PUBLISHED BY

The G. H. Mortimer Publishing Co.'s
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 199 1/2 square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eau Claire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherrybirch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

CURRENT TRADE CONDITIONS.

ONTARIO.

While the month of January is usually uneventful in respect to lumber transactions, the past month has witnessed a movement which has further strengthened the white pine market. Buying of the coming season's cut has been quite heavy and at figures invariably satisfactory to the seller. The purchase of lumber in the Ottawa district by a Chicago concern, as reported by our correspondent, is particularly significant as showing that the market for Canadian pine lumber is broadening, and that United States concerns find it advantageous to pay even the high prices which Canadian manufacturers are now asking, in addition to the import duty of two dollars per thousand feet. It is estimated that there is not over 25,000,000 feet of unsold lumber on the mill docks in the Georgian Bay district, and even this quantity is almost certain to find a buyer before spring. There is a firm market for logs which are held at \$11 to \$13 per thousand. A very small quantity is being cut this winter for export, as the operations for this purpose must be confined to deeded lands, on which the timber is mostly scattered.

An estimate furnished by Mr. Ralph Loveland of the expected output of the mills on the Georgian Bay is interesting and valuable, inasmuch as it shows a

smaller cut than has been reported. The figures of the districts are

	Feet.
Blind River.....	37,000,000
Cutler.....	31,000,000
John's Island.....	15,000,000
Spanish River.....	15,000,000
Victoria Harbor.....	25,000,000
Byng Inlet.....	40,000,000
Collingwood.....	30,000,000
Parry Sound.....	71,000,000
Midland.....	60,000,000
Waubushene.....	30,000,000
Little Current.....	70,000,000
Sarnia.....	25,000,000
Sandwich.....	25,000,000

According to this estimate the total is less than 500,000,000 feet, but it will be observed that it does not include the cut at French River and one or two other points.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is firm, though quiet. It is anticipated that there will be a strong market in the spring, as the volume of building in the Eastern States is likely to call for a large quantity of rough lumber. This, it is thought, will offset any possible falling off in the demand from Great Britain. The winter cut of logs will not be greater in volume than usual, and may be slightly curtailed. White cedar shingles are still selling on the basis of \$3.25 to \$3.35 for extras on Boston rate of freight, with the demand a little more inactive.

MANITOBA AND BRITISH COLUMBIA.

At the present time the chief interest of the lumber trade of the west centres in the movements affecting the trade of British Columbia. The Provincial Government have put into effect the law prohibiting the export of cedar logs, and British Columbia lumbermen expect to find a market for shingles in certain territory that was formerly supplied by United States manufacturers. The revised price list is also commanding some attention. Cedar shingles are quoted at \$1.70 for No. 1, 6 to 2x16 inches, and \$1.20 for No. 2 for all points west of Fort William, f.o.b. cars Vancouver. For all points east of Fort William the price is \$1.55 and \$1.05 respectively. Delivered prices are, of course, quoted in all cases, but the above figures are the basis from which delivered prices are made. The fifty cent. rate covers all points from Fort William west to and including Regina, also a number of the branch roads of Manitoba and the North-West, while the 75 cent. rate covers practically all of Ontario and the city of Montreal.

UNITED STATES.

Several small lots of white pine lumber are changing hands in the Lake Superior district. There is an activity and strength which augers well for a strong market during the early spring. In the Albany market cuts and better have advanced \$2 a thousand, and some grades of common about \$1 a thousand. Dealers there report that the trade has been exceptionally good this winter. Our Buffalo list this week shows a further

advance in the price of uppers and selects. The tone of the market there is the strongest that it has been since Christmas; orders and enquiries have increased materially. The lower grades are meeting with more inquiry and are likely to be advanced, a feature which gives much encouragement to the trade. The hardwood market is also enjoying a degree of activity. Elm, basswood and maple are selling very well.

GREAT BRITAIN.

The British timber market has not yet made a decided move towards recovering from the recent depression. There has, it is true, been some improvement, but importers are pursuing a policy of precaution and cannot be induced to purchase excepting on a very moderate scale. It may be that there will be a gradual return of complete confidence, which in the end is probably most to be desired. Some of the largest importers predict that the market will be comparatively strong for the first six months of the year, but they seem very uncertain about the course of trade after that time. The curtailment in operations which has been decided upon in Norway and Sweden cannot but have a beneficial effect upon the market, and if the present line of policy is pursued, the import of timber into the United Kingdom this year will witness a further reduction. At recent auction sales buying has been quite active, stimulated no doubt by the higher prices which shippers are asking. Spruce prices have been fairly well maintained, with the exception of 3x7 stock, which is slightly lower at Bristol and Liverpool. The receipts of spruce deals by the regular liners from St. John and Halifax has had the effect of checking any further advance in prices. In London second quality 3x9 spruce is selling at £10 per standard, and third quality at £9 10s landed at the dock. Several contracts have recently been placed for birch squares, the price of which is about £7 10s per standard.

TIMBER LIMIT TRANSACTIONS.

A couple of weeks ago the Delta Lumber Company, of Detroit, disposed of their timber limit in Mackenzie township, on the Georgian Bay, to Messrs. Avery and Eddy, of Saginaw, and Glenn, of Duluth. It is reported that the consideration was in the neighborhood of \$275,000. The Delta Lumber Company purchased this limit from the Holland & Emery Lumber Company in 1895. It comprises nine square miles, is a very desirable limit as to location, and can be lumbered very cheaply. It contains about 5,000,000 feet of red pine, the remainder being white pine.

The Victoria Harbor Lumber Company, Toronto, recently purchased the north half of Erie township from the Detroit Lumber Company. It comprises 40 1/2 square miles, the pine of which has been mostly cut off, but there is a considerable quantity of hemlock and cedar.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Attention in the local lumber market is fixed on the future. Present dealings are few. The event of the midwinter business is found in the operations of the Edwin S. Hartwell Lumber Company, of Chicago. For several weeks past the western concern, one of the largest of its kind, has had a representative in Ottawa negotiating for the purchase of first class white pine lumber. He has made good use of his time, and has secured a large slice of the supply of Ottawa and neighbouring towns. The sales in the aggregate represent about \$135,000 in money, and 7,500,000 feet in lumber.

Large purchases were made from J. R. South Hill Lumber Company, Gillies Bros., of Braeside, McLachlin Bros., of Amprior, and Lemay & Company, Montreal. All the above stock, except that secured from the Hull Lumber Company, operating the Mason mill, has been shipped. The freight alone, at \$5 per M, represented an expenditure of about \$35,000, and the duty at \$2 per M another \$15,000. The same firm has closed a contract for the 1902 cut of the Peters mill at Parry Sound. It secured the cut for 1901, about 10,000,000 feet, and the coming season it is estimated will find the saws quite as busy.

The lumber already shipped was sent by the Canada Atlantic and Grand Trunk Railways to Chicago. The opening of navigation, however, will probably see a change of route, as boat shipments can then be made from Parry Sound and Depot Harbor, the terminus of the Ottawa & Parry Sound branch of the C.A.R.

The Hartwell concern has large factories in Chicago, where the Canadian pine will be utilized. It is not at all unlikely that the firm will be a steady bidder in coming seasons for the product of the Ottawa and neighboring mills. It must have the lumber, as the supply of the Western States is becoming exhausted. Indications would seem to prove that the millowner of the Ottawa district has in Chicago a market that will rival that of the Eastern States. This latest development of the trade has another interest for the lumber trade. The large purchase of high grade lumber by the Chicago concern has made a marked reduction in the available local supply of the better grades of white pine lumber. For this reason, coupled with the increasing local demand, prices are bound to continue firm, with

every prospect of an advance. "Lumber is lumber nowadays" remarked a dealer recently, "and the man who is waiting for prices to ease has a long wait before him. On reliable authority it is learned that the cut of the McLachlin mill at Amprior for 1902 has also been sold, making another marked reduction in future available stocks.

Unlike the British buyers, the Chicagoians have had no fault to find with the Ottawa sorting. The board lumber has been well selected and satisfactory in every sense to the western buyers. Hence it would not be surprising if early negotiations were closed for still more of the Ottawa mill cut of 1902.

The prevalence of smallpox of mild type in the lumber camps may have the effect of reducing the log cut on the limits this season. In several instances camps have had to be abandoned on account of lack of

Lumber Company, has been in the city for several days arranging for the purchase and installation of new machinery in the mill. It is the intention to change it from a water to a steam mill. Circular and gang saws are to be taken out and two double-cutting saws and re-saw installed. The box factory which the company recently built will start operations soon on a large contract for boxes for a Canadian manufacturing house.

The death of Hon. R. R. Dobell was deeply regretted in local lumber circles. He, as head of the firm of Dobell, Beckett & Co., was a leading spirit in the British export business. The firm has a large office in the Capital.

Mr. Frank Hawkins, private secretary to the late Hon. Mr. Dobell, has taken a position in the Quebec office of the firm.

It is not the purpose of this advertisement to try and convince the Lumber Trade of Canada that we are the only company in British Columbia manufacturing and shipping shingles in large quantities, or that we "know it all." We recognize that "there are others" and that we are not the only "pebble on the beach." To try and make you believe that we are the only people who can supply you promptly and in large quantities with a high-grade shingle would not only be a fish and a bear story combined, but it would be gall of the bitterest kind.

Our competitors in the shingle business in B. C. are nice people, and we presume that they know their business; but we are nice people too, and as we have been in the trade as long as any of them, and a great deal longer than the most of them, we know that we know our business, and that our competitors are not in the possession of any points of value regarding the manufacture of shingles which has not come to our knowledge.

Our old mill was burned down in May last, and in its place we have built what is at the present time the Largest Shingle Mill in B. C.

Our new Mill has 7 of the latest improved type of Dunbar machine, which we run night and day—giving us a capacity of about 100 Million a year.

Competent judges who have seen our new mill, tell us that it is one of the most substantial, carefully constructed, and best planned mills in this province. We ourselves think it is the very best shingle mill in B. C.; and we know that it is equipped with all the very latest improved Shingle Machinery.

Will the trade please note that our contract with the Pacific Coast Lumber Co. closed on December 31, 1901. D. Ferguson, of London, Ont., is our representative for that province. Orders sent to him, or to us direct, shall have prompt attention.

We want our share of your shingle business, and can guarantee you satisfaction in every particular.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.

We make a fine 18-inch Shingle.

We make a fine 24-inch Shingle.

We make all thicknesses from 6-2 inch to 6-38/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world.

Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

THE BOSTON MARKET.

The spruce lumber position at Boston is firm, with little that is new in the market. Orders are not plenty since it is between seasons. Neither is the supply anything but decidedly limited. When business starts in the spring, it is more than likely that there will be a shortage and stronger prices, following the course of other classes of lumber: Ten and 12 inch dimensions, \$20; 9 inch and under, \$18 to \$18.50; 10 and 12 inch random lengths, 10 feet and up, \$19 to \$19.50; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up, \$16.50; all other randoms, 9 inch and under, 10 feet and up, \$17.50; 5 inch and up merchantable boards, \$15 to \$16; matched boards, \$17.50 to \$18.50; out spruce boards, \$12.50 to \$13; bundle furring, \$16 to \$17.

Hemlock holds firm, in keeping with spruce, though trade is quiet: Boards, 12 14 and 16 feet, \$14 to 14.50 for good eastern; Pennsylvania, No. 1, \$16 to \$17; No. 2, \$14.50; random, \$13 to \$13.50.

White pine is scarce, with the position very firm and higher prices on all the best grades: Uppers, 1 inch, \$72 to \$73;

2 1/2 and 3 inch, \$77.50; 4 inch, \$82.50; selects, 1 to 1-1/2 inch, \$66 to \$67; 2 inch, \$68 to \$70; 2-1/2 to 3 inch, \$73 to \$76; 4-inch, \$75 to \$80; fine common, 1-inch, \$55; 1-1/4 to 1-1/2 inch, \$60; 2 inch, \$55; 2-1/2 and 3 inch, \$65 to \$67; 4 inch \$70; barn boards, \$23 to \$32; coffin boards, \$27 to \$32.

Shingles are firmly held, with the demand limited: Extra cedar, \$3.25 to \$3.30; clear, \$2.90 to \$2.95; second clear, \$2.35 to \$2.40; sup, \$2.10 to \$2.20; extra No. 1, \$1.75 to \$1.80; Washington and British Columbia, 16-inch, five butts to 2 inches, \$3.45 to \$3.50.

Clapboards are still very firm: Extra spruce, \$35 to \$36; clear, \$33 to \$34; second clear, \$29 to \$32; extra No. 1, \$20 to \$23; pine extra, \$50 to \$52; clear, \$45 to \$48; second clear, \$40 to \$42.

Laths are quoted at: One and five-eighths inch, \$3 to \$3.05; 1-1/2 inch, \$2.95 to \$3.

The dissolution is announced of the Stevenson Lumber Company, of Ottawa East. The business will be continued by G. A. Little.
