GUELPH EXPECTS STIRRING CONTEST ON RADIAL MATTER

Beck Supporters Will Fight Grand River Railway Agreement.

TO PUSLINCH LAKE

Projected Line Brings Pleasure Resort Closer to "Royal City."

By a Staff Reporter.

Guelph, July 18.—The controversy which is being waged over the proposed agreement between the city of Guelph and the Grand River Railway Company, a subsidiary of the C.P.R., is gathering force, and indications are that before Aug. 11, when the bylaw goes to the vote of the people, there will be a stirring contest, reminiscent of the battle in Hamilton. At any rate that is what Beck supporters say, and before long it is safe to say a campaign will be in full swing.

Supporters of the proposed agreement do not relish the criticism emanating from Toronto and elsewhere, and the mayor and others, apparently resentful, make a point of emphasizing that the people of the Royal City are quite capable of looking after their own affairs, that they give the assurance that if the vote is favorable the agreement will be submitted for the approval of the Hydro Commission.

It is urged by those who are behind the agreement that the Guelph radial railway, run by the city has been losing money, that it would be better in the hands of experts and that a connection with Hepler and a spur to Puslinch Lake would meet a long felt want by the public. They also assert that they fall to see where it interferes with any of Adam Beck's plans, the Ald. Hannigan, who is doubtful of the agreement, takes another view.

According to the agreement, which was published today for the first time, the Grand Company shall on certain conditions for a period of 25 years from the first day of September, 1919, undertake the management and oper-

BICYCLISTS KILLED ON HOMEWARD WAY

One Victim of Street Car Accident; Another Struck by Truck

Two men were killed while riding bicycles to their homes last evening. One was the victim of a street car accident, while the other was killed by a motor truck.

Crossing the car tracks at the corner of Ashdale avenue and Queen street at 8.30 last night, Thomas Broadbent, a returned soldier, was struck by a westbound K.N.G. car and hurled from his bicycle beneath the wheels of the street car. He was removed from the street car and taken in a motor truck by William Montsomer, 30 Ashdale avenue, to St. Michael's Hospital.

Broadbent was 25 years of age and recently returned from overseas. He lived at 255 Ashdale avenue and had just been married two months ago. The police say that the soldier was employed by the O'Keefe Brewery Company and was not far from his home when he met his death. Motor man S. Elyans, driver of the street car, was not arrested, the police stating that Broadbent had turned in front of the car from behind a motor car.

When his bicycle skidded at the corner of Simcoe and Adelaide streets at 4.30 yesterday afternoon, Barclay Ford, aged 21 year, of 370 Symington avenue, fell beneath a motor truck and was so badly injured that he died at the General Hospital. In reporting the accident, the police of Court street station stated that Ford was riding a bicycle north on Simcoe street and at the time of the accident was holding on to the side of the motor truck. The wheels passed over his chest, injuring him internally.

Clark S. Carnsberry, 123 Chester street, who was driving the motor truck, reported to the police, and after giving a satisfactory explanation was allowed to go.

The body of Ford was removed by the police to the morgue, where an inquest will be conducted.

MUNICIPALITY OF BERLIN PURCHASES STREET RAILWAY

Berlin, July 18.—The stockholders of the Greater Berlin Street Car Company have approved a transfer of the property to the municipality for a consideration of 137,500,000 marks, for which municipal bonds have been issued.

TEAMSTERS AWAIT SIGNED AGREEMENT

Cartage Companies Verbally Recognize Union and Eight-Hour Day.

Delegates to yesterday afternoon's conference having received only verbal promises from representatives of the cartage companies with respect to the recognition of the Teamsters' Union, and the eight-hour day, the men at last night's mass meeting decided to take no action until the written agreement became a written agreement. The representatives of the cartage companies stated they were unable to indicate their policy with respect to increases in wages until they had received word from Montreal. The men are therefore awaiting this word from Montreal before deciding to end the strike. A mass meeting will be held on Tuesday to discuss the situation at that date.

WHEAT SITUATION PUZZLES DEALERS

C. B. Watts Considers Outlook Grave—Banker C. A. Bogert Confident of Solution.

Canada has in the marketing of her surplus grain this year, a big problem to face. Such was the opinion expressed to The World yesterday by grain dealers and bankers, and in some quarters a decidedly gloomy view was taken of the situation. No one seemed to care to venture a prediction as to the precise manner in which the twin nations, now the grain is to be transported to European markets, and how Europe is to provide the necessary cash payment, and it might be added that they will be solved, however. C. A. Bogert, general manager of the Dominion Bank, expressed himself as assured, and it might be added that Mr. Bogert's optimism was in marked contrast to the expressed views of C. B. Watts, secretary of the Dominion Millers' Association.

WILL HAND AUSTRIA REMAINDER OF TERMS

Paris, July 18.—The missing clauses of the Austrian peace treaty will almost certainly be handed to the Austrian delegation on Monday. Then days will be allowed the delegates for consideration of the terms and for any representations the Austrians may desire to make. The council will probably require ten days more in which to reply. Consequently the treaty can scarcely be signed before August 10.

PEACE DAY FLIGHT OVER ROCKY MOUNTAINS

MANY CEREMONIES MARK BEGINNING OF PEACE CELEBRATION

Large Part of London Population Fill the Parks and Streets.

DAY FOR AMERICANS

General Pershing Confers Service Medals on Eighty British Officers.

London, July 18.—Great Britain's peace celebration began informally today with many ceremonies. A large part of the population stopped work today and filled the parks and streets, watching the many contingents of British and allied soldiers and sailors marching about, and the processions headed by Marshal Foch of France and General Pershing of the United States on their way to various functions in their honor.

It was chiefly American day. Gen. Pershing reviewed American troops in Hyde Park, where he conferred the Distinguished Service Medal on 30 British officers, more than half of whom were generals. The ceremony was attended by the Prince of Wales, Field Marshal Sir Douglas Haig and other celebrities.

Representing British. It is announced that 5000 officers and men of all ranks have been chosen to represent the British and dominions' forces in the victory march tomorrow. Regiments and various sections of artillery, engineers, Royal Engineers and infantry will be represented by composite battalions. Composite battalions comprised of officers and men will be selected from the English, Scottish, Irish and Welsh regiments.

Detachments from the headquarters of the Australian, New Zealand and South African Corps will represent the overseas forces. There will be one mounted band, a band of pipes and drums and eight infantry bands. Four tanks will be detailed and the sections of a machine gun battalion. Some 300 of all ranks will represent the Territorials and Yeomanry. The Labor Corps, Army Service Corps, Horse and Mechanical Transport, Women's Forage Corps, Women's Legion, R.A.M.C., Field Ambulance, matrons, nurses, military probations, V.A.D.'s, ordnance, Veterinary Corps, chaplains' department, army pay department, military police and W.A.A.C. will also be represented.

RAYNHAM ABANDONS TRANSATLANTIC FLIGHT

St. John's, Nfld., July 18.—Capt. Frederick P. Raynham, the British aviator whose Martinsyde biplane was wrecked twice in two months spent in trying to start a transatlantic flight, has received orders to abandon further attempts and return to England, he announced tonight.

Their Deeds Shall Live Forever

Shakespeare To the Returned Heroes.

"He that outlives this day and comes safe home, Will stand a-tip-toe when this day is nam'd; He that shall live this day, and see old age, Will yearly on the vigil feast his neighbors. Then will he strip his sleeve and show his scars, And say, 'These wounds I had on Crispin's Day.' Old men forget; yet all shall be forgot, But he'll remember with advantages What feats he did that day. Then shall our names, Familiar in his mouth as household words, Be in their flowing cups freshly remembered. This story shall the good man teach his son; And Crispin Crispian shall ne'er go by From this day to the ending of the world, But we in it shall be remembered; We few, we happy band, we band of brothers."

Now is the winter of our discontent, Made glorious summer by this sun of York; And all the clouds that low'd upon our house In the deep bosom of the ocean buried. Now are our brows bound with victorious wreaths; Our bruised arms hung up for monuments; Our stern accents changed for merry meetings; Our dreadful marches to delightful measures. Grim-visaged war hath smoothed his wrinkled front."

PEACE DAY MESSAGE TO CANADIAN PEOPLE

Enter Upon a New International Era, With a New Charter of Liberty—Joy Bells Will Ring Out the Notes of Peace in All Parts of the Empire.

Ottawa, July 18.—Sir George Foster, acting prime minister, today issued the following peace-day message to the Canadian people: "Tomorrow throughout the world-wide realms of the British empire, the advent of peace will be gratefully acclaimed with mingled feelings of sorrow and gladness.

For nearly four and a half years this peace has been fought for, longed for, and prayed for by countless war-worn millions, who in the meantime have been called upon to make incalculable sacrifices of life and property. The conclusion of the armistice on November 11 last, brought this peace within sight, and the signature of the treaty at Versailles on June 28 last, practically assured its advent. Tomorrow we celebrate its actual establishment, we close the long, terrible chapter of the great war, and enter upon a new international era, with a new charter of liberty and security.

In our Canadian rejoicings we will do well to take note in passing of the wide area covered by this celebration. In every quarter of the globe the joy-bells will ring out the notes of peace to the unfurling of the flag of the empire in realms included within its sway. No other participating action covers such wide spaces, or appeals to such an aggregate of humanity combined under one rule, and all those who will thus take part in the celebration of peace have been active partners in the toil of war, which has made this peace possible. We must not forget either the preponderant part taken by the components of the empire in the world struggle by land and water, in air and under sea, nor the tremendous expenditure by them in blood and treasure, so freely offered and so bravely borne.

Only an adequate appreciation of that effort can give us the full measure of the value of the ideals pursued and the results obtained during the war, and of the consequent trust committed to our hands in conserving both. The sacrifices endured set the measure of the obligations now resting upon us in the days of peace.

For, the the war has ceased, we know well that its consequences persist, and our peace celebration will indeed lack completeness if it does not combine with the rejoicings for victory, the prayerful consideration of what remains to be done in the reconstruction of peace.

As Canadians we are devoutly thankful that no enemy force has profaned our soil, and that we have been spared the horrors of a war within our own territory.

These Who Sleep in Foreign Fields. We point with pride to the deeds of our soldiers, and the imperishable record they have made. We mourn those who sleep in foreign fields, and greet with sincere hearts those who have returned in honor to their homes. For them and for those of us who supported them in the long war for liberty and humanity, there remains an even more arduous and glorious battlefield for the establishment of real and abiding peace among ourselves, for the conservation of the well-known principles of moral, social, economic and constitutional development, and for the upbuilding thereupon of a great and prosperous nationality.

If, by unselfish service and sacrifices, the war was won, surely it is by the same paths that we, as a people, must approach and perform our task of community and nation-building.

Let us, therefore, as a people, celebrate the morrow with deep thankfulness to Almighty God for the victory achieved, and with a profound sense of our responsibilities in the great peace work now ready to our hands. And above all let us cultivate the thoughtful cast of mind, the same reasonableness and moderation of expression, and the prudent judgment of action so necessary at this period of our national existence. May the peace today celebrated bring perpetual healing and comfort to the whole world.

FREIGHT EMBARGO ON COAST TRAFFIC

Order Follows Piling Up of Merchandise Owing to Seamen's Strike.

New York, July 18.—A freight embargo on coast-wise traffic was announced today by the coastwise shipping companies operating under federal control, as a result of the strike of seamen and engineers along the Atlantic and gulf coast. The order for the embargo was forwarded to shipping points by the United States railroad administration.

The embargo has been foreshadowed for several days as a consequence of the rapid piling up of great quantities of freight, much of it perishable, at Atlantic and gulf ports, thru the tying up of ships by the strikers.

G. H. Brown, secretary of the Seamen's Union, claimed today that the entire shipping of the country would be virtually tied up within two weeks if the struggle continued.

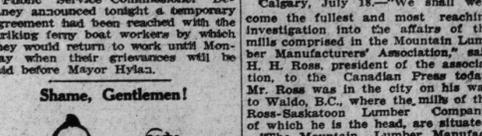

Service Disorganized. The disorganization of the merchant service thru sailors deserting the coast for the harvest fields also was predicted by the union leaders. They asserted that seamen were leaving their posts in droves for the farms where the harvest hands were being paid \$5 and \$6 a day with board and lodging.

The renewal of disturbances today with an attack on a Bowery employment office by strikers, who alleged the office was recruiting strike-breakers, stirred the police to greater vigilance along the waterfront. Seamen's boarding-houses are being particularly watched, as the strikers are said to have been increased by reports that these places were being used as strike-breaking agencies.

Men on Ferris Strike. Officers, water tenders and firemen of the municipal ferry boats running between Battery Park and Staten Island went on strike late this afternoon without a word of warning. Thousands of Staten Island residents were unable to reach their homes until the craft were manned by the police. It was said the strike had no connection with the deep water marine workers' controversy.

Public Service Commissioner Deane announced tonight a temporary agreement had been reached with the striking ferry boat workers by which they would return to work until Monday when their grievances will be laid before Mayor Hylan.

H. H. Ross, President of Lumber Manufacturers, Says Association Ready for Inquiry.

Calgary, July 18.—"We shall welcome the fullest and most reaching investigation into the affairs of the mills comprised in the Mountain Lumber Manufacturers' Association," said H. H. Ross, president of the association to the Canadian Press today. Mr. Ross was in the city on his way to Wainwright, B.C., where the mills of the Ross-Baskatoon Lumber Company, of which he is the head, are situated.

"The Mountain Lumber Manufacturers' Association want the whole truth known," Mr. Ross said, "and with the facts before the public, and before the government, we shall have no apprehension as to the verdict respecting our profit."

SEEKING TO TRACE LIQUOR SHIPMENTS

Ontario Authorities Place Secret Service Men in Montreal Warehouses.

Montreal, July 18.—Ontario authorities have placed secret service men in several of the large warehouses in this city in an effort to trace illegal shipments of liquor to Ontario, according to a report received this morning. Recently very heavy shipments of liquors have been sent from Montreal to Toronto and other Ontario centres. This traffic began as soon as the war measure of inter-provincial shipments became a dead letter. The traffic has increased, and to cope with it successfully the Ontario provincial authorities have taken this method of tracing shipments originating in Montreal.

Recently many seizures of liquor have been made in central Ontario points, and it is believed that the efficiency with which these goods were picked out by the inspectors was due in a very large measure to the information secured by secret service men placed in the foremost warehouses of this city.

A Determined Effort.

The Quebec provincial government also has inspectors on this work now, and a determined effort is being made to catch all shipments from Montreal into a dry territory. Railway lines and express companies are being watched carefully in a greater spirit of determination than has ever been

evinced before to see that the law is observed and that dry territory is not irrigated by the Montreal wholesale liquor dealer route.

CITIZENS OF FLORENCE PREPARING FOR STRIKE

Florence, July 18.—Fifty thousand armed citizens have been organized here to maintain order in anticipation of the demonstrative strike called by the labor federation for July 20-21.

This organization is composed of peasants, merchants and discharged soldiers without regard to political affiliation. They have taken an oath to prevent disorder and to stop any possible ransacking of shops, using arms if necessary.

Military in Montreal Not in the Celebration

Montreal, July 18.—It has been decided by Brigadier-General C. J. Armstrong, acting G.O.C., and the military authorities here that there will be no military celebration tomorrow for the official observance of peace day, following the orders for the observation in England. Any celebration there will be left entirely to the civil authorities. It was stated at headquarters last night that no orders at all regarding the day would be issued, the celebration being practically allowed to go by default, owing to the depleted condition of the active militia and other military units in the city.

PREDICTS COMPLETE CHANGE IN RUSSIA

Winston Churchill Defends Action of Allies in Dispatching Troops.

London, July 18.—"Russia at the present moment is the keynote of the future peace of the world, and the lifting of that country must be the first duty of the league of nations," said Winston Spencer Churchill, secretary of state for war, in an address at the British-Russian Club dinner last night.

"If the whole of Russia and its resources fell into the hands of Lenin and Trotsky the whole power of the Bolshevik forces will be thrown against those little states which have been promised the protection of the league of nations. If the Bolshevik forces prevail in Russia those little states, Russia itself, will fall into the hands of Germany," he continued.

Mr. Churchill defended the action of the allies in sending troops to Russia, and said if the five government powers had been able to act in concert "things would not be as they are there." He declared that more than 800,000 Bolsheviks were being held in check by the allies, and "if the British government contributed in any way toward that result I for one rejoice."

Mr. Churchill predicted an entire change in the situation within a fortnight, but did not explain what it might be.

BLAME GOVERNMENT FOR HIGH COST OF LIVING

Paris, July 18.—In a vote in the chamber of deputies this evening following interpellations on the high cost of living, the government was in the minority by fourteen votes.

The issue arose over the order of the day. The government accepted that of Deputy Renaud, which implied confidence in the government, but the chamber adopted by a vote of 277 to 213 a resolution presented by M. Angagneur, former minister of marine, which the government had rejected.

The order of the day of M. Angagneur, adopted by the chamber, was on the high cost of living. It blamed the economic policy of the government for the situation.

After the vote announcement was made in the lobby of the chamber of deputies by M. Boret, food minister, stated that he would resign his portfolio, but that he was the only member of the cabinet affected by the vote. Premier Clemenceau, however, will decide what will be the attitude of the government.

The general policy of the government did not come up during the debate.

SUSPECT MEXICANS OF STEALING BIG PAYROLL

New York, July 18.—The National Association for the protection of American rights in Mexico announced that it had received a telegram from Tampico dated July 17, indicating that the camp of the Atlantic Refining Company, near Port Lotoa, Mexico, had been raided and the semi-monthly payroll of \$10,000 stolen. The message said it was believed the raiders were Carranza's soldiers.

MET AND MARRIED IN SIXTY MINUTES

Now Soldier and Spouse Both Face Charge of Bigamy.

In a statement to the police yesterday afternoon, Albert James Shannon, returned soldier, declared that he had met a woman while he was under the influence of liquor and within one hour's time from when Shannon had made her acquaintance he went thru a form of marriage with her. Morality Officers Kerr and Massey, however, allege that Shannon went thru the marriage ceremony knowing the woman to be a married woman and are holding Shannon on a charge of bigamy.

Yesterday morning the woman, Margaret Phillips, surrendered herself to the morality office and was arraigned in the women's court on a charge of bigamy. It appears that Kerr went to a house on Napanee street three months ago to arrest Mrs. Phillips and she was ill in bed. She pleaded with the officer not to take her, stating that she would give herself up when she recovered. True to her word, she walked to the city hall and asked for the police officer who had a warrant for her arrest. She was remanded until the 25th. Armed with a warrant the morality man left for Bathurst street to bring in Shannon.

Shannon is 26 years of age and Margaret Phillips is 40. They met on Feb. 10, 1915, and were married in a downtown church. Mrs. Phillips' first husband is said to be residing in the city.

NO SETTLEMENT SIGN IN BOSTON CAR STRIKE

Boston, July 18.—With the electric lines of this city—street, elevated and subway—still stopped today by the strike of carmen, negotiations looking to a new arbitration medium developed no indications of early agreement. The public trustees of the Boston Elevated Railway Company and leaders of the employees' union conferred with Governor Coolidge, but, although they agreed on the representative of each side, they could not settle on the third member of the proposed new arbitration board. After two conferences were held without result, James H. Vahey, general counsel for the Carmen's Union, said the situation had not improved.

Nova Scotia Veterans Take Stand Against Alien Enemies

New Glasgow, N.S., July 18.—The great war veterans of Nova Scotia will never hail any alien enemy as brother, nor enter into formal relations or cooperation with any organization which includes alien enemy or those of alien enemy extraction in its ranks.

That point was made clear here yesterday at the morning session of the provincial convention, which developed marked hostility to affiliation with the Trades and Labor Council until the labor unions amend their constitutions as to purge their ranks of all aliens of enemy nationality.

GERMAN SHARES SOLD.

New York, July 18.—Eight thousand German-owned shares of 60 three chemical companies formerly controlled by the Brossier and Hasselcher interests were sold at public auction today by the alien property custodian to Coffin & Company, bankers, and the American Aniline Products, incorporated, for approximately \$1,000,000.

PERSHING RECEIVES FREEDOM OF LONDON

General Admits Lessons Learned by Americans From the British.

London, July 18.—Gen. John J. Pershing, commander-in-chief of the American expeditionary force, met the military members of parliament in the committee room of the house of commons yesterday. He was introduced by Winston Spencer Churchill, secretary for war.

In an address, in which he discussed the sentiment of the American soldiers and people, General Pershing said that had it not been for the lessons learned from the British "our efforts would not have been what they have been. Our associations from the start were most pleasant. I was accorded a visit to general headquarters and learned from your commander-in-chief what was deemed most important for us to consider first.

"It was our preference to fight beside our brothers in blood, our own kinsmen, whose courage, aggression and tenacity we have always admired and which has had such an influence on our army in Europe."

Today General Pershing was presented with the freedom of the city and a sword of honor, in the presence of a distinguished company, in the historic Guildhall.

CANNOT ENFORCE CLOSING OF STORES

G. A. C. Disclaims Responsibility for Possible Action of Returned Soldiers.

Mayor Church was waited upon by a delegation from the Grand Army of Canada at the city hall yesterday, who requested that the city take steps to force all alien shopkeepers to close their places of business on the peace day holiday.

The Grand Army of Canada have already issued a declaration stating that they will be unable to take responsibility of the conduct of veterans if the stores are kept open.

The mayor had already conferred with the chief of police, who has informed him that the city is powerless to force any shops to close, but it can only urge recognition of the federal and civic proclamations declaring the day a holiday.

"Absolutely no orders of such a nature were given out by any office of the G.W.V.A. in Toronto," said Comrade Lewis, field secretary for the Toronto district, last night.

H. W. Parsons, Dominion secretary of the G.A.C., also denied that his organization had given out any such orders to members. He stated, however, that both the G.W.V.A. and the G.A.C. had conferred with the civic authorities to request them to order foreign stores to close in the interests of protection of all civic property.

One of the proprietors of a so-called foreign store, a man popular with all classes of the public, stated yesterday afternoon that he had decided to close down for the day. He had been informed by members of the police force that the city would not hold

himself responsible for any damage done to the property of aliens. Comrade Gustar, secretary of West Toronto G.W.V.A., stated that no orders had been issued from his office, but that he advised himself the aliens would be well advised to close down in view of the feeling among returned men.

WHO WILL REPAY SUCH GENEROSITY?

The Toronto World is in receipt of a letter signed G. W. A. Alexander, captain, in which the writer calls attention to the generous action of a barrister named Charles O'Leary, of the Temple, in paying the sum of \$65 to cover debts upon a mortgage held against Mrs. A. W. Smith, widow of a returned soldier.

Captain Alexander states in this letter that the man who held the mortgage commenced foreclosure proceedings against her two years ago, and that she had appealed to Mr. O'Leary in his capacity of barrister. The writer expresses the belief that the G. W. V. A. should take a hand in the matter and get a refund of the money to Mr. O'Leary.

This letter has been handed over to the office of the Toronto district, W. S. A. Comrade Lewis has asked that Mrs. Smith send her address and other helpful particulars to his office. He stated that the night before the office being in communication with Mrs. Smith herself as well as with Captain Alexander.

A JOLLY PICNIC.

More than 1,500 patients and others connected with the College Street Military Convalescent Hospital enjoyed a delightful trip on the S. S. Cayuga on Thursday night. Two hundred and fifty wounded were among the party. The Second Garrison Battalion band furnished the music.

AERO LAWS POPULAR.

The activity of Brig.-Gen. Odium, of the 11th Brigade, recently returned from overseas, is said to have been largely responsible for the appearance of the new orders respecting flying in Canada. In conversation with the press the general expressed his opinion that as it was illegal for racing automobiles to race ordinary passenger automobiles so should it be illegal for stunt airplanes to fly with passengers in them.

SEVERELY CRITICIZE OTTAWA.

Riverdale G. W. V. A., at its regular meeting on Thursday, severely criticized the indifference alleged to be shown at Ottawa with respect to the widows of returned men. Comrade Joyce mentioned the case of a widow living at 677 Ashdale avenue, who had been charged \$185 for repairs made by the landlord of the house. Not only had

this landlord, according to allegations made, charged this widow for repairs, but he had managed things so that she was now forced to climb up or down a step ladder when leaving or entering the house. This was a matter, he said, which called for immediate attention on the part of returned men.

RIVERDALE MEETING WELL ATTENDED.

Riverdale G. W. V. A. general meeting held at Odette Hall, Broadview avenue, was very largely attended. It was decided that the per capita tax be paid forthwith. This matter has been subject of considerable feeling for many months in this branch, and all members expressed themselves as extremely glad that it had been settled at last.

FIVE BOLSHEVIKS GET SENTENCES CONFIRMED

Judge Cohen, in the police court yesterday morning, resented the five Bolsheviki released from prison by habeas corpus proceedings to serve the same terms as imposed upon them one month ago by Magistrate Kingsford. The sentences to be served were one month, which time the prisoners have already spent in custody. Ben Davis and Chester Kingford were sentenced to three months, Matvey Blashkoff and John Boychuk, 11 months each.

Under New Agreement, City Must Guarantee \$400,000

The city of Toronto has to guarantee approximately \$400,000 worth of bonds, in addition to the \$2,240,198 guaranteed in the approved bylaw of 1916, as a result of the new agreement between the city and Hydro-Electric commission, which was approved by the board of control at a private meeting held last Tuesday. This additional guarantee will be the city's share of the total guarantee necessary to construct and equip the Toronto-London radial thru the townships which have refused to approve the Hydro radial agreement.

WHITE STAR-DOMINION LINE.

S.S. Megantic, the largest steamer coming to Montreal, sailed July 15, at 4:00 a.m., with a full list of passengers all classes, and general cargo. She passed out Father Point at 11:55 p.m. the same day.

NEW BUILDING PERMITS.

The following building permits were issued by the city architect's department yesterday: W. T. Reid, dwelling, 33 Windermere avenue, \$3,750; A. and A. Grant, dwelling, Flayler boulevard, near Butternut street, \$5,000; James Gardner, estate, dwelling, 33 Scarborough road, \$5,500; James McFarland, dwelling, 120 Mackay avenue, \$3,000; W. J. TAXES COLLECTED BEAT ALL RECORDS

Percentage Returned Shows Prosperous Conditions of Toronto Citizens.

Finance Commissioner Bradshaw yesterday submitted his report on the returns of the first instalment of taxes for the year 1919. The report shows that notwithstanding the fact that the taxes collectable in 1919 are \$19,462,297, as compared with \$20,287,727 in 1918, being a decrease of \$825,430, which decrease is due to the reduction of two mills on the tax rate, and also the fact that the date fixed for the first payment this year was eight days in advance of the corresponding period in 1918. The total amount collected was \$11,830,733, as compared with \$11,937,333 in 1918.

The commissioner points out that the percentage is perhaps the greatest in the history of the city, being 60.73 per cent. of the whole, as compared with 59 per cent. in 1918, an increase of approximately 2 per cent.

In commenting on this splendid showing, Mr. Bradshaw says: "The result of the prosperous conditions of our citizens and of business generally throughout the city; also the increasing tendency on the part of the taxpayers to take advantage of the discount allowed (generally) at the rate of 7 1/2 per cent. per annum) for payment in full of the first instalment adopted. It is also believed that the plan adopted this year for the first time of making the tax bills, instead of delivering them by hand, has assisted in the more prompt collection, especially of the business and income tax. It is proposed to continue this system, inasmuch as it has been found that it eliminated a great many claims of non-delivery of bills and afforded the collector more time to devote to the collection of arrears."

It is pointed out that the only tax rolls outstanding in the collector's hands are those for the year 1918, representing taxes due in that year. At the close of June the overdue taxes (exclusive of those for 1918) amounted to \$2,245,439, of which amount \$1,668,068 is arrears due in 1918, and the balance, \$577,376, taxes due in years previous to 1918.

NEW BUILDING PERMITS.

The following building permits were issued by the city architect's department yesterday: W. T. Reid, dwelling, 33 Windermere avenue, \$3,750; A. and A. Grant, dwelling, Flayler boulevard, near Butternut street, \$5,000; James Gardner, estate, dwelling, 33 Scarborough road, \$5,500; James McFarland, dwelling, 120 Mackay avenue, \$3,000; W. J. McCintock, dwelling, Chisholm avenue, near Gates avenue, \$1,500; W. J. O'Reilly, two dwellings, 370-372 Spadina road, \$10,000; A. E. Black, dwelling, 127-129 Glebeholme avenue, \$4,000; W. T. Bennett, dwelling, Rose Park drive, near Ingwood drive, \$3,700.

You Must Keep Warm Next Winter Comfort Says so, and the Doctor Says so, too

You must consult your comfort. Does your house really feel warm on cold days, on windy days, every day, all winter long? If not, don't try to make yourself think the present heating system will do. The discomfort of an insufficiently heated house is reason enough for putting in a new hot water boiler. But a stronger reason still, is that a chilly house causes colds, rheumatism, pneumonia and sicknesses of many kinds. Poorly heated houses are where the doctors most frequently call and where they present their largest bills.

Why Don't You Write Us and Ask What It Would Cost

After all, the first thing to do is to find out what it would cost. There is no use waiting for low prices because commodity prices in all lines of metals and building materials will not go down. The demand for materials and all the costs in connection with manufacture, show no chance of reduction. You save nothing by delay, so act promptly. A King Hot Water Boiler and Imperial Radiators are the best heating system you can put in as is shown by many reasons simply explained in our booklets and other literature. If a new boiler will add to your comfort, do not put off getting it in. Even at a higher initial cost, its economy is such that it makes a substantial saving in fuel, week by week, and this is multiplied over and over as long as the system is in service. Do not let a few dollars in cost prevent you having a warm house. If you spread the cost over a lifetime of winters the cost per season is trifling. Get your heating engineer to give you estimates on a King Hot Water System without delay.

KING HOT WATER BOILERS AND IMPERIAL RADIATORS

Heat Rooms Quickly and Economically

The King Boiler is constructed on improved principles which insure quicker heating of the water and, consequently, quicker heating of the rooms. It is so satisfactory in every way that no one installing a King Boiler could possibly be disappointed. Imperial Radiators are very attractive in design and add to the artistic completeness of any room. The present patterns are of special construction which gives quicker heating power than any other radiator yet invented.

FRIENDS THOUGHT HE WOULD DIE

"Fruit-a-lives". Conquered Dyspepsia and Restored His Health.

MR. ROBERT NEWTON.

I was a terrible sufferer from dyspepsia and constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. I lost so much weight—going from 185 pounds to 140 pounds—that I became alarmed and saw several doctors, who, however, did me no good. Finally a friend told me to try "Fruit-a-lives."

In a week there was improvement. The constipation was corrected, and soon I was free of pain, headaches and that miserable feeling that accompanies dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous.

PEACE DAY MESSAGE FROM HON. DR. CODY

The Rev. Dr. Cody, minister of education has issued a peace day message to the children of Ontario, believing that the dawn of peace opens up a new era for the children of the world. In his message Dr. Cody says: "This celebration reminds us of a new era that has opened up for Canada. The war has taught us many lessons which may be applied in the days to come. The unity of method, the intensity of purpose, the sacrifice of self that characterizes people in the days of war should also characterize us in fighting the battles of peace. The children of the province have had the unspeakable advantage of growing up in days when 'service' and 'sacrifice' were the great watchwords of the nation. I hope those watchwords will continue to be the inspirations of their lives. Their elders were crusaders against tyranny, injustice and inhumanity; they are called to be crusaders against the constant foes of national life—ignorance, poverty, impurity and iniquity."

LABOR NEWS GIVE RAD'S CHANCE TO SHOW METTLE

Representative Labor Men Glad Progressives Are in Reversed Positions.

That trades unionism in Toronto has changed its color a bit in the past few days was a question subject to discussion at the Labor Temple. That the men behind the wheel were of a different stamp from those who had been at the helm for many years was acknowledged on all sides. It was the general opinion that the movement, radical or otherwise, had lost a good man in Arthur O'Leary, the former president, who had carried out his duties with more judgment than any president to date. It was generally conceded that Mr. Munro was an old trades union man, but that he would have to go a long way to efficiently replace the retiring incumbent of that office.

Much Desired Event

Interviews held with representative men as to the general situation were given as follows: Herbert Wright: A much-desired event has taken place. The People's Verdict On President Wilson's Plea

Out and out opponents of the League of Nations Covenant are not converted by President Wilson's plea that it is "a practical necessity," "the only hope for mankind," and that to reject it would be to "break the heart of the world." CITY DRAUGHTSMEN FORM ASSOCIATION

Would Promote Sound Training in Every Branch of Science.

Co-operation with all manners of engineering firms and the furtherance of a proper sense of professional etiquette form the background behind the newly formed Draughtsmen's Association, a committee of which met in special session last night. Among other things, the association aims to convince employees of the different branches connected with the arts of science, to act as a compact professional body, to promote a more sound training in every branch of the science, and last, but not least, to create more equitable relations between employers and employees.

TRADES CONGRESS WILL BE EPOCHAL

Celebrating its thirty-fifth year at the Mountain City, Ontario, this year the Trades Congress of Canada is slated as one of the most important of any in twenty years. The convention will meet at the auditorium of the Royal Connaught Hotel at ten o'clock, Monday, September 22. Pro-representation will not be permitted at this convention. Trades unions and federal labor unions will be allowed one delegate for every hundred members. Two or more trades unions whose aggregate membership does not exceed 150 members, may unite and send one delegate. Provincial federations of labor and trades councils are warned that delegates from their bodies must be in good standing in an international local trade union, or a union chartered by the Canadian Trades Congress.

ELECTRIC DISPUTE SETTLED

The hour schedule of the employees of the Hydro-Electric Commission has been changed from 52 to 44 hours a week, with straight time in bad weather. Linemen will receive 87 cents an hour, and construction men 70 cents. Time and a half is to be paid on Saturdays and half holidays. Inside men receive an increase of from 20 to 25 cents an hour. The employees of the Toronto Suburban Railway Company will receive an increase of from 30 to 37 cents an hour. James T. Gunn stated yesterday afternoon that his membership would increase to 1000 by December. It now stands at 700.

A WRONG VIEWPOINT

The feeling of labor men generally, radical or moderate, with respect to the article in a morning paper, describing the trades union fight as having been a victory for the employers, does not represent by any means the real facts of the contest, which was really between two opposing forces of trades unionism, having no reference to prohibition or the reverse.

JACK MUNRO IS ILL

Jack Munro, one of the most popular members of the radical group in the labor movement, is suffering from an attack of malaria, which grips him every so often. It will be recalled that he was elected president of the Toronto Trades Council at Thursday night's session.

TRADES UNIONISM GROWS BY LEAPS

According to the eighth annual government report of trades organizations in Canada, there are today 248,887 trades unionists by card in the Dominion. Of this number 1,897 labor bodies comprising 201,432 members are affiliated with international organizations, 332 organizations, comprising 27,928 members, with non-international bodies, and 45, with 9,527 members, belong to what are known as independent units. The increase in membership will be:

TORONTO HYDRO PLANS SUBSTATION EXTENSION

The Toronto Hydro-Electric substation, situated at the southeast corner of Duncan and Nelson streets, will be extended towards Yonge street, and for this purpose the property at 27 and 29 Nelson street has been purchased by the commission. It is expected that building operations will commence shortly.

PRINCE TO VIEW COLTS OF ANMER

Breeders Asked to Parade Offspring of Sire Presented by King.

In view of the fact that H. R. H. the Prince of Wales is a great admirer of thoroughbred horses, it has been decided to demonstrate to him during his visit to the Canadian National Exhibition in August, that the gift of Anmer, the thoroughbred to Canada, by His Majesty King George, has been fully appreciated. The horse, who it will be remembered, was the means of the death of a British suffragette some years ago, when she ran on the track and struck herself at his head, during the progress of a Derby race, and was fatally trampled, was sent to Canada in 1916 by His Majesty for the encouragement of thoroughbred breeding.

ACQUITTED OF ASSAULT

On a charge of aggravated assault, John McIlveen, 127 1/2 Woodbine avenue, was acquitted in police court yesterday morning. The charge was preferred against McIlveen by Robert Moffatt of Eastern avenue.

BEACHER'S CUCUMBER CHALLENGED BY RIVAL

J. J. Cosgrove, 406 Kingston road, has gone one better than Balm Beach by cutting a cucumber on Dominion Day, also English beans, butter beans, radishes and onions. He ate his first peas during the first two weeks in June.

Mr. Cosgrove wants to see Beacher's corn and wonders why he does not give his address. Beacher replies by a cordial invitation to Mr. Cosgrove to come and see his garden, and sends him his address under private cover to avoid an invasion. He apologizes for the state of the garden, as it was in so dry a spring and outcrops were as busy as cutworms can be at their work.

If these two cucumber growers put their heads together they may possibly succeed in cutting a crop before seeding next year.

TO KEEP SKIN FRESH AND FINE THESE HEAT DAYS

It would be much better for the skin if little cream, powder or rouge were used during the heat days. Beacher replies by a cordial invitation to Mr. Cosgrove to come and see his garden, and sends him his address under private cover to avoid an invasion. He apologizes for the state of the garden, as it was in so dry a spring and outcrops were as busy as cutworms can be at their work.

Peace Day.

"Peace beginning to be," wrote Sir Edwin Arnold in one of his longer poems. It is that potentiality of peace we are celebrating today.

So today the joy-bells are ringing. The flags are all a-flutter in the empire capital. The great King sees the armies and navies of his nation march in delegated ranks before him.

This would mean bringing on the election at the earliest possible moment, as it will take a month for the enumerators to prepare their lists and another month for printing and correcting.

It is understood the instructions that have gone out to the enumerators for the different ridings through the province are in effect that their work must be completed in about thirty days.

Another circumstance that places the "double" voting two months from Peace Day comes from a meeting of Conservative members of the legislature in Toronto on Tuesday.

The World was informed that there are many reasons impelling the government to hasten to the hustings. There is nothing now but danger in further delay for the administration.

There were other reasons for holding off the present certain signs of campaigning till after Peace Day.

It is expected that the date of the election will be announced soon after the close of the Liberal convention.

The Ottawa correspondents do not seem to have much political information to give out. One says that Sir Harry Drayton has gone yachting on the St. Lawrence with Sir Robt. Borden.

Another correspondent says that Sir Robt. Borden will try to meet Sir Lomer Gouin after the Liberal convention at Ottawa in the first week in August.

POLITICAL NOTES

A pretty definite conjecture based upon information concerning the Ontario general elections and referendum is acceptable to local political circles.

It is understood the instructions that have gone out to the enumerators for the different ridings through the province are in effect that their work must be completed in about thirty days.

WHEAT SITUATION PUZZLES DEALERS

(Continued From Page 1).

problem is in the selling, and we are going to fall down. Private sellers simply cannot compete in Europe against the U. S. government. The United States will send all its ships for the transportation of its own grain.

Mr. Watts thought that the exchange situation would permit the British government to pay about 30 bushels more for Canadian wheat than for U. S. wheat, but that this was only a minor aspect of the question.

The fact that on Monday the Winnipeg grain market will witness unrestricted trading in grain futures after a lapse of about two years was regarded by Mr. Watts as pointing the way to a dangerous situation.

A Day That's Been Long Awaited

BY IDA L. WEBSTER.

Rejoice and be happy, if for no other reason than because this is the day which poets have poetized and relatives have prayed for, and newspapers have boasted of, for five long weary years.

In the darkest hours of the battle mothers have remembered that at some future time the day of peace would dawn, and then the world would once again be able to breathe with the freedom God meant all men to use at all times.

Thomas L. worked like a nigger to make today's vacation possible for everyone, and there are those who do not, and there are those who do not, and there are those who do not.

Another circumstance that places the "double" voting two months from Peace Day comes from a meeting of Conservative members of the legislature in Toronto on Tuesday.

FORD BELIEVES IN ENGAGING EXPERTS

Only Way to Get Things Done, He Says in Libel Suit.

Mount Clemens, Mich., July 18.—The heart of Henry Ford's libel suit against The Chicago Daily Tribune was reached today, when Attorney Stevenson, representing The Tribune, began to question Mr. Ford regarding the alleged libelous editorial, headed "Ford is an Anarchist," published in The Tribune June 23, 1916.

Attorneys Lucking and Murphy peppered the examination with objections on behalf of the plaintiff, and Mr. Lucking characterized the examination in the course of which Mr. Stevenson attempted again to get the witness to admit that he was "an ignorant idealist," as brutal and particularly distressing to so modest a man as Mr. Ford.

The Tribune lawyer read one of the Delavigne articles, in which Mr. Ford was quoted as saying his anti-war education campaign had proceeded with such success that only ten of the 20,000 men then in his factory went to the national guard campment at that time.

"I don't know," said the witness, "Mr. Delavigne was hired as an expert to handle my educational campaign. That is the only way I can get anything done, his experts. If Mr. Delavigne made mistakes, why I can't help it. He may have made them like anyone else. That's all I can say about this suit."

This was said to be the longest answer in the man's testimony in the five days he has been on the stand.

SHOT AT CHERRY-PICKERS; NOW PAYS A \$100 FINE

Special to The Toronto World. Brantford, July 18.—P. R. Greenwood, an Echo Place fruit farmer, was fined \$100 and costs for firing two charges of buckshot at two youths who picked a few cherries off his tree recently, the bushnot doing some damage. Greenwood said he did not fire over their heads, because if he did, they would have laughed at him, so he fired direct. Asked by the magistrate if he would have given some cherries to the youths if they had asked, in place of helping themselves, he emphatically declared that he would not have given them one. The lack of magnanimity was followed by the fine.

BRITISH COAL INCREASE TO BECOME EFFECTIVE

London, July 18.—The six-shilling increase in the price of coal, previously announced by the government, will be effective on July 21. Andrew Bonar Law, who presided at the announcement in the house of commons today, said the increase, postponed pending action by the miners' conference at Keswick on the government's proposal that the miners agree to prevent any stoppage of work, must be put into effect soon, as any delay in the price rise would be fatal.

TO ASSIST DISABLED SAILORS AND SOLDIERS

Washington, July 18.—Carrying increased appropriation for the rehabilitation and education of disabled soldiers, sailors and marines, the \$612,000,000 sundry civil appropriation bill was passed today by the senate. It now goes to the president, who vetoed the original bill because it limited funds for training wounded service men.

French Aviatress Killed in Flight

Baroness De La Roche Had Made Altitude Record for Women.
Paris, July 18.—Baroness de la Roche, the French aviatress, was killed in an airplane accident at the air-drome at Crotoy this afternoon. The baroness was flying with a passenger when the accident occurred.

The Baroness de la Roche was the first woman to make an airplane flight over Paris. This was about ten years ago. She won her air pilot license in 1910.

In 1915 the baroness made an altitude record for women, rising to a height of 12,869 feet; and in June of the present year she flew an altitude of 15,700 feet, beating the record of Ruth Law, the American woman flyer. During her career as an aviatress the baroness had met with many accidents.

Thief Would Steal Through Apartment Windows With Rod and Line.
New York police recently caught a novel catch in their net when one Frank Palumbo, described as a "fish-pole burglar," fell into their clutches.

His method was to sit on the roof of an apartment house, and by means of a rod, line, and hoop, fish up from adjacent windows such articles of jewelry, clothing, knickknacks, etc., as could readily be captured in this way. Beside chairs on which slumbering gentlemen had deposited their watches and money for the night seen to have been his particular hobby.

When arrested he had in his possession a gold timepiece which had disappeared from a chair in the manner indicated a few nights previously.

SIX DOLLARS SAVES SICK CHILD'S LIFE
"Is a child's life worth six dollars?" asks The Journal of the American Medical Association, in recounting the experience of the town of Salem, O., in combating diphtheria.

Purged of ten years from 1890 to 1899 this town of 10,000 inhabitants had 182 cases of diphtheria, with 48 deaths, or 20 per cent. In 1900 the city health authorities began furnishing free anti-toxin for all cases of diphtheria. In ten years, from 1900 to 1909, there were 182 cases, with only one death—a case in which the anti-toxin was not administered until the third day. Had the percentage of fatalities been as high during the second decade as during the first, Salem would have had 87 deaths from diphtheria in that time.

The anti-toxin furnished for the ten years cost the city approximately \$220, or an average of \$6 per life.

FRENCH AVIATRRESS KILLED IN FLIGHT

Baroness De La Roche Had Made Altitude Record for Women.
Paris, July 18.—Baroness de la Roche, the French aviatress, was killed in an airplane accident at the air-drome at Crotoy this afternoon. The baroness was flying with a passenger when the accident occurred.

The Baroness de la Roche was the first woman to make an airplane flight over Paris. This was about ten years ago. She won her air pilot license in 1910.

In 1915 the baroness made an altitude record for women, rising to a height of 12,869 feet; and in June of the present year she flew an altitude of 15,700 feet, beating the record of Ruth Law, the American woman flyer. During her career as an aviatress the baroness had met with many accidents.

Letter carriers at last night's meeting unanimously declared that with respect to the alleged government bonus they know not where they stand. Some stated that they had received only \$7 in salaries in two weeks, others stated that they had been entitled to a bonus of \$850, which was refused to materialize.

Thief Would Steal Through Apartment Windows With Rod and Line.
New York police recently caught a novel catch in their net when one Frank Palumbo, described as a "fish-pole burglar," fell into their clutches.

His method was to sit on the roof of an apartment house, and by means of a rod, line, and hoop, fish up from adjacent windows such articles of jewelry, clothing, knickknacks, etc., as could readily be captured in this way. Beside chairs on which slumbering gentlemen had deposited their watches and money for the night seen to have been his particular hobby.

When arrested he had in his possession a gold timepiece which had disappeared from a chair in the manner indicated a few nights previously.

SIX DOLLARS SAVES SICK CHILD'S LIFE
"Is a child's life worth six dollars?" asks The Journal of the American Medical Association, in recounting the experience of the town of Salem, O., in combating diphtheria.

Purged of ten years from 1890 to 1899 this town of 10,000 inhabitants had 182 cases of diphtheria, with 48 deaths, or 20 per cent. In 1900 the city health authorities began furnishing free anti-toxin for all cases of diphtheria. In ten years, from 1900 to 1909, there were 182 cases, with only one death—a case in which the anti-toxin was not administered until the third day. Had the percentage of fatalities been as high during the second decade as during the first, Salem would have had 87 deaths from diphtheria in that time.

The anti-toxin furnished for the ten years cost the city approximately \$220, or an average of \$6 per life.

FIRE PREVENTION SPECIAL MEETING

To Confirm Articles of Association and Vote on Nominations.

A special meeting of the Ontario Fire Prevention League will be held on Friday, Aug. 8, 1919, at 9 a.m., at above address, for the purpose of confirming the articles of association and regulations for the management and control of the corporation, and governing the election of the committee to manage the corporation as set forth in the charter. The league has been incorporated, and notices sent out in compliance with the requirements of the charter. It is not contemplated to change the organization of the articles of association as adopted Aug. 30, 1918.

ROYAL GRENADIERS PLAN BIG REUNION

The Royal Grenadiers are planning a huge reunion, which is to take place in High Park on August 9. All members of the regiment, past and present, especially veterans of the great war who joined from the Royal Grenadiers or passed thru the regiment, to some overseas unit, and veterans of the Grenadiers contingent in the South African War and the Northwest Rebellion, are to be invited to attend. Members of other C.E.F. units who reinforced the 123rd Royal Grenadiers in Canada or France are also to be invited.

TRANSPORT AIRPLANE FLIES TO SUBURBY

One of the International Aerial Transport Limited airplanes made the journey from Toronto to Sudbury on Thursday last inside of three and a half hours. The plane was handled by Pilot S. S. ("Dinky") Moore, and it made but one stop at Barrie, where a new supply of gasoline was taken aboard. Pilot Moore reported that he had a very smooth trip.

FOUND BROTHER'S GRAVE.

Before leaving England on her return to Canada, Nursing Sister Macy Darling, one of the "originals" who went overseas with the No. 4 University Hospital, went to France in search of the grave of her brother of the R.F.C.L., who was killed in action on April 10, 1918. Miss Darling was unable to get definite information at different places of enquiry in England, but found the grave at Marconis, France.

A second brother, Gerald, who was with the 4th Battery, went thru several engagements and was wounded in France. Miss Darling, who is a daughter of Rev. Charles Darling, 388 Palmerston boulevard, arrived at the time of the bombardment of Gallipoli and Sulva Bay, at Salonica, at Malta and at Basingstoke Hospital, England.

LISTLESS, PEEVISH GIRLS

When a girl in her teens becomes peevish, listless and dull, when nothing seems to interest her and dainties do not tempt her appetite, you may be certain that she needs more good blood than her system is provided with. Before long her pallid cheeks, frequent headaches, and breathlessness and heart palpitation will confirm that she is anemic. Many mothers as the result of their own girlhood experience can promptly detect the early signs of anaemia, and the wise mother does not wait for the trouble to develop further, but at once gives her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anaemia before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anaemia is the rare road to worse ills. They know the difference that good red blood makes in the development of womanly health. Every headache, every gasp for breath that follows the slightest exertion by the anemic girl, every pain she suffers in her back and limbs are reproaches if you have not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills.

New, rich red blood is infused into the system by every dose of these pills. From this new rich blood springs good health, an increased appetite, new energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and note how promptly their influence is felt in better health.

PLAYS, PICTURES AND MUSIC.

"A Very Good Young Man."

The hero is just one of those young men, who doing mothers think are eligible for their daughters' husbands, while the dutiful daughters all think he is nice enough to be a big brother but nothing more. Of course, according to the law of averages, there are some who are not so good, but it proves with "The Very Good Young Man." The matinee will be as usual on Wednesday and Saturday.

"Officer 666."

Many plays have been laughed at, but it is safe to say that no comedy ever had as many friends as "Officer 666" the comedy of police life in a suburb that will be presented by Edward H. Robbins and his players during the week ending July 21. The play is as usual on Wednesday and Saturday.

"Mickey" Breaking All Records.

"Mickey" the play which is breaking all records for attendance and the length of the engagement, still continues a strong drawing card at the Grand Opera House. The play appears to be no let-up in the patronage. Commencing with a matinee on Monday, next week, this remarkable film will enter upon its eighth week and will have a record of having been seen during the Toronto engagement, already, by nearly two hundred thousand people. It is a meritorious offering and one which attracts the same people time and again. Its comedy is natural and wholesome, its story well connected; its portrayal by an excellent cast, and its climaxes rousing and exciting. During the stay of "Mickey" at the Grand a matinee will be given every day.

At the Hippodrome.

For this week the management of the Hippodrome offers as the headline attraction the new William Fox production, "The Wilderness Trail," starring the popular cowboy actor, Tom Mix. It is a thrilling story of the Canadian northwest, that will hold attention from opening to closing at the Grand Opera House. The play will head the vaudeville bill in a series of modern and classic dances. El Clevel, the Toronto boy, known here as Cleve Clevel, has a number of vaudeville specialties. Martelle, in character impersonations, will prove popular, particularly his impersonations of the fair sex. Wales and Burns, in an amusing comedy sketch, "On the Fourth Floor," are also very good. A Pathe Harold Lloyd comedy, and the William Fox "Lucky Thirteen," Sunshine comedy, "Roaring Lions and Wedding Bells," are also included.

At Loew's Next Week.

Alice Brady's latest screen success, "In the Hollow of His Hand," at Loew's Theatre and Winter Garden next week, is a story of a young English girl, who is dominated for a time by a woman whose husband she murdered in self-defence. Miss Brady is extremely charming as the innocent young girl who comes to a strange country alone, only to meet with hardship and trouble. Versatility, grace and beauty are offered by the Five Musical Misses, who will introduce some fine patter and song bits of speciality. The "Dance Fantasies" presented by Cecile d'Andrea and Henry A. Walters embrace classic, popular and the latest jazz dances. Hinkel and Mae have a clever skit called "Catching a Car," in which they mingle with some of the latest dances. Ash and Hyams, clever Hebrew comedians, will offer a side-splitting skit. "Nothing on the Level," in which a whole-some line of patter and song bits of their own composition predominate. The Kremka Brothers, knockabout clowns; Dowling and Bunnen, in a musical skit entitled "It Is to Laugh"; Loew's British-Canadian Weekly, and the "Mutt and Jeff" animated cartoons, round off a bumper bill.

Last Day for "Sunnyside."

This is the last day for seeing Charlie Chaplin's big laugh-producer, "Sunnyside," at the Strand Theatre. And remember that Charlie was seven

months making this picture, and will be a long time producing another. The Strand today at 11.30, 1.15, 3.45, 6.30, 8.15 and 10. But it is only one feature of the Strand bill, which also includes vivacious May Allison in the sparkling comedy-romance, "Almost married," which no Toronto movie fan ought to miss.

Five Stars at the Regent.

Next week brings to the Regent screen an array of five noted screen stars in one picture, namely, "Three Green Eyes," Carlyle Blackwell, Montagu Love, Evelyn Greely, June Elvidge and Johnny Hines all have many admirers among the motion picture patrons of Toronto. "Three Green Eyes" is a story of love and adventure marked by the splendid plot which unfolds many untold situations. It all happens as the result of a letter written in haste to be re-acted at the Regent, and the action is fast, the situations realistic and convincing, the climax real and logical yet surprising. A good comedy has been selected for the Regent, and will bring the news and views of the day. The famous Regent orchestra will play "Masterson."

Mary Pickford at Madison.

Mary Pickford in her tremendous success "Daddy Long Legs," will be the attraction at the Madison Theatre on Monday, Tuesday, Wednesday and Thursday of next week with a special matinee on Wednesday at 2.30. The famous star in her very fine photograph should draw crowded houses.

LAW FOR PROTECTING GERMAN SECURITIES

Weimar, July 18.—The government is planning an emergency law which would provide for the stamping and dating of all securities now within the confines of Germany as a check against attempts to smuggle them abroad. Holders of securities which already have been sent into neutral countries under the law would lose them unless they bore the emergency stamp, without which the government would declare them invalid.

Cooking by Wire

NOTHING in the last ten years has helped to make the lot of the housewife easier, more congenial and less irksome than Electric Labor Saving and Cooking Devices.

Take for example the Electric Table Grill illustrated above. It will broil, fry, stew or toast at your convenience, or cook an entire meal for three persons right at the dining table. What could be more convenient for hot weather cooking or early morning breakfasts?

In purchasing Electric Cooking Devices care should be taken in making the original selection. Buy only those which are of favourable repute. It is one thing to purchase an apparently perfect article—it is quite another to have to spend time and money to keep it in a state of perfection.

The perfection of C.G.E. Electrical Goods is permanent, a factor which, taken into consideration with the extreme reasonableness in price, makes them a necessity in the modern home.

Ask your dealer to show you the Labor Saving Devices.

U. S. FOREST FIRES THREATEN TOWNS

Flames Sweep Over Mountain in Idaho on Six-Mile Front.

Timber DESTROYED Federal Forest Service Spends \$15,000 Daily Fighting the Fires.

Spokane, Wash., July 18.—Racing over mountain ridges of western Montana and northern Idaho, forest fires which have been burning for more than a week today continued to spread destructively, threatening several small towns which have been severed by the flames from communication with the United States forest service headquarters at Missoula, Montana.

The fire near Henderson, Mont., jumped the mountains into the Mullan Gulch country, where there is said to be practically no opportunity to stop it. The fire near St. Regis, Montana, crossed the Clark's Fork River and late today was spreading unchecked over a large area.

Damage to Timber. Only with favorable weather conditions is there any possibility of controlling the flames, district forest service officials said. It is costing the federal forest service \$15,000 daily to fight the fires in this district, it was said, besides the damage done to valuable timber and other property. Extra fire-fighters now in the field number 1,500. It was reported that the sheep caught yesterday at Alberton between two cross fires and destroyed numbered 1,700. A fire on Ashley Creek, in the Blackfoot forest, has burned over 3,000 acres.

The Cedar creek fire was said to be the worst in the Kootenay forest, although it is not now spreading rapidly. An incendiary fire which had caused considerable damage was reported in the Kootenay forest.

Sweeps Over Mountain. One of the worst fires in the district was said to be in the Salmon forest, just across the Idaho line, south of Dillon. The fire is sweeping over the mountain on a six-mile front, with the wind blowing a hurricane to fan the flames.

The ranch houses on Blue Lake, near Priest river, Idaho, were isolated by a forest fire covering four or five square miles. According to a report received at Newport, Wash., two or three ranch houses in the Cocolalia creek valley, between Morton and Newport, had been destroyed by fire. SEVERE SETBACKS IN PRICE OF CORN

Chicago, July 18.—Severe setbacks in the price of corn resulted today from liquidation, to which holders were largely prompted by financial and labor unrest. The market then rallied somewhat, and closed unsettled, 2 1/2 to 4 1/2 net lower, with September 190 to 190 1/2 and December 189 1/2 to 189 1/2. Oats finished 1 1/2 to 1 3/4 down and provisions off 3 1/2 to 1 3/4.

ON CHICAGO MARKET

Hughes, Harcourt & Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: Corn has again shown decided weakness and a dominating character. The market is being forced below 160 for December. The causes for anticipation of a lower range of values are prices here added to a bearish sentiment, and the fact that the market has been held by the buying caution of the late upturn.

MONTREAL PRODUCE MARKET

Montreal, July 18.—The trade in cash produce at this market today was again quiet, there being little demand for supplies from either local or outside sources. On the break there were some buying by houses with some board connections.

WINNIPEG GRAIN MARKET

Winnipeg, July 18.—The wheat market for futures trading will reopen on the local exchange Monday morning, after a country take-off. No. 1, 1.28 1/2; No. 2, 1.10 to 1.11; No. 1 sheep skins, \$2.50 to \$4; horsehair, farmers' stock, \$2.50 to \$3.25; heavy, \$2.50 to \$3.25; mixed and clover, \$22 to \$28 per ton.

NEW YORK STOCKS
MOVE ERRATICALLY

Resume Aggressive Operations, But Stocks Rally With Ease.

New York, July 18.—The final session of the stock exchange, after a week of the stock exchange, was characterized by further erratic movements of prices, traceable in large measure to an increase of short selling. A general bearish aggression was accompanied by reports which hinted at labor disturbances, but were not confirmed in the light of the best informed industry quarters. The long account further encouraged the bearish feeling, and the market was not strong for a brief period, but reacted towards the close. Demand for the stock was not so strong as to suggest a scarcity of the floating supply in some of the more popular shares. The market was not strong for a brief period, but reacted towards the close. B. C. FISHING RISES ON HEAVY TRADING

Toronto Market, on Eve of Holiday, Shows Some Irregular Tendencies.

On the eve of a holiday and with a rather pronounced reactionary trend in the New York market, it was expected that the Toronto market would take on a bullish tinge, but, although there were evidences of irregularity, as on the previous day, a number of issues finished with good net gains, and the day's volume of transactions was considerably larger than that of Thursday. To this showing B.C. Fishing was an important contributor, this stock rising up a total of 745 shares in the process of rising to the highest price of the year. Directors of the company met in Toronto on Thursday, and the "street" assumes that a dividend distribution is in the near prospect. At any rate B.C. Fishing opened strong at 65, and sold as high as 66 in the morning. In the afternoon dealings slackened very perceptibly, and the price receded to 64 1/2, leaving the net gain a shade less than three points.

BROMPTON IS LEADER IN MONTREAL MARKET

Montreal Power and B. C. Fishing Also Prominently Strong in Trading.

Montreal, July 18.—With one or two notable exceptions, Montreal stocks today displayed the usual characteristics of a market in which the general level of activity and outside of the activity in Brompton Paper, Montreal Power, B.C. Fishing and Canada Steamship preferred, lapsed into quiescence. Price fluctuations, however, were mostly fractional in the general list, with realizations in one or two of the recently favored issues caused some impairment in quoted values of the stocks affected by this movement.

NEW YORK FUNDS RISE TO RECORD QUOTE

New York funds reached record height in the Toronto market yesterday, being quoted at 5 1/2 per cent. The rise was due to the extremely disturbed conditions in the foreign exchange during the week the comparative steadiness of the Canadian dollar had been gratifying.

NEW YORK CURB

New York, July 18.—Trading in the outside market was comparatively on a par with the Toronto market today. Prices were generally lower on the entire lot of issues. The action was steady under small sales, and practically closing the exchange Saturdays will continue. It is expected during the balance of July and August, which is necessitated from the large volume of transactions. The general opinion is that the upward trend is sure to continue. Actia Explosives was inactive, but strong, closing at 1 1/2. Excello Tire closed at 1 1/2. Rubber was active and strong, closing at its opening price of 4 1/2. Perfection Tire was steady under small sales, closing at 3 1/2, a loss of 1-16. New York Shipbuilding with sales amounting to 2,000, dropped from an opening of 68 to a close of 65. The Independent Oils were fractionally lower with a few exceptions. Livingston Oil on a report of another 2,000 barrel well, opened at 3 1/2 and closed 3 1/2 with sales amounting to 11,000 shares. Salt Creek Products, closing at 6 1/2, showed a loss of 1/4 of a point. The Sinclair issues were generally steady. Texas Products and Refining, closing at 8 1/2, show a gain of 1/4 of a point for the day. Midwest Texas was active and fractionally lower. The mineral issues were fairly active and the prices under profit-taking averaged lower. Alaska Brit. Col. opened at 1 1/2. Boston and Montana with sales amounting to 36,000 shares closed at 1 1/2. Boston and Montana with sales amounting to 36,000 shares closed at 1 1/2. Canada Copper closing at 1 1/2. Its opening price was active and steady. Manana closing at 88, showed an advance of one cent. Sunburst Cons. was steady at 73. The Tonopahs were steady and fractionally lower. Canadian government bonds continued to be the most attractive feature of the bond issues with a total sale of 72,000 for the 2 1/2 per cent. closing at 97 1/2. The bonds were steady. Russian government bonds declined fractionally, while the Swedish government bonds were steady at 93 1/2.
