**MRS. VOTER:**  
**MISS VOTER:**

Are you going to vote for the Power Company and high rates on Monday, or will you vote for hydro at cost, without private profit and without increased taxation?  
Are you going to give the Monopoly a new and stronger grip upon St. John, or will you vote now for freedom and low rates through civic distribution?  
Do you want to stick to the Power Company, or is here where you get off?

**LEGISLATION TO HELP PROVINCES KEEP OUT LIQUOR**

(Canadian Press Despatch.)  
Ottawa, April 21.—Legislation to assist the provinces in the enforcement of their temperance laws was introduced at the opening of the house of commons this afternoon by Hon. D. D. MacKenzie, solicitor-general.  
Mr. MacKenzie said that requests had been made by the provinces for legislation of this character.  
Hon. Arthur Meighen said that this was Mr. MacKenzie's first attempt at introducing a bill as solicitor-general, but he did not think that the hon. gentleman should be allowed to get away without further explanation.  
Mr. MacKenzie explained that he had not expected to go into details at this stage, but added, as an instance of the provisions of the bill, that it prohibited the import of liquor into British Columbia except direct to the provincial government.  
Sir Henry Drayton, renewed his question regarding the date of the budget, and Hon. W. S. Fielding replied that it would be brought down at "no distant date."

**MINSTREL SHOW IN EAST ST. JOHN**

The minstrel show, under the auspices of the East St. John Community Club, given in their hall last evening, attracted a large audience, which were stirred to considerable merriment by the end-men and the circle. The solos, quartettes and sketches were loudly applauded, and the club was congratulated on its fine

effort. The proceeds will go toward the general fund. The programme was as follows:—Opening overture; chorus, by circle; solos, "April Showers," by Fred Allan; "Old Black Joe," A. Kee; "Some Little Bird," Miss Edith L. Magee; "I Got Mine," Herbert Tonge; banjo, Lawrence Harding; solo, "Hush-a-Bye Baby," Miss M. Ekebrecht; "Polly Wally Doodle," Alex Magee; "Cousin of Mine," Miss Dorothy Kee; "The Hen Convention," John Tonge; chorus; guitar and accordion, Allan and Carr; slight-of-hand sketch, Messrs. Mains, Tonge, Allan, O'Hara and Mr. G. Blacklock. R. G. Magee acted as interlocutor, and did creditably well.

**LEAVES BURLINGTON'S SERVICE AT 94 AFTER 69 YEARS WORK**

Chicago, April 21.—After working for one organization continuously for sixty-

nine years, Frank Knight retired from the service of the Burlington & Quincy Railroad at the age of ninety-four. He is in possession of all his faculties, has never used intoxicating liquors and has not used tobacco for seventy-five years. Besides Mr. Knight, more than sixty other Burlington employes were retired on pensions at the first meeting of the new pension bureau of the company. Many of those retired have asked to be allowed to continue work, although several are more than eighty years old.

**C. G. I. T. RALLY IN KNOX CHURCH**

The last of the C. G. I. T. rallies of the season was held last night in Knox church hall and took the form of a physical contest. There were seventeen churches represented in the large attendance at the rally and eleven churches had entered the contest. At each of the rallies some contest has been held and the winning church has held the challenge cup until the succeeding contest. St. David's church, having won the previous stroy-telling competition, was the last to hold the cup but the totals of last night's contests have not yet been compiled and the present holder of the cup is still to be decided. The award will be made shortly. Clinton Urquhart and two other members of the Y. M. C. A. gymnasium classes acted as judges for the physical programme and assisted in directing it. The races were swift and very close and the participants had a very strenuous evening.  
Miss Marion Belding, the president of the girls' council, was the chairman for the evening and the programme commenced with devotions. The first race was a relay in which four members from each group in the city were entered; seniors and one for the juniors, each church sending one senior and one junior; a broad jump and a fifty yards dash finished up the programme.  
Ice Cream was served by the leaders of Knox church and C. G. I. T. songs were sung and yells given. Three hearty

cheers for the judges and three more for the hostesses of Knox church and the National Anthem was sung.

**HIS RECORD**

Contrast his record with that of his opponent as a safe and successful business man. He has the reputation of carrying through what he attempts to do—not promising more than he knows he can do simply because it is a good vote-getter. His slogan is "Be sure you're right THEN go ahead. He is making no promise just to get votes.

Schofield's Plan guarantees cheaper Light and Power.

...

Does McLellan's guarantee or only Promise?

**HIS PROMISES**

When Schofield gives his promise you may be sure he'll carry it out. His plan will bring a reduction in rates immediately and will not put the taxpayer's neck into a noose for thirty years. He does not believe in duplicating the system—economically and financially he feels it will be disastrous for the taxpayers.

The St. John Globe Says:  
It Cannot Support Mr. McLellan and the thought of him as mayor is "APPALLING"

**MR. CAMPBELL'S LETTER**

In a letter to yesterday's Telegraph Mr. F. A. Campbell denies that Mayor Schofield has ever received from him a letter in his official capacity as President of the Trades and Labor Council. The Mayor wishes to state that he has this letter in his possession. The matter would not have been brought into discussion had Mr. McLellan not introduced a question of the Mayor and Labor in his speeches. The letter is headed "St. John Trades and Labor Council, President F. A. Campbell, 127 Broad Street, Secretary A. D. Colwell, 268 Douglas Avenue, St. John, N. B." and is written on the stationery of the St. John Trades and Labor Council. It is addressed to His Worship Mayor Schofield and refers to the matter of the dispute between the Street Railway men and the Power Company. It concludes with the following paragraph: "Your kind offer to assist us is greatly appreciated by myself and the others on the committee. We shall never, at any time, lose sight of the valuable help you have already given us, and we are pleased to know that you are still interested. We shall call upon you if we need any further assistance. Thanking you for the interest you have shown in this matter and for your kind letter." It is signed, "I remain Yours truly, F. A. Campbell, President of the Trades and Labor Council." If Mr. Campbell wishes to see the letter he may do so by calling at the Mayor's office.

MAYOR SCHOFIELD AND LABOR.  
To the Editor of The Times: Dear Sir—The mayor says that his fight for the former Power Co., employees has been forgotten. I don't think that anyone of them has forgotten the laws that were made one day and put into force the next, and denying them the right to stop their motor buses within fifty feet of any white pole, which the Power Co. made numerous during the lockout.

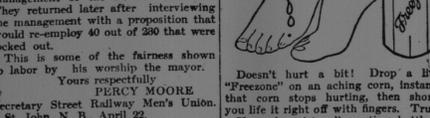

His worship claims, if his good advice had been accepted the trouble would have been averted. Does His Worship recall the conversation he had with a prominent citizen, when he was informed that things looked cloudy between the N. B. Power Co., and its employees. His answer was—then let them fight it out in the streets.

The offer of 47 cents per hour was made to Mayor schofield and the Hon. J. B. M. Baxter at a meeting of the Street Railway men held in the Trades and Labor Council 71 1/2 Prince William street. They both agreed that the offer of 47 cents per hour was fair and just and they left the hall with the intention of taking the matter up with the management of the N. B. Power Co. They returned later after interviewing the management with a proposition that would re-employ 40 out of 230 that were locked out.

This is some of the fairness shown to labor by his worship the mayor.

Yours respectfully  
PERCY MOORE  
Secretary Street Railway Men's Union.

### BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whiskers on stove covers or pipe and does not mat or cake when burning, is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

The Evening Times and Star

ST. JOHN, N. B., APRIL 22, 1922.

THE BANNER OF ST. GEORGE

It comes from the misty ages,  
The Banner of England's might,  
The blood red cross of the brave St. George.

That burns on a field of white;  
It speaks of the deathless heroes,  
On banners past and present,  
And his great England ne'er forget  
The glorious deeds of old.

O'er many a cloud of battle,  
That banner has floated wide,  
It shone like a star o'er the valiant  
hearts.

The dashed the Armada's pride;  
Forever amid the thunders,  
The sailor could do or die,  
While tongues of flame leaped forth below.

And the flag of St. George was high,  
O'er many a flag beloved  
Under a stiff unblest,  
But ever gave strength to the righteous  
arm.

And hope to the hearts oppressed;  
It says through the passing ages—  
"Be brave if your cause is right,"  
Like the soldier saint whose cross of red  
Still burns on your Banner white;

Great race whose Empire of splendor  
Has dazzled a wondering world;  
May the flag that floats o'er their wide  
domains.

Be long to all winds unfurled;  
Three crosses in concealment bled,  
The Banner of Britain's might;  
But the central gem of the emerald fair  
Is the cross of the dauntless knight.

Saving Material.

"How do you like my new frock?" asked Eric's sister, when dressed for a dance.

"It's—quite simple," stammered the young man.

"Simple!" she laughed. "Do you know what I mean? Do you know that twenty golden sovereigns wouldn't cover it?"

"Perhaps not," said Eric; "but thirty might, well spread out."

Why She Chose George.  
Mabel—Why did you make up your mind to marry George instead of John?

Netta—Because, John said: "It looks like rain, but we'll take a chance!" George said: "It looks like rain, so we'll take a taxi!"—London Mail.

Settled.  
Two fussy traveling salesladies were riding in opposite seats in the train.

Just then a dumpy porter came through.

"I wish you'd open that window. I'm nearly smothered."

"Don't you do it!" snapped the other. "If you do I'll freeze to death."

The porter scratched his head. "What you 'spose Ah should do in a case like dat?" he asked a portly looking traveling man, about two seats to the rear, trying to enjoy a little reading.

"Open it a while and freeze once; then shut it and smother the other.—Forbes Magazine (N. Y.)."

SHOCK ABSORBERS.  
A vote for Schofield means cheaper light and power and no increase in rent and taxes.

Did you ever rush into a business deal and when you had found out more about it first?

If not Schofield—who? 4-22.

Schofield says: "Mr. Taxpayer, don't saddle the city with greater financial burden until you're sure of beneficial results." 4-22.

"My suggestion as to power distribution would mean a saving in your light bills immediately." 4-22.

"I have no intention of being stampeded into pre-election promises which cannot at the moment be carried out by any candidate." 4-22.

It will take a year and a half to work out civic distribution with a duplicate system, with no difference in price in the meantime. Why not accept a steady scheme for two years and save money? 4-22.

I will make no promise to get votes. Civic distribution means an initial expenditure of more than a million—the taxpayer will have to face the music. 4-22.

Vote and bring a voter with you on Monday. 4-22. See Schofield's advertisement on page 2.

F. A. CAMPBELL TO MAYOR SCHOFIELD.  
To the Editor of The Times:  
Sir—Referring to Mayor Schofield's circular in which he states that he has in his possession a letter signed by me endorsing anything he may have done for labor and expressing gratification for his attitude at all times towards labor, I deny that he has ever received a letter from me in any official capacity as president of the Trades and Labor Council, in which I ever approved of his actions where labor was concerned.

The letter he refers to is of a personal nature and is simply expressing thanks to him for something he did and which was not asked of him, but suggested by himself and believed at the time by me to be of a purely friendly and Christian character, and never dreaming that I was being framed for his future political ambition.

Labor owes Mayor Schofield nothing and the contest on Monday, April 24, will no doubt find labor supporting civic ownership and distribution, and those who supported the principle before they had learned what the majority of public opinion was to be.

Enough for the present.  
(Sgd.) F. A. CAMPBELL.  
St. John, April 20.

OUTSIDE VIEW OF ONE PHASE OF THE ELECTION FIGHT

A Norton correspondent, writing to The Times, says—

"If a rank outsider may be excused for butting into a St. John conflict, I would appreciate the opportunity of using some of your valuable space to protest against a subtle and dangerous policy that is being instigated into the mayoralty contest. In the covert issue, which strikes at eye-long Anglo-Celtic ideals of government, I find justification for this letter."

"The matter referred to is the side-swiping appeal, seeking to clarify one man because of his business success, and deriding the other candidate as being out of employment and seeking a job. This is a direct insult to every wage-earner in this country. It would seem to me that the man who is in a position to give all his time to the city—other things being equal—will make a better public servant than the man whose time and energy are divided between private business and public duty. You cannot serve 'masters' in a two thousand year old truth."

"Moreover, this is introducing a dangerous form of class appeal, that the Bohemian movement will react to, and in the highest public interest it should be rebuked. Neither is it a good criterion of the probable success of a candidate's administration. U. S. Grant had not succeeded in business, was out of a job and seeking employment when he obtained his commission in the federal army and began the career that saved the republic."

"If the exaltation of a man in public life on account of his business standing, irrespective of the policy he advocates, is permitted to prevail, this country will soon be the counterpart of Germany under the domination of Hugo Stinnes. We will be divided into two distinct classes, a business ruling class rolling in wealth, and a working peasant class in the interest of the children of the wage earners, morally, mentally and physically the equal of the children of the successful business men. I trust this German snobish idealism will be smashed forever on Monday."

"If public welfare is of any importance it is time to consider the human equation in our collective activities, and to be concerned about measures that will enhance the comforts of the working man's home instead of giving weight to the personal business achievement of some aspiring candidate for public favor."

"It is only necessary to make a casual visit to some establishment dealing in electrical appliances to see how cheap electricity will ease the housewife's burden and add to the attractiveness of the children's homes. Hydro-electricity distributed at lowest cost has demonstrated its utility as a home-improving factor par excellence in Ontario. Is there not sufficient intelligence in St. John to make it accomplish the same results here? Fraternization in the big business title of the workman's home comforts."

"Thanking you in advance, I remain, 'NORTON.' 4-22, 1922."

You cannot take Mayor Schofield without also taking the New Brunswick Power Company, for he has declared against civic distribution.

Hydro will not mean more taxes but cheaper light and power—if it is kept out of the clutches of the New Brunswick Company.

Thoughts for The Electors

To Commissioner Bullock must be given the credit for having consummated an agreement whereby the C. P. R. Railway assume certain expenditures and upkeep in connection with the wharf trustees. This arrangement means the City Billing will save the city a very large sum—keep each and every year. It is a business opportunity that deals put through in recent years. It takes time, tact and patient perseverance to work these things through.

Commissioner Bullock has proven his solidity in civic affairs. The opportunity is here through hydro and civic ownership. Why should St. John continue to pay \$72,000 per year per light for street lighting? Vancouver only pays \$30,000 for similar services. 4-24

SANDY CORBET'S PLATFORM

CIVIC CONTROL OF HYDRO  
The slogan now is—If not Sandy—  
What?

It is not civic control of Hydro—What? I did not want to be hit by a landslide on April 10th before I declared for civic hydro. I was not misled, but was able to form my own opinion after I read the reports of our own engineer.

Those candidates who were unable to form their opinions or who were forced to declare for hydro after April 10th should not be considered, because they are apt to change their opinion again.

Why were they in favor of the Power Company handling Hydro before the primaries?

Why are they now in favor of civic control?

Any city father who has to be hit over the head by a ton of ballots to bring him to his senses should not be given a chance to fall back again into a state of coma.

It is evident these candidates were not listening to the voice of the people, but to a small group of so-called Business Men (?).

Candidates who had arguments strong enough to stand at the meeting in Pythian Castle and declare against civic control must regard their arguments as bad now, so they jump over the fence. Too late.

We are not sure but that they will jump again.

Play safe—give your vote to me and be sure of getting complete civic control.—Ads.

MONDAY'S DECISION.

On Monday the electors of St. John will make a decision which will very seriously affect the interests of the city for many years to come.

They are offered cheap light and power, which would become cheaper as the market expanded, until in the end and for all time the rates would remain so low as to enable factories in St. John to compete with those of other places served by hydro-electric power.

To get this cheap light and power they must compete with the present occupants of the field, whose high rates have prevented industrial expansion and the growth of the city. They must compete by civic distribution, making it certain that none of the profits of the new development will be reaped off by a private corporation. If that corporation secured control of the current there would be no hope of cheap light and power.

There is absolutely nothing in the assertion that civic distribution means increased taxation. The experience of hundreds of towns and municipalities in Canada that have accepted hydro gives the lie to that assertion, which is made in the interests of the New Brunswick Power Company. The expenditure necessary to get civic distribution would be paid out of profits within the first few years, while the rates to the consumer would be away below the rates now paid, and as the market expanded they would go still lower. Who has so little faith in St. John as to assert that the market, with cheap rates, would not expand?

The electors are sufficiently intelligent to estimate at their true value the blue-ribbon stories spread broadcast in the interests of the power company. St. John is not dead or dying. It is going forward to brighter and more prosperous times and larger growth as a result of the acceptance of cheap light and power. The defeat of the power company advocates on Monday should be the first step. The interests of the people are supreme.

THE REAL ISSUE

Not what the government of New Brunswick would do to the city of St. John, but what the New Brunswick Power Company would do if it got the chance is the thing the citizens must guard against next Monday.

The government embarked upon its hydro-electric policy with the hearty approval of the people, including some who are now loudly demanding that the benefits of the Musquash development be handed over to the New Brunswick Power Company.

The government catered upon the development of Musquash power for the benefit of the people of St. John and officers, Moncton, and points between. It offers the hydro-electric current at cost. Mayor Schofield had no reason to assume and maintain, as Hon. E. A. Smith says he did, "an attitude of suspicion and distrust." The government was and is acting in good faith.

The reason for the mayor's attitude is clear. He was never anxious to buy the Musquash current. In the back of his mind always was the New Brunswick Power Company as the only possible distributor of that current. He was always seeing difficulties that were not apparent to others. In the end he has come out flatly against civic distribution.

There is only one safe course for the citizens to pursue. If they elect Mayor Schofield the city loses and the power company wins, and so far as the people of St. John are concerned the development at Musquash will be no benefit whatever.

When Mr. Schofield's friends began to picture him as a safe, sane and reliable, dignified and model business man and mayor, they should have stipulated that he remain silent. During the last two weeks he has fallen far below specifications, and conducted a campaign of his own that leaves much to be desired in point of dignity and fairness.

The citizens will not permit themselves to be frightened. They have one fear that is amply justified, and it is that the New Brunswick Power Company may get a chance to pay for its own folly at their expense, and get a new grip upon the city. To trust Mayor Schofield is to trust the power company which so ardently supports him. A vote for Mayor Schofield is a vote for the power company.

The business man who wants more business will vote on Monday for the policy that will provide cheap light and power, encourage the establishment of many small industries, increase the number of his customers, and add to the number of taxpayers in the city. That business man will not vote for Mayor Schofield, behind whom stands the New Brunswick Power Company.

It is important that the majority for civic distribution of hydro should be larger than it was in the primaries. Every voter who then went on record against giving the New Brunswick Power Company a new and stronger grip on the city should both vote and work on Monday to make the verdict more emphatic than before.

HE STOOFS, BUT NOT TO CONQUER.

Mayor Schofield has done what would have been regarded as an incredible thing for the mayor of a city to do, if it had not been done by him. He has gone to the civic records to show that Mr. McLellan was late in paying his taxes, and of Mr. Phillips he says—

"In the case of Mr. Phillips we had carried him for his 1919 and 1920 taxes up till February of 1922."

There are some five thousand people whose taxes are not paid. Messrs. McLellan and Phillips paid theirs. Are any of the five thousand given publicity by the mayor? Not at all. What do the citizens think of a mayor who makes distinctions of this sort?

But what does Mr. Phillips, who is thus described as a tax-dodger, say about it? He says—

"In 1918 I paid my taxes in the parish of Greenwich, Kings county. In 1919 I paid my taxes in Westfield. In 1920 I paid my taxes in the city of Fredericton, and in 1921 I paid my taxes in the city of St. John, in time to get the discount. It happens that for three months in 1918 I came into the city and worked here only for that time. In January, 1919, I went to England, returning in May of that year. I never received any notice of assessment or tax bill in St. John for 1918 or 1919 or 1920, but in February, 1922, a tax collector came into my office and told me he had a bill for 1918 and had been unable to trace me. While I was not sure that I should have been taxed here in 1918 I paid the bill—with interest."

How many votes will the mayor gain on Monday as a result of his treatment of Mr. Phillips in this matter? If the spirit of fair play operates, he will be taught a salutary lesson. Hydro is the issue, not Mr. Phillips's taxes—and Mr. Phillips's taxes are paid.

TO WOMEN VOTERS

The Times has already referred to the canvass being made among women who are property owners by the friends of the New Brunswick Power Company. They are telling the women that civic distribution of hydro will result in such an increase in taxation that owners will have to sell out. This is utterly false. It is a shameful attempt to deceive women voters and get their votes for the New Brunswick Power Company.

In the first place, the users of hydro will pay for it. Bonds would be issued for the cost of the distribution system. A short term loan could be made to cover interest and sinking fund for these bonds, until the sale of the electric current was large enough to take care of both. There would be no new taxes on the people.

The hydro-electric distribution would be managed by a commission. It would be the same as the water distribution, the user paying the cost, and while the market for current was being built up the consumer would still be getting light and power at least forty per cent cheaper than at present. Of course money would have to be spent the first two or perhaps three years, but it would be provided for by bonds and by loan, to be taken care of without calling upon the taxpayers to contribute at all.

Under Mayor Schofield's scheme there would be no appreciable reduction in the cost of light and power, and no assurance that it would not later be increased. The city would be helpless in the hands of the power company. If the women voters want cheaper light and power without increased taxation, they will vote against Mayor Schofield.

To read some of his advertising matter one might almost be led to believe the city to be on the verge of a great betrayal, from which Mayor Schofield alone could rescue it. Really it is not quite so bad as that. The danger is that the city might lose the benefit of the Musquash development, which would be a genuine calamity.

Occasionally one hears a voter express doubt as to what he should do on Monday. The choice is simple. Either the city or the power company wins. Which should win? Is there any room for doubt on that score?

Those who believe in the principles of fair play will not support Mayor Schofield on Monday. His campaign has hopelessly degenerated in the last week.

Speaking of people seeking for jobs, if we get cheap light and power there will be more industries, more business, more jobs, and more taxpayers.

Monday's vote will decide whether the citizens of St. John or the New Brunswick Power Company will profit by the Musquash development.

If this campaign lasted another week, how much more mud would the friends of the New Brunswick Power Company throw?

Get out the full vote on Monday. Make it a smashing victory for hydro.

DANCERS OF CAMBODIA.  
From the time they are eight years old the dancers who compose the hairem of the King of Cambodia begin to work. Each day for at least a year, from 9 o'clock in the morning to 11 and from 2 to 8 in the afternoon they exercise under the direction of women teachers, themselves former dancers. The preparation is long and painful. The rehearsals held in gloomy, the air often stifling. Seated on the ground, they bend and hootate the torso above the pelvis; or else, sitting one, opposite the other, each turns back the fingers of her companion until all the phalanges crack. Finally, one dancer takes the arm of her neighbor and bends it backward over her knee as one bends a branch.  
The aim is to modify the articulation of the elbow and to arrive at the over-extension of the forearm that astonishes the European and that makes it possible for the bare arm, floating on musical waves, to undulate from the shoulder to the extreme unfolding of the turned-back hand.  
The difficulty of the Khmer dances does not lie solely in this. The over-extension must be possible for the hand, for the wrist, for all the phalanges; and the articulations of the legs must also be modified. Finally, these over-extensions must be, as largely as possible, simultaneous.  
But none of the movement provokes the uneasiness of the forearm that astonishes the European and that makes it possible for the bare arm, floating on musical waves, to undulate from the shoulder to the extreme unfolding of the turned-back hand.  
The charming body of the actress becomes in some fashion insubstantial. The ancles, even the feet, disappear, and nothing remains but soft curves, vague profiles, airy glidings, and unsuspected grace.  
To realize such an esthetic ideal the dancer must exercise stubbornly; she must exercise stubbornly if she wishes that, one evening, the enchanted King will desire her and the people will applaud. When her body is sufficiently flexible and she is able, bending her legs quickly, to make it crack in an unobtrusive reversal, then only will the little dancer study her role—Asia Magazine.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, APRIL 22, 1922

**RECENT DEATHS**

**Mrs. Susan E. Seely.**  
 The death occurred at Lower Norton, Kings county, on Friday, April 21, 1922, of Susan Ellen, widow of Byron Seely. Mrs. Seely was in her seventy-third year, and had suffered a lengthy illness. She leaves a family of six daughters, Miss Minnie and Miss Jessie at home, Mrs. Leonard Fairweather, of Hampton, Mrs. Nelson Jeffries, of Jeffries Corner, Mrs. Harry Henderson, of Nauyaswan, and Mrs. Stanley D. Granville, of St. Stephen. The funeral will be held at Lower Norton, on Monday April 24, at 3:30 p. m.

**T. T. Cartwright.**

Word has been received in the city of the death in Newfoundland of T. T. Cartwright, a commercial representative who is widely known in the maritime provinces. Mr. Cartwright has been coming to St. John for many years. He was here this winter, and left for Newfoundland a few weeks ago. The news of his death will be read with keen regret.

**FUNERALS**

**The Late P. S. G. Horne.**

The funeral of Phillip S. G. Horne took place yesterday afternoon at 2:30. The service was held at his late residence, 158 Prince William street, and was conducted by Rev. H. A. Cody. Interment was made in Fernhill cemetery, where the Anglican service was read by Mr. Cody. Mr. Horne was a member of the Sons of England Benefit Society and president of New Brunswick Lodge. The Sons of England held their burial service over the body after Mr. Cody had read the Church of England service. This service was very impressive and was listened to with great attention by all present, especially the rendering of the Sons of England hymn, "Nearer My God to Thee."

By the death of Mr. Horne, another link of the New Brunswick 26th battalion has been broken. He was drafted into that unit after going overseas with the 6th battalion. He was wounded and shell-shocked at Courcellette, being buried alive in a wrecked dug-out for two days and nights, and was the only survivor of the men who were in the dug-out when it was blown in. When he had recovered sufficiently, he was returned to Canada and was appointed to the 6th battalion to assist in training the new men who were being prepared for overseas. He was discharged at the end of the war with the rank of regimental quarter-master sergeant. He had been in indifferent health for a considerable time, the trouble culminating in an abscess which formed in his head. The abscess developed into meningitis, causing his death.

Much sympathy is being shown his bereaved wife and child. Many beautiful floral tributes adorned the casket and

**MRS. A. E. KILLAM HOSTESS AT MONCTON "AT HOME"**  
 (Moncton Transcript.)

On Wednesday afternoon Mrs. A. E. Killam and her sisters, Mrs. S. L. Stammers, St. John, and Mrs. David Hudson, Sydney, who are guests of Mrs. Killam, held an "at home" at the beautiful residence of Mrs. Killam, 84 Highfield street, when nearly two hundred friends were received. Mrs. Killam was assisted by Mrs. W. F. Hicks and Mrs. Irvine Malcolm, who ushered, while Mrs. W. A. Ferguson and Mrs. W. H. Estano poured. Mrs. G. A. Dodge cut the tea. Mrs. Thomas H. Walsh and Mrs. Frank L. Thompson replenished. Others assisting were Mrs. H. E. Britton, Mrs. Robert Healy, Mrs. Ronald Moore, Mrs. N. L. Rand, Mrs. William Union, Miss Kathleen Steeves, Miss Latimer and Miss Annie Killam. The little Misses Elsie Lord and Dorothy Stultz attended the door.

In honor of the occasion the rooms were very prettily decorated, the color scheme being yellow in the dining room, and pink in the drawing room. Daffodils and spring flowers were used extensively and a profusion of potted plants was in evidence in the drawing room.

On Wednesday evening Mrs. Killam was the hostess, when she entertained ladies who were her friends and former schoolmates at Salisbury. The guests were Mrs. H. C. Wilnot, Mrs. Albert Triton, Miss Lottie Nixon, Mrs. James Best, Mrs. Wm. Union, Mrs. Frank MacDonald, Mrs. George Forbes, Mrs. Leonard Carter, Mrs. W. A. MacDougall, Mrs. H. C. Barnes, Mrs. Edgar McKee, Mrs. George Nixon, Mrs. Myles Wilson and Mrs. G. A. Dodge. Other ladies present were Miss Alberta Burns, Miss Annie Killam, Mrs. Minnie Rand, Mrs. Sterling Keith, Mrs. David Pines, Miss Jennie Vye and Mrs. Annie Vye. A pleasant evening was spent, many reminiscences being indulged in.

**IN PARLIAMENT.**

Ottawa, April 22.—(Canadian Press)—In the Commons yesterday legislation to assist the provinces in the enforcement of temperance laws was introduced by Hon. D. D. McKeen, solicitor-general. Among other provisions, the bill prohibits the importation of liquor into British Columbia except to the provincial government. The minister of labor announced that the new board of conciliation which will deal with the dispute between the British Empire Steel Corporation and the miners would probably be complete within five days.

**PLAY-BANDIT KILLS  
7-YEAR BROTHER**

**Finds Daddy's Pistol in Closet, Loads it So it will Make a Noise, and Pulls Trigger.**

Robert Loeffler, eleven years old, 1298 Taylor avenue, the Bronx, New York, the other afternoon in the Westchester police station, told Willoughby Dobbs, assistant district attorney, how he happened to shoot and kill his brother, George, aged seven.

"George and me came back from school. It was rainin' and I knew mamma wouldn't want us to go out and get all wet, so I told George we were gonna play 'round the house' and we went rummaging 'round and we found a pistol in daddy's closet. I said to George: 'Let's play robbers and bandits.' And George laughed and said: 'All right, let's.' We just wanted to play, we didn't mean no harm.

"We got to playing, but the pistol didn't make any noise, and it wasn't much fun. Then we found a bullet and put it in the pistol.

"I said to George: 'Now I'm a big bandit and I'm gonna hold you up.' And I told him to stand in the corner and I pointed the pistol at him. George just grinned. Then all of a sudden the pistol went off, and George tumbled down. I thought he was just playing dead. Then blood started to come out all over his head.

"I yelled, 'George! George!' but he didn't say nothin'. And then—"  
The boy broke down, choked with sobs. The district attorney patted him on the shoulder and sent him home with a policeman. He arrived a few minutes before his father and mother, Mr. and Mrs. John Loeffler, owners of an East Harlem hotel, all unknowing of the tragedy, returned to find their smallest son dead.

Theodore Ball, a neighbor, said Robert had come running to him, crying that he had shot his brother, and that when the doctor and ambulance arrived George was already dead. And he told of how Robert had gone with a policeman to the station to tell the story.

Mr. Loeffler was arrested, charged with a violation of the Sullivan law, and released on \$500 bail.

**SUBURBAN SERVICE, ST. JOHN-WELSFORD**

**EXMOUTH STREET W. M. S.**

The Easter meeting of the W. M. S. of the Exmouth street Methodist church

was held on Wednesday with the president, Mrs. M. Bonnell, in the chair. Following the devotions, the mission band presented a pleasing exercise, and Mrs. Bonnell read a helpful paper on "Opportunity." Mrs. H. E. Thomas gave a paper on the "Progression of Women" and solos were sung by Miss Edith Magee and Miss Mildred Bustin. The Easter envelopes were opened, and with some more still to be received the Easter offering amounted to \$65.

Boyd Andrews appeared before Judge Armstrong in the county court on Thursday on the charge of committing serious offences against three young boys, and was sentenced to five years in the penitentiary on his plea of guilty.

**The Dye that never disappoints!**

Have you had bad luck with your home dyeing? Sunset Soap Dyes will never disappoint. The element of "luck" is eliminated. Sunset is scientifically perfect—the "Know How" of the professional dyer is in the cake—it cleans while it dyes—dyes all fabrics evenly—retains the 'sheen' on Silk and 'finish' on Cotton and Wool—is fast—is easy to use—is vastly different from anything else you may have used or may be tempted to use for Home Dyeing—vastly different and vastly superior.

Try **SUNSET** To-day

**Silk, Wool, Cotton, Linen, Mixed Goods**—From the heaviest to the most fragile of fabrics, may be safely dyed any color in the same one bath with **SUNSET** in 30 minutes—and it won't crack out! Consider its uses, its possibilities for frocks, underswear, waists, ribbons, ties, stockings—for draperies—for Khaki outfitting apparel—for lace and gams.

**'Crocking'** A dye is said to 'crock' when it rubs off on other materials. **SUNSET** will NOT 'crock,' fade or wash out.

**It's a REAL Dye** Ask your dealer to show you the **SUNSET** Color Guide. If he can't supply you, mail us 15c and we will send the color desired. Don't accept substitutes.

**PROVINCIAL GOVERNMENT IN SESSION HERE**

The provincial government met here yesterday in morning, afternoon and evening sessions, when much routine business in connection with the recent session of the legislature was disposed of. All the sheriffs were reappointed, the only change being the appointment of J. W. Goun as sheriff of Sunbury county, which office had been made vacant through death.

At the meeting yesterday further arrangements for the construction of the hydro-electric transmission line to Moncton were completed, including an order-in-council providing for the necessary right of way.

**Million Men  
May be Idle**

(Canadian Press Despatch.)  
London, April 21—Negotiations between the employers and representatives of the amalgamated engineers' union, which had been in abeyance for awhile, were resumed today, but they broke down again just when there seemed encouragement for the belief that an agreement would be reached.

If the threatened lockout becomes effective about 1,000,000 men will be involved, it is said, as kindred trade unions are concerned in the engineers' trouble.

**RELIEF WORK BY  
FUNDY CHAPTER**

The Fundy chapter of the Imperial Order of the Daughters of the Empire at its meeting in the G. W. V. A. rooms last night heard reports of much relief work done during the past six weeks, and voted money to care for five relief cases spoken of at the meeting. Miss Alice Fairweather, the regent, was in the chair and gave an interesting account of the transactions of the annual meeting of the provincial chapter which she had attended in Fredericton and at which she had replied to the address of welcome. A letter of thanks was read from the Canadian Patriotic Association for

Nourishing, and a most economical food.

flannel given by the chapter for relief work. The Boy Scouts Association wrote to ask the support of the chapter. When the proposal that a war memorial should be erected in the city was brought forward, the chapter voted in favor of the memorial. Miss Harriet Smith, the educational secretary, reported that the chapter would give four prizes in the city schools this year and the Echoes secretary, Miss Bolton, reported one new subscriber enrolled. Miss Ethel Melick presented the treasurer's statement. Plans were made for a rummage sale to be held in the near future.

RED CROSS MEETING

A real interest in public health has been aroused in all parts of the province, according to reports presented at the meeting of the New Brunswick division of the Red Cross Society held yesterday afternoon. Mrs. Harold Lawrence and Miss Jessie Lawson were appointed joint supervisors of the Junior Red Cross in the province. The secretary, in her report, told of the work done during the past month and of the donations received; also of her attendance at the meeting in Toronto. C. B. Allen gave the treasurer's report. Mrs. F. R. Taylor reported for the hospital committee. Miss Melkijohn, supervisor of public health nurses, reported what each of the nurses have been doing. Miss Gregory presented the report of the port committee. Miss F. H. White gave the report of the St. John branch.

MORNING NEWS OVER THE WIRES

The Catholic protection committee at Belfast last night sent a telegram to Winston Churchill and Austin Chamberlain telling of the gradual extermination of the Belfast Catholics by murder assault and starvation. They also said that the military forces are inadequate and that the northern government was inefficient. Mr. and Mrs. George H. Emmett of Ailton, N. S., a small town near Truro, and a young girl staying with them had a narrow escape from death when they had to hurriedly leave Mr. Emmett's house on account of a fire which broke out early yesterday morning. Damage to the extent of about \$18,000 was caused by the burning of the house and a store. About fifty persons were injured, some of them fatally, in an explosion which followed an oil fire in Downey, a town near Los Angeles, Cal., yesterday. Daniel R. McNeil of Ingonish, N. S., the mailman who was carried out to sea in a motor boat when it was caught in an ice floe on Wednesday, has been rescued after several hours exposure.

He determined to deliver his mails and used the boat on account of the bad condition of the roads and was caught by an ice floe when his engine became stalled.

STRONG BEER CASE.

The case of R. Tobias, charged with having beer stronger than the law allows in his shop in Erin street, was due to come up yesterday afternoon in the police court. Owing to the non-appearance of a witness for the prosecution, who had been subpoenaed, the case was postponed until Monday morning to allow the man to be secured. E. S. Ritchie appeared for Tobias and W. M. Ryan conducted the prosecution. One drunk was disposed of yesterday afternoon and was allowed to go on the payment of his fine.

ASSUMPTION FAIR.

The fair in St. Patrick's hall will conclude tonight, the door prize being \$10. Last evening a good-sized crowd was in attendance. The prizes were won by the following:—Door prize, a load of coal, Mrs. James Burns; crocodile, Walter Kindred; howling, J. Fitzgerald; ring, R. McLaughlin; bagatelle, C. Owens; bean board, F. J. Joyce.

The life insurance underwriters, following a dinner at Bond's last evening, heard two sales demonstrations, the first by J. J. Murray with W. MacMackin as the prospect, and the second by F. Conlon, with R. Shanklin as the prospect. This was followed by discussion of the sales idea and of other points of benefit or interest to the insurance men. Several new members were elected to the association. J. M. Queen presided.

A collision between the ferry boat on her 1.30 o'clock trip from the west side and the steamer Sissiboo yesterday resulted in some damage to the Sissiboo. The cause is said to have been the strength of the freshet running in the river against which the ferry was battling hard. She got out of this suddenly and the crash occurred before the engines could be reversed.

#### INTERESTING BOWLING MATCH.

The Black family's quintet of bowlers, comprising three generations, the grandfather, father and three sons, have accepted a challenge issued by the Roses, a picked-up aggregation of pin fall artists, and will meet them in a match game on next Tuesday evening at 7.30 o'clock on Black's alleys. In his day Thomas Black was considered a crack opponent of the game, while his son, Harry, proprietor of Black's Bowling alleys, held several alley records for years. The latter's three sons, while in their teens, are clever bowlers and in match games this season have averaged well above the ninety mark. The match is creating considerable interest and will attract enthusiasts who will watch with interest the work of the representatives of three generations.

### IN MEMORY OF HEROES OF C. P. R.

Tablet to be Placed on Germain Street Side of Building Next Week.

Preparations are being made to place a bronze tablet on the Germain street side of the C. P. R. building. It will bear the former names of C. P. R. employees who sacrificed their lives during the war. It is about five feet in length and nearly four feet deep and is on the left hand side a man-o-war, a tank, and artillerymen and horses. At the right are depicted a train and steamer featuring the part they played in the transportation of troops to the battle area. Overhead on either side are shown aeroplanes. The tablet will be unveiled on April 28.

The following inscription is on the tablet: "This tablet commemorates those in the service of the Canadian Pacific Railway Company who, at the call of their country, left all that was dear to them, endured hardships, faced danger and finally passed out of sight of men by the path of duty and self-sacrifice, giving up their own lives that others might live in freedom. Let those who come after see to it that their names be not forgotten."

### GREAT SHIPMENT OF AUTOMOBILES FROM THIS PORT

The biggest solid train that ever came into St. John arrived yesterday afternoon. On Tuesday afternoon General Motors shipped from Oshawa, Ontario, 63 carsloads of automobiles for this port en route to London, England. There 215 cars, valued approximately at \$300,000. This great train arrived here yesterday afternoon, hauled by one engine. It was photographed at the wharf and the cars were taken to the wharf, where loading into the steamship Canadian Conqueror of the C. G. M. The work of loading was also photographed and this great train and its freight will be seen in the movies. It is worthy of note that besides being the biggest solid train ever hauled to St. John by the government railways and government steamship, and that remarkably good time was made in the run over the C. N. R. from Oshawa.

### ST. JOHN MAN AND BRIDE TO ALASKA

An event of interest to St. John people took place on April 21 at Vancouver, Washington, when Chesley D. Colwell, of the old firm of Colwell Brothers, Peters street, and son of Mr. and Mrs. George Colwell of 48 Esplanade street, was united in marriage to Miss Nettie (Nettie) Davis. The wedding took place at the home of the bride's parents with only relatives and a few friends of the bride present. The bridal party motored to Seattle and on April 5 the bride and groom set sail for Unga, Alaska, where Mr. Colwell has taken over a business so successfully run for many years by Mr. Wilson of Nova Scotia. Mr. Wilson retires. Mr. Colwell's many friends will wish himself and his bride nothing but happiness in their far away home.

### G. E. CARTER PROMOTED

George E. Carter, son of Mr. and Mrs. E. S. Carter, has been appointed C. P. R. travel passenger agent in this district. He has been in the employ of the C. P. R. since 1914. At that time he joined the ticket office staff and early in 1915 was granted leave of absence to accept a position with the Canadian Pacific Railway. He went over with reinforcements from McGill University to join the Princess Pats, and later was transferred to a machine corps. While with that branch of service he obtained a commission and was slightly wounded during one of the late advances prior to the signing of the armistice. On his return he was appointed to the port staff of the C. P. R. and has since been engaged with them both at Quebec and St. John. Many friends will be pleased to hear of his promotion.

### LIQUOR MATTERS

A deposit of \$200, put up by Edgar Lamier, manager of the Great West Wine Company, 61 and 63 Water street, on Thursday afternoon, was forfeited this morning at 11 o'clock when he failed to appear to answer a charge of selling liquor unlawfully. W. M. Ryan appeared for the prosecution. This charge arose out of the seizure of some eighty-five bags full of bottled liquor Wednesday morning.

J. B. Hawthorne, chief inspector under the prohibition act, arrived in the city today from Fredericton. During the week he made a tour of the north shore of the province where he reported everything quiet.

Commenting on the result of the case in the police court this morning, the chief inspector said that the liquor seized while being loaded into a small boat on the wharf, out of which the charge arose, would likely be taken to Fredericton and placed in the provincial liquor bonded stock. It is said to be of high class stock, and consists of some 200 cases.

### For Housecleaning

A EUREKA ELECTRIC VACUUM CLEANER will lighten the work and vexation of housecleaning, making it unnecessary to send away the rugs to be cleaned or even to take them off the floor.

The powerful suction draws the air through the rug with a greater velocity than any other cleaner supplies, so that every particle of dust and grit is removed without beating and breaking the fibres of the carpet. For cleaning upholstery, mattresses, curtains etc., its work is magical.

We will be glad to send one to your house for a free demonstration, and you need not purchase until you have decided it is the best machine you have ever seen.

Many other helps for housecleaning are also in stock, including O' Cedar Polish and Mops, Liquid Veneer Polish and Mops, Carpet Sweepers, Furniture Polishers, Dust Cloths, etc.

THE DUFFERIN  
HOTEL SAMPLE  
BUILDING CASE

Raymond Tobias, representing LaHood and Company, builders and contractors, pleaded not guilty today to two charges against the company, the first of erecting a building not in accordance with a permit issued to them and the second of erecting a wooden building in Charlotte street.

James Carleton, building inspector, said he had received an application from the company for the erection of a flat-roofed, wooden building to be 85 by 60 feet.

On April 7 he found that the building had been made 42 by 70 feet and that it had a hip instead of a flat roof.

On April 20 he laid information against them on the charge of putting up the building and not conforming with the specifications.

He had been shown plans of the proposed building, he said, but had refused to examine them.

James Newlands, draughtsman at city hall, corroborated the evidence about the size of the building.

Raymond Tobias told of receiving a permit to build. He said Mr. Carleton had asked for plans of the proposed building and he had shown him some sketches.

The building had been put up to where the verandah would have been and the side wall was extended to where the verandah would have been.

J. H. Doody gave similar evidence and the case was postponed until Tuesday at 11 o'clock.

a happier era in the old kingdom of the Caesars. Bolshevism is far more likely to be killed by economic kindness than by political antagonism. This fact is shown by the figures now being published from authentic sources, in quarters thoroughly hostile to Lenin and his proposals, as to the strength of Lenin's party in Russia. One of all the millions in Russia it is not claimed by the Soviet leaders in that country that more than 160,000 are active adherents. From this it may surely be gathered that the sooner the mute millions of Russia are given by economic regeneration the means of asserting their views and liberties politically the better for everybody, except, possibly and hopefully, the red-handed Communists who deal out wholesale death warrants.

A Modern Contrast.

A great deal has been written of the demolition of Bollinbroke House, in Bacterica, which is to do away with the "Cedar Room" where Pope wrote poetry and where Bollinbroke, the most spectacular and alcoholic character of the 18th century, entertained his friends. However, seen nowhere any reference to the use to which this room is now put. Outside the windows where once were a lawn, mulberry trees, and a fountain, there stands a mysterious machine, connected in some way with the drying of flour, from which, a little inconspicuously, flows the rents of water. This is within six feet of the windows, and inside the very room where Pope, Swift and Lord Chatham used to meet, are three desks, upon which three very modern daisies hammer noisy typewriters. Perhaps even more unexpected is the appearance of the fireplace, graced on occasion perhaps by Madame de Maintenon, the stern lady who exercised such an influence on Louis XIV. When I visited the house the other day the only ornaments on the mantelpiece were a small powder-puff and a looking glass.

Dress of Lady Barristers.

In recommending that ladies who become barristers should wear precisely the same distinctive wig and gown as men, the Lord Chancellor's committee have come to a decision generally expected in legal circles. It is, of course, no more to be tolerated in a sphere so wedded to custom and the proprieties than a lady barrister should appear before the judges in the frivolous fashion that men barristers should wear golfing suits or light grey trousers. Vice-Chancellor Malins once rebuked a counsel whom he detected trying to button up his coat in order to hide a white waistcoat, and even Lord Coleridge, when at the Bar, was chidden for appearing in trousers of too summer-like color and texture. The firm word with regard to the women's dress rests with the benchers, who doubtless will agree in accepting the committee's suggestions. Harmony amongst the jinks of court in this delicate question is, of course, essential.

Silk With Morals.

I was shown today some silk fabrics, imported from a famous French house, that might at first glance have been designed 200 years ago. They are, in fact, modern, and woven in the fabric little stories and incidents of the war, which make the material a most interesting souvenir. The firm, which has been recording history in silk ever since its foundation, and there are kept in the works specimens of designs manufactured by the present proprietor's great grandfather, to commemorate Napoleon's march into Russia and the battle of Waterloo. The general designs were then manufactured, except that, of course, a closer glance reveals the modern uniform. It is the proud claim of the firm that the new French silk designs have happened in the history of France during more than two centuries that has not been recorded in silk.

Particulars of Church Parade.

Dear Scout and Cubmaster: As you know, Sunday, April 23, is St. George's Day, and this is also the birthday of the Boy Scout movement. In order to honor St. George, who is the patron saint of the Boy Scouts, and commemorate our birthday, it is planned to hold a church parade of all troops and packs in the district. Please turn out in plain, neat, and tidy dress, and urge upon every boy and pack the necessity of a clean, smart appearance, whether in uniform or not.

Particulars of Church Parade.

Assembly point—King Street east. Time—All troops and packs must be on King Street east by 10.15 a.m. This is the time for the parade. Please turn out in plain, neat, and tidy dress, and urge upon every boy and pack the necessity of a clean, smart appearance, whether in uniform or not.

Men Learning to Cook.

The number of men "entering service" is on the increase, and the pre-war valet is rapidly being displaced by the male general servant. The latter, however, is a small class which will employ a man, if he can cook a little as well as undertake an ordinary valet's work, in preference to a woman who comes in for a few hours in consequence at many schools of cookery male pupils are by no means an exception. In twelve lessons, it is said, a man can learn sufficient to equip him for all ordinary emergencies, and a further course of twelve lessons in "higher cookery" will render him capable of the most elaborate dinner. The majority of these would-be male cooks are young ex-soldiers in the late twenties, but many boys of fifteen, sixteen and seventeen are now taking up domestic service as a deliberate career.

PORTLAND EPWORTH LEAGUE.

WIGMORE IMPROVED SERVICE BUT REDUCED WATER TAXES

His Vote in the Primaries, Expression of Confidence in His Regime, 1912-18—Some Striking Figures.

Men and Women Electors of St. John: Your very hearty expression of confidence in me in the primary elections was, indeed, most highly gratifying and can only be accounted for by the fact that my administrative record as Commissioner of Water and Sewerage for the six years from 1912 to 1918 is remembered with general approval. Prior to 1912, complaints as to insufficient water pressure were both frequent and serious. Scarcely a day passed without the newspapers commenting on the lack of pressure. By doing away with the "one system" and opening stop-cocks to allow free vent, I was able to put the whole system on a new and more efficient basis.

The renewal of main pipe lines during the last four years of my regime to the extent of 31,961 feet was also a very important factor in improving the water system generally. These renewals, it may be noted, were all paid for from water revenue. There was also paid from surplus of 1918 the sum of \$25,000 to retire old Carleton water scrip and for which there was no sinking fund. Interest charges were reduced from \$78,972.22 in 1912 to \$77,388.46 in 1917 and this at a time when municipal and government departments were running wild with bond issues and spending money like water. As a careful provision for the future there was set aside in 1917 for sinking funds the sum of \$84,940, this being a decided increase over 1912 when the amount was \$25,551.83. The bonded debt of the department was actually less in 1917 than in 1912 and in this spite of the fact that more than 40,000 feet of new water mains and about 25,000 feet of new main sewers were laid and 676 new hydrants installed. In the year 1916 alone sewerage and hydrant maintenance cost a discount of \$17,648.98 was charged to water revenue and I purchased and paid for, this year, 98-inch cast iron pipe, plant costing together \$41,038.94, all without bond issue.

Now we come to the most interesting part. All this was done, not only without increase in taxation but on the other hand a very marked decrease. As a result of my administration, the water by civic candidates in the Knights of Pythias Hall and I stand for Civic Distribution without equivocation. I wish to thank again those who voted for me at the primaries and it is very encouraging to find that my record has not been forgotten after being out of the civic life, and for a good part of the time out of the city, for the last five years. Asking for a renewed expression of your confidence on Monday, I am, Yours sincerely, RUPERT W. WIGMORE. St. John, N. B., April 20, 1922. (Adv.)

GREAT COLLEGES IN MONEY TROUBLE

Oxford and Cambridge Not Able to Pay Their Way—Royal Commission's Recommendations.

London, April 4.—(A. P., by mail)—Oxford and Cambridge universities, for the first time in their long histories, are unable to support themselves, and have called upon the public for assistance. This was disclosed in a report issued by a royal commission appointed under the chairmanship of ex-Premier Asquith to investigate the financial condition of the two institutions, which two years ago was admittedly so unsatisfactory that the government granted each of them an emergency subsidy of £30,000 annually, thus saving both colleges from collapse.

Including these subsidies, Oxford had an income of £247,710 in 1920, while that of Cambridge totalled £719,554. The commission stresses the point that the universities have largely returned to their original function of ministering to the non-wealthy student, and, in fact, become "student discounters."

In addition to recommending ample facilities for the education of women, the report pleads for more state scholarships, cheaper living costs and better pay, with pension prospects, for professors. Although the report regrets "the comparative neglect of living languages" at both universities, it notes that there is an increasing tendency on the part of business men to look to universities for trained men as future assistants and partners. It adds that "business salaries now offered to first-class science men would make it impossible to keep enough of the best men to do the teaching at Oxford and Cambridge were it not for their devotion to academic

NOW HE PRAISES DODD'S KIDNEY PILLS. Manitoba Man Run Down and Out of Sorts Finds the Remedy He Needed in Dodd's Kidney Pills.

Morden, Man., April 21.—(Special)—"I feel like advising everyone to use Dodd's Kidney Pills." Such is the statement of Mr. I. D. Dill, K.C., who is in St. John, N. B., near here. Mr. Dill has used Dodd's Kidney Pills and found them good. "I had been dragging along for the last two or three years, and I wasn't able to do the chores. I tried two doctors but they seemed to do me no good at all. Then an advertisement led me to try Dodd's Kidney Pills. I am so much improved that I feel like telling everyone to use them. Dodd's Kidney Pills make healthy kidneys. Healthy kidneys mean pure blood. Pure blood gives new energy to the body. If you have that tired feeling that springs brings, ask your neighbors about Dodd's Kidney Pills."

ENGLISH TO BECOME WORLD LANGUAGE

Prof. Hume Sees it as Common Medium for Educated People. (Toronto Mail and Empire) That indications were that English was destined to become before the world language in the sense of a common medium of communication between educated people all over the world was the statement made by Prof. J. G. Hume, of the University of Toronto, in addressing the Reform Spelling Section of the Ontario Education Association yesterday. In view of this, the speaker felt the simplification of the spelling of English was more than ever necessary owing to the difficulty of foreignness, and even our own children in learning the present form.

CONCERT IN AID OF SOCIAL CENTRE

The concert held in the vestry of the Central Baptist church last evening in the interest of the social centre, under the auspices of the C. G. I. T., was a splendid success. The vestry was tastefully decorated for the occasion under the supervision of Mrs. F. H. Bone and Mrs. Z. Cowan was in charge of the candy table, which was well patronized. The large audience greeted every number with prolonged applause. A. Wilson was the chairman. The program was as follows:—Interlude, Miss Gladys Dykeman; remarks by chairman; solo, D. **SUPPORT ONLY  
CANDIDATES WHOSE  
POSITION IS SURE**

The executive of the citizen's committee held a meeting last night for the purpose of discussing the final arrangements for a clean-up of the campaign for municipal ownership and distribution of the Musquash power.

Roy A. Willet, the chairman, said that the work of electing representatives favorable to civic distribution soon would be over, and there was no doubt but that the right men would be placed

at the head of the city's affairs. For the last three or four months the committee had been working almost night and day, and the results had been most gratifying. The candidates for the majority in favor of municipal distribution, H. R. McLellan, had led in the primaries by a splendid majority, and one of the candidates for commissionmanship, R. W. Wigmore, a municipal ownership man, had also led by a fine majority. There was no doubt, he said, but that the citizens were determined that the Power company should not get hold of the Musquash power.

Mr. Willet went on to say that, as was the case in some other elections, at the last minute their opponents were commencing to sling mud instead of facts and figures. So far, the supporters of municipal distribution had done all their fighting with facts which could not be disputed, and this had been the means of causing the Power company's friends to look for ammunition elsewhere, and they were now trying to turn the attention of the citizens from the real issue by bringing in personal matters. Mr. McLellan and Mr. Phillips, he said, had been slandered in a most disgraceful manner.

Mr. Willet dealt at some length with the propaganda which had been circulated by the opponents of municipal distribution during the last day or two, and said that if the intention of the writers was to lose as many votes as possible by disgusting the public the result for them would be a glorious success, as they were losing votes right and left. Mr. Willet then called upon Mr. Phillips to say a few words on the matter.

Upon rising Mr. Phillips said that from the start of the campaign he had been very careful to stick to facts and figures, and had conducted his part of the proceedings from an engineer's standpoint, and that it was with a good deal of satisfaction that, upon looking back, his statements and figures made three months ago stood good today. This fight for municipal ownership was nothing but a repetition of what had taken place in Ontario towns and cities, where

Wireless telephony enthusiasts to the number of seventy or eighty met in the Commercial Club last evening and organized The Radio Club of New Brunswick. The meeting expressed the general desire that all phases of interest in the subject be represented and, following out this idea so far as possible, the following officers of the new organization were chosen:—Honorary president, Hon. W. E. Foster; president, Charles F. Sanford; vice-president, Jas. M. Robinson; secretary-treasurer, H. V. MacKinnon; committee to complete organization, Alton Noble, W. L. Ellis, John B. Jones, Jr., J. J. Thomson, Mrs. Blanche E. Malin, Leslie Codner, George M. Robertson, F. J. Nisbet, Kenneth White, Albert Daye and Sidney F. Malin.

H. V. MacKinnon, secretary of the Commercial Club, under the auspices of which the meeting was called, announced that within the next ten days an up-to-the-minute receiving set would be installed for demonstration purposes and for study. He said that within a short time a sending equipment of sufficient power to meet all the requirements of this territory also would be set up and that when this was done the simplest apparatus would prove almost entirely satisfactory to the amateur.

they had had to contend with a power company, and the same arguments that had been used in these towns were being used in St. John. Realizing that the supporters of municipal distribution were winning the fight, the opponents had resorted to personal attacks, but he (Phillips) would rather deal with figures than personalities, not through fear of any possible consequences, but because facts and figures were the only things that were of any importance to the citizens of St. John for the forming of their conclusions in this matter.

H. D. Sullivan said that it would be a good plan to have taken the Opera House for the whole of the evening, but as matters had been arranged, nothing more could be done. He pointed out, however, that to go ahead and get through as much business in the time available as possible. He suggested that Mr. McLellan and Mr. Phillips both go fully into the letters circulated by the mayor and friends of the Power company, and show to the citizens how inaccurate and misleading they were. Mr. Sullivan said that, although the fight was practically won, and that the citizens had all made up their minds to secure light and power at the lowest possible cost, every effort should be made to make the majority on Monday as big as possible.

It was decided that the Opera House meeting this (Saturday) evening should be for the purpose of dealing with the statements made by the friends of the Power company and to show to the citizens that the only hope of securing light and power at the lowest possible cost was to have "no truck or trade with the Power company," and thus eliminate private profit. It was pointed out that it would be necessary to support only the candidates for commissionships who were heart and soul in favor of municipal distribution, as Mr. McLellan would require the support of the whole city council if the citizens were to get all the benefits coming to them, and if St. John was to enjoy the success experienced by the many Ontario towns operating and owning their own distribution plants.

(Pa.), where he will speak next week. Immediately after he was elected to the presidency last year Mr. Mackintosh set out to visit all the advertising clubs. He expects to have visited about 220 before the convention, which meets in Milwaukee early in the summer.

St. George's Day and Its Story

"WEAR THE ROSE."

England's Rose. Wear it for her foes to see, Snarling out their traitory; Show her foes How it grows; England's Rose. Men of Wales may wear the leek, Shamrock is not far to seek; But the Rose, Where it grows; England knows. Be it "prime-rose of the Spring, In the woods where thrushes sing— Sweet "prime-rose," Where it grows England knows. England's Rose is "rooted still Deep down in the people's will"— England's Rose, There it grows; England knows. Let her pluck her rose today, Proudly wear it those who may Whose the Rose, When it blows; England knows. Pluck it from her "heart's ripe-red," Wear it—when the least is said— On—who knows? Where it grows; England's Rose. BERTHA PASMORE

be allegorical showing his victory over sin, but there is more ground for believing the legend of his actual defeat with the dragon, which infers a lake near Beorot, and to which it appears the citizens had decided to give their fairest, the lot falling on a princess who was saved from her fate when St. George killed the monster. While St. George's cross—red on a white field—came into prominence during the Crusades, it was used before then in England and when each nation taking part in these wars decided on a cross as its banner, the English chose their own. The English chose their own, the Spanish, the red cross, while the English were victorious under the red cross at Cressy, Poitiers and Agincourt. The Local Society. The objects of St. George's Society, which was founded in 1802, are to foster a spirit of patriotism and nationality, to promote social intercourse among members and to extend aid to Englishmen or Welshmen or their descendants, or their widows or orphans. These are the general objects although they really comprise a broader field and are practically identical with the objects of the Royal Society of St. George, London. The St. George's Society of St. John has always endeavored to live up to these objects, and can point with pride to many acts and celebrations in commemoration of notable events, such as the Queen Victoria (of glorious memory) in Trinity church in Jubilee year 1887; their participation in the diamond jubilee of 1897; subscriptions and donations to funds for men of the St. John contingent during the war in South Africa, and the celebration of the Trafalgar centennial in 1905; also the assistance they rendered in the late war when all celebrations were suspended and they raised and contributed nearly \$7,000 for the Red Cross, hospitals, sailors, refugees and many other worthy causes. The society does not forget its duty of charity and a special charity fund is maintained. This fund was heavily taxed during the year, on account of the unemployment prevailing but all demands have been met. The officers of St. George's Society for this year are: President—James Manning, D. D. S. Vice-presidents—R. G. Schofield, H. W. Rising. Chaplain—Rev. J. V. Young, L. S. T. Treasurer—F. E. Hanington (past president). Secretary—James U. Thomas. Assistant Secretary—Guy L. Short. Historian—Colonel E. T. Sturdee (past president). The society will hold its annual service tomorrow evening at the Mission Church, when Rev. J. V. Young, chaplain, will preach, and on Monday evening the annual dinner will be held at the Union Club.

Tomorrow throughout the length and breadth of the British Empire—and indeed throughout the entire world—Englishmen will join in honoring the feast day of their patron saint—St. George. And at the same time they will pay tribute to the memory of the brave lady who, fighting under the banner of the same patron, just seven years ago stemmed the tide of the onrushing Hun foe at Ypres and turned what looked like certain defeat into glorious and immortal history. Tradition has it that Richard, the Lion-Hearted, scored one of his signal victories during the Crusades through the intervention of St. George and it is a co-incidence that the crushing defeat of the Prussian Guards before the towers of Ypres in 1918 should have taken place on the same day. Also remarkable is the fact that one of the great naval triumphs of the war—the blocking of Zebruge and Ostend—was carried out on the feast day of England's patron saint, and who is there to say that the gallant spirit of St. George did not dominate those hardy British sailors who faced a veritable fusillade of machine-gun bullets, shrapnel and high explosive effectively to hold up the German submarines and thus restrain them from a continuance of their nefarious work. The Story of St. George. St. George was of noble birth. He first saw the light in A. D. 270 at Lydda in the vale of Sharon, noted for its roses and thus this flower became the emblem of England. And so throughout the world today will Englishmen and their descendants wear the red and white roses. He took service under Diocletian, but when that emperor persecuted the Christians St. George openly defied him and suffered death on his birthday, Good Friday, April 23, 303. The reputation which he gained as a martyr soon spread and his name was everywhere held in reverence and many churches were dedicated to him. A cathedral was built over his tomb, and the city of Lydda was renamed St. George, and even to-day he is the patron saint of several eastern nations, while pilgrimages to his tomb and native city were annually made. His connection with the dragon may

READY TO PRODUCE CURRENT BY JUNE 1 Tests of the hydro electric machinery at Musquash will be commenced soon and it has been officially announced that the New Brunswick Electric Power Commission will be in a position to deliver commercial power not later than the end of next month. The work on the line from the sub-station at Manchester's Corner to the end of Douglas avenue which will be used for distributing the power to the city is to be started soon. The line will cross the Manawanish road over the Fairville Plateau and thence across Lanark and the grounds of the cable, to the highway bridge at an elevation sufficient to keep the sag, or bottom of the parabolic curve, at a level lower than the floor of the highway bridge. The span will be about 1,000 feet in length. The contract for this work has been let to the Canadian Bridge Company which will build the foundations for the towers, fabricate and erect the towers and stretch the cables; the latter being furnished by the commission. Work already has been commenced on the fabrication of the towers. The survey of the line to Moncton had been completed and covers a distance of eighty-eight miles. The lots to be crossed have been described in plans which will be filed, reserving the several rights of way which will be required. It is said that it is probable that the Musquash will eventually generate 25,000,000 k. w. h., at least, as tests for rock bottom have been commenced at Sherwood Lake, West Branch, preparatory to the construction of an important storage dam in that area. Preliminary work will be started on the Lepreau also this coming summer.

YOUNG COUPLE SPEND HONEYMOON STARVING Find \$5 Soon Gone in Trying to Live in Big City. New York, April 21.—Martin Stanaway, a tall, dull-eyed chap, and his wife, Regina, each twenty-one, found themselves destitute a week ago in Manhattan and spent their nights sleeping on subway benches and trains, bridge seats and in parks. Patrolman Stocker of the Postal street station, Brooklyn, stood at Myrtle avenue and Bridge street at two o'clock yesterday morning. "Take us to the station house, will you?" asked Stanaway. "This girl is my wife and she's down and out. We haven't a cent and haven't a place to sleep. Can't stand it any longer." The policeman took them to a restaurant, bought a meal for them and then all three went to the police station. They had been married, said Stanaway, for two months, and had been living with his mother, at 388 Grove street, Jersey City. Two weeks ago he quarrelled with his mother about board due for two months, and had been living in New York city with \$5, all they had. It was gone seven days ago. Stanaway said that during the day his wife and he wandered and wandered and rode up and down Manhattan Island. "In all last week," said Stanaway, "I guess we only had two square meals. Monday we had crullers and coffee in the Bowery. I guess the time we ate before that was Saturday. A collection was taken in the Adams street court when the couple pleaded guilty to "vagrancy" before Magistrate Lioia. Final disposal of the case is being held up pending a full investigation of Stanaway's story. He served in the Second Motor Corps during the war and his eyes were injured during a gasoline explosion at Camp Merritt.

RADIO TO HUNT LOST BOY. Description of Missing Lad Was Broadcast. Pittsburgh, April 22.—Twenty-four hours' vigorous search has failed to disclose a clue to the fate of Joe Lewis, four-year-old son of J. W. Lewis of Cannonsburg, who mysteriously vanished while with his mother in Kaufmann's department store. While the crowds of shoppers were surging toward the exits of the store at the closing hour, Mrs. Lewis made a hurried purchase of some ribbons, releasing Joe's hand as she did so. Tarning about after completing the purchase, Mrs. Lewis was startled to discover that the boy was not at her side. The boy's father declares he knows of no enemy who might kidnap the child. A theory which has gained adherents is that some woman, childless and child-hungry, was attracted by the bright face and bearing of the boy in the few moments while the mother's attention was concentrated on the ribbon counter, led him to the street. Descriptions of the boy were sent out by radio and railroad station agents throughout the state were notified.

CIRCULARS WARN PUBLIC AGAINST CONAN DOYLE

He is Deluding Thousands of Honest Truth Seekers—Dupe of Mountebanks.

A "warning against taking Sir Arthur Conan Doyle and his spiritualism propaganda too seriously is being widely circulated, anonymously in New York. The latest received has the final sentence of the 350-word circular underscored, reading: "Is there no one in this country who can check his influence?" The printer's mark—"23M-4-15-22"—shows that some one has paid for printing and presumably distributing 25,000 of the circulars. Its terms and its spirit indicate it may be fastened by some society interested in scientific investigation of such phenomena as Sir Arthur proclaims, which society regards the Doyle spiritist "proofs" as puerile and worthless. "Sir Conan Doyle is an educated and influential gentleman filled with good intentions," the "Warning" reads, "but in spiritualism he is hopelessly deluded. To him the merest drivel is supernatural or miraculous. "Every 'scientific' man presented by Sir Conan as an authority and a believer in his particular brand of spiritualism has been tricked and duped from one to a dozen times by mountebank end charlatans. "Just think of such a man assuming to be a public instructor! He is actually more incompetent than Luther R. Marsh, Hyslop, Carrington or Funk. Nothing is too gross or too grotesque for him, and he accepts allopathic doses of psychic photographs, materializations, etherizations, elongations, levitations, hauntings and all other much exposed juggery, whether they are given with or without rope-tying, handcuffs or wire cages. To him it is all conclusive proof of a future life, and he hastens to sell his 'scientific' utterances to the newspapers, the magazines and lecture audiences. "He is unwittingly deluding thousands of honest seekers for truth and is trying to drag them down to the level of the

To free your skin from blemishes

JUST before retiring, wash in the usual way, with Woodbury's Facial Soap and warm water, finishing with a dash of cold. Then dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy creamlike lather. Cover each blemish with a thick coat of this and leave it on for ten minutes. Then rinse thoroughly, first with clear hot water, then with cold. Begin this treatment tonight. Within a week or ten days you will notice a marked improvement. The Andrew Jergens Company. Made in Canada.

seeing any essential difference between fiction and fact. "Have we no regard for the rising generation? Are we to allow a hopelessly deceived fanatic to begot our youth. Is there no one in this country who can check his influence?"

CONSERVATIVES NOMINATE TWO Charlottetown, P. E. I., April 21.—Although the present Liberal government of the province is not likely to call a general election before another year, the provincial Conservatives are showing a good deal of activity. Today the opposition selected Leonard Wood and J. H. MacDonald, barrister, as candidates for the third district of Queens.

NO matter what you pay for a car, you won't find greater satisfaction than you can get in the Studebaker SPECIAL-SIX. That's why so many people who buy entirely from the standpoint of satisfaction, drive the SPECIAL-SIX. Satisfaction with a SPECIAL-SIX is due to its dependable chassis, its Studebaker-built body, and the completeness of the equipment. This equipment includes an eight-day clock, one-piece, rain-proof windshield with parking lights in lower corners of windshield base, and windshield wiper. It includes cowl ventilator controlled from dash, tonneau light with extension cord, transmission lock which is operated by same key that locks the tool compartment in the left front door-pocket as well as the ignition, and a large rectangular plate glass in the rear curtain. There are many other features that would be considered unusual in cars of much higher price. Let us tell you some other points of SPECIAL-SIX superiority. The mechanical excellence of the SPECIAL-SIX has proved its satisfaction in the hands of thousands of owners. Its 50-horsepower motor provides great resources of smooth flowing power and wonderful flexibility. Its perfected dry-plate disc clutch makes gear-shifting quiet and easy. And yet, the SPECIAL-SIX is not a costly car. At \$2075, f.o.b. Walkerville, Ont., it is a striking value—unapproached by any car of comparable quality.
