The injurious effects of alcohol on the brain and nervous system relieved and cured by the use of Dr. E. C. West's Nerve and Brain Treatment.

Dr. Morrison, of Providence, R. I., has been elected President of Clinian University, South Carolina.

Mr. C. E. Riggs, Beavertown, writes: "A customer who tried a bottle of Northrop & Lyman's Vegetable Discovery says it is the best thing he ever used; to quote his own words, 'It just seems to touch the spot affected.' About a year ago he had an attack of bilious fever, and was afraid he was in for another, when I recommended this valuable medicine with such happy results."

Winemucca, princess of the Puutes, is of the opinion that within fifty years there will not be an Indian alive. "I dare say," she respectfully adds, "the white man is better in some respects; but he is a bigger rascal, too. He steals and lies more than the Indian does. I hope some other race will come and drive him out, and kill him, like he has done us. Then I will say the Great Spirit is just, and that it is all right."

Another Novelty.
The latest style of lace front shirts, which are all the go in the United States, all colors at White Shirt House, 65 King Street West.

The proper channel for the escape from the system of impurities which would, if they remained, poison the blood, is through the bowels. When this outlet is obstructed it may be disencumbered with Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, a remedy which regulates the system, invigorates digestion, and is pure and safe as well as effective. It cures all diseases arising from impure blood.

General R. E. Colston, who served in the Egyptian army for six years, told a Washington reporter the other day that the British are going to have a hard row to hoe in Egypt. He thinks that after a month's campaigning the English horses will be unfit for use, as they cannot stand life in the desert.

TO ALL STRIKERS.—Strikers would do well to consider Guinane's liberal offer before going elsewhere. They are in sympathy with the present movement, and to show that they are they agree to supply from their splendid assortment—the largest in the city—of boots and shoes, trunks and valises, any goods strikers need at actual wholesale prices, which they will guarantee is 25 per cent below the retail price. Need we say Guinane's immense boot and shoe emporium is at 215 Yonge Street, three doors south of Albert. 246

R. C. Bruce, Tara, says: "I have no medicine on my shelf that sells faster or gives better satisfaction than Dr. Thomas' Electric Oil, and the sale is constantly increasing, the best year being the largest I have ever had. One of my customers was cured of catarrh by using three bottles. Another was raised out of bed, where he had been laid up for a long time with lame back, by using two bottles. I have lots of customers, who would not be without it over night."

The Rev. Sylvanus Raymond, who preaches in Globe, Mass., declares bluntly that the increase in divorce in that State is not due to greater laxity in the laws, but to an enormous increase of wickedness among the people, and he holds that the remedy must be found in an improvement in their morals.

Mr. George Jacob Holyoake, who is coming to this country from England to study

and write upon the subject of emigration, has received a grant of \$500 to aid him from Mr. Gladstone, with an intimation that he may have \$1250 if necessary. Mrs. Elizabeth Thompson of New York, who takes a great interest in social subjects, has also sent him \$500.

It is a remarkable fact that Dr. Thomas' Electric Oil is as good for internal as external use. For disease of the lungs and throat, and for rheumatism, neuralgia, crick in the back, wounds and sores, it is the best known remedy, and much trouble is saved by having it always on hand.

Jacob Lookman, Buffalo, says he has been using it for rheumatism. He had such a lame back that he could do nothing, but one bottle entirely cured him.

Owing to the low price of tobacco in Europe, the tobacco cultivation once so flourishing in the island of Java is said to be rapidly declining; the planters being in consequence much distressed. The "Java Bode," a Dutch local journal, states that lately, in the eastern portion of it at least, three estates were sold collectively for the trifling sum of 5,700 guilders, though only three years ago a brick tobacco shed on one of them cost 400,000 guilders.

LIKE ALL STERLING REMEDIES, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure deserve a fair trial. It would be absurd to suppose that this or any other medicine of kindred nature could produce instantaneous effects. For the thorough removal of Chronic Dyspepsia, Constipation, Liver Complaints, and other ailments to which it is adapted, its use should be continued some time, even after the chief symptoms are relieved. That it effects complete cures is a fact established by ample and respectable evidence.

Catarrh.
Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment of catarrh. Out of one thousand patients treated during the past six months of this remedy, not one has been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of patients resorting to the regular practitioners are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is the most favorable for a speedy and permanent cure. The majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. J. Dixon, 307 King Street West, Toronto, Canada, and enclose stamp for his treatise on catarrh.—Montreal Star, Aug. 26, 1882. 25

THE PRESS EXCURSION.

A RUN TO THE END OF THE PACIFIC RAILWAY.

Out on the Prairie—Christening Regatta—Warm Hospitality—A Pleasant Time.

WINDSOR, Aug. 28.—The members of the press met at the city hall at 8 a.m. when the mayor had all the cars and carriages in the city in waiting to take the great company, 100 or over, for a drive.

We made a tour of the city, all the buildings, both public and private of any interest, were pointed out. After doing this we drove to Silver Heights a distance of six miles.

There is a very nice hotel of these miles with pleasure grounds. Another feast was prepared for the party by the mayor. We took the cars at three o'clock and rode till we came to Portage La Prairie.

On reaching that place we were met by busses and conveyed to the hotel where another repast was tendered us. We took a drive around the place and was very favorably impressed, but will tell you more of it on our return trip as we are going to stop for a day and are the guests of the city.

We traveled all night and reached Broadview, a new place on the C. P. R., and we are the guests of the C. P. R. they are entertaining us. At 7 o'clock Tuesday morning the train made a halt and we descended from the rarer elevated platform on the open prairie in the place called Broadview, a future city, but at present there is not one house in it, except a small station.

But the C. P. R. had provided for our wants and erected fine new white tents, and a breakfast was set down for us as good as one would get in any hotel in Toronto.

The silver and gold dishes and table napkins were of the best kind. After breakfast we had two hours on the prairie. We walked over to see the tents of the mounted police that are located here. There are about a dozen of stores here. All hold in tents and one can buy all the necessities. Canned fruit, blankets, ready made shirts, ties and dishes were the most noticeable. We saw a good many gentlemen starting arching club and would place 25 cents on little sticks and get the Indians to shoot at it.

They enjoyed the 25 cents. One that has never been made cannot realize how pure and fresh the air is, and how bright it makes you feel. Time being up, we started and made our next halt at Fort Qu'Appelle when a number of the mounted police rode up and had an interview with some of the gentlemen on board. We passed through a second in command came on board and we all had the honor of an introduction.

The major accompanied us far as the end of the C. P. R. track. They are laying R. R. track at the rate of four miles per day, which they tell me as something unprecedented. We passed through Regina the future capital of this province the N. W. T. There is not one house in the place.

A very interesting event took place this afternoon, the train made a halt and we were asked to witness the ceremony of the naming of a station. To Mrs. Climo the honor devolved. Her name is Mrs. Climo and she named the place Pease City, after the president of the association. We also had an Indian paspage christened by Major Walsh. He was named "Climo" hence. We dined to-day at 5 p.m. at Broadview.

J. L. C. Married at Midway. Mr. Frank E. McDonald, barrister, of this city, son of the late Senator McDonald, and Miss Sadie Cook, daughter of H. H. Cook, M.P., were married at noon yesterday at the Metropolitan church. Rev. Dr. Fort of Montreal and Rev. Hugh Jones of the Metropolitan church performed the ceremony. The church was crowded with friends and spectators. Chas. McDonald, brother of the groom, W. H. Brown, D. G. McNeill, Albany G. Cook of Morrisburg, W. A. McDonald, younger brother of the groom, and Master Henry Spence acted as groomsmen. The bridesmaids were Miss E. Cook and Miss Ella Cook, sisters of the bride, Miss Annie Drowse of Berlin, and Misses Maud and Mary Cook, cousins of the bride. The wedding was by the bride's party were pretty, tasty and rich, and the presents were numerous and valuable. The wedding dinner was served at Mr. Cook's residence, King street west, and the happy party started on their wedding tour last evening.

Mr. Herbert Spencer. If Herbert Spencer comes to Toronto he will probably be the guest of his old friend Mr. Goldwin Smith. Mr. Spencer arrived in Montreal on Saturday evening from Burlington, Vt. His object in visiting this country is to obtain change of scene, and if possible alleviate the insomnia (inability to sleep) from which he has been a sufferer 27 years. During that time he has not had a single night's sound rest. He does not receive callers. In person he is tall with an attenuated frame, possesses a fresh English complexion, and is very bald with a fringe of black hair turning grey. It is his intention to come west shortly, and after having made a tour of the United States will return to New York where it is proposed to tender him a public banquet. His friend, Mr. Edw. Lott, of Derby, who accompanies him, transacts all his business matters.

The Theatres. There was a good attendance at the matinee at the Royal opera house yesterday afternoon, as also at night. East Lynne is still the attraction. Baker and Farron are still solid at the Grand and are playing to good houses. The Zoo was crowded all day yesterday. The Indians are big cards for the zoo. A large party of ladies and gentlemen from the Queen's hotel visited the gardens last night.

Pure Water at Last. There yet remains but ten yards of pipe of the waterworks extension into the lake to be laid. If the water is calm enough this will be accomplished to-day, and citizens will then have the pure water that has been promised them and for which they have paid a good round sum of money.

The Late Dean. Mr. Dunbar has finished his bust in marble of the late Dean Grassett and in about three weeks time it will be placed in the cathedral. The members of the Dean's family pronounce it an excellent likeness.

The Weather. Moses Oates says we are to have rain on either Friday or Saturday or both days, and that Monday will be a fine day.

PUBLIC SCHOOL BOARD.

Changes in the Teaching Staff—About Half Head Teachers—Promotion by Appointment—Lectures to be given on the Kindergarten.

The board of public school trustees met in their rooms last night, the first after their vacation of two months. Mr. Galley in the chair. They were present Messrs. Mrs. Barr, Mrs. Las, Lamb, McMurich, Bain, Crombie, Dr. Wright, Mills, Somers, Johnston, Roden.

Mr. Bain enquired of the chairman of the building committee why the Church street school was not ready at the opening of the schools.

Mr. Somers said that the carpentering and plastering was finished and they were waiting on the painting. Walter S. Lee said that the chairman of the committee should take the matter in hand and push on the contractors to complete the job and not have it look like a deserted village.

Mr. Roden said that if the contractors were negligent in their duties they ought to be bound to pay their forfeit or guarantee.

The board then went into a committee on the whole to consider the report of the committee on school management. Mr. Somers in the chair. The resignations of Mr. T. N. Sence as head master of Louisa street school, Miss B. M. Wallace, teacher of the senior lot church street school, were accepted.

The following promotions were made: A. R. Pym, from the George street school to the head-mastership of Louisa street school; P. G. Meldrum, from the assistant mastership of George street school; J. Watson, from Palace street school to the assistant mastership of Dufferin school; Mrs. G. S. Monohom, from the junior first book class Parliament street school to the senior first class in Church street school.

The following appointments were made: Miss M. Landers to Wellesley street school, Miss L. E. Brant to Parliament street school, Miss M. E. Glasford to Parliament street school all last book classes.

Walter S. Lee said it would be well to have a lady in the position of head teacher of Palace street school and moved that Miss Riches' name be put in place of Mr. Slaters, the name recommended by the committee.

Mr. McMurich said he did not question Miss Riches' ability to take the position, indeed that he believed her to be fully competent to do so, yet he did not think that it was fair to make the appointment without considering the ability and length of standing of the other lady teachers.

Mr. Lee's motion was carried. Dr. Wright in regard to appointments and promotions, said it would be well to consider the teachers should be appointed to a position according to length of standing or ability. At present a teacher, though he be first class, has to commence at the lowest rank of the ladder and work up, while one of inferior talent is far above him on the ladder. Mr. Crombie moved that the names of the applicants for appointments be placed in a list, and that the committee should be struck out, unless they obtained a higher certificate. This would, he said, greatly raise the standard of the teachers. His motion was lost.

Mr. Crombie then moved, seconded by Mr. Johnston, that Miss Susan E. Ross, accompanied by Miss Hubbard, be invited to visit the city to deliver lectures on the kindergarten system of education as now practiced in St. Louis.

This motion was carried. Mr. McMurich then moved that next Wednesday evening be appointed a school holiday in order to afford the children an opportunity to visit the exhibition.

This was carried. The meeting then adjourned.

LOCAL NEWS PARAPHRASED.

Chief Justice Wood of Manitoba, will be in Toronto in a few days. The St. Vincent de Paul society will give a Shakespearean recital and concert at the Metropolitan theatre to-morrow night. Captain James Sparks, an old and respected citizen, died at his residence, Mill road, on Tuesday afternoon, aged 76.

The lieutenant-governor reached the city on Friday night on the express from Montreal. His excellency looks well after his trip. The steamers Queen Victoria, Jean Baptiste and Geneva are now on the exhibition route. Trips every twenty minutes from Church and York street wharves. Parties leaving numbers left from the moulder's picnic for prizes, please call at Lennox's hotel before the 14th and see Wm. Gallagher, secretary.

The Late Dean. Mr. Dunbar has finished his bust in marble of the late Dean Grassett and in about three weeks time it will be placed in the cathedral. The members of the Dean's family pronounce it an excellent likeness.

THREATENED TO SUICIDE.

The Wife of a young Englishman's Grief—A Queen's Royal Episode—All well that ends well.

A Youngtown correspondent of the Buffalo Courier, under date of August 31, sends the following to this paper: Walter Dixon, a wealthy young Englishman, and his wife, who are now boarding at the Queen's Royal Hotel, at Niagara, Ont., had a quarrel the other night, which was the result of a flirtation between Mr. Dixon and a lady guest. During a ball in the evening Mr. Dixon had been showing too marked attention to a young lady, who was pleased to receive them; he danced with her, promissed and gave her every attention, while his young and lovely wife, who, by the way, is an American and only about twenty-five years of age—looked back at her, as she could see the affair proceed. As his attentions became more intimate from hour to hour, the offended wife became enraged. The affair culminated in a scene when they reached their room, during which the young wife made a vow to leave her husband for good, and to place \$10,000 at the disposal of the medical association.

A note of thanks having been placed, Dr. Poteroff's committee to collect health statistics and lay them before the government. After some discussion, the surgical section withdrew, and the second section, Dr. Grant of Ottawa occupied the chair.

A paper was read by Dr. Major on the disease of the eye of the increasing recognition of the medical profession of rest as a therapeutic agent. Rest was suggested to be derived from the medical profession of rest as a therapeutic agent. Rest was suggested to be derived from the medical profession of rest as a therapeutic agent.

The Mayor of Chicago in Dublin. DUBLIN, Sept. 6.—The lord mayor gave an entertainment at the grand banquet of the Mayor of Chicago. The affair assumed a strong political character. The toast to the mayor, however, was cordially received by the company with a few exceptions. The lord mayor in proposing the health of Mr. Harrison said the entertainment was intended as a significant compliment to the people of America and a personal compliment to the mayor of Chicago.

In reply Mr. Harrison said that the Irish had been in America and a personal compliment to the mayor of Chicago. Hence when the news came that Ireland was struggling for freedom, there was but one feeling in the hearts of the Irish in America, and that was sympathy with struggling Ireland. At the assembly rose and cheered him.

A Ombudsman Run Into. BOSTON, Sept. 6.—A despatch from Iliou, N. Y., says: The last mail came on the New York Central railroad due here at 10 p.m. yesterday. It was a very late arrival, and was crossing the second Atlantic express train. Albert Prewday, a good merchant, saw the train and attempted to leave the fifth street crossing. He was struck and killed. John Gibson, Iliou, and Russell Dodge of West Winfield, were seriously hurt. Otis Cook, the engine driver, and the driver of the omnibus and his wife, were also injured. Louis Bomer and Daniel Berry, who were on the omnibus escaped with a few scratches.

Ball Breaking in Montreal. MONTREAL, Sept. 6.—Last night three noted criminals succeeded in escaping from jail here. Their names are George McBride, Wm. Mackay and J. Flannigan. They were being held in the city, and escaped through the bars of the cells, from which they escaped by means of ladders. The police are now scouring the city for the fugitives, but none clever enough to escape from jail are being seen. It is thought that the criminals are still in the city, on the other side of the boundary line.

Bandstand Train Wrecking. TROY, Sept. 6.—A disaster occurred on a train on the Albany and West Point Railroad at East Dorset, Vt., last night, throwing the switch open though the signal showed "all right." The train was being pulled by a locomotive and was carrying 100 passengers. The engine, fireman and two conductors were bruised.

Fatal Boiler Explosion. ELIZ, Pa., Sept. 6.—This morning, shortly after 8 o'clock, the boiler at the dry-house at the Erie car shops exploded. John Waidley, foreman machinist, was instantly killed, and Charles Drieche, foreman, was literally blown to atoms. John White, a steam fitter, was also killed. Hamilton and Joseph Eagle were wounded.

A Female Fugitive. ST. LOUIS, Sept. 6.—Phyllis Trengell, aged 26, living north of St. Louis, has taken no solid food for three months and is rarely able to retain liquids. Physicians are unable to diagnose the case satisfactorily. The woman is growing weaker, and will probably die.

Injured on the Track. WELLS, Ont., Sept. 6.—This morning about 6 o'clock a man named Joseph Ryan was found in a comatose state near the tracks of the Canada Southern railway on the Perin road, a few miles west of here. He is fatally injured, apparently by the cars in some way.

A Pistol Accident. WOODBURY, N. B., Sept. 6.—A serious and probably fatal accident occurred on Tuesday afternoon. While a number of young boys were amusing themselves firing at a target with a pistol, a short distance out of town, by some unexplained mishap a lad named Gordon was shot in the abdomen. His recovery is extremely doubtful.

Bygone's Death Sentence. DUBLIN, Sept. 6.—A meeting was held on Thursday in favor of the commutation of the sentence passed upon Hynes. The lord mayor will preside at the meeting and Biggar, Sullivan and Sexton are expected to be present.

Greco-Turkish Trouble. ATHENS, Sept. 6.—An armistice has been concluded between the Greeks and Turks on the Thessalian frontier, based on the status quo. The negotiations for a definite settlement regarding the frontier is progressing satisfactorily.

A Boat's Crew Browned. ST. JOHNS, N.F., Sept. 6.—A fishing skiff commanded by John Chitman was struck by a squall and sunk in Placentia bay yesterday. The crew perished.

A Lucky Fellow. OTTAWA, Sept. 6.—Mr. A. Z. Palmer, of the post office department, has come in for a very large fortune by the death of a relative in the old country.

Another Irish Murder. DUBLIN, Sept. 6.—A man named Thor, Dann was shot dead to-day while driving along the highway near Athlone.

THE DOCTORS' PARLIAMENT.

Annual Session—The President's Address—Tracheotomy.

The Canada medical association met for their fifteenth annual gathering at the city hall last night on the 10th inst. yesterday. The president, Dr. Forwood, in the chair. The morning was spent in routine business. In the afternoon no session was held, the members being engaged in visiting the exhibition. At 7.30 p.m. a good attendance took place, the president being chairman. An address was delivered by the president in which he dwelt on the great advantages to the profession and the public of the meetings of their association. He considered that their program covered a wide area of ground, and as it was of the utmost importance that their discussions should be thorough. In order to forward this he suggested that the association meet in the future at the same place, and that the medical association had exerted the most beneficial influence on the council of the nation. Lord Beaufield had truly said that the first duty of a minister was to look after the people's health and their interests. The government had not done this. It had placed \$10,000 at the disposal of the medical association.

A note of thanks having been placed, Dr. Poteroff's committee to collect health statistics and lay them before the government. After some discussion, the surgical section withdrew, and the second section, Dr. Grant of Ottawa occupied the chair.

CHILD ABDUCTION AND BIGAMY.

A Peculiar Case—Sapping the Loyalty of an Unmarried Woman, but a Major's—County Constable Walden arrived in the city last night on the Midland train, from Mount Albert, having taken Tucker in custody. About seven years ago Robert Albert Shaw, living at the village of Queensville, in East York, lost his wife. He took a housekeeper named Mary McArthur, aged 26. Though they were never married she bore him three children, the eldest now a bright boy of eight. A short time ago Tucker appeared on the scene. He won the affections of Mary McArthur and in due time she was married to him. They left one night, taking the three children with them, and went to Orillia, where Tucker and she were married by a church of England minister on August 29 last. Shaw got into a warrant, and Walden went in pursuit of Tucker for abduction of the children and for bigamy. It was learned that Tucker had another living. Walden lost track of Tucker for some time, but at last arrested him at Peasport, a village in Ontario. He was brought down to Mount Albert, and tried before Magistrate Farburn and Shide who committed Tucker to stand his trial for abducting the children and the woman for being an abductor. The constable brought the whole five to the city last night, and the children will be taken to a good lodging house. It is fitting that the city charities will have to care for them.

The case though not a very humorous bearing. It is hard to understand how a woman can be convicted of abducting her own children. Mary McArthur is rather good looking, and she takes the whole thing very jocularly. While the party were being taken to the city, she was laughing over the matter and thought it was a good joke. The charge of bigamy against Tucker was withdrawn, as there was no evidence for it.

Queen's Own Rifles. The Queen's Own Rifles turned out last night in full strength for a parade on the parade ground. Major Miller in command. The regiment, headed by the bugle and brass bands, marched past the front of the post office, then proceeded to the park, and thence by the avenue, Simcoe and King streets to the drill ground. There will be a parade on Monday evening in drill order, and one in review order on Wednesday at 7.15 p.m., when the regiment will march to the military ground and be reviewed through some evolutions by the electric light.

THE DOCTORS' PARLIAMENT.

Annual Session—The President's Address—Tracheotomy.

The Canada medical association met for their fifteenth annual gathering at the city hall last night on the 10th inst. yesterday. The president, Dr. Forwood, in the chair. The morning was spent in routine business. In the afternoon no session was held, the members being engaged in visiting the exhibition. At 7.30 p.m. a good attendance took place, the president being chairman. An address was delivered by the president in which he dwelt on the great advantages to the profession and the public of the meetings of their association. He considered that their program covered a wide area of ground, and as it was of the utmost importance that their discussions should be thorough. In order to forward this he suggested that the association meet in the future at the same place, and that the medical association had exerted the most beneficial influence on the council of the nation. Lord Beaufield had truly said that the first duty of a minister was to look after the people's health and their interests. The government had not done this. It had placed \$10,000 at the disposal of the medical association.

The Mayor of Chicago in Dublin. DUBLIN, Sept. 6.—The lord mayor gave an entertainment at the grand banquet of the Mayor of Chicago. The affair assumed a strong political character. The toast to the mayor, however, was cordially received by the company with a few exceptions. The lord mayor in proposing the health of Mr. Harrison said the entertainment was intended as a significant compliment to the people of America and a personal compliment to the mayor of Chicago.

In reply Mr. Harrison said that the Irish had been in America and a personal compliment to the mayor of Chicago. Hence when the news came that Ireland was struggling for freedom, there was but one feeling in the hearts of the Irish in America, and that was sympathy with struggling Ireland. At the assembly rose and cheered him.
