

DESTRUCTION OF CANADA'S FREE

Prof. Leacock, of McGill, Vigorously Denounces Reciprocity Proposals.

Speaking in Quebec, He Says it will Undo all the Work of the Fathers of Confederation.

Quebec, Que., March 5.—Speaking before a crowded meeting of non-political character, in this city last night, Prof. Leacock, of McGill University, denounced the reciprocity treaty. The attempt of a few men to force this fiscal resolution upon the Canadian people by a sheer executive act, was, he said, the worst possible distortion of democratic government. They had no mandate to do so.

Quebec, Que., March 5.—Speaking before a crowded meeting of non-political character, in this city last night, Prof. Leacock, of McGill University, denounced the reciprocity treaty. The attempt of a few men to force this fiscal resolution upon the Canadian people by a sheer executive act, was, he said, the worst possible distortion of democratic government.

SITUATION IN SPRINGHILL

Twenty Policemen Brought In To Protect The Strikers Who Want To Return To Work—Hot Times Expected.

Springhill, N. S., March 5.—Twenty policemen arrived in Springhill yesterday from Cape Breton for the purpose of giving protection to strikers who want to return to work in the mines. It is said to be the intention of the company to place large resources in the work of affording this protection.

SIFTON'S EYES OPEN NOW

Replying to Ottawa Free Press Editorial, Liberal Parliamentarian Says His Political Specs are Clearer Than Ever

Ottawa, March 4.—Clifford Sifton has written the following letter to the Ottawa Free Press:—"In your issue of March 2nd I observe an editorial in which the following words occur: 'In other words, since 1897 the Hon. Clifford Sifton has become a manufacturer, and his political spectacles have got clouded, just as the political vision of other manufacturers has become obscured.'

MINNEAPOLIS HAS MILLION DOLLAR FIRE

Big Business Block Wiped Out on Sunday.

Thrilling Scenes As Firemen Carried Men And Women To Safety—Fire Fighting Force Powerless To Check Flames.

Minneapolis, Minn., Mar. 5.—One of the most disastrous fires this city has ever known destroyed today the Syndicate block on Nicolett Ave., between Fifth and Sixth streets. The total loss is estimated at \$1,000,000, and it is possible that two lives were lost, although this has not as yet been definitely determined.

Twelve persons were rescued from the upper stories of the building while the flames were roaring around them. Some of these sustained slight injuries, but none were seriously hurt. The origin of the fire is unknown. The alarm was given by some passer-by on Nicolett avenue, who saw the flames bursting out of the second story window. An alarm was quickly given but before the firemen had arrived the tenants of the building who were asleep in the upper rooms began to appear at the windows, calling frantically for aid. A strong south-west wind was blowing and in a very few minutes the west half of the building was a roaring furnace. The fire department of Minneapolis was called out, but it was totally inadequate to check the flames. Later a call was sent to St. Paul for help and this was immediately furnished.

Heroic Self Sacrifice

The members of the Fransoo family on the third floor finding all exit by stairway and front windows cut off by the fire escape, the fire department of Minneapolis was called out, but it was totally inadequate to check the flames. Later a call was sent to St. Paul for help and this was immediately furnished.

Explosion Added to Horror. During the progress of the fire there were several explosions at the west end of the building. The heavy stone sidewalks were lifted high in the air, and huge piles of stone scattered about the streets. The explosion were attributed to breaking gas pipes. The high wind carried embers from the fire high over the business district, and a number of small fires were started on the roofs of several buildings. Scores of these embers fell fourteen blocks from the fire, burning awnings and other destructible material upon which they fell.

Heavy Financial Loss. The syndicate building was a landmark of Minneapolis, and was erected in 1882 by a number of local business men. About three years ago it was purchased by the Boston Trust Company. The largest individual losses are: Model Clothing Co., \$175,000; Minneapolis Dry Goods Co., \$350,000; B. B. Hudson & Son, jewelers, \$100,000 outside of the safe, which contained merchandise valued at \$200,000; Young & Quinlan, tailors, \$125,000; Woolworth & Co., \$200,000. Other tenants estimated \$100,000. Losses outside of the safe, which contained merchandise valued at \$200,000; Young & Quinlan, tailors, \$125,000; Woolworth & Co., \$200,000.

The New England Furniture Company in a building adjoining the syndicate block, suffering a loss of \$100,000 by water from bursting hose that was run through the building. Although the fire broke out early in the morning, it was almost noon before it was definitely under control. For several hours it was feared that the entire business district would be swept by the flames, and was only by the desperate efforts of the firemen, who were aided by the St. Paul department, that the loss was not far greater. All of the principal losses are covered by insurance.

THE HANGING COMMITTEE

UNCLE SAM—"A life-size portrait of George Washington, the Father of our Country, will look fine in place of that."

How is it? Why is it? What is it? To the Editor of The Standard.

Sir, Six months ago the entire press of Canada, with the Liberals exulting in the lead, were proclaiming that the twentieth century was the Canadian century.

Notwithstanding the most hostile legislation of the country to the south of us we had achieved our manhood. At a vast cost to ourselves but animated by the self respect of freemen we had carved out our own destiny as one of the brightest jewels of the British Empire.

Today we are on our knees to Washington! There is not a Liberal in the country that is not anxiously canvassing the political chances as they arise at Washington, and hoping and praying that we may be saved!

DEATH OF YORK COUNTY M.P.P.

Thomas Robison Died Yesterday After Brief Illness—A Staunch Conservative And Supporter Of J. D. Hazen.

Harvey Station, Mar. 5.—Thomas Robison, M. P. P. for York county, died this evening at 7 o'clock at his home. Mr. Robison had been ill for about nine days and was attended by Drs. Dougan and Atherton, who did all that medical skill could for him, while his daughter Elizabeth, trained nurse, was also in attendance. Mr. Robison, though ever active, had been in falling health for some months. He was stricken with this severe illness while working after his lumber operations at Acton, N. B., being overcome with weakness he had to be conveyed to his residence. His death is believed to be due to a complication of liver and internal troubles.

Mr. Robison had been a supporter of the Hazen government since 1908 and had been a life-long Conservative in politics. He was in the 54th year of his age. He had been a prominent man in this part of the province being proprietor of the well known Robison Hotel. He had also been active in lumber operations and gave employment to large numbers of men in these parts. He leaves to mourn his death, a wife who was formerly a Miss Elkton, also five sons and five daughters. The sons are James, of St. John; Benjamin, of Eholf St.; B. C. and Paul, Howard and David, at home. The daughters are, Mrs. William Hunter, of Harvey; Mrs. James Patterson, of Eholf; Mrs. B. C., and Miss Elizabeth, of Lawrence, Mass., also Annie and Maud at home. They have the deepest sympathy of a wide circle of relatives and friends, who will hear with regret of his death. He will be interred at the Harvey burying ground. The funeral announcement will be made later.

The late Mr. Robison was a very useful member of the provincial legislature and a man who filled a large place in the affairs of the province. To the arduous duties of a public man he brought a broad intelligence and a great capacity for work. He was a man of sound business judgment and had clear grasp of public affairs. For many years he was a member of the county council of York and was elected with his ticket in the election of 1908 as a supporter of the Hazen government. His death at an age when he was in the height of a successful career will be sincerely regretted by his many friends.

We wish to see the Union Jack down on this, which is subversive of all the dignity of our manhood. The same conditions prevail today as six months ago. Our destinies are in our own hands, let them work out their own salvation.

Or is this a conspiracy? Much depends upon the past records of the leaders of the mob who are forcing this assent and rebelling against the people.

How about Sir Wilfrid with his declaration that he wished he could have shouldered a musket and fought with Riel on the Saskatchewan? How about Fielding who declared he wished to see the Union Jack down on this, which is subversive of all the dignity of our manhood.

Loyalty, self respect, manhood, duty, Christianity—every higher human tribute—calls upon us to close this issue decisively and at once.

Yours, A CANADIAN MAN, St. John, March 4, 1911.

ONTARIO HOUSE WILL PROBE THE MILK SUPPLY

Anti-Reciprocity Resolution To Be Introduced Today As A Government Measure—Debate Will Last All Week.

Ottawa, Ont., March 5.—Dr. Hodgetts, chief health officer of the conservation commission, acting in co-operation with the provincial and local boards of health, is to conduct an inquiry with the object of ascertaining the source of the typhoid fever outbreak in Ottawa. His plan is for a collective investigation which will start with an inquiry into every case beginning with more recent ones and working back to try and trace their history to a certain source. As it is not now so common that the Ottawa water supply is to blame for the thousand or more typhoid cases and twenty-five deaths, the milk supply will also be investigated. Dr. Hodgetts will be assisted by Dr. Bell, chief inspector for the provincial board of health, Major Drum, of the army medical service and as many men as are required from the conservation committee under the offer made by Hon. Clifford Sifton, chairman. On Saturday afternoon the medical health department was scored for its inactivity at a mass meeting addressed by Sir Charles Fitzpatrick, Prof. Adam Shortt, Dr. Montzambert and other prominent citizens. In the evening a citizens league was formed for the purpose of drilling the civic officials and aldermen into their duties and responsibilities in the matter of the people's health.

Toronto, Ont., March 5.—The Ontario legislature tomorrow will be asked to adopt an anti-reciprocity resolution which will appear on the order paper under the head of government orders. Probably the entire week will be devoted to the subject, as nearly every member will have something to say. While the resolution will not be made public until tomorrow afternoon, it is understood that it avers that the Imperial ties which bind Canada to Great Britain and the Empire will be broken if the treaty is adopted by the Dominion government. The Conservative members of the legislature are entirely alone on the subject and all the speakers on the government side will oppose the agreement. As the question was discussed during the debate on the budget, it is doubtful if much information will be forthcoming.

THE WEATHER. Maritime—Moderate winds; mostly variable, fair and cold. Toronto, Mar. 5.—Light snowfalls are occurring this evening in many parts of the lake region owing to the approach of a feeble disturbance from the western states. Cold weather prevails in the Maritime Provinces, elsewhere in Canada it is moderately cold except in Alberta and British Columbia where it is mild. Dawson—14 below, 2. Atlin—2, 10. Prince Rupert—32, 40. Victoria—40, 50. Kamloops—34, 42. Edmonton—12, 28. Battleford—0, 18. Prince Albert—2 below, 18. Calgary—14, 38. Qu'Appelle—4, 20. Winnipeg—14, 24. Parry Sound—10 below, 20. London—5, 30. Toronto—8, 26. Ottawa—6 below, 14. Montreal—0, 16. Quebec—3 below, 8. Halifax—6, 16. Lower Lawrence and Gulf—Fair and cold followed by snow by night.

HOUSE BURNED IN ST. STEPHEN

St. Stephen, N. B., March 5.—Fire which discovered this forenoon in the residence on Elm street occupied by J. E. Garon and owned by Mrs. Howard Mitchell and before the flames were subdued the house was completely destroyed, though the stable and sheds were saved. The most of the furniture on the first floor was saved, but that on the second floor was largely consumed. The fire is supposed to have started from a defective furnace flue, and had gained considerable headway when detected. A strong wind prevailed and the mercury was near zero, giving the fire the hardest fight they have had for many months.

HALIFAX OPENS CIVIC REVIVAL

RECIPROcity SPELLS RULE BY TRUSTS

Will Laurier Hold It Over.

Many Americans Who Came To Canada To Escape The Trusts Claim New Trade Pact Will Encourage Them.

Special to The Standard. Ottawa, March 5.—It is stated today by influential Conservatives that the reciprocity agreement will not be adopted by the Canadian Parliament before May 15th, the date upon which Sir Wilfrid Laurier announces he will leave for England to attend the Imperial Conference.

This means one of two things, first that Sir Wilfrid will not go to the Conference, but will stay here to force the agreement through the Canadian House, or second, that he will agree to hold over the question until next session. It is pretty certain, however, that he will not go to England and leave parliament in session with this matter undecided.

The opposition to the agreement is daily growing stronger, but the most surprising news is from Alberta, to the effect that the American farmers in that province are out against it for a very interesting reason. They state that they came to Canada to avoid the operation of the trusts, which have been controlled on this side of the line by the customs authorities.

They explain that the farmers on the other side have not been receiving the prices for their wheat that the markets indicate and that the individual farmers have been under the heel of the trusts. They declare that the complete removal of the tariff barriers will invite the operation of these trusts in Canada and that it will do no good to the farmers on either side of the line. It is anticipated that these objections will have considerable weight in the succeeding discussions in the House. It is notable that two of the leading opponents of the measure, Messrs. M. H. Perley and H. B. Ames, are native born Americans. Mr. Perley is a graduate of Harvard.

GATHAM MOURNS JAMES J. PIERCE

Veteran Newspaperman And Sturdy Opponent Of Confederation Died Yesterday At Age Of 82 Years.

Special to The Standard. Chatham, N. B., March 5.—The death occurred this morning at 11 o'clock of James J. Pierce, aged 82 years, after an illness of scarcely more than a week's duration. Mr. Pierce's health for the past year or more has been such that he was seldom outside the house and though it was known that his condition had been worse during the past week, the serious nature of his illness had been unsuspected by many friends, and word of his passing away today was a distinct shock.

Mr. Pierce was the last of his family, and was known widely over the whole Miramichi. In the times preceding and following Confederation, Mr. Pierce was one of the prominent men of the day and older residents have a wealth of recollections which cluster around the great fight for and against that act. James Joseph Pierce was born at Chatham, Sept. 29, 1829, and was the eldest son of James A. Pierce. He received his collegiate education at Sackville and succeeded his father who had founded the "Gleaner" in the early thirties. Mr. Pierce married Harriet L. Harding, of St. John, and is survived by his wife and one daughter, Miss A. B. Pierce at home. The deceased always took a very lively interest in politics and in 1867 he ranged himself with the "Gleaner" under the banner of the anti-confederates and along with the Hutchisons, Davidsons, Gillespies and Kerrs, all prominent Miramichi families, of those days, he opposed Hon. Peter Mitchell and the forces of Confederation. The latter won on this occasion, but for years Northumberland was a great stumbling ground for both political parties and until he gave up journalism and retired from public life Mr. Pierce took a most active part in all contests. The funeral will be held Tuesday afternoon at 2 o'clock from his late residence. Services will be held at St. Paul's church and interment will be in St. Paul's burying ground.

Civic Sermons in Churches and Great Mass Meeting with Stirring Addresses.

J. L. Sewall, the Speaker, Said Halifax was Badly Handicapped by a Glorious History.

Halifax, March 5.—Halifax has been preparing for a "Civic Revival," as the people call it, to bring about conditions like those sought by the "Boston 1915" movement. Citizens have gone very thoroughly into the work of preparation, and today the campaign opened. The operations will be directed by John L. Sewall of Boston, who comes here at the invitation of the Halifax committee. For three days Mr. Sewall has been looking over the city and guided by members of the civic improvement league and kindred organizations, he has seen a great deal. Yesterday afternoon was spent in an examination of the waterfront. This forenoon civic sermons were preached in the churches and this afternoon Mr. Sewall addressed a men's meeting in the centre of the city. "The Modern City," was his topic. Man's greatest work is building cities, he said, and he quoted the proverb "God made the country and man the city." A bad job has been made of the city many say, but Mr. Sewall asked his audience to remember that man is not yet through with his job.

Mr. Sewall pointed out that the problem of the city is the interdependence of each upon the other, conditions being exactly opposite from those in the country, where the farmer was practically independent of everybody else. He did not come to Halifax, he said, to reform it. The keynote he wanted to sound and second-sounding, so-called, all alike, was the cause of the civic betterment of Halifax, was "get together."

Handicapped By Its History. In making a better city, Halifax is handicapped, he said, by its history. It had been a great military outpost for the defense of the Empire and the integrity of the Empire. That fact has made it hard to build here a commercial city, where the city which had so much of its valuable land taken up for military and naval purposes as Halifax. Further the city's greatest asset is in the sterling character of its citizens. "I am here to help you," Mr. Sewall said, "as a good, loyal son of Massachusetts, with no desire to annoy you, any more than you have to annoy us. My ancestors were Pilgrims from the Mayflower. I remember that, but I also remember that there would have been no pilgrims and Mayflower had it not been for the great old land across the ocean. It stood here, he said, claiming a part of the common heritage of the British Empire, and he knew the people before they would not respect his were he not thoroughly loyal to the commonwealth of Massachusetts and to the United States, as he could not respect them, were they not loyal to the Dominion, to the Empire and the province.

CHINA FEARS RUSSIAN BEAR

Peking Is Apprehensive As To What May Follow The Plague—Famine Refugees Being Removed.

Peking, March 5.—The fear of Russian aggression is increasing here. Reports published in the Russian newspapers and reprinted in the Peking papers greatly exaggerate the dangers from the plague. Many of the higher class Chinese fear a campaign designed to alarm Europe and justify military occupation. Despatches from Harbin state that Russian military circles are advocating occupation.

The melting snow in many places is exposing to view bodies which were hastily secreted during the early period of the epidemic, so that they might not be burned. These are regularly being collected into piles and cremated.

The government is removing famine refugees from Nan King and other cities, in that district, to the homes which they deserted, some of them hundreds of miles away. Supplies and copper coin are given to the sufferers, sufficient for some weeks' maintenance. A despatch from Shanghai says that a Catholic missionary, Father Dannie, states that 15,000 have already died in Mengchen, one of the twenty districts affected by the famine. Several reports have it that the people are devouring human flesh.

PEOPLE'S PALPIT A SINNER ONE HUNDRED YEARS OLD, YET ONLY A CHILD, ELECTROCUTED. Might Have Lived a Thousand Years.

Brooklyn, March 5.—Pastor Russell preached this afternoon in Brooklyn's largest auditorium and in the evening held a Question Meeting. Both services were crowded and at both eager and deep interest was manifested.

The Church's Triumph Shorter. The Church, whose trial is in progress during this Gospel Age, receives individually a much shorter period of probation than our text declares will be granted to mankind in the future.

Second Death (Hebrews vi, 6; x, 28-31) so, our text tells us, it will be with the masses of mankind during the Messianic era, they willfully reject reconciliation to God they will die the Second Death. God has provided a redemption and recovery from the first death, but assures us that the Second Death will be an eternal one.

Electrocution. Instant death from electric shock will be the method of executing the penalty of wilful sinners during the next Age, and not hanging nor decapitation. Thus it was that in olden times two of Aaron's sons, having violated the relationship with God and having disobeyed Him, were smitten to death. Fire from the Lord smote them—an electric flash.

Dr. J. L. Marr Replies to the Times Attack Shows Absurdity of "Commission Plan's" Statements in Attempt to Throw Blame on Common Council.

The following letter from Dr. J. D. Maher was printed in the Times on Saturday and completely disposed of the "Commission Plan's" statements which the Times published over the signature "Commission Plan" and endorsed editorially in an attack upon the common council.

Editor the Times: Sir—Last evening there appeared in the Times and again in this morning's Telegraph under flaring headlines, some "arguments" in criticism of several of the civic officials.

It is to be regretted that those well-meaning citizens, who seemingly have the city's interest at heart, should be burdened by the idiotic utterances of such a common council member as the one who signed himself "Commission Plan."

I do not believe in faking notice of anonymous letters as a rule, nor do I think that any man, who is a citizen and voter should be precluded from the privilege of expressing his views in civic matters, but this undue criticism of the safety board is not only unfair, and the astounding part of the whole matter is the fact that the editorial column should be loaned to such a ridiculous deception.

At the safety board it was decided to recommend that the city building in the North End be sold to Dr. Maher for \$3,400. At the present time this building is bringing the city a rental of \$25 a year, or nearly \$102 a year as compared with \$25, if accepted, what will be done with the money? If it is put in the bank it will draw 3 per cent interest, or \$102 a year as compared with \$25, if accepted, what will be done with the money?

Not a word is said about the hundred-year old sinner—child—being sent to eternal torment, just as there is not a word said in the Bible to the effect that Adam or his children were condemned to eternal torments. The sentence upon Adam, which his race shares by heredity, was a death sentence. This just but awful penalty has wrought havoc with our race—sickness, sorrow, pain, dying, death.

God's mercy has provided the redemption of Adam and his race through His Son, who died, the Just for the unjust. The death of Jesus is the price which will eventually secure the release of Adam and all of his posterity from the death sentence and give to them resurrection privileges provided through Messiah's Kingdom.

That the discovery of natural gas in Albert county is a matter of supreme importance to the city of St. John is the view of an eminent engineer who has visited the city and carefully examined the possibilities of the situation.

The citizens cannot estimate too highly the benefits to be derived from this discovery or spend too much energy to make it possible to reap the rewards which come to a community from such an aid to the development of industry is his conviction. That it is quite feasible to pipe the gas to St. John is shown by the fact that the C. P. R. is spending two million dollars to bring natural gas 200 miles into Calgary. If such a venture will pay in the North End, it will pay in St. John.

One of the first results should be the establishment of steel and iron works on a large scale. England has grown rich out of this business and the raw material is brought much farther than the distance from St. John at which it could be secured.

The geographical advantages enjoyed by this city and the shipping facilities already established should make such an industry a splendidly paying proposition.

The construction of a dry dock at St. John is being looked forward to and as it is impossible to operate a dry dock profitably without a shipbuilding plant in conjunction, this in itself would afford a source of work in which iron is a leading factor could be developed here and the city could rival the greatest manufacturing centres of the Old Country.

It has been considered in the past that St. John has been hampered by the great rise and fall of the tides, but this, the engineer maintains, could be turned into an advantage. With the construction of a barrage near the bridges much of the currents which now hamper navigation could be cut off, and a source of water power secured that would be more valuable than any gold mine.

Barages have been constructed on situations more difficult to engineer, and the cost need not be more than a couple of hundred thousand dollars. Such a structure would not interfere with navigation, as locks could be provided for shipping.

If the facilities here were made suitable there is no reason why St. John should not be able to attract vessels of the largest size to the port. New York has succeeded in doing the promise of accommodation to the Olympic, the White Star liner soon to be launched, because they have not only a harbor, but a source of water power secured that would be more valuable than any gold mine.

These are but a few of the things which have been suggested by the engineer that St. John has a great future in store and with every appearance of sincerity he stated that if he were not bound down by large interests in the afternoon the descent being made awkwardly and with great danger to the aviator on account of the trees. The monoplane struck heavily and was badly damaged, but Bague was not hurt.

Leut. Bague's overseas flight breaks the previous record held by J. A. D. McCurdy, who, on January 30 last, flew from Key West to within ten miles of the Cuban shore, a distance of 91 miles. Glen H. Curtiss last August, made a flight over Lake Erie of 64 miles, while other aviators have done 50 or more on several occasions.

Montreal, Mar. 5.—Incarceration in a criminal lunatic asylum is to be the lot of Thomas Waterhouse, who having been committed to take his trial in the King's bench court on the charge of killing his wife, was yesterday brought before a jury to stand for trial. The accused was apprehended on his own confession, after having beaten his wife to death with a baseball bat. Four medical men gave evidence yesterday and they were unanimous that Waterhouse was suffering from senile melancholia.

AS FAITH IN ST. JOHN Visiting Engineer Sees Bright Future in Store For Us—Importance Of Albert Gas Discovery.

That the discovery of natural gas in Albert county is a matter of supreme importance to the city of St. John is the view of an eminent engineer who has visited the city and carefully examined the possibilities of the situation.

The citizens cannot estimate too highly the benefits to be derived from this discovery or spend too much energy to make it possible to reap the rewards which come to a community from such an aid to the development of industry is his conviction.

One of the first results should be the establishment of steel and iron works on a large scale. England has grown rich out of this business and the raw material is brought much farther than the distance from St. John at which it could be secured.

The geographical advantages enjoyed by this city and the shipping facilities already established should make such an industry a splendidly paying proposition.

The construction of a dry dock at St. John is being looked forward to and as it is impossible to operate a dry dock profitably without a shipbuilding plant in conjunction, this in itself would afford a source of work in which iron is a leading factor could be developed here and the city could rival the greatest manufacturing centres of the Old Country.

It has been considered in the past that St. John has been hampered by the great rise and fall of the tides, but this, the engineer maintains, could be turned into an advantage.

With the construction of a barrage near the bridges much of the currents which now hamper navigation could be cut off, and a source of water power secured that would be more valuable than any gold mine.

Barages have been constructed on situations more difficult to engineer, and the cost need not be more than a couple of hundred thousand dollars. Such a structure would not interfere with navigation, as locks could be provided for shipping.

If the facilities here were made suitable there is no reason why St. John should not be able to attract vessels of the largest size to the port. New York has succeeded in doing the promise of accommodation to the Olympic, the White Star liner soon to be launched, because they have not only a harbor, but a source of water power secured that would be more valuable than any gold mine.

These are but a few of the things which have been suggested by the engineer that St. John has a great future in store and with every appearance of sincerity he stated that if he were not bound down by large interests in the afternoon the descent being made awkwardly and with great danger to the aviator on account of the trees.

"GO IT WHILE YOU ARE YOUNG," PASTOR'S TOPIC. Rev. William Lawson Preached Powerful Sermon on Vanity of Sinful Pleasures and Delights of Godly Life.

"Go it while you are young," was the subject of a powerful sermon on the results of sin delivered in Zion Methodist church by Rev. Wm. Lawson, last evening. In an impressive manner the preacher showed the vanity of sinful pleasures and contrasted them with the wholesome delights of a Godly life.

His text was Ecc. 11:9, "Rejoice O young man in thy youth and let thy heart cheer thee in the days of thy youth and walk in the ways of thine heart and in the sight of thine eyes, but know thou, that for all these things God will bring thee into judgment."

"This language," he said, "is expressive of disappointment in the pleasures of sin. The writer had pathfully and sadly learned the bitter taste of earthly sweets and of the blossom and fruit of which sin was the seed. The charm of sin is in its then, then curse and damn is the pleasure it offers to its votaries. Men grow daily to the appetite of sin, lust and sensuality, as the animal grows on what feeds. The world was made for man's pure pleasure as man was made for God's delight, but man has forfeited a large share of lasting joy by sin."

"Walking in the sight of the eyes brings false ideals of pleasure. The eyes are the windows through which we see the world and it depends on our vision as to what we see of good or bad. The possessions in response to man's desires for pleasures disappear. Sin, as we know, brings man into judgment. This life and God's pleasure are not to be compared. It is not a murderer so fearful as that of the soul which all young men are committing daily by walking in the ways of their hearts and the sight of their eyes and all on the way to that judgment which God has appointed for all."

BIRD MAN IN LONG FLIGHT. Lieut. Bague Accomplished Sensational Feat in Flying Over Mediterranean—Travelled Nearly 125 Miles.

Nice, France, Mar. 5.—Lt. Bague accomplished a sensational and daring feat today by flying over the Mediterranean from Antibes to the little island of Georgona off the Italian coast. He covered a distance of more than 200 kilometers (124 miles) being a new record for over water flight. This he did without the assistance of tugs, torpedo boats or any other craft to guide or add to his confidence in their presence.

In the presence of a few spectators the aviator left the ground, rising at once to a considerable height. He shaped his course southward and soon vanished. Aided by a strong wind his passage was rapid and a despatch was finally received here that he had arrived at Georgona. This island lies between Corsica and Leghorn. It is a small wooded rock about 2 miles long, belonging to Italy.

Bague landed there at 1 o'clock in the afternoon, the descent being made awkwardly and with great danger to the aviator on account of the trees. The monoplane struck heavily and was badly damaged, but Bague was not hurt.

Leut. Bague's overseas flight breaks the previous record held by J. A. D. McCurdy, who, on January 30 last, flew from Key West to within ten miles of the Cuban shore, a distance of 91 miles. Glen H. Curtiss last August, made a flight over Lake Erie of 64 miles, while other aviators have done 50 or more on several occasions.

Montreal, Mar. 5.—Incarceration in a criminal lunatic asylum is to be the lot of Thomas Waterhouse, who having been committed to take his trial in the King's bench court on the charge of killing his wife, was yesterday brought before a jury to stand for trial. The accused was apprehended on his own confession, after having beaten his wife to death with a baseball bat. Four medical men gave evidence yesterday and they were unanimous that Waterhouse was suffering from senile melancholia.

STEAMBOAT COMPANY
ASKS LARGER GRANT
Company Operating Newcastle—Chatham Ferry will Seek Increased Aid From the Provincial Government.
Newcastle, N. B., March 5.—The Newcastle Steamboat Co. had an operating loss of \$1400 for seven months last season and the company is now desirous of having the local government increase the subsidy for the service from \$500 to \$2,000. The town council appointed Ald. Morrison, Clark and Layton to act with the delegation at Fredericton next week. The Newcastle representation will act in conjunction with a delegation from Chatham, who will ask the government for an increased subsidy for the Chatham ferry operation. Acting for the defence in the case of the Miramichi Hotel here today, for violation of the Scott Act, A. Davidson, formerly police magistrate, deplored some of the tactics being pursued. He said he was not antagonistic to the temperance people, but merely wished for justice. Crown Prosecutor O. W. Butler was in attendance at court but did not prosecute. The town marshal appeared as prosecutor but lost his first case. Magistrate Malby dismissing the case on application of Mr. Davidson. A case against Medall Connors of Rouens Bridge was also heard, but no testimony to convict the witness of the sale of liquors was presented. Hearing was adjourned for a week, when argument of counsel will be heard. Campbellton curlers passed through here today en route to Chatham, where they are playing a four rink match. Visitors will meet Newcastle tomorrow.

HOME RULE BILL
AFTER GLADSTONE'S
Chief Secretary Birrell Makes Guarded Announcement Concerning Nature of Proposed Measure—Fiscal Enquiry.
London, Mar. 3.—Augustin Birrell chief secretary for Ireland speaking at Oxford tonight indicated that the government's home rule for Ireland bill will be on the lines of Gladstone's second home rule measure, subject to modifications that time has shown to be wise and rational. He said that the government is now engaged in an inquiry into the fiscal position of Ireland preparatory to granting home rule.

RICHIBUCTO.
Richibucto, Mar. 4.—O. K. Black, who resigned his position as treasurer of the Maritime Funeral Directors Association in the early winter on account of illness is improved in health. Messrs. Patrel, of Shediac and Roberts, of Halifax, have purchased the lobster factory from P. F. Richard, at Richibucto Cape, and are making preparations to enlarge the building. E. S. Hennigar, G. W. P. of the Sons of Temperance, addressed a public meeting in Temperance Hall, on Wednesday night. He also addressed a meeting in Hexton on Monday night. H. R. Lozgie, of Chatham, engineer of the public works department, arrived here this week on business connected with the cape breaker. Miss Jessie Dunn, of Harcourt, is spending some weeks in Dalhousie. Mrs. Joseph Howe, wife of Principal Howe, of the grammar school, is expected here and will visit friends. F. C. Paton, of Pabos Mills, has purchased the tugboat Alice Irving, from J. D. Irving, of Buctouche. Smallpox conditions are improving in the county. Dr. Fisher, secretary of the provincial board of health, has been here this week looking into the smallpox situation among the Big Cove Indians. They are now out of quarantine. Rev. Father Cyr, of Madawaska county, has been appointed parish priest at St. Margarets and Kouchibouguac, made vacant by the death of Rev. Father McGuire. Robert Stewart, of this town, who graduated from the Currie Business College, St. John, has accepted a position as bookkeeper for T. Rankine and Sons, St. John. Miss Isa Leighton, of Newcastle, is visiting her brother, Dr. George Leighton, at Reston. Messrs. James McIntyre, Charles

FINANCIAL WORLD

PLAN FOR THE SPANISH RIVER PULP ISSUE

Dominion Bond Co. to Handle Canadian Issue While London and South Western Bank will Look After London.

Following on a successful reorganization of the Spanish River Pulp and Paper Mills, Limited, the announcement is made by Grant Morden, president of the Dominion Bond Co., that arrangements had been concluded for an issue of \$1,500,000 of the 6 per cent first mortgage sinking fund gold bonds of that company in London, England, through the London and South Western Bank, Ltd., of London. The books for the London offering will open on March 6th, and simultaneously with this offering the Dominion Bond Company will receive subscriptions in Canada. The bankers for the issue in England are the Royal Bank of Scotland, London, Eng., and the London and South Western Bank, Ltd., London, Eng. The bonds are being offered in Canada at 97 1/2.

The plants and mills of the Spanish River Pulp and Paper Mills Ltd., are situated at Espanola, Ont., and the reorganization of the company was put through with a view of enabling the company to keep pace with the demands developed in pulp that was occurring in the pulp industry of Canada.

The capitalization of the new company consists of an authorized amount of \$2,500,000 of first mortgage 6 per cent sinking fund bonds, of which \$1,500,000 now being offered are issued; \$2,000,000 7 per cent preference stock, of which \$1,500,000 is issued, and \$2,000,000 of common stock all of which is issued. The company has been in successful operation for a number of years past, and the value of its fixed assets was determined by the Canadian American Appraisal Company, Ltd., after allowing for depreciation stands at \$2,489,684, or nearly twice the amount of bonds issued. This is exclusive of the standing timber on the area on which the company holds a concession. The net earnings of the company as determined by Messrs. Price, Watson and Company, for the past three years were as follows: Year ending 31st Decem-ber, 1908, \$50,853.81; Year ending 31st Decem-ber, 1909, \$169,558.30; Year ending 31st Decem-ber, 1910, \$207,899.33. The net earnings for 1910 show the bond interest earned almost three times over. The announcement that the bank-ers for the issue in London were the London and South Western Bank, Ltd., is sure to attract great interest in Canadian financial circles, as it indicates the attention that the larger British banking concerns are paying at the present time to the more attractive Canadian industrial enterprises.

CLOSING STOCK LETTER.
By direct private wires to J. C. Mackintosh & Co.
New York, March 4.—The attention of Wall Street was focused upon Washington today and the movement of prices conformed closely to the startling nature of advices from that centre regarding the proceedings of congress. At first it appeared certain that an extra session was inevitable, but as the day advanced the Senate and House, through the adoption of various expedients, disposed of a large amount of business and at this writing with the clock in both houses put back half an hour, it was not certain that the Canadian reciprocity measure would not be reached. In the last half hour it was reported that the Canadian government had requested President Taft to defer action on this measure and Washington advices reported that many members of Congress believed that there was some reason to expect that no extra session would be called. If this should turn out to be the case, the market would be in position to rally sharply tomorrow morning, although the possibility of a decision in the corporation cases at noon on that day would exert a repressive effect.
Later—Extra session of Congress has been called for April 4th.
and John Sullivan and James Marten, who spent the winter in Bay du Vin, returned last week to their homes in Kouchibouguac.

MONEY KINGS ARE WATCHING WASHINGTON

Keenest Interest Taken in De-liberations of U. S. Lawmak-ers—Easier Money in London—General Trade Improving.

New York, March 4.—The eyes of the financial community were again focussed on Washington today. The progress of events at that centre was watched with the keenest interest, although the prospect of an extra session of congress seemed to excite less apprehension. Extreme dullness prevailed throughout the stock market session, which was characterized at times by an undertone of strength. London's prices for gold securities advanced generally higher, and this advantage was more sustained at the opening of the local market. There was little disposition to carry this session by an undertone of strength. London's prices for gold securities advanced generally higher, and this advantage was more sustained at the opening of the local market. There was little disposition to carry this session by an undertone of strength.

NEW YORK COTTON MARKET.

Table listing cotton market prices, including March, April, July, Aug., Oct., Dec. prices.

CLOSING COTTON LETTER.

New York, March 4.—Today's short session was extremely narrow, with an undertone of nervousness, reflecting the variable character of advices from Washington. The opening was better than expected because of the tardy response of the Liverpool market to yesterday's weakness here, and short covering caused an early recovery extending 3 to 5 points. On the advance a considerable volume of cautionary selling was encountered, and as it appeared in the last few minutes of trading that an extra session of Congress was inevitable, prices lost all of this gain and 3 or 4 points besides. At this writing there are rumors in circulation to the effect that President Taft may not call the extra session owing to advices from the Canadian government requesting that action on reciprocity with that country be deferred. If this report verified the immediate effect should be stimulating.

Auction Sales.
T. T. Lantaulum and F. L. Potts conducted sales of property at Chubb's Corner on Saturday. Mr. Lantaulum first offered the property on the corner of Main and Holly streets, occupied by Tapley Bros., and others. Luther Jordan became the purchaser at \$3,600. The next property offered by Mr. Lantaulum is situated on the corner of Simonds and High streets, and was formerly known as the Middlemore property. O. S. Dykeman became the owner at \$1,130. Both properties belonged to the Count DeBury estate. The following parties belonging to the J. Marcia estate were sold by Mr. Potts: Three tenement houses on Brussels street, No. 189 to 193. These properties brought \$2,110 and were bought by Chas. Braeger. The brick house No. 333 Union street, was purchased by Edward Hogan at \$2,800. The Odd Fellows Hall was withdrawn at \$13,300. The sale of the Marsh Road property was postponed for a week.

ACCIDENT AT HOCKEY MATCH

Ernest Sterling Struck by Puck and Hurt During Saturday Night Game in Queen's Rink.

Three interesting games of Hockey were played on the Queens Rink Saturday night. In the game between the Rothesay and High School team, the former won with a score of 6 to 0. The Glants defeated a picked team with a score of 6 to 4. There was a lively contest between the M. R. A. Ltd. and C. F. R. West, the former team winning, score 7 to 5. During the game Ernest Sterling, the M. R. A. rover, was struck on the side by the puck and was rendered unconscious for five minutes. He was conveyed to his home in a coach.

FINAL STANLEY CUP DATES NAMED

As a result of Galt's winning the Ontario professional league championship the Stanley Cup dates have been finally fixed. The trustees announce that the winners of the Prince Albert, Fort Arthur series will play Ottawa March 13 and 15. Should the Ottawas hold the cup they must play Galt on Thursday, March 16, and Saturday, March 18. The Ottawa team will leave for New York on March 19th.

PROGRAMME FOR TWELFTH OLYMPIAD

The programme for the fifth Olympiad to be held at Stockholm, Sweden, next year, is made public. Many events unfamiliar to the athletes of Canada and the United States are on the card. New conditions, for instance, govern the javelin throw and the shot put. In addition to the free throw there will be throws by the left and the right hands alternately. The competition will start June 30 with lawn tennis and target shooting. The big event of the meet—the Marathon race—will be run July 15. The distance has been made 24.85 miles, instead of the regulation 26 miles and 385 yards.

I. C. R. GETTING READY FOR SUMMER TRAVEL

Moncton, N. B., March 4.—Anticipating a busy season of summer tourist travel, a large number of passenger cars are being thoroughly renovated and rebuilt at the I.C.R. shops, and there is considerable activity on this account as it is the desire of the management to have every piece of rolling stock in thorough repair before the rush of summer travel commences. The cars of the Ocean Limited Express are being thoroughly overhauled, repainted, varnished and upholstered, and this famous train will go on the route when summer commences with a thoroughly renovated equipment equal in elegance and comfort to the best through trains on the continent. A large number of new cars are being constructed at the shops.

ANOTHER ONCE WAS-ER WANTS TO COME BACK

KID MCCOY, ONCE AND NOW.

Kid McCoy, having tried almost everything else under the sun, including matrimony and the cafe business, is now the coming back kid. Above are photographs in his prime and today. Notice the trim, greyhound appearance of the old-time Kid and then look at the fat on his chest, arms, legs, and incidentally the alderman he packs in the other. If it wasn't for the towel bound tightly over his shoulders more adipose would be apparent. McCoy went three rounds with Jack O'Brien and did so well he decided to re-enter the ring.

THE ENGLISH CHAMPIONSHIP

William Albany to Row Champion Barry on Thames for the Title — Albany a Boxer, Too.

As Tom Sullivan would not put aside his quarrel with The London Sportsman and as no match with Barry could be arranged without including The Sportsman Cup, Sullivan has withdrawn from the position of matchmaker for William Albany, who wants to row Barry for the English championship. Barry's interests are looked after by H. T. Blackstaffe, Vesta Rowing Club, lately amateur champion, while Albany's affairs have been taken up by R. H. Forster, of the Thames R. C. Sullivan is to train Albany and a match for the championship of England, The Sportsman Cup and £200 a side is now arranged. It will probably be rowed about the first of May. This will be the first meeting in a similar match between two English born scullers for over 19 years. The last two to meet were W. G. East, of Isleworth, and G. J. Perkins, of Newcastle, both of whom are alive and well today. That race, however, took place on the Tyne, as did the meeting between Geo. Buhar and Perkins in 1888. As a matter of fact, not since W. Elliott, of Byth, beat R. W. Boyd, of Giffhead, in 1878 has the Thames been the scene of a championship match between two home born men, and that is 33 years ago. Albany is in his 24th year and prior to adopting a professional career, he was amateur sculling champion of the River Lea and a heavyweight boxing champion in the colors of the Columbia Rowing Club. He has won several handicaps and last November he defeated Arlett, of Henley over the Thames course.

MR. BORDEN ENDORSED

St. Catharines, Ont., March 5.—At the annual convention of the Conservative Association of Lincoln county, held here Saturday afternoon, the following resolution was unanimously carried:— "That this convention unanimously desired to endorse the policy of Mr. R. L. Borden in his opposition to the proposed reciprocity agreement between Canada and the United States, believing that the proposed agreement is hostile to the best interests of all agricultural, labor and commercial business communities in this country."

MONCTON VICS TO SHOW "HUB" THE REAL GAME

Champion Puck Chasers Will Play Exhibition Games in Boston With a Quebec Team.

Moncton, N. B., March 5.—The Victoria hockey team, professional champions of the Maritime Provinces, leave here on Saturday for Boston to play exhibition games with the Quebec team on March 13th, 15th and 18th.

EATONS ARE THE O. H. A. CHAMPIONS

Team Representing Toronto Department Store Won Senior Hockey Championship of Ontario—Other Games.

Toronto, March 5.—By defeating the Argonauts on Saturday night in the final game of their series, Eatons won the senior championship of the O. H. A. and lay claim to the Allan cup which they offer to defend against all comers. Saturday night's score was 7 to 4 in favor of the Big store. Ottawa, March 5.—The unexpected again occurred in the National Hockey Association on Saturday, when Renfrew won from Ottawa at the local arena by a score of 7 goals to 6, thus giving the new champions their third defeat within eight days. Three Rivers, Que., March 5.—The hockey game between Grand Mere and Three Rivers in the Interprovincial league championship of the Eastern section, was won by the home team yesterday, the score at the close of play being 7 goals to 5 in their favor.

D. F. PIDGEON SAYS HE NEVER SAID IT

Refers To Answer Given At Commission Meeting — His Questioner Not Quite Satisfied With the Explanation.

To the Editor of The Standard. Sir.—In your report of Friday night's citizens' meeting in favor of commission plan of civic government, you have credited me with the following remarks in reply to a question by Wm. Peterson of the Carpenters' Union:—"Mr. Pidgeon said he had the guarantee of the executive during the meeting of the Citizens' Committee, composed of many of the most influential men in St. John. At a special meeting of the executive during the afternoon this point had been discussed, and it had been unanimously decided that any citizen who had the right to vote would be eligible for election to the commission." The executive had decided to have the charter committee draw up a charter, in which there would be no property qualification, and if when this charter was sent to Fredericton, the legislature trifled with it there would be trouble for some one." I beg to state most positively that I made no reference whatever to the legislature. Having always been a supporter of the present administration and still being a supporter, I have every faith in Mr. Hazen's inclination to meet the wishes of the citizens as expressed at the polls on April 17th. Yours truly, D. F. PIDGEON. St. John, March 7, 1911.

CHESS MASTERS PLAY ADJOURNED GAMES

San Sebastian, March 4.—Adjourned games were played in the International Chess Masters' tournament today, the results being as follows: Capablanca beat Janowski; Spielmann beat Leonard; Rubinstein beat Janowski; Vidar beat Burn; Leonard lost to Rubinstein; Duras lost to Spielmann. The game between Maroczy and Niemzowitsch was drawn and the Teichmann-Tarrasch game was further adjourned.

SOCIALISTS TALK ON CIVIC PROBLEMS

J. W. Eastwood Says There are Scores of Untenatable Dark Dwellings in this City—Why Some Folk Move.

At the meeting of the Socialists last evening it was announced that next Sunday evening the comrades of the Red International would hold a civic night, and that a lecture would be delivered telling what the Socialist administration of Milwaukee working with the old style of civic machinery were doing to give their city good government and improve the condition of the workers.

J. W. Eastwood spoke on the housing problem of St. John, claiming that there were scores of dwelling houses in this city with rooms into which the sunlight never got—dark rooms such as were prohibited by legislation in Great Britain and other countries. He thought that the City Fathers should give more attention to the housing problem than they do, and that the building by-laws should be revised and brought up to date.

Under present conditions, when the landlords put up rent, the tenants moved for their own amusement. At one house the other day he was told the occupants intended to move to a certain other house because the landlord had put up the rent \$1.50. He went to the other house and found the occupants intended to move to the first house because the landlord had put up the rent \$1.50. Both houses were exactly the same, and so was the rent. The occupants asserted their independence by leaving, but they gained nothing—only put themselves to expense and trouble.

An interesting discussion followed the address, in which it was contended that the remedy for unsatisfactory housing and high rents lay in the adoption of the tax on land values and the erection by the city of model cottages on its lands such as other cities built and also an improved car service to enable more people to go out to the suburbs.

The only object the workers have in supporting the commission.

"We know the board of trade usually opposes legislation in the interest of labor, and we know the citizens' committee are not going to abolish the property qualification out of love for us.

"Now, I understand Mr. Pidgeon to pledge the whole citizens' committee to see that the property qualification was abolished, but if, as he says, he was making no reference to what might or might not be done at Fredericton, I don't see what he was driving at, because it is at Fredericton that this point will be decided.

"Moreover, as the general committee has not taken any action on this point, I would like to know how the commission should have had the job bel on its pamphlets if it wanted the support of organized labor,

KILLED FOR HIS MONEY

Wealthy French Canadian Is Slain in a Stable Near Three Rivers—His Murderer Captured and Confessed.

St. Leonard De Nicolet, Que., Mar. 5.—Horrasidas Trepanier, a farmer, 45 years of age, of St. Leonard De Nicolet, was arrested at his home today by Chief McCaskill, of the provincial police for the murder of Maurice Plouffe, whose body was found on the road between Three Rivers and St. Leonard De Nicolet on Thursday night last night Chief McCaskill stated that Trepanier had confessed he had killed Plouffe by stabbing him in the neck and smashing his skull in with an axe. The murderer was committed in Trepanier's stable and the body was afterwards taken out and left on the main road where it was found Thursday night by Joseph Lord, a general storekeeper, of St. Leonard De Nicolet, who was returning from a business trip to Three Rivers. Trepanier confessed that he and Plouffe had been drinking and while under the influence of liquor he had killed Plouffe for the money he was supposed to have in his possession. Trepanier said he had only got a few dollars.

AROUND THE CITY

Lake Michigan Due Today. The C. P. R. liner Lake Michigan from London and Antwerp is due to arrive this morning.

Either Drunk or Shaming. Yesterday afternoon Policemen Writton and Silas Perry arrested a man on Waterloo street and have charged him with being drunk or feigning drunkenness.

Auto Driver Reported. Policeman Rankine has reported William Anderson for driving an automobile on Mill street on Saturday and yesterday without a number, which is contrary to the law.

A Peculiar Coincidence. By a peculiar coincidence the first dinner of the new St. Patrick society will be held in the same dining room of the Victoria hotel in which the old St. Patrick's society held its first dinner 30 years ago.

The Seamen's Institute. The Ladies' Auxiliary of the Seamen's Institute will hold a special meeting on Monday afternoon at 3.30 o'clock when all will please make their reports in connection with the lecture given by Mrs. E. A. Smith.

Annual Artillery Meeting. The annual business meeting of the officers of the 3rd New Brunswick Heavy Brigade Canadian Artillery, was held on Saturday. Reports were received from the regimental and hand committees and were approved. The officers and committees were reappointed.

Horse Fell Through Wharf. Shortly after 5 o'clock Saturday afternoon a horse owned by C. H. Philips and driven by a boy named Morrison, fell through the wharf near Baird and Peters' warehouse, off Water street. A still alarm was sent to No. 1 Hook and Ladder station. The company responded and extricated the animal. He suffered no injury.

A Saturday Afternoon Fire. About five o'clock Saturday afternoon fire was discovered in the basement of a house on Brussels street, owned by Bishop Casey and occupied by Peter Wood. An alarm was sent in from Box 14 and the firemen soon put the fire out with very little damage being done. The house was filled with smoke for a short time which did not cause much damage.

Police Activities. George Alberts was arrested on Saturday afternoon on a warrant for using abusive language. Saturday afternoon William Downey was arrested on Charlotte street by Policemen Silas Perry for being drunk. Downey put up a kick and the officer had to get assistance to convey the man to the central station. The prisoner is charged with resisting arrest.

Loyalist Division S. of T. The Gospel Temperance meeting held under the auspices of Loyalist Division S. of T. in their hall last evening was well attended. R. H. Cotter delivered an interesting address on the Temperance movement. Mr. Grant presided. A sacred solo was sung by Walter Daley, and Miss Nicole acted as organist.

The Hesperian in Port. The Allan line steamship Hesperian, Captain Main, arrived off Partridge Island last night from Liverpool via Halifax. She came up to her dock at 2 o'clock this morning and landed 10 saloon, 250 second cabin and 70 steerage passengers. All the rest of her passengers were landed at Halifax. About 850 passed through the C. P. R. depot Sunday morning early on their way west by the C. P. R.

Geodetic Survey Men Here. F. C. Dennis and V. McMillan, of the Dominion Geodetic Survey, arrived in the city Saturday and registered at the Victoria. They have been engaged for the past month making maps of the country between St. Andrews and St. John, and will be employed about another month working in the direction of St. Martins. The maps are being made in connection with the general geodetic survey of Canada, and the work they are doing has no special purpose beyond increasing the stock of geodetic knowledge about the Dominion and perfecting the maps published by the Federal government.

Dr. Chown in Centenary. In the Centenary church last evening Dr. Chown, general superintendent of the Methodist church in Canada delivered an eloquent sermon on the subject of Holiness to a congregation that crowded the church to the doors. After pointing out the importance of the moral law running through the universe, he divided his subject into two parts—the object of the law and the dynamic power essential to the working out of the law. The secret of the attainment of holiness was the imitation of Christ, the dynamics of holiness was the love of God in the heart. Dr. Chown, who is one of the ablest preachers in the Methodist church, went on to amplify these two thoughts, illustrating his points in striking ways. The sermon was much appreciated by the large congregation.

Dropped Dead in Immigration Shed. The adventures of Philip Schmidt in search of a fortune in the new world came to a sad ending yesterday when he dropped dead in the immigration building on the West side. Schmidt, who was a German of about 35 years of age, came to this country some months ago and went out west. He was troubled with heart disease, and while in the west fell sick and attracted the attention of the public authorities, who decided to have him deported. He was sent to St. John and placed in the immigration shed. The long journey on the railway, coupled with the knowledge that he was doomed to die of heart disease, evidently proved too much for him, and yesterday death came to him to relieve him of his misery. Dr. Kenney viewed the remains and decided that an inquest would be unnecessary.

PERSONAL. Aid. R. T. Hayes returned to the city on Saturday. Mr. and Mrs. M. J. Harrington, who were in the city attending the funeral of Mr. Harrington's mother, left for their home in New Haven, Conn., on Saturday.

UNION ST. HOUSE DAMAGED IN FIRE

Henry Gallagher's Dwelling Scene of Blaze—Loss Estimated at About \$600—Mostly Water Damage.

Shortly after noon yesterday fire and water caused about \$600 damage to Henry Gallagher's house and contents at 351 Union street. The building is a two storey wooden structure and is occupied by Mrs. Alexander on the ground floor and James Steele on the upper flat. The fire is supposed to have started around a chimney in Mr. Steele's apartments and had a good start when discovered and an alarm was sent in from box 13. When the firemen arrived the flames had burned through the roof. No. 1 chemical and two good streams from No. 2 and 3 hose companies were soon at work. The fire was confined to the upper western section of the building which was badly gutted and a large quantity of water was poured into the house.

The Salvage Corps covered the furniture on the lower floors with their rubber blankets and thus saved the greater part. Mr. Steele will suffer a couple of hundred dollars loss, while Mrs. Alexander will not lose so much. The loss to the building is fully covered by insurance.

WOULD CONTROL ALL THE RIVER DRIVING

Application of Importance to Lumbermen Now Before Maine Legislature—F. C. Beatty and J. F. Gregory Attend.

New Brunswick lumbermen are awaiting with deep interest the decision of the Interior waterways committee of the Maine legislature with regard to the application for the incorporation of the Upper St. John River Log Driving Company. The privileges asked for by the company are such as to affect very seriously the interests of the operators of this province and the decision will be one of great importance to them. Their proposals include the control of the driving on the river from Baker's Lake to the mouth of the Allegash including the right to erect dams.

A very interesting letter from Miss Ellen T. Todd, of Patepur, Haswa, U. P. India, was read at the meeting of the King's Daughters' Guild in their rooms on Sunday afternoon. Miss Todd is connected with a rescue home for girls and her letter dealt chiefly with the progress made by a girl towards whose support the St. John guild is contributing. The girl came to the home a heathen of a most discouraging type, but since then had undergone a great change and was lately baptized and received into the Presbyterian church.

The letter will be sent to the various circles who have helped in the support of the girl. Yesterday's meeting was in charge of the Comfort Circle and Miss Pearl Clark was the leader. The subject was mission work and the leader dealt very interestingly with Henry Van Dyke's story of The Other Wise Man.

TO SEND MISSIONARY TO PERSIAN FIELD

Young People of United Baptist Churches Decide to Assist Rev. Dr. McArthur in His Work. The executive of the Y. P. league of the United Baptist churches in the city held a special business meeting in the vestry of the Leinster street church yesterday afternoon at four o'clock. The chief business was consideration of the question of sending a native missionary to Persia.

The Persian mission is under the direction of Rev. Dr. R. S. McArthur of New York, and the different Y. P. leagues in the province have been working on the question of aid for it. At yesterday's meeting the reports were most favorable from the different leagues, and it was decided to engage a missionary for this year. It was also decided to hold a public meeting some time next month for the purpose of furthering the cause.

ONTARIO PREACHER IN A CITY PULPIT

Rev. H. S. Mahood, of Paris, Ont., Preached Two Eloquent Sermons in Congregational Church, Yesterday. Rev. H. S. Mahood, of Paris, Ont., occupied the pulpit of the Congregational church at both services on Sunday and delivered two very effective sermons. At the evening service his subject was "The Silence of God." He took as his text the erection of Solomon's temple which was built "with-out sound of hammer." Commencing with the creation of the world, the speaker pointed out that all the epoch-making events had been accomplished in silence and showed how the Divine influence was usually manifested in that way.

STATE CONTROL OF LIQUOR TRAFFIC

Rev. J. J. McCaskill Gets Away From Conventional Ideas in a Sunday Afternoon Temperance Address.

In an interesting address delivered before a largely attended meeting held in the Temple of Honor Hall yesterday afternoon, Rev. J. J. McCaskill advocated the nationalization of the liquor traffic, claiming that it afforded a better way of dealing with the evils of the liquor traffic than the methods now being tried. Nationalizing the traffic, he said, would abolish the power of the money interest, which today buys legislatures, corrupts politics and prevents the passage of laws designed to promote the cause of temperance. The greatest evils of the traffic arose from the fact that it was a source of great profit and the liquor dealers had a direct interest in promoting the sale of liquor and encouraging the drink habit. The best way to kill the traffic was to cut out the profits.

If the traffic was nationalized it would not be conducted for the purpose of making profits and only pure liquor would be sold, and pure liquor was an effective factor in dealing with the grosser evils of the traffic. The speaker referred to the legislation which had been adopted in Ontario, giving the public authorities the right to take all profits from the liquor traffic over a certain percentage, and use them for making public improvements in towns and cities. He thought an effort should be made to have legislation of this character adopted in this province. The weakness of the present system of dealing with liquor here and in Norway, was that it allowed some one to make profits from the traffic. Mr. Black presided and the musical programme was furnished by the St. Matthew's church quartette.

ST. JOHN GUILD AIDED THIS GIRL

Interesting Letter From Indian Rescue Home Read at Yesterday Afternoon's Meeting of King's Daughters.

The new 1911 Spring Models will instantly appeal to men who seek comfort and originality of design. In addition to our large range of shapes we have five new lasts—Aviator, Nemo, Billiken, Auto and Nab. The materials this season are certainly choice, the shemaking unapproachable, and the fitting qualities perfect.
