## Candidates of the Liberal Party in Western Ridings

Lieut.-Col. James Munro, V. M., Liberal candidate for the Ontario riding of North

1846. He was educated at the Embro public school, and has since followed the occupations of a farmer and banker, respectively. He was elected to the wardenship of his native county and filled that position with credit. At the time of the Trent affair, he took a first-class certificate at the military school and entered the militia service. Subsequently, during the Fenian raids, he raised a company at Lakeside, which afterwards became absorbed in the Oxford Rifles. The colonel was adjutant of this regiment for some time prior to being raised to field rank. He has commanded the Oxford Rifles with credit to himself and the regiment since February, 1885, and the corps is known as one of the best rural regiments in Canada. In 1897, Col. Munro accompanied the military contingent that represented Canada at the diamond jubilee in London, Eng., in the capacity of paymaster. In 1878 Col. Munro married Miss Agnes Orr Holmes.

Politically, the colonel has been a staunch Liberal all his life. When the death of the late Andrew Pattullo occurred a couple of years ago, Col. Munro was nominated by the Liberals of North Oxford for the ensuing by-elections, and was elected by the handsome majority of 1,060.

several hours to clear them to allow the passengers to land.

There were 341 steerage passengers on the Paritan, comprising Russian, Finnish and Russian Jews, who were bound for Western Ontario, Manitoba and British Columbia.

**Robbed the Till.**

Caledonia, Ont., Jan. 18.—While the office employees of the Caledonia Milling Company were at tea between 6 and 7 o'clock on Monday evening some sneak thief securing an entrance by the back door of the warehouse succeeded in getting into the office and robbing the till of about \$137.

**Calumet Beat Soo.**

Calumet, Mich., Jan. 18.—Calumet defeated Sault Ste. Marie, Ont., in the International Hockey League series, last night by a score of 12 to 2. Despite the one-sided score, the game was one of the finest exhibitions of the great Canadian sport ever seen in the copper country.

**Earthquake in Mexico.**

Mexico City, Jan. 17.—A heavy shock of earthquake was felt early in the morning of the 14th inst. in the city of Jalapa, the capital of the State of Vera Cruz.

The whole of one section of the infantry barracks collapsed, but at the time the building was unoccupied.

## BILLY MACLEAN AND HIS BUGABOO FOR RECIPROCITY

Blair Resignation Under Discussion in House—Estimates Down Today.

Ottawa, Ont., Jan. 17.—The Hon. A. G. Blair's resignation from the railway commission came up for a brief discussion in the House today. Apart from that there was little doing. Hon. Mr. Fisher's measure respecting census and statistics was given its first reading. The House went into committee on Mr. Fisher's seed grain inspection bill, a measure designed to regulate the sale of seed, thus insuring to the farmer the purest and best article.

Referring to Mr. Blair's resignation, the Premier explained the delay in appointing a successor. The position had been offered a member of the commission, but as the latter was engaged at the time in deciding certain election appeals he could not consider the offer until the second week in February. The Government had decided to wait until that time, and hoped it would be accepted, the gentleman in question being eminently fitted for the position.

This brought Mr. MacLean to his feet with the statement that it was not his intention to make any explanation of Mr. Blair's resignation. He declared the Government organs in Montreal and Toronto were manufacturing an explanation, and he hoped that before the close of the session it would be forthcoming.

Sir Wilfrid expressed regret that he could not gratify Mr. MacLean's fastidious curiosity with regard to the manner of Mr. Blair's resignation. "I may say to my honorable friend, and perhaps it is notorious to him, that I was not cognate with his resignation, and I am at a loss to give him any explanation of it," continued Sir Wilfrid. "But since we are in the way of making confessions, I rather expected that my honorable friend himself would be in a position to give us some information, because I have read a great lot of what I supposed to be information in a certain paper with which he is connected. But if he is only speaking from hearsay, that is another thing. If he has any information he can give it to us; for my part, I have none."

This brought Mr. MacLean to his feet a second time, and in a great hurry, with the remark that the friends of the Premier were in possession of considerable information in the matter. He said the names of cabinet ministers had been connected with the matter, serious charges being made.

"I have only to say that I have never heard any charges made against any member, against any minister," Sir Wilfrid replied.

In reply to Mr. Foster Sir Wilfrid said the estimates would be brought down tomorrow.

## THE DAIRY INDUSTRY

Opening of an Important Department at the O. A. C.

Guelph, Jan. 18.—The annual opening exercises in connection with the dairy department of the O. A. C. took place at 2:30 yesterday afternoon in the lecture-room, which was filled.

Prof. Dean opened the meeting, and Mr. P. for North Perth, regretting his absence. He was pleased to hear that the dairy department was so well represented. Mr. P. and Prof. G. L. MacKay, of Ames, Iowa, President Creelman would also speak.

Mr. Derbyshire is president of the Ontario Dairywomen's Association. He showed his interest in the work that he came all the way from Brockville to address the class, and there was some force in his statement. He gave a very pleasant and interesting talk to the students, emphasizing the importance of this line of instruction.

He paid a tribute to the dairy industry of the Province, and the influence that such education had in bettering the condition of the farmer and spreading abroad the knowledge obtained. The good results from the college were twice as much now as ten years ago.

He paid a tribute to Commissioner Mills, the late president, for his yeoman service in building up this magnificent institution. He was proud to see a young Canadian had been appointed to take his place, and from what he knew of him he would fill the position with credit to the Province. He felt proud of the record of the college. Today there was more demand than supply for good men who could take the special lines. They could command their price. The young men should push themselves forward as vigorous men.

He would say with modesty that he could not write legibly, learn to spell, and if they could not spell a word which they were writing was another matter. He would say with modesty that they had some idea of their high calling, and make themselves felt for good. Further, they should never forget that they were Canadians, and lived in the best Province under the sun and among the most highly-educated people.

President Creelman stated that there were billions of dollars in the agricultural industry in this Province, and that they should make the most of it. He said that the men and women who were making the cheese and butter. On leaving the college students should keep up their study. He would say with modesty that he could not write legibly, learn to spell, and if they could not spell a word which they were writing was another matter. He would say with modesty that they had some idea of their high calling, and make themselves felt for good. Further, they should never forget that they were Canadians, and lived in the best Province under the sun and among the most highly-educated people.

Prof. MacKay was pleased with all the departments and the excellence of the work, the manner in which the institution was run, and gave the students a few words of encouragement on the task they were engaged in. Good men were desired. It was only by persistent, hard work and close application that they could carry out such a task. He gave a very interesting account of buttermaking in Denmark, and saw no reason why Canadian butter should not be as marketable as the facilities were as good.

A short musical programme was given, when the meeting closed. Thanks to the speakers, Prof. Dean, Miss Rose and the musicians, and singing God Save the King.

## THE HUB KEEN FOR RECIPROCITY

Boston Chamber of Commerce Regrets No Arrangement Has Been Reached.

Boston, Jan. 17.—The feature of the opening of the annual meeting of the Boston Chamber of Commerce today was the reading of the annual report. The directors' report considered at length a decline which has taken place in the foreign commerce of the port of Boston since 1901. Chief among the causes of the decline was placed the alleged discrimination practiced by the trunk line railroads. In accordance to the ports of Philadelphia, Baltimore and Newport News, lower rates than the rates of the Boston and New York ports and reciprocity with Canada the report said.

So severe was the decline in the volume of grain coming to this port for export during the first half of the year, that the rates for local inspection were increased from 30 cents to 50 cents per car, and for inspection into elevators, from 10 cents to 20 cents per 1,000 bushels. For many years this organization was a strong advocate of more liberal trade relations with Canada and Newfoundland. We regret to say that no definite progress has yet been made so far as the matter of the tariff is concerned. In our last report, however, the settlement of the Alaskan boundary dispute in 1893 removed the chief obstacle to a satisfactory adjustment of this question.

## HUNDREDS BURIED BY EARTHQUAKE

Terrible Disaster Overtakes a Russian Town North of Baku.

London, Jan. 18.—A dispatch from St. Petersburg to a news agency reports that an earthquake at Shekma, 75 miles north-northeast of Baku, buried hundreds of persons in the ruins of buildings in the lower part of the town, which was densely populated, despite the decision after the earthquake of three years ago, that no more houses should be built there.

## PEACEMAKER MURDERED

Winnipeg Negro Believed to Have Been Killed by Galicians.

Winnipeg, Jan. 17.—The north end of the city has again been the scene of a murder. The victim is a colored man named Geo. King. His body was discovered this morning between the tracks in the C. P. R. yard.

From the meager details that can be gathered from the police it is believed that the murder was committed by Galicians in a house near the yard. The body was found with one sword and battered the life out of the man. Then, with fiendish cunning, that suspicion might be diverted from themselves, they rigged up a body and placed it on the track, in the hope that it might be mutilated by the passing cars.

It is clear to the minds of the police that King had been most foully murdered. The police have made several places, and he apparently received a heavy blow, probably from the back of the head, which caused his death.

Mr. Derbyshire gave a very pleasant and interesting talk to the students, emphasizing the importance of this line of instruction. He paid a tribute to the dairy industry of the Province, and the influence that such education had in bettering the condition of the farmer and spreading abroad the knowledge obtained. ## FATAL TO THE CHURCH

Prime of Normandy on Common Idea of Temporal Power.

Paris, Jan. 17.—The Archbishop of Rouen, Prime of Normandy, in a letter addressed to the clergy of his arch-diocese on the intervention of priests in politics, says:

"The interference of the priesthood in political affairs has always been fatal to the church. We have often said this, and we now repeat it—that which has been the cause of death cannot bring back to life. Politics cannot restore the church, and we have caused us to lose. There is only one way in which the priest can improve the political atmosphere, and that is by working with apostolic zeal and by apostolic means for the sanctification of souls. The social effects which transform a people are the ones of the first consequences of the sanctification of souls. Everything else is but sterile agitation which does not go beyond the heart, in which is the root of all disorder and source of all regeneration. In order to weed out this root and to cause this source to draw what we need is rather saintly pastors that political priests."

## KING STREET PRESBYTERIANS

### HAVE THEIR ANNUAL MEETING

1904 Shown to Have Been a Year of Progress for East End Congregation.

The annual congregational meeting of the King Street Presbyterian Church was held in the lecture room of the church last evening. There was a good attendance and great interest was exhibited in the proceedings by one and all. Judging from the atmosphere which prevailed and the nature of the reports of the past year's work, which were submitted, the church is in a healthy condition of steady progress.

Rev. James Rollins, the pastor, was in the chair, and Mr. W. A. Hunter acted as secretary. Messrs. Connor, Brown, Grieve and Rollins spoke briefly upon the financial affairs of the church. It was decided to repeat this year the free-will offering of \$250 on the third Sabbath of March. The following officers were elected for 1905:

Auditor for congregation, Alex. Brown; managers, W. A. Hunter, J. Henderson, W. Ray, J. Sanders, for three-year term; Mr. McElhinney, two-year term; Mr. Barr, for one-year term.

Mr. George Campbell, having moved outside the bounds of the church, resigned from the position of manager and treasurer. Much regret was expressed on all sides for Mr. Campbell's departure, and a vote of thanks was tendered him for past services.

A hearty vote of thanks was tendered to Bro. James Jones and Campbell, both of whom are retiring from the board; also to the pastor for his much-appreciated labors during the year, assuring him of continued loyalty and support.

When the business portion of the evening was over, refreshments were served and all enjoyed a few social moments.

The session's report, which was the first of the kind, was very optimistic in character. This report, which was an introduction to all the others, expressed the satisfaction of the past year's work, and the earnestness of the members. The Lord's Supper, continued the report, had been observed four times during the year, and there had been a substantial increase of membership on each occasion. Praise was bestowed upon the board of managers and other organizations, especially upon the W. F. M. S. and Link Society, for their work in providing for the

rather than that of the defense, which contradicted it. He pointed out that the pollbook of Quinn's own division showed he had voted there at a time when several of his friends had sworn he was with them.

The court, in charging the jury, read the statute dealing with the crime of impersonation. That crime had been committed at the last election was without doubt. The thing was to determine who was the perpetrator. The court then reviewed the evidence for the prosecution and the defense. If the testimony of prisoner's five friends, some of them doubtful characters, could be accepted, an alibi was established. His lordship made a strong statement of the seriousness of the crime of impersonation, and said that no political affiliations should be allowed to interfere with the course of justice.

"The question to ask yourselves," said his lordship, in conclusion, "is this: Am I convinced upon this evidence that the prisoner is guilty? If you are convinced, then there is no room for doubt, but if you are not convinced then a doubt exists and the prisoner ought to get the benefit of it."

When the verdict had been brought in, Mr. Mabee asked that the trial of Quinn on the charge of perjury be postponed until the spring. The court consented, and the prisoner's bail was fixed at \$1,000, half of it being personal and the rest outside bonds. Quinn was then released, after being a prisoner since Nov. 3.

Jury at the Winter Assizes Declares Him Not Guilty—Perjury Case Postponed.

After an absence of about two hours yesterday afternoon, the jury at the winter assizes declared Martin Quinn not guilty of the crime of impersonation, and he stepped from the prisoner's box a free man.

In his address to the jury, Mr. McEvoy dwelt upon the evidence given by Quinn's friends, and an alibi was established. His lordship made a strong statement of the seriousness of the crime of impersonation, and said that no political affiliations should be allowed to interfere with the course of justice.

Both meetings were very largely attended, and great enthusiasm was displayed.

An offer by the same speakers to attend a meeting held by Mr. Stewart, the Opposition candidate, at Wardsville, on Monday evening was declined.

The Liberals throughout the riding are working with great determination, and everything points to the return of Hon. G. W. Ross by a largely-increased majority.
