

The Acadian

DEVOTED TO THE INTERESTS OF WOLFVILLE AND EASTERN KINGS

Vol. XLI. No. 49.

WOLFVILLE, NOVA SCOTIA, FRIDAY, September 22, 1922

\$2.00, payable in advance

INSTRUCTIVE ADDRESS

Given By Fruit Trade Commissioner—
Advocated More Care in Growing,
Packing and Shipping Apples

The public meeting addressed by Fruit Trade Commissioner J. Forsyth Smith at the Parish Hall on Monday evening was not so largely attended as it should have been. A goodly number of representative fruit-growers were present, however, and found the address to be intensely interesting and instructive. Mr. H. A. Peck, secretary and manager of the Wolfville Fruit Co., was called to the chair and introduced the speaker of the evening.

Referring at some length to the Imperial Fruit Show held in London, England, last year, the speaker remarked that the success of Nova Scotia apples fell far short of what might reasonably have been expected from the excellence of the fruit produced in this province. Prize winning at an exhibition of course must be based upon fruit qualities, he said, but the keen competition of other Canadian fruit growing provinces could only be successfully met by the exercise of superlative skill and care in selection.

It was significant in this connection that last year the most outstanding degree of success in proportion to entries made was secured by New Brunswick which carried off six prizes with four entries of a total of twenty-four boxes.

Ontario, British Columbia and Quebec were all putting forth supreme efforts to make a record win in the show of 1922 and Nova Scotia could not afford to allow herself to be bested in the race for honors by her energetic trade rivals.

Apart from the fact that the Imperial Fruit Show, with the exclusive emphasis it places on apples as packed for commercial purposes, provides better advertising for our fruit than any previous exhibition ever held in the Old Country, there was the consideration of the great value to the province of the publicity that accompanied prize winning from the standpoint of encouraging immigration. This consideration said Mr. Smith, should appeal to the Boards of Trade and other public bodies and induce them to give the apple industry every support in this matter.

The advantages to be derived were out of all proportion to the slight expense involved, a matter of \$4.95 for every six box lot and of \$13.50 for every twenty boxes entered. Three hundred and fifty dollars would pay for sufficient entries to carry off Nova Scotia's fair share of honors, this sum including the expenses of the skilled selection necessary to secure this result.

The show will be held during the week beginning Oct. 27.

There are fourteen classes calling for six box lots of pacific varieties, such as Kings, Spies, Golden Russets, Stark's, etc., and two classes (the British Empire section open to English competition and in connection with which a win is especially desirable), calling for twenty box lots (one of any dessert variety and (two) of any cooking variety.

The prizes offered should prove attractive consisting of gold, silver and bronze medals for the six box lots, five pounds cash to accompany every gold medal and twenty pounds cash for the best lot from Nova Scotia, while, in the twenty box classes, gold, silver and bronze medals are accompanied by fifty pounds, twenty-five pounds and ten pounds respectively, with a special prize of twenty pounds for the best lot from Nova Scotia.

The special offers of twenty pounds exclusively for Nova Scotia exhibits, make it certain that the suggested expense of \$350 will be reduced by \$180 which, in any event, apart from other success, must return to this province.

Canadian interests will be safeguarded by the fact that P. J. Carey, expert box packer, will be sent over by the Dominion Fruit Branch, to act on the Board of Judges. A further satisfactory fact is that all exhibits will be judged just as received from the packers, the thirty points for packing being awarded before the papers are removed from the top layers.

Dealing with the position of Nova Scotia apples on the British market the commissioner stated that the best packed are held in high esteem by the trade, but that too many shippers fail to realize that British buyers are experts in judging fruit value in a commercial sense, that every pack is closely inspected before purchase, and that it is absolutely impossible to secure premium prices without delivering the goods.

Every year good packers were securing three to five shillings per barrel more than the general market price. This meant that every year thousands of dollars of possible value were being thrown away by less efficient packers as a result of a low standard of grade pack.

The Government inspection service was doing excellent work in maintaining the minimum of grade requirements, but a much higher standard must be voluntarily adopted if the full rewards of orchard-

MRS. HARDING CRITICALLY ILL

Mrs. Harding, wife of President Warren Harding of the United States is critically ill.

HYMENEAL

Brindley-Smith

The home of Mr. and Mrs. S. Reuben Smiley, Gaspereau avenue, was the scene of a quiet wedding on Tuesday morning at 8.15, when their daughter, Elma St. Clair, was united in marriage to Mr. Thomas L. Brindley, son of Rev. Isaac Brindley, of St. John, N. B., in the presence of the immediate relatives of the contracting parties. The rooms were prettily decorated with flowers and an arch of green. The ceremony was performed by Rev. J. H. MacDonald, D. D., assisted by Rev. Isaac Brindley. The bride looked lovely in a wedding gown of crepe de chine and satin, with the conventional veil and orange blossoms. She carried a bouquet of sweet peas, roses and fern, and was attended by her sister, Miss Elsie, who also played the wedding march. The groom was supported by Mr. Oliver Smiley, brother of the bride.

After the ceremony a wedding breakfast was served and the happy couple departed by the 10 o'clock train for Boston going from there to Newton, Mass., the groom being a second year student at Newton Theological Seminary. Many beautiful gifts of china, cut glass, silver, linen and checks were received by the bride, including a handsome electric lamp from the members of the Philathea Class and B. Y. P. U. The groom's gift to his bride was a necklace of pearls.

Henshaw-Russell

The marriage of Lillian, younger daughter of Mr. and Mrs. Arthur J. Russell, of Wolfville, to Mr. Elden Henshaw, elder son of Capt. H. A. Henshaw, of New York, took place on Friday, August 25th, at one o'clock, at the First Baptist Church, Montreal. The ceremony was performed by Rev. Miles McCutcheon, a graduate of Acadia. Mr. and Mrs. Henshaw will make their home in Montreal.

A Pennsylvania paper published in the anthracite fields says that the price of coal is \$4 at the mine's mouth, which leads to the natural enquiry why should it be selling in Wolfville for over four times that sum? The cost of hauling it to market has been decreased and the miners are back at the old wages, which causes The Chicago Daily News to declare that "the consuming public should insist upon having proof that higher coal prices are a necessity, and not a hold-up."

ing are to be secured. "After all," said Mr. Smith, "it is the top prices that represent clear profit, the lower values being largely expended in defraying costs of transportation and distribution."

"Nova Scotia ships a larger proportion of inferior grades than any other province, and although this policy is apparently justified by the returns made, it has a deleterious effect upon the reputation of Nova Scotia apples, and every effort should be made to increase the proportion of Number One and Number Two grades by better cultural methods, and to find another outlet than the export market for domestics and Number Three.

At the close of the address Prof. Blair, of the Experimental Fruit Station, made a few fitting remarks expressing his appreciation, and moved that the meeting request the local department of agriculture to provide a Nova Scotia exhibit for the Imperial Apple Show this year. This was seconded by Mr. J. Elliot Smith and passed unanimously.

A hearty vote of thanks was tendered Mr. Smith for the most informing and useful address, and the meeting was adjourned.

BAD ELECTRIC STORM

Did Severe Damage in Various Parts of County

This section was visited by a severe electric storm last Saturday afternoon and considerable damage was done in various parts of the county. Wolfville escaped any damage with the exception that all the telephones in the western part of the town were put out of commission.

The storm was heaviest over the section from Port Williams to Canning. At Starr's Point and Port Williams the transformers of the electric system were burned out. The residence of Capt. Eldridge, Port Williams, was struck but no one injured and the damage slight. Barns belonging to Levi Clark, Canard, and Rufus Eaton, Canning, were also struck, doing some damage. The wiring of the Canning electric station was put out of commission. The residence of James Spinney, Canning, was badly wrecked and the family had a miraculous escape, though severely shocked. One of the children was knocked unconscious but later revived with no serious injury. The ell of the house was almost altogether torn from the main portion, and the roof of the house badly wrecked.

Donald Fraser, who is employed at Chase's Garage, received a severe shock and was rendered unconscious for over twenty minutes, and it was some hours before he fully recovered.

A barn belonging to C. H. Rockwell, Brooklyn Street, was struck and totally consumed by fire. All the contents with the exception of a cow were also burned, and the loss was about \$4,000.

THE AWAKENING OF WOLFVILLE.

Who saw what the people of Wolfville did when they awoke for Thursday, Sept. 14th? Why is it they do not awaken more often? The I. O. O. E. fete was, as we all know, a complete success, and who could wish for a more artistically decorated place than that which the rink presented, or for more patronage than that which was received last Thursday? There was enjoyment for all, young and old, and all who attended were completely satisfied and enthused. Why is it that fetes of such description do not take place more frequently? For the simple reason that the people of Wolfville only come to the conclusion once in a long long while, that they are living human beings instead of ornaments, and that they were created to promote enjoyment for others instead of being so self-centred.

Now that they have awakened perhaps more things of interest will take place in the near future, let us hope so. Local talent is plentiful, why not make use of it? The young folks only await the asking. The townsmen are continually complaining about the amount of money that goes out of the town, unnecessarily, and yet they are not backward in rushing to give a performance given by outsiders. Why not give them a chance to rush to see a performance given by our local talent and then the money so much needed in the town, would stay here. No one minds a little extra expense, time and labour, if they are going to benefit from such, even if it is no more than to have a good time.

Now some of you blowers get a move on, get the young folks interested in their town and its affairs and help them make best use of their talents, no matter how small, and by thus doing assist the rising generation to keep AWAKE instead of being mere street walkers and talkers. You saw the result of an awakening, now find the results if the people keep awake. I Dare You Try.

OUR PRIZE CONTEST

The Acadian Will Give Prize for Best Biographical Sketch

The publishers of THE ACADIAN have decided to institute a literary contest among its readers during the month of October. For the best written biographical sketch of any resident of Kings county over fifty years of age a cash prize of two dollars will be given, with a second prize of one dollar. The papers must not contain more than three hundred words and it will be necessary for them to be handed in not later than Oct. 31st. Well qualified judges—the names of whom will be announced later—will decide on the merits of the papers which in every case will be the property of THE ACADIAN. Our object is to encourage a literary training and cause the people of the county to become acquainted with each other. The competition is open to young and old alike and it will not be necessary for the contestants to be subscribers to THE ACADIAN as it is our desire to make the range of writers as large as possible. Any further information will be gladly furnished on request.

WEEKLY PUBLISHERS FORM ORGANIZATION

Representatives from the various weekly newspapers in the Maritime Provinces met at Truro on Tuesday and organized the Maritime Weekly Press Association. The object of the Association is to keep the weekly publishers of the Maritime Provinces in touch with one another for their general benefit and advantage. The president is Don Fraser, of the Eastern Chronicle, New Glasgow; vice-presidents, C. C. Avar, Sackville, N. B.; Lewis Taylor, Summerside, P. E. I.; Mrs. E. M. Fielding, Windsor, H. B. Anslow, of Campbellton, N. B., was elected secretary-treasurer. The additional members of the executive are D. Lawson, Yarmouth; H. S. Anslow, Windsor; H. R. Arenburg, Lunenburg; G. F. McWilliams, Newcastle; S. L. Lynott, Woodstock.

Mr. F. W. Robertson and Mr. Hugh MacFarlane, representing the Canadian National railways, were present in connection with the prospective convention of the Canadian Weekly Newspaper Association at Halifax next year.

Mr. E. Roy Sayles, manager of the C. W. N. A., Toronto, who, with Mr. A. R. O'Connell, president of the C. W. N. A., of the Maritime Provinces, was present and gave valuable information concerning the organizations in other provinces and emphasized the benefit to be derived from a similar organization in the Maritimes. He also advised the Maritime publishers to organize into district associations for mutual benefit by closer co-operation in business methods. Mr. Sayles mentioned the possibility of the C. W. N. A. taking a trip to England, Paris and the battlefields of France and Flanders in 1924 sailing from Quebec at the close of the fifth annual convention to be held in that city at that date. A number of the members present signified their intention of taking the trip if they could arrange it.

AVONPORT NOTES

Miss Dolphina Holmes left on Saturday last for Oxford where she will spend a month with her friend, Mrs. Delbert Wood.

Dr. and Mrs. B. C. Borden and little grand-daughter Elaine Dickie, accompanied by Mr. and Mrs. Roy Smith, who have been spending the summer at "Crancroft", left on Monday by motor for Sackville, N. B.

Miss Esther Gould, of Wolfville, spent the week-end in Avonport guest of her uncle, Mr. Brenton Borden.

Dr. A. J. Fuller returned to his home in Yarmouth on Monday after spending a week with his son A. S. Fuller.

Miss Harwood, of Wolfville, was the guest of Mr. and Mrs. J. B. Barrett on Tuesday of this week.

Pay Your Subscription To-day.

FATHER VAUGHAN ILL

The famous Roman Catholic priest whose denunciations of certain social conditions in Britain have made him famous. He is seriously ill in London following a stroke of paralysis.

THE GRAND PRE-WOLFVILLE ROAD

The work on the road between Wolfville and Grand Pre has progressed sufficiently to show that when completed a great improvement will have been effected. While the cost has been undoubtedly altogether out of proportion to the life of the road it is certainly most gratifying to know that this particular section of highway which has been for years in a wretched condition is for a short time at least to become a really good one. A representative of this paper was over the road last week and was much pleased with the change that has been made. If provision is made for a careful patrol of this thoroughfare with continuous care as needed there is no doubt but that the limit of the premises good condition might be greatly extended. The proper laying out of a road and then allowing it to take care of itself has been provided very poor economy and such a policy should no longer be allowed to continue. That "a stitch in time saves nine" is unquestionably true in the matter of roads and any other method of handling the problem of good roads cannot fail to result in a very decided waste of public funds. This is particularly true regarding the present mode of road construction and the material used.

While referring to the subject of good roads we cannot refrain from again alluding to that particular piece of Wolfville street connecting the pavement with the government road. This is now in a frightful condition and requires immediate attention. Even if the street allowance for the present year has become exhausted we cannot afford to further neglect this important piece of highway. The immediate attention of the street authorities is directed to the need, which is a crying one.

PORT WILLIAMS

The annual exhibition of the public schools of Upper and Lower Church Street, Port Williams, Greenwich and White Rock, will be held at Citizens Hall on Friday afternoon and evening the 22nd. This Exhibition has been running for 5 years under the auspices of the Woman's Institute enlarging its work and interest every year. This one bids fair to be the most successful yet, and a large attendance is expected.

Decision and Promotion Day will be observed in the Baptist church, Oct. 15th. A program is being prepared of exercises and music to be given by the members of Sunday school. Supt. T. S. Lockwood with his staff of officers are to be congratulated on so progressive and enthusiastic school. The attendance averages over 100 with weekly offerings averaging \$9.00. Two of the organized classes raised \$175.00 toward the recent painting of the church building.

Mrs. Lila Chisolm, of Brockton, Mass., is the guest of her sister, Mrs. Bedford Chase.

Mrs. Runciman, of Annapolis Royal, is visiting her cousin, Mrs. Newton Newcombe.

Miss Josephine Regan has been confined to her bed with a severe attack of sciatica.

Mrs. Lewis and son, of Three Rivers, Que., were the guests of her sister, Mrs. Neil Coulstan, last week.

G. A. Chase our enterprising merchant left on Monday for Winchester, Mass., where he was married on Wednesday afternoon to Miss Almena Gilliat, one of the most popular young ladies of that city. After a two weeks wedding trip they will return and make their new home in the attractive bungalow recently completed for him.

ACCEPTS PRESIDENCY OF ACADIA

Dr. F. W. Patterson Will Take Over Duties in February

Dr. F. W. Patterson, General Secretary of the Baptist Union of Western Canada and Editor of the Baptist Outlook, with headquarters at Winnipeg, has accepted the presidency of Acadia University, made vacant by the removal of Dr. George B. Cullen to the presidency of Colgate University, Hamilton, N. Y. Dr. Patterson will not take over his duties until the opening of the second term, February 1st, 1923. In the meantime a committee made of the deans of the various faculties, headed by Professor F. E. Wheelock, will administer the affairs of the University.

Dr. Patterson was born in Woodstock, Carleton, County, N. B. about forty-six years ago and although most of his active ministry has been spent in the Canadian West, he has made frequent visits to the Maritime Provinces and has appeared at Association and Convention gatherings a number of times in advocacy of the claims of Western Missions and kindred objects. During these visits he has become a marked man and has come to be regarded on every hand as a man of broad vision and a keen student of public affairs. The addresses which he delivered on the occasion of his most recent visit made a profound impression for scholarship and clear thinking, and then when it was whispered throughout the Convention that his name was being considered in connection with the Presidency of Acadia, the general hope was expressed that the Governors would make him their choice and that he would see his way clear to accept.

As General Secretary of the Baptist Union of Western Canada for the last six or eight years, Dr. Patterson has demonstrated his ability as an able administrator and as a wise and judicious leader. He has kept closely in touch with College life and has been in constant demand as a special lecturer in College communities in the Western Provinces.

GREENWICH GLEANINGS

Work for the season in Mr. Dexter Forsythe's Apple Evaporator commenced on Monday morning. A good number of workers are employed among them being a few of the boys and girls of the place. Rev. Edwin Crowell, D.D. of Yarmouth, was a guest recently at the home of his son here, Mr. Seth Crowell.

Miss Isabelle Hawley, who has been making a visit of some weeks with friends in Waterville returned last Thursday to again visit her friend, Mrs. George Bishop, for a time.

Miss Mary Harvey, who spent last week in Windsor and Halifax, arrived home on Saturday evening. The electrical storm and rain was very heavy here on Saturday and while no damage was done here just across the river at Port Williams much damage was done and there were some narrow escapes from death.

Rev. Mr. Miller, of Wolfville, preached here on Sunday afternoon and was enjoyed. Rev. Mr. Hemmeon being on his vacation.

Mrs. G. T. Fraser and daughter Joyce returned home on Monday having enjoyed a visit of several days in Aylesford at the home of Mr. and Mrs. Bligh, cousins of Mrs. Fraser.

Messrs. Philip, Robert and Maurice Bishop, accompanied by Mr. Grant Murphy, of Port Williams, arrived home on Monday night from their automobile trip of a few days, having left here last Friday morning for Yarmouth.

Mr. Matheson, of Yarmouth, arrived on Monday to visit at the home of his friends, Mr. and Mrs. Burpee Bishop, for a few days. They motored through and will enjoy driving to places of interest in this vicinity.

Mr. David Cox, of Brockton, Mass., recently visited at the home of his brother, Mr. Byron Cox.

Mr. Pearson and family, with their guests, motored to "The Lookoff" and Pereaux on Sunday, enjoying the views of the country in that vicinity.

Conductor Maurice Williams, of Halifax, who is on his vacation, is a guest at the home of Mrs. Emma Harvey for a few days.

Mr. and Mrs. Byron Cox gave a reception at their home on Monday evening to a large number of invited guests, ladies and gentlemen young and old. The reception was given in honor of Miss Mary Harvey and Conductor Maurice Williams, whose marriage will take place on Wednesday. They were presented with a cut-glass water-set on a silver and glass tray. Mr. Enoch Bishop, a former resident of this place, made the presentation in his usual jolly manner. Dainty refreshments were served during the evening and a very enjoyable time was spent by all.

The business revival is coming right along but preachers are needed.

W. C. T. U. Notes

Women's Christian Temperance Union first organized in 1874.

AIM—The protection of the home, the abolition of the liquor traffic and the triumph of Christ's Golden Rule in custom and in law.

MOTTO—For God and Home and Native Land.

BADGE—A knot of White Ribbon.

WATCHWORD—Agitate, educate, organize.

Let us not judge one another any more, but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. RM. 14 : 81.

THE PALACE OF THE BIBLE

Entering the Portico, in Genesis, we pass through the Portrait Galleries of the historical books, extending to the end of the kingdom; find the Music Room in the Psalms, where the Spirit, sweeping the keyboard of human nature, touches every chord, from the low moan of the Fifty-first, all dripping with tears, "Have mercy upon me, O God", to the swelling note of the Twenty-fourth, "Lift up your heads, O ye gates"; pass through the Business Office, in Proverbs; the Chapel, in Ecclesiastes, echoing with the voice of the preacher; the Conservatory, in the Song of Solomon, fragrant with the rose of Sharon and the lily of the valley, with all trees of frankincense, with pleasant fruits and with all spices, smelling like Lebanon; then look into the Observatories of the Prophets, with telescopes of various sizes, pointing some toward near and some toward distant stars, but all brought to bear upon the bright and morning star about to arise. We enter the Audience Chambers of the King himself, in the Gospel, viewing the Lord from four standpoints; next witness the Holy Spirit performing his office work, in the Acts; inspect the Correspondence Rooms, in the Epistles—with Paul and Peter and James and John and Jude, each at his desk; and finally gaze upon the Throne Room, in the Revelation.—David McConaughy.

FAVORABLE OF TRADE TURNED FAVORABLE TO THE DOMINION

Ottawa, Sept. 15.—The outstanding feature of Canadian trade statistics for the fiscal year, 1922, according to the annual report of the Department of Trade and Commerce, was no doubt the conversion of an adverse trade balance in 1921 to a favorable balance.

During the year ending March 31, 1922, the trade balance was favorable to Canada, amounting to \$6,122,877, as compared with an unfavorable balance for the same period in 1921 of \$29,730,763, and for the pre-war year, 1914, of \$163,756,774.

From 1916 to 1920, Canada's exports exceeded her imports each year by a very

large amount, due principally to abnormal conditions which existed during the war period and the reconstruction period following the termination of hostilities. Prior to 1915 the trade balance was unfavorable to Canada for a number of years.

STORAGE OF VEGETABLES

Winter storage of vegetables is an old question often discussed, but apparently not yet well understood. To store the crop seems a comparatively easy task, but to guard against heavy loss while in storage is sometimes quite a problem even for the most experienced growers.

Some of the first and most important factors influencing the keeping of vegetables in storage are to see that the vegetables are free from disease, well grown, fully matured, free from injuries such as bruises caused by careless handling harvest time. If these important points are kept in mind and carefully attended to at the time of selecting the material for storage, much worry and subsequent loss in dollars and cents will be avoided by the grower later on.

For the storage of such crops as beets, carrots, potatoes, cabbage, celery, parsnips and turnips, a properly constructed, frost proof cellar should be available, with adequate ventilation to keep the temperature as constant as possible around 36 degrees F at all times during the storage period. By no means should a storage cellar become excessively damp, because excessive moisture favours the development of many of the common diseases attacking vegetables in storage. Moderate-sized, slatted bins or crates should be used for the storage of roots and potatoes, while cabbage can be stored on slatted shelves or in bins. Celery is usually stored in the root cellar. The plants are stripped of all rough leaves and placed in an upright position on moist sand, more sand being placed around the roots. However, where only small quantities of vegetables are to be stored for household use, and a basement is available, a compartment or room should be provided therein, of such construction as to exclude the heat from the furnace and with suitable vents in the wall to provide good ventilation. It is not advisable to store a great quantity of cabbage or turnips in the cellar of a dwelling house. A good earthen floor in the storage room is to be preferred to cement. Where an earthen floor can be had in a well constructed vegetable room, it is seldom necessary to store the carrots, beets, parsnips and potatoes in sand, because, as a rule, sufficient moisture will escape from the floor to keep the air moist enough to prevent the vegetables from withering up.

Onions require quite different conditions, while in storage, to other varieties of vegetables. A dry, cool dark room is best suited for this crop, where the temperature can be kept around 34 degrees F. By no means should onions be stored in a cellar, except where it is possible to maintain a dry cool atmosphere.

Squash and pumpkins should be stored in a dry, moderately warm room, where a temperature of 50 degrees F can be maintained. Particularly careful handling is necessary at harvest time if this crop is to be kept for any length of time. Place the squash or pumpkins on shelves or on a table, in a single layer.

GIRDLES

Girdles this season are most interesting. Some are scarcely an inch wide, and others develop until they become the most noticeable thing on the whole flock. The metal ribbons are much liked for this purpose.

"THE BREAKING POINT"

By Mary Roberts Rinehart

A Review

"The Breaking Point", by Mary Roberts Rinehart, has been so extensively reviewed in the United States that no words are necessary to introduce it to Canadian readers. It is a book one likes to write about, nevertheless, and it may be well to remind people that McClelland and Stewart, Toronto, are its agents in this country. It is a compelling story. The hero, a most wholesome and human character, is the victim of a circumstance that had so disintegrated his psychic self as to sever him, in his experience at least, from the average human being. Mrs. Rinehart doubtless caught the idea for her theme from the general interest in psycho-analysis. Under the stress of great fear a man's past drops from his memory, even the name he bore, and yet we find him ten years later with another name, a kindly, yet most modern and progressive physician, in love with an unusually charming girl. But that forgotten past held tragedy, tragedy that began stalking the young doctor when his life's happiness was almost grasped. A chain of iron circumstance closes about him; one shock after another results in the awakening of memory and, finally, the unifying of the two personalities in the man's consciousness. The good folk whom the doctor had loved and helped, but who forgot their obligation to him as soon as public opinion set against him, are doubtless like the average people in American and Canadian small towns. Mrs. Rinehart understands crowd psychology, and she has no cloak for their ingratitude and weakness. "The Breaking Point" is a book that should appeal to many classes of readers. There is thrilling story interest and there is also a searching look into the problem of personality. Perhaps the novelists will succeed finally in making a better world, for they bring to all people a thought, at least, of the strange forces, personal and social, that so profoundly affect human life.

Mary Kinley Ingraham

"DONT'S FOR MOTHERS"

Don't permit the child to remain up after his regular bedtime hour.
 Don't keep your child in a stuffy room.
 Don't tell a child a falsehood.
 Don't give the baby a pacifier or mother's comfort to keep him quiet.
 Don't let the baby suck his thumb.
 Don't let any person with a cold or cough hold the baby.
 Don't let the baby lie in a wet napkin.
 Don't give the baby tastes of things prepared for other members of the family.
 Don't wean the baby without consulting a doctor.
 Don't neglect to properly cleanse the bottle and nipple.
 Don't fail to protect the baby from flies or mosquitoes.
 Don't allow the baby to go a whole day without a bowel movement.
 Don't forget to weigh the baby regularly.
 Don't neglect to keep the flies away from the baby's food at all times.
 Don't excite the baby during or immediately after feeding.
 Don't lift the baby without supporting his back.
 Don't feed the baby at irregular intervals.
 Don't pick up the baby each time he cries.
 Don't kiss the baby on the mouth.
 Don't use soap on the baby's face.
 Don't handle your baby too much.
 Don't feed the baby solid food until he has some of his teeth.

Transacted Thousands of Dollars Worth of Business While Sitting in His Office ---By Telephone, of Course

Mr. S. George Davis, sales manager of the Inverness Railway & Collieries Limited, Port Hastings, voices appreciation of our Telephone service in the following very gratifying way in a letter addressed to our exchange manager at Port Hawkesbury.

"I have used the telephone for 90% of our business in the past three years and while I have had occasion to telephone from almost every important town in the Maritime Provinces and have had no occasion to complain of service, I would not be doing justice to your office if I did not state that the service there was absolutely the best, in my opinion, to be obtained anywhere.

"I had occasion, twice recently to talk to New York and successfully transacted some thousands of dollars worth of business while sitting here in my own office."

Mr. Davis' experience is just another illustration of the fact that in almost every instance it is as easy to do business by the Long Distance Telephone as in a face-to-face interview.

JUGOSLAVIA'S RULER IN DANGER

King Alexander of Yugoslavia and his wife, (formerly Princess Marie of Roumania). Plots against the King by a "Black Hand" society which demands certain political concessions, are causing anxiety.

TWENTY USES FOR LEMONS

Few people realize the value of lemons, which cannot be over-estimated. Two or three slices of lemon in a cup of hot, strong tea will cure a nervous headache. A teaspoon of lemon juice in a cup of black coffee will relieve a bilious headache. The juice of half a lemon in a cup of hot water on awakening in the morning is an excellent corrective. A dash of lemon juice in plain water makes a cleansing tooth wash. A lotion of lemon juice and rose water will remove tan and whiten the skin. Lemon juice with olive oil is considered by many as far superior to vinegar for salad dressing. Lemon juice and loaf sugar are good for hoarseness. Outward application of the juice allays irritation caused by insect bites. A refreshing drink is made by adding a freshly beaten egg to lemonade, and the same mixture when frozen makes a delicious ice. If when boiling sago or rice a teaspoon of lemon juice is added the kernels will be whiter and a delicate flavor is added. An old fashioned remedy for croup is lemon juice, honey and alum. We all know the value of lemon juice and salt for removing rust stains from white goods. After the juice is extracted the rind dipped in salt cleanses brass beautifully and conveniently. It also removes unsightly stains from the hands. For flavoring cookery lemon juice is unexcelled. After the pulp is removed the skins make dainty receptacles for serving salads, ices, etc. Tough meat may be made tender by adding a teaspoonful of lemon juice to the water in which it is boiled. Slices of lemon garnish fish of all descriptions. Tea is greatly improved by the addition of a slice of lemon, either iced for summer's use or as Russian tea on a winter's day.

MEASLES AND MOSQUITOES

Dr. Royal S. Copeland, Commissioner of Health for the City of New York, makes the flat assertion that measles can be completely wiped out in forty-eight hours. In the same breath we are authoritatively advised that the pestilent mosquito cannot fly more than one thousand feet and live. What a reflection on our governments if these assertions be correct, and there is no reason to doubt them. The one great necessary step; namely, passing this information under government authority directly to the people, is ignored. Consequently, measles still carry death and suffering to the young, and mosquitoes spread their poison over almost every inch of the continent. It may be possible for the press, unaided by the government, to bring some relief, though lack of unified action undoubtedly must end in failure. If a mosquito cannot fly more than one thousand feet, then every householder has it within his power to establish for himself at least a mosquito zone. Clean up for one thousand feet. See that old bottles and tin cans are destroyed or emptied, that cesspools are kept closely sealed, that house gutters are kept clear. Sprinkle suspected spots with kerosene. For measles Dr. Campbell's recipe is even more simple. Keep the patient absolutely isolated for forty-eight hours. How easy it would be for the government to lay down practical rules to destroy these evils and to enlist the people in a united campaign to that end, asking in plain signed advertising, the co-operation every citizen. If the gentlemen, now so busy flirting for the vote, would press through legislation of his character, perhaps they might stand a better chance than they will by rolling the pork barrel. The bee that gets the honey doesn't hang around the hive. Minard's Liniment Lumberman's Friend.

FIVE MILLION DOLLARS DECREASE

In Canada's Net Debt During the Month of August

Ottawa, September 11.— A further decrease in the net debt of Canada amounting to almost five million dollars is shown in the statement for August issued today by the Finance Department. The net debt on August 31st was \$2,387,676,265, as compared with \$2,392,542,628, at the end of July, a decrease of \$4,866,362 during the month. The debt on August 31st, this year, was approximately forty-three millions greater than on the same date a year ago, when it amounted to \$2,944,949,085. Revenues of the Dominion show a satisfactory increase, not only during the month of August, but during the whole five months of the fiscal year which has elapsed. On the other hand expenditures were on the decline. Total revenues for the five months which closed with August 31st are shown in the statement as \$171,276,472, which is \$3,136,614 greater than for the same period a year ago. Expenditures stand at \$115,340,551, a decrease of \$7,739,080 from last year, when expenditures were \$123,079,631. Revenue for the month of August alone was \$29,776,818, as against \$26,831,337 last year, while expenditures totalled \$19,517,858, as compared with \$24,634,093 in August 1921. Total revenues from stamps for the five month period which has just closed amounted to \$48,890,878, an increase of \$5,057,265 over last year, when they amounted to \$43,833,613. Excise yielded \$14,959,775, or \$1,435,028 less than in 1921-22. Inland revenue was more than six million dollars greater than during the five month period last year, the total being \$36,244,925, as compared with \$29,844,656. Income tax collections are shown to be approximately eight and a half million dollars less than last year and now total \$45,984,492. The customs collections for August alone totalled \$9,751,348, and excise \$3,291,694. For last year customs collections in August totalled \$8,495,722, and excise \$3,359,811. Income collections for August, 1922, were \$1,226,290, and for August last year \$2,354,239.

HAIR DRESSING

Hair continues to be worn close to the head, but hairdressers are showing some interesting adaptations of the French twist, which allow greater individuality. Use of high combs and fancy hairpins continues.

So live that when you come to die, your death notice will not be printed in the list of town improvements.

Keep Minard's Liniment in the house.

Rural Route No. 1, Mascouche, Quebec. The Minard's Liniment People.

Sirs—I feel that I should be doing a wrong if I neglected to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago but they grew again till about three months ago I had one as large and shaped like a lady's thimble, on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw on the label good for tumors. Well I tried it and kept it for exactly two months and with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit. (Signed) FRED D. ROBINSON, P. S.—I am a farmer and intend using Minard's Liniment on a mare for a strained tendon, and am hoping for some results. FRED C. R.

The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

EDITORIAL NOTES

Now when the dark nights of early winter are drawing near, our town authorities ought to be getting busy with plans for improving the street lighting service. Main street which is Wolfville's most important thoroughfare certainly demands immediate attention. At present it is very inadequately lighted and has been for a long time. While the need has long existed until recently conditions have been such as to make any great improvement practically out of the question. Now that we have at last become coupled up with an abundant supply of current and our system has been put in a state of efficiency there ought to be no further reason for delay. There is no way in which a reasonable amount of public money could be more profitably spent. We want more lights and better lights. The whole matter of street lighting is now under consideration by the Council and it is hoped this long deferred proposition to make our chief business district lighted as it should be will receive the attention which it so richly deserves.

THE ACADIAN is very glad to publish the letter from "Observer" which appears elsewhere in its columns this week. It is refreshing to know that our young people are awake to the need of some more aggressive action concerning public affairs in Wolfville than is now apparent. One thing is very evident from the successful outcome of the fete given by the ladies last week that is that when Wolfville citizens undertake any project in real earnest its success is assured. There have been other evidences in by-gone days of a similar nature. Let us take to heart the moral and be willing to undertake great things for the community good.

Now that the work of dredging out harbor has actually begun, some action should be taken to have the material removed used for filling the creek inside the railway bridge. We must not lose sight of the importance of this work or miss any opportunity to further its progress. If it is at all possible to have this important public undertaking set in operation under favorable conditions this season the matter of expense should not be allowed to interfere. The area that is possible to be reclaimed will make a valuable asset for the town later on.

PRIZE WINNERS AT THE FETE

The full returns for the receipts from the I. O. D. E. fete indicated that the total amount received from all sources was something over \$850, with expenses including band somewhere about \$150. Those in charge are amply entitled to the congratulations showered upon them from

SHE HATES KNICKERBOCKERS

Miss Cecil Leitch, the best known of British women golfers, in Canada to watch the women's championship matches at Montreal last week. An injury to her arm has kept her out of all the big events of late except as a spectator. Illustration shows her in characteristic golf dress. She says she hates the knickerbocker suit for women and considers it absolutely unnecessary for golf.

every side on the success of their undertaking. The winners of the prizes in the various contests were as follows: The lucky number on the entrance ticket was 288, the holder being Gordon Wheelock who received the five pound box of chocolates donated by R. E. Harris & Sons. The correct guesser of the weight of the cake contributed by the Crown Bakery, 4 lbs. 9 1/2 oz., was Mrs. Schurman. Miss Gertrude Phinney made the nearest guess in the bean-jar and won the prize. The total number of beans was 2450 and Miss Phinney's guess was just a hundred over the mark. The lucky number for the umbrella stand presented by L. E. Shaw Ltd., was 199 and the holder has not yet been located.

NEW RUGBY LEAGUE MAY BE ORGANIZED IN NOVA SCOTIA

Suggestions Made That Wanderers Dalhousie, Acadia and King's Enter League.

(From the Halifax Herald) Suggestions have been made that Acadia and King's Universities co-operate with Dalhousie and Wanderers and form a new football league to be known as the "Eastern Nova Scotia Football League".

This suggestion, made by a former prominent college star, would provide the rugby enthusiasts of Halifax, Windsor and Wolfville with big attractions during the short season football has. Many Halifaxians claim that such teams would be able to give the spectators here more for their money than would the three local clubs.

The new league would be affiliated with the Maritime Rugby Union, the new body which controls rugby in the Maritime Provinces.

As far as can be learned, the local teams are in favor of the suggestion to form the new league, but it is understood that they also favor the reorganization of the City League.

GASPEREAU NOTES

Mr. and Mrs. Renford Martin, of Halifax, are spending a few days with relatives here.

Miss Emma Veinotte, of Mahone Bay, spent Sunday with her friend, Mrs. Watson Miner.

Rev. Mr. Robinson, of Parrsboro, occupied the pulpit here on Sunday evening last.

The farmers are very busy picking their early apples.

Mr. and Mrs. A. St. Clair Bain and Miss Hazel Dodge, of Kentville, spent Sunday at the home of their friend, Miss Estella Miner.

Dr. R. W. Bennett and family, Mr. and Mrs. Otis Coldwell, Mr. and Mrs. Edwin Davison, and Mr. and Mrs. Glenn Gertridge motored to Chester on Thursday of last week.

Mr. and Mrs. G. J. VanBuskirk, of Bedford, and Mr. and Mrs. Pierce Van Buskirk, of Hortonville, spent Sunday with Mrs. P. J. Gertridge.

Items Of Local Interest

Mrs. J. W. Vaughn has purchased the property at the corner of Summer street and Linden avenue formerly owned by the late Mrs. Offen.

Just arrived at "THE PALMS", a fine assortment of Weston's English Biscuits, including "Melt in Your Mouth". Just give them a try. Phone 238.

Last week was the anniversary of the big fire at Annapolis Royal. Already twenty-two new buildings have been completed and others are under construction.

The 1922 world series baseball championship series will open October 4th at New York city. It is expected the series will be between the two New York teams.

Notwithstanding the keen competition in the tea trade at the present time importations prove the fact that "MORSE'S" have the largest sales of any teas in Nova Scotia.

YOU ARE INVITED TO ATTEND THE MILLINERY OPENING AT MISS SAXTON'S ON THURSDAY, SEPTEMBER TWENTY-FIRST, AND FOL OWING DAYS.

The original key to Fort Anne, which has been in possession of the Massachusetts Historical Society for a great many years, was formally presented by that body to the superintendent of Fort Anne, Annapolis Royal, on Monday.

The street authorities are making some long-needed repairs on the west sidewalk of Gaspereau avenue. A quantity of new material has been put on and graded and when the work is finished a great improvement will have been made.

The Yarmouth baseball team defeated Springhill on the latter's grounds on Monday, by the score of 9 to 3. This was the first game of the finals for the Nova Scotia baseball championship. The second game will be played to-day at Yarmouth.

The music at the First Baptist church, Truro, last Sunday was conducted by Mrs. C. P. Richmond and greatly enjoyed by the large congregation. Miss Evelyn Duncanson, of Wolfville, was one of the soloists, and her beautiful voice charmed her hearers.

The Social Service Council of Kings county have engaged the services of Rev. Arthur Hockin, whose Port Office address is Berwick, as Field and Financial agent for this county. It is understood that Mr. Hockin holds himself in readiness to serve the interests of the Council in any locality where his services are required.

Cattle were turned on the Grand Pre Dyke on Monday the date having been deferred from Friday as the crop had not all been removed. The proprietors of the Wickwire Dyke were ten days earlier in getting their cattle on the after-feed. Owing to the rains which have prevailed through practically the whole season the feed is this year especially good but because of the small quantity of stock in the country the demand is smaller than usual. With the abundance of fodder which prevails this year there should be a great increase in the number of cattle in the country next season.

The Cricket season was very enjoyably drawn to a close on Friday evening last when the members of the Wolfville Club were banqueted by their captain, G. S. Bauld. Good things and good fellowship abounded and in the eating game it was well demonstrated all were boundary hitters. After the first innings, which was closed by a toast to the captain, proposed by E. W. Robinson and responded to by Jerry in his ablest form, all retired to the living room where the evening was spent with cards and yarns. The gathering drew stakes due to the lateness of the hour, all sorry to hear the over called.

The performance given by the Mae Edwards Players at the Opera House on Wednesday and Thursday evenings fully justified the good impression which this talented company made during former visits to Wolfville. Good houses greeted the players on both evenings and those present evidently enjoyed the programs to the full. On Wednesday evening "The Moth", a three act comedy drama, was decidedly well put on. The play included many laughable situations and was decidedly well staged. Mae Edwards as Jane Morrison played a particularly good role and all the parts were well taken. The play last evening was "The Flapper's Code", which was most amusing and well given. The specialties were exceedingly good and the novelty orchestra under the direction of "Bill Otis" was a most attractive feature. The Mae Edwards Players may be assured of a welcome to Wolfville when they again visit our town.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application.

Be sure to attend the Rummage Sale at the Parish Hall on Saturday, Sept. 30th, afternoon and evening, great bargains.

The records made by the High School students at the Provincial Examinations will be published in next week's ACADIAN.

"The Leather Pushers" will be shown at the Opera House on Friday and Saturday of this week instead of Wednesday and Thursday.

Through an accident in the make-up last week the acknowledgement of the Childrens Aid Society became sadly mixed. It should have read as it appears on page 3 of this week's issue.

The present run of tides is unusually high and the dykes will be in danger at the end of the week if weather conditions should happen to be bad. The maximum should be on Saturday or Sunday.

The Acadia football team arrived on Saturday and are already making preparations for the season's operations. It is expected that the boys will give a good account of themselves when opportunity offers.

Rev. and Mrs. George Rackham, of Amherst, who left on Wednesday of this week for West China as missionaries of the Methodist church, were presented on Sunday evening with an address of appreciation accompanied by a purse of one hundred dollars in gold. Rev. Mr. Rackham was a former student at Acadia and the many friends whom he made while a resident of Wolfville will join THE ACADIAN in best wishes for the success and safety of himself and wife in their new home and work.

CANARD NOTES

Miss Wood spent the week-end at her home in Woodville.

The Women's Missionary Aid Society met at the home of Mrs. Hugh Eaton on Thursday of last week.

On Sunday last Mr. Collins, who has been assisting Mr. Prosser for the summer months, preached his last sermon in the Lower Canard church. Mr. Collins has done splendid work.

Miss Evelyn Eaton left on Friday morning for India, she will be greatly missed in Canard.

Mrs. O'Brien spent the week-end at her home in Canning.

Mr. and Mrs. C. S. Bairs, of Wolfville, and Mr. and Mrs. James E. Eaton, of Lower Canard, motored to Halifax and the Silver Wedding Anniversary of Mr. and Mrs. L. K. Payzant, Dartmouth. From there they motored to Lunenburg, Mahone Bay, Middleton and other places.

The Canard Institute met at the home of Mrs. John McDonald, on Tuesday evening, September 19th.

The Clarke sisters left on Friday last for India.

CLINIC NOTES

Tuberculosis Clinic at Clinic Room, Weaver Block, Friday, Sept. 29th, commencing 2 p. m., specialist from Nova Scotia Sanatorium in attendance.

Fresh air is absolutely necessary to human life. You may live for some time without food, or without drink; you may go without sleep, or you may endure all sorts of pain and tortures; but stop breathing for even a very short time and life leaves the body. The oxygen found in fresh pure air is needed for almost every function of the body.

A well known authority says that a man out of doors is exposed to one hundred times more fresh air, than he could possibly get in the best ventilated room in the same period of time. If this is true, you can get much more oxygen and more life giving air out of doors than in doors. Why not sleep and eat out of doors as much as you can?—National Tuberculosis Association, New York City.

NOTICE TO TRUSTEES

I will be prepared to pay the County Grant 1922, to School Trustees on and after Monday, September 18th, 1922.

I am also ready to fill in assessments for School Section. Better to bring in your list if convenient.

Mr. Ernest Robinson, M. P., has left with me a number of maps of the Dominion of Canada, each section is entitled to one free of charge.

MOTORS AND MOTORING:

A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

THE "BROADENING OUT" CONTROVERSY

Premier Drury of Ontario, who has declared for a "broadening out" policy on the part of the United Farmers of Ontario is shown in his office. Inset is J. J. Morrison, Secretary of the U. F. O. who is in favor of the organization retaining its class distinctiveness. He is publicly taking sharp issue with the Premier.

CLOSED CARS ARE GAINING IN POPULARITY WITH OWNERS

With the coming of cooling weather car owners are beginning to give some serious consideration to the preparation of their cars for winter use. This leads back to the question of closed vs. open cars and the trend of times would point to the growth in number of closed cars in use throughout the country.

Bringing limousine comfort and protection within the reach of the average citizen and giving them, a range equal to that of a touring car, is the double problem automobile engineers and body builders are successfully solving. From the coddled darling of the boulevards, the enclosed car has become the familiar acquaintance of the country highways and byways.

An owner driver who has put touring car behind him and makes all his shorter business and pleasure journeys in an enclosed car, reviewing his experience in five months of early season driving, was outspoken in his approval of recent developments in the latter type of car.

"I have owned and worn out two high priced touring cars," he said, "but for economy and comfort, the closed car I'm driving now is beyond comparison with either. It has covered 3,000 miles already and I've yet to find the road or hill on which it will not do everything that my former car would do."

"I've come to expect that kind of economy and reliability from my car. But I'm really enthusiastic about it because of the convenience and protection it gives. A recent trip, for instance was made on a very hot day. With the windows all open we were as comfortable as in any touring car. When we ran into two or three dust squalls on the road, up went the windows in two minutes and we sailed through without any discomfort.

"That ability to change from an open car to a closed carriage in a couple of minutes is a great advantage. Not long ago in Wisconsin we ran into a sudden wind and rain storm. We were snug and safe in a jiffy without slackening our pace. Yet we passed at least 20 touring cars in the next 10 minutes whose drivers were battling with their curtains, trying to adjust them, in half a gale. Wind, rain, dust, snow, sleet, all weathers look alike to the man who drives a good closed car like mine."

BRUSHES FOR CLEANING PARTS

While cleaning the gear set or differential, a long-handled paint brush will be found useful for reaching grease and dirt which have stuck to the sides of the case and are not reached by the kerosene. Get what the painters call a sash tool. It can also be used in cleaning dust and dirt out of corners, around the springs and other places.

Minard's Liniment used by Physicians.

APPLE SHIPMENTS

Frequent sailings from Halifax to London, Liverpool, Glasgow, Manchester.

Special fan ventilation and numerous fast oil-burning steamers.

Passages arranged to all parts.

Furness, Withy & Co., Ltd. Halifax, N. S.

KEEP TO THE LEFT AFTER DARK

Pedestrians Should be Careful When Walking on Country Roads

Pedestrians along country roads and those who walk in the streets at night in preference to using the sidewalks can contribute materially towards the reduction of automobile accidents by walking on the left side of the road facing oncoming traffic.

"Courtesy on the part of the automobile driver demands the use of dimmed lights at night," said an autoist "and this factor, while it contributes to the safety of passing motorists, makes it exceedingly difficult for the automobile driver to see a pedestrian walking along the edge of the road in the same direction the car is travelling. This difficulty is increased if the pedestrian happens to be wearing dark clothing. The result is that the driver is practically on top of the pedestrian before the latter becomes visible.

"Walking on the left hand side of the road is just as good for the pedestrian and enables him to see the approaching automobile in time to step aside if the motorist does not see him in time to swerve.

"The pedestrian should remember that the rules of the road require the autoist to keep to the right and should contribute to the factor of safety by keeping to that side of the road which best enables him to escape the oncoming car and especially the occasional speed fiend or "flivverboob" who cares nothing for consequences and speeds regardless of the rights of others, for it has been truly said that whether you

were in the right or not does not matter after you are in the hands of the undertaker."

"FOOL STUNTS"

Every automobile operator has his pet "fool trick", even though he may pride himself on his careful driving. While a large percentage start their cars with the emergency brake on, others try to shift gears without throwing out the clutch. Some drivers are known to throw the gears into a forward speed while the car is moving backward or vice versa. Starting from a standstill on high, and racing the motor when cold, are also classed as "fool tricks".

BUMPS BETTER THAN WRECKS

Highway engineers in a certain part of the United States are reported to be trying to devise a means to prevent some portion of the wrecks that result from motorists trying to beat trains to level crossings. They will endeavor to force the incautious chauffeur to slow up and think twice before taking a chance. The means suggested is to construct "bumps" on each side of the railway track. These will consist of a six inch elevation rising quite perceptibly though not perpendicularly from the road level and about a hundred feet from the track. Various experiences and sensations may result from this bump, but it is thought that the fatalities will be fewer than the crashes of the past few years through collisions at crossings. The motorist will doubtless "sit up and take notice" after the first such spill or warning and the experiment is not likely to be repeated.

CURE TIRE CUTS QUICKLY

A barefoot boy appreciates the need of quick attention to his surface cuts and bruises which, given temporary protection are self-healing. Tire tread cuts are also self-healing if promptly treated with a heal-a-cut material. If not thus treated the elasticity of the rubber allows the cut to expand under load compression with every turn of the wheel. Dirt, glass, sand, and pebbles wear and tear away the rubber until the cut has reached the first layer of the tire fabric where foreign material creeps along the piles up between the tread rubber and the carcass, forming sand lumps.

Most cuts are avoidable and the result of tire contact with sharp edges of railway tracks and crossings, with old horse-shoes, broken glass, of wheels spinning on wet pavements and in mud holes, and by skidding the tire by sudden brake applications.

The remedy is to examine the tires at regular intervals, with the object of removing all penetrating objects, such as nails and tacks, to wash out the holes and cuts and close them by properly prepared healing preparations. Investment in tires does not end with the original purchase. To the first payment should be added a relatively much smaller but important care investment.

"I Was Run Down"

"Body was completely covered with Boils"

"If you have ever had boils, you know how painful and annoying even one or two can be. But imagine having your whole body almost entirely covered with them! I am a watchmaker by trade, making a specialty of repairing the highest grade movements. This is probably the most trying of any mechanical work, particularly for a nervous individual like me. Working under great strain both day and night for three months, brought me almost to a state of collapse. I was so irritable and nervous that the slightest thing would 'send me up in the air.' If I managed to get a few hours of sleep at night I was lucky. I had no appetite for food. I certainly was miserable. During this time boils began to appear on different parts of my body and the pain from them made life a misery. My suffering was so great at times that I felt there was nothing left for me to do but to end it all. I consulted doctors but they all told me that if I didn't give up my work and live out of doors, I would go into a decline. As I had no money I couldn't do this. In fact paying doctors' bills and buying medicines

used up all the money I made. Finally in desperation, I decided that I would either kill or cure myself, so I began to study my case. I realized that I was completely run down as any one could possibly be with a bad case of nerves. What I needed was building up. After reading descriptions of different preparations, the one which appeared to be the best for me was Carnol. It has simply performed miracles for me. Four bottles have done more than months of travel abroad. I feel like a two-year old. I sleep eight hours every night and eat three good meals a day. My skin is like a baby's, free from blemishes of any kind and I have now almost forgotten that I have ever had such things as nerves. I want everybody who is ailing to know about Carnol, because I have such faith in it I believe it will cure any human ill."

Mr. J. H. Mc. C. Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

NOVA SCOTIA CROP REPORTS

The Fruit and Vegetable Crop Report for September, issued by the Department of Agriculture, has the following to say concerning the apple and potato crops in Nova Scotia:

Apples

The weather has been quite satisfactory during the past month, and apples have been sizing well. The conditions on the whole have improved so that the total crop prospects have increased approximately 5 per cent, the estimate being placed now at 80 per cent of the crop of last year. Apples are of a large size, and on the whole remarkably clean and free from scab and insect marks. Untreated apples are very dirty in some districts. The various varieties show approximately as follows, in comparison with the crop of last year: Gravenstein 115 per cent; Golden Russet, Wagner and McIntosh 80 per cent; Kings, Ribston, Stark, Spy and Gano 75 per cent; Greening and Ben Davis 65 per cent; Nonpariel 60 per cent; Baldwin 40 per cent. Early varieties average 75 per cent. WATERVILLE—Apples are large and clean, and the crop will run approximately equal to that of last year. Baldwin's are short; Kings and Golden Russets a good crop. The shortage in the crop of Baldwins will be more than made up in the increased size of all varieties. ATLANTA—The apple crop in this district will be about 70 per cent of that of last year. Blenheims and Starks are very light. The fruit on the whole is clean and of good size. KINGSPOUR—The apple crop is about 50 per cent of last year's crop. Ribston and Ben Davis 80 per cent. Gravensteins 35 per cent, Blenheims and Starks 10 per cent. Fallowater 40 per cent, Baldwin and Wagner 50 per cent. NICTAUX WEST—Apples are growing very fast, and orchards have not looked so well for a number of years. The total crop will run about 70 per cent of that of last year's. Russets and Nonpariels 125 per cent, Ribston and Stark 75 per cent; Gravenstein, Baldwin and Spy 50 per cent; Blenheim 40 per cent; Ben Davis almost a failure. FALMOUTH—The apple crop will be about 60 per cent of that of 1921. The fruit is colouring well. Gravensteins and Ribstons and Spies 100 per cent; Kings 80 per cent; Stark 75 per cent; Cox Orange, Greening and Fallowater 50 per cent; Manns 50 per cent; Ben Davis 30 per cent, Blenheims and Baldwins 10 per cent. The fruit is clean with the exception of Gravensteins and Starks, which show some spot. BEAR RIVER—Apples show a crop approximately 60 per cent of that of last year. Gravensteins 100 per cent; Ribston, Baldwin, Blenheim and Spy 60 per cent; Wagners 80 per cent. The drop in June and July was heavy. The fruit is practically clean and much better in size than in 1921. ANNAPOLIS ROYAL—The total apple crop in this district will be approximately 50 per cent, showing a drop in the estimate during the last month from 60 per cent. The apples growing on dry or sandy soil are not looking well, and are evidently showing the result of the drought of last year. Considerable quantities of the fruit show scab and inferior growth.

Potatoes

The potato crop in the province prom-

G. K. COLDWELL
Wolfville, N. S.

ises to be good with but very little insect or disease injury to date. The weather has been and continues to be dull with considerable rain providing excellent conditions for the spread of blight. The plantings of late potatoes are suffering from the continuous heavy rains. Reports from Waterville state that due to the continuous wet weather the potatoes will undoubtedly show considerable rot when dug. Blight has made its appearance almost everywhere whether the crop is seeded or not. The potato fields are blighted badly in the Atlanta District and are showing some early blight as well as at Nictaux West. Many of the fields are suffering from too much water and growth will be considerably reduced in these sections, although the prospects are still that the crop will be 100 per cent greater than last year. The crop in Falmouth District promises to be equal to that of last year and at Bear River the condition of the crop is excellent. Reports from Annapolis Royal state that the potatoes have made excellent growth but that the wet weather is doing considerable damage and the present prospects are for a crop not more than 50 per cent of that of last year. The indications at Kingsport are for a crop 50 per cent greater than that of last year with no blight or disease showing to date.

MAIL ORDER HOUSES BOOMING

Sales totals of the great mail order houses show an enormous increase, particularly in strictly farming sections.

This is not pleasant news for retail stores in our average small town, but it is what many may expect.

There is only one way in which the insidious mail order campaigns can be combated, and that is by local merchants frankly explaining their merchandising possibilities to the people through advertising.

It is a well-known fact that the big mail order concerns maintain departments of considerable magnitude to check up on the towns where the local merchants appear to lack enterprise.

There they concentrate their batteries of advertising and catalogue distribution.

The mail order house never prospers in a town where the local merchants advertise consistently, because the mail order men know they cannot compete with the local store if the merchant understands his business.

The cheapness with which the big mail order man can buy is more than offset by the low overhead the local merchant can get along with.

To hold his own, however, the local merchant must not hide his light under a bushel.

The public needs educating to a knowledge that they can buy at home as cheaply, that they can actually see what they are buying before they pay for it, and that they do not have to wait sometimes weeks for the delivery of the article

they want.

When the merchants get ready to talk plainly to the people they will have nothing to fear from the mail order man, but if they remain silent, then the outsider will surely burrow his way into their profits. Self satisfaction has spelled many a bankruptcy.

AS A MAN THINKETH

If a man thinks every one is against him, he will soon begin to treat them so that they will be. If he thinks every one is his friend, he will treat them right, unconsciously, and they soon will be his friends. The man who lives his daily life according to this formula has in his make-up a spark of sound and true philosophy that will make his life brighter. If we put in to all the relations with our fellows a full measure of friendliness and good will, we are pretty sure to get it back, full and overflowing. On the other hand, if a man is suspicious of every-body, every one will be suspicious of him. The man who goes about looking for a fight is sure to get licked some day, good and plenty.

True friendliness is founded on sincerity. And sincerity is about the only thing in the world that can't be counterfeited. The impulse toward friendliness springs from the very soul of a man.

The world needs friendliness, and kindness, and good will. Not Sundays only, but every day in the week and every hour of the day. Think friendly thoughts. If you've got a soul, don't be ashamed of it. Bring it into the office with you. For the soul is the source and fountain-head of every good and worthy impulse. Put your faith in men. Believe they are your friends, and they will be.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1ST DECEMBER, 1922.

THE BANK OF MONTREAL, under authority of the Minister of Finance, is prepared to effect, without charge, exchange of the above bonds for

- 5 year 5½% Bonds
Maturing 1st November, 1927,
- OR
- 10 year 5½% Bonds
Maturing 1st November, 1932.

FULL PARTICULARS are obtainable upon application to any branch of the Bank of Montreal in Canada.

KOREEN

ASK YOUR LOCAL DRUGGIST

A. V. RAND

Our home folks in these Provinces by the sea naturally ask for RED ROSE TEA when they want the very best.

RED ROSE COFFEE is free of dust—settles clear as a bell—no egg needed.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- (a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- (b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.
