

### WHO GAVE WEST NEW RAILWAYS

(Continued from Page One.)

It but this guarantee has not increased the taxes of the farmers.

**Income Tax.**—The Canadian Northern was built the Liberal government said one railway was 2,000, two was better, but three was better still.

When he had, four years ago, asked the people for their votes, he asked the votes so he might get the G. T. P. Then the surveys were not begun. Now there were over 1,000 miles of steel laid.

When four years ago he promised more railways the Conservatives said there would be none and it was surprising they had not more believers. He was proud of the confidence the people then placed in what he said.

Part of the G. T. P. is being guaranteed by the government. It does not cost the people one cent. Another part from Winnipeg to Montreal is being built by the government and it is for building that the Conservatives are finding fault with the government. So a vote for the Liberal candidate is a vote for the railway, a vote against the Liberal candidate is a vote against the railway.

**The Hudson's Bay Railway.**—But again the Liberal government say that the west wants still another railway—a railway to Hudson's Bay. Now what value will this railway be to the people of Stony Plain? Every cent it costs to put the Stony Plain farmer's wheat on the Liverpool market is a cent of the farmer's profit. The Hudson Bay railway will lessen the distance to Liverpool 1,000 miles. It will bring Stony Plain nearer to the English market than Winnipeg is now and this surely must be a great benefit to the farmer. This new railway will cost \$15,000,000 and it is for the people of the three prairie provinces to clearly show by their votes that they want it, for the western people do not support the Hudson's Bay railway and if the government is defeated there will be no Hudson Bay railway. The people are not voting for me, but for a Hudson Bay railway. Are you for it or against it? (Applause and shouts of "We want it.")

He had understood that a great deal had been said to the constituency of the improper management of the timber, the lands and the coal. He produced a pamphlet circulated by the Conservatives entitled Facts for the People. In it the statement was made that the public domain was looked, or in other words robbed. This statement was made on behalf of the opposition. It must be true or it must be false. The western people knew something about the way the government was

handling the lands for they lived on them. This book was a series of lies, a series of lies, not for the western people who themselves lived on the lands.

**The Conservatives' Inconsistency.**—The Conservatives when in power had control of all the lands in the country and they could deal them out to actual settlers or they might give them away to their favorites.

"The Conservatives," said Mr. Oliver, "during their term of office, gave thirty-two million acres to land speculators and six million to the settler. This is the record of the party that now says that Liberal government has looted the public domain (Applause.)"

"How much land has the Liberal Government given to speculators? Not one acre! How much land has the Liberal Government given to bona fide settlers during the twelve years it has been in power? In that time it has given to settlers free, on homestead conditions, tens of millions of acres. If the Liberals have looted the public domain they have looted it to give it to the settlers. The Conservative government not only gave thirty-two million acres to the railways but they reserved beside half of all this great country's land for the purpose of keeping it to speculate in either by favored railway companies or by favored friends of the government.

**Liberals' True Open Reserve Land.**—"When the mortgage pined upon the country by the Conservative government on behalf of the railways had been paid to the utmost cent, the Liberals took twenty thirty or forty million acres remaining of odd numbered sections to be disposed of as they saw fit. The policy of the Liberals in opposition and in power was 'The land for the settler.' The Conservatives say the Liberals broke their pre-election pledges. Let us see. When the government found they had this land at their disposal a bill was introduced to give the land to the favored few, yes, to the favored few, the settlers of Western Canada. When the bill was introduced in 1907 it was opposed by Mr. Foster who said it was looting the public domain because it was giving the farmers of the west too much land. And by the organized obstruction of the opposition the bill had to be held over until this year. On whose behalf? On the organized obstruction of the Conservative party in parliament against the bill. It was on behalf of the mortgage, loan and investment companies of the Dominion as shown by a resolution which was signed by many of these bodies. When these companies with their millions set those votes against the land bill it became evident who was for the speculator and who was for the settler (Applause). And in his organization Mr. Borden and his followers arranged themselves with the speculators. But in spite of these people, not investment companies in this transaction, but 'land sharks,' the bill came again before parliament in 1908 and the bill became law and the odd-numbered sections are now available to the settlers. The result is that the young men can get land near their parents, the settlers will have to make only one mile of road instead of two, there will be two sections to pay taxes for schools instead of one and there will be people to attend church and school where there were none before.

Did the people want these sections? Yes, they did. The Liberal government had been in power for 27 years and for a quarter of a century he had been representative of the district either in the territorial legislature or in the federal parliament and he had always done well by the constituency. He was highly pleased to see the large number of settlers present to indicate their interest in the administration of the Dominion.

**Conservative Dishonesty.**—"Honesty is needed in argument as well as in administration and where politicians before the people jockey for votes, they cannot expect to get it if they do not deal honestly with the people. The Conservatives while in power handed out to their friends 18,000 square miles of timber without compensation and without payment of a bonus. It is not fair to the people that they should have to do this at the time they did not when they charge improper conduct against the Liberal government for disposing of 4,500 square miles at an average of \$80 per square mile. They should have sold the timber at \$200 per square mile at the time they did. The Conservatives even then took no precautions to have the timber sold. The Conservatives gave away 18,000 square miles of timber and got 22 million feet in one year; the Liberals leased 4,500 square miles at great cost and in nine months had 111 million feet of lumber cut.

**Conservatives Made No Charges.**—"There have been insinuations that there was impropriety of action in disposing of timber but no responsible person has yet made a definite statement of impropriety (cheers). The parliament of Canada is the highest power in the land and its public works committee has ample power to fully investigate any charges. They made a full examination; they examined 500 original documents and there was not one little of evidence in support of their insinuations and the investigation was closed at the request of these very gentlemen themselves. And now they get about repeating in the country and in their printed statements they absolutely failed to substantiate when in parliament. If these people could not prove any part of those insinuations with every available means it is worth while discussing them further."

**Reseal Local Option Bylaw.**—The council have repealed the local option measure, and will submit it to a vote in January.

### TWO LEADERS OF REPUBLICAN PARTY

William J. Bryan Objects to Fighting Both Tarr and Roosevelt—He Also Takes a Whiff at the Standard Oil Company.

Buffalo, N.Y., Sept. 22.—The President has seen fit to give the Republican candidate another endorsement. It seems that I am running against two Republicans instead of one, and our platform is so plain and the purpose of our party is so plain that I am prepared to take the argument of one or both of them.

So declared Wm. J. Bryan, speaking here last night at Convention Hall which was packed by thousands, while the other was quadruple the number necessitating a brief overflow talk.

Mr. Bryan arrived at 7 p.m., after a hard day of traveling in New York State. He was given a hearty welcome here tonight by cheering throngs. Mr. Bryan made a number of speeches en route here. At Medina, N.Y., he said:

"You have two Republican senators from this state. One represented the express company, the other has represented the railroad companies, and both of them have acted together to betray the people."

Mr. Bryan gave his speech here and charged the Standard Oil Company with being the most constant offender against the law and morals. He accused it of "employing every form of oppression and having given a conspicuous corruption of officials and public opinion."

He has not yet imprisoned a trust magnate. Can he promise that Mr. Tarr would be more successful? "The two most trusts today when there were when he was inaugurated. Can he promise that the trusts would betray the people?"

The Democratic party has a plan Under this plan no corporation will be permitted to control more than fifty per cent. of the total product, and every corporation controlling more than twenty-five per cent. will be brought under the supervision of the federal government and compelled to conform to restrictions which will protect the public interest.

"By setting a limit to the greed of these corporations that aspire to monopoly, the Democratic party would protect the small competitor and the public. Would this be a calamity? The Democratic party would reduce the tariff beginning on goods competing with trust made goods and with goods that are sold abroad cheaper than at home. Would that be a calamity? Our party would continue our reduction by gradual stages until a revenue tariff is reached. Will the President say that it is a calamity? Does the President mean by 'calamity' that Democratic success would

### BORDEN AT LONDON.

His Hon. Mr. Attorney-General Borden, of B.C., and Premier Roblin, of Manitoba, Also Spoke.

London, Ont., Sept. 22.—R. L. Borden, Conservative leader, arrived here this afternoon, and in the evening addressed a large gathering in the Princess rink. In the course of his speech Mr. Borden denied that because he had refused a request of the C. P. R. strikers at his Montreal meeting to make a statement touching the situation, they had raised a disturbance; no such request had been made. Mr. Borden, proceeding, covered the same ground as in his previous speeches. He declared the Liberal government had not carried out the pledges made previous to 1906.

Attorney-General Borden, of B.C., and Premier Roblin, of Manitoba, followed Mr. Borden.

**400 COTTON MILLS IDEL.**—140,000 Operatives Are on Strike—Not Expected to Last Long.

Manchester, Eng., Sept. 22.—More than 400 cotton mills in Lancashire are idle to-day as a result of the dispute over wages between the operatives and the employers. This means that 40,000,000 spindles are wholly or partially idled, and that more than \$250,000,000 in capital is not bringing in any return, and that 140,000 operatives are without work, and losing something over \$700,000 wages a week. It is not felt here that the strike will last long for the card-room workers are expected to take a second ballot and agree to a five-per cent. reduction in wages, which has already been accepted by the spinners.

**RELEASED FROM ROCKS.**—Two Vessels Ashore in Fog Get Off After Lightening.

Saint St. Marie, Sept. 22.—The two vessels which went ashore in the fog and smoke have got off. After lightening on Sept. 21, the tugboat and the cargo ship were released from the rocks. The tugboat was released from the rocks after being towed by the tugboat. The cargo ship was released from the rocks after being towed by the tugboat.

**Shipping Again Tied Up.**—Montreal, Sept. 22.—Shipping was again held up this morning by the heavy smoke overhanging the St. Lawrence from Montreal to Quebec. No vessel has been moved for several days, and may not for several more unless rain falls.

### GRADUAL IMPROVEMENT.

Dunn's Reports Volume of Trade Has Not Expanded With Growth of Confidence.

New York, Sept. 21.—R. G. Dunn & Company's weekly review of trade says: "Gradual improvement in the commercial situation is encouraging, although the volume of trade has not expanded in proportion to the growth of confidence. Resumption of work at manufacturing plants is the best evidence of progress, the number of unemployed steadily though slowly diminishing. Scarcity of water has an adverse influence at several points, but early relief is predicted."

Tide freight rates decreased 30.371 during the last fortnight, covered by the association's statistics and the number out of repair was reduced by 7,682, making a net gain of 38,083 cars in the number in use. Yet railway earnings thus far reported for September are only 9.7 per cent. smaller than in 1907. Retail trade in fall wearing apparel developed slowly, but jobbers have had a fairly good season and are now shipping freely. Part of the recent sharp rise in prices of stocks was lost this week, although the level is still higher than a year ago. Wheat prices are also unusually high. Commercial failures this week in the United States, as reported by R. G. Dunn & Co. are 246, against 206 last week and 244 the preceding week, and 186 the corresponding week of last year.

### SOCIALIST DEMONSTRATION.

Remarkable Scenes of Amity Between English and German Socialists.

Berlin, Germany, Sept. 22.—There was a remarkable demonstration yesterday of the fraternity of English and German Socialists and trade unionists. It eclipsed anything of the kind ever seen in Berlin before. English Labor members of parliament attending the international union congress were the guests of, and presented addresses to two huge gatherings, the first of Socialists and the second of trade unionists and Liberal trades unionists, who, for political reasons, refused to amalgamate and join in the Socialist demonstration. The scenes of amity and enthusiasm at both meetings were extraordinary. The Socialist gathering was considerably larger than the one held by the trades unionists. The fact that the government thought it necessary to order police with swords to attend the meeting did not chill the fervor of those present in the least.

### SHIP WAS RIGHTING.

But More There Would Have Been No Accident.

Washington, D.C., Sept. 21.—Earl Meserve of yesterday's aeroplane disaster which resulted in the death of the pilot and Thomas Selfridge, of the engine, and serious injury of Orville, presented a cheerless aspect to a pair of gloom pervaded the army and was reflected in the faces of the officers of the unfortunate plane.

Thomas Selfridge's body was today taken from the hospital at Fort to an undertaker's establishment. Arrangements have been made for the funeral.

Catherine Wright, sister of the aviator, arrived here from Dayton, this afternoon and visited her at the hospital.

Spicer, acting chief signal officer, today convened the staff of signal officers for the purpose of an official inquiry into the crash of the Wright plane.

Findings of the board of inquiry given out was that the accident was due to the accidental breaking of the propeller blade and a consequent loss of control, which resulted in the machine falling to the ground at a height of about 75 feet; and that Thomas E. Selfridge, who accused Mr. Wright, by authority, on the ground of the accident, received injuries by the machine, which resulted in his death.

Official corps will proceed with its official work, and it is understood that the brothers will be permitted to see their official trials whenever ready without endangering the receiving the correct price of for their aeroplane. Mr. Wright, Mr. Taylor, one of his assistants, and the machine will be ready to receive its balance when it struck, and if we had had 25 feet further the machine would have landed on the skids without serious damage.

### R. Moose Jaw Hotel Closed.

Jan., Sept. 21.—The C.P.R. hotel Moose Jaw was closed permanently today. The company has had the hotel ever since the road was built will be greatly missed by travel citizens. The hotel was situated at the intersection of the main street and the lower floor for purposes while the second floor furnished offices for the division located here.

# PEMBINA TOWNSITE

Today there is placed on the market the premier real estate investment possibly of 1908. This is no ordinary real estate opportunity; it is extraordinary.

Pembina is a city in embryo. At the point where the Grand Trunk Pacific Railway crosses the Pembina river, 65 miles west of Edmonton, there must be a city. The man with his ear to the ground knows this. It is inevitable.

The G. T. P. will this year lay steel to the Pembina river, and for a year at least from the moment the steel reaches there Pembina will be the terminus of the railway. This is due to the fact that it will be fully twelve months before the railway bridge, which is to be the highest on the G. T. P. system, can be completed.

But Pembina is by no means dependent upon the railway for its development. It has the site, and the district behind it to make it a big city.

Over 1500 settlers have taken up land within a radius of thirty miles of the townsite. The timber on the river is the equal of any in Alberta.

Over 20,000 acres of coal rights have been reserved in the vicinity and the development of these mines will open with the coming of the railway.

An illimitable quantity of sand stone, equal to the Calgary grade, is lying along the river bank awaiting development.

On top of these is the paramount fact that the district is one of the finest for mixed farming in Alberta.

The lots in the townsite are offered at from \$50 to \$125 on easy terms. The early bird catches the worm.

Sit down and figure out this proposition. It cannot but commend itself. It is bona fide. What has been said of this investment possibility is not the ultra optimism of some rapid and irresponsible realty agent. It is the truth, the whole truth, and nothing but the truth.

Confirm for your own satisfaction the statements made, then consult

## THE NEW GRAIN ACT.

In view of the fact that the grain shipping season is now under way and that there is a widespread interest in this vital branch of western commerce, The Bulletin publishes some important amendments to the act respecting the inspection and the sale of certain staple commodities. The amendments published are sections 17 and 18 of the "Act to amend Section 17 establishes definitions for Alberta winter wheat, and section 18 defines a "Canadian Western" oats. This term is a new one. Hereafter all western oats are graded by the Manitoba standard. The increase in the quantity grown in the west has rendered a "Canadian Western" classification advisable. The grades are stated by iron in the business practically the same as in Manitoba oats.

Section 17 reads: "Section 17 is further amended by inserting therein, immediately after the definition of "Spring Wheat," the following definition of "Winter Wheat":

"No. 1 Alberta red winter wheat shall be hard pure red winter wheat, sound and clean, weighing not less than 62 pounds to the bushel.

"No. 2 Alberta red winter wheat shall be hard red winter wheat, sound and clean, weighing not less than 60 pounds to the bushel.

"No. 3 Alberta red winter wheat shall include hard red winter wheat not clean enough or sound enough to be graded No. 2 weighing not less than 57 pounds to the bushel.

"No. 1 Alberta white winter wheat shall be pure white winter wheat, sound and clean, weighing not less than 60 pounds to the bushel.

"No. 2 Alberta white winter wheat shall be white winter wheat, sound and clean, weighing not less than 58 lbs. to the bushel.

"No. 3 Alberta white winter wheat shall include white winter wheat not clean enough or sound enough to be graded No. 2, weighing not less than 56 pounds to the bushel.

"No. 1 Alberta mixed winter wheat shall be red and white winter wheat mixed, sound, clean and free from other grain, and shall contain not less than 42 pounds to the bushel.

"No. 2 Alberta mixed winter wheat shall be red and white winter wheat mixed, sound, clean and free from other grain, and shall weigh not less than 40 pounds to the bushel.

"No. 3 Alberta mixed winter wheat shall be red and white winter wheat mixed, sound, clean and free from other grain, and shall weigh not less than 38 pounds to the bushel.

THIS GRAFT CHARGE EMPHATICALLY DENIED

Mr. Howard Douglas, Commissioner of Parks, Explains Lethbridge Land Deal and Refutes Charges in Eye-Opener of Irregularity.

Bulletin Special. Calgary, Sept. 22.—On Saturday the Calgary Eye-Opener published what is described as a scandal in connection with the purchase by the provincial government of land near Lethbridge for the provincial jail.

Mr. Douglas was in the city yesterday, on his way to Montana. He gave the details of the transaction and property and promptly nailed another charge of irregularity and "and-out" falsehood.

Mr. Douglas stated to the Calgary Albertan that he had been informed that the Eye-Opener would make a correction in its next issue, and that the editor had admitted that he had been misled.

Mr. Douglas said that he and Mr. Carey, in June, 1906, bought a quarter section and an additional 80 acres, paying \$4,000 for the property.

They got it after the foreclosure of a mortgage by the Union Bank. They paid \$2,500 and the balance was made out on their mortgage.

In July, 1907, the provincial government bought the quarter section and an additional 80 acres, paying \$4,000 for the property.

MAY CLAIM A HOMESTEAD. South African Veteran Grant Does Not Debar Grantee Homesteading

Ottawa, Ont., Sept. 22.—A committee of the local South African Veterans' association, consisting of Major Chas. Winter, president; Major Morrison, D.S.O., vice-president; Lieut.-Col. Hardman, Major Woodside and A. Miller, secretary, waited on Deputy Minister Corey and secured several very interesting interpretations of the Volunteers' Bounty Act.

Among other a grant will not prevent a veteran claiming a homestead and pre-emption privileges provided he does the necessary homesteading duties on both, though he would be required to live six months on each. Also that "he" in clause 5 may be interpreted as "he" or "she," giving a woman the same benefits as a man or the same rights as a substitute.

A ruling was given that none but British subjects are acceptable as a substitute, and also in locating it is necessary for the veteran to appear in person before the Dominion land agent in whose district the location is.

As a result of the interview the committee will in reporting advise that as a veteran who immediately after the war held his land until June 30th, 1911, without performing settlement duties, the value of a veteran's right to 320 acres can reasonably be computed at \$8 per acre. The committee will further advise any veteran who has 320 acres can reasonably be computed at \$8 per acre. The committee will further advise any veteran who has 320 acres can reasonably be computed at \$8 per acre.

THE LAIRD-SCOTT CASE. Premier's Counsel Asks For Adjudgment.—Mr. Scott Being Out of Town.
