LINTON & COOPER,
MANUFACTURERS AND WHOLE-
SALE DEALERS IN BOOTS AND SHOES
306, 308 & 310 St. Paul st., Montreal.
We invite the attention of Merchants, East and West,
to our large and varied stock of Boots and Shoes now
on hand, and in process of manufacture for the Spring
trade. Goods in every conceivable style will be found
in our establishment, from the finest Kid or Satin
Gaiter, to the strongest Stoga or Hungarian Boot.
Men's, Boys', Youths', Ladies', Misses' and Children's
wear, in over 200 different patterns. Special notice is
requested to the fact that all our goods are hand-made,
and of the very best material. The introduction of
Pegging Machines having thrown a large number of
workmen out of employment, and consequently re-
duced the cost of labor, we are thereby enabled to
manufacture neater and more substantial Boots and
Shoes, at no greater cost than if made by machinery;
and are prepared to offer the choicest goods at the
very lowest possible figures.
Orders personally or by Post, will have our immedi-
ate and most careful attention. 1-ly

J. TIFFIN & SONS,
GENERAL MERCHANTS, IMPORT-
ERS OF TEAS, SUGARS, and GENERAL GRO-
CERIES, WINES, BRANDY, &c., Nos. 184 and 186 St.

6m-28

KERSHAW & EDWARDS,

ESTABLISHED

YEAR 1838.

IMPROVED FIRE PROOF SAFE.

The favor these Safes have won by their many and severe trials during the last quarter of a century, from the fact that not one has ever failed in preserving its contents, thoroughly establishes their reliability, and with recent improvements made during the past two years, we offer them as the most perfect Fire Proof security extant, and free from dampness.

Our Burglar Proof Specie Boxes made of combined iron and steel in a manner peculiarly our own, the steel so highly tempered and placed as to be beyond the reach of, and defy the tools of the most ingenious burglars, and when placed inside of one of our Fire Proofs produce a most perfect Fire and Burglar Proof security. Merchants having large amounts of silver on hand should not be without one.

We also manufacture Patent Combination Bank Locks, and the most modern Bank and other securities.

Lists of sizes and prices mailed on application.

KERSHAW & EDWARDS,

1-ly 82, 84 & 86, St. Francois Xavier street, Montreal.

TO WESTERN SHIPPERS OF PRODUCE TO MONTREAL OR GREAT BRITAIN

MONTREAL, August, 1866.
GENTLEMEN,—The altered state of reciprocal trade with the United States will probably cause you to direct more of your attention than heretofore to this market, as an outlet for your Produce.

Without desiring to intrude upon any established arrangements you may have with correspondents here, yet inasmuch as you may be seeking new correspondents, we beg to bring our name before you, and to express our willingness to undertake the sale of any description of Produce which you may be desirous of sending to this market.

Having been in the business as Brokers and Commission Merchants, since 1845, we can offer every advantage as well as every guarantee which experience gives. References can be furnished if required; and we shall be happy to correspond with parties disposed to favor us with their consignments of Flour, Grain, Ashes, Butter, and articles of Produce, and Provisions generally.

We can offer advantages for the sale of Produce through our friends in Britain.

We are, respectfully yours,

TAYLOR BROS.,

18 St. Sacrament Street.

N. B.—We are also Brokers for Sale and Purchase of Stocks and Securities.

T. B.

WILLIAM NIVIN & CO.,

COMMISSION MERCHANTS AND

SHIPPING AGENTS, purchase and sell all descriptions of Produce on Commission, and likewise advance on consignments of same made to their friends in London, Liverpool, and Glasgow.

Also are prepared to import on Commission and on favorable terms, all description of Groceries, Drugs, Oils and Paints, having first class connections in Great Britain for the execution of such orders.

Montreal, St. Sacrament and St. Nicholas streets. 1-ly

THE TRADE REVIEW.

MONTREAL, FRIDAY, SEPTEMBER 21, 1866.

THE BANK OF UPPER CANADA.

WE regret to announce the failure of the Bank of Upper Canada. This bank has gradually been losing public confidence for a long time; the stringency of the money market brought its affairs to a crisis; a run upon it by bill-holders commenced; and after paying out specie until 11 o'clock on the 19th instant, the bank at Toronto and its branches closed the doors. The Directors have not yet issued any statement, but the bank will undoubtedly go into liquidation. In the difficulties experienced by the institution the past three years it must have lost much of its valuable business connection. In consequence of severe losses the shares were reduced, a few years ago, from \$50 to 30; and during the last session of Parliament power was obtained to further cut them down to \$20. For two years no dividend has been paid, and the value of the stock in the market for some time has not exceeded \$3 per share.

The depositors and holders of its notes will probably be paid nearly in full, and ought at present, we think, to obtain 75 to 80c. on the dollar, as present value.

The condition of the bank, as set forth in the state ment to the Provincial Auditor, 31st July, 1866, is as follows:—

LIABILITIES.	
Promissory Notes in circulation.....	\$ 888,056
Balances due other Banks.....	309,770
Cash deposits not bearing interest.....	677,102
Cash deposits bearing interest.....	1,800,748
	\$3,785,676

ASSETS.	
Coin and Bullion.....	\$ 367,044
Landed and other property.....	1,632,958
Government Securities.....	196,126
Promissory Notes or Bills of other Banks.....	84,152
Balances due from other Banks.....	22,869
Notes and Bills discounted.....	2,531,226
Other debts due to the Bank.....	894,295
	\$6,728,670

When we add to these assets the paid-up capital of the bank \$1,937,287, and take into account the double liability of the stockholders to other creditors, the note-holders and other creditors of the bank will perceive that they have a large margin over one hundred per cent. of the liabilities.

The bank felt the severe pressure in the money market which for some time has existed in a serious degree. From the 1st of last August its circulation was reduced \$150,000; its deposits were reduced over half a million, and its coin from \$367,044 to about 100,000. The bank, feeling its dangerous condition, made known its situation, and applied to the Government, last week, for assistance. The Government advanced it \$50,000. Its manager (Mr. Cassels) asked

MORLAND, WATSON & CO. IRON MERCHANTS,

KIRKWOOD, LIVINGSTONE & CO., PRODUCE, LEATHER AND GENERAL COMMISSION MERCHANTS,

No. 563 St. Paul Street, MONTREAL.

CONSIGNMENTS Carefully realised and returns promptly made.

ADVANCES—Cash advances made, and Drafts authorized on all descriptions of Produce consigned for Sale in this or British Markets.

ORDERS—Personal and careful at ention given to the execution of orders for Flour, Grain, Leather, Provisions, Oil, and General Merchandize.

\$50,000 more; but the bank not receiving this latter amount, and the run upon it still continuing, the doors were closed.

This bank is one of the oldest in Upper Canada, and for nearly twenty-five years has been a leading institution. Its failure is an unfortunate circumstance in many respects, and will no doubt produce some inconvenience and embarrassment.

A cotemporary very truly remarks that its greatest misfortune originated in its departure from the regular and legitimate banking, discount and exchange business, to loan money on inconvertible real estate,—wild lands which offered about as good security for present realization as Arctic ice, and village lots where villages have never grown. Its present Directors have struggled with great perseverance to overcome this mistake, and had it not been for the removal of the Government deposits three years ago, they might possibly have succeeded. Since that period the bank has had to pass an ordeal of uncommon severity, which would have crushed it sooner had it not retained a remarkable share of popular affection. It was, *par excellence*, the people's and farmers' bank in the Western Province, and people clung to it even in the hardest times. This is fully exemplified in the large amount due to its depositors, and the unhesitating manner in which its notes passed current until within a few days. The Grand Trunk Railway followed the example of the Government some months ago, and removed its account from the Bank of Upper Canada to the Bank of Montreal, we believe. The Great Western Railway also removed its account a very short time ago—so late, we believe, as last week—going back to the Commercial Bank, with which it has so long been at war, but is now again at peace. The removal of these three—by far its largest accounts—has, of course, had a good deal to do with the present crash. We believe the Bank of Upper Canada is the first chartered bank which has failed in the Province.

We have just received the Toronto *Globe* of the 19th instant, and find in it the following remarks:—

“Let it be clearly understood that not one shilling of loss can possibly result to the public from the stoppage of the Bank of Upper Canada. The stockholders may lose part of their capital, possibly the whole of it, but the bill-holders and depositors must be paid every penny that is due them. The assets of the bank are amply sufficient to pay all its creditors; and even were it not so, the stockholders are a large and wealthy body, and they are personally responsible for the debts of the bank to double the amount of stock they hold.

“Let not, then, any holder of Upper Canada Bank bills, or any depositor, sacrifice his debt under the influence of panic. The worst that can happen to him is to be kept out of his money for a time. The whole amount of notes in circulation is about \$750,000; the deposits of individuals make up nearly the same amount; and the debt due the Government is about \$1,200,000. The whole liabilities of the bank are under three millions of dollars. To meet this, there is, specie, \$100,000; Government debentures, \$200,000; Postal and Municipal debentures, \$400,000; Bills Receivable, \$2,500,000, and Real Estate, \$1,750,000. No doubt it will take a considerable time to realize these assets; but in the meantime the promissory notes held by the bank will be maturing, the bills of the bank must be taken in payment of these notes, and thus the bank note circulation will be very soon absorbed.”

FACTS WORTH KNOWING.

[No. 2]

CANADA has many institutions of which we have reason to feel proud. Much could be said in praise of our Political, Scholastic, and Religious Institutions. These are all creditable to us as a people, but there is none which has proved more serviceable than

OUR CHARTERED BANKS.

These number eighteen, and they had a paid-up capital of \$30,744,167 at the close of the year. Their average liabilities during 1865 was \$37,676,213, to pay which they possessed assets to no less than \$68,291,795. The public could want no better guarantee of the soundness of these institutions than the above figures exhibit. Their "average assets" were made up as follows:

Table with 2 columns: Asset Category and Amount. Includes Notes and Bills discounted, Coin and Bullion, Government Securities, Landed and other Property, Balances from other Banks, Other debts due, and Notes or Bills of other Banks.

Total assets ... \$68,291,795 12
Next month (October), the largest expansion of our bank circulation generally takes place. Last year it reached no less than \$14,158,313. This arose mainly from the large crops which required to be moved to the American market before the Reciprocity Treaty closed. The average circulation during the twelve months was only \$9,818,962, which shows there was an expansion during October last of nearly \$4,500,000 that there will be as great an expansion this season as, we think, rather doubtful.

THE STRANGE OR SUSPICIOUS DEATHS

which took place throughout Canada last year were 1,463, which is a smaller number than during either of the two preceding years. The number of Coroner's Inquests held was 1,469; on 24 of the bodies found, it was not deemed necessary to make an investigation. The verdicts given in the two sections of the Province were as follows:—

Table with 3 columns: Cause of Death, Number of Cases, and Percentage. Includes Found dead—cause not stated, Suicide, Murder, Manslaughter, Infanticide, Drowned, Natural Causes, Intemperance, Burned or Scalded, Frozen, Killed on Railways, Killed by Horses and Carriages, and Other Accidental Deaths.

This is a melancholy array, and we fear that intemperance has had far more to do in the work than appears by the above. It is painful to think how many strange deaths are directly attributable to the intoxicating cup. The cost of these inquests to the country was nearly \$20,000 the exact amounts being \$16,931 for Coroner's fees and expenses, and \$3,652 for Constables' services.

VERY POPULAR INSTITUTIONS

are Building Societies, if we may judge of the fact that our "blue book" contains returns from 25 of them. In saying this, we refer to the Shareholders; as to whether the borrowers from some of them see things in the same light, why—ask themselves! Their total liabilities during 1865 was \$3,233,985, which was made up of the following items:—

Table with 2 columns: Item and Amount. Includes Stock paid up, Deposits, Dividends unpaid, Interest on deposits unpaid, Balance—profits of past year, and Miscellaneous.

Their assets are set down at the same amount, and consist of mortgages, municipal debentures, stock in banks, and miscellaneous items. These societies are divided into two classes—one class being known as "permanent," and the other as "terminable." Of the former there are 18, and of the latter seven—the permanent ones controlling over three millions of the capital specified above. Some of the dividends declared in 1865 were as high as 12 per cent., and several were 10. Either of these rates must be considered very handsome profits.

A DISPLAY OF ELECTRICITY

Will make a good ending to this instalment of "Facts Worth Knowing," and we have therefore to say, that we have three Telegraph Companies in Canada, and 5,457 miles of wire erected, with 331 stations, and 370 instruments. The Montreal Company is the most important, as it is the oldest, and sent 444,173 messages last year. This was over 100,000 more than were sent in 1863. The Provincial Company has been started more recently, and sent about 25,000 messages. The third Company doing business in Canada is the Vermont and Boston Company, 43 miles of whose line is within our territory.

LETTER FROM ENGLAND.

COMMERCIAL REVIEW.

(Special Correspondence of the Trade Review.)

[PER CHINA.]

THE favourable state of the Bank of England returns has amply justified the bank in reducing the discount rate, on Thursday, from 7 to 6 per cent., and the Bank of France has also reduced from 3 1/2 to 3. A further reduction by the Bank of England is expected next Thursday, and the banks and discount houses are taking good paper considerably under the bank minimum. The state of the harvest which promises to be a fair average one, is also in favor of, at least, a moderate rate for money; and, indeed many people anticipate that not merely will we have a moderate rate but an extraordinarily low rate during the winter. They point, among other symptoms, to the great accumulation of gold in the Bank of France and certainly the probabilities of a very low rate are much greater than they were a month ago. On the other hand the trade of the country, although it has received a check, continues wonderfully good as is evidenced by the satisfactory railway returns, and by the returns from the Board of Trade. These have first been published, and show the following result. The completed real value of the imports for the month of June, and for the six months ended 30th June are—

Table with 3 columns: Year, June, and Six months. Shows values for 1866, 1865, and 1864.

It will be seen that the imports for the month of June were very large, and this was no doubt partly the result of traders here calling in their foreign debts. Of course, to pay these debts other countries would have to send us their produce, and thus help to swell our imports.

The declared value of the exports for the month of July, and for the seven months ended 30th July, are as follows:—

Table with 3 columns: Year, July, and Seven months. Shows values for 1866, 1865, and 1864.

General trade is, as usual, quiet at this holiday season of the year, the tendency of prices is, however, upward, and we may expect in the autumn and winter months as large a trade and a much more healthy one than for some time past. The revelations already made in the case of Overend, Gurney & Co., show how unsound a portion of the trade of the country was, and although this unsoundness was confined chiefly to the class of railway contractors and financiers, and to the speculators in iron, it served to make all business feverish and irregular. The evils of these wild speculations are not confined to the speculators or their creditors: they extend over the whole trade, and for years keep down the profits of legitimate traders. Nor are they confined to any one trade; but by the indefinite ramifications of that mysterious thing credit, every branch of trade and enterprise is affected. The periodical closing up to which, from various causes the trade of Great Britain is subjected, will, on this occasion as on former ones, only lead to a better trade, and it is probably more speedily than on any former occasion, as the crisis was rather a financial than a mercantile one.

The returns from the Bank of England for this week, when compared with those for last week, present the following results:—

Table with 4 columns: Item, Amount, Increase, and Decrease. Includes Public deposits, Private deposits, Government securities, Other securities, Notes in circulation, Bullion, and Reserve.

There has been a net increase in the deposits of £43,000, whilst the securities have decreased £951,000. These changes have resulted in an increase in reserve of £1,343,000.

The following are the Bank of France returns:

Table with 3 columns: Item, Increase, and Decrease. Includes Treasury Balance, Current Accounts, The Advance, Commercial Bills, and The Cash.

The Cash in the Bank of France has again experienced an increase, although a slight one. In other respects the changes in the return are not of a remarkable character.

The cotton market during the week has been quiet, and without much change in prices. The sales in Liv-

erpool for the week amount to 64,600 bales, of which the trade took 40,600. The stock is now estimated at 880,300 bales, being an increase of 15,000 bales. Manchester market has been dull, and although yesterday a better feeling prevailed, prices were still in favor of buyers.

The corn market has been influenced by the favorable prospects of the harvest, and transactions have been on a limited scale.

The funds have been very steady during the week, and Consols close firm at an advance of about 1/4. Railway stocks have been very active, and in nearly every case have advanced. In Colonial securities there has been little change, and to-day the rumors of another Fenian invasion have had an unfavorable effect upon Canadian stocks. Great Western have been dull all week, owing to the small traffic returns for some time back.

STATEMENT OF BANKS.

Return of the average amount of Liabilities and Assets of the Bank of Montreal, being under Charter, for the month of August, 1866.

Table with 3 columns: Category, Amount, and Percentage. Divided into LIABILITIES and ASSETS. Includes Promissory Notes, Bills of Exchange, Balances due to other Banks, Cash deposits, etc.

Bank of Montreal, Montreal, 13th September, 1866. E. H. KING, General Manager.

Return of the average amount of Liabilities and Assets of the Commercial Bank of Canada, during the period from the 1st August to 31st August, 1866, in conformity with Acts 18th and 20th Vict. Cap. 126.

Table with 3 columns: Category, Amount, and Percentage. Divided into LIABILITIES and ASSETS. Includes Promissory Notes, Bills of Exchange, Balances due to other Banks, Cash deposits, etc.

Commercial Bank of Canada, Kingston, 3rd September, 1866. C. S. ROSS, Cashier.

Return of the average amount of Liabilities and Assets of the Ontario Bank, during the period from the 1st August to the 31st August, one thousand eight hundred and sixty-six in conformity with Act 24th Vict., Cap. 125.

Table with 3 columns: Category, Amount, and Percentage. Divided into LIABILITIES and ASSETS. Includes Promissory Notes, Bills of Exchange, Balances due to other Banks, Cash deposits, etc.

Ontario Bank, Bowmanville, 12th September, 1866. D. FISHER, Cashier.

Return of the average amount of Liabilities and Assets of the City Bank, made in conformity with Acts 4th and 5th Vict. Cap. 97 and 18 Vict., Cap. 41, for the month ending 31st August, 1866.

Table with 3 columns: Category, Amount, and Percentage. Divided into LIABILITIES and ASSETS. Includes Promissory Notes, Bills of Exchange, Balances due to other Banks, Cash deposits, etc.

City Bank, Montreal, 3rd September, 1866. F. MACCULLOCH, Cashier.

BOARD OF TRADE RETURNS, GREAT BRITAIN.

MIDLAND MANUFACTURES IN THE TRADE OF JULY.

The Board of Trade Returns for the month, and seven months ending July 31st, were published on Thursday; and they may be pronounced comparatively favourable when compared with the returns of the corresponding periods of the two previous years. The exports show favourably contrasted with the month of July, but compared with the months of March, April and May, a decline, comparatively slight, however, becomes apparent. The decline has been in coals, culm, cotton yarn, hardware and cutlery, linen yarn, linen manufactures, seed oil, silk manufactures, British spirits, and woollen and worsted yarn. Regarding imports we find an increase in clocks, watches, hemp, leather manufactures, raw cotton, wine, sugar, and tallow. In flax there has been a falling-off, animals, guano, flax seed and linsed, raw silk, wool, woollen manufactures, cocoa, coffee, spirits and tea. In cereals an increase has taken place, more wheat, peas, Indian corn, wheat meal and flour, having been imported; barley, oats and beans, however, show a decrease. Excepting lard, there has been a decrease in all kinds of provisions. In lard a slight decrease is observable. From the foregoing remarks, together with the following tables, it will be seen that the expectations raised by the favourable state and prospects of trade in the month of March has not been realised. This decline is, doubtless, in a great measure owing to the recent outbreak of hostilities upon the Continent. The following table exhibits the total value of British exports in each of the first seven months of the last three years:—

Table with 3 columns: Year (1864, 1865, 1866), and 7 rows of months (January to July) with values in £.

The total declared value of British and Irish produce exported during the seven months of the last three years ending on the 31st of July is thus given:—

Table with 3 columns: Year (1864, 1865, 1866), and 2 rows: Enumerated articles, Unenumerated articles.

All articles... 92,441,950 88,242,048 107,816,664 From this it will be seen that the total for the first seven months is favourable when contrasted with the first seven months of 1864 and 1865, and it will also be observable that in these three months we have exported nearly fifteen millions and a half more than we did in 1864, and upwards of nineteen millions and a half over the exports of 1865.

The following table shows the exports of metals:

Table with 3 columns: Year (1864, 1865, 1866), and 11 rows of metal types (Iron, Bar, Railroad, Iron wire, etc.).

Total of iron and unwrought steel... £1,234,356 1,187,982 1,302,072

Copper, unwrought... 71,266 96,965 42,033

Wrought copper & yellow metal... 258,123 156,560 141,778

Wrought copper of other sorts... 14,562 15,238 26,180

Brass of all sorts... 14,302 17,144 15,982

Total of copper and brass... 358,343 285,853 225,873

Lead... 51,932 47,497 54,234

Lead ore... 15,252 15,681 21,415

Tin, unwrought... 86,103 49,791 24,352

Tin plates... 84,192 112,994 172,676

Zinc... 7,733 6,912 7,019

Of pig and puddled iron the increase of exports has been to France and the United States only; and the decrease to Prussia, Holland, and other countries not named. The increase in bar, angle, bolt and rod iron, has been to Turkey, the United States, British North America and British India; and the decrease has been to the Hanse Towns, Holland, France, Sardinia, Naples, Sicily, Australia, and other countries. The increase in railroad iron has been to Russia, the United States, British North America, British India and Australia; and the decrease has been to Sweden, Prussia, France, Spain, and the Canaries, Cuba, Brazil, Chili, and other countries. In this article, the increase to British India has risen from £63,250, in 1865, to £164,859, in 1866. In iron castings the increase has been to the United States and Brazil only, and the decrease has been to Russia, France, British India, Australia and other countries. In iron hoops, s, eets and boiler plates, the increase has been to Prussia, Holland, France, the United States, British North America, British India and Australia, and the decrease has been to Russia, the Hanse Towns, Spain and the Canaries, and other countries. In wrought iron of all sorts the increase has been to Russia, Prussia, France, Spain and the Canaries, the United States, British North America, British India and Australia, and the decrease has been to the Hanse Towns, Holland, British Possessions in South Africa and other countries. The increase in unwrought steel has been to the United

States and other countries, and the only decrease has been to France. The increase in unwrought copper has been to some countries which are not named, and the decrease in this article—a decrease which is very large—has been to Holland, Belgium, France, and British India. The increase in wrought copper and yellow metal has been to Holland, France, the United States, and British India, and the decrease has been to the Hanse Towns, Sardinia, Turkey, Egypt, and other countries. The increase in lead has been to Russia, China, and Hong-Kong, Australia, and other countries, and the decrease has been to France, the United States and British India. The increase in unwrought tin has been to France only, and the decrease has been to Russia, Turkey, and other countries. The increase in tin-plates has been to France, the United States, and British North America, and the decrease has been to Australia and other countries. The increase in the exports of these plates to the United States has risen from £64,451 in 1865, to £134,254 in 1866.

We append the table showing the exports of certain articles not yet enumerated:—

Table with 3 columns: Year (1864, 1865, 1866), and 25 rows of various goods (Apparel, Beer, Railway, etc.).

The exports of ammunition, arms, and military stores were as follows:

Table with 3 columns: Year (1864, 1865, 1866), and 5 rows of military items (Fire-arms, Gunpowder, etc.).

For the seven first months of each of the three last years the exports of arms, ammunition, and military stores were as follows:

Table with 3 columns: Year (1864, 1865, 1866), and 5 rows of military items (Fire-arms, Gunpowder, etc.).

Regarding imports, brought forward to the end of July only, we find they are highly satisfactory, proving as they do that in June, 1866, there were exported more than in the June of 1864 nearly £1,750,000, and compared with the June of 1865, by upwards of £7,500,000. From this it will be seen that the imports in June, 1866, reached a higher amount than in any corresponding period of the past three years.

The following is an abstract of the total value of the enumerated imports of each month:—

Table with 3 columns: Year (1864, 1865, 1866), and 6 rows of months (January to June) with values in £.

The total real value of the enumerated imported articles for the six months ending the 30th of June in each of the last three years is thus given:—

Table with 3 columns: Year (1864, 1865, 1866), and 1 row: Total value.

From this we find that in the first half-year of 1866 the imports amounted to £16,600,000 more than in the first half-year of 1864, and nearly £40,000,000 more than in the corresponding period of 1865.

The metallic imports were as follows:—

Table with 3 columns: Year (1864, 1865, 1866), and 7 rows of metals (Copper, Iron, Steel, etc.).

The following were among the miscellaneous imports:—

Table with 3 columns: Year (1864, 1865, 1866), and 7 rows of miscellaneous goods (Quicksilver, Saltpetre, Wheat, etc.).

Table with 3 columns: Year (1864, 1865, 1866), and 10 rows of agricultural products (Indian Corn, Wheat, Flour, etc.).

THE CROPS OF 1866 IN ENGLAND.

M. R. Turner, of Richmond, Yorkshire, reports as follows in a letter to the Times on the crops of 1866:—

"The weather during the summer has been generally dull, and all grain crops show a want of sunshine, especially in the midland and northern counties, by the absence of brightness in the straw and by the slowness with which the corn ripens. Great progress has been made with harvest work in the southern counties, where a large portion of the crop of white corn has been safely carried. In the midland counties much of the crop has been cut, and a good deal carried; while in the northern counties reaping has commenced in the earlier districts, none has been carried, and a great deal of grain will not be ripe for one or two weeks yet. It will thus be seen that we are to have a lingering harvest, and I think throughout the whole kingdom it will be a fortnight later than was the harvest last year. The crop of wheat on good land is heavy; on moderate, undrained, and badly-farmed land the crop is light, and in many places much broken down by the heavy winds prevailing early in this month. Over the whole country I think the wheat crop is nearly but not quite an average one. What has been carried up to this time is perfectly sound, but much of it is not dry enough to grind yet. The oat crop varies very greatly, and is, I think, scarcely an average one. Barley is an excellent crop—above an average; and in many of the best malting districts the crop has been carried in fair condition. I expect the sample will prove very good. Beans and peas are an average crop. The prospect for turnips varies considerably. In some parts of Northumberland they have grown badly, while in Cumberland and Yorkshire the promise of an abundant crop of this most valuable root is greater than it has been for many years. Over the whole country I am persuaded we shall have more than an average crop. Mangolds are very good, and I cannot help thinking our farmers would find it profitable to have more of this root than they have lately grown. It can be grown when turnips are very uncertain, and when the land is well cultivated and the seed well put in the return on much ground is far heavier, and the root quite as valuable for dairy or fattening purposes, as turnips. The potato crop is very promising, but very little of the general field crop for winter use has been taken up yet. Thus far very little disease has appeared. The hay harvest has been a lingering one. Crops were generally good, and when the grass was cut early the hay was easily made, and secured in excellent condition; when the grass was cut late, much of it has been seriously injured. Pastures are everywhere good, and there is much grass in them. A saddening fear, however, comes over one when looking at some of those beautiful green fields in Cheshire, that part of the luxuriance of this grass may arise from the land being too lightly stocked, in consequence of the ravages of the rinderpest. In a year like this, wet and badly-farmed lands show themselves very conspicuously by lateness in ripening the crops, and by the appearance of docks, thistles, and other weeds above the grain, where they are allowed first to perfect and then shed their seeds. Farmers, as a body, and old farmers especially, do not move readily out of the beaten course pursued by their forefathers; but one clings to the hope that when good and successful examples of cultivation and cropping are brought directly under their eyes, they will in time be led to imitate them. In many districts landowners have introduced improved implements, and have shown by their use, combined with a liberal application of imported manures, that heavy crops can be grown on what had previously been deemed very moderate land."

Steam Rollers for Pavements.

A series of experiments has been conducted for some time past by the municipality of Paris, in order to test the comparative merits of the Lemoine and Ballaisson steam locomotives, employed in crushing and consolidating the broken granite laid on the streets of that city. It has at last been decided that the Ballaisson locomotive is the better of the two. It has two rollers, the engine being between them and the boiler on one of them. The motion is communicated by a chain. With fuel and water the weight of the Ballaisson steam roller is 13½ tons with springs; and an iron framework, 15½ tons; its force is 10 horse-power, and its consumption of coal about 16 lbs. per horse. It does its work in half the time and at half the cost that would be required were the work done by rollers drawn by horses; and the work is done more rapidly and completely. It may now be seen at all hours of the day crushing smooth the granite of the new boulevards of Paris; in the more crowded thoroughfares it works only at night.

MEETINGS OF CREDITORS TO COME.

FOR THE APPOINTMENT OF ASSIGNEES UNDER THE INSOLVENCY ACT OF 1864.

Table with columns: NAME AND RESIDENCE, TO BE HELD AT OFFICE OF, DATE. Lists various creditor meetings.

ASSIGNEES APPOINTED.

Savoye & Co.
Sinclair, Jack & Co.
Stewart, W. W.

THE week has been marked by no new features. Great dullness has prevailed in almost every article of produce, and there does not seem much probability of any return to activity until the fall trade fairly opens, which will be unusually late this season.

FLOUR.—With indications of increasing supplies, we have to note an easier market, although prices have not as yet materially declined, holders being content for the time being to sell small, as buyers require, in preference to breaking down the market by pressing sales. The tendency, however, is decidedly downwards, and when supplies prove in excess of local wants, which, it is believed, will shortly be the case, a decline to a shipping level seems inevitable. Extras and Fancies have become scarce, and sales are noted at \$7.50 to \$8 for Extra, and about \$7 to \$7.25 for Fancy. Superfines range from \$7.40 to \$7.50 for Welland Canal and City brands, from Western wheat. Canada Supers command \$7.30 to \$7.75, with occasional broken lots of choice up to \$7.90. Good No. 2 is worth about \$7; but reground and the lower grades are neglected, though offered at relatively low prices. *Bag Flour* is scarce, and much wanted, and for the choicer samples \$4.10 to \$4.20, has latterly been paid, and ordinary has been reluctantly taken at \$4 to \$4.10.

OATMEAL.—There is a moderately steady demand for export, prices ranging from \$4.60 to \$4.80 for fair to good.

WHEAT.—We are without arrivals or transactions, and prices are purely nominal.

FEAS.—The market continues unchanged. The only transactions on the spot are a few carloads at 72 to 73c. per 60 lbs. There is some enquiry for cargoes to arrive, but the views of buyers and sellers are mostly a few cents apart. There are a few transactions, however, at rates varying from 80 to 85c. per 66 lbs.

OATS.—No business of note has transpired. The few transactions taking place have been at 37 to 37½c. per 32 lbs.

BARLEY.—No transactions on the spot can be noted. Quotations are, therefore, nominal.

CORN.—The closing rates of last week have been maintained, but there are few transactions to report.

PORK.—Mess is in fair demand, and \$26 is asked for retail parcels. Prime Mess and Prime are also engaging a little more attention.

BUTTER.—There has been a marked falling off in the demand during the week, owing mainly to the increasing receipts, and to the unfavorable advices of the British markets, where nothing but the best qualities are saleable, the bulk of the shipments made from here lying on hand, no concession in price apparently able to move them. The New York market is represented as being already overstocked, and no outlet for the large daily arrivals until prices fall to a shipping point, which will relieve this market, probably at the expense of the British, which is already amply supplied by the local make, and by importations from the continent, the quality of which is much preferred to Canadian or United States.

ASHES.—A speculative demand in Pot Ash, excited by the smallness of the receipts for some time past, has run up prices materially. The British market has also improved. During the past week a few orders from the United States markets have been received—the first since the close of Reciprocity. In Pearls there is no material change to note.

THE LEATHER TRADE.

Brown & Childs.
Dougall J. & Co.
Hua & Richardson.

Seymour, C. E.
Seymour, M. H.
Slaw F. & Bros.

THE past week has witnessed no great activity. Still there has been a fair demand for stock generally, which, however, has been scarce, as no large lots of any description have been received.

SOLE LEATHER.—Spanish and Slaughter are much reduced in stock. Buenos Ayres is held only in small lots. Other grades are not abundant, and Slaughter is difficult to procure.

ROUGH.—Has a good inquiry, but is scarce.

HARNESSES.—Is in light supply, and prices are very firm.

WAXED AND GRAINED UPPER.—There is no stock

of any account. The small lots arriving are immediately taken up at highest quotations.

BUFF AND PEBBLED.—Are freely inquired for; but sellers are unable to meet the demand, owing to light receipts.

PATENT AND ENAMELLED.—Are not particularly in request. Still, there is no accumulation, and large orders could not be executed on call.

SPLITS.—Sell readily, medium of fine finish being most in demand.

CALFSKINS.—Have found more ready sale, at about former rates.

SHEEPSKINS.—The quantity in market is very small, and a good demand exists for all kinds, bright colors and russets being principally asked for.

HIDES.—There is no abatement in price, and the stock is quite limited.

Morocco Establishments Destroyed by Fire.

The four-story wooden building on Medford Street, Charlestown, Mass., owned by Hon. P. J. Stone, has been destroyed by fire since our last issue. John A. Melvin & Co., morocco factors, occupied the whole centre of the building, and had a large stock of goods on hand. They estimate their loss at \$6,000, on which there is an insurance of \$1,200. Wilbur, Harding & Son, occupied one end of the building, and Mr. Kennedy the other, both in the morocco business, and their combined loss will probably be not less than \$2,000, which will make the entire loss between \$10,000 and \$11,000.

MONTREAL BUSINESS COLLEGE
 (Corner of Notre Dame and Place d'Armes)
 This well-known Educational Institution has ac-
 quired a reputation amongst business men which gives
 it a standing for thoroughness and efficiency superior
 to any of the kind in this country, and being connected
 with the great chain of Business Colleges now located in
 forty-eight cities in the Canadian and United States,
 secure to its Students advantages not to be had else-
 where. Scholarships of this College entitle Students
 to instruction in any of the Colleges of the chain
 without additional cost, for an unlimited time.
 Send or call for College Paper containing full infor-
 mation respecting terms, course of study, &c
 31-3m BRYANT, STRATTON & TASSER.

BRITISH AMERICAN COMMERCIAL COLLEGE
 LOCATED IN TORONTO AND HAMILTON,
DESIGN to educate young men for busi-
 ness, and prepare them for the duties of Prac-
 tical Accountants.

The Proprietors of this Institution take great pleasure
 in announcing to the young men of Canada, that they
 have opened a Branch of their College in the City of
 Hamilton, C. W., where the same course of Practical
 instruction which has met with such success in Toron-
 to will be given. This course of instruction combines
 practice with theory, and embraces everything neces-
 sary for the book-keeper and business man. The
 branches taught consist of Book-keeping by Double
 and Single Entry, adapted to all kinds of business,
 such as Mining, Milling, Manufacturing, Wholesale
 and Retail Merchandising, Forwarding and Commis-
 sion, Foreign Exchange, (a set where the books are
 kept partly in sterling money), Railways, Steam-
 boating, Banking, Commercial Law, Commercial
 Arithmetic, Commercial Correspondence, Spelling,
 Telegraphy, and Phonography.

To the young man just setting forth into the busi-
 ness world, a thorough knowledge of these branches is
 a rare means of rapid promotion.
 To the man in business, or to the one about com-
 mencing, a knowledge of these branches is indispen-
 sably necessary to a successful business career.

The actual Business Department is furnished with a
 Bank, conducted on the same principles as our favour-
 ite Banking houses, where the students make their
 deposits of money, and Notes for Collection and Dis-
 count, and on which they draw their Cheques, Drafts,
 &c. A Merchant's Emporium or Wholesale Estab-
 lishment, where the first purchases of Merchandise,
 Groceries, &c., are made. This is a representative of
 one of the largest Wholesale Houses in the City of
 Toronto; the books, ten in number, being kept on
 the same principle, and an Exchange Office for the
 buying and selling of a depreciated currency. A
 thorough knowledge of this branch has become abso-
 lutely necessary to almost all classes of business men
 and accountants. This Department is under the charge
 of a Teacher who has had years of experience as a
 Practical Accountant.

Our Board of Examiners is composed of practical
 business men, whose names to a Diploma are sure
 guarantees of efficiency and employment.
 Students can enter at any time.
 For Monthly Circular, Specimens of Writing, &c.,

THOMAS HOBSON & CO.,

486 & 488, ST. PAUL, & 427 COMMISSIONERS STREET,
MONTREAL,

PRODUCE AND COMMISSION MERCHANTS,

ATTEND personally and promptly to the proper disposition of all Consignments of FLOUR, PORK, ASHES, TALLOW, LARD, BUTTER, and all other descriptions of Produce.

Sales effected with every possible promptitude, consistent with the solid interests of our consignors, and returns made at the earliest moment.

If long experience in the Produce Trade, and careful personal attention to the interests of our friends, will avail us, we are confident that every satisfaction will be given. 1-ly

CAMERON & ROSS,

COMMISSION MERCHANTS,

443 Commissioners Street, Montreal, are regularly receiving and selling, on Commission, all kinds of Country Produce. In Grain there has not been much done during the week. In Flour some excitement prevailed towards the close of the week, and it is said prices have somewhat advanced; this can only be temporary, and last but a short time. We would advise country dealers not to base their calculations on the present advance when making their purchases, as no other market we know of at present could warrant the prices that have been paid here, or, at least, said to have been paid. We look on the market as being in a very unhealthy condition, and rather excited by speculation in the face of considerable losses. It is to be regretted that so much of the Wall Street principle should be getting into our chief mart.

BUTTER.—Arrivals during the week have been fair; supply and demand about equal. Choice Dairy in lots readily taken at 17c. per lb.; good Store Packed 16c. per lb. The foregoing are the prices realised by ourselves for lots during the week. We heard of sales being made at 15c. and 15½c. per lb. for shipping lots. Our private advices by last mail, both from England and Scotland, are more encouraging than those hitherto received. Sales of Canada Butter were made from 85 to 97 shillings per cwt. We notice a large quantity of what is coming forward, not put up with the same care as we have seen in former seasons. We find in mostly all cases that fully 25 per cent. more salt is used in packing than is necessary for the proper curing of the Butter. Dealers cannot be too particular in preparing for market, as there is no other commodity of which the price is more governed by the quality than that of Butter.

Pot and Pearl Ashes regularly received. For prices we refer you to those contained in the review.

Advances made on consignment. All consignments receive personal attention, and proceeds promptly accounted for.

N.B.—Particular attention given to the selection of Dry Goods, Groceries and Hardware.

1-ly CAMERON & ROSS.

ANDREWS, BELL & CO.,

COMMISSION MERCHANTS and SHIPPING and INSURANCE AGENTS, 7 INDIA BUILDINGS, FENWICK STREET, LIVERPOOL.

Having large experience in buying for the Canadian market, they invite orders for TEAS and GROCERIES, and hope to give satisfaction in the execution of any commands entrusted to them. Produce consigned to their care will receive special attention. Goods expeditiously forwarded on the most favourable terms.
