### CUBA SWEEP BY FLOOD AND CYCLONE

Thousands Homeless.—Sugar and Tobacco Plantations and Crops Demolished.—City of Havana Devastated.—Millions of Dollars worth of Property Destroyed.

Havana, October 17.—The island of Cuba has probably sustained the greatest material disaster in all her history in the practically continuous cyclone which began with light rains on Thursday morning, developing into torrential floods and devastating hurricanes and continuing this evening. The western half of the island suffered more severely than the east. The first cyclone, of which there was some warning, had hardly abated on Sunday night when, suddenly, the wind, which up to then, had been south-east, changed to south-west and with renewed fury the cyclone blots swept over Matanzas, in Dai Rio and Havana provinces, completing the destruction wrought by the storm. It is impossible to estimate even roughly the amount of the damage, which doubtless will aggregate many millions of dollars.

Camaguey and Santa Clara have escaped the greatest fury of the storm. In the city of Havana the losses probably will exceed a million dollars, mainly due to the destruction of the customs across which were piled with perishable goods and the sinking of scores of lighters. Many of them containing valuable cargoes, which had been loaded from steamers, and the submerging of about one square mile of the residential section of the city, facing the sea.

Warnings have been displayed over the entire Florida peninsula and then northward on the Atlantic coast to Elizabeth City, N. C., and emergency warnings have been issued to the various stations in Florida to adopt every means of saving life and property. Shipping interests have been fully advised of the progress of the dangerous storm beginning Thursday last.

### Let Us Patronize Canadian Routes

The government is spending a great deal of money on harbor improvements, particularly on the St. Lawrence route," said Mr. Tombs, of the Canadian Northern to a Halifax Herald reporter, "and it behooves every good Canadian to patronize the Canadian routes, particularly when the accommodation and service are as a par if not superior to those of United States ports.

ship to Britain just as we today have daily trains between eastern and western Canada. The trip to England costs no more and takes no more time than, for example, the run from Halifax to Winnipeg, and our imperial interests will require, it seems to me, such a service. Just think of the advantages which would follow such a perfection of facilities—advantages which would be mutual to Canada and Great Britain."

As already announced the first sailing from Halifax will be the Royal Edward on December 7th, the winter trip after the initial voyage to Halifax, to be followed by the Royal George on December 14th and fortnightly for the remainder of the winter.

**Fred Cameron Again Beaten**  
In a Most Exciting Race With Able Wood—A Hot Race—Records Broken—Wood Wins on Last Lap.

Amherst, N. S., Oct. 8.—In one of the most exciting ten mile races Able Wood, of Montreal, at Amherst on Saturday again took the measure of Fred S. Cameron, by winning with about five yards to spare.

It was a great race from start to finish and the spectators got their money's worth. Cameron set the pace from the look and it was not until about one hundred yards from the tape that Wood passed him and breathed the tape five yards in advance of the Amherst champion.

### Conditions at Campbellton

Following is the memorandum of the committee of the executive council up on the report of the auditor-general on conditions existing at Campbellton: The relief committee of the town of Campbellton, appointed by the citizens of that town immediately after the disastrous fire on July 11 last, for the purpose of receiving and distributing relief to the inhabitants, who were rendered homeless and destitute thereby, having submitted to his honor, the lieutenant-governor-in-council the names and duties of the said committee, and the manner in which the same had been carried out, the auditor-general was appointed to go to Campbellton and investigate the existing conditions and requirements and to report the results to council, which he has done.

The auditor-general reports, among other things, that on the 19th of September, at Campbellton, he met the chairman of the relief committee and the chairman of the finance committee, as well as other officers, who explained the methods under which the several committees were working. These methods he found to be entirely satisfactory and would judge that every safeguard is being used for the equitable distribution of the funds and supplies.

All cash received for relief purposes is deposited in the three local banks in the joint names of the three members of the finance committee, who explained the methods under which the several committees were working. These methods he found to be entirely satisfactory and would judge that every safeguard is being used for the equitable distribution of the funds and supplies.

The total amount of cash received by the relief committee to the 17th of September, inclusive was \$98,300.33; total expenditure to same date was \$10,392.50, leaving a balance on hand of \$87,907.83. \$32,000 was appropriated to the building committee to give aid to the needy in rebuilding their houses, and also to pay for thirty small houses now in course of erection at a cost of \$9000 each. The committee are in hopes that the tents, now in use as living quarters, may be entirely dispensed with by the middle of October.

To enable the committee to provide the poor with food and fuel during the winter months they estimate that \$25,000 more will be required, and are depending upon the good people of Canada to forward that amount."

The said report also gives a statement of the bonded debt of the said town which at the time of the fire amounted to \$830,499, the annual interest being \$18,000, which was \$12,000.

The amount required in the immediate future to provide for the usual town services, such as electric light plant, water and sewerage plant, fire protection plant, etc., and for which it is proposed to make a new issue, is reduced by insurance from old school building and electric plant to \$118,111.

### OTTAWA, Oct. 18—

An Order-in-Council was passed today appointing Hon. James Drummond MacGregor, of New Glasgow to be Lieutenant Governor of Nova Scotia, in succession to the late Lieutenant Governor D. C. Fraser. The new Governor will be sworn in before the Chief Justice of the Province on Thursday.

### Portugal Now a Republic

London, Oct. 15.—Another throne has fallen. King Manuel is a fugitive. The Lisbon revolution has been completely successful, and Portugal has been proclaimed a republic and the rejoicings of the population. Manuel, who will not be twenty-one till next month, was sheltered out of the Royal palace.

After the assassination of his father and his elder brother, the young monarch was, in the words of a Portuguese Republican, given a chance, but during the time he has been on the throne he has shown no indication of such qualities as might be useful in his constitutional position.

The Lisbon man who really made the revolution is Dr. Alfonso Costa. After the August elections Costa openly declared that it was time for the King to go. Costa was turned out at a previous session of the Cortes for protesting against the financial advances made to the Royal family. Ever since the death of King Carlos he has been organizing an army of rebels, and has personally won over a large number of officers. "Costa," says Malheiro Dias, editor of a Lisbon paper, now in London, "has few men to compare with him in Portugal. He is a linguist, a great orator, our best lawyer and a politician of unusual power and foresight. Moreover, he is the most distinguished professor we have at the University of Coimbra."

The King Manuel, of Portugal, is now under British protection. The Portuguese Royal yacht, Amelie, having on board the King, the Queen Mother, the Dowager Queen and the Duke of Leiria, entered harbor at eleven o'clock, and shortly afterwards wards to King and Queen Mother came ashore and drove to the summer residence of the Governor Sir Frederick Forester Walker. Judging from the appearance of the crew which manned the Amelie they were gotten through hurriedly.

The Provisional Government has issued a communication to the Foreign Powers notifying them of the proclamation of the Portuguese Republic. No serious objections are expected to be offered by the Provinces to the new regime. The Government has already appointed city Governors for the different Provinces.

The Brazilian President-elect, Hermes Fonseca, motored through the streets today with the provisional President. Both were enthusiastically received by the people. Order has been restored throughout the greater part of the city and patrols are guarding the thoroughfares.

### Fraser O' Guysboro

The late Hon. Duncan Cameron Fraser, Lieutenant-Governor of Nova Scotia and formerly member for Guysboro in the House of Commons, who died last Tuesday, was the hero of many stories which had gathered around his name and his picturesque personality in the course of his lengthy and varied career as lawyer, judge and politician.

A giant in stature, standing well over six feet in height and broad in proportion, he had a heart and soul which matched his herculean frame. He was a Scot of the Scot, filled alike with the pride of race and the gift of the gab, and his oratory was in equally great demand at Liberal campaign meetings and banquets of the St. Andrew's Society and the Sons of Scotland.

One of the best tales concerning him had its locale at a political meeting in his native province. The future Lieutenant-Governor was speaking on a sentimental chord, and dilating on his boyhood days to an audience largely composed of his fellow Scots.

"Gentlemen," he said, "I do not know whether you will believe me or not, but it is nevertheless a fact that at school I was only punished once by the teacher—and that was for telling the truth."

"Well, 'Tuncan," came the quick retort in the high-pitched tones of an aged and shrewd Heelan man, "it cured ye a richt."

Another anecdote which showed the innate kindness and generosity which Mr. Fraser concealed under a bluff exterior was contributed several years ago by a Toronto newspaperman to the annual program issued by the Toronto Press Club. Under the caption, "A Nova Scotia Angel in Disguise," the story runs:

In the days before telephones were in use in the United States to the extent that they are now, a Canadian newspaperman was stranded in the good old city of Boston. After several days of the strenuous life without the where-with to support his straits, he managed to get some space work on the old Journal. He "made good" in a fashion, and was congratulating himself that the days of pork benches for sleeping places and a tightening of his waist band for meals were over. But the next night, or rather early in the morning, the City Editor called him across to his desk and said:

### NEW REGULATION FOR LOBSTER FISHING

No Restrictions Against Taking Small Lobsters in Maritime Provinces Provided Traps and Nets are Constructed According to Required Dimensions.

Ottawa, October 6.—The Canada Gazette publishes the new regulations respecting lobster-fishing. They abolish the size limit all over the Maritime Provinces except for St. John and Charlotte Counties, where the size is fixed in the past. However, as a restriction against the taking of small lobsters, it is provided that all traps must have slats an inch and a quarter apart, and a net with a three inch mesh. There has been no reference to traps in the previous regulations.

From the 30th day of June to the 14th day of January is closed season within the county of Albert, New Brunswick, and the counties of Kings and Annapolis, Nova Scotia.

It is strictly forbidden for any one to have any berried, or soft shelled lobsters in his possession, to fish in water not more than two fathoms deep or to place a trap within one hundred yards of a stationary salmon net.

The Horse Races at Middleton  
Middleton, October 14.—The horse races advertised for Monday last were postponed on account of the rain until this afternoon. The green race was finished in straight heats yesterday, but the last two heats of the three minute and the last in the two twenty-two were trotting this morning.

F. L. Shaffner was starter; J. E. Smith and W. C. Feindel, judges, and W. S. Pines, Robt. Morton and G. N. Reagh, timers. Dan Bashaw, Demorr, won the green race, with General Border, Phinney, second, Harrie D. Felts, third, and Nickerson, Dodge, fourth. Time for half mile heats—1.19, 1.20, 1.20.

In the three minute class R. W. E. Elliott got first money; Merry Widow, Rainforth, second; Lady Evelyn Gates, third; Manager King, Morton fourth. Time—2.35, 2.30, 2.30, 2.34, 2.30, 2.33.

Perfection A. Anlis, won the 2.22 race; Ferrone Lydiard taking second money; Belle Mack, Perkins, third. On account of sickness Brenton King was drawn in the third heat. Time—2.28, 2.30, 2.30, 2.25.

THE NEW REGULATION REGARDING LOBSTER TRAPS.  
Perhaps the most important regulations reads as follows:  
"All lobster traps constructed after the 31st of December, 1910, shall have the laths on all portions thereof, not less than one and a quarter inches apart, and this space must remain clear and nothing shall be done to diminish it, and any netting that may be used in such traps, shall be meshes of not less than three inches extension measurement, and nothing shall be done to practically diminish the size of the mesh, and all lobster traps used after the 31st December, 1910, but which were constructed before that date, and which do not comply with the above requirements, shall be so remodelled, that each of the three lower spaces between the laths next to the bottom of the trap, on either side, shall be no less than one and one quarter inches wide."

### Schr. J. L. Colwell has Tough Time Reaching Digby

Lost Rudder and Split Headstalls in a Gale While Near Destination.  
Digby, N.S., Oct. 11.—Schooner J. L. Colwell, Capt. W. R. Merriam, which arrived here today from Boston with creosoted timber for the government pier, had a tough experience in the Bay of Fundy last night and the crew a narrow escape from being lost on Lighthouse Point at the entrance to Digby Gut.

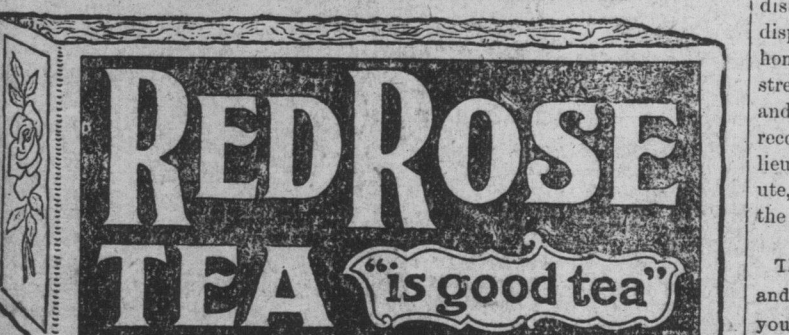

Capt. Merriam reports that he encountered a big northwest gale at 8 p.m. ten miles northwest of Digby Gut. A heavy sea carried away the vessel's rudder head. With the greatest difficulty and through the heroic efforts of the crew, a jury steering gear was rigged just in time to prevent the vessel and cargo from being a total loss on Lighthouse Point.

### VENNING LOCATED IN BRUSSELS.

Ottawa, October 16.—Robert N. Venning, the missing superintendent of Dominion fisheries, who has been lost since he mysteriously disappeared from The Hague at the conclusion of the North Atlantic fisheries arbitration, has been located after a long search by state and police officials in Brussels. A cable received on Saturday, states he is in a Brussels hospital suffering from amnesia or complete loss of memory, but is otherwise well physically. He will be brought home as soon as possible.

### MILDARD'S LINIMENT CURES DISTEMPER.

Red Rose Tea is so popular because "it's good tea" and because when you buy a package you have the comfortable feeling you're getting an article fully worth every cent you pay for it.

Prices: 30c., 35c., 40c., 50c. and 60c.

Of Interest to Both husband and wife is the savings bank book. Every entry in it means a step toward independence and a comfortable old age.

### UNION BANK OF HALIFAX SAVINGS DEPARTMENT

will open accounts in the name of a husband and wife, mother and daughter, or any two friends, so that in case of illness or death of one the other can withdraw the deposit without any expense.

Obituary.

WILLIAM H. BENT.

On Monday afternoon of last week the earth closed over all that was mortal of our oldest and one of our most respected residents, Mr. William H. Bent, whose death took place at the residence of his daughter, Mrs. John K. Healey, of Karadale. He was a son of the late John Bent, was born at Belleisle in the year 1819, being in his 92nd year at the time of his death. He married early in life, Miss Elizabeth C. Geener and lived on part of the homestead farm all the years of his life. His wife predeceased him two years ago, since that time he has lived with his daughter. He was one of the old and fast-fading landmarks of bygone years. He was conspicuous for his kind and open-hearted hospitality to friend or stranger, who came within his gates, but no more will the welcome and familiar presence of "Uncle Billie" as he was fondly called by all the younger people of the locality be seen among us. He was a man of most remarkable vitality, which he retained up to a short time previous to his demise. He was laid to rest beside his wife and members of his family, who had predeceased him, in "God's beautiful acre," the Geener cemetery. The Rev. W. T. Suckling officiated. Three daughters survive him, Mrs. John K. Healey, of Karadale, Mrs. Percy E. Geener, of Bridgetown, and Mrs. Charles Todd, of Lynn, Mass.

SPRINGHILL MINER SHOT WHILE HUNTING.

Marcell Moret May Die as Result of Accident While Out Hunting With Companion.

Amherst, October 16.—A sad shooting accident occurred at Joggins Mines on Saturday morning, which will probably result in the death of Marcell Moret, a Belgian miner in the employ of the Maritime Coal and Railway company. Moret and a fellow Belgian named John Baptiste Demire were out shooting rabbits and partridges about three miles from the town. They were separated by some distance, and Moret's companion fired at a rabbit which came in line with Moret, who received the whole volume of shot in his body. One penetrated through his right eye, another through the lower extremities of his throat, while about a dozen of the shot found a landing place in his throat. Demire was terrified, and did what he could for his unfortunate companion and then started for help. The wounded man, after some delay, was carried out of the woods. He is still living, but his recovery is doubtful.

Electric Beans Are a Natural Remedy for Nerve, Stomach and Liver Disorders.

Once upon a time disease was thought to be the result of evil spirits and magic was invoked to cast it out. The evil spirits still exist, we call them "Disease Germs," and they must also be cast out. One lodged in the stomach or intestines, causes with its aches and pains, or in the liver, causes the jaundice, or in the chest the hunch back, is the result. Science has taught us wisdom. Electric Beans are the approved remedy for driving out disease germs. They are quick and thorough, they clear the intestines, rouse the torpid liver to new life, stimulate the mucous membranes to healthy action and cleanse and invigorate the whole digestive tract. Be prepared for emergencies by always keeping a box in the home. See our booklet of remarkable cures, testimonials. Test this remedy at our risk, if it is not satisfactory we will cheerfully refund the money for it. Electric Beans can be had only from our agent, Mr. Frank H. Dodge, of Bridgetown, N. S., or direct from us, 50c a box. THE ELECTRIC BEAN CHEMICAL COMPANY, LTD. Ottawa, Ont.

SEALERS TENDERS

addressed to the undersigned, and endorsed "Tender for Ice Piers at Annapolis Royal, N. S.," will be received at this office until 4.00 p. m., on Tuesday, November 8, 1910, for the construction of two ice piers in the Annapolis River at Annapolis Royal, Annapolis County, N. S. Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, at the office of C. E. W. Dodwell, Esq., District Engineer, Halifax, N. S. E. G. Millidge, Esq., District Engineer, Antigonish, N. S., and on application to the Postmaster at Annapolis Royal, N. S. Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works for the sum of four thousand five hundred (\$4,500.00) dollars, which will be forfeited if the person tendering declines to enter into contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the Department does not bind itself to accept the lowest or any tender. By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, October 12, 1910. Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Crop Report

Ottawa, October 11. The Census Office publishes today a Bulletin of the condition of crops in Canada at the end of September. The reports show lower averages of condition for the whole of Canada than those of a year ago, but the reduction applies chiefly to the Northwest provinces. In the eastern provinces a high per cent is maintained for nearly all the crops, and quantity and quality are nearly as good as a year ago and better than two years ago. In Manitoba, Saskatchewan and Alberta there is a drop of about twenty per cent in the quality of grain and roots, but the thrashing indicates that the yield will be larger for wheat, oats and barley than was promised at the end of August. For the whole of Canada the condition of rye at the end of September was 82.5, which is ten per cent better than two years ago and 2.39 better than last year. Peas and beans are nearly eight per cent lower in condition than a year ago, but nearly ten per cent higher than in 1908. Buckwheat is about the same as last year, and twelve per cent better than in 1908, whilst mixed grains are better by five per cent than last year and by 19.47 per cent better than two years ago. Corn for husking compared for the three years 1910, 1909 and 1908 shows percentages of 85.12, 86.77 and 82, and corn for fodder of 89.82, 87.18 and 92, for the respective years. The condition of potatoes is 76.98 at the end of September compared with 90.57 last year of turnips 82.69 to 83.34 and of sugar beets 18.13 to 71.03, whilst in 1908 their condition ranged from sixty-eight to seventy-four. Alberta has a condition of 83.39 for the end of September, and it exceeds ninety in the Maritime Provinces and Ontario. In Quebec and the Northwest provinces it is not more than seventy per cent, and in British Columbia it is 58.22. All field grains in the province last named exceed eighty-two per cent in quality. The estimated yield of rye this year for Canada is 1,634,000 bushels, of peas 6,444,500 bushels, of beans 1,889,600 bushels, of buckwheat 7,302,000 bushels, of mixed grains 29,103,000 bushels, of flax 4,314,000 bushels and of corn for husking 17,682,000 bushels. The average bushels per acre of these crops is 19.43 for rye, 16.69 for peas, 20.84 for beans, 26.98 for buckwheat, 34.91 for mixed grains, 9.04 for flax and 53.83 for corn. Better averages for wheat, oats and barley are assured when the final returns are made in December than the reports for the end of August gave. ARCHIBALD BLUETT

Board of Health Meeting

A special meeting of the Board of Health was called on Monday, 10th inst. to deal with the case of George Munro, a milk dealer of the town, who had a case of typhoid fever in his family, his son having come home from Campbellton ill with the disease. The health officer of the town Dr. M. E. Armstrong, was summoned before the Board to inform them as to the circumstances and to give his opinion concerning the danger to the customers of Mr. Munro. Town Clerk Ruggles read a notice he had sent Mr. Munro under the instruction of the Board of Health notifying him to cease to deliver milk within the town limits, and calling his attention to the provisions under the Act relating to the Public Health.

Dr. Armstrong was of the opinion that as the boy had contracted the disease while absent from home, and the dairy being carried on away from the house and as he believed every precaution was taken by the nurse and other members of the family while the boy was ill in September there was no probability of danger of contamination through the milk. The boy had been home a month and required very little medical attendance, his case being a light one. Upon motion it was resolved that Samuel Pratt and Guy Ruffe be given permission by the Board to keep dairies and deliver milk in the town subject to the revocation by the Board at any time. It was then moved by Councillor Craig and seconded by Councillor Burns that permission be granted to George Munro to sell milk in the town. After a full and free discussion the chairman, Mayor Hoyt, called for a standing vote. Councillor Burns voted for the motion and Councillors Craig, Ruffe, Tupper and DeWitt against, and the motion was lost.

Subsequently to the meeting members of the Board were convinced that the precautions taken by Mr. Munro would secure his customers from danger of contamination and the case being a very light one and the boy convalescing rapidly it was decided no action in the matter by the Board was necessary. The customers of Mr. Munro have expressed themselves as entirely satisfied that no danger existed under the conditions by which the milk supply was cared for and he has continued to deliver milk without interruption. Doubtless the Council at an early date will accord him the license already given the other milk dealers.

BESTYETTE

We take a pleasure in extending this invitation to our hundreds of customers in Bridgetown and throughout the surrounding country to come to our Big Store and inspect our Fall and Winter styles. We positively have the largest and most up-to-date stock of Ladies' Fancy Furs and Muffs, Underwear, Hosiery and Silks, Men's Underwear, Knitted Goods and Caps, etc., etc. ever shown in the town of Bridgetown.

**Sweater Coats for Men and Boys**  
Anticipating a big trade in Sweater Coats for fall, we have a large and varied stock in white, smoke, and light grey. These include Hewson's and Watson's best values—all sizes in Mens. Prices \$1.25 to \$3.50

**BOY'S SWEATER COATS**  
In light grey body with navy or cardinal trimming, also a line of Hewson Sweaters. Price: 60c. to \$1.50

**Ladies' Fall and Winter Sweater Coats**  
Since the introduction of Sweater Coats for Ladies wear, they have undergone many improvements in manufacture, and now they are a standard article of Ladies' attire. The season's styles are along dressy lines. We have a superior assortment in white, smoke, and light grey; sizes range from 32 to 40. Prices \$1.50 to \$4.75

**Ladies' and Children's Underwear**  
We have carefully selected lines of Watson's and Stanfield's celebrated Underwear for Ladies and Children. They are in light and heavy weights with a soft even surface, well made and comfortable. Our stock consists of vests and drawers in white and natural colors, and Combination Suits for Ladies and Children. In sizes we have from the smallest infants to the largest Ladies. Prices 18c. to \$1.50

**Ladies' and Children's Underwear for Men and Boys**  
For Men we have a large assortment of Hewson's and Stanfield's guaranteed all wool Underwear in the blue and red labels—sizes 34 to 44. Prices \$1.00 to \$1.50

**Headwear**  
For Men we have a large assortment of Caps with or without knitted bands. The knitted bands are very popular as they can be worn as a protection to the ears on cold days and turned up on warm ones. For Ladies and Children we have a first-class line of Toques, Caps, and Felt Hats in a large number of colors, styles, sizes and prices. Give us a call when in need of Hats, Caps, etc.

**OUR MOTTO:—"A square deal to every customer."**

**JOHN LOCKETT & SON**

LOCAL AND SPECIAL

Canadian Parliament will meet November seventeenth. R. A. Bishop has put in a new stock of jewelry and silverware. Frank Elliott has purchased the property of Albert Gates at Nictaux. It is reported that the cranberry crop is about one-quarter of last year's crop. The last instalment of Dr. Armstrong's sketch is unavoidably held over until another issue. D. A. R. Steamship Service Yarmouth to Boston was reduced to two trips a week on the 17th inst. J. O. Elliott, who purchased Mrs. Cogswell's place at Centree, has re-sold it to the former owner. Miss Almada Jackson, of Melvern Square, spent Sunday with her parents, Mr. and Mrs. James N. Jackson. Mr. J. W. Flinn, of Wilmot, has been spending a few days with Mr. and Mrs. W. A. Gilliat, of Grandville Centre. Tenders for the building of two new ice piers between Annapolis and Grandville Ferry are offered by the Dominion Government. The Monitor is indebted to Mr. Percy Burns for a sample of a freak being nearly a double one. Mr. and Mrs. Frank A. Bauckman will be "at home" to their friends on the afternoons of Wednesday and Thursday, the 26th and 27th inst. A young man accused of stealing money from his neighbor was up for preliminary examination last week and is now confined in Annapolis jail awaiting trial. Moose are not so plentiful in this section of the country as usual at this season and very few successful shots have been reported. There have been quite a number captured at the western end of the country. The season of bad roads has arrived and nothing has been done to improve them. It is not time for some action to be taken toward road improvement? The lack of it is a grave detriment to the town. The ladies of the Baptist Missionary Aid Society will be "at home" to the ladies of the church with their husbands in the vestry of the church tomorrow (Thursday) evening, from eight to ten, the occasion being the annual Grange Day. The Port Arthur could not get away from her berth until eleven o'clock on Wednesday evening last, on account of the gale, two tugboats being insufficient to pull her bow off from the wharf, says the Yarmouth Telegram. Schooner Frances was unable to leave her berth here the first of last week on account of the low tides. She left on Thursday and leaves St. John on her return trip tomorrow, to arrive on Friday. Schooner Dorothy is also expected on Friday with a cargo of Scotch coal. That grape culture is quite within the possibilities of our horticulturists has been demonstrated by a number of our townsmen. Councillor W. H. Burns has raised grapes of the Niagara variety which rival in beauty and flavor anything that the State of Delaware can produce. The sluice-way across School street leading from Dr. Freeman's to the school house has been bridged and abutments on either side have made a permanent job. A few feet more would have carried the work across the side-walk and would have made a neater piece of work. Mr. James R. Ruggles, who as a boy of fifteen years of age, taught school in the Chesley section, thirty years ago, was in Bridgetown a few days last week. He noted the splendid growth of the town and the present signs of prosperity. Mr. Ruggles is the customs officer at Lockport, Shelburne Co. On Friday evening next at the Methodist church lantern slide views "From ocean to ocean" will be shown. The Epworth League have been successful in securing from the C. P. Ry. company a splendid set of lantern views of the most interesting points of our Dominion and with the aid of a good lantern, these views will be given at this meeting. The lecture room of Providence church was well filled at the Epworth League service last Friday evening and the large audience were much interested in the addresses of Dr. Armstrong and Mr. H. B. Hicks, who reported the work of the General Conference, which they attended at Victoria, B. C., during the month of August. The interests of the various departments of the church as reviewed by the Conference was reported by the speakers, and much helpful and inspiring information was imparted. At the close of the pictures a vote of thanks was presented to the speakers.

PERSONAL

Mrs. J. E. Lloyd and Miss Madge Morse returned from Boston on Monday. Miss Stella Foster has recently been the guest of her Seminary friend, Miss Harding, St. John. Mrs. Willoughby Anthony and daughter, Mary, left on Saturday, 15th, to visit friends in Boston. Mrs. Daniel, of Roslinale, Mass., is visiting her father, Mr. E. C. Young, whose condition does not seem to improve. Mrs. Morrill, of Freeport, has been the guest of Dr. and Mrs. Armstrong and other friends during the past week. Mrs. F. C. Harris has returned from a two-months' visit in Charlottetown, P. E. I., much improved in health. Mrs. (Rev.) B. J. Porter is at her home in Yarmouth Co., having been called there by the serious illness of her brother. Miss Bess Ruggles has gone to visit her brother, J. W. Ruggles, Montreal, and will also visit Toronto before her return. Rev. Seldon S. Poole, the new pastor of the Middleton Baptist church is a native of Yarmouth and a graduate of Acadia. Rev. Roland M. Jost, pastor of Providence Methodist church, Yarmouth, who has been spending a month's leave of absence at Bridgeport and Halifax, returned home last week. Mr. Jost has been advised by his physician in Halifax to consult a specialist in Boston, and he leaves for that city this week. Mr. Laister Strothard, formerly of the Union Bank here, but recently of Handley, Sask., has been appointed inspector to the Northern Bank, and will in future reside in Winnipeg, says an exchange. Mrs. Robert Rand, of Wolfville, has gone to Winnipeg to spend the winter with her daughter, Mrs. Strothard. Mr. Jack Primrose, who has been clerking with A. V. Rand, druggist, Wolfville, has resigned his position and left Thursday for Yarmouth, where he will relieve in the drug store of J. A. Craig for a few weeks. We understand that 'Jack' intends leaving for the Great West in the near future.—Kentville Advertiser. FEDERATED EMPIRE COMING TO THE FORE. Mr. Lloyd-George is Expected to Make Important Statement on Devolution Scheme. London, Oct. 15.—The new movement in home politics towards a Federated Empire is attracting widespread attention in the press. Llewellyn Williams, M.P., who next week accompanies Mr. David Lloyd-George to the Welsh National Liberal Council, where the Chancellor is expected to make an important pronouncement, said: "Imperial unity, a magnificent federation of the freest and most progressive communities in the world, 'is no longer a vague, unreal dream' but is fast becoming a practical question." It is recognized, of course, that the first step towards 'imperial' devolution at home, which will bulk largely in the Liberal programme in the future. The road towards the greater ideal is rough and difficult, but, as Mr. Williams said, "imperial federation is no longer in the position it occupied in the eighties." In Great Britain, in the United States, in Continental Europe and in British Colonies, there is now an earnest endeavor being made by those in authority to lift the fallen man or woman, instead of pushing them down further, as was the custom for untold generations. The Boys' Home and Farm and similar institutions propose to effect reform by as far as possible stopping the supply of criminals by taking boys as soon as they come in collision with the laws of the land. Instead of branding them as criminals and herding them with the vilest and lowest, and turning them out on society confirmed in all wickedness, the place them amid healthful surroundings, train them in moral, mental and physical vigor, places in the world as good citizens, and fit them to take their rightful places in the world as good citizens. There is no secret process in the manufacture of Carpentier-Morton Roofing. It is made from long fibre wool felt, treated with genuine natural asphalt. It is free from coal tar, candle tar or residual products of any kind. This roofing is fully guaranteed by the manufacturers. Ask Karl Freeman to show samples.

Disastrous Fire at Wolfville Ridge.

Mr. Howard Moore, of Wolfville Ridge, lost his house and adjoining farm buildings, with most of their contents, in a disastrous fire which occurred Tuesday afternoon, by children playing with matches in the barn. The high wind soon carried the fire from the barn to the rest of the buildings. A large amount of hay, oats and other produce, including about one hundred barrels of apples, was consumed, but most of the household furniture was removed. There was no insurance, and Mr. Moore estimates his loss at \$5,000. So strong was the gale, that sparks from the burning building were carried a quarter of a mile, setting fire to hay of Mrs. John Martin, which with an adjoining barn was also consumed. The loss is a very heavy one for Mr. Moore, who is an energetic and industrious young man. He will no doubt receive substantial sympathy from his friends and neighbors. BIG CARGO PINE FOR SOUTH AMERICA. Harry J. Crowe is Shipping 2,500,000 Feet From Pt. Leominston—Another Pulp Mill Projected. Harry J. Crowe, the well known lumber operator, who now makes his home in Toronto, has been in the City for a day or two and leaves this morning for Newfoundland via North Sydney. Mr. Crowe is carrying on extensive operations in the Colony. He is loading 2,500,000 feet of pine for South America on a steamer at his mill at Point Leominston, and will have a large force of men in the woods in connection with his pine operations at his two mills. He will also deliver 25,000 cords of pulp wood for Lord Northcliffe's mills at Grand Falls. Mr. Crowe is now carrying on negotiations for the establishment of another large pulp mill in Newfoundland.—Halifax Chronicle, Oct. 15th. NEARLY REACHED THE CENTURY MARK. There passed away at Church St., Cornwallis, on Tuesday, says an exchange, one of the oldest residents, Mrs. Abram Newcombe, daughter of the late William Robinson, in the ninety-ninth year of her age. In the report of the 150th anniversary exercises of St. John's church, she was mentioned as being present at both consecrations. Mr. William Robinson Troop, of this town, is a nephew.

## THE BOY SHOULD KNOW HIMSELF.

No boy has a right to be turned loose upon the public without a knowledge of the ten commandments for his moral guidance. The principles of justice must be instilled into every sturdy fibre!

The boy has to know himself. He has a body, a mind and a soul, each of which needs food for growth. Without a knowledge of the body, which not infrequently is so badly neglected, he is no safer than if placed in a run-away railway locomotive. If the line is straight, he may meet no serious accident, but most lines have sharp curves, stops, and not infrequently, obstacles in the way. Prepare him for these. Teach him botany. Teach him physiology. Give him to understand that his body is a very fine machine, loaned him for a time that he may by living, bring character and usefulness into his own life and into the lives of others. Give him facts as he is really for them. Teach him that obedience to nature's laws means health; that their violation means disease. Even the boys in a well regulated home should have a fair grasp of food values and their relation to health. This is one of the questions at the base of all mortality. There is more sin and sorrow directly resulting from incorrect diet than from all other causes combined. Bad food and drunkenness cause disease. Disease weakens the mind and dulls the morals, and henceforth a train of evil follows, till the radical causes are corrected.

## BREAKING A BAD HABIT

One of the most aggravating faults of two impulsive boys proved to be a disposition to interrupt when someone else was speaking, in order to interject their own views, understanding of the matter, or comments. The disagreeable habit did not yield to explanations of the rudeness of the practice nor to reprimands upon the numerous slips in this line.

Each boy was the recipient of a small allowance of pocket money weekly to supply small personal and school needs, and the distressed mother noticed how eagerly plans were made ahead for its use. She determined to use this fact as a leverage of control.

Quietly she announced that at the least sign of a break in the way of interruption of another's conversation, she would unostentatiously raise one forefinger. If this warning were not heeded she would raise two fingers, which signal would mean a fine of five cents.

At the end of the first week both boys had not only lost their whole allowance, but were in debt besides; this too without a word of fault-finding or scolding.

The second week saw a decided improvement, and the end of the month proved the objectionable habit to be a bit of ancient history.

## BOLTING OUR FOOD.

Dr. Henry C. Ferris, recording secretary of the New York State Dental Society, recently presented an illuminating report showing the effects of the bolting of food. Dr. Ferris addressed a letter to one hundred and fifty of the prominent medical men of this country in which he asked them if they considered imperfect chewing and salivating of food an aetiological factor in diseases of the stomach and intestines, and, if so, what pathological conditions resulted from such neglect? Out of the hundred and fifty replies that Dr. Ferris received ninety-eight per cent. of these physicians said that chewing of food was an important factor toward good health and that the bolting of food frequently caused cancer, catarrh of the stomach and gastric ulcers. If food is not thoroughly chewed and is permitted to pass the stomach in large lumps or masses, there is no question that it must injure the soft lining of that organ, producing many of the cases of ulcers and catarrh that need careful and conscientious medical attention. Some further comments on this course of a review in October Busy question are to be found in the Man's.

**Ate Unwisely?** Sometimes people do, and suffer, because the stomach balks.

**NA-DRU-CO DYSPEPSIA TABLETS**

relieve the discomfort at once, and help digest the overload. The lover of good things may feel quite safe with a box of NA-DRU-CO Dyspepsia Tablets at hand. 50c a box. If your druggist has not stocked them yet send 50c. and we will mail them.

National Drug and Chemical Co. of Canada, Limited. Montreal.

## HOW TO WASH WINDOWS.

Strange as it may seem, there is a right and wrong way to wash windows, and as this operation is usually dreaded the following method will doubtless be appreciated, as it saves both time and labor. Choose a dull day, or at least a time when the sun is not shining on the windows, for when the sun shines on the window causes it to dry streaked, no matter how much it is rubbed. Take a painter's brush and dust them inside and out, washing all the woodwork inside before touching the glass. The latter must be washed slowly in warm water diluted with ammonia—do not use soap. Use a small cloth with a pointed stick to get the dust out of the corners; wipe dry with a soft piece of cotton cloth—do not use linen, as it makes the glass lousy when dry. Polish with tissue paper or old news papers. You will find that this care, where soap is used, and the result be done in half the time taken will be lighter windows.

There can be no question that cleanliness, from every point of view is a first essential in the warding off of disease; but diet is a great object of consideration. Incontrovertible arguments could be advanced as to the necessity of strict attention to articles of food. The fact often think that cheapness is all important in matters of diet, and that little difference exists between various sorts of food, as respects their nutritious qualities. This, no doubt, often proves a lamentable error; prostration of strength and commencement of disease may be traced, in many cases, to cheap trash which was taken as a support of life, but which conveyed a principle of death. The old adage "what won't poison will fatten";—meaning by "poison," suddenly poison—is dangerously false; and its falsity should be recollected as well by sellers and buyers as well by those whose duty it is to cater conscientiously for the public as by those who should take care that in allaying the appetites of nature they do not introduce an enemy instead of a friend to the citadel of life.

## GIRLHOOD.

Don't you know, girls, that everyone loves a sweet, wholesome, girlish little maid, who never tries to be old; than she really is?

No difference to her acquaintances if she's thin or fat, if her "proportions" are good or indifferent, her girlishness and childish innocence are the qualities which attract and hold. Please believe me, girls, now is the happiest time of your lives. Your childhood will be all too short—don't hasten its close by heighing about the boys and your shape.

Study your lessons, play with your dolls and learn from mother how to be a good little housewife—then when boy-time comes the boys will all be striving for your favor—see if they don't!

And remember, girls—boys do not like a silly, little boy-crazy girl any more than grownups do.

## HEALTH OF SCHOOL CHILDREN.

It may be worth noting that the Darlington, England, Education Committee "have adopted the suggestion of the medical officer that tooth-brushes should be purchased in large quantities and sold to the children at cost price. This course is being taken in view of the prevalence of dental disease among the children attending elementary schools." Another suggestion that has been adopted is that the hospital authorities should start an eye department for the benefit of children suffering from defective eyes. The committee have also under consideration the idea of starting an open-air school for children who are weakly.

No child can practice cruelty towards any living creature without doing himself far greater harm, yet in the majority of homes we hear, "Don't hurt the cat, she will scratch you," instead of "Don't hurt the cat for she feels the pain as you would." Not a word is said as to the rights of the animal or the moral harm sustained by the child.

Constipation is the root of many forms of sickness and of an endless amount of human misery.

## Dr. Merse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them. 25c. a box.

It is the plain duty of parents and teachers to teach the temperaments and inclinations of dull children; by doing so they will not only do justice to the supposed stupid, but also in many instances bring credit to themselves for their own cleverness in perceiving that this child was not mentally deficient but only backward.—Ex.

## For Constipation

A Medicine That Does Not Cure Anything Unless It Cures

The active medicinal ingredients of Rexall Orderlies, which are odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store, W. A. Warren.

## HIGHWAY IMPROVEMENT

The annual report on Highway Improvement in Ontario for 1910 has been issued by the Legislative Assembly. This report contains about one hundred pages, is profusely illustrated, and embraces a large amount of interesting material that should be read widely in this Province.

"Road construction has during the past year attracted much public attention," says the report. "This is due largely to a growing appreciation of the national importance of good roads as distinguished from their purely local value. Good roads benefit the farms by which they pass just as improved town streets increase the value of adjacent property. But good country roads do vastly more than this. They are of value to the villages, towns and cities to which they converge. They are a necessary weight in preserving the balance of food prices. They are essential in making the business of farming what it is, destined to be in Ontario, the most attractive of occupations." The common highways carry all the traffic of the railways, and more for light driving is today in excess of heavy teaming. As a factor in social conditions, food prices, commerce and transportation their influence is incalculable.

The past tendency has been to look too much at the individual mile of road instead of regarding the broad network of highways as a great public work requiring careful organization and systematic management."

This report will be sent free on request to any farmer who writes for it to the Deputy Minister of Public Works, Toronto.

It has been pointed out that there are numerous great highways in Ontario that are even more essential to the welfare of the whole country than are some of our main railway lines. What is true of Ontario is also true of the other provinces of this great Dominion. Would it not be a wise investment for the Provincial Government in each case to take these great roads and metal them thoroughly? The work should be done at the expense of the people as a whole.—Exchange.

## Your Little Eccentricity

"Has it been your experience as it has been mine to see, people who otherwise had good manners, raise the napkin above the mouth, rub their eyes, wipe the forehead, in fact, use it as a handkerchief, stopping short only at wiping the nose?" writes a correspondent.

Dear lady, it certainly has. And also to see other tricks just as bad committed by people who ought to know better.

A man who stuttered was aroused one day when a supercilious person commented on his falling.

"Oh, I guess every-body has his little eccentricity," he said. "What's that yours?"

The supercilious person protested that he didn't know that he had any. "Oh, I guess you have," insisted the stutterm. "Now, if you eat your soup with your left hand or with your right?"

"I eat my soup with my right hand, of course."

"Then that's that's yours," triumphantly pointed out the stutterm. "I eat mine with my spoon."

All of which I have told simply to introduce the stutterm's philosophy—that every man has his little eccentricity.

I think he has—especially in table manners. It seems as if almost everyone we know, however well bred has some little disagreeable table trick. Each is horrified at the other's offenses and each calmly commits his own.

And don't think I mean offenses to pick the right fork or spoon from a bewildering array of implements. I have a thorough sympathy for such a failure—a sympathy born, in my own mind, of a sympathy born, in my own mind.

What I mean is flagrant offenses against the laws of decent eating, like the lady referred to.

Such, for instance, as the public use of the toothpick.

Again and again I have seen well-dressed men in nice restaurants and hotels, dining with their wives or sweethearts, sit back and use a toothpick while waiting for their checks.

Again and again I have seen men and women too, issuing from first class restaurants with toothpicks slanting jauntily from the corners of their mouths.

To repeat something that, although it has been said ten thousand times, can well afford to be repeated since it has been disregarded, and since many one should never use a toothpick at all. It is neither good for the teeth nor efficacious. Dental floss is the proper implement.

But if you will abuse yourself using a toothpick, don't abuse the rest of the world by using it in public.

Another extraordinary trick of otherwise decent people, is that of leaving the place with many kinds of food and allowing them to become mixed up in a mess that is partially suggestive of the crumb bucket.

Another is the habit of eating out from the end of the spoon rather than the side. I have seen a college professor and his wife do that—and do it audibly too.

Another is crumpling crackers and croissants, and so forth, into the soup, instead of eating them separately.

Doubtless none of these are your particular offense.

But don't exonerate yourself too quickly. You may be unconsciously committing some other offense that offends other people as much as these offend you.

Better look out for it.

To quote the stutterm: "Everybody has his little eccentricity. What's yours?"—Ruth Cameron.

**Shiloh's Cure**  
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

**WHITE DEER IN MAINE.**  
Charlotte, Me., Oct. 3.—The remarkable sight of a pure white doe and an equally white fawn is reported here. The two rare animals were seen in the woods not far from the railroad station at this place and are said to have been absolutely white, without a spot of another color upon them. Charlotte is fourteen miles from Calais.

**A Treatise on the Horse, FREE**

Condensed, Wis. Oct. 25, 1909

"Please send me your book, 'A Treatise on the Horse,' as I have seen it advertised as free, but if it costs \$5, I would not be without it, as I think I have saved some valuable horses in the last year by following directions in your book."

It's free. Get a copy when you buy Shiloh's Spanish Cure at your dealer's. If he should not have it, write us, so we will mail it to you.

Paradis

Mrs. Ass Morse, of Williamston, was a guest of her niece, Mrs. I. M. Longley, last week. Mrs. G. H. Macomber and daughter Grace, returned to their home in Springfield, Mass., on Wednesday last. Mrs. George Ricker, of Somerville, Mass., is visiting her parents, Mr. and Mrs. W. H. Bishop. Rev. J. T. Eaton spent last week with Mr. and Mrs. P. W. Bishop. Mr. F. W. Bishop had the misfortune to lose a valuable horse last week. Christopher Jackson is making repairs on his house. Miss Myrtle Starratt returned to Massachusetts on Saturday. She was accompanied by Miss Rowena Morse, who will spend a month with friends and relatives in the land of Uncle Sam. Mr. and Mrs. J. S. Ritchey welcomed a daughter on the 9th inst. The ladies of the Baptist Sewing Circle gave a tea and apron sale in the church on Thursday evening, Oct. 6th, the sum of \$25.30 being realized. Mrs. Benjamin Starratt is occupying "Ellenhurst" this winter. Rev. Mr. Slaughterwhite was a guest at the Parsonage on Sunday. Mr. Milton Munro and family, of Margareville, are spending the winter in Paradise. Dr. and Mrs. Goodspeed visited their daughter, Claire, at Albany last week. Mr. Geo. Starratt and son Emerson, attended the funeral of Mr. Starratt's mother, at North Kingston, one day last week. Mr. and Mrs. Wallace Jodrie returned home on Monday last. Our merchants have agreed to close their stores on Wednesday and Friday evenings.

(From another correspondent, Oct 12) Mrs. J. W. Bancroft, of Pleasant Valley, Yarmouth Co., was the guest of her sister, Mrs. C. Goodspeed last week. Mrs. R. Chesley and Miss Nettie Covert went to Kingston Saturday, returning on Monday. Mr. and Mrs. W. T. James, who have been spending the summer at "Ellenhurst", have gone to Bermuda and Mrs. B. Starratt, of West Paradise, will occupy their home during the winter. Mr. and Mrs. R. Taylor spent the week end with Mrs. Taylor's parents Mr. and Mrs. Alvin Starratt. Miss Helen Bancroft visited her aunt, Mrs. C. Goodspeed last week, leaving for Wolfville Wednesday, where she will join the senior class of Acadia College. Mrs. Chas. Covert, Sr., Mrs. G. D. Covert, and Miss Wilson went to Kingston last Wednesday, returning Saturday. Mr. Isa Wallace has taken a position with Schaffner's Limited at Lawrencetown. Mrs. Calnek, of Granville, is visiting her daughter, Mrs. H. W. Longley. Mrs. Harris, of Annapolis, is the guest of her daughter, Mrs. John Jackson.

Port Lorne

Mr. Young Anthony was in St. John last week on a business trip. Edward Sanford's barn was destroyed by fire Friday afternoon. Mr. Merrill Brinton is home from Halifax, where he has been spending the summer. Miss Eunice Anderson has gone to Lynn for the winter. Mrs. Rachael Graves is home from Halifax. Mrs. Samuel Beardsley spent last week in Bridgetown. Mrs. Staples, of Lynn, spent Sunday with Mrs. T. W. Templeton.

There is a convenience in using Estabrooks' Coffee because you can buy it in nearly every store and the quality is the same wherever you buy it. The double sealed tin keeps it in perfect condition until you get it. Buy Estabrooks' Coffee and you are sure of coffee at its best. ESTABROOKS' RED ROSE COFFEE. Sold only in 1 and 1/2 lb. tins. Try it for breakfast to-morrow.

Lawrencetown.

Mrs. T. M. Whitman spent last week with her parents, Mr. and Mrs. Camond Balcom. Miss Hattie Banks, of Mount Rose, was the guest of Miss Mary Beals quite recently. Mr. W. W. Bent is making extensive repairs on his residence. Mrs. E. L. Hall leaves this week for Bridgetown, where she will remain the winter with her daughter, Mrs. W. Jones. Chas. Miller, junior, of Acadia University, after spending two weeks with her parents, Mr. and Mrs. Chas. Miller, returned on Saturday to resume his studies. Mrs. Annie Buckler, accompanied by her daughter, Mrs. Arthur Duncan, went to Annapolis on the 14th to be present at the wedding of her son, Mr. Thomas Buckler, and Miss Janet Edwards. Mr. L. H. Stoddard left for Boston on Saturday, where he will spend a fortnight with his friends. The Ladies' Sewing Circle will meet on Friday afternoon at the home of Mrs. Osmond Balcom, being postponed last week on account of the storm. Mrs. John Hall is visiting her daughter, Mrs. Arthur Marshall and Mrs. Ernest Miller, of Lower Clarence. Mrs. (Dr.) Young returned from Baltimore on Saturday. Miss Nita Balcom spent Sunday in Clarence visiting her cousin, Miss Merle Banks. Mrs. David Hatt, of Bridgetown, is spending the winter with her son, Mr. W. M. Hatt. The Misses Lizzie and Winnie Feltus are spending a month in Massachusetts. Mr. Harry Feltus, of Amherst is visiting his parents, Mr. and Mrs. R. E. Feltus. Dr. Schaffner spent Sunday in town. Mrs. Ida Oswald is visiting her daughter, Mrs. Zwicker, of Albany. The social held in the Baptist church Thursday evening for the purpose of raising money to furnish the young men's class room was a success. The evening was all that could be desired, the attendance good and the Band rendered several selections, which were much appreciated. Mrs. C. S. Balcom entertained a few friends on Thursday afternoon. Mr. Ralph Shaffner spent Sunday with his family. Messrs L. E. and Wm. Brown are spending a week moose hunting. Miss Marie Durling is clerking in Shaffner's store during Miss Feltus' absence. Mr. Paul Durling, of the Union Bank staff at Annapolis spent Sunday at home. Mrs. Frank Longley, who has been spending a week in Halifax visiting her sister and taking in the Exhibition, returned home last Monday. Services for Sunday, Oct. 23rd, Baptist 11 a.m.; Episcopal 3 p.m.; Methodist 7 a.m.

Mr. James Gibson and Mr. William Marshall and daughter, of Del-housie, spent a few days quite recently at the home of Mr. and Mrs. Oliver DeLancy. Miss Maude Oxford left last Wednesday for her home in Melrose, Mass. She was accompanied by Mrs. John Moore, who will spend several weeks visiting relatives at West Newton and Salem. Miss Mabel DeLancy left last Saturday for New York. We are sorry to report that Mrs. William Martin, of Melvern Square, is seriously ill at the home of her parents, Mr. and Mrs. Henry Banks.

North Williamston

Mr. and Mrs. W. H. Weatherspoons were in Windsor last week attending the Exhibition and visiting their daughter, Mrs. Joseph Curry. Mrs. Fred S. Troop, who has been in Boston for some months for medical treatment, returned to her home on Wednesday. Mr. and Mrs. Bernard Dolan sold their household effects by auction on Saturday, 15th, and will move to Lynn. Mr. Dolan has been the managing owner of the Ferry Steamer for two years. Mr. James Armstrong, of North Dakota, who has been visiting his brother, Mr. Elwood Armstrong, has improved in health and is now in Victoria visiting Mr. Charles Armstrong. Mr. Ralph Hardy, of Haverhill, Mass., who came home to attend the funeral of his mother, returned on Saturday.

Mr. and Mrs. W. H. Weatherspoons were in Windsor last week attending the Exhibition and visiting their daughter, Mrs. Joseph Curry. Mrs. Fred S. Troop, who has been in Boston for some months for medical treatment, returned to her home on Wednesday. Mr. Ralph Hardy, of Haverhill, Mass., who came home to attend the funeral of his mother, returned on Saturday.

Bellicic

Mr. Benjamin Goldsmith, of Atca-laville, Digby Co., made a week end visit to his son, returning on Monday. Mr. and Mrs. Stephen Mack, of Truro, are guests of Mr. and Mrs. R. L. Dodge. Miss Lena Hicks, of Clementsport, was the guest last week of Mr. and Mrs. Churchill L. Goodwin. Mr. Frederick Dodge, of the H. & S., W. Ry. of Bridgewater, and wife are visiting his parents. Miss Minnie Gesner, of the M.S.F. M., of Waverly, Mass., is spending her vacation with her father, Mr. Robert Gesner. Mr. and Mrs. Fred McAndrews left last week for Chicago, Ill., where they purpose to remain indefinitely. Mrs. James Gordon, of Kingston, Kings Co., was visiting relatives here last week. We are pleased to state that Mr. A. W. Parker, who has for the past few weeks been so seriously indisposed, is slowly recovering. Your correspondent had a very pleasant call last week from Mr. and Mrs. John K. Winchester, of Lowell, Mass. Our general postmaster, R. L. Dodge has one of the most prolific pumpkin vines ever saw. It came upon spontaneously among his strawberry vines last spring. It contains fourteen pumpkins, thirteen very large nice ones and one smaller, owing to frost retarding its growth. Kindly give your reporter space to thank his old friend, Mr. B. W. Shaffer, of Katadale, for the samples of fine fruit sent him. Mr. Shaffer has a very fine young orchard from which he thinks he will get over one hundred barrels of good fruit this season.

Port Wade

Lottie Holmes went to Boston on Saturday to spend the winter with relatives and friends. The many friends of L. N. Kendall of Nictaux Falls, will be pleased to hear of his steady recovery. He can now, with assistance, walk from room to room. The windy weather and scarcity of bait has greatly retarded the fishing business of late in this vicinity. The Baptist people held a ten-cent tea Tuesday evening, 11th inst at the home of Mr. and Mrs. Edward Johns, at which a good time and a nice sum was realized. A large steam ship is expected on the 24th to load iron ore. The condition of the conveyors etc. has been very much improved by the work lately put on and no trouble with loading is anticipated. Andrew and Edward Litch came home from Boston Saturday, where they have been engaged for the summer in mackerel fishing. Mrs. Red, of St. John, is visiting her sister, Mrs. Hilda Ryder. Rev. Mr. W. H. Warren, lecturer and organizer for the Grand-Division Sons of Temperance, visited Port Wade Monday evening for the purpose of resuscitating Anniversary Division.

Elbany.

Mr. and Mrs. L. R. Fair and daughter, Alice, who are now at their home in Elbany, spent Sunday with Mr. and Mrs. A. B. Fair. Mrs. Frank Dunlap and two little boys, Arthur and Clarence, are the guests of her parents, and of Mr. and Mrs. E. T. Whitman. Mrs. J. E. Schaffner and son, Malcolm, were the guests of Mrs. Annie Fair, and Mr. and Mrs. A. B. Fair last week. Our school house is being repaired by a new roof for the main part. Also the verandah is having new posts. Great crops of grain have been harvested here this fall. The late Mrs. Milissa Freeman (Mrs. A. B. Fair's mother), who had resided at Brantree, Mass., for several years, was buried at Kingston on October 16th. Mrs. Amos Veinot and children are the guests of her parents, Mr. and Mrs. Sheridan. Rev. Mellick baptized two candidates at Tuff's Lake on Oct. 2nd. Mrs. Charlotte Oakes, who has been very ill, is thought to be improving. Mrs. Clayton Zwicker's baby Allen Oswald, was said to be a little better yesterday, 15th. Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all dealers.

AUTUMN WEDDINGS

DENISON-PHINNEY. Many Springfield people will be interested in the marriage at Dorchester, Mass., of Attorney John A. Denison, of Avon place and Miss Laura B. Phinney, who has been a resident of this city for the past two years, says the Springfield (Mass.) Daily News. The ceremony was of an unostentatious character and was witnessed only by a few relatives of the bride and groom. It was performed at 3 p.m. at the home of the bride's relatives at 22 Temple street, Dorchester, by her cousin, Rev. A. B. Dimock, pastor of the Baptist church. Mr. and Mrs. Denison will defer their honeymoon trip to the city to make their home at 45 Avon Place. Mr. Denison, who is a son of Mrs. Elizabeth M. and the late George A. Denison, is considered one of the bright and able young attorneys of the city, his rise in municipal affairs being a remarkable one. After leaving college he was engaged in newspaper work on the Springfield Republican for a while, later becoming secretary to Congressman P. H. Gillett at Washington. He served with credit in the Common Council and with distinction as president of that body until elevated to the Board of Aldermen, in which body of the City Council he is far and away one of the most indefatigable and successful workers. He was considered among the most promising of all the Republican candidates for mayor, when he decided not to permit this use of his name. The bride is a trained nurse, who came to this city two years ago and has since made her home here, where she has many friends.

Mrs. Denison is the daughter of Mr. and Mrs. Albert D. Phinney, of Paradise, Annapolis County, Nova Scotia, and is a graduate nurse of the Leonard Morse Hospital in Natick and Providence (R. I.) hospital. Because of illness in both families the wedding took place at the home of Mrs. Denison's cousin and was very quiet. After January they will receive their friends at 45 Avon Place. MESSENGER-FISK. The residence of Mr. and Mrs. R. B. Fisk, of Clarence was the scene of an interesting and brilliant wedding, Wednesday evening, October 5th, when their oldest daughter, Miss Cora Lella, was united in marriage to Mr. Vernon Bassett Messenger, also of Clarence. The ceremony was performed by the Rev. L. F. Wallace, pastor of the Clarence and Paradise Baptist church the ring service being read by Mrs. L. F. Wallace played the wedding march by Mendelssohn. The house was charmingly decorated with green and white clematis, autumn leaves and cut flowers, the arch under which the bride and groom stood being especially attractive. The wedding party was large, consisting almost wholly of the immediate families of the contracting parties, coming from Middletown, Lawrencetown, Paradise and Bridgetown. Miss Elsie McPherson, of Lawrencetown, a cousin of the bride, acted as bridesmaid. The bride looked as lovely as a bride should in white with veil and wedding wreath and carried a handsome arm bouquet of white asters. The gifts were numerous and valuable, there being many articles of silver, china, cut glass and cash. A large number of friends gave a reception for them on Thursday evening at their new home. Both Mr. and Mrs. Messenger have been very prominent in the church and social life in the community, and all their friends unite in wishing them very much happiness and prosperity in their married life.

WENTZEL-BANKS. A very interesting event took place on Saturday morning, Oct. 8th at eight o'clock, at the residence of Mr. Richard Banks, when his second daughter, May, was united in marriage to Mr. Sullman Wentzell, of Foster Settlement, Lunenburg Co. The ceremony was performed by Rev. C. H. Haverstock, of Nictaux. As Miss Ruby Banks, cousin of the bride played the Wedding March, the happy couple entered the parlor and took their place beneath an arch of cedar and autumn leaves with a beautiful background of potted plants. The bride looked charming in a gown of white Henrietta cloth with bridal veil and carrying a handsome bouquet of white flowers. The groom was supported by Mr. John A. D. Moore, of North Williamston, while the bride was assisted by her cousin, Miss Mildred Banks, who was tastefully attired in white mill. After congratulations to the wedded couple a dainty collation was served. The bride received a large number

of valuable and useful presents, showing the high esteem in which she is held by her many friends. The bride's going-away suit was blue chiffon cloth with last to match. At 10 a.m. the bridal party started on a driving trip to spend two weeks at the home of the groom's parents. We join with their many friends in wishing Mr. and Mrs. Wentzell many years of happy and prosperous wedded life.—COM. BAUCKMAN-ATKINS. "The Evergreen" Paradise West, the home of Mr. and Mrs. Alonso Daniels, was the scene of a very wedding Wednesday evening, October 12th, when the nuptials of Miss Hilda May Atkins and Mr. Frank A. Bauckman were solemnized. The ceremony was performed by Rev. L. F. Wallace, of the Paradise Baptist church. The bride looked charming in a pretty creation of mervilleux white silk, with hand-embroidery and Rochelle brocade, cut in trains. She wore the conventional veil and orange blossoms and carried a shower bouquet of white carnations and maiden hair fern. Immediately after the ceremony a bountiful collation was served to the fifty guests assembled. Mr. and Mrs. Bauckman were the recipients of a large number of valuable and useful presents, showing the esteem in which the young couple are held. They will reside at Mr. Bauckman's home in Bridgetown.—COM. MOXEY-GESNER. On Wednesday evening, Sept. 11st, 1910, at the Emmanuel Episcopal church, Wakefield, Mass., by the Rev. Rufus Chase, Frederick F. Moxey, of London, England, to Rhoda M., daughter of John B. Gesner, of Belleisle, N. S.

Hampton. Mrs. Julia Gaskill has returned from Massachusetts where she has been visiting her children and other friends. Pine crops have been gathered in with the exception of apples. Every one seems to be getting ready for winter and we have abundant reason to be thankful for all the blessings we have received. This has been a summer of improvements in Hampton. A large amount of new shingling has been done, several additions have been made to different buildings and the paint brush has been used with good effect. Quite an extension was made in the breakwater. Not quite finished but secured for the winter. The east pier is being repaired by E. B. Foster.

UNSINKABLE Eureka NOVA SCOTIA WOOL. This label on Men's heavy weight, medium priced Underwear means that you will get the only kind that is made of ALL Nova Scotia Wool. It is absolutely unsinkable—no garment has ever been returned to a dealer on this mill. If you find it otherwise return it to your dealer, he will cheerfully return you your money. Compare the Eureka line with others—that's the test. NOVA SCOTIA KNITTING MILLS LIMITED, Eureka, Nova Scotia.

You Can Enjoy HOME SWEET HOME. These long evenings fully, for you can bring the very best entertainment that the world affords right into your home, with an Edison Phonograph. T. G. BISHOP & SON, Lawrencetown.

An Absolutely Safe Paint. ENGLISH LIQUID PAINT. There should be no mystery about paint. No one, manufacturer or dealer, should ask you to take their judgment on paint and ask you to back their judgment with your own money. You don't run your farm or your business in that way. Buy your paint on your own judgment. You are told frankly how "English" Liquid Paint is made and what it is made of. There is a guarantee formula label on every can. You know that it is made of 70% pure white lead, 30% pure zinc white, pure linseed oil, pure turpentine and drier. You know that it is free from adulterants. You know it is an absolutely safe paint.

BRANDRAM-HENDERSON MONTREAL-HALIFAX-ST. JOHN-TORONTO-WINNIPEG. MATTRESSES. NOW is the time to buy for your fall needs. We have them in all sizes and grades, from \$2.50 to \$15.50. Also a full line of the celebrated HERCULES Springs and Cots. J.H. Hicks & Sons.
