The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Bibliothèque
Agriculture Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WOMEN'S INSTITUTES

CIRCULAR NO. 17

List

OF

Meetings and Speakers

SUMMER SERIES

1919

TORONTO, ONTARIO, MAY, 1919

ONTARIO DEPARTMENT OF AGRICULTURE
WOMEN'S INSTITUTES

Summer Series of Meetings

ANNOUNCEMENT OF SUPERINTENDENT, 1919

This circular contains announcement of summer series of Women's Institute meetings, together with list of speakers and their subjects. A report of conventions, together with statistical statement for the year 1917-18, and some special articles, will be found in the annual report, a copy of which will be sent to each member of the Institute.

The summer series of meetings includes a larger number than usual of societies which have been organized for some years, and many places are to be visited with a view to organizing. Most of these latter are in sections where groups of girls and women have been drawn together for patriotic work.

The splendid programme presented at the Convention held in early February and of which summarized reports have appeared in the press, has, no doubt, been a factor in the general desire for organizing. Medical School Inspection, health problems in general, Demonstration-Lecture Courses in Home Nursing and First Aid, Sewing and Domestic Science, as well as many other features to which the Institutes are giving attention, are proving most attractive.

The delegates who are to attend the summer series of meetings had an opportunity in late April of hearing the following topics fully discussed by leaders on the lines indicated:—

- Provincial and National Federation.
- The Returned Soldier and Reconstruction.
- Rural Hygiene.
- Education of Girls.
- What to Teach About Parenthood and How to Teach it.
- Ideal Features of a Modern Rural School.
- Laws Relating to Women and Children.
- Community Halls.
- Travelling Libraries.
- Medical School Inspection and Follow-Up Work with Clinics.
- Agriculture as Education.
- Equipment for Playgrounds.
- Education for the New World After the War.
- Physical Development.
- The Consolidated School Problem as Related to Ontario.
- Home and School Club Work.
- Mothers' Pensions.
- The Housing Problem.
- Social Hygiene.
- The School as a Community Centre.

Each of the delegates will be prepared to take part in discussions upon the above subjects.

The Department of Education has secured an appropriation by which it will be possible to carry on Medical Inspection by qualified doctors, and furnish nurses for a limited amount of follow-up work in a great many rural districts. Full information will be furnished as to the final plan adopted. Already over 20,000 children have been inspected by doctors sent out by Institutes Branch, and over 900 children have been operated upon at the clinics held. This has meant a great deal to the rural communities. Not only is the health of these children improved, but there is a marked progress in their school work. It has meant also that an ever-increasing interest is being taken in the sanitary conditions of the schools. In one locality where inspection had been carried on in the spring, improvements were made in several of the schools during the summer vacation. It has meant that every man, woman and child in these districts is taking an interest in health problems, and it is only when such an interest is aroused and action taken throughout the whole of the Province and of the Dominion that we can hope to have men and women mentally and morally strong, because physically strong. Women's Institutes will still be expected to co-operate in carrying on the work and it will be necessary for them to assume considerable responsibility in connection therewith if the best results are to be obtained.

The Institute officers and members are urged to induce as many as possible to join the Institutes for the year 1919-20. We now have the co-operation of various branches of the Government and organizations quite independent of the Government in giving to the Institutes a service of real value both to the rural districts and to the towns and villages. No rural community can well afford to be without its Women's Institute, through which service and literature of real value can be secured. The woman of experience, the young wife unaccustomed to responsibility, and in many cases unfamiliar with local customs, the girl in her teens: all have an opportunity through the Institute of rendering service and deriving benefit. The girls can do their bit by helping with the entertainment and will derive much of permanent value through the special literature and lectures for them. They will get much of real and immediate worth in the Demonstration-Lecture Courses in "Home Nursing and First Aid," "Sewing," and "Domestic Science."

This year 75 Demonstration Lecture courses have been given to over 2,500 girls and women. This has been a record year in spite of the fact that the epidemic of influenza made it impossible to do continuous work. Many letters of appreciation are reaching the Department from Branches that have taken advantage of these courses. Doctors in many localities state that they have received wonderful assistance in their work from members who attended Home Nursing Lectures. Applications for

second courses in sewing are coming in from many branches where instruction has been given. The courses in Domestic Science have been so varied, and so interesting, that many are asking to have this course extended to cover a period of four weeks. As a result of this course, the girls are interested, not only in food values and balanced meals, but in the decorating and furnishing of the home, labour saving devices, and the general care of the house.

There is no doubt left in the mind of the mature woman as to the value of the Institute from the standpoint of getting knowledge, rendering service, and real worth-while social intercourse and lasting friendship, when the aims and objects are once fully understood.

The coming months promise to be the best in the history of what has been a succession of helpful, joyful activity.

ADVICE TO DISTRICT OFFICERS.

The district officers are held responsible for the following:—

(1) To arrange and pay for transportation of the delegate while attending meetings where branches are established. The Department will bear hotel expenses at points where branches do not exist, for dates on which no meetings are announced and for over Sunday, also transportation from points where there is no organization and when going from one riding to another. When two delegates are sent to a meeting the Department will bear all expenses for one of them. The district officers can no doubt reduce the transportation charge considerably by co-operating with the branch officers in making and carrying out arrangements.

Send copies of advertising material to the delegate and give her information as to how to reach the first place of meeting in the riding and outline the arrangements made for transportation between places in the riding.

Notify the delegate as to when and where she will be met by the district officer or officers and give other necessary particulars.

(2) Advertise all meetings. See pages 49 and 50 of Hand Book for directions.

Advertise for a definite hour, say 2.30 or 3 p.m.; and, if an evening instead of an afternoon session is desired, 8 p.m., and start the meeting at the time announced.

We strongly advocate an *afternoon meeting only*. Departmental delegates will not be available for Saturday evening meetings or more than one session at a place, except where special arrangements are made with the Department for the same.

Have a definite understanding with the officers at each point as to method and extent of advertising.

Utilize the local papers in advertising.

See that definite announcements are made in all advertisements as to hall or other place of meeting at each point.

Make your announcements for each session as full as possible, i.e., give the name of the speaker and the topic to be taken up.

Arrangements should be made with each branch secretary for each member to receive a notice of the meetings, and special invitations to non-members should be sent either direct to the individual or announced in the local press.

When meetings are announced for places at which there is no organization, pay special attention to the matter of advertising and see that definite arrangements are made for hall, entertainment, etc.

Arrange with the branch officers for a definite programme for each point. It would be well for one of the district officers to give a short address bearing upon the work of the district at each place of meeting, with possibly a brief paper or address by some local person.

ADVICE TO BRANCH OFFICERS.

Give your district secretary full particulars regarding arrangements for your local meeting, indicating the address, musical selections, or other assistance which will be given the delegate; also let the district secretary know what advertising you are prepared to do locally. See pages 49 and 50 of the Hand Book for advice regarding advertising. Urge your members to give invitations to other women in the district to attend the meeting.

The branches are responsible for the entertainment of the delegate, and it may be that they can render assistance in the transportation of delegate also. Notify the district secretary as to what you are prepared to do toward this.

See that the hall in which the meeting is to be held is properly cleaned, lighted and ventilated.

Write direct to delegate at least two weeks before your meeting is to be held, at her home address, or at some point in the series of meetings, notifying her of the topics chosen for your local meeting. *Notify the delegate* as to what provision has been made for her *entertainment*.

Announce only one session, preferably an afternoon meeting. The delegate will be available for two sessions only upon condition that considerable assistance is given at the evening meeting, and the consent of the Department has been secured.

Delegates are not prepared to attend Saturday evening meetings, except when special application is made to the Department for the same and permission given.

While lunches and picnics are an enjoyable feature of the summer meetings, the delegate should be given an opportunity for proper rest and regular meals.

GENERAL NOTES.

Ask questions at the meeting, not afterward, when all will get the benefit of the answers.

Bring notebook and pencil with you.

If the Institute has been a benefit to you, ask others to join.

Women and girls over fourteen will be made welcome at the afternoon meetings. Both men and women and the young people are invited to the evening sessions.

While the Departmental delegates have an important part to play in making the summer series a success, a great responsibility rests upon the local officers in thoroughly advertising the meetings and in urging the members and their friends to attend. Do not fail to notify the delegates as to the arrangements which have been made for the meeting at each place.

The delegates who will attend the summer series of meetings meet in conference at Toronto, with a view to receiving instructions and exchanging ideas regarding the work in hand. An exchange of views and experiences on the part of the workers and a general understanding as to the policy of the Department will tend to make the coming series of special interest and value to the members.

GEO. A. PUTNAM,

Superintendent.
