

GOVERNMENT LEADS IN SEATS REASONABLY SAFE TO ITS CREDIT IN NOVA SCOTIA

The Province Has Never Witnessed Such Campaign as Waged by Prem. Meighen. HAS DONE WONDERFUL WORK FOR PARTY Candidates for Every Constituency—Disension in Ranks of Liberals.

Special to The Standard. Halifax, Oct. 8.—Premier Meighen conducted at Tyro tonight a wonderful week's campaign in this Liberal province. In six days he delivered twenty-seven addresses, spoke in thirteen constituencies, and appeared to at least fifty thousand people to give a decisive verdict in favor of the maintenance of the protective tariff.

Candidates Entered. The Government has in the field, or waiting nomination, candidates for every constituency. In this they are more fortunate than their opponents.

Charlotte Town Today. The Prime Minister will not again visit this province during the campaign, but Sir George E. Foster and other Government orators will be here.

JAPAN PLACES ONUS OF SETTLING THE SHANTUNG TROUBLE UPON PEKIN GOVT

Tokio, Oct. 9.—Onus for settlement of Shantung problem will now be placed upon China by Japan, United News learns authoritatively. Following receipt of Chinese reply, in which Peking government pronounced Nippon's proposals unacceptable, Japanese cabinet will decide at session Monday that Japan will accept Chinese rejoinder but will make no answer.

BRITISH MAKE RESERVATIONS IN CONTRACTS

Arrange for Cessation of Construction at Any Stage in Building Battleships. PRESS COMMENT ON ARMS PARLEY Profess Certain Doubts as to Success of the Washington Conference.

London, Oct. 9.—Contracts for four new battleships to be constructed for the British navy call for cessation of construction at any stage in progress. Contractors are to be paid for work done up to time that building ceases.

DELEGATES TO PLUNGE AT HEART OF PROBLEM WHEN IRISH PEACE CONFERENCE OPENS TUES.

All Minor Questions to be Swept Aside for Consideration of Three Main Issues—Early Days of Parley Will be Critical and Future Success Depends Upon Them—Irish Delegates Given Big Demonstration on Arrival in London.

(United Press) London, Oct. 9.—The Irish Peace Conference opening Tuesday, will plunge to the heart of the problem immediately. There will be no attempt to delay facing the paramount issues of the crisis.

ADJUSTMENT DOWNWARD OF FREIGHT RATES

Shippers of United States to Petition for Further Slash in Tariffs. FURTHER CUT IN R. R. WAGES ASKED Leaders of Railroad Workers Intimate Something Will Happen if Cut is Ordered.

Chicago, Oct. 9.—Chicago will be the railroad centre of the country during the coming week with the eyes of hundreds of thousands of anxious shippers and a million railroad workers turned with equal anxiety on the Executive and Rail Union Conferences to be held here.

GIANTS COME FROM BEHIND IN SEVENTH INNING RALLY WINNING SENSATIONAL GAME

BOX SCORE Giants AB R H PO A E Burns, centre field 4 0 2 0 0 0 Bancroft, shortstop 4 0 0 4 1 1 Frisch, third base 4 0 0 1 3 0 Young, right field 4 0 1 1 0 0 Kelly, first base 4 1 1 9 0 0 E. Meusel, left field 4 1 2 0 0 0 Rawlings, second base 4 1 2 1 4 0 Snyder, catcher 4 1 1 10 2 0 Douglas, pitcher 2 0 0 1 2 0 Totals 34 4 9 27 12 1

Summary—Left on bases, Giants 4, Yankees 3; first base on errors, Giants 1; double play, Ward to Peckinpaugh to Pipp; struck out by Mays (Burns), by Douglas (Miller 2, Schang, R. Meusel, Ruth, Pipp, Ward, McNally); time of game 1.45; umpires, Chill at the plate, Rigler at first base, Moriarty at second base, Quigley at third base; attendance 36,000.

For Seven Tense, Tantalizing Innings They Battled to Overcome Lead. PROVED THEIR METTLE IN UP-HILL FIGHT Meusel of Nationals Shared Honors With Douglas—Babe Secures Homer.

New York Oct. 9.—For seven tense tantalizing innings at the Polo Grounds today, they were Giants in fetters. For seven heart-breaking sessions, which put their gameness, spirit and fighting qualities to the supreme test, the champions of the National League struggled in vain to break the shackles which bound them to a sluttish and impending disaster.

Phil Douglas spinning curves, fast ones and spitters with the magic of a Cokeskie at his best, and the control and head work of a Babe Adams, was hurling the game of his life. But so was Mays. And the Yankees had that tremendous-looking one run. Defeat never seemed more certain for a ball club than it seemed for the men fighting under John McGraw.

STRIKE ON IN BERLIN HOTELS

Guests Unable to Obtain Single Thing in the Way of Food. Berlin, Oct. 9.—The striking Berlin hotel employees are seeking the moral support of Americans here. They posted pickets in front of the Unter Den Linden Hotel today with a sign in English, "Notice to English visitors, all employees of the establishment are locked out."

PREMIER TO VISIT NORTH SHORE TOWNS Friday, Oct. 14th

Newcastle, Oct. 9.—Word was received here today that the people of Newcastle and Chatham would have the pleasure of hearing the Hon. Mr. Meighen speak on the issues of the day, his itinerary having been rearranged for that purpose.

ONE-LEGGED BEGGARS RIDING IN TAXIS

Chicago, Oct. 9.—If one-legged beggars hobble to busy street corners that's within police regulations. But if they come in taxis and tip the chauffeur, that's too much trash. Sergeant Edward Webber, of Englewood Station, feels that way at any rate.

NOTICE TO PUBLIC

The unavoidable delay in the transfer and re-organization of The Standard has made it impossible to issue a newspaper of the quality the new owners have in mind.

MARY PICKFORD IS EXTREMELY NERVOUS

Husband Orders Her Not to Receive Callers. Paris, Oct. 9.—The "World's Sweetheart" is going to be "not at home" to her thousands of French and American tourist admirers for the next month.

U. S. PARTICIPATION IN EUROPE URGED

Philadelphia, Oct. 9.—Participation by the United States in European affairs is the only way to save the economic structure of Europe, Ivy League of the Rockefeller Foundation declared today in an address before the Trades Council of the Manufacturers Club.

PRaises French Cars, Uses American Make

Paris, Oct. 9.—M. Dior, minister of commerce, who opened the auto show today is the subject of ironic comment in tonight's newspapers. M. Dior in his address said French manufacturers were the leaders in the auto industry, declared the salon was a triumph for French industry that French cars had been proven the best in the world and that all must work to maintain the leadership over the foreign product.

GEORGIA CONGRESSMAN URGES PROBE MASONS AND KNIGHTS OF COLUMBUS

Washington, Oct. 8.—(By United Press)—Congress is asked to investigate the Masons, Knights of Columbus, and all other secret orders, in a sensational resolution introduced in the House today by Representative Upshaw of Georgia.

Special to The Standard.
Montreal, Que., Oct. 7.—The
dian Pulp and Paper Association
sued today the following state-
ment regarding the Canadian news-
paper market, and arranged for
publication this week in Amer-
ican trade journals devoted to the
print publishing business.
The Canadian production of news-
paper has increased from 1,000,000
in 1909 to over 850,000 in 1920.
The Canadian newspaper mills
equipped to produce about 1,000
tons of paper a year. They are
ported by what is admitted to be
the greatest potential pulpwood re-
serves in the world.
About 80 per cent of the output
these mills is marketed in the U.
S. During the twelve months
ended August 31st, American
paper publishers purchased and
no less than 637,296 tons of Can-
adian newsprint, exceeding the record
of preceding twelve months includ-
ing the period of the greatest demand
newsprint ever known.
Contracts for next year's supply
of newsprint are being negoti-
ated. They show no diminution in
the Canadian demand for Canadian
newsprint.
The Canadian newsprint manu-
facturers, while appreciating fully
evidence of confidence and good
will upon the part of their American
customers, realize at the same time
it would be impossible for them to
hold the confidence and good will
were not to the advantage of the
Canadian publisher to buy his paper
in Canada.
They believe that the quality of
paper they supply, the service
they are able to render to their cus-
tomers, the advantage they are able
to through the proximity of their in-
dustries, the American publishing cen-
tre, fair dealing and reasonable prices
the factors which have brought
and will continue to bring them
American trade.
They take pride in the fact that
their connection with and inter-
knowledge of the American pub-
lishers' requirements enable them to
supply paper best adapted to their
needs.
The Canadian newsprint in weight
quality not greater than one-half
cent per cent. They maintain ex-
tensive departments to control
the quality of their product. Their
warehouses, which obviate freight
delays and other shipping ad-
vantages. Their situation enables
to ship at short notice, relieving
customers of the necessity of
maintaining large reserve stock
and saving large amounts of capital
invested in reserve stocks do not
to their supply and frequently
to less than half that amount.
Recognize that the exigencies of

PALE-FACES WITNESS ARAPAHO DANCE FOR THE FIRST TIME

Nurses and Physicians Among Those Invited to Attend "Offering Dance" of Tribe's Highest Degree.

Geary, Oklahoma, Oct. 7.—The "Offering Dance" of the Arapaho Indians of Oklahoma, which closed here late in August, was witnessed and chronicled by the pale-face for what is believed to be the first time. The offering dance is the final ceremonial to be borne by candidates for the highest degree in the strongest religious fraternity of the tribe.

The ritual was witnessed by a party of Oklahoma City physicians and nurses who visited the encampment of Arapahoes who were being visited by the Comanches, Cheyennes and Kiowas, during a study of skin diseases of the Indians being prepared for the United States Public Health Service. A member of the tribe and a lecturer on Indian folk lore for a national museum was present and explained much of the ritual to Dr. Everett S. Linn and to Dr. Claude B. Norris, leaders of the party.

Six white persons in all witnessed the ceremony. More than 2,000 Indians in all were present.

In preparation for the Offering Dance also called the "Willow dance," a huge lodge was constructed about 75 feet in diameter.

It took several days to complete the lodge, according to members of the tribe, as each pole going into the construction was blessed separately by tribal priests.

Guard lines were thrown out by the Indians so that no uninvited eye could witness their ceremony.

Clever Warden, the lecturer, said the foundation for the order extends so far back that, according to tribal interpreters, the "moons which have elapsed since that time have gone from the memory even of tradition and the tradition and legend extend back hundreds of seasons.

Candidates for initiation may make application to join after they have committed some extraordinary brave deed, have been in leadership, renowned in politics of the tribe, or in some way distinguished themselves greatly the interpreters told the physicians.

Two of the candidates were veter-

ans of the world-war. One had been seriously wounded. Directly east of the center pole an altar fire, or sacred fire, as it was called, was kindled. Half a dozen warriors beat rhythmically on a tom-tom during the dance. The candidates first fasted for two days and then offerings for the Great Spirit were brought in by the candidates, who placed them within the sacrifice grounds and stooping thrust a buffalo tooth into the ground. The warrior who followed had to locate the tooth, and re-thrust it into the ground. Then the feast of the year was brought in. The candidates, however, did not participate.

Standing, they extended their feet so that the soles touched live coals. Without making any outcry the candidates in this position submitted to the painting of their bodies by the priests.

They were allowed to choose the color or which they were painted, according to the tribe's interpreter. If they chose white, it was taken to mean they could continue the ceremony as long as they were able without complete physical exhaustion. If, however, they chose yellow, it was explained, the warrior had pledged to continue the ceremony to the end, though he should endanger his life by so doing.

It was explained by the interpreter that through the entire ceremony the wives of all married candidates had been enduring their fasts and tests, behind a flap in the rear of the lodge. They were kept hidden from the initiated, however, until the conclusion of the ceremony.

The beating of the tom-tom rose and became a roar and the dance was begun. For 48 hours they danced.

Those who did not have the degree of trying again the following year, it was explained.

This dance often is confused with the sun dance which has been prohibited by the federal government, but is not akin to the sun dance.

Soon after the final dance, the physicians were dismissed, and the caravans of Indians departed over the Oklahoma plains.

Newspaper Mills Produce Million Tons

Industry Has Increased in Output from 150,000 Tons in 1909 to 1,000,000 Tons.

Special to The Standard. Montreal, Oct. 7.—The Canadian Pulp and Paper Association issued today the following statement in regard to Canadian newspaper in the American market, and arranged for its publication in American trade journals devoted to the newspaper publishing business.

Canadian production of newspaper paper has increased from 150,000 tons in 1909 to 1,000,000 tons today. The Canadian newspaper mills are equipped to produce about 1,000,000 tons of paper a year. They are supported by what is believed to be the greatest potential pulpwood reserves in the world.

About 80 per cent of the output of these mills is marketed in the United States. During the two years ended August 31st American newspaper publishers purchased and used no less than 637,268 tons of Canadian newspaper, exceeding the record of the preceding twelve months included in the period of the greatest demand for newspaper ever known.

Contracts for next year's supplies of newspaper are being negotiated. They show no decrease in the American demand for Canadian paper.

The Canadian newspaper manufacturers, while appreciating fully these evidences of confidence and good will upon the part of their American customers, realize at the same time that it would be impossible for them to hold the confidence and good will if it were not for the advantage of the American publisher to buy his paper in Canada.

They believe that the quality of the paper they supply, the service they are able to render to their customers, the advantage they are able to offer through the proximity of their mills to the American publishing centres, their fair dealing and reasonable prices, are the factors which have brought them and will continue to bring them their American trade.

They take pride in the fact that their long connection with and intimate knowledge of the American publishing requirements enable them to supply paper best adapted to their needs and of greatest weight and quality at less than one-half of one per cent. They maintain expert traffic departments to control shipments from the mills to the customers' warehouses, which obviate irritating delays and other shipping annoyances. Their situation enables them to ship at short notice, relieving their customers of the necessity of maintaining large reserve stocks and of tying up large amounts of capital. Their finest advantage in a market whose normal reserve stocks do not exceed 10 days' supply and frequently drop to less than half that amount. They recognize that the exigencies of the world-

newspaper publishing business require the elimination of all risks of non or uncertain deliveries. They believe it is of benefit to the publisher to be in close communication with his source of supply so that orders may be checked up and reparations secured, when due without delay.

The Canadian Newspaper Manufacturers are confident that these factors outweigh, in the long run, the mere question of cheapness and particularly so when cheapness is dependent upon the accident of a debased currency which, at best, can only be temporary duration. They do not doubt that sensible American newspaper publishers realize fully their dependence upon a permanent supply of newspaper, produced on the American continent.

Temporary advantage may be offered by a transient supply of low-priced paper which will disappear with the causes that now alone make it possible.

They give the American publisher full credit for the ability and the willingness on his part to meet the needs of the newspaper industry. They expect both as to immediate expediency and future requirements, and they entertain no apprehension as to its ultimate and intelligent judgment.

DO YOUR EARS BUZZ? HAVE YOU HEADACHES? When your ears ring, your head aches, and you seem slightly hard of hearing, beware of Catarrh. Mr. J. A. Hammill writing from Greenmount, P. I. was similarly troubled and writes: "No one could have worse Catarrh than I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all over. 'Catarrhones' cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am now absolutely well, thanks to Catarrhones." Nothing so certain as a Catarrhones Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out Catarrh, cough and cold. Sold everywhere, 25c, 50c and one dollar for complete two months' treatment. Dealers, The Catarrhones Co., Montreal.

HILLSBORO Hillsboro, N. B., Oct. 7.—The annual business meeting of the "Village Club" was held on Wednesday afternoon of this week, when the following were elected to office for the ensuing year: President—Mrs. B. W. Gavey. Vice Pres.—Mrs. W. H. Bishop. Sad Vice Pres.—Mrs. Geo. Wallace. Secretary—Mrs. Shorwood. Asst. Secretary—Mrs. Langlois. Treasurer—Mrs. Miodin.

At this meeting it was decided the club hold a ban supper in the Men's Hall on Saturday, Oct. 16th, proceeds for library purposes.

Word has been received here of the death of Mrs. Otis Kenzie, which occurred at Calgary, Alta. Deceased was formerly a resident of Hillsboro for many years.

Mr. and Mrs. Vaughn West, Miss Mary Steeves, Miss Gerda Robinson of Moncton, and Miss Kathryn Thompson of Mount Allison College, Sackville, attended the West-Daily

WORLD TRADE UNCERTAIN AS GAME OF POKER

Financier Says It Often Upsets Most Careful of Calculations.

New York, Oct. 8.—World trade was described as "an international poker game, continually upsetting the calculations of the most practical players," in an address read yesterday by Allen Walker of the Guaranty Trust Company at the twelfth annual convention of the American Manufacturers Export Association in the Waldorf-Astoria.

Mr. Walker called attention to several recent sharp breaks in foreign exchange in this country, notably the "violent" disruption following Germany's effort to establish reparations credit in New York last June.

There is some reason for optimism, however, he said, in a comparison of the export trade figures for 1921 compared with 1920, the year before the war.

William C. Redfield, former Secretary of Commerce, the retiring president, also addressed the convention. "Far graver to the country than the losses, however large, which have been incurred in foreign trade," he said, "is the mental and moral reaction against that trade which these losses seem to have occasioned in some places. It is a misfortune that we seem to have lost vigor in our export trade at the time when our competitors are under similar conditions, expecting themselves to secure it."

A. W. Willmann, secretary of the association, submitted a report of the committee on patents and trademarks complaining of the usurpation of American patents by German manufacturers as "trade piracy."

"Well known American articles are being manufactured in Germany," the report states. "They bear the American trademark and are being marketed in other countries, including the United States."

Resolutions were adopted recommending to Congress a careful consideration of the effect "an undue increase in tariff" would have upon trade between the United States and Cuba, and asking the State Department to favor the position of the Cuban commercial mission now in this country which seeks an increase in the present 20 per cent. differential.

Myron W. Robinson of New York was elected president of the association to succeed William C. Redfield, former Secretary of Commerce.

Other officers elected were: Vice-president, H. S. Demarest, New York; J. S. Lawrence, Boston; E. M. Heinz, Chicago; Frank K. Taylor, Philadelphia; Julius Goslin, Birmingham, Ala.; and D. H. Pinkney, San Francisco. Phillip B. Kennedy was elected treasurer. No secretary has yet been elected. Directors to serve for three years include W. S. Gavan, M. H. Oulien, Schenectady; F. E. Rhines and E. W. Drocosten, New York.

EPIDEMIC OF DYSENTRY

It affects many people more in winter than in summer—in the one case it is due to improper eating—in the other, to congestion excited by cold.

Repeated a couple of times usually moves the trouble very promptly. If there is pain, relief is almost unmediated, or cramps, cold, stomach pains and the like, Nerviline in sweetened water is certainly a wonder, sec. at all dealers.

FUNERALS The funeral of Thomas Hamilton took place Saturday afternoon from his late residence, 104 Elliott Row, to Fernhill. Rev. A. MacKeigan and Rev. J. A. Mosdon conducted service.

BRYCE FEARS HATE MAY START ANOTHER WAR

Rivalries of Small Countries of Europe Greater Danger Than Pacific, He Says.

New York, Oct. 7.—Smouldering hatred between the smaller countries of Europe endangers the world's peace far more than any possibility of conflict between nations in the Pacific, Viscount James Bryce, former British Ambassador to the United States, said yesterday when, with James W. Davis, former American Ambassador at the Hotel Astor.

After commending the forthcoming armament conference, expressing the belief that the pending negotiations would bring about a permanent settlement of questions at issue between Great Britain and Ireland and advocating a minimum amount of governmental interference with business, the British statesman and scholar drew a gloomy picture of the present situation in Europe.

Co-operation between Great Britain and the United States, Viscount Bryce told the 1,148 guests at the luncheon, "offers the best and perhaps the only prospect of averting from the world the recurrence of those calamities from which we have largely suffered."

It is the co-operation of American and British that the prospect of saving mankind now rests. We in England think that you in America have not realized in what a state of misery and ruin war has left the countries of the continent. War is like a hurricane. Sometimes the hurricane is followed by a season of fair weather, but sometimes one hurricane is followed by another. Nothing is more settled than it was before the war. Sometimes we think the peace we have now is worse than the war itself. The disasters which the war brought have not taught the peoples to desire peace.

The Disease of Hatred. "Everywhere in Europe you see resentment, suspicions, mistrust, rival ambitions of rival peoples, seeking to aggress upon the other or to recover something which they think they have unjustly lost. Some of them are starving, supported by your charity and by that, to a smaller extent, of Great Britain. Nearly all of the peoples of Europe are practically bankrupt. Trade is stopped and the currency has gone down to nothing.

Losses can be repaired by labor, but it is the mind that has been affected. The real disease from which Europe now suffers is hatred, the hatred of peoples to one another. Now you ask me whether I apprehend immediate danger and recrudescence of war between the great Powers. They are exhausted. They know what the cost of war will be and I think they, at any rate, will remain quiet for the present. Of the future who can speak?

"But there are still dangers among the minor Powers. Some of them have already formed alliances against other Powers, from which they apprehend hostilities, and no one can say how soon a spark in one quarter of central Europe may light the flame. A sense of insecurity is at present paralyzing present prospects of recovery and these effects, gentlemen, are felt over the world."

After saying that isolation was no longer possible for any great country, Viscount Bryce declared that there was need for the nations of the world to draw together for the preservation of peace among them.

"The first thing to be done," he said, "is, to far as possible, to reduce the hatred—to persuade nations there

RESTIVENESS SHOWN AMONG IRISH PEOPLE

Distinct Feeling of Anxiety Over Irish Situation Developing in London Circles.

(United Press.) London, Oct. 6.—A distinct feeling of anxiety over the Irish situation is developing throughout London political circles. It is felt that no time can be lost in getting earnestly to work to produce something tangible towards a solution in view of the increasing restiveness of the Irish people. The trend of events across the Irish channel in the past forty-eight hours has produced an impression that influences, which might endanger peace attempts before they are fairly under way, are now active. Several events in Ireland reveal the potentialities of the present situation.

Hopeful for Irish Question. Regarding the Irish situation Viscount Bryce said he has favored home rule ever since 1895. "It is dangerous to prophesy when a few weeks may falsify the prediction of the prophet," he went on. "But in spite of that danger I will express something approaching confidence that it will be found possible to effect a settlement of this question. There is hardly a man in England who does not desire, with all his heart, good feeling and friendship and peace between Great Britain and Ireland."

The British people had accepted President Harding's invitation to the disarmament with "whole hearted joy," Viscount Bryce asserted. He thought it was especially fit that the United States take the initiative in an expression of the desire that one country on earth which, because of geographical position and inexhaustible resources, was "impregnable."

Armaments, he said, were not only a burden but a cause of war, and it was for the common interest of all Europe to reduce expenditures. He felt that France and Italy would join Britain in an expression of the desire. He thought, he said, that if any country were to stand up against reduction that country would "expose itself to a suspicion that would be well deserved."

Hope was expressed that the Pacific problem might be peacefully adjusted and Viscount Bryce said he believed that the Pacific policy of Canada, Australia and Great Britain was identical with that of the United States.

Viscount and Lady Bryce, who have been in this country for ten weeks, are sailing for home today on the Aquitania.

Chiefs of the Republican army have issued a warning to all officers and men that, pending the result of negotiations at London, there must be no relaxation of vigilance, training or discipline in order that they may face further warfare if it becomes necessary.

The Irish bulletin, official publicity organ of Sinn Fein, urges that the organization be strengthened in every sphere of public activity in order to prepare for the outcome of negotiations which are described as a "new sort of war Ireland must face against powerful negotiators." Government officials fear the attitude of extremists may prejudice the conference. Sinn Fein delegates will arrive in London Saturday with thirty assistants. They will be quartered in two houses in the Chelsea district which has been leased for several weeks as Irish head quarters.

No Encouragement For Non-Workers in Edmonton

Edmonton, Oct. 9.—Non-workers will not find any encouragement for loafing in Edmonton this winter if plans to revert to the anti-loafing regulations of the War Times Measure Act are carried out. The provincial government, it is believed, is considering the enactment of such a law and a plan proposed is to tabulate the industrial career of every man that is out of work. Under such a scheme the city would not employ men who had refused work in other places. In this

Office Pencils?

Yes—we've plenty of them; the kinds it pays best to buy, because the best are always cheapest, in the end. Anything, from the regulation memo pencil to the "Ever-sharp" which saves many a dollar on pencil bills. Come in and have a look at them.

Salts If Backachy And Kidneys Hurt

Stop eating meat for a while if your Bladder is troubling you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated with lithia, and has been used by generations to clean and stimulate the kidneys, also to neutralize uric acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous Salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used by generations to clean and stimulate the kidneys, also to neutralize uric acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

HORTON B. HETHERINGTON LECTURES AT Cody's Public Hall, Monday, Oct. 10th; Narrows, Cambridge Hall, Tuesday, Oct. 11th; Macdonald's Point, Wednesday, Oct. 12th; Brunswick Parish, Thursday, Oct. 13th; Berwick Corner, Friday, Oct. 14th.

The measures that I advocate will lead to easier house work on the farm and more attractive country homes, more profitable farming and more farms, lower taxation and reduction in the cost of living."

St. John Rugby Team Defeated

Score Was Three to Nothing in Favor of U. N. B. at Capital Saturday.

Fredericton, N. B., Oct. 9.—The St. John senior Rugby team was defeated 3 to 0 here Saturday, by the University of New Brunswick, Lonsbury school, the only try early in the game and failed to convert. Later Trouble went over the St. John goal line with St. John players on top of him. A try was awarded and converted by Lonsbury, and later disallowed. St. John touched down when the ball was kicked over their goal line on another occasion.

Ordinary rules of the game were disregarded as a result of play was concerned. Three periods of fifteen minutes each being played. This was because of poor condition on the part of St. John. The latter team was greatly strengthened by C. B. Burden, of Fredericton, a former U. N. B. player who had been selected as referee but who was used by St. John to help the back division. The St. John team showed themselves good tacklers and strong defensive players but had little idea of attack. In the early stages they had the better of much territory play but toward the close the college held their fairly well near their own line.

The U. N. B. team will be overhauled as a result of the match. Once in a while the halves of which much was expected went away on combination run. Connection between forwards and backs was not as good as had been expected. In the loose the U. N. B. forwards played fairly well. The two forwards gained much ground for St. John by their kicking.

The teams were:

U. N. B.	St. John
Hagroman	Fullback
Drummond	Halfbacks
MacKenzie	Keen
Trimble	Bennett
Cohn	P. Fraser
Shaw	Knights
Lonsbury	Quarbacks
Bridges	Forwards
Gillmore	Atkinson
Harrison	Mason
Squires	Peterson
Scovill	Turner
Akerley	Agar
Jewett	Grannan
Spares	Johnson
	Skinner and Kyle

GIANTS COME FROM BEHIND IN SEVENTH-INNING RALLY, WINNING SENSATIONAL GAME

Continued from Page 1.

One out and George Burns up. Burns the calm, untroubled veteran, Burns the dangerous hitter in a pinch, Burns the hardest man to pitch to in the National League. Mays bressed a perfect strike past the Giant—and then came the second big blow of the inning. George cracked the ball to Ruth for two bases while Rawlings and Snyder scored and the Yankees were beaten. A fielder with a good arm would have got Burns at second—but with a fielder with a good arm in left, Burns would not have taken the liberty of scooting for the midway. However, that did not matter. Burns never left second, for Rawcroft and Frisch were unable to press the attack.

Mays stopped the hitting but he stopped it too late—and he stopped it for only a short spell. It was resumed with fury in the ninth when Kelly doubled to Ruth—his first hit of the series and Mays singled to left. Rawlings singled to right but Snyder provided the out which ended the attack of the Giants for the afternoon.

The folks down in Tracy City, Tenn. down there in the Mountain Country where Phil Douglas is a citizen of no mean stature are happy. And Phil was glad, not alone because he had won a game—a very critical game—for the Giants but because that fifty acres looked so much closer. There was a news down at Tracy City which Phil wants for the day when the old right arm will not be so potent and the old right arm not so supple and powerful. Phil was in there fighting for those acres and he fought as if every

acres had a mine and every mine the treasure of Ophir. "That fifty acres is as good as Phil's," smiled Douglas as he took the congratulations of his teammates and a silent, meaningful handshake from John McCoy.

"Give me another game against those Yankees and they will get even less," said Douglas. "I never had so much stuff and so much ability to do what I wanted with it. My curve never obeyed me better, my spitter never broke sharper. I want to give Ruth credit for that home run. He hit a low curve with some speed, and he seemed to hit it quite a way. We've got those boys licked."

Credit To Douglas

Great was the pitching of Douglas and Mays in the first game of the series which went to Mays, their hurling handshake from John McCoy.

"Give me another game against those Yankees and they will get even less," said Douglas. "I never had so much stuff and so much ability to do what I wanted with it. My curve never obeyed me better, my spitter never broke sharper. I want to give Ruth credit for that home run. He hit a low curve with some speed, and he seemed to hit it quite a way. We've got those boys licked."

Great was the pitching of Douglas and Mays in the first game of the series which went to Mays, their hurling handshake from John McCoy.

KID MCCOY WOULD TAKE BEATING ANY TIME IN ORDER TO LEARN NEW POINTS ABOUT FIGHTING

Ring Generalship Gives Way to Plain Slugging—Craft of Old Time Fighters Not Copied by Modern Stars—McCoy Won Many Fights by Simple Tricks of Deception—Tried to Give Fitzsimmons Surprise Knockout in Training and Took Thorough Licking.

(By Robert Edgren.)

What has become of all the craft they used to have in the ring? Even boxing commissions, ringside judges and commission referees can't quite account for the change in fighting methods. The only thought of the modern fighter seems to be to get to close quarters and win.

We had some great "generals" in the old days. The most versatile of these topnotch fighters who never missed a chance to put over a crafty trick was Kid McCoy. And McCoy was an average gamster as any of them, when in a pinch.

McCoy had a queer ring history. As a boy out in Indiana he ran away from a good home to see the world. For a couple of years he wandered all over the country. He was a tall, slight, handsome kid, with melancholy brown eyes that got him the immediate confidence of everyone he met—and especially the ladies. He looked like anything in the world but a fighter.

One day McCoy was kicked off a freight train. He had been thrown off before, but he hadn't been kicked. He picked himself up and told the brakeman a few things. The brakeman chased him. McCoy ran. But he didn't run to get away.

When the big brakeman slowed up McCoy stopped. When McCoy stopped the brakeman renewed the chase. When they were some distance from the train and the brakeman was winded McCoy suddenly turned and went at him like a wildcat.

Only a slim boy against a burly grown man, but the grown man was all in from the run. Two more train men ran to help the brakeman, but before they could get there McCoy had given the brakeman a beating and knocked him out and was on his way. That was how the kid discovered he could fight. He tried boxing in some of the night clubs in his other year had adopted the name "Kid McCoy" and was on the way to fame. Before that he used his real name—Norman Selby.

World Series Records Broken

Receipts for First Three Days Over Fifty Thousand Ahead of the Record.

Special to The Standard.

New York, Oct. 9.—The series already has broken all records for receipts, but one mark, that for attendance for a single game, is safe from this clash as no extra seats were built, the record of 42,620 made in the fifth and last game at Boston in the 1916 series in which the Red Sox beat the Dodgers is safe.

In the matter of receipts the series for Wednesday, Thursday and Friday is \$61,809 ahead of the record, and going strong. The old mark for the first three games was set in the 1919 series between the Reds and the White Sox when \$286,482 was taken in at the gate. The first three games have been witnessed by a total of 101,650 and paid attendance as against the old record of 98,577 made in the first three games of the 1916 series. The receipts for last Friday's game—\$119,907 were far and away bigger than the best mark of the past—101,768—set in the sixth game in 1919, at Cincinnati. That a striking gain had been made when compared with the receipts of \$50,000 for the entire first series in 1903,—with the receipts of \$68,486 of the series in which the great Matty beat the Athletics in 1905, and the total receipts of \$2,000 in 1885, when St. Louis and Chicago won seven games.

GREATEST OF PEN NANT RACES, 1908; DID MERKLE TOUCH SECOND?

The greatest pennant race in the history of baseball was made in the National League in the season of 1908, when in the closing week of the campaign Chicago, New York and Pittsburgh all were within an ace of taking the honor. New York and Chicago finished the season in a tie and in the play off the Cubs won.

On October 3, 1908, after Pittsburgh had taken the lead, New York played Philadelphia. It was Mathewson against Coveleski and the latter won 3 to 2. Pittsburgh and the Cubs won their games that day and the Giants dropped to third.

Chicago and Pittsburgh then met in what was for them the last game of the season. One was bound to lose if the game were played to a tie, there was a chance that New York would slip past both and win the championship. Pittsburgh erred at a critical moment during the game lost 5 to 2 and was eliminated in the championship race, having played their full quota of games. Chicago held first place, Pittsburgh second and the Giants third. The Giants, however, had three games to play with Boston, and by winning all of them could tie Chicago.

Now turning back to the history pages a few days, to September 23, there occurred a play which set the baseball world by its ears. In the last inning of the game between the Cubs and the Giants with McCormick on third and Merkle on first and two out, Bridwell the New York shortstop, batted a clean hit over second base, McCormick scored and Bridwell touched first base. Evers, the Cub second-sacker, remained at his post calling for the ball to be thrown to him. Chance the Cub leader, asserted that the ball was thrown to the umpire. O'Day declared Merkle out on the ground that he had not touched second base and therefore had been forced out. O'Day left the field, announcing that the game was suspended. After the crowd had left he stated that the run which supposedly was made by McCormick and which would have won the game for the Giants had not scored and that the contest, therefore, was a tie, 1 to 1.

In other words he had declared Merkle out at second.

The National League president, Pulliam, sustained O'Day in his report and both teams protested. Chicago claimed it should have been awarded the number of games which shall be played during the season and that New York should have played off the tie on September 24. The Giants protesting against the umpire's decision, claiming it was not in accordance with the facts.

Pulliam called a meeting of directors. They upheld the decision of the umpire and the calling of the game a tie, refused to grant the Cub claim on the ground that they had tied the hands of the league president by the filing of their protest and that the game therefore could not be played the following day. They then ordered the game to be played off at the Polo Grounds on October 3.

So with the season ending in a tie between the teams they met on October 8 in a memorable contest.

So great was the crowd that those left outside battered down the fences and tore away parts of the stands in their frenzy.

The Cubs won. Mathewson hurled a fishing schooner will sail over the course of Halifax next Saturday in the elimination race. The course will be forty miles and there is a great deal of speculation on the result.

The fleet schooner Canada, La Have's hope for premier honors has arrived in Halifax under command of Captain Joseph Conrad and will be got in shape for the race.

Yacht Speejects Reported Safe

San Francisco, Oct. 7.—The safety little gasoline yacht, Speejects, manned by Albert V. Spee, with Vice President Leigh, of the Portland Cement Company, his wife and party of friends on a trip around the world, is bouncing around on the Pacific with all aboard well and happy, instead of having succumbed to tropical storms, according to radio messages received here Friday. The report of steamer Hattie Luckenbach that a yacht answering the description of the hardy little yacht, was seen dorelet with no life aboard, led fears that Capt. Gowen and party had met a tragedy in their adventurous trip across the Pacific.

Elimination Races Sailed This Week

United States Vessels Race Off Gloucester Wednesday.

The Ocean Elimination Race for American schooners will take place off Gloucester, Mass., next Wednesday to select a defender of the Halifax Herald's North Atlantic International Fishermen's trophy, which was won by the American fishing schooner Esperanto, off Halifax, October 30 and November 1, last year.

The race is under the auspices of the Sub-Committee of the American race committee on the International Fishermen's race. There are three prizes, viz.: First prize \$500; 2nd, \$300; 3rd \$200.

The event is open to all fishing schooners which can qualify to the restrictions of the fish gift governing the trophy. The entries close today and the race will start Wednesday morning at nine o'clock and the course is forty miles.

THE STANDARD'S FINANCIAL SECTION

Professional Tone To Saturday's New York Market

Bond Market Dull But Strong—Liberty Bonds Displayed Decided Strength.

(McDUGALL & COWANS)
New York, Oct. 9.—While the weekly statement of the Associated Banks is comparatively meaningless, it has shown a surplus reserve of \$27,000,000 or a fluctuation of some \$2,000,000 in one week.
The stock market today was professional perfunctory affair, utterly without meaning. Some stocks were strong and some weak, but showing no material changes. The bond market has been dull but strong. The feature in this market has been the decided strength in Liberty bonds, not only today but during the week.
The close of the market was dull and steady. Total sales 290,400.

LAKE OF THE WOODS MILLING COMPANY HAS EXCELLENT YEAR

ANNUAL STATEMENT ISSUED

The annual report of the Lake of the Woods Milling Company for the fiscal year ended August 31, 1921, marks the first full period under which the Company has operated freely since the restrictions resulting from the war, and in which it was able to develop business for its Five Roses and other popular brands, in contrast to the "standard" flour in which its own identity was entirely lost. The financial statement reflects the return to normal conditions in an increase in the profits from milling operations. The statement is remarkable however, in that the firm was saved from the heavy reductions in profits that have been the experience of many other industrial concerns due to a decline in business and to losses on inventories, the profits of the Lake of the Woods Milling Company were actually ahead of last year by some \$20,000. This indicates a foresight and judgment in the purchase of the Company's "raw" material that should prove very satisfactory to the shareholders.

The actual figures of profits derived from milling amounted to \$463,323, to which was added revenue from subsidiaries and other sources of \$303,841, bringing the total to \$767,164. This has been apportioned as follows: Interest on the Company's bonds, \$64,000; dividends on the preferred stock 2 per cent, \$105,000; dividends on the common stock, 12 per cent, \$420,000; written off property and goodwill accounts, Lake of the Woods Milling Company, \$100,000, and subsidiaries, \$13,500. This left a balance of \$464,673 to carry forward to the surplus account which now stands at \$1,261,961.

MONTREAL MARKET FAILED TO ENTHUSE OVER TRADE IMPETUS ON NEW YORK TRANSACTIONS

Lake of Woods Milling Went up One Point—Macdonald Showed Some Slight Advance—Ontario Steel Fluctuated, Working in Erratic Manner.

Montreal, Oct. 9.—Although there was quite a sharp turn for the better in New York Saturday, the local market did not enthruse over it, but contented to trade along the limited lines of the past few days, which have not been conducive to outstanding price changes one way or the other. One of the few exceptions was a point advance in Lake of the Woods Milling, to 129. This is eleven points above the low of the year, but still sixteen points under the high. The recent report, showing that the company passed through the trade crisis with out interference to its earnings power, has helped the market for the stock material.

The only other cases where price changes exceeded fractions were in Macdonald, which moved back a point to 14, and Ontario Steel, which has been somewhat erratic for the past few days, fluctuating rather violently. It opened at 52, reacted two points and closed at 50 1/2, a net loss of one point.

Total sales for the session were only 1,802 shares and only four on the list exceeded one hundred shares in the transactions. The most active was Consolidated Smelters with 290 shares which moved up half to 18 1/2. The company is reported to be improving its financial position to a marked degree and with costs much reduced is in an excellent position to compete in the metal market on a profitable basis. Any improvement in the lead and zinc markets would be quickly reflected in the market position of this stock.

Ontario Steel was the second on the list of actives with 276 shares. Some exceptional circumstances appear to have been affecting the market for its shares during the past few days, but what they are, do not seem to be generally known.

The third in the point of activity was Berrill United. This stock was

Pilgrims Aboard The Corsican

Many of the cabin passengers on the S. S. Corsican are returning from the Canadian pilgrimage to Assisi, where the seven hundredth anniversary of the founding of the Third Order of St. Francis was celebrated from September 16 to 18. This official pilgrimage was made under the direction of the Franciscan Fathers of Montreal and left Canada on July 30 on the Empress of Britain. The trip included visits to London and Paris. A special mass was said at Montmartre and Notre Dames des Victoires in Paris. The pilgrims visited Paray-le-Monial, Lyons, Avignon and the world-famous shrine at Lourdes, Nimes, Marseille, Nice, Monaco, Mentone, Genoa, Milan and Padua. Thence to Venice, Bologna and Rome, where a special audience was arranged with His Holiness, Pope Benedict XV. Following a visit to Naples and Pompeii there were several days spent in the famous old city of Assisi, which was the object of the pilgrimage. On their return trips were made to cities in Switzerland and the principal points of interest in Alsace and Belgium.

Nearly \$1,000,000 Involved in Large Business Change

Big Provision Firm of W. Champagne Changes Hands.

Montreal, Oct. 9.—One of the largest business transactions in Canada involving the sum of nearly \$1,000,000, has been concluded with the absorption of the Big Provision firm of W. Champagne, 116 St. Paul Street West by Laporte Martin and Co., 884 St. Paul Street. Mr. Champagne is staying with the new amalgamation for some time in an advisory capacity until both businesses are entirely co-ordinated. It is stated that some time ago Mr. Champagne voiced his wish to retire from business after 33 years successful operation, and Laporte Martin and Co. branching out after dispensing with their liquor stocks when the liquor commission took over the control of spirits in the Province, began negotiations to take over the large produce business.

Sir Horville Laporte, when interviewed by the Standard today, declared that with the acquisition of a huge cold storage plant on William Street, property which is already in the course of operation, the firm would become one of the largest and most modern of its kind on the continent. It is expected that the cold storage branch will be in operation by the end of October.

"There will be no effort at present to enter the exporting field in the products of the firm which will branch into that," he said.

Bond Market Surely Taking On Greater Activity

Province of Ontario by Far Heaviest Borrower for Month of September.

Montreal, Oct. 9.—Anticipations of recent months that the Fall would see a great activity in bond sales have certainly been realized. During the month of September the volume of all classes of new financing exceeded the sum of eighty million dollars. Of course Canada was about to absorb only a small portion of this, approximately sixty million of the securities being taken by our southern neighbor. The Province of Ontario was by far the heaviest borrower, bonds being sold to the extent of \$30,000,000 while the Canadian National Railways was second with a total of \$25,000,000 to its outstanding obligations. This is not taking into account the sum of eighty million dollars in fact, some fractional gains were made.

A summary of September financing as compared with the previous month, is as follows:

Sept. 1921	August 1921	
Government	\$34,350,000	\$5,000,000
Municipal	23,753,717	6,544,422
Railway	25,000,000	—
Corporation	4,000,000	—
Total	\$87,103,717	\$11,544,422

Britain Received Less Than 5 p. c. of German Payments

An official summary of the character and value of the German reparations, just received by the Bankers' Trust Company, of New York, from its English Information Service, places the entire month's receipts at less than five per cent. of payments made by Germany totaling some four and a half billion gold marks (\$284,500,000). Deliveries to Great Britain were mainly in the form of shipping.

Total receipts of the British Treasury from sale of ships and materials and from bank of displaced persons, by the Reparation Commission, up to August 1921, amounted to about \$12,000,000.

very handsome in view of the position of the bank.

Those who have visited the Spit since the Exporter stranded, mention particularly the weird noises which proceed from the wreck day and night. As the great waves roll over her, forcing air through the ventilators, it is easy to fancy the bulk, peopled with angry demons. Another feature is the fact that the little band of millers work and sleep in constant din of whistles, gongs and whistles. When the wreck broke in half her silver beams by some freak of displaced air, like echoes of that uncanny cry, wailed cries from the ship in the throes of disintegration disturb the wretched silence on Whiggin Spit.

There are humorous interludes in the work of salvage. John Hetton a Finlander, was strength to burn, but his fellow-workers were tickled to see him plunge into the sea to recover his hat one day. It was a bad one at the time and the towing net threatened to crush him against the bank. But he recovered his hat. "That's a dam good hat" he explained as he came ashore.

GAGETOWN

Gagetown, N. B., Oct. 8.—On Tuesday morning the King's Bench Division of the Queen's County Circuit Court opened its session in the Court House with His Honor Chief Justice McKeown presiding. The following grand jury was selected, with J. Willard McMillan, of Upper Gagetown, as foreman; J. Willard McMillan; Gilbert Bolivar; William Willard Gallagher; Chipman; Elisha Perry; Johnson; Herbert Francis, Peterborough; Byron T. Clarke, Hampstead; Wm. Garvey, Chipman; Beverly Colwell, Wickham; A. D. Case, Wickham, and Lewis Brooks, George Parise, David Moore and Walter McKimsey, Gagetown.

The first case was that of the King versus Fred W. Cameron, of Pleasant Villa, charged with having set fire to lumber at Queenstown on the morning of Sept. 10th, by which over 400,000 feet were destroyed. The lumber was owned by Alex. Watson, Ltd., of St. John, and by Mr. Cameron, who was a loser in many ways on account of the fire. The jury was out only a short time, when they returned and the foreman announced that they found no bill against the accused. Mr. Cameron received many congratulations from his friends on the verdict. One or more insurance representatives were present, and are said to have been well satisfied with the verdict of the grand jury. At the afternoon session, the grand jury announced that a true bill had been found in both counts of the indictment against William Taylor and Helen Taylor, charged with killing a girl belonging to Sheldon Corey. They found no bill against Corey Johnson, a young Swede, who was an alleged accomplice. Both the Taylors pleaded not guilty of the charge. Their case was heard by the following petit jury: Geo. Dingo, Gagetown; John L. Graham, Welford; Amos Bishop, Chipman; Blaine Duggan, Scottsdown; Fred Palmer, Hampstead; Edwin Fowler, Welford; C. Archie McKeague, Gagetown (foreman); George Clarke, Chipman; Arthur W. Carpenter, Queensdown; Fred Hoban, Upper Gagetown; Chas. F. Marshall, Gagetown, and W. H. Doney, Cody's. F. M. O'Neill, of Gagetown for the Crown, and W. Kenneth Wilson, of St. John, for the defence. During the Tuesday afternoon session Sheldon Corey was examined by Mr. O'Neill and cross-examined by Mr. Wilson, and Harding Kierstead was examined.

The Wednesday morning session opened with the cross-examination of Harding Kierstead. Other witnesses were Andrew Carr and Louise Carr, both of St. John, and F. M. O'Neill read the deposition of Mary Ann Harding to the jury. Mrs. Harding being too ill to attend court. Mr. Wilson addressed the jury on behalf of the accused, followed by Mr. O'Neill for the Crown. In the afternoon, the jury after having been charged by His Honor, retired to the jury room and at 4:05 and announced that they found the accused guilty. The latter were then remanded for sentence.

The grand jury was discharged after having brought in a true bill against Isaac Allen, of Chipman, charged with ill-treating his wife, Mary Allen, who has since died, as the alleged result of starvation and neglect. On being arraigned, the accused pleaded "not guilty." F. M. O'Neill of Gagetown conducted the prosecution, and J. P. H. Teed of St. John was assigned for the defence. The jury consisted of Isaac Allen, of Chipman, charged with ill-treating his wife, Mary Allen, who has since died, as the alleged result of starvation and neglect. On being arraigned, the accused pleaded "not guilty." F. M. O'Neill of Gagetown conducted the prosecution, and J. P. H. Teed of St. John was assigned for the defence. The jury consisted of Isaac Allen, of Chipman, charged with ill-treating his wife, Mary Allen, who has since died, as the alleged result of starvation and neglect. On being arraigned, the accused pleaded "not guilty." F. M. O'Neill of Gagetown conducted the prosecution, and J. P. H. Teed of St. John was assigned for the defence. AROUND THE CITY

LEAVES FOR TORONTO

Rev. George Booth, D. D., leaves on Tuesday for Toronto where he will attend the annual meeting of the General Board of Missions of the Methodist Church.

NOT MUCH DAMAGE

An alarm was rung in about noon Saturday from box 41 for a blaze which had started on the roof of a fish warehouse owned by H. P. Roberts and situated at 30 British street. The fire was extinguished before long.

WEEK END ARRESTS

Three drunks were arrested by the police on Saturday, and three protectionists shared the sleeping quarters in the city lock-up with them. One more drunk was arrested Friday, and two protectionists shared the honors with him in the city demeritory.

AUCTION SALES

At Chubb's corner Saturday morning Auctioneer F. L. Potts disposed of a freehold property of 17 Garden street belonging to the Diocese of St. John. It was bid in by George Kane at \$1,000.

HOLY NAME SOCIETY

Yesterday was the regular monthly communion Sunday for the members of the Holy Name Society in all the Catholic churches of the city. The members of the society in the Cathedral parish attended the 7 o'clock mass in a body. There were over seven hundred communicants.

SATURDAY'S MARKET

There was a good supply of produce in the market Saturday morning. Chickens were selling for 25c to 45c a pound; butter from forty-five cents to 45c a pound, eggs at 55c a dozen, lamb for 15c, forequarters, and 20c, and 25c for the hindquarters per pound; veal for 15c a pound, cabbage 10c to 15c, celery 5c a pound, apples 40c a peck.

CARLETON FAIR

At the Carleton Currier Fair on Saturday prizes were won as follows: First door prize, \$10, Edmund McAllister; second door prize, \$5, Miss Mabel Purdy; air gun, Charles Fullerton; nine pins, J. Wilson; bean toss, G. Cunningham. The Martello Band were in attendance and there was a fair crowd. It is proposed to keep this fair open for a part of this week.

ST. ELIZABETH'S SOCIETY

At the annual meeting of St. Elizabeth's church of St. Peter's church (Friday evening) the following officers for the coming year were elected as follows: President, Mrs. D. J. Doherty; 1st vice-president, Mrs. Wm. O'Connor; 2nd vice-president, Miss Mary Kelly; secretary, Mrs. S. McCortney; treasurer, Mrs. Annie O'Neil; executive, Mrs. Richard Walsh, Mrs. W. McCloskey, Mrs. Mary L. Gibbs, Mrs. M. James and Mrs. Elizabeth Walker. The retiring president, Miss S. Lynch, was in the chair. Mrs. Louis Owens, secretary, and Miss M. McCloskey, treasurer, submitted their annual reports. Plans were made for raising funds for the winter's work.

A Series of Car Accidents

Two Automobiles and Street Cars in Collision—Another Near Accident on Union St.

Yesterday was marked by a series of motor accidents throughout the city, none of which were fortunate. A very serious nature. An 8 p.m. auto owned by R. J. Hilditch of the Great Eastern Garage and driven by his daughter, collided with a West side street car at the corner of Mill and Pond street. The automobile was badly damaged.

A street car going west on British street and a Ford motor going north on Charlotte street collided at the junction of the two thoroughfares. The truck was quite badly broken up and the car was also damaged.

Another accident was narrowly averted at about 10:30 Saturday evening when a motor car turning from Wellington Row into Union street narrowly averted sideswiping another motor proceeding down Union to Charlotte. The second man only saved his car by driving it up over the curb and onto the sidewalk.

Cases Dealt With in Police Court

Robert Beckwith was charged in the police court Saturday morning with interfering with C. N. R. Officer Pierce. He was warned that he was liable to a fine of \$30 and was remanded.

Two juveniles were lectured by the magistrate for fighting and allowed to go. A number of young lads who were before the court the previous week, returned according to instructions. As no further complaints had been made as to their conduct, they were also allowed to go.

Chance For Voters To Cast Ballot

The polls for today's election to decide whether the province shall prohibit the importation of liquor for beverage purposes or not will open at eight o'clock in the morning and close at six in the evening. It is to be noted that this election is held every voter must be given, if he or she desires it, time in which to cast their ballot and the Act provides that two hours may be taken in which to go to the polls and exercise their franchise and return to work and for which time the employer may not deduct any part of their pay.

Labor Party Held Public Meeting

Magnus Sinclair and J. E. Tighe Tell Audience Why Labor Should be in Field.

The independent labor party had its official inception in St. John yesterday afternoon, when at a public meeting held in the Opera House officers were elected and a partial executive chosen. Addresses were given by Magnus Sinclair and J. E. Tighe, outlining the reasons why at the present time labor should, either in conjunction with the farmers or alone, put candidates in the field who would represent it in the halls of the legislative assembly. Mr. Tighe declared that at the present time labor "could neither walk nor talk on the street of St. John" and "they had never got a show in the police court".

Yesterday's meeting was the third which has been held in connection with the formation of an independent labor party. F. A. Campbell, provincial chairman, presided at the chair and George R. Melvin acted as secretary.

In opening Mr. Campbell outlined the reasons for the calling of the meeting and called on Magnus Sinclair as the first speaker.

Magnus Sinclair

Mr. Sinclair briefly reviewed the advance made from the days of serfdom until today when the franchise made the laborer independent of the slave master provided he used this weapon in his own interest.

Up to the present however the party system had kept them down but the time had arrived when they must throw off the shackles of party politics and no longer follow the lead of either grift or Tory but work out their own salvation. The independent labor party in Canada was started some fifteen years ago in the city of Toronto and had grown, until today they had in the Ontario legislature fifteen members. The movement was growing in the other provinces and New Brunswick should not be the last to fall in line. They should form an alliance with the farmers as had been done in Ontario and Alberta—voice in the audience. "If the farmer gets in power we will have to pay for our potatoes."

"Politics was a business and if those now in did not conduct the business properly they should be turned out."

J. E. Tighe was called on by the chairman to address the gathering. Mr. Tighe expressed his belief that the time had come for the laboring men to get out and work together. In the past they had gone to the legislatures and asked for certain things and the story was always the same, they were patted on the back, told what fine fellows they were and promised consideration and that was all they ever got.

The rest of the province was looking to St. John to do something and he believed if the labor men of this city got busy the farmers of Alberta would link up with them and together they could place in the field the winning ticket.

The laboring classes he contended had never received a fair deal from the city or municipal council, they were all out against labor and "we have never got a show in the police court" he said.

"At the present time" he said, "we can neither walk or talk in the streets of St. John. If two or three get together and talk you are likely to go to jail and if a dozen walk the street they will hang you in a month or two."

The Officers: The chairman then called on the secretary to read the minutes of the last meeting and then for nomination for officers which resulted as follows: Felix McMullin—President. William Ely—Vice President. C. H. Slovan—Secretary. Members of the executive, J. E. Wood, Percy Taylor, L. Armstrong, J. Montague, J. Burns, I. D. Farris, Percy Moore, J. E. Tighe, James Sharpe, M. Day, W. A. Searle, F. A. Campbell, G. R. Melvin, J. Lee, G. Crawford.

These are to have power to add to their number and to elect a treasurer.

Seagull Found Wearing A Tag

Friday morning after the heavy storm of the previous night, Hayden Shaw of Mace's Bay found a wounded seagull on the shore. The bird could not fly and was in an exhausted condition and was easily captured. On examination a metal clip was fastened round one of its legs attached to the clip was a lead tag, on which was stamped Biological Survey, No. 1646, Washington, D. C. The tag is thought to have been placed on the bird by U. S. survey officials when the gull was young. It was given to a St. John man who in turn will present it to Dr. McIntosh of the Natural History Society.

Bird Unable to Fly Found at Mace's Bay—Wore U. S. Survey Tag on Leg.

Friday morning after the heavy storm of the previous night, Hayden Shaw of Mace's Bay found a wounded seagull on the shore. The bird could not fly and was in an exhausted condition and was easily captured. On examination a metal clip was fastened round one of its legs attached to the clip was a lead tag, on which was stamped Biological Survey, No. 1646, Washington, D. C. The tag is thought to have been placed on the bird by U. S. survey officials when the gull was young. It was given to a St. John man who in turn will present it to Dr. McIntosh of the Natural History Society.

North End Squad On Traffic Cases

The whole day squad of North End policemen, with one exception, were in the police court Saturday morning to testify to violations of the traffic law reported by them. A number of cases were dealt with, and fines amounting to \$60 struck against offenders. Several cases were stood over and a few dismissed after a satisfactory explanation had been offered the magistrate. The infractions included six cases of failure to display tax or license numbers, one for obstructing traffic, one for passing a standing street car, two for rights off, one for failing to sound horn at corner, and one for neglecting to light tail lamp of car.

Serious Explosion In K. of C. Building

Large Pipe in Hot Water Furnace Blown Out—Building Badly Damaged.

A loud explosion, followed by the noise of splintering wood, and the rocking of the entire building, caused considerable consternation in the Knights of Columbus Home on Coburg street at about ten after nine last evening. The majority of the members were sitting at their tables, when they felt their chairs, and seemingly the whole building "leap in the air," while at the same time the loud noise of an explosion rang in their ears.

While some of the members phoned in for the fire department, others proceeded to investigate, but clouds of steam rendered this impossible for a time, after the arrival of the firemen it was found that one of the large pipes in the hot water furnace had blown out, owing to the fact that the water was still shut off, thus converting the hot water furnace into a steam boiler. A boiler which however, was not capable of withstanding the terrific pressure placed upon it.

The panels of the basement door were blown completely out by the force of the explosion while a section of the flooring about four feet long and two inches wide was blown out of the reception room floor. A hole was also blown through the floor of the laboratory, and the flooring in several sections of the building was badly warped. While it is somewhat difficult to estimate the full extent of the damage done, it is probably in excess of six hundred dollars.

Farewell Address To Congregation

Rev. J. H. Jenner Terminated His Pastorate at Charlotte Street Baptist Church.

An eloquent farewell address was delivered to the congregation of the Charlotte street Baptist church by the Rev. J. H. Jenner, who terminated his pastorate of six years at last evening's service.

Taking as his text, 2nd Corinthians 13:11, "Finally Brethren, Farewell, Be perfected, Be comforted, Have the same mind. Live in Peace, and the God of Love and Peace shall be with you."

Mr. Jenner said "The time has come to say farewell, but let it be said with a tear to dim the eye, and in the literal sense of the word, farewell. The word good bye would be better, were it not for the sad association that gathers about them. In the old Anglo-Saxon they meant 'God be with you' and that is my prayer for you. If all goes well we shall be back next summer to enjoy some of the cooling breezes of the Bay of Fundy. There is necessarily a violence in uprooting a life from its racial soil, as in the uprooting of a tree. There are social and religious roots no less real than that of a plant. In leaving the church a minister acts upon the same principals that led him on coming to it."

After speaking of the work that had been done during his six years' pastorate, Mr. Jenner said there were four conditions mentioned in the text of a happy and successful life. As to the first, "Be perfected," Mr. Jenner advised his congregation to aim at the full Christian life, as the success of a church depended largely on the men and the women who compose it.

"Be comforted" by a definite knowledge of God's word. "Be of the same mind and live in Peace" he said, no minor difference among Christians would ever justify the bitter spirit that sometimes divides the members of a church. Being brethren, heresy could not be as bad as hatred. God is not honored by a good creed when his members lead a bad life. Neither is He glorified in our maintaining a good cause with a bad spirit. The day has long since passed for our correcting the faults of others with the thumb screw.

He urged his hearers to be encouraged by the promise that the God of Love and Peace will be with them. In closing Mr. Jenner spoke of the additional friendships with which he had been enriched since assuming the pastorate of the church. He said that he and his family would continue to carry in their hearts the delightful fellowships of the officers who had worked with them, and of the very many of the rank and file of the church. In the words of the text, he said, "Farewell." He trusted not forever, but if forever, then forever farewell.

O'Brien Was Not Asked To Plead

Charged With Stealing Bottle of Whiskey from Albert Norris.

After being charged with acting together with Thomas Spellman on September 8, and stealing a bottle of whiskey from the property of Albert Norris, with force and violence, Edward O'Brien, the accused was not asked to plead in police court Saturday but was remanded until Wednesday when he will be represented by W. M. Ryan.

G. Earle Logan, appeared for Spellman, who however, was not before the court. Mr. Logan wished to know who was behind the prosecution, or rather the "persecution." He said there was a sinner in the woodpile somewhere, as was demonstrated in the court above, and that he hoped no unwarranted suppression of evidence would be made.

Captain O'Brien Badly Burned

Explosion from Broken Gas Feed Pipe Destroyed Schr. Happy Home.

Captain Edward O'Brien, of Beaver Harbor, in command of the fishing schooner "Happy Home" was badly burnt about the hands and arms while fighting a fire which broke out about the schooner's auxiliary gas engine about 9 o'clock at Dipper Harbor, Friday evening. A second fire broke out some four or five hours later and the schooner was burnt to the water's edge.

The first fire was caused by an explosion which occurred when one of the gas feed pipes broke. It was while fighting this blaze that Captain O'Brien was badly burnt. Fortunately his clothes were rolled up at the time, or his clothes might also have caught fire. The captain and his crew of three were able to put the blaze out before any serious damage was done.

All the gas was pumped out of the tank and every precaution taken to avert any further explosion. Captain O'Brien, who was suffering intensely from his burns was then taken to Le Preaux for medical treatment.

At about 1:30 or 2 a.m. a second explosion occurred, and the vessel was soon a mass of flames. Nothing could be done to save her, so she was cut adrift to save the wharf. She then drifted across the harbor and went aground, where she burst at the water's edge. It is thought that the bumping of the vessel against the wharf caused the disconnection of a loose battery wiring and a spark was thus formed which caused the explosion.

The "Happy Home" was of 24 tons register, built in 1905 and owned by Daniel Thomson, of Beaver Harbor, and Joe McDowell, of Black's Harbor. She was engaged as a fisherman and carrier, and was under charter and load for Alexander Phillips of Cape Islands, N. S.

She had been but lately overhauled. The owner's loss is estimated to be \$250. Mr. Phillips' cargo was insured by an insurance of either vessel or her cargo. The crew also lost all their effects.

Police Records Show Less Drunkenness

Arrests for First Nine Months of 1921, 300 Less Than in 1920.

Arrests for drunkenness over a given period of time may be taken as a means for forming some idea of the amount of liquor being sold in a community, as well as determining whether or not the officials having the enforcement of law in hand are doing their duty properly.

From the police court records the Standard has secured figures for the first nine months of 1920, under Chief Inspector Wilson's regime, and the corresponding figures for 1921 under Chief Hawthorne's time in office.

The credit balance in St. John in favor of Chief Inspector Wilson is an efficient force operating in St. John. Here are the figures: Number of persons arrested for drunkenness from January 1st to October 1st, 1920:

January, 42; February, 52; March, 70; April, 90; May, 136; June, 101; July, 95; August, 88; September, 82—Total, 667.

Number of persons arrested for drunkenness from January 1st, to October 1st, 1921:

January, 35; February, 36; March, 44; April, 60; May, 40; June, 48; July, 35; August, 35; September, 43—Total, 434.

Will Investigate Detective Dept.

Because of Rumors That Detectives Withheld Information from Prosecutor.

Because of rumors to the effect that the city detectives withheld information from the recent murder trial from the crown prosecutor, an investigation under oath will be held by the Commissioner of Public Safety, John Thomson.

The commissioner stated that the insinuations being made reflected seriously on the detective department, and in justice to the detectives, as well as to the public, the circumstances surrounding the matter would be thoroughly investigated.

Hunter Was Lost In Woods

Man Named Sheehan Lost All Night at New River—Mill Whistle Sounded as Guide.

A young man named Sheehan had a rather trying experience last Wednesday night. He was out hunting and became lost in the woods at New River. When he did not return before dark his family and friends became alarmed and the saw mill whistle was sounded at intervals during the night as a guide for him to follow. A couple of hunters from St. John heard the man shouting for help but could not locate him.

Mr. Sheehan managed to reach the highway early Thursday morning and remained there until daylight and then found his way home much to the relief of anxious friends.

Victor Traps Meet Every Test. You can always depend upon them. A reliable Trap is as important to the trapper as a good gun is to the hunter. For the loss of ONE pole often equals the cost of a whole season's traps. The Fox of every genuine Victor Trap is pierced with a "V." Every trap is Guaranteed. SURE TO GO..... SURE TO HOLD. Sizes: Victor—4 to 1 1/2, single spring; and " " to 4 single spring. Also the famous ONEIDA Jump. 6 to 2, single spring; and 4 double spring. DEAR TRAPS IN THREE SIZES. W. H. THORNE & CO., LTD. Store Hours—8 a. m. to 8 p. m. Open Saturday till 10 p. m.

THEY COMPRISE 400 YARDS OF Serges, Checks, Stripes, Plaids, Granite Cloths. 65 to 75 King St. Macaulay Bros & Co. Limited. Exclusively a Woman's Store.

Adjustment of All Legitimate Claims. G.W.V.A. Inaugurates Clean Sweep Campaign of Returned Soldier Claims.

The Secretary of the Local Branch of the G. W. V. A. was, on Saturday, advised by wire from the Dominion Secretary at Ottawa that as the result of long continued efforts by the Association to secure settlement of the claims of returned soldiers and soldiers' dependents, arrangements have been made to inaugurate a clean sweep campaign to secure final disposition of outstanding claims under existing legislation. A clearing house is to be established at Ottawa with organized co-operation by all Departments interested and conducted directly under the auspices of the G.W.V.A. By this means appeal and speedy adjustment of all legitimate claims will be possible. The co-operation of all Provincial Commands of the G.W.V.A. is being organized and all returned men and soldiers' dependents are invited to place statements of their claims with the local Secretaries or forward them direct to the Dominion Secretary at Ottawa. Further information to claimants will be available shortly through local branches and all claimants are advised to take advantage of these exceptional circumstances to secure adjustment of their claims or review of claims submitted and not settled.

Owing to the change in the date of the St. Stephen meeting Premier McEwen will be able to visit Chatham and Newcastle and will spend Friday, October 14, at those towns. The members will be the Premier, Hon. Mr. Baxter and Hon. Mr. McCurdy.

Adding Names To Voters' Lists. County Court Judges Will Sit as Registrars from Oct. 31 to Nov. 5.

Word was received yesterday from Hon. J. B. Baxter, minister of customs and excise, that county court judges in the various counties of the province would sit as registrars, for the purpose of adding names to the voters lists, from October 31 to November 5, both dates inclusive.

On any of these dates any British subject who has resided in a constituency for two months, or more previous to the date of the proclamation of the election, may by applying have their names entered on the voters list in the place where they now reside and any person who has reached the age of twenty-one years since the lists were made up in 1919, may by producing the evidence of that fact, have their names added to the list, and this applies to both men and women, the Dominion franchise applying equally to both sexes.

FIVE YEAR OLD FOUND BY POLICE. Roy Kierstead of Gondola Point Strayed While Repaired Automobile.

The night deskman and the callman at the central police station were half inclined to believe that little Roy Kierstead—a five year old lad who at 7 o'clock Saturday night was taken to the central police station after being picked up lost on Union street—was kidding them. A five-year-old who has arrived at the stage of being able to find a cop is somewhat of a rarity, but when the little fellow, when asked where his home was said, "Gondola Point," the blue coats thought the lad was some "kiddie." Further questioning however revealed the fact that the youngster really was from that part of the country. Some time later the central station received a phone call from the child's father, W. A. Kierstead, asking if anything had been heard of his son's whereabouts. He said that while fixing a broken axle of his car, he gave his son some money to go in a nearby store and buy candy, but that the little fellow must have got lost in the crowd.

Chifton House, all meals 60c. "Perfect" Baking Powder is made in St. John. Working a trial. OPERA HOUSE. Matinee 2.30 Evening 7.30 and 9. Refined Vaudeville. Friday to Monday. Seymour's Happy Family.
