FORTNIGHTLY CLASS MEETINGS BEGIN

Freshmen

The first Freshman Class Meeting of the year was held on Friday, October 5. The acting-chairman, Otis Logue, addressed those present. As Freshman's Representative on the Students' Representative Committee he wanted to ascertain the opinions and wishes of the class, regarding the nomination and voting for the vice-president of the class.

The chairman pointed out that in the past, this post had always been held by a lady, who was nominated and elected by the lady-students. Since none of the men took a part in the election, a change was felt to be needed. A motion that, "both nomination and voting should be open to the class" was carried unanimously.

He further intimated that a calendar of social and athletic events was being prepared, to preclude too many activities following each other in quick succession, or any two being held on the same day.

Volunteers, to act as police at dances, were asked to submit their names to Rhea McDonald. On these occasions they would be in uniform and be distinguished by armbands. Their duties would include the directing of traffic and the maintenance of order.

PROF. STEWART

Head of the new chair of Philosophy and Politics Dr. Stewart comes to U. N. B. after serving with the Air Force 1941-1943 and with the Army 1943-1945 as Psychologist. He received his B.A. from Dalhousie in '32 and received an M.A. and Ph.D. from Toronto.

DRAMATIC SOC. PLANS "ARSENIC & OLD LACE"

Last Thursday at 7:30 with McFarlane in the chair, the U. N. B. Dramatic Society held its second meeting of the year. The minutes were read and then Kaplan's report of the Normal School was given. His report was normal, meaning that the society could have the auditorium for the production of their Fall play on November 29 and 30.

(Continued on page five)

SOPHOMORES

The Sophomore class reacted favourably to the new S. R. C. plan that the classes should meet to discuss the affairs of the campus and instruct their representatives in the matter of the S. R. C. voting. At a meeting in the Geology Lecture Room, Friday, October 5, the President, Bev. MacDougall explained this plan and stressed the necessity of regular attendance at the S. R. C. meetings in the Memorial Hall so that the members of the class could discuss the questions brought up at the class meetings with some understanding of them.

Entrusting itself to the tender mercies of the Social Committee, the Sophomore class is going to hold a dance this term.

It was decided, after some debate, that the class would go on record as favouring the election by the entire class of the lady representative on the S. R. C.

No decision was reached on the matter of Honorary President for the S. R. C. Among the questions raised were:

- (1) Is the Honorary President to be a graduate of U. N. B.?
- (2) Is he to be connected with the Provincial Government?
- (3) Is any man outside the campus eligible for this position?

If a decision on the matter of Honorary President must be made before the next meeting, the class will hold a special meeting as soon as the information sought after is obtained.

Frosh Reception Brings Crowd

This year's special edition of the Freshman Reception, held in the Beaverbrook Gym last Friday evening was a huge success with a large number of Freshman and Upperclassmen turning out for the year's first social event "UP the Hill."

A ten piece Depot Orchestra was in attendance and really excelled itself, to make this year's Freshman Reception a bang up beginning for the year's social activities.

Keeping with this year's plan of having dances begin and end earlier, the orchestra began giving out at 8:30 p. m. and wound up the enjoyable evening close to 12:30 a. m. During the evening, Miss Edith

(Continued on page five)

Pep Rally ----- Oct. 19

A Sports Time Table was drawn up at an informal meeting of the A. A. A. held in the Forestry building on Thursday night.

Howie Ryan, Professor of Physical Education, presented the timetable and led a long discussion on it. He suggested having noon hour practices for varsity or for beginner's classes provided that free dinners be allowed by the University authorities.

The budgets were presented by the president, Neil Elgee, and many

(Continued on page five)

Veterans Have Big Turn-Out

Upwards of 140 Veterans of World War II turned out for this year's first meeting of the University of New Brunswick's Veterans' Club, held in Memorial Hall, Thursday evening, October 4.

The club, newly formed last year with 30 charter members, now promises to become one of the foremost and most influential societies on the campus.

With more Vets arriving back every day and with the special course beginning in January, the membership will probably reach the 300 mark before the end of the college year.

Dr. M. F. Gregg, V. C. M. C. and B. A., M. A., D. C. L., L. L. D. was unanimously voted the Club's Honorary President for the year 1945-46.

Business, discussions, nominations and appointing of committees occupied most of the meeting which lasted for almost two hours. All the Vets present showed a keen interest to produce a worthwhile club and set an example for other Veterans' societies throughout Canada.

The first business on the program was for all those present to sign their name in the secretary's book, which automatically enrolls them as members for the year 1945-46.

Any Vets who not present at the meeting may become members by registering with the secretary, Carlisle Hanson between the hours of 9 a. m. and 12 noon on Wednesday Oct. 10.

(Continued on page five)

DR. PACEY REPORTS ON M. I. A. U. CONFERENCE

The social and athletic destinies of the University for the fall term were mapped out in broad outline by the heads of all student organizations and committees, together with Dr. Pacey, Dr. MacKenzie, and Prof. Ryan, who represented the Faculty, at a special meeting held Wednesday evening, October 3, in the Geology Lecture Room, with Ted Owens in the chair.

Dr. Graham MacKenzie explained, first of all that the Faculty would prefer to see the management of student affairs in the hands of the students, but that there must be a central authority (the Social Committee) to co-ordinate all the activities of the various groups on the campus. He next mentioned that owing to night laboratory work and the use of the Memorial Hall for certain lectures, it would not be possible to hold dances in it during the week although arrangements could probably be made for Friday or Saturday nights. He suggested the Gymnasium as a better place because the larger student body would probably crowd Memorial Hall to more

SUBSCRIBERS Read Inside Notice

JUNIORS

A Junior Class meeting was held last Friday at twelve o'clock in the Chemistry lecture room in the Memorial Hall with the president, John Baxter, in the chair. The members did not constitute a quorum and thus were unable to vote on any questions. But rather than disband the meeting, the members were asked to give their opinions concerning certain matters of interest to the Junior Class.

The members heartily approved of continuing the work of the War Effort Committee under a new name.

John Baxter then explained the advantage of setting up a Permanent Applications Committee. He pointed out that this Committee would call for applications for the positions of manager of the various athletics groups on the campus as soon as each particular group or team had completed its season. He stated that interest in the position would be higher at that time and the newly appointed manager would be able to learn his duties from the manager in charge of said position.

An election was called for to elect the Junior Class secretary-treasurer and an S. R. C. representative. The election is to take place on Thursday, October 11, between the hours of 9 and 12.45.

The president then called for nominations for the position of Honorary President of the S. R. C.

(Continued on page five)

Debaters Hold First Session

The first meeting of the Men's Debating Society was held on Wednesday, October 3, in the Arts Building, with Eric Teed presiding. After a general discussion, it was decided to conduct the activities of the Society in the same manner as of former years; with inter-collegiate and possibly inter-faculty and inter-class debates. Suggestions were also made in regard to debating with the Normal School.

The Society plans to meet on alternate Wednesday evenings. During these meetings, impromptu debates will be held. The date for the next meeting was set for Wednesday, October 10, and the subjects for debates are, "S. R. C." (Continued on page five)

History by Artsmen

With all the campus societies getting under way after the summer vacation, the Arts Society had its first meeting for this year in the French lecture room last Wednesday at 2 o'clock. The new president, George Boyd, was in the chair.

The meeting opened with the reading of the minutes by the secretary, Bob Rogers.

The president then welcomed all new members to the society, and explained to them the various functions of this society.

(Continued on page five)

Seniors

The Senior Class met on Friday, October 5 in E4 where "Professor" Al Cameron delivered the chief lecture. This year's officers of the Senior Class are — Cameron, president, Marye Forbes, vice-president; and Robert Lawrence, secretary-treasurer. In the absence of the last minutes we immediately plunged splash into business. The president explained that class meetings would be held every other week, if possible, in order that the opinion of the whole class might be obtained concerning policy and opinions of the class re items of student interest to be brought before the S. R. C. by the class representatives the following week.

The Senior Class unanimously supported the proposal that all social activities should come under the jurisdiction of the Social Committee, and approved of the jurisdiction of the A. A. A. over the purchase of all athletic equipment and supplies.

Previously the Vice-President of all classes, a lady was nominated and voted for by the ladies only, the Senior Class approved the

PROF. KENNEDY

Newly appointed Assistant Professor of Physics, Professor Kennedy comes to U. N. B. from the National Research Council of Canada. Graduating from Queens with a B. A. in '37 he received his M.Sc. from McGill in '42. He was a demonstrator in Physics at both Queen's and McGill.

OUTLINE OF ARTS SOCIETY

The Arts Society is an organization whose purpose is to bring the Arts students together. The chief aim has been to have activities through the year which will be of interest and value to the members.

Although the society is the oldest on the campus, it just existed for a number of years and it is only within the last two years that it really began to live! Last year for example, we had a dance, a banquet and evening lunches when speakers

(Continued on page five)

SPORTS

COLLEGE TAKES SEASON'S FIRST GAME 7-0

MacDiarmid, Markey, Dohaney, Vey Star

Displaying plenty of fight and showing all promises of rounding out into a crack football team U. N. B.'s '45 edition blanketed a strong City team 7-0 before a small crowd in a holiday exhibition game at College field last Monday afternoon.

The play throughout most of the game was fairly even with both teams displaying plenty of weight and power in the drives, though the college seven showed their ability to heel the ball out more often than the city and held this advantage throughout the game.

Both back-fields did not at any time display any fancy ball handling partly owing to the clever tackling of both teams.

U. N. B.'s scoring came in the second half when Dohaney who played a rugged steady game took advantage of a penalty kick to score his team's first three points. Shortly after this Captain Ced MacDiarmid who had been showing plenty of smooth field running dropped a beautiful field goal between the posts to make the score 7-0. Though there was no other scoring in the game there were close calls for both teams. The U. N. B. team argued a try during the first half but a five yard scrum resulted.

Johnny Vey playing for the City exhibited some of the beautiful ball handling and kicking that made him a star of former years with the New Caladonia Championship team. Markey likewise with his smooth running and tackling was also an outstanding player for the losing team. The game was clean throughout and no serious injuries were reported by either team.

For Coach Ryan this was an important game as it gave him the chance to try out his players and put them in the positions they are most suited for.

Next week U. N. B. journeys to Sackville to meet its old rival, Mount Allison and a hard week of practice is planned to get the boys in the best possible shape, and from the showing of this week's game they are not far from that now. The second game will be played back here at College field and U. N. B. fifteen will be out to win both games.

They that govern the most make the least noise.

MT. A. DEFEATS ST. DUNSTANS 7-3 IN INITIAL GAME

While U. N. B.'s rugby fifteen were blanking the City 7-0, their rival team Mount Allison defeated St. Dunstans from Charlottetown 7-3. Coach MacCormick who is well known to most of our students, is putting his team through some stiff training and all the promises of one of the best meetings in years is expected when these teams come together at Sackville next Saturday. Up to the present time quite a large number of students have planned to go up to see the game and it is hoped that many will be there to encourage the home team on.

For the
Pep Rally

A teacher sent word to the home of a boy's parents that he should study grammar more. She got this reply: "Missus Teacher—I do not desire that Willy shall engage in more useful studies, and I can learn him to speak grammar myself, I want through two grammars, and I can't say they done me no good, anyhow."

At last he wrote to the Ministry of Agriculture. He gave a list of all the remedies he had tried, and ended his epistle with: "What shall I do now?" In due course came a reply: in Malaysia, fish are found which can climb trees. They do this by means of two strong, leg-like fins.

JAKE and ART

After the season-opener on Thanksgiving, (it was also an eye-opener), and a week's polish on the rough edges, U. N. B. tackles Mt. A. at Sackville. Last year's games were close and from reports heard along the grape-vine it's going to be a hum-dinger of a series.

The meetings between the heads of our Maritime colleges produced results of great importance to every student in this University. We're in for a year of intercollegiate sports. This means more competition, more away-games, and, if you are interested, bigger budgets.

From sources, believed by us to be fairly credible, we got this ear-opener: Mt. A. is going to take our measure in basketball this season. It seems to this corner that they are hitching their dreams to the wrong post—Junior Varsity is still undefeated.

Bob Lebel, Junior Science student, and incidentally a Beaverbrook Scholar, is New Brunswick Chess Champ. At the recent Maritime Chess Championship matches held at Moncton this brilliant young player met with men of greater experience for Maritime Chess laurels. When the tallies were added up he was in second place—runner-up to the new Maritime Chess Champ. For one so young this is no mean feat. He has brought honour to himself and to U. N. B.

It's good to have one of our star athletics back with us this year. It is Frank Dohaney who was awarded the Sir Frederic Williams-Taylor medal for the best all round athlete for the year '43-'44. Frank is an outstanding athlete and participates in boxing, track, swimming, hockey and football. We wish him the best of success for the coming year.

We would like to predict the outcome of the U. N. B.—Mt. A. football game this coming week. From all rumors Coach "Waldo" seems to be building up quite a football team this year, but we think it is safe to lay money on U. N. B. for a 9-3 win.

SOFT BALL TEAM

LOSES EXHIBITION

GAME TO ARMY

SUPPORT

UNB Team

at Mt. A

Game

The Sporting Spotlight seems to be focusing quite a bit of attention on Softball during the last few weeks and apparently the plan to organize a league is working out better than expected. Last Saturday U. N. B. lost an exhibition game to a Fredericton Army team by a 15-3 score. Cormier was the winning pitcher for the army and Keith Sidwell the loser for the college nine.

Dr. Pacey

This week on our Sport Page we would like to introduce to you a figure who has quickly taken an interest in all our activities around the campus and who this year is Faculty Adviser to the A. A. A. and a more suitable person for this position cannot be found.

Dr. Pacey took part in Sports at Trinity College, Cambridge and Victoria College, Toronto, and since coming to us as professor of English has helped to Coach the U. N. B. Varsity football team.

FROM THE COACHES CORNER

With HOWIE RYAN

With the first intercollegiate game at Sackville only a few days away, the football squad is practicing twice daily for the most important game of the season, Monday's Exhibition tilt with the City Club, an experienced aggregation, was an important test for U. N. B. It is regrettable that another game couldn't be arranged before the Mt. A. game. It is going to be a tough job to select this year's team.

Heard from Tony Tamaro, he is still in the army and is stationed in Alabama. He sure has an interest in U. N. B. and wishes to be remembered to all his friends.

The degree of B. A. I. (Baccalaureus Arte Ingenaria) was first granted in 1899 to those graduating in Civil Engineering. This was changed to B.Sc. in C. E. in 1907.

In October, 1907, Prof. John Stephens was appointed Assistant in Civil Engineering, the following year being made Professor of Mechanical Engineering and Drawing; thus opening a new department in Mechanical Engineering.

For Your Information

For your information here is how some of our Co-Eds spent the summer, or at least by whom they were employed for the greater part of their vacation. They were engaged in a wide variety of jobs pertaining in most cases to the particular interests of each. These jobs will prove of definite value to them later. Freshettes, if you are job-hunting next summer I am sure your predecessors from U. N. B. have paved a good road for you.

READING RUMORS

by "Mardie" Long

I'll bet there's been many a wish-bone dried and broken over the week-end and I'll even bet I can guess some of the wishes made. Let's see.....

Alic probably wished she'd get that lovely new sweater she's been dreaming about.

Marie no doubt wished to meet another guy with the looks and build of a certain veteran—and may this one be unattached.

Gladys hoped she'd still be able to get away with that new Science I course she's been trying to sell to the office.

"Zeek" surely wished that the Mt. A. football team would bring lots of supporters—especially a tall one with dark hair.

Betty P. wished — Lowie! With Don right here in college what is left for us?

Blanche probably wished she had from Friday till Wednesday off too. And of course everybody wished that the holiday might have been just a little longer.

I say there Pat Ritchie, you certainly wield a mean knitting needle. When are we going to have the honor of seeing the finished product in action?

October the 3rd saw the first meeting of the Ladies' Basketball Team held in the Reading Room with Manager Mary Lawson and Captain Blanche Law both in attendance. The members of last year's team were all present and the ranks were swelled with many new recruits who, we hope, will maintain their initial interest in the basketball doin's. With Coach "Howie" still en route from Truro, no definite business could be carried on, but tentative practice dates were established and other business pertaining to uniforms were discussed. It is hoped that the initial practice can be held on or about the eighteenth of this month so the team can get off to a good start before Xmas.

You know I'd hate to be called to account for slander but I do believe that Audrey G. has been practicing the "light-fingered" trade — and of all things, lifting the trade-mark names off automobiles. At least she has something in her purse which would lead one to draw such a conclusion.

(NOTE: All those possessing a certain type of automobile, namely B - - - K, had better keep their cars under lock and key.

EGO

by "SATYR"

I was rich in flowers,
And trees;
And could not understand,
The mortal moon, hath her eclipse
Endured;

Not of itself, but
Thee.
Petal by petal fall
Yet She
Lives a woman fair
And true;

Like to the lark at break of day
Arising
Pure,
As the naked heavens,
Majestic,
Free,
To perish never
The latest
Dream,
I ever
Dreamed;

Pillowed upon my fair
Love's ripening
Breast
From vain temptations doth set
Free;

And banished, the thoughts
Of day,
Closed are her doors.
On me
Was the worst pang that sorrow
Ever

Bore.
I cannot see what flowers are at
My feet,
A spring shut up—a fountain
Sealed,
Doom!

Takes us apart, and leaves thy
Heart; in
Mine
Even now,
The devastation is
Began;

And tonight I long for
Rest.

CAMPUS PERSONALITIES

BLANCHE LAW

This week may we introduce to you the Co-Ed Chief, Blanche Law. Blanche came to U. N. B. via Fredericton High with the class of '46. She started as a Science student, but after one year changed to Arts. Her executive ability was soon recognized and put to work for in her Sophomore year she was elected Secretary-Treasurer of the Delta Rho, and in her Junior year she was Vice-President of the Co-Ed Debators.

For the past three years Blanche has been on the Executive of the Ladies' Society. In her sophomore year she kept their notes and balanced their budget. In her Junior year, as Vice-President, she was in charge of the Co-ed Blood Bank work; and this year, as a stately Senior, she is President of the Ladies' Society. In Dramatics, too, Blanche has proved her worth both by serving on various committees and acting. Who will ever forget her "weaving" performance as the drunk Gay Wellington in "You Can't Take it With You" or her "screaming" performance as the frightened matron who brought the plant to "The Man Who Came to Dinner"?

For the last two years she has been a member of the Ladies' Basketball Team, and this year she is the Captain of the team. And last year, by much hard pulling and hauling, "Stewie" ably managed the famed Co-ed Hockey Team to victory. Blanche can also be seen at times "heaving a little hand" in the Reading Room!

The naked hills lie wanton to the breeze,
The fields are nude, the groves unfrosted,
Bare are the shivering limbs of shameless trees,
What wonder is it that the cow is shocked?

I hope I shall have leisure to make good.

CIRCULATION MANAGER	Ghernot Wheeler

VOL. 65 Fredericton, N. B., October 11, 1945. No. 2

Brunswickan Organization

Since there was no opportunity at this year's Freshman Reception to give the new students any idea as to how the "Brunswickan" staff functions, this will provide an opportunity to acquaint you with the "behind the scenes" aspect of the Brunswickan.

From the financial standpoint, it is the students themselves who pay for the paper thru' the channels of the S. R. C. Part of the student levy is apportioned to the Brunswickan, and the balance of the cost of printing the paper is covered by advertising, which appears each week in the paper.

The staff of the Brunswickan is comparatively large in size and runs the gamut from the editor-in-chief to the reporter. The editor-in-chief has the responsibility of publishing 23 issues of the Brunswickan during the year. He is responsible for all that appears in it and for general supervision of the various editorial staffs. The managing board of the Brunswickan, consisting of the editor, news editor, business manager, vice-president of the S. R. C., a representative from both the editorial and business staffs, and a faculty representative, who is a member in an "ex-officio" capacity. The editor-in-chief is directly responsible to this board, and thru' it to the S. R. C. It is the managing board that nominates the successor to the present year's editor-in-chief and presents their nomination to the S. R. C. for their approval.

The Business Manager is next in line on the masthead. It is his duty to finance and distribute the Brunswickan. To do this he has under him an Advertising and a Circulation manager with their respective staffs. The Business Manager is also directly responsible to the managing board and must keep the board acquainted with the financial condition of the paper.

Next in line to the editor-in-chief on the editorial staff is the news editor, whose job is undoubtedly the most important on that staff. His duty is to collect all news items via his staff of reporters and provide sufficient copy to fill the required space in the paper. He has an assistant to help him and should have a large number of reporters. It is here that the general student body can contribute to the Brunswickan by writing articles for the news editor.

Page two of the Brunswickan is edited by the Sports editor, who has his own staff of sports reporters and columnists to assist him in his job.

The page of the Brunswickan which probably suffers more criticism than any other is the feature page. The Feature editor is faced with a unique problem in that her page is to be filled with articles of interest from a field completely unrelated to current events. This is a difficult and often unappreciated task.

The C. U. P. (Canadian University Press) Editor forms the liaison between the Brunswickan and other Canadian University publications. His job is to find in the other college papers articles which will be of interest to the student body. He also sends and receives news of common interest on the C. U. P. wire.

Before the paper can go to press the linotype copy must be read over and corrected by the Proof Editor and her staff.

There is a chain of workers from the reporters thru' the editorial staffs to the Editor-in-Chief. Co-ordination in matters of deadlines and policy is vital to an efficient functioning of the group. Cooperation is the keynote, and a common interest is the basis.

DOIN'S

Sort of a swish dance last week, eh? Thanks for the Social Committee for making it such a success. The decorations sagged a bit, but then the gym IS a hard place to decorate. Several men (Mostly those in the dusky shadows fringing the dance floor) were seen to swoon when Social Committee Chairwoman Edith gave her speech in that sultry drawl of hers. Wow! She ought to go on the radio. She doesn't have to sing to make them swing. (Sheer poetry, tcha! tcha!). To those of you who haven't endured other Freshman Receptions you are fortunate this one was not of the usual type. After listening to three hours of speeches, a dance is not appreciated as much. (Yea, is not appreciated).

We guess we showed the city team a thing or two last Monday. Coach Howie's team seems to be shaping up extra nicely. Boys, if you can maintain scores like that throughout the season we will post your names high on our Honors Lists. However, the team can be improved if anyone who ever has held or who ever has wanted to hold a pigskin high will turn out to practices at 4:30 at the College Field.

Bye the bye, those games are going to be made more pleasant by the addition of a hot dog stand, we hear. The co-eds always stave off our hunger by apples, but hot-dogs.....ahhhhh!

Doings seem to have settled down some, but now since everyone has just returned from the holiday we suppose there will be much gnashing of hair and tearing of teeth heard from now until that fateful day in December. Who are we trying to kid? See you at the Rat Race!

We hope you all attended the class meetings last Friday. For no other reason than curiosity you should go, some time in the distant future. We hear that the Junior Class (about 90 students) had all of 50 at their meeting. Come on, gang, that's no way to act. In the words of Boog (a person who will be long remembered on the campus) "Come on fellas, smarten up a little." I you don't know or don't remember Boog, just think of a low, lazy drawl in a C. O. T. C. uniform and you will know what we mean. Enough of this rattling on. Desist! Prospects for the year: A dance every week..... A Junior Tea (maybe)..... Fall Formal..... Games & Hot Dogs..... Sadie Hawkins Day..... P-Day..... when do we study?..... What do you think we came to college for?

DID YOU KNOW

That your Engineering Department at the University was organized 1889 under the professorship of Allan Wilmot Strong, B. Sc., professor in Civil Engineering and surveying.

In 1892 M. Dixon was appointed to the chair of Civil Engineering and Surveying, and it was in that year that the first diploma in Civil Engineering was granted. Geoffrey Stead being the receiver on that occasion.

An addition was made to this department in 1892 by adding a chair of Physics and Electrical Engineering with G. M. Downing as professor.

The year 1898 had the first graduate in Electrical Engineering.

Napoleon — like Moses — once crossed the Red Sea on dry land.

U. N. B'ers
By PAT RITCHIE

Dallas Laskey, B. A. '42, Norman Smith, B. A. '39, R. W. Porter, E. A. '38, Kenneth Carroll, B. Sc. '42, A. R. MacCallum, B. Sc. '38 and Dave Whittingham, B. Sc. '44 are attending the university now, studying for their Masters Degree.

The following students have returned from the services this week to resume their studies: Dave Blair ex '42 is in his Senior year, Emerson Moffitt and Ab Price ex '46 are in the Junior class, Mac Perkins, Francis Anderson and Doug Tims, ex '46, Fred Collier, ex '45, Elmer Grimmer, ex '46 are in the Sophomore class.

Harry MacEachern, '45, recently discharged from the Army, is now on the Junior faculty of Toronto university. Harry is studying for his M. Sc.

Doc Fleming, '45, was here last week-end spending part of his leave in Fredericton. Stan Spicer, '45 was here also, visiting friends. After receiving his discharge, Doc is going to take commerce at Dal. and Stan is planning to take a post graduate course at Acadia University.

The wedding of Doris Pridham and John Peters both of Fredericton which took place Friday, October 5th, is of much interest to people "up the hill" because Doris is an ex-47er, and John, an ex-46er. John has recently been discharged from the army and is now a Sophomore at U. N. B. Congratulations kids, we hope you will be very happy.

"I was in the middle of the jungle," said the big game hunter, "when suddenly a whole tribe of savages came charging down upon me."

"What did you do?"

"I held my breath till I was black in the face and they took me for one of themselves."

"Do you know what good clean tuns is?"

"I'll bite! What good is it?"

SCOOP

by "Snoop"

Hallo there, chickens, what's diggin' around the campus this week? I was so late in getting around to giving you a few of the scrapings from last week's dirt, there is very little left to give out with this week. But don't worry, I can always find something to gloat over. For example:

From all outward appearances Eddie Graham has adopted (is that the word?) a harem. Strolled into the football game last Saturday afternoon surrounded by four females! Where does Marion come into that picture, Ed?

From the quantity of Sen-Sen fumes in the air, last week's Fresh reception was a rather wet affair. Tch! Tch! boys!

Next time Ann, listen more carefully when your partner is speaking sweet words in your ear. He might even propose, and then where would you be?

And did you see the Seniors' mad rush for the door when in walked the lonesome lovelies — Jackie, Marie and Alice. Didn't take them long, did it girls?

Al's campaign at the dance was a creditable affair. I think he even got the one from behind the door. How about it, Al?

That was luscious stuff Jug dragged to the affair. Why don't they make more dresses like that. R-r-ruff!!!

Congrats, Edith. That was a darn swell speech you made. If that didn't make them feel at home
