TERCENTENARY CELEBRATIONS.

Annapolis Crowded and En Fete Today.

Visitors Flocking Into St. John—The Royal Society Has the Floor Today.

ANNAPOLIS, N. S., June 21.—The tercentenary celebration of the founding of Port Royal by De Monts opens in Annapolis today. The town is filled with visitors, including a large number of distinguished persons. The French cruiser Trousse, the U. S. training ship Topaka and the flagship Ariadne arrived earlier in the week, and the United States ship Detroit arrived this morning and sailed. Capt. Silligham, her commander, the American government's special representative, and spoke from the rostrum erected in old Port Anne.

The Ariadne sent her Jack tars up by train from Digby. Admiral Douglas coming in the picket boat with Capt. Browning, Commander Webb and Col. Connor, R. E. The town is full of visitors and has a military aspect which probably has not been excelled since the days in 1710, when it was captured from the French by General Nicholson and finally ceded to the crown of Great Britain.

The speeches at the demonstration this morning were all short, none of them being more than ten minutes in length. The opening address was delivered by Hon. J. W. Longley, other speakers were the Lieutenant Governor of Nova Scotia, Mayor King, Consul General Kieckhefer, Capt. Dillingham, Hon. A. Hargrove of Quebec, and Archbishop O'Brien. In the afternoon there will be a trip by steamer to Goat Island, the site of the first fort, where speeches will be delivered by Hon. Senator Poirer, Hon. Chas. Langille, Arthur Lord of the Massachusetts Historical Society, and W. C. Gaynor of the St. John Historical Society.

A public meeting will be held in the Academy of Music this evening, when Chas. Francis Adams, Hon. L. J. Tweedie, Prof. R. G. Thwaites, of Wisconsin, Rev. Dr. Forrest, Rev. Dr. Kierstead, President Hannah of King's College, John A. Cooper, of Toronto, and Judge Savary will speak.

So far the celebration at Annapolis has proved the drawing card in the Champlain tercentenary. It is not expected that there will be marked influx of visitors here until that portion of the entire celebration programme is disposed of. With it completed there will no doubt arrive here a large number of people who will take in the different portions of the programme at the various places where they are held. Still quite a number have already reached the city and Champlain souvenirs were somewhat conspicuous to-day. Last night's express from Boston brought in a party and the train which arrived this morning will contribute its quota to the number who came to take in the sights of the historic occasion.

The first approaches to the decoration of the city began yesterday, were continued today and King street, in particular, commenced to put on its celebration attire. All over the city flags were raised and the decoration on some of the city buildings are being rushed through to completion.

Many members of the various committees met at City Hall today, and put the finishing touches on their programmes. In that line now everything is now in readiness. All that is hoped for is the weather, although the slight fog of today is supposed to typify the feelings of the city just before the arrival of Monsieur Champlain.

The programme for today and tomorrow is entirely in charge of the Royal Society. About forty members, including some of the most distinguished men in Canada are in the city. The opening meeting opened at 2.30 this afternoon when the council of the society met. A general meeting for the transaction of business began at 3.30. This evening Col. Denison, the president of the society will deliver the annual address, the subject being "The Influence of the Loyalists on Canadian History." Col. Denison's ability as a lecturer is too well known to need comment and the society's invitation to the public to attend should be sufficient to fill the High School assembly room to overflowing tonight.

Tomorrow evening the Royal Society continues its meetings. In the afternoon, after luncheon with Mayor White, the members will be entertained at a picnic at Duck Cove and in the evening after Prof. Ganong's lecture will be entertained by Senator and Mrs. Edmund Champlain.

Thursday morning sees the regatta on the harbor; Thursday evening the Boys' Brigade parade and the literary evening in St. Andrew's church. Friday morning Champlain and his companions will land and the monument at Riverside Park will be unveiled. Friday afternoon there will be athletic sports and the unveiling of the tablet at the new public library. Friday evening the firemen's procession and the illuminated parade on the harbor will be the attractions.

There is lots of red tape concerning the movements of a lieutenant-governor as well as there is about other officials. For instance when H. M. S. Ariadne arrives Thursday morning Lieutenant-Governor Snowball will pay an official visit to Admiral Douglas, but officially he has not as yet any instructions as to calling on the commanders of the United States and French warships that will be in port on Thursday. Before he can visit these vessels it will be necessary to receive instructions from Lord Minto and undoubtedly they are on their way.

The proclamation published in the morning papers announcing that Lt-Governor and Mrs. Snowball would hold a public reception in the court house at noon on Wednesday is incorrect, in as much as the reception will take place on Thursday at noon instead of Wednesday.

In connection with Governor Snow-

6,500 WERE KILLED ON VAFANGOW FIELD.

One of the Bloodiest of Modern Battles—Port Arthur Holding Out—American Correspondent Shot.

ST. PETERSBURG, June 21, 2.30.—The reports of heavy fighting at Hai Chang are denied by General Vaff. The Japanese are expected to advance from Su Yen and there are continuous skirmishes between the two armies, but no further advance of General Oku's army is reported.

The losses at the battle of Vafangow are turning out to be heavier as further reports come in. They are now placed by a conservative official estimate at four thousand, but a well informed authority expects the number to total up to no less than 6,500.

POSSIBLY, June 20 (delayed in transmission).—The Russian force stationed at Slavianskaya on the Korea frontier has returned from that place, having waited two months for the Japanese advance.

LIAO YANG, June 20 (delayed in transmission).—A merchant of Port Arthur, who has arrived here, says the conditions in that town are practically unchanged. There is, he declares, no shortage of provisions and the garrison is in excellent health. No land attack has been made upon the fort, but there have been bombardments at long range by the Japanese ships which are cruising off shore.

Delroy, according to this merchant, is occupied by about one battalion. The

destruction of the docks there rendered the port useless for the landing steps guns. The Japanese losses in the fight at Vafangow, it is reported there, were 3,500.

NEW YORK, June 21.—A cable message to the World, which was unsigned but which the world says probably was forwarded by the American legation at Peking, announces the shooting of Col. Edwin Emerson, Jr., one of the World's correspondents in the East and conveyed the impression that he had been killed. The cable stated, it was reported that Col. Emerson had been shot by retreating Russians who mistook him for a spy. The special cable to the World, dated Peking says: "There are indications that the Russians have been routed. There is panic at Mukden. Emerson, the war correspondent is reported to have been shot. The retreating Russians believed him to be a spy."

A letter from Emerson was received by the World shortly before the receipt of this cable, dated May 14, contained these expressions: "Mukden is razed. No news can get out from there. I find I can get into the Russian lines."

Emerson left the Japanese army some time ago and pushed on to Mukden.

POLITICIANS POUNDED.

Rev. Dr. Brown Talks on Political Corruption at Methodist Conference This Morning.

Special to the Star.
FREDERICTON, N. B., June 21.—At this morning's session of the Methodist conference, the committee on temperance, prohibition and moral reform brought in its report, in connection with which Rev. Dr. Brown delivered a very broad and comprehensive address, in which he dealt with political corruption, commercial dishonesty and Christian stewardship and citizenship.

Some startling revelations were made concerning the inconsistency of politicians on the temperance question. He pointed out the appointment of a temperance committee on every circuit and a corresponding secretary for the conference.

E. C. Kennigan, George Morris, H. H. Marr and Wm. R. Pepper were voted to go to college for this year. Rev. Dr. McLeod was introduced to and spoke to the conference in his usual effective style to the great delight of all.

Dr. Brown for his address was moved by Dr. Stewart and carried unanimously.

The first annual banquet of St. Joseph's University took place last night, Judge Lundy presiding. It was a great success. About seventy guests were in attendance.

A FREE VERSION.
(New York Times).
Former Assistant Attorney General

the other day of "Matt" Carpenter, the famous Wisconsin senator, Carpenter was pleading a case before the supreme court. Before he got half through with his argument the judges had made up their minds that his case was without merit, and, moreover, that he was unprepared. When he finished his argument and counsel for the other side got up to reply the judges whispered to each other, nodded, and then the chief justice said:

"I don't think it will be necessary to hear from you, sir."

Carpenter's opponent was very deaf, and he could only tell that the chief justice was addressing him. He turned to Carpenter for aid.

"What did the chief justice say, Matt?" he whispered.

"He said he'd rather give you the case than listen to you," Carpenter bawled in his ear.

THREE G. P.'S. ESCAPE.

One Re captured by Plucky Policeman, Refuses Trial by Magistrate—Police Court News.

The tercentenary attractions proved too much for three members of the Rock Candy Mine gang and yesterday, shortly before noon they made a break for it. Two got away and have not been heard from since, but one unfortunate was captured.

The two who got away were Michael Barry and Frank Allison. Just how they made their escape is not clear. The unfortunate man who was captured was Michael Hayden. He started on a run with Guard Beckwith in hot pursuit. Michael did not know the land very well and was soon confronted by Newman's Brook. He took to the water like a duck, but Beckwith was like a retriever and soon had his man.

The morning Hayden pleaded guilty but said he did not wish to be tried by the magistrate, preferring to tell his troubles to a jury. He was remanded.

Four drunks were disposed of. One remarked that it was two years since he had been in court and asked for a chance. His honor remarked that the court was no place for chances. He got a certainty of thirty days.

Mrs. Josephine McCarthy, who was accused of allowing a dog to run at large in the park, explained that she did not know the dog, but she took it to the park, and never saw it till a few minutes before Park Policeman Knox spoke to her. The case was dismissed.

Starling Master Paris complained that Captain Thorne had berthed his schooner, the Fraulien, at Lloyd's slip without permission. The captain pleaded ignorance of the law and promised never to do it again. He was allowed go.

Oeo. Addison was arrested on a charge of abusing his wife. The two thrashed out their family row and then used an old phrase "washed their dirty linen" to their hearts' content. Addison was fined \$20. The fine was allowed to stand.

NEW LIGHT.

(Exchange).
Lady Florence Dixie, formerly the most noted sportswoman in England, and now resolutely devoting her time against cruelty, says:

"I have seen the terror-stricken orb of the red deer, full of tears, glaring at me with mute reproach, as it sobbed its life away, and that same look have I seen in glorious-orbed guinea of Patagonia, the timid gazelle, the graceful and beautiful koodoo, springbok, etc., of South Africa, seemingly, as it were, reproaching me for this lightly taking the life I could never bring back. So, too, I have witnessed the angry, defiant glare of the wild beast's fading sight, as death, fast-coming, deprived him of the power to wreak his vengeance on the human aggressor before him. And I say this: The memory of those scenes brings no pleasure to my mind. On the contrary, it haunts me with a huge reproach, and I wish I had never done those deeds of skill and cruelty. I will not again raise gun or rifle to destroy the glorious animal life of creation. Savagism still dominates us in a great degree. A higher education and civilization will teach us to despise amusements which are purchased at the expense of suffering to animals."

REFUSES ROOSEVELT'S APPOINTMENT.

WASHINGTON, June 21.—The Post today says: President Roosevelt has formally invited Paul Morton to become secretary of the navy. Mr. Morton has the matter under consideration and has not yet given any indication of acceptance or declination. It is believed he will decline. He is a delegate to the Republican nation convention.

WORST FEARS ARE JUSTIFIED.

General Slocum's Death List Exceeds 1000.

750 Bodies Found; Over 300 Still Missing—Evidence Against Owners and Officers.

NEW YORK, June 21.—The harvest of victims who lost their lives in the General Slocum disaster continues to-day. All through the night, despite the terrific electrical storm which swept over the city, the searchers held to their work. Early today the number of bodies recovered had reached a total of 770, and it was expected that the day would add to the number. It was hoped that identification would materially reduce the list of missing before midnight. An alarming result of the developments of the past three or four days has been that although more than 300 bodies have been taken from the river, the list of missing has remained almost unchanged. Early today the total of bodies recovered exceeded 750 and the list of missing continued well in excess of 300. Last night proved the most trying period in their long vigil, for the watchers who patrolled the river in search of dead, drowned and blinded by the down-pour of rain, which accompanied the terrific electrical storm which broke at midnight, the watchers kept their vigil, the little boats circling about the wide stretch of water between the island and mainland. One bright flash of lightning revealed to the men on watch at North Brother Island, two bodies floating in the water, and soon the bodies of a young woman and an infant girl had been added to the row of unidentified dead on the island. In a like manner other bodies were found at many points and the list of recovered bodies steadily increased.

Many of the bodies taken from the river today were in such a condition as to make identification next to impossible. The coroner's inquiry into the General Slocum disaster was begun today. Among those examined were the president and secretary of the Knickerbocker Steamboat Co., and several members of the crew. Evidence given showed that no instruction in fire drill was ever given the crew and the deck hands; that the boiler was rotten and burst as soon as it had been connected; that the life preservers were not in good repair and that inflammable material was lying around loose in the room where the fire started. It was also stated that it was the custom of the men to light matches in the locker when looking for anything. Very little effort was made to check the furnace and the panic prevailing made it almost impossible to do anything.

REPUBLICAN CONVENTION OPEN.

CHICAGO, June 21.—The Republican National Convention, the thirteenth in the party's history, met in the Coliseum at noon today and organized. The grand climax, the nominations, will not be reached until the third day. Thousands of delegates are in attendance. Underneath the Rostrum and stretching the whole length of the basement was one of the most curious sights of the convention, the paraphernalia and the workers who communicated to the millions what the thousands saw. In this space was led hundreds of wires, more than five hundred, that connected directly with the principal newspapers of the country, and with the agencies that transmit news over seas. More than 100 telephones were working and upwards of 400 telegraph instruments. A thousand reporters, operators and messengers manned this intelligence machine.

Here you are—in trouble again, said the colored seaman. Didn't I tell you to fight yo' way only wid de sword or de spirit?

Yes, sah, replied the penitent. But de razor was so handy—Atlantic Constitution.

Yesterday afternoon, about five o'clock George Lewis, an Englishman, working in M. R. & A's, accidentally fell down the elevator shaft from the 4th floor. He struck the top of the elevator, which was at the bottom floor and then fell to the floor. He was taken to the hospital in the ambulance and was reported this morning not to be very badly hurt.

SEVENTEEN MILLIONS.

Some prominent lumbermen who came to St. John last night from away up river report important information about the condition of logs up above Grand Falls. The Pond concern, who handle all the logs brought down to and over Grand Falls, have succeeded in getting over that place some 40,000,000, which had been held over since a year ago and over 100,000,000 of the last year's cut. Between 15 and 17 millions of logs destined for St. John will probably be held up. The greater portion are for Randolph & Baker. This stuff is held up at Meemeooc lake, some 45 miles above Port Kent. Of the cut on the Aroostook it would seem that all but the Aitken cut will be got out. Mr. Aitken has produced some seven or eight millions of logs and it is reported about half of this production has gone over Grand Falls. There may be some chance of getting some more of it out.

TEMPERANCE CONVENTION.

The temperance conference which is to open in the Leinster street Baptist school room on Wednesday, has created considerable interest. Among those who will take prominent parts are H. E. Thomas of Campbellton; Dr. McLeod of Fredericton, and L. P. D. Tilley, Edward A. Everett, grand scribe of the Sons of Temperance, has received letters from all parts of the province giving names of delegates intending to be present. The convention will open at three o'clock and will be continued in the evening.

The Clippers will meet the St. Josephs this evening and the game is expected to be a close one.

The Foresters defeated the Thistles by a score of 10 to 3. Batteries for the Foresters, Kilien and Stone; and for the Thistles, Money and Roderick. The Foresters challenge any team under thirteen.

The Shamrocks of York Point challenge any team under thirteen and accept the challenge of the Queen Street Franklins, 6; Portlands, 5.

On the Shamrock grounds last evening the Franklins downed the leaders in a closely contested game. The play was rather sloppy, the Portlands having seven misplays, Titus and Nesbitt did the picking and broke even.

SLUR ON AN OLD SOLDIER.

(Toronto News)

To the Editor of the News
In the column headed "The Day's Gospel," in your number of yesterday, I find the words:

"When Canada convicted the late General Middleton of stealing furs, he went to England, and his Sovereign promptly endorsed the punishment inflicted here by appointing him to the honorable position of keeper of the Tower of London."

Permit me to assure the writer that he does great injustice to the memory of a worthy old soldier, and one who had served Canada well. The object of General Middleton's assailants probably was to win the suffrage of the French, against whose kinsmen in the Northwest General Middleton had successfully commanded. He was accused not only of stealing furs, but of stealing a billiard table and a horse. Hard pressed by his political assailants, and confused by their attacks, the old soldier found a friend who thoroughly examined his case and stated in print. The charges, having served their purpose, and having been utterly confuted, were dropped and were heard of no more.

AN EX-CANADIAN'S PROPHECY.

(New York Times)

Now that New York's tunnel is nearly completed and its attendant annoyances are vanishing, the friends of John B. McDonald are recalling a story of his early struggle with the great project of burrowing under Manhattan Island from the Battery to Harlem.

With a silver pickaxe and surrounded by many friends, Mr. McDonald had just broken ground for the first tunnel work in the Washington Heights section. After the ceremony he was walking toward the home of his friend John Whalen, who had invited the party to luncheon.

"Do you see those tombstones over there?" toward Trinity cemetery. "Yes," said Whalen. "What about 'em?"

"Well," sighed the contractor, "the folks under those stones will be the only people that ain't kickin' before this subway diggin' is finished." Mr. Whalen says he believes "Johnny Mac" is the best prophet he ever knew.

The bride was unattended. C. Ashley Harrison and Robert Thorne, friends of the groom, were the only people present. The ceremony was performed by Rev. J. H. Roach. One of the contributors to the splendid program prepared for the concert in St. Philip's church on Thursday evening is Mrs. Ida Allen, of Halifax and Truro, a noted singer, who has been filling engagements in all the larger cities of the eastern province.

The sign of the big shoe over the door, Wm. Allan, formerly boot and shoe repairer of Philip Street, has just opened a shoe repairing shop at 688 Main Street, where he will be pleased to see all of his old customers and as many more as will favor him with a call.

The Jere McLaughlin Co. opened a week's engagement at the Opera House last night. The audience was large and very enthusiastic. The play, Between Love and Duty, was acted as well as such a play deserved to be. The specialties, as usual, with Jere McLaughlin's companies, were the best feature of the show. Jere himself made his usual hit.

Color Sergeant Kelley, who is stationed at Fredericton, but lately has been in charge of the signal corps class for some weeks, has gone back to Fredericton. Sgt. Kelley expects to return to St. John as soon as the Sussex camp is over. Mr. Kelley was a non-commissioned officer with the Inniskilling Fusiliers, the 27th, and has three medals that he won in the last South African campaign.

THE NEW PARK HOTEL.
Proprietor Damery celebrated the Re-opening Last Night.

The old Park Hotel is no more, and in its stead stands one of the best furnished and best appointed houses in the province. As the proprietor and manager, Charles Damery, says, everything is brand new and up-to-date. This proved to be a number of new guests, who took them through the building from top to bottom and the only fault they could find was that they had to walk, as the elevator, one of the improvements, was not running. It is running today.

The rooms are all large, well lighted and furnished in the most up-to-date style with new carpets, iron and brass beds, etc.

After making an inspection of the house Mr. Damery entertained his guests with an excellent dinner, which would do credit to the best chef in the land.

The carpenter work on the re-modelled building was done by Edward Bates. The elevator was built by Messrs. Myers.

The hotel is open for public inspection this afternoon up to five o'clock.

A SAD BEREAVEMENT.
Much sympathy is felt for Mr. and Mrs. Edgar Edgett in the death of their little daughter, Lillian Gladys, which took place today in the eleventh year of her age. A few months ago Mr. and Mrs. Edgett lost their fourteen-year-old son, Wallace, and since her brother's death the little girl has grieved constantly. It is thought that the child's illness was in part caused by her grief and loneliness for her playmate. The funeral will be held at her father's residence, 33 St. James Street, on Thursday afternoon, at 2:30 o'clock, to Trinity church.

GOOD ENTRIES.
Entries were received last evening from Mart, of Norton, who recently won the hurdle race and pole vault at the college sports, also from Jones, Halpin and Donohue, of Charlottetown. It will be remembered the excellent performances given by Jones in the late college sports, when several first places were secured. Mr. Halpin's reputation in the pole vault is well known. In the sprint, high jump and weights Mr. Donohue is considered one of the best all-round athletes in the province.

J. B. M. Baxter made a motion for an order permitting the adoption by Mr. and Mrs. James S. Lemon, of Winifred Cochran. An order was made.

A GOOD SHOW COMING.
W. S. Hawkins Company, shortly to appear here at York Theatre, "A Night's Frolic" certainly secured a prize in the engagement of Miss Louise Valentine. This young lady in addition to her beauty and decidedly clever act for novelty certainly demands recognition. She sings the latest "coon" songs, accompanied herself on a banjo strapped on her shoulders, and in addition gives clever step and clog dances to her own music. In other words she is a whole show in herself.

2. Green v. Scovill—Scott E. Morrell.

3. Mandell v. Kennedy—C. J. Coster.
4. The Cumberland Coal & Railway Co. Ltd. v. St. John Pilot Commissioners.

The following grand jurors were summoned:—Beverly R. Macaulay, foreman; Michael A. Finn, James G. Carleton, Geo. E. Holder, Thomas L. Coughlan, Geo. L. Barbour, Frederick A. Peters, Wilfred M. Barlow, Edward W. Stupp, W. Tremaine Gard, Frederick W. Daniel, Harry W. Machum, Oliver O. Akersley, Richard O'Brien, John Sealy, Walter P. Leonard, Robt. R. Patchell, Wm. V. Barlow, Frank G. Bent, Edward Finnegan, D. Carleton Finch, James R. Ferguson, J. Harvey Brown, and Henry J. Sullivan. Five grand jurors were absent.

The judge addressed the jurors briefly, regretting that there were so many of them absent. One case only required their attention and that was a very serious one. Louis Bailey was charged with stealing on the morning of the 26th May in the dry goods store of P. A. Dykeman a piece of silk and the evidence, his honor thought, was strong enough for the finding of a true bill.

The grand jury found a true bill. The court adjourned till ten o'clock tomorrow when the criminal case will be taken up.

TO MAKE MARKSMEN.
New Invention for Indoor Instruction in Shooting Shown to Local Militia Men.

Officers and men of the St. John militia are witnessing this afternoon a demonstration of one of the newest military inventions, a remarkable machine for the training of marksmen.

By the use of this device, which is mounted on the Sub Target Gun Machine, instructors can see and correct the faults of beginners and teach them in no other way. No ammunition is used. On the machine, under the rifle and out of sight of the marksmen, is a little pastboard target corresponding.

on a reduced scale, to the target at which the rifle is aimed. A steel needle follows, on this miniature target, the precise course followed by the rifle with reference to the distant target. If the man aiming the rifle is pointing away from his mark the needle swings clear of the small target; if the marksmen is aiming at the bullseye, the faithful needle points directly at the miniature bullseye; when the trigger is pulled the needle punctures a hole in the miniature target in precisely the same place as the bullet would have hit the distant target had the rifle been loaded.

As the instructor watching the movements of the needle can see the failings of his pupil as he could not in any other way, the value of the invention is manifest. The local militia officers are enthusiastic over its possibilities.

The machine is being shown by Lt. Colonel Hardman of Ottawa and F. W. Pierce of Boston.

PRESENTATION TO THE MAYOR.
Former St. John Man Makes His Worship a Beautiful Present.

T. D. Gard, a former resident of St. John, but now in the jewelry business in Worcester, Mass., is in the city in company with his wife and are visiting Mr. Gard's brother W. Tremaine Gard.

Mr. Gard, who was at one time a fireman here called on Chief Kerr this morning and requested that gentleman on his behalf to visit City Hall and make a presentation to his worship. The chief quickly gathered about him a number of former residents and prominent citizens and invaded the mayor's office.

In making the presentation, a handsome jewel in the form of a city coat of arms with the Union Jack and United States flag above in gold and of splendid workmanship, all the work of Mr. Gard, Chief Kerr said that he had been requested to make the presentation by a former citizen and fireman, who felt in visiting the city after a long absence, he should in some way do something to commemorate the visit and had decided to do so by presenting the jewel to his worship.
