BERLIN, March 6.—The situation between Austria-Hungary and Servia, arising from the efforts of the latter country to secure compensation for the assassination by the Dual Monarchy of Bosnia and Herzegovina, was today acknowledged to be disquieting. This is, however, this morning, the issues are more clearly defined than before.

It can be said with authority that everything now depends upon the position Russia takes in the matter. The situation stands as follows: Servia has undoubtedly renounced all her direct demands, both territorial and economical, but at the same time she charges Russia to place these demands before an international conference.

Austria-Hungary is prepared to grant favorable commercial and economical compensations to Servia if Servia consents to negotiate direct, but should a conference be called to negotiate with these questions, Austria-Hungary with the support of Germany, would oppose any concessions.

VIENNA, March 6.—Count Forstch, the Austro-Hungarian Minister at Belgrade, has been instructed to inform the Servia Government that Servia for the last month, the Government of the Dual Monarchy, to his regret, has not been in a position to submit a renewal of the commercial treaty with Servia, which expires March 31 for Parliamentary sanction. The Austro-Hungarian Government, Count Forstch is instructed to add, cherishes the confident hope that Servia, who it is generally understood, has in accordance with the advice of the powers, decided to change her policy with regard to Bosnia and Herzegovina, will notify Vienna of this wise resolution as well as of her intention to maintain peaceful and neighborly relations with Austria-Hungary. As soon as this notification is received, Austria-Hungary will be prepared to negotiate the questions of trade intercourse pending between the two countries.

SEAN FRANCISCO, March 6.—A special from Portland states that Richard Cornett unearthed \$2,000 in gold dust and nuggets while he was spading in his potato patch near that city. The treasure, which was in a rusty tin box, is supposed to have been buried by an old Australian miner who died in a cabin on the property over 30 years ago. After the box had been found it was discovered that the place had been marked by 23 spikes driven in a log nearby. They were in a row pointing toward the treasure, which was just 25 feet away. The old miner had confided to his neighbors that he was rich but no one believed him. Now that the treasure has been uncovered, hundreds of the residents are searching for more.

HAVANA, March 6.—The general amnesty bill which was among the first measures introduced in the new Congress and which was intended to signalize the restoration of the republic, passed the Senate today. The House previously passed the bill. The measure provides for the release of practically all prisoners sentenced since January 28, except those guilty of murder, homicide, in the commission of robbery, or crimes of exceptional atrocity.

St. Peter's Bowling Team Find the C.M.B.A. No Easy Marks

SCORE 1249-1209

The St. Peter's bowling team were victorious over the C. M. B. A. in a fast match on the Victoria Athletic Club alley in the Inter-Society League last night. Cronin and Downey secured the highest averages for the winners, while Magee and Dever bowled well for the C. M. B. A. aggregate.

St. Peter's captured the first string without any great difficulty. The C. M. B. A. turned the tables in the second string, but the St. Peter's had 51 points to spare on the third and final string. The aggregate score was one thousand two hundred and forty-nine to one thousand two hundred and nine. The winners secured three points to the C. M. B. A.'s one.

TWO FAST GAMES FOR NEXT WEEK

Algonquins and Portlands Will Clash Again Thursday Evening

Basketball fans in the city are looking forward with much interest to two fast exhibitions which will take place after week. The Montreal High School quintette will clash with the Exmouth Y. M. A. aggregation in the old Glad Tidings Hall on Brussels street. A fast and exciting contest will no doubt take place, as both teams are evenly matched. The boys have met on two previous occasions and both are confident of winning. The match will start at eight o'clock and doubtless a large crowd will attend.

The Algonquins and Portlands will meet on Thursday evening next in the rooms of the former association on Montreal street. Intense interest prevails in the game, which will be the second in the series for the city championship. The Portlands were victorious at the last meeting by a score of 14 to 11. However, the Algonquins realize that a loss will cost them the championship and are determined to come out ahead. Both teams will present formidable line-ups and it will be a battle royal from the start to finish.

MALONEY PROVES AN EASY WINNER

NEW YORK, March 5.—Matt Maloney of Yonkers, N. Y., who on December 23 last won the Rye-to-Manhattan Marathon race in the fast time of 2:36:15, and the amateur indoor Marathon at Madison Square Garden two weeks later, easily defeated Paddy White, the Irish champion, tonight. The race took place in the Sixty-Ninth Regiment Armory.

White had to quit in the 20th mile, Maloney at that stage being three quarters of a mile in the lead. He was taken to his dressing room suffering from contracted muscles of his leg. White said this was caused by his continual turning to the left side. He is not used to running on oval tracks, all his previous work having been done in the open.

The prizes for tonight's race were \$150 to the winner and \$50 to the loser. The Marathon Athletic Club announce their intention of holding the Marathon championship skating races in the Victoria rink on Friday evening next. All the fast local flyers have signified their intention of starting in the events and the entry list will be posted at once. Many outside skaters will also compete in the events. Bouche, the fast Springfield man, and McDougall of Westville, with other Nova Scotia skaters, will be on hand, while Smith and McKinnon of Montreal will also participate. The recent sports conducted by the Marathon Club were a great success, despite the bad storm of the evening.

MONTREAL BOYS WERE DEFEATED

St. John Skaters Prove Superior

GOOD NIGHT'S SPORT Honors of Evening Divided Between Wright and Belyea

The fastest field of skaters seen here in recent years participated in the Eastern Canadian championship races in the Victoria rink last evening. The 1,000 or more persons in attendance were treated to several very exciting contests.

Ernie Wright and Hilton Belyea divided the honors of the evening. Wright skated splendid form, capturing the 220 and 440 yards. He also showed good form. He was the winner in the 880 yards and one mile. The West Side man secured second place in the 440 yards. After finishing his heat in the 440 yards, Fred Logan was defeated by Wright and Belyea in the final. The city skaters secured second in his heat in the 220 yards, but was scratched in the final as well as in the half mile and one mile. Great credit is due to the Montreal boys for their splendid performances. Wright at the short distance is a wonder, while Belyea is certainly at home at the half and one mile.

Finlayson, Wheeler and Logan, the 3000 yard race, on the ice and skated well. Finlayson was on deck in the 220 and 440 yards, securing second in the final of the former event. Wheeler did well in his heats and captured the senior boys one mile. Logan is a pretty skater and in the junior boys skated a nice race.

Under the management of Isabell the boys made a creditable showing when it is considered they did not reach the track until a few hours prior to the starting of the sports. Finlayson, Wheeler and Logan also skated well in the different races. The first heat of the one mile was the opening event of the evening and was called by Starter James Fulton shortly after eight o'clock. The following men responded to the bell Russell, Wheeler, Montreal; Wm. Bell, Hilton Belyea, and Charles Campbell. The race was keenly contested. Belyea went ahead from the start and skated a fast race. At ten paces he put on a furious spurt, but Wheeler, who was on the outside, was able to catch him and finished a close second. The time was 3:33.

In the second heat of the same event the starters were Chas. H. Smith, Montreal; M. Bell, A. Tracey, William Riley and Robert Belyea. The contest was again exciting. Bell secured the premier position, having a lead in the early stages of the event. Smith and Riley by a few feet lost second position. The time was 3:33.

Joseph Harrington skated alone in the third heat of the mile. He made a good showing, qualifying for the final in this event. The time was 3:37.15.

The small boys' race was the next event called and was productive of much fun. The little fellows put up a game race. Boyer captured the first heat, Kinella, who fell at the start, finished in second position. The time was 2:11.

Logan and Kelly secured first and second positions respectively in the second heat of the small boys. In the final Kinella came out in third position, and Logan finished second. The time was 2:13.

The junior boys race attracted much attention. Logan, the Montreal skater, entered in this event. The last made his appearance in the first heat of the race. Cunningham captured the premier position, but was put on a good spurt toward the end and was sure of a place when he fell. The time was 1:54.

Garnett was the winner in the second heat of this race. Gordon Nuttall was the runner-up. Logan came in second position, giving way to Belyea. The time was 1:54. In the final Garnett got away from the bunch on the fourth lap and was not headed again. Cunningham went after his man with a desperate spurt, but could not secure the first position. Logan came in third in the event. The time was 1:52 3/4.

Finlayson, the Montreal skater came to the scratch for his first race of the evening in the 440 yards. In the first heat Finlayson started a fast clip and Logan secured second. He succeeded in maintaining his position. The 440 yards second heat was one of the best races of the evening. Hilton Belyea and Russell Wheeler again came together in a great sprint. The Montreal man showed the West Side skater the limit and on the last lap both men came even and crossed the line together, making a dead heat. The time was 43 seconds.

In the final of the 220 yards. This race was also exciting and hotly contested. The half-mile race was called on toward the close of the evening. Tracey went into the lead in the first heat at three laps and completed the distance in first place. Bell was second. The time was given at 1:33.

Belyea secured the second heat and also won out in the final of the event. In the senior boys the starters were McCleod, R. Belyea, Campbell, Wheeler, Inghram and Coleman. The event was hotly contested. Towards the last of the race Inghram took the lead. He, however, relinquished the position to Wheeler on the thirteenth lap. Coleman finished second and R. Belyea third. The time was 3:11. Inghram complains of a heavy cold.

The painters, carpenters and bakers' race, with the other events on the programme were also greatly enjoyed and much fun resulted at the antics of the contestants.

During the evening Chestnut gave an exhibition of backward and fancy skating.

Considering the weather the ice was in fairly good condition, but was not good enough to permit of records being broken.

The Vic's Own Band furnished an excellent programme throughout the evening.

The complete summary of the events skated last evening is as follows: One mile (first heat)—H. Belyea, 1st; R. Wheeler, Montreal, 2nd. Time, 3:33.

One mile (second heat)—M. Bell, 1st; Charles H. Smith, Montreal, 2nd. Time, 3:33.

220 yards (first heat)—H. McCleod, 1st; J. Harrington, 2nd. Time, 24 seconds.

220 yards (second heat)—Finlayson, Montreal, 1st; W. Riley, 2nd. Time, 24 1/2 seconds.

220 yards (third heat)—E. Wright, 1st; Logan, 2nd. Time, 24 seconds.

Bakers' race (half mile)—A. McBeath, 1st; M. Daley, 2nd. Time, 2:18.

440 yards (final heat)—Wright, 1st; Finlayson, 2nd; Riley, 3rd. Time, 23 seconds.

THE HIGHEST TYPE OF ENTERTAINMENT IN THE HISTORY OF THE WORLD.

Famous Educator Praises Motion Picture Shows.

"Attracting Millions to an Uplifting"

PROFESSOR FREDERICK STARR, OF CHICAGO UNIVERSITY, one of the foremost educationists in America, whose opinions are considered golden by those interested in matters that pertain to the welfare of the people, in the course of a recent lecture, made the following references to motion picture entertainment:

"I HAVE SEEN NIAGARA THUNDER over her gorge in the noisiest frenzy ever to be witnessed. I have watched a Queensland river under the white light of a Australian moon, upon whirling and swirling through strange lands lurking with bandicoot and kangaroo; I have watched an English railway train draw into a station, take its passenger and the chug away with its stately little engine through the Yorkshire Dales, past old Norman abbots, silhouetted against the sky line, while a cluster of century-aged cottages looked up in the valley below, through which a yodl-drove the flocks of Southdowns; I have been to the Orient and gazed at the waterfalls and beggars and dervishes; I have beheld fat old Rajahs with the price of a thousand lives bejeweled in their monster turbans, and the price of a thousand deaths even in their royal nightgowns as they indolently swayed in golden howdahs, borne upon backs of grunting elephants; I saw a runaway horse play ball-door and shuttles with the citizens and traffic of a little Italian village, whose streets had not known so much commotion since the setting of Columbus; I know how the Chinese man lives, and I have been through the home of the Japanese; I have marvelled at the daring of Alpine tobogganists and admired the wonderful sky jumping of Norwegian sky jumpers; I have seen armies upon the battle-field and returned in triumph; I have looked upon weird dances and outlandish frolics in every quarter of the globe, and I didn't have to leave Chicago for a moment.

"The talking machine has caused the great voices and master melodies of our time, but the moving picture machine has done more—it is making for us volumes of history and fiction; it is not only the great impulse of entertainment, but the mightiest force of instruction. We do not analyze the fact that when we read of an English wreck we at once an English train before us, or when we learn of a battle that an altogether different panorama is visualized than our former cross-section impression of a hand-to-hand conflict; we are familiar with the geography of Europe; we are well acquainted with the life of Frenchman, in what sort of a home he lives, and from what sort of a shop he buys his meat and greens. "We take so much for granted; we are so thoroughly spoiled by our multiple impressions that we do not bestow more than a passing thought upon our advantages, because the moving-picture machine is an advantage—a tremendous vital force of culture as well as amusement. An economy not only of money, but of experience it brings the world to us, it delivers the universe to our theatre seat. The moving picture is not a makeshift for the playhouse; its dignity is greater, its importance far beyond the puny function of comedy and tragedy. It is a clean entertainment, lecture and amusement all rolled in one; in its highest effort it stands above literature; in its less ambitious phase it ranks above the tawdry show house. It teaches nothing harmful, and it usually teaches much that is helpful.

"No books have taught me all these wonderful things—no lectures have pictured them—I simply dropped into a moving picture theatre at various moments of leisure, and at the total cost for all the joys of perhaps two performances of a foolish musical show I have learned more than a traveller could see in the course of thousands of dollars and years of journey. "Neither you nor I fully realize what the moving picture has meant to us, and what it is going to mean. As children we used to dream of a journey on a magician's carpet to the legendary lands, but we can rub our eyes now and witness more of a foolish musical show than Aladdin could have by rubbing his fatty lamp. But we're so matter-of-fact that we never think of it that way. We are living at a mile-second pace in the swiftest epoch of the world's progress—the age of impossibilities come true. We fly through the air with our eyes now and witness more of a little spark from a pole on one shore of the Atlantic to another pole on the other side, and so we take as a matter of course that which our grandfathers would have declared a miracle.

"The moving picture is not a makeshift, but the highest type of entertainment in the history of the world; it stands for a better American, because it is attracting millions of the masses to an uplifting, drawing them an improving as well as an amusing feature of city life. Its value can not be measured now, but another generation will benefit more largely through its influence than we of today can possibly realize."

ST. JOHN, N. B., MARCH 6, 1909.

DR. DANIEL'S TRIFLING.

It is quite characteristic of a giraffe, polar bear, elephant or father-in-law's gift when he gave his daughter away. Such gifts have made men poor in a number of instances. Many a man has lost a fortune when he thought he had given one. The gift of a farm or house in town worth many thousands of dollars has sent many a young man to the police court, penitentiary or poorhouse. I cannot make you believe it, or refuse to accept a gift because it may be very likely do you more harm than good. The best way to get houses or farms is to earn them. You are more likely to keep them than if they are given to you. But there you try me with a house or a horse and see if I practice what I preach? Speaking of horses reminds me how the gift of a horse has made many a man poor. The faster the horse the poorer the man became. In the first place he did not need the horse. He had nothing for it to do. He had no barn and he had to build one. He had no harness nor carriage, and he had to buy them. He had no hay and oats and he had to buy these. And if he had no work for the horse to do, the horse was a waste of money for him to do, in feeding him and cleaning him. The horse made him waste his time, he neglected his business, or asked for more holidays that he needed, for the horse and wanted many minutes in which to go a mile, he went to the dogs quite as deliberately as the horse went to his mile. If he were a fast horse his owner went to the devil faster than the horse went to the winning. In spite of the many proverbs, "Not to look a gift horse in the mouth," you had better look at your horse's mouth and send it back to the giver with thanks. If any one offers to give you a Kodak without giving you the materials for the development of all the snapshots you will take for as many years as the camera will last, don't you take that for your Kodak will prove to be a small elephant on your hands. Of course this is only a good advertisement for a Kodak for you will not take my advice, for advice is about the gift you will refuse to accept. Accept a few gifts as you possibly can, for you cannot afford to refuse them unless Carnegie is backing you for you will have to reciprocate unless you are a pauper. Refuse to do so you will lose your self respect. Give all the help you can in making people self reliant and self respecting, but don't make gifts to people that can get for themselves if they work for them. Don't embezzle people.

TO PROTECT BABIES.

The sanitary inspector of Leogate, a small mining and manufacturing town of Northwest Durham, is the promoter of an original scheme which he believes will result in a marked reduction in the infantile death rate. This inspector, whose name is Robson, suggests that an act should be passed compelling curfew bells to be rung in every town and city before 8 p. m. warning the people, parents of children, to have all children under twelve months old in bed at that hour. Such a law would be very difficult of enforcement, but its introduction even here in St. John, where the abuse of babies is so deplorably evident, might serve to remind thoughtful parents of the wrong they are doing their children. A large proportion of the deaths of infants is due to the custom so widely prevalent of keeping little ones out of doors at hours when they ought to be asleep. On the streets here every night parents can be seen even up till very late hours, dragging babies from place to place, exposing them to the damp night air and refusing them the quiet and sleep which every child needs. It is practically impossible to show that this maltreatment has an immediate effect, but it cannot be doubted that eventually the children's constitutions are destroyed and they more easily become victims of the ill of childhood.

THE CIVIC STAGNATION.

We are now well along in March and so far, although the civic elections take place in a very few weeks, there is absolutely no indication on the part of citizens in general that they desire any change in the system of civic government or in the personnel of the common council. Apparently, the people of St. John are quite prepared to let things run along as in the past, are perfectly satisfied with all that has been done by the present aldermen, and are not desirous of making even a minor change. Yet in private conversation there is a very rare payer in this city who expresses himself as content with the existing system. Everybody declares that something should be done, that there are men in the council who are absolutely useless and should be replaced, and that a change in the system of government which would relieve members of the council from much of the burdensome detail they are now called upon to transact, is advisable. Yet in spite of this feeling no one displays any desire to start a movement toward reform, and notwithstanding the energetic and oft repeated suggestions of the newspapers it seems to be settled that no steps will be taken, that is, no united demand for improvement be shown, this year. The aldermen, as usual, are congratulating themselves on the fact that the agitation promises to end in the customary way—in talk. Leon and Tony having been adjudged guilty of a coldblooded murder, are greatly worried over the position in which they find themselves. It is a shock to them to learn that they are to be punished under Canadian law for their foul crime. These men should have thought of this before they killed an inoffensive man.

SATURDAY SERMONETTE

GIFTS.

We all want to get them and we all ought to give them—if they are of the right kind. But many a man could, if he would, trace his descent financially and morally from the time when he was the recipient of a gift he congratulated himself. I am not thinking either of a giraffe, polar bear, elephant or father-in-law's gift when he gave his daughter away. Such gifts have made men poor in a number of instances. Many a man has lost a fortune when he thought he had given one. The gift of a farm or house in town worth many thousands of dollars has sent many a young man to the police court, penitentiary or poorhouse. I cannot make you believe it, or refuse to accept a gift because it may be very likely do you more harm than good. The best way to get houses or farms is to earn them. You are more likely to keep them than if they are given to you. But there you try me with a house or a horse and see if I practice what I preach? Speaking of horses reminds me how the gift of a horse has made many a man poor. The faster the horse the poorer the man became. In the first place he did not need the horse. He had nothing for it to do. He had no barn and he had to build one. He had no harness nor carriage, and he had to buy them. He had no hay and oats and he had to buy these. And if he had no work for the horse to do, the horse was a waste of money for him to do, in feeding him and cleaning him. The horse made him waste his time, he neglected his business, or asked for more holidays that he needed, for the horse and wanted many minutes in which to go a mile, he went to the dogs quite as deliberately as the horse went to his mile. If he were a fast horse his owner went to the devil faster than the horse went to the winning. In spite of the many proverbs, "Not to look a gift horse in the mouth," you had better look at your horse's mouth and send it back to the giver with thanks. If any one offers to give you a Kodak without giving you the materials for the development of all the snapshots you will take for as many years as the camera will last, don't you take that for your Kodak will prove to be a small elephant on your hands. Of course this is only a good advertisement for a Kodak for you will not take my advice, for advice is about the gift you will refuse to accept. Accept a few gifts as you possibly can, for you cannot afford to refuse them unless Carnegie is backing you for you will have to reciprocate unless you are a pauper. Refuse to do so you will lose your self respect. Give all the help you can in making people self reliant and self respecting, but don't make gifts to people that can get for themselves if they work for them. Don't embezzle people.

SHERRBROOKE, March 6—A case that is exciting a good deal of interest in the Springhill district is that of the late Malcolm C. MacLeod. The matter will be laid before the management of the C. P. R. and also the Railway Commission.

On December 18 last the late Mr. MacLeod was taken seriously ill, and Dr. Macgregor, of Lake Megantic, pronounced the patient suffering from a serious attack of appendicitis, and that an operation must be performed without delay. It may be mentioned that the patient was taken to the west-bound express to stop at three o'clock in the morning. This express was sent at a quarter past nine o'clock the previous evening, and at ten o'clock a reply was received signed by the superintendent, that the train could not be stopped. At a quarter to eleven the patient's condition becoming more serious, another message was sent by the doctor, as follows:—"Have arranged to stop patient to Springhill station at 1 o'clock. Very urgent."

No reply was received, and the doctor thinking that this last message was being acted upon, brought the patient to the station at the hour mentioned, but the train went past, without stopping. The suffering man had then to stay in the waiting room for over five hours before the local arrival, which brought him to Sherbrooke at 10.30. An operation was performed as soon as he reached the hospital, but the disease had gone too far, and he died in the afternoon of the same day. Dr. Macgregor states that MacLeod's chances for recovery would have been much better if he had been taken to hospital by the earlier train. The Sherbrooke doctor, who also attended MacLeod when he arrived here, stated that he would have had a chance for life if he had come on the earlier train, whereas on his arrival at 10.30 there was none. The fact that he had to undergo such a trial of his strength through waiting without proper treatment was very much against him. The people feel that if there is no law at present governing the stopping of trains in such urgent cases it is time that the matter was brought to the attention of the Railway Commission, so that they might pass legislation dealing with such cases.

SHADDEES DUPED BY "LORD" GIRL FLEES FROM PARENTS

ASHVILLE, N. C., March 5.—Miss Josephine Hood, of this place, who disappeared after her marriage with John Cavendish, alias Lord Sholto Douglas, was located here days ago in Tucuman, New Mexico. While plans were being made to bring her back, she fled, preferring to face the world rather than return to her relatives. Miss Hood married Cavendish at New Iberia, La., despite the opposition of her friends. After the wedding it became known that he was an impostor. The girl discovered this when she was deserted in Mexico. Search for her was started, it being thought that Cavendish killed her. It was by the merest accident that her family located her, after a search over the United States and Mexico. The search was participated in by Secretary of State Root, the American consul at Vera Cruz, and by police officials in many cities of the south and west. Mrs. John H. Hood, mother of the girl, who is now on her way to New Mexico to claim her long-lost daughter, will find, upon her arrival, that her quest has been in vain.

SUNDAY SERVICES.

E. meets on Monday evening at 8 o'clock. Midweek prayer meeting on Wednesday evening at 8 o'clock. A cordial welcome to all.

AN EXCELLENT NUMBER.

The March number of Busy Man's Magazine is filled with an unusually choice number of bright and entertaining articles which cannot fail to be of great help and benefit to all its readers. Each succeeding issue is evidently more instructive than its predecessor and affords a wider selection in the effort to cater to the taste of all classes. The contributions dealing with System and Business, Political and Commercial Affairs, the Life Stories of Successful Men, and clever fiction, as well as many other good things is evidenced by a glance at the table of contents. The original sketches and the selections from the leading magazines and periodicals of the world are all handsomely illustrated. The range of subjects may be gauged by the character of the titles. Among the latter are "Revolutionizing an Industry," "The Virtue of Thrift," "Piss," "The Business Race," "Who Owns the United States," "The Romance of the Baronet," "From Apprentice to Baronet," "Romance of a Famous Mining Camp," "Memoirs of a Great Editor," and "Motor Cars for the Millionaire."

STUDENTS HAVE PICNIC KIDDING GARRIE NATION

"Drink, Pappy, Drink!" They Sing as She Delivers Lecture.

LONDON, March 5.—Mrs. Carrie Nation was at Cambridge this week, having spent a great time among the students trying to wean them from the wicked pipe and wine glass. She appeared as a speaker in the intercollegiate debate between Orlin and Emmanuel, there were also lectures on the subject of the day. Mrs. Nation carried some notes, a small hammer and a large umbrella, and was dressed in somber black, with a black veil. As she began "My friends," "Hear, hear, hip, hip, hooray!" yelled the delighted undergraduates. Mrs. Nation warmed to her task, and the atmosphere warmed also. "I have approached you, crowded in London," she declared, amid cries of "Shame!" "Too bad!" "And music halls, my friends, are places where no respectable people can go."

IN THE MORNING

Try a Charcoal Lozenge and a Glass of Water if Your Breath is Foul in Your Mouth Tastes Bad

Immediately upon arising in the morning, should you have a bad breath and a disagreeable taste in your mouth, try a charcoal lozenge. Simply chew the lozenge up as you would so much candy and drink a glass of water, washing it down into the stomach in this manner. The effect is almost magical. The mouth becomes sweet and the breath pure and fragrant in a very short time. After a few days you will notice that your stomach is digesting food much better. All traces of gases and sour stomach will disappear, and the perfect assimilation promoted by a healthy stomach will build up strength and muscle, and your bad breath and coated tongue will be a thing of the past.

Stuart's Charcoal Lozenges are good for everybody at any time. Try them for sale everywhere, 25 cents a box. Sample box will be sent free by mail upon request. Address: P. A. Stuart Co., 230 Stuart Bldg., Marshall, Mich.

BURIED WEALTH OF LOBENGULA

Expedition to be Organized—Will Search for King of the Matchless Gold

LONDON, Mar. 5.—The latest story about a hidden treasure and an unsuccessful attempt to recover it comes from the Transvaal. It is not concerned with the mythical Kruger millions but with a mass of buried wealth which was once the property of Lobengula, king of the Matabelas.

Five men only knew the place where the treasure was deposited, and of them only one is alive today—John Jacobs, a native miner, who was at one time private secretary to Lobengula, and who has lately returned to Johannesburg after an expedition in quest of the treasure, which he says consists of \$14,000,000 in coin, 35 bars of gold, 110 wagon loads of ivory and 400 diamonds.

Rather than more than a year ago, according to the Transvaal Leader, Jacobs entered into negotiations with a Johannesburg promoter, as the result of which both men, accompanied by Jacobs' two sons and another man, set out for the north, tracking into regions rarely traversed by white people. They did not bring back the treasure, but say they are firmly convinced that they have found the spot where it lies. Difficulties of transport, the coming of food and water, etc., caused the abandonment of the search. Another expedition is to be organized.

Stuart's Calcium Waters are prepared after the most modern method of conveying the full strength of Calcium Sulphide to the blood. They lose none of it through evaporation and chemical change like most calcium sulphide remedies sold today. Stuart's Calcium Waters also contain Quassa, Golden Seal and Eucalyptus, all known purifiers of great power. Combined with these ingredients is a pure vegetable alterative and laxative which, when the other ingredients clear the blood from poisons and decay, throw off this impure matter from the system through the bowels and in a natural process presents it to the blood. Children and Pimples

Seem To Go Together and Yet Few Parents Appreciate the Warning

At the age of puberty most children are afflicted with pimples and many with serious skin eruptions. At this particular period in a child's existence nature is going through a transition which is of vital importance to the child and parent.

Pimples on the face of a child removed by Stuart's Calcium Waters.

The organs of the child all become larger. The skin begins to grow hair, the glands enter the blood and are thrown off usually from the face in the form of pimples. Mothers should seriously guard the child against serious blood impurity at this time. Our grandmothers gave sassafras, sassafras root, cream of tartar and sulphur every spring. These simple remedies did a good work, but science has discovered the most powerful and beneficial blood purifier to be Calcium Sulphide.

Stuart's Calcium Waters are prepared after the most modern method of conveying the full strength of Calcium Sulphide to the blood. They lose none of it through evaporation and chemical change like most calcium sulphide remedies sold today. Stuart's Calcium Waters also contain Quassa, Golden Seal and Eucalyptus, all known purifiers of great power. FLANNELETTE MAY BE MADE NON-INFLAMMABLE

Invention of a Ramsgate Man—Fustlers Officer Killed While Hunting—British News.

LONDON, March 5.—William Powey, aged forty-three, a Baptist minister, at the White Assizes, for attempted suicide, for sentenced to six months imprisonment in the second division. Prisoner's friends declined to accept responsibility for him. HONOR FOR MUTINY VETERAN. George Lawrence, an Indian Mutiny veteran, living at West End, Esher, has just received a medal for long and meritorious service. He is 84 years of age. He has also recently been granted an annuity of £10 in addition to his pension. 'TAINTED' EVIDENCE. The Court of Criminal Appeal quashed the conviction of James Beauchamp, who was sentenced to three years' penal servitude for "retaining the proceeds of a burglary," on the ground that evidence against the accused came from a tainted source—a fellow prisoner. OFFICER KILLED WHILE HUNTING. Lieutenant Napier Burnett Lindsay, First Royal Irish Fusiliers, while hunting with the Aldershot dog-hounds, was thrown from his horse and killed. At the inquest it was stated that in attempting to take an old timber fence the horse stumbled, turned completely over, and rolled on its side. NON-INFLAMMABLE FLANNELETTE. Flannelette tragedies are said to be rendered completely avoidable by the use of a new substance, the invention of Mr. Levens, of Tooting, Kent, Ramsgate. It takes the form of a solid or wash in which the goods that are to be rendered non-inflammable are immersed. The invention has been submitted to Manchester cotton experts, who are said to view it with considerable interest.

TO STUDY BARBADOS DISEASE

British Government Sends Expert to Report on Conditions.

BRIDGETOWN, Barbados, E. W. I., March 5.—As a result of the representations of the House of Assembly regarding a strange fever which has been prevalent here since December, Sir Robert Boyce, professor of pathology and dean of the Liverpool school of tropical diseases, will come here to study and make a report on the epidemic. It is thought to be yellow fever, but the fever has not attacked visiting foreigners. Its victims have been natives and chiefly blacks. The port of Bridgetown is free of the infection, which, however, prevails in the country districts.

WORK PROGRESSING MOST FAVORABLY

Quarterly Meeting of the W. C. T. U. Held Yesterday Afternoon

The regular quarterly meeting of the St. John County W. C. T. U. was held yesterday afternoon in Union Hall, North End, with the president, Mrs. James McAvity, in the chair. There was a large and representative attendance. At the opening of the meeting Mrs. David Hutchinson conducted interesting devotional exercises. Reports were presented from the city branch, North End, Fairville and Carleton. The various Young Women's C. T. U. were also in connection with the work and were also reported at the meeting. The work of the branches is progressing favorably. Much is being done towards relieving the poor by sending clothing and fuel. The meeting heard an excellent address on temperance by the Rev. W. R. Robinson, pastor of Ludlow street Baptist church. Miss Clara Pullerton also read a most interesting paper on the life of Abraham Lincoln. It was greatly appreciated by those present. The Union devoted some time to the discussion of the recent report of the Hazen government regarding the request for prohibition from temperance bodies. They apparently expected such a reply as the one given and do not regard it as unfavorable to the cause. The plans for the Dominion convention were also discussed. Strong committees will be appointed and a session will be called later to complete arrangements.

EXPERIENCE IS BETTER THAN ARGUMENT

The world-wide fame of Mother Seigel's Syrup is based on the evidence of men and women whom it has cured of indigestion, biliousness, constipation, headaches, sleeplessness, flatulence, nervous depression, anemia, and other disorders of the stomach, liver and kidneys. Composed of roots, and herbs, Mother Seigel's Syrup contains digestive ferment and gentle tonics for the stomach, liver and kidneys. These qualities render it invaluable to all who, through unhealthy surroundings, or sedentary occupation, worry, overwork, or climatic changes, lack the vitality which only good food, well digested, can supply. When you are tormented with indigestion, so that you can't eat, can't work, can't think, can't sleep, you should at once give Mother Seigel's Syrup a trial. Tens of thousands of people testify to the curative qualities possessed by Mother Seigel's Syrup because it has cured them. Profit by their experience! Here is some proof:—Mr. Christy Battersworth, Alabon, Inverness Co., N.S., writing on August 14th, 1908, says:—About eighteen months ago I took a severe cold, while at work near Marble Mountain, C.B. Neglect brought on frequent headaches, a racking cough and a sore side. While visiting a friend at Lake Umbagog, I was induced to take Mother Seigel's Syrup. In a short time my cough vanished and apart from obtaining a cure, I increased my weight by thirteen pounds.

affair has given a new theory regarding the Kinsade murder. It is argued by some that he is the murderer of Miss Kinsade and he has been in hiding since the shooting. It was stated last night that a kit of burglar's tools was found in the passage and a bag full of loot was near by. Only a chisel was found and the bag contained only some clothing, a pair of trousers, a couple of shirts and some collars. They were the property of Kappela. The fact that he took only such articles when there were valuables in the house is regarded as significant, and added to this is the fact that he had taken his lunch there that evening. The police do not regard the theory as probable and stick to the original one in the murder case and believe that this man was a professional crook. Both wounded men will probably recover.

CHARITY BALL WAS A GRAND SUCCESS

British-Dorn Residents of Boston Enjoy Themselves for Charity

The British born residents of Boston and vicinity are feeling quite elated over the success of their first charity ball, which was held at Intercollegiate Hall, Roxbury, last Friday evening. This is the first time such an affair has been held here, although there are in Boston nearly a score of social and fraternal organizations made up of persons of British birth or affiliations. The oldest of these is the British Charitable Society, and it was the energetic president of this useful body, John F. Masters, who first suggested the idea of a ball for the purpose of raising funds for charitable purposes. All the other British organizations promptly voted to co-operate, and the success of the function was so pronounced that it undoubtedly will be made an annual affair. The details were carried out under the personal direction of Mr. Masters, as chairman of the joint committee, and he has received many compliments for the businesslike manner in which matters were handled. Mr. Masters was for several years president of the influential Canadian club of Boston, and he has made an annual contribution to the social and commercial relations of the United States and Canada.—Boston Globe.

EMPERESS OF IRELAND HAD MAGNIFICENT RUN

Big C.P.R. Liner Docks Here After One of Best Trips of Season

After one of the best trips of the season the C. P. R. liner Empress of Ireland docked at No. 4 North Street, at 8.30 o'clock last night. The Empress broke no records this trip, although she experienced good weather until the last two days, when thick fog was encountered. Otherwise she would have docked yesterday morning. The steamer left Liverpool at five o'clock in the afternoon, Feb. 28, and the daily runs to Halifax were as follows: Feb. 27..... 338 Feb. 28..... 448 Mar. 1..... 452 Mar. 2..... 392 Mar. 3..... 388 Mar. 4..... 412 2428

The Empress had one of the largest passenger lists of the season, comprised as follows: Saloon..... 98 Second cabin..... 320 Third cabin..... 761 1218

The saloon passengers who landed here were: W. A. Anderson, Miss M. C. Anderson, A. R. Harvey, Bathurst, Colonel Borup, J. F. Bradley, Mrs. R. Bradshaw, E. Bretzell, R. B. Bruce, Mrs. L. M. Clifford, Miss H. M. Clifford, J. B. Edmundson, R. Fleming, T. Forsyth, Mrs. Forsyth, infant and maid, J. Fullerton, C. Glyn, C. Gore, A. Gore, Dr. W. J. Harrington, A. C. Hayward, L. J. Holman, H. TRADE DISPUTE Dominion Coal Company to Take Advantage of Lemieux Act

OTTAWA, Mar. 5.—The public accounts committee this morning appointed a sub-committee composed of Messrs. A. K. McLean, E. M. Macdonald, S. Barker and W. B. Northrup, to review the rules of procedure of the committee in order to provide safeguards for the return to the departments of original documents submitted to it.

Hon. W. S. Fielding announced in the banking and commerce committee this morning that the government's bill to amend the insurance act would be introduced in the House of Commons on Monday. In the meantime several private insurance bills were passed, subject to the changes which will be proposed in the general law next week.

The Department of Labor has consented to a request of the employees of the Dominion Coal Company for a board of investigation under the Lemieux Act to deal with the dispute between them and the company in reference to a decision of the men to amalgamate with the International Mine Workers' Union. The company objects to any international alliance and threatens to dismiss the men if they persist in their present attitude. To avoid a strike or lockout the Lemieux Act has been invoked. They have nominated Daniel McDougall as their representative.

An order in council has been passed amending fishery regulations with respect to lobsters so as to permit the capture and sale of lobsters nine inches in length from head to tail exclusive of claw or feelers within the waters of the county of St. John.

ISLAND'S REVENUE SHOWS INCREASE

CHARLOTTETOWN, P. E. I., Mar. 5.—Premier Hazard, bringing down the budget tonight estimated the ordinary expenditures next year at \$362,788, expected \$30,823, revenue \$370,195, a net increase of \$8,288 from last year. He expected the revenue to be increased over and above the amount through refunds from the Dominion on account of certain payments in connection with the administration of criminal justice. The total debt of the province is \$660,611. Against this they have assets at Ottawa of \$283,000. The chief items of revenue are sub-

LARGE DRY DOCK FOR PORT ARTHUR

Important Project is Said to be Already Well Advanced.

PORT ARTHUR, Mar. 5.—The Chronicle says: It has just been decided that a big and most important industry is booked for Port Arthur, and the project is well advanced in its initial stages. This is an immense dry dock which will be designed for the purpose of accommodating the largest ships in the Canadian fleet. For several years the necessity of such a dock has been growing more apparent, and vessel-men have been clamoring for its construction. It is also stated that the project has been taken into consideration by these leaders in Canadian railway and industrial enterprises, and they hope is expressed that they will become actively interested.

Miss Rogers was the daughter of James H. Rogers of Milltown. Her mother died when the girl was young, and the latter was brought up by her aunt, Mrs. John McDonald of Milltown. The father moved to Salem some time ago. A few weeks ago Ethel left Milltown for the avowed purpose of visiting him.

At her father's house in Salem she was taken ill and removed to a hospital. Investigation shows she was a patient at Dr. Wing's office in Lynn. When Wing was arrested he had a loaded revolver in his office, but did not get a chance to use it.

Marshal John Crossman of Milltown when called on the telephone today said Miss Rogers always bore an excellent reputation in St. Croix county. She was popular as a school girl and respected as a young woman. It is not known if an arrest will be made down east.

Only a Common Cold, BUT IT BECOMES A SERIOUS MATTER IF NEGLECTED.

Pneumonia, Bronchitis, Asthma, Catarrh or Consumption is the result. Get rid of it at once by taking Dr. Wood's Norway Pine Syrup. Obtainable coughs yield to its grateful soothing action, and in the racking, persistent cough, often present in Consumption, it gives prompt and sure relief. In Asthma and Bronchitis it is a successful remedy, rendering breathing easy and natural, enabling the sufferer to enjoy refreshing sleep and often affecting a permanent cure.

Mrs. Henry Smallpiece, Brudenell, Ont., writes:—"I was always subject to a cough and could get nothing to relieve me until I saw an advertisement of Dr. Wood's Norway Pine Syrup and thought I would try a bottle, and when I had taken a few doses I found I was getting relief, and when I had finished I was cured. I procured a bottle for my baby, who had a cough, and it cured him. I would advise any one having a cough, to give Dr. Wood's Norway Pine Syrup a trial, and I am sure they will never be without it." Dr. Wood's Norway Pine Syrup 25c. per bottle at all dealers. Put up in yellow wrapper, and three pine trees the trade mark. Beware substitutes. There is only one Norway Pine Syrup and that one is "Dr. Wood's."

SAD DEATH OF MILLTOWN GIRL

Victim of an Illegal Operation

DOCTOR ARRESTED Is Prominent—Ethel Rogers Was Highly Respected

BOSTON, March 5.—The untimely end of a bright eyed nineteen year old girl popular in Salem, Milltown and St. Stephen is being investigated by the Essex county authorities. Miss Ethel Rogers of Milltown, Maine, died today in the Salem City Hospital under suspicious circumstances. Yesterday she made a statement that an illegal operation had been performed by Dr. Edward P. Wing, a prominent physician of Lynn. The state police last night arrested Wing, and in the Lynn court today he was held in \$10,000 bonds for a hearing March 30.

At her father's house in Salem she was taken ill and removed to a hospital. Investigation shows she was a patient at Dr. Wing's office in Lynn. When Wing was arrested he had a loaded revolver in his office, but did not get a chance to use it.

VISITS 100 WOMEN IN SEARCH OF A WIFE

Mo. Farmer Calls on Would-be Brides, But Finds None That Suits.

SEAFORD, Del., March 5.—Despite the fact that James H. Furbush, a wealthy farmer of Westpoint, Md., has had several unpleasant experiences in matrimony, he is not discouraged, and has for nearly two years, been seeking a fourth partner in life. Furbush visited Seaford last September, and was so impressed by a middle-aged spinster that he purchased an ideal piece of land, with the intention of erecting a mansion thereon. But his desire for a wife had become notorious and he was cluttered with tempting offers from every state. He then decided to defer the anticipated honeymoon and visit some of the would-be brides. Since that time Furbush, accompanied by his two daughters and a son, has called on more than 100 women in different states, but has not yet made a selection.

Furbush is about 60 years ago, but appears not more than 28. When asked what inducement he would offer to procure an ideal partner, he replied: "If I can find a woman between 18 and 45 years old who has a cheerful disposition and will love my children and make me happy, I will purchase the largest house in town and support her in luxury of an alighting residence."

At her father's house in Salem she was taken ill and removed to a hospital. Investigation shows she was a patient at Dr. Wing's office in Lynn. When Wing was arrested he had a loaded revolver in his office, but did not get a chance to use it.

SAYS THERE SHOULD BE AN OPPOSITION IN THE COUNCIL

To the Editor of The Star: Dear Sir:—As there are several questions before the citizens of St. John at the present time, namely, the bridge, harbor commission, change in our form of city government, etc., etc., all of them worthy of serious consideration, perhaps the one taking precedence over all the others is the change in our city government. The council has decided to give this question a six months' hold, presumably to give the people an opportunity of expressing their opinion. It matters little what form of government the city adopts, the important question is, who runs the city government? Is it run to the best interest of the citizens, or to the interest of the council? If eternal vigilance is the price of liberty, it is equally true at the present time that eternal vigilance is the price the people must pay for good government. Especially is this true in our city government. We may fall to some extent to exercise that vigilance in our local or Dominion politics, knowing that we have a vigilant opposition in both Fredericton and Ottawa. It may not be necessary to question the motives of that opposition, we know the people have the benefit of it, but unfortunately we have no organized opposition in our city council. Their motto seems to be: "United we stand, divided we fall." That is the idea of the council, I need only refer to the fact

that no member has spoken against the Mooney, McArthur and McVey award of \$38,000 in excess of the signed and sealed contract. Does any one think that this would take place in Ottawa without Mr. Borden, the leader, or some other member of the opposition demand the bringing down of all the papers connected with the transaction, showing clearly the benefit of an opposition. But more of this hereafter. The St. John evening Star has been giving the opinions of prominent citizens on questions along these lines, and one or two of those gentlemen have expressed the opinion that we should divide on party lines in order to obtain opposition in council. I fully agree with those gentlemen on the need of an opposition, or of two parties, but I cannot agree with them that we should bring Dominion politics into our city affairs. I cannot see why a Liberal and Conservative, a Free-Trade and a Protectionist, cannot unite when the welfare of the city is at stake, and in my opinion it would be very unwise to bring those questions into our city politics. The question then arises how are we to have opposition unless there is a difference of opinion? I will try to express my views on the subject. We have in the council at the present time eighteen men including the mayor, which I consider at least four too many, but we may let that pass for the present as there does not seem to be any current vote any of their numbers out of existence, proving the statement I have just made that they intend to stand or fall together. My idea is that the number might be reduced to ten, and the voters would elect seventeen men as aldermen. The first duty of these gentlemen would be to elect one of their number as mayor, that only the five men receiving the largest number of votes would be eligible for the office of mayor, and would be elected by a two-thirds vote of the full council. These two-thirds of the council with the mayor would constitute the government of the city, the remaining one-third would constitute the opposition. I do not think there would be any danger of a deadlock occurring in the election of the mayor, as I believe it is the way the state legislatures elect their senators. These are some reasons why I think some such plan as this would work right. It is conceded on all sides that the best men in the city will not offer for aldermen, giving as a reason that they have not time to spare from their own business, and other reasons. Now the

office of mayor is a position that any prominent citizen should be proud to hold, providing the office is obtained by fair and honest means. He would wish to sit in the council again. He said, "No I would not under the present conditions. The years I spent in the council were not pleasant ones. I was often disappointed at the way business was done." He felt he had to take his share of the blame of acts that he opposed, but was powerless to prevent. There are undoubtedly men in the council at the present time, who feel just as this gentleman did. Now if there was an organized opposition, those men would have a place and could do better service for the city than they can do at present. It is quite evident that the government of Canada believed that a vigilant opposition is a benefit to the country, when they made the leader of the opposition equal in salary and importance to a member of the cabinet, putting him in a position to devote his whole time and talents to criticizing the acts of the government. The individual or gentleman who intends to do right to the best of their knowledge and ability does not fear honest criticism, and should always be ready to defend their actions. I intended to touch on some other matters, but I find I have far exceeded the limit of a newspaper letter, and must close by thanking you for your valuable space. I remain yours truly JOE SIMS. P. S.—Is it not singular that the fact that the pipe line was leaking at the rate of 400,000 gallons of water per day and that it would cost several thousand dollars to repair those leaks, was not known, at least was not made public, until a few days after the settlement of the claim by the city.

ITALIAN, MINISTERS IN FACE OF CRISIS

Giulotti's Cabinet Petitions the King to Immediately Dissolve the Parliament. ROME, March 5.—The delicate position of the government, both as regards Italy's home and foreign relations, has led the cabinet to petition the king for an immediate dissolution of parliament. This twenty-second legislature, which has lasted four years and three months, is the longest known in the political annals of modern Italy. It began as it ended, with Signor Giolitti as the first minister. This sudden decision is due to the ministry's unwillingness to brave the fierce storm that awaits it in the Senate and Chamber of Deputies over the country's amazing naval and military unpreparedness for an emergency, and secondly, the fresh defeat suffered at the hands of Austria over the promised foundation of an Italian university at Trieste. It is probable that the general elections will take place about the third week in April.

MOTHER GAVE HER CHILD AWAY

Had Given up All Hope of Living. Heart Trouble was Cured by Milburn's Heart and Nerve Pills. Mrs. Andrew Savoy, Gratton's, N.B., writes:—"In the year 1905 I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hope of living and had given my little girl to my sister-in-law. "One day a friend came to see me, and calling me by name, said, 'Lizette, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would have been alive now." Price 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PARIS OPERA IN STRAITS

All But Face to Face With Bankruptcy—Won't Produce "Salome." PARIS, March 5.—The stockholders of the Opera held a meeting today, at which the official announced that they had received promises of \$100,000 new capital, which would enable them to continue. A vote taken on the proposal that the opera company's capital be increased by this amount was adopted, 28 to 15, but the regulations exact that such a proposal must be supported by a three-quarter vote. Hence today's vote is without effect. The managers' position is not improved. They are left facing bankruptcy or resignation. One result of the Opera's difficulties is that the publishers of "Salome" wrote postponing negotiations for the production of that work until 1910. M. Messager replied breaking off the negotiations completely, being tired of Strauss's exactions, one of which is a demand for \$100 for every representation in addition to the author's fees.

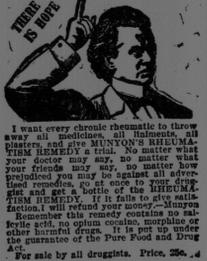

DON'T BE AN OLD CAT!

The Bishop of London Gives Some Advice to Girls. LONDON, March 5.—The Bishop of London gave some remarkable advice today to the students of a fashionable girls' school in the West End. The curate of that part of London, said he was not what might be called open immorality, but the prevalence of a catty spirit, by which he meant the way in which many people spent their lives saying ill-natured things about others. He had known the reputations of good men and women to be taken away by the catty spirit prevalent in the world between an old maid and an old cat. Some old maids in London are the most loving and gracious people in it, and you need not be afraid being an old maid so long as you are not an old cat.

NEGRO CONFESSES TO MURDERING CHOIR GIRL

Declares He Followed Her and Crushed Her Skull With a Stone. ALBIA, Iowa, Mar. 5.—John Junken, the negro confined in the jail here, charged with the murder of Clara Rosen, choir singer and church worker, confessed early today that he killed the young woman at Ottumwa recently. He said he was alone and had no accomplices. The confession was made to Sheriff Griffin. The sheriff was called from his bed to the jail, who cried that he wanted to tell all about the crime which haunted him. Junken said he trailed Miss Rosen to the home of her sister the night of the murder and called till she snored an hour later. Then he sneaked up behind her and struck her with his fist, knocking her to the sidewalk. He then crushed her skull with a stone. The negro declares he then robbed her of her purse and diamonds. The murderer told where the stolen jewelry could be found and a search in the home of Frank Weaver, at Ottumwa, revealed Miss Rosen's purse and jewels in an attic, reached through a trapdoor in the ceiling. Junken was taken to Des Moines for safe keeping. A fellow prisoner declared that Junken deliberately planned to commit the murder at Ottumwa while he was still an inmate of the Fort Madison penitentiary, serving time for robbing and beating a woman. It was Junken's boast, according to this prisoner, that he would again "do the trick" if he had a chance. He boasted his ability to attack defenseless women. This information came in a letter from Albert Evans, a negro, who was a cell-mate with Junken at Fort Madison.

SANG WITH PATTI.

Pathetic Story of an Old Opera Singer's Poverty in London. LONDON, March 5.—In a small top back room over a newspaper shop in Charlotte street, Fitzroy Square, lives an old opera singer who more than once has sung with Mme. Patti at Covent Garden. A quarter of a century ago Signor Rita was frequently seen in many leading operatic roles, but of late years things have been going from bad to worse with the old man, and much against his pride he recently wrote to August van Biene, of "Broken Melody" fame, asking for assistance in his distress. Seen yesterday, the old man, speaking with difficulty, told of the result of his appeal, an appeal which Mrs. van Biene described as "heartbreaking." "Until Wednesday," he said, "I hadn't had any fire this winter, but Mr. van Biene and his wife came as angels and he said: 'How are you, old friend?' The fire you see in the grate was given by them. "I am now 64 years old," he went on, "and when I was a boy of 16 I fought with Garibaldi. I started life as a journalist, but used to sing at benefit concerts and made my debut at Amiens in 'Favorita.'" This year Signor Rita has had only four engagements—to sing at "smoking" concerts.

MURDERER WALKED CALMLY TO THE SCAFFOLD

Secretary Forfeits Bail—District Attorney Pleads for Pardon—Tragic Suicide—Annals for Cuban Prisoners

LENOX, N.B., Mar. 5.—R. Mead Murray, convicted of the murder of Mrs. Jacob Martin, was hanged this afternoon at the New Brunswick penitentiary. He was pronounced dead in six minutes.

Shawway kept his nerve until the end. He walked calmly to the scaffold, protesting his innocence before the death march began. Several members of the state legislature witnessed the execution.

BOSTON, Mass., Mar. 5.—The 5000 ball of Robert G. Ercator, former private secretary of Senator Henry Cabot Lodge, who was convicted two years ago of larceny, and who has never appeared to receive sentence was declared forfeited today at the request of the district attorney.

BOSTON, Mass., Mar. 5.—After pleading guilty to 42 counts of larceny aggregating slightly more than \$800, Robert G. Jobling, 24 years old, was placed on probation by Judge Schield in the superior court today, after District Attorney Hill had pleaded to that effect.

Jobling who is a member of an excellent Dorchester family, was employed as cashier by the Mason and Harlan Piano Company of this city and it is from that firm that the entire sum was taken. District Attorney Hill, in making his plea for leniency stated that complete restitution had been made the firm and said that no good to the firm, the public or the individual directly affected could come of any imprisonment or fine.

MURDERER SENT TO ST. LOUIS, Mo., March 5.—Carlos Espinosa Saldaña, of Lima, Peru, was found dead here today in a room, following the receipt of letters and telegrams telling of the loss of his father's fortune in South America. Saldaña, who was 22 years old, was formerly a student at Columbia University, where the Peruvian government is said to have paid his tuition. He came to St. Louis several months ago as a draftsman for the Missouri Pacific R. R.

NEW YORK, March 5.—Carlos Espinosa Saldaña, the young Peruvian who killed himself at St. Louis today, was a college mate of Young Jay Gould at Columbia University, and the protégé of the latter's father, George Gould.

HAYANA, March 5.—The general amnesty which was among the first measures introduced in the new congress and was intended to signalize the restoration of the republic, passed the senate today. Having previously favorably acted upon in the house, the bill tomorrow will go to President Gomez for his signature.

JOKED ON THE WAY TO GUILLOTINE STEPS

But When He Sees Death's Grim Instrument Murderer Booms Scared.

PARIS, March 5.—The guillotine was at work again yesterday morning. At 10, in the department of the Seine, two criminals, named Simorre and Besse, aged respectively 25 and 33, were executed for murdering one of the warden in the prison where they were undergoing sentence.

M. Deblier and his assistants and the guillotine arrived yesterday at 10, and the news quickly spread. People took up their positions close to the guillotine. No one in Albi went to bed, and the cafes remained open throughout the night. By a strange irony of fate, the Socialist Municipal Council of Albi, which is M. Jaures' political stronghold, recently pronounced in favor of the abolition of the death penalty.

Some hundred militant Socialists made a demonstration while M. Deblier was mounting "La Vierge," shouting "A bas la guillotine!" and singing the "Internationale." The gentlemen and soldiers who were guarding the prison, however, kept them back.

Both the condemned men heard many drunk men, and smoked cigarettes. While M. Deblier's assistant was cutting off his shirt collar, Besse cracked jokes, and quipped that grim functionary on his expertise with the scissors. "You would make a good cracked joke, and quipped that grim functionary on his expertise with the scissors. "You would make a good cracked joke, and quipped that grim functionary on his expertise with the scissors. "You would make a good cracked joke, and quipped that grim functionary on his expertise with the scissors."

During the afternoon rumors were current of probable arrests for perjury on account of the testimony of some of the witnesses. No arrests were made, however, and the reports could not be confirmed.

Simorre was carried out two minutes later in a fainting condition.

BOMB THROWN IN NEW YORK TENEMENT DISTRICT

NEW YORK, March 5.—A bomb which was thrown from the roof of a five-story tenement on the East Side tonight exploded in mid-air a few feet above the head of Mrs. Carrie Barberis and started a small panic in the vicinity. Mrs. Barberis was knocked senseless by the force of the explosion but revived a few minutes later, little the worse of her experience.

The police believe that the bomb was thrown by striking teamsters or their sympathizers and was intended to wreck a stable.

FORMER SWEETHEARTS WERE PLEDGED TO HELP MURDERER

Damaging Evidence of Boatman—Rumors of Arrests for Perjury

NEW BEDFORD, Mass., March 5.—The effort of the defense in the trial of William C. Howard, charged with the murder of his wife, to prove his contention that he was not in Padanaram on the night of the death of his wife there, was continued today by the introduction of the testimony of some of Howard's fellow-soldiers at Fort Rodman. Much of this testimony was in favor of the despatching of Howard to a boat for Howard around the point on which Fort Rodman is situated. The respondent claims that he himself rowed this boat around the point, a distance of eight miles.

A feature of the afternoon proceedings was the unexpected testimony in cross-examination of Eva Volfine, a witness for the defense. Miss Volfine said that she overheard Grace Sturtevant and Lena Watson, both of whom have been represented as former sweethearts of Howard, declare during a conversation in the witness' room that they proposed to do all they could to help him in this case.

During the afternoon rumors were current of probable arrests for perjury on account of the testimony of some of the witnesses. No arrests were made, however, and the reports could not be confirmed.

SIX YOUNG GIRLS HURT IN FIRE PANIC IN SCHOOL

BUFFALO, N. Y., Mar. 5.—Six young girls were badly bruised in a fire panic at St. Stanislaus Parochial School here today. The children's injuries consisted principally of lacerated faces and severe bruises on the head and arms. With one exception the children were able to walk to their homes after treatment by hospital surgeon Helen Ostrowska, 11 years old, had a sprained ankle.

The school accommodates about 2,000 students, drawn entirely from the Polish section on the east side. Of this number 1,000 boys had been dismissed before the panic occurred. The fire was in a house adjoining the school.

DEEPENING OF THE CANALS WILL GIVE CANADA SHARE OF UNITED STATES TRADE

OTTAWA, Mar. 5.—In the House of Commons today canal estimates were under consideration through the introduction of the testimony of some of Howard's fellow-soldiers at Fort Rodman. Much of this testimony was in favor of the despatching of Howard to a boat for Howard around the point on which Fort Rodman is situated. The respondent claims that he himself rowed this boat around the point, a distance of eight miles.

A feature of the afternoon proceedings was the unexpected testimony in cross-examination of Eva Volfine, a witness for the defense. Miss Volfine said that she overheard Grace Sturtevant and Lena Watson, both of whom have been represented as former sweethearts of Howard, declare during a conversation in the witness' room that they proposed to do all they could to help him in this case.

PAMPHLET IS THE CAUSE OF MORE TROUBLE

Attacks Another "Heretic" DR. EAKIN THIS TIME Present Governor of Ontario Decides Not to Ignore Gamey

TORONTO, March 5.—Invitations have been issued by the lieutenant governor for the first regular dinner to members of the legislature. Among those invited is R. R. Gamey, M. P., which shows that Hon. J. M. Gibson is not going to make any invidious distinction.

Over a third of the Conservative members last session boycotted the several dinners of Sir Mortimer Clark because of what they believed to be undesired slight on the member for Manitoulin. The fact that the new lieutenant governor has not seen fit to follow this precedent is favorably commented on by the members.

Teaching of Religious Knowledge in the University College, Ultra Vires. This is the title of a pamphlet which is receiving wide circulation of itself and through the press. It is devoted chiefly to a letter written by Hon. S. H. Blake, K. C., and has a preparatory note by Rev. Dr. Innes Harris. By this pamphlet it is made public property that the Carman-Jackson controversy is only a part of a grave dispute between the two schools of thought in respect to the teaching of religion and that the University of Toronto has been dragged into it, inferentially there seems every prospect of the dispute being waged with bitterness.

Inquiries showed that a special committee of the governors of the University of Toronto is investigating the complaints, which are set out in pamphlet, but that the committee was appointed some time ago and not as a result of the appearance of the pamphlet.

Dr. Hoskin, chairman of the board, said that for the present he would not enter into a discussion at all. He referred the reporter to Rev. Dr. Bruce Macdonald as convener of the special committee to which Dr. Hoskin refers. He said the committee were pursuing their inquiries and intended to go on with them. The committee's report would go to the governors of the university.

President Paterson also declined to make any statement in reference to the communications of Dr. Harris and Mr. Blake. "The whole subject is before the governors and under consideration by them," he said, "they have assigned a special committee to inquire into and deal with it. This committee met last week and proposed, I understand, to meet again in the immediate future. Under the circumstances I could not think of making any statement regarding the matter."

Dr. Eakin, lecturer in oriental languages in University College, who is the gentleman the pamphlet attacks, also stated that for the present he preferred to remain silent.

Four of the nine will enter American institutions of learning, three will go to England and two to German universities.

LORD ESHER LECTURES ON QUEEN VICTORIA

Tells of Private Journal Kept by Late Sovereign—Her Private Papers Would Fill 1250 Volumes

LONDON, Mar. 5.—Lord Esher, deputy governor of Windsor Castle whose "Letters of Queen Victoria" was published in 1901, gave an interesting lecture at the Royal Institute tonight on "Queen Victoria." The lecture was given with the permission of King Edward and contained much new information concerning the late queen.

From the age of thirteen and until a few days of her death, Lord Esher said, Queen Victoria kept a daily private journal which will never be published in its entirety. Those works, recording the daily life events of the queen, would fill one hundred volumes. Her entire correspondence and papers when arranged and completed, will fill 1,250 volumes.

"We owe to Queen Victoria," said Lord Esher the reinstatement of the monarchal principle in the eyes of the queen, and that it was her exceptional opportunities for examining at first hand the inner history of her reign, but I found no trace of any grave mistake committed by Queen Victoria in her capacity as sovereign.

Inquiries showed that a special committee of the governors of the University of Toronto is investigating the complaints, which are set out in pamphlet, but that the committee was appointed some time ago and not as a result of the appearance of the pamphlet.

Dr. Hoskin, chairman of the board, said that for the present he would not enter into a discussion at all. He referred the reporter to Rev. Dr. Bruce Macdonald as convener of the special committee to which Dr. Hoskin refers. He said the committee were pursuing their inquiries and intended to go on with them. POLICE CAPTAIN SHOT IN GOLD BLOOD BY POLICEMAN

WASHINGTON, D. C., March 5.—Captain W. H. Matthews, of the Fifth Police Precinct, in this city, was shot and killed while sitting at his desk in the station house tonight by Policeman Collier. Collier quietly entered the station, went immediately into the captain's office, jerked from his pocket a revolver and began firing at Matthews. Five shots were fired, two of them piercing the captain's head. Collier, it is alleged, had been reprimanded by Captain Matthews for a breach of the rules, and this at the time angered him. The police say they know of no other reason for Collier's action. Lieutenant Sprinkle arrested Collier. The prisoner refused to say anything about the shooting.

On an item of \$107,000 for maintenance and operation of the railway commission, Hon. Mr. Graham took occasion to pay a warm tribute to the chairman of the board and to the work performed generally by the commissioners. The vacancy on the board caused by the death of Mr. Greenwood would be filled by a western man with a knowledge of western transportation. Mr. Mayne was at present in the west, and on his return would be consulted as to the choice of a new commissioner.

In connection with the item of \$150,000 to provide for preparation of plans for reconstruction of the Quebec bridge, Hon. Mr. Graham said that three engineers who had been engaged to prepare plans were probably the most prominent engineers to be found in the world.

They had been given authority to prepare adequate plans to examine all former plans and to pronounce upon the utility or advisability of using any of the material that had been prepared under former plans.

After making plans they were to be responsible for the construction of a bridge that would stand up to the tests of nature. Messrs. Yaucolet, Fitzmaurice and Modjeska, engineers engaged, were being paid \$100 a month. The present idea of the government was that as soon as the plans were completed probably only Mr. Yaucolet would be retained for the work, with Mr. Fitzmaurice and Mr. Modjeska as

One drunk was fined four dollars in the police court this morning.

David Hennessy charged with being drunk and kicking a small boy was remanded to jail.

Michael and Joseph Knudson, Willie Jackson, and Charles Harrington failed to put in an appearance in court to answer the charge of playing truant from school. Samuel Jackson, the father of little Willie, appeared in court and said that his boy's shoes were fit to attend school in, but he would get him a pair and send him to school on Monday. He was told to get a permit and send all of his children to school. Truant Officer McMann informed the court that the boy had not attended school for about two years.

MRS. H. L. STURDEE.

The funeral of the late Mrs. H. L. Sturdee took place at 2:30 o'clock this afternoon from Trinity church. The services were conducted by Rev. Mr. Armstrong and Rev. Mr. Stewart. Interment was in Fernhill cemetery.

WINTER PORT RETURNS
SHOW A SLIGHT DECREASE

First Sixty Three Vessels Took Away Exports Worth \$13,680,622 as Against \$13,747,150 Last Year.

Up to date sixty-three steamers in the winterport trade have filed their outward cargo returns at the customs house. The reports show a decrease of \$67,028 in comparison with the sixty-three steamers which were recorded last year.

The following is a list of the steamers with the total valuations of their cargoes filed during the week:

Concordia	\$98,321
Rappahannock	53,861
Montana	32,094
Empress of Britain	400,147
Tritonia	156,821
Montezuma	421,861
Previously reported	\$12,212,907
Total	\$13,680,622

The total of Canadian goods shipped on the above steamships amounted to \$9,968,928, while the foreign goods were valued at \$4,011,694.

The first sixty-three steamers last year took cargoes valued at \$13,747,150, while this year the same number of steamers took \$13,680,622, showing a decrease of \$67,028. This shrinkage, however, will not last long and this season promises to finish far ahead of any other season.

BIG BUNCH OF DEALS
STOLEN LAST NIGHT

One of the Harbor Thieves Made a Good Haul From Lower Cove Slip.

About every six months it seems that harbor thieves show their boldness by making a sensational robbery, some time ago a three masted schooner lying at the ballast wharf was visited and a gasoline engine discovered and stolen from the ship's boat. A number of robberies have been reported lately but a most daring one took place last night when a thief roved to Lower Cove slip some time after midnight and after quick but strenuous work managed to throw into the water seventy or eighty deals from a scow. The deals were ratted together and tied with a rope. The thief then took to his oars and towed the lumber up the harbor. It has not been recovered.

A PLATE YOU CAN EAT WITH HELD IN POSITION BY OUR NEWLY IMPROVED QUADRUPLE ATTACHMENT.

People don't want artificial teeth to carry around in their pockets nor keep at home in their bureau drawer so they will know where to find them when the door bell rings, they want teeth for service.

If you have a plate that no dentist has been able to make fit, why not try us? We have satisfied thousands and why not you?

Our teeth are so natural in size, shape, color and the expression they give to the features as to defy detection EVEN BY A DENTIST unless closely examined.

Our new attachment holds them as solid almost as though they were riveted in the mouth.

PITTSBURG, Pa., Mar. 6.—Beginning today the ninth tournament of the American bowling congress will assume national importance as a special train carrying 12 men and 14 bowling teams will arrive this afternoon from Detroit, Mich., and immediately the claims of Detroit for the 1910 tournament will be advanced. From all appearances they will be successful.

Bowlers from Chicago will reach here early this evening headed by the O'Leary life and drum corps. The Chicago teams will begin play at 9 o'clock tonight. Local bowlers will take part in all events today, especially the single and double matches this afternoon.
