Changes Among Local Clergy.—Per-
sonal and Social Notes.

Annapolis Royal.—Several changes have taken place among the local clergy this week. Owing to ill-health, Rev. T. C. Mellor of St. Luke's Church, has been granted six months leave of absence, and with Mrs. Mellor, expects to leave shortly for Toronto, where they will spend the winter with their son, William Mellor. Mr. Macintosh of St. George's United Church preached his farewell sermon on Sunday evening, and with Mrs. Macintosh, his sons and little daughter, will leave this week for Bedford, but as yet his successor has not been appointed. A conference of ministers met in the Town Hall on Saturday and passed resolutions of regret at the illness of Mr. Mellor, and departure of Mr. Macintosh. SCALLOP FLEET IS BIGGER THIS YEAR

Digby Fishermen Will Start Acti-
vities Shortly—14 Boats Now
Operating.

Digby.—After laying up for a few months the scallop boats of Digby are getting active, and there promises to be quite a revival of this industry. Several new boats have been added to the fleet from the town and a number from Granville will be operating this season. There are at present about fourteen scallop boats fishing out of Digby where only a few years ago there were none, and it is expected that there will be about twenty boats operating out of Digby by the time the season is in full swing.

Most of the scallops are shipped to the New England market where they find a ready sale, and although the price is low at present, the scallop fishermen are content, because it is only a matter of a few weeks when the increased demand will drive the price to former levels and give the men a fair return for their labors.

A MIRACULOUS ESCAPE

Clementsport.—On Tuesday about 2 p.m., an accident took place at the Chute bridge, about one and a half miles from here. A McLaughlin touring car coming from Annapolis Royal, running at a high rate of speed, on the wrong side of the road, ran along the ditch, took the railing as it went tearing and smashing until it rolled down the steep embankment and reeled upside down, with the four wheels in the air, in the middle of the brook, and out of the wreck crawled the sole occupant, the driver of the car, with only a slight scratch. How he escaped death is a mystery. A piece of the rail of the bridge 4 X 4 entered the front of the car, bending the radiator, and going under the hood, through the dash under the cowl, between the steering post and rear door, piercing the back of front seat and continuing pierced the back of the back seat. This was so firmly wedged one could not pull it out. The next morning Coles' Garage removed the wrecked car for repairs.

Miss Mary Miller, who will spend the week end there.

The Misses, Phyllis and Florence Harris, who have been spending the vacation with their mother, Mrs. F. C. Harris, returned to Windsor on Wednesday to resume their studies at Edgemoor. Their brother Charlie Harris has returned to the Collegiate School.

Mr. and Mrs. George W. Ross, returned from Boston on Wednesday, and left the following day for Halifax, from where they sailed to their home in St. John's, Nfld.

Mrs. Charles Muirhead, with her little son and daughter, who had spent the vacation with Mrs. Wilmer Horsfall, returned to New Haven, Conn., on Friday.

Mr. Victor Harris of Dedham, Mass., was a recent guest of his sister, Mrs. E. R. Clark.

At the close of the Teacher's Institute, held in Annapolis Academy, September 14th, a short period was devoted to the forming of a local Teacher's Union.

Principal Archibald of Bridgetown and others present explained and emphasized the aims, values and benefits of the teacher's present, it was decided to organize.

The following officers were then elected:

President—J. T. Archibald, Bridgetown.

1st. Vice-President—R. C. Gilliat, Bear River.

2nd. Vice-President—M. E. Pritch, Lawrenceport.

Secty. Treasurer—D. B. Wright, Annapolis Royal.

Other members of the executive: Miss Harris, Annapolis; Mrs. Baker, Round Hill; Miss Harlow, Middleton; Miss Henry, Paradise.

It was decided to hold a meeting once each quarter, the first to be held in Annapolis on Friday evening, October 30th.

Principal Archibald was appointed delegate to attend Provincial meeting in November.

The Teacher's Union has proved to be of great value to members of the profession in other Provinces of Canada, and in other parts of Nova Scotia, and all teachers from Annapolis County are invited to join.

Any one requiring further information should apply to the President or Secretary.

YOUNG PEOPLE WIN \$220 IN STOCK SHOW

Boys and Girls Exhibit of Cattle
and Swine at Lawrenceport
Is Big Success.

Lawrenceport.—An exhibit of live-stock by the Guernsey Boys' Club, and the Boys' and Girls' Swine Club took place in the Demonstration Building here Friday, under the auspices of the Annapolis County Farmers' Association.

The competitors were from Lawrenceport, Paradise, Clarence, West Paradise, Inglisville, Brickton, and other points adjacent. The president of the County Farmer's Association, Vernon B. Leonard, of Clarence, presided, and the Government Agricultural Farm officials, Messrs. Archibald, Walsh and Churchill, tested the judging of the boys, and judged the stock and awarded prizes. The sum of \$220 was distributed among the prize winners, one third having been given by the Dominion Government and one third by the patrons of the Swine Club. In the case of prizes for the members of the Guernsey Heifer Club, 50 per cent. was provided by the Government, and 50 per cent. from local sources.

Both Messrs. Walsh and Archibald, in awarding the prizes, referred to their great satisfaction over the success of the exhibit, the interest taken generally and the excellent quality of the stock. Mr. Walsh stated that the stock of the Swine Club this year was 50 per cent. select on bacon hogs; as compared with only about 10 per cent. at this station last year, and 12 per cent. the average in all Canada.

He emphasized the value commercially to the Club, and to the farmers, of the new system of marketing hogs, recommending shipping the hogs live weight, rather than dressed, and stated that with the new stock yards built by the D. A. R. Company at Lawrenceport Station, better facilities were afforded for exporting the stock alive, and there was no season of the year when this might not be done. He declared that the markets of the world were open for the export of bacon hogs. The first car load of bacon hogs under the new system would be shipped from Lawrenceport next week.

Mr. Walsh then proceeded to announce the following list of prize winners and amount of each prize: Muriel Ritchey, \$14; Stanley Banks, \$13; Murray Leonard, \$12; Donald Foster, \$11; Gerald Johnson, \$10; Fred Dunlop, \$9; Chet Davis, \$8; Kathleen Boehner, \$7; Mary Boehner, \$5; Helen Foster, \$4; Philip White, \$3; Reginald Marshall, \$3; Richard Marshall, \$2; George Bishop, \$2. Remainder of competitors received \$1 each.

Mr. Archibald then announced the results of the Guernsey Club competition as follows:

Irvine Bishop, \$35; Ray Longley, \$36; Gerald Johnson, \$30; Murray Leonard, \$18; Horace Marshall, \$13; Ray Abbott, \$21; Chet Davis, \$15; Arthur Barteaux, \$14; Clyde Foster, \$16; Harris Sarsfield, \$6; Raleigh Marshall, \$6; Peter Marshall, \$6.

The Judging Competition results in percentage were as follows:

John Longley, 89; Stanley Banks, 87; Chet Davis, 85; Ralph Foster, 81; Philip White, 80; Fred Dunlop, 78; Harris Sarsfield, 74; George Bishop, 71; Donald Foster, 70; Gerald Johnson, 69; Ernest Marshall, 66; Murray Leonard, 57; Ralph Marshall, 55; Clyde Foster, 54; Roland Marshall, 50.

The Royal Bank of Canada, Law-

renceport donated \$10 towards the prize fund, which was to be awarded to the boys exhibiting the best bull calves, prizes going to Arthur Barteaux, Horace Marshall, and Harris Sarsfield, in order named.

The great success of this exhibition has led the promoters to already consider plans for a larger and more general stock exhibition next year. All are enthusiastic over the possibilities of the Swine and Guernsey Heifer Clubs. Addresses in favor of continuing the work of the Clubs were made by President Leonard, Mr. Archibald, Mr. Walsh and Rev. A. H. Whitman.

APPO-KRISP AT BOARD OF TRADE

Col. Innes Gives Address on New
Food Product and Board of
Trade and Town Council
Appear to Favor Manu-
facture Here.

At the semi-annual meeting of the Board of Trade held on Thursday evening last at which there was a good attendance of members and town councillors, Col. Robert Innes, Secretary-Treasurer of the Appo-Krisps Company of Kentville and Mr. P. M. Ruggles, Investment Broker of this town were present.

Col. Innes gave the meeting an excellent address on the history and analysis of Appo-Krisps, the new breakfast food.

The product is the result of a careful blending of apples with wheat and the resulting product a crisp and tasty food made possible by the work of Mr. George E. Humphrey, Superintendent of dehydrated foods for the British Ministry of Poods during the war.

The establishment of Appo-Krisp manufacturing in the Valley will require the care of apples not required for export or domestic use, and also stimulate the growing of soft wheat, the kind best adapted for cereal foods.

The company was interested in securing the best location for the manufacture of Appo-Krisps.

At the conclusion of Col. Innes' address remarks were made by Mayor Hicks, O. W. Graves, P. M. Ruggles and others and a committee was appointed to go further into the matter of suitable available locations, etc., and a report will be furnished later. There appeared to be a decided feeling in favor of adding to Bridgetown's industries. This town is splendidly situated with respect to shipping facilities both by land and by water and would make a most suitable place in which to commence the manufacture of this new food product which appears destined to make a big stir in the near future.

The ceremony was performed by Rev. W. W. Judd, Headmaster of King's Collegiate School, Windsor, N. S., assisted by Rev. T. C. Mellor, Rector of the church, in the presence of a large number of invited guests and spectators. The church was beautifully decorated with flowers, and the bride and groom entered to the strains of "O Father All Creating," sung by the vested choir, with Miss Muriel Wainwright as organist, who also rendered Mendelssohn's Wedding March, as the party left the church.

The bride approached the altar on the arm of her mother by whom she was given in marriage, and was attended by a college class-mate, Miss Dorothy Maize, B.A., of Peticodiac, N. B., as maid of honor; and little Elizabeth Gilbert, niece of the groom, as flower girl. The groom was supported by Kenneth Porter Harris, B.Sc., of Annapolis Royal, a classmate at King's College, and the ushers were H. Gordon McCormick, of Annapolis Royal, cousin of the bride and class-mate of the groom, and Thomas R. Gilbert, of the Head Office of the Bank of Montreal, brother of the groom.

The bride's gown was of satin brocaded crepe with rhinestone trimmings, worn with a gracefully arranged veil and orange blossoms. She wore silver slippers, and carried a shower bouquet of pink and white roses. Her going away costume was an ensemble suit of cuckoo brown, worn with embroidered hat to correspond.

The maid-of-honor was gowned in white crepe de chene, with ostrich trimmings, and wore a hat of white and silver, and silver slippers. Her bouquet was of pink and white carnations. The small flower girl wore a frock of pale pink crepe de chene and lace, and carried a pink basket of roses.

The bride's mother was attired in pansy griddle, embroidered in gold and silver, and worn with a pansy hat, and corsage bouquet of purple and lavender sweet peas.

Following the ceremony a reception was held at the home of the bride on Victoria Street, where her mother, and the groom's parents assisted in receiving the guests. The decorations in the dining room were carried out in a color scheme of yellow and white—the table centred by yellow candles, Mrs. William Halliburton, aunt of the bride, "poured" and others assisting were: Mrs. Edgar McCormick, Mrs. Simon G. Merriam, Mrs. Thomas H. Porter, Mrs. Daniel Owen and the Misses, Josephine Rathbun, Pauline Harris, Zaidie Horstall, Glendean Buckler, Jeanne Pickles and Marjorie Merriam.

The out-of-town guests were: Mr. and Mrs. Henry Gilbert, Mr. and Mrs. H. Bradford Gilbert, Miss Elizabeth Gilbert and James Gilchrist.

A COMMUNITY PROPOSITION

Mr. E. Roy Sayles, former manager of the Canadian Weekly Newspaper Association, and therefore thoroughly acquainted with the weekly newspaper situation in Canada, says editorially in the columns of his newly-acquired paper, the *Renfrew Mercury*:

"Everywhere there is a growing understanding among business men that the newspaper, while an individual business problem of some publisher, is, at the same time, a community proposition—a community asset. The newspaper serves the community more than it serves the man who publishes it. The time is coming when everywhere business men will feel a personal interest in the newspaper's welfare. The fact is, a community cannot make progress without it. It can exist, but it cannot grow.

"With this realization, there has also come an understanding that one newspaper serves better than two or three. It has become a simple problem of business mathematics to centre the strength of a community behind the newspaper that has made itself, through work and service, the strongest journalistic factor in community development.

"So far as Canadian newspapers are concerned, there have come out of business since 1914, fifty daily newspapers, while 224 weekly newspapers have suspended publication or been absorbed by the other paper in the town. In some counties of Ontario, from four to eight weeklies have suspended publication.

"The announcement of newspaper consolidations will continue. The result will be better and more outstanding weekly papers with improved service to advertisers, subscribers and the community generally."—*Handover Post*.

Press Comment

RESPECT FOR HUMAN LIFE

London Daily News: The new criminal is more adept and resourceful than the one we knew before the war. He is almost entirely either an improved pre-war type or one who has acquired proficiency during the carefree years since the Armistice. Mr. Skrine's statement that "few men can have spent six years in licensed disobedience to the sixth Commandment without retaining anti-social traits," is merely a sweeping generalization utterly unsupported by facts. The same argument has been used in cases of murder, only to lose much of its force when it is discovered that very often the crimes were committed by "ex-service men" who never once saw death in its horrible form during the war.

EMPIRE FOOD SUPPLIES

Glasgow Herald: The fact has to be faced that the most popular imported meat today on the British market (if we except freshly killed Canadian cattle arriving at our ports or "finished" on our farms, which, unfortunately, form no great proportion of our total supplies) is not drawn from an Empire source. It consists of Argentine chilled beef. Australasia is the biggest meat source within the Empire, but Aus-

tralia's frozen meat cannot hope to attain to the favor bestowed on the chilled cargoes from the Argentine.

AUTO SUGGESTION.

Detroit News: An authority says long life may be attained through auto suggestion. The suggestion is not to get into the way of one.

BRITAIN AND MEXICO.

Indianapolis News: Great Britain and Mexico are all ready to resume relations if the Mexicans can be induced to postpone any more violence against British subjects long enough to sign the agreement.

WHO PAYS THE SUBSIDY?

London Daily Mail: The public has still to learn where the money for the subsidy to the mining industry is to come from. It will inevitably have to be paid by other industries, which will be correspondingly injured by this new burden.

SECURITY FOR GERMANY.

Berlin "Deutsche Tageszeitung": No progress can possibly be made unless proper regard be shown for the reservations and objections of Germany. If this is denied, the conclusion of a pact has no further interest for us.

SPAIN AND THE RIFF.

Madrid Libera: It would be a dangerous policy to follow, as far as our position in the world at large and our vital interests in Spain were concerned, to make excessive sacrifices in the pacification of the Riff. Let Spain defend the dignity of her civilizing mission in the rebel zone, let France preserve the integrity of her African colonial empire, and the Sultan retain the inheritance of his family and his race.

COMMUNIST ENJOYS UNLIMITED TRAVEL

Unable to Land in U. S. or France, Has Been Travelling Nine Months

Paris.—The man without a country has his counterpart in a passenger on a big transatlantic liner who has been enjoying bed and board for nine months on the same boat without being able to land either at New York or Cherbourg because the authorities at either end of the voyage considered him a dangerous and objectionable person.

The man in question is a Communist agitator, and because he insisted on spreading propaganda the American authorities last January decided to put him on the high seas. He was shipped third class on the arrival of the steamer and at Cherbourg the French officials decided to return him to America. The ship carried him back to New York, but again he was not allowed to land and went back to Cherbourg.

Since then he has done nothing but sail back and forth between Cherbourg and New York, consuming considerable knowledge of transatlantic navigation. Steamship officials have made desperate efforts to get rid of him, but to date have been unable to swerve either the American or French authorities from their decision to keep the man from landing. He is now on his way back to the American end.

AN APPLE A DAY

Eat more fruit and keep your skin clear would perhaps be an apt slogan for Canadian Fruit Growers to adopt in this connection possibly no fruit would better fill the bill than apples, of which a bulletin issued by the Fruit Branch of the Department of Agriculture at Ottawa, entitled "Canadian Grown Apples" says, "From a dietetic standpoint the most important function of the apples is that of furnishing mineral salts and organic acids; but it has an important nutritive value as well, furnished by the carbohydrates present. As the fruit ripens starch changes to sugar. The apple has a medicinal value also, especially if eaten at the beginning of a meal or between meals." The bulletin further remarks that no household should be without a box or barrel of Canadian grown apples and then proceeds to give a list of the varieties that should be used at different times as follows:—

September.—Duchess, Alexander, Maiden's Blush, St. Lawrence, and similar varieties.

October, November, December.—McIntosh Red, Painesue, Blenheim, Ribston, and similar varieties.

January, February.—Baldwin, King, Wagener, Greening, Seek, Peewaukee, Ontario, Jonathan, Yellow Newtown, and similar varieties.

March, April, May.—Spy, Golden Russet, Ben Davis, Stark, Fallwater, Roxbury Russet, Spitzenberg, Rome Beauty, and similar varieties.

DOCTOR ADVISED AN OPERATION

Read Alberta Woman's Experience with Lydia E. Pinkham's Vegetable Compound

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Pains in Left Side

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. Rose, 580 Notre Dame St., Lachine, Quebec.

LIVINGSTONE AUTO TRACK COMPANY

A new industry, known as the Livingstone Auto Track Company, has begun operations in the town of Digby, and bids fair to be a great success. B. J. Livingstone, a wealthy Philadelphian, who has made Digby his summer residence for many years, is the president of the company, and is backing his faith in Nova Scotia by a considerable investment. Mr. Livingstone has already made several trips to New York, Philadelphia and Montreal, in the interest of the company. The Auto Track is an invention designed for the purpose of assisting automobiles out of ditches, mud-holes and snowbanks, and will undoubtedly meet with popular favor. The superintendent of the business is Byron Rooney, of Digby, who is widely known throughout Western Nova Scotia, and whose mechanical ability will be a great asset. A practical demonstration took place a few days ago when a large car going up one of the steepest hills in Digby, when efforts to get out of the ditch were unavailing, the auto track was put under the car and the rest was easy. Further demonstrations will be given later. Mr. Livingstone has already placed several large orders in Canadian and American cities, and the men engaged in the industry are working full time.

MARITIMES TO LURE OLD COUNTRYMEN

Similarly to Parts of Britain Observed Here By Journalists

Ottawa.—That there are splendid opportunities in the Maritime Provinces for Old Countrymen with a little capital, desirous of going in for farming in a smaller way than usually in the west, appears to be the general opinion of the British press who are touring Canada from coast to coast as guests of the president of the Canadian Pacific Railway, E. W. Beatty, with a view to studying Canadian conditions at first hand, and who arrived in Ottawa Thursday.

All the members of the party appeared to have been impressed also with the similarity, as they termed it, of the country in the Maritimes to that of some parts of the Old Country at least. For this reason, among others, the pressmen were inclined to see considerable more attraction for Old Country people in that part of Canada.

Champlain Memo

April 24, 1615, was a great day for the little seaport of Northern France, for on that day, Champlain, whose earlier voyages the New World had stirred the French Court and of the merchant and Breton seaports, set sail in the St. Etienne, with a party of four Frenchmen and a party of Indians. A little ship sailed up the St. Lawrence, now the city of Quebec. Champlain, now the city of Quebec, went on to Montreal, where he found the Indians assembled to meet him, and he promised to assist them in their war against the Iroquois. He then returned from Quebec, the Indians set out with Father Le Caron and men into what is now the Province of Ontario, with two Frenchmen and ten Hurons in a war expedition against the Iroquois. Champlain, who was an explorer as a soldier, discovered the St. Lawrence River. Returning from the wars, Champlain, 1615, with his friend, Chief Daniel, set out on a voyage to the Pacific. It is a far cry from the little town of St. Lawrence to Quebec, to the Pacific steamship, "Montreal."

BY THE BONNIE BRAES

Though the modern gathering of the clans is reputed to take place exclusively within gathering distance of the Sassenach's hawbees the annual gathering of the Braemar Royal Highland Society, which will be held this year on September 10th, is still a mustering of mighty men. All things considered, and if such a comparison is possible, the Scots are probably the world's foremost race. They take care of the world's money; they tend its mind (one little Scotch village in Nova Scotia has eight living heads or universities to its credit), and they yield to none in manliness, muscle, or music. No one who has once attended the Highland Games and seen the Clans parade will forget either the might or the music. Yet the most valuable prize for which the clansmen strive is £5, and the average is about 20s. In sport, at any rate, the Scot does not put hawbees first! (Morning Post.)

Champlain Memorial Marks Advent of White Race

April 24, 1615, was a great day in the lives of the townsfolk of the little seaport of Honfleur in Northern France, for on that day, Sieur Samuel de Champlain, whose earlier voyages and discoveries in the New World had stirred the imagination of the French Court and of the merchants of the Norman and Breton seaports, set sail in the little ship, the *Beauport*, with a party of four Recollet brothers to Christianize the Indians. After a stormy voyage the little ship sailed up the St. Lawrence to that natural citadel, now the city of Quebec. Later Champlain and the Indians assembled to meet him, reminding him of his promise to assist them in their wars. Before he returned from Quebec, the Indians growing impatient set out with Father Le Caron and twelve Frenchmen into what is now the Province of Ontario. Champlain, with two Frenchmen and ten Indians started up the Ottawa to the Mattawa, and joined with the Hurons in a war expedition against the fierce Iroquois, by means of which Champlain, who was as enthusiastic an explorer as a soldier, discovered Lake Ontario. Returning from the wars, Champlain spent Christmas in June, 1616, where he found his friends, the Recollets, had given up hope of seeing him again. Champlain's work as an explorer was now done, but his voyages into Ontario opened the path to the west to the missionary and the trader. It is a far cry from the little ship, *St. Etienne*, which set sail that day so long ago from France, up the St. Lawrence to Quebec, to the giant Canadian Pacific steamship, "*Montroyal*," which one hundred

and ten years later sailed from Cherbourg by the same route to the Canadian Gibraltar. On board the "*Montroyal*" was Vernon March, the famous English sculptor who designed and executed the monument recently erected at Orillia, to the memory of the gallant soldier, missionary and explorer, Samuel de Champlain, near the site of Chahague, from which little settlement, Champlain started out with his Indian friends on the disastrous expedition against the Iroquois and where he returned with his discouraged allies. The bronzes for the monument are colossal in size, the figure of Champlain himself being twelve feet high, of astounding action and vigor. In addition to this main figure are two groups, one, "Christianity" representing a Recollet father holding aloft the Crucifix to the savages (No. 1.) The other is "Commerce" and shows the voyager with a similar pair of Indians (No. 3.) The total weight of the bronzes is more than nine tons. It is mounted on a pedestal of Benedict stone, 30 feet square and 18 feet high, giving the monument a total height of 30 feet (No. 2.) Mr. Vernon March (No. 4), the sculptor, is an interesting figure. He is one of a family of seven brothers and one sister, all of whom are artists and sculptors. At their studio and workshop, in Farnborough, Kent, which formerly was an old post house, they do their own casting as well as designing. Mr. Vernon March's work, particularly that for war memorials, has won the highest recognition in all parts of the Empire and the memorial at Orillia in both conception and execution is one of the finest examples of his art. Mr. Sydney March, a younger brother, crossed on the "*Montroyal*," and will assist his brother in the erection of the bronzes. The late Lord Strathcona was one of the original promoters of the monument and made the initial contribution to the fund, while the Canadian Pacific Railway also contributed to the erection of the monument.

CLEMENTSPORT

"THE QUEEN OF THE BASIN"

On Tuesday evening, 15th, inst., some twenty friends of Mrs. Fred Jones, deceased upon her residence and gave her a jolly surprise party. The occasion was her birthday. We join with them in wishing her many happy returns.

On Wednesday, Mr. and Mrs. Warren D. Chase and "Bud" left for their home in Southington, Conn., after the summer spent in their bungalow here. They are in love with Clementsport, and are planning an early arrival in 1926, and a long stay. We trust they may be able to carry out this plan.

Wednesday evening Mr. and Mrs. H. G. Potter gave a party in honor of Miss Thelma Rawling. Some thirty were present and all had an enjoyable time.

On Wednesday evening Mrs. Elias Rawling met with a painful accident. While waiting with Mrs. Ed. Bent in an auto, the car started to move, and she not knowing the cause, jumped out, as did Mrs. Bent. Mrs. Rawling unfortunately landed on her side and had to be taken to her home. Dr. Campbell being in attendance. No bones were broken but the nerves were injured. She is confined to her bed. We trust she will soon be able to be around again.

Mr. Young, engineer of the D. A. R., has been here this week making a survey of the new work at Cook's Bridge.

The S. S. Valinda made her regular trip here on Wednesday morning.

On Wednesday, Mrs. John Whitman went to Annapolis Royal to be present at the wedding of Miss Ethel McCormick.

Mr. and Mrs. G. W. Biddoes, and Mr. and Mrs. Robert Burk and little son, all of Arlington, Mass., motored here, and are visiting Mrs. Biddoes' and Mrs. Burk's parents, Mr. and Mrs. Ambrose Walker.

Capt. L. S. Rawling, Mrs. Rawling and Thelma, returned home to Boston on Friday, 18th, inst. Mrs. Lottie Fraser accompanied them. She will remain the winter.

On Friday, Mr. and Mrs. John Saunders arrived from Portland, Conn., with the body of their little

OBITUARY

Mrs. Millicent Beals

On Monday afternoon, September, 7th, friends and neighbors were indeed shocked to hear of the death of Mrs. Millicent Beals, which occurred at her home at East Ingleside, after less than an hour's serious illness. At the age of fifty-three years. Although not in very good health the past few weeks, her friends hoped and expected her life would be spared for years, but God willed otherwise and her spirit took its flight, leaving a vacant place in the home that can never be filled.

Mrs. Beals was a daughter of the late James O. Durling of West Ingleside, by his first marriage.

The deceased was a member of the Methodist Church and an earnest Christian, taking a deep interest in every good work. She was a devoted wife and mother, a kind neighbor, of a cheerful and genial disposition, she had many sincerely attached friends.

She was laid to rest on Tuesday afternoon, in Valley West Cemetery, her casket covered with beautiful flowers. The pall bearers were: Fred Nauzier, Isaac Durling, Archie Beals, Dudley Beals, Avarad Leonard and Guilford Whitman.

The funeral services were conducted by Rev. A. B. Higgins, pastor of the United Church.

Besides her husband, two sons, Elvin and Gordon at home, two brothers, Leslie of Alstead, N. H., and Isaac, of West Ingleside, and one sister, Mrs. Wilbur Banks, also of West Ingleside, mourn her departure and a large circle of friends.

child, who was about a year old. The interment was in the Methodist Church yard. Mrs. Saunders came also to see her father, Mr. Thomas Burrill, who is about breathing his last. We tender them our sincere sympathy.

Mrs. Carl Stronach and little son, who have been visiting Mrs. Stronach's sister, Mrs. Robert Rawling, left on Saturday 19th, inst. for Shubenacadie, where Mr. Stronach is manager of the Royal Bank of Canada.

Rev. Mr. Perry, Mrs. Perry and Miss Perry, of Boston, are registered at the "Lucerne House." They express themselves as delighted with the "Queen of the Basin."

Mrs. W. Malcolm left for home on Tuesday, 22nd. While here she built a beautiful log cabin and plans extensive improvements next year. We trust she may be able to stay much longer next year.

Mr. and Mrs. McNeil, Mrs. Cassidy and Miss Cassidy, all of Kingston, N. S., spent the week end with Mr. and Mrs. Arthur Smith. Mr. Smith returned with them and arrived home again on Tuesday 16th, inst.

Every intelligent person appreciates the recent work done on the roads during the wet days. When the road material was soft, Mr. Robert Vroom, and Mr. Joseph Berry went over the roads here and at Deep Brook, levelling down the "wash board" sections and placing gravel and filler, where they could. When one thinks of the time wasted in the past in making the gravel day after day back to the hard centre, to be thrown aside by the next car, one appreciates all the more the present work. We trust it may continue.

SYNTHETIC STEAKS IS A POSSIBILITY

May One Day Be Manufactured From Cotton Seed, Says Doctor

Ottawa.—That synthetic beefsteaks made from the cottonseed may some day be manufactured and sold to the public instead of the animal variety now purchased in the meat stores, was the startling statement made by Dr. Davis Wesson, of New York, expert of the American Institute of Chemical Engineers, addressing the Ottawa section of the Society of Chemical Industry tonight. Dr. Wesson stated that recent investigations by the United States Department of Agriculture had shown that the protein of cottonseed closely resembles the protein of meat. It is only a question of time before the chemist will find out how to produce a meat substitute from the cottonseed.

The once lowly and despised cottonseed in these modern days is the raw material from which a host of things unsuspected by the public are manufactured, according to Dr. Wesson. The oil produced from the seed is used in salad oils, in the manufacture of oleomargarine, soap-making stock, as an adulteration in linseed oil for paints, varnishes, and other things.

Many of the brands of vegetable lands which are now so popular with the housewife are nothing but solid cottonseed oil. It is supplanted olive oil very largely because it is more neutral, and less variable, in quality. Dr. Wesson further stated that most of the Canadian sardines, put up in Nova Scotia and other places, are tinned in cottonseed oil and not in olive oil, as is generally supposed.

Mrs. Augusta Spicer of Mount Hanley, is visiting her mother, Mrs. Smith.

Mrs. William Israel and children have returned, after spending the summer vacation with Mr. Israel, in Danvers, Mass.

Mr. and Mrs. Harold Rardon have returned to their home at Port Wade, after spending six weeks in Mr. Enos Munro's cottage.

Mr. Rardon having been engaged in the pulp business here. Over four hundred cords of pulp-wood have been shipped from here this summer.

Our community was saddened on September 1st, by the sudden death of Mrs. Maude Banks of heart failure.

Mrs. Banks was the daughter of Mr. Mr. George Hudson of Lake Brook. About thirty years ago she married for her second husband, Mr. Joseph Banks of this place. They had three children, Austin, of Lynn, Mass., Edna, who passed away three months ago, and Lavenia, at home. Mr. Banks passed away about sixteen years ago. About eighteen years ago, Mrs. Banks became totally blind. She never saw her youngest daughter, who was her almost constant companion and cared for her faithfully during her latter years. Mrs. Banks was a member of the Hampton United Baptist Church, and her faith and patience, and consistent daily life, were well known to her friends and neighbors, by whom she will be greatly missed. Besides two children, above mentioned, she leaves four brothers and three sisters, George, Melbourne, and William, at Lake Brook, Albany at Port Wade, Mrs. Caleb Sarty at Lake Brook, Mr. Spencer Merry at Port Wade, and Mrs. Rodney Parmenter, at Warren, Mass. Austin, accompanied by his wife, had come to visit his mother, intending to take her back to live with him, but death prevented. After the funeral they returned, taking his sister, Lavenia, with them. Mrs. Parmenter came to attend the funeral and returned after spending a few days with her relatives at Lake Brook.

HIGHWAY SPEED

Hon. Percy Black, the new Minister of Highways, has made a general announcement that will meet with general approval. It is that the motor accidents upon highways must be diminished, and this calls for a lower speed rate. He also points out, quite correctly, that the madly racing auto in having such a disastrous effect upon the roads that it will not be able to maintain them.

To further this he has issued instructions to his men on the highway that they are to stop the speed crazy motorist and have him arrested. Also a corps of motor cycle cops will be sent out on the trail of these dangerous drivers.

That is fine, and we all hope he will succeed in making motor travel more safe. For ninety-nine per cent. of the auto accidents are attributable to excessive and unsafe speed. If all autos could be throttled and sealed to limit of twenty-five miles an hour it would simplify and settle all the trouble.

A story drifts in from a neighboring Province. A local motorist with a large and what he considered a fast car, was motoring along at a rate of 35 miles an hour. He heard a horn behind him. Instead of giving up the right of way, he stepped on the gas, and was soon hitting forty.

Again came the horn, and to keep ahead he advanced the speed to fifty miles. After a few minutes again came the horn behind. He shook up his car for another five, but, no use, he could not shake off his pursuer, and finally when he had reached the sixty mark he concluded it was his limit, and pulled to the side. As he did so, a large car bearing an American number shot by. At the wheel was a colored chauffeur. As he passed the Nova Scotian, the latter leaned over the door and coolly said, "What's the matter, boss, engine trouble?" And he was lost in a swirl of dust, easily hitting seventy.—*Eastern Chronicle*

YANKEE COURTS HAVEN'T THE

BRITISH PEP, SAYS

JUDGE

Vermont Jurist Blames The Courts For Crime Waves in American Cities. Outlines Factors Which Contribute to Efficiency of British Courts.

"Unhappy it is getting to be a trite saying that among all the so-called civilized people of the modern world we Americans are the most lawless. The charge is passed against us, not only as an indication of the breakdown of our criminal justice, but also, by the more pessimistic, to bolster up the contention that democracy, because it will not respect its own laws, is doomed to failure."

These statements were made in a lecture recently before the summer school students of Northwestern University, Evanston, Ill., by Judge Edmund Curtis Mower, head of the department of political science at the University of Vermont and a member of the summer faculty of Northwestern University. Judge Mower has had long judicial experience in the state courts of Vermont and has made a close study of English criminal procedure. In the lecture a comparison of the American court system was made with that of the English.

Fail to Protect Life.

The distinguished jurist emphasized a number of facts revealed in an illuminating survey made by the American Bar Association. O'Connell, of this association made the report that "no modern people comparable with us in point of enlightenment and general governmental capacity so ignominiously fails to protect life and property against the criminal. In comparison with other great civilized nations, the English government affords to its citizens, through the enforcement of its laws, a maximum of protection against evil-doers, while the United States, under the same comparison, affords its citizens a minimum of protection against evil-doers."

"Two conclusions of great significance were reached by the committee," continued Judge Mower. "First, that crime is on the increase not merely in gross but in proportion to population. Moreover, that the large proportion of this increase was to be found in crimes accompanied with violence. In the ten years previous to 1922 no less than \$5,000 of our citizens have perished by poison, by the pistol, or the knife, or by other unlawful and deadly injury. There is an average of less than one murder a month in the city of London and approximately one a day in the city of New York. A careful comparison of the criminal statistics of all Canada, with a population of about 9,000,000, with that of Cook County having a population of about 3,000,000, was made by the same committee of the American Bar Association. They found, as of the year 1921, as many prisoners in the Joliet penitentiary alone as in all Canada's penitentiaries; twice as many burglaries in Chicago as in Canada and four times as many murders in Cook County as in all Canada."

English Use Dispatch

Judge Mower outlined certain factors which he believed contributed to the efficiency of the English court procedure. "English cases, especially criminal cases, are disposed of in far less time than would be required in the average American court. In England the interval between arrest and trial, and between conviction and the final disposition of the case, is a matter of weeks instead of months or years. Justice is not only swift in its decision, but also in the great majority of cases that decision remains final. Punishment is a great deterrent of crime, and in both England and France it is far surer than with us. The less technical procedure of English court procedure is the dominating role played by the judges. At all times the English, presiding judge is in command of the situation; he does not hesitate to interpose at any stage of the proceedings. He deems himself an integral part of the judicial machine, both as to law and fact. The judge leaves no doubt in the minds of the jury as to the state of his own mind with reference to the case. The dominant position of the presiding judge in English criminal trials greatly strengthens the court."

To be sure judges, if they are to enjoy these vigorous prerogatives, must be the highest type and profoundly sensible of their grave responsibilities. "If our criminal courts are to attain the efficiency of the English, we cannot too attentively see to it that the legal profession sends up to the bench its fittest product,—not only good lawyers, but men of vision, of conscience, of courage and men imbued with a fine sense of the dignity and the high mission of the law," stated the lecturer in suggesting improvements in our own judicial system. "And further, we shall undoubtedly do well to permit such judges to give juries in criminal cases the benefit of their wisdom and experience by adding them to arrive at just verdicts, less embarrassed than they are now by the sophistries and appeals to sentiment and over-zealous advocates." For further improvement "we must not only better the average quality of our jury but back them up with a more effective community sentiment on the side of public and private justice." Tuesday.

U. S. WHEAT CROP
700,000,000 BUSHELS.

137,000,000 Less Than Five-Year Average.—Potato Crop Declines.

Washington.—Crop yields this year will be, on the whole, well below the average of recent years, the Department of Agriculture's crop reporting board announced today in issuing its September production forecasts. There has been little improvement in the general situation in the past month.

Corn deteriorated on account of dry weather in large areas and indicated production now is 2,855,000,000 bushels, a loss of 65,000,000 bushels in the last month. The indicated crop is 448,000,000 bushels more than produced last year, but slightly under the average of the last five years.

Spring wheat yields are running slightly higher than early expectations. The crop is now forecast at 284,000,000 bushels, or 21,000,000 bushels more than early August conditions indicated, and 1,000,000 more than was produced last year. Winter wheat, already harvested, is estimated at 416,000,000 bushels, making the country's total prospective wheat crop about 700,000,000 bushels, or 22,000,000 more than produced last year, but 137,000,000 less than the five-year average.

Potato prospects declined 9,000,000 bushels, because of hot weather in August, and the crop is now forecast at 344,000,000 bushels, which is 111,000,000 bushels smaller than last year's harvest.

Threshing of oats brought results above earlier expectations and a production of 1,462,000,000 bushels is indicated. That is a gain of 75,000,000 over last month's forecast.

WEDDING

Spinney—Sarsfield

A very quiet but pretty wedding took place on Thursday morning, at 10.30 o'clock, at the home of Mr. and Mrs. D. H. Sarsfield, West Paradise, when their eldest daughter, Elizabeth Maude, was united in marriage to Alfred Elburne Spinney, of Harmony, Kings Co., son of Mrs. Martha and the late George Spinney of the same place.

The ceremony was performed by Rev. W. S. Smith, of Paradise, in the presence of about twenty-five immediate relatives and friends. To the strains of Mendelssohn's wedding march, played by Mrs. Newman Daniels, the bride entered the parlor on the arm of her father and took her place beneath an arch of evergreen and pink and white flowers, with which the parlor was also tastefully decorated. The bride was attended by Miss Hilda Shaw, of Bridgetown, as maid of honor. The groom was supported by Harris Sarsfield, brother of the bride.

The brides' gown was of white crepe de chene, with pink and rose-bud trimming, worn with tastefully arranged veil and orange blossoms, and carried a shower bouquet of pink and white sweet peas. Her going away costume was navy satin de chene, with nasturtium trimmings and coat and hat of corresponding color.

The maid of honor was gowned in navy satin and carried a bouquet of pink and white asters.

After the ceremony and congratulations, a dainty wedding luncheon was served, after which the happy couple motored to Bridgetown, where they took the train en route to St. John and other points of interest.

The grooms gift to the bride was a dainty chocolate set; to the maid of honor, a vanity case; to the organist, a set of white gold pins and to the best man, a gold watch chain.

The bride and groom were the recipients of many gifts, including money, silver, cut glass, china and linen.

On their return from their honeymoon trip, Mr. and Mrs. Spinney will reside for a time at West Paradise.

ANNUAL DISTRIBUTION SCHOOL PRIZES

Presentation Took Place Friday—Outstanding Marks of Ralph And Guy Henson.

The annual presentation of prizes to the pupils of Bridgetown School, which took place in the Court House, Bridgetown, Friday afternoon, was one of the most largely attended and successful ever held here. Dr. M. E. Armstrong, Chairman of the School Board, presided, and on the platform with him were the High School staff, Rev. Canon Underwood, Rev. P. R. Hayden, Rev. A. D. MacKinnon, and Dr. C. Jost.

The programme opened with a chorus by the pupils of the Elementary grades, entitled "September Calls," after which the Chairman gave an outline of the progress of school, pointing out especially how the attendance had increased, until at the present time the most efficient work was seriously handicapped owing to lack of accommodation, the High School grades being very much overcrowded.

Principal Archibald then gave a brief review of the work of the last school year. He thanked the School Board and others generally for their loyal support, in everything that made for progress in educational lines. Now, at the beginning of a new term he urged that parents would co-operate with the teachers in every way to make this the most successful year in our history. The parents can do this by seeing that the pupil is regular in attendance, that the tasks assigned for home study are prepared at home, and that they are sympathetic with the teachers.

The Rev. A. D. MacKinnon, the new minister of the United Church was then called upon. In his usual manner he gave a most stirring address. He compared the advantages of the boys and girls of Bridgetown today with that found in many sections of our province a few years ago and asked if they were making all they might of these opportunities. He urged upon them the importance of preparing themselves in youth for the important positions in life which awaited them.

Miss Marion Hopkins, a member of last year's "A" class, then read her very clever and humorous class prophecy.

The prizes were then distributed, and the programme ended with the chorus "O Canada" rendered by the chorus of O Canada pupils, followed by the National Anthem.

The following pupils were successful in passing the grade applied for at the Provincial Examinations. These are in order of merit.
