

## Miramichi and the North Shore, etc.

BONE FERTILIZER—See advt.

THE METROPOLITAN CONFERENCE opens at Fredericton June 16th.

LOANSTERS—About 21,000 live lobsters were the other day shipped from Digby to Boston.

SHOKE THE OTTLE, the best tea and cigars in the market. For sale wholesale and retail at J. Tingley's, Chatham.

JOHN M. WATKINS, of Richibucto, graduated from the Bangor Theological Seminary on Wednesday.

FIRE AT CAMPBELLTON—The barn, wagon house, outhouse and store house of Dr. Young of Campbellton were destroyed by fire last Friday. Loss \$2000; no insurance.

100,000,000 A. P.—There were over one hundred millions of lumber in the Fredericton booms last Friday. There never was such a large quantity there before at one time.

Take good care of your beard and keep it clear of gray hairs so as to retain your young looks by using Buckingham's Dye for this Whiskers.

GOOSE N. S.—A couple of hundred geese, mostly from New Brunswick and Ontario, have within the past few days gone to work on the ballast train on the Oxford and New Glasgow road.

SOME SUNDRIES—A large stone through one of the windows into Maconic Hall on Tuesday evening during the performance. A reward of \$10 is offered for its detection.

RESTORATION SALMON have made their appearance in the Moncton market. It is said the salmon fishery in the north is a very prosperous condition this year.—Transcript.

CAMPBELLTON, June 7.—Hon. D. McLean and Surveyor-General Tweed paid Resignation a visit this week and were well received. The "Deacon" has many friends on the North Shore.—Transcript.

RETURNED—Dr. McLean of Fredericton and Mr. Wm. Richards returned from New York last Thursday. Mr. Richards who has suffered a great deal with an injured hand, underwent an operation and is said to be greatly encouraged.

LEWIS-GORDON CARVELL, P. R. I. is at Asheville, South Carolina, on the Great Rock Island R. R. route. His Honor has been very much benefited by the change, and is said to be enjoying very good health.

SALMON—Three hundred and thirty-nine boxes of salmon, averaging 15 fish per box, have been shipped within the past fortnight from Chatham station. There was, therefore, a total of 5,244 salmon in full boxes, besides small lots.

SHIPPED BY W. M. MACKEY—The bk. St. Andrew, reported on New Brunswick shipping column of 5th inst., as having been loaded by Messrs. D. &amp; J. Ritchie, was loaded at the Hickman mill, the cargo being shipped by W. Malcolm Mackay of St. John.

ORDINATION—At an ordination service in the Grand Seminary, Montreal last week, by His Grace Archbishop Fabre, the following were ordained: Minor Orders—M. F. O'Leary, Chatham. Sub-deacon—M. A. P. Kelly, W. E. Sweeney, Chatham.

Prio's cure for Consumption and Prio's remedy for Catarrh are sold by J. D. B. MacKenzie, Druggist, Chatham.

CAPTAIN—The schooner Silver Bell, Capt. McLean, while beating up-bay on Monday morning, is ballast, was struck by a small and capsized. Captain McLean came to land and secured assistance in righting the vessel, which had drifted to an adjacent mussel bank and grounded.

CHARLES R. RECORD, the pioneer manufacturer of Moncton, died last Thursday morning, aged 73. He had been engaged in several industries and was interested in the sugar refinery and cotton factory, but was chiefly known as the founder of the Record foundry, which he handed over to his son and a partner ten years ago, after having managed it himself for twenty-two years. He was an American citizen, having never changed his allegiance since leaving the United States many years ago.

A LIGHT SENTENCE—The chief justice gave judgment last Thursday on the case of the man Watt, who killed Torrie and was convicted of manslaughter. The prisoner received the light sentence of one month imprisonment. As he is a native of the latter house, there was a good deal of comment about the leniency of the sentence. Morgan, found guilty of indecent assault on a young woman, was sentenced to a year's imprisonment and six strokes of the cat. The sailor Dames, who stabbed a fellow sailor but did not kill him, was given six months in jail.

THE BODY OF THE YOUNG MAN, HOGAN, who was drowned at Drake Falls, 6th May, was found on Thursday last—nearly a month after—about a mile and a half below the falls. It was found by a boy and when taken out the face looked fresh and quite natural. There was not a bruise or scratch on the body. Almost immediately after exposure to the air the remains changed their appearance and interest was a relief to all. This was a particularly sad case, as it is known as the deceased was the only surviving son of his bereaved parents, three other sons having died some twelve years ago of diphtheria. The whole community, therefore, sympathizes deeply with Mr. and Mrs. Hogan.

RURAL DEANERY MEETING—The clergy of the Rural Deanery of Chatham met on Monday (D. Y.) in Chatham on Monday evening, the 18th inst., and two following days. There will be evening prayer with addresses in St. Paul's church on Monday at 7:30 o'clock. On Tuesday there will be S. Mary's Chapel at 7:30 a.m., Morning Prayer at 9 a.m., and Evening Prayer with addresses at 8 p.m. There will be a meeting of the Sunday School Teachers' Association in S. Mary's school room on Wednesday at 9 o'clock, and the Deanery service will be on the evening of the same day at 8 o'clock.

KENT COUNTY ELECTION PETITION: It will be remembered that some time ago Mr. Phinney, the respondent in the election petition presented by Mr. McInerney for the purpose of unseating him, applied to Mr. Justice Wetmore for an order to remove the petition from the files of the court on the ground that certain formalities had not been complied with. The case was argued by Mr. Phinney for Mr. Phinney, and by Solicitor General Pughley for Mr. McInerney. The judge has decided in favor of Mr. McInerney, refusing the application with costs. As a result of this decision the case may now be proceeded with to trial.

FIRE—Mr. John Crosby's dwelling, Water Street, took fire on the roof on Monday and the whole upper portion of the structure was destroyed. The wind was blowing very hard at the time and had the fire spread to adjacent buildings great damage to surrounding property would have resulted, but the well-directed efforts of the firemen overcame the danger and confined the fire to the building in which it originated. Mr. Crosby was insured for \$500, which will hardly cover his loss, as the portion of the dwelling which was not burned was badly injured by water and his household furniture and effects suffered much avoidable damage.

NEW STEAMER—The Vancouver News-Advertiser of 21st ult. has the following item of reference to Mr. C. W. Moore's new steamer, for which the machinery was built at the Miramichi Foundry, Chatham:—

A NEW STEAMER—On Wednesday evening a handsome new steamer, built by Mr. Coulton for Mr. C. W. Moore, of the Royal City Planning Mills, was launched in the presence of the builder and a number of friends. The boat, which rides beautifully on the water, was christened the "Eclair." She is 75 tons burden, is 80 feet over all, with 15 feet beam. The machinery is of the newest and most approved kind, the engines having been brought from the East. The full cost of building her was \$10,000. She will do a general trading business along the coast, and will make her first trip in about ten days.

THE REASONS—The following is from the Transcript:—

The reasons by ministerial supporters for making Richibucto an outpost may be summed up thus:—

The present Collector is not competent to discharge the duties as Collector of a chief port, but of the truth of this we know nothing.

The contributor to whom we are indebted for these facts says that although a Conservative he will not cast a vote in the coming contest for any Conservative who approves of the government's course in this respect.

We are always suspicious of the party fealty of Conservatives who write to liberal papers ventilating their political grievances, and of liberals who run to Tory papers for like purposes. They may, in both cases, be put down as muckrakers and muckrakers.

OBITUARY—In another column will be found the announcement of the death of Mr. Wm. F. McLachlan, a native of Chatham, who, after serving as an apprenticeship in the well-known mercantile house of Johnson &amp; Mackie, removed to St. Pierre and entered one of the large business houses on that Island. Being a young man of more than average abilities he, by careful attention to business and the interests of his employers, soon became a member of the firm. In the course of years he lost his health and to seek medical advice he was forced to sever his connection with the firm and leave the Island. He and his family removed to Cambridge, Mass., and although he secured the best medical attendance, it was in vain, as death claimed him as a victim on the 28th ult. He leaves behind him a widow, one son and three daughters to mourn their irreparable loss.

MATRIMONIAL—At St. Stephen's church, at 7 o'clock Wednesday evening last week, Mr. George K. McLean and Miss Elvyn M. Burpee, daughter of the late Hon. Isaac Burpee, were united in marriage. The affair was a very brilliant one, and the church was crowded with guests, for which he informed me he is sole agent for this country. He says he thinks it will be very popular but finds that there are great numbers of books on the go for getting up to be Stanley's which are only "a get up" to sell on the great popularity of the famous author and traveler.

I hear that there was a large of the Independent Order of Good Templars, for which he informed me he is sole agent for this country. He says he thinks it will be very popular but finds that there are great numbers of books on the go for getting up to be Stanley's which are only "a get up" to sell on the great popularity of the famous author and traveler.

Farming is very backward throughout the parish.

Alex. Wilson of Hardwicke smoked about 100 lbs. of herring this spring, and will be able to supply quite a market with them.

Our friend Harry S. has gone down to the Point to help Mr. Carter, the light keeper, to repair the Government property there.

There is no place like home, so says our friend Miss K. Williston, who has been for some time in Uncle Sam's dominions, and is now on a visit to her mother and relations. She came again to resume her important duties in New York shortly.

FISHING ITEMS.

Messrs. M. Adams and John Ferguson of Newcastle, killed two salmon at Big Hole, Northwest, last Thursday.

Mr. Andrew Hunter of St. John, killed two salmon at Big Hole, Northwest, last Thursday.

A large crowd gathered at the depot to see them off, and the train was crowded with people. The bride was dressed in an elegant costume of white satin, and she had a magnificent bouquet of roses and carnations.

The right of fishing on the Baribou river was leased by the government at Fredericton on Thursday of last week, to R. R. Call, Esq., of Newcastle, for seven years, at thirty dollars a year.

The necessity for protecting that fine trout stream from illegal fishing with nets has been realized for a number of years by everybody having a knowledge of it, and, of course, the poachers, themselves—and anglers of the town, as well as the people of the locality, will be glad to see that the guardianship so much needed will be secured in fulfillment of the conditions of the lease. We have no doubt that Mr. Call will do his part in protecting the river, and we hope he will have the cooperation of all the good people in his undertaking. The risks incurred

by netters and the knowledge that their work tends to deplete the stream of its stock of fish, ought to outweigh the doubtful profits of illegal fishing, and it is therefore to be hoped, that the leasing of the Baribou will be very effective in, at least, confining fishing there to legal methods.

Notes From Hardwicke.

Having looked in vain for the usual season's notes from the district in the columns of the ADVANCE, and seeing some familiar sounding ones in the columns of another local paper, I made some enquiries and learned that the oracle had transferred his allegiance, and in order to keep the ADVANCE informed of what is going on in this part of the country, I beg to take up the mantle that has fallen, etc., etc.

A traveller through the lower portion of Bay du Vin cannot help admiring the fine new residences that have been put up in the last few years. I made enquiries and was informed that the people in this place were enjoying great prosperity, the result of the past few years' fishing, and that they were now beginning to feel the effects of their ordinary earnings in their usual vocations. I was particularly struck with the enterprise shown by Mr. Malcolm Taylor, who has quite an establishment near the steamboat landing. Having been shown over Mr. Taylor's large new house by the general owner, I was impressed with the fine finish of everything, and was informed that the designs and the work were the products of our mutual friend, Luther Williston, the painting being done by Mr. Macgregor of Bay du Vin, who cannot be excelled in his line. If any of your country readers consider building, they would do well to consult Mr. Taylor before commencing. I may say that our friend "Mack" will be happy to see any of his friends, and will do his utmost to make their stay pleasant. He deserves success.

The Rev. Mr. Polley, Presbyterian, is stationed in the lower end of the parish. He preaches each Sabbath at the Village, and occasionally at the Point.

The Rev. W. J. Wilkinson, Episcopalian, is also very busily engaged in the Master's service. His field is Bay du Vin, the Village, and occasionally at Eumecine.

There will be a grand bazaar and entertainment at Eumecine on the 19th inst., the receipts of which are for the benefit of the school. It is hoped that there will be a good crowd, as Mr. Lodi, the teacher and her assistants will have every thing first class. There will also be a competition for a very fine sofa cushion, the work of the fair lady's hands. The party holding the lucky number will surely be made up.

Salmon fishermen on the bays and waters of the Miramichi, report that the season is getting very good. The lobster fishery at Eumecine Point, I hear, is not a success, so far this season, and the work operating against a steady falling, and it is taken into consideration the visits of the Inspector the fishermen have a hard show.

W. S. Loggie, Esq., the proprietor of several of the lobster canning establishments, has been a victim of the disease, also on his own account every one is glad to see him home. Long may he prosper.

Mr. Fish, Crown Land Surveyor, was in Eumecine Wednesday, looking a block of land for Mr. Stephen White, thereby making everything right in the matter of his land, and his visit to the village shows the Surveyor General has not forgotten us and that it is his intention to rectify all mistakes in relation to his office.

Mr. Michael Brannan has, so far as informed, laid out a sum of money sufficient to efficiently repair the Plain road, another small remainder of "the right man in the right place."

Mr. Harry Phillips is hunting up subscribers for Stanley's forthcoming work, for which he informs me he is sole agent for this country. He says he thinks it will be very popular but finds that there are great numbers of books on the go for getting up to be Stanley's which are only "a get up" to sell on the great popularity of the famous author and traveler.

on present including Lieut. Governor Tilley, Attorney-General Blair, Mayor Allen, chief Supt. Crockett, Prof. Burwell, the professors of the university and many citizens. A pleasing feature of the morning's programme was the presentation of the Governor-General's medals to the winners by his honor the Lieutenant-Governor. The successful competitor of the senior class was Miss Annie Moore of Fredericton, Minnie C. Edgar of Chatham carrying off the junior honors. His Honor made a pleasing address to the students and the presentation of the medals. Attorney-General Blair was next introduced and made a very happy speech, which was received with great applause. Principal Mullin and Chief Superintendent Crockett delivered good practical addresses, and the interesting proceedings terminated with the singing of God Save the Queen.
