that they are in England. Indeed, the great bulk of the French lower and lower middle classes, like the peasantry and the bulk of the working classes in Scotland, are vegetarians without being conscious of it, and probably more from necessity than choice. The Paris society has been founded by Dr. Hureau de Villeneuve, who, as he tells us, in an eloquent article in the Bulletin, became a vegetarian on account of repeated attacks of rheumatism, from which several of his ancestors had died. After some years of exclusively vegetarian regime, the Doctor has got rid of all traces of rheumatism, and his health is completely restored. In his article he presents the usual, and some additional, arguments for vegetarianism with much force, maintaining that on his system, and with due attention to exercise, we should be healthy, strong, vigorous and intelligent. Many men, he points out, notable for their moral and intellectual energy and physical vigor, have been vegetarians; among others Pythagoras, Plutarch, Newton, Milton, B. St. Pierre, Franklin, Monthyon, who all lived to an old age. President Lincoln, he tells us, whose stature was gigantic, his muscular force colossal, and his energy indomitable, eschewed all animal food. The moral seems to be that such man ought to find out what suits himself; no doubt vegetarianism, with which M. de Villeneuve includes milk, butter, cheese, and eggs, would make life much brighter for many dyspeptics and rheumatics.

The North Star. CHATHAM, NB, MAR. 30, 1881. J. E. COLLINS, EDITOR ENGLISH NEWS.

Wild swans are rare in England, but Gen. F. W. T. Burroughs, C. B., and keeper shot two fine specimens the other day on Wahuster Loch, Orkney. The largest bird which fell to the General's gun, was five feet long, seven feet seven inches from tip to tip of the wings and weighed seventeen and one-half pounds.

COLORADO BEETLES.—An English farmer who had emigrated to Canada returned not long ago, taking with him as great curiosities about twenty Colorado beetles. Some of them escaped, and the farmer was fined \$5 for allowing them to get away. The matter has been made the subject of an enquiry in the House of Commons. The people in the vicinity where the beetle took place have hopes that the beetles have either starved to death or are all back- elors.

The great struggle over the admission of women to University examinations has resulted in an overwhelming victory for the ladies. At the congregation held on Thursday afternoon, the grace confirming the recommendation of the Syndicate were carried by overwhelming majorities, the first being carried by 398 votes to 82, the announcement of the numbers being received with immense applause, in which the ladies present joined.

The greater part of the walls of the ruined castle which for centuries has dominated over the little borough town of Launceston, in England, the other day fell to the ground without any previous warning. Antiquaries have long speculated as to the date of its construction, and many of them have professed to find in the remains some traces of Roman work. For many generations a part of the building was used as a prison, and within its walls were confined some of the enthusiastic whose religious opinions had been obnoxious to the Government of the day. Under the Government of the Commonwealth, George Fox, the Quaker, was subjected to eight months' imprisonment in a "noisome den."

SCOTCH NEWS. FALL OF AN ANCIENT LAND-MARK.—Tourists by the Loch-awie route this incoming season will fail to have a look at the immense monolith that stood quite close to the coachway near Loch Ederine. This monolith which has stood the brunt of storms for probably 3,000 or 4,000 years, snapped about 4 feet from the ground last week, and the upper part now lies stretched in the field.

FARMS AT RUINOUS RENTS.—An Aberdeen farmer writes that half the farmers in the district would be glad to be allowed to leave their farms. Their leases are proving their ruin, as it is

impossible to keep up their rents. The writer took a lease of a farm 15 years ago, and invested £2,300 in it. He lives on £80 a year, and works with his men; but if he left to-day he would not take £1000 out of the farm. The rents are now from 30 to 40 per cent. too high. BARBAROUS WARFARE. An Austrian officer in the service of Persia writes respecting the conflict between the Persians and the Kurds: "Every kind of cruelty was resorted to. Villages were burned, women, old people, and children were killed promiscuously. The writer of this letter passed through sixteen burning villages in a single day. Herds of 1,000 sheep and 500 cows or buffaloes were taken and driven away, and the shepherds either murdered or sent into slavery. The soldiers, being badly clothed and badly paid, felt justified in plundering where they could. The Australian officers with great difficulty managed to keep their troops in order. The weather with its rainfalls and snow storms, was so very inclement that a great many of the Persian troops succumbed. In the old regiments 400 men died.

REST AND COMFORT TO THE SUFFERING Brown's Household Panacea has no equal for relieving pain, both internal and external. It cures pain in the side, back or bowels, sore throat, rheumatism, toothache, lumbago and any kind of pain or ache. It will most surely quicken the blood, and how its acting power is wonderful. Brown's Household Panacea, being acknowledged as the greatest pain reliever, and of double the strength of any other Elixer or Liniment in the world, should be in every family handy for use when wanted, as it really is the best remedy in the world for cramps in the stomach and pains and aches of all kinds and is for sale by all druggists at 25 cents per bottle.

MOTHERS! MOTHERS! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's soothing Syrup. It will relieve the poor little sufferer immediately—depend upon it, there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe in all cases, and pleasant to the taste, and is the prescription of one of the oldest female physicians and nurses in the United States. Sold every where at 25 cents a bottle.

A RUSSIAN STUDENT DEVOURED BY WOLVES. Alexander Vassilvitch Elissavief, a medical student, the author of many articles that have from time to time appeared in Russian journals, and an indefatigable student of the ancient province of Novgorod, arrived on the 11th inst., on the estate of a Mr Vassilief, in Old Russia, in order to hunt wolves. He was desired to stay the night at the house, and not to face the dangers of the chase alone. To this he agreed, but when Mr Vassilief, who had been obliged to absent himself during the day, returned in the evening, he learnt that his guest had left the house about four o'clock in the afternoon. His return was looked for from hour to hour, but the whole of the night passed without his arrival. On the following day, toward evening, a peasant brought the intelligence that the young man had been torn to pieces and devoured by wolves. When a search was made the snow was found to be covered with bloodstains, and scattered around were pieces of clothes and hunting appurtenances. Not far from the place were found several large bones, and the stock of the student's gun, with the barrel broken off in the life and death struggle which he had evidently maintained with his numerous foes. The many wolf tracks and blood stains all around showed that a severe struggle had taken place, and that several of the animals had been killed and devoured by their fellows.

THE MIRAMICHI RAILWAY.

It is talked of pretty freely around the town that the Miramichi Valley Railroad has again become a live issue, and that men of means and enterprise are giving thoughtful consideration to the subject.

There is a gentleman, not belonging to our county but belonging to New Brunswick, who has also taken a very active interest in the matter; and there is still another gentleman, also not of our county, who undoubtedly will take an interest in the movement, if indeed he does not become the moving and the foremost spirit; and both these gentlemen have ample means, and no less enterprise.

It is more than we could do, and more than would be advisable at this early stage of the scheme to enter into details: we have only to say, that all we want here is to have the railroad built, no matter who builds it.

The country between here and Fredericton is well worth opening up, even at a heavy cost; but the Miramichi and Nashwaak Road would by no means be dependent on the local traffic.

THE CRUMBS.

Since the Helotiers seem so jubilant over small favors, we shall explain to our readers just the extent of their triumphs, lest they might mistake Grit smoke for fire.

The Government have taken six seats from the Opposition, the Opposition have taken one seat from the Government, and the Grit journals are jubilant.

The Liberals, to which party Mr. Anglin and his Freeman have condescended themselves raised the "no popery cry," and the war was carried to every hamlet and town, yes, to every farmers door.

and stab the peoples' preachers and recitantes, burn down their churches, and once more fill up their schools with "heathen toys."

"from the dome of Peter" thundered out something like a funeral dirge over the waters of the Tiber.

The Government has lost a member, but Holy Religion has gained a champion, so that if the Freeman and the Grits in general rejoice, we see no reason why we ought to mourn.

TOWN AFFAIRS.

(No. 7.)

Our fire department in 1879 cost the town \$1,283.46. The receipts that year were \$1,616.10, so that there was a balance in hand of \$332.64.

The published accounts do not give the details of the expenditure of the \$1,015.41, so we can not tell whether it has been judiciously spent or not.

As to the management of the fire engine we will not say much just now. The gentleman who had charge of it up to a recent period was thoroughly competent and we trust his successor is equally so.

While speaking of fire matters we may say that the steam fire pump in connection with Mr. Snowball's mill is of great benefit to that establishment, and to that portion of the town.

We presume that the balances in hand are invested in some institution at interest; but the published accounts do not say so, and we find no credit for any interest from the \$362.64 on hand last year.

The blundering of the War Minister in the case of Col. Maunsell's removal from Fredericton is unexplainable. The necessity for the proposed removal in the first place was hard to see; and the justification to allow a gentleman to rent a house in Ottawa, break up his household in Fredericton, and then tell him he was to "await further orders," in the latter place is still harder to see.

AN UNFORTUNATE AFFAIR.

It is our painful duty today to inform our readers that our contemporary the Advocate is displeased with the Northumberland members for voting against Hon. P. A. Landry's sentimental resolution.

On the temperance question the Advocate is very influential in this county. It got in its "temperance man" at the last councillors' election at the head of the poll!!

"Proud Northumberland weeps at her position today in the Commons," is the truthful and well expressed remark of a correspondent.

Another falsehood furnished the Government press from Ottawa is that Sir A. T. Galt is soon to return and be Finance Minister.

Mr Parnell proposes to convert the various Home Rule elements in England into a land league.

The Sultan and the Shah of Persia, has some mysterious correspondence between them.

Count Pecci, the Popes brother, is dead.

EDITORIAL GLEANINGS.

Wilkie Collins' latest contribution to second class literature, is "The Black Robe," a novel now being published in serial form in the Canadian Monthly.

His latest book, as we have said is "The Black Robe." It is an immoral story, founded on the authors vulgar portraits of the Jesuits.

MR. NICHOLAS FLOOD DAVIN.

The best essay we have ever seen in a Canadian, perhaps in any publication is in the last number of the Canadian Monthly from the pen of Mr. Davin.

He describes Sir Charles Tupper as a powerful speaker, and says the name of Mr Blake; but he says both make their speeches too long; that Sir Charles Tupper will hurl words at the enemy while ever a rib of their fabric stands, and that the "ure of a technicality" is too strong for Mr Blake.

speeches. You would think he says, listening to these two gentlemen, that they were entirely innocent of ever having read a book, their speeches being utterly wanting in literary tissue.

It is so good, so true, so well timed, so home-striking, that it cannot but bear the fruit intended. Speeches in the House of Commons are fast degenerating into harangues, and besides those leading members who carry their speeches too far there are a number of others who seem to have lost sight of the object of speeches, and this is why you read the speeches of a dozen of such members over and do not meet a new idea, hardly a new fact in them.

We commend the letter of "A." our Alnowick correspondent to our readers. We shall refer to it more fully in another issue; for it takes the ground completely from under Mr. Snowball's Session's work!

The Carleton Election took place to day. The Grit is doomed there.

Mr John Costigan, M. P., leaves in a few days for the North West, where he is likely to remain during the summer. Hon John O'Connor still continues to draw his pay as Secretary of State.

Yourselves by making money when a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need, free. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address Kingston & Co, Portland, Maine. Des20-wly4m.

LOCAL MATTERS

Buoys. Captain A. Brown is fitting up the Miramichi buoys for the next season's service. He intends taking the heads out of them, etc.

Ice Houses. The wild goose shooters at McLean's Gully have put up a number of ice houses in which they screen themselves when awaiting shots at the wary game.

Shooting. Numbers from various parts have gone down river, wild goose shooting. Each day brings additional flocks of the anser Canadensis to the shooting grounds.

Change of Lights. One of the Preston beacon lights which are six miles from Escuminac up the bay is to be shifted 200 yards from the other, for the benefit of mariners.

Matrimonial. On the 26th instant, at the residence of Miss McCully, by the Rev. Geo. Howell, Mr. G. Y. Mercereau was married to Miss Florence A. Steves of Summerside, P. E. I.

Mill Wanted. There is an excellent place now in Napan for an enterprising person with a little capital. For Napan has not yet a grist mill, though it raises not less than 20,000 bushels of oats in a season, and a large quantity of other grain. The nearest grist mill is 14 miles away.

Shingle Factory, etc. It is said a shingle factory will soon be established at Burn Church. Last week a carload of shingles was purchased from Messrs. Millan at Carleton Station by Newcastle parties. Shingle making is the chief industry in winter among the people of Kouchibouguac.

To Correspondents. "A Subscriber" sends us an entertaining communication without enclosing the name of the writer. We do not publish communications unless we have the writers name; and so subscribers will write communication cannot appear.

Farming and Cranberries. Mr. Stephen White who is clearing an extensive farm lying between Escuminac and Point Sapin, will also give cranberry culture a trial this summer. Near his farm is a large cranberry marsh which yields about a thousand bushels of berries each year. He will cultivate a portion of this.

The "Favorite." The "Favorite" is the Scandinavian vessel that was caught in the ice last fall—owing somewhat to the Captain's obstinacy, and his ignorance of the danger delays are to shipping here when the cold north winds begin to pipe over our hills. The vessel is being repaired now by Mr. Sinclair; and she has sustained some damage.

Movements of the Legal Profession. Messrs Davidson of Newcastle have established their office in the old post office. Mr. A. H. Johnson has moved into the McLaughlan building, Water Street. His Honor Judge Wilkinson has vacated his Chatham office, and established his chambers at his residence, Bushville.

So Place Like Home. Mr. John Wilson who left here some time ago for New York where he proposed to settle, will come back, and his favorite song is "Home sweet home, there is no place like home. Be it ever so humble there is no place like home."

He has very sensibly purchased the Walsh and Keloe farms in Douglasfield, converted the two into one, and settled down to what promises a successful future. Mr. Wilson is having a new barn and other improvements made upon the premises, and will take charge in person in a few days.

As Others see the "Star." Says the Thunder Bay Sentinel, N. W. T., in a late number, "NEW BRUNSWICK."

As sprightly a paper as we could name is the Star published by J. E. Collins, at Chatham, N. B. It is Conservative to the backbone and is just now occupied in denouncing the action of one James B. Snowball, M. P., in running off to England just as the debate on the U. P. Bill came up in the House of Commons, and did not return until it was over. In its issue of January 24th it has erected a table "in honor of the memory of James Snowball, who is dead in this country." In the same issue it has this to say of the editor of the New Syndicate:

We feel like introducing a number of other quotations but want of space forbids. Every paper is bristling with epigrams and for the want of one dollar per year. It is well worth the money.

Lumbering. On Barnaby River has ceased for the season. Michael Gratton, Esq., who lumbers there got out up to date, 500,000 feet of logs and 150 ton of birch and ash timber. This stuff is for Morrison. Messrs C. & A. Fish of Newcastle, who also lumber there, got out about 600,000 each. They have also about 300,000 at Carleton, which will be brought to the Barnaby River by rail. Mr. Gratton has the contract for driving this stuff, and will employ 25 men. He offers from \$1 to \$1.75 to drivers.

The ice down the Barnaby River boom is broken up.

The ice is getting more unsafe every day. In some places it is not more than five feet thick, and it is generally believed it will break up by the 15th of the coming month. It started some days ago at Fredericton; and now the robins are singing in the Celestial city.

New Grist Mill. Mr. C. A. Landry who owns a saw mill at Bel River, will soon put up a grist mill in connexion with it. When the road to Escuminac is completed he will not lack grist for his mill. Mr. Henry O'Leary of Richibucto, will be interested in the new enterprise.

In the Ice. A horse belonging to a Tracadie Acadian got in the ice opposite Senator Muirhead's mill Monday, but was not drowned. The same day a horse belonging to Mr. T. Williston of Bay du Vin, very appropriately broke through the ice at Point Chev, but was not drowned either.

By Industry. We do not know whether the North is a good place for frogs or not, but if it be we have only to say that gathering and saving the reptile would prove a profitable business. Eugene Blackford, the great New York fish dealer, tells a correspondent that New York consumes today more frogs than Paris. "We frequently sell to our own customers 200 pounds of frog legs a day. They are on the bills of nearly all our hotels and restaurants, and are in great esteem among epicures. Anybody can eat them, for they are just like chicken, in that they have no peculiar taste." "Where do you get your frogs?" "Mainly from Canada, where they are raised in great quantities for city markets. Three frogs will furnish a pound of meat; and we get 20 to 35 cents a pound, so it pays pretty well to raise them. We keep a large supply on hand all the time. They are caught in nets or with hooks baited with a bit of red flannel." Here is a suggestion!

Notes from the "Advocate." A young folks concert will take place in Dalhousie on Tuesday evening next, the 5th April. Proceeds in aid of the Presbyterian Church.

Judge Wetmore paid a high compliment to an address made before the court in Kent, by Mr. G. V. McInerney.

We understand that Dr. Jardine has received a call from Brockville, Ontario, and we regret to hear it is likely he will accept it. His many friends will feel sorry to learn of his intended departure.

Mr. M. Russell arrived home from Liverpool on Sunday week, having reached Halifax by the new steamer the Parisian.

Allan A. Davidson, Esq., Q. C., M. P., and his son Allen A., have entered into co-partnership under the style of Davidson & Davidson, with offices in Chatham and Newcastle.

It learns the following from a Jacques River correspondent:—About 11 o'clock on the night of the 22nd inst., the snow, which had accumulated on the roof of the Spool Factory slid off, entirely demolishing the engine house and breaking about \$500 00 worth of machinery. The proprietor had just completed putting the machinery in working order, and intended to begin sawing on the 24th, but it will be impossible to repair the damage done by the accident in less than a fortnight.

STAR BRIEFS.

—Mr Thos Flett is about building a large residence in Nelson.

—There are 35 men now engaged on Hon. Senator Muirhead's mill.

—Chatham S. of T., held a social dance in their hall last night.

—Mr E. A. Strang has been confined to his house the past few days.

—A large number of young men during the past week started up river for the drives.

—Mr Thos. Gower, moulder, of this town, is suffering from neglected erysipelas in his right arm.

—The ice on several parts of the river is reported bad, especially opposite the Miramichi Foundry.

—Mr John Hawd is engaged building five or six boats among which is a temporary ferry for Mr Haviland.

—Mr H. E. Thompson of Chatham, intends opening a Photograph saloon in Amherst, N. S., in a few days.

—Messrs Alexander Wilson & Co. will build two new boats for the lobster fishery at Escuminac, immediately.

—The tug St George has been made 2 feet 3 inches higher than last year. A new and large engine has also been put into her.

—The Millinery shop of Mrs. Thomas Noonan is being taken down. Mrs. Noonan will confine her shop to her residence.

—Mr John Haviland has again taken up his residence in Chatham, where he intends resuming his old business in a few days.

—A man named William Murray belonging to Belledune, Gloucester Co., had two of his fingers nearly cut off Friday last while working at Mr Muirhead's new mill.

—Mrs Wm. Fitzpatrick of Douglasfield, died in the Hotel Dieu Hospital on Friday last. This makes the third death that has occurred there this winter.

[Since writing the above we learn that a young man named Francis Goodby belonging to P. E. Island, died of typhoid fever in the Hotel Dieu Hospital last night. Deceased worked in the employ of A. H. Gillis & Co.]

—Hon Wm M. Kelly was in town yesterday.

—Street cleaners have not been at work yet.

—Several fronts are being improved and painted about town.

—Only one wild goose has made its appearance in the market yet.

—Mr S. C. McCully intends importing a quantity of limestone this spring.

—Messrs Lyons of Mill Cove, have commenced digging out of their beach for farming purposes.

ALNWICK NOTES.

Since my last letter Mr. Augustus Alain lost a fine young horse by the distemper, and being the only horse he had he was obliged to buy one immediately to replace his loss.

We have also been visited by human deaths. Mr Milem Savoy died on the 27th day of February last. The wife of Louis Commo, Madame Marguerite Commo, daughter of Mr. Damien Le-Blanc, formerly of Kent County, also died. Both died of consumption. And Mr. Deshier Caissy lost two of his family, both girls aged 1 and 3 years old. One died the day after the other.

As you are aware the census of 1881 will begin the fourth day of April next. I am informed that Messrs. James Stymiest, Jr., Romain Savoy and Joseph McNight are the three persons appointed enumerators to take census in Alnwick. But since, I am informed that Romain Savoy, Esq., C. C. resigned the position in favor of Mr. Euthrope Savoy of River des Cachees, who is a respectable young man, and competent for the office. The resignation being accepted, the recommendation of Councilor Savoy was kindly endorsed by Hon. William Muirhead, Senator; and Mr. Euthrope Savoy was then appointed enumerator.

I also saw by the papers that the Dominion Government was prorogued on the 21st instant, and having carefully examined the work of our representative in the Commons I find that he did not spend many days to represent his country; but instead of representing Northumberland he went to England to sell his goods. (I would like to know Mr. Editor if our member was paid in proportion to the time he attended Parliament or the whole sitting.)—[He tried to get pay for the whole sitting, but was refused; so with much grumbling he took about one fourth of the sessional allowance.—Ed. Star.] But before the House was prorogued, so his country would not think that our M. P. was quite dead yet he made enquiry about the Tabusintac Light, that is to say the Crab Island Light, and has a great deal to say about the said Light, which I hope the Government will not act upon. I ask one simple question to our M. P. about the old and new gully of Tabusintac. If the new gully is so good and so convenient for the navigation, why did our M. P.'s steamboats while towing his (our M. P.'s) rats last summer, use the good deep new gully? This alone will show to the public that praising up of the new gully is only a political dodge.

The new gully has changed a great deal since it has been opened, is constantly changing, and therefore is not certain to remain open. The old gully is the only gully fit to enter with safety at any time at present; the light keeper might be induced as far as personal interest is concerned to favor removing the light, as he owns the property where the new gully is made, and if a light were built there he could expect a handsome rent for his property. And as far as lighting is concerned it does not make any difference to him: as long as he remains the light keeper of Tabusintac Light, he would have to light it either at the old or new gully.

If Mr Snowball claim that he represents Northumberland County, why does he not enquire about Portage Island matter which belongs to the Dominion Government? Who authorized the parties who have lobster establishments there to cut firewood in large quantities for the use of their establishment on said Island? Ifancy he would be very careful to make no such enquiry as it would interfere with his friends and business. Can you inform me Mr Editor if these parties can cut all the wood there is on Portage Island without any authority? I think it is about time that the Dominion Government should take proper steps to stop the trespassing on said Island.

I remain, Yours, &c., A.

CANADIAN NEWS.

Says the Montreal Witness, on the action of Lord Jones, and Lady Lindsay & Co., in rejecting the annihilation bill. "The grandfathers of their country, in the Legislative Council of New Brunswick, have given the affirmative answer to the question, 'To be or not to be?' having thrown out the bill sent up to them from the Lower House providing for the abolition of their Chamber. Unless the Imperial authorities can be moved by a strong popular appeal to make the desired constitutional change, it seems as if the Governments of the three Provinces that possess these mimic lords' chambers will each have on the one hand to wait for the patriarchy to gently step out in due course of nature, and on the other to make an agreement with all aspirants to succeed them, that whenever the question comes up they will vote for abolition."

Exactly! The following interesting despatch is from Toronto:—Mr John Bodkin, a refugee Irish landlord, has arrived in the city and is stopping at the Queen's Hotel. He is the possessor of 2,500 acres of land in Kiloconey, County Galway, and was compelled to leave for a time. Mr Bodkin is a fine specimen of an Irish landlord. He is six feet five inches in height and weighs 250 pounds. It is his intention to visit Australia by way of San Francisco. To an interviewer he remarked Ireland at present is a good country to be out of. A despatch to the Montreal Witness says—It is highly probable that the candidate against the Conservative candidate in East Northumberland, because he was a Roman Catholic, had much if not a good deal to do with his defeat. The Witness is a good, religious Grit paper. During a recent row in St. John a young man named McDavid drew a knife and stabbed a girl named Mary Lewis. They are preparing for gasperaux fishing on the lower part of the St. John River. The Halifax Legislature is howling for its share of the fishery award. They have the garrison in Halifax, they will have the elevator there, and yet the yaro not satisfied. Perhaps they want Ottawa moved down!

Mr Z. R. Everett ex-candidate for the Fredericton Mayoralty is not going to the Fiji Islands just yet. When he does go, he will establish a shoe factory on the Island for the natives. You may say Zebbin is the very father of shoe factories in this Province. NORTH WEST NEWS. No papers coming to our office are more interesting to us than our North West exchanges. They tell us of villages and towns springing up almost as if by magic; and come from places where only a few years ago, the foot of the whiteman had never trodden. The North Shore Miner is now publishing the geological formation of Thunder Bay by Sir William Logan. The formation embraces it says, 1.—The Laurentian. 2.—The Huronian. 3.—Upper Copper Rocks.

The upper of these occupies principally the height of Lund; in the second are the Three A Silver Mine, the Jackfish Lake Gold and Silver Mine, the Heron Bay Gold and Silver Mine, the Mocon Valley Gold Fields, and others. In the third are situated the famous Silver Islet Mine, the Thunder Bay Silver Mine, the Duncan Silver Mine, the Prince Mine, the Spar Island Silver Mine, the McKellar's Island Silver Mine, the Silver Harbor Mine, the Trowbridge Mine, Thompson's Island, Mackenzie, and the Jarvis Island Silver Mine; there are also a vast number of other veins cropping out in numerous places in this series, all of them silver bearing, and but few have been developed. The Miner is as usual, brimful of valuable information on mines. We congratulate the Miner on having turned Volume I. FROM THE "SENTINEL." The Sentinel likewise published at Thunder Bay, and one of the best weekly papers that comes to our office, tells of three dogs attacking a Mr Thomas Smith the other day as he came out of the woods. It was about seven o'clock in the evening, and just getting dark. Mr Smith was on the Port William Road, near where it is joined by the new Oliver Road; he was not armed, did not even have a stick, nor was there one within reach, and he had to fight the dogs as best he could, at the same time calling for help with all his might; as the nearest house was almost a quarter of a mile away, of course no one heard him. The largest of the three dogs tried to catch him by the throat, and he had to exert all his efforts to keep him off; the smaller dog bit him in several places on the legs. No sooner would he get free from them than they would make another attack. A man came along with a sled, and Mr Smith, in sad plight fell upon it from sheer exhaustion. Some of its local notes are:— Whist match again to-night between Fort William and one of the home teams. A party of young men are going on a trip to Kababeka Falls tomorrow. Curling match this afternoon between the Port and Landing clubs. The ice crop has been gathered from Thunder Bay.

Peace negotiations are pending in the Transvaal. A despatch from Teheran says an attack upon Urmiah by the Kurds is daily expected. The Persians are unprepared for a renewal of hostilities. The son of Mayor Kallech who shot Do Young, editor of the Chronicle, in San Francisco last year, has been acquitted by the jury. Verily an editors' life counteth for nothing. A gorge of ice formed in the valley of the River Platte, Omaha, two or three days ago. The water dammed up behind it, in great volume, and bursting loose, swept the lower part of the valley, carrying away houses, and their inmates, cattle, public buildings, railways, etc. The loss of life and property is said to be very great.

SPECIAL!

For Xmas and New Year!

We would remind our customers and others that our stock

Fine Wines

is the largest and best in the Province, embracing as it does a variety of Wines to suit the taste of every class of consumer. Out Wines, Cognac Brandies, &c., are all direct imports. We do nothing with Mount peddlers and Jobbers. Our goods are personally selected, and coming from the shipper direct we are in the position—and the only position in which a merchant can with confidence guarantee age, character and quality—and give his customers pure and reliable wines, genuine Cognac Brandies &c.

Always in stock: a wide variety of best Wines, Brandies, Whiskies, Gin, Rum, Ale and Porter.
All the stocks are personally selected and of the best brands. Orders from outports promptly filled.
