JOURNAL
OF
THE HOUSE OF ASSEMBLY
OF
PRINCE EDWARD ISLAND.

SECOND SESSION OF THE SIXTEENTH GENERAL ASSEMBLY.

THURSDAY, December 21, 1843.

THE House having, by several Proclamations, been prorogued until this day, then to meet for the dispatch of business:

And being met—

A Message from His Excellency the Lieutenant Governor, by Henry Palmer, Esquire, Usher of the Black Rod.

Mr. Speaker;

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly, Mr. Speaker and the House went up to attend His Excellency in the Council Chamber—and being returned,

Mr. Speaker reported, that when the House did attend His Excellency this day in the Council Chamber, His Excellency was pleased to make a Speech to both Houses of the Legislature, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which was read by the Clerk, and is as followeth:—

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

It is with regret that I call you from your homes earlier than usual; but considerations arising from an error in the Laws relating to Statute Labour and the Small Debt Courts have rendered your meeting advisable.

When, in the last Session, you repealed and suspended all former Laws upon the above mentioned subjects, all appointments under them became vacant; but, as some of the Members of the House of Assembly had held appointments

under these Acts when elected to their seats, and as, in the event of their being reappointed, their possession of them might thereby be unnecessarily affected, you agreed to a clause in each of the new Laws, suspending, as far as regards these Members, the operation of the 7th of William 4, cap. 13, "for vacating the Seats of Members," the only Act affecting them; but by mistake the words "5th of William 4th" were inserted in the clauses referred to—a palpable error, because this last named Act had already been repealed by the other. My intention was, to have named these errors at the usual period of your meeting; but from representations made to me by the Speaker of the House of Assembly, for the opinion of the Law Officers of the Crown, there appears a determination in some parties to use these errors in direct opposition to the manifest intention of the Legislature, for which reason I have deemed it proper at once to bring the question before your notice.

I again bring to your consideration the Laws affecting the Debtor and Creditor of this Colony. It may, possibly, not be judicious wholly to adopt those of England; but a nearer approach to them would, I think, be very beneficial.

The reconsideration of the "Act for ascertaining and establishing the Boundary Lines of Counties and Townships," &c., which is now partially suspended, appears to be highly necessary.

The important subject of the Fisheries is worthy of your deepest attention, with a view to affording all possible encouragement to so valuable a branch of industry. It is most obvious that an extensive and well founded establishment in this department of commercial enterprise would be the means of giving to the Island that Foreign trade, the absence of which is lamented as a cause of the depression in the pursuits of our Agricultural population.

The position of this Colony enables you to commence the Fishing season even earlier than Newfoundland. You have advantages of procuring bait which are not found there. You grow your own produce. Providence has bestowed abundant crops; but they are often sold in the neighbouring Markets at a ruinous loss; and yet, with Fish abounding on your shores, an organized Fishery is wanting.

The true friends of this Island, and its people, are those who, by advice, influence and example, succeed in bringing the occupation of the fisherman as an ally to that of the Farmer.

I have to call your attention to the expiration of the Act for the encouragement of Education in this Island. It is impossible for me too earnestly to implore your gravest deliberation upon this most important measure. Connected with this subject, the present and future welfare of thousands is involved in your decisions. To educate a people, is the first step towards rendering them, in the mass, religious, honest and benevolent. —

Mr. Speaker, and Gentlemen of the House of Assembly;

The Public Accounts will be duly laid before you, and without that delay which heretofore has retarded your examination of them. I have every reason to suppose that the Revenue will at least equal that of last year—a circumstance which, amidst the general depression which has so long prevailed in the trade of almost every part of the Empire, affords a sure and pleasing indication of your growing prosperity. I rely upon your granting the necessary sums for the Public Service.

Mr. President, and Honorable Gentlemen of the Legislative Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

I trust, by your early settlement of the question first mentioned, that you will enable me to relieve you from a long attendance at present. At a future period, I shall avail myself of the opportunity to lay before you such communications as may be deemed necessary to bring under your consideration.

A motion being made, that a Committee be appointed, to revise the Journal each day, after the adjournment;

Mr. *Rae* moved, by way of amendment, that, previous to entering into the customary business of the House, it is necessary to enter on the examination of who have vacated their seats in this House, by having accepted offices of emolument under the Crown; and that with this view the House do resolve itself into a Committee of the whole House on Privileges—which being seconded and put, was carried in the affirmative.

A motion being made, that Mr. *Montgomery* be appointed Chairman of the said Committee;

Mr. *Cooper* moved, in amendment, that the words “Mr. *Montgomery*” be struck out, and “Mr. *Palmer*” substituted.

The House divided on the motion of amendment:

YEAS:

Mr. <i>Cooper</i> ,	Mr. <i>Rae</i> ,
Mr. <i>D. Macdonald</i> ,	Mr. <i>Montgomery</i> ,
Mr. <i>Fraser</i> ,	Mr. <i>Dingwell</i> ,

Mr. <i>A. Maclean</i> ,	Mr. <i>D. Maclean</i> .

Mr. <i>Hudson</i> ,	Mr. <i>Douse</i> ,
Mr. <i>Cambridge</i> ,	Mr. <i>Thornton</i> .
Mr. <i>Coles</i> ,	

So it passed in the negative.

The question being then put on the main motion, it was carried in the affirmative.

Ordered, That Mr. *Cullen*, Clerk of this House, be Clerk of the said Committee.

Then the House resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. *Montgomery* took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Montgomery* reported, that the Committee had come to a Resolution; which Resolution, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

RESOLVED, That it be recommended to the House, to send a message to His Excellency the Lieutenant Governor, requesting that he will be pleased to inform the House if any and what Members of this House have been appointed to any office under the Crown since the 21st January, 1843.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again; which the House agreed to.

Ordered, That Mr. *Rae* and Mr. *Cooper* be a Committee to wait upon His Excellency the Lieutenant Governor with a Message, pursuant to the above reported Resolution.

A motion being made, that a Committee of five Members be appointed, to prepare and report, with all convenient speed, the draught of an Address, in answer to the Speech of His Excellency the Lieutenant Governor, delivered this day to both Houses of the Legislature;

Mr. *Montgomery* moved, by way of amendment, that this House do now adjourn for one hour—which being seconded and put, passed in the negative.

The question being then put on the main motion, it was carried in the affirmative.

Ordered, That the Hon. Mr. Palmer, Mr. Thornton, Mr. Coles, Mr. Beairsto, and Mr. A. Maclean do compose the said Committee.

Then the House adjourned for one hour.

And being met—

The Hon. Mr. Palmer, from the Special Committee appointed to prepare and report the draught of an Address in answer to the Speech of His Excellency the Lieutenant Governor to both Houses at the opening of the present Session, reported the draught of an Address, as prepared by the Committee—and he read the same in his place, and afterwards delivered it in at the Clerk's Table, where it was again read, and is as followeth :—

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island of Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

We, the House of Assembly of Prince Edward Island, in General Assembly convened, respectfully thank your Excellency for your Speech at the opening of the present Session.

In common with your Excellency, we regret the circumstance which has rendered it necessary for calling us together at this early and unusual period; but, feeling as we do the importance of the subject-matter which your Excellency has called to our particular notice, in two certain Acts of the last Session of the Legislature, we fully appreciate the motives which have induced your Excellency to enable us, at the earliest opportunity, to revise those Acts, with a view of correcting any error which may, by any construction, be deemed contrary to the object and intention of the Legislature in framing them.

Upon our referring to those clauses of the Acts relating to the Small Debt Courts and Statute Labour, as particularly designated by your Excellency, it becomes manifest, that in place of the Act now and during last Session in force, vacating the seats of Members accepting office of emolument under the Crown, the House recited the title of an Act of a similar nature previously passed, but repealed by the first above mentioned Act, in consequence of objections to some of its provisions entertained by His late Majesty, as communicated in a Despatch received in the year One thousand eight hundred and thirty-seven, from the Right Honorable Lord Glenelg, then His late Majesty's Secretary of State for

the Colonies. We therefore beg to assure your Excellency, that we will proceed without delay to correct, by enactment, the errors in the Clauses alluded to, in order that what appears so evidently to have been the intentions of the Legislature may be fulfilled.

We will give due consideration to the Laws relative to Debtor and Creditor.

The Act relating to Boundary Lines of Counties and Townships shall receive our reconsideration, in any respect in which its provisions, practically, may be more justly carried out; in which case we trust we shall be enabled to avail ourselves of sources of information hitherto unattainable.

The subject of the Fisheries—one at all times of great importance to the Colony, and second only in magnitude to its Agricultural resources—cannot fail to obtain our earnest consideration, rendered more particularly necessary by the present depressed state of the markets for the produce of our soil.

The deeply interesting subject of Education shall now, as heretofore, receive our devoted attention. Duly impressed with its great importance to the present as well as future well-being of the inhabitants of this Colony, we fully agree in opinion with your Excellency on the moral influence which it has ever been found to exercise on society at large.

We thank your Excellency for promising to lay before us, without delay, the public Accounts. It is gratifying to learn that the Revenue will at least equal that of last year, a sure indication of the growing importance of the trade and resources of the Colony.

Upon an examination of the Public Accounts, we will cheerfully provide for the necessary wants of the Public Service; and we will give due attention to any communications which your Excellency may be pleased to bring under our consideration.

A motion being made, that the said draught Address be now committed to a Committee of the whole House;

Mr. Fraser moved, in amendment, to leave out the word "now," and, at the end of the question, insert the words "to-morrow."

The House divided on the motion of amendment:

YEAS:

Mr. Coles,
Mr. Hudson,
Mr. Wightman.

So it passed in the negative.

The question being then put on the main motion, it was agreed to by the House.

And then the House resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Macgregor took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Macgregor reported, that the Committee had gone through the draught Address reported from the Special Committee, paragraph by paragraph, and had agreed to the same, without making any amendment thereto.

Mr. Rae moved, in amendment to the said Report, that the paragraph relating to the alleged palpable error in the enactment of last Session be struck out, and in place thereof be inserted, "that when the House shall have determined whether any of those elected Representatives have, by the acceptance of office, vacated their seats, they will then proceed to the consideration of the Acts in question."

The House divided on the question :

YEAS :

Mr. Rae,	Mr. Dingwell,

SIR:

Great inconvenience having been experienced in the management of the Central Academy, from the unsatisfactory and insufficient manner in which Books are furnished to the Pupils in that Institution, it came under the consideration of the Governors, at a meeting which took place on Feb. 3d, that by the adoption of a plan now in use in many of the Educational Institutions in England (and which is found in practice to give more efficiency to the School, whilst it is, at the same time, a more economical arrangement for the Scholar,) the inconvenience under which the Institution now suffers might be remedied, and a regular and competent supply of Books, Maps, &c. &c. be at all times assured to the Schools.

The mode proposed to be adopted is expressed in the following Resolution of the Board of Governors, unanimously agreed to at the above meeting, and which I am instructed to transmit to your Honor, and to request you to lay it before the Honorable the House of Assembly, for its consideration:—

“Resolved, That application be made to the Honorable the House of Assembly for a loan of £100 sterling, for the purpose of purchasing books, maps, &c. &c. for the use of the pupils in the Central Academy: That to meet the interest payable upon the Warrant issued for the above, it is proposed to make a moderate and equitable charge each term to the pupils for the use of them—this charge to be paid at the same time, and to be subject to the same regulations, as the tuition money.”

A Message from His Excellency the Lieut. Governor:

Mr. Secretary Haviland, by command of His Excellency, delivered the following

Messsage:

H. V. HUNTLEY, Lieut. Governor.

The Lieutenant Governor lays before the House of Assembly the several Returns of the Commissioners of Statute Labor, for the past year.

Also, the Account of the Road Correspondent, shewing the amount expended during the same period upon Roads, Bridges and Wharves, under the several appropriations of the Legislature.

The Lieutenant Governor avails himself of the same opportunity to submit, for the favourable consideration of the House of Assembly, a Petition of William Douse, Esquire, Agent for the Earl of Selkirk, praying, for the reasons therein mentioned, to be relieved from the payment of the sum of £189 10s., assessed upon Townships Nos. 59, 60, and 62, under the Road Compensation Acts, towards completing the Road leading from Wood Islands to Montague River, and which Road has recently been opened.

The Lieutenant Governor also submits an Account of Messrs. J. R. Bourke and T. B. Tremain, amounting to £48 2s., for superintending the building of the Wharf at Minchin's Point, Lot 48. As the Law allows a percentage to be charged by the Road Commissioners upon sums expended by them upon Roads and Bridges, the claim of Messrs. Bourke and Tremain is entitled to the equitable consideration of the House of Assembly.

The Lieutenant Governor also lays before the House of Assembly, a report of the present insecure state of Poplar Island Bridge, and estimates of the expense of the repairs of the said Bridge. The public Accounts will shew a large and unavoidable expenditure incurred in the temporary repairs of this Bridge during the past year.

The Lieutenant Governor leaves it to the discretion of the House of Assembly to appropriate such sums, for the service of Roads and Bridges for the current year, as the disposable amount of Revenue for that purpose will admit of.

TUESDAY, February 20, 1844.

A PETITION of divers Inhabitants of New London and vicinity, was presented to the House by Mr. D. Maclean, and the same was received and read—praying the House to adopt measures with a view to a change in the Leasehold tenure of Lands in this Island.

The Order of the Day being read, for the House in Committee, to consider the expediency of presenting an Address to His Excellency the Lieut. Governor, praying that he will be pleased to take such measures as may be necessary for putting into operation a Court of Jurisdiction, wherein the inhabitants who have improved the lands of the Colony from its wilderness state, may sue for a settlement, in the proportion of one person for every two hundred acres, agreeably to the conditions of the original Grants, and the Proclamation of 1816;

Ordered, That the above Petition be referred to the said Committee.

And then the House resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Hudson took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Hudson reported, that the Committee had come to a Resolution; which Resolution was again read at the Clerk's Table, and is as followeth:—

RESOLVED, That it is the opinion of this Committee, that the repeated and unqualified refusals of Her Majesty's Government to claim the forfeiture of the original Grants of the lands of this Colony, or at all to interfere between the Landlords and their Tenantry, renders any

further attempt, on the part of this House, to revoke the tenure by which lands are held in this Island by Legislative enactment, unless previously sanctioned by the approval of the Imperial Government, hopeless, and calculated only to mislead the people, by holding out expectations that will prove alike detrimental to the interest of the public and ruinous to individuals. But were this House to disregard the repeated declarations of Her Majesty's Government on this subject, and a Court of Escheat were even now to be established, no benefit would result to the Tenantry, as must be evident from the course which it is declared Her Majesty's Government would pursue with reference to the lands that might be forfeited, as set forth in the Despatch from Lord Goderich, dated the 1st day of August, 1832, which is as follows :

"If any lands were escheated in Prince Edward Island, it is probable that such portions of them as are actually occupied would be continued to the Occupying Tenants at their present rents. There would, however, be no remission of the conditions on which the Lands are now held of the Proprietors, and assuredly there would be no free grants; this mode of dealing with the public property has been abandoned in almost every British Colony."

That the Court prayed for in the said Address—so far as the nature of its proposed jurisdiction can be comprehended—is one not consonant with the principles of British Law, and as such, the request contained in the said Address appears to be quite unworthy of the serious refutation or consideration of a Legislative body; and that this House will direct its best attention to the development of the resources of the Colony, by affording every encouragement to the promotion of its Agriculture and Fisheries, and to the opening of a Market for their productions, as a certain means of restoring contentment to the inhabitants and prosperity to the Island.

Mr. D. Maclean moved, in amendment to the said Resolution, that after the word "Resolved," all be struck out, and the following substituted:—

That were a Law enacted, or an arrangement made, with the sanction of the Imperial Government, to vest the freehold of the soil in the tenant, upon payment of a fair and reasonable price to the proprietor, this Committee is of opinion, that such law or arrangement would present fewer difficulties in the way of a settlement than Escheat, or the Court prayed for in the Address: That such a mode of settlement has for precedent the practice of other British Colonies—would be approved of by this House, and be satisfactory to the country generally.

The House divided on the motion of amendment:

YEAS:

Mr. D. Maclean,	Mr. Coles,
Mr. D. Macdonald,	Mr. Rae,
Mr. Fraser,	Mr. Montgomery,
Mr. A. Maclean,	Mr. Macgregor,
Mr. Dalziel,	Mr. Dingwell.

NAYS:

Hon. J. S. Macdonald,	Mr. Yeo,
Mr. Cooper,	Mr. Longworth,
Mr. Macintosh,	Mr. Thornton,
Mr. Cambridge,	Mr. Wightman,
Mr. Beairsto,	Mr. Hudson,
Hon. Mr. Palmer,	Mr. Douse.
Mr. Aitken,	

So it passed in the negative.

Mr. Cooper then moved, in amendment to the said Resolution, that after the word "Resolved," all be expunged, and the following substituted:—

That the following Address be presented to His Excellency the Lieutenant Governor:

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island of Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency,

That it appears that it has been admitted by the Legislative Council and House of Assembly, in their joint Address to Her Majesty last Session, that the Tenantry are greatly in arrears for rent, which they are unable to pay, and that it is necessary to lay the foundation of a better state of feeling than now exists between the Proprietors and their Tenants; and without which the Colony cannot be expected to prosper. And that Lord Stanley returned for answer, that Her Majesty cannot use mediation with the Proprietors to induce them to accept of produce for rent, in lieu of money. And that it appears on reference to the original Grants, and the Proclamation of 1816, that they were not intended to serve party purposes, to enable the Grantees to oppress the inhabitants who have improved the lands, and that all which is required to render this colony prosperous, and the people contented, is to carry out the intention of the Imperial Government, according to a just and impartial construction of the conditions contained in the original Grants for the Settlement of the inhabitants.

That the original Grants were made upon conditions of the Grantees settling their grants within ten years from the date thereof, with foreign Protestants, in the proportion of one person for every Two hundred Acres, but if the Grantees failed to settle one-third of their respective Grants in the proportion aforesaid within Four years from the date of the Grants, then, and in every such case, it is declared that every such Lot or Township shall become forfeited to the Crown, and the Grants to be void and of none effect. But that the land remaining unsettled for many years, a Proclamation was made, by order of the Imperial Government, that it was the pleasure of His Royal Highness the Prince Regent, that the Proprietors should be released from the obligation of settling their Grants with foreign Protestants, provided that within ten years from December, 1816, the land shall have been settled with other persons in the proportion specified in the original Grants.

That in the colonization of the American Provinces, it has been the invariable practice of the Imperial Government to settle the first inhabitants who were to improve the land from its wilderness state, by a Grant or Deed, in *fee simple*; and as the Grantees were required by the solemn Act of the Imperial Government to settle their Grants in the proportion of one person to every Two hundred Acres, within ten years, or to forfeit the land. The stipulated number of the first inhabitants who improved the land, of this Island, had just and reasonable grounds to expect that they were to be settled in *fee simple*, within the time limited by the Proclamation of 1816.

That as the conditions of the original Grants required the settlement of one person in the proportion of every two hundred Acres, or the forfeiture of the land, the Grantees are answerable for the terms they impose upon the persons who were to be settled; and as the Grantees have imposed a leasehold tenure, subject to a rent which cannot be paid, it is a case of great hardship and partiality to allow the Grantee to enforce the obligation of a lease in the Supreme Court, which he has imposed upon the Tenant, or to sue for rent, or the ejection of persons who have improved the land, while the tenant or occupant is not allowed to plead his right to be settled upon the land, which he has improved, because the acceptance of a Lease or any act of attornment, however it may have been extorted, is held a sufficient ground in law, by the Supreme Court, to bar the Tenant's plea of right to be settled upon the land, according to the conditions of the original Grants, and the Proclamation of 1816.

May it therefore please your Excellency, to take such measures as may be necessary for putting into operation a Court of Jurisdiction, wherein the inhabitants who have improved the lands of the Colony from its wilderness state may sue for a settlement in the proportion of one person for every two hundred acres, agreeably to the conditions of the original Grants, and Proclamation of 1816.

The House divided on the motion of amendment:

YEAS:

Mr. Cooper,	Mr. Dalziel,
Mr. Macgregor,	Mr. D. Macdonald,
Mr. Fraser,	Mr. D. Maclean,
Mr. Dingwell,	Mr. Rae,
Mr. Macintosh,	Mr. Montgomery.

NAYS:

Hon. J. S. Macdonald,	Mr. Longworth,
Mr. Cambridge,	Mr. Hudson,
Mr. Yeo,	Mr. Aitken,
Mr. Coles,	Mr. Beairsto,
Mr. A. Maclean,	Mr. Wightman,
Mr. Thornton,	Mr. Douse.
Hon. Mr. Palmer,	

So it passed in the negative.

Mr. *Montgomery*, then moved, in amendment to the said Resolution, that the second clause thereof be expunged.

The House divided on the motion of amendment:

YEAS :

Mr. <i>Montgomery</i> ,	Mr. <i>Dalziel</i> ,
Mr. <i>Cooper</i> ,	Mr. <i>D. Macdonald</i> ,
Mr. <i>Macgregor</i> ,	Mr. <i>D. Maclean</i> ,
Mr. <i>Fraser</i> ,	Mr. <i>Rae</i> ,

Hon. Mr. <i>Palmer</i> ,	Mr. <i>Hudson</i> ,
Mr. <i>Beairsto</i> ,	Mr. <i>Douse</i> .

So it passed in the negative.

The question being then put on the said Resolution, it was agreed to by the House.

Ordered, That the said Petition do lie on the Table.

A Petition of Hugh Macdonald, of Georgetown, was presented to the House by Mr. Thornton, and the same was received and read, setting forth—That Petitioner is under the impression that the Court of Chancery, as at present constituted in this Island, is not calculated to answer the purposes for which it was originally intended—that of relieving the subject from frauds, breaches of trust, and other oppressions, and to mitigate the severities of the Law, in all cases in which the property of the subject is concerned. In England, the most distinguished professional persons in the Kingdom are appointed Chancellors. The Masters are also men of high professional attainments, and not allowed to plead at the Bar of the said Court, while they act in that capacity. As the Court in Prince Edward Island is not so constituted, Petitioner doubts the authority it exercises to fine, imprison, or order the sale of Real or Personal property, or yet to appoint Masters and Receivers to execute the orders and decrees of the Court, until such time as a Law is passed in the Colony to establish, regulate, conduct and controul the Court, in every respect suitable for the convenience and interest of the inhabitants. Petitioner claims the particular attention of the House of Assembly to the decisions of the Court here, and to the enormous sums demanded of appellants to enter into Recognizance, before they can obtain an appeal. In many cases it amounts to a total denial of an appeal to the High Court of Chancery in England, perhaps the first professional Tribunal in the world; and Petitioner

therefore prays, that the House of Assembly will enquire into the constitutional power and practice of the Court, as it now stands, and pass such enactments as will be in all respects fit and suitable for the Colony, and not repugnant to the Laws of England.

Resolved, That the said Petition be referred to a Committee of three Members, to examine the same, and report thereon, by Bill or otherwise—with power to send for persons, papers and records.

Ordered, That Mr. *Thornton*, Hon. Mr. *Palmer* and Mr. *Hudson* do compose the said Committee.

Resolved, That this House will, to-morrow, resolve itself into a Committee of the whole House, on the consideration of all matters relating to Roads, Bridges and Wharves.

Then the House adjourned until to-morrow, at Ten o'clock.

FRIDAY, February 23, 1844.

MR. D. MACDONALD, from the Committee appointed last Session, to examine and report on the Petition of divers Inhabitants of Lots 44, 45, 46 and 47, praying for a grant towards altering the Highway at the Settlement of Little Harbour, presented to the House the Report of the said Committee; which Report was again read at the Clerk's Table, and is as followeth:—

Your Committee, appointed last Session to inquire into the utility of the intended alteration to be made in the Road at Little Harbour, King's County, beg to report, that they have examined the site of the proposed Road, and are of opinion, that it would be of much benefit, not only to the people of Little Harbour, and adjacent Settlements, but also to all who may have to travel from Souris to East Point, by avoiding three very steep hills on the present Road, some of which are impassable with any thing like a load, and must continue so until some Hundreds of Pounds are expended to raise the Bridges and to cut down the Hills, and will also materially shorten the Road.

The land through which this intended road will pass is, for the most part, cultivated, and some covered with wood; and many of the inhabitants informed your Committee that they would give a right of way, and open the road at their own expense, provided the Legislature would grant a sum sufficient to build the Bridge, which will require to be about 125 yards long, and will cost, according to the opinion of those on the spot, about £130; but should it be deemed advisable to construct a floating Bridge, the expense will be much less.

Your Committee recommend that a portion of the money voted to Roads and Bridges for that District, for the present year, be appropriated towards building this new Bridge, and the remainder to be voted next Session, to enable the Road Commissioner to contract for its erection this season. All which is respectfully submitted.

Ordered, That the said Report be referred to the Committee of the whole House, on the consideration of all matters relating to Roads, Bridges and Wharves.

Ordered, That the Committee to whom was referred the Petition of Neil Morrison, of Grand River, King's County, be discharged; and that the said Petition be withdrawn.

Mr. *Thornton*, from the Committee to whom was referred the Petition of the Proprietors of certain Pasture Lots in the vicinity of Georgetown; and also, the Petition of divers Inhabitants of Georgetown, praying that a Road may be opened to the reserved Lands, presented to the House the Report of the said Committee; and the said Report was again read at the Clerk's Table, and is as followeth:—

Your Committee, to whom was referred the Petition of John Kearney and others, Proprietors of Pasture Lots in the Royalty of Georgetown, complaining of the injury they sustain in consequence of the Main Road through the Royalty of Georgetown running through thir Lands, and also the Petition of Martin Byrne and others, owners of land in the vicinity of Georgetown, called "Reserved Lands," setting forth the inconvenience and loss they labour under, from the line of Road laid off from the Eastern line of the Common to the Lots fronting on Cardigan River not being opened, have to report on the first Petition,—that the Main Road to Georgetown runs through upwards of Twenty Pasture Lots, some of which are so cut up by the Road as to be of little value to the owners, besides the great additional expense they must incur for fencing. That when the Royalty was originally surveyed and divided, lines of Roads were laid off, giving fronts to all the Lots, and running in such directions as to afford a direct line for a Main Road to Georgetown without injury to individuals, but unfortu-

nately this line was not followed, and the present Road was opened.

That with respect to the second Petition, above referred to, it appears a line of Road has been laid off from the Eastern line of the Common of Georgetown to Lots fronting on Cardigan River, which, if opened, would enable several owners of such Lots to have access to them without being liable to prosecutions for trespass, which they now are, as they are obliged to cross the adjoining private properties before they can get to their own.

The gross amount derived from the sales of Crown Lands in Georgetown and Royalty, to the First of January last, is £2,297 15s. 3d., and out of this large sum there has only been £167 11s. 10d. laid out in opening the Royalty Roads, or for any other Public improvement in the Town or neighbourhood. Your Committee find, by the Accounts furnished to the House of Assembly, that the balance on hand, on the sales of Crown Lands, is £2,151 4s., and they beg to remark, that two-thirds of this sum has been derived from the sale of Lands in Georgetown and Royalty, and they feel called on to state, that if a proper representation is made by the House of Assembly to the Imperial Government, they feel assured that a portion of the above moneys would be applied for the opening of the Main Royalty Road to the Town, and other branch Roads throughout the Royalty, a measure in justice due to the inhabitants of the Town and Royalty, who, by their exertions and outlay of Capital, have rendered the neighbouring Crown Lands more valuable.

Ordered, That the said Report be agreed to, and adopted by the House.

Mr. *Wightman*, from the Committee appointed to join a Committee of the Legislative Council, to prepare a Joint Address to His Excellency the Lieut. Governor, praying for the adoption of measures to protect the Fisheries of this Island from encroachments by American vessels, presented to the House the draught of an Address, as prepared by the Joint Committee; which Address, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island of Prince Edward, and the Territories therunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

The Legislative Council and Assembly beg leave to call your Excellency's attention to the answer received in reply to your Excellency's Despatch accompanying the Joint Address of the Legislative Council and Assembly, passed last Session, with reference to the protection of the Fisheries of this Island.

The Legislative Council and Assembly perceiving, by the tenor of the said reply of the Right Hon. Lord Stanley, that the prayer of the said Address, with respect to an armed Steamer being stationed here, cannot be acceded to, the Legislative Council and Assembly therefore humbly request, that your Excellency will be pleased to communicate with the Admiral on the North American Station, and make application, in the terms prescribed by the Despatch of the Right Hon. Lord Stanley, for such assistance as the Admiral may have at his disposal.

The Order of the Day, for the House in Committee on the consideration of all matters relating to Roads, Bridges and Wharves, being read;

Ordered, That the Tenders, Plans and Estimates relative to the proposed Bridge across the Elliot River, be referred to the said Committee.

And then the House resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Longworth took the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported that the Committee had made some progress, and had directed him to move for leave to sit again—which the House agreed to.

Folio 6, line 20—After the word ‘discharge,’ insert ‘after the proceedings herein before pointed out by this Section shall have been complied with.’

Ordered, That the Tenth Rule of this House be suspended, as far as respects the said amendments.

And then the said amendments were read a second and a third time.

Resolved, That the said amendments do pass.

Ordered, That Mr. *Thornton* do carry back the said Bill to the Legislative Council, and acquaint them that this House hath agreed to their amendments.

The amendments made by the Legislative Council to the Bill intituled *An Act relating to the Recovery of Small Debts, and to repeal certain Acts therein mentioned*, were read for the first time, and are as follow:

Folio 7, line 11—After the word ‘discretion,’ insert ‘as aforesaid.’

Folio 8, line 7—After the word ‘refusing,’ insert ‘to attend as aforesaid.’

Folio 13, line 15—After the word ‘principal,’ insert ‘named.’

Folio 15, line 10—Strike out the words ‘produced or sworn,’ and insert the words, ‘as were sworn, or offered to be sworn, or were subpoenaed to give evidence, and from some unavoidable cause were prevented from attending.’

Same folio, last line—Strike out the word ‘adjudicate,’ and insert ‘adjudge.’

Folio 17, line 1—After the word ‘request,’ insert ‘either verbally or.’

Same folio, line 20—After the word ‘place,’ insert the following clause:—

‘And be it enacted, That it shall and may be lawful for the usual Writ of Execution for the recovery of Small Debts issued in one County to run into another County, where the debtor may reside, or where his goods and chattels may be found: and it shall be lawful for the Constable to execute such Execution within such County; and he is hereby authorized to commit the debtor to the Jail of the County in which he may be found (unless the debtor shall elect to be imprisoned in the Jail of the County in which the Execution issues); and the Keeper of the Jail of such County is hereby authorized and required to receive and take the body of such debtor into his custody—anything in this Act contained, to the contrary thereof, notwithstanding.’

Folio 20, line 22—After the word ‘annexed,’ insert ‘marked.’

Schedule (L.), line 1—Strike out the word ‘Subpœna,’ and insert ‘Summons.’

Ordered, That the Tenth Rule of this House be suspended, as far as respects the said amendments.

And then the said amendments were read a second and a third time.

Resolved, That the said amendments do pass.

Ordered, That Mr. *Thornton* do carry back the said Bill to the Legislative Council, and acquaint them that this House hath agreed to their amendments.

Then the House adjourned for one hour.

And being met—

Mr. *Yeo*, from the Joint Committee of the Legislative Council and House of Assembly, appointed for the purpose of taking charge of the Government House and Public Furniture, reported as followeth:—

The Committee of the House of Assembly, appointed in conjunction with the Committee of the Legislative Council, to take charge of the Government House and Furniture, respectfully submit to your Honorable House the copy of a communication received from His Excellency the Lieutenant Governor, relative to the necessity

of provision being made for an adequate supply of fuel for the use of Government House—certain parts thereof being at present subject to the injurious effects of dampness, and other causes dependent upon the climate—which communication the Committee recommends to the consideration of the House.

Secretary's Office, December 7th, 1843.

Gentlemen;

I am desired by the Lieutenant Governor to apprise you, that, as the Legislature makes no allowance for Fuel for the Government House, it is not His Excellency's intention now, or at any future period, to bear the expense of purchasing more than is necessary for the use of such part of the Building as he intends to occupy during the Winter—an expense which His Excellency considers unjustly thrown upon him, and, as he believes, not in accordance with the practice of other Colonies similarly situated. There being many rooms which, consequently, will be unoccupied and without fires, His Excellency is of opinion, that, from dampness and other causes dependent upon the climate, these rooms will fall into a very dilapidated state—a consideration he submits to the judgment of the Joint Committee of the two Houses.

I have the honor to be, Gentlemen,
Your obedient humble servant,
T. H. HAVILAND, Secretary.

The Joint Committee of the
Legislative Council and House
of Assembly, having charge of
Government House and Furni-
ture.

Resolved, That this House do now resolve itself into a Committee of the whole House, on the further consideration of all matters relating to Roads, Bridges and Wharves.

		2. RESOLVED, That it is the opinion of this Committee, that the sum of £3,400 having been appropriated for the general service of Roads, Bridges and Wharves, for the present year, and as great advantage would accrue to the public if the Contracts for the erection and construction of Bridges and Wharves were entered into previous to the breaking up of the winter, as Contractors would be enabled to procure those materials at less expense than during the summer season, they therefore recommend an Address to His Excellency the Lieutenant Governor, on the subject of the Contracts being entered into as above recommended.	

And the said Resolution being again read ;

The Hon. *J. S. Macdonald* moved to amend the Report, by adding the following Resolution thereto :—

3. RESOLVED, That it be recommended to the House, when in Committee of Supply, that the sum of Two hundred and fifty Pounds be granted, and paid the present year, in addition to the amount subscribed by private individuals, towards the erection of a Flying Bridge across the Elliot River, at Mr. M'Ewen's, to ply between solid abutments, to be built on each side, and that the House do, at its next Session, grant a like sum, each grant to be paid respectively as each half of the amount subscribed shall be paid in to the person appointed to receive the same.

The House divided on the motion of amendment :

YEAS :

Hon. <i>J. S. Macdonald,</i>	<i>Mr. Macgregor,</i>
<i>Mr. A. Maclean,</i>	<i>Mr. Aitken,</i>
<i>Hon. Mr. Palmer,</i>	<i>Mr. Yeo.</i>

NAYS :

<i>Mr. Longworth,</i>	<i>Mr. Beairsto,</i>
<i>Mr. Coles,</i>	<i>Mr. Thornton,</i>
<i>Mr. D. Maclean,</i>	<i>Mr. Dalziel,</i>
<i>Mr. Wightman,</i>	<i>Mr. Montgomery,</i>
<i>Mr. Macintosh,</i>	<i>Mr. Rae,</i>
<i>Mr. Cooper,</i>	<i>Mr. Fraser.</i>
<i>Mr. Dingwell,</i>	

So it passed in the negative.

Mr. Fraser then moved to amend the said Report, by deducting the sum of Three Pounds from the amount intended to be appropriated to the Road leading from the Shore to the Back Settlement of Lot 15, and adding the said sum to the amount intended to be applied to the Road leading from St. Joseph's to Higgins's Ferry.

The House divided on the motion of amendment :

YEAS :

<i>Mr. Fraser,</i>	<i>Mr. Cooper,</i>
<i>Mr. Macintosh,</i>	<i>Mr. Dingwell,</i>
<i>Mr. Rae,</i>	<i>Mr. Dalziel.</i>
<i>Hon. J. S. Macdonald,</i>	

NAYS :

<i>Mr. A. Maclean,</i>	<i>Mr. Montgomery,</i>
<i>Mr. Wightman,</i>	<i>Hon. Mr. Palmer,</i>
<i>Mr. Longworth,</i>	<i>Mr. Thornton,</i>
<i>Mr. Coles,</i>	<i>Mr. Yeo,</i>
<i>Mr. D. Maclean,</i>	<i>Mr. Aitken,</i>
<i>Mr. Macgregor,</i>	<i>Mr. Beairsto.</i>

So it passed in the negative.

The question of concurrence being then put on the said Report, it was agreed to by the House.

Mr. Montgomery, from the Committee appointed to examine and report on the Petition of William M'Neill, of Cavendish, late Commissioner of Roads for District No. 4, praying to be relieved from the payment of a Bill of Costs in an Action instituted against him at the suit of the Crown, for having, in his capacity of Commissioner, shut up an old Road, although the Jury returned a verdict in his favor, presented to the House the Report of the said Committee; and the said Report was again read at the Clerk's Table, and is as followeth :—

Your Committee, to whom was referred the Petition of William Macneill, late Commissioner of Roads, have to report—That Mr. Macneill was Commissioner of Roads for the 4th District in 1825, at which period the Road from the settlement of Cavendish to the harbours of New London and Rustico, was a dangerous winding path along the verge of high cliffs, and on the shore of the Gulf below highwater mark. That on examining evidence, it is proved, that the whole of the inhabitants of the above settlement applied to the Commissioner for an alteration in the line of Road; and Mr. Macneill, conceiving himself warranted, on such an application, to alter the line, acceded to the wish of the inhabitants, and opened a new and more eligible line of Road, at the same time closing the old one, with the consent of all parties interested in it; but unfortunately neglected to take such consent in writing. That no complaint against the Commissioner for doing so appears ever to have been made; but in 1842, a Crown prosecution was instituted against Mr. Macneill, (at the instance of one of the applicants to him in 1825,) for closing the old path alluded to, and it appears that the Commissioner, though acquitted of the alleged nuisance by the verdict of a Jury, yet was subjected to the payment of Costs, amounting to £43 16s. 8d. Sterling.

Your Committee have to observe, that previous to the Act of 3 Will. 4, cap. 23, there was no Law to guide the Road Commissioners or others interested in the closing of such Roads as are no longer required.

Your Committee have to remark, that the conduct of Mr. Macneill in closing the old Road, appears to be warranted by similar conduct or practice on the part of several other Commissioners of Roads, who, on a general application from portions of their Districts, considered themselves as fully authorized to close old lines of Road on the opening of new and more eligible ones; and your Committee, considering that Mr. Macneill's conduct in this instance having been for the decided be-

nefit of the public; they consider it a very great hardship that, as a public officer, acting for the advantage of the public generally, he should be liable to pay the costs arising from the prosecution above stated, and therefore recommend his case to the favourable consideration of the House, when in Committee of Supply, that he may be relieved of a part, if not the whole, costs on the action against him.

Ordered, That the said Report be referred to the Committee of Supply.

Mr. *Rae* moved that a Committee be appointed to search the Journals of the Legisla-

tive Council, for a correspondence betwixt the Lieutenant Governor and Lord Stanley, on the subject of the Fees on Mandamuses.

The House divided on the question :

Yeas, 17.

Nays, 3.

So it was carried in the affirmative.

Ordered, That Mr. *Rae* and Mr. *Cooper* do compose the said Committee.

Then the House adjourned until to-morrow, at Ten o'clock.

SATURDAY, February 24, 1844.

MR. *D. MACDONALD*, from the Committee appointed to wait upon His Excellency the Lieutenant Governor, with the Address, praying for information as to what occasioned the Civil and Military expedition to the East Point last Winter, reported the delivery thereof, and that His Excellency was pleased to say, he would attend to the request of the House.

Mr. *Rae*, from the Committee appointed to search the Journals of the Legislative Council, on the subject of Fees on Mandamuses, reported that they had found the following entries:—

(Copy—No. 70.)

Government House, P. E. Island,
Feb. 11, 1843.

My Lord;

I have the honor to lay before your Lordship two letters respectively addressed to me by Mr. Hensley and Mr. Irving, representing that they feel the payment of the fee charged upon the Warrants appointing them to Seats in the Legislative Council to be a hardship, under the present circumstances of this Colony.

This subject has, I am aware, already been before Her Majesty's Government, in the case of Mr. Green, who was appointed in 1839, but who, upon declining payment of the fee, did not take his seat. Upon another occasion, a seat was declined by Mr. Macgowan, now Sheriff of King's County, also on account of that payment being necessary. Of the twelve members forming the Legislative Council, seven of them live at distances varying from five to forty miles from Charlottetown. None of these Gentlemen have residences in the town, nor are they paid for attendance during the Session, as the Members of the Assembly are. It is necessary to select Gentlemen from different parts of the Island for this Council, or a dissatisfaction would be created in accepting seats. I cannot imagine them to be actuated by any feeling beyond serving the Colony.

It is very important here so to construct the Legislative Council, that it shall operate to neutralize, or, at least, to modify, the wild and destructive spirit that of late years has so much prevailed in another direction of the Legislature of this Island, and at the same time to compose that Council of men who, while they are firm in the prosecution of some measures, will not captiously overrule those emanating from a Body from whose policy, upon some great questions, they dissent.

I cannot conceal from your Lordship that the Executive is subjected to much inconvenience, in consequence of this charge upon Warrants, appointing Gentlemen to the Legislative Council, there being a very limited number in the Island qualified by their attainments, and still fewer of those who are who can afford with ease to pay the charge. It therefore has occurred that the Colony has been deprived of the services of some very intelligent men; that I have to fear will be the result in the cases of Mr. Hensley and Mr. Irving. If the fee cannot be remitted, both, I apprehend, will resign, and the Council will lose two decidedly superior members, whose vacancies I shall be at a loss to fill.

I have felt it my duty to detail these circumstances, for your Lordship's information, to which I may also add, that where the gentleman who is appointed to the Legislative Council is engaged in business, and not residing in Charlottetown, he actually suffers a loss from the necessity of employing some person to superintend during his absence.

I have troubled your Lordship at some length upon this subject, because it appears to threaten the necessity of selecting for the Legislative Council men who would be too intimately connected with those forming another branch of the Government, and thus destroy the wholesome balance of power contemplated by the Constitution of the two Houses.

I have, &c.,
H. V. HUNTLEY,
Lt. Governor.

The Right Honorable,
Lord Stanley, &c. &c. &c.

(Copy—No. 67.)

Downing Street, 20th March, 1843.

Sir;

I have to acknowledge the receipt of your Despatch, of the

11th of February, enclosing copies of two letters which have been addressed to you by Mr. Hensley and Mr. Irving, expressing their objections to the payment of the fee required upon their Warrants of appointment to the Legislative Council.

You will inform those Gentlemen that I do not think that there is sufficient ground for remitting, in their favour, the customary fees on appointments to the Council.

I have, &c.,

(Signed) STANLEY.

Lieut. Governor

Sir H. V. Huntley,
&c. &c. &c.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Fraser took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Fraser reported, that the Committee had gone through the Bill, and made several amendments thereto; which amendments were again read at the Clerk's Table, and agreed to by the House.

Ordered, That the said Bill, as amended, be engrossed, and that the Title be *An Act relating to Schools and Education.*

Mr. Thornton, from the Committee to whom was referred the Petition of Hugh Logan, of Georgetown, Jailer, presented to the House the Report of the said Committee; which Report was again read at the Clerk's Table, and is as followeth:—

The Committee appointed to report on the Petition of Hugh Logan, Jailer, in Georgetown, praying to be indemnified for the amount of a Debt which the said Jailer was held liable for, in consequence of the escape of James Hawkins, a prisoner in said Jail, report—That Hugh Logan was appointed Jailer of King's County, in May, 1839, and on inspecting the Jail-yard fence, the same was found to be in an insecure state, which

was reported by him to the Sheriff. The Grand Jury of the County, in March following, presented the state of Jail fence, and also in May, 1841—on which last presentment the Lieut. Governor, Sir Charles A. Fitz Roy, brought the subject, by message, to the notice of the House of Assembly, but the House did not make any provision for the repairs of the yard fence: That on the evening of the 5th June last, James Hawkins, a prisoner for debt, made his escape, by pulling up one of the pickets of the fence, and in consequence of such escape, the Jailer has been obliged to pay the sum of £38 10s., in Halifax currency.

The Committee, from the evidence produced, are inclined to think that the escape was made previous to the usual hours of locking up the prisoners for the night, and, consequently, the Jailer is not blameable on the score of over indulgence or negligence in his duty. The Committee find, that after the escape, personal property belonging to the prisoner was attached, and sold under a Statute Execution, and a portion of the proceeds, Nine Pounds, remains in the Sheriff's hands, as belonging to Hugh Logan. There was also some Real Estate attached, the probable value of which is Ten Pounds, which will not be available before 1845; but both these sums will, most probably, not exceed the costs of suit more than Five Pounds. The Committee have to observe, that this information, as to personal and real property, attached by Hugh Logan, is not contained in his Petition: that James Hawkins is now in Jail, having been arrested by Logan for the escape, on his return to the Island last Fall.

The Committee, under all the circumstances, cannot recommend that, at present, the prayer of the Petition be granted.

And that for sustaining the Report, the Committee divided:

Yeas—Mr. Rae, Mr. Montgomery.

Nay—Mr. Thornton.

A motion being made, that the Report of the Committee be agreed to, and adopted by the House;

The House divided on the question:

READ a third time, as engrossed, the Bill intituled *An Act to alter the Act relating to Statute Labour.*

Ordered, That Mr. *Beairsto* do carry the said Bill to the Legislative Council, and desire their concurrence.

A Petition of the Sheriffs of the different Counties in this Island was presented to the House by Mr. *Thornton*, and the same was received and read; setting forth—that by the Act, 7 Will. 4, cap. 15, it is made imperative on Sheriffs, selling real estate under execution, to make oath, that Lands conveyed by deeds given by them of such lands are regularly “appraised,” in every respect as by Law directed—That the only mode of appraisement set forth by law is to be found in the Statute of the 26th George 3, cap. 9, by which it is directed that the appraisers shall be appointed, “one by the owner, one by the purchaser, and one by the Sheriff”—That such appraisement cannot be effected in strict accordance with said Statute, as the purchaser cannot be ascertained until fourteen days *after* appraisement; and praying for an alteration of the law in that respect.

Ordered, That the said Petition do lie on the Table.

A Petition of divers Merchants, Mechanics, Farmers, and others, was presented to the House by the Hon. Mr. *Palmer*; setting forth, that in the opinion of some intelligent persons, there are certain indications of the existence of Coal formations in various parts of this Island; and praying the House to appropriate a sum of money for the purpose of ascertaining whether such is the case or not.

Ordered, That the said Petition do lie on the Table.

The House accordingly resolved itself into the said Committee.

By referring to the statement of Expenditure and Receipts for the past year, it will be found that the Expenditure has been £21,308 8 10½ (which amount includes £4112 10 0 paid on account of Contracts for the erection of the Colonial Building, £840 10 2½ applied towards the purchase of forty-eight shares in the P. E. Island Steam Navigation Company, and £1039 1 6 paid as Interest on Treasury Warrants), and the Receipts at the Treasury £13,875 19 5½ (including £235 8 4½ received on account of Interest due on Bonds,) thereby exhibiting a Balance against the Colony for that time of £7432 9 5.

It appears by the abstract of the financial state of the Colony, that there are Warrants afloat and bearing interest to the amount of £21,277 13s 4½d. Treasury Notes in circulation, £11,500, and, to go against which, there are Bonds in the Treasurer's and Attorney General's hands to the amount of £8659 19s. 5½d, and Cash and Notes in the Treasury amounting to £4678 12s. 1½d., leaving a balance against the Colony of £7949 1s. 9½d. (£3428 0s. 2½d. of this amount being invested in the Prince Edward Island Steam Navigation Company) over and above the amount of Treasury Notes in circulation.

1. *Resolved*, That your Committee cannot but express their disapprobation of the enormous charges made for the conveyance of the Civil and Military expedition to King's County generally, and are of opinion that the Accounts should have been reduced, as recommended by the Committee of the Executive Council, to whom they were referred.

2. *Resolved*, That the charges for surveying, made by the Surveyor General, being 16s. 8d. per day, is greater than is al-

lowed by Law, and is beyond what was charged, by the Surveyor General, in the years 1837 and 1838, when the Fees of Surveyors, under the Act of 7th William 4th, cap. 11, were established at 12s. 6d per day.

[For Detailed Accounts, see Appendix (K.)]

Mr. Cooper moved, that the following Resolution be added to the Report:—

Resolved, That with regard to the information laid before this House, by his Excellency the Lieutenant Governor, as the grounds for sending the Military and Special Constables into King's County, it does not appear that the Sheriff, John Macgowan, Esq., had been at any time interrupted in the performance of his duty as Sheriff.

The House divided on the question :

The numbers being equal, Mr. Speaker gave his casting vote in the negative.

Mr. D. Macdonald then moved, that the following Resolution be added to the Report :

Resolved, That the sum of £419 5s., charged in the public accounts, to defray the expenses of the civil and military expedition to King's County, is an unnecessary and uncalled for expenditure of the public money, as appears by the result, in the investigation of that subject in the Supreme Court at Georgetown last July.

The House divided on the question :

Mr. Rae then moved, that the following Resolution be added to the Report:—

Resolved, That a detachment of the regular troops having been sent for the purpose of quelling an alleged riot or insurrection in King's County, the expense of this military excursion ought to be defrayed by the Imperial Government, and not by the Treasury of this Island.

Mr. Longworth moved, in amendment to the said motion, that the Report of the Committee be agreed to.

And then the said Petition was read; setting forth—That Petitioner, in the year 1819,

took possession of land on Township Forty-six, and has ever since lived thereon and improved it: That Petitioner, with many more, waited to see if any Proprietor would claim the said land; but finding no claimant, Petitioner, with his neighbours, got a Surveyor, and surveyed to every man his share, on which Petitioner becomes owner of Eighty Acres, for his share: That subsequently, that is to say, from the year 1822 to 1843, rent had been demanded from the Petitioner by six different individuals, none of whom received any; and that Petitioner now lies in Georgetown Jail, at the instance of the Hon. J. H. Peters, for the sum of Seventy Pounds, for rent of the said land: That the said Mr. Peters will not shew any title, or secure your Petitioner from others claiming the land in like manner—and praying the interference of the House in his behalf.

Mr. *Cooper* moved, that the said Petition be referred to a Special Committee, to examine the same, and report thereon—with power to send for persons, papers and records.

The Hon. Mr. *Palmer* moved, in amendment to the question, that the House do Resolve as followeth:—

“That the case set forth in the Petition of Angus M'Dougald presents no peculiar circumstances, calling for the interference of this House; nor can this House entertain the same, without, in effect, establishing a precedent for the House of Assembly's reviewing the Judgments of the Supreme Court of Judicature of this Island, against each individual subject, as he may consider himself aggrieved by such Judgment.”

Mr. *Rae* then moved, in amendment to the said motion of amendment, that after the word “that,” all be expunged, and the following substituted:—“the Petition be referred to the Committee on Crown Lands, to report thereon, as respecting the Grant of Lot 46, and other Lots for which no Grants are on record, and the grounds on which, when such is the case, the title of the claimant of the Township is held good”—and the motion being seconded, and the question put thereon, it was agreed to by the House.

The question being then put on the said motion, as amended, it was agreed to by the House.

Mr. Speaker left the Chair.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had made some progress, and had directed him to move for leave to sit again.

Ordered, That the said Committee have leave to sit again on Saturday next.

An engrossed Bill from the Legislative Council, intituled *An Act to amend and regulate the practice of the Court of Chancery, and to render the proceedings therein less tedious and expensive*, was read for the first time, and ordered to be read a second time on Thursday next.

Ordered, That Mr. Fraser and the Hon. J. S. Macdonald be added to the Special Committee appointed to report generally on the subject of the Crown Lands in this Colony, and other references.

The Hon. Mr. *Palmer*, from the Committee appointed to draw up Reasons, to be offered to the Legislative Council, at a Conference, for disagreeing to their amendments to the Bill intituled *An Act to confirm the Titles to Lands purchased under the several Acts for raising an Assessment on Lands in this Island*, presented to the House the Report of the said Committee; which was again read at the Clerk's Table, and is as followeth:—

“Because, where the owner of any land has made default in the payment of the assessment charged thereon, after four or five different public notices to pay the same, and in consequence thereof Judgment of a Court of Law has regularly passed against such land; but a purchaser has nevertheless taken a deed of some part thereof from the owner who made such default; and the same land may also have been purchased by another person at Sheriff's sale duly made under such judgment; the House of Assembly consider, that if any preference be given by enactment to the Deed of either person purchasing as aforesaid, it should be to the purchaser, under the judicial sale of the Court of Law; and not to the purchaser from the owner of the condemned or forfeited land; which last mentioned purchaser may be supposed to have (unless from his own neglect) a remedy on the covenants in his deed; while no remedy, either at law or in equity, would be open to the purchaser at Sheriff's sale for a return of his purchase money, if his title were not confirmed.

“And because, further, unless the validity and efficacy of Deeds under Sheriff's sales for non-payment of Land Assessment be duly maintained, the prices of land would be so reduced, as to cause large and valuable quantities to be sold before a Judgment and Costs of a very disproportionate amount could be satisfied.

“Because there may be cases where cultivated or settled tracts of land have been sold by the Sheriff, and described by certain bounds at the time of sale; and there are no doubt cases where a purchaser at a Sheriff's sale, not being able to find wilderness land, has afterwards selected default land, which may have been wholly or in part improved. There are also frequently cases where a person, having omitted to pay his land tax on improved land,

has purchased it, or procured it to be purchased in, for his own benefit, and the better security of his title; in all of which cases it would be a hardship for a purchaser, having relied on the sufficiency of the law, to lose his purchase money; while it may be supposed that any of the improved land so sold, if of extraordinary value, would have been redeemed by the owner in due time.

“Because the suspending of the Bill, from its confirming Deeds for the space of Two years from the period of notice published, as proposed by the amendment of the Council, would appear to the House of Assembly to add unnecessarily to the delay and inconvenience which purchasers have already been subject to in obtaining a title to their lands; and, independent of the expense to be incurred by the purchaser in the publication thereof, the notice mentioned in the amendment is that which a person in default of payment of his assessment could not reasonably expect to be entitled to, over and above those formal notices prescribed by law, and given by the Treasurer in the public Newspapers, and by proclamation in the Supreme Court: as well also as the usual Sheriff's notices before he sells the land.

“Because the House of Assembly is of opinion, that where a purchaser of land under the Assessment Act has been obliged to commence an action to obtain possession of it, he should not on that account be excluded from the benefit of the Bill, any more than another who has not used the same diligence.”

Resolved, That the Report be received, and adopted by the House.

Resolved, That a Conference be desired with the Legislative Council, on the subject matter of their amendments to the said Bill; and that upon such Conference, the Managers, on the part of this House, do communicate to the Committee of the Council the above reasons for disagreeing to their amendments.

Ordered, That Mr. *D. Macdonald* do go to the Council, and desire the said Conference.

Ordered, That the Hon. Mr. *Palmer*, Mr. *Thornton*, Mr. *Rae* and Mr. *Montgomery* be a Committee to manage the said Conference.

Then the House adjourned until to-morrow, at Ten o'clock.

THURSDAY, March 14, 1844.

MR. COOPER read in his place a Petition of John Howell, of Charlottetown, praying the House to alter and amend the present practice of the Supreme Court of Prince Edward Island, in so far as the same differs from the Courts of Justice in the British Empire; in conformity with the Act relating to the recovery of Small Debts, passed in the present Session of the Legislature, as laid down in the fifth and fifty-second clauses of the said Act, so that any person applying to the Prothonotary or Clerk of the said Court, and telling the particulars of his case, either verbally or in writing, the Prothonotary may give the applicant (on paying for them) such documents as may be necessary for bringing the delinquent to trial, before the Court and a Jury of the country, without hinderance by demurrer or otherwise—and that either of the parties may be permitted to state their own case to the Court and the Jury, and to examine witnesses, &c.; and that the verdict of the Jury may not be cancelled or set aside, or by any other manner that the House in its wisdom may deem just and right, to afford Petitioner the privilege of getting his grievances redressed by a Jury of the country.

Mr. Cooper then moved, that the Rule limiting the time for the reception of Petitions for local purposes be dispensed with; and that the said Petition be received and read.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

May it please your Majesty;

We your Majesty's faithful subjects, the House of Assembly of Prince Edward Island, again beg to address your Majesty on the subject of a further appropriation of Moneys arising from the proceeds of the sale of Crown Lands in this Colony. Your Majesty, by a Despatch from Lord Stanley, of the 16th June, 1842, to His Excellency Sir Henry Vere Huntley, in reply to the Address of the House of Assembly, was pleased to signify, that from the report of His Excellency of the state of the Crown Land fund, your Majesty's Government was necessarily precluded from complying with the application of the House of Assembly.

We respectfully submit to your Majesty, that the amount on hand, from the Crown Land sales, is £2,408 5s. 4d., leaving the sum of £908 5s. 4d. unappropriated, exclusive of the £1,500 already sanctioned by your Majesty for the erection of a Building as an Asylum for insane persons.

We would also beg to state to your Majesty, that though considerable tracts of Crown Lands have been sold in the Royalties of Princetown and Georgetown—particularly the latter—that but a small portion of the Roads in the neighbourhood of the Lots sold in those Royalties are opened, and consequently the purchasers of those Lands are greatly inconvenienced, and in a great measure debarred from improving their properties.

Another object which the House of Assembly desire to bring to the notice of your Majesty's Government is, the necessity of a Geological Survey of the Colony—an undertaking likely to be attended with important results for the benefit of the Colony; and the House of Assembly, confidently hoping it is your Majesty's wish that the Moneys arising from Crown Lands should be applied for the benefit of your subjects in this Colony, would most earnestly and respectfully appeal to your Majesty's favour, and request, that of such funds the

further sum of £300 be appropriated for the purposes of a building as an Asylum for insane persons, and also the sum of £50 for Princetown, and £150 for Georgetown, for opening the Roads in the Royalties of those towns, and the sum of £200 towards prosecuting a Geological Survey of the Colony.

It was moved, in amendment thereto, that the said Address be committed to a Committee of the whole House to-morrow.

Mr. *Rae*, from the Committee appointed to search the Journals of the Legislative Council, as to the proceedings had on the Bill intituled *An Act to further amend an Act passed in the Fourth year of the Reign of the late King William the Fourth, for ascertaining the Boundaries of the several Townships in this Island*, reported, that they had found the following entry.

The House of Assembly would beg to call to the notice of your Excellency, the necessity of that portion of the new Road from Cardigan River to Mount Stewart, which is in Queen's County, being opened.

An inquisition on the whole line of Road was taken in 1837, and that part of it which is in King's County is opened ; but it appears that a portion of it, for the distance of 50 chains, in Queen's County, is not yet opened, and in consequence the public are much inconvenienced, and the road already made in King's County is not of that service it ought and would be, if the remainder of the line were finished.

Whereas, by a series of Resolutions adopt-

ed by the Legislative Council, and communicated to this House by Message on the 22d inst., the Council have resolved, that the introduction of Lime as a manure would greatly tend to advance the Agricultural interest of this Island, but in many parts thereof, the want of capital prevents the establishment of Lime Kilns—That the grant of One thousand Pounds to persons willing to join in the erection of Kilns, and the burning of Lime, would be most beneficial, and greatly tend to increase the return to the Farmer—and that their Honors will give effect to any measure tending to carry out the object proposed, if adopted by the House of Assembly:

Therefore, Resolved, That this House, concurring in the views entertained by the Legislative Council, is of opinion, that it is expedient that a fund be created for the above purposes, by imposing, in addition to any other assessment or tax now imposed or levied on the same, the sum of One Farthing per acre, lawful money of the currency of this Island, upon all cultivated land contained in the several Townships and Royalties therein, and in the several Islands belonging or adjacent thereto; and the sum of One Halfpenny per acre, of like money, for all uncultivated or wilderness land within the same Townships, Royalties or Islands.

Ordered, That the said Bill, with the amendments, be read the third time to-morrow.

Mr. D. Macdonald moved, that the following Address be presented to His Excellency the Lieutenant Governor.

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander-in-Chief in and over Her Majesty's Island Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral and Ordinary of the same, &c. &c. &c.

May it please your Excellency:

The House of Assembly, during the present Session, passed a Bill for the regulation of the Fishery Reserves contained in the Original Grants of Thirty-two of the Townships of this Island, where the soil of those Reserves is expressly reserved in the Crown; and in conformity to the following Resolution, which has been agreed to by the House by a large majority, viz. "That certain lands in this Colony, originally reserved for the use of the Fisheries in this Island, having been declared by the Attorney and Solicitor General of England to be the property of the Crown, and having been claimed, and in many cases leased and sold by the Proprietors of the Townships on which such are situated, it is right and proper that the Settlers on said lands should be protected by legislative enactment in the quiet possession thereof (without any further rent being exacted by the Proprietors of the Townships on which such Reserves are, but at the same time not interfering with any right the Crown may enjoy to exact rent for such reserves), until the lands be required for the use of the Fisheries."

The House of Assembly have also made such regulations in said Bill as would prevent "improvident and injurious practices in carrying them on," as recommended by the Right Hon. Lord Glenelg, in a Despatch to

Sir Charles A. Fitz Roy, the then Lieut Governor of this Island, of the 10th May, 1838.

This Bill having been rejected by the Legislative Council, a numerous class of persons who are in possession of these reserves may be thereby subjected to exactions or oppressive Law-suits with the Proprietors, claiming rent for the adjoining lands—which exactions and suits have been of frequent occurrence of late years.

May it therefore please Your Excellency, in the absence of a Law for the regulation of those Reserves, to exercise such controul over the lands, where the soil is reserved in the Crown, as may be deemed necessary to protect persons who have cleared and improved them from being disturbed in their possessions, or having to pay rent for the same, as heretofore, until required for the use of the fisheries, and to prevent improvident uses of them by fishermen; and the House of Assembly will at its next Session, again urge this subject on the attention of the Legislative Council.

The Hon. Mr. Palmer moved, in amendment to the question, that the House do resolve as follows:

“That it does not appear to this House to be within the power of His Excellency to provide any Rules or Regulations relating to the Fishery Reserves, or whereby to prevent the Occupants thereof, who have agreed so to do, from paying Rent for the same.”

The House divided on the motion of amendment,

Mr. Thornton, from the Committee appointed to join a Committee of the Council to prepare a Joint Address to His Excellency the Lieutenant Governor, relative to the detention of the English Mails at Halifax, presented the draught of an Address, as prepared by the Joint Committee; and the said Address being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

To His Excellency Sir HENRY VERE HUNTLEY, Knight, Lieutenant Governor and Commander in Chief in and over Her Majesty's Island of Prince Edward, and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

The non-arrival of the March Mail from Great Britain, and which is detained at Halifax, has occasioned great regret amongst the Merchants and other Inhabitants of this Island.

The Legislative Council and Assembly believe that so serious an inconvenience as this circumstance occasions could never have been contemplated; it would be

much felt at any period of the year, but it will be more than ordinarily so at this particular season, because the acknowledgment of the receipt of mercantile orders and Bills of Exchange is so essential to the trade of Charlottetown, and the Island at large.

The Council and Assembly have in consequence thought it their duty to request your Excellency's interposition with Her Majesty's Government, that steps may be taken to prevent the recurrence of such a circumstance.

The Council and Assembly collect from the published Despatches of the Right Hon. the Secretary of State for the Colonies, that your Excellency's request that the separate Bag made up at the General Post Office in London for this Island, might be forwarded by the Courier in charge of the Mails from Great Britain to Canada, was acceded to as far as respects their transmission from Halifax to Pictou during the summer; and we are at a loss to see why this indulgence, so important, as respects your Excellency's Despatches, as well as to the mercantile community, should be withheld during the winter.

Were the Courier for Canada required to take the Mail for this Island from Halifax to Amherst, no injury could arise to the public service of that Province, and the serious inconvenience we now experience would be averted. As this matter now stands, your Excellency, the merchants of Charlottetown, as well as the Public, are precluded from the possibility of replying to any, the most important correspondence that the Mail of the month of March may have brought as far as Halifax, until the departure to Europe of the May steamer; although it is ascertained that the Courier passed through Amherst on the Twenty-third instant, with the Canada Mail from England.

The Council and Assembly are further not aware of a greater necessity for the separate Bag made up for this Island being opened by the Post Office authorities at Halifax, than that of Canada, and we cannot but view such a process as at variance with the intention of the Post Master General, when he consented, at the representation of Sir Charles Augustus Fitz Roy, made through Her Majesty's Colonial Secretary of that period, to order such separate Bag to be made up, and that it proceeds from the supposed necessity of some form by which the Post Office at Halifax derives a pecuniary advantage; and we believe that, until recently, the separate Bag from this Island has not been so opened.

Then the House adjourned until to-morrow, at Ten o'clock.

WEDNESDAY, March 27, 1844.

READ a third time, as engrossed, the Bill intituled *An Act for the encouragement of the Sea and Cod Fisheries.*

An amendment was proposed by Mr. *Beairsto*, to be made to the Bill in the Third Clause, last line, by striking out the words "Six hundred," and inserting "Four hundred and fifty" in lieu thereof; which, being seconded and put, was carried in the affirmative—and the Bill was amended at the Table accordingly.

Resolved, That the Bill do pass.

Ordered, That the Hon. *J. S. Macdonald* do carry the said Bill to the Council, and desire their concurrence.

Mr. *Rae*, from the Committee appointed to report on the subject of the Crown Lands generally, and other references, with power to report from time to time, presented to the House the Second Report of the said Committee.

Ordered, That the said Report be referred to a Committee of the whole House to-morrow.

The Hon. Mr. *Palmer*, from the Committee appointed to join the Committee of the Legislative Council, to prepare an Address to Her Majesty, on the subject of "Differential Duties," presented to the House the draught of an Address, as prepared by the Joint Committee; which draught Address being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

TO THE QUEEN'S MOST EXCELLENT
MAJESTY.

May it please your Majesty;

We, your Majesty's dutiful and loyal subjects, the Members of the Legislative Council and House of Assembly of Prince Edward Island, humbly submit, for your Majesty's gracious consideration, that the consequences of the despatch of your Majesty's principal Secretary of State for the Colonies, prohibiting the enactment of "differential duties" by the Colonial Legislatures in your Majesty's North American Possessions, threaten to be of a character highly detrimental to the interests of your Majesty's subjects in this Island.

Your petitioners have learned with regret, that the Legislature of New Brunswick, finding themselves under the necessity of imposing prohibitory duties on the importation of Agricultural produce from the United States of America, are constrained by the tenor of the

before named despatch, to impose the same duties on inter-colonial trade, which duties amount to a prohibition of the trade on which the principal market for the surplus of the Agricultural productions of this Island has hitherto depended. In consequence thereof, your Majesty's faithful subjects in this Island, who are dependent on Agriculture alone, will be deprived of the principal market for their produce.

Your Majesty's humble petitioners conceive that were the Imperial Government decided to recommend to your Majesty the adoption of a system of trade, to be carried out by the abolition of "differential duties," the existence of any inter-colonial duties amongst your North American Provinces, on articles, the native growth of these Provinces, could not have been contemplated. The existence of such duties is a subject of such vital importance to your petitioners and their fellow subjects in this Island, that they presume to lay at your feet their humble prayer that your Majesty will cause them to be annulled.

Your Majesty's humble petitioners further pray, that the privilege accorded to your Majesty's Canadian subjects of exporting wheat and wheaten flour to Great Britain, at a very low rate of duty, be no longer withheld from your petitioners.

Your Majesty's faithful subjects in this Island have no articles wherewith to trade but the produce of the soil. Without minerals or manufactures, or any fruits spontaneously produced, they are entirely dependent on the labour of their hands. The productive qualities of the soil are capable of any extension, and the produce is only limited by the want of remunerating markets; thus, the operations of agriculture in Prince Edward Island, always an exporting country, have been hitherto limited by the high duties on the importation of its produce into Great Britain.

Your humble petitioners hope to be pardoned for honestly representing that they are not aware of any peculiar claims which the inhabitants of Canada, much less those of the United States, (whose produce, under the present arrangement, finds its way openly down the St. Lawrence to Great Britain,) can have for indulgences which are denied to your Majesty's humble petitioners.

Your Majesty's humble petitioners therefore pray, that your Majesty will cause their case to be taken into consideration by your Majesty's government, in order that the evils which they so justly apprehend may be averted.

That your Majesty may be long blessed with domestic happiness, and your reign be distinguished by public prosperity and peace, is the constant prayer of your Majesty's humble petitioners.

Resolved, That a Committee of five Members be appointed, to examine and report on

the Contingencies of the House, for the present Session.

Ordered, That Mr. Hudson, Mr. Wightman, Mr. Longworth, Hon. J. S. Macdonald and Mr. Coles do compose the said Committee.

Mr. *Cooper* moved that the following Address to Her Majesty be now received and read :—

TO THE QUEEN'S MOST EXCELLENT
MAJESTY.

Most Gracious Sovereign;

We, the Commons of Prince Edward Island, have been informed, by a Despatch of the Right Honorable Lord Stanley, of the 25th May, 1843, ‘ that your Majesty would not be justified in interfering with the arrangements which subsist in Prince Edward Island, with respect to private property,’ and therefore your Majesty must decline mediating between the Landlords and their Tenantry.’

But being assured ‘ that it is your Majesty’s earnest desire to remove every just cause of complaint in all parts of your dominions,’ we are encouraged to approach

your throne, humbly to make known to your Majesty, the distress and unsettled state of the Tenantry and occupants of the lands in this Island, and the causes which have led to their oppression, with full hope and assurance that your Majesty will be graciously pleased to cause the subject matter to be fully inquired into, that a remedy may be found, consistent with justice and the honor of your Majesty's Government, to settle the tenantry and occupants of land, who have by their labor and industry contributed greatly to improve this Colony and support the government.

The lands of this Island were ordered to be granted by the Governor of Nova Scotia in large tracts, subject to an annual quit-rent, and upon conditions of the grantees settling their grants within ten years from the date thereof with foreign Protestants, in the proportion of one person for every two hundred acres; and if the grantees neglected to settle one-third of their grants in said proportion, within four years from the date thereof, then the grants were to be void and the land to become forfeited to the Crown.

But a small portion of the quit-rent was paid, and foreign Protestants required for settlement were not introduced; and the Townships remaining without settlement, became an inducement for British subjects to emigrate to this Colony, to occupy and improve the land. But as the grantees or their assigns claimed the township lands, together with the lands reserved for the fisheries, British emigrants had to attend to pay rent for permission to occupy land; and others who had improved lands, which, to all appearance, had been abandoned by the grantees, and for which there was no claimant at the time of occupying the same, were eventually coerced into attornment, to pay rent to persons who were strangers, or lose their improvements.

The unsettled state of the Colony has been early and repeatedly represented to the Imperial Government, and prospects held out that the forfeited lands would be re-vested in the Crown by Escheat. But in the year 1818, proclamation was made, that it was the pleasure of his Royal Highness the Prince Regent to reduce the quit-rent of the township lands to two shillings per one hundred acres, and to release the proprietors from the obligation of settling their grants with foreign Protestants, provided that within ten years from December, 1813, the lands shall have been settled with other persons, in the proportion specified in the original grants. Some months previous to the proclamation of the above-mentioned indulgence to the proprietors, two of the townships were re-vested in the Crown by Escheat, and the inhabitants, in the occupation of those townships, were settled in fee simple, by grants from the Crown, of 100 acres to a settler, at an expense of about five pounds currency for the grant, while the grantees who held the rest of the townships by the aforesaid indulgence were imposing a leasehold tenure upon persons of the first

class, subject to an annual rent of five pounds sterling and upwards for 100 acres, the rent required being more than the tenant can pay; and the leasehold tenure being subject to a re-entry, the accumulation of arrears of rent is a check to future improvements, as the tenantry are discouraged with threatened distress, and, consequently, are dissatisfied with the terrors of a leasehold tenure.

And we respectfully submit to your Majesty, that the conditions contained in the original grants for the settlement of one person in the proportion of every 200 acres, required the grantees to settle those persons in fee simple, within the time appointed by the aforesaid indulgence, or, in the event of non-settlement, the land was to become forfeited to the Crown:—

Because the conditions of the grants, being the solemn act of the Imperial Government, to secure a settlement to third parties, who were to reclaim the land from its wilderness state, and improve the colony generally, the Crown could not be a party to conditions which would go to deprive such subjects of that interest in their improvements which they are entitled to by the labor and capital they have invested:

Because it has been the invariable practice of the Government, in the settlement of the British Provinces of America, and of two of the townships in this Island, which were escheated, to settle the first inhabitants by a grant in fee simple of 100 acres to a settler, on payment of the fees of office for the grant:

Because the impositions of a rent secured upon the tenants' improvements by a lease, subject to a re-entry, where the rents had to be realized from the sale of agricultural produce and cattle, where there is no regular market to dispose of such articles for money, or a manufacturing population to require the like, is an experiment with so little prospect of success, that it appears to be contrary to the intention of settlement.

The indulgence to the grantees, allowing ten years, from December, 1816, to settle their grants, being an admission that the lands had *then* become forfeited, should have been an inducement for the grantees to grant a fair and equitable settlement to persons who had to reclaim land from a forest, and the settlement of one person, in the proportion of every two hundred acres, allowing one hundred acres in fee simple to a settler, at a price which he might pay within a few years, or at least within ten years from 1816, would leave to the proprietors one half of the land for settling the other half, or 100 acres for the settlement of each person, which land would be increased in value to the proprietor by the settlers improving their own land.

But British subjects, who had been no expense to the proprietor or land-claimant had to attend to pay rent for lands which are forfeited to the Crown—for lands which were reserved for the fisheries, and for the lands of six townships which do not appear to have been granted, as no grants whatever are upon record; and the obli-

gations of the tenant are enforced in the Supreme Court, where the titles and forfeitures of the claimants of rent are not allowed to be questioned. Thus the rent, or the improved lands and buildings of the tenant or occupant, are awarded by the judgment of the Supreme Court, together with costs, to land claimants who have forfeited all title injustice or equity to receive the same.

The Despatch of the Right Honorable Lord Stanley, No. 6, of 14th July, 1842, would lead to the belief, that the duty of your Majesty's Government would be limited to "enforcing a strict observance of the law by the contending parties;" but the law in this Colony, with regard to the performance of conditions, is operative against the tenantry only.

We therefore pray, that your Majesty will be graciously pleased to take the foregoing representations into consideration, and, with the opinion of the law officers of the Crown, as to the meaning of the term *settle* or *settler*, which appears in the conditions of the original grants of this Island, take such measures as your Majesty may deem just and reasonable, with regard to the forfeiture of the land and settlement of the inhabitants, to do justice in the premises, according to the merits of the case. But as it has frequently happened that the Governors of this Island, or interested parties, have misrepresented the statements of the House of Assembly, in behalf of their oppressed constituents, we pray that your Majesty will be graciously pleased to commission one or more competent and disinterested persons, to inquire into the unsettled state of the Tenantry; and also into the proceedings of the courts of law in this Island, as the long continued oppression of the people by the Grantees and their Agents—some of whom are Officers of the Colonial Government—has given cause to believe, that the Colonial Government and Courts of Law are entirely unfit impartially to perform a public duty of that nature.

The House divided on the question :

Mr. A. Maclean reported, that the Committee had gone through the draught Address reported from the Special Committee, paragraph by paragraph, had amended, and then adopted the same ; and the said draught Address, as amended, being again read at the Clerk's Table, was agreed to by the House, and is as followeth :

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

May it please your Majesty ;

The House of Assembly of Prince Edward Island having had laid before them a memorial presented to the Most Honorable the Privy Council by the Honorable Samuel Cunard, with other Documents relative thereto, are obliged respectfully to solicit Your Majesty, that the whole matter be again taken into consideration ; and with this view submit the following details :

That for the last nineteen years the Legislature have been in the habit of granting, in aid of Roads, Bridges and Wharves, annually, a sum varying from Two Thousand to Five Thousand Pounds ; and the Moneys thus granted were the produce of Taxes on articles consumed by the Inhabitants ; and as every new Road opened through the Wilderness, every Bridge and Wharf erected, tended to increase the value of the Township on which such were made, and the facilities for leasing such Land, it seemed most reasonable that those who claimed the right to the whole soil should contribute to those Public Works which were so essential to the mass, and which tended to benefit these claimants more than any other individuals ; and accordingly the House of Assembly, in the year 1830, passed a Bill, with the view of obliging Proprietors to bear a proportion of the public burdens of Roads, and were only called upon for the payment of such proportion of the first cost of Roads as a Jury might find they were entitled to pay. The procedure prescribed secured the utmost publicity that the Government Newspaper could give against the verdict of the Jury as inequitable ; and against any, the least, irregularity in the procedure, right of appeal was reserved.

In regard to Mr. Cunard's complaint of not being apprised of the Assessment to which the Lands were subject, the House of Assembly have to submit, that in general such plea requires no answer, as the individual advancing it thereby merely proves negligence on the part

of himself or of his Attorney. They feel themselves, however, in this particular case, obliged to remark, that such a complaint from any individual in the least acquainted with business would appear singular; and when emanating from an individual so conversant with all ordinary transactions in the Colony, and addressed as a grave argument, worthy of consideration by the highest authority in a matter strictly judicial, is altogether so extraordinary as to induce them to shew that this alleged ignorance could scarcely have existed, and that, in this case, there was no hardship. The Inquisition was held in November, 1838, after the line of Road had been surveyed by the Government; the Report of its exploration submitted to the House of Assembly, and there discussed for one or two Sessions previous to the said Inquisition, and after eight consecutive advertisements in the Royal Gazette. Mr. Cunard did not purchase till March, 1839; and as the burden, though not payable till the Road should be completed, was imposed previous to his purchase, if any concealment had been practised by the Vender, he might have recourse on him, but cannot complain of the public insisting for payment.

Further, they submit, that the year in which the Inquisitions were held, the Attorney General of this Colony, who prepared the Writs, was acting as Agent for Mr. Cunard, and that the agency was resigned by that gentleman to Mr. Peters—Mr. Cunard's Son-in-law—which Mr. Peters, nine weeks prior to the Inquisition, had been appointed Solicitor General.

That from 1833, to the date of the Inquisition, Mr. Cunard's connection with the Island was close and uninterrupted, both in respect to mercantile and legal matters, and the procedure of the Legislature. In proof of Mr. Cunard's knowledge of the mode of procedure in the Island, and of his opinion as to the Road Assessment, the House of Assembly crave leave to refer to Mr. Cunard's examination before a Committee of the House of Commons, 24th May, 1841, particularly Answers to Queries 3048, 3072, 3073, 3074, 3080, 3081, 3082, 3083, 3084, and 3194. [For said examination, see printed paper, herewith enclosed.]

The House of Assembly further submit, that the Inquisition was unchallenged when Mr. Cunard bought, and therefore formed a public and just burden on the Land; that it was unchallenged when Mr. Cunard sold, and therefore then continued a public and just burden on the Land; and if the person from whom he bought, or the person to whom he sold, or Mr. Cunard himself, considered they were not to pay it, it is as much as to say, that they, in 1838, or in May, 1839, or in March, 1842, knew that the Judge in January, 1843, would quash a procedure which, up to that last year, had in no shape been laid before him.

Lastly, the House of Assembly respectfully submit—that no other course of procedure has been sought to be adopted with respect to the lands in question, by the

Act now under consideration, than by the 6th Victoria, Cap. 22, has been made law in regard to all lands which in future may be placed in the same circumstances; that Mr. Cunard ought to have been aware, and should be held to have been aware, of the burden when he purchased. He must be held to have been aware of the move in the Legislature, within one month after the proceedings were quashed, to take measures for preventing the just claim of the public from being for ever set aside by either the negligence of the Attorney General, or the misconstruction of law by the Judge, or by any error or influence which Mr. Cunard might feel inclined to turn to his own advantage.

They further submit, that if the Act under consideration were sanctioned, and if, on a new Inquisition, the Assessment shall be, in the opinion of the holder of the Lands, unjust, then he is not precluded from trying the matter before the Court here, and getting the verdict set aside on account of its being excessive, or on account of any irregularity in the procedure; and this he may do as often as he proves irregularity or excess, and the expense falls on the public; or if, on a mere irregularity, he may, as he did before, allow the matter to lie over until the money be demanded, and then, on proof of any, the least, irregularity, get the whole procedure quashed, and subject the public to that, and the expense of a Writ *de novo*. In short, it is submitted, that an individual determined to avail himself of all the means of evading the claim, or protracting the time, and with funds at command to effect his purpose, has, by the Acts in question, (even if rendered more effectual by that now under consideration,) only too many means of accomplishing such purposes; and the only resource left to the public was, that by the Act in question, the Proprietor alluded to would be precluded from forever barring the just demand of the public for compensation, for a Road, planned with judgment, executed with fidelity, and which has increased the value of the property in question to far greater amount than the compensation claimed.

May it therefore please your Majesty to permit the Legislature of this Colony to pass an Act, similar in its provisions to the one formerly transmitted, with a view of reimbursing the Government in the amount expended in making the roads aforesaid, in accordance with the Laws now in force.

Ordered, That the said Address be engrossed.

Ordered, That Mr. Speaker do wait upon His Excellency the Lieutenant Governor with the said Address, and request that His Excellency will be pleased to transmit the same to the Secretary of State for the Colonies, for the purpose of being laid at the foot of the Throne.

Resolved, That a further conference be desired with the Council, on the Bill intituled *An Act to render less expensive and more secure the course of procedure under the Act for levying an Assessment on all Lands in this Island.*

Ordered, That Mr. Coles do go to the Council, and desire the said conference.

Ordered, That the same Committee who managed the former conference, be a Committee to manage this further conference.

A Message from the Council, by Mr. Desbrisay :

Mr. Speaker left the Chair.

Mr. Hudson took the Chair of the Committee.

Mr. Longworth moved, that the House do Resolve as followeth:

Whereas the sum of Thirty Pounds, granted by this House in the Session of 1842, to be applied towards the purchase of a site for a Fire Engine House in Charlottetown, has not yet been expended, inasmuch as no suitable ground can, as yet, be obtained for such purpose: And whereas a new House for the said Engines has been built by the Inhabitants of the said Town, for which a balance near about the sum of Thirty Pounds is yet due and unpaid: *Resolved*, therefore, that

His Excellency the Lieutenant Governor be respectfully requested to authorize the payment of the said vote of Thirty Pounds, towards the payment of the said balance; and this House, at its next Session, will provide for the same.

The House divided on the question:

YEAS, 7.

NAYS, 7.

The numbers being equal, Mr. Speaker gave his casting vote in the affirmative.

A Message from the Council, by Mr. Desbrisay:

Mr. Speaker;

The Legislative Council desire a Free Conference with the House of Assembly, on the subject matter of the last Conference; and have appointed the same Committee who managed the last Conference, a Committee to manage this Free Conference, to meet in the Committee Room instanter.

And then he withdrew.

Resolved, That this House do agree to a Free Conference, as is desired by the Council, on the subject matter of the last Conference.

Ordered, That Mr. Coles do go to the Council, and acquaint them therewith.

Ordered, That the same Committee who managed the last Conference, be a Committee to manage this Free Conference.

And the names of the Managers being called over, they went to the Conference.

And being returned—

Mr. Coles reported, that the Managers had been at the Conference; and he stated the substance thereof to the House.

The Hon. Mr. Palmer moved, that the House do come to a Resolution, as followeth:

Whereas it appears necessary that certain alterations and additions in and to the Colonial Building, now in progress of erection in Charlottetown, are required to render the said Building sufficiently commodious for the purposes for which the same is intended:

Resolved, *Therefore*, That it is expedient to authorize the Commissioners for the said Building to carry into effect such alterations and additions, agreeably to the Plan and Specifications laid before this House in the present Session, as prepared by Mr. Isaac Smith, or

such of them as the said Commissioners, with the approbation of His Excellency the Lieutenant Governor in Council, may deem necessary; and that this House will provide for the same out of the unappropriated Moneys now raised by virtue of the Act passed in the Seventh year of the Reign of His late Majesty King William the Fourth intituled *An Act for levying an Assessment on all Lands in this Island*.

Mr. Rae moved, as an amendment to the question, that the House do Resolve as followeth:

“That at this period, within one hour of the time appointed for the prorogation of the Legislature, it is not in the power of the House of Assembly to form a matured opinion on the propriety or necessity of the proposed additions or alterations on the plan of the Colonial Building, and involving a heavy expenditure, if carried into effect, and no notice on the Order Book; and is inconsistent, inasmuch as on every vote, of even the smallest amount of money, every Member has, by the same being repeatedly submitted to the House, an opportunity of fairly testing the opinion of every other Member in the House.”

The Hon. Mr. Palmer moved, that the said motion of amendment be withdrawn by Mr. Rae, as being irregular.

The House divided on the question:

YEAS:

Hon. Mr. Palmer,	Mr. Hudson,
Mr. Longworth,	Mr. Cambridge,
Mr. Coles,	Hon. J. S. Macdonald,
Mr. A. Maclean,	Mr. Douse.

NAYS:

Mr. Rae,	Mr. D. Maclean,
Mr. Macgregor,	Mr. Macintosh,
Mr. Fraser,	Mr. Dingwell,
Mr. D. Macdonald,	Mr. Montgomery.
Mr. Cooper,	

So it passed in the negative.

The question being then put on the said motion of amendment,

The House again divided:

YEAS:

Mr. Rae,	Mr. Dingwell,
Mr. Fraser,	Mr. Montgomery,
Mr. Cooper,	Mr. D. Maclean,
Mr. D. Macdonald,	Mr. Macintosh.

NAYS:

Hon. Mr. Palmer,	Mr. Douse,
Mr. Cambridge,	Hon. J. S. Macdonald,
Mr. Hudson,	Mr. Coles,
Mr. A. Maclean,	Mr. Longworth.
Mr. Macgregor,	

So it passed in the negative.

The question being then put on the main motion, it was carried in the affirmative, and Resolved accordingly.

Mr. Rae, from the Committee appointed to wait upon His Excellency the Lieutenant Governor, with the Address on the subject of certain ungranted Townships in this Island, together with a Copy of the Second Report of the Committee appointed to report on the subject of Crown Lands, and other references, reported to the House, that their Address had been presented to His Excellency, and that he was pleased to say, the subject should receive his best consideration.

Ordered, That the Copy of the Warrant Book laid before this House on the 13th February last, be printed as an Appendix to the Journals of the present Session.

[See Appendix (P).]

Ordered, That the several papers containing such information as induced the Government of this Colony to send a Civil and Military Force to King's County, last spring, laid before this House on the 2d instant, be printed as an Appendix to the Journals of this Session.

[See Appendix (Q).]

A Message from His Excellency the Lieutenant Governor, by Henry Palmer, Esquire, Usher of the Black Rod:

Mr. Speaker;

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly Mr. Speaker, with the House, went up to attend His Excellency, when His Excellency was pleased, in Her Majesty's name, to assent to the several Bills following, viz:

An Act to regulate the manner of proceeding upon controverted Elections of Members to serve in the General Assembly.

An Act concerning Bail in Civil Cases.

An Act to alter three several Acts relating to the Prince Edward Island Steam Boat Company.

An Act for the better preventing Accidents by Fire within Charlottetown.

An Act to consolidate and extend the provisions of the Laws now in force relating to the Fire Engine Companies of Charlottetown.

An Act relating to Treasury Warrants.

An Act to incorporate a Marine Insurance Company.

An Act to alter and amend an Act passed in the Seventh year of the Reign of His late Majesty King William the Fourth, intituled "An Act for the appointment of Harbour and Ballast Masters, and for more effectually preventing the throwing of Ballast into Harbours and navigable Rivers."

An Act to establish an additional Term of the Supreme Court, and to extend the Hilary and Trinity Terms for Queen's County.

An Act to prevent the going at large, within the Town of Charlottetown, of Horses, Bulls, Cows, and other Neat Cattle.

The Title of the following Bill was then read :

An Act to naturalize John Broderus Edinger Tybring;

Which His Excellency was pleased to say he would reserve for Her Majesty's consideration.

After which, Mr. Speaker spake as followeth :—

May it please your Excellency ;

The House of Assembly have given their serious consideration to the many important measures brought under their notice by your Excellency's Speech at the opening of the Session ; and I have the satisfaction to acquaint your Excellency, that Bills for the encouragement of Education, of Agriculture, and of the Fisheries, which it is hoped are calculated to give an additional impetus to our trade and enterprise, have been so far matured as only to require your Excellency's assent to become law.

The Legislative Council and House of Assembly have failed to agree on any plan for settling the Fishery Reserve question ; and the House of Assembly, believing that a speedy and final determination of this difficult and important measure would greatly conduce to the interest of this Colony, trust that your Excellency will call the particular attention of Her Majesty's Government to this subject, so as to enable the Legislature, at its next Session, to found an enactment thereon.

The House of Assembly having cheerfully voted to Her Majesty such Supplies for the Public Service as the pecuniary resources at their disposal would warrant, and from such sources as would be least burthensome and oppressive to the inhabitants of this Island, whom they represent, have sincerely to regret, that their liberal intentions towards Her Most Gracious Majesty should have been rendered, in part, ineffectual, by the Legislative Council's having intercepted an aid granted on all spirituous liquors distilled or manufactured in this Colony. The means of preventing a similar occurrence may not prove unworthy of your Excellency's consideration.

I have now the honour to present, in the name, and on behalf of Her Majesty's faithful and loyal Commons of this Island, several Bills of aid, which have been granted to Her Majesty during the present Session, and pray your Excellency's assent thereto :

An Act to provide Salaries for Sub-Collectors of Customs at the several Out Ports therein mentioned.

An Act to establish a reward for the destruction of Bears and Loupcerviers.

An Act to alter the Act authorizing the erection of an Asylum for Insane persons.

An Act for raising a fund for the encouragement of Agriculture, to be expended in the erection of Lime Kilns, and the burning of Lime.

An Act for the regulation of the Public Wharf at Georgetown, and other Wharves.

An Act for the encouragement of the Seal and Cod Fisheries.

*An Act relating to Schools and Education—
An Act to alter the Act relating to Statute Labour.*

An Act for imposing Duties for raising a Revenue.

An Act for appropriating certain Moneys therein mentioned, for the service of the year of our Lord One thousand eight hundred and forty-four.

To each of which His Excellency was pleased, in the Queen's name, to give his assent.

And then His Excellency was pleased to make the following Speech to both Houses :

Mr. President, and Honorable Gentlemen of the Legislative Council ;

Mr. Speaker, and Gentlemen of the House of Assembly ;

Although circumstances obliged me to call the Legislature together at a much earlier period than usual, yet, by your ready adoption of a wise and just course, I was enabled, in a few days after, to relieve you from further attendance, by adjournment, until the season usually set apart for the transaction of Legislative business had arrived ; since which time, I trust that your zealous exertions have completed many measures calculated, under Providence, to enhance the prosperity of the Colony : and I hope that in returning to your homes you will carry with you the approbation of our august and excellent Sovereign, as well as the gratitude of the people for whom you legislate.

Mr. Speaker, and Gentlemen of the House of Assembly ;

I offer you my acknowledgments for the supplies which you have voted for the exigencies of Her Majesty's Government in this Colony. They will be applied with care and fidelity. To an important diminution in the outlay, you have united an expenditure apparently calculated to advance the interests of the community.

Mr. President, and Honorable Gentlemen of the Legislative Council ;

Mr. Speaker, and Gentlemen of the House of Assembly ;

Be assured that I shall employ the interval of time which will elapse before I shall again meet you, in earnestly endeavouring to carry out the objects you have deemed it expedient to encourage, and otherwise to forward whatever may seem advantageous to the prosperity of this Island, in which pursuit I am confident of receiving your zealous support, far as we may be separated.

After which the Honorable the President of the Legislative Council said—

Gentlemen ;

It is the will and pleasure of His Excellency the Lieutenant Governor, that this General Assembly be prorogued until Tuesday, the Second day of July ; and this General Assembly is accordingly prorogued until Tuesday, the Second day of July next.

End of the Second Session.

Downing Street, 25th May, 1843.

Sir;

I have the honor to acknowledge the receipt of your Despatch, No. 84, transmitting a Joint Address to the Queen, from the Legislative Council and Assembly of Prince Edward Island, representing the difficulties experienced by the Tenantry from the nature of their engagements with their Landlords, and praying Her Majesty to induce the Proprietors to remit, to a certain extent, the arrears of rent due to them, and to accept payment of their rents in kind, instead of money.

Having laid this Address before the Queen, I have received Her Majesty's commands to instruct you to acquaint the Legislative Council and Assembly, in answer to their Address, that Her Majesty would not be justified in interfering with the arrangements which subsist in Prince Edward Island in respect to private property; and that Her Majesty must decline to take the proposed course of mediating on the subject between the Landlords and their Tenantry.

I have, &c.,

Sir Henry V. Huntley.

Downing Street, 31st May, 1843.

Sir;

I have received your Despatch, No. 80, of the 17th ultimo, forwarding a Joint Address to the Queen, from the Legislative Council and Assembly of Prince Edward Island, praying Her Majesty to cause an armed Steam Vessel to be stationed off the Island every season, to protect the local Fisheries from the encroachments of the Americans.

I have to instruct you, in answer, to acquaint the Houses, that I have had the honor to lay their Address before the Queen, and that Her Majesty was graciously pleased to command me to refer it to the Lords Commissioners of the Admiralty, for their consideration, whether the means at their Lordships' disposal would enable them to comply with this application, without neglecting other and yet more urgent demands on Her Majesty's Naval Forces.

b

Having accordingly communicated with the Board of Admiralty on the subject, their Lordships have informed me, that the present reduced Peace Establishment of the Navy will not allow of the appropriation of a Steam Vessel of War (the most expensive description of Vessel of War), for the service of Prince Edward Island and its Fisheries.

Their Lordships have further informed me, that the protection of the Fisheries generally from American or other encroachments in the Gulph of St. Lawrence, and other parts of the North American Station, is one of the duties principally pressed upon the Naval Commander in Chief in those seas in his instructions; and that if you would communicate with the Admiral at Halifax, he would, no doubt, in conformity with his instructions, afford to Prince Edward Island, and its Fisheries, such protection as the force at his disposal, and the other equally important demands for the presence of Ships of War, may admit.

I have, &c.,

Sir;

I have to acknowledge the receipt of your Despatch, No. 82, of the 17th April, forwarding an Address to the Queen, from the House of Assembly of Prince Edward Island, praying the permission of Her Majesty to enact a Law rendering it compulsory on the Owners of landed Property in that Island to register their Titles to Land in an Office of Record.

Although the Queen cannot enter into any pledge as to the confirmation of an Act which is neither passed into a Law, nor drawn out into the form of a Bill, yet, if the Council and Assembly should send, for your assent, any well-considered Bill; having for its object the establishment of a Registry of all Deeds hereafter to be made for the alienation of Lands in Prince Edward Island, or otherwise affecting any such Lands, Her Majesty does not object to your assenting, on Her Majesty's behalf, to any such Bill.

Sir,

I have to acknowledge the receipt of your Despatch of the 17th April, No. 81, in which you transmit an Address to the Queen, from the House of Assembly of Prince Edward Island, and also a Report from that House upon the management of the Post Office in the Colony.

I have submitted this Address to the Queen, and have received Her Majesty's commands to instruct you to inform the House of Assembly, in answer, that as the important changes which have been lately made in the Post Office arrangements of Prince Edward Island, and generally in British North America, were not known to them when they prepared their Address, and as it is desirable that no further alterations should be made until the effect of the late measures shall have been ascertained, Her Majesty's Government will not, at present, enter upon the consideration of the topics to which their attention is more particularly called in these papers. They will however, hereafter, be ready to consider any further amendments in the Post Office arrangements of Prince Edward Island which may appear to be requisite and practicable, with reference to the state of the Revenue; but sufficient time must be allowed to test the effect of the recent alterations.

(Copy—No. 89.)

Downing Street, 4th December, 1843.

Sir; I have received your Despatch, No. 110, of the 24th October, reporting upon the Memorial which Mr. Samuel Cunard had addressed to me, praying that Her Majesty's assent might not be given to an Act passed by the Legislature of Prince Edward Island (No. 611), to authorize the issue, *de novo*, of certain Writs under the Road Compensation Acts, in certain cases.

I referred these Acts to Her Majesty's Attorney and Solicitor General, and they have reported to me that, taking into consideration all the circumstances stated in the Memorial of Mr. Cunard, and the Letter of the Attorney General of the Island, and more especially the litigation which has taken place between the Government and the Proprietors of the Lands in question respecting the validity of the charge sought to be imposed upon them, they are of opinion that it would not be advisable for Her Majesty to give her sanction to an Act of the Legislature for the express purpose of making these particular Lands liable to the charge.

Under these circumstances, therefore, I cannot advise Her Majesty to confirm the Act in question.

The Act, No. 610, in further amendment of the Act of 10 Geo. 4, relating to the Highways, will receive the Royal confirmation on the next opportunity.

I have, &c.

Extract from Report of the Lords of the Committee of Privy Council for Trade, dated the 28th November, 1843, recommending the disallowance of Prince Edward Island Act, No. 612.

“ Because the effect of this Act would be, to vacate the Seats of all the Members of the House of Assembly who have been appointed Commissioners of the Small Debt Courts, because there is reason to believe that such was not intended by the local Legislature to be the effect of this Act, and because such a result would be prejudicial to the public interests of the Colony.”

Downing Street, 29th December, 1842.

Sir;

With reference to that part of my Despatch of the 14th of July last, No. 27, in which I informed you that it would not be in my power to submit to the Queen any advice as to the answer which it might be proper for Her Majesty to return to the Address of the Assembly of Prince Edward Island, on the subject of the Fishery Reserves, until I should be in possession of the Report of Her Majesty's Attorney and Solicitor General, on the question of Legal right involved in that Address, I have now the honor to transmit, for your information, a copy of the case submitted to them, and of the opinion which they have delivered, on the imperfect information supplied to them.

I have to instruct you to furnish me with an authentic copy of the usual Deed of Grant, in order that the questions in debate may be presented more fully, for the consideration of the Law Officers of the Crown.

I have, &c.

STANLEY.

Lieut. Governor

Sir H. V. Huntley.

Questions upon the Subject of the Fishery Reserves of Prince Edward Island.

FIRST.

The Fishery Reserves are described in some of the Original Grants, issued under the Order in Council of 1767, in the following Terms:—"Saving and reserving a free liberty to all His Majesty's subjects of carrying on a free fishery or fisheries on any part or parts of the coasts of the said Townships, and of erecting stages and other necessary buildings for the said fishery or fisheries within the distance of 500 feet from highwater mark."

In other original Grants, the Reserves are described as follows:—"Saving and reserving, for the disposal of His Majesty, his heirs and successors, 500 feet from highwater mark, on the coasts of the tracts of land

thereby granted, to erect stages or other necessary buildings for carrying on the Fishery."

In these two cases in whom is the fee simple of the land so reserved?

SECOND:

What is meant by the term Coast?

THIRD:

Does the term "Coast" limit the reservation to Townships that abut upon the Sea Coast, or does it extend to Townships that abut within Head-lands, Bays, Harbors or Rivers; and if it does extend to Townships abutting within such Head-lands, Bays, Harbors or Rivers, how far within the same does it extend?

FOURTH:

Several small Islands are situate at a short distance from the Coast of Prince Edward Island, the grants of which reserve a liberty to all His Majesty's subjects of carrying on a free fishery or fisheries on any part or parts of the Coasts of said Islands, and of erecting stages and other necessary buildings for the said fishery or fisheries, within the distance of 500 feet from highwater mark: does the said Reserve extend round the whole of these Islands?

FIFTH:

There are also several small Islands situate at the entrance of Bays or Harbours of Prince Edward Island; the Grants of which contain a like reservation: In cases where these Islands assist to form the Bays or Harbors, and parts are inside and parts without said Bays or Harbors, does the above mentioned Reserve extend round the whole of said Islands, or does it only extend to those portions of said Islands which from the outside of such Bays or Harbours?

SIXTH:

Several small Islands are altogether within the Bays or Harbors of Prince Edward Island, the Grants of which contain a like Reservation: does the said reserve extend round the whole of these Islands?

Temple, Dec. 22d, 1842.

Sir;

We have the honor to acknowledge the receipt of your letter of the 3d Sept. last, wherein you state, that doubts having arisen in Prince Edward Island, as to the right of the Public to the use and occupation of certain Lands in that Island, denominated "Fishery Reserves," the Commissioners of Colonial Lands and Emigration have, by direction of Lord Stanley, prepared a Statement on the subject, to be submitted for the decision of Her Majesty's legal Advisers.

A copy of that statement, you were pleased to enclose, and you requested we would take the subject into our consideration, and report to Lord Stanley our opinion on the questions proposed in the accompanying paper.

In obedience to Lord Stanley's commands, we have read the statement referred to, and have fully considered the matters therein stated, and beg leave humbly to report, for his Lordship's information—

1st.—That we cannot form any clear opinion on the points submitted to us without seeing the particular Grant on which a question may arise, and without a full description of the locality and boundaries of the premises comprised in that Grant; but as far as we can collect from the statement before us, in the first case put, (in which there is stated to be a reservation in the Grant of a free liberty to Her Majesty's subjects,) it appears to us, that the fee simple of the Land is in the Grantees. The Land itself is not reserved or excepted. In the second case, the effect to be given to the supposed Reservation must depend on the context, and the other parts of the deed; *the words* are sufficient to except the soil itself; but those words may be controverted, if there is an intention apparent from the whole of the Deed that an easement only to enter for the purpose of the Fishery should be reserved to the Crown.

2d & 3d.—The word Coasts has no clearly defined legal meaning; and its meaning, in any particular Grant, may depend on the other parts of the Deed, and the description and local situation of the premises. We should conceive, however, that generally it would be taken to apply to those places in which the Sea ebbs and flows, and that it would extend, therefore, to those portions of the Bays, Harbours, and Rivers, in which there was an ebb and flow of the Sea.

4, 5, & 6.—If the Grants be of the whole of the Islands, the Reservation would appear to apply to the whole extent of the Coast round the Islands that were granted, and in the grant of which this Reservation occurs.

We are, &c.,

Downing Street, 8th April, 1843.

Sir;

I have received your Despatch, No. 72, of the 17th February, enclosing, for the consideration of the Law

Officers of the Crown, in reference to the question which has been raised in Prince Edward Island relative to the "Fishery Reserves," Copies of the two descriptions of Grants which were issued to the original Proprietors of land in the Colony.

The case having been again submitted to the Attorney and Solicitor General, with a request that they would state whether they perceived in the terms of those Grants any ground for modifying the opinion delivered by them in December last, I enclose herewith, for your information and guidance, a copy of the Supplementary Report which has been received from those officers on the subject.

Temple, 1st April, 1843.

Sir;

We beg to acknowledge the receipt of your Letter, of the 29th ult., wherein you were pleased to observe, that with reference to that part of our Report of the 22d December last, in which we stated that we could not form any clear opinion on the points submitted to us in Mr. Stephen's Letter of the 3d September, respecting the Fishery Reserves in Prince Edward Island, without seeing the particular Grant on which a question might arise, and without a full description of the locality and boundaries of the premises comprised in that Grant, you had been directed by Lord Stanley to transmit to us, the copy of a Despatch from the Lieutenant Governor of the Colony, enclosing authentic transcripts of the two descriptions of Grants which were issued to the original Proprietors of Land there; and that you had also been directed to add, for the convenience of reference, a copy of our Report of the 22d December, together with a copy of the case originally submitted to us on the subject; and you were pleased to request, that we would take these papers into consideration, and report to Lord Stanley whether we perceive in the additional information now supplied any ground for modifying the opinion which we submitted to His Lordship in December last.

In humble obedience to Lord Stanley's commands, signified as above, we have read the additional Papers referred to us, and upon full consideration, beg leave to report, for His Lordship's information, that as it appears that in Lord William Campbell's Grant, 500 feet from Highwater mark on the Coast are saved and reserved "for the disposal of His Majesty, to erect stages and other necessary Buildings," we think that the *soil* is reserved; but in the other Grant the reservation is of "a liberty to all Her Majesty's subjects to carry on a free fishery within the distance of 500 feet from Highwater mark," which, in our opinion, does not reserve the soil. We see no ground for any other modification of our opinion.

Post Office, Charlottetown, Feb. 13th, 1844.

Sir;

I beg to transmit to you a copy of correspondence between this Office and the Head of the Department at Halifax, on the subject of the Inland Mails of this Island, which, at the request of His Excellency the Lieutenant Governor, you have been pleased to desire me to furnish, for the information of the House of Assembly.

I am, Sir,

Your most obedient humble servant,
THOMAS OWEN.

The Honorable

T. H. Haviland, &c. &c. &c.

General Post Office,
Halifax, 9th May, 1843.

Sir;

I have to acknowledge the receipt of your Letter of the 27th ult., containing copy of a Report of a Committee of the House of Assembly respecting the Post Office, and of a Letter addressed by you to His Excellency the Lieutenant Governor, on the subject.

So far as a change in the route of the Mail Couriers is concerned, if the alteration can be effected without destroying any Contract at present subsisting, you are at liberty to comply with such suggestions as you consider are calculated to improve the accommodation; but as I have received instructions not to incur any increased expense, nor to set up any new Posts without the Post Master General's authority, you must respectfully acquaint His Excellency that you cannot at present take any steps, as regards those recommendations of the Committee which have for their object the establishment of new Way-offices, in an increased communication with those already established, where such increased communication would be attended with additional expense.

I am, Sir,

Your most obdt. Servt.,

H. M. WATSON,

Acting Deputy P. M. G.

The Postmaster, P. E. Island.

Charlottetown, P. E. Island,

7th July, 1843.

Sir;

I was directed by His Excellency the Lieutenant Governor, some time ago, to advertise that I would receive Tenders from persons willing to convey the Inland Mails agreeably to a Report and recommendation of the House of Assembly, for the purpose of ascertaining if any improvement could be made, without adding to the cost for their transmission—which Tenders I laid before His Excellency in Council, and I was subsequently directed by His Excellency to report to him my opinion respecting the Tenders I had submitted. I now take the liberty to forward to you a copy of that communication, and the reply I received on the subject. His Excellency is desirous to comply so far with the suggestions of the Assembly as to cause a courier to be employed on the south side of the Island, to convey the Mails to Bedeque, by Tryon River, instead of those Mails going by the North side to Princetown and St. Eleanor's, and returning the other way. This alteration would be a very great improvement, and notwithstanding it will add a small sum yearly to the expense, yet the facilities it will afford, and the increased intercourse it will tend to create, by allowing the return Mails to come in the same week, will more than compensate for the additional expense, and for which the Legislature has made provision. May I therefore ask your permission to be allowed to comply with the desire of His Excellency, as stated in his accompanying communication.

I am, Sir,

Your most obdt. humble Servt.,

THOMAS OWEN.

Arthur Woodgate, Esq.,

Deputy Post Master General.

Secretary's Office, July 3d, 1843.

Sir;

Your report of the 7th ult., upon the several Tenders called for, with the view of ascertaining if increased facilities could be afforded in the present mode of trans-

mitting the Inland Mails, has been brought under the consideration of the Lieutenant Governor and the Executive Council, and I am instructed to inform you, that His Excellency and the Board concur with you on the propriety of limiting any immediate attention in transmitting the Inland Mails to that under which the Mails to the Westward is conducted, and you are desired to accept the Tender of Paul Mabey, junr., for conveying the Mail to Bedque by the Tryon River route, and to employ him weekly for that purpose, and to direct the present contractor, Thomas Crabb, to proceed as usual to St. Eleanor's, and return to Charlottetown by the same road, viz.: Princetown, New London, &c., and that you carry this arrangement into effect as soon as convenience will permit.

I have the honor to be,

Your obdt. Servant,

(Signed) T. H. HAVILAND.

Thomas Owen, Esq., Postmaster.

General Post Office,

Halifax, July 13, 1843.

Sir;

I have to acknowledge the receipt of your Letter of the 7th inst., with copy of a communication you had addressed to the Provincial Secretary of the Island (with copy of his reply), respecting the Tenders for the conveyance of the Inland Mails which were advertised for, agreeably to the directions of the Lieutenant Governor, and requesting permission to be allowed to comply with His Excellency's request, as stated in his communication; and in reply, I beg to acquaint you, that as you have represented the alteration to be advantageous, and which will tend to facilitate the intercourse of the Island, by allowing the return Mails to come in the same week, and as the Legislature has made *provision* for the expense, I can see no objections to the proposed alteration, and therefore request your compliance with His Excellency's directions.

I am, Sir,

Your obedient Servant,

A. WOODGATE.

The Postmaster, Prince Edward Island.

(Copy—No. 85.)

Downing Street, 3d October, 1843.

Sir;

I herewith transmit to you the copy of a Memorial which has been addressed to me by Mr. Samuel Cunard, of Halifax, praying, for the reasons therein stated, that the Act recently passed by the Legislature of Prince Edward Island (Numbered 611, in the records of this Office), intituled "An Act to authorize the issue, *de novo*, of certain Writs under the Road Compensation Acts, in certain cases," may be disallowed.

I have to request that you will report to me your opinion on this Memorial, and, in the meantime, Her Majesty's decision on the Act will be suspended.

I have, &c.

(Signed)

STANLEY.

Lieutenant Governor

Sir H. V. Huntley,

Prince Edward Island.

To the Right Honorable Lord STANLEY, Her Majesty's Principal Secretary of State for the Colonies, &c. &c. &c.

The Humble Memorial of Samuel Cunard, of Halifax, Nova Scotia, respectfully sheweth—

FIRST :

That in the year 1829, your Memorialist became the Purchaser of Townships Numbers 3, 4, 5 and 6, in Prince Edward Island. That previously to his purchasing the same, certain proceedings had been taken for the purpose of assessing certain parts of the said Townships, for an intended Road laid off by order of the Governor and Council of the said Island, under the Act of 10 Geo. 4, Cap. 10. That the Road for which the alleged Assessment was imposed was completed in the year 1842.

SECOND :

That at the time your Memorialist purchased the said Townships, he had no notice of any such Assessment having been made. That in the Winter of 1842, your Memorialist was called upon for payment of the said Assessment, amounting in the whole, to about the sum of One thousand Pounds.

THIRD :

That your Memorialist, feeling himself aggrieved, and being advised that the Inquisitions and proceedings under which the said Money was claimed were wholly void, from defects and insufficiencies appearing on their face, caused a letter to be written by his Solicitor to the Colonial Secretary, making an offer of a compromise; which your Memorialist did, not because he conceived he ought to pay anything, but with the desire of shewing that he had no wish to take captious objections, or go into a Law-suit with the Government of the Colony. That the Government declined to accept the offer of your Memorialist. That your Memorialist, therefore, caused proceedings to be instituted in the Supreme Court of the Island, for the purpose of quashing the said proceedings, which were defended by the Attorney General, on behalf of the Government of the said Colony; and after a hearing of the causes, the said Inquisitions, and all proceedings thereon, were ordered to be quashed.

FOURTH :

Your Memorialist further shews to your Lordship, that at the past Session of the Legislature, an Act has been passed (but not to take effect until Her Majesty's pleasure be known), authorizing new Writs to be issued, for the purpose of assessing the said property of your Memorialist again for the said Road, which cannot be done by any Law of the Colony now in existence.

Your Memorialist submits it would be improper to make an *ex post facto* Law, for the mere purpose of charging the property of an individual, and more expressly as, in the present case, the Government, after an offer of compromise, have chosen to place their right on the event of a Trial in a Court of Law. If, after a decision there against it, a Statute could be passed, in effect reversing the decision of the Court, it is manifest that, though the Law might be open to an individual, it would be useless to attempt to avail himself of it, for protecting his property against such claims. Your Memorialist most humbly submits that the right of the Government of Prince Edward Island to the Money claimed in the present instance should stand or fall by the Law in exis-

tence at the time the suits were tried, and should not be aided by the effect of a subsequent Statute.

Your Memorialist further shews, that even if, in case such an Act could be made, your Memorialist having purchased without notice of the claim, it would be most unjust, after he has got rid of the claim by resorting to a Court of Justice, to pass a Statute imposing it upon him again, because, had the Inquisitions been valid, and the claim made by the Government under them, therefore, well-founded, your Memorialist might have recourse to his Vendor, or his Covenant, that the "Estate was free from incumbrances;" whereas, if the present Act shall receive Her Majesty's assent, your Memorialist will be without remedy, inasmuch as it would be a good plea for the Vendor to say, that the charge upon the property rose—not by virtue of any law existing at the time, but by a law subsequently enacted, and therefore that when he sold, it was free from incumbrance.

Your Memorialist has also incurred considerable costs in the trial of the matter in the Supreme Court, all of which, though the decision of the Court has shewn that he was correct in contesting the matter, he will lose by the arbitrary *ex post facto* operation of the proposed Act.

FIFTH :

Your Memorialist, therefore, humbly prays, that the Act of the Legislature of Prince Edward Island, intituled "An Act to authorize the issue, *de novo*, of certain Writs under the Road Compensation Acts, in certain cases," may be disallowed: And your Memorialist, as in duty bound, will ever pray, &c.

(Signed)

S. CUNARD.

Halifax, Nova Scotia,

May 2d, 1843.

(Copy—No. 110.)

Government House, Prince Edward Island,
October 24, 1843.

My Lord :

I have the honor to acknowledge the receipt of your Lordship's Despatch, No. 85, of the 3d instant, commanding me to report my opinion upon the Memorial addressed to your Lordship by Mr. Samuel Cunard, praying that an Act passed by the Legislature of this Island in the last Session, and intituled "An Act to authorize the issue, *de novo*, of certain Writs under the Road Compensation Acts, in certain cases," may be disallowed.

Having given the Memorial of Mr. Cunard my best attention, I have the honor to lay before your Lordship the following observations. I do not suppose that it is intended to attach an argumentative value to the representation set forth in the first paragraph of the Memorial, because when Mr. Cunard meditated the purchase of the property, it became a duty to himself to ascertain

what liabilities might be connected with it. If he or his legal adviser failed in this, surely the Colonial Government should not be held responsible.

Upon the second paragraph, no observation appears necessary, as the objection therein falls under the foregoing remarks upon the first.

With regard to the Third paragraph, it is perfectly true that a certain sum was offered by the Solicitor employed by Mr. Cunard, in lieu of all further compensation. It was considerably less than the amount claimed under the Assessment. This offer the Government of the Colony refused, however, solely upon the ground that an acceptance of it would have rendered nugatory the award of the Jury appointed under the Act to assess the property, and this when that award seemed originally to have been so just, that no appeal was entered against it.

The argument in the Fourth paragraph, and indeed throughout the Memorial, is founded upon the illegality, not of the principle, but of the method under which the property was assessed; and when the case was argued before the Supreme Court, Mr. Cunard obtained a decision upon an irregularity in the process—it being shewn that the period allowed for assessing the property was forty days from the date of the Writ. At the expiration of that period, the Writ was returnable. It was also shewn by Mr. Cunard that the property was assessed after, and not during the forty days allowed for the operation of the Writ, consequently no authority for assessing the property actually existed at the time the assessment took place. In other respects the law upon the subject appears to have been faithfully followed out.

It is hardly possible that any one could purchase property, repeatedly visit it, make himself intimately acquainted with it, and yet be ignorant of the important fact, that Roads and Bridges were being constructed upon it, for the payment of which that very property would be assessed. Nevertheless, it cannot be urged that such an ignorance would justify the departure from the law already brought under your Lordship's notice.

The whole case, I beg, my Lord, to submit, resolves itself into a question of equity. The assessment was made, and in accordance with the law, excepting that the assessment took place after, instead of during the forty days mentioned before. No injury whatever was inflicted by this error upon the owners of the property; but it had been rendered very much more valuable by the construction of Roads and Bridges about it. These facts are not combated in the Memorial. Indeed, they are not named; and the latter appears to be virtually proved by the sale of the same property in 1842, for £25,000 sterling, whereas in 1839, before the completion of the Roads and Bridges, it was sold to Mr. Cunard for £9600 sterling.

I do not think it equitable to consider the Act before your Lordship in the character of an *ex post facto* law; because in reality it only seeks to rectify an error, and if allowed to go into operation, the assessment would proceed exactly as it did before, only that it would be made during the existence of the Writ, and not, as before, after it had expired.

Therefore, my Lord, as no injury has been inflicted upon the parties assessed by the commission of the error, as the property of those parties has been greatly improved by the Colonial Government, in laying out so much money upon it, as the assessment could not be legally demanded before the Roads and Bridges were finished; and as the claim to exemption from payment of the assessment can be founded upon no other case than a mere technical error, I think that the allowance of the Act in question is called for in equity.

I have, &c.

(Signed)

H. V. HUNTLEY,

Lieut. Governor.

P. S.—I have also enclosed a Copy of the reasons given by the Attorney General for passing the Act in question, in order to supply your Lordship with an immediate reference to them.

THE ATTORNEY GENERAL'S REASONS FOR PASSING ACT
No. 23.

No. XXX.—“ An Act to authorise the issue, *de novo*, of certain Writs, under the Road Compensation Acts, in certain cases.”

This Act authorises the issue of Writs, *de novo*, under the Road Compensation Act, in certain cases, where Writs and proceedings under them, after a great lapse of time, and after a large outlay of the public money under them, have been quashed for irregularity, and declares that all proceedings under the Writs to be issued, *de novo*, shall be in accordance with the provisions of said Acts, and reserves to the Proprietors the same right of appeal against them as they had under the former Writs.

This Act has a clause suspending its operation until Her Majesty's assent be given to it.

In the year 1838, a Writ was issued by the Supreme Court, under an Order of the Lieutenant Governor in Council, under the Road Compensation Act, and Acts in amendment thereof, tested the Ninth of October of that year, returnable within Forty days, from the teste, directed to the Sheriff of Prince County, commanding him to summon a Jury, to ascertain and appraise the benefit or damage the Proprietors would receive or sustain by a new Road being made to run over Lots or Townships Numbers 5, 4, 3, 2, and part of Lot or Township, Number 1, to commence on the north side of Mill River, on Township Number 5, and to terminate

at a road leading to the Portage, from Tignish to Neil Pond; and another Writ was also issued at the same time, and by the same authority, and under precisely similar circumstances, directed to the same Sheriff, commanding him to summon a Jury, to appraise the benefit or damage which the Proprietors would receive or sustain, by a new Road being made to run over Townships Numbers 7, 8, and 6, commencing at the division lines there lately established between Townships Numbers 7 and 8, and terminating at the Main Western Road, leading to Cascumpeque.

The Sheriff returned the Writs with Inquisitions and Verdicts, finding that each of the said Roads would be of advantage to the respective Proprietors over whose lands they would run, and assessed the sum to be paid by the Proprietors, under the first mentioned Writ, at £1,143 5s. 0d. Currency, and the sum to be paid by the Proprietors, under the last mentioned Writ, at the sum of £523 9s. 6d. Currency.

The Road Compensation Act of the 10 Geo. 4, cap. 10, (under which, and other Acts in amendment thereof, the Writs issued,) by the 3d section, gives to the Proprietors or Tenants of the soil, who may “ think themselves aggrieved by such verdict,” a right to appeal against the same at the Term of the Supreme Court, next after the finding; and if, after hearing the Appeal, it shall appear to the Court that justice has not been done, the Court is authorised to direct an alias Writ to be issued, and a new Jury summoned, whose verdict is to be final and conclusive.

The Proprietors interested in the lands mentioned in the said two Writs did not appeal from the finding of the Jury, and in fact took no notice whatever of the proceeding, and the local Government proceeded to make the Roads and Bridges, on the contemplated lines of Road, *which are completed solely at the expense of the Government, at the cost of £1664 14s. 6d. currency*, being the total amount assessed against the Proprietors; and here it is necessary to remark, that by the Act of the 4th Will. 4th. cap. 16, the Government is required to make the Roads and Bridges on the lines of roads laid off under the Compensation Act, before the Proprietors can be called upon for the amount assessed against them, or before their lands can be taken to answer the sum assessed, if they make default in the payment thereof.

In the autumn of 1842, the Government demanded payment from the Proprietors of the sum assessed by the Jury, under the said two Writs, and notified them that in the event of non-payment, measures would be taken to sell a proportion of the lands, to liquidate the amount, in accordance with the provisions of the Act; and they then, *for the first time*, started objections to the proceedings, and made an application to the Supreme

Court, by their agent, to quash the Writs, and all proceedings under them, for irregularity; and after argument the Court quashed the proceedings on the ground of irregularity in the notice given by the Sheriff, without any formal decision on several other points taken, as to the form of the Writs, and wording of the Inquisitions, and returns thereunder.

Under these circumstances, the Legislature has deemed it only fair and equitable that the Proprietors in question, whose waste lands have been rendered infinitely more valuable, from the expenditure of the public money in the completion of these Roads and Bridges, should contribute according to the true purview and meaning of the Road Compensation Acts, towards the expense of their formation and erection, conceiving that it would be unjust to the Government *if they, after lying by for upwards of four years, not appealing, as they might have done, against the finding of the Juries, or coming in with their application to have them quashed before the Government proceeded to expend the sum of £1666 14s. 6d. on their lands,* and by that expenditure rendering that valuable which previously was next to valueless, should now be permitted to escape, in consequence of error in mere technicalities, from a contribution which the laws declare just, and which the peculiar local circumstances of this Colony loudly proclaim as politic and proper.

It is contended by the Proprietors that they are entitled to consideration, because they say (although no proof has been given of the fact) they were absent, and not represented in the Colony at the period when the Writs were issued and executed. If this be true, it is certain, nevertheless, that they were represented within the Colony long before the expenditure of the public money on the Roads in question; it is, however, conceived that their absence and non-representation furnish no good ground for any objection to this Act; the paramount evil complained of in this Island, from its earliest settlement as a British Colony until the present day, is the improvident Grants of tracts of land, of 20,000 acres each, to absentee Proprietors; and if such Proprietors, up to this late period, can, by continued absence, and such utter neglect as not even to authorize an

Agent of any description to represent them in the Colony, take advantage of their own carelessness and neglect of the public duty, which the ownership of such immense tracts of waste lands imposes upon them, and thereby reap positive benefit by the increased value of their lands, from the expenditure of the public Revenue of the Colony, to the extent above mentioned, and rendering, in fact, that valuable which was previously (as shewn by their neglect of it) not worth looking after, as in the present instance, the evil complained of will be infinitely aggravated. As a proof of the increased value of a portion of these lands, viz: Townships Numbers 4, 5, and 6, it is a matter of fact, that in the year 1839, before the expenditure of the public money upon the Roads and Bridges, they were purchased for the sum of £9600 sterling, and subsequently, in the year 1842, after the Roads and Bridges were made, agreed to be resold for the sum of £25,000 sterling, affording a profit of the sum of £15,400 sterling; this gain no doubt arising in a very great degree from the expenditure of the public money in making the Roads and Bridges in question.

It is apprehended that this cannot be treated as a matter between private individuals: it now becomes a question, whether the interests of the Government, and the people of this Colony in particular, ought not to be considered before those of individuals who have so shamefully neglected the duties cast upon them as the grantees, or representatives of the grantees of such immense tracts of waste land have done, and who now hope to reap this immense premium at the expense of the Government, for such their own neglect.

The whole policy of the Imperial Government in assenting to the Road Compensation Acts, and of the local Legislature and Government in passing them, and the peculiar local circumstances of this Colony, it is humbly conceived, should be duly weighed before Her Majesty's Government dissent to this Act.

This Act gives the Proprietors the same right of appeal against the finding of the Jury as they had under the first Writs issued, and under this right reserved, no injustice can be worked.

ANNUAL REPORT

OF THE VISITOR OF THE DISTRICT SCHOOLS OF PRINCE EDWARD ISLAND.

The Visitor of Schools, in conformity with the requirements of the law, submits to the Board of Education, for the information of the Legislature, a Report on the present state of the District Schools, and the progress of Education generally, throughout the Island, during the past year; the following view is exhibited, as correctly as possible, being the result of information derived from personal observation.

In comparing the Returns of Schools throughout the Island, generally, for the year 1843, with those for the year previous, it will be observed, that an increase has taken place in the aggregate, although a diminution appears in a few instances in some Townships in the number of the Schools.

There are 92 District Schools now in operation, attended by 3864 Scholars, which, compared with the Returns of the year 1842, shews an increase of three Schools, and Sixty Scholars. The District School Teachers have received in the past year from public aid £314 8s., and the people contributed £4140.

There are in all, including the Inferior Schools, Female Schools, the National and other Schools, in the Town of Charlottetown, School attached to St. Andrew's College, and the Central Academy—a total of 115 Schools, teaching 4690 Scholars; towards the support of which, the people pay £5175, and the Public Treasury £1087 8s.

Although those, from various causes, are not all in successful operation—many of them, as will more particularly appear from the appended details, are conducted with ability and advantage.

The destitution, and deficiencies in the existing means of Education, may be considered under two heads. The first, where no attempt at Education of any kind has been made, and where not the semblance of a provision for supplying it exists. The second, where an attempt to educate has been made, but where the instruction has been so imperfect, as to afford no results of actual value.

An enquiry, directed to the ascertainment of the numbers in the different Townships unable to read and write, was instituted during a tour of inspection of the Schools; but from the tedious nature of such an enquiry, and the difficulty of applying the usual means of investigation to populous and extensive settlements, the number in the state of inability to read and write has not been ascertained with exactness, nor will any more accurate knowledge on the subject be likely obtained until such time as this head be authorized to be included in the returns of the Census.

In illustration of the foregoing, one or two statistical memoranda may be instanced. In two conterminous Townships, out of 210 Children above 6 years of age, 97 only could read. In another settlement, a section of a Township, the number of Children between the ages of 6 and 14 is twenty-eight—of these, fifteen cannot read and are not learning, and twenty-two cannot write and are not learning.

In another Township, numbering fifty families, the adults who can write are but 29. These examples may be held to indicate the state of many other settlements, apparently no better furnished with the means of Education.

Although these statistics are thus of necessity incomplete, the instances adduced have, however, established the following facts. That the want of instruction is yet considerable, and that the people in some cases from indifference, do not, and in others from poverty, cannot procure the services of Teachers for themselves. That there are 43 populous stations at which Schools are required, and where none now exist, and 11 less populous Stations, also in want of Schools, and where an inferior or preparatory class of them might be usefully opened, because in these, it would not be possible to assemble so many

pupils together as to form a regular, or a common District School. And that there are altogether a large proportion of Children, within the educational age, who do not attend any school.

The disparity in the efficiency or state of many of the Schools is attributable, in a great degree, to insufficient attendance, and this insufficient attendance takes place under a variety of circumstances.

1. The School itself exists only at certain seasons of the year; at other seasons the Teacher finding it his interest to betake himself to the more lucrative employment that labour in the fields offers. This occurs in old as well as in new small settlements, but the instances are rare.

2. The School is by much exertion, and amid some discouragement on the part of the Teacher, continued throughout the year; but the attendance of many of the pupils is only for a portion of the year. The parents cannot pay the fees for a whole year's instruction, or they cannot in the Summer season want the assistance of their children in the fields. The remedy in such cases as these is to be found, perhaps, in nothing but a bettering in the worldly condition of the parents—an opening of their minds to the value of Education, and a conviction—and many in the circumstances described have never yet been convinced—of the necessity of making some sacrifice to promote the proper education of their children; and to the Ministers of Religion must we look for that instruction, as well as for those special admonitions on the subject which will supply the best correction of the evil.

In many instances, a culpable indifference to education exists with regard to female members of Families. Many imagine that these have comparatively but little need of education, and consequently the proportion who attend school is comparatively small; many parents, who make no small efforts to send their sons to school, are in that respect totally neglectful of their daughters.

Although no measures have been accomplished to wean the Aborigines from their wandering habits, by giving them a legal right in the soil, and thus attach them to a home, the attempts which have been made to afford them the means of education have been thus far successful. The prejudice which this tribe has been known to entertain against learning to read or write any other language than their own appears to be gradually giving way, and the value of our rudimental branches is now beginning to be known and felt among them. The provision which the Legislature has laudably made for the free instruction of Micmac Children is paving the way for a more general diffusion of intelligence among them. Although, from their habits, it is impossible to ensure that certainty and regularity of attendance on School essential to their improvement, the progress which nevertheless has been made by three boys and a girl, who have given a desultory attendance at different schools, is very pleasing, and proves the capacity of the Aborigines for receiving instruction; this disposition to learn has been fostered and encouraged by the benevolence of the gentlemen who are in the Commission for Indian Affairs, in making them gifts of Books, Stationery, &c. The eldest boy has attained a correct knowledge of the elements of English Grammar, and the higher rules of Arithmetic. He would make a creditable appearance in a higher seminary, in which it is to be hoped he will yet be placed.

It did not appear necessary to occupy any further space at this time in giving a detailed account of all those schools minutely described in the report of the past year, and in the state of which no remarkable difference was found this year to exist. In instances where any were found deserving of especial notice, from greater extension, or where, from any cause, they were found to be inefficient, all such, as well as those put in operation this year, will be found described below.

METHODS OF TEACHING, DISCIPLINE, BRANCHES TAUGHT, &c.

The utility of the monitorial system has been sufficiently tested, and its advantages acknowledged. It is occasionally employed in the schools of the Island, whenever it is judicious and practicable to do so; but the exclusive employment of this system, notwithstanding the opinions of some who are desirous of making it obtain in all our schools, is quite impracticable in country schools from obvious causes. In numerous attended schools, it is found necessary, for the purpose of keeping all the children duly and regularly employed, and of allowing the master to exercise due surveillance over his charge:—the want of Books and necessary apparatus in general is found to be a continual impediment. The *Elliptical* method of teaching is frequently resorted to, and has several advantages, in connexion with the *mutual* instruction plan.

There are no schools established on the *Normal* system professedly—a system perfected by the incorporation and combination of all that is most valuable in every other.

In regard to discipline, the Master is always instructed to exercise all control and superintendance over his charge, both in and out of school. Emulation is encouraged by places in the class, and occasional prizes of Books, Stationery, &c, distributed at examinations. Lessons or tasks are for the most part provided for their employment at home. Corporal punishment for offences is still resorted to, but in many schools only in extreme cases. The opinion is fast gaining ground, that the most effective kind of punishment is that which is chiefly addressed to the moral sentiments.

The proportion in which the children acquire the different branches is found to be as follows: about two-thirds of the pupils learn to write and cipher, about a third learn grammar, and not more than a tenth any of the higher branches. There is more attention paid than formerly to the sense of what is read.

The improvement of many schools is retarded for the want of the requisite books and stationery, the high prices of these putting them beyond the reach of the pupils, two or three of whom may be sometimes found clubbing about one book.

GENERAL REMARKS.

With a view to remedy and supply the destitution and deficiencies existing, the Visitor would respectfully submit, for the consideration of the Board—that a number of common schools corresponding with the wants of the inhabitants would be ensured by the division of the whole Island into School Districts, and that the provision for a partial imposition of assessment be continued in the law. That a maximum and minimum salary be provided for Teachers, to be paid half-yearly, and with a reference not alone to the Branches they are capable of teaching, but also to the variety and utility of the branches they really do teach in School.

That in each of the County Towns, at least, a superior school, say a Grammar School, be maintained, to serve in some measure as a Normal School, where candidates for schools may be familiarized with the mode of communicating instruction in the most dexterous and correct manner. That it should be the duty of the Board to regulate the school hours, and frame a code of discipline for the government of the country schools, to be placed in a conspicuous part of the School-room.

That it would be advisable to adopt the following suggestion of the Central Board of Education at Halifax, from their Report of the last year. A plan similar to which was recommended by the Visitor some years ago.

“If in places where permanent Schools cannot be sustained, two or three well qualified Teachers were to be encouraged by reasonable aid from the School Grant to establish on a steady plan circulating schools, dividing the Teachers' attendance, by an arrangement previously settled on, among three or four of the settlements in the same County where Education is most needed, and such itinerating Schools may be necessary, giving to each, such portion of time as may be practicable and most convenient.”

That several poor Settlements at present scarcely able to keep a School open throughout the whole year, might maintain Schools during the Winter months, if encouraged to do so; that it would be advisable to grant public aid in certain cases to Schools taught for a half year only; and lastly, that an increase be made in the slender salaries of all District Schoolmasters.

Whatever be the defects yet existing in the system, these should not be held to depreciate or detract from the merits of the improvements already effected; none can fail in discerning the good effects of many of the provisions of the Law upon the education of the people—a law which, it is to be hoped, is only the prelude to a more comprehensive measure from the Legislature than any yet obtained in favour of general instruction.

JOHN MACNEILL.

Charlottetown, January 31st, 1844.

(a.) The School at this station has been conducted two years by the present Teacher, and hitherto with success; it is numerously attended, affording instruction to a few adults as well as to the juvenile part of the inhabitants of the two settlements, that unite in supporting it. Reading and Orthography is taught on an improved and judicious method; a few learn Grammar and the higher rules of Arithmetic. The School-house is commodious, and the inhabitants are laudably contributing much of their means to the support of this seminary.

(b.) The only occasion on which this School was visited was at a season when almost all the pupils were unable, from the prevalence of sickness, to attend; the few who were present were examined, and the result showed that mere reading was the only branch in which any degree of proficiency was apparent. The examination, however, of so small a number could afford no fair criterion of the general state of the School. It must be observed, that some dissatisfaction was expressed by the Trustees at the inefficient mode in which one of the branches was taught; but as the Visitor had every reason to conclude that all the branches were taught according to the best of the Teacher's ability, he does not deem himself called on to offer any further remark on the subject.

(b. b.) A regular, and it is to be hoped, a permanent School has at length been established in this populous District, and gives promise of great usefulness. The higher branches of English are taught with success on a judicious method. In Latin, Geography, Mensuration, a few are learning and making progress. The School-house is neat, and well finished and furnished.

(c.) This School having been minutely described in preceding Reports, it is only necessary to add, that it continues to be taught by the Teacher above named, and with that ability and success which have attended his instructions in this District.

(c. c.) It may be necessary, in alluding to the state and character of this School, to adduce the testimony of the supporters thereof to the benefits they profess to derive from its establishment—a testimony which is corroborated by the efficient state in which the School was found at the different visitations. The progress made in the ordinary branches of Education, and which are taught therein, was, upon the whole, decidedly favourable; not a few who, on entering the School, were altogether unable to write and cast up Accounts, are now capable of doing so, while others who could not read at all, or at best but imperfectly, have made very marked improvement.

(d.) Although in this School nothing beyond the prior branches are learned, it is nevertheless a useful School, in a locality where, from the paucity of the inhabitants, one of a superior character could not be maintained. The Teacher is an exemplary character, paying attention to the secular instruction, as well as to the morals of the children committed to his care. The School-house is not sufficiently spacious, and its unfinished state renders it uncomfortable.

(e.) In the state of this School, a fair average improvement has taken place, the pupils generally commenced in their first stage at the opening of this School. Frequent complaints have been preferred by the subscribers to this School, respecting the irregular attendance of the Master, and the brief duration of his daily hours of teaching; but as the Visitor is not authorized by law to fix or prescribe the School hours, he can only report the dissatisfaction existing in this District, in common with several others, and the necessity for an enactment, regulating the School hours at different seasons of the year. The School-house is not in a sufficiently finished condition.

(f.) The School established in this settlement has been opened above half a year. The children, with an exception or two, are yet learning the primary branches. The same cause of dissatisfaction exists here as in the School immediately preceding.

(g.) This School, in consequence of a vacation occurring thereat, while the Visitor was on his tour, was examined but once since the present Teacher succeeded to his charge. The method the Teacher employed was judicious, and the progress, upon the whole, as great as could be looked for.

(h. i.) The Schools at these two stations are well taught, and notwithstanding many disadvantages, not the least of which are insufficient School-houses, the pupils continue to make creditable progress. In both Schools are two or three boys of a tender age, who display a remarkable talent for Arithmetic—it is to be hoped that their parents will afford them all the opportunities and encouragement in their power, to prosecute the science for which they display so great an aptitude.

(k.) After having been a considerable time without a School, one was opened in this part of the Township in the course of last Summer—it is so far a promising School. All the ordinary elementary branches are taught—instruction in the important departments of Orthography and Reading are communicated in the most approved and successful manner. In the higher branches of English, no progress of consequence has been yet made. The improvement in Arithmetic and Writing is so far correct and pleasing.

(k. k.) On the occasion of the last visitation of this School, it was found that a minority of the subscribers had withdrawn their children, being dissatisfied with the Teacher's discharge of his duties. On an investigation taking place, it appeared that in the year previous, some grounds and causes for such complaints had existed, but since then the School has been conducted with greater regularity and success. The Teacher has not had the benefit of much experience—which may in a great measure account for the dissatisfaction; but he is fully capable of imparting instruction in the ordinary branches required. The settlers on this part of the Township have always made praiseworthy exertions to support a School, and the youth in general have received a fair share of education. The School is now numerously attended.

(l.) This is one of the few Schools of the 2d or higher class under the existing law ; it has been conducted with considerable success, and the improvement is as great as could reasonably be expected under a Teacher of but one year's experience, surrounded, too, as the School has been with many of the difficulties and embarrassments too well known in remote Country Schools. The usual English elementary branches are taught; a careful foundation was laid in particular in learning reading and spelling correctly. The station where the School was taught last year, it is to be regretted, is now destitute. The teacher having opened School in another part of the Township.

(m.) The School of this District was found closed at the time of the visitation of the neighbouring schools, and has not yet been examined since the present Teacher succeeded to the charge.

(n.) The School at this station is numerously attended, and although not in a high state of improvement, proves of much benefit to this community, who never before enjoyed the advantages of a regular School. Many of the pupils have rapidly learned to read, although not correctly yet. The School-house was incomplete when last visited, and not adequately furnished with desks.

(p. q.) The Teachers of the year preceding are still at these stations, and continue discharging their duties faithfully. Reading, Writing and Arithmetic are principally taught; in the latter branch especially several are well advanced; a class in each School had made considerable progress in English Grammar, but their uncertain attendance operates against their improvement. In the latter School, Gaelic reading is also taught with success.

(r.) This School has been conducted efficiently, and the scholars shew more than a common degree of intelligence and avidity to learn; under the present Teacher the school does not present so high a state of improvement as it formerly did—this is owing to the withdrawal of the best scholars; those remaining are not yet so far advanced.

(s.) Frequent opportunities have been afforded of witnessing the benefits derived by a considerable number of the children of this Town from attending this School. It imparts instruction to about 45 children on an average annually, in the ordinary branches of common school education—it is deserving of being sustained and encouraged by the Legislature and the public. It is the only school receiving aid as a District School, at present open in Charlottetown.

(t.) The best criterion of the flourishing condition of this school will be found in the fact of its extension and enlargement, both in the number of its pupils and in the variety of the branches taught therein. From this increase, the services of an assistant or additional Teacher were found to be necessary. The School numbered, at the last examination, fifty pupils, learning the ordinary rudimental branches; and Grammar, Geography, practical Mathematics, are taught on the most approved and successful system. That the School may be conducted with the greater efficiency, and prove of additional benefit to the inhabitants of Georgetown and vicinity, by affording instruction to an additional number of scholars, it would, in the opinion of the Visitor, be advisable to make Legislative provision for an additional Teacher in this seminary. It only remains to advert to the National School in Charlottetown—an institution which has not degenerated in character or utility under the present Teacher. It is a School deserving of countenance and support from the public, affording cheap, and in several instances, gratuitous instruction to children in indigent circumstances. Along with the usual course of instruction, particular attention is paid to the morals and behaviour of the pupils.

(No. 97.)

Downing Street, 3d February, 1844.

Sir;

I have had under consideration an Act (No. 595) passed by the Legislature of Prince Edward Island on the 15th April last, entitled *An Act for the increase of the Revenue of this Island*.

This Act repeals the three objectionable clauses of the former Revenue Act (No. 567), which I pointed out to you in my Despatch, No. 56, of the 22d December, 1842; and so far it is in accordance with the Colonial Customs' Act of Parliament. But I regret to find that the Assembly have not carried out the provisions of that Statute with regard to Differential Duties, in the manner noticed in my Despatch—namely, by imposing duties upon commodities for the purposes of Revenue only, and without reference to the origin or place of export of such commodities.

This Act establishes a Tariff, imposing Import Duties on Foreign commodities only, and has thus altered and increased all the Differential Duties imposed by the Act, 5 and 6 Vict., Cap. 49.

I presume that this has been done under a misconception of the views of Her Majesty's Government; and as the Assembly so readily repealed the clauses in the former Act to which I had objected, I doubt not but that, on a reconsideration of the subject, when the next Revenue Act is before them, they will as readily remove the objections to the present enactment.

This Act having only a short time to run, will be allowed to expire; but I think it right to apprise you, that Her Majesty cannot, on any future occasion, be advised to permit any Act to continue in operation which imposes Import Duties on goods with reference to their origin or place of export, even though such distinction may be in favour of British commodities.

I have, &c.,

STANLEY.

Lieut. Governor

Sir H. V. Huntley,

(Circular.)

Downing Street, 28th June, 1843.

SIR;

I have to desire that you would call the attention of the Legislature of the Colony under your Government to the following statement and suggestions.

The imposition of discriminating Duties on Goods imported into the British Colonies, when the discrimination is made for the protection of some branch of British or Colonial industry, is an office of great difficulty. To the right discharge of it, an intimate acquaintance with the Commercial Treaties and Political Relations between this Kingdom and Foreign States is indispensable. To legislate on such a subject in ignorance of those treaties and relations, would be to render inevitable much serious practical error.

But, in the nature of the case, it is impossible that this knowledge should be possessed in the requisite degree by the various Local Legislatures of the Colonies of this Kingdom. They have no means of knowing the state or the objects of pending negotiations, nor even of ascertaining, with absolute precision, the terms of Treaties actually concluded. If they legislate at all on these subjects, they must do so in ignorance of some facts which cannot be safely excluded from consideration.

Neither is it possible that forty distinct Legislatures, having no means of mutual communication and concert, should act consistently with each other on such subjects. The local opinions or interests of each Colony must dictate the Laws of each; and the general Code of the Empire, compiled from so many different sources, must b

at the utmost variance with itself on a subject on which unanimity and consistency are indispensable. In such a state of the Law, Her Majesty's Government could not negotiate or treat, with confidence, with any Foreign State for commercial purposes; nor could they fulfil such Treaties as might be made. Painful and injurious discussions with those States must arise, and perhaps indemnities and compensations must have to be paid.

For these reasons, Her Majesty's Government decidedly object in principle to the assumption by the Local Legislatures of the office of imposing differential Duties on Goods imported into the respective Colonies, Parliament having already prescribed the Rules by which such Duties are to be discriminated, with reference to the place of origin or of export; to Parliament alone the power of altering those Rules must be reserved. The single exception to this general rule will occur in any cases in which Her Majesty's Government may have suggested to any Local Legislature the enactment of any such discriminating Duties. If such cases should arise, the Ministers of the Crown would be able to take the necessary measures for obtaining the subsequent sanction of Parliament for any such innovation.

You will, therefore, exercise all the legitimate influence of your office to prevent the introduction into the Legislature of the Colony under your Government, of any Law by which Duties may be imposed on Goods in reference to their place of production, or to the place from which they may be exported. In the same way, you will exert yourself to prevent the introduction of any Law imposing on refined Sugar imported into the Colony, higher Duties, in the case of Sugar refined in this country in bond from Foreign Sugar, than in the case of Sugar refined here from British Colonial Sugar.

If, unfortunately, your efforts should be unsuccessful, and if any such Law should be presented for your acceptance, your duty will be to withhold your assent to it. From the discharge of that duty, however unpopular it may be, you will not shrink; for by declining to undertake it, you would only subject Her Majesty's Government, and the Colony itself, to a still more serious inconvenience.

Her Majesty could not be advised to sanction any Colonial Law imposing discriminating Duties which Her Majesty's Government had not previously recommended, or which Parliament has not expressly established, or enacting such Duties on any terms which Parliament has not prescribed. The disallowance of any such enactments would therefore be inevitable; and that measure would be attended with far more serious inconveniences than any which could result from your own refusal to accept them. I trust, however, that there is no good reason to anticipate, or to provide against, such a contingency.

I have the honor to be,

Sir,

Your most obedient

humble Servant,

STANLEY.

The Lieutenant Governor of
Prince Edward Island.

FIRST REPORT.

THE COMMITTEE appointed to report on the subject of the Crown Lands generally, and other references, submit—

That the lands now at the disposal of the Government in this Colony are as follows :

In Charlottetown, one Town and Water Lot : In Georgetown and Royalty, 147 Town and Water Lots, and 48 Pasture Lots : In Princetown and Royalty, 464 Town and Water Lots, and 48 Pasture Lots : On Township No. 55, 1000 Acres ; and on Township No. 15 there remains 5,755 Acres undisposed of.

The balance of Moneys for the sales of the past ten years is £2,190 14s. in the Treasurer's hands, and £217 1s. 4d. in the Surveyor General's, together making £2,407 15s. 4d. currency.

The gross amount of sales, for the ten years, up to 1844, was £4,699 5s. 3d., which has been derived from the following sources :

From Lands in Charlottetown and Royalty,	-	£705	19	6
Do. Georgetown and Royalty,	-	3,535	12	9
Do. Princetown and Royalty,	-	385	13	0
Do. Township No. 55,	-	72	0	0
				4,699 5 3

Out of this amount, the following sums must be deducted, viz :

Amount not received—the Lands being forfeited and re-sold,	-	784	18	3
Returned to purchasers,	-	6	6	0
Amount drawn under the authority of Lord J. Russell's Despatch, of 23d Sept., 1839,	-	475	0	0
Fees on Grants,	-	253	10	10½
The late and present Surveyor General, for holding sales—Plans—Surveying, and per-centage on amount of Sales,	-	521	7	10
Labourers assisting Surveyor General, and printing advertisements of sales,	-	48	7	7½
For opening Roads in the Royalty of Georgetown,	-	166	11	10
Painting names of Streets in Charlottetown, and putting down a pump,	-	35	11	6
				£2,291 13 10¾

Leaving a balance of £2,408 5s. 4d. Of this sum, £1,500 have been appropriated, with the sanction of Her Majesty, for the erection of an Asylum for Insane persons; therefore the actual amount unexpended, and at the disposal of the Government, is £908 5s. 4d.

It will be seen, that the expenses of the sales amount to a considerable sum—the Surveyor General alone having received upwards of Eleven per cent. on the whole proceeds of sales. This Officer's charges appear to your Committee to be more than is recognized by the only Colonial Statute which directs the amount of the Surveyor General's fees, namely, the Act of 16th Geo. 3, Cap. 1., where the fee for the survey of each Town and Pasture Lot together, is 9s. Sterling, and surveying Lands, per day, 10s. 6d. Sterling. The Surveyor General's charges (as appear by his Accounts), are, 23s. 4d. currency, per day, for holding the sales; 5s. for a Survey of a

Town, and 15s. for the Survey of a Pasture Lot; 10s. for every Plan of a Town and Pasture Lot, and 5 per cent. besides on the whole amount of sales.

In 1842, the House of Assembly prayed the Imperial Government to authorize the appropriation of an additional sum of £500, out of the balance then on hand, for the purpose of erecting a Lunatic Asylum; and a representation was made of the unimproved condition of the public Streets and communications in the Royalties of both Princetown and Georgetown—(particularly the latter)—and a further prayer was made, for an appropriation of £100 for Princetown, and £150 for Georgetown; but Her Majesty's Government was pleased, in a Despatch from Lord Stanley, of the 16th June, 1842, to signify, that the report contained in Sir Henry Vere Huntley's Despatch, of the state of the Crown Land fund, necessarily precluded the Imperial Government from complying with the application of the House of Assembly.

The Committee would remark, that though the Government has sold considerable tracts of land in the Royalties of Georgetown and Princetown—particularly the former—and the purchasers of those Lands might reasonably hope that Roads would be opened in the Royalties, so as to enable the owners of Lots to improve their properties, yet few of such Roads are as yet opened, and three-fourths of those that are, have been opened by grants of money from the general Revenue of the Colony; and the Committee regret that the Imperial Government has not allowed for this object more than £166 11s. 10d. out of the whole amount of sales, for ten years past; but your Committee believe, if the matter is properly represented to Her Majesty's Government, that suitable provision would be made for the objects prayed for by the Legislature in 1842; and therefore your Committee recommend, that an humble Address be forwarded to the Imperial Government, praying that the further sum of £300 be appropriated for the building an Asylum for Insane persons, and the sum of £50 for Princetown, and £150 for Georgetown—to be expended in opening the Roads in the Royalties of those Towns; and also the sum of £200 towards defraying the expense of prosecuting a Geological Survey of the Island.

APPENDIX

(N.)

[SEE PAGE 103.]

Your Committee to whom was referred the Petition of the Inhabitants of St. Peter's Bay and Cable-head, praying that they may have a free right of way through Greenwich Farm to the Harbour's Mouth, for the purposes of shipping Produce and Cattle, and of fishing, beg to report—That they have examined Mr. Charles Saunderson, the proprietor of Greenwich farm, who stated, that the opening of the said road would be a serious loss to him. He did not, however, deny, that the public had a right of way through his farm, by opening and shutting gates, and was willing to continue this right to the public—reserving to himself the right of prosecuting any person or persons for damages that he might sustain through the leaving open, either wilfully or negligently, any of the gates.

Your Committee have also examined several of the Petitioners, who were of opinion, that the said Road should remain open without any obstruction. This road, previous to 1840, had gates on it; and about this period a new road was opened, and public money expended thereon through the farm, by direction of the Road Commissioner, and with the consent of the persons then in possession of the said farm; and this road was continued through the farms of several of the Petitioners, who consider it an act of injustice to allow Mr. Saunderson to place gates on the said road, while they, through whose farms this road is continued, allow a free right of way to the public.

SECOND REPORT.

THE COMMITTEE appointed to report on the subject of the Crown Lands generally, and other references, submit—

1st. That in respect to Townships Numbered 8, 12, 20, 25, 44, 46, no Grants appear on record, either in the Registry of Nova Scotia, or in that of this Island.

2d. That the claimants of these Townships appear (with the exception of half Lot 25) to have petitioned for the separating this Island from the Government of Nova Scotia; and the Order of the Privy Council, acceding to this Petition, directs that all such claimants shall take out "new patents," which were to be issued "without" fee.

3d. That in regard to Township Number Twenty, the Committee, having understood a Mandamus for a Grant thereof had been exhibited, and had been offered for registry, made application to Mr. Cundall, the individual understood to be the holder thereof, and have received an answer, stating that the Mandamus is not in his possession, nor does he know who has it; and that he never saw a Grant of the Township. That as to said Mandamus, your Committee have, after some trouble, found that, of date 2d March, 1839, a writing, purporting to be a Mandamus, had been copied into the Book of Registry—the entry not showing that any evidence had been given to authenticate it as genuine, but merely stating that it was "entered at the request of Wm. Cundall, Esq."

4th. That, at different times, sundry Conveyances have been recorded of portions of those Townships, but none of these appear in the name of the original Grantee, nor of persons designated as his heirs, executors, administrators or assigns, nor have any direct reference to the Grantee, so far as the Committee could ascertain.

5th. Of these Deeds, some relating to Township Eight appear to have been recorded, not on the evidence of a witness to the execution or acknowledgment, nor on the testimonial and seal of any authority recognised as competent in such matters, but on that of a witness to the signature of a witness.

6th. That in regard to lands granted by the Government in the Towns and Royalties, the taking out Grants has been held indispensable in constituting a title against the Crown.

7th. That on one occasion the Legislature of this Colony passed an Act requiring all claimants of land to record their titles in the Registry of this Island; but such Act did not receive the Royal Assent.—That none of the objections which may appear to militate against such a law seem in any way applicable to the taking out and recording the first Patent or Grant.

8th. That from interrogations put to Charles Binns, Sen. Esq., it appears to be his opinion, that a Mandamus cannot regularly be recorded in the Registry of this Island; also, that a Mandamus gives no title, but only a colour of title, or presumption that a Grant had been issued: but if coupled with possession of part of the Township, may, perhaps, be held sufficient to warrant the holder to prosecute successfully actions, either of ejectment or of trespass, as to other parts of the Township.

9th. That in regard to most of those Townships, which for upwards of thirty years were entirely unclaimed, great negligence appears to have been attributable to the then Crown Law Officers, whose duty it was to have particularly represented to the Crown the utter abandonment of such Townships by the intended Grantees.

10th. That the whole of one of these Townships (25) was sold in 1781 for non-payment of Quit Rent, though the sale was soon after disputed, and it is thought was set aside; but of that, and the other five Townships, different parcels have since been sold for non-payment of Quit Rent, and recently, for non-payment of the annual Land Assessment, or the occasional Assessment under the Road Compensation Act; and as to these recent sales, none have been disputed, and the purchasers are generally living on their several purchases.

11th. That it appears advisable to submit these facts to legal authority, with the view of ascertaining if such Townships (so far as not sold by Government for arrears of public burdens, or in the occupation of farmers resident thereon,) may be held still to belong to the Crown.

12th. That it appears advisable to address the Lieutenant Governor, to apply for the opinion of the Law Officers in Great Britain as to the legal question pointed out in the 11th paragraph of this Report.

13th. It appears to your Committee, that in regard to Township No. Two, the Grant comprehends only Ten thousand Acres.

At the Court of St. James's, the 26th August, 1767.

PRESENT:

(L. S.)

THE KING'S MOST EXCELLENT MAJESTY,

Archbishop of Canterbury,

Lord President,

Duke of Grafton,

Viscount Falmouth,

Viscount Barrington,

Lord Le Despenser,

Mr. Secretary Conway.

The

to

for

Lot 20.
26 August,

Entered at the

2d March, 1839.
G. Thresher,
Dpty. Registrar.
Nov. 3, 1774.
Received these
3 Mandamus es
from Wm Clark,
to have Grants
in his and Ro-
bert Campbell's
name made out.

Whereas His Majesty was this day pleased, by his Order in Council, to approve of and confirm the proceedings of the Lords Commissioners for Trade and Plantations, upon a plan which has been approved of by His Majesty in Council, on the 9th of May, 1764, for the settlement of the Island of St. John's, in the Gulf of St. Lawrence, in North America, and to order that a copy of the said proceedings should be transmitted to the Governor or Commander in Chief of the Province of Nova Scotia, with directions to him to carry the several regulations therein contained into execution, and to pass Grants of the respective Townships contained in the said Island to the several persons who are entitled thereto, upon they or their Agents producing an order from His Majesty in Council for that purpose—His Majesty doth therefore hereby order (with the advice of His Privy Council), that the Governor or Commander in Chief of the Province of Nova Scotia, for the time being, do forthwith, upon this order being produced to him, pass a Grant under the Seal of the said Province, of the Township marked No. 20, in the survey of the said Island, to Theodore Holstain and Thomas Basset, Esqrs., Captain, under the condition and regulations contained in the aforementioned proceedings of the Lords Commissioners for Trade and Plantations, approved of this day by His Majesty in Council.

Wm. BLAIR.

MINUTES OF EVIDENCE.

Charles Binns, Sen. Esquire, Barrister at Law, called in, and examined.

Do you know the Numbers of Townships in this Island for which no Grants are on record in the Registry of this Island?

Yes. I have examined, and find that for Townships Nos. 8, 12, 20, 25, 44, 46, there are no Grants on record. There appears, from the Deed herewith produced, to have been a Mandamus as to Lot 8, but no Grant. From said Deed it would appear that, by mutual consent, a par-

tion had taken place of said Lot amongst the different claimants, or assigns of the claimants, under the Mandamus—said agreement to refer, dated at London, Sept., 1785. As to Lot 12, I know nothing. As to Lot 20, there are Deeds on record which state that a Mandamus had existed, and that Thomas Basset was one of the two Grantees—grandfather (maternal) of the present W. Cundall.

Witness considers a Mandamus something like an equitable title—though not a legal. A Mandamus cannot be put on record in the Registry regularly; but all

Grants ought to be, before being delivered—that is the general rule in respect to Grants from the Crown.

Is there any evidence, other than the Deed as to Lot S, signed by Mr. Winchester, that the writings really existed, as enumerated and described in the Schedule annexed to that Deed, viz. : Mandamus, or Order in Council, agreement to refer partition to arbiters, &c. ?

I know of no other evidence. I know it had been acted on. I know General Fead gave a conveyance to Mr. Macdonald of part of Lot S.

Is that Deed as to Lot S—namely, the Deed referred to as signed by Mr. Winchester—on record here?

No. I acted as Agent to Mr. Cundall's father on Lot 20. That was before his father came to the Island.

Did any of the people then question his title ?

Not while I was Agent ; but I understood that Mr. Archibald Campbell soon after did ; and, as I think, on the ground of there being no Grant on record.

Are you aware of a Grant being on record in Halifax for Two hundred Acres on Lot 20, to a person named Basset, a Bombadier in the Army ?

No, I am not aware ; but I have heard that Colonel Basset had been a Bombadier.

Do you know that he was a Colonel in the Army ?

No, I do not ; nor can I remember how I heard that.

Did you ever see him ; or was he ever in this Island, so far as you know ?

No, I never saw him. I have heard he was at Quebec, but not in this Island.

In regard to Lots 25, 44, and 46, have you ever acted as Attorney in suing for or defending against Rent on any of these Townships ?

Not that I remember.

If a Township be claimed by the holder of a Mandamus only, can the claimant of the Township maintain an action of ejectment or trespass against persons settling on such lands ?

I have said that a Mandamus was not a legal title, and therefore the claimant under such could not sue for a trespass, unless he had held possession of the Township for sixty years, which could bar the claim of the Crown in such land, and authorize the holder to sue for trespass ; and besides, if the party had attorned, he could not challenge the title of the party to whom he had attorned, if the said party had sixty years' possession, otherwise he could. With a Mandamus, the possession of one acre of the Township might be held to be possession of the whole. Without a Mandamus, the person claiming a Township must, in order to defend effectually against the Crown all the Township, or to be able to defend against intrusion of third parties, have been in actual possession

of the whole of the Township. He could only hold as a Squatter so much as he had actually possessed for 60 years.

If no Grant produced, could occupant of a portion of one of these Townships, who had not attorned, plead the Title of the Crown against any one claiming the Township, and not in actual possession for 60 years ?

I will beg leave to put a case or two, which may more fully explain my meaning in reference to this and several of the former questions, put to me by the Committee. Suppose an action of Ejectment brought by a person who could neither shew a title in Deed nor in Law—that is, neither a documentary nor possessory title—against a defendant who had not attorned, nor was otherwise estopped from disputing the Plaintiff's title—in such a case the Plaintiff must be nonsuited. In actions of Ejectment, the legal Title must prevail. In actions of Trespass to real Property, actual possession must be proved in the Plaintiff (or for his benefit), at the time when the Trespass complained of was committed or done. If the Defendant, when sued by a subject, can shew that the Title to the property trespassed on is in the Crown, then the Court is bound to give judgment for the Crown.—See Chitty on Prerogative. After a Grant in fee (on condition), made by the Crown to a subject, the Title cannot be again in the Crown, as for a forfeiture, or breach of condition, until after "Office found"—or Escheat.—See Chitty on Prerogative, 249.

A Mandamus appears to me to convey no legal Title to the intended Grantee ; but I think proof of it might be received in a Court of Law, as evidence to be left to a Jury, to presume that a Grant had issued, after a lapse of many years, and proof of possession having gone in accordance with its tenor. Vide 8 East, 263. 12 Rep. 5.—Cowper, 102, 110.—5. T. R. 151, S.—7 T. R. 492.—11 East, 488.—5 Barn. and Ald. 232, 6, 7.

Although I think a Mandamus, in itself, confers no legal Title, yet I think a Grantee, or his assigns, if possessed of a Mandamus, might, if necessary (after Title in the Crown pleaded), obtain time to procure a Grant, and then apply it : and that a Mandamus alone might be held a colour of Title, so as by proof of actual possession by the party, or his tenants, of part of the Township, such Grantee, or his assigns, might be held in legal possession of the whole Township, and thereby perhaps be enabled to maintain either Trespass or Ejectment. If a person has not at least a *bona fide* colour of title in Deed, coupled with possession, he will be considered a mere squatter, and can only hold what he has obtained by actual possession, enclosed, and under cultivation, and will not be entitled to claim more by *constructive* possession. See "Tillinghurst's Adams on Ejectment.

PRINCE EDWARD ISLAND, }
Queen's County, SS. : }

Personally appeared before me, the Hon. Thomas Heath Haviland, Esqr. one of Her Majesty's Justices of the Supreme Court of Judicature for the said Island, Lawrence Macguire, of Township No. Forty-five (45), in King's County, in the said Island, Farmer, who, being duly sworn on the Holy Evangelists of Almighty God, deposeth and saith, that for a period of three years and upwards, last past, he, this deponent, hath been employed by the Honorable James H. Peters, the Agent of the Proprietors, to prevent trespasses being committed upon the Northern moiety of the said Township Forty-five, and in such capacity he had caused several persons, viz: Hugh Mackay, Malcolm Mackay, William Morrison, Allan Macdonald, John Maclean, Donald Macphee, and Donald Macdonald, all of Township No. Forty-five (45), in the said County, Farmers, to be convicted for trespassing on said moiety of the said Township No. Forty-five (45): that subsequently, viz: two or three days before the Seventeenth day of March, instant, one Joseph Macaulay, of Township Forty-five (45), Farmer, came to this deponent's house, and, in a threatening and angry manner, told deponent that he should not reign long—meaning, as deponent believes, that he should not long continue in charge of the said property: That on the said Seventeenth day of March, instant, about the hour of three o'clock in the afternoon, one Martin Haney, Blacksmith, who had formerly lived in a house on Lot No. Forty-five (45), and who had been ejected therefrom, and who was then living in a house of this deponent's, adjacent to the house in which deponent resided, came to this deponent, and told him there were five hundred men coming up the Road, and advised him to go into his own house. This deponent accordingly did so, when the said Martin Haney followed deponent to his door, and placed his arms in the opening of the doorway, with the intention, as deponent believes, of preventing his closing the door, and remained in that position until a crowd of people, to the number of two hundred, as deponent believes, were approaching the house; that deponent then told said Haney, that if he did not leave the doorway, and enable deponent to close the door, he would shoot him; and the said Haney then left the door, and deponent closed and fastened it: That amongst the said crowd was the before-named Joseph Macaulay, who, after a loud cheering in a riotous manner by the people, came up to the window, and called out "Macguire, are you there?" to which deponent, from within the house, replied, "I am." The said Joseph Macaulay then said, "Do you recollect what I promised you, the other day? I am come to make my words good to you." This deponent then presented a musket through a broken pane of glass in the window, saying, "If that be your intention, you shall be the first that shall fall." The whole party in front of the house retreated to the Road and round the house. The crowd then again approached deponent's house in a more quiet manner, and one of them, named Roderick Macdonald, who resides on Township Forty-three, told this deponent, if he would come out quietly, and give the before-named Martin Haney possession of the house, from which he had been ejected as aforesaid, no person should injure him. Deponent replied, there was no necessity for his giving possession of said house, as it had been broken open the previous night. That then one Angus Macdonald, of Big Pond, Lot Forty-five, who was in the crowd, said "Kill the buggar; he is not fit to be left alive." Another person in the crowd, who is at present unknown to deponent, then called out, "Bring a firebrand, and burn the house," when a person, to deponent unknown, came out of the house occupied by Martin Haney aforesaid, with a brand of fire in his hand, crossing the window of the house in which deponent then was. This deponent then called out to the said last mentioned person, "This is your last chance—if you advance another step, I will shoot you," at the same time presenting the musket at him through the window. Some person in the crowd then shoved back the man who had the firebrand in his hand towards the house occupied by said Haney. Deponent then heard several persons in the crowd, unknown to deponent, call out to "tear down the House;" that thereupon three persons got out on the top of deponent's house—two of them were Donald Mackillick, of Lot Forty-five

Road, and Joseph Macintyre, of Lot Forty-four—the third being unknown to deponent. This deponent then presented the musket at them, and threatened to shoot them, unless they came down, and they then came down; that the before-named Martin Haney then came out of the house occupied by him, with his jacket off, and called out to deponent, "Where is Peters now, you buggar, or any one who will take his part?" Deponent replied, "Haney, you should not treat me that way; you know I stood your friend when you were dispossessed, two years ago; I opened the door again, and gave you liberty to go in; and when you were dispossessed this year, I let you into my own house, and I also gave you liberty to put up your forge in my house." Haney, addressing himself to the crowd, said "Do not believe him; he never did me any good; he only injured me; and it was deponent and James Hennessy brought me into this, telling lies on me to Mr. Peters, ever since they knew Mr. Peters." Haney's wife made answer from the house, "that if Macguire's house or himself should be injured, she would lose her life, as he was her nearest friend in the time of need." One of the persons in the crowd, unknown to deponent, made answer and said, that "it appeared Haney was speaking wrongfully of deponent, as it was plain to be seen that he, Haney, was occupying deponent's house." Deponent was then asked by the before-named Roderick Macdonald, and also by one Archibald Macphee, of Naufrage Marsh, to come out of the house, and give possession to Haney of the house from which he had been ejected, and that they would protect him there and back from injury: That this deponent, feeling convinced, from the violence and threats of the crowd, that his life and property were in danger from them, consented to accompany them to the said house, formerly occupied by Haney; and on the assurance of the said Roderick Macdonald and Archibald Macphee, of protection as aforesaid, left his own house, and with the said Macdonald and Macphee, followed by the crowd, proceeded to said house, from which Haney had been ejected—a distance of about Twenty-two chains, and unlocked the door, and went in accompanied by ten or twelve of the crowd. This deponent, in returning to his own house, met a part of the crowd, most of whom were carrying sticks of fire-wood belonging to deponent towards the house formerly occupied by Haney; that this deponent then entered his own house, and fastened the door, when one Allan Macdonald, of Big Spring, Lot Forty-four, said with an oath, that if deponent would not give up his office, he would be killed before that day week; that one John Macdonald, of Big Spring aforesaid, son of Angus Macdonald, then asked deponent if he would take an oath to give up his office, when deponent replied, he would take no oath for any man in the assembly or crowd, nor unless he was compelled by law to do it, and the said crowd shortly after dispersed:—And this deponent further saith, that the stakes which had been placed to mark off various wilderness lots on the said road, by Mr. Gall, Land Surveyor, employed by Mr. Peters for that purpose, were pulled up by the said crowd of persons, and many of them were thrown in heaps in front of deponent's door: And this deponent further saith, that amongst the persons present, and taking an active part in the riotous proceedings of the crowd, besides those herein before named, he recognised Donald Macaulay, of Black Bush, Lot Forty-five; Ronald Maclean, of Big Pond, Lot Forty-five; Charles Maclean, of Big Pond, Lot Forty-five; Alexander Macdonald, of Lot Forty-five, son of James Macdonald; Dallas Macdonald, his brother; Alexander Macgilvray, of Lot Forty-four; John Macisaac, of Line Road, Lot Forty-five; Daniel Macisaac, of same Road; James Riley, of the Line Road aforesaid; James Macdonald, commonly called "Laddie," of the same road; Donald Smith, of same road; Donald Maclean, of same road; Michael Morrison, of Black Bush, Lot Forty-five; Donald Gillis, of Big Spring, Lot Forty-four; Richard Hayes, of Hay River, Lot Forty-four; Joseph Macphee, of Bear River, Lot Forty-four; Allan Macdonald, of Red Swamp, Lot Forty-five, and John Macdonald, his son; John Maceachern, of Crooked River, Lot Forty-four, a constable of King's County; Donald Macdonald, of Lot Forty-five, commonly called "Dunk;" ——— Macdonald, a brother of Donald Macdonald, Esquire, one of the Representatives for King's County, commonly called "Hero;" Hugh Mackay, Malcolm Mackay and James Mackay, all of Lot Forty-five; Neil Maclean, son of John Maclean, of Big Pond, Lot Forty-five; John Arnold, of Big Spring, Lot Forty-four, and John Macphee, son of Donald, of Big Pond, Lot Forty-five: And this deponent further saith, that on Friday afternoon last, the Twenty-fourth instant, he left his own house, and proceeded to Souris, to William Macgowan, Esquire, J. P., having received a message from him for that purpose, where he remained all night; and on the following morning, he received information from one of the neighbours that his house had been burnt during the previous night, having been wilfully and maliciously set fire to and burned, with every article belonging to him therein, by some person or persons, as this deponent verily believes; and which wilful and malicious burning took place during the night of the day week that he had been threatened by Allan Macdonald, hereinbefore mentioned, that his life would be taken, unless he resigned his office in a week from the time the threat was made.

Charlottetown, March 23, 1843.

Sir;

I have the honor to enclose, for the information of his Excellency the Lieutenant Governor, a statement made by Lawrence Macguire, before William S. Macgowan, Esquire, Justice of the Peace for King's County, and substantiated by the Affidavits of myself and Mr. W. Gall, setting forth the disturbed state of the Northern Section of King's County.

And I beg leave to submit the necessity of some prompt and decisive measures being adopted against the parties implicated, in order that a stop may be put to such violent and illegal proceedings—there being no civil power that I can depend upon within the County to enable me to effect that object.

I am, &c.

To the Honorable,
T. H. Haviland,
&c. &c. &c.

(Signed) JOHN MACGOWAN, Sheriff of King's County.

(Copy.)

John Macgowan, High Sheriff of King's County, and Lawrence W. Gall, Land Surveyor, severally make Oath and say: And first, this deponent, John Macgowan, for himself, sayeth, that he was present, and did hear Lawrence Macguire make the statement contained in the annexed paper, marked (A.), to William S. Macgowan, a Magistrate of King's County; and this deponent further saith, that he, this deponent, verily believes the statements therein contained, he, this deponent, having received messages warning this deponent not to act in his official capacity in any process relating to land: And these deponents, John Macgowan and Lawrence W. Gall, further say, that the said Lawrence Macguire did further inform these deponents that Martin Haney, in the said annexed statement mentioned, was among the persons attacking the house of the said Lawrence Macguire, and was active in the riot in the said annexed statement mentioned; and these deponents further say, that the only reason why the said Lawrence Macguire did not swear to the said annexed statement was, that his life had been threatened by the rioters, in case he made an Affidavit; and these deponents further say, that they verily believe that the said Lawrence Macguire's life would have been endangered by the said rioters, had he made Affidavit to the said statement; and these deponents further say, that the said Lawrence Macguire is now residing at Souris, on Lot 45 Road; and these deponents further say, that they have heard and believe that the said Martin Haney is now or shortly expected in Charlottetown, and unless immediately apprehended, will probably escape.

(A.)

Statement of facts, as related by Lawrence M'Guire before me, William S. M'Gowan, the Twentieth day of March, 1843:—That on the Seventeenth day of March (instant), a number of persons belonging to the North coast of this Island, amounting to about two hundred, came to the residence of the said M'Guire; and upon a portion of them in advance, headed by Joseph M'Aulay, arriving there, the said M'Aulay, together with the party, left the road and came to the window of the house, when, addressing himself to M'Guire, he (M'Aulay) asked him if he recollected what he had promised him at a previous time, and also that he had come, assisted by those present, to fulfil that promise, which was, that he should not reign long, referring to his being protector of Mr. Cunard's property; that having previously understood that an attack was premeditated by all the persons who were to attend a political meeting to be held at Big Pond that day, in the house of Donald M'Phee, in consequence of his (M'Guire) having been instrumental in fining some of them for trespass, he had been prepared with two muskets, one of which he presented at M'Aulay, through the window at which he was standing, and said that if that was his intention, he should be the first to fall. On hearing this threat, the whole party fell back to the road, where the whole had by this time arrived; that John M'Donald and Allan M'Donald then stated severally that if he did not immediately resign the protectorship of Mr. Cunard's property, he (M'Guire) would be murdered before that day week; that a person whose name is unknown to him came from an adjoining house, owned by him (M'Guire), and occupied by Martin Haney, with a brand of fire in his hand, when word

was given by several persons in the crowd to burn the house; that he (M'Guire) then presented the gun out of the window, as before, and told him his only chance was to go back, or he would shoot him. He (the person with the firebrand) was then taken hold of by Roderick M'Donald, who desired him to return with the fire and put it where he brought it from, stating, at the same time, that no person should injure him (M'Guire) or his house. The said Roderick M'Donald then asked him to go and give them possession of a house on the Road from which Martin Haney had been ejected. He stated that there was no necessity for his going, as the house had been broken into the last night. He (M'Donald) then said he had better go and open the door, as it would prevent further mischief; whereupon he (M'Guire), after being assured of protection by the said M'Donald and Archibald M'Phee, went and opened the door of Haney's house, when he (Haney) was by the mob put in formal possession of the house. He (M'Guire) then returned to his own house, when he found a number of the party employed carrying away his firewood to Haney's residence. He was then asked by the said Roderick M'Donald and Archibald M'Phee to come out of the house to answer some questions, one of which was, would he give up his office? That John M'Donald, of Big Spring, asked if he would swear to resign? This, however, he refused to do. The stakes which had been placed to mark off the various Lots upon the Road by Mr. Gall, a Land Surveyor employed by Mr. Peters for that purpose, were pulled up by the mob, and numbers of them piled in front of his door.

I certify that the above named M'Guire declined to make Affidavit of the above statement, unless a sufficient guarantee be given that himself and his family receive protection, as the most violent threats have been made use of, if he should.

WILLIAM S. MACGOWAN, J. P.

Souris, March 21, 1843.

In addition to the foregoing information, a letter was addressed to the Lieutenant Governor, by three of the inhabitants of the Northern Section of King's County, through Donald M'Donald, Esq., the Representative of the First District of that County, in which the writers "justified resistance even unto blood" of any force which might be sent against them. This letter has unfortunately been mislaid; and under the supposition that it had been placed in the hands of the Solicitor General, the accompanying documents were delayed until the return of that Gentleman from New Brunswick. He has since searched among his papers for it: he remembers having seen the letter alluded to, but has no recollection of its having been placed in his custody.

T. H. HAVILAND, Secretary.
