Board Will Have to Consent to Reduction-Tax Rate Reduced.

The public school department o the board of education shows a surplus of \$25,210.13 for last year.

Since the board in its estimates placed the surplus at \$11,808, it is possible that the estimates can be cut \$13,400 for public school purposes The actual surplus in the collegiate institute department amounts to \$19,707.05, and in the technical high

school department to \$12,795.90. The total of the actual surpluses in the three departments shows an night at the First Methodist church. increase of \$14,142.64 over the respective amounts placed in the estipective amounts placed in the esti-nates.

It happened that on this day the army fliers were expected there to dedicate the new Ford flying field, twelve miles outside of Detroit and just across from the Ford automobile plant at Dearborn. While we were talking, the hum of the engines overhead attracted our attention. Going to the window we saw the leader and thirteen other planes arriving in battle formation. We stood there at the

"Over there," said Mr. Ford, "I have laid out 600 acres for a new flying field. It is level and close to Detroit. It should make an excellent landing place. But I can make it 1,200 acres, or 1,500 acres, if neces-

sary."
Of late Mr. Ford has become in tensely interested in the whole prob-lem of aviation. Across the way, on the flying field, during the past few months, there has been erected a small factory for the building of a certain type of aeroplane. The directors of this new manufacturing organization include some of the most able businessmen in the country. The names of Edsel Ford and Mr. Mayo, chief engineer of the Ford Motor company, appear on the list. Is Mr. Ford becoming interested in the new science of aircraft? Some peo-ple who know the working of Mr. Ford's mind believe that he is

A Chapter in the Story of a Canadian Banking Family

**Head Office** of the Bank of Hamilton Hamilton now occupied by The Canadian Bank of Commerce

THE establishment of the Bank l of Hamilton in 1872, two years after the assets of the Gore Bank were taken over by The Canadian Bank of Commerce, gave Hamilton once more a local banking house; and, as was the case in other Canadian communities during the last century, the local support which such an institution was able to command contributed greatly towards the building up of many businesses which are now fully national in their scope.

With the industrial centre of soon began to extend its field of operations, opening branches in central and western Ontario from 1874 onwards. In 1896 an office was opened at Winnipeg, the first of a chain that was eventually to stretch westward to the

A change had gradually been coming over the banking situa-tion in Canada, however, as the economic life of the country was being welded into one great na-tional unit. The burden of financing the country's business, especially since the war, has in short, emphasized the need for consolidating and conserving banking resources, in order to the maximum of operating efficiency and to offer the public the most complete service possible In accordance with this general banking trend a proposal was made towards the latter part of 1923 for the amalgamation of Canadian Bank of Commerce. which, on receiving the necessary authority, became effective on the last day of that year.

By this union The Canadian Bank of Commerce rounded out its national system, especially in the heart of Ontario, where both institutions had their beginning.

## TALBOT STREET MOTHERS PROTEST BOUNDARY CHANGE

Petition Board of Education Not To Curtail School District.

### T. PATRICK'S PARTY

The members of the Talbot street mothers' club are protesting against any change in the boundaries of the Talbot street school district. A petition to this effect and directed to the board of education was framed at last night's meeting of the club, held

The Talbot street school boundary The Talbot street school boundary now crosses Richmond street and continues down the middle of Wellington street to Central avenue. West along the middle of Central avenue to Clarence and down the middle of Clarence to Dundas street. The new boundary, approved and passed by the board of education will passed by the board of education will go directly down the middle of Richmond street to Dundas street, and west along the middle of Dundas street. This new boundary, which comes into force on Sept. 1 of this year, thus cuts off a large district between Richmond and Wellington streets. The object of the board of description is to deplete the populastreets. The object of the board of education is to deplete the population at the Talbot street school to the extent of closing a room and to thereby fill the new Lord Roberts school to its capacity.

The petition, which is being forwarded to the board of education

reads or follows:

"We the mothers of the Talbot street mothers' club do respectfully submit this petition, asking that the boundaries of the Talbot street school district may be retained as they are, believing it to be in the best interests of the school."

LONESOME MOTHER.

Answer: I advise you to get a good place as housekeeper where you will draw down a good, fat pay envelope every Saturday night, instead of having to work for your children for nothing.

A healthy woman of 54 is just in the prime of life, with many more years in which to enjoy things, and she is the most foolish person alive if she doesn't strike out for herself

The instant her head touched the and have her own individual life. Of course, your children are all for themselves. Everybody's children are, and you have no grievance there. It is nature for every young man and woman to want to get married, and establish homes of their own, and go off by themselves. You did the same thing when you were voung.

> But a mother does a wrong thing for the children and a suicidal thing for herself when she goes to live with her in-laws, so long as she is able to take care of herself. She doesn't get any happiness out of it because she is blamed for everything that goes wrong, and nine times out of ten she finds that she is nothing but an unpaid servant.

She has to take care of the children. She has to do most of the cooking and the odd jobs, and nobody ever says "Thank you."

Go to your husband and humble yourself before him, and the chances are that he will take you back. Probably he, too, is lonely and desolate, and heartsick for his children, and will be glad to have his home again

at any price.

Certainly I think that something with boiling oil in it should be done to the people, and especially to a woman's own family, who make trouble between her and her husband. This happens very often, and it is a crime to which mothers are particular-

concerned in the sale of Formula 'A.'
One is a man called Belcovitch, the other, who seems to have kept in the background, is described as a big good-looking man—florid complexion, blue eyes, either English or American, though he passed under the name of Bernier and professed to be Swiss. Does that fit you friend Ember by any chance?"

"Molloy was supposed to have any chance of the others are particular-law business in that cross-passage, in which case a handkerchief, even if stained, was just the most unlikely thing in the world to pass unnoticed. > every other married woman learns, and that is that when you marry a man you take him faults and all, and be thankful they aren't any worse.

Temper is certainly a very serious fault; and as far as a woman's happiness is concerned, it about heads the list of the vices that a husband can possess. Nobody else is quite so unpleasant to live with as a man or woman who is always flying into tantrums and saying cruel and bitter things. An irritable, high tempered man and an overly sensitive woman are certainly a bad combination to get together.

There is nothing you can do to cure your husband of his high temper, but you can protect yourself by growing a rhinoceros hide over your feelings. Learn

# most headaches due to lack of internal cleanliness,

WHEN you are constipated, poisons form in the accumulated food waste and are carried to all parts of the body. Headaches follow. Biliousness, insomnia, lack of energy, all result from constipation, which if unchecked will lead to serious results.

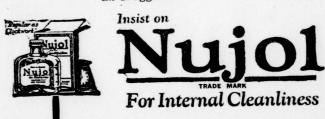

## Avoid Laxatives-Say Doctors

A noted authority says that laxatives and cathartics do not overcome constipation, but by their continued use tend only to aggravate the condition.

Medical science has found in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage through and out of the body. Thus, Nujol brings internal cleanliness.

Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative, and cannot gripe. Like pure water, it is harmless.

Take Nujol regularly and adopt this habit of internal cleanliness. For sale by all druggists.

It is terrible to feel all dragged out—to live from one day to the next in a constant state of weariness. Yet thousands do, because constipation is destroying their energy—even their interest in life. Only Kellogg's ALL BRAN brings sure and safe relief from this disease.

# Fired because he was always tired

"Drowsy Bill," they called him-a lifeless, eternally tired, old-young man. He cream, sprinkled over other cereals or tried hard enough, but his energies always sagged before the job was done. One day Bill was missing . . . fired.

In every walk of life you'll find men and women who are fighting constipation -the dread disease which robs the body of its energy and strength. But thank goodness, there is pleasant, safe, permanent relief from constipation—Kellogg's ALL-BRAN.

Kellogg's ALL-BRAN is what doctors call a bulk food. As it journeys through the body, its fiber remains unchanged. Therefore, it can sweep the intestine clean. ALL-BRAN also absorbs and carries moisture through the intestinal tract, thus stimulating regulas, healthy action. ALL-BRAN urges nature to act normallysomething that habit-forming pills and drugs can never do.

Serve Kellogg's ALL-BRAN with milk or cooked with hot cereals. Delicious with fruit. Also use the many recipes given on every package. If eaten regularly, Kellogg's ALL-BRAN is guaranteed to bring permanent relief or the grocer returns the purchase price. Eat two tablespoonfuls daily-in chronic cases, with every meal.

Be careful! Only ALL-BRAN brings sure results. Be sure to get Kellogg's ALL-BRAN. A part-bran product is only partially effective-maybe not at all. Kellogg's is the original and only ALL-BRAN. All grocers

University hockey team, intercollegiate winners, proved themselves to be worthy Allan Cup contenders tonight, defeating Niagara Falls, O. H. A. champions, 3—1, and taking the Eastern cup final by the score of 9-2 on

The game was fast at most stages and after the invaders had scored the only goal of the first period, the round was conceded them by the st ardent home team supporters The Frasermen have overcome big obstacles in the past, but not against such formidable opposition, as the Big Roar team was blanked for more than 40 minutes. The play was even throughout, although Sullivan was called upon to provide the sensational much oftener than Mayo. But on the other hand, the students made better use of their opportunities, all three goals being the result of clever, ac-curate passing and shooting. Their defense game also was perfect, and many Falls' attacks ended well out from Sulivan as a result of close back-checking by the front line.

Tonight will be Grimsby's last chance to prove that they didn't catch both the Soo and the Falls on off nights. Otherwise the discussion of the merits of intermediate and senior hockey is liable to continue all summer.

Coach Jimmy Gardner of the Hamilton club had this to say of the Hamilton "strike."

"What happened in former seasons I don't know. That's none of my business. But I do know that this season the players have been very well treated by the management. I didn't see or hear any of the abuses the players spoke of. This is a matter that really doesn't concern me and I'm not going to become mixed up in it. All I can say is that I have found conditions in Hamilton of the best. The players have played the game for me and the owners couldn't have treated me better. It's the best club I ever worked for."

If professional hockey is to retain public confidence, and also retain its own firm footing, the course of the National Hockey league is the matter of the strike of the Hamilton Hockey club is clear.

The ringleaders in the attempted grab for extra money, to which the players were not entitled under the contracts, must be disclosed blacklisted, and barred from organized hockey for all time. Any less severe measure will accomplish several undesirable ends. It will indicate weakness on the part of the league: it will weaken the morale of every team's management: it will make possible a repetition of similar.

the league; it will weaken the motale of every team's management; it will make possible a repetition of similar hold-ups under circumstances which will practically force the owners to give up, and it will ultimately mean the ruin of the professional game.

The Hamilton movement was an even more serious matter than has appeared on the surface, and the league can well dispense with the presence of firebrands who instigated an effort to renew practices which were thought to have expired along with the late Jesse James.

Students Blank Spring and Axle Sextet 3--0 in Final Game.

Special to The Advertiser.

Guelph, March 17.—O. A. C. hockeyists are champions of the senior city league by virtue of their win over the Spring and Axle sextet here tonight, when they humbled the factory men 3 to 0. The Aggies were easily the snapplest outfit in city league uniform this year, and they had little difficulty in copping both first and second schedules. The Axle Workers only succeeded in landing one game from the College lads this year, when they whitewashed the Sod-Busters 1 to 0 last week, which was incidentally the only defeat the "Rah Rah" boys sustained all season. The students deserved the verdict in every frame but the last, and the Axlemen were pushed hard throughout. One goal, a few minutes before the bell was rung in the initial stanza, gave them the jump, and they kept their lead intact for the remaining two periods. Brilliant goaltending by Hamilton in the O. A. C. net featured the contest.

Walter Camp was a statesman of sport. He ever viewed amateur athletics in its larger aspects. Victory for Yale's eleven, year by year, he desired as keenly as any freshman, but the development of American rugby, its relation to college life, to ethics and the humanities were his

It was this breadth of understanding that led him to establish the five-yard rule as the means to make football take on something of the basis of the German staff's "war game." Into a contest of beef and brawn he put brains.

From his undergraduate experience as a famous player of football and baseball, and as a lesser performer in tennis and rowing, he took a sound knowledge of technique. This saved him from the errors of the sheer theorist. Nor could his quality of statesmanship have functioned so finely for athletics had it not been twined with a definite conception of morals. Walter Camp stood for clean sport. He was the gentleman

sportsman in the best sense. That Mr. Camp kept apace with his times, or even ahead of them, was evidenced by his recent campaigns to keep down the cost of golf, to limit the luxury of its clubhouses and to give the youngsters their chance to play. His "daily dozen" was but a sound policy of keeping America fit for the marvellous developments of all branches of its sports. Walter Camp was a pioneer in the field of the higher policies of athletics. Though many men now stand ready to carry forward the cause to which he devoted so much of his life, both Yale and the country have suffered a definite loss in his death.

## A STALEMATE

The baseball situation was not cleared to any extent yesterday. The Orients offer to withdraw from connection with baseball if the L.A.A.A. would also fade out of the picture, and let the players operate under a neutral management, came to nought when the latter decided to stick to its original proposition. This was that the ball players would work under a committee of

not necessarily active members of the L.A.A.A. The L.A.A.A. only reserved the right to choose three men who were absolutely neutral and would be favored by the players, as well. It seems that the matter of the appended "A's" is about all that stands between the project of one team for London this year. The

six men, three players to be chosen from the team and three other men,

L.A.A. officials claim that the team may be called London and the three "A's" left off if that would help any. However the L.A.A.A. did not intend to retract from the principle they've been holding out for all along which was single representative

control of sport in London, rather than letting sport slip back to the As a matter of fact, the whole controversy may be traced to animosities between individuals, which seem to loom a good deal bigger

than the sport itself.

## ANOTHER ANGLE.

The "players" who would play as independents and break the deadlock now existing take a good deal for granted. If the "players" who would control the one team in London were to run their own affairs this season what about the 20 or 30 players who didn't make the team? What is to hinder them from thinking that it might be a survival of old cliques that chose the 1925 team denying them a chance to make good. The charge has been made before, and hasn't altogether been groundless. As a matter of common knowledge, several seniors of last year were on teams because of player friendships. They had no right to be playing. As outside cities view the London situation, it should be possible to raise two teams in London. As a matter of fact outside four pitchers and one catcher, or two at the most, it would be. There are nearly 30 players to fill out the other positions on two senior teams and they are on such a level of ability that picking them blindfould would be the fairest way.

That is the unfortunate part of baseball. Batteries are of paramount importance and there the difference between the material available, stands out very distinctly.

The fact that one hockey booster sent in a check for \$25 for the Grimsby game tickets and another bought 25 of the best seats, indicates that there are a few of the citizenry realize what a load the L. A. A. A. hockey sub-committee carried this winter when they gave London its first sinior hockey team that was of more than near-championship material.

The ticket exchange was speeding up yesterday, indicating the combination of prices cut in half. The game itself and the fact that the amount of the proceeds will indicate how much the fans appreciated the big task undertaken this winter has had an irresistible arpeal.

oroceeds will indicate how much the fans appreciated the big task undertaken this winter has had an irresistible arpeal.

The L. A. A. committeemen have just about finished up a season's work that has had few compensations. First, the suspension of Beilefeuille, and then the defection of Neville to the prox distributed a few thorns carelessly over the pathway. These were nearly enough to derail the whole plan of campaign, but the players and committee faced things squarely, and succeeded, despite all sorts of obstacles, in giving London fandom the best hockey season in a decade, and in many ways the best the city has ever enjoyed in a lengthy career in the winter pastime. It's this sort of work behind the scenes that makes the carrying on of hockey team possible, but it's a work that comes in for little praise and much criticism. If the team wins, the players are heroes; if the team doesn't win, the officials are the goats— and that's amateur hockey.

The good condition of the roads has resulted in many out-of-town requests for tickets, and indicates the interest with which this game is regarded.

In towns and cities where intermediate teams operated this past season there is a keen desire to see the Peach Kings, halled as the greatest intermediate machine ever developed in the O. H. A. when they put out the Soo and then followed it up by holding the Falls to a one-goal margin on the round.

the Falls to a one-goal margin on the round.

Here the interest apparently is equally intense. The team which will sport the London colors will be as strong as any senior team in the Big Six at any stage of the race, and what Grimsby will do against this outfit will give the answer to an immense amount of hockey speculation.

In Starkings and "Dad" Ashley there will be lined up a defence which many critics claim is the best pair of defence stars in the Big Six. Fournier will probably be an absentes tonight, and, if he is, Lowrey, Keeling and Filmore will be a junior front line. Barret and Zeigler as subs bring the juniors into the limelight entirely. ## Decision Given Against Mint

Special to The Advertiser. Grand Rapids, March 17.—Grand Rapids, Kalamazoo and Muskegon are ruled out of the Mint league territory, according to a communi-cation received by William T. Morrissey, former owner of Grand Rapids team of the Michigan-On-tario league, from John H. Farrell, secretary of the National Associa-

tion of baseball clubs.
The decision permits reorganization of the old Central league or formation of a new baseball circuit, a project new under way, and settles the claim of Thomas J. Halligan, president of the Mint

## Five Aces In Card Deck At Sea Prove Expensive Investment

San Francisco, March 17.-There may be no great harm in five aces in a poker deck on land-but on the ocean it is something else again. Uncle Sam's maritime laws permit no deviation from

the strict rules of Hoyle. Convicted of cheating at cards on the high seas, Jeremiah Paine, Norman McLeod and Charles Steel, trio of professional gamblers, who are said to have "played" formerly on big ocean liners between New York and European ports, must serve five

Finals at 'Peg To Be Decided by Games, Not Goals.

Special to The Advertiser.
Toronto, March 17.—Varsity will go west to play the western winners in the finals for the cur on March 23, 25 and 27, best two out of three games. This is the first time that a hockey championship has ever been decided by games instead of goals on the round The change was made as a result of suggestion made by Dr. Sanderoock, president of the Alberta branch of the C. A. H. A., and on mail vote of the association. Dr. Sanderoock's contention was that a visiting team, after a long trip, might not play up to form in the first game, and be beaten by such a margin that they would not be able to make it up in the second game. In the far west the Alberta champions went to Vancouver, where Coleman eliminated Rossland, the B. C. champions. The Saskatchewan champions went to Winnireg to play the team from Fort William, which eliminated the famous Winnipeg Selkirks in their combined play-off. The Regina team played the Port Arthur team to a one-goal tie last Friday night, and in the second game last night were beaten by 10 to 3. Port Arthur winning the round by seven goals.

In the western final Coleman and Port Arthur will play two games in Winnipeg this week. suggestion made by Dr. Sandercock

London, March 17 .- Another "mystery" case involving persons of high rank came up before a British court today when the suit of Mrs. Muriel Waterhouse against Sir David Wilson-Barker, Lady Wilson-Barker and R. P. Sheldon went to trial after counsel at the judge's request had vainly tried to effect out of court a settlement of the affair, the mere

# Coach Imperial at the touring car price

# A new success added to ten years of succeeding

THE New Coach Imperial is enjoying a notable public reception. Already it seems destined to be the most sought after

Chandler in ten years of Chandler history. It is the only closed car that combines at touring car price the luxury of Fisher body craftsmanship and the

impressive Chandler performance. It is the only Coach that offers the Pikes Peak Motor

and the Traffic Transmission. The durability of the Chandler chassis was proved at Culver City, Cal., February 4th, when a roadster covered one thousand miles in 689 minutes, an average of 86.96 miles per hour—the fastest 1000 miles ever made on wheels.

Chandler success is the just reward of ten years of sound method; ten years which today find Chandler selling the best car of its history, amply financed, strongly entrenched with a growing dealer organization, and basing growth on conservative policies that give due regard to new economic conditions prevailing in the industry.

(The Traffic Transmission is built.complete in the Chandler plant under Campbell patents)

Wherein we tell about a fight at midnight in Hank's humble cot, and wonder if a neighbor should just let 'em fight it out or not.

Within my chest there beats a heart that shares the sorrows of the race, and grieves for them that chant aloud that they can't stand the maddened pace. Upon the village street nigh me there rests a humble little house, where dwells Hank Spavim livin' and with him too his lawful spouse.

Folks told me when they moved therein how Hank be quarrelin' with his wife, and how for seven years gone by she'd had a scurvy sort of life.

I passed quite often by their porch, and though it be not my affair, quite keen I was for female cries a-rendin' on the midnight

Last night when I was lockin' up and headin' for my bale of hay, I thinks I hear some screamin' come a-soundin' over toward Hank's way. 'Twas then my blood boiled hard in me, I donned my hob-nailed boots once more, a-swearin' how I'd take that brute and bounce him on the kitchen floor,

When I got to Hank's cottage door the rumpus reached unto its height, me thinkin' Hank was thumpin' her and she, poor thing,

Well Hank he grabbed me by the neck and struck me in the jaw, he did, his missus took the rolling pin and bounced the ironwood on my lid. They rushed me out from their caboose and tossed me in the midnight air, remarkin's if they choosed to scrap 'twas really none of my affair.

Today I nurse a bulgin' eye, my head is ten degrees from cool, I'm wonderin' if perhaps I ain't about the biggest kind of fool. No more I'll answer to her call, nor make a target of my snout, when Hank and her decide to quarrel they'll go ahead and fight it out -ARK

The Border government sent Sir Henry Drayton, then chair-man of the royal commission, now chief financial critic for the opposi tion, to England in 1913 to inquire into ocean shipping rates. He found a combination in existence which "practically eliminates all competition and requires some governmental con-trol." The records show that until the end of their terms the Conservatives were concerned about the ocean rates and sought in various directons for relief for the Canadian ship-But when a Liberal government

HOLLINGER.

The date of the Hollinger annual meeting has not yet been announced, and the time has passed when, under ordinary circumstances, the annual report would have been mailed to shareholders. It is understood that the company is holding off in the hope that the hydro-electric plant will be disposed of, so that this news will be available for shareholders in the annual report and the company be in a position to make some definite pronouncement regarding the increase in dividend which is expected as soon as this matter is settled.

traders.

new low records for the present movement under a relentless attack by bear traders.

May wheat suffered a decline of 18c on the extreme dip, the heaviest single day loss recorded since the dramatic post-war sessions, the nearby future halting at the low point of \$1.53½. July underwent a similar fate, receding to \$1.48 for a loss of 18% C. October's extreme bulge took the future 10½0 below yesterday's closing prices.

There were some reactions from the bottom, but advances were stubborniy outlested until rear the close, when the market recovered about 3c, with May of at \$1.50½, 15c down, July at \$1.53½, 15c of their loads, but this was considered an exception.

No wheat was offered.

Because of the vast amount of potatoes in the country at the present time, attention to the country at the present time, of the country at the present time, at the low point of \$1.53½, 15c down, July at \$1.55½, 15c down, July at \$1.55½,

Private cables stated that importing firms on the continent were in a state of panic, and that many were going into bankruptcy owing to the recent drastic declines in wheat prices. The large amount of supplies in course of shipment which have been purchased by foreigners consequently were refused by those interests, necessitating a large volume being thrown back on New York firms, which were forced to hedge these supplies on the American market. Trade volume was very large, with good buying locally against sales at Chicago at the spreads narrowed Liverpool cables closed 8d to 8½d lower.

## Local Market

A bountful supply of sap was predicted for today by farmers who came to the local market. According to their statements, syrup will be the main attraction tomorrow if the weather continues mild, with plenty of sunshine. On Saturday many farmers of the district tapped their trees, but had to dispose of the sap, as the rain made it impossible to make syrup.

Nearly twenty loads comprised the hay ofterings, but owing to the feeble demand the price remains unchanged at \$10 to \$13 per ton, only a few choice lots bringing the latter quotation.

Four loads of oats passed over the market weigh scales, and the price remains unchanged at \$1.70 to \$1.75 per cwt. Two fortunate farmers received \$1.75 for their loads, but this was considered an exception.

FLOUR

Canadian Press Despatch.

Montreal, March 17.—The feature Montreal March 17.—The feature of the flour trade was the pronounced weakness that developed in the market for spring wheat grades, and millers generally marked down prices another 40c per barrel, which makes a net decline for the month of March to date of \$1.30 per barrel. There was no improvement in the volume of business with any source. The market was quiet, with carlots of first patents at the close offering at \$9.50, second patents at \$9.30 and strong bakers at \$9.10 per barrel, in jute bars, ex-track, less 16c per barrel for spot cash.

A fair amount of business was reported in milifeed. Manitoba bran was quoted at \$28.25, shorts at \$30.25 and middlings at \$36.25 per ton. The condition of the balance of the market was unchanged, prices being about steady, owing to the fact that there was no pressure on the part of holders to make sales.

BEAUTIFUL SCENERY

250 Children in Many National Costumes Present Final Scene.

In the gay color of pageantry, and in the guise of a dramatic spectacle, the story of 100 years of the endeavor and success of the Missionary Society of the Methodist church was presented last night in the First Methodist church here.

Fully Covers Ground.

Arranged by the missionary department of the Methodist church. Toronto, the pageant covers the ground of the church's missionary activities thoroughly. The outstanding points and characters have been given due prominence. The figures of Wesley, in England, of Barbara Heck, Captain Webb and Philip Embury, the evangelists of the new world in 1766, and all the members of the first Methodist conference at the meeting house, Hallowell, Prince Edward's district, Upper Canada, are shown in the setting most suited to bring out their individual temperaments and virtues. It was never forgotten that this story in its oriental gorgeousness and picturesque setting was a service of praise and tribute to the valiant fighters of the church on the frontiers of Christian-

Scenery Beautiful.

A word of commendation for the scenery is in place. This was brought from Toronto, and its artistic appeal lent color and an attractive naturalness to every scene. A stage was formed in front of the pulpit protected by curtains from the body of the formed in front of the pulpit protected by curtains from the body of the church. In the final scene which was a summary of the work of the new century there was a charming and brilliant scene in which two hundred and fifty children representing every country in which the Methodist church has converts, and clad in the constumes of their respective country in the converts and clad in the converts.

Probably the scene in part two in which the first Methodist conference in Canada is shown in session is the most interesting episode in the pageant. In this are shown all the headers in the church in Canada of that day. Bishop George, Bishop Hedding, Secretary Case, Nathan Bangs, Peter Jones, Demorest, Alvin Bangs, Feter Jones, Demorest, Alvin Torry, Henry Ryan, and the elder Madden, all historical figures of the church, are presented as taking a vigorous part in the councils of the conference. presents a lively and, as far as one can judge, accurate description of the position of the church in 1824, her difficulties and of the hardy nthusiasts whose energy, determina on and zeal were sufficient to cope with every obstacle. It is a scene peculiarly suited to the bare, plain walls shown on a single drop scene, and lends an air of reality and everyday life in the midst of an otherwis somewhat romantic and colorful story. This great and outstanding Chinaman, who is alive today, was in Canada last year, when for the first time he met the countrymen of his first missionary teacher. A man of wealth, he has established a large orphan home in his native country and has 500 orphans in it at the present time. This scene shows him

The women and chitdren were left there while the men went out six miles and built several houses. As fast as the houses were exceed the new Canadians were installed.

Unless you ask for "Phillips," you may not get the original Milk of Magnesia prescribed by physicians for 50 years as an antacid, laxative, corrective.

These colonists bought land from Col. Talbot and formed what was

known as the "English Settlement."
Speaking of London, Mr. Baty told of the erection of the first Presbyof the erection of the first Fressy-terian church here. It was located just behind where the Tecumseh House now stands. He also gave an excellent account of the building of some of the first homes in the city. Charles Baty Gives Interesting the address, various items of interest being taken up.

# MARKED SUCCESS

St. Peter's Dramatic Club Scores Big Hit in Irish Comedy.

Displaying histrionic talent worthy of veterans of the stage, and carrying through each scene and act with the kind of continuity that is imperative in making any production a success, the St Peter's Dramatic club last night won the sustained plaudits of a capacity house in its presentation of the popular comedy, "My Irish Rose," in St. Peter's auditorium.

Each player in the cast portraved his part in a sure and confident manner, and in every word and gesture showed the effects of painstaking preparation and direction.

The high lights of the presentation were the excellent character delineations of Miss Anne McIntyre as the Widow Hannigan, an old but still matrimonially-inclined lady with marrimoniality-inclined lady with marked and, at some times, embarrassing inquisitive propensities, and Miss Anna Mihn, as the elderly spinster, Mary Ann McCormick, whose chief care in life is keeping her brother Colum out of the clutches of the amorous widow.

Laughter in regular and pleasant quantities is provided by William Délaney as Shawn McGilly, the hired man on the McCormick farm, born with an antipathy for all forms of manual labor, and still, at the age of forty, obsessed with the delusion that yawning is the only recognized form of indoor and outdoor sport.

Ted Dignan, as Archibald Pennywitt, a touring English dandy, pro-

vided more laughter with his masterful monocle manipulation, his desper-ate but unsuccessful efforts to understand the Irish brand of humor, Eileen Fitzgerald, a Dublin heiress, played by Miss Constance Pitt Miss Claire Delaney handled the

Rose is a simple country lass, whose marriage to Maurice Fitzgerald, a wealthy artist, leads to many complexing situations in the course of her assimilating enough erudition to attain the same social footing as her husband, but she finally finds happiness after winning a battle of wits most difficult role in the play, that of Rose Creigan, in commendable style.

> "Sleeplessness," Doctor Kennedy tells us, "is one of the commonest signs of nervousness. Another is physical unrest. You are showing signs of nervousness when you cannot keep from twitching your eyebrows, shrugging your shoulders, swinging one foot when your legs are crossed; or when you cannot sit at a desk or table without continually tapping with the fingers."

THE warning symptoms, as outlined above, are well worth careful study because with this knowledge you can detect the indications of failing nervous energy while yet there is time to prevent serious results.

Your digestive system has failed to supply proper nourishment to the nervous system.

Parliament Building, Ottawa, March 17 .- If Canadian shipping companies are willing to have ocean rates controlled by the government of Canada, instead of by an organization in New York, they can secure from the government terms similar to those allowed Sir William Petersen. The government is prepared to enter into an arrangement with any Cahadian it to regulate rates. It is, in effect, inviting these companies to come to terms with it instead of opposing its

effort to lower rates on Canadian goods going overseas. Washington, March 17.—John G.
Sargent of Vermont was nominated today by President Coolidge to be today by President Coolidge to be phatically substantiated the policy of the government in its attempt to gain control of ocean rates, and at the same time disposed of the criticisms

successive administrations in the matter of ocean rates, and thereby brought out the significant informa tion that leading Conservatives such as Sir Robert Borden, Sir George Perley, Sir Henry Drayton and Mr. Meighen himself had all agreed that something should be done to gain control for the government. It had remained for this government to take definite action to secure such control.

Doubts Sincerity. The opposition held that the matter was one for empire consideration. If they were sincere in this they fit they were sincere in this they would support the experiment the government was making, "which will very soon bring all parts of the empire together in a great effort to deal effectively with the situation."
