxious to get the most actual value possible to secure for every dollar you spend for clothes. That's why you should investigate the extraordinary values we are now offering.

You like to buy goods you can depend upon—the kind you know are right in style, right in quality and right in price.

You will find only that sort of clothes here.

I am determined that I will gain for this store a host of new customers this season by the giving of exceptional values. I am succeeding. We are doing the largest business in the history of this store.

An investigation will prove to YOU that this store is giving better values for the same money or the same values for less money than any other store.

I know beyond the shadow of a doubt, that if you investigate the unusual values we now present in stylish, serviceable clothing and compare them with what you can get elsewhere, you are sure to buy here.

You certainly cannot afford to buy a dollar's worth of clothes before you see what we offer.

It is better to find out about these values before you buy, than later to wish you had.

We'll be just as glad to see you if you come simply to look as though you come to buy.

Yours for economy,
C. B. PIDGEON.

P. S. Shoes too for all the family at a saving.
