TORONTO IN SECOND PLACE

Won a Pretty Game, From Sandy Griffin's Syracuse Stars, Score 6 to 1.

MONTREAL BEAT ROCHESTER.

Providence and Hartford the Other Winners—Washington Wins Again.

Toronto went up a notch in the percentage table yesterday, and now there are only

the weak hitters of Montreal to pass. Syracuse was given a good reception at the

and yesterday, and Sandy Griffin received the glad hand when he first stepped to the

plate. Third Baseman Donnelly will be in the

game to-day and should materially strengthen the team. Toronto is still looking

for players, though Boyd is reported to have signed.

The Montreal game will be called at the Point again this afternoon.

Dude Malarky will serve the ball up for the visitors and Tony Mallah will make his

initial appearance on the rubber for the locals. Syracuse will end their series

to-morrow, and on Friday the Montrealers will come along for a four-game series, the

first being one of the games postponed in Montreal. To-day's game will be called at

4 o'clock. The record:

Won. Lost. P.C. Montreal 21 8 . 724

Toronto 17 12 . 586

Rochester 15 17 . 468

Providence 15 15 . 464

Washington 11 15 . 423

Syracuse 8 39 . 283

Games to-day: Syracuse at the Island, Rochester at Hartford at Worcester, Springfield at Providence.

Toronto G. Syracuse 1. It was a relief to have Sandy Griffin and his

Syracuse Stars replace Buckenberger's players as Toronto's opponents at the Island

yesterday. The game was clean and snappy

and went against the visitors in the second

inning. Outside that round it was almost an even

game. Villman and Brown were about equally effective, the Toronto

winning by virtue of shabby sup- port.

The work of Wagner and Boat was wonder- ful

and the best feature of the game. The new second

baseman beats them all in transferring the ball

along to first to retire the second run- ner.

A base on balls, Boat's sacrifice, Beau- mont's

single, Wagner's double, Leotte's muff and

Wagner's hit scored the quartet in a bunch.

Brown's single and Bannan's triple failed the run in the fourth, while

the one in the seventh was Wagner's hit over the fence.

The Toronto error in the eighth inning was

in the seventh, when Cross, Woodcock and Villman

bunched singles. Wagner is credited with Toronto's only error, being a

low throw to first base in the fifth. Abel Leotte

was unfortunate in getting the two for Syracuse, both being dropped balls

thrown from the infield. There was a good game for

Syracuse, both being dropped balls thrown from the infield. There was a good

game for Syracuse, both being dropped balls thrown from the infield. There was a good

DON DE ORO WON THE BROOKDALE.

Warrenton Only a Head Behind the Favorite—Virginia Earle's Criterion.

New York, June 6.—The chief event at Gravesend to-day was the Brookdale Handicap, at 1 1/4 miles, in which Don Oro was

a slight favorite. At the lower turn Don Oro took a lead of half a length on War-

renton in the stretch it looked as if he would win easily, but Warrenton came

under punishment, and it took a hard drive through the last furlong for Don Oro to

win by a head. The Criterion Stakes re- sulted in an easy victory for the favorite,

Virginia Earle, who led from start to fin- ish.

THEY CLAIM, ALTHOUGH OFFICIALS DENY IT, THAT THE COMPANY HAS BROKEN FAITH

LAURIER IS WITH THE STRIKERS

A Point in Their Favor Stated by the Premier's Montreal Organ-Gossip About the Strike.

The strike of the Grand Trunk trackmen is still on, and the men have fully recovered from the shock which they received on discovering on Monday morning how little they were to go back. It now appears that the three members of Parliament who went to Montreal on Saturday had returned to the capital with a mistaken idea of what the men really intended to do with the company's conditions to apply to the strike.

MORE COMPLICATED NOW.

They were simply deceived as to the position of the Grand Trunk trackmen. The Premier's Montreal organ, the "Globe," has just published a long article in which it is stated that the men were not only deceived but that they were also misled by the Premier's organ.

THE POSITION LOCALLY.

They say they will win this time. Some have got other jobs. The situation of the Grand Trunk Railway is a very complicated one. The men are not only striking but they are also demanding a large increase in their wages.

WENT OUT AT GLENCOE.

The trackmen there say they will not be trifled with in the future. Glencoe, Ont., June 6.—The trackmen of Glencoe Lodge met in a special meeting to-day. They have all been called out again and have responded nobly, all being out with the exception of the foreman and the men here have resolved to-night that they will not be trifled with in the future.

Magistrate Denison heard an interesting case in the Police Court yesterday. Robert J. Salisbury, a sales agent for the National Cash Register Company, was charged with forging the name of R. M. Ferrier of Portage to an order for a cash register on a rival concern, the Hamilton Cash Register Company. The hearing was held in the Police Court, and the accused was committed for trial.

Robert Murphy, a foundry worker of James Murphy, 10 Marlborough-street, felt the heat of Monday, and in company with some other boys, was called to Hamilton from Toronto, and in the course of the trip he was drowned. The body was found in the water, and the cause of death was asphyxiation.

Mr. Sproule's Contention. Mr. Sproule contended that if Mr. Blair possessed the information sought and recorded in the table of the Senate, he was openly inviting the Senate to second the bill, and that this was a violation of the rules of the Senate.

Executors Want Relief. The estate of Hon. John Bryson of Pontiac, Quebec, is in court upon an application for relief by the executors who want to be relieved of their trust and for the appointment of their successors.

DANGER IN SODA. Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended as a medicine, and people who use it as such are doing themselves harm.

The Big Doctor in B. C. Vancouver Province Dr. Oronhybretka, Supreme Chief Doctor of the Independent Order of Foresters, arrived from the east this afternoon and is now a guest at the Vancouver Hotel.

Shea Had Feast. Andrew Shea of 86 East Adelaide-street celebrated his return from Ireland yesterday by getting up a party at the Vancouver Hotel. The feast was a grand one, and the guests were very numerous.

Broke His Ankle. Max Cohen of 87 Centre-avenue stumbled and fell near his home last night. In falling he broke his ankle. Dr. Pepler received the fracture and Cohen was taken to the Emergency Hospital.

LOCAL TOPICS. Cigaret machines reduced to 50 cents. Allie Boland. The party of the Dominion Express office, who have been touring the system for the past two weeks, returned to Toronto yesterday.

The West York Farmers' Institute will hold their annual excursion to the Guelph Agricultural College on June 16. Mr. E. P. Clarke, M.P., will be in charge of the party.

It is understood that Mr. J. W. Pirelli has been elected to the position of Secretary of the Toronto branch of the National Cash Register Company. Mr. Pirelli is a well-known business man and has been in the employ of the company for many years.

THE TORONTO WORLD.

ONE CENT MORNING PAPER. No. 53 YONGE-STREET, TORONTO. Daily World, \$3 per year. Sunday World, in advance, \$2 per year.

BUILT BETTER THAN HE KNEW

If Sir John Macdonald were alive to-day he would find the Dominion running along pretty much as he left it. There is very little new in the world, but the old methods prevail. More business is being done, but no new lines have been added.

THE SENATE'S USURY BILL.

Senator Dandurand's bill respecting usury is arousing attention all over the country. It is evident that a strong public sentiment exists against professional usurers. Parliament cannot make the penalty for usury so severe as to deter the professional usurer from carrying on his nefarious business.

SHALL DOCKING BE LEGALIZED?

The Montreal Veterinary Society is promoting a bill to restrict the docking of horses to licensed veterinary surgeons. The bill is urged on humane grounds, it being contended that the pain of severing the horse's tail would be reduced to a minimum if the operation was done by a professional.

EASTERN-AVENUE BICYCLE PATH.

The Council has done little or nothing to assist the bicycle path in the East End. Fortunately Toronto has many miles of excellent pavements radiating from the centre of the city in all directions, so that on the whole wheelmen have little to complain of.

Stricken With Paralysis.

London, June 6.—While speaking during the debate on the Grant Loan Kitchener, in the House of Commons, today, Mr. Robert Wallace, member for Perth, was seized with cerebral paralysis. He was carried away in an ambulance, and now lies in a serious condition.

Col. Kitson at West Point.

Peebles, N. Y., June 6.—Governor Roosevelt visited West Point this morning, accompanied by Lieut.-Col. Lee of the 1st Cavalry, and Col. Kinson, director of the Canadian Military Academy at Kingston.

Hundreds and thousands of cyclists from all parts of the city would use the path every day in the season. The path would not be a local improvement in any sense of the term.

FOR TECHNICAL EDUCATION.

Representatives of Provincial Boards of Trade Endorse Broader Industrial Training in All Branches.

HON. G. W. ROSS PROMISES HIS AID.

"The Time is Ripe for a Strenuous Advance in This Line." For the nonce the Council chamber of the Board of Trade was a miniature art gallery yesterday afternoon.

DELEGATES IN LINE.

The delegates from Provincial Boards of Trade were: Messrs. Fielden Crossley, O. G. Anderson, Woodstock; Alex Maclean, Sidney B. Johnson, Miss Marion Living, C. Ross, Ottawa; F. W. Large, Mayor Shaw, Toronto; William Marshall, John Hoodless, Hamilton; T. H. Preston, Harry B. MacMartin, Miss Quigley, Brantford.

W. F. COCKSHUTT SPOKE.

The question of technical education promised to be a hot one at the meeting of the Board of Trade. The first essential of schools is to equip a man to earn his own living. The subject for discussion was technical education, and in introducing it, President Kemp apologized for not inviting the ladies of the province to be present.

MINISTER OF EDUCATION.

Hon. W. Ross declared that it was a fact that the young people trained for a profession rather than an industrial pursuit were doing the work of the country. He recounted the various ways in which his department had tried to introduce a more practical education.

EXTENSIVE USE OF MACHINERY DEMANDS SUCH EDUCATION.

He declared the problem of giving employment to the young people was an urgent one. In technical training there was a danger that the young people would be left in the country that there was no market for their services.

WHEN TO BEGIN IT.

Dr. Ross cited instances and quoted authorities to show that it should not be begun till a sound elementary education was had. As the Duke of Devonshire once said, "It is not a question of when to begin, but of how to begin."

WHAT THEY ARE.

A resolution was passed heartily endorsing a broader and more practical technical training in all its branches, and appointing a committee of J. D. Allan, T. H. Preston, W. F. Cockshutt, John Hoodless, C. Ross, W. H. Burton, A. M. Wicken, A. G. Anderson and T. A. Hastings.

COMPOSITION OF THE FAMOUS NEW FOOD.

A widespread interest has been created among good liveries as to the composition of Grape-Nuts, the new food that has come into popular use of late.

See that the picnic basket contains a bottle or two of Lytle's "Sterling" brand pickles.

Why "Sterling" brand pickles? Because they are the best, and when you go picnicking, as well as at home, you want the best—the best in pickles certainly.

WANT TECHNICAL EDUCATION.

High School Board Discussed the Subject Last Night, But Didn't Hastie to Do Anything.

The Collegiate Institute Board, at their meeting last night, made the usual appropriation for the annual games, and also appointed a committee to look into the question of introducing manual training into the institutes.

Trustee Wilson directed the attention of the board to the absence of a fire alarm box at the Harbor Collegiate. As it now is, the box is situated some distance from the building, and in case of fire it would take some time before the alarm could be raised.

Major Hardinge is Dead. London, June 6.—Major the Hon. A. S. Hardinge, brother of Viscount Hardinge, a brilliant soldier and officer of the Scots, who was thrown from his horse in Hyde Park last Wednesday, died this evening.

CHAPTER XVII. 1. A sound stomach is the life of the flesh. 2. The sparkling eye and the ruddy face are the signs of a good digestion. 3. And a good digestion may be preserved through all the years of your life.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. Those persons are not aware that they can be made to enjoy the contents of these fruits by taking a few of Dr. J. D. Kellogg's Dysentery Cordial, a medicine that will give immediate relief and is a sure cure for the worst cases.

Mrs. Mitchell Drowned Herself. Allston, Ont., June 6.—Mrs. James Mitchell of this town committed suicide by jumping in the river here last evening. Cause temporary mental derangement, induced by ill health.

THE RESULTS OF THEIR CHOPPING THE FIGURES STILL SHOW A TAX OF 17 3/4 MILLS.

Premier Hardy's Grab Puts the Aldermen in a Hole—No Band Concerts—What Was Cut Down to Save the Pockets of the Taxpayers.

Another bloody battle between the Board of Control and the estimates, and between the board and the taxpayers, and particularly of the loss of the enemy will not be known until next January. The Controllers, with malice aforethought, with every manoeuvre planned, and with each man's work laid out for him, slashed indiscriminately and promiscuously at the draft estimate of expenditures required for this year, and to do their best they could only get the rate down to about 17 3/4 mills. This is half a mill higher on a practically stationary assessment than last year. The reductions totalled over \$275,000.

Hardy-Binders Striking Rate. But the rate does not yet appear to be stable. Leaving out of the question what a certain disturbance created by the Attorney-General has to do with the rate, the fact is that the rate is not yet settled.

No Band Concerts. The item \$1750 for band concerts was struck out of the estimates. Ald. Woods wanted to give it to the union bands.

City Treasurer's Report. The sum of \$10,000 was transferred from maintenance of the old to that of the new.

SIMPSON COMPANY LIMITED

Guaranteed Clothing.

We put no great emphasis or value on making our own Clothing, in fact, we make only a small part of it. "Do one thing and do it well," is the motto of the most successful clothing manufacturers. They are specialists; one running his entire factory on heavy garments, another on fine clothing for men, a third on children's clothing. We select the best maker of each. We stipulate as to material and sewing. We insist on a guarantee which we can endorse and pass on to you. Therefore we are better sellers of clothing for NOT being makers of clothing. THERE IS PROFIT IN MINES.

Yesterday's Deals in Stocks—Le Roi Sale Still a Live Topic—Slocan Stuffers.

ASSAYS OF DARDANELLES ORE.

Mining Operations in Ontario and British Columbia—Sales and Quotations.

That there is money in mining must be acknowledged when the following statements are perused:

The Comstock Lode of Virginia City, Nev., has produced in gold and silver the enormous sum of \$20,000,000.

The Alaska-Treadwell gold mine, with ore running less than \$3, has paid \$3,905,000 in dividends.

The Ontario of Utah has paid \$13,857,000 in dividends.

The Granite Mountain, Montana, \$13,000,000, the stock selling from 10c per share to \$75 inside of six months.

The Homestake of South Dakota, on \$3 ore, has paid dividends every day it has run for the past ten years.

The Witwatersrand of South Africa produced in the first year (1887) only \$405,000, but in 1905 it had increased to \$40,000,000.

While the output has been steadily increasing, it is now producing \$250,000,000. For 1938 it was \$75,000,000, placing it in the lead among the gold producing countries.

There have been enormous sums of money made also in buying and selling the stocks of some mining companies, irrespective of the dividends earned by the properties, on which these stocks were sold.

Some of the sales below are taken from the official records:

Yellow Jacket stock rose from \$42 to \$175 per share in 1927, and from \$55 to \$125 in 1928; in 1929 it advanced from \$125 to \$180.

Union Consolidated advanced from \$6 to \$10 in 1927, and has shown very large profits in other years, selling at 9 cents and \$10 in 1928.

Standard Consolidated stock was placed in the market in 1929 at \$20 per share, and at the rate of \$2,000,000 for the mine, it sold the same year at \$35.75. It has paid \$3,850,000 in dividends.

Sierra Nevada advanced from \$3 to \$18.25 in 1927, and from \$18.25 to \$20 in 1928. It has paid \$4,400,500 in dividends.

Opbir advanced from \$21 in 1927 to \$200 in 1928.

Ontario was placed with the public at \$18 to \$20 per share, or at the rate of \$1,800,000 to \$2,000,000 for the mine. After paying for years a large dividend it sold at \$42. It has paid \$15,567,000 in dividends.

Kentuck sold at \$7 in 1927, and at \$45 in 1928.

Homestake was placed on the market in 1929 at \$15.50 to \$20 per share. It has paid \$7,250,000 in dividends. It has paid \$7,250,000 in dividends.

Gold & Curry sold at \$45.50 in 1927 and \$52.50 in 1928.

Consolidated California advanced from \$35.50 in 1927 to \$100 in 1928.

Crown Point advanced from \$27.50 in 1927 to \$100 in 1928.

Consolidated Virginia rose from 11c per share in 1927 to \$65 per share in 1928.

Chollar sold at \$29 in 1927 and \$275 in 1928.

Hollie advanced in the '70's from about \$1 per share to \$15, declining at one time several dividends of \$100,000 each in one month.

In 1908 Best & Belcher advanced from \$60 to \$250. Better sold at \$6.50 in 1927 and \$150 in 1928. This mine has paid \$15,307,000 in dividends.

Yesterday's Markets. In mining stocks yesterday Golden Star held its own pretty well, receding only one cent from the previous day's high prices.

This is remarkable in view of the recent sharp advance. It is understood that the Golden Star directors will meet in London on Thursday and at once adjourn, to reassemble at Toronto the following day.

It is expected that a directorate, as already announced in The World, will then be definitely selected.

In other stocks War Eagle, Republic, Payne and Cariboo held steady. Minnehaha and Hammond Reef were strong, however, and about a point each. Superior gold and copper was also in some demand, and it is said that it will go highest shortly.

Discriminate in Buying. Discrimination should be used by purchasers of mining stocks. Money and knowledge says: "We know of a fair who has not the least knowledge of the value of mining property and who has recently sold a gold mine from a well who staked out a property in British Columbia, of the value of which he has absolutely no certain knowledge, and yet he has been able to raise \$60,000 from the speculative small fry here and in Montreal by selling shares in this mine."

That Sale of the Le Roi. The curtain has not yet been rung down on the sale of the Le Roi by its owners to the British America Corporation. The final settlement with the minority stockholders has been delayed by difficulties with the B. A. C. for smelter charges. All the actual purchase price of the shares was paid months ago, but the trouble has been over the ore on the dump at the time of the sale, which is the property of the minority stockholders, according to the terms of the deal. This ore was promptly settled for by the English company. The amount of the final payment to the stockholders probably will be between 20c and 25c a share, in all something like \$50,000.

Two More Shippers. Mr. F. A. Davis, manager of the Wonderful and Miller Creek silver-lead properties in the Slocan, stated recently that he expected to commence shipments from both properties in a short time. A large quantity of rich ore is said to have been taken out of each and sacked and to be now awaiting shipment. The starting of shipment has been delayed by the breaking up of the roads and trails of the Slocan. The snow is now nearly gone, however, and shipping will soon be easy.

A long cross-country trail which is being run to tap the Wonderful at a point far below the present workings is now in 528 feet, and the officials of the Wonderful are satisfied that it is only a short distance from the ore body. It is being pushed ahead.

Developing R. J. 18. According to The Washington Star, Mr. A. F. Botsford, formerly of Toronto, is letting R. J. 18. Mr. Botsford has secured some considerable free gold samples from the Mount Pleasant District and has forwarded the same to Toronto.

Rainy River and Lake of Woods. The Rai Portage Miner of June 1, in speaking of the successful development of the Rainy River and Lake of Woods country says:

"Several strong development companies are formed, and are being formed, each having groups of carefully selected locations and ample working capital, and with experience everywhere shows that many individual properties do not make mines, in fact, in the Western Ontario district where development companies have not been eminently successful; for instance, the Bullion, Toronto and Western, the Rainy River Gold Mining Company, Preston Gold Mining Company and others, all of which are development companies, in which the

shares to-day are worth many times their original cost. This system of working is the fact that many owners of good prospects are selling their claims to the companies in payment. Instead of cash, and the sooner this basis of doing business is adopted more money the owners of good prospects receive a suitable reward for their patient research.

Assays of Dardanelles Ore. Col. S. W. Ray of Port Arthur, one of the large stockholders in the Dardanelles Mining and Milling Company, in speaking of the developments of late have been of the most satisfactory character. A vein of ore three feet in width has been uncovered. Assays taken from the ore of this vein are as follows: No. 1, 216 ounces in silver and 67 per cent lead; No. 2, 238 ounces in silver and 56.5 per cent lead; No. 3, 238 ounces in silver and 57.5 per cent lead; No. 4, 14 ounces silver and 7 per cent lead; No. 5, 377 ounces in silver and 22 per cent lead; No. 6, 98 ounces in silver and 18.6 per cent lead; No. 7, 93 ounces in silver and 13.5 per cent lead.

With Top of Crackerjack Ore. Mr. W. J. Keating, who, with Mr. George Hillier, is interested in the Crackerjack mining property, has sent five tons of ore to be tested at the Keewatin Reduction Works, near Rat Portage, by the Mosher boys and is situated in the Lower Manitowish. The vein is about 100 feet long and will give \$100 to the ton in the mill test.

The Homestake of South Dakota, on \$3 ore, has paid dividends every day it has run for the past ten years.

The Witwatersrand of South Africa produced in the first year (1887) only \$405,000, but in 1905 it had increased to \$40,000,000.

While the output has been steadily increasing, it is now producing \$250,000,000. For 1938 it was \$75,000,000, placing it in the lead among the gold producing countries.

There have been enormous sums of money made also in buying and selling the stocks of some mining companies, irrespective of the dividends earned by the properties, on which these stocks were sold.

Some of the sales below are taken from the official records:

Yellow Jacket stock rose from \$42 to \$175 per share in 1927, and from \$55 to \$125 in 1928; in 1929 it advanced from \$125 to \$180.

Union Consolidated advanced from \$6 to \$10 in 1927, and has shown very large profits in other years, selling at 9 cents and \$10 in 1928.

Standard Consolidated stock was placed in the market in 1929 at \$20 per share, and at the rate of \$2,000,000 for the mine, it sold the same year at \$35.75. It has paid \$3,850,000 in dividends.

Sierra Nevada advanced from \$3 to \$18.25 in 1927, and from \$18.25 to \$20 in 1928. It has paid \$4,400,500 in dividends.

Opbir advanced from \$21 in 1927 to \$200 in 1928.

Ontario was placed with the public at \$18 to \$20 per share, or at the rate of \$1,800,000 to \$2,000,000 for the mine. After paying for years a large dividend it sold at \$42. It has paid \$15,567,000 in dividends.

Kentuck sold at \$7 in 1927, and at \$45 in 1928.

Homestake was placed on the market in 1929 at \$15.50 to \$20 per share. It has paid \$7,250,000 in dividends. It has paid \$7,250,000 in dividends.

Gold & Curry sold at \$45.50 in 1927 and \$52.50 in 1928.

Consolidated California advanced from \$35.50 in 1927 to \$100 in 1928.

Crown Point advanced from \$27.50 in 1927 to \$100 in 1928.

Consolidated Virginia rose from 11c per share in 1927 to \$65 per share in 1928.

Chollar sold at \$29 in 1927 and \$275 in 1928.

Hollie advanced in the '70's from about \$1 per share to \$15, declining at one time several dividends of \$100,000 each in one month.

In 1908 Best & Belcher advanced from \$60 to \$250. Better sold at \$6.50 in 1927 and \$150 in 1928. This mine has paid \$15,307,000 in dividends.

Yesterday's Markets. In mining stocks yesterday Golden Star held its own pretty well, receding only one cent from the previous day's high prices.

This is remarkable in view of the recent sharp advance. It is understood that the Golden Star directors will meet in London on Thursday and at once adjourn, to reassemble at Toronto the following day.

It is expected that a directorate, as already announced in The World, will then be definitely selected.

In other stocks War Eagle, Republic, Payne and Cariboo held steady. Minnehaha and Hammond Reef were strong, however, and about a point each. Superior gold and copper was also in some demand, and it is said that it will go highest shortly.

Discriminate in Buying. Discrimination should be used by purchasers of mining stocks. Money and knowledge says: "We know of a fair who has not the least knowledge of the value of mining property and who has recently sold a gold mine from a well who staked out a property in British Columbia, of the value of which he has absolutely no certain knowledge, and yet he has been able to raise \$60,000 from the speculative small fry here and in Montreal by selling shares in this mine."

That Sale of the Le Roi. The curtain has not yet been rung down on the sale of the Le Roi by its owners to the British America Corporation. The final settlement with the minority stockholders has been delayed by difficulties with the B. A. C. for smelter charges. All the actual purchase price of the shares was paid months ago, but the trouble has been over the ore on the dump at the time of the sale, which is the property of the minority stockholders, according to the terms of the deal. This ore was promptly settled for by the English company. The amount of the final payment to the stockholders probably will be between 20c and 25c a share, in all something like \$50,000.

Two More Shippers. Mr. F. A. Davis, manager of the Wonderful and Miller Creek silver-lead properties in the Slocan, stated recently that he expected to commence shipments from both properties in a short time. A large quantity of rich ore is said to have been taken out of each and sacked and to be now awaiting shipment. The starting of shipment has been delayed by the breaking up of the roads and trails of the Slocan. The snow is now nearly gone, however, and shipping will soon be easy.

A long cross-country trail which is being run to tap the Wonderful at a point far below the present workings is now in 528 feet, and the officials of the Wonderful are satisfied that it is only a short distance from the ore body. It is being pushed ahead.

Developing R. J. 18. According to The Washington Star, Mr. A. F. Botsford, formerly of Toronto, is letting R. J. 18. Mr. Botsford has secured some considerable free gold samples from the Mount Pleasant District and has forwarded the same to Toronto.

Rainy River and Lake of Woods. The Rai Portage Miner of June 1, in speaking of the successful development of the Rainy River and Lake of Woods country says:

"Several strong development companies are formed, and are being formed, each having groups of carefully selected locations and ample working capital, and with experience everywhere shows that many individual properties do not make mines, in fact, in the Western Ontario district where development companies have not been eminently successful; for instance, the Bullion, Toronto and Western, the Rainy River Gold Mining Company, Preston Gold Mining Company and others, all of which are development companies, in which the

Dr. Fyfe, M.L.A., predicted Conservative early success at the polls, and the speaker, Dr. Noble, Charles Calder and others.

He declared the present of the Conservative party, he held that the present Government was not straightforward intentions back of the Redistrication Bill.

Hon. J. P. Thomas, Dr. Noble, Charles Calder came in late, and spoke briefly.

WANT NO UNDERVALUATION.

Dry Goods Section of the Board of Trade Passed a Resolution Yesterday.

The Dry Goods Section of the Board of Trade met Monday afternoon, when several questions of importance to the trade were discussed.

The question of shortening hours, which has been discussed for some time, was left over. Letters were received from prominent business houses in Montreal, Quebec, and other cities, favoring the proposal, and it is thought likely that some arrangement will be arrived at.

A resolution condemning undervaluation of goods coming into the country and citing instances, was also passed.

A KICK FROM THE JUNCTION.

Is It True That the Separate School There is an Unsanitary Condition?

The Roman Catholic citizens of Toronto to Junction have a grievance, and unless it is soon remedied a public revolt against the existing state of affairs will take place.

The trouble is on account of the unsanitary condition of the school, and since the school has been open since it has been repeatedly in the matter, they have as yet failed to do anything.

On Friday evening last the presentation of the silver watch and chain, suitably engraved, to the choir boys who obtained the greatest number of marks for reverence and general excellence, was made to Master Arthur Burch, who had won it.

The presentation was made by Mr. Charles E. Burch, the organist and choirmaster.

BUY GOLDEN STAR.

Those who buy this stock now will make money. The reaction of yesterday is only natural. The steady rise of about ten points was healthy, there being no boom whatever. So another steady rise may be looked for immediately.

SOME CONSERVATIVES LEFT.

Sir Wilfrid Laurier's Quebec Organ Admits That There Are a Few of Them.

"WE MUST NOT BE DECEIVED."

Safety of the Liberal Party Demands That the False Idea Must Be Rooted Out.

Montreal, June 6.—(Special.)—A most remarkable article appeared in Saturday's issue of Le Soleil, Sir Wilfrid Laurier's chief organ, the Province of Quebec.

The leader in question, which is apparently addressed to its own party, is headed, "We Must Not Be Deceived," and goes on as follows:

"It appears to be an impression in certain quarters that there are no more Conservatives in the Province of Quebec, and the safety of the Liberal party demands that the false idea be rooted out."

The writer of these lines understands as well as any public man in the province the full width of the 7 and Insurgent property, fully a length of 900 feet. In his judgment this is the principal concern on Lone Pine Hill. He also states that either one of the three veins would make a mine of the Insurgent ground.

Le Soleil then proceeds to give reasons for successive Conservative advances and the party should wake up some day and adopt a program of progressive action, which may be at a time when democratic ideas are making such progress, we would soon perceive that there are yet Conservatives in the Province of Quebec, and Liberal leaders would then have much difficulty in convincing their partisans. This is a fact so manifestly true that it is unnecessary to believe them of an impression which might render them despotic and tyrannical.

INSURGENT OF REPUBLIC

This company has \$5000 cash in treasury, the stock is assessable 30c per share, but no assessments are likely to be called for nine months. We think the stock a good purchase.

Mr. Ryan, superintendent at the Insurgent, recently stated that the crosscut at the bottom of the shaft is about 12 feet long and the second wall not yet reached. All of this bottom is in ore. A general average sample taken from the length of this crosscut gave a return of \$86.54 to the ton. The third cross vein, found a few days ago, is stripping finely and will cross the full width of the 7 and Insurgent property, fully a length of 900 feet. In his judgment this is the principal concern on Lone Pine Hill. He also states that either one of the three veins would make a mine of the Insurgent ground.

ANOTHER STOLEN CHILD.

Six-Year-Old Girl Found After Being Missing Since Sunday. New Britain, Conn., June 6.-Anna E. Choitz, the six-year-old girl who has been missing since Sunday afternoon, was found about 2.30 this afternoon in a clump of trees about one mile from the place where she was last seen. The child was alive and seemed not to have fared badly. It has not yet been determined whether she was or whether she was taken off by someone.

THE DEMON DYSPYCNIA

In olden times it was a popular belief that demons moved invisibly through the air and troubled them. At the present day the demon, dyspepsia, is not so easily dismissed. It is a disease that is not only difficult to cure but also very dangerous. It is a disease that is not only difficult to cure but also very dangerous.
