ELOPERS ARE COMING TO N. S. Chauffeur and Bride Who Was Member of Newport's 400 Have Plenty of Funds Mrs. Geraghty is of Age and Parents Will Take no Action—Staying With Groom's Cousin at Springfield, Mass., and Enjoying Life

Newport, R. I., Aug. 12.—"We have plenty of funds, and soon we are going to take a trip to Nova Scotia," said John Edward Paul Geraghty, in a long letter to his father, John Geraghty, received yesterday from his son, who eloped on Wednesday with Miss Julia French, the young daughter of Mr. and Mrs. Amos Tucke French, of Tuxedo, Newport, and New York.

The girl's parents have decided to make no attempt at interfering with the bride and groom. The young Mrs. Geraghty was 18 years old last spring, and therefore of legal age to marry, without her parents' consent.

The young couple have been staying at the home of Mr. Geraghty's cousin, Mrs. Harris, at Springfield, Mass. When a reporter went there last night Mrs. Harris answered the door bell and at first denied that she knew anything about the couple. Then she remarked that she had nothing to say about their whereabouts and refused to answer questions. Finally it was learned that they had gone to Pol's Theatre in Springfield.

To this came the quick response: "Are you John E. Geraghty?" "Yes, my name is John E. Geraghty, and I am not ashamed of it." The young woman by his side appeared slightly nervous, but said nothing.

A BISHOP'S WORDS ON RECIPROCITY Speaking of the reciprocity agreement in his charge to the Anglican Synod of Kingston, Bishop Mills said: "Whether it would be in general the interests of the country is a question for debate, and about which different opinions may be held. But politicians have not devoted their attention so much to the discussion of this question as in ringing charges on the cry that if reciprocity were adopted it would be the first step towards annexation; that the United States would be buying us, and we would be selling ourselves. I THINK THAT IS THE GREATEST NONSENSE THAT EVER CAME FROM THE MOUTHS OF SUPPOSEDLY SANE MEN."

MONTREAL DIAMOND BROKER DISAPPEARS AT BROOKLYN BRIDGE Left Aged Mother to Get a Drink and Did Not Return—Was Plentifully Supplied With Money

New York, Aug. 12.—Mrs. Maria A. De Santis, a woman probably 65 years of age, who lives at No. 277 Ontario street, Montreal, reported to the police last night that her son Jean, 28 years old, a diamond broker, had disappeared while she was standing at the Manhattan end of the Brooklyn bridge.

CRIPPLES CLAIMED FREAK GAME FROM SPOKANE FAT MEN Spokane, Wash., Aug. 11.—Walter Shover's Wonders' team of local men wearing artificial limbs and Joseph Adams' Mastadons, composed of nine men weighing 325 pounds, played a match game of baseball at Recreation park, Spokane, on August 5, for the benefit of Viola M. Schumacher, 16 years of age, who was crippled by a railway accident.

HEAVY RAINFALL The rainfall yesterday amounted to half an inch, the first rain this month and the heaviest fall since July 24 when it fell. The highest temperature yesterday was 62 and the lowest 54. The rain will have done much good in the parts of the country worsted by forest fires and the lumbermen will welcome it also as helping in a small way in getting logs moved in the river.

THE TIMES' NEW REPORTER dictated to long periods of melancholy, with frequent bursts of tears. At \$200,000,000 he threw fits. At \$300,000,000 it took several persons to keep him on his side of the border. Now it is over \$400,000,000, and more keepers are required at once. Jameson now says that when the trade of Canada with the United States has risen to \$834,263,721.23 the Stars and Stripes will be flying from the St. John station towers in just office. If we adopt reciprocity that figure will soon be reached. Jameson is a fervent patriot. He is extremely loyal. He has died for his country.

THE TIMES' NEW REPORTER every time he has had the chance for more than forty years. And yet he says he never realized until the last few weeks how deep his devotion to the old flag had struck its roots down into his vitals. Whenever he reads a Liberal the blood of a thousand patriots surges up, and he can hardly refrain from blessing the street with traitors' bones.

The Evening Chit-Chat

By RUTH CAMERON. In a little comic opera, which I saw the other night, was a very amusing scene in which half a dozen chorus girls and the leading man suddenly break loose, return to their childhood and indulge in an uproarious game of "Follow the Leader."

La MARQUISE de FONTENAY. Spanish-Italian Prince Who Broke Engagement With New York Girl Over Religious Differences.

Copyright, 1911, by the Brentwood Company. Prince Ludovico Pignatelli d'Aragon, who arrived in this country by the French steamer the other day, to stay with the Robert Godelet at Newport, before undertaking a prolonged shooting trip in the west and in Canada, and who himself in the newspaper interview given at the French pier, described how his engagement with Miss Helen Hilton, of New York, had recently been broken off, on account of religious differences.

Another member of the Pignatelli family, was that Prince Francis, who was in charge of Naples, when King Ferdinand and Queen Caroline retired to Sicily, owing to the advance of the French Prince Pignatelli hastened to negotiate a capitulation with the French General Championnet, at a moment when the latter was in a most precarious position, and could only have been rescued by the capture, in defiance of the terms of the capitulation, burning the entire Neapolitan fleet assembled at Naples, and fled to Sicily, leaving the city of Naples at the mercy of the populace, who wrought far more havoc among the palaces and public institutions than did the enemy.

The Prince Ludovico Pignatelli now in this country, has an English mother and grandmother. For his mother was Miss Emily Frances Cavendish, who married Prince Louis Pignatelli in 1877, she being a daughter of Captain George Henry Cavendish of the First Life Guards, and of Duke of Devonshire. Mrs. George Cavendish divorced her first husband, and then married Prince Louis Pignatelli.

LIBERAL LEADERS SATISFIED WITH CAMPAIGN PROSPECTS

Indications in Each Province are Recognized as Optimistic—"Clean Sweep" Prediction for British Columbia Likely to be Upset—Counting on Maritime Provinces for Large Majority

(Ottawa Correspondence of the Montreal Witness). Sir Wilfrid Laurier and his lieutenants have practically completed all arrangements for the Liberal campaign in favor of reciprocity which, when commenced on Tuesday next, will be continued unceasingly until election day. From all over the country satisfactory reports have been received, apart from local friction in a few constituencies over nominations, which will be straightened out in due course, the party leaders have but little to worry about. Because of the fact that Premier McBride, of British Columbia, has a firm grip on the provincial political situation, it has been assumed in many quarters that the Liberals will have little show in that province. Premier McBride has coupled with the discreet announcement that he will not be a candidate, the assertion that the Conservatives will make a clean sweep in British Columbia. A Conservative newspaper, who has just arrived in Ottawa from the coast, says that the Liberals have an excellent chance of taking four out of the seven British Columbia seats. He says that reciprocity has many advocates on the coast, where the Liberals will have little show. He is not opposed to it. Then the Ontario question, which came so near to wiping the Liberals off the map at the last election, has lost its force. At the Liberal headquarters here it is averred that the Liberals will have little show in six out of the seven British Columbia constituencies.

LAST MINUTE WORDS FROM MANY PLACES

Detroit, Mich., Aug. 12.—According to the official forecasts of the International Apple Shippers Association, which closed its annual convention here yesterday, Canada and the United States will have a bumper apple crop this year, exceeding last year's crop by at least 35 per cent, or \$200,000,000 worth. Charlottetown, P. E. I., Aug. 12.—A condensed milk factory was burned this morning with almost all the contents. The loss of \$300,000 is covered by insurance. The fire started at 4:30, apparently from the engine room. The factory was established in 1886. The Eastern section of Canada shows an increase of at least 100 per cent. The crop is reported to be generally good everywhere. The 1912 convention will be held in Chicago. Farmersville, Texas, Aug. 12.—Commander Jones, a negro, who is alleged using insulting language in addressing a young white woman, over the telephone, was hanged by a mob early today. A crowd of about 75 men and boys gained access to his cell, during the night and marched to the outside of the town and compelled him to climb a telephone pole. At the top one of the mob was waiting, a rope was thrown about the negro's neck and he was forced to jump. Montpelier, France, Aug. 12.—Two Italian cases of cholera were discovered one each in the villages of Lanel, and Saint Brea, in the department of Herault.

A cauldron of burning tar created a lot of excitement in British street last night and did a lot of damage to the house in which Charles J. Shampier resides. When the tar caught fire some person directed a force of water on the tar which resulted in the hot tar flying in all directions and coating the front of the house setting it on fire. Windows were broken and other damage done inside. Nothing short of a scraping and new chip boards will restore the house to its original condition.

TIMID DETECTIVE SHOT TWO FRIENDS

Detroit, Mich., Aug. 12.—Frank J. Cook, aged 35, and Daniel Vreeland, aged 30, special detectives for the Lake Shore rail road, were shot and killed last night by special officer Wm. Burnett, aged 38, of the Michigan Central tracks, near Junction Avenue. The men met death as the result of a joke that they attempted to play on Burnett. They were all on the best of terms and were together on the 11th of August last night. Last night Cook and Vreeland, knowing that Burnett had had trouble with two car inspectors, decided to play a joke on him as he passed. Burnett was in the darkness, drew his gun and shot four times at them, three of the bullets taking effect. One went through Cook's head and chest, two striking Vreeland in the head and chest. Burnett then ran down the tracks to Junction Avenue, where he met a patrolman, Dan O'Connor, who was hastening towards the scene of the shooting. The latter shot a couple of "tar thieves," he said. The two men then went back and looked at the bodies. When Burnett saw who the men were that he had shot, he broke down. O'Connor took him to the fourth precinct station, where he was locked up.

ST. JOHN'S INTERESTS

Aside from the larger considerations which prompt the electors to vote for candidates who are in favor of larger free markets for Canadian products, there are very strong local reasons for electing Hon. Dr. Pugsley and Mr. James Lowell.

The citizens of St. John during the last three years have been reaping the benefit of having as their representative an able man who is in control of the great department of public works. Dr. Pugsley has never sought to press the claims of St. John to the injury of any other portion of the Dominion, but he has taken care to have his just claims of this national port recognized.

The hands of the minister will be greatly strengthened by the election of Mr. James Lowell, who has so ably represented St. John county in the legislature since 1904.

HAZEN AND HAZEN

At the banquet Thursday Premier Hazen said that the federal election of 1891 was referred to as "the flag election," and he believed "the people of the country were entering upon another flag election when the issue really would be not alone a simple trade pact but the question of under which flag."

By this Mr. Hazen is understood to mean that reciprocity would tend toward annexation. But what did Mr. Hazen say on this point in 1891, when the Conservatives were sending representatives to Washington eagerly asking for reciprocity? That was only twenty years ago; and, as Dr. Pugsley observed last evening, twenty years is a very short time in the life of a nation.

Mr. Hazen cannot take back that speech it is there, in the pages of HAZEN. Nothing has transpired since 1891 to make it less desirable than then to get closer trade relations between the two countries whose interests are "in a commercial way, in a social way, and in a friendly way, closely interwoven in many respects."

Mr. Hazen knows all this. He knows

HOW RECIPROCIITY WILL AFFECT THE PRICES

Good for Consumer and Buyer According to Report of Department of Labor Just Issued

Ottawa, Aug. 11.—One of the most illuminating contributions to the literature dealing with the economic aspect of the reciprocity agreement has just been issued by the labor department and has been mailed today to every newspaper office in Canada.

It is the compendium of comparative prices in Canada and the United States for agricultural, fisheries, lumber and mines products covered by the schedules of the agreement, and to which reference was made some days ago by Hon. Mackenzie King.

It covers 216 pages and is a veritable mine of wealth for political candidates, campaign speakers, editorial writers and all students of the vital point at issue in the discussion of the agreement, namely, as the economic effect of reciprocity on natural products will have on both producers and consumers in Canada.

The comparative statistics of market prices at representative points on each side of the border, gathered from reliable daily market reports cover the past five and a half years, thus giving a true index as to the average prices.

Halifax, St. John and Montreal prices are compared with those of Boston and New York, Toronto with Buffalo and Detroit, and Winnipeg with Chicago, Minneapolis and Duluth.

In general, it may be stated that the most significant conclusions to be drawn from the voluminous and comprehensive statistics of the report are that prices received by the producers in Canada, affected by the agreement, are on the whole considerably below the prices received by producers in the United States, while in many instances the prices paid by the consumer in Canada are above those paid in the States.

The first conclusion bears out the argument that the farmer, the fisherman and the Canadian consumer in many cases suffering from undue enhancement of prices by the middleman, a condition of affairs which reciprocity would tend to obviate and which explains the opposition of certain interests to the pact.

Comparative prices for fish indicate the immense benefit which free entry for fish into the American market will confer on the Maritime Provinces.

Halibut at Halifax averaged during the five and a half years 9.12 cents per lb., as compared with 14.75 cents per lb. at Boston; cod at Halifax averaged 3.62 cents per lb., as compared with 7 cents at Boston; mackerel at Halifax averaged 14.8 cents per lb., as compared with 23 cents at Boston.

CAPTURE CONVICT WHO TERRORIZED WESTMORLAND

Moncton, Aug. 11.—Olaf Larsen, the Norwegian ex-convict, who has been terrorizing the countryside for the past few weeks, has at last been captured. Chief Rideout took Larsen into custody near Petticoat on Monday night, and placed him in a cage at the police station.

When first seen Larsen was on the road but took to the woods. The chief made a search and found him hiding in the underbrush. He surrendered without a struggle, stating he was tired and hungry. Chief Rideout arrived back in Moncton at 10:30.

Larsen will be arraigned tomorrow morning before Magistrate Kay. Since starting on his cruise Larsen is alleged to have stolen or burned property to the extent of \$1,075. It is also said he stole four horses, two sets of harness, two wagons, burned a barn containing a horse, farm machinery to a loss of \$1,000. The last horse and rig was stolen from Harry Douglas in the vicinity of Killam's Mills and also two bags of feed from I. N. Killam's mill. This rig was recovered, as well as the others.

Besides this it is alleged he visited Moncton and burglarized a house, stealing a gold watch and other things. He hid around Moncton for two days, he states, trying to catch the man who gave him notice against him at the time he was last sent to the penitentiary for stealing.

Larsen told the chief he made up his mind when he got out of jail this time he would steal something worth while. The capture of so desperate a character is one of the most important in years and the people in the country districts will feel great relief.

MINISTER OF MARINE TO PROVE HIS METTLE

Ottawa, Aug. 11.—Hon. Rodolphe Lemieux took the oath of office this afternoon, on assuming his new portfolio of marine and fisheries and of naval affairs.

NOBIE OFFICER NOT TO BLAME

Ottawa, Aug. 11.—Deputy Minister Desbarats issued a further statement this afternoon in which he characterized as false stories said to have emanated from Halifax to the effect that Commander Macdonald, of the Niobe, had surrendered his sword to Admiral Kingsmill and that other officers of the Niobe had been to a ball in Yarmouth the night of the accident. He said if Commander Macdonald let his sword behind it was because he found it inconvenient to carry it.

An inquiry into the accident is being conducted, but pending its outcome there will be no action against anyone, he has yet to receive evidence that officers of the Niobe were to blame.

LONDON STRIKE SETTLED; WORK BEGINS ON MONDAY

London, Aug. 11.—The strike of dockmen, lightermen, coal porters and carmen, which for several days has seriously disturbed all business in London and resulted in a shortage of food stuffs, coal, petrol and other necessities, was ended tonight with the settlement of the lightermen's dispute. The men are conceded a ten-hour day and an increase of about twenty-five per cent in wages. The situation had become so critical that troops were held in readiness at Aldershot and other places to proceed to the capital and intervene.

Tonight the strike committee issued a manifesto congratulating the men on the signal victory obtained and declaring the strike ended.

The dispute of the carters and dockers already had been settled and today they only remained to compromise with a return to normal. Until a late hour tonight it was doubtful whether an agreement would be reached, and both Home Secretary Churchill and Sydney Buxton, president of the board of trade, cancelled their week-end engagements in order to remain at the board of trade where conferences looking to the ending of the strike had been in progress. It is now expected that all will resume work on Monday.

The evening in London passed quietly. There were no street disturbances, and owing to police protection the transfer of meat and other food stuffs by the circuitous underground railway connections from the depots to the markets had been effected. With the supplies thus secured today it is expected that the people will feel less inconvenienced tomorrow.

Cured Eczema and Dandruff

"I am pleased to inform you that I have been cured by Cuticura Soap and Cuticura Ointment. Since I was a boy I have suffered with dandruff, not only from my clothes all day long, I used every kind of preparation supposed to cure dandruff, also soaps and shampoos, but it seemed to me that I never got any relief. I was a true testimonial which comes from a man of thirty years' standing. I will be happy to tell anyone of my experience in order to assist those who may be suffering from the same disease." (Signed) A. Aceryano, 100 Pearl St., New York.

Cuticura Soap and Ointment affect the epidermal and most economical treatment for itching, burning, sore throats of infants, children and adults. As to the case, a single set is often sufficient, but throughout the world, send to Potter Drug & Chem. Corp., Boston, U.S.A., for 25-cent Cuticura Soap and Ointment of skin and scalp ailments.

CANADA CROP REPORT

Ottawa, Aug. 11.—The condition of field crops in Canada is presented in a bulletin of the census and statistics office issued today for July 31, and shows good averages for all provinces as well as for all crops.

Fall wheat was hurt by the hard winter in Ontario, but fared better in Alberta.

The condition of spring wheat at the end of July was 90 for the whole, being 85 to 95 in the maritime provinces; 80 to 89 in Ontario and Quebec; 80 to 96 in the northwest provinces, and 85 to 96 in British Columbia.

Oats and barley have an average condition of 88 for Canada; 85 to 96 in the maritime provinces; 80 to 90 in Ontario and Quebec; 88 to 100 in the northwest provinces, and 87 to 89 in British Columbia.

The average of corn for huckling is 86, and of potatoes 83.04, being in each case a little higher than last year.

Potatoes, turnips and mangolds range from 81 to 85, or about the same as a year ago.

Hay and clover and alfalfa are 80 to 83, which is a little lower in each case than last year.

Corn for fodder has an average condition of 87; sugar beets, of 79, and pasture of 79.

The eastern provinces are lower than the figures quoted for the whole of Canada, and the western provinces are higher.

The yield of hay and clover is estimated at 12,189,000 tons for Canada, being 1.43 tons per acre, and the largest yields for the provinces are: Ontario, 4,736,000 tons; Quebec, 862,000 tons; Prince Edward Island, 254,000 tons; Nova Scotia, 841,000, and New Brunswick, 883,000 tons.

FREE RADIZENE COUPON

Good tomorrow to all St. John Times readers.

PAY OF FRENCH MINISTERS

(London Chronicle)

Ministers in France are not so well paid as in this country. All members of the French Cabinet receive the same salary, 42,400 a year; and as they have to forfeit the allowance of 4,000 which they receive as senators or deputies their net annual gain through taking office is only 21,800. It is true they are provided with official residences, furnished, heated and lighted at the public expense. Their tenure of office is, however, so precarious that they can never venture to let their private residence, so they save nothing under the head of rent.

She—I consider, John, that sheep are the stupidest creatures living. He (absent-mindedly)—Yes my lamb.

Why Not Get Rid of That Catarrh?

There are few people in this extreme and changeable climate who have not at least a touch of nasal catarrh. Yet because in itself it is not very dangerous most people put up with it, in its first stages, as a matter of course, till some day they wake up to the fact that the trouble has crept down to the lungs, or perhaps, through swallowing the phlegm, to the stomach. Besides being dangerous in this way, a catarrh is most disagreeable to oneself and others.

Father Morriscy's Tablets is a combined internal and external treatment that has cured, and will cure, the most stubborn case. The tablets, taken three or four times a day, purify the blood and help to throw off the diseased, healing saline, applied up the nostrils, cleanses the diseased parts, heals, and completes the cure. Now is the very best time to get No. 2 and start to get rid of that catarrh. Combined treatment, see at your dealer's. Father Morriscy Medicine Co., Ltd., MONTREAL, QUE.

List of Marksmen for Sussex.

The annual prize meet of the Provincial Rifle Association, starting on Tuesday next at Sussex, promises to be the largest ever held on the range.

The regular entries closed yesterday morning with more than eight hundred names listed.

Although the time for entry has formally closed a large number are still expected to forward their names, bringing the list up to above 100.

The weather will be a decided factor in determining whether or not the county marksmen will be able to have the hay harvest to try their skill on the range.

Members intending to shoot at the Dominion matches will proceed directly from the new law New York affords a profit-

Sussex to Ottawa to participate in the opening.

The shooting at Sussex may cause a larger number of the participants to enter for the Ottawa meet, but it is already thought that there will be twelve or fifteen members going from this province.

The number last year was nine and the year before only eight participated.

Instead of the regular money payments of \$20 and \$25 in connection with the Robertson prize a gold and a silver medal will be up for competition.

In addition to the medals the smaller amount of \$40 and \$20 are available. Following is the list of entries received to date:

Hagarty, Lt. D. R. Chandler, H. I. Lewis, W. R. Campbell, W. A. Metcalf, H. C. Studd, A. Nestorout and H. G. Rolfe, all of Moncton.

The following cadet entries: Cadet Capt. C. P. Inches, Cadet Sgt. A. E. Stephenson, Cadet Sgt. J. W. Gibson, Corp. T. H. Dobson and Pte. G. F. Ellis.

The meeting will continue until the 18th. The men will enter almost entirely used and it is a matter of conjecture as to how some of the old time money winners will secure under the existing regulations. The men will go into camp on the range.

The Ring

William Papke, who claims the middleweight championship of the world, has a novel scheme to begin training for a series of bouts, the first with Salice Burke on August 22. Papke declared the statement of Cyclone Thompson and others to the effect that he could not make 128 rounds the American middleweight limit, was without foundation.

"I took on weight while touring around the world," said Papke, "but since my arrival in my own country I've lost superfluous flesh, and in two weeks time with vigorous training I'll show people that I can make the limit."

The use of brick can be traced back hundreds of years before the time of Christ. Brick is the only building material. You now have an opportunity to become a partner in a brick manufacturing enterprise. Will you avail yourself of this opportunity or will you let someone else? Do not put it off. Send in your subscription today before it is too late.

We believe this stock will be attractive to a great number of people who are not interested in other forms of investments, which have to do with mining propositions no matter how alluringly they may be presented. In other words, an investment which is purely speculative would not interest them.

In order that investors of moderate means may take advantage of the opportunity to purchase a considerable number of these shares, and still not feel the burden of them, we have arranged to divide the payments up and spread them over a period of several months, as follows: Use the table below. Those who buy at the opening price will have the advantage of seeing their holdings advance in price before they have completed their payments. The shares should be a good investment at any price.

What is the Massachusetts Sand-Lime Brick Company? It is a Massachusetts Corporation formed to manufacture brick in New England. The first plant will be located at Oxford (Mass.), and is nearly ready to commence manufacturing. Other plants will be started as soon as this first plant is running. The foundations are all in. Machinery is on the ground and on the way. Railroad siding is already in and buildings are in process of construction. The company is ready to take orders for brick to be delivered in September. This is a proposition that will commence paying dividends inside of eight months and one in which you will be proud to be a stockholder. The most searching investigation of the company, its officers and plants is asked. Full and complete particulars will be furnished to those interested who will write for the company's literature.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—she said it was no good and wanted me to try something else, but knowing all about it I insisted and finally got it. I am so glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will."

Women who are passing through this critical period are sure should insist upon Lydia E. Pinkham's Vegetable Compound, the only medicine which the druggist can make a little more profit.

able field for first class boxers, who in many cases are getting more money for ten rounds than they can for 20 on the coast."

Papke appears to be in splendid health and doesn't look as if he weighed more than 120 pounds in his street clothes. His trip around the world has polished his manners so that he doesn't look like a professional pugilist. He wears a perpetual smile, dresses like a nabob and sports many diamonds. It is said that he can draw a check for a six figure amount as a result of his ring battles.

In Roped Arena.

"K. O." Brown, of Chicago, and Willie Lewis, will clash in New York, Aug. 19. Phil Schlessberg and Tony Capone will be matched to box in Kenosha, Aug. 19. Owen Moran wants \$7,000 for his cut and \$200 for expenses to box Jim Driscoll in Wales.

The date set for the battle between Digby Stanley and Lee Bradley in Liverpool, Eng., is September 14.

Young Jack Johnson is doing well in Memphis. The other night he was hit by Christy Williams stop in six rounds. Promoter McCarey of Los Angeles, is trying to get the authorities to allow 18-round bouts, with no decisions, in that city.

Al Brown of Hibbing, Minn. defeated Tommy Gary of Chicago in the 18th round of a 20-round scheduled bout at Hibbing last night.

Johnny Colton will not be seen in the ring until next winter on account of the recent death of his father, Colton's uncle will now be his manager.

Mike Shreck of Cincinnati will not be driven out of the game, even though he is a "has been." He has signed to box Harry Wurt in Cincinnati next week.

Promoter Coffey is "in the hot" with the authorities of San Francisco on account of working for the side that was against the present administration in the last election.

Bill Squires, the Australian heavyweight, is certainly in the "can't come" class, when Bill Leng can stop him in five rounds, as he did in Brisbane, Australia, last Tuesday night.

E. J. Robertson, retiring physical director of the Y. M. C. A., was tendered a complimentary dinner last night at Whites by the association and St. John friends.

Frail White presided and W. F. Hatheway, M. P. P., occupied the chair. The occasion was marked by the presentation to Mr. Robertson of a Masonic locket. The locket had on one side the emblem of the Knights Templars and on the other the Royal Arch and was inscribed as follows: "To E. J. Robertson from St. John friends." Rev. David Lang made the presentation and speeches were delivered by Messrs White, Hatheway and others.

Facts You Can't Rub Out

If rents were lower, and light, advertising and other modern business necessities were cheaper in the city stores they would not have to add more profit to the cost of their goods than we do. If they did enough business to control the production of all the makers of good goods in this broad land they would have a monopoly on style and quality. But, fortunately for us, it costs them a whole lot more to do business than it does us, and the makers who supply them are just as anxious to supply us, hence

MEETING OF YOUNG LIBERALS. A meeting of the Young Liberals Club to elect sixteen representatives on the executive committee, will be held in Spencer's Hall, 74 Germain street, Monday evening at 7.30 o'clock sharp.

PETER REED WON AGAIN. More honors were heaped on the St. John horse Peter Reed at the Hanks meet at Augusta, Maine, Thursday as the speedy one who captured the 2.40 on Tuesday carried off the 2.20 Thursday in straight heats. The purse was \$200. Another of H. R. McElliott's string Fred S., got third money in the 2.22.

CHEERING NEWS OF LIBERAL VICTORY

Hon. Dr. Pugsley Will Attend Charlotte County Convention—Northumberland Strong For Reciprocity

On Monday next Hon. Wm. Pugsley will attend the convention in Charlotte county when the Liberal nomination will be made. He left last night for Ottawa.

W. S. Loggie returned yesterday to Chatham after a trip up river to parts of his constituency above Newswade. He said he had found the sentiment all through the country visited in favor of reciprocity, and where he went people were interested to hear about the pact. More than one Conservative was convinced that reciprocity was a god thing for the country.

Hon. G. P. Graham, in Montreal last night, said that instead of Laurier being finished, he was still the liveliest wire in the party, no matter how much the Conservatives put up the former cry. If the coming elections were confined to the trade question, he said, that 75 per cent of Ontario voters would favor reciprocity, and even in the face of party politics he believed that the Liberals would gain a number of seats they did not have at the last election. In the west he said, the sentiment was heartily in favor of reciprocity.

Geo. W. Fowler, an ex-M. P., was present on last evening to be the Conservative sacrifice in Kings-Albert at a convention held in Sussex. Col. M. Campbell presided at the convention which was well attended.

The fine weather of today will doubtless draw large crowds out of the city for the week-end, and a liberal patronage is expected on the river steamers, and trains, while the chingling of the Church of the Marshes grounds, will be the mecca of the majority of pleasure-seekers who remain in the city. The St. John Pipe Band will play on King Square.

Aside from the ball game, the motion picture houses are expected to receive their share of patronage. The St. John Rifle Club will hold a sports meet on the range while the matches in the N. B. Tennis Tournament, postponed yesterday will be played today. The ladies of the Church of England at Red Head are giving a garden party.

THIS AFTERNOON. Ball game on Shamrock Grounds, Marshes vs. Fredericton 3 o'clock. Baseball match on Barrack Square, Times vs. Globe at 3 o'clock. Band concert in King Square by St. John Pipe Band, from 3 to 5 o'clock. St. John Rifle Club weekly sports match. Garden Party at Red Head by ladies of the Church of England. Buses leave Haymarket Square at 2.30. Tournament on courts of St. John Tennis Club, N. B. championship. Moving picture theatres: Nickel, Lyric, Gem, Unique and Star. Parks, Rockwood, Seaside and River-view Memorial.

THIS EVENING. Good singing, the orchestra and motion pictures at the Nickel. Late songs and motion pictures at the Lyric. Vaudeville and motion pictures at the Gem. Motion pictures and songs at the Unique. Motion pictures and singing at the Star.

CATON'S ISLAND UNVEILING TO BE IMPORTANT EVENT

Lieut.-Governor and Members of Judiciary Invited to be Present—James Lowell Gives Consent for Erection of Tablet

The combined Historical and Natural History Societies intend to have an outing at Caton's Island on the St. John river on Saturday afternoon August 10, the object of which is to erect a tablet to commemorate the first settlement in New Brunswick which was made on this island, then called Emenetic by some Frenchmen from St. Malo.

An active committee have for some time been making preparations to celebrate the event by the erection of a memorial stone tablet, to be placed on a cairn built for the purpose. Jas. Lowell, M. P., P., the owner of the island, has kindly given his consent. A steamer will convey the party to the island which is about twenty miles from the city. It is expected that the Lieut.-Governor, the premier, chief justice, mayor and council of the city of St. John, Judge Landry and others will be present and deliver addresses. A pleasant reunion of the two societies is looked for. Coffee will be served, and those who attend are asked to supply light refreshments. Further particulars as to the price of tickets, etc., will be given later.

First Church of Christ, Scientist—Service at 11 a.m., at 10 Germain street, subject "Soul." Wednesday evening service at 8; reading room open daily (Saturday and legal holidays excepted), from 3 to 5 p.m.; public cordially invited to both services and reading room.

EEL FISHING CARRIED ON EXTENSIVELY IN NAVY ISLAND TRAPS

Andrew Lamercaux, of the West Side, Has Developed Big Trade With the United States and Germany—Method of Capture

Quietly, but steadily, has Navy Island taken its place during the past few years as one of the most important centres of the fishing industry in St. John, and a visit to the bustling little community is well worth while, particularly to anyone interested in fishing. Here is the home, for a great part of the year of a number of sturdy fishermen, who have established a thriving industry, through the industry which has developed big trade with the United States and Germany—Method of Capture

Their nets, traps, weirs, and other fishing apparatus are seen in abundance at every turn on the island. The air of the place is alive with activity. The island is small, but it is an open-air office where in considerable sums of money change hands through the medium of the fishing industry, and also where many hair-raising fish stories are narrated. Nevertheless, in spite of this fact, it is the scene of the labors of many an honest fisherman, making a good living out of his native waters, but earning every dollar he makes. It will probably be of especial interest to the visitor to make an inspection of the eel-traps and other apparatus about the island, as this is a feature of the Navy Island fishing which is carried on extensively and in which a profitable industry has been successfully inaugurated. While the fishermen on the island engage in the catching of salmon, shad, gaspereaux, and other inhabitants of the briny deep, according to the season allotted for these, and also capture and sell sturgeon, a number of them pay particular attention to the catch of eels, and have met with encouraging success in their efforts in this regard.

It is several years since this industry was first considered in St. John, and it is thought that Andrew Bust, of West St. John, was among the first to endeavor to direct trade from this port to the states, in this species of fish. His efforts for a time were successful, but trade flagged, and he left it to other hands. Andrew Lamercaux of the west side, was another who, years ago, became interested in this branch of fishing, and his time has been well-spent, as he has instituted a lively trade with Boston, New York, and other American centres, and has even made a shipment of the eels to Germany.

Mr. Lamercaux has made a careful study of this industry, and success has rewarded him, in the fact that he has several men engaged along the river and about the harbor, to fish traps and boxes, and he continually exports large quantities to the states, where there is a splendid market. He has several large eel-boxes about the island in which he keeps the catches as they are brought in, and by his application of scientific methods, keeps them in good condition, and has them consigned before they are packed in finely chopped ice and despatched to their destination.

The eels are packed alive and when they are taken from the packing cases in the states, they are still living, and in a fresh condition, as they are brought in, and it is found that the eel is a fish which will live for a long while away from its native haunts, that it can be placed in the wooden boxes sunken in the water at the island and left there for many days together, which it is purged, and then packed in the ice, and found to be still alive when the American market is reached. Men with traps and boxes go along the river and spend a few days before returning with their spoils, which are then prepared for exportation. Of course this is a business which has been going on for many years, namely this smaller catching of eels along the water front, Indiantown, Kingsville, Carleton, and other places having been the fishing grounds for many centuries for years past, but it is only of late years that the industry has been developed on such an elaborate and extensive scale, as is now the case, and during recent times Navy Island has become prominently identified with the eel-fishing industry.

TWO PLANETS TO APPEAR AS ONE

Conjunction of Mars and Saturn, Coming Next Wednesday, is Unusual—Requires Telescope To Distinguish Them

An interesting conjunction will be observed in the heavens on the night of Aug. 16. It concerns Mars and Saturn, two planets which rise considerably before midnight and have been visible for some weeks past in the southeastern sky. Mars, in its original motion, is gradually approaching Saturn, and on Wednesday night next the two planets will be close together, the distance between them being about a third of a degree, or about two-thirds of the apparent diameter of the moon. The appearance presented will be that of a double star, Mars being the redder, and also the brighter, of the two. The masses of the planets to each other will be such that in telescopes of not too great magnifying power—say not over three inches in aperture—Mars and Saturn will appear together in the same field of view. To the naked eye the effect will be only that of two bright planets rather closely juxtaposed; in the telescope it will be possible to see at the same moment Mars, with its mysterious markings, and Saturn with its beautiful system of rings, side by side.

The astronomical records show that conjunctions of the planets Venus, Jupiter, Mars and Saturn with bright stars is not uncommon, but the moon is sometimes in conjunction with the planets. Only a few months ago it passed very near to Jupiter. But the approximation of the planets to each other is rare, and a close conjunction such as that of Aug. 16 is very unusual.

Far more unusual is the conjunction of several planets, as shown by the prominent and numerous conjunctions of the fact that one occurred over 2000 years B. C., as recorded by Chinese historians.
