Prince Ching Reaches Pekin

Under Escort of British and Japanese Cavalry.

Waiting Now for Li Hung Chang-Sharp Diplomatic Contest Anticipated-Meanwhile Many Massacres by Chinese Are Reported.

Pekin, Sept. 5-Via Shanghai, Sept. | a Pekin source, usually reliable, that 14.—Prince Ching arrived here yesterday, accompanied by an escort of British and Japanese cavalry. He spent the night in his own palace. Sharp diplamatic play is expected for an advantage, but any definite negotiations will Chang shall have arrived and the question of his authority be disposed of. The Russians expect Li Hung Chang to arrive within a few days. They do not want to commit themselves in any way until his arrival.

UNDER MILITARY RULE.

London, Friday, Sept. 14-4 a.m.-No further light is thrown this morning upon Li Hung Chang's intended movements. The Times has an interesting dispatch from Pekin, dated

Sept. 4, which says in part: "Russia has decided to withdraw her legation from Pekin, leaving a purely military command. An official announcement is expected today. The other powers will also presumably withdraw their legations, leaving Pekin under the military control of the allies during the winter at least. At a meeting of the generals the Russian commander announced that Russia would maintain 15 000 troops during the win-FOR SALE—134 SYDENHAM STREET—ter. The German commander said that Germany would keep the same repair; lot 33x165. A bargain. Inspect at 58hu er announced that Japan will have 22,000. The British general was not

In the best informed quarters the opinion is expressed that Russia and Germany are acting in accord, Russia seeking the definite alienation of all territory north of the Great Wall, and Germany the annexation of Shan Tung, Klang Su and the Yang The previnces. Russia seeks to restore the power of the empress dowager and the emperor in order to be able to wield her influence through them over the remaining provinces. The

DISMEMBERMENT OF CHINA seems almost inevitable. The empress dowager has retained Prince Ching's son as a hostage for his father. Great Britain's reply to the Russian proposition for the evacuation of Pekin was sent two days ago, and as forecasted, Great Britain declines to

evacuate Pekin prior to receiving sat-

isfactory guarantees from the Chinese Government for the fulfillment of certain conditions. St. Petersburg, Sept. 13.-The Russian Government adheres firmly to its proposal to evacuate Pekin, and continues to cherish the hope Germany will end by agreeing to it. and thus induce Great Britain to follow. It is explained, however, that Russia recognizes the impossibility of the allies leaving Pekin unless the Chinese Government immediately ters, so that there should not be an interval without a government. Russia over the entire island .. cannot therefore move before the ter-

gun for guaranteeing order in Pekin by the installation of a government immediately after the evacuation. PLENTY OF PROMISES. Washington, Sept. 13.-Minister Wu has received a cablegram from Li Hung Chang that his powers are sufficient

mination of the negotiations now be-

in China, and he will see that the protection is given. The crisis that was near at hand yesterday over the evacuation proposal of the Russian Government has been averted, for a time at least, and the diplomatic side of the matter has become again the object of attention. The order of Gen. Chaffee to leave at once, which was expected in some quarters, did not issue today. Instead earnest efforts are making to arrange the preliminaries for the negotiations which are expected finally to settle the

Chinese troubles. As Li cannot reach the capital from Shanghai, starting tomorrow, inside of a week, it may be that there will be no developments in the international situation in that period of time.

ATROCITIES. Yokohama, Sept. 12.-A Japanese of-

ficer at Chsong, Corea, reports that two Japanese and several hundred Chinese and Corean converts have been murdered on the frontier by the Chinese. A Pekin dispatch, dated Sept. 3, says: The Russian and French groops who are now arriving are committing frightful atrocities. At Tung Chow they outraged and killed women and children. The Japanese commander

has made formal complaint.
The reports of the Chinese raids on the Tonquin and Corean borders are regarded as suggestive, and preparing Europe and the United States for French and Japanese operations in the regions wherein they are respectively interested, similar to the operations of Russia in Manchuria.

BRITISH AT HONG KONG.

Hong Kong, Sept. 13.-The British

infantry on the transports, which recently arrived here, have been order-ed to embark at this place. The cavalry will proceed north. BITS OF CHINA Li Hung Chang starts for Pekin to-

Prince Ching has already begun to negotiate.

The St. Petersburg correspondent of the Times says he is in a position to assert positively that the Russian troops in Manchuria are preparing for

a war campaign. The Shanghai correspondent of the probably not take place until Li Hung Times, wiring Wednesday, confirms the report of the uneasy feeling there concerning Germany's intentions toward the Yang Tse Provinces, and especially the Kian Nin forts.

RELIEF POURING IN. Houston, Texas, Sept. 13 .- From all parts of the United States and some portions of England many thousands of dollars are pouring into this city for the relief of the destitute storm sufferers. Train loads of provisions and clothing are hurrying toward Houston

and Galveston. There are 25,000 homeless in that city to be taken care of, and it is a question whether Galveston can or will be rebuilt. There seems to be a disposition on the part of the leading citizens, however, to start resolutely where the storm left off and raise a new city from the ruins of the old. Troops are patroling the streets and

looting has almost ceased. Telegrams offering aid are pouring in on Gov. Sayers. THE BALLOON ASCENSION. Prof. La Roux and his charming wife made one of the most successful ascensions of their experience at 5 o'clock. The work of this daring couple has been in a high degree satisfactory during their engagement here. Just as the immense balloon was rising from the earth the bottom portion caught fire, and there was a possibility of an ascension until the flames consumed enough of the smoked cotton to cause a calamity. Luckily it was noticed by as onlooker, who dashed a pail of water upon the flames. Several feet of the the immense crowds in a satisfactory manner. Crowds of bicyclists, pedestrians and carriages followed, and were discernible only once in a while as a gust of wind big / a rift through the clouds of dust. Madame La Roux dropped first, and sailed gracefully to Mother Earth in her parachute. She was found near the Grand Trunk track, right opposite Dr. Sippi's residence. By the time she had her parachute ready for the return trip her husband and balloon had alighted on the south side of the track some distance to the north. They follow us in crowds, and men have even paid me for letting them drive me home. Once a man caught Madam La Roux in his arms before she touched the ground. There is one good thing about this country, he went on, "Your forests right around here are not so large as in some places. Up in Maine, we made an ascension some time ago, and the balloon came down in an immense forest. We looked for it a day and a half. We may have passed it a hundred times, but didn't see it. At

THE RACES. The races in the afternoon were decidedly interesting, and were made particularly prominent by the fast work of Dr. Routledge's team, Charley B. and Bobby Hal, who lowered the team race record of Canada on a halfmile track. They made the mile in 2:15½, a full second better than Mr. George McCormick's team's exhibition mile of 2:18, made at the Western Fair. The world's team record stands at 2:15%. Three teams were entered in the race, Dr. Routledge's, Mr. William Collins' and the Shedden horses, Arag and Eric R. The helf was made in 1:051/2, and when the mile was announced the crowd in the stand cheervociferously.

IN THE EVENING.

Every portion of the stands was again filled last night, when the last of the evening performances was given. The full programme of attractions was presented, to the apparent satisfaction of all the onlookers. Prof. Hand again won great praise for his excellent fireworks. Rockets and other beautifully colored inventions were used in lavish quantities. The attack of the armored train on a Boer position concluded the entertainment.

THE POULTRY. It is needless to go into details concerning the display of poultry that is made this year at the Western. The name of London is famous in the poultry world, for no other one city in America places so many winning birds on exhibition at the great Boston, New York and Kansas City shows. It is quite natural, therefore, to see the poultry shed well filled, as it is this year. It is doubtful if the people of Western Ontario appreciate the excellence of the display that is being made, and many people would be surprised to know that numbers of the finest birds in America are to be seen at London this week. The city's reputation as a center for thoroughbred poultry is better known to the outside world than here, and it has recently attracted to London a number of en-terprising dealers, who have established thoroughly modern poultry plants, and will engage in the raising of "broilers" and securing eggs for export. The superintendent of the department, Mr. John Saunders, has had more difficulty than ever in placing all the entries. He was not successful until he had put as many as four birds

Opiates Hasten Decay of the Nerves

The Nerves Must Not Be Trifled With -Wasted Nerves Are Restored and Revitalized By Use of

DR. CHASE'S NERVE FOOD (PILLS)

Your physician will tell you that morphine, cocaine and other opiates induce sleep and rest only by deaden-ing the nerves, that such relief is only temporary, and that the use of such drugs actually hastens the decay of the nerve cells.

The nerves must not be trifled with. No one can afford to waste nervous energy, the vital forces of the body. No one can afford to neglect diseased nerves until overcome by nervous prostration, paralysis, epilepsy or in-

It is next to impossible to estimate the effect of disordered nerves on the organs of the body. The whole ma-chinery of circulation, respiration and digestion can only be properly car-ried on when force is supplied by the

Starved, exhausted nerves cause pains, such as headache, neuralgia, rheumatism, backache and aching limbs.

The beginnings of nerve disorders ere usually sleeplessness, irritability, loss of energy and appetite, a twitch-ing of the muscles, tired brain and epressed spirits. When you can't sleep at nights and

coss in misery, longing for daybreak to come, do not yield to the temptation to use morphine, cocaine or other opiates. They only hasten decay. Let reason rule. Get right down to the foundation of the trouble and

build up the system by using Dr. Chase's Nerve Food (pills). This great restorative is in pill form

and contains the very elements of nature, which go to form new, red cor-puscles in the blood, and create new

herve cells.

It is worth while to remember that Dr. Chase's Nerve Food (pills) is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author

of the family recipe book. Dr. Chase's Nerve Food (pills) is an ap-to-date scientific prescription which has proven itself to be a specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wastel nerves. It is especially recommended for Mls peculiar to women, because they almost invariably arise from exhausted nerves. Bellefontaine, an enterprising Ohio city, put down sidewalks of Portland cement ten years ago, and it is authoritatively stated that not a cent has been expended for repairs since, and the streets are in just as good condition In every way today as when first constructed. This, it is claimed, would not have been the case had brick or asphalt been used, yet the cost was not greater in the first instance than if the walks had been constructed of either of those materials. The peculiar merit of this cement is that the longer it is exposed to the air the harder it becomes. The famous Appian Way was paved with it 2,000 years ago, and while stone has crumbled away the cement remains. The later experience in the city of Berlin and in this Ohio city should be noted by Canadian municipat authorities, many of whom have paid dearly for their experiments with substitutes for the old-time plank sidewalk, which is now becoming too expensive to maintain.

A Tangled Webb.

What a tangled web the Canadian Opposition is weaving!

IMMIGRATION TO CANADA. Ottawa, Sept. 14.-Immigration returns have formerly been made for the calendar year, but an alteration is now to be made to the fiscal year. The returns for the first six months, just prepared show a total for that period of nearly 24,000 people. This is at the rate of 48,000 a year, a marked increase over 1899, which returns show 44,543, and over 1898 returns of 31,900, while 8,000 have come from the United States in six months in 1899; 12,000 came in twelve months previously, this being the main source of increase. The figures for British immigrants are over 5,000 in the six months, practically at the same rate as in 1899. A very commendable point about the immigration work of the government is the draw-

Gen. Roberts' Latest Proclamation to the Burghers-They Have Nothing to Gain by Opposing the British.

London, Sept. 14 .- The following dispatch has been received at the war office from Lord Roberts:

"Machadodorp, Thursday, Sept. 13 .and Botha has been obliged to give over the command of the Boer army ill-health. In consequence of this I have circulated a proclamation, as fol-

A HOPELESS CAUSE. "The late President Kruger, with Reitz and the archives of the South African Republic has crossed the Portuguese frontier and arrived at Lorenzo Marquez, with the view of sailing for Europe at an early date. Kruger has formally resigned the position which he held as president of the South African Republic, thus severing his official connection with the Transvaal. Kruger's action shows how hopeless in his opinion is the war, which has now been carried on for nearly a year, and his desertion of the Boer cause should make clear to his fellow-burghers that it is useless to continue the struggle any longer.

FIFTEEN THOUSAND BOER PRIS-ONERS.

"'It is probably unknown to the inhabitants of the Transvaal and Orange until those under arms against us sur-

Empire is determined to complete the work which has already cost so many lives, and carry to a conclusion the war declared against her by the late governments of the Transvaal and the Orange Free State, a war to which there can be only one ending."

SEVERE MEASURES. Lord Roberts then proceeds to point out that with the exception of the small area which Gen. Botha is defending, the war has degenerated into irregular operation, which must be brought to

an early end, and concludes: "The means I am compelled to adopt are those which the customs of war prescribe as applicable to such cases. They are ruinous to the country, entail endless suffering to the burghers and their families, and the longer this guerilla warfare continues, the more vigorously must they be enforced."

MOVED AGAIN. Lorenzo Marquez, Sept. 14.-President Kruger has removed from the home of Herr Pott, the consul of the Netherlands here, to the residence of the district governor.

The great fair of 1900 is visibly drawing to an end. Yet Friday is one of the best days on which to see the temporarily to Viljoen, on account of show, the special attractions are as complete as ever, the races are good, and none of the exhibits have been removed from the grounds. As for the weather, today's certainly could not be excelled. The crowd at the park is by no means small, in fact, a comparison with the receipts of last year shows that the day has been like the preceding days of the week, in that it has surpassed last year. At present writing the grand stands are being occupied by a fairly large crowd. The full programme, including the parade of live stock, is being given.

THE DIRECTORS' MEETING.

At this morning's meeting of the directors, Col. Gartshore, president of the association, took advantage of the opportunity to congratulate them upon the success of the fair this year. He urged upon them the necessity of making the Western Fair an agricultural show, pure and simple. They had many reasons for congratulation, among them being mentioned the splendid exhibit River Colony that nearly 15,000 of their fellow-subjects are now prisoners of war, not one of whom will be released cially gratifying because of the deficiency in the department of horses and render unconditionally.

"Burghers must be cognizant of the dent spoke also of the absence of local enactment that no intervention in their men in the main building. They should understand that it is necessary for the success of the exhibition. matter that he brought to their attention was the overcrowding on Wednesday and Thursday, and the poor crowds, comparatively speaking, that came on the other days. In Winnipeg they have managed the fair so that the crowds are evenly distributed throughout the week. He suggested that the same should be done here.

Short addresses were made by Mr. W. J. Reid, Ald. Wray and Mr. George Taylor. Next year all side shows will be given space on the understanding that they

will stay until Friday night, as several left early this morning. The request of the Dunlop Tire Company for permission to remove their exhibit was refused, as it would be an

infraction of an established rule. The managers of the Paris Exposition side show were allowed a rebate of \$100 on the price of the privileges. They now pay \$200. They claim that their receipts were only \$202.

When asked if this was peculiar to business has so largely increased that the people of this district, Mr. Cameron an addition to their premises at York "No; it's the same from Halifax and Colborne streets has been found said to Vancouver, and there seems to be a general desire that Canada should be of the most prominent of the 24 Pan-American countries." In further conversation with the popular commissioner, several interesting facts concerning the approaching exposition were learned. The fundamental purpose of the Pan-American Exposition, and its avowed purpose, is to celebrate the achievements of civilization and 100 years of development in the western hemisphere. In speaking of Canada's position at the Pan-American, Mr. Cameron said: "There is every reason why Canada should be prominent at the Pan-American. The geographical position of the western hemisphere makes it peculiarly suitable to independent action from other countries. With her vast, rich area and small population, Canada should certainly be desirous of increasing her population and importance by doing what she can to attract the attention of capitalists to her fabulously rich mineral resources and unexplored regions, and at the same time induce colonists to settle here. Each of the 24 Pan-American countries realizes that it is to its advantage to make as brilliant a showing as possible of their varied interests at the exposition to be held in Buffalo next year, for such an effort will go far towards securing capital for development and attract attention to the productiveness, richness and desirability of their lands for colonization and be well to the front at the great Buf-

One of the firms that has particular reason to be satisfied with the Western Fair is the Cowan Cocca Company, world-renowned as manufacturers of the purest and most delicious of cocoas and chocolates. The public, especially that portion of it that had not hitherto known the merits of this firm's excellent productions, favored the manager of the tasty exhibit in the main building, Mr. J. B. Whaley, with an enormous number of orders. This perhaps need not be considered extraordinary, in view of the excellent reputation borne by the products of this well-known firm; it is especially natural is remembered that the Cowan Company's products are unexcelled the world over. By placing their admirable exhibit in the main building, the Cowan Company has given to the people of this western district an excellent opportunity to become personally acquainted with the fine qualities of their

Street Car Blacksmiths Charged With Breaking the Sabbath - Bicycle Thief Found Guilty-Big Grist of Drunks

A charge of profanation of the Lord's Day, laid against three blacksmiths, employed by the London Street Railway Company, was investigated at the police court this morning. The men, whose names are Arthur McKenna, W. Butts and Reginald Kerr, were found by Sergt. Maguire working at a forge at the car barns on Sunday morning last. McKenna and Butts were resteeling switch points, and when the sergeant had taken their names, Kerr went to the bellows and said the sergeant had better take his name too, as he was also working. For the defense, McKenna took the stand and testified that the switch points being repaired were those belonging to the street car loop at the fair grounds, and they had to be done on Sunday, as there was not time to do them between the stoppage of car traffic at night, and its starting in the morning. The police magistrate reserved his decision in the case till Wednesday next.

Henry Shrimpton was charged by David Butler with using abusive and Insulting language toward the latter's mother. After a lengthy hearing the case was dismissed.

Thomas Russell, a youth with a bad Bernard. He was remanded until Mon-

The show of horses at the Western Fair this year is one that has been satisfactory to all. It is generally conceded to be one of the biggest and best features of the fair, and this year saw the department campleter than ever before. The majority of the entries at Toronto were also seen here. There is at present a greatly improved demand for all classes of horses, a condition that has largely affected the number and quality of the entries. The remunerative prices that are now obtained have encouraged the farmers to bring out their stock, and to study the requirements of the particular pur-poses for which they are producing. Not only has the quality of horses of saleable age improved, but the stalls are filled with better horses in all classes, and there is a noticeable improvement in the breeding and younger horses. The entries in the Hackney carriage class, the English Shires and Clydesdales are particularly numerous. The thoroughbreds are the only class

that is not well represented. CATTLE.

The Western Fair has again sustained its reputation for one of the finest live stock shows in America. Neither the directors nor the public have any reason to be disappointed at the show made this year. The breeders are recognizing the worth of the fair as an advertising medium more and more each year. Another thing that they appreciate is the efforts of the managers to provide for them the very best ecommodation possible. The entries have become more and more numerous each succeeding year, and it has become necessary on several occasions to increase the capacity of the sheds. No breed of cattle is not well repre-

A PEERLESS CANADIAN PIANO. It should be a matter of intense gratification to every Canadian to know that there is a Canadian manufactory which stands today in the very front rank of the world's finest piano and organ makers. The Karn Piano and Organ Manufactory, which was established in 1867, was carried on in a small way at the beginning, employing only a very few persons. Year by year as the excellence of the Karn musical instruments became better known, the business continued to develop, thereby necessitating increased accommodation. Today the factories of the Karn Piano and Organ Company are the largest and most complete in Canada. It has always been the ambition of Mr. Karn to produce only first-class instruments in every particular, and so well has he realized his aims that today the product of the Karn factory occupies a proud and enviable position in the musical world. It is today Mr. Karn's privilege to know that the superior qualities of instruments are recognized and appreciated, not alone in the Dominion of Canada, but throughout the known world, so that all pianos and organs bearing the name of "Karn" are sufficiently guaranteed as to their reliability and intrinsic worth. If any testimony to the truth of this statement were needed, it is abundantly supplied in the thousands of testimonials, some of them from the world's foremost musicians, which have been received by the Karn Company, and furthe,r by the many awards of gold, silver and bronze medals which they have received at various international, national, state and provincial exhibitions. The Karn Company are proud of their reputation. and justly so, but they ask no one to Nothing so unstable as a past reputaenters into the construction of their instruments. Karn planos are the result of honest endeavor, combined with a knowledge of everything necessary to the production of an instrument strictly first-class in respect to tone, finish and durability. Every Karn piano that leaves the factory carries with it a ten-years' guarantee. those who had not the opportunity of viewing the magnificent Karn exhibit at the fair, or those contemplating the purchase of an instrument, should call at the city warerooms, 226 Dundas street, and acquaint themselves with

"I suppose the knowledge cannot be very gratifying to your feelings," Margaret asserted; "but I had to do it, nevertheless. Yes, I planned the ride yesterday afternoon, without the slightest intention of accompanying

Then your headache was all sham. I supposed Miss Margaret Houghton to be above the meanness of lying," snap-

ped Arthur, angrily.

"And so I am," Margaret Teturned,
with dignity. "I have told falsehoods not one: I have simply employed strategy that was perfectly justifiable. My headache was no sham, it was terribly real, proceeding from nervousness, lest any of my plans should fail. But as soon as I had sent you, and mamma, and Floy Arnold off on your excursion,

to Buttes Chamont-'And Floy Arnold was' only a decoy, then!" groaned Arthur.

'Of course! I knew that neither you nor mamma would go and leave me at home, believing me to be ill, unless you stood committed to accompany someone else, and Floy proved to be a very convenient decoy. I could not carry out my plans unless you were out of the way, and something seemed to make me feel that I must work quickly. As soon as you were gone I came directly here to bring the file and saw, and I was also inspired to bring Louis papa's revolver.

"Ah, that was Mr. Houghton's revolver, then?" 'Yes, it was a good thing, my bring-

ing it, for it seems that Louis has made good use of it," Margaret replied, significantly.

Arthur swore roundly at this reference to his uncomfortable situation. "You are forgetting your manners, Mr. Aspinwall," Margaret said, reprov-"I do not think it is exactly kind to exult over a fallen foe, but I must confess that it affords me infinite satisfaction to find you here, when I believed you had left the city. I should not have come here today, for Louis told me not to venture again for a few days, but for what you said last night about going away. I felt that it would be safe under those circum-stances, and I wanted to ascertain how my hero was getting along, and perhaps aid him a little in his work. Ah! I think he must be coming now!" she concluded, as a step was heard upon

the stairs. The next moment Louis entered the

"Margie!" Louis exclaimed in amazement, and glancing anxiously from her to his captive, as if he feared she might have suffered some harm in coming near him.

She sprang toward him with out-stretched hands, her face radiant with

"Oh, Louis!" she cried, "what delight to see you free once more-to know that you are safe!"

He laid down his revolver and can-dle, and, taking her hands in his, drew her gently out of the room and away from those lowering, malicious eyes that were watching their every movement; and Arthur Aspinwall, almost maddened by the sight of their mutual joy, threw himself, with a groan of despair, at full length upon his lounge and hid his face in his hands.

"How happened you to come here again today?" Louis asked, as, for the first time in long weeks, he folded his betrothed in a fond embrace.

She explained to him that Arthur had mentioned that he might be away from Paris for a few days, and her father having heard that he had gone she thought she might come to him with safety, and perhaps help him somewhat in the use of the saw and

"What a faithful little woman!" Louis said, while he touched his lips reverently to her white forehead; "but did you imagine I would allow thes tender hands to do such rough work?"

"It would not hurt them; I could have filed while you sawed—anything to help you out of that dreadful place." Then he related all that had occur-red—how he had compelled Arthur to release him, and then had driven him, at the muzzle of the weapon, into captivity in his place.

"But the money, dear," he said, despondingly, in conclusion, "I cannot find. I have tried in vain to make him confess where it is, and I have looked the building over thoroughly, with no result, I could have taken my oath that it was somewhere here, for I have heard him prowling about in this room and below many a time."
"There is a closet—is there anything

in it?" Margaret asked, glancing toward it. "No; absolutely nothing, save dust

and cobwebs." "Are there no boards loosened any-where in the floors?" "Not one; I have examined every-

Louis was standing by the mantela marble one, fastened above the fireplace, and extending down each side to the wainscoting.

He turned slowly to obey Margaret's request, but with an air that plainly indicated no faith in and no hope of making any discovery.

He rapped upon the panel nearest

bent to look within it. "Alas! it was empty. Nothing but the dust of many years was there to reward them for their search.

"I was so sure we had found it." said the young girl, growing pale from disappointment. Louis also was greatly tried; he be-

gan to fear that he might not find the money after all.
"Perhaps," he said, after a moment of silence, and trying to speak hopefully, "there may be a mate to this closet on the other side of the fire-

"Ah, yes! strange that I did not think of that; let us look quickly," Margaret assented, eagerly. "There is!" Louis declared, after tapping upon the panel, while his eyes

grew large and intensely black with excitement. He tried to raise it the same as he had raised the other, but it resisted all his efforts.

Margaret was intensely excited. "It is there, I am sure it is there!" she cried.

I received your reply very soon and then dismissed my physician and began taking Dr. Pierce's medicines. I took eight bottles of his 'Favorite' Prescription' and 'Golden Medical Discovery,' and began to get better at once. In two months I could sit up in a chair, and kept getting better. MARRIAGES

Believed to Have Taken Place at St. Joe, Michigan.

Unsuspecting Couples Victimized by a "Marriage Bureau."

St. Joseph, Mich., Sept. 14.-There was a slump in St. Joe marriage cer-tificates yesterday, and there may be a panic if the belief of Chief of Police Morton, that many of the couples that have been united here during the summer, have been victimized by bogus marriage bureaus, and are not legally wedded, is confirmed. The hundreds of pairs who have flocked to this Gretna Green at the rate of several score every Sunday for the last three months to find conjugal bliss, would do well to "You look up their titles to the state, and make sure that the knots were prop-

That persons other than these last named have been doing business here, seems probable from one case that has been reported to Chief Moriton, but the number of unsuspecting lovers who went through a mock ceremony and not even be guessed. It is feared that the business has been carried on for some time, and if this is true, the

The police are hot on the trail of the culprits, and it is said that they will be run down in a short time. The suspicions of Chief Morton were first aroused when George Burke, of Grand Rapids, called at police headquarters with his father. Both men were greatly incensed, and said that the son had been led into a trap and married by a bogus minister, and that three other couples were married at the same house on the same day, without a license. The elder Burke is a well-to-do man in Grand Rapids, and relying upon his word. Chief Morton began an investigation. The following is the story told

by the younger Burke: BURKE'S STORY.

"I heard of the fad of getting married at St. Joe, and so went to Kankakee to get the young lady to whom I was engaged. We came over here from Chicago on the steamer City of Milwaukee on Aug. 22. At the top of the slide we were accosted by a man about 35 years old, who asked us if we wanted to get married. I thought at first I would tell him none of his business, but finally listened to him, thinking he might be able to direct us to the proper authorities.

"We followed him up Ship street to some cross street—I forget whether it was Court or Church; there we went "There was a spring to the one I saw south. He led us on a zigzag course, in England," said Margaret, looking sometimes going on one street and sometimes on another. After a tenminute walk we came to a house. When we entered we found several young people sitting there, evidently he other room to get his file.

He was so intent upon his purpose he troduced to a clerical-looking man, did not observe Arthur. If he had done apparently about 30 years of age. Our so, he would have observed that he guide told us that the man was Rev. guide told us that the man was Rev. Mr. Williams.

"Rev. Mr. William greeted us effusively. We were told that a license Everything seemed to be in the regular order, so we stood up and were married by Rev. Mr.

"After we were married, we paid our guide 50 cents. The minister's fee was \$2, which we also paid. We left the house, the other three couples were Neither of us had been marmarri ried before, and we supposed we were married according to the regular order

of things." Young Burke, accompanied by Chief Morton, located the residence where the marriage ceremonies were performd, but pending further investigation, the chief refused to furnish the name of the family occupying the cot-

Chief Morton has discovered enough to make him believe the crime was perpetrated, and there is no doubt that 'Rev. Mr. Williams" will be captured. Burke described the reverend gentleman who married him as being six feet in height, with light hair, and a

pleasant smile. Burke will bring his wife here and be married over again.

McMorran Elevator Plant at Port Huron in Ruins.

Port Huron, Mich., Sept. 14.—The elevator plant of the McMorran Milling Company, Port Huron and Northwestern Elevator Company, and D. McMorran & Co., was destroyed by fire yesterday, entailing a loss of \$225,000, fully covered by insurance.

The Sarnia fire department turned out to assist the local department, and heroic efforts were made to save the large elevator. A train of cars was backed into the

elevator, and an effort was made to save part of its contents, but the smoke forced the men to quit work. Wilbur Inslee, a business man, was injured during the progress of the fire by falling on the track.

A New Constitutional Remedy That Bradicates the Disease Completely From the System.

A few years ago consumption was thought to be an absolutely incurable disease. Modern science has stepped in and transferred the "white plague of the north" to the column of curable diseases. Now the swift march of science has overtaken cancer and placed it, too, on the list of curable diseases. The old and agonizing methods of treatment by the knife, paste and plaster, have been superseded by our constitutional remedy, which complete-ly uproots the disease from the system and leaves not a vestige again cause trouble. Our remedy, though powerful enough to remove every trace of cancer poison from the system, is pleasant to take, and harmless to the most delicate constitution. Full particulars, also our new book, "Cancer, Its Cause and Cure," sent to anyone on receipt of two stamps. Address Stott & Jury, Bowmanville, Ont. Pte. H. G. Brown is either Pte.

ARRESTED ON THE FAIR GROUNDS

Prominent West Zorra Resident and His Hired Man Charged With Stealing Harness - Taken to Stratford

The Woodstock Sentinel-Review says: Malcolm McKenzie, of Youngsville, and his hired man, Waud, are under arrest in Stratford charged with the theft of a harness from Wesley Dodge, of West Oxford. Mr. Dodge had a valuable set of English buggy harness stolen from his premists on Aug. 27, and was unable to obtain any trace of it until very recently, when Ed Smith, a Stratford liveryman, secured a set of harness in a trade with a farm hand. The harness answered the description the stolen set, and Mr. Dodge identified it upon going to Stratford. He thereupon laid information against Waud and High Constable T. B. McCarty journeyed to the vicinity of Youngs. ville, where he secured his man. The story Waud told when removed to the Stratford jail led to a suspicion that Mr. McKenzie, his employer, was imupon the animals were found parts of the stolen harness. He was taken to Stratford, and when arraigned in the police court yesterday morning, pleaded not guilty; while Waud acknowledged the theft. Mackenzie elected to be tried

summarily and was released on furnish-It is reported from West Zorra that when the premises and hay loft of Mr. Mackenzie's were searched, many other sets of harness alleged to have been stolen were found. Many petty thefts of harness have occurred recently in the township. The defendant is very well known in his community, and on account of the wide connection of the family in the county, the affair has caused a sensation. Mr. Mackenzie recently began proceedings against Robert Couke, of the same township, for \$1,000 damages for slander alleged to have been circulated by the defendant that Mr. Mackenzie sold skimmed milk. The trial has been adjourned until Thursday, Sept. 20.

THE FRUIT CROP

Damaged by the Late Storm-Some Reports Exaggerated.

IN KENT AND ESSEX. Chatham, Sept. 14 .- The windstorm of Tuesday wrought havoc in the orchards of Kent and Essex, and caused losses to the farmers and fruit-growers that will foot up in the aggregate to many thousands of dollars. The storm was worst along the highlands that border on the northern shore of Lake Erie, which section is the greatest fruit-growing district in Western Ontario. On the Chatham market on Wednesday there was not one of the fruitgrowers but lamented the loss of half their crop of apples or pears. The peach trees, being lower than the others, were in a measure protected from the fury of the gale, but they also suffered badly enough. It is utterly impossible to estimate the damage, but it will be very heavy, decreasing the crop by at

EXAGGERATED REPORTS. Hamilton, Sept. 14 .- Exaggerated reports of the damage done to the fruit crops in the Niagara district by Tuesday night's storm have been circulated in some quarters, but the fruit-growers themselves say the damage was not nearly so serious as at first thought.

TWENTY YEARS STANDING

Trouble of a Norwich Farmer Who Was Relieved by Dodd's Kidney Pills.

Norwich, Sept. 10 .- For twenty years Mr. Wilbert Woodward, of Willow Dell. has suffered with backache. He grew so bad that he was confined to his bed two days out of a week. His farm plicated and a constable was sent to two days out of a week. His farm London fair after him. Mr. McKenzie suffered for the lack of the eye of its was exhibiting horses at the fair and master, and Mr. Woodward made every. effort to find a cure for his trouble. He says: "I tried everything I ever heard of, but no cure. Last fall I heard about Dodd's Kidney Pills, and I bought three boxes of them from Mr. Bannon, of Norwich, and I am happy to say they have done me more good than all the other medicines put together that I got from the doctor. My wife takes Dodd's Kidney Pills also, for lame back and rheumatism, and finds them grand. I hope any persons suffering as we did will try these remedies. I would willingly pay two dollars a box rather than be without Dodd's Kidney Pills in the house.'

Mr. Thomas McCaffery, for many years manager of the Union Bank in Winnipeg, has severed his connection
