FUNDS ARE NEEDED  
Claim Made That Money is Not for Use of the Red Army.  
(By Canadian Press.)  
London, March 5.—Soviet Russia will strive at the forthcoming Anglo-Russian conference to negotiate credits of £100,000,000, spread over three years, according to the Moscow correspondent of the Daily Express. He attributes his information to a direct statement by Christian Rakovsky, Soviet charge d'affaires, accredited to London, who recently returned to Moscow to discuss the arrangements for the conference.

The credits, according to the despatch, must be divided in the proportion of 67 per cent. goods and 33 per cent. cash. Great Britain to advance £40,000,000 the first year, £20,000,000 the second, and £40,000,000 the third. Russia would be prepared to begin paying interest on the loan within two years.

"We emphasize that financial credits are absolutely necessary if the orders we are ready to place in England during the coming conference, the correspondent said, 'We must have money before we begin to pay.'  
The charge, who is expected to return to Great Britain with the full rank of ambassador, specified as among Russia's needs, textile machinery, ships, mining material, forestry machinery, motor cars, chemicals, metals and aviation materials, all of which she would obtain in England if she should succeed in effecting her programme at the coming conference. McLachlan entered the prison a few weeks ago. His sentence, however, began October 31 last, the time he spent in jail being included.

Detective Biddiscombe testified that Detective Power asked the accused (Continued on page 2, sixth column).

ARGUE OVER STATEMENT OF GODWIN

Lawyers in Murder Case Occupy Morning in Disputing Point.  
TRIAL WITHIN TRIAL  
Jurors are Excluded While Counsel Discuss the Question.  
The case of Stewart Godwin, 16-year-old youth, charged with the murder of Mrs. Clara Whiteside at her home in East St. John between December 17 and Christmas Day, 1923, has developed into a trial within a trial. With the jury excluded from the court room, the opposing lawyers spent the whole morning examining witnesses in connection with the alleged confession of the accused, and arguing as to whether evidence in that connection should be admitted.

The prisoner again sat quietly in the dock, but during the argument he paid little attention to what was going on, presumably on account of the fact that the matters being discussed were highly technical and evidently beyond his grasp.

For the most part he sat with his head bowed and drummed his fingers abstractedly on the railing of the dock. That he was bored by the proceedings was evidenced by the fact that he yawned repeatedly.

Detestives Testify.  
Evidence in connection with the detention of Godwin, his answers to questions put to him in the police station, and a midnight visit with him to the scene of the murder on the night of December 26, was related by Sergeant Detective Power, Detective Saunders and Kilpatrick and Police Master Ross.

All denied that anything was said not to be said. He replied that he feared his father would beat him and Mr. Saunders assured the lad that he would see his father.

Mr. Powell objected on the grounds that the statements made by him were not voluntary, that he was not warned beforehand, and that they were given as a consequence of fear of results or hope of benefit. He quoted authorities to support his objection.

Mr. Ryan in reply argued that the fact that the examination was one of questions involuntary under the law. He submitted that, in any event, the evidence should be received and the question of its weight should be left to the jury. He also quoted several authorities to support his contention.

Ottawa, March 5.—(Canadian Press.)—"Under the present penitentiary act," declares Dr. Deslauriers of St. Mary's, Montreal, in a motion he intends to bring before the House of Commons, "the most elementary principles of morality, hygiene and humanity are violated." Couple Married 64 Years Have Never Had a Quarrel

MR. AND MRS. NACHMAN FIRESTONE, MARRIED 64 YEARS.

Brooklyn, N. Y.—Married for 64 years without ever having a quarrel! That's the record of Mr. and Mrs. Nachman Firestone, who live here. "It may sound like fiction," said the 83-year-old man. "But it sure is a fact."  
And his 77-year-old wife seconded him. "I was only 13 when she was married in Rumania," she said. "But the age of marriage makes little difference," her husband went on. "The thing that counts is the knowledge that the principals really love each other. And I guess we do."  
Eight of their children are living. And all have homes near their parents.

Yesterday's was an unusual one in regard to violence and length of time.

SPEECH FROM THRONE WILL BE HOPEFUL

Govt. Policy on Immigration to be Announced During the Session.  
OUTLOOK IMPROVES  
Lumber Industry in the Province Facing Brighter Future.  
(By Canadian Press.)

Fredericton, March 5.—It is understood that the speech from the throne at the opening of the session of the New Brunswick Legislature tomorrow will state that the expert's report regarding the feasibility of the development of the Grand Falls on the St. John river for hydro electric purposes are favorable to proceeding with the project, but that it is probably as far as the official document to be read by the Lieutenant-Governor tomorrow will go.

The policy of an administration will probably be detailed during debate on the address in reply to the speech from the throne or in the budget. In addition to the Grand Falls project, reference to investigation as to the possibilities of hydro development on the Petitcodiac river will probably be made in the speech from the throne.

To Develop Minerals.  
It is expected that the Government's policy in respect to immigration will be more or less definitely set forth in the speech from the throne and that in that connection the forthcoming Empire Exhibition in England will be touched upon. More encouragement for development of the mineral resources of the province will probably be forecasted and the success of the administration in having the wharves on the rivers taken over by the Federal Government will naturally be referred to. The highways programme for the year will probably be forecasted.

Improved trade in the province will be one of the matters referred to, no doubt, in the chronicle of events of the past year, also the visit to the province of the Governor-General and the loyal reception given His Excellency and Lady Byng by the people of the province. The speech may be expected to refer to the unfavorable climatic conditions for agriculture and the consequently lessened crops, but will say that better prices were obtained for the products of the farms. Greater encouragement to dairying may be forecasted and no doubt the opening of the province's agricultural school and the successful already obtained in that connection will form the subject for a paragraph.

MORE BOMBS EXPLODE IN OIL SCANDAL

Name of Senator Thomas Walsh is Mentioned in the Proceedings.

OFFER IS REFUSED

Publisher of the Washington Post is Branded as Secret Agent.

(By Canadian Press.) Washington, March 5.—There was another series of bomb explosions yesterday in the oil scandal. Here are some of the things the oil committee would when it resumed its hearings: That E. L. Doherty tried unsuccessfully last December to interest Senator Thomas Walsh, chief prosecutor of the inquiry, in an oil venture in Montana; and that the senator replied he would have nothing to do with an enterprise where he might appear to be using his official position for his own profit.

Named Secret Agent

That Edward B. McLean, publisher of the Washington Post and a central figure in the oil scandal, has been named as a secret agent of the Department of Justice, that McLean had a copy of the department's secret code, and that some of the messages sent him and his employees in Florida were in a cipher once used by the department. The testimony regarding McLean was given by Wm. J. Burns, chief of the department's secret agents, and Burns' secretary.

McLean was placed on the roll as a special agent because the department obtained information through him and his newspaper, the Washington Post, Burns testified. His salary was \$1 a year.

Ottawa, March 5.—Premier King announced in the Commons yesterday that the commission to investigate the Home Bank would inquire into the record of the bank down to the time when it suspended payment. This inquiry will be made by Chief Justice H. A. McKeown of St. John.

In the debate on the address, Robert Furze, Progressive leader, opposed high tariffs. Progressive measures, he said, would receive Progressive support. He advocated construction of the Hudson Bay Railway.

J. S. Woodsworth, leader of the Labor group, asked for a parliamentary committee to investigate the British Empire Steel Corporation and sharply commented on the proceedings against J. B. McLachlan, Labor leader, sentenced to two years for seditious libel. Other speakers were W. F. McLean of South York and A. J. Lewis of Swift Current.

House Idle Today.

In the Senate Senator Pardee moved and Senator Cote seconded the address. Speeches were made by Senator James Loughheed, opposition leader, and Senator Dandurand, government member. There will be no sitting of the House of Commons today, Ash Wednesday.

FAST HALIFAX TEAM MAY COME

Plan to Match the St. John Hockey Team for Monday.

The local arena management is arranging for a fast hockey game to be held here on Monday night.

The fast Halifax City League here on that evening. A hot contest is being waged in the sister city for premier honors and last evening Dartmouth moved up within a half game of the Wanderers when they defeated Dalhousie collegiates 4 to 2 last night.

Dartmouth and Wanderers will play on Friday night of this week and the outcome of this game will have much to do with the outcome of the league.

It is probable that the winners of this game will be brought here on Monday night to play the fast local team. If these negotiations fall through Dartmouth will be brought down and will be seen in another exhibition match with St. John.

The rather soft ice of last Saturday night tended to spoil the work of these two teams and local fans want to see them on good hard ice. Both teams are hard ice goers and if the ice is good this should prove a stellar attraction.

Protest Freight Rates Revision

New York, March 5.—Eastern rail men and manufacturers yesterday submitted to the Interstate Commerce Commission a combined protest against the proposed revision of freight rates designed to eliminate the existing differential in rail and ship rates from Atlantic to Pacific Coast cities.

Midwestern railroad representatives, manufacturers and shippers in support of revision, have contended that unequal rates between their states and the Pacific Coast territory were lowered, the comparative cheapness of water rates via the Panama Canal would make it impossible for those in the interior to compete in the western territory against the easterners.

ADDRESSED ROTARIANS Michael McDade of St. John addressed the St. Stephen-Milltown rotary meeting in St. Stephen on Monday. He spoke on provincial affairs.

Will be Heard at Imperial With the Regular Show.

A few days ago there landed in Halifax a party of English, Scotch and Irish entertainers known in the Old Country as "London's Great 8". They are a group of eight comedians who usually heralds shows on this side of the water.

This aggregation of entertainers has for years delighted British audiences and is well-known over the continent. They are being sponsored by Sir Alexander Mackenzie, principal of the Royal Academy of Music and Vincent Campden. It was upon the suggestion of these eminent admirers of Canada that the "London Great 8" came across the ocean.

They have been heard already in Halifax and other Nova Scotian centres and everybody hearing them has said they are simply delightful—clean, artistic, intelligent and supremely funny. It is like a whole show of high-class English variety stars as one often sees mixed in with American bills of superior vaudeville—specially imported talent. "The London Great 8", which consists of four ladies and four gentlemen, came to Canada primarily to play the strongly English sections of this country starting in Toronto and travelling to the coast, among a people who already know of their fame.

The East is hearing them merely in passing. It has been the Imperial's good fortune to secure the "Eight" for the three days of March 10-11-12. It is planned to present three times a day in addition to the picture feature of the occasion, much the same as the Rossley Kiddies. The personnel of the British includes a Festival Tenor, Irish Soprano, Comedy Sourette, Scotch Violinist, English Cellist, London Pianist, Concert Harpist and Scotch Comedian, a la Harry Lauder. The programme of these people has been getting a \$1.50 price scale but with us here the show will be given at 80c in reality a gift to the people of St. John.

The "Rapid Fire" stars, especially Tedford, Newman, have been repeatedly offered large sums to enter American companies. Mr. Newman's Victor records are in great demand everywhere. The curtain rises tonight at 8:15, and at the matinee tomorrow at 2:30. The prices for the evening show are \$1.50 and \$2 downstairs, \$1.00 and \$1.50 (two front rows) upstairs. Matinee, 60c, 75c and \$1.00. Good seats in all sections.

QUESTION OF PLACE

In Chambers, before Judge Crockett this morning, the question of the place of hearing the matter of Luther B. Smith against the Bonnie River Lumber Co. Ltd., with William Clark and Patrick Grant, alternate defendants, arose. The case is one of alleged trespass on lands in Charlotte County in connection with lumbering operations.

Affidavits were read on both sides, the plaintiff favoring hearing at St. John as against St. Andrews. The matter will come up again next Wednesday.

A. N. Carter appeared for the plaintiff, F. R. Taylor, K. G. for the defendant company, and J. B. Dever for the alternate defendants.

This afternoon at the home of Capt. F. P. Shields, 48 Albert street, his daughter, Miss Muriel Jean Shields, was united in marriage to William F. Brown, son of Mrs. Charles G. Brown of West St. John.

The ceremony was performed by Rev. A. C. Tedford. The bride was given away by her father. They were unattended.

This evening Mr. and Mrs. Brown will leave on a honeymoon trip to Boston and Somerville. The bride's going away dress is of navy blue pique tulle and her hat is of rose and silver.

The wedding march at the wedding was played by Miss Edna Brown. The popularity of the young people was shown by the numerous and costly wedding gifts received, among them a check from the bride's mother.

FARM LOAN CLOSURE IS PROTESTED

(Continued from page 1) Seek Old Members. The membership committee reported plans under way for a campaign to bring back old members, and increase the number of new applications being received. The Sports Committee reported some preliminary enquiry as to prospects for baseball during the coming season, but no definite programme as yet. The Employment Committee's report was featured by the announcement that a survey and classified listing of all local ex-service men unemployed for permanent employment would be carried out and co-operation of other provincial branches requested to make such survey include the entire province.

The House Committee report especially noted having arranged for lighting through the Civic, Hydro Commission, and extensive renovation and decoration of the club rooms, which had been repaired and put in first class shape, as also had the pool and billiard tables. The committee also reported that the efforts to better enforce the house rules and regulations were meeting with success, a very considerable improvement in this regard being evidenced.

The president announced that the executive and officers of the branch were preparing plans for an "At Home" evening shortly after the Lenten season, at which it was intended to entertain the friends and supporters who had contributed so materially to the success of the association's work last year.

Guaranteed MOTHPROOF Guaranteed

All materials - inside and out -
are thoroughly protected

THE successful mothproofing of Snyder's "Sani-bilt" Upholstered Furniture has been hailed as one of the most sensational and revolutionary achievements of the present generation. Snyder's "Sani-bilt" Mothproof Furniture has been given a marvelous reception by the grateful Canadian public. As a result, other Canadian manufacturers of upholstered furniture, who were not fortunate enough to have secured this wonderful improve-

ment, have naturally made efforts to compete with us, some having even gone so far as to state that their goods were, also, "mothproof", and have even printed guarantees closely resembling ours.

We desire to make it plain to all Canadians that we, Snyder's Limited, believe that our preparation, in so far as is known to science, is the only effective mothproofing solution that is odorless, colorless, non-poisonous and non-volatile.

Dry Cleaning, Steaming or Vacuum Cleaner cannot Destroy Effectiveness of our Mothproofing

Every shred and stitch of material in "Sani-bilt" furniture—covers, fillings, anything moths might attack—before being assembled, is treated with exhaustive thoroughness with our wonderful mothproofing preparation.

The preparation is absorbed into the cells of the fabric and fillings. It is assimilated right into the material, becomes an integral part of it. It is well to note that many other so-called "mothproofing" preparations are merely sprayed onto the furniture, afterwards forming a sediment which is easily brushed off.

Dry Cleaning, Steaming, Beating, Brushing, Sweeping, or your vacuum cleaner simply cannot remove, diminish, weaken or affect in any way the power of the "Sani-bilt" mothproofing process.

Mothproof Inside and Out

Snyder's "Sani-bilt" Upholstered Furniture is mothproof in its entirety! Inside and out it is completely and durably safe from the devastating attacks of the moth.

This is vitally important, too, as it is the interior of the furniture which is attacked. The moth, itself, does no damage beyond laying eggs. It is the worm,

born from the egg, that does the actual damage, and worms nearly always are to be found inside the furniture attacked. When a Snyder's "Sani-bilt" Chesterfield or Chair comes into your home, you can rest comfortably with the knowledge that it brings with it not one trace of moths or their eggs.

Hidden Qualities of This Wonderful Furniture

Snyder's "Sani-bilt" furniture has many wonderful qualities beneath the covers.

All the materials in this furniture are new, brand new. The fillings are all virgin fillings; the springs are new and strong; the frames are rigidly constructed of best Canadian hardwood.

In fact, the internal construction of Snyder's "Sani-bilt" furniture is of such excellence that it ranks in importance with the splendid mothproof feature.

The immensely rigid frame around which each piece is built provides a backbone that will not give way, with ordinarily careful household treatment. The springs are rustless and strong and securely interlaced to prevent displacement.

These interior qualities give the furniture much extra value. Though hidden from the eye, they are immensely important.

Snyder's "Sani-bilt" furniture is equipped exclusively with Marshall Sanitary Cushions.

A Very Wide Range of Prices

Genuine Snyder's "Sani-bilt" mothproof furniture is made at prices to suit all purses. You may choose from a very wide range. There is, therefore, no need to hesitate about the cost of mothproof upholstered furniture. The price is what you choose to make it. Moreover, you may rest assured that even the most moderately priced piece or suite is strongly made, honestly filled and covered in good taste. Our more luxurious suites, while covered with more expensive fabrics, and stuffed with more costly fillings, are no stronger than our lowest-priced line, or no more genuine through and through.

Under every cushion of the genuine Snyder "Sani-bilt" furniture you will find the registered Snyder "Sani-bilt" trade mark. Look for it. Make sure it is there. Attached to every Snyder "Sani-bilt" piece or suite is our guarantee tag. Make sure it is there, also. Read this guarantee. You are protected in every way.

SNYDER'S LIMITED
WATERLOO, ONTARIO

Every piece of Snyder's "Sani-bilt" Furniture is subject to this straightforward Guarantee

You run no risk of moths in buying Snyder's "Sani-bilt" furniture. We are so positive of our process that we unhesitatingly guarantee to replace any of our "Sani-bilt" furniture damaged by moths. Moths simply can't live in it—and yet no poisonous chemicals are used.

Further than that, we guarantee that the inside of our upholstery—the important part you cannot see—is genuine and new. We don't put old or "renovated" stuffing into our goods. "Sani-bilt" means clean and sanitary, as well as mothproof.

And we also guarantee sound construction, honest workmanship, and genuine good quality in the materials which go to make up "Sani-bilt" furniture. So that the customer who buys Snyder's mothproof "Sani-bilt" living room furniture runs no risk whatever either from moths or from flaws in quality of construction or material. Read the actual words of the guarantee tag accompanying every piece of Snyder's "Sani-bilt" furniture sold.

This guarantee tag is attached to every genuine piece of Snyder's "Sani-bilt" Furniture.

MR. JUSTICE LEBLANC

For a number of years past Mr. Arthur T. LeBlanc has been recognized as a rising lawyer and able public man. His success in the courts is a matter of record, and he has been a member of the Provincial Legislature and was to have been a candidate in the next general elections.

EFFECTS OF THE SPEECH

The following is the statement made by Robert Forke, leader of the Progressive Party, after listening to the speech from the Throne: "If Premier King carries out the promises contained in the speech from the Throne the most hopeful sign I have seen since I have entered Parliament."

The Ottawa staff correspondent of the Toronto Globe says the Liberals are equally satisfied with the speech and that two Quebec province members representing urban and high population constituencies have announced they will support tariff reductions if that will bring the Liberal elements of the country together.

DENOUNCING THE PRESS

The redoubtable Col. John A. Currie of Toronto is involved in a little unpleasantness with the Globe and Star and the Manitoba Free Press, and has ventured a filing at the Conservative press. He charges that the utterances of the press are influenced by the advertisers.

Press Comment

Rumors have been circulating that the city would or might adopt a policy of giving away land confiscated for non-payment of taxes to people who would build houses on it and thus put themselves on the tax roll for future years.

THE TRAGEDY OF EUROPE

Five years after the armistice, war is still the dominant note in Europe, the condition of which is now rapidly becoming apparent to all. I have recently been all through Europe, and what struck me most was the extraordinary power of recovery visible everywhere, one may even say the whole of Europe would have been saved and restored, and even now might be reconstituted and saved from general chaos and death.

A HOSPITAL FOR MORALS

Judge Mott of Toronto's Juvenile Court, in his annual report for 1923, presents figures that give point to his claim that the claim of a Hospital for Morals is an even greater degree than a Magisterial office of the law. It is his purpose to prevent cases from coming to court by tendering advice and counsel when children first get out of hand and begin to drift into bad habits.

GUARDING OUR FORESTS

Considering the enormous annual losses occasioned by forest fires, there should be no criticism of the Ontario Government's decision to increase the efficiency of its patrol service by adding to it a fleet of seaplanes. The Dominion Forestry Branch has estimated that in the five years ended with 1922, 75,000 acres of forest were destroyed.

Speaking of civil service economies

Great Britain has reduced her estimates for that service by £37,000,000 for the next year. Evidently the British Government believes that the way to reduce expenditure is to reduce it.

Mr. Winston Spencer Churchill is to be an independent candidate in the by-election in the Abbey division of Westminster.

Having brought Austria out of financial chaos the League of Nations will try its hand with Hungary.

When they are short of revolutions in Central America they have earthquakes. The people are kept moving most of the time.

Thirteen airplanes will do fire patrol work in the forests of Ontario.

The newspapers of the country are especially in British Columbia.

YPRES RE-ARISEN

(Blanche Shoemaker Herald in New York Herald.) A million souls have perished in this soil. A million lives are mingled in the dust. And yet today the golden fruits of the soil—Meadows of grain and tree and shrub—have thrust their magic over all. Oh, who would know War's holocaust or of the lingering years When England's blood, a mighty river, flows.

FIRE IN BASEMENT

The fire department was called out yesterday afternoon at 2.50 o'clock by an alarm from box 99 for a fire in the basement of a house owned by Tilly Maxwell at 143 Elliott Row and occupied by William Yeomans. The cause of the fire was the upsetting of an oil stove in the basement. Damage caused was slight and covered by insurance.

RHEUMATISM

A Remarkable Home Treatment Given by One Who Had it. In the year of 1893 I was attacked by Muscular and Sub-acute Rheumatism. I suffered as only those who are thus afflicted know, for over three years. I tried remedy after remedy, but such relief as I obtained was only temporary. Finally, I found a treatment that cured me completely, and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own case.

**DEATHS**

Thomas L. Gallivan.

A gentle and kindly spirit passed when the end came for Thomas L. Gallivan, who passed away yesterday afternoon after a short illness. Boyhood friends remember Mr. Gallivan as a very clever student, and his friends in manhood found him well-read and able to discuss many subjects with keen intelligence. For some years he was local manager for Collier's publications, but latterly had been employed with the Atlantic Refineries. For years, although he said little about it to anyone, Mr. Gallivan felt that he was not destined to live to old age, and the feeling doubtless influenced him and made him of a reserved and retiring habit. In old yachting days he was a most agreeable companion on a river cruise. He was a lover of art and of books, and will be kindly remembered within the circle of those he made his friends. Mr. Gallivan was a son of the late John and Johanna Gallivan, and is survived by one sister, Mrs. M. E. O'Connor of this city. Miss Kathryn Gallivan, gifted St. John singer, is a niece.

**TELLS OF OLD DAYS.**

A paper on St. John in 1800 prepared by W. C. Millner was read last evening by William McIntosh at the Natural History Society rooms and proved most interesting and informing. After the lecture a number of old time scenes in the city were shown on the screen. The chair was occupied by Dr. J. Roy Campbell, in the absence of the president, F. B. Ellis. It was announced that the sum of \$500 had been received from the estate of W. F. Hatheway toward the proposed new building and another \$1,000 would be received if construction was begun within three years.

**CALL TO SERVICE BY MRS. ROBBINS**

Poverty Arising From Social Conditions Calls for Collective Action.

In a recent article Mrs. Raymond Robbins of Chicago, President of the International Federation of Working Women, and whose husband is well-remembered in St. John, said:—"The citizens of today are not a group of men and women set apart for a specific service; the citizens of today are the men and women in the factories and workshops and counting-houses, in the mills and the mines, in the fields and the forests, tillers of

the soils, workers with hand and brain, hewers and thinkers. "The social and industrial order of today must meet the challenge of this citizenship. There can be no compromise with the denial of education to the children of the American continent. There can be no compromise with the exploitation of women; with long hours and low wages. "There can be no compromise with unemployment; there can be no compromise with poverty arising out of social conditions. Such conditions are a betrayal of the nation. "It is idle to speak to men and women of self-government and citizenship when their entire thought and all their activities are engrossed by their daily needs. It is only when the personal needs are increasingly protected by collective action and legislative enactment that thoughts can be turned into new channels and energies directed to other tasks. With a wide horizon, civic and social issues command attention. "In the division and sub-division of

labor made possible by the invention and development of machinery, skill has been eliminated from one trade after another. The joy and stimulus of creative work, the development of initiative and the personal responsibility for results has been taken from the workers. "Half a century ago Emerson told us that machinery is aggressive; that the weaver becomes a web, the machinist becomes a machine, and that every step in the improvement of the engine restricts one more act of the

engineer. As John Fitzpatrick rightly says: The machine is so nearly perfect that the only thing it needs is that amount of bone and sinew and brain not yet made part of the machine, and so the operator is put on as the last attachment. Men and women, boys and girls, with all the potentialities of life, turned into another mechanical device! "Certain preliminaries of civilization must be achieved before the democratic purpose of life can find expression. Are we women doing our share in this achievement?"

**It's Spring! Wool Crepe Dresses In**

Demure in design, subtle in color and surface. Dresses of well-wearing Wool Crepe have come with a swish of spring. While prices go to \$29.75, a fair idea of general value is found in those at \$17.75

Sand piped in Powder Blue, Emerald and Saff, Cocoa and Fawn—three choices at this price. Peter Pan collars and panels of twist strapping showing over the contrast color inset. Girdles.

Others take your excited eye over varying effects, of which one group has much ado with hand-drawn work. Wool Crepe is like a heavy Canton and the way these are worked up sets you wondering at such prices. Judge by the windows.

**Jaunty Jersey Wool**

Trim Dresses of Wool Jerseycloth have White collars of the Peter Pan order and variants, perhaps a narrow Black tie bow, embroidered breast or piped hip pockets, girdles and tuckings. Henna, Sand, Brown, Cocoa, Navies and Copen. \$12.95 \$17.75 down to

Now—we can tell you

The secret is out. At last the originator of Parfume Mary Garden has disclosed the real reason why this fragrance has enjoyed so many years of popularity.

"The reason is a simple one," said the aged creator of Rignaud odours. "In formulating Parfume Mary Garden, we deliberately set for ourselves the task of achieving an odour that would be so seductive, so fascinating, so bewitching that it would be utterly irresistible to men."

"To create this kind of a perfume we distilled nearly 100 new odours and secured dozens of women to give

them actual tests in their social contacts with men.

"At last after eighteen months we reduced our researches and conclusions to just one odour which we then perfected. And this became Rignaud's Parfume Mary Garden—a perfume with so distinct, so individual and so seductive a lure that men simply could not resist it!"

"That is the secret of why it has survived so long—that is the reason it will live on for many years to come."

JULIA HOYT

Not content with her brilliant social success, Mrs. Hoyt has turned to the theatre, where her dazzling loveliness and artistic gifts are rapidly winning new laurels.

Concerning the new demands that women must meet she says: "In spite of her many interests the active woman today is never permitted to betray any outward sign of fatigue or the result of exposure. She is expected to appear always fresh, always youthful, always exquisitely groomed. And the same loveliness of clear, smooth skin may be acquired by any woman through the daily use of Pond's Two Creams."

Julia Hoyt

The way to skin loveliness according to MRS. HOYT

I STOOD for a moment on her doorstep wondering if the interior of the house would be a true expression of its mistress whose beauty, social position and artistic gifts have made her one of the most picturesque young women in society and on the stage.

The door was opened by an impeccable butler, but another voice—a rather thrilling voice—said "Come up to the studio, won't you, it's much easier to talk," and there was Mrs. Hoyt—unbelievably lovely.

The studio was a perfect setting for Mrs. Hoyt's startling beauty. Her small head—the famous black hair is cut piquantly short—with its contrasts of dark eyes and hair and creamy magnolia petal skin—fairly shone against the subdued but brilliant colors of the exotic room.

I couldn't help asking impertinently: "Mrs. Hoyt, do you always look like this?"

"Like what?" she asked in surprise.

"So, so—well, so perfect," I stammered, and then I asked her what she thought the most important factor in a woman's beauty.

"Her complexion, by all means," she declared emphatically. "It is the first thing you see. No matter how exquisite a woman's features, they count for nothing if her skin is not radiantly clear and smooth."

"And what," I asked her, "what produces a lovely skin?"

"Cleanliness," was the immediate answer, "is the first essential. A lovely skin is a matter of a little care every day and a few thoughtfully chosen toilet preparations."

Select a soft pure cream that melts on the face and goes into the pores to clear away all impurities. Then, of equal

importance is the proper finish—a preparation that provides a soft fine surface on which the powder will go evenly and stay.

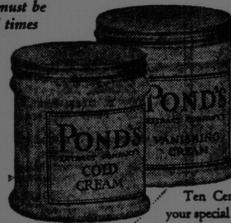

When Mrs. Hoyt says that rejuvenating cleanliness and an exquisite finish are the foundations of skin loveliness, she is speaking for thousands of distinguished and charming women who depend upon two creams that were developed for just these purposes.

Every night—apply Pond's Cold Cream liberally on face and neck. It sinks deep into the pores to remove all impurities. Wipe it off, after a few minutes, with a soft cloth. Do this twice. How clean your skin is, how soft and satiny!

In the morning, always before you powder, smooth on just a little Pond's Vanishing Cream for an enchanting finish. Your skin seems so much fresher, smoother than before, and how incredibly young you're looking! The powder, moreover, will cling for hours.

These are the two creams that are responsible for the unvarying loveliness of so many women of distinction. Begin using them today. The Pond's Extract Company.

GORMAN BREAKS 2 RECORDS IN RINK

World's Quarter Mile Indoor Mark Also Smashed by the Champion

There was a large audience at the Victoria Rink last night, to witness Charles Gorman, United States National and International amateur speed skating champion, break two records, the 440 yards and the half mile, the former being held for about fifteen years by Fred Logan, ex-international champion, and the latter by Bart Duffy, ex-Maritime champion. Gorman's time for the 440 was 37.2-5 seconds, while the former record for the rink was held by Logan, who covered the distance in 38.1 seconds. In the half mile event, Gorman beat the tape in 1:19.4-5, while the previous record held for a number of years by Duffy, was 1:21.1-5.

Gorman by his breaking of the 440 yards Victoria Rink record, has also beaten the world indoor record of 37.8-5 held by Bobby McLean, which the latter captured in a large square rink at Cleveland, Ohio, in 1913.

Hilton Belyea was one of those who was greatly interested in Gorman's skating last night. Hilton holds the mile record for this rink having gone the distance in 2:22.8-5. He said that Gorman was certainly a whirlwind on skates and further said that he thinks Gorman can skate the mile faster than he did on Monday night. Hilton would like to meet Gorman in the mile race on March 12, 13 or 14, in a competition from opposite sides of the rink.

Belyea said that he was leaving for France on March 19 to compete in the Olympic single skell event. He is feeling in good shape and has been doing a lot of skating this winter which he has found very beneficial to conditioning.

Officials at Trials. The officials at the trials last night were: Hudson Breen, starter; K. J. MacRae, George Lawson, J. J. Daley and Hilton Belyea, timers.

In the half mile event last night, Edgar Southeras and "Mike" Lawson were pace makers and skated in advance of Gorman, instead of alongside as happened on Monday night in the mile event. Further Gorman was noticed to hug close to the blocks last night, while on Monday he skated wide.

In trial with Belyea, he presented holder of the mile record, and the champion should be a contest worthy of witnessing.

FELL FIFTY FEET TO GROUND; IS UNHURT

Window Cleaner Lands on Empty Crates and Returns to Work. Herbert A. Gilfoil, an employee of the St. John Window Cleaning Company, had a narrow escape from death yesterday afternoon when he fell from a four story window to the ground below, escaping with a few scratches and bruises which did not hinder him from completing the job on which he was working when he made the plunge.

Mr. Gilfoil, with three other men, was cleaning the windows of the Vassie Building and had stepped out on the sill grasping hold of a piece of iron to steady him. The iron broke and he lost his balance. As he fell he gave himself a twist and landed on a pile of empty boxes, breaking two of them to kindling wood. He picked himself up found no bones were broken and went back to his job.

The window is located in the rear of the building, off Church street, and it is estimated the distance he fell was between 60 and 60 feet.

HYDRO INVASION OF ROCKWOOD CHARGED IN MANAGING COMMITTEE'S REPORT

Instructions as to Course are Asked—Suggested Parking Ground.

There's a matter between the St. John Horticultural Association and the N. B. Hydro Commission over alleged invasion of Rockwood Park without notice to the association and cutting of a long swath in connection with extending of the hydro lines through the grounds and in constructing necessary but expensive outbuildings. The association is not in a financial position to undertake the same.

To make this site suitable some expenditure would be necessary in leveling the grounds and in constructing necessary but expensive outbuildings. The association is not in a financial position to undertake the same.

The committee would like it to be known throughout the province that additions to the native animals and birds for the Zoo in the Park are always welcome by gift and will be purchased when necessary if accepted. Letters or telegrams addressed to the Treasurer, Rockwood Park, will receive prompt attention.

Mr. Allison. The committee cannot close their report without reference to the great loss this association and the community generally have sustained in the recent passing away of Joseph Allison, vice-president and benefactor of this association. He took the warmest interest in its affairs from its incorporation in 1893, and during its earlier struggles frequently contributed \$450. He was the owner of a lot of land on the William Jack estate. In the next year he constructed at his own cost the tea house, a structure which could not now be replaced for less than \$2,000. In 1896 he contributed \$450, the purchase price of a lot now a portion of the Public Gardens. In the following year he paid \$600 for the purchase of a lot of land from the William Jack estate. In 1900 he presented to the association the bear den and a drinking fountain and trough at a cost of \$1,000. He was the honorary treasurer from 1896 to 1909, when he became vice-president, to which office he was re-elected each year until the present. To the credit of St. John, he was largely indebted for the great privileges they enjoy in their ownership of Rockwood Park, the Public Gardens and the Allison Play Ground.

J. R. ARMSTRONG, H. N. STETSON, A. B. D. GANDY, Managing Committee.

The report of Hon. J. R. Armstrong, treasurer, shows receipts of \$8,159.86, included were \$1,496.86 from H. Breen & Co. Quebec, for lumber storage; St. John Ice Co., year in advance, \$1,000, and city grant, \$5,500. Payments were \$13,066.93, including \$2,528.45 in the park, and debentures redeemed, \$6,000.

On January 1, 1904, the association issued debentures at 4 per cent. interest, payable in 20 years, for \$18,000, which fell due on January 1, 1924. Of these debentures, \$7,500 only were sold. The balance was deposited in the Bank of Nova Scotia, now Bank of Nova Scotia, as collateral for the overdraft which on the present treasurer's appointment on February 1, 1909, amounted to \$10,500, making a total indebtedness of \$17,500. This overdraft was gradually reduced year by year until the latter end of 1923, when it was entirely paid off. In anticipation of the falling due of the debentures, authority was obtained last year from the Legislature to make a new issue for the purpose of redemption; the Bank of Nova Scotia generally permitting a fresh overdraft of an amount sufficient to pay off the debentures, until future monies come in.

Of the \$7,500 debentures, \$6,000 only had been presented for payment to the end of January last, \$1,500 being still outstanding. The result is that the association owed the Bank of Nova Scotia \$5,847.62 on January 31 last with all liabilities paid except the unpaid debentures of \$1,500 and six months' coupons thereon. The thanks of the association are due the bank for its liberal assistance.

The excellent financial showing for the year is largely due to the considerable sum of \$1,496.86 received for storage of lumber on the property of the association on Gilbert's Lane, without which it would not yet have been prudent to have undertaken the

erection of the much needed Animal Shelter House. This source of income is temporary only.

He Is Just One More of The Many Who Has Found Relief in Dodd's Dyspepsia Tablets.

Mr. George Reeder Suffered With Stomach Trouble and Got Satisfaction From Using Dodd's Dyspepsia Tablets.

Schuler, Alta., March 4—(Special)—"I had a very bad time with a bad stomach. I used five boxes of Dodd's Dyspepsia Tablets and got great satisfaction from them. I can now eat at ease almost any dish that is served."

This statement is made by Mr. G. Reeder, well-known in this place. The testimony of people who have been relieved is better than all the theory in the world.

Dyspepsia or chronic indigestion means that the stomach has got into such a state that it cannot do its work of digestion. The different muscles and organs of the body are not receiving the food they require, and are thereby weakened.

Dodd's Dyspepsia Tablets do the work of digestion, supplying the juices that the tired stomach fails to provide.

EVEN UP MATTERS WITH THE TROJANS. McGill Basketball Team Defeats Local Aggregation, 36 to 27.

McGill University upset the dop-last night and defeated the Trojans on the Y. M. C. A. floor 36 to 27, in an even better exhibition of basketball than that at the Armories on Monday night. Although the Trojans were the favorites by the University boys, seemed to throw them off their balance and it was sometime before they settled down.

In the meantime the visitors had piled up 26 baskets, and it was only when the Trojans began to realize that they had only registered a couple of times, that they seemed to collect their wits.

Guests at Banquet. At the conclusion of the game the visitors were the guests of the Trojans at a banquet in the Y. M. C. A. Having partaken of the good things, various members of each team spoke briefly. The tenor of the remarks of the McGill boys was that they had met fair and square, and well worthy of their opponents in the Trojans, while the Trojans returned the compliment with emphasis. The series of two games resulted in a win apiece for Trojans and McGill.

The line-up was: Trojans. Mendelsohn (10).....Urquhart (4) Philpotts (10).....G. Wilson (8) Manson (12).....Malcolm (10) Quackenbush.....Kerr (1) Blumenstein (4).....Holles (4) Boucher.

The regular Pittsburg Pirafe Infield was given its first workout yesterday at the Pogo Rink, Cal, training camp. It was a snappy session, with Manager McKechnie hitting the ball to Grimshaw, Maraville, Wright and Traynor, while the recruits gathered along the base lines to watch the performance. Manager McKechnie discarded the slow and easy order, and for 15 minutes the infield foursome performed in mid-season form.

Jack May, newly acquired left-hander of the first workout yesterday, a slight handicap at Orlando camp. Before leaving his home in North Carolina, a few days ago, May tore his pitching hand on some havers, and the member was too sore to permit him to grip the ball. He expects the wound to be thoroughly healed within a few days.

ACCIDENTS WORRY LEAGUE MANAGERS

Dean of Giants is Hurt—McGraw Dons a Uniform.

New York, March 5—(Canadian Press)—Accidents at the big league training camps are beginning to take their toll and add to the worries of the managers. Wayland Dean, costly young pitcher of the Giants, strained his leg in a practice game at Sarasota yesterday. He may be laid up for several days. Dean was obtained from the Louisville Club of the American Association.

John McGraw donned a uniform yesterday for the first time and did everything he has asked his men to do. Five pitchers were permitted to cut loose with everything they had. The first sliding practice was begun. The first game of the season for the Giants will be played Saturday against a Florida nine.

The Yankees had an unexpected holiday yesterday at their New Orleans quarters when they were given time off to watch the Florida Gras. The Yankee salary rebellion has all but subsided. Witt and Pipp signed yesterday. Ward and Shawkey will settle the slow and easy order, and for 15 minutes the infield foursome performed in mid-season form.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

PRIZES IN FRANCS ARE OFFERED FOR "TRUE FRENCH WOMAN" SCENARIO

Maurice Tourneur Strives to Correct Conception of Gallic Type.

(By Jack Jungmeyer.) Hollywood, March 6.—If you have plenty of spare time, a hanker to dabble in motion picture scenarios, and a knowledge of the French woman's characteristics, you may be interested in Maurice Tourneur's bid for picture material designed to correct what he terms "the cast-iron conception" of the Gallic woman in this country.

To obtain scripts dramatically presenting the true modern French woman, Tourneur, well-known movie director, has appropriated 170,000 francs as prizes.

French periodicals throughout the world carry details of the announcement. Naturally it is presumed that French folk know their own women best, but other nationalities are eligible.

The average American, believes Tourneur, thinks of the French woman as a flirtatious creature of vivacious rather abandoned manner, of seductive wit, big eyes, much photographed legs, heavily lured, and a predilection for verbal "Oo, la la" and "toot sweets."

He wants to dissipate that "distorted idea" by making a picture, or series of pictures, portraying his kinwoman as a clever and happy companion, a devoted wife, an excellent economical housekeeper, and an admirable mother.

For the best three scenarios for presenting her, Tourneur will pay 1,000 francs each, he announces; for the next two best, 600 francs each. The remainder of the prize money is to go for any other scripts which may be produced.

Tourneur himself shows the frugal French strains in fixing the prize exchange, amounts to a little over \$40. The jury which is to make the award is headed by Louis Sentous, French consul in Los Angeles.

Death-defying movie act easy. Climbing Skyscraper is Only Illusion—No Danger for Actor.

How often has a movie audience watched a screen actor presumably climb a sky-scraper and give the breath with suspense, expecting the actor to lose his foothold and fall several stories to the street below.

Here is how it is done. An exact replica of the side of a real sky-scraper is constructed of wall board. It is built horizontally instead of vertically. It is supported by a wooden frame about 20 feet above the floor of the studio.

The side of the frame is covered with a canvas scene to imitate the side of the building under the corner from the side used by the actor. Actors sit beneath the frame with their heads out of the window. Then the "human fly" crawls along the replica in much the same manner that he would crawl along the floor.

Opposite is the cameraman on a wooden stand considerably above the "building" grinding out the film as "our hero" climbs the sky-scraper. All through the showing cut-backs are given of the crowds standing in the street below. Nothing of the crowd scene are mere excerpts from weekly news reels. The side of the building used is made to resemble the building where the crowd stood watching a score board.

TALKS ON PARKS. "The National Parks of Canada" was the subject of a lecture given by R. E. Armstrong before the St. John's Association of St. David's church last night.

Four Languages Are Used; Little English

Hollywood, March 5.—Dimitri Bouchouretski speaks four languages in directing his new film, "The Arab," now being screened at Hollywood.

Photoplay Being Filmed in Algiers. Rex Ingram writes from Tunis, Algeria, that his new production "The Arab" is shaping itself rapidly and that the French Government and important Arab chiefs have lent him assistance.

With Mussulman-like aversion to the camera, the Arab nobles of Sidi Bou-Said at first refused to permit Ingram to enter the town, but through the influence of the great Shiek of the district, with whom Ingram has become friendly, this aversion was soon changed.

Baby In "Woman Against Woman" Is Adopted By Carroll Scenic Artist

Those who witnessed the production of "Woman Against Woman" by the F. James Carroll Players at the Opera House the week before last, will remember the little five-month-old baby who took a prominent part in the second and third acts.

The situation came to the attention of the Carroll company, and there were proposals from several to adopt the baby. After some persuasion the mother, assured of getting a good home for the child, consented, and to Robert C. Benjamin, scenic artist of the Players, fell the lot of becoming the foster father, and his wife the foster mother of the baby.

So now the Benjamin home is brightened by the presence of their newly-found daughter, which they have named Edna (after Miss Preston, the company's leading lady) Carroll (after J. James Carroll, head of the organization) Benjamin, the surname of the couple who gratified two or more wishes in taking the kiddie into their little family.

**SAYS BRIGHTER ON NORTH SHORE**

**H. G. Millican Brings Optimistic Report to City From That Section.**

That the outlook on the North Shore was brighter than it had been for some time was the cheering message brought to the city by H. G. Millican, manager of the Campbellton branch of Baird and Peters Ltd., who is spending a few days in the city. He said that business in general was much better than it was at the same time last year and there seemed to be a feeling of optimism in the air. The fishing on the North Shore had been good and the prices realized for the catch fairly high, which had resulted in placing a lot of money in circulation. There had been a good season in the woods and all the mills were planning for a big cut this summer, all of which had a favorable effect on general business. Mr. Millican had been located in Campbellton for the last seventeen years and has his finger pretty well on the business pulse of that part of the province. He said the business men felt the period of depression was about over and things from now on would show a betterment.

**PLANS FOR Y.M.C.A. DRIVE COMPLETED**

Organization Perfected at Meeting Last Evening—Canvass on 12th.

At a meeting held last evening, organization was completed for a one-day drive for funds, to complete the work of the Y. M. C. A. for 1924—so that the association may close its books without a deficit. High hopes of success were voiced by those in charge of the effort. This event comes annually, and the amount asked for this year is exactly the same as last. An interesting pamphlet has been mailed to all supporters of the organization in the city, showing the financial requirements. The budget for the fiscal year is \$21,800, with an estimated revenue of \$12,800 from memberships, dormitories and other sources, leaving a balance of \$9,000 to be raised by subscription. This was reduced during the year by \$1,000—a bequest from the estate of the late Sir Leonard Tilley. Judging from the enthusiasm displayed at the meeting last evening, the workers are determined to go over the top on the 12th. The committee in charge is composed of: B. S. Stephenson, chairman, and the following district captains and committee: Stanley Webb, George J. Smith, Alex. McKinnon, Alex. C. S. R., Simpson, S. E. Fisher, F. T. Barbour, W. I. Pearce, Harold Partridge, Harold Vincent, George H. Peacock, E. Clinton Brown.

**DON'T OBJECT TO THE HIGHER FARE**

**Transients Pay Five Cents for Ferry Trip—February Report.**

The new ferry rate of five cents for transient passengers went into effect on Monday and this morning it was said by Commissioner Bullock that not one objection to the higher rate had been made yet. The people paid five cents for the ride on just as though it were the old rate. There had been some increase in the sale of books of tickets but it would be hard to tell whether this would amount to until the end of the month. The ferry receipts for February show a slight net decrease from the corresponding month of 1923. There was an increase in the number of passengers but the decrease in the team traffic wiped that out and made a deficit. The figures are: Passengers, 1923, \$2,625.91; 1924, \$2,640.37; an increase of \$14.46 in revenue and of 8,906 in the number of passengers; teams, 1923, \$1,007.97; 1924, \$974.85; decrease in revenue \$33.12, in the number of teams, 612; net decrease for the month, \$18.86.

**As Hiram Sees It**

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "if friendly relations are to continue between us you have got to introduce me soon to a full-grown rock maple with a pair of sap at its base, and a nice wood fire and a pot where maple candy may be produced at will."  
"I'll do that," said Hiram. "Hiram was the talkin' about it last night. She said she knew you was thinkin' about the maples, 'cause these fine days — an' I orter fetch you out soon."  
"That is very kind of Mrs. Hornbeam," said the reporter. "I want you to thank her for me—and say that I have not had a meal of real pancakes for a long time. As for the sap—if it is a real rock-maple—not a white maple, mark you—I could drink a quart this moment. But for real enjoyment one wants the weeds and the snow and the crackling out-door fire."  
"You can't fergit old times—kin you?" said Hiram. "Well, sir, you come out an' I'll hitch up to a pair of bob-sleds an' we'll make a day of it."  
"I thank you," said the reporter. "You give me something to live for."  
"I aint sayin' you deserve it," said Hiram. "but me an' Hanner's alwais willin' to help a poor feller—even if he aint what he orter be—yes, sir."
