Bro. James Beaty, the proprietor of the old Leader and Patriot, and the oldest Orangeman in Canada, who carried the first Orange flag in Toronto :

BRETHREN,—On a former occasion I took the liberty to point out to my fellow orangemen the disgraceful way in which they were treated by Sir John A. Macdon-ald and his wire-pullers, who are leaders in the institution, regardless of the prin-ciples and interests of orangeism. Sir John and Mackenzie Bowell are kept in power by the votes and support of the Orange-men, and yet when orangemen had come before Sir John and Brother Bowell for a simple act of common instice. Bro. The Syndicate Financially Crippled—Pro-posed Swap of Bonds—What President Stephen has to say.

Special Despatch to The World. OTTAWA, Jap. 22.-Every one is on the

ui vive to know what the government intend doing to assist the Canadian Pacific ailway, which is now known to be in a ritical financial position. President tephen and Manager Van Horne are here. The former had a long interview with Sir John yesterday. It is stated on excellent authority that he agreed to forego the twenty years' monopoly clause in the charter if he government would advance \$25,000,000 bonds in exchange for Canadian Pacific railway bonds, which the syndicate cannot dispose of. They want the money to carry n construction. Mr. Stephen said the syndicate was now in a position to combat all opposition in the Northwest, and was not now opposed to the construction of other roads. He expressed himself agreeable to the construction of the Hudson Bay railway, and said the development of the Northwest was identical with the interests of the syndicate, which realized that the country was too large for them to develop alone. It is rumored, however, that the Canadian Pacific railway is exerting its influence with Hugh Sutherland to prevent the Hudson Bay scheme going on. It is well known Mr. Sutherland by his conduct is preventing the amalgamation of the ompanies and blocking the scheme in every way.

Men of Peace Blundering Into War.

It is not too much to say that English advocates of peace have frequently proved themselves the most efficient promoters of war. When broken down after the defeat in the Crimea, the Emperor Nicholas of Russia bitterly lamented his folly in behotel. lieving those prophets of peace who had published it to the world that England had lone with war, and would fight no more.

The mischief done was in great part the outcome of the Sydenham exhibition of 1851. Getting enthusiastic over the spectacle of the civilized world gathered together in supposed friendly rivalry in commerce and the arts, the peace men lost their heads, and declared that the millenium had practically begun. During the two or three years following this kind of talk became "all the rage," as we may say, of late. With one assembled wisdom sitin political, social and literary circles of ting here and another at Ottawa, both at vast aggregate influence. Nicholas, only the same time, the Globe and Mail reports superficially informed as to what the bot- of speeches will have to be cut short. "Ottom feeling in England really was, took tawa will of course occupy the biggest urally enough thought that now the time

had come for him to carry out certain long cherished designs, too long delayed by fear of English opposition. He tried it, and found out too late that England would fight, after all. We know what followed : England spent both blood and treasure his deathbed a beaten man. But for the Under the present system they can keep nonsense talked by the peace prophets he indicated; and the Crimean war, with all ducers would be enabled to compete with its sorrows and sufferings on both sides, them, and the monopoly that now exists would have been averted.

Hon. A. MACKENZIE, M.P., Ex-Prime Minister of Canada, President. Hon. A. MORRIS, M.P.P., and J. L. BLAIKIE, Esq., President Can. Landed Credit Co., Vice-Presidents.

The special features of this Company are its Tontine Investment and Semi-Tontine Investment Policies, and its Commercial Endowment Policy.

ITS TONTINE AND SEMI-TONTINE INVESTMENT POLICY

Combine in one form the greatest number of advantages attainable in a Life Assurance policy. They appeal at once to the intelli-gence of all who understand the principles and practice of Life Assurance. All policies, whether on Life or Endowment rates, are subject to no higher charge in Premium Rates in taking the "Tontine or Semi-Tontine Investment" form. The extra benefits of this class are conditioned only on the continuance of the policy for a certain specified term or Tontine period of 10, 15 or 20. years, selected by the insurer himself. Two things most desirable in Life Assurance are the CERTAINTY OF PROTECTION in case of / early death, and PROFITS IN LONG LIFE. These are combined in the Tontine and Semi-Tontine Investment policies of the North American Life Assurance Company.

WM. MCCABE, ESQ.,

WILLIAM MCCABE, Esq., Managing Director, North American Life Assurance Co., Toronto. Dear Sir .- As requested by you, I have examined your "Book of Estimates" in relation to Tontine Savings' Fund Policies, as

issued by your company. The assumed rates of mortality, interest and expenses upon which the estimates of probable results have been based, are less favorable than the experience among Canadian Companies would have justified, while the estimates of surplus are far within the results actually realized by other Companies issuing Tontine Policies, and hence may be anticipated with confidence. In brief, these estimates are, in my opinion, both safe and conservative. Very Respectfully Yours,

BOSTON, Mass., Arg. 31, 1883

Dear Sir.—The paper you have submitted and explained to me, entitled "Commercial Endowment Insurance by Graduated Mortuary Payments and Deposits," sets forth a plan of Life Insurance which I have no hesitation in saying will serve a large class of Insurers better than the usual plan which requires larger payments. These "Graduated Mortuary Payments and Deposits" are quite sufficient for the safety of the Company, and well acaped to

WM. MCCABE, Esq., Managing Director North American Life Assurance Co., Toronto, Ont. Dear Sir.—I have carefully examined your new Commercial Endowment Policy and the leaflet explaining the same. You combine the economical features of insurance by natural premiums, by which the insured pays as he goes and gets what he pays for, with a small charge to secure an endowment payable at the end of the term selected. In this way you avoid the necessity of accumulating large reserves, which of course must render Life Insurance more expensive and yet make the Company secure by the Endowment feature. The plan ought to attract business, as it is both economical and safe

within recent date. After England had put down Arabi Pasha's rebellion it was news did not influence his conduct. Having carried in his head for years the design of rescuing from Egyptian control that vast terra incognita called the Soudan, what could have been better calculated than this to make him believe that his hour had come, and that now was the time to strike? He struck accordingly, and as a result we see a British peace government committed to a new war. For the London press agrees that the despatch of "Chinese Gordon" to the theatre of war, with full powers, and taking his orders from British authorities only, and not from the Khedive, means that Britain accepts the full responsibility of seeing the thing through.

If instead of this it had been published. after the defeat of Arabi, that the whole power of England was pledged to make Egypt quiet and keep it so, would the false prophet ever have made his desperate venture? Alas! he is not the only false prophet, others there are whose deceptive talk of peace has mainly been instrumental in deluding him and his followers. Through their folly it is chiefly that England is now committed to another war. When will the peace prophets get it. through their skulls that England cannot be both wealthy and unarmed at one and the same time ! They are ready enough an advertisement : to boast of England's great wealth and of her commerce upon every sea, but they should remember that the greater her wealth the greater the temptation it offers to rough and ready and warlike foreigners, who are not troubled with peace crotchets. Imagine a man letting it be known, when in some wild country, that he was about to travel through the forest or the wilderness, wholly unarmed, but carrying with him a load of treasure. As the witty Frenchman said of Messieurs les assassins, the fighting elements abroad will have to become peaceful first, ere it will be safe for England to proclaim that she will fight no more. Until that time comes she cannot indulge in indiscreet talk of peace without provoking war. When England talks war then there is peace, but when her talk is all of peace, then look out for war.

Limited Reciprocity.

A deputation composed of Montreal business men, and of some from over the border, have been interviewing the minister of finance and customs on the subject of reciprocity. The American gentlemen at first proposed to make coal and iron ore free, but subsequently lumber and salt were added to the schedule. To include grain and flour would bring up a great question, not easily disposed of, but it has in England. been suggested that reciprocity in the four

The story was, wicked and criminal man for his covetous scheme. No doubt if our mayor and ext mayor had been retained as Ahab's legal counsel they would have advised him to ayply to parliament for an expropriation bill. TESTIMONIALS: MESSRS. R. S. WILLIAMS & SON. GENTLEMEN-Having thoroughly examined the workmanship of your Pianos, I have no hesitation in stating that in my opinion hey are equal to those of any other of the best makers that I have seen. I can only speak in the same high terms regarding their musical qualities, for their fine full singing capability of tone, pleasant touch, etc., being such that it seems to me there is no necessity for the purchasing of foreign Instruments, when our home enterprise can produce such, and at one-third less cost. I am glad to hear that the extensive sale of your Instruments shows that you are meeting with the success that I think you justly deserve.

I am, Gentlemen, your obedient servant, G. W. STRATHY, Mus. Doc.

MESSRS. R. S. WILLIAMS & SON.

GENTLEMEN-I have much pleasure in testifying to the great excellence of your Pianos. I have put them severely to the test, and find them possessed of those qualities of tone and touch so acceptable to the true musician and lover of classical music-a charm-answers readily to every shade of feeling. I consider these instruments a great acquisition in musical society, and am much pleased at finding a piano which I can recom-mend with perfect confidence. I am, Gentlemen; yours very truly.
