

GRANDPA'S BARN.

Oh, a jolly old place in grandpa's barn. Where the doors stand open throughout the day. And the air sweet with the fragrant hay.

The Garden party held at the residence of Mr. Ferguson on Tuesday evening was well attended, and a very pleasant evening was spent. An unusually good program was furnished. The choir of the Ladies Aid Society of the C. M. Church was appreciably enhanced by the proceeds.

As will be seen by advertisement, the Mammoth China Hall and Grocery has been purchased by Mr. John Jacques, who solicits a continuance of the patronage which he has heretofore enjoyed.

The business will be under the management of Mr. G. H. Spence.

BEWARE OF PICKPOCKETS.—It may not be amiss for citizens and others who may be on a little excursion during show day, as hard characters are generally to be found accompanying circuses, and an exhibition of the magnitude of the same is not likely to prove an exception. A word of warning may therefore not be out of place.

INTERMEDIATE EXAMINATIONS.—Between twenty and thirty candidates are writing for the intermediate examinations, which are being held this week in the Listowel High School. Mr. Alex. Walker is conducting the examinations, he having received his instructions and papers from Mr. Alex. Walker, the Inspector. The examination will close to-day.

ROSE WALKING.—A bohemian calling himself Prof. Dare, amused a crowd of spectators on Friday last, by risking his neck performing a feat which he has never attempted across Main street in the vicinity of the Grand Central Hotel. His performance was ahead of the average roller skater, and his skill in passing around the hat was worthy of a better cause.

CIVIC HOLIDAY.—By resolution of the Town Council, Thursday the 5th of August has been fixed upon as a Civic Holiday. His worship Mayor Scott will issue his proclamation in accordance. The Council has wisely decided to let the matter of observing the day, which will be held by the railway companies as to whether our citizens will take an outing at all on that day.

QUEEN ESTHER.—We trust that as many as possible will endeavor to go and hear the Oratorio of Queen Esther, which will be rendered by Mr. J. W. Ward, with a large company of amateur vocalists, in the Osborne hall this evening. Mr. Ward has presented this beautiful work with marked success. In the rendition this evening he will have the assistance of some of the best local talent of the town, who will no doubt acquit themselves with credit. To all therefore who desire to be highly entertained, we would say, go and hear Queen Esther this evening.

REGISTRATION RETURNS.—Following are the registration returns of births, deaths and marriages for the town of Listowel, June, 1889: Births 46; Deaths 22; Marriages 18; Total 86. The number of births, it will be observed, is more than double that of the deaths, which indicates that the population of the town is increasing. The death rate, notwithstanding the fatality of the epidemic which prevailed during the early part of the year amongst children, is not large, and indicates that Listowel is a comparatively healthy place.

The Industrial World and National Economist is the title of a new weekly publication which has made its appearance at Ottawa. From the initial number, which is before us, we learn that it is to be devoted to home industries, commerce, finance, insurance, railroads, and mining. Its motto is, "Home Industries and National Policy for Canada." In advocating a National Policy it proposes to do so irrespective of party bias, "leaving purely political questions to other hands, it will address itself to the more pressing issues connected with the country's progress, commercial and industrial." Considerable ability is displayed in treating the various topics discussed in the first number, and we have no doubt that the Industrial World will find favor with the intelligent classes of the Dominion. It will be published weekly, the subscription price being \$3 per annum.

CANADIAN MONTHLY.—The Canadian Monthly for July presents the following table of contents, which will doubtless be highly relished by its numerous readers:

Commercial Union with the United States; The Italian Boy, a poem; A Three Weeks' Fishing Trip to Muskoka; The Memory of a Song; The Toronto Girls' Coteries; Kee-Ching-ah-tik, an Indian ryming legend; Well Whittman and his Poems; Canada, our Home, a poem by the author; Marian's Miseries, a story of the period; The Cry of Cain, a poem; The Moral Nature, a review; Estelle, a story by Mrs. E. M. Bennett; The Idyl, Just for Fun, a novelette; The Voice of Many Waters; In the North-West with 'Sitting Bull'; Woman's Love, a poem; Mr. Le Sueur and his Critics; Sheila, a poem; The Financial Situation in Canada; Theological Students and the Times; Round the Table; The Ontario Art Society's Exhibition; Literary Notes; Music and the Drama; Book Reviews; A Bird's View.

AN ELMA GRANGER IN TROUBLE.—Mr. Robert Forrest, a wealthy farmer of Elma, and a stockholder and partner of the Elma Cheese and Butter Manufacturing Company, was brought before Justice Clinie, Scott, Cleland and Bolton on Tuesday last, on a charge of larceny from the Elma Cheese and Butter Manufacturing Company, charging him with sending milk to the factory which had been adulterated and depreciated with water. The case was heard in the town hall, here, and naturally created no little interest. Mr. Terlums, conducting the defense, and Mr. Dingman, retained by the defendant. A large number of witnesses were called, including the President, Directors, Cashier and milk driver of the Company, also the defendant and members of his family. The evidence of the President, Mr. John Horvath, and the milk driver, Mr. Wm. Harris, went to show that the milk sent to the factory by Mr. Forrest was pure, and for several years past on 30th of June, and for several years previous, contained about 20 per cent. of water, as indicated by the lactometer, which had been used for testing it during the time above mentioned. The President, in company with the cheese maker, and Messrs. Dixon, Porter and Lochhead proceeded to the Elma Cheese and Butter factory on the 30th June, and after the cows had been milked and the milk cooled, they tested it when they found it to stand at 100, the standard of purity indicated by the lactometer. The milk, which was produced in court, showed that the amount of milk, including the water which it contained, sent to the factory on the last two days in June, was 208 and 214 lbs. respectively, while on the first three days of July (after the water had been detected) it dropped to 252, 259 and 256 lbs. respectively. The milk shows that for some time previous to the time of testing, the water had been added to the milk delivered since the testing had shown the milk to have reached the standard of 100. In the course of the examination, the cheese-maker stated that he had heard of cases where milk which had not been tampered with after coming from the cows had failed to reach the standard of purity by some 6 or 8 degrees, owing to the impoverished state of the cattle; but he had never heard of any such case at that point. The defendant was not concerned in any other witnesses, who were of the opinion that the condition of the cows would not affect the purity of the milk as indicated by the lactometer. For the defense, Mr. Forrest, his wife, son and three daughters testified, and they had no knowledge of the milk having been watered, each severally denying having watered the milk, and asserting their ignorance of any adulteration. The case was adjourned for Tuesday evening until Wednesday morning, when it was resumed at 9 o'clock, the examination occupying the court until 4 p. m. The court decided that the milk had been watered, and that Mr. Forrest was responsible for the adulteration. The court decided that the milk had been watered, and that Mr. Forrest was responsible for the adulteration.

DOMINION DAY.—The celebration in Listowel of the anniversary of Confederation, which is observed with comparative quiet this year. The day was observed as a general holiday, and our citizens sought various ways of enjoying themselves. Clearing the air of the various attractions at other places induced a number to go abroad, while those who remained at home were not without amusements by the G. T. R., which will leave Listowel depot at 8.15 a. m. The return fare from here will be 75c. Small houses to rent at \$2 per month. Cows to closed up, buy a pack lot, at \$100 per acre, and have a pound of your own.
