CONNECTICUT MUTUAL LIFE INSURANCE COMPANY, HARTFORD.

Incorporated by the Legislature of Connecticut in 1846.
Guaranty Fund and Accumulated Premiums \$400,000.

INSURANCE COMPANY is established upon the purely mutual system, with a Tariff of Premiums as low as is justifiable with the permanence and security of an Institution of this character. Every person taking out a Policy is a member, and entitled to vote at the Annual Moctings. The Dividends are declared annually on the Sist January. All persons insuring previous to that day, participate in the profits of that year, which are passed to his credit upon the books of the Company 1 to be paid during the life of the insured, in the order of votation, from the excess of a capital of profits of \$200,000. The stipulated capital of profits having been obtained, the Directors will be authorized to pay the first second of a capital of profits of \$200,000. The stipulated capital of profits having been obtained, the Directors will be authorised to pay the first year's Dividends at the close of the present facal year; afterwards, each year's Dividends, in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Fremiums before his Dividends will be redeemed. This testure in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redeemption of Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Fremiums, after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to fifty dollars, or more, on Policies running five years or longer, may be paid one half by Note; to remain a debt on the Policy, nutil encelled by Dividends yor the Folicy becomes a claim.

This Company was organised in December, 1846, and its prosperity has hitherto been unparaleted. It is now in the third facal year of its existence; and numbers (October, 1849) nearly a ren tousand members with a contantly increasing accusaion. Its losses have been small, compared with the numbers which might have wen expected, according to the Tables of Mortality upon which Life Insurance is predicated. By any other Company in the United States; averaging more than 50 per cent. annually.

CREDIT RATES OF PREMIUM.

THE grat and decide success which has attended this Institution has insuced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Raise. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Raise of Premium than these of any other Assurance Company transmitting luminess in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are an which have been so highly approved and are as generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise officed to 'he Assured an the limits to which they may proceed by est or land, to other parts of North America without affecting their Interest in their respective Policies.

where a Railway Bridge can be thrown across
those waters. The idea of bridging the Lake between Burlington and Plattaburgh, though practicable, presents such scrious obstacles, that it is
not sort a popular praject. Able Engineers, to
whom the duty has been assigned, have, after a
careful examination of Lake Champlain, expressed their conviction, that Rouse's Point is destined of their conviction, that Rouse's rount is declined to be thempot where the Caughin wags and American Railways will join. A line drawn across the mats from Caughinawaga to Rouse's Point, talls us that only thirty miles of Railroad need be constructed to emmeet the Lachine Railway with the ng up this route, remains to be see ne Railway Company have a dist prosecution. The Champlain Company, dreading competition might assume the work, throwing out branches which would touch the Atlantic & St. Lawrence Northern, Railroad, and the Caughnawaga Com-pany must admire the indiciousness of the selec-tion, for it Rouse's Point a Railway Eddge dan be thrown near faster Champiain, and up to Rouse's Point the navigation is uninterrupted by those morning fogs which so constantly but the fre-gress of the Lake Boats, and delay, the (rayoller, The deputation which recently visited Plats-burgh to confer with American capitalis's upon the best route to be adopted, have returned im-pressed with the opinion, that to Rouse's Points Railway must be directed, if it be intended to

detect by both Mr. Harris and Mr. Baldwin, that Mr. Draper, white in the Government and acowed that the Government was responsible for whitin appointments. A state sparing occupied between Means, Parinean and Lafontame, the former harring the latter with noring seased out of a meeting sot up to oppose the Union of the Frowners before that measure was committed, and Mr. Lafontame in turn, dairly felying the attachment and rebotting upon Mr. Papineau for the first pamples he tubinated in Paris, which he said was so bud that it was condemned by Mr. Papineau's friends, the Socialists. Mr. Papineau remarks that Mr. Lafontame in the first, and the lafet very emple tically cried out "never." An Cartier in myed fitto the witness box to prove that Mr. Edontame had been opposed to the Union, and not, as Mr. Papineau alleged, in favor of R. Mr. Tohnish eventually withdrew his motion, and for, as Mr. Papineau alleged, in favor of R. Mr. Tohnish eventually withdrew his motion, and for, as Mr. Papineau alleged, in favor of R. Mr. Cimeron of Contrastly moved for an Address to His Excellency to papers and correspondence relative to the dismissal of Thomas Dixon, Esd. From the Mugistracy. He contended that Mr. Dixon had been tyrumeally and origosity dealt with in being lenied the naries of his accusers thereby treating him worse than a criminal, and ma way for which no parallel could be found. Mr. Baldwin met the charge by denying the right of a servant of the Government, when accused of misconduct, to be furnished with the names of his accuser. This principle he hald down bonds, as applicable to all cases arguing, that, if the names of parties giving information were given up, all persons would shruk from the responsibility of denbuncing conspiraties to upset the layerment, until all kinds of exits would result. In reply to the objection, that, if Mr. Dixon had committed any crame, for which he much have been made.

denouncing comaginative so upset the topermient, and all kinds of evils would testit. In reply to the objection, that, if Mr. Dixon had committed any crime, for which he might have been indicted and tried in a Court of Justice, instead of being dismissed, he said, the Crown is bound to exercise a discretion, and to act at once without writing for the result of an ordinary, trial. He said the Government were willing to communicate all the correspondence, excepting the names of the parties who made the complaint. The whole point of the case was—did the Government act justly or unjusty in refuging Mr. Dixon the names of his accusers? And around, this point there was a good deal of skirmishing, which was kept up for three or four hours. There was one remarkable feature in the discussion, and that was, that Mr. Buldwin did not attempt to quote any precedent in which a similar course had been taken, though he was bound to have done so, if in his power, as Mr. Cameron had progounced the prodeur in which a similar course had been taken, though he was bound to have done so, if in his power, as Mr. Cameron, had pronounced the proceedings of the Government in the matter wholly unprecedented. Not did Mr. Baldwin appears to British practice at all in support of his case; he simply laid down an arbitrary proposition, and etempted to appear to the proceeding. Cdl. Prince contended that the statement of Mr. Dixon amounted to a complete denial of the charge, Mr. Hineks defended the withholding of the names, on the ground that Mr. Dixon was a member of the Orange Society, and to the expected the informers to the fury of its members would have been to render their liver insecure; and that in fact every man of them would have had reason to dread assassination. This uncharitable hypothesis is directly opposed to the facts as a target by Mr. Notman, that every one of Mr. Dixon's accusers had gone to him, and each for himself growed, "my name is to the Petition." Sir Alfan McNab pronounced Mr. Hineks' reason for withholding the names as the state of the same as a finite of the same as a finite

is to the Pettion." Sir Alfan McNab pronounced Mr. Hincks' reason for sethholding the names as a libel upon a large and respectable body of people. During the discussion, My. H. B. Boulton stated that, at a public dinner in this city, many years ag. M. Wincks had drunk the health of the Grand Master of the Grangemen! This the insteator-General denied, by saying he merely presented the health of Mr. Gowan without any reference whatever to he position as Grand Voster. The names of the parties were of see whatever to his position as Orand et. The names of the parties were of la leiused; Mr. Baldwin stating, from the f, that the diversment was willing to comcain all the correspondence; except the many course was also suggested by Mr. et. who had not heart the statement of the new General West. On the question being the new real parties of the motion. 23.1 against it. Attorney General West. On the 22, against it, put, these were - For the motion, 22, against it, 37, the largest sute, I believe that the opposition have mastered during the Ession. sommenged at the measure; seement causing all and M. Victor Horo have been the principal speakers against the Bill, whilst M. de Montalembert has made a spirited, but somewhat accimenious apcach in its favor. M. M. Lamartine, and Jules Sevre were to oppose the scheme yesterday, and shough their specifies used lobes for with interest—for they are hort-bile debaters, though in a different schools yet it was considered certain that the Government proposition would be carried by a mispring of 240 an lenst. Paris is apparently quiet, and the crusted against the Socialist breas is being prosecuted thore vigorously than over. Brudhou's paper, La Fots de Peuple, is suppressed, and in fact nearly all the ultra Republican popers are seized and stopped almost daily under some protence or other, and every endeavor is made to precipitate a struggle in the streether which may give Government the excusion for declaring active of siege. \$20,000 mtops are stationed in different parts of Paris, and the arrang elumin mide by General Churingamier to put down any giventy at insurrection, due on the most formidable scale. The news from Greeceius that Mr. Wyse had been received at Court, and his is tranquil. Bit W. Parker had desputched a wave steamers to Naplom to door after British interests in that quarter.

dicated by the letter of tieneral set, and as it was against all precedent that that letter should have been read to premainely in the French Chamber, he aubmitted that duty and prudence alike enjoined him not digite to the English Parliament a more serious picture of the occurrence than was probably at that very time, being rendered to the French Assembly. Proceeding with ed that the functions of the French Government, as mediators, were from the beginning intelligibly laid down. Einfand had preferred claims of compensation for damages and of avoidagy for insult. It was all along understood that in the principle of those claims there was no retreation possible; but that the mediating Power was to accord its good offices in determining their amount. He endeavored to show that the difference arising between Mr. Wise and Tario Gros involved the principle of one of the claims, and left, therefore, no discretion to the British Minister in Greece to refer the matter to England. His instructions enjoined the resumption of concive measures without refer the matter to England. His instructions cha-joined the resumption of coreive measures without delay; but he, nevertheless, transmitted, on the 24th of April, a new proposition to Parco Gros, and, although informed by that gentleman that his official functions had reased consented to wait the result of his non-official communication of this ultimatum to the Greek Government until the night of the 25th, and only ordered the resumption

this ultimatum to the Greek Government until the night of the 25th, and only ordered the resumption of rigorous proceedings when the time had claysed without bringing any utilings of its acceptance. After entering at length into details of the various stipulations made on either side, and arguing that the conduct of wit. Wyse had been perfectly justified, the Foreign Secretary pronounced the letter of General de Lahitte to have been written under an erroneous Impress.on. He added his regret Franky term was ope ed with the usual formablics—the most remarks la incident connect divided to the most remarks la incident connect divided to the most the degree of barrister has dwindled down to the unusually low number of the confidence of the contribution of the unusual remarks which is the degree of the contribution of indust y in 1851.

A magnificent entertainment was given to Lord Gough in the darge from of the Phil sophical Briblings, Limerick, which was fitted up and deconted in a serv tastein and a propriate maning. He added has regret that any misunderstanding had arisen between this country and France—his dental of any wish to slight the mediation of France—his hope that good feeling would speedily be restored—and his suggestion that, in the course of the following discussion, hom members would allow no words to full which could exacerbate the continuous words to full which could exacerbate the continuous of the laboration of perfect amity. Sir J. Watsh, allowing the statement of the Foreign Secretary to be in some degree antisfactory, went on to denounce the policy pursued by that stoble Lord as his ving embroided England with all her European allies, and risked the catamitous result of war. The Hon. G. Smythe made a vehement attack on the policy pursued by Lord Palmerston, with whose explanations Mr. Drummond was, on the whole, satisfied. Mr. Drummond was, on the been given in week since, proceeded to comment whose explanations are Printing on the whole, satisfied. Mr. D'Israeli having ox pressed his surprise that the statement just heard had not been given a week since; proceeded to comment on the opinision in the explanation of Lord Pilmieraton. PORT OF MONTREAL.

The news from Denmark, if it can be relied on, is once more unfavorable for peace. Mt Bulow has, it is said, left Copenha gor for Bettin, where he has gone for duther unstructions. If this should prove to be true, I fully expect that a Russian fleet will shortly appear in the Sound, and this time it will not confine its operations to mere deind a strain. It is understood that the Russian and Eritsh, Governments are perfectly in accord apon this subject, and it is to be hoped that Prussia will put an end to the continual evasions by which this mischievous quarrel is perpetuated, to the great detriment of the Buttle trade.

Unlike the tests of peruceous quackeries which boast of vagetable ingredients, the LIFE MEDI-CIMES are purely and solely registable; and contain neither Managery, for Antimony, for Arrenig, for any other universe, in any form whatever. They are entirely composed of extracts from sare and sowerful pithits, the virtues of which, though long known to several ladies types, and reconsty to some eminent phermacoutical chemists, are elizable miknown to the ignorant presenders to medical neisses; and were never before administered in so happily effections a combination.

The first operation is to become from the coates of the stomach and bowels the various impurities and studities constantly settling round them; and to remove the hardened factors which collects in the convolutions of the small intentions. Other medicines only pastially cleanes, these, and larve moch collected branches builted to produce habitual Continuous, with all its train of swin, or sudden Diarrhous with its imminent dangers. This fact is well known to all regular anatomists who mannings the truman howels after death; and so each effect of the VEGETABLE LIFE MEDICIMES is to cleanes the history and the bindier; and, by the mount, the liver and lungs, he healthful action of which satirely depends upon the requiantly of the urinary organs. The block, which takes its red close freely through the veins, renews every part of the system, and triumphantly mounts the banace of health in the blooming closes.

The fallowing are among the distressing variety of human diseases in which the VEGETABLE.

LIFE REDICIMES are well known to be infallable:

of human diseases in which the VEGETARLE LIFE MEDICINES are well known to be infallible:

DYSPEPSIA by thoroughly cleaning the first and second storhache, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heavthurn, Headsiche, Restlaumen, Ill-temper, Analety, Longuor, and Melanchely, which are the general symptoms of byspepsis, will vanish, as a natural consequence of its curs.

Outliveness, by cleaning the whole length of the intestince with a solvent process, and without violence; all violent purges leave the bowels continuity within two days.

Diarrhest and Cholers, by removing the sharp acrid fluids by which these complaints are secondened, and by promoting the lubricative secretion of the muçous membrane.

Revers of all kinds, by restoring the blood to a regular circulation, frough the process of paculication in cuch cases, and the thorough solution of all intestinal obstruction in others.

The Lore Memory have been known to cure RHEUMATINE permanently in shreeweeks, and GOUT in hift that time, by removing local inflammation from the mucoles and ligaments of the joints.

Dropales of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delignifully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worgens, by desiciting from the turnings of the howest the almy matter to which these

dreadful diseases.

Sourcy, Ulcara, and Invoterate Sores, by the perfect parity which these LIFE MEDI-CINES give to the blood, and all the humors.

Sorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which accessions all eruptive ofmplemes, sallow, cleady, and other disagreeable complexions.

The use of these Fills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement is the observate of the skin. COMMON COLDS and INFLUENZA will always be carred by one dose, or by two even in

INVALUABLE COMPOSITION FOR THE HAIR. Proin the "Olive Branch," of March 1, 1848.

Hy gancs Flain.—He, I. William Bogle, 238 Washington street, is the inventor of this valuable vegetable composition, which is pronounced by many who have usefull, one of the greatest cradicators of the diseases of the head ever made use of. We have been cognizent of its beneficial effects in some instances, and our over cranium is now submitted to its influence. In addition to its cleaning and curative proporties, it gives a polish and glossy appearance to the hair, and contributes an agreeable moisture, quife unlike that préduced by the oils in heneral ase, it being wholly free freit such properties. We can commend the article already, and shall say yet more after further trial.
