RY to picture yourself in the muddy cold trenches after exciting days and long nights of mortal danger and intense nervous strain. Rushing "whiz-bangs" and scream-"coal boxes" are no respecters of persons. You are hit! But despite shock and pain you still can face the long weary trudge back to dressing station. Weary, overwrought and depressed, you are prey to wild imaginings of that other coming ordeal with the surgeon. There are other "walking wounded," too! You must wait, wait, wait. And then-

Up comes a cheery Y.M.C.A. man, the ever-present "big brother" the soldier, with words of manly encouragement. Close beside the dressing station the good generous folks at home have enabled him to set up a canteen. He hands you biscuits, and

In thousands of cases," writes an officer, "it was that first hot cup of coffee that dragged the man back to life and sanity." he tremendous helpfulness of the Y.M.C.A. as an aid to the 'morale," or fighting spirit, of the soldiers is everywhere praised. No wonder the Germans make every effort to smash the Y.M.C.A. huts out of existence.

The Y.M.C.A. is everywhere. You first met the helpful, manly Y.M.C.A. worker in camp, then on train and boat, at camp in England and in France, close to the firing line. Often he risks his life to reach you in the trenches. He has won the warmest praise from military authorities, statesmen-the King! Have you a precious boy at the front? You cannot be "over there' to guide him away from herce temptations of camp and city. You cannot comfort him in his supreme hour of trial. Your parcels to him are necessarily few. To Help Win the War Producing Food

THE CANADA FOOD BOARD urges that at least one extra acre of cultivated crops be grown this year on every farm of Nova Scotia and from five to ten or more additional acres on the larger farms; and that every garden and every possible vacant lot in the town and cities be cultivated.

To assist this, the Agricultural Production Committee of the Provincial Legislature aided in their policy by a grant from the Dominion Goverment announce the following:-

(1). Arrangements have been made for Farmers' Special Credit, by which Bona Fide farmers may obtain loans payable after harvest from Banks for the purpose of purchasing

(2). To secure supplemental labour for farmers — all boys from 15 to 19 years are being recruited as Soldiers of the Soil. Over 2,000 are already enlisted. There are local representatives in every county centre who will supply where possible neighborhood boys or women or other available labour. Farmers' application for such labour should be forwarded free of postage to Arthur S. Barnstead, Organizing Secretary, Food Resources Committee, Hulifax. It is also recommended that every person or firm, such as lumbermen, who have teams of horses or oxen that could be spared at seeding time, should hire these teams with or without teamsters at reasonable terms to farmers, so as to increase the acreage of cultivated crops.

(3). Pusiness Firms and Co-operative Farmers' Associations making application are guaranteed against loss on the unsold surplus of oats, wheat and barley seed. This has already resulted in a satisfactory extra supply of seed being available for farmers through the regular channels of distribution.

(4). To supplement the supply of fertlizer in the hands of established companies, the Department of Agriculture has imported a sustantial quantity of fertilizer to be sold, mainly in carload lots, to centres where supplies are lacking.

(5). Seeds for early maturing Beans, suitable for Eastern and Northern Nova Scotia have been secured and may be purchased at the Agricultural College, Truro, and other centres.

(6). A Bonus is being given on all Two-furrow Plows brought into the Province up to May 1st this year, and purchased by bona-fides farmers; and a like bonus on Seed Drills and Grain Fanning Mills is given in the Cape Breton counties and the shore counties from Guysboro to Digby inclusive.

(7). Seventeen Farm Tractors have been imported to be sold at cost and more will be provided if ordered.

For further imformation and practical bulletins apply to the Secretary for Agriculture, Truro, or the Secretary of Industries and Immigration, Halifax,

The British, the Dominion and the Provincial Governments appeal to every farmer and every citizen of Nova Scotia to do his best.

HE great national duty to-day is to "conserve." It's a duty you owe yourself as well as your country. A duty just as applicable to a house, or building, as it is to the things you eat and wear. Buildings, in fact, show so tremendous an increase in cost, that the importance of keeping them protected is apparent to all who know how steel, wood, brick and cement have jumped in price. And the cheapest protection you can give a building is the kind you apply

The kind we guarantee to possess as its important base, the above correct formula This formula, printed on every can, and guaranteed over our President's signature, commits us to this standard. High in cost as white lead has become, we must use it in the same proportion as heretofore. To use less of it, would ne cessitate the removal of the guarantee from our cans-and to do that would injure the reputation that these paints have acquired by reason of their superior ingredients. It is by using pure white lead and pure white zinc in such liberal quantities that we have been able to produce a paint that truly excels in covering capacity—and that stands the severe "climate test" of Canada in a way that spells true economy for all who use it.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric,

Drops and Soothing Syrups. It is pleasant. It contains

neither Opium, Morphine nor other narcotic substance. Its

age is its guarantee. For more than thirty years it has

been in constant use for the relief of Constipation, Flatulency,

Wind Colic and Diarrhoea; allaying Feverishness arising

therefrom, and by regulating the Stomach and Bowels, aids

the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

DEATH OF FRED A. CROAKER

The Passing Away of This Popular Young Man Has Cast a Gloom Over Middleton and Many

Parts of the Province

[Middleton Outlook.] Unusual anxiety quickly spread over our town last week, when it was learned that the life of Fred, only son of Dr. T. A. and Mrs. Croaker, was hanging in the balance.

Junior Class of Acadia College, came home on Good Friday, March 29th, to spend the Easter holidays. Death of Charles Victor Falkinham.

After only three days' illness with heart trouble, Charles Victor Falkinham, aged 26 years, died while en route from Galeta, Ont., to his former home in Dalhousie, Annapolis Co. He had resided in Ontario for two years and was returning to his native village, where he expected to enjoy a short vacation. He is survived y a widow, formerly Miss Addie Judge, of Torbrook Mines, and one child. He also leaves, besides his parents at Dalhousie, one brother, Robie, in England, and another brother, Forest, in France. The third brother was killed in action a year ago. The remains were brought to Bridgetown Wednesday. Interment took place in the West Dalhousie Methodist cemetery, Rev. A. R. Reynolds officiating.

Bridgetown's Foundry.

While the town of Bridgetown would no doubt grant a fixed assessment on Mr. L. M. Trask's foundry property and also a nominal water tax, he is moving a portion of the machinery to Yarmouth, the boiler and engine being left with the plant. It is possible that after legal formalities have been arranged for the above concessions on the part of the town that Mr. Trask will re-open the foundry here and start up a business which will prove of great benefit to all of us. We trust that this latter possibility will materialize in the very near future.

LIKE AN ELECTRIC BUTTON ON TOES

Tells Why a Corn is so Painful an Says Cutting Makes Them Grow

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn, it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few dropsapplied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezone, is harmless and never inflames or even irritates the surrounding skin.

The Quality Goes Clear Through

Building the Gray-Dortfinishing the body in our body plant.

Value 100%

The best motor car in the world sells for far more than you probably are willing to pay for a car. But there is a car within reach of your purse that offers you just as great perhaps greater value as the highest priced cars. That car is the Grav-Dort.

When you buy a Gray-Dort you buy more than a commercial product. You buy a motor car that must uphold the prestige of the two honored names it bears. The names Gray and Dort are worth far more to us than the profit on a car. That is why every Gray-Dort car must be a good car—a car worthy of the institutions that built it. That is why every Gray-Dort owner must enjoy unlimited pleasure, freedom from trouble. That is why you will receive 100% value for the money you invest in a Gray-Dort.

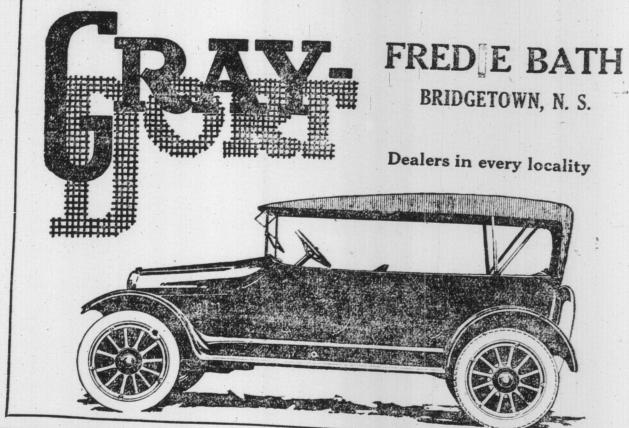

The new Gray Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been given this model.

The five-passenger touring car is \$1.125; the three-passenger fleur-de-lys roadster is \$995; the Gray-Dort special, beautifully finished, and with extra details of equipment, is \$125 above the list. All prices are f.o.b. Chatham. GRAY-DORT MOTORS, LTD

The training days for George were a wonderful experience. For the first time in his life he had intimate contact and association with men—this day in and day

stof-door work, the discipline, the ac-Thanks to a good upbringing, and the possession of high ideals, young Taylor kept his soul pure and his conduct untarnished. Then on a day he sailed away.

At Witley Camp, Taylor learned something of the sternness and grimness of his training. Something of the light-heart. The letter—part of it—is: edness left him—you could see it in the letters he sent home. After a time the letters grew less frequent, and an oppression of anxiety and dread took hold of the mother's heart. She feared that her son -her only son-might be wavering in his allegiance to virtue and his earlier ideals. Also, there was the gnawing fear that he would not come back. What letters George sent home were always written on

George Edgeworth Taylor heard the fifes and drums many a day through the hour of life's climax—he will be going the hour of life's climax—he will be going the hour of life's climax—he will be going that he had not be the hour of life's climax—he will be going that he had not be the hour of life's climax—he will be going that he had not be the hour of life's climax—he will be going that he had not be the hour of life's climax—he will be going the hour windows of his school. He saw the men in khaki go swinging by up the avenue almost daily. He had heard the sergeant's commands to the men they trained so often that he felt he could instruct a squad himself. On creat days, when thousands a time that seems far remote. Most of himself. On great days, when thousands of troops marched for review, his soul all do his thoughts go out to the beloved was on fire. When his eighteenth birth mother, and the sweet little sister of ten, whom he left-was it only five months ago!-to do his bit in France. When the letters are done, a communion service will be held—a tender and comforting service that cleanses the soul.

cises, the lighthearted barrack-room days to Canada, and to his mother and little -all contributed to the exaltation of his spirit, and always was the eagerness to go overseas. No tales of war, no sights of shattered men, dulled his youthful ardor.

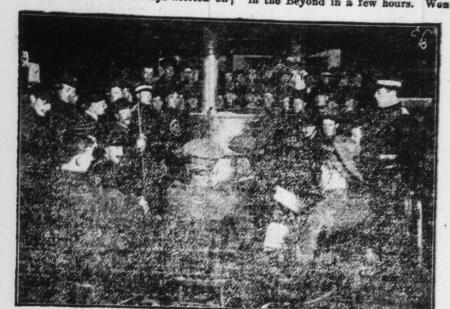

Thanks to a good unbridged barrack-room days to Canada, and to his mother and little sister, an empty sleeve will be pinned to his pocket. But he will wear a decoration—for valor. Perhaps that is worth the loss of an arm.

The last letter that George wrote to his nother—in the Hut—a few hours before he went over the top, reached her, days after the cable was received telling her "DEAREST OF MOTHERS AND DEAREST

"To-morrow at dawn we attack. It means going over the top for me. I may go down. I hope to get through, but that is in God's hands.

It is an interesting thing that the piece of German frightfulness which comes nearest to being legitimate warfare namely, the bombardment of Paris with a long range gun or guns, is precisely the thing which is arousing the resolution and desperate enmity of the French people most decisively. The great shell which dropped upon the church in Paris during the progress of the sacred Good Friday tenebrae, engulfing hundreds of worshippers, has not sacred Paris at all. Eviwit for months. The physical drill, the proof door work, the discipline, the according to the point of facility in his training exercises, the lighthearted harrock room days.

George Edgeworth Taylor is in a hospital in England. He will get better of his wounds, but when he goes back home though the bombardment though the bombardment continues. On the contrary, the people are nerved by their deep indignation to stay and take their chances. A church, as an architect has pointed out is the most dangerous of places during a bombardment, because the whole roof may be so disturbed by a single shot that it will be crushed in as this one was. But the people will go to church all the more for that. If the sacredness of the worship of the most sacred of days is to be punctuated by such hideous attack, the French public is resolved upon nothing less than defiance. The big gun is a reality, and there may be others in store. But its military effect is trifling. The Germans are aware of that. Shell bursting here and there, a building destroyed, a hundred civilians butchered does not mean the slightest military advantage. The whole purpose of the thing is to induce a panic among the Parisian populace. But it has exactly the opposite effect. It is nerving them nobly to the supreme resistance. The Germans therefore, might just as well have tur ed their guns on Berlin itself.

NO ALCOHOL IN GIN PILLS

Many have wondered how the famous the Doukhobors' own model old household remedy, Gin Pills, de-factory, which is noted for the Minard's Liniment relieves Neuralgia rived its name, since obviously there could be no spirits contained in pill form. The origin of Gin Pills can be traced to Gin, which has for a great many years been recognized for its medicinal qualities, particularly its beneficial effects on Kidney complaints. But in the first place there are many

who have conscientious objections to taking alcohol, even as a medicine. Secondly, the curative agent of Gin operates in spite of the alcohol, not because the alcohol is a help to the cure. Investigations were made to determine just what it was in Gin that tended to relieve Rheumatism, Lumbago, Sciatica, Backache, Swollen Joints, Constant Headaches and all disorders arising from the kidneys, bladder and urinary system. This active agent, separated from the diuretics and given the name of Gin Pills, for which a demand has grown greater than for any other medicine in Gin Pills have a wonderful ecord of success and anyone applying the manufacturers can obtain copies of the testimonials received. Gin Pills are sold by all dealers every-

New Parsonage at Hantsport

The Baptist congregation at Hantsport has purchased the beautiful residence owned by Gordon Churchill, for a parsonage. This house adjoins the church, and there is probably no finer Baptist parsonage in Nova Scotia. The church will take possession on the first of June. The church had obligated itself to buy a lot adjoining Mayor Sterling's store and intended to build thereon, but Mr. Sterling kindly released the church from its obligation. The Mercedes hails from Weymouth and was purchased by Mr. Hicks several years ago. We wish Capt. Blenkhorn better success than he had with one of the Melanson fleet out of St. Mary's Bay and the schooner Cora B. from St. John, both of which were wrecked.

The new steamer, Vera B. Collins, launched at Wedgeport, is at the Burrell-Johnson wharf, Yarmouth, to receive her power plant. She resembles somewhat the ill-fated Noreg I, built last year, but is a little larger She will be a valuable addition to the coastal freight steamers.
