## TO THE PUBLIC.

---

The People's Almanac has in the past served, it is believed, its purpose. It gives in handy form much useful information to all who take an active interest in current political and historical events. The number of these is steadily increasing in Canada. Believing that they will gain both information and profit from its perusal, the publishers present the edition for 1893 with their best wishes that all who receive it, may have a happy and prosperous New Year.

HON. LOUIS OLIVIER TAILLON, premier of Quebec, was born at Terrebonne the 26th September, 1840. He was educated at Masson college, called to the Bar in 1865 and appointed a Q.C. in 1882. He was first returned to the Legislative Assembly for Montreal East in 1875, and held the seat till 1886, when he was defeated by Mr. L. O. David, who stood on the Riel and National platform. The same year he was elected for Montcalm and led the Opposition to the Mercier Government till the dissolution of the Legislature in 1890. He was Speaker of the Legislative Assembly from 1882 to 1883, and Attorney-General and a member of the Executive Council from January, 1884, till January, 1887, when, as Premier, he resigned to make way for the Mercier administration. After the exposures of corruption that made it impossible for Mr. Mercier longer to continue at the head of the Government, and the Lieutenant-Governor's dismissal of the Liberal Premier, Mr. Taillon was asked to accept a position in the DeBoucherville Cabinet, which he did, but declined to take a portfolio. He did a large share of the hard work of the campaign of 1891 that ended in the marked success of the DeBoucherville Government. When Mr. DeBoucherville resigned Mr. Taillon was regarded by all as his proper successor, and on the 16th December, 1892, he was sworn in as Premier and President of the Executive Council of Quebec.

THE FARMER AND PROTECTION.

A farmer named Peebles, living in the state of Iowa, some years since gave a definition of the revenue tariff system, as follows:

"A tariff for revenue only, if it means anything, implies the following effects:

"A general reduction of the existing duties on imports.

"To be followed by a large importation of foreign-made fabrics.

"To be followed by a falling off in the demand for those made at home.

"To be followed by the closing of American workshops.

"To be followed by the relatively greater number of men engaged in Agriculture.

"To be followed by an increase in the supply of farm products, with no corresponding increase in the demand.

"To be followed by a reduction of the farmer's profits.

"I, for one, do not like it."

*Mrs. Stings.*—Last night you came home with a story of sitting up with a sick friend. Now, what excuse have you this time?" *Mr. Stings.*—To-night, my love, we (hic) all gathered (hic) round his beer.

A well-known lawyer once gave a dinner party, after which the gentlemen retired to smoke and chat. All at once he got up, took down a sword which formed part of a trophy, and brandishing it in the air, exclaimed: "Ah, gentlemen, I shall never forget the day when I drew this sword for the first time." "Pray, where did you draw it?" said an inquiring guest. "At a raffle," was the lawyer's rejoinder.

Hon. EDWARD MURPHY, Senator, President.

HENRI BARBEAU, Manager.

SIR OLIVER MOWAT, the most noted of the provincial premiers of Canada, was born at Kingston, of Scottish parents, on the 22nd of July, 1820. After receiving his school education, he entered the law office of Sir John Macdonald, whom he later opposed with much vigor in the field of politics. In 1841 he was admitted to the Bar. He soon after removed to Toronto where in the course of time he established the largest equity practice in the province. In 1856, he was made a Q.C., and the same year was appointed a commissioner for the consolidation of the Statutes of Canada and Upper Canada. In 1857, he entered the Legislature as the representative of South Ontario, defeating Hon. Joseph Morrison by nearly 800 votes. Though originally inclined to the views then held by the Tory party, Mr. Mowat's ideas underwent a wide change, and in the Legislature he ranked among the advanced reformers. His first ministerial experience was in the short-lived Brown-Dorion government in which he held the post of provincial secretary for a period of four days. In 1857 and 1858, he was elected to the city council of Toronto. In 1861 he made an attempt to oust Sir John Macdonald from his seat in Kingston, but was glad to take refuge in his old Ontario constituency before the fight was through. In 1863 Mr. Mowat was made post-master-general in the Sandfield Macdonald-Dorion Ministry. He was one of the "Fathers of Confederation" and sat in the union conference at Quebec, which drafted the constitution of Canada. In 1864 he was named Vice-Chancellor of Canada West, a post he held till 1872, when on the resignation of Hon. Edward Blake he was called to the premiership of Ontario, which he still retains.

Free-trader—What is your business?  
 Worker—I am a shoemaker.  
 Free-trader—Well, we're going to give you free-trade shoes.  
 Worker—I don't want free-trade shoes. What good would free-trade shoes do me?  
 Free-trader—Why, they would be cheaper than the shoes you buy now from your own factory.  
 Worker—Well, suppose I did buy free-trade shoes, and other people bought them also, what would become of the shoe trade?  
 Free-trader—Why, it would go to Europe, of course, and that is where we want it to go.  
 Worker—And you expect me to cast my vote to bring that about?  
 Free-trader—Yes; that's what we call calm judgment of an intelligent people.  
 Worker—Well, if that's the case, I think it high time to get your calm judgment and intelligence half-sole'd and heel-tapped. While you are at it, don't forget that the buttons are off your policy and see, the toe is out also.

—“Why does a woman wear a tall silk hat when she rides on horseback?” asked Jones the other day. “So that the horse may believe she is a man and be frightened of her,” replied Brown, who has carefully studied the subject.

How those girls love one another.—Maud—Now: when I am asked to sing I never say, “Oh, I can't!” but I always sit right down at the piano. Mamie—And let the audience find it out for themselves? Yes?

THE PHILOSOPHER AND PROTECTION.

Every manufacturer encouraged in our country makes part of a market for provisions within our-elves, and saves so much money to the country as must otherwise be exported to pay for the manufactures he supplies.—BENJAMIN FRANKLIN.

Farmer—You had a fire at the Manse this morning. Any serious loss?

Minister—Yes, ten years' sermons were completely burned.

Farmer (with the memory of many a weary Sunday morning)—Mon, they had made a gran' blaze; they were so dry, ye ken.

—One day Johnny Jones was instructed by his teacher to write a nautical composition. This is what he wrote:

My life bark sails upon the sea,  
With no rough winds to yank'er;  
My father is the "mainstay," and  
My mother is the "spanker."

"You see how bald I am, and I don't wear a wig,"  
"True, Sir," replied the servant, "an empty barn requires no thatch."

Rich Patient—Doctor, what is this extra \$50 on my bill for?

Doctor—That is—let me see—oh, yes; that is for amputating a man's arm. You see, he was poor and wasn't able to pay for it.

HON. ANDREW GEORGE BLAIR, premier of New Brunswick, has won for himself the reputation of being one of the shrewdest of Canada's political managers. He is of Scottish descent, and was born in Fredericton, N.B., on the 7th of March, 1844. He was educated at the collegiate school, Fredericton, and called to the Bar in April, 1866. He was first elected to the Legislature in general election of 1878, by York county, which maintained its allegiance to its successful representative for fourteen years, only rejecting him in 1892 by a combination of religious and temperance elements. He was called on by the Lieutenant-Governor to form a Ministry on the 3rd March, 1883, as the head of which he has since retained power, though, in 1890, he had a very narrow escape from defeat, and only saved himself by an arrangement with the representatives of Northumberland county. One of his principal measures was an act to abolish the Legislative Council, which went into operation on the dissolution of the Legislature in 1892. Mr. Blair holds the portfolio of Attorney-General. He was married in 1866 to Annie, daughter of Mr. George Thompson, of Fredericton.

FARM VALUES AND PROTECTION.

Not only that but the price of land is greatly increased by their proximity to and diminished by their remoteness from manufacturing centres. You may find land selling at \$50 an acre within a few miles of a manufacturing town, and you may buy the same quality of land at \$5 an acre 50 or 100 miles from manufacturing centres. And why so? Because not only the good housewife has a market for her butter and chickens and eggs and cheese, and everything of that character that is produced upon the farm, but the farmer himself has a market for every bushel of corn, wheat, rye, etc., and for every apple, peach, pear, melon, and everything of that character that he makes upon the farm when located near a manufacturing centre; and he gets the best price for his corn, flour, meat, and other necessary articles produced upon the farm. So, in every view of it no class of people in this country are more benefited by the increase of manufacturers and the diversity of labor, thus putting down the price of manufactured articles and putting up the price of labor and the price of farm products, than the farmers themselves.—*Senator Brown of Georgia.*

Professor (who has sent the servant girl after a light, and who was slow in bringing it)—Katie, light travels at the rate of 100,000 miles a second. Where did you go to get that light?

—“Yes,” said the physician, “I will not only save you, but I will also put your portrait in the papers.” “Then let me die!” exclaimed the unhappy man in a voice of anguish.

HON. WM. STEVENS FIELDING, premier of Nova Scotia, was born at Halifax, on the 24th of November, 1848. He early entered the field of journalism, and won some reputation as a writer in the *Halifax Chronicle*. His public life has been comparatively short, his first appearance in the Legislature having been in 1882. In December of that year he accepted a portfolio in the administration of Mr. W. T. Pipes, which he resigned in May, 1884. In July, 1884, Mr. Pipes resigned, and Mr. Fielding was called on to form an administration, of which he became premier and provincial secretary. As the head of the Ministry, he has carried the province by very large majorities in two general elections, 1884 and 1890. Mr. Fielding married, in 1876, Hesther, daughter of Mr. Thomas Rankine, of St. John, N.B.

Careful and Prompt Attention to Letter Orders.

BISMARCK ON PROTECTION.

The success of the United States in material development is the most illustrious of modern times. The American nation has not only successfully borne and suppressed the most gigantic and expensive war of all history, but immediately afterwards disbanded the army, found employment for all its soldiers and marines, paid off most of its debts, given labor and homes to all the unemployed of Europe as fast as they could arrive within its territory, and still by a system of taxation so indirect as not to be perceived, much less felt. Because it is my deliberate judgment that the prosperity of America is mainly due to its protective laws, I urge that Germany has now reached that point when it is necessary to imitate the tariff system of the United States.

Husband—My dear, we'll have to economize.  
Wife—Well, let's smoke less.

"They tell me you have learned to count, Robbie," said a pious old lady to her little grandson, who was paying her a visit out to the country.  
"Course I can," answered Robbie; "listen—One, two, three, four, five, six"—  
"That's right," said the old lady, encouragingly; go on."  
"Seven, eight, nine, ten, jack, queen, king!"

Watts—This has been a great year for record breaking.  
Potts—Hasn't it though! Mudge paid me \$2 he borrowed, for instance.

GEO. CARSLAKE,

HON. THOMAS GREENWAY, premier of Manitoba, was born in Cornwall, England, in 1838, and came to Canada in 1844. His first entry into public life was in the council of Stephen, Huron county, Ont., of which township he was reeve for ten years. He sought parliamentary honors in the South riding of Huron in 1872 and 1874, but unsuccessfully. In 1875, however, on the unseating of his former opponent, he carried the constituency and held his seat till the dissolution of 1878. Removing to Manitoba, he was returned for the district of Mountain in 1880 by acclamation, retaining the confidence of the electors up to the present time. In January, 1888, he was called on to form an administration, taking the office of president of the council and commissioner of agriculture and immigration. He has carried his government successfully through two general elections, the last in 1892. His chief work, in which he was greatly assisted by his colleague, Mr. Martin, of Portage La Prairie, has been the abolition of the use of the French language in the Legislature and public documents in the province, and the passage of an act abolishing separate schools. He also gained a good deal of notice by his opposition to the so-called monopoly clauses of the agreement under which the Canadian Pacific Railway was constructed. Mr. Greenway married Miss Emma Essery.

IRELAND AND PROTECTION.

I believe in the principal of protection to American industries wherever and whenever that principle can be applied to stimulate the development of new industries or to prevent ruinous competition in the industrial realm between America and any or all of her foreign competitors. It is best for the farmer, for it gives him a home market, which is more remunerative than any foreign markets; it is best for the mechanic and the laboring man, because it protects him against the wage system of Europe, where families have meat but once a week, and where able-bodied men work for less than 40 cents a day from sunrise to sunset, and where the whole family must go into the factory to make a bare subsistence. It is best for the whole country, because protection encourages the development of our own resources, our own mines, our own sheephusbandry, our own coal, and gives employment to our own railways, our own craft on our own rivers and lakes transporting these products from the place of production to the consumer. In a word protection brings producer and consumer together, and at the same time makes people independent and self-sustaining. The prices of woolen goods, cotton goods, nails, and a thousand other things demonstrate the wisdom of the system of protection, and conspicuously the wages of American workmen everywhere demonstrate it. There is no such thing as free trade except between England and Ireland, and Ireland illustrates how that system affects her.—*Col. C. W. Johnson.*

Spoonson—When I go back to the city will you think of me?  
Farmer's Daughter—Yes; every time I feed the calves.—*'udge.*

HON. THEODORE DAVIE, premier of British Columbia, is the youngest of the provincial government chiefs, having been born in 1852, at Brixton, Surrey, England. He was called to the Bar of British Columbia in 1877, and appointed a Q.C. in 1888. He was first elected to the Legislature of Victoria City in 1882, holding the seat till 1890, when he was elected for Cowichan. In August, 1889, he was offered and accepted the portfolio of Attorney-General in succession to his brother, Hon. A. B. Davie. On the death, in 1892, of Hon. John Robson, he was called to the premiership. Mr. Davie married in 1884, Alice Mary, daughter of Mr. Gregory Yorke, shipbuilder, of Galway, Ireland.

PRICES UNDER PROTECTION.

It is a theory of Free Traders that protection makes a country a dear one to live in and that a tariff cannot be framed to give encouragement to home industries without raising prices all round to the consumer. Canada had a free trade tariff under the Mackenzie Liberal government that was defeated in 1878; it had a protective tariff under the Abbott Conservative government in 1892. Here are the wholesale prices in Montreal of leading staple articles of family consumption, taken from the Prices Current list, on the 1st of July in such year:—

	1878—FREE TRADE		1892—PROTECTION.	
Sugar:				
Granulated per lb.....	9½	@ 9½	4½	@ 4½
Yellow.....	7½	@ 7½	3½	@ 3½
Molasses per gal.....	39	@ 40	28	@ 29
Rice per cwt.....	\$4.50 @ 4.75		4.00 @ 4.10	
Tea:				
Japan.....	25	@ 50	11	@ 22
China.....	27	@ 65	20	@ 34
Coffee : Rio, per lb.....	19	@ 20	17½	@ 18

All these articles are affected by the National Policy—Sugar and rice by the duties which are intended to encourage their refining and milling in Canada—tea and coffee by customs regulations which promote direct trade with the places of production and so give employment to Canadian ships and seamen and bring commerce to Canadian ports.

MR. L. J. SEARGEANT, general manager of the Grand Trunk railway, and one of the best known railway men in America, is an Englishman by birth, and came to Canada, in 1874, upon the invitation of the G. T. R. Company as vice-president of its Canadian Executive Council. He was at that time general manager of a portion of the present system of the Great Western railway company of England. He became general manager of the Grand Trunk and president of the Chicago and Grand Trunk railway in January, 1891. The Grand Trunk system and its affiliations represent a total mileage of 4,500 miles. Mr. Seargeant has taken a prominent part in the organizations which have been established for the better regulating of railways, and is a member of the Trunk Line Board of Presidents and of the Central Traffic Association, and is a well-known authority on railway matters in Canada and the United States.

PROTECTION AND TAXATION.

It is a theory of Free Traders that protection increases the taxes of the people who adopt it as a National Policy. There are only two means by which the Canadian Government levies taxes—the customs and inland revenue tariffs. Other government receipts, such as those from the post office, the public railways and the canals, are payments for work done by the government for those who make use of these facilities. The customs and inland revenues of Canada in 1891 amounted to \$20,501,136 for customs and \$7,922,345 for inland revenue, a total of \$28,423,481, or \$5.87 per head of the population as shown by the last census. Compared with other countries Canada's contribution is among the lightest. Other countries show as follows:—

Great Britain \$ 9.70	Italy . . . . . 8.96	Belgium . . . . . 5.71
France . . . . . 13.20	Spain . . . . . 8.85	Australia . . . . . 15.00
Germany . . . . . 6.69	Portugal . . . . . 7.16	Argentina . . . . . 13.50
Russia . . . . . 3.38	Denmark . . . . . 6.26	United States . . . . . 5.87
Austria . . . . . 6.32	Holland . . . . . 9.08	

In the case of Canada, there is paid to the provinces as subsidy from the Dominion Government a sum of \$4,000,000 a year, or at the rate of 85 cents a head of the population. This is used in defraying the cost of the provincial administrations, a charge which in the United States has to be met out of the proceeds of direct taxation. In comparing Canada's customs taxation, therefore, with that of other countries, the amount of the subsidies paid by the federal to the provincial

# DOMINION OF CANADA.

## FREE FARMS FOR MILLIONS.

200,000,000 ACRES.

Wheat and Grazing Lands for settlement in Manitoba and the Canadian North-West, deep soil, well watered, wooded, and richest in the world. Easily reached by railways. Wheat average, 30 bushels to the acre, with fair farming.

### THE GREAT FERTILE BELT.

Red River Valley, Saskatchewan Valley, Prince Albert District, Peace River Valley, and the Great Fertile Plains. Vast areas, suitable for grains and the grasses. Largest (yet unoccupied) in the world. Vast mineral riches—Gold, silver, iron, copper, salt, petroleum, &c., &c. Immense coal fields. Illimitable supply of cheap fuel.

### RAILWAY FROM OCEAN TO OCEAN.

ROUTE—Including the Great Canadian Pacific Railway, the Grand Trunk Railway, and the Intercolonial Railway, making continual steel-rail connection from the Atlantic to the Pacific Ocean, through the Great Fertile Belt of North America and the magnificently beautiful scenery of the North of Lake Superior and the Rocky Mountains.

### NEW ROUTE FROM ENGLAND TO ASIA.

Wholly through British Territory, and the Shortest Line through America to China, Japan, Australia, and the East. Always sure and always open.

### CLIMATE THE HEALTHIEST IN THE WORLD.

The Canadian Government gives a Free Farm of 160 acres to every male adult of 18 years, and to every female, who is head of a family, on condition of living on it, and cultivating a portion, offering independence for life to every one with little means, but having sufficient energy to settle.

Further and full information, in pamphlets and maps, given free on application by letter, addressed to Department of the Interior, Ottawa, Canada; or, to High Commissioner for Canada, 17 Victoria Street, London, S.W., England, and all Emigration Agents.

MR. WM. C. VAN HORNE, president of the Canadian Pacific Railway, is a descendent of one of the old patroon families who, under the name of New Amsterdam, laid the foundation of the present city of New York. He was born in Will county, Illinois, in 1843. His first railroad experience was as a telegraph operator on the Illinois Central. He rose from one post to another till in 1882, when he was general superintendent of the Chicago, Milwaukee and St. Paul railway, he was asked to take the general managership of the Canadian Pacific. Since then he has filled a big place in Canada's commercial and incidentally her political life, the intimate connection of the Canadian Pacific and the Canadian Parliament through the debates arising out of the different views of the two parties as to the policy of the government towards the great highway being bitter and long continued. Under Mr. Van Horne's energetic supervision the construction of the road was carried through at an unparalleled rate. The last spike was driven at Craigellachie by Sir Donald Smith on the 7th of November, 1885, and in the summer of 1886 a regular transcontinental service was inaugurated, five years in advance of the time set in the government contract. Mr. Van Horne was later elected vice-president, and subsequently president of the road, whose development of traffic has been as remarkable almost as its rapidity of construction. The owned and leased lines of the Canadian Pacific cover 5536 miles.

governments should be deducted, because in other countries the sum so paid has to be made up by other imposts on the people. Canadians therefore pay (as compared with the people of the United States), 85 cents a head less to the federal government, and less than the people of any other European or American country. The figures show this.

"Why were you so cross to your husband at breakfast?"

"I just couldn't help it. I felt as if I must scold at somebody or burst. Just physical irritability, you know—and then everything went wrong. Breakfast was late, steak burnt, the coffee thin and cakes heavy."

"Then why didn't you scold the cook?"

"Oh, I couldn't, she'd leave."

Mother—Have you heard how Mr. Spanker is this morning?"

Small Son—Oh, he's all right. He's gettin' well fast."

"Who told you?"

"No one."

"Then how do you know?"

"His little boys has begun to hear w'en their mother calls."

A larger boy was thumping a smaller when a lady interposed.

"Aren't you ashamed of striking a boy smaller than yourself?"

"Naw. He's just as mean as if he was bigger."

1	FRI.	10, 1892. — Governor Flower, of New York, at Syracuse fair says of farming in New York: "In recent years the conditions of agricultural competition have radically changed, and this enormous body of citizens engaged in tilling the soil are suffering the evils of serious depression in markets and prices. Our farmers are poor and discontented. Their boys and girls are leaving the farms for the towns and cities. Distress is everywhere too prevalent. Even the lowest taxes of a generation, such as our state has enjoyed during the last two years, bear heavily on the farmer, and, with the interest charges on his mortgaged lands, eat up the small profit there may be in his crops."	5 21	6 37	8 54	5 21	6 35	9 00

LORD SALISBURY AND PROTECTION.

"We cannot look abroad into the territories occupied by the great industries of this country without a feeling of sorrow and misgiving. It is painful to think that the men who should be working with the capitalists—who should enable them to work in order not only to promote their own well-being and the industry of the class that depend upon them, but the prosperity of this mighty Empire—are so divided that industry is paralyzed and misery stalks abroad. Every nation is trying how it can get the greatest possible protection for its own industries, and, at the same time, the greatest possible access to the markets of its neighbors. I want to point out to you that what I observe is that while A is very anxious to get a favor of B, and B is anxious to get a favor of C, nobody cares two straws about getting the commercial favor of Great Britain. What is the reason of that? It is that in this great battle Great Britain has stripped herself of the weapons by which the battle has to be fought. The weapon with which they all fight is admission to their own markets,—that is to say, A says to B, 'If you will make your duties such that I can sell in your market, I will make my duties such that you can sell in my market.' But we begin by saying, 'We will levy no duties on anybody,' and we declare that it would be contrary and disloyal to the glorious and sacred doctrine of free trade to levy any duty on anybody for the sake of what we can get by it (cheers). It may be noble, but it is not business (loud cheers). If I may aspire to fill the office of a counsellor to the public mind, I should ask you to form your own opinions without reference to traditions or denunciations—not to care two straws whether you are orthodox or not—but to form your opinions according to the dictates of common sense. I would

impress upon you that if you intend, in this conflict of commercial treaties, to hold your own, you must be prepared, if need be, to inflict upon the nations which injure you the penalty which is in your hands, that of refusing them access to your markets (loud and prolonged cheers, and a voice, "Common sense at last.") There is a reproach in that interruption, but I have never said anything else (laughter). But there is a great difficulty. The power we have most reason to complain of is the United States, and what we want the United States to furnish us with mostly are articles of food essential to the feeding of the people; and raw materials necessary to our manufactures, and we cannot exclude one or the other without serious injury to ourselves. Now, I am not in the least prepared, for the sake of wounding other nations, to inflict any dangerous or serious wound upon ourselves. You cannot raise the price of food or of raw material, but there is an enormous mass of other articles of importation from other countries, besides the United States, which are mere matters of luxurious consumption (cheers); and if it is a question of wine, or silk, or spirits, or gloves, or lace, or anything of that kind, I should not in the least shrink from diminishing the consumption and interfering with the comfort of the excellent people who consume these articles of luxury, for the purpose of maintaining our rights in this commercial war, and of insisting on our rights of access to the markets of our neighbors (cheers). This is very heterodox doctrine, I know, and I should be excommunicated for maintaining it (laughter).—*Speech at Hastings, May 18, 1892.*

"I wonder why Brown always speaks of his wife as a dream."  
 "Because she always goes by contraries."

A colored servant went into a fish store in Richmond to buy a dinner for his master. He looked about the place until he came to a pile of shad, and being somewhat skeptical as to their freshness, he raised one of the fishes to his face. The dealer, seeing this little act, asked indignantly: "What do you mean by smelling of that fish?" "Didn't neber smell ob de fish nohow, massa. Only speakin' to him." "Ah, indeed, and what did he tell you?" "Massa, I jes' axes him fu' de news at the mouf ob de ribber, an, he says he done clean forget, fer he ain't seen no watah fer fo' weeks, massa. An' dats all he said, sah, 'dæd it is."

It is related that a chronic office seeker died a few years ago, and his friends asked a well-known journalist for an epitaph for his tombstone. The journalist suggested the following, which was not, however, adopted: "Here lies John Jones in the only place for which he never applied."

"Generally speaking—" began Hicks.  
 "Yes, you are," said Mawson.  
 "Are what?" queried Hicks.  
 "Generally speaking," retorted Mawson.

## A CHAPTER OF LIBERALISM.

On the 7th of May, 1886, the Liberal members of the Legislature of Quebec put themselves on record in favor of a resolution declaring that by the execution of Louis Riel the Northwest rebel and murderer, on the 6th of November, 1885, the government of Sir John Macdonald was guilty of an act of inhumanity and of cruelty unworthy of a civilized nation and deserving the condemnation of all friends of right and justice without distinction of race and creed.

The same members, on the 15th April, 1885, had put themselves on record in favor of a resolution regretting the failure of the then conservative government to submit practical and energetic measures calculated to put an end to deficits in the revenue which so seriously increased the embarrassments of the province's financial situation.

With these two resolutions as a platform, the one pledging the provincial Liberal party to condemn the execution of Louis Riel, and the other to a policy of honesty and economy in the public administration, Mr. Mercier as leader of the provincial Liberal opposition entered upon the campaign of 1886, and in the general elections was successful in obtaining a majority. The conservative government resigned and a Liberal administration under Mr. Mercier was formed to carry out the above programme.

It did nothing to avenge Louis Riel's execution.

It did nothing to reduce, but very much to increase the annual deficits.

So far as the official records of the Legislature show, the anger over Riel's death ceased the day the Liberal ministers seated themselves on the treasury benches.

There was between 1887 and 1892 a yearly record of deficits, till that of 1892 amounted to \$496,000.

There was an increase in the expenditure, till the Liberal government which had taken power on pledges to bring about an economical administration had in the five years of its existence to ask power from the Legislature to make fresh loans on the credit of the province of \$13,500,000.

The annual expenditure they incurred averaged two and three quarter millions of dollars more than their revenue.

This was after they had increased the taxation of the province by \$300,000 to \$450,000 annually, by means of the commercial corporations tax, the increase in the liquor license duties and additions to the dues paid by lumbermen.

That was one side of the record, and showed that Liberal pledges made in opposition have nothing to do with the case when Liberals are in power.

But there was a darker side to the Liberal administration of Quebec than that made by broken pledges and extravagances.

There was a corrupt side.

A number of investigations were held by committees of the Legislature and royal commissions, the result of which indicated that the following sums had been obtained, sometimes by ministers themselves, sometimes by friends and relatives of ministers, for services done by the government, or to get recognition of claims against the provincial treasury:

\$7,000 or thereabouts taken from Mr. Lockwood for services in getting the government to recognize his claim of \$10,000 in connection with mining properties he formerly controlled.

\$1,000 taken from Madame Polette, out of the \$3,000 paid by the province for her dead husband's library.

\$11,040, taken out of Legislature's vote to pay the poor laborers on the Baie des Chaleurs railway, and used in defraying personal and other expenses of Mr. Mercier.

\$3,000, paid by Leclerc and Lamoignon for the award of the Montreal Court House heating contract.

\$31,800, paid to Pacaud by the Temiscouata railroad proprietors, in order to get the government to pay the subsidies voted by the Legislature.

\$13,000, or thereabouts, paid to or for Ernest Pacaud out of the Drummond county railway subsidy, under like circumstances.

\$14,940 paid to Ernest Pacaud by the Montreal and Ottawa Railway Company, of which \$7,000 was transferred to Mr. Geoffrion, the treasurer of the Liberal election fund at Montreal.

\$1,500 paid to Mr. Geoffrion, treasurer of the Montreal Liberal Election Fund, by Mr. Breton, in consideration of the government buying from him a collection of coins for which the province paid \$5,000.

\$2,280 paid by Messrs. Carleux & Derome to Mr. George Daveluy for getting the government to purchase books from the firm. Mr. Daveluy testified that he paid \$900 of the sum thus received by him to Mr. Lomer Gouin, Mr. Mercier's son-in-law, who assisted in getting the government to purchase the books.

\$4,700 paid by Mr. Eusebe Senecal, to Mr. Lomer Gouin, son-in-law of Mr. Mercier, as commission on sales of the Municipal Code and other books purchased by the government.

\$90,000 or thereabouts, paid by Mr. J. P. Whelan, contractor for the Quebec Court House, to Messrs. Mercier, Pacaud, Beausoleil M. P., Carrier and Chas. Langelier, for the purpose, chiefly, as the deponent declared, of getting his claims recognized by the government.

\$100,000, shown before the first royal commission to have been paid to Ernest Pacaud by C. N. Armstrong for securing the transfer from the first to the second Baie des Chaleurs railway company of the provincial charter and subsidies voted in aid of the railway company by the Quebec Legislature. Of this \$100,000, \$22,000 was used, the evidence went to show, in paying notes made and endorsed by Ernest Pacaud, Mr. Mercier, Charles Langelier, and Senator Pelletier, much of the money obtained by discounting said notes having been devoted to election purposes in aid of the Dominion Liberal party.

\$50,000 raised by J. A. Langlais on letters of credit signed by Honore Mercier, all of which was paid by Mr. Langlais to Ernest Pacaud, and \$25,000 of which was transmitted through Mr. Mercier's bank account to Mr. C. A. Geoffrion, treasurer at Montreal of the Dominion Liberal election fund, and used to promote the election of parliamentary supporters of Mr. Laurier, the opposition leader.

\$15,000 paid to Ernest Pacaud by the Baie des Chaleurs promoters, for services in getting the government to pay the subsidies voted to the road by the Legislature.

\$20,000, paid to Pacaud by the Hereford railroad proprietors, to get the government to pay the subsidies voted to the enterprise by the Legislature.

In all it was shown by the various investigations that there had been taken from public claimants or the Quebec treasury, while it was under the care of the Mercier-Liberal government, a sum of \$340,000.

This immense amount, which there is undoubted reason for saying was only part of the associates' plunder, was used in various ways.

Some of it went to pay Mr. Mercier's private expenses.

Some of it went to pay for building a house for Mr. Charles Langelier, Mr. Mercier's colleague in the government.

Some of it went to purchase a house at Quebec for Pacaud.

Some, and a great deal, went into the Liberal election fund during the campaign of 1891, and was used to promote the election of Liberal supporters of Mr. Laurier to the House of Commons. This was the case with \$25,000 of the Langlais letter of credit money, which was sent through Mr. Mercier's brother to Mr. Geoffrion, the treasurer at Montreal of the Liberal election fund. Mr. Geoffrion also received a portion of the \$19,000 taken from the Montreal and Western railway, and portion of a sum of \$2,000 paid by Mr. Breton, of Montreal, out of the price of a coin collection purchased by the government.

\$20,000, also, of the \$100,000 obtained by Pacaud for the transfer of the Baie des

Chaleurs Railway charter and subsidy was used in paying notes made or endorsed by Pacaud, Mr. Mercier, Mr. Langelier and Senator Pelletier, all Liberals, for use in Dominion election contests.

Knowing all the facts here detailed, the Montreal *Herald*, the chief English newspaper of the Liberal party in Quebec, on March 8, the morning of the election, when the people were to judge between Mr. Mercier and his accusers, urged its readers to support the Mercier candidates in the following terms: "In spite of all that has been urged to the contrary, the fight is a straight one between Liberalism and Conservatism, and side issues are only raised to confuse the Liberal vote."

The side issues the *Herald* alluded to were the charges of corruption made against Mr. Mercier and his associates.

After Mr. Mercier's acquittal by the Quebec jury on the charge of conspiring with Pacaud to defraud in connection with the Langlais letter of credit job, the Montreal committee of arrangements appointed by the Club Nationale to receive him included such prominent Liberal representatives as Hon. Louis Tourville, M.L.C., Hon. Mr. Archambault, M.L.C., Hon. F. E. Gilman, M.L.C., Hon. J. K. Ward, M.L.C., Mr. C. Beausoleil, M.P., Mr. Prefontaine, M.P., Mr. Rainville, ex-M.L.A.

After he had been carried from the C. P. R. station to his house on the shoulders of his Liberal admirers, Mr. Mercier made a speech in which he detailed his alleged efforts on behalf of his Province, and announced his intention of taking his seat in the House of Assembly and fighting the usurpers who had driven him from power, face to face.

So that Mr. Mercier is back now to the position he was in when his party was in opposition in Quebec before the execution of Riel gave him a chance to gain power, and is working for a fresh chance to control the Treasury and the payment of those who have claims upon it.
