### EMPIRE DAY

The celebration of "Empire Day" has come to mean much to youthful patriotism throughout the Empire. The movement was started by a Canadian lady, Mrs. Fessenden, but Lord Meath has done a great deal to give it a wide meaning. Some 10,000,000 children, in various parts of the Empire, take part in the Empire Day concerts, which are held on the day preceding Victoria Day but the larger aim is to make the celebration co-terminous with the bounds of Empire, which embraces 400,000,000 of a population.

The wedding effects of such gatherings are almost instantly seen.

In the bringing of the children together for a common purpose, a new love and interest are awakened, and in the young breast are felt the stirrings of a common destiny.

These grow with the years, and in adult life there is a common aspiration, a common purpose, a common citizenship.

In adult life the thought and habit are fixed, and while the incoming population may have respect for law, it is when the law is plastic that it can be moulded to the desire. Sentiment is stronger than statute, and a song has more binding effect than economic policies.

The miracle of homogeneity has been wrought in the United States, which present an amazing racial homogeneity, and while it would be to much to expect, owing to the separating effects of distance that so intensive a national patriotism could be evoked throughout an empire so far-flung as that of Great Britain, the inauguration of simultaneous gatherings on Empire Day at certain large and commanding points would certainly have wedding and unifying effects.

There is a larger patriotism than that which is concerned with bounds, and the solidarity of the race is more important than national sentiment; but the love of the nation preceding that of the planet. In Canada, we have special reasons for the encouragement of patriotic gatherings, because we are fast becoming cosmopolitan people, separated by long distances, and disposed, especially in the North-West, to segregation. In the North-West there are already over forty tongues that missionaries make appeal for the Bible.

Out of the many, how to induce one type—that is the problem. This has been solved by the common schools in the United States, and it can be similarly solved in the North-West; but it is needful that, considering our vast distances, we should have, upon certain set occasions, celebrations which would emphasize the oneness of all our people, and this, too, at the formative period in the life of our youth.

### EATING THE HORSE

It is announced that in France over 60,000, and in Germany 30,000 horses were butchered for the table last year. Considering the poverty of the German people and the frightful food composed of every part of the pig, which is the chief of their diet, it may be horseflesh is an improvement as far as wholesome taste is concerned; at least the horse feeds on hay and grain, while swine are impartial eaters, swallowing what they can get. Nevertheless while horseflesh has not developed those diseases which cause enlightened consumers to shun beef, it is wondered what effect it will ultimately have on the human race. For as a man eateth, so is he? What will a persistent diet of horse produce in the blood? What new maladies result from this sort of animal food? The vegetarians are, of course, filled with forebodings for those fellow creatures who must be thus nourished at the expense of their posterity, but all the same let them remember we must be filled up, and horses seem destined to supply the needful material for the purpose.—Boston Herald.

### BY THE WAY

Play Golf!

The growing time.

The town plums are now about all distributed.

And only six hundred appropriated!

The auctioneer knocks down almost everything he touches, and yet nobody seems to mind it.

If all the weddings we hear about will materialize, June will be a great month in this town.

Mrs. Nelvet—He who rocks the cradle rules the world; don't forget that, Mr. Newwed—Then you come in and rule the world awhile; I'm tired.

A woman whose husband died recently leaving her \$2000 life insurance, reported the sad news to her eastern relatives thusly: "Jim died this week; loss fully covered by insurance."

How fast stories grow by repeated telling. The truth of that statement is brought to mind by the size of the "big front." Probably if the figures were halved the figures would come nearer the truth.

Do not be too independent. Remember always that he who imagines he can do without the world makes a very great mistake, but that he who imagines that the world cannot do without him is under a much greater deception.

Canada will continue to have her Cobalts, her Gowgandas and her Klondikes, but after all, the Canadian farm will always be the source of Canadian wealth. As a wealth-producer, Saskatchewan will, therefore, occupy a foremost place.—Regina Leader.

"A few years ago," says the Philadelphia Ledger, "this seizure of an American vessel by a Canadian cruiser in the Pacific would have set all our jingoes raving. Now it goes unheeded. The reason is, that we have had so many evidences of British good-will the people have confidence that the affair will be adjusted on its merits."

Rabbits, especially those very young, are the gentlest, most timid of creatures, and the one captured by two young ladies last week was doubtless terribly frightened by the crowd of men and women who laughed at its wild gyrations when exhibited. What because of this tiny victim has not been stated.

Beauty and wealth naturally draw together in this golden age. Once upon a time, when vast fortunes were not so frequent, beauty just married her poor young man for love's sake; today, she need make no such sacrifice, for the rich young man is sure to come along, only too glad to secure beauty at any cost. Beauty no longer goes abegging.

Victoria Day was generally observed as a holiday, most of the stores were closed and the fine weather attracted many to the fishing grounds at the different lakes.

A number of young people returning from the lake Tuesday morning had a narrow escape from a serious accident. The boat going at a great speed ran into a sunken pier, throwing George Franley and Edward McGrattan into the water. Both having overcoats on had some difficulty in reaching the boat again, which had fortunately slid off the pier. The young ladies of the party were almost in a panic, and only the fact that the boat had come off the pier so quickly, prevented what would undoubtedly have been a drowning accident, as this spot is made dangerous by the swift current running at this season.

The "Hustler" Company billed for Coutts hall on 20th inst., stranded in St. John. They had been playing to poor business through the Provinces, and were compelled to abandon their tour when they reached St. John.

Fire in the saw dust pile at the new mill, Monday, looked serious for a time. The mill was shut down and the crew succeeded in stopping the fire from spreading. A high wind was blowing and prompt work prevented what might have been a destructive fire.

During consideration of the supplementary estimates in the House of Commons last week the following discussion took place on an item of \$325,500 for dredging:—

Mr. Jameson—Where will the dredging be done in the maritime provinces? Mr. Pugsley—There will be dredging done at a number of places, amongst others at Past river, near Pictou, Red Islands, Petit de Gras, Cheticamp, Yarmouth, Miramichi Bay, the Restigouche, the mouth of the Gasperaux River, Shediac, the shoals upon the St. John River, the Kennebecus River, St. Andrews, St. George and other places.

Mr. Barnard—What is the total vote for dredging in the maritime provinces? Mr. Pugsley—The main estimate is \$230,000 and in the supplementary estimates \$150,000.

Mr. Barnard—that is exclusive of the appropriation for the harbor of St. John? Mr. Pugsley—Yes.

### LOCAL AND SPECIAL

The rumor is about Red Beach that a syndicate is thinking of purchasing the plaster mills. The old book-keeper Mr. Oliver Jameson has been recalled to go over the books. It is said that they have 30 days to decide whether it is a safe investment and buy.

The outside weirs under contract to the Lubec Sardine Co., have been doing good work the past two weeks and the boatmen of the company are bringing as many fish every day as can be handled by the crew. The L. S. Co. has continued to do business without interruption since the opening of its three shops here and at North Lubec, and has put up a considerable pack of excellent fish.--Lubec Herald.

H. McGrattan & Sons have erected a beautiful monument in the new Catholic cemetery on the lot of Cornelius Sullivan. The monument stands about five feet high, the bases are hammered grey granite, surmounted by a die of black granite, in which is cut a cross. The monument is of a very attractive design and the workmanship reflects much credit on this well known firm who have many orders for local monumental work to be erected this season.

A meeting of the Golf Club was held in Dr. Alexander's office Wednesday evening. The reports of the officers were read and the affairs of the organization were found to be in a flourishing condition. Several applications for membership were received and others have expressed a desire to become members later on. The links at beautiful Mount Vernon, will be kept in the best possible condition during the season, and the great game will undoubtedly be a popular pastime. Officers elected were:

Dr. Alexander--President.  
Edward McGrattan--Secretary.  
Fred Smith, Leo McGrattan, P. Han-ah, Thos. Kent and H. J. McIntyre--Greens Committee.

An order which is intended to bring about more sanitary conditions on passenger trains, and in railway stations, has been issued by the railway commission of Canada. The order prohibits spitting in the station or trains, except in cuspidors, and makes it compulsory for all passenger cars and stations to be thoroughly ventilated and fumigated.

Reports from the employees charged with the care of the stations, and cars are to be submitted monthly to each railway station. The passenger cars must be kept clean and thoroughly ventilated, and in cold weather are to be properly heated. On every passenger train there must be at least one employe whose duty it shall be to keep the cars clean and ventilated.

Spitting in stations or in passenger cars is prohibited. Cuspidors must be provided, and there will be a serious penalty for an infraction of the rule. Notices are to be posted up on all station platforms and passenger cars, warning the traveling public against spitting. The cuspidors must be cleaned at least every 24 hours.

For every breach of these rules a railway company is to be fined \$50 and the employe from \$2 to \$15.

The teachers and pupils of the schools worthily and fittingly celebrated Empire Day on Friday, and the exercises in observance of the country's national honor and greatness were carried out in a manner that made a most favorable impression on all those present.

The new flag was floated for the first time, and was saluted by the pupils who marched to the grounds all singing God save the King.

Horace and Albert Meeting, Norval Stewart and Maimon Chase of Miss Magowan's school sang "The Homeland." The classes returned to their respective rooms and interesting exercises were carried out.

A debate in Mr. Wathan's room afforded much interest to those present, the question being--Resolved: that the Empire is declining and will fall within the next century. The affirmative side was taken by Hermon Spofford, A. Johnson, Vernon and Lancelot Connell.

Negative, Ralph Doyle, Blanche McKay, Horace Stuart and Ray Cauley. The addresses were carefully prepared and well delivered. The judges, Arthur Dewar, Arthur Murray, Laura Dodds, Nellie Mooney and Mary McMillan rendered their decision in favor of the affirmative. In the afternoon the teachers, and a number of citizens assembled in Mr. Wathan's room where a pleasing program of recitations and songs was carried out. The teachers and pupils took part in a discussion on the extent and importance of the Empire.

A very interesting and instructive explanation with illustrations was given in connection with the flag. Rev. E. V. Buchanan and Mr. Jas. O'Brien made pleasing addresses, and warmly congratulated the teachers and pupils on the splendid exercises carried out.

**Rheumatism**  
I have found a tried and tested cure for Rheu-  
matism! Not a remedy that will straighten the  
distorted limbs of chronic cripples, nor turn bony  
growths back to flesh again. That is impossible.  
But I can now surely kill the pains and pang of  
this deplorable disease.  
In Germany—with a Chemist in the City of  
Barmen—I found the last ingredient with  
which Dr. Shoop's Rheumatic Remedy was made  
a perfected, dependable prescription. Without  
that last ingredient, I successfully treated many,  
many cases of Rheumatism; but now, at last, I can  
surely cure all curable cases of this nerve-racking  
disease. These small-like granular  
matter, found in Rheumatic blood, when dissolved  
and passed away under the action of this remedy as  
soon as they enter the system, and the cause of  
Rheumatism is gone forever. There is now no  
real need—no actual excuse to suffer long with  
its help. We sell, and in confidence recommend

**Character by the Hair**  
Hands, feet, eyes, fingers—all have  
been used as delineators of character.  
And now it is the turn of the hair.  
Dull black hair is said to denote a  
jealous disposition and a tendency to  
treachery.  
The lighter color of the hair,  
the more sensitive is the owner to  
criticism, and the more quick to feel  
real or fancied injuries.  
The possessor of brown hair of a  
good deep color and firm texture is  
usually distinguished by good judg-  
ment, good reasoning power and  
plenty of common-sense.  
Women with red hair, though some-  
times too impulsive and outspoken,  
are, as a rule, truthful and honest,  
with fair common-sense. They are  
usually the brightest, sunniest and  
gentlest of mortals.  
A woman with straight and "un-  
yielding" hair, particularly if dark in  
color, has a firm and highly  
principled nature. She is determined  
perhaps even a little obstinate, but  
in the main extremely dependable.

**What Dreams Mean**  
Barn.—To dream you see a barn  
well filled with corn is good. It  
foretells riches and great prosperity  
to the dreamer.  
Clouds.—To dream of white clouds  
signifies prosperity. To dream of  
clouds very high in the heavens de-  
notes that you will travel shortly, or  
that someone that has been absent  
for a long time will return.  
Complexion.—To dream you see  
an unknown person of dark complex-  
ion is a sign of glory and honor and  
success in business.

**All we Like Sheep**  
The mighty trouble has been in  
every age that the world is timid. Al-  
so the world is so imitative, too lack-  
ing in originality and initiative. I  
once saw a flock of sheep, five thou-  
and of them, drift up against a little  
thread of a stream not six inches wide.  
They balked and clotted and bunched  
into a woolly mass, not one would  
jump. I left them sidling along that  
six-inch stream as utterly unable to  
cross as though they had encountered  
the Missouri during a June rise. And  
as I left them, installed at nothing, I  
could not avoid the reflection, "How  
like the way of the world!"—Alfred  
Henry Lewis in Farm and Fireside.

**The Allments of Women**  
The girls and women who suffer with  
what they think as "Female Trouble"  
would look to their kidneys, they'll soon  
find the source of their ill-health. The  
The kidneys are closely allied with the  
female organs, and if the vitality of the  
kidneys is interfered with, great suffer-  
ing occurs. There is no better medicine  
than Dr. Hamilton's Pills,—they  
stimulate and strengthen the kidneys,  
assist other organs to do Nature's work,

perfect health. Great benefit and cer-

## Take Father Morriscy's "No. 10" (Lung Tonic) And Be Sure

that it will cure your cough, cold or lung troubles. It is the very same medicine which the priest-physician himself prescribed so often and so successfully during his lifetime, and thousands are the cases it has cured.

Take it—or give it to the children—with confidence, because it is absolutely free from opium, morphine or any other harmful drug. Many cough medicines are loaded with these dangerous ingredients, but Father Morriscy would not use anything that was not perfectly safe even for a baby.

"No. 10" contains nothing but Nature's own remedies—Herbs, Roots and Balsams—combined as only Father Morriscy knew how to combine them. Keep a bottle in the house as a safeguard against all troubles of throat and lungs. Trial size 25c. per bottle. Regular size 50c.

### LAYING BY FOR AN OBJECT.

After this, for the next three weeks, not many days passed that either old Cyrus or Cindy could not have been found busy about our small house or yard.

I gathered that it had been an unusually dirty winter, from the amount of cleaning that was necessary. Everything, from garden to cellar, was no sooner clean than the operation had to be begun all over again. By May my mind was in a hazy, uncertain state as to whether 't was the little woman who was saving for an 'object' or her dusky helpers.

The affair reached a climax when she refused an Easter bonnet, saying that the old one trimmed would do. I realized then that it had become serious. I was afraid that she was going to be sick, and I tried to remember all the unkind things I had said in the last year.

"William—I'm so glad—they have almost enough," she announced one evening "Cyrus told me so this morning. I'm not sure that its for a home she added. It may be for a missionary, or something like that. They are so devoted to their church, William. But it is something noble and uplifting, I know. They want us both to walk down there tomorrow evening, and they act so very mysteriously that I believe they are going to tell us then, William.

Being a man, I have never had any curiosity; but something nearly approaching that quality possessed me the next evening as we drew near the tiny, dilapidated cabin which was the abode of Cyrus and Cynthia.

The evening was warm and sultry. From inside the small two-roomed house issued the most appalling sounds. It was the voice of a hoarse graphophone, wailing out with persistent energy.

Shall we gather at the river? Where bright angels' feet have trod? In front of the table sat Cyrus, his wizened black face beaming with an ecstasy which was beyond words. Beside him was seated Cynthia, and twined about her neck, adding a finished touch to her costume was a fur boa. Perspiration stood in beads on her brow, but she was quite unconscious of it.

After the greetings were over, Cyrus explained: "Yes, we all done git de objec' dis here mornin', Hit did come by da express cyar. Dat papah say fur seben dollahs an' thirty cents you could git his yere talkin' machine an' dis your fur collah. Cindy always has needed a fur collah, an' hit 'pear like dat dis was her chance. Hit's got six tails enter it, boss. Hit suah is a fine one!"

Cindy flirted the tails with coy unconcern. "Seems like we all got a heap ter be thankful fur. But Gindy an' me wuz jes' tellin' dese chillun dat dey hasn't got no 'casion fur ter git puff 'bouten hit and teck oon airs, because us all been so prospered.

"I isn't gwine fur ter let dis meck no diff'rence in her mannah ob my behavior, boss—dat is, ef I kin help it, I isn't."—New Orleans Times Democrat.

Now I am getting so I can recognize this "off-and-away-on-gauzy-wing style and it does not upset me as it used to at first.

"You got that at the "Take-a-Hand club, I said, and then I kissed her. When she gets into one of these flights I have found this my only safeguard. It seems to break the spell, and lift me, a mere worm of the earth, a little closer to her.

### Don't Cough! It's Dangerous!

"Father Morriscy's No. 10" will stop the Cough and Cure the Cold

Are you one of those who say, "O, it's only a little cold," and let the cough hang on, doing nothing for it?

If you are, just think a minute. It is true that most colds, if left to themselves, will leave you after a while—but they leave you with the delicate lining of throat and lungs weakened—as an easy prey to the next cold. Every cold you neglect makes it easier to catch the next one, and harder to get rid of it, and it doesn't take many such colds to give you Catarrh or some serious lung trouble.

"Father Morriscy's No. 10"—Cough Cure and Lung Tonic—is a preparation of roots, herbs and Balsams that will prevent all this. It promptly clears away the mucus, removes the irritation and inflammation that causes the coughing, and heals and strengthens the delicate membranes. Besides, it tones up the whole system and gives you strength to resist the next attack.

Trial bottle, 25c. Regular size, 50c. At your druggist's, or from Father Morriscy Medicine Co., Ltd., Chatham, N.B.

### Some Great Attractions

(Times)  
The New Brunswick Conservatives will have a parade after the House rises. The order of procession, in part, will be as follows:

1. Premier Hazen, bearing an illuminated motto with the words: I read the affidavit and I appointed the commission. I done my d—st; angels couldn't do no more!"

2. Copy of The Affidavit, on a wagon, drawn by the winners of the Mayes' Prizes for Department.

3. Illuminated portrait of The Author of the aforesaid affidavit.

4. O. S. Crocket, M. P., holding aloft, or thereabouts, a copy of his 24 hour speech, and crying, at short intervals, "Hear, hear!"

5. Dr. J. W. Daniel bearing twin mottoes: "Damn Courtenay Bay, and, I am not the father of the affidavit and I make no insinuation."

6. Report of the Central Railway Commission, nailed to uprights to show the shot holes.

7. Group of Commissioners, reserve force of affidavit makers, and other Proud Conservatives.

8. "Cershum."

### Care of Lamps

A young girl errs once and the doors of human kindness are closed against her. But we reach the betrayer our hands and bid them welcome to our homes; we court and flatter him, and sacrifice our darling daughters to his greed, for it is not a sacrifice of love, purity and everything worthy to wed such a one? Does God ever smile upon such a union? If either be shunned, why not the betrayer of youth and innocence, rather than the one who has been wronged so grievously? We know that lips will curl with scorn, and society will sneer if we reach our hands to the outcast, but God and the angels will be glad, and if a soul be thus saved, what matters it?

### What Matters It?

The care of lamps is an extremely important detail in the mechanism of household. Unless it fulfill its duty of burning clearly and brightly, a lamp is of no use whatever. And it cannot fulfill this duty unless all of its parts are kept free from dust and superfluous oil. If a lamp burns with a disagreeable oily odor, and there is no leak or other obvious defect, its parts need boiling. Take the lamp apart as much as possible, put the pieces in a kettle, cover them with cold water to which a handful of washing soda is added, and bring to a boil. Remove the parts, and after drying thoroughly, adjust them. Very often this treatment is all that a "smelly" lamp requires. All lamps should be boiled in this way but once a month. —Far mand Fireside.

### Proved Beyond Doubt

The disappointed victims of poor Catarrh remedies should read the statement of J. R. Smith, of Lake Stream, N. B. In Catarrhzone he found an absolute cure and says: "Last winter my little girl of eight caught cold which lodged in her ears in the form of Catarrh. She became sick and deaf and nothing helped. By inhaling Catarrhzone she got relief and gradually the discharge went away. She was cured perfectly of Catarrh. Personally I can recommend Catarrhzone for coughs and throat irritations; it's a wonderful medicine. Sold everywhere, 25c. and \$1.00."
