MEHMED ALI BEY LEFT NOTHING BUT CREDITORS

Deposed Turkish Envoy to Washington Skipped out With all the Money He Could Raise—Left Huge Debts and now Faces Arrest.

New York, Aug. 27.—Mehmed Ali Bey, the deposed Turkish ambassador to Washington, took a check for \$25,000 with him and \$5,000 disappeared from the Washington legation upon his hurried departure last week, according to the statement made by a member of the Turkish consulate here.

The most important statement was that the Turkish government was considering preferring criminal charges against Mehmed Ali Bey at the time he slipped quietly away, and that it is altogether likely that he will be arrested on his arrival in Europe. Mehmed Ali Bey, Mehmed Ali's temporary successor, had the legation books closely inspected and they indicated that there was an unexplained balance of \$3,000 out of the sum allowed by the Turkish government for the emergency expenses of the legation. It was said. The charge d'affaires endeavored to find out what became of the money, but when he tried to interview the late minister, he

FOUR TO SIX FEET OF WATER IN STREETS OF AUGUSTA, GA.

Over \$500,000 Damage Already Done by Floods and it is Expected This Estimate Will be Increased.

Atlanta, Ga., Aug. 27.—With the water rushing through Broad street breast deep in a current so strong that it is impossible for men to wade through, Augusta is being swept by a flood that has not been surpassed in its history. From four to six feet of water is the gauge on the principal streets of the town. On Broad street, the main business thoroughfare of the city, where are located nearly all of the public buildings, together with the principal business houses and banks, the flood is playing havoc with first floors and basements.

The city is without light, fire or police protection. Fire started last night in the Cotton Warehouse of Nixon and Danforth and in the warehouse of the Nixon Wholesale Grocery. The fire department was unable to render any assistance on account of the high water.

Two white persons and one negro have been reported drowned. It was also reported that a boat containing a family of husband, wife and two children, was capsized and all drowned, but this could not be confirmed. A conservative estimate of the damage by flood and fire at this time has been placed at half a million dollars but it is believed this sum will be greatly exceeded before the flood waters subside.

WHY NOT YACHT RACES AND REGATTA EXHIBITION WEEK

Suggestion for Yacht, Salmon Boat, Motor Boat, and Rowing Races on the Harbor Which Might be Turned to Good Account.

Devotees of yachting and aquatic sports are commencing to agitate for a big yacht race and possibly a regatta on the harbor during Exhibition week, and on the face of it the plan looks feasible.

Never in the history of yachting has St. John been in a position to make as good a showing against outside boats as there are a number of crack cruising yachts in the R. K. Y. C. fleet which could be depended upon to give an excellent account of themselves against the best boats in their class.

At St. Andrews Mr. Ben Van Horn, son of Sir William Van Horn, has a yacht the *Uvra* which is a flyer and he is willing to bring her to St. John for a race against the local boats. "For fun money or marbles." Also at St. Andrews the *Sigma* owned by a Mr. Wallace and reputed to be very fast craft. Against these visitors could be pitted the best of the R. K. Y. C. fleet.

Roma owned by F. E. Williams. Louvina owned by the Likely boys and others.

Canada owned by Fred Heam. Vagabond owned by Dr. Merrill and others.

Yiking owned by H. H. Bisset. Fossum owned by Harold Robinson. Fei Yuen owned by C. E. Elwell and others.

It is also probable that Mr. Lovitt of Yarmouth might be persuaded to bring his fast boat *Hermes II* over for the occasion with *Passaquaddy Bay* as the possible sailing ground.

HE DEFIES THE SUPERSTITION

The Hoodoo "Thirteen," Has No Terrors for This Spokane Man.

Spokane, Wash., Aug. 27.—One of the strangest coincidences in the history of real estate dealers in Spokane has just become a matter of record in the office of the auditor of Spokane county. This action is prominent throughout the same section, but F. Frank Lathrop, who has 12 letters in his name, laughs superstition to scorn. He bought lot 13 in block 13 in "Nineteenth avenue of Spark Brothers, a real estate brokerage firm, with 13 letters in its incorporated name, for \$613, on the afternoon of Aug. 13, and property in its addition legally registered as Woodlawn Place, also containing 13 letters. Karl C. Malmgren, architect, who uses 13 letters in signing his name, prepared the plans for a bungalow, and construction, which will cost Mr. Lathrop \$1,200. Edwin C. Edwards, of Spokane, candidate for lieutenant-governor of Washington on the democratic ticket, who also has 13 letters in his name, has received \$13 premium for an insurance policy on the house, which, according to contract, will be ready for occupancy Sept. 13. George MacLean, with 13 letters in his name, is the builder. Mr. Lathrop is employed as bill clerk by the Holley-Mason Co., also composed of 13 letters.

LIQUOR IS OPENLY SOLD IN CHATHAM

Report Says That Scott Act is Not Enforced and Drunks are Numerous.

Chatham, N. B., Aug. 27.—(Special)—Rev. Mr. Gale, agent of King's College, in St. Mary's Church last evening in the interests of the college. His address was a forcible and logical presentation of King's claim upon New Brunswick churchmen. A subscription list has been started among church members here.

The Scott Act enforcement is at present only perfunctorily performed. Liquor is openly sold and drunks are numerous. Yesterday the police rounded up a batch of four, and these were given the usual sentence by the police magistrate.

SCHOOL TEACHER CAUSES RUN ON BANK

He Advised His Pupils to Tell Their Parents That Bank in Berlin was Insolvent and Trouble Followed.

Berlin, Aug. 27.—There were most exciting scenes around the Friedrichsberger Bank in the Eastern District of Berlin, yesterday afternoon evening, in consequence of rumors that the institution was in difficulties. Thousands gathered before the building, demanding the return of their deposits. The crowd became so dense that the street cars were forced to stop and a large force of police, which was called out, was unable to control the excited throng.

The president of the police personally directed his forces. The directors of the bank obtained permission to keep the institution open until 8 o'clock. More than \$250,000 was drawn out in small sums and the bank was able to satisfy all demands for call money with the assistance of the Imperial and Prussian Banks, but other customers received only \$250 each on account, owing to lack of ready cash. The directors of the bank, however, are reported to be perfectly sound. It is stated that the rumor of the bank's difficulties was set on foot by a school teacher, who, during lessons, advised his pupils to inform their parents that the bank was insolvent. A warrant for his arrest was applied for, and a crowd of depositors were still shouting for their money at midnight.

LADIES OF THE A. O. H. INSTALL OFFICERS

This was the Closing Feature of Their Convention Today.

The newly-elected provincial officers of the Ladies' Auxiliary were installed this morning, this being the closing feature of the convention. The proceedings were conducted with elaborate ceremony.

Miss Elizabeth Gorton, the retiring provincial president, spoke briefly, and her remarks were enthusiastically received. The members and delegates registered for the honor bestowed on her, and hoped to accept other offices in the executive, but consented themselves with the fact that they selected a competent successor in Mrs. P. J. McManus.

Mrs. McManus thanked the assemblage for the honor bestowed on her, and hoped the world fill the position as satisfactorily as her predecessors.

All the other officers, and their successors, were installed, and the convention terminated with "Auld Lang Syne" and Irish melodies, participated in by all present. It was hoped that the 1909 convention in Sydney is called to order there will be no vacancies in the ranks.

SAYS BOSPHORUS HIDES MANY BODIES

Leader of Young Turks Movement Says That 40,000 of Turkey's Best Men Have Been Murdered by Secret Police.

London, Aug. 27.—Mohammed Dumoulin, one of the founders of the Young Turks movement, who is now in London, has given an interesting account of the account of the organization. He says the organization has nothing whatever to do with the so-called Young Turks of Constantinople, but was formed as a secret society in 1904 as a last resort to free Turkey from the thrum of the secret police, by whose machinations thousands of the best men in Turkey disappeared.

According to his estimate forty thousand men have been so disposed.

He relates one incident of his own knowledge to the effect that forty men were brought from the tower to the shore of the Bosphorus one evening. He heard them screaming at night and next morning all had disappeared. On another occasion while lying in the Bosphorus a vessel while weighing anchor drew up several bodies from the bottom. The bodies, he said, received a large bribe from the police not to mention the matter.

The secretary of the Young Turks movement, who is now in London, has been wrongly blamed for the condition of affairs," he said. "He is surrounded by a camorra and can trust nobody, and had he attempted to reform the government alone, he would undoubtedly have been assassinated."

DIED AS SHE WAS LED INTO PRISON

Springfield, Ill., Aug. 26.—Mrs. Kate Howard, one of the leaders in the recent riot in this city, committed suicide today by swallowing acid soon after being placed under arrest. She died as she was being led into the jail.

Before the special grand jury, now in session, many witnesses testified that Mrs. Howard was one of the ringleaders of the mob which wrecked Lopez's restaurant and cafe. She was the first person indicted, and was held on several counts in the sum of \$10,000, which she furnished.

Ten more indictments, three charging murder, were returned by the special grand jury late this afternoon. True bills, charging murder, were found against Mrs. Kate Howard, Abraham Layman and Ernest alias "Slim" Humphrey, Ethel Howe, a young woman, was indicted for mischief. She was a friend of Mrs. Howard.

WOULD EXPERIMENT ON CONDEMNED CRIMINALS

Negro Surgeon Advocates That Their Deaths Should be Made to Contribute to Science.

New York, N. Y., Aug. 26.—By a speech advocating experimental surgery on criminals condemned to death, Dr. A. M. Brown, a prominent southern negro surgeon, raised a tempest of protest today at the tenth annual convention of the National Medical Association, which is composed of negro physicians, dentists and pharmacists.

In effect, Dr. Brown held that where it is necessary for a criminal to die, why should not his death be made to contribute to the cause of science. The condemned criminal owes a debt to the state and surgeons too long have had to depend upon the questionable ethics of experimental operations upon charity patients, he argued.

Dr. Brown is a Spanish war veteran, having been surgeon of the Tenth United States Cavalry, through the Cuban campaign. He is at present surgeon at the Home Hospital at Birmingham, Ala., and visiting surgeon at the Northern Sanitarium at Montgomery in the same state. He is an alumnus of the medical department of the University of Michigan.

HON. A. B. MORINE

Hon. A. B. Morine, who has accepted the Conservative nomination for Queens-Sheburne, Nova Scotia, for the House of Commons, in opposition to Mr. W. S. Fielding, Minister of Finance, was for twenty years a member of the legislature of Newfoundland, although he is a Canadian born. He is a native of Port Medway, N. S., and a graduate of Dalhousie University. He has spent the last ten years in Newfoundland and is now a resident of Toronto. Mr. Morine entered the legal profession through the University of Toronto in 1890, and was a young lawyer of St. John's became a member of the district of Bonaville in the Newfoundland General Assembly and resigned that position on the twentieth anniversary of his election.

In 1890 Mr. Morine went to England as a member of a delegation to influence British legislators regarding "French Rights." The following year he appeared with Sir William Whiteway and Mr. George Emerson before the bar of the House of Lords and again in 1898 he was a government representative to the Mother Country. On the same vexed question. Twice he was a member of the government; first, as Colonial Secretary, three years later as Minister of Finance, finally as Minister of Fisheries.

In 1892 he was Conservative candidate for Queens, N. S., for the Canadian Commons, but was defeated by a small majority.

DID THE WHALE WANT TO COMMIT SUICIDE

Peculiar Story Brought to New York by White Star Liner.

New York, Aug. 27.—When one day out from Quebec, the steamer of the White Star Line, ran down a big whale and threw portions of its body along in its wake, the engines of the starboard side were stopped and the vessel was held up for several hours. The whale, it is said, was entangled in the blades, causing damage beyond repair.

Gary Harry Smith, Lieut. R. N., commander of the steamship, which arrived last night, said he never before met a whale that seemed so persistently bent on self-destruction.

NEWS FROM FREDERICTON

Fredericton, N. B., Aug. 27.—(Special)—A new steel bridge erected across the St. John River at Pokok has been completed and opened for traffic. A grand picnic is being held at Pokok today in honor of the event. The structure is 755 feet long and consists of four spans resting on granite piers and abutments. The length of the longest span is 285 feet. Whitman Brewer was contractor for the sub-structure and the Canada Foundry Company for the superstructure. Already the new bridge has developed very heavy traffic. The floor of the bridge is forty-two feet above the high water.

The fifty-fifth anniversary of the consecration of Christ church celebration will be observed here on Sunday next by Rev. A. Armstrong, rector of Trinity, St. John, who will occupy the pulpit at the service.

Dr. and Mrs. Norman K. Jarnal, of Palestine, were among the visitors to the city yesterday. Mrs. Jarnal was formerly Miss Alameda Burhill, of Hampton, and made the acquaintance of the doctor while on a pilgrimage to the Holy Land.

Partridges are reported to be exceedingly plentiful this season in all sections of the province. The present birds wintered well, and the dry weather this summer was very favorable to the young birds. A man who drove in from the country yesterday reports having seen four large flocks within the space of a mile.

Bishop Richardson sailed from Liverpool today for home.

Surveyor-General Grimmer is here today on departmental business.

Ottawa Shoemaker Will Enter the Lists Against Straight Party Men.

Ottawa, Ont., Aug. 27, (Special)—So many cabinet ministers are out of town that there will be no council this afternoon, on the other hand there is an unusually large gathering of members in the city all on departmental business. It is being held at Pokok today in honor of the event. The structure is 755 feet long and consists of four spans resting on granite piers and abutments. The length of the longest span is 285 feet. Whitman Brewer was contractor for the sub-structure and the Canada Foundry Company for the superstructure. Already the new bridge has developed very heavy traffic. The floor of the bridge is forty-two feet above the high water.

EARL GREY'S SUGGESTION

He Thinks There Should be in 1914 a Centenary of Peace Relations Between Canada and U. S.

Windsor, Aug. 27.—(Special)—Flushed with the success attained by the Quebec Tercentenary, Earl Grey has evolved a new idea along the same line.

"The excellently timed there should be a centenary in 1914 of the peace relations between Canada and the United States," he said. "It is a gratifying thing to know that for nearly a hundred years, along an unbroken frontier of 3,000 miles, there has been no war waged," said his excellency. "Yes, I think preparations should be made shortly to celebrate the anniversary."

BANK OF ENGLAND

London, Aug. 2.—The Bank of England rate of discount remained unchanged today at 2½ percent.

The weekly statement shows the following changes:

Total reserve, increased £26,000; circulation increased £140,000; bullion increased £444,613; other securities decreased £201,000; other deposits decreased £423,000; Public deposits decreased £204,000; Notes reserve increased £220,000; government securities unchanged.

The proportion of the bank's reserve to liability is 52.66 percent, last week it was 52.34 per cent.

COMPLAINT AGAINST THE GLACE BAY CHIEF

Glace Bay, N. S., Aug. 27.—(Special)—Wm. Little laid a charge against Chief of Police MacDonald, alleging neglect of duty in refusing or neglecting to serve a warrant from July 27 to August 19th on man charged with obtaining money under false pretenses. The police committee will investigate. The chief says the warrant issued by county stipendiary judge MacDonald, alleging neglect of duty, was bad, and he refused to serve, and also that the town police committee was no jurisdiction to investigate the complaint, as the papers were not issued by the town stipendiary. The case will be interesting.

AN EXPLANATION

Proprietor of Hong Kong Restaurant Makes a Statement in Connection With That Gun Story.

The proprietor of the Hong Kong restaurant on Mill street who was reported for threatening Henry McDonald with a loaded revolver, in his place of business on Monday last, writes the Times to correct certain statements in the published account of the affair.

The proprietor states that McDonald ordered two chowders and refused to pay for them until he had been persuaded at the point of a revolver.

The proprietor claims that on several previous occasions men had refused to pay for their meals after having eaten them and he was determined to put a stop to the practice. He is of the opinion that an endeavor is being made to drive him out of business and he intends to protect himself.

FIGHT COMPULSORY VACCINATION LAW

English Leader in Boston for Campaign in Interest of Massachusetts' League.

Boston, Aug. 27.—A three-months' campaign against the compulsory vaccination law of the Commonwealth is the object that brought to Boston yesterday John H. Bonner, of Leicester, England, lecturer and organizer of the National Anti-Vaccination League of the United Kingdom. The campaign will probably be started next Sunday by an open meeting on Boston Common and, from then on until the last of November, the campaign will be waged under the auspices of the Massachusetts Anti-Compulsory Vaccination League to repeal the vaccination law at its next session.

Mr. Bonner comes as a guest of the Massachusetts Anti-Compulsory Vaccination League, under the auspices of which he will carry on his campaign. As the season advances he will welcome the opportunities to speak before clubs, societies and other bodies and to engage in joint debates with doctors and laymen who believe in the present laws.

"For eight years," said Mr. Bonner to The Herald yesterday, I have been a lecturer and organizer for the national league in England. I have met with considerable success there, having been able to secure the repeal of the law to such an extent that people now can escape vaccination by making a simple declaration of conscientious objections, which is good for all time.

"We regard vaccination as both useless and dangerous, thinking that sanitation is the proper preventive of any disease such as smallpox. We are fighting the same battle as our opponents—that is, to exterminate small-pox, but we believe our opponents are going the wrong way about the world."

ABANDONED A BABY

Philadelphia, Pa., Aug. 26.—Abandoned by kidnapers, supposed to be members of a "Black Hand" gang, Thomas Mazzarella, the two-year old daughter of Frank Mazzarella, a rag dealer of this city, who was stolen from her home on Tuesday, was found late today in a woods near South Westville, N. J. The child was covered with mud and suffering from exposure in the severe storm that has been raging throughout the east for forty-eight hours. It is supposed that knowledge that the police had been informed, caused the abductors of the child to abandon her.

COUNT TOLSTOI ILL

St. Petersburg, Aug. 27.—The St. Petersburg morning papers state that the Count Leo Tolstoy's condition is very grave. He has been suffering for some time past with dilatation of the veins of his feet, which more recently became inflamed by an attack of influenza. He is suffering greatly from weakness.

FRASER-BERTRAM

North Sydney, Aug. 27.—(Special)—The marriage was solemnized at 10.30 this morning of Miss Mabel, daughter of Mr. and Mrs. A. C. Bertram, to Stanton Fraser, son of Mr. and Mrs. Fraser, one of North Sydney's most popular young ladies, was unattended, the ceremony being strictly private, owing to the serious illness of the bride's father, who has been confined to his bed for several months. Mr. and Mrs. Fraser left for their future home at Saxton by the noon express.

AN ENJOYABLE AFFAIR.

The residents of that portion of the city near the dump at the foot of Duke and Mecklenburg streets will entertain the members of the board of health and city council to a clam chowder picnic on the shore tomorrow evening. The material for the chowder was collected from the dump. It appears that some generous dealer who had some cases of canned clams which were too rich in flavor for common folks had them hauled to the dump. Before the residents of the dis-

EASILY ANSWERED.

Times New Reporter.

Sir—Can you tell me why the painting of the railing around the Victoria school was not done until the day before school opened, and why the asphalt in the yard is now being laid?

Yours,

ON TIME.

The answer to these questions is obvious. If the paint had been put on before time to dry, the children could not have got it on their clothes, and if the asphalt had been put down in the yard the children would have been able to play on it.

The KING OF DIAMONDS

By LOUIS TRACY

Author of:
"The Wings of the Morning," "The Pillar of Light," Etc.

Copyrighted by McLeod & Allen, Toronto.

(Continued.)

"So I have only heard historical events, events prior to the last ten years?"

"Exactly. My uncle is now sixty years of age. Lady Louisa Morland's son is twenty-four. Her ladyship's whole aim in life has been to secure him as the baronet's heir. The title, of course, he cannot obtain. But, most unfortunately, he has no penchant for beetles. Indeed, Lady Louisa's researches have long since diminished in ardor. Her son's interests are divided between the Sports Club and the courses of the latest musical comedy-moths are more in his line apparently. My uncle, who is preparing a monograph on the seas which patronize Exmoor wild ponies, came to town last week to visit the British Museum. Unhappily, he heard something about his step-son which disturbed his researches. There was a row."

"Why do you say unhappily?"

"Because I am dragged into the wretched business on account of it. After a lapse more than twenty-five years, he remembered his sister, went to his solicitors, made a fearful hubbub when he heard of letters received from her and answered without his knowledge, and ascertained that she was dead, and had a son living. At the cost, they must find this son. They have guessed at my identity for some time. Now they want to make sure of it."

"And what do you say?"

"I told them I would think over the situation and communicate with them further."

"Were they satisfied?"

"By no means. They are exceedingly anxious to placate the old man. They probably control a good deal of money."

"Um!"

"Of course! You see the delicacy of their position. After playing into the hands of a century, they suddenly find the whole situation changed by the baronet's belated discovery that he once had a sister."

"You have not told me all this without a purpose. Do you want my advice?"

"Philip's face was clouded, his eyes downcast."

"You understand," he said, after a long pause, "that some one, either the man or the woman—the woman, I think—is morally responsible for my mother's death. She was poor—wretchedly, horribly poor—the poverty of thin clothing and insufficient food. She was ill, confined to a miserable hotel for weary months, and was workhouse infirm when death came. Am I to be instrument of God's vengeance on this woman?"

"Mr. Abington, who had risen to light a cigar, placed a kindly hand on the young man's shoulder."

"Philip," he said, with some emotion "I have never yet heard you utter a hasty judgment. You have prudence far beyond your years. It seems to me, speak with all the reverence of man in face of the decrees of Providence, that God has already provided a terrible punishment for Lady Louisa Morland. What is the name of her son?"

"I do not know. I forgot to ask."

"I have a wide experience of the jeune dorée of London. Hardly a week passed during many years of my life that one of his type did not appear before me in the dock. What is he—a rouse, a gambler, probably a drunkard?"

"All these, I gathered from the solicitors."

"And if your mother were living, what would she say to Lady Morland?"

"She would pity her from the depths of her heart. Yes, Abington, you are right. My uncle's wife was chosen her own path. She must follow it, let it lead where it will. I will write to Messrs. Sharpe & Smith now. But step into my dressing room with me for a moment, will you?"

In a corner of the spacious apartment to which he led his guest stood a large peculiar object for such a repository—an ordinary, leather portmanteau. He lifted it onto a couch and took a key from

If plums grew on a thistle,
He pricked his fingers very much,

Find his brother.

ANSWER TO YESTERDAY'S PUZZLE.
Right side down, at right shoulder.

HOW TO CHOOSE A COLOR SCHEME

It is by no means a simple matter to choose a color scheme for the home, as there are so many choices for error. The success of the selection depends largely upon knowing how to choose with good taste.

The cost of the material alone is not a safe guide in choosing materials for the room. While the color scheme for the living room may be as simple as a light-colored wall, which is the least expensive of all wall coverings, the approval of the best material is the most important.

In deciding upon the color of a room its relation to the room near it must be considered. While there are two rooms which may come at one time in the vista care must be exercised not to have the color schemes conflict. The adjoining rooms must present a harmonious whole.

While it may not be possible to redecorate the whole house or apartment at one time, still each room can be done with a view to future improvements. The room may be redecorated in rugs or carpet, or in the ceiling and in the walls. The color of the wall is the most important feature in the color scheme of the room and must be chosen carefully.

The color of the wall should be chosen in accordance with the color of the furniture, the color of the draperies, and the color of the floor. The color of the wall should be chosen in accordance with the color of the furniture, the color of the draperies, and the color of the floor.

MASCULE MODES

Rain finds a weak spot in many men's wardrobes, and that is the absence of a raincoat suitable for summer wear. Many a man, otherwise well dressed, spoils his appearance in the wet weather by having to wear a raincoat which is obviously a winter garment, or else wears a light spring overcoat. Both of these are unbecomingly out of place on a warm rainy day in August or September. If one can afford it a summer raincoat is almost a necessity. Such a raincoat should be made of a light waterproof material and should be unlined, loose and long. The color should be either a light steel gray or fawn.

Such a coat really serves a double purpose, for it can be used as an evening coat. Such an overcoat or a summer raincoat, as described, will always be in the mode and will last practically a lifetime, for usually they will not have extraneous details. The Inverness cape coat, however, is still very popular as a dress suit covering, and will continue to be, according to the best tailors.

There is quite a slump in the elaborate suitings. Men seem to have got rather tired of wearing sack suits made of material which really looks as if it were intended for trousers. Colors in frock and morning tail coats are increasing in fashion. All shades are seen, the favorites being shades of blue, gray and brown. The white pique vest

PLAYS AND PLAYERS

SHERLOCK HOLMES GOOD SHOW

At the Opera House last night Joseph Selman and his company presented the play of Sherlock Holmes, or The Sign of the Four, to a large audience. Mr. Selman, as Sherlock Holmes, gave a good impression of that character. In the 3rd act, in the old boat house scene, Mr. Selman was seen at his best, the company giving the detective excellent support. Special mention might be made of parts taken by Miss Dorothy Lee as Mrs. Hudson. Her make-up and acting were a couple of late songs—"Mum's the Word," by Mr. Weston, with several shrewd gobs pictures, and "O'Brien Has No Place to Go," a Mr. Dooly ditty by Miss Felix. Both these numbers are getting much applause in the United States at the present time. "Lady Gray's Flight" and "Leviath's Insurance Policy" are additional pictures, but the great pictorial feature—has that thrilled yesterday's crowd—is that of the wonderful acrobatic race over the Dieppe course in France.

WEDDINGS

Henderson-Shannon

The residence of Mayor W. J. Shannon, Annapolis, was this morning the scene of a very interesting event, the occasion being the marriage of his only daughter, Miss Alice M. Shannon and Joseph H. Henderson, of Rothesay, N.B. The bride, who is one of the most estimable young ladies of Annapolis, was very prettily and becomingly attired in a cream silk wedding dress and looked charming. Her travelling costume was a tailor-made suit of mixture of black and gray cloth. The ceremony was performed by Rev. Prof. Caruthers, of Halifax, who is at present supplying St. Andrew's Presbyterian church of this town, in the presence of the immediate relatives of the family and friends from Boston and St. John.

After the ceremony a dainty wedding breakfast was served and the happy couple boarded the Bluenose express for Henderson, Middleton and other places. The bride was the recipient of a large number of costly and useful presents showing the estimation in which she is held in the community. The town was gay with flags in honor of the event. On her return from the wedding trip, a reception will be held at the home of the bride on Saturday afternoon and the 29th inst. The wedded couple will in future reside in Rothesay, N.B.

De Milie-Starratt

Two popular young people were married last evening at the residence of Rev. Wellington Camp, 154 Sydney street, when Miss George Starratt was united in marriage to Walter F. De Milie, formerly of Sussex, but late in the employ of the American Express Company, in this city. The ceremony was witnessed by a few near relatives of the happy couple and later a reception was held at their new home, 16 Peters street.

OBITUARY

Mrs. Jane Mullin

Mrs. Jane Mullin died yesterday morning at 228 Main street, after a short illness. She leaves six daughters—Mrs. O'Connor, Mrs. Rye and Mrs. Phillip, of New Brunswick; Mrs. John McNeely, of Clatham, and Mrs. F. E. James and May G. Mullin, at home; also two brothers, Bernard McKeever, of Moncton, and John McKeever, of Rothesay; also one sister, Mrs. Patricia Gallagher, of this city.

William E. Crowe

Halifax, N. S., Aug. 26 (Special).—William E. Crowe, one of the best known business men of Halifax, and a prominent Oddfellow, died suddenly this morning of hemorrhage of the brain. He was a brother of John F. Crowe, who for years carried on a grocery business in this city and on his retirement some twenty-five years ago his son carried on the business under the name and style of W. E. Crowe & Company.

Hugh B. Riordan

Annapolis, Aug. 26.—The death of Hugh B. Riordan, one of the proprietors of the Clifton House in this town, occurred at the Infirmary, Halifax, where he had been taken for medical treatment on Saturday morning, at the age of 35 years. An operation for appendicitis was successfully performed but the immediate cause of death was an ulcerated stomach. Mr. Riordan was very popular among a large circle of friends and his early demise will be much regretted. The funeral took place on Tuesday and was one of the largest ever witnessed here, the interment being in St. Louis' Roman Catholic cemetery, Rev. Father McKinnon officiating.

CAKE RECIPES

Gingerbread With Chocolate Glaze.—With one cupful of dark molasses mix one teaspoonful each of ginger and cinnamon and one-half as much of cloves. Dissolve one teaspoonful of soda in a little boiling water and add it to a cupful of black coffee. Cream together a cupful of sugar and three-fourths as much butter, add half a cupful of flour, a pinch of salt, and beat until smooth. Add the molasses, then the coffee and three cupfuls of flour, a little at a time, alternately. Bake in two bread tins in a moderate oven 40 to 60 minutes, or until the cake leaves the sides of the pans. Invert the loaves and cover the tops with a chocolate glaze, made as follows:

Chocolate Glaze.—Put two squares of chocolate into a double saucepan. When it is melted remove it from the fire and stir into it half a cupful of sugar, then add a quarter cupful of hot water. Return to the fire, stir it until the sugar is dissolved and continue to cook it without stirring until a little dropped in water can be taken up and rolled between the fingers like a soft ball. Pour it over the top of the cake.

Chocolate Cake.—Shave four squares of unswissened chocolate, add half a cupful of milk and half a cupful of sugar. Boil until thickened, then add a teaspoonful of vanilla, a pinch of salt, and a little of a cream, then add the beaten yolk of three eggs and the chocolate mixture, then alternately, a little at a time, two cup-

fuls of sifted flour mixed with a teaspoonful of baking powder and half a cupful of milk. Lastly, fold in the whites of two eggs. Bake in loaves or layers in a moderate oven. This amount will make two loaves. Cover with chocolate icing.

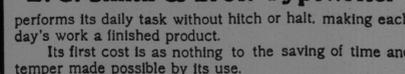

Chocolate Icing.—Dissolve one and one-half ounces of unswissened chocolate in one-third of a cupful of cream or milk and add half a cupful of butter. When this mixture is a little cool add the beaten yolk of one egg, one-half teaspoonful of vanilla and enough confectioner's sugar to make it spread.

HE CLAIMS VAST ESTATES IN QUEBEC

Aged Lewiston Man Says \$20,000,000 Worth of Property Belonged to His Ancestors--Tract Includes the Plains of Abraham.

Lewiston, Me., Aug. 26.—Louis Joseph Lambert, one of the oldest French residents of Lewiston, believes that he has succeeded in securing evidence to establish his title to property in the city of Quebec, which is claimed to be worth \$20,000,000.

Mr. Lambert will be 80 years old in October. For the last 40 years he has lived here. For more than 50 years he has been trying to establish his claim to the property in question. It was originally owned by his great-grandfather, Louis Gabriel Lambert, upon whose death it passed into the possession of his son, Colonel Louis Joseph Lambert, grandfather of the present claimant.

Colonel Lambert was a member of the French army. His wife also owned 103 acres of land in Quebec, inherited from her father. In 1763 Colonel Lambert gave a large property to the French army, and later much of his property and that of his wife were confiscated.

On the property is situated in the heart of Quebec, the Chateau Frontenac and the Plains of Abraham. The relative to Mr. Lambert has been ordered to meet in Quebec on September 8 to finally adjust the matter. Mr. Lambert has a son, Colonel Lambert, and a daughter, Mrs. L. H. Crogan, with whom he lives.

BORDEN AND CROSBY TICKET IN HALIFAX

They will Contest that Constituency in the Conservative Interests.

Halifax, N. S., Aug. 26.—The adjourned Liberal-Conservative convention for Halifax met this afternoon. At a meeting last week Mayor A. B. Crogan was nominated as the colleague of R. L. Borden, and who took a week to accept, signed his acceptance of the nomination. A letter was also received from Mr. Borden, stating that he also would accept the Halifax nomination.

Mr. Borden is to hold a series of meetings in Nova Scotia, the itinerary beginning according to schedule that was amended today, about September 7.

A meeting will take place in Halifax, September 14, when Mr. Borden will be accompanied by Premier Roblin, of Manitoba; Premier Hanson, of New Brunswick, and Hon. W. J. Hanna, of Ontario.

DEATH RELEASED HIM

Ontario Educationist Sentenced to Seven Years Imprisonment for Bigamy Died in Penitentiary.

Toronto, Aug. 26 (Special).—The death took place at Kingston penitentiary this afternoon of John E. Anderson, formerly school inspector at Brockville, who was sentenced to seven years' imprisonment for bigamy, having married Miss Jameson, daughter of a Methodist minister, of Renfrew while he had a wife and family in Toronto.

Anderson suffered from throat trouble, and only served three months of his term. He was fifty-two years of age.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by inflammation of the mucous membrane of the Eustachian tube. When this tube is inflamed you have a running discharge from the ear, and the inflammation can be taken out and this tube restored to its normal condition, hearing will be restored forever. None case out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

THE HIBERNIANS WILL MEET AT SYDNEY

This was the Decision Reached by the Hibernians Convention Which Closed Last Night--They had Busy Day.

The convention of the Ancient Order of Hibernians closed last night after deciding to meet at Sydney next year. The ladies auxiliary had a short session last evening. An expression of thanks for courtesies extended to the delegates was submitted by the committee on resolutions and unanimously adopted. It expressed thanks to the officers and members of the A. O. H. and ladies auxiliary for their reports, to the retiring provincial officers for devotion to their duties, and in the most complimentary manner to the delegates of the A. O. H. for their opening address; His Lordship Bishop Casey for his kind remarks on a friendly visit; to Rev. F. McLaughlin and to Messrs. McManus, Hamilton and Ferguson for their words of encouragement, the provincial officers for the able manner in which they conducted the proceedings of the convention; to the ladies of St. John for the efficient manner in which they managed the convention and for the kindness and courtesy shown to the delegates. The report was signed by Mrs. F. W. Smith, Margaret Hughes and Mrs. Jas. McCarthy.

In the afternoon the delegates went to the steamer Champlain and a start was made about 2 o'clock. The City of Montreal played an excellent programme of music. Refreshments were served and a very pleasant time was spent. The steamer returned to Indianapolis about 6 o'clock.

At the evening session the first business taken up was the question of the proposed scholarship fund. At the previous convention it had been decided to raise \$3,000 for the purpose. A considerable portion of the money had been collected but owing to some misunderstanding some of the divisions did not comply with the conditions with regard to the assessment. After a full discussion the convention decided that the balance of the money should be collected and the provincial officers were authorized to arrange the conditions under which it should be raised. The matter will then be placed upon the next convention.

It was decided to drop consideration of a scheme of insurance for the present. The election of officers was then proceeded with and resulted as follows: Provincial president, P. J. McManus, Halifax, re-elected. Provincial vice-president, Hugh F. Hamilton, Moncton, re-elected. Provincial secretary, John R. McCloskey, St. John, re-elected. Provincial treasurer, Patrick Hennessey, Newcastle, N. B.

Provincial chaplain, Rev. E. P. Wallace, Campbellton, N. B. On the invitation of E. B. Hughes, representing the Sydney division, it was decided to hold the next convention, two years hence, in Sydney.

The officers were then installed by Past President John C. Ferguson, assisted by Past Presidents W. L. Williams and Michael McLeod.

After hearing interesting addresses from the officers and others, the convention adjourned.

FOODS IN SOUTHERN STATES CAUSE OF DEATH AND DISASTER

City of Augusta, Ga., Under Water and Much Damage has been Done--Forty Lives Lost in South Carolina.

Atlanta, Ga., Aug. 26.—The floods in the Carolinas and Georgia, culminated today in the breaking of the big dam, six miles from Augusta, which diverts the water from the Savannah River into the canal at that point. The great flood of water let loose soon found its way into the city and tonight from Fifteenth street to the eastern boundary, Augusta is under from six to twelve feet of water, which is gradually rising.

The Associated Press correspondent at Augusta succeeded in getting a telephone wire to work in the building next to the Augusta Herald office, and from there the first communication was received. The wire was obtained after the wires went down. He reported three deaths, two white persons and one negro, but could not give any names, the means of traveling was only by boat.

The current through the city streets is so strong that it is not only dangerous to carry away debris, but it is dangerous to walk on the streets. The water is so high that it is dangerous to go to the city hall.

Estimates at midnight place the financial loss close to the half-million mark. Columbia, S.C., Aug. 26.—No fewer than four lives were lost and property worth several millions has been destroyed by flood conditions unparalleled since the great freshets of 1864.

Heavy rains have fallen continuously for 48 hours on ground already water soaked, and it is still raining. On all streams the danger line has been reached by 8 o'clock this morning.

At Camden nineteen persons lost their lives. They were on a toll bridge watching the flood, when the structure gave way. Their bodies are still in the water. Sixteen more were killed on a bridge near Spartanburg, where 17 were drowned and two mills washed away in 1903, are in great danger.

It is reported, though unconfirmed, that Paquet mill No. 1 has been destroyed. The Camperdown mill at Greenville stands in water five feet deep and may go any minute. Serious washouts are reported on all railroads north of Columbia. The seaboard line has lost a big bridge across the Savannah and another over the Broad.

Twenty-two separate washouts are reported on all railroads north of Columbia. The electric power, as is the dark tonight. The fact that the water is so high that it is dangerous to go to the city hall.

Hundreds of cattle have been lost by the river stockmen, and practically every acre of bottom land, the richest in the state, is under water. The freshets has seriously interfered with primary elections in progress throughout the state. Many voters are not getting to the polling places, and returns cannot be collected.

Strike leaders are found guilty. Four men to be sentenced in connection with Red Flag case at Dalhousie-Outcome of International Railway Strike.

Dalhousie, N. B., Aug. 26 (Special).—In the circuit court today, Judge Landry presiding, the four men arrested by Chief of Police Crawford, of Campbellton, at the time of the strike on the International Railway a few weeks ago, were placed on trial. It will be remembered that the officers acted as judges and, waving the red flag, went from camp to camp and caused the men to knock off work.

Chief Crawford and officers went to the camps and arrested the leaders and effectually settled the strike. They brought the men back to justice in a hurry, but an awe-inspiring collection of revolvers and knives taken from the foreigners in the camps.

Two camps. The six prisoners were freed on preliminary examination and the other four were tried today on charge of obstructing the road and inciting the men to strike. They were defended by Mr. LeBlanc, of Campbellton, and the prosecution was conducted by Attorney-General Hazen.

Eight witnesses testified for the prosecution. The foreigner acted as a witness in their own behalf. All denied the charges, but they were found guilty and remanded to jail.

They will likely be sentenced tomorrow as well as Louis Moore, found guilty of stealing a watch from Paul Roy, of Campbellton.

Chief Crawford was commended for the manner in which the evidence in the first named case had been gathered. The convictions in this and the Moore case, make the third in a short time in which defendants were brought to justice in a hurry. Chief Crawford, of Campbellton, and Duncan Noble, of the I. C. R., Campbellton, are to be made provincial constables.

SHAVING AND RAZORS

There are very few men who can claim that they always shave themselves and who have never been in a barber shop. The barber is a boon to the busy man away from home or the man in a hurry. There are thousands of men who could not shave themselves if they tried. But the advent of the various safety razors and patent stropping machines has added tens of thousands to the army of men who shave themselves. And hosts of men there are who still prefer the hollow-ground razor to the new safety. For the benefit of those who shave themselves or who may wish to do so a few timely hints are here set forth.

SACKVILLE WILL BE FOUNDRY SITE

Enterprise Foundry Company has Decided to Rebuild on the Former Locality.

The Enterprise Foundry Co. has decided to rebuild their works in Sackville, on the site of the former foundry, recently destroyed by fire. Plans are now being prepared by H. H. Mott, architect, and it is hoped to have the buildings ready for occupancy by November. The contract for one building has already been awarded, and this will be finished in two months or less.

The recently built power house survived the fire as well as its contents of boiler and new 120 horse power engine, and other machinery, and the large stack, and this will form the nucleus of the new plant. The new buildings will be grouped around it. The existing brick building, which is of substantial construction with cement floors and every modern convenience for the work to be done, the buildings are to be of only one story, for safety and convenience, it being agreed that the old building was too high and was handled in the low building than would be in a lofty one.

The action from the I. C. R. will be so changed as to bring in all raw materials to the door required and also connect with the warehouse for the carriage of raw material, this serving to reduce the cost of operation by eliminating hauling and handling.

Mr. Dixon stated, it is expected to have the buildings completed by November and it is hoped to have the works in full operation by the end of the year. Meanwhile a corps of patternmakers is at work replacing the patterns destroyed by the fire.

Asked why Sackville had been chosen, a member of the company said yesterday that they owned the site there, the place was centrally located, there was rail and water connection, the boiler house and equipment were there and would be of great aid in replacing their works quickly, and another reason was that many of the workmen had been in the employ and had their homes established in Sackville and they had them in mind.

A big campaign to aid the movement. Toronto, Aug. 26.—From the Atlantic to the Pacific throughout the whole Dominion an attempt is to be made to light the fires of enthusiasm in connection with the Red Cross anniversary. A meeting of the Canadian Council was held here today to settle plans for the great anti-war campaign.

The object of the campaign is to introduce the movement to all parts of the Dominion by holding a series of meetings covering a period of two weeks in each province from Halifax to Victoria.

Meetings will be held in Halifax, St. John, Montreal, Ottawa, Kingston, Toronto, London, Winnipeg, Vancouver, Moosejaw, Calgary, Edmonton, Vancouver and Victoria. A number of other important centres have requested meetings, and so far as possible the requests will be complied with.

At the meeting of the centres mentioned strong local committees have already been appointed, consisting of leading business men identified with different churches, and preliminary arrangements are well under way, particularly in the east and west.

Meetings in Maritime Provinces will be held in the week from 13th to 20th September; in Ontario from 20th to 27th September; in Quebec from 27th to October 4th; in British Columbia from 4th to 11th October; in Alberta from 11th to 18th October; in Saskatchewan and Manitoba from 18th to 25th October.

At the closing meetings of the Maritime Deaf Association, held here yesterday, the name was changed to the Maritime Association of the Deaf. This was because of the word "deaf" being unnecessary in these days of advanced teaching. The election of officers resulted as follows: President, E. P. McKenzie, of Moncton, president. E. P. McKenzie, of St. John, vice-president.

Mrs. E. Morrison, of Halifax, 2nd vice-president. L. T. Goucher, of Halifax, secretary. Mr. L. T. Goucher, assistant secretary. A. Harvey, of Halifax, treasurer. A. McArthur, R. McDonald, G. O'Brien, Mrs. Mrs. Harvey, directors for Nova Scotia. Mrs. L. G. Jones, of Halifax, secretary. Mrs. McLaughlin, of St. John, secretary.

The treasurer's report showed that \$132.25 had been raised to date among the members. Mrs. Dixon gave an account of the founding of the school in Halifax. It is the intention to erect a memorial tablet in the school to the founders.

Vote of thanks were passed to the committee of the St. John Association for use of their rooms, to all who had any part in the helping to the success of the convention, to the railway for low fares and to the press, while the merchants who donated prizes are also very heartily thanked.

A constitution was adopted, much along the lines of that of the Toronto Association. Some of the delegates left for their homes last evening and others will remain until today and others till Saturday. All report a most enjoyable time. The next convention will be in Amherst.

METHODISTS ARE OPPOSED TO THE IDEA

Of Mayor Bullock Granting a License for the Sparring Exhibition on Tuesday Night Committee will ask him to Grant no More.

A vigorous protest against the holding of boxing exhibitions in the city was made by the ministers attending the Methodist financial district meeting held in Zion church yesterday, and Mayor Bullock was criticized for his action in granting a license for the exhibition held on Tuesday evening. A resolution condemning such bouts was passed and a committee appointed to wait upon the mayor and ask him to refuse to grant any license for further exhibitions.

While temperance and moral reform work was under discussion at the meeting, J. N. Harvey brought up the boxing matter. The affair had been given a great deal of publicity in the papers, he said, and he was surprised that such an event should be allowed to take place in the city. The license had been granted by a Methodist mayor and this was a great surprise.

Such exhibitions could not help but be degrading and it was bad for the young men and growing boys to be brought into contact with such things. When mayors were looking for re-election they sought to antagonize the sporting element by refusing the license but the church members must make their influence felt by their votes if they wished reform.

By refusing the license but the church members must make their influence felt by their votes if they wished reform. A resolution was offered by Rev. C. W. Squires to the effect "that this district meeting be a day of prayer for the city and for the mayor of the city. He thought a resolution of some kind was needed.

Rev. G. A. Ross of Hampton could not see what good a resolution would do. He thought action could be taken more effectively in some other way. If the resolution was not followed up, it would do no good and if it would be looked up by aggressive action the mere resolution was superfluous.

Rev. M. McLaughlin and Rev. H. D. Marr spoke in favor of the resolution. Mr. Squires, the chairman, asked the nature of the exhibition and was told by Mr. Harvey it was a sparring match, or men punching each other. A resolution was offered by Rev. C. W. HUNTERS MAY GET LICENSES ON SEPT. 1ST.

Provincial Department Will Issue Moose and Deer Licenses on That Date--Many Non Resident Sportsmen Have Already Applied.

Fredricton, N.B., Aug. 26.—It was announced at the crown land office today that the department would next week commence issuing hunting licenses for the big game season which opens Sept. 15. A large number of Americans have arranged to go in to the woods on Sept. 1 to spend the entire month and it is deemed advisable to put them to the inconvenience of sending back for their licenses, in some cases, a distance of sixty miles. All indications point to a big influx of non-resident sportsmen.

Earl Grey, who had arranged for a hunting trip with guide Charles Cramb, has been compelled, on account of pressure of official business, to cancel it. Guy Morrison, of the Bank of Montreal staff, who has been spending his vacation here, has arranged for a hunting trip to charge of the branch during the absence of the regular manager. Dr. F. B. Gunter, of Chelsea (Mass.), is visiting his former home here. The Grand Trunk Pacific contracting firm of Rigby & Hyland are having some trouble with the line near the interception of the Canada Eastern branch of the I.C.R. Last night a cook who had been employed on the job, arrived in town and said that during the day a party of twenty-five foreigners had arrived and that the thirty-eight men living in one camp had refused to have the foreigners go in with them. The contractors insisted and, according to his story, all of the men, with the exception of the foreman and timekeeper, left.

This morning Mr. Hyland said that twenty-five Austrians had been brought from Montreal to the scene of operations and that five of them were missing this morning. The contractors had paid \$14 for each man, but the men were deducting the amount from the men's wages. He thought the recalcitrant laborers were heading for Fredericton and wanted the local police to capture them for him. He thought the report of thirty-eight men leaving was exaggerated.

Mr. Hyland said that the engineering staff of the G.T.P. came in on the I.C.R. and the work he gave out was that the twenty-five Austrians had left. Rigby & Hyland's works during the night and were on their way to Fredericton without work or pay.

ABNER W. FOSHAY WAS STRUCK BY SWITCH

This is the Verdict of the Jury in the Coroner's Inquest Held to Inquire Into His Death.

An inquest into the death of Abner W. Foshay, who was killed on the I. C. R. last Saturday, was held by Coroner Bryan last night. Eight witnesses were examined including L. R. Ross, terminal agent, and David A. Sinclair, mechanical foreman of the I. C. R. here. The jury brought in a verdict that the death was caused by his accidental striking his head against the switch lamp in the island yard.

J. A. Sinclair was present on behalf of the relatives of the deceased. The members of the jury were: W. J. Dunlop (foreman), S. T. Golding, W. V. Hatfield, F. Scribner, W. J. Magee, Dominic Hayes and the coroner, Constable McBraty was in attendance.

Robert J. Wilkins told about seeing the body after the accident and telephoning to the city for help. L. R. Ross said he did not believe the deceased was hit by the switch, as the body was lying fifty-two feet beyond it. Dr. Warwick gave the result of the post mortem examination. In his opinion Foshay's injuries were caused by a fall rather than a blow from the switch.

John H. Williams, engineer of the motor car said that when about 100 yards east of the island yard he heard a curious noise at the door of the car and looking up, saw Foshay fall out. He did not think anyone standing in the car and leaning out could touch the switch, but he was standing on the steps outside the car.

In answer to Mr. Sinclair, he said he thought the noise was caused by Foshay striking the switch. He said he was wrong with the car it was the duty of the deceased to tell him and not go outside to examine into it himself. Martin C. Dalry, the conductor, was next called, but his evidence did not tend to throw any light on the case. Frank McLeod, one of the section men who helped to lift the body after the accident, also testified.

John A. Wood said he was working with the previous witness. He saw Foshay fall from the car. Deceased was leaning out of the door at the time, leaning out. He thought that he hit the switch.

David A. Sinclair, mechanical foreman, describing the construction of the motor car. He believed it possible that a man might stand on the floor of the car and, by leaning far out, touch the switch. He was also of the opinion that if Foshay had been hit by the switch the body would be carried twenty-five or thirty feet beyond.

The coroner summed up briefly. He said he was inclined to think that Dr. Warwick used good judgment when he said that the injuries sustained by Foshay were caused rather by a fall than a blow by the switch.

The jury retired about 10 o'clock and returned about an hour later with the verdict as told.

METHODISTS ARE OPPOSED TO THE IDEA

Of Mayor Bullock Granting a License for the Sparring Exhibition on Tuesday Night Committee will ask him to Grant no More.

A vigorous protest against the holding of boxing exhibitions in the city was made by the ministers attending the Methodist financial district meeting held in Zion church yesterday, and Mayor Bullock was criticized for his action in granting a license for the exhibition held on Tuesday evening. A resolution condemning such bouts was passed and a committee appointed to wait upon the mayor and ask him to refuse to grant any license for further exhibitions.

While temperance and moral reform work was under discussion at the meeting, J. N. Harvey brought up the boxing matter. The affair had been given a great deal of publicity in the papers, he said, and he was surprised that such an event should be allowed to take place in the city. The license had been granted by a Methodist mayor and this was a great surprise.

Such exhibitions could not help but be degrading and it was bad for the young men and growing boys to be brought into contact with such things. When mayors were looking for re-election they sought to antagonize the sporting element by refusing the license but the church members must make their influence felt by their votes if they wished reform.

GOOD CITIZENSHIP

Thoughtful persons will commend these observations made by the Ottawa Citizen, and if the unthoughtful read them the result may not be without some good effect.

"Good citizenship has a creative quality that makes for constant improvement of civic conditions. Only in so far as it is creative is it good, and worthy the name. There is no virtue in extolling the blessing and benefits of that which is already created by the energy of good citizens in the past. Virtue lies with action. The real benefactor builds, and builds better than has thus far been built. The good citizen is the creator, using his powers and his opportunities in adding some new joy or strength to the lives of his fellow men."

"In other words, good citizenship involves some creative contribution. The Canadian who is most worthy of our respect and esteem is that one who interprets his patriotism and loyalty in terms of constructive energy. He seeks to turn every wilderness into a garden, and to replace every straggling weed with a beauty-blossom. Whatever may be his commands him, and he gives himself unreservedly to his task. To build better becomes his absorbing aim. To leave the world, or the small part of it in which he moves, a little better than when he entered it, is a ruling purpose of his life."

"No greater work can present itself to the Canadian citizen than that of making beautiful the city in which he lives. Indeed, it may be accepted as an evident fact that the beauty and symmetry of a man's character find their expression and work their influence upon his home and civic environment. There is a law in nature by which like begets like, and the character beautiful creates about itself a consequent and consistent beauty. There is no truer criterion of citizenship than the character of the city, as revealed in terms of beauty and the picturesque."

CHEERING OUTLOOK

The Brooklyn Eagle finds strong indications of an early return of conditions of prosperity in the United States. It says: "The Commercial National Bank of Chicago has canvassed four thousand bankers, business houses and crop authorities in all the states of the Central West, South and East. The outlook, taken as a whole, is for a speedy return of prosperity. The crop reports obtained in this canvass differ somewhat from those of the government. The showing is somewhat above the average, but not the bumper crops indicated by the Crop Reporting Bureau this month. The country will be inclined to stand by the conclusions of the Bureau with its well organized and widespread system of reports. However, the difference is not great enough to make a controversy. Each reports a basis for abundant prosperity."

"In this promise of renewed industry the one that seems to be lagging is the railway branch. Therefore, all industries dependent upon the railways through manufacturing railway supplies, lag also. This is the disturbing feature of the outlook. All of the business dependent on agricultural well being are beginning to feel the effects of demand. The agriculturists are prosperous. The demand for the commodities they consume is rising higher. The dealers, however, have not replenished their stock in any but a hand-to-mouth way. The result is they meet the rising demands with depleted stock. In the nature of things they must replenish. This must make trade. The financial condition is reported to be all that can be desired. The country banks report deposits about where they were a year ago prior to the breaking of the financial storm, with a good demand for money, though they are now carrying heavier reserves than then. In the cities there are an accumulation of funds, low interest rates and little employment of money. This means that industries have not yet started into real life. Attention is called to the fact that

gold is arriving in London, from South Africa, at the average of \$3,000,000 a week, while the output of North America, all of which goes to the United States, is \$2,000,000 a week. From these facts it is deduced that the world's mines, since the first of the year, have added \$200,000,000 to the bank reserves. So the conclusion is drawn that agriculturally, commercially and financially the outlook is reassuring and that the only discordant note is from the railways and the industries dependent on them. Money is not scarce. Nor is the stock of the Eastern money centres being depleted in any large measure by demands from the West."

Mrs. K. A. Sheppard, president of the New Zealand Council of Women, in a letter to the Massachusetts Woman Suffrage headquarters, declares that all arguments against suffrage have dissolved into thin air since the touchstone of experience has been applied. In addition to availing themselves of the voting power, which it was declared by the opposition, they would not do, the women have awakened a sense of electoral responsibility among their husbands, brothers and sons, with the result that ever since the enfranchisement of women the proportion of male electors who go to the polls has been largely increased. In refutation of the prediction that women would be 'tantalized at the polls, Mrs. Sheppard asserts that there is no holiday in the year when it is so absolutely safe for an unscrupulous woman to permit the stimulus of a late hour at night as the general election day, which is made a holiday, with the public houses and saloons all closed. Mrs. Sheppard incloses a short statement from Sir Joseph Ward, prime minister of New Zealand, in which he declares: "In New Zealand we have found that making a pencil mark on a voting paper once in three years has resulted in any loss of grace or beauty among women or even in neglect of home ties. On the contrary, the women's vote has had a distinctly clarifying effect on elections."

The editor of the Victoria Colonist sets western people right on a question relating to the St. John river. He says: "A curious telegram has been sent out by the Associated Press in regard to the St. John river. It is said that surveys are to be undertaken forthwith, and that 'the stream is to be navigated all summer.' What is probably meant is that it is hoped that by the result of the surveys means can be devised to keep the portion of the river between Fredricton and Woodstock, a distance of 63 miles, available for steamboat navigation at any stage of the water. At present there are bars in a few places, which block steamers during the lowest water. Below Fredricton the St. John is a magnificent river, and for many miles in the rest of its course it has abundant water."

"It would be difficult to conceive" says a Boston paper, "of a more gracious and beautiful competition than that so generously and thoughtfully provided for by Mrs. Gardner, under the terms of which prizes of considerable sums of money are annually distributed for the most artistic displays of growing flowers either in windows or on the roofs in the tenement sections of the city. These annual competitions not only promote a sense of the beautiful among the dwellers in the tenement house districts, but they add to the attractiveness of localities that too often lack delightful fragrance in the home. It is the outcome of a happy thoughtfulness that makes such competitions possible."

A recent despatch says: "The photograph as a medium for spreading the gospel of prohibition is to be adopted by the managers of the prohibition party presidential campaign in the United States, according to information given out at the national headquarters in Chicago. Arrangements have been made to have speeches by Eugene W. Chaffin and Aaron S. Watkins, presidential and vice-presidential nominees, recorded for reproduction."

The Boston Herald says: "In the reports of the latest big prize fight it is to be noted that Champion Heavyweight Burns delighted the 20,000 spectators by graciously allowing himself to be worked into a groggy condition before he landed the single blow that put his adversary, Bill Squires, to sleep in the thirteenth round. The so-called manly art now chiefly consists of keeping an eye on the gate, and giving the spectators a certain amount of fun for their money."

A VERY SAD ACCIDENT.

A peculiar and very sad accident occurred in Milltown on Tuesday evening last. B. H. Kerr had returned from the field with a load of hay and was hoisting it to his loft by the aid of a horse. His little girl, three years old, had hold of the reins as the horse moved out into the yard. Some of the gearing caught suddenly and the horse was jerked back with such force that it fell on the little child crushing its life out instantly. Some cuts were found on the little one's head, but death had been caused by the ribs penetrating the lungs. The parents are prostrated by the sudden blow. (St. Andrew's Beacon.)

IN THE LAND WHERE DREAMS COME TRUE

For ever some mist-bidden river And under a wonderful sky, Where the flowers never fade but the sunshine And our loves never weary or die; Where the flowers never fade-but in changing Their magical sweetness renew. Like a glorified realm of enchantment, The land where our dreams come true!

By mystical symbols and signs We know of that beautiful land; The trail that slips out of our hands, And the wild river wanders between us, The wild gates are hidden from view, And only in sleep we remember, The land where our dreams come true!

We shall find the best treasures we seek for, Revealed in that wonderful sphere; All the aims and the dreams of the bygone, All the good that eluded us here; The innocent faith of our childhood, The one lawless friendship we knew, Arrived in our vanished illusions, In the land where our dreams come true!

A MODERN PLAIN Backward, turn backward, O Time in thy flight! Give us an aimless day and a night. Give us a "relax" and a truce to scan, A ruthless skirt and a hussies man, A babe Topsy-turvy, a microbe kiss, A stilette light takeless, a straight-frontless nose, A giggles school girl, and-better than that-A summer-cold college man wearing a hat! I know, Father Time, that I'm asking too much, But I'm sure to-day ere a slinger was hung, Swing back to an era prehistoric for hair-An era ere "rats" made their rendezvous An old-fashioned breakfast without Shredded Hay, A season when farmers went whistles a day, A burg moving-pictures-ah, what a treat! Give us a "relax" and a truce to scan, I'm asking too much, but I pray, Daddy For days when a song had both substance and rhyme. -September Bohemian Magazine.

There was no woman so humble, or honest, or unselfish, or dull but that he could find something pleasant to say to her, and would take pains to say it."

THE MEN SAID NOTHING. At a dinner at the Plaza in honor of Mrs. Elmer Glyn, the fashionable writer, the lights went out. Then, in the dark, Mrs. Glyn, in her prim English voice, told this story: "A debauche was describing to her mother the end of the trip she had made to a small house in Devon. "At dinner on Sunday night," she said, "the lights went out, and-was it 'funny, mamma'-the women didn't want the butler to light them again." "How do you know they didn't?" asked the mother. "Because they were all crying out 'Don't and 'Stop.' And the men didn't say a word." -Washington Star.

RELIGION IS UNIVERSAL

The most expert and reliable anthropologists invariably maintain that no section of the human race exists, or ever did exist, entirely destitute of some conception of Supreme Being. The Rev. Thomas Lewis, F.R.G.S., in his recent lecture on "The Old Kingdom on Congo," contributes a valuable dictum on this subject of comparative religion. He declares that the most important thing to the savage is his religion, which is to him a matter of life and death. Says Mr. Lewis: "I have satisfied myself, after twenty-five years among them, that at the bottom of African fetishism there is the fundamental belief in the existence of God and in the reality of the human soul. No missionary has yet, to my knowledge, been compelled to introduce the name of God into any Bantu languages. The name 'Namibi' for 'Supreme Spirit' is of native origin, and not introduced by the Portuguese, and has been adopted for 'God' by all missionaries in their literature." The fact is that these poor negro pagans have no knowledge of what God is, but firmly believe that He is, and this mixture of deep conviction with darkest ignorance fully accounts for the strange and grotesque fetishism which seems to Christian observers so mysterious and complex. -London Correspondent, in The Homiletic Review (September).

HOW A GREEN HORSE WON FORTUNE FOR HIS OWNER IN HARDLY THREE MINUTES

In an excellent report of the big trotting Derby at Readville on Tuesday the Boston Journal has the following: Extraordinary as was the offering of \$50,000 for the event, stupendous as was the race, mammoth the crowd, and remarkable the feats of the horses, the racing and the attendance, yet all the details of the first American trotting handicap Derby, held yesterday at Readville fade almost into insignificance, for the winning was truly wonderful.

David E. Carter, of the Boston Transcript, was in the city to-day enroute to Halifax, N. S. Mr. Carter is spending a vacation in the Maritime Provinces.

Yesterday's Boston Journal says:—Following her early summer at the North Shore, Miss Jean E. Johnstone, of Arlington street, left some days ago for St. Andrews, N. B., where she has many friends in the summer colony. Miss Johnstone has since gone on to St. John, her native city, where she made her debut several years ago at a large military ball.

Mr. and Mrs. Charles V. Orr, of Brooklyn, New York, who have been visiting relatives in this city, have returned home.

SUES FOR A BOARD BILL

Case of Goggin vs. Chera Resumed in the City Court This Morning.

In the city court this morning the case of Goggin vs. Chera was resumed. The action taken is for \$6.35 alleged to be due Goggin for board and lodging in the Metropolitan hotel. For the defence, a brother of the defendant testified that he and his brother jointly occupied a room in the boarding house from December 10th until April 14th. At the latter date both men were ejected from the building for non-payment of Goggin's bill, which the witness positively declared that \$11 Goggin had sworn. He said he was out of employment when ordered out of the boarding house and was unable to pay \$6.30, which Goggin demanded. When he reached a situation Goggin asked him to get a bill of sale on his wages, but he declined, as he thought it impertinent on his part to set in a manner, considering the brief period he had been working for his employers. Eventually he owed Goggin \$3, although he was certain he owed him nothing. He continually requested Goggin to give him his clothes, as he particularly needed them, but he persistently refused, so he felt that he was justified when he forcibly removed his trunk from the premises. He was positive that the amount referred to was \$11 and not \$17. He further declared that Goggin was unfit to handle payments of money, as he was under the influence of liquor most of the time. On many occasions he made entries on his books weeks later than he received the money. His assertions were corroborated by his brother.

His Honor took the case under consideration, and also the postponed case of Goggin vs. Watts, a suit on similar grounds, and will give judgments next Thursday.

Chera is a waiter. He said he had received three different bills from Goggin's solicitors for \$3.50, \$3.10 and \$6.35. A friend of his who roomed in the house also was the recipient of a bill for \$8 when in reality he was not a debtor at all.

NEW TYPEWRITER AGENCY

The Saulis-Newcome Typewriter Co., Ltd. of Halifax, representing the L. C. Smith & Bros. typewriter will on Monday next open an agency for New Brunswick in the Globe building on Prince William St. J. Alfred Clarke will be the local representative of the company.
