GAS MADE from petroleum, instead of coal, is to be supplied the village of St. Henri, near Montreal, by Mr. John McMillan of Petrolia THE lumber business is "humming" in Ottawa.

it is reported that twenty five car loads were shipped daily to the United States by the St. Lawrence and Ottawa Railway last week.

G. A. DAVIDSON, grocer and stationer of Kentville, N. S., who has been trying to compromise his liabilities at 25c. in the dollar, has assigned to J. P. Chipman. He owes about \$2.500.

THE man who sued a theatre manager in St. Louis, because the best seats for a certain performance, though advertised to be put on sale at an hour when he was there to buy, had already been put iuto the hands of speculators, has gained a verdict of \$500.

A HALIFAX paper states that the steamer Carroll, which sailed last week from that port for Boston, took a cargo of fish, &c., valued at \$35,000, containing besides other cargo, 1,790 drums, 200 bxs., 200 half bxs. and 480 qtls. "dry fish ;" 3,206 bbls., 30 half do., mackerel ; 330 bbls., 8 half do., alewives; 200 bbls. split herring; 20 casks, 100 drums, 7 bxs. codfish, and 750 cases lobsters.

A FIRM of general merchants at Gore Bay, in the Algoma District, D. Miller & Sons, has been a long time in business trading with the Indians. They were supposed to be succeeding but have quite recently found it necessary to assign, although the estate shows a nominal surplus of \$5,000. The liabilities are said to be about \$10,000. Mr. Miller did an extensive trade and got out large quantities of ties and telegraph poles which were sold in the Western States.

WE LEARN from the New York Shipping List that the National Dairy Convention held at Cedar Rapids, Iowa, last week, passed resolutions denouncing the use of refuse and diseased fats in the manufacture of oleomargarine, and requesting the National and State Governments to pass laws requiring all who manufacture and sell "Oleomargarine" or "Sueine," to have the name plainly marked on each and every pack. age. The convention also passed a resolution against the adulteration of cheese, and declared themselves directly in favor of full cream stock, made without the use of lard or suet in any form. From the last resolution it would seem that cheese as well as butter has been adulter. ated. To many this will be a new revelation. A SMALL grocer in Wolfville N.S. Mr. G. A. Davidson, has assigned, and offers his ereditors one fourth of what is due them.

Mr. THOMAS C. MURRAY has been a long time engaged in the shoe trade in Listowel and was supposed to be making a good living. A few days ago he assigned in trust to a local creditor.

MR. JAMES SMART, the well-known manufacturer of Brockville, has taken into partnership the Messrs. John and Robert Gill, of that place The style of the firm will be James Smart & Co.

MESSRS. J. B. WATSON & Co., hardware dealers in Strathroy, compromised with their principal creditor, Messrs. J. Proctor & Co., about a year ago. The firm did a good business, are honest, but are getting behind and will likely assign. The creditors do not expect a large dividend.

MESSRS. A, R. LEASK & Co., dry goods dealers, in Hamilton, met their creditors last week, and the two principal ones agreed to accept 65 per cent. of their claims, and allow the business to be continued. The firm never had much capital, and their assets, consisting principally of stock, are \$11,000, with liabilities of \$10,000.

WITH reference to what was stated in this column last week, re Wright vs various Life Assurance Companies, the name of the Citizens company should not have appeared. The claim of the heirs Wright against it was settled some time ago, the Court of Chancery having decided that the company was not liable.

A LITTLE more than a year ago, the dry goods firm of Jas. Little & Co., Port Hope, dissolved partnership. Dr. Corbet, who furnished \$3,000, the greater part of the capital, retired, Mr. Little undertaking to pay him \$2,00°. But in this he appears to have failed. His liabilities are stated at \$21,000, and assets at \$16,000. Of this sum, \$13,000 is due one Montreal firm. A reciver is now in charge.

THE banks are sometimes charged with being greedy for their "pound of flesh" when they can get it, but the conduct of a couple of bankers the other day in the case of an insolvent builder in Grimsby would indicate that there are some exceptions. In this case the banks accept sixty per cent. of their claims, and by so doing allow the unsecured creditors to get one half the sum due them from the insolvent, Mr. Edward Bowslaugh.

**PEOPLE** in Simcoe are wandering at the failure of James A. Lyons, a dry goods merchant there, with large liabilities. It appears that Lyon's father and brother in law have obtained judgements against him for round sums. Other creditors, considering such claims fraudulent, have had Lyon's examined before the Master in Chancery and will carry the investigation to Toronto Courts.

JOSEPH BERNARDIN, a storekeeper of many years standing at Buckingham, Que., is reported to have left, and to be unlikely to return. His creditors will not lose anything by him, as his position has all along been a very fair one, but family troubles, it is understood, are the cause

of his leaving. It is reported that he settled up his affairs before going, leaving his real estate to his children, and chattels and stock to his wife.

SHOULD France carry out the intention, to which the Senate first gave expression, greatly to increase the duty on the importation of cattle, the effect will be felt in more than one country. Italy, which now supplies many cattle to France, is indignant, and may make reprisals, by increasing the taxes, a large number of *articles de luxe*, which she receives from France, and which can much better bear heavy duties than a necessary of life like beef. France may lose and can hardly gain by this species of protection.

MEANING, we presume, to satirize the hostility with which, in the United States, insurance journals not less than other journals, follow their enemies, even into the political arena, the New York Insurance *Chronicle* says: "Robert T. Lincoln, appointed to President Garfield's cabinet as secretary of war, is a member of the strong and reliable law firm in Chicago which represents the Connecticut Mutual Life in that city. The *Monitor* and *Insurance Times* may therefore be counted as 'agin the administration.'"

INGERSOLL is giving substantial evidence of growth and activity. The pork house of J. L. Grant there is being extended and improved, some \$14,000 being expended upon it, and when completed it is likely to employ 60 man. The "worsted mills" are coming into prominence, says the *Review*, a site for the building having been secured near the cricket ground. Two large brick buildings are being erected on Thames St. to replace those burned, and Mr. Homer Campbell Jr. is about to build four handsome stores on King St. near Thames.

BUSINESS was so dull in the New York Stock Exchange on last Friday afternoon, that about 2:30 o'clock the brokers joined hands so as to form a ring, and began singing a lively tune in chorus. At this "Jimmy" Davis sprang into the centre of the floor, and, divesting himself of his coat and waistcoat, struck up a rattling hornpipe. The Chairman called upon him to stop, threatening to fine him \$1 for every minute of disobedience; but the brokers shouted, "Go on, Jimmy! we'll pay your fine," and go on he did for 10 or 15 minutes.

MR. WILLIAM B. KNOWLES commenced business in Brougham some years ago, when he was supposed to be worth about \$3,000. This sum, has since been considerably lessened by bad debts. Although frugal, steady and careful in his habits he seemed to lack some element of success and did not make progress. It was, besides, unfortunate for his credit that, in making a statement of his affairs for one of his creditors, he neglected to include in it the amount advanced by his brothers, who have been pressing him for payment and in their interest the sheriff has taken possession. His assets are about \$2,000 and liabilities, not including \$1,200 due his brothers, are \$1,600.

THE prospectus of a company to form a steamship line between Canada and Brazil has been

issued, and subscriptions are being solicited in Montreal and in London. The capital stock will be £280,000 in ten pound shares, and the Bank of Montreal is to be the Company's Canadian bankers. The steamers are to make fortnightly trips, alternately from St. John and Halifax, calling, en route, at such West Indian ports as offer profitable business. Among the directors are Sir Chas. L. Young, Vice-President of the Grand Trunk, Geo. Moffatt and T. G, Gillespie, of Messrs. Gillespie, Moffatt & Co., London and Montreal, and W. W. Heygate, \$ director of the Grand Trunk.

MR. MOSES A. ABBEY, a Preston hop-grower, made extensive shipments of hops to Liverpool, on joint account with Mr. Thos. Todd, of Galt. The result of these operations was a loss of about \$8,000. It appears that Mr. Abbey was not satisfied as to this loss, and declined to contribute towards the payment of it. The matter was brought into Court, and Mr. Abbey adjudged to pay \$4,287 as his share. This he could not do, and his property was sold under an execution, Mr. Todd being the purchaser, who employs Abbey to carry on the businesswhich has been unsatisfactory for several years. Much sympathy is felt for Mr. Abbey, who was at one time well-to-do.

A LARGE concern in London has stopped pay ment. Messrs. T. & J. Thompson began the hardware business in London as long ago as 1854, with a capital of \$5,000. The business was managed by Thomas ; John at that time keeping a store in Cobourg. In those days the firm affairs were conducted with a good deal of energy and good progress was made. In 1867 they claimed to have a surplus of \$50,000 and in their estimate this sum had increased in 1875 to \$80,-000 or \$90,000. Since that time the firm's business and capital have decreased. Their account has been considered slow and unsatisfactory for several years past. No doubt they suffered heavy losses a year or two ago by the shrinkage in value of iron, besides which bad debts had sapped the vitals of the concern. A short time ago one of the firm went to Montreal to get an extension of three months but this was refused by the principal creditors. A surplus of \$35. 000 to \$40,000 is still claimed above mortgages of \$25,000. Nothing short of new management can put the business upon a prosperous basis.

A MEETING of the creditors of J. C. McLagan of Guelph, who has been carrying on business an oil refiner under the name of the Wellington Oil Company, and as a Land speculator under the name of J. C. McLagan & Co., was held at the Wallingt the Wellington Hotel in that city on the lot inst. The principal assets are in the shape of lands in Luther Township and in Guelph city. These lands, to the nominal value of \$68,000, are covered by different mortgages, 'amounting in the aggregate to about \$30,000, and are then all concerned and are then all covered by one mortgage to Col. Higgin in botham, Mr. McLagan's late partner, to jud demnify him against the liabilities of the old firm, which are still outstanding to the amount of about \$17,500 of about \$17,500. A sale of these lands is being advanted at the set of these lands is the set of these lands is the set of the set advertised to take place in Toronto on the 14th day of April. It is considered doubtful whether much, if anything, will be realized out of them for the general body of creditors. Outside of these lands there are a few lots and houses in Guelph not covered by the Higginbotham mortgage, but most of them otherwise encumbered, which will probably yield to the estate less than two thousand dollars in all. The other assets are a few chattels of little value and about \$5,000 of book debts, many of which are said to be bad. Altogether the prospect is not a cheerful one for the unsecured creditors, whose claims will probably aggregate about \$35,000. Mr. McLagan has always been an indefatigable worker, but appears to have had too many irons in the fire, and not to have been sufficiently cautious. The present condition of the estate shows that the stoppage should have occurred some months earlier than it did.

THE want of some sort of legal machinery in the Province of Ontario, to protect creditors from the machinations of fraudulent insolvents, is illustrated in the case of W. B. Jones & Co., of Oxford Mills, whose embarrassment we noticed in our issue of the 11th ult. Since then, Jones is reported to have absconded; and though his insolvency has been notorious for nearly two months past, the creditors have been powerless to act. They have endeavored to get him to meet them and make some offer, but he hoodwinked them with specious promises, and has utilized the delay thus gained by having suits entered against himself by relatives His father, whom he succeeded, and who apparently has some claim on the business is now understood to hold a judgment for \$5.000 or \$6,000, which will more than cover the available assets. Strenuous efforts have been made within the last few weeks to realize upon the goods and outstanding debts, and the stock, which was roughly valued at about fifteen hundred dollars five or six weeks ago by an accountant who went up in the interest of Montreal creditors, is now stated to be reduced to \$300 or \$400. Local rumor has it that Jones has left fot the Pacific coast, and creditors have very little prospect of getting one cent. In the Province of Quebec the law is such that a seizure before judgment can be taken in any case sim lar to this, but in Ontario there is no provision offering protection to creditors.

-We have a letter from Mr. Edward Martin, objecting to our report of the Dominion Insurance Company's meeting, as not having described all that took place. He refers to the differences of opinion which arose on the board, and to an offered amendment to the report, (having for its aim changes in the staff, etc.), for which 877 out of 3,490 votes were cast. We can only say that the report was printed as we received it from the head office, and it does not appear to us in the best interests of the company to publicly discuss differences which it is now the object of the directorate to harmonize.

### FRENCH WINES.

THE YIELD DURING 1880 AND 1879. The yield of wines for 1880 shews a total of 29,677,472 hectolitres It exceeds by nearly 4 millions of hectolitres that of 1879, but still re-

mains inferior by 22 millions of hectolitres to the average yield of the last ten years. The excep-tionally severe winter of 1879-1880, the abundant rains during spring, the damages caused in many departments by hailstorms had caused apprehensions to be entertained during a time that the result would be even still less favorable. If these apprehensions have not been realized, it is owing to the fact that in the departments where the phylloxera has made but small inroads the production has been comparatively satisfactory. Thus in the department of Aude, Haute-Garonne, Pyrenees-Orientales, Haute-Savoie, Tarn and Tarn-et-Garonne, not only has the yield been superior to that of 1879 but it is equally above the average of the last ten years, amongst which, however, are years of unexceptional abundance.

The departments of the Charente, Herault, and Lot-et-Garonne continue to be severely damaged by the phylloxera. The same is the case in the departments of Ardeche, Dordogne, Saone ct-Loire, Rhone and Var. In these different districts, the present production is considerably below the average of the last ten years On the totality of the vines attacked the phylloxera has again, during the course of the year, caused the destruction of a great number, (about 7,000 hectares). The oidium continues to be felt in several regions.

It is chiefly from Spain that we have received the greater part of our imports; the quantities forwarded to France by that country which in 1878 had amounted to 1.348,000 hectolitres, and 2,230,000 hectolitres in 1879, exc ed 4 millions of hectotitres for the eleven first months of 1880. Italy's shipments have increased from 195 000 hectolitres in 1878 to 540,000 hectolitres in 1879 and 1,500,000 hectolitres during the eleven first months of 1880.

The manufacture of raisin wines continues to spread; the quantities of imported raisins have successively increased from 29,658,000 kilogrammes in 1878 to 51 millions of kilc grammes in 1879 and to more than 62 millions of kilogrammes during the first eleven months of 1880.

On the other hand, the production of cider, mainly concentrated in the provinces of Normandy and Brittany, shews a decrease of 2,272.-000 hectolitres as compared with 1879 and of 5,652,000 hectolitres compared with the average of the last ten years. This unfavorable situation is principally due to the fact that, in several ocalities, hailstorms had knocked the fruit off before it was completely ripe. Moreover, the extreme severity of last winter has exercised a prejudicial influence on our apple trees as well as on the vines.-Revue des Vins.

TORONTO CAN., FRIDAY, MAR. 18 1881

# THE FUTURE OF INLAND NAVI-GATION.

While attempts are being made to lessen the cost of the navigation of our great water way, the Canal Board of the State of New York, acting on the recommendation of the two branches of the legislature, has decided to abolish all tolls on Western bound freight, on the Erie canal. And various other plans, to make the success of the canal's competition against all rivals more sure, have been under discussion. Among these is a proposal to abolish the tolls altogether. This could not be done without an alteration of the State constitution, and abolition is probably a long way off. The transfer of the canal to the Federal government is a proposal to saddle on the general treasury an expenditure which the State does not like to undertake. But the general government could take the gift of this elephant only if the transfer were called for by some national exigency, which does not exist, and it is difficult to conceive that any could occur. During the civil war, if ever, was the time to have made the transfer; but even then, it would have involved a waste of effort, instead of conferring a national benefit. The suggestion that the towage should be by steam, a railroad being constructed along the tow-path, looks in the direction of a possible improvement of a system which is in many respects behind the age. But this improvement would be better adapted to a ship canal, into which the State of New York Would be glad to see the National government try to convert the Erie. We say try, for engineers are by no means agreed that such conversion is physically possible, with the available sources of water supply. The great length of the Erie canal would make the construction of a railway for towing purposes a formidable undertaking. If there be any thing in the proposal, it could more advantageously be put into operation on our canals.

The Erie canal has two competitors to

Lawrence navigation. The canal has measured forces pretty accurately with the former; with respect to the latter it is called upon to face new conditions, in the enlargement of our canals and the lightening of the burthen of the Lake St. Peter debt on the shipping of the St. Lawrence. It is this prospect that causes much of the uneasiness shown in the various proposals we have noticed. The removal of the tolls on Western bound freight leaves the tolls still in force on the heavy, raw produce which takes the other direction; and the loss of revenue implied will not enable the canal authorities, as things stand at present, to remove or even reduce the tolls on freight moving in the opposite direction. At present, no more can be spent on the improvement of the canal, in any one year, than the earnings of the previous year. This canal has been such a drain on the resources of the State, and such a fertile subject of jobbery and corruption, that the people were moved to insist on this constitutional restriction. But there is apparently no constitutional obstacle to a further reduction or even a total abolition of the tolls.

The physical conditions, on our side, are such that we have been enabled to work on a grander scale. Instead of having to make a canal hundreds of miles in length, we have only had to perfect, by comparatively short links, the finest inland navigation in the world. The New York harbor, open at all seasons, is one of the superior advantages in favor of the Erie Canal With us, three cities-Halifax, St. John and Quebec-are each anxious to become the Atlantic winter port of the Dominion. Halifax, which has not moved a finger to secure this great prize, is to have an elevator built by the general government. Quebec desires to see Mr. Sewell's plan of navigation among the shifting ice of the Lower St. Lawrence tried. The 1 ominion Government has been sounded. The Premier replied that the advocates of the Sewell experiment asked too much. and that they had asked at too late a day, to be of any use for the present session. Mr. Sewell, however, thinks the Quebecers would build an elevator for themselves. Mr Sewell recently discussed the question of navigating the lower part of the river, during winter, before a meeting of merchants, in the ancient city; but he did not distinctly state, so far as we can gather from the report, precisely what he had proposed. He said that if he did not succeed, he would ask nothing. This is certainly fair, if he means that he is prepared to make the experiment himself, at his own cost, and only be reimbursed, if the experiment is a success. Mr. Sewell went so far as to say that there

deal with : the railway system and the St. | is less difficulty in the winter than in the summer navigation, provided of course suitable vessels are used ; vessels " so constructed that every inch of steam can be put on and the ice and other obstruction the better cast aside." He referred to what had been done in navigation among ice elsewhere to prove the practicability of his project. "Yankee fishermen," he said, "with little craft of fifty tons each, crossed from Gloucester to Seven Islands, Newfoundland and Labrador, in the months of December, January and February, returning with cargoes of frozen herring. Capt. Bragg, of Newfoundland, annually sailed from the Gulf of St. Julien in a little vessel of fifty tons, traversing the whole Gulf, in the months of February and March, and passing through the Straits of Belle Isle." Nobody supposed that Newfoundland was not approachable in winter. For the rest, it is not at all certain that the waters traversed have a navigation identical with that of the Lower St. Law-These examples cannot by any rence. means be accepted as proof of the practicability of navigating the Lower St. Lawrence in winter.

Mr. Sewell pronounced the doom of the Haligonian aspiration after a winter port. This he did by a simple question in arithmetic. "The distance from Chicago to Liverpool," Mr. Sewell said, "was 4,398 miles, while by way of Quebec it would be but 3,600," much of it the expensive nature of rail carriage. Distance is sometimes measured by time, and if there were long detentions in the ice, on the shorter routeassuming the figures to be accurate-the cost, insurance included, might be as great. In like manner, Mr. Sewell disposed of the claims of St. John, which he assumes Montreal desires to see become the winter port. Montreal is anxious to get there by a short rail route. In point of distance, Mr. Sewell allows that St. John has an advantage over Halifax; the difference being from Chicago to Liverpool 4,200 miles against 4,398. He scarcely even allows that Halifax is a good winter port ; for the reason that he has seen the Allan steamers come in with "twelve feet of ice on their anchors." But Halifax is nevertheless a good winter port ; so good that it almost seems like trifling to exalt that of Quebec over it.

These discussions will do good. In the end, we shall find out which is the best winter port, distance, climate and everything else considered. Meanwhile none of the rival cities can afford to sit still and fold its hands, as Halifax is inclined to do, in expectation that the Government will do everything and save the citizens from all risk and expense. To win, even with a good cause, it may here, as in most other cases, be necessary to deserve success.

# BANKING REVIEW.

We print below, in condensed form, the figures of the February return of the chaitered banks in Ontario and Quebec, as compared with those of the previous month.

Although February is not usually a brisk month in business circles, the figures returned by the Banks to the Government would appear to indicate that a revival in the commercial interests of the country is in gradual progress. During the month there has been a withdrawal of deposits on demand to the extent of \$1.258,500, while in current discounts there is an increase of \$2,468,000, satisfactorily showing that there is a growing demand for money. Towards the middle of the month, the balances of Canadian Banks, with their London correspondents, were considerably reduced through drafts upon them in payment of acceptances maturing on the 4th of March-a date always looked forward to in London as furnishing more work for the Clearing House than any other throughout the year. At the end of the month our assets were \$734,000 less than the former statement revealed. This apparently small difference would doubtless have been augmented but for heavy payments under rebate on account of shipments of our produce to British and foreign ports. The lumber interests of the country are now steadily regaining their former activity; the Winter has been peculiarly favorable for operations at the mills and shanties, while the demand for railway and building speculations has continued to increase.

Bank stocks still appear to be in request, being apparently regarded by many as a desirable investment, even at the present high There is probably reason for the prices. popular supposition that the Banks are at present earning good profits. At any rate, recent experience has suggested extraordinary caution on the part of bankers in loaning funds at their command. We believe that reasonable, instead of abnormally high rates of interest are now obtained, and, as a consequence, the net profits of our banks may not appear so large as at some other periods. Really, however, an advantage to the banks will have been gained when, instead of very large sums, only comparatively nominal amounts will require to be written off their books for bad and doubtful debts. Annual statements to shareholders will soon be the order of the day, and we trust they will prove, as they are expected to be, the most agreeable ones issued since the period of depression set in.

# TORONTO, GREY AND BRUCE RAIL-WAY.

Upon the occasion of his recent resignation of the presidency of the Toronto, Grey and Bruce Railway, which he had held from 1869 to 1881, Mr. John Gordon writes from England to the directors in this country, reviewing the history of the road and his

connection with it. We should be glad if our space permitted this week, as it did not last, the printing of his letter in full. Mr. Gordon reminds his fellow directors that it was only at their urgent solicitation he consented to remain president after the first vear.

" These days," he says, speaking of 1870, "were the dark ones of railway building in Canada. We set to work, however, and in due time the railway was built. It has always been, and still is, most mortifying to me, that after all our efforts in a contrary direction the Company has been wanting in financial success. Having devoted the chief portion of the best years of my life and my best energies to the interests of the Company, I cannot, upon a survey of the past, charge myself with any responsibility for the failure. The guage, I can safely say, was not my child. The narrow one of 3 feet 6 inches most certainly never would have had my sup port could I have foreseen the rapid march of events which afterwards took place. I am not aware that any of the promises made by me to the municipalities on behalf of the Company remain unfulfilled. The great trouble with the Company, I consider, has been that in the past the railway has always had too little to do-a fault which time will cure. The company was most ungenerously, if not unfairly, treated in quarters where such conduct was least to be looked for.

To the many people who embarked capital in the company, based on opinions of mine, I can only express my sorrow. The opinions which were given by me were at least freely backed with my own means. To the members of the successive Boards of Direction over which I had the honour to preside, and to the many friends of the Company in Toronto, leaders of public opinion, both rank and file, from Toronto to Owen Sound, and from Orangeville to Teeswater, who so nobly supported me in pushing forward the railway, I offer my most heartfelt thanks.

Mr. Gordon pays, in a further letter, a tribute to the staff, mentioning in particular the devotion with which the General Manager, Mr. Wragge, performed the difficult task of "efficiently working a financially poor railway," and the skill of the Secretary Treasurer, displayed in "administering its finances in days when they were of a complicated nature." This acknowledgement, all who are conversant with the duties these gentlemen have had to perform, will admit to be deserved. The appreciation in which the long and arduous services of Mr. Gordon are held by his co-directors is shown by the following resolution, passed at the meeting of directors held on the 4th instant :-

Moved by Mr. William Ramsay, seconded by Mr. J. G. Worts, "That John Gordon, Esquire, having found it was having found it necessary, owing to absence from Canada and ill health, to place his resignation as a director and president of the Company in the hands of the Board, and his resignation having at the last meeting been accepted with great regret. Be it was a contract this great regret. Be it now resolved, That this Board does place on record in its minutes its appreciation of the second in its minutes which appreciation of the very valuable services which Mr. Gordon has an invited Mr. Gordon has rendered to the Company during the twelve years which he has filled the predent's chair, and its acknowledgments of the great sacrifices which great sacrifices which he has, during that time made on behalt which he has, during that Also that made on behalf of the Company. Also the formation its this Board hereby tenders to Mr. Board hereby tenders to Mr. Bile accept. warmest thanks for the same, and while accept.

Total Assets ......\$173,726,933 \$174,094,914

ing his resignation of the presidency of the company, begs to assure him that it fully recognizes the great obligation which it is under to him, for his uniformly able administration of the company's affairs during his long term of office. And it also tenders hereby to him its best wishes that he may soon be restored to health ,

To succeed Mr. Gordon in the presidency, the directors have chosen Mr. W. H. Beatty, who has long been upon the directorate, and has for some years held the vice-presidency. He has acted as the solicitor of the company since it was formed, has labored diligently in its interests, and has been a steadfast member of the band of Toronto gentlemen who stood by the road in its varying fortunes. The new president possesses abundant pluck and sufficient zeal; and what has been already effected towards the reconstruction of the read during some months past, is an; indication that the rebuilding of the road may yet result from his energy and that of his fellow-workers at the Board.

Authority was obtained at the recent ses-^{\$ion} of the Ontario Legislature, for the issue by the company of twenty year five per cent. bonds, to the amount of \$1,000.000 for the Purpose of rebuilding the T. G. & B. as a Wide guage road. It is a promising indication, by the way, that an offer of 96 has already been received for the whole of this issue. Arrangements are in progress, we are told, for the exchange by the present bondholders of their bonds for what is known as perpetual debenture stock. Negociations are pending, as has been stated, between the company and the Grand Trunk Railway, for the working of the line by the latter road, but these are not yet concluded. Meantime the directors are pushing on the Work of improving the line. Twelve thouand tons of steel rails have been purchased, iron bridges have been ordered -one of them, as we elsewhere notice, is in placeand plans have been prepared for a new alignment in the Humber Valley, which will involve considerable embankments and a high level crossing of that stream. Further-More, a grain elevator with a capacity of  $1_{00,000}^{6, a}$  grain elevator with  $\frac{1}{2}$  the source of erection at the comthe Queen's wharf in this city by the compahy, and one of like capacity is to be built at Owen Sound, this municipality having Contributed \$15,000 towards it.

# STREEF RAILWAYS.

It is a sound principle that all who use the streets, in an exceptional way, to their own brofit, should pay for the privilege. The custom of exacting from city transvay companies a payment for the privilege enjoyed is very general. A license is granted; a benic specific part of the profits is taken; the

street has to be, wholly or partly, kept in repair; in this way different cities proceed. In Toronto, no direct payment is exacted. and only a part of the street on which the cars run has to be kept up by the company. In a small city we cannot be guided by what is done in large cities, such as Philadelphia and New York, for there the traffic greatly exceeds what it is here. But between Detroit and Toronto the comparison would not be very violent. There the tramway company keeps the street in repair, from curb to curb, besides paying in a license. We do not recommend this form of payment for the franchise[; for the result is to free the property on particular streets from its obligations to keep the streets in repair. The payment, whatever it is, should be a money payment, by which the whole city, not a particular part of it, would be benefitted.

With the Toronto Street Railway Co., we do not suppose much can be done, beyond what is done at present, till its charter expires. A new company which extends its tracks a great distance might fairly be shown some indulgence, for a few years : but the receipt of a revenue from all street railway companies, sooner or later, is an object that should never be lost sight of. This is among the most legitimate of all sources of municipal revenue : and that revenue should not come in the form of keeping up the street on which the cars run. The property owners on Yonge street have petitioned for a block pavement, but as the law stands at present the street railway company relieves them of fully one-third of the cost. Some of those who petitioned, it is now said, are anxious to withdraw and leave the city to pay damages for a breach of the contract which in good faith it entered into. Should this be done, they may find in the end that they will have to pay all the cost of making the pavement instead of two-thirds, for it is not probable that the present one-sided way of exacting compensation from the street railway com-Were this to happen, it pany will last. would be no unfit retribution for what looks very much like bad faith.

-The efforts of the people of Halifax on the Winter Port question, and the visit of Messrs. Tobin, Burns, Bremner, Kenny, Dwyer, and Maclean, as a deputation to the Ottawa Government on the subject, have had some effect. The sum of \$130,000 has been placed in the estimates, and voted for a wharf and grain elevator at that city, the elevator to have a capacity, we are told, of some 250,000 bushels. Will this settle the question of the Winter port? That question must, after all, be left to settle itself on the principle of competition. The best route must, in the end, win.

-Are we wrong in thinking the days of canals are past? The Buffalo Courier advocates "an extension of water communication from the Lakes to the Red River Valley and the navigable rivers beyond," as a means of lessening the cost of transportation. The Courier illustrates thus: "A bushel of wheat can now be carried on the lakes by vessel a distance of 1,000 miles for two cents ;" for which sum it could only be carried by rail sixty-six miles. This comparison proved nothing; since canal navigation is expensive, while that of the lakes is cheap. The Courier argues that wheat is a more acceptable form for breadstuffs to reach Europe in than flour : as European countries prefer home-made flour to foreign. Any thing that lessens the cost of transportation will be welcomed in the North-West; but canals will hardly do it.

-The House of Commons, at Ottawa, has given its sanction to a bill to incorporate Le Credit Foncier Franco Canadien. As the Legislature of Quebec has incorporated a similar Co., and even assumed to give that company a monopoly, in that Province, the question of legislative jurisdiction will probably fall to be settled by the Supreme Court.

# **NOVEL FEATURES IN EXTRADITION.**

Some interest has been taken during the past week or two in the case of one Robert McHolm. arrested in this city on the strength of a cable from Liverpool charging him with felony. The Police Magistrate who first tried the case. committed the prisoner for trial. The prisoner's counsel then applied to the Court of Queen's Bench for a writ of habeas corpus for his release. On this application after some delay judgment was given in prisoner's favor, Mr. Justice Cameron, before whom the case was argued, holding the arrest entirely unwarranted. It appears that a crime committed in England is regarded by our courts as no crime against our law. and not punishable in Canada. Further, that before a man can be arrested in Canada for a crime committed in England, a warrant issued under the English law and endorsed by a judge of one of our Superior Courts, must be produced. The prisoner was thereupon released, but was not allowed to enjoy his liberty for any length of time, for Detective McConochie of Liverpool. appeared on the scene, armed with an English warrant upon which he procured the endorsation of Mr. Justice Osler, after swearing to the ident ity of the accused. McHolm on learning from his counsel of the Detective's arrival, gave himself into custody. It now turns out that the charge is one of larceny, the prisoner being accused of having stolen the books of account and £80) in money of the estate of his brother with whom he was employed, the brother being alleged to be a fraudulent bankrupt. The books are

said to have been in McHolm's possession when first arrested, but seem to have disappeared afterwards. Under these circumstances, it is thought the prosecutor will have some difficulty in procuring sufficient evidence to justify the authorities here in handing the prisoner over to be dealt with under the English law. This state of things suggests the necessity for some change in the law making the administration of the criminal law between England and other colonies more simple and efficacious. At present it appears as if the formalities to be observed are practically the same as in a case arising between ourselves and a foreign country.

# ITEMS ABOUT MANUFACTURES.

Tenders were asked for the construction of the new iron Westminster Bridge over the river Thames at London, and the committee of Aldermen and Reeves met last week to receive the applications. The abutments to be made higher than the old. Of the two tenders received one was from the Toronto Bridge Company, offering a superstructure, complete, for \$6,035, and a different one for \$5,300. The other tender was from the Hamilton Bridge Company, offering the same bridge for the sum of \$6,000, with an extra \$100 for a six foot sidewalk. The tender of the Toronto Bridge Company, was accepted, with a 6 foot sidewalk and the work is to be completed by the 1st July.

The woollen mills of the Hespeler Manufactur ing Company will occupy the premises formerly used as the grist mill in that village. The old flooring is replaced by new double floors 41 inch thick, the water wheel is in place, some of the machinery is already in the building and more is at the Galtand Guelph Custom Houses. The steamfitting is nearly finished and the plastering of one wing done, Mr Schofield is expected from England daily, and Mr Brodie is superintending the work.

The Elora village Council has resolved to offer to sell Messrs Thomson & Co (provided the ratepayers agree) the interest of that corporation in the Elora carpet factory property for \$7,000 ; \$2,000 cash, and the balance at the rate of \$1,000 per year as the debentures fall due, with interest on the sum unpaid, and the property not to be assessed higher than \$1,200 for five years.

A flax mill is to be made ready in Thedford. Ont., for operation in the coming autumn. Mr. Weir has purchased the Cameron mill property there for the purpose, and is expected shortly with a supply of flax seed, to make arrangements with the neighboring farmers.

Messrs. E. Warner & Son are having a woollen mill built at Alvinston, Lambton County. The contract is given out for the building, and the factory is to be in operation in the approaching summer

Kauffman's one-set woollen factory at Plattsville, Ont., is temporarily closed, and the Sentinel-Review of Woodstock says that Kauffman & Workman have bought Levan's pump factory.

Messrs. A. C. Thompson & Co., of New Glasgow N.S. are turning out of their tin shops 2,000 lobster cans ver day to fill an order of 400.000 cans from a lobster canning establishment in Prince Edward Island.

The firm of Johnson & Co, dealers in agricultural implements in Fredericton, who have a good many customers in northern New Brunswick, are building a ware-room at Newcastle 30 fect by 50, for the sale of their machinery.

Mr. Robert Fraser, of Brooklin, N. S. who has a woollen mill on the Middle River, is in correspondence with Peter E. Laurie, of London, England, who advises him to send on samples of Nova Scotia homespun, with prices attached, in order to open up a trade in the Old Country, if possible. So says a lower province daily.

The Fruit canning company projected in Hamilton, evidently means business. The Times says that Messrs Waddell of that city and Carpenter of Saltfleet, were in Baltimore, Md., last week purchasing machinery and appliances for the factory.

It is stated in the Kingston Daily News that Messrs Burr are the proprietors of a woollen factory at Bloomfield in the County of Prince Edward, and that it is now ready to begin operations.

A new bridge over the Grand River at Freeport. in the County of Waterloo, is needed, and it has been resolved to build it of iron. The ratepayers of Waterloo township carried a by-law providing for the issuing of debentures to the amount of \$9,000 for the purpose. The bridge is to be built by the Hamilton Bridge & Tool Company.

A pulp mill has just been built by Messrs. J. Ford & Co. of Portneuf, upon the St. Anne's river, on the North shore of the St. Lawrence. The material used is balsam, of which large quantities are available in the vicinity of the The wood is not subjected to any chemimill. cal process, but is ground up by means of stones. and is mixed with water as ground. It is then run through the machine, coming out in square damp sheets of considerable thickness, in which shape it is shipped to the paper mills, to be used with a certain proportion of rag stock in the manufacture of paper. Messrs. Ford & Co. find a ready sale among Canadian paper mills for all the pulp they can produce. There is some talk of a similar mill being built at Chicoutimi, Quebec, for the purpose of exporting wood pulp to England.

The Paris (France) Company, which is to un dertake the manufacture of beet sugar, has been definitely organized, and is to apply to the Quebec Legislature for a charter. The capital of the company is is 6,000,000 francs; of which 1,-000,000 has already been paid up.

## QUEBEC BUSINESS NOTES.

The boot and shoe manufacturing interests of Quebec are particularly active just now, and perhaps at no other time has this branch of industry afforded employment to so many hands. the factories are running to their full capacity 210 acres of potatoes.

and several are enlarging their facilities. notably Messrs, J. Ritchie and O. Migner. The latter gentleman calculates upon turning out some \$600,000 worth of boots and shoes during the present year. Several new firms are also engaged in the business, foremost among whom are Messrs. Grant & Co., who are opening out in the old Woodley factory in St. John's suburbs. They purpose eventually to employ 300 to 400 hands, and have just commenced work. There are also four smaller concerns getting under weigh whose production will help to swell the already large quantities of boots and shoes annually made in Quebec. The tanners, of course, feel the effect of this activity, and with the coming spring and summer, improvements and additions will be made to several of the larger tanneries. Mr. F. Gourdeau intends building a tannery to work up small skins into morocco leather, and there is everywhere among the trade an expectation of a busy season.

Following the example of Ontario, an effort is being made to interest British capital in the lumbering interests of the Province. Mr. H. Atkinson of Messrs. H. Atkinson & Co., is st present in Britain forming a joint stock company to work limits in which his firm and La Banque Nationale are interested. He has met with good encouragement and it is reported that upon the strength of his favorable reports, supplies are being sent into the bush so as to be Messrs. ready for an early start next fall. Girouard & Beaudet, who have extensive limits in the Saguenay district, and a fine steam mill at Betsiamis, will also likely put their business into the shape of a joint stock company, and Mr Girouard is at present in England negotiating to this end.

The Quebec branch of the Credit Foncier Franco-Canadien, has got fairly into operation, and at the weekly meeting of officers held week before last, some \$50,000 of loans was authorized.

The export of pressed hay from the Province of Quebec is yearly increasing in its proportions. To the travellers upon the Q. M. O. & O. R. R. between Montreal and Quebec, the immense quantities seen along the line are a constant source of wonderment. Almost every station has its enormous bales, the most prominent feature of the landscape, awaiting shipment. Some of it has apparently lain there for weeks exposed to the varying weather, and as many piles are com pletely unprotected, we should imagine seriou damage must ensue. There is a dearth of sit to transport it to the American market and it if feared the ice bridge railway at Montreal the pass away before large quantities can possibly be moved, and that, consequently, heavy ine will fall upon operators. This trade will, in soil end, prove injurious to the soil, unless artificial manures take the place of that which the had. if consumed on the farms, would have supplied.

MR. D. FARQUASON is about to establish Starch Factory at Long Creek, P. E. I., and the farmore in it All farmers in that vicinity have agreed to cultivate

BANK OF P. E. ISLAND.—The annual meeting of the Bank of Prince Edward Island was held some days ago. The Directors congratulate the shareholders on the prospect of an increased stimulus being given to business during 1881, and considerable grain being now in store on the Island awaiting shipment on the opening of navigation, and extensive preparations having been made for a largely increased export of canned fish and meats in the coming summer. The assets amounted to \$835,325.50, as follow :--Specie and Dominion Notes......\$31,230.56 In hands of other Banks..... 85,585.27 Cash Accounts..... ....255,065.11 Judgments in Supreme Court, Mort-

gages, and Cash accounts secured by

365,654.43 The difference, \$45,874.12, being net profits on hand.

HALIFAX SUGAR REFINERY .- This important and long contemplated establishment is to begin operations during the present week. An act of the Legislature exempts it from County rates and local taxation for twenty one years, and the oity has granted it free water from each main for the space of ten years. It has been nine months since the work of levelling the foundation, which is of solid rock, commenced.

The capital stock of the company is \$500,000, divdied into 5000 shares; of \$100 each. Among the largest holders of stock in the refinery are the following gentlemen : Michael Dwyer, 200 shares ; Thos. A. Ritchie, 200 shares ; Hon. Jas. P. Butler, 200 shares; Hon. Robert Boak, 150 Geo. A. Drummond, 125 shares; Allison Smith, 120 shares; Daniel Cronan, 100 shares; E. P. Archbold, 100 shares; W. P. West, 100 shares; The U. S. Shares; W. P. West, 100 shares; The U. S. Shares; W. P. West, 100 shares; The Hon. A. G. Jones, holds 50 shares; Sir Wm. Young, 40 shares; and Messrs J. & C. Harris, Moncton, 5 shares, and R. T. Holman, Summerside, 10 shares

It is expected that the refinery will hereafter afford constant employment for 150 men. The uildings cost \$120,000, and the machinery 200,000. Machinery to the value of \$50,000 was made in Halifax and Dartmouth. The refinery is expected to be capable of turning out soo. The main out 500 barrels of sugar per day. The main building of brick, granite and sandstone, is ten stories, or 118 feet high, 170 feet long, by 68 feet deep. This is really a double building, and is divided by two brick walls. The raw sugar warshoed by two brick walls. warehouse is 200 feet long and 80 wide will store 2500 or 3000 hogsheads. The entire work of construction gave employment di-rectly and indirectly to fully 1000 persons. There were directly to fully 1000 persons, 80 masons, and 146 laborers, who were paid for week. There are for wages some \$1700 per week There are \$250,000 bricks in the buildings, made at Enfield, Avonport, and Hantsport, N. S. the hands for two seasons. These brick cost \$9 per represent an increase of former prices—and represent an increase of former prices—and there are 22,000 imported Scotch fine brick; 230 bons of 2000 imported Scotch fine brick; 230

rubble stone from Beaver Bank, carried on 150 flat cars; 4,000 barrels of lime, mostly from Shubenacaie; 2,500 barrels of Knight, Bevan & Sturgiss' London cement; 50,000 bushels of sand carried in schooness from Chester; 320,008 fect of pitch pine from Florida; 62,000 feet lumber mostly from along the line of the Intercolonial Railway; 260 tons pillar, doors, castings, and other iron work-in the construction of the building alone; besides the great number of doors and window; the glass and paint, etc., etc. The manufacture of all this, will more than justify our estimate, says the Halifax Evening Mail that the construction of this building gave employment for six months to over 1,000 working men, representing a opulation of 5,000 people.

INSTITUTE OF ACCOUNTANTS .- The Council of the Institute met on Wednesday, having a large attendance from other cities as well as Toronto. Several prominent professional men applied for membership. We are glad to learn that a meeting of the Institute has been arranged for Tuesday evening next, in the parlor of Shaftesbury Hall, which will be open to all persons interested in book-keeping or accounts. A paper will be read, on that occasion, by the President, Mr. Anderson, on "The Scope and Value of an Accountant's Work," and short addresses on practical subjects will be given by other members.

--- The regular yearly meeting of the Union Bank of Prince Edward Island took place at the beginning of the month, showing assets immediately available of \$177,084.88, and liabilities to the public of \$729,674.39 :

-The Recorder of the city of Halifax submitted to a meeting of the council on the 7th instant, drafts of a bill and an ordinance. The bill was to enable the city to pay any graving or dry dock company an annual subsidy not exceeding \$10,000, for not more than twenty years, if such company shall have a paid up capital of or more than \$750,000, or on such tons of granita, from Birch Cove;1,500 tons terms not inconsistent with the Act, as the Cou-

ncil may decide upon, provided such dry dock be constructed within the limits of the city of Halifax and of sufficient size to accommodate a steamer of not less than 6,000 tons register. The city may also in addition to said subsidy exempt such company from taxation for a period not exceeding five years After a long discussion the bill was adopted, ordered to be published and sent to the Legislature for enactment.

-We learn that, as we ventured in writing upon the company's affairs to hope would be done, the directors of the Superior Savings & Loan Society, have appointed Mr. H. E. Nelles as manager. He had been acting in that capacity temporarily, during which time a very marked change for the better has taken place in the position of the Society.

-A late issue of Herapath's Journal states that the first parcel from the Canadian Copper and Sulphur Company, Limited, consisting of about 53 tons of regulus, obtained by the smelting of this company's ores, has recently been sold in Liverpool, and realized, after deduction of all charges of transport and sale, £13 13s. 10d. per ton. It assayed 254 per cent. of copper.

-The New York Tribune professes to have heard "from a gentleman connected with the Emigration Commission of the Canadas," a story about Bismarck, which its editor does not remember to have seen anywhere in print. The story is this .-

"The German Chancellor has for a long time been trying to check the heavy emigration of the subjects of the Empire to America, and resorted to a curious means to stop that to the Dominion. He found that certain laws of Canada prohibited music and the sale of beer on Sunday; and knowing the Teutonic disposition to make Sunday a holiday, Bismarck caused abstracts of those laws to be scattered broadcast over the Empire. The result was that emigrants turned toward the more liberal States of our (the U.S.) North-west.'

-A special return brought down to Parliament last week shows that from 1st July till the 31st December last 349,784 tons of anthracite coal of the value of \$1,515,517, and 336,141 tons of bituminous coal, of the value of \$. 33,530 were imported, the duty paid on the former being \$155,974, and on the latter \$171,167.

-The Mercer case has been argued before the Supreme Court at Ottewa. The question is whether property escheated to the crown. for want of heirs, goes to the Dominion or the Province. The Mercer estate has for some time been in the hands of the Ontario Government, and a portion of it has been locked up in bricks and mortar.

-The boats of the Collingwood Line are heing thoroughly overhauled, especially the City of Winnipeg and the Frances Smith. About \$8,000 is to be spent on each. Next season an iron boat will be built for the line.

_____

# TORONTO BRIDGE COMPANY.

It is very agreeable to learn, as we do, that the prospects of the Toronto Bridge Company for active operation throughout the season are very favorable. Large additions to the capacity of the works are contemplated both in buildings and machinery. There are now 50 men employed in the premises, and in a few weeks this number will in all likelihood be increased to 130. Among other important pieces of work undertaken or completed by this company is the construction of an iron and steel railway bridge over the Annapolis river at Bridgetown, N.S., for the Windsor & Annapolis Railway. This is to be 155 feet span, and is contracted for to be ready by June 1881. The Bridge Company is also building the railway bridges over the Welland canal, one at St. Catharines and one at Welland. Each of these consists of two fixed spans and one swing span, and all are of steel. They are in process of construction at the works and are to be ready by 15th April. The Toronto Bridge Company has just placed in position a steel plate girder bridge 64 feet span, over the Humber river at the Toronto Grey & Bruce crossing. Also, one of iron, 110 feet span, viz. : the Central Bridge over the Yamaska River, for the corporation of St. Hyacinthe. The company is at work upon an iron bridge over the same river for the municipality of St. Cesaire, the length of which will be 190 feet. Before the opening of navigation the Bridge Company is to have completed a steel plate swing girder bridge over the Chambly canal at Chambly Canton, Que., 90 feet span. The steel for this piece of work is now in the works. Another piece of work is an 84 feet iron bridge for the municipality of Philipsburg, Waterloo. Probably the first instance of the application of steel girders in the erection of buildings in Canada, is the work being done by this company for the new build-ing of the Merchants' Bank, Winnipeg. There will be 3 steel plate girders 25 feet clear span, as support, leaving the banking room below them free from columns, and undivided by partitions.

## FIRE RECORD.

Belleville, March 11th -The building owned J. Montgomery, and occupied by the Customs and Inland Revenue offices, was burned, with the adjoining building owned by Sheriff Taylor. The former building was in the Royal for \$3,000, and the latter in the Queen for \$2,500.--London, March 11.-A still in the Victoria Oil Works took fire, and burned about 7,000 gallons of oil; loss, \$1,500, partly insured.—Westminster, 11th.—John Nixon's house burned; no insur-Fire & Marine, for \$1,000. H. G. Pett, a baker in that block, was insured in Ætna for #450.-Clifton, March 11th.-Three buildings were burned: Stevenson's is insured in the Queen \$600; Citizens' \$200; value about \$1200; stock mostly saved, insured is Queen \$400, and in the Citizens' \$800. Strathy's building insured in the Dominion for \$800; valued at \$1200. John McGarva's building insured in the Queen for \$500, value \$900 ; stock \$300 in the Sovereign. Coat's building andstock, insured for \$3,500 in the Imperial and \$3.500 in the Phœnix; stock mostly saved. Strathy's building, loss about \$800; supposed to be uninsured. Wright's stock, insured in the Western for \$2,-000, Canada for \$1,000, and Citizens' for \$1,-000; value \$9.000.

-An exchange prints an article headed "How oil cloth is made. We have read it through carefully, but have failed to find the information we seek, which is: How oil-cloth is always made so all-fired cold.—Rome Sentinel.

# OIL MATTERS IN PETROLIA.

# PETROLIA MAR. 14, 1881.

Crude oil is very steady at \$1 50 per barrel. The adoption of the Senate Bill by the House of Commons with the fixing of the gravity of refined oil at 8.05 instead of 8 02, has had a steadying effect on the minds of all in the business, as it is alike to interest of producer, refiner and consumer. *Refined* oil is quoted at 20c. per gal. in London. It is not at all likely that the price will be lower this season. Crude is held so firmly that refined cannot be sold in quantity at less. Permanent extension of producing territory can alone alter that. The action of the Government in regard to change of Inspection Act is to be commended. A uniform instrument is provided which slightly relaxes fire test, and the gravity is relaxed three degrees which can be done without danger. We anticipate a quiet, steady, and satisfactory time now for the petroleum trade.

# RAILWAY NOTES.

The Canada Atlantic Railway, for which a charter was obtained in 1872, has, we are told, been at last put under contract to a very responsible party, Mr. Daniel C. Linsley of Burlington, Vt. The contract was signed at Lancaster, it is stated, some days ago, and on the next day the contractor deposited with the directors \$30,000 in cash as a guarantee, besides the bond of a wealthy American for the due fulfilment of the contract. That portion of the line from Coteau to High Falls on the Nation River, about 50 miles, is to be finished by 1st January, 1882; that portion south from Coteau to the Province line in two years; the bridge over the St Lawrence within the time specified in the charter. The late president of the company, Hon. D. A. Macdonald having resigned that office in consequence of ill-health, Mr. E. McGillivray of Ottawa was chosen president in his stead. Mr. McGillivray has taken a lively interest in the road since its inception. The line appears to us to be an important line of railway to the city of Ottawa and the Ottawa valley, besides forming, when finished, an important outlet for the Canada Central road and the Toronto and There appears now to be Ottawa scheme. ground for belief that the road may be built within the time specified in the contract.

The traffic over the Canada Central Railway so far this year has increased over last in a noteworthy ratio, even allowing for the increase of track open from 1621 miles in 1880 to 210 miles now. The returns show an increase regularly, week by week. And the aggregate traffic for seven weeks ending 21st ult., shows an increase in passengers carried of 23 per cent.; in freight receipts of over 50 per cent ; and in revenue per mile per week of more than 25 per cent. as compared with the same period of 1880. The number of passengers carried during eight weeks of Jannary and February was 15,224.

Traffic on the Grand Trunk Railway keeps up well relatively with last year. From the weekly returns we gather that the weekly increase in re ceipts so far this year ranged fr m \$2,000 to \$10 - 000 and that the aggregate increase for eight weeks was 65,044. The increase applies, as a rule, to both freight and passengers, the receipts from passengers averaging from 21 to 25 per cent of the whole. The number of miles now open is 1,404 $\frac{1}{2}$  as compared with 1,273 $\frac{1}{2}$  miles in Febru ary 1880.

The combined traffic of the Northern and Hamilton & North Western Railways reaches for the half-year up to the 22nd February, an aggregate of \$117,875 against \$113,471 for the like hlf-year of 1880 Of late, the increase in traffic receipts has been steady, week by week with an occasional exception.

In the case of the Midland, every recent week

has shown a small but continuous increase of receipts over like weeks of last year. From 1st January to 28th February 1881, the amount received from traffic was \$29,970, as against \$28,-442 during the like period of 1880.

In the Railway Committee, Monday morning, a clause in the Credit Valley Railway Bill was passed securing the creditors and appointing Mr. Kenneth Chisholm, of Brampton, and Mr. Valancey E. Fuller. creditors' trustees. \$600 000 worth of bonds is to be issued for payment of debts. Creditors taking advantage of the arrangement are to receive fifty cents on the \$ and to have no further claim, the time for construction to be three years.

THE STADACONA BANK. - As we have stated an offer was made the liquidators of the Stadacona Bank by Mr. Dean to pay them the sum of \$50,-000 for all the assets of the bank remaining undisposed of. The assets in question consist of cash in hand and shares in other societies, debts due the bank, profits on circulation &c. A special meeting of the shareholders was held last week to take action upon this offer. It was unanimously agreed that Mr. Dean's offer be accepted, the ballots cast representing 5,842 shares. His offer binds that gentleman, we are told, to pay any existing liabilities of the bank, and the law requires him to deposit in some chartered bank the necessary sum for the The \$50,redemption of notes in circulation. 000 to be paid by Mr. Dean will enable the liquidators to complete the payment to shareholders of 100 cents upon every dollar's worth of stock held by them. On the 15th of July last the shareholders received 90 per cent of the par value of their stock. On the 18th of October they received five per cent. more, and the remaining five per cent is to be paid with the At the meetmoney obtained from Mr. Dean. ing in question a sum of \$1 500 was voted by the shareholders to be divided amongst the thθ liquidators, Messrs. Jos. Shehyn, M.P.P., Hon. Pierre Garneau, and T Ledroit.

## Commercial.

#### MONTREAL MARKETS.

Montreal, 15th March, 1881-The past week has been very dull one in all branches of the wholesale trade. Teas are in excess of the demand and are being pressed on the market at unremunerative prices. Sugars have fluctuated a little in price this week but close steady. Breadstuffs are quiet. Leath r is in better demand, prices in buyers' favor. A heavy snow storm this week has rendered roads almost impassable.

ASHES — Pots.— But little shipping demand this week, and stocks are accumulating ; prices are the turn firmer, to-day's quotations being \$4 00 to 4.10, although some extra tares were sold early in the week at \$4.12 to 4.20. Pearls. —Not a single transaction reported since our last, price quite nominal. Stocks in store, Pots 1264 brls. Pearls, 155 brls.

BOOTS & SHOES. — CONTINUE quietness characterizes the trade and prices are steady with few erizes the trade and prices are steady with few as last week We quote, Men's SplitBoots, \$1.75 to 2.25; ditto Cowhide Boots \$2.50 to 300; to 2.25; ditto Cowhide Boots \$2.50 to 300; to 2.25; Women's \$2.50 to 3.25; ditto Spit ditto Kip Boots, \$2.50 to 3.25; ditto Spit erogans, 90c to \$110; ditto Buff Congress, \$2.00 to 2.25; Women's P. bble and Buff Balmoras \$1.15. to 1.50; ditto Split Balb, 90c. and \$1; \$1.15. to 1.50; ditto Split Balb, 90c. and \$1; ditto Pranel a, 60c to \$160; Misses Pebble and Buff Rals. \$1.00 to 1.20

and Buff Bals, \$1.00 to 1.20. CATTLE — There were about 300 cattle on the mark tyesterday almost all prime stock, anumber were selected for shipment at prices varying from 43 to 54c per 1b The demand from butchers was good at from 43 to 5c. per 1b, the outside price was for very choice animals, outside price and wanted. Live hogs were not in large supply, two lots were sold, one at

are easier; if in good condition they sell at \$8.25 to 8.50 per 100 lbs.

DRY GOODS .-- Stocks in this line are well assorted and merchants have been busy filling and shipping back orders, but there has been very little new business to report. A large number of buyers were expected in the city this week from places on the G. T. R. west of Kingston attracted by the cheap rates, but from the heavy snow storm or some other causes, com-Paratively few have as yet made their appearance, but merchants are hopeful of a good business yet being done and console themselves in the meantime with satisfactory remittances.

FLOUR.-The stock in store and in the hands of millers is 43,546 brls., against 41 891 brls. on the 1st inst and 34,366 brls, on the 15th March, 1880. Receipts for the past week 8,007 brls. Total receipts from 1st January to date 83,681 bbls, being an increase of 27,026 bils, on the receipts for the same period of 1880; shipments during the week 2,155 brls. Total shipments from 1st January to date 35,089 brls. being an increase of 13,626 bris. on the shipments for the same period of 1880. Not much demand for flour, buyers only taking for immediate wants. Some enquiry for coarse grades which are scarce, the finery for coarse grades which are received and and improved to-day and a good deal of flour changed has a superhands among the local trade. We quote Superior Extra, \$5.25 to 5.35; Extra Superfine. **Superior Extra**, \$5.25 to 5.35; Extra Superior, \$5.20; Fancy, \$5.05 to 5.10; Spring Extra, \$4.90 to 5.00; Superfine, \$4.65 to 4.75; Strong bakers', \$5.75 to 6.20; Fine, \$4.00 to 4.20; Middlings, \$3.60; Pollards, \$8.10 to 3.20; U. C. Baca Strate Conc. U.C. Control, \$4.40 to 

 aiddlings, \$3.60; Pollards, \$8.10 to 3.20; U.C.

 Commeal, \$3.0 to 3.10.
 Middlings, \$4.25 to 4.35;

GRAIN - Wheat. - The stock in store and in the hands of millers is 63,798 bushels, against 64,432 bushels on the 1st inst. and 123,125 bushels on the 15th March 1880. Receipts for the past week, 4,000 bushels. from 1st January to date, 281,265 bushels, being a decrease of 52,000 bushels on the receipts for the same period of 1880. Total shipments from last r let January to date, 262,639 bushels, being a decount of the shipments for decrease of 6,707 bushels on the shipments for the same period of 1880. Our local grain market inactive and prices nominal. Timothy seed

is quoted at \$2.60 to 2.75. Clover at \$5 to 5.50. GROCERIES.—Teas are very plentiful and too anch pressed on the market, prices obtained are Not satisfactory. Sales are being made in New York York, we hear, to just cover cost. We quote Japan. We hear, to just cover cost. We quote Japans from 20 to 52c; Gunpowder, 35 to 70c; Young Hysons, 65 down to 25c; Twankay, 24 to 27c; Course Hysons, 65 down to 25c; Twankay, 24 to 27c; Congou, 30 to 70c; Souchongs, 35 to 60c. Coffee. The market is steady but there is little or no demand, prices seem to favor buyers. 25 to 27c; Jamaica, 16 to 21c, Maracaibo and Laguarre; Jamaica, 16 to 21c, Maracaibo and Maraca Laguayra, 17 to 20c. Sugar-Has fluctuated lightly during the week, but closes steady at last work Last week's quotations. Granulated, 91 to 93c. Grocers' A, 91 to 93c; Yellow, 71 to 83c. Mol-**Trocers'** A, 95 to 93c; Yellow, 71 to 83c. Mol-asses. Weak, and only small sales reported of Syrups. Unchanged at 31 to 42 per wine gallon. Steady at \$4 to 4.25. Spices. Firm. We do mand has been new limited but there is a firm mand has been very limited but there is a firm feeling; quotations are well maintained and in some contained. We bome cases advanced rates are obtained. We have quote: Layer raisins, \$2 to 215; Loose Loose Layer raisins, \$2 to 25; Loose how quote: Layer raisins, \$2 to 215; Loose Muscatels, \$2.20 to 2.25; London Layers, \$2.50 12.60; Valencias, 83 to 91c; Sultanas, 93 to Prunes, 51 to 6c; Tarragona almonds, 123 to 134 to 133; Hams, 124 to 13c; Bacon, 12 to but little in first hands. We quote: Cod, dry, 4 to 4.25; Green No. 1, \$4.25 to 4.50; large

64 and the other at 7c. per lb. Dressed hogs draft in bbls. \$5.50 to 5.75; Split mackerel, No. 1, \$5, No. 3, \$4 to 4.50.

HIDES.—The market continues steady at \$9, 8, and 7 for No's 1, 2, and 3 green butcher's hides. Lamb kins, only one or two have yet been offered and prices are not yet fixed; Calfskins are in demand at 10e per lb.

HARDWARE .- Business generally is quiet and dull, and prices do not seem to advance. There is no change in prices. Pig iron is a little weaker in Glasgow, and sales at low prices are being effected for future delivery. In Tin plates there is nothing doing, the large stocks here prevent any more importation than possible, but should any slight demand take place, the surplus would be found not nearly as much as buyers here think it is. Other lines are without change.

LEATHER.-Business has been rather more active the past week, holders of stock having shown greater disposition to meet the views of the shoe trade, and several fair sized lots of Splits and  $U\rho per$  have been placed. Prices all round are fairly steady, the only weakness noticed being in splits on account of the large stock held. Sole is moving off quietly and holders are firm in view of the improvement in the New York market. We quote: Hemlock Spanish Sole No. 1 B. A.,24 to 25c; ditto No. 2, B A., 22 to 23; No. 1 Ordinary 24 to 25; No. 2. ditto, 22 to 23c; Buffalo Sole, No. 1, 21 to 23; ditto No. 2, 19 to 21; Hemlock Slaughter, No. 1, 26 to 28; Waxed Upper, light and No. 1, 26 to 28;  $Wax^{a}a$  Opper, light and medium. 36 to 42; do. heavy, 35 to 40c; Grained, 35 to 40; plis, large, 22 to 30; ditto small. 23 to 28; Calfskins, (27 to 36 lbs.) 60 to 80c; ditto (18 to 26 lbs.) 60 to 70c.; Sheepskin

LIQUORS.—The market is unusually quiet and only a few jobbing sales are reported, the chief demand being for Brandies, prices are steady uemand being for brancies, prices are steady but are without any quotable change. We quote Brandles, Hennessy's per gal. \$4.40 to 4.60; ditto in cases, \$11.25 to 11.50; Matig-non & Co, per gallon \$3.30 to 4.50; ditto; in cases, \$8.00 to 13.00; Boitards per gal. \$3.00 to 3.20; ditto cases \$6.40 to 9.50. Gin, De Kuyper's per gal. \$2.05 to 2 15; Red cases, \$7.90; (Freen cases \$4.60; Bil & Dunlop's, per gallon, \$1.95 to 2 10; Red cases \$7.75; green cases \$4.-50: Booth's O'd Tom, cases 6.50 to 6.75; ditto in wood, \$3 00; Pelee Island Wines, \$1.44 to 1.80 per Imp. gal.; in cases \$5.00 to 6.00; Champagnes, Piper Heidsieck \$25 to 26; Ayala & Co., \$25 to 26; G H. Munn's \$25 to 26; M H. Mills La Diamant, \$18 to 20. Ports, Graham's \$2.10 to 4 80.

OILS.-Petroleum -The decline in price which we noticed last week, has not been recovered. and prices here continue at 24c. for car lots; 24} to 25 for broken lots, and 25 to 251 for single brls. The demand is only moderate, and not likely to improve till the opening of navigation. Fish oils are quiet, and not much business transpiring; but as stocks are light, values are maintained. Cod oil, A. Nfd. 60c; ditto Halfax, 56j to 57c; Seal, pale, 62j to 64c; ditto straw, 55c; ditto steam refined 67j to 70c. per Imp. gal. Linseed oil is quiet but unchanged; Falm oil, 81 to 91c. per lb.

PROVISIONS.— Butter.— Receipts 764 pkgs.; Shipments, 386 pkgs. This article, in the present state of the market is difficult to move; there is no export demand, and good butter is

Leading Wholesale Trade of Hamilton.

of the London sales, which we hope to give next week. The New York fur market is in much We continue to quote :-the same state. Winter musk Rat, 10 to 12c; ditto Fall Sc. kitts, 3c. ; Red Fox, \$1.00 to 1.50 ; Cross Fox, \$2 to 2.50 ; Lynx, \$1.50 to 1.75 ; Marten, 75c. to \$1.25 ; Otter \$6 to 8.00; Mink-Prime dark, 75c to 1.25; Beaver, 2.50; Bear-Large prime, \$6 to \$8; ditto small \$4 to 5.00; ditto cubs, \$2 to \$4.00; Fisher, \$4 to 6 00; Skunk-Plack 40 to 60c; Raccoon, 40 to 60c.

Wool.-The wool market is very quiet; Manufacturers are buying nothing at the moment and prices may still be considered nominal. ' Canada pulled, A super, 34 to 35; B super, 32 to 33; Greasy Cape, 18 to 19c; Stocks here are light.

# MARITIME MARKETS.

# (By Telegraph to the Monetary Times.)

#### HALIFAX, Mar. 17th, 1881.

The market for flour has improved in tone since this day week. All grades are to-day firm at our quotations of last week, and higher prices are anticipated by sellers. Flour.-We quote by the car load from station, 3 mos. Montreal Standards-Choice Superiors, \$5.80 to 585; Superiors, \$5.65 to 5.70; Spring Extra, \$5.55 to 6 00. Prices of meal unchanged. We quote Oatmeal, \$4 75 to 4.85; (Jornmeal, \$3 30.

#### TORONTO MARKETS.

# TORONTO, March 17th, 1881.

After a violent storm of wind and snow on Saturday night, the weather became more Springlike, and the temperature has remained high ever since. The railway cheap trips brought a good many buyers to this market and a considerable aggregate of sales has been the result. We are told by the Secretary of the Board of Trade that several hundreds of buyers have taken advantage of the trips.

There has been moderate activity in bank shares, the prices of which show no decline. Montreal, for which 186 was offered on Monday. sold on Wednesday for 1861; Commerce sold at 143 on Monday and held 1 higher yester\$ay; Ontario sold at 100¹/₂ on Tuesday and 101 on Wednesday; Merchants, 119 has been offered all week, holders asking 120; Toronto sold at 150 on Monday; Imperial at 123 on yesterday; Standard brought 106¹/₄. Building & Loan shares have been quiet for some days. Canada Permanent remains at 205 bid with 208 asked; a sale was made on Monday of Western at 168,

and Freehold is held at 160 to 161; Farmers' sold on Monday at 130: Landed Credit on Tuesday at 137; Brant Loan at 1024. Miscellaneous stocks are quiet and steady.

CATTLE .- There is no demand for shipping beeves. English advices received since our last announce that there is no encouragement in the British markets. It appears to be still true that, as compared with American beeves, Canadian lots are at a disadvantage. The American western markets are so much larger, the animals, especially their steers, so much more uniform, that lots of Canadian, mixed as they too often are, being composed of oxen, bulls, and cows, excellent though the best may be, the presence of inferior deteriorates the lot. In the local market. picked beeves are bringing 41 and 5c live weight; seconds 4c. A lot of 260 sheep, which had been feeding all winter were bought for shipment at \$5.25 per cental, live weight. a handsome lot.

DRUGS AND CHEMICALS .- Prices have been steady and the tone of market firm. A good many buyers in town some few brought by trade sales which had a perceptible effect. Weremark that Quinine is firm at quotations, and that opium also firm. Morphia maintains its price. Turpentine higher of late and we advance price 2c.

DRY Goods .- The warehouses have had a busy week. Customers from the principal railway points, and from a number of small towns and country villages, have availed themselves of the facilities afforded by the Board of Trade to visit this market and inspect the varied and complete stocks offered. In plain staples, very considerable sales have been made, the disposition of buyers being to get value for their money. In dress goods, country as well as town customers have been puzzled. So great is the range of fered by our importers, and so bewildering the variety of texture, pattern, and price, that it has been found hard to make a choice. Besides, it was a considerable strain on a man's faith who had been buying lustres, merinos, and plain fabrics for successive seasons, to discard these and make up his order of the now fashionable large checks. As to cotton goods, there has been an unusual quantity of prints disposed of; in styles and delicacy of colors, this season probably surpasses any before known. Sateens, muslins, on cottades, sold well; Organdies and the other fabrics, which we mentioned a fortnight ago, have had a good run. Many of our houses are working nights to send out their orders.

FREIGHTS.-The present are rail rates per Grand Trunk from this city on flour per barrel:-Kingston, 28c; Cornwall and Montreal 35c; St. John, Que., 47c; Coaticook, 55c; Chaudiere, 60c; Point Levis or Quebec, 55c; Riviere du Loup, 65c; Cacouna to Moneton, 70c; Point du Chene, (through), 70c; Amherst and Point du Chene, (Group), 100; Annerso and Form to the other 650; Fictou, Truro and New Glasgow, (for through C.B. traffic), 600; Windsor, (for W. & A. R. R.), 600; St. John, 550; The Junctions, 18, 19, 100; St. John, 550; The Junctions, St. Stephen, St. Andrew's or Carlton, 60c. The following are the through rates to England. being to Liverpool, via the Dominion and Beaver lines, from Portland :--Flour and oatmeal, 99c per barrel; beef in barrels, 56½c per 100 lbs.; pork in barrels, 561c ; boxed meats, 521c ; tallow and lard, 561c per 100 lbs.; butter and cheese, 711c per 100 lbs., in lots not under 15,000 lbs.; do. in lots from 5000 to 15,000 lbs. 814c per cental; oil cake, 45c per 100 lbs.; flour and meal in sacks, 45c per 100 lbs.; clover, 611c per cental.

FLOUR & MEAL. - The market for flour is quiet and steady, but advices from Milwaukee indicate a better feeling, while old country advices are also improved. Transactions here are conare also improved. Transactions here are con-fined to small sales of Superior Extra, and an

as against 9,199 bbls. the previous week, 18,400 | in Chicago, none are anxious to sell their goods bbls. on like date last year, and 24,890 bbls. on like date of 1879. There is more enquiry this week for oatmeal, but very little business has as yet been done in it; prices are unchanged. Bran is steady.

GRAIN .- With the exception of barley and oats, the grain market is quiet and steady. Freights going down a little and English markets improving, there is a better feeling. Wheat .- The stocks of Fall in store were on Monday 122 872 bushels, where on the previous week they were 111,737 bushels, and previous year 176,197 bushels. The stocks of Spring were in smaller proportion to previous years being 91,-467 bushels, against 80,719 last week and 162,444 in 1879. Small lots of wheat both Spring and Fall, have been sold to local millers at quotations. The stock of barley in store in store has decreased, being this week 305,605 bushels, against 339,894 bushels the previous week; there has been a good demand and some large sales at quotations. Peas are higher, a good many have been shipped this year already via Portland, and in anticipation of early ships arriving, more export lots are being looked up. We quote No. 1 at 72c and No. 2 at 70c firm. Oats are scarce and wanted, we advance quotations to 37 and 38c Rye, as well as corn, unchanged.

GROCERIES -- Business cannot be called active, but still there is a fair movement in staples. Prices are unchanged in sugars, and there is no sign of weakening values in te s. All descriptions of *fruit* continue firm. Valencia raisins are now held at 9c.; a line of currants sold on Wednesday on p. t.; the lowest notch for choice fruit is now  $6\frac{1}{5}c$ ; there are some ordinary to be had at 612c. Liquors, imported, are selling slowly : Brandies are firm, as per our prices current; Central Society of Cognac is in market at \$8.50 to 9.00 per case; Rum and Gin are steady in price, although the latter is 3d. or 4d. higher in Rottendam; Hencke's green we quote \$4.00 to 4.25 per case, and red \$7.50 to 8.00; Dunville's Irish whiskey is quoted \$6.50 to 6.75 per case ; Ferguson's Scotch quarts, \$5.50 to 5.75 per case, and pints \$6.50 to 6.75 per case (2 doz.)

HIDES AND SKINS.—The market for hides is quiet. What green offer are taken at 9½c per lb. for steers and 9c for cows, for No. 2 \$1 less all round. Sales of cured are made at 91c for We make a reduction of 1c in quotrions. Sheepskins unchanged. Tailow quiet at previous prices.

HAY & STRAW .- The roads are now tolerable, and hay has been plentiful throughout the week. To-day, \$13,50 is an average price, 12.00 has been paid for some inferior and 15.00 is the outside figure. Pressed hay is offering freely at \$13 to 14 per car. Straw offers in abundance at from \$6 to 9.

LEATHER.-Business is quiet atthough a very fair trade is being done in small parcels to country buyers. To move large lines, however, concessions would have to be submitted to. Sole is 1c easier in this market on Spanish, Slaughter is also easier, although we make no change in quotations, prices would be shaded for large lots. Upper is very quiet, and no disposition is shown by manufacturers to make contracts at present, they are waiting, whether wisely or not time will tell. Harness maintains its price. The demand for splits is limited.

SALT. - The Canadian article, which was scarce a few weeks ago, is now plentiful; car lots can be obtained at \$1.05 to 1.10, and for small lots \$1.15 to 1.20, Liverpool coarse we quote in car lots at 65c., and in small parcels 70 to 85c.

PROVISIONS.—On all hog products the market is very firm. The packing of dressed hogs is now quite over, and packers find their stocks anything but excessive, being not nearly so heavy as last season at this time. With this informa-

at under full figures. Lard is in short supply; sales were made in a wholesale way some days ago at 13c., and in a jobbing way 134c. is now asked. Bacon is going out freely at unchanged prices. We advance quotation for Mess Pork 50c. per bbl., as it cannot now be laid down under \$18.50. Mess Beef is comparatively neglected, the flutter which an advance in port made in it not having been sustained. quote now \$10 to 11.50, with say \$12 as an outside price for an extra brand. The price of cheese is now so high as to check consumption, as much as 143c. having been paid to dealers for prime. While the demand cannot be called great, the stock here was never so bare, and Montreal bas been resorted to by our dealers. The price in Ingersoll market is now 131c., and the two large exporters of that neighborhood have cleaned the country with their shipments. It is noticeable, too, that ordinary and old are very scarce. Build has become suddenly plentiful, and a great deal of ordinary is being thrust on the market by country makers or dealers. There is plenty to he hed at 16 to be had at 16 to 17c., and for the very choicest, which in February commanded 30c., not over 20c. can now be got. No one is buying for er port, but a demand is likely from the Maritime Provinces when price goes a little lower. Dried apples have sold freely this season for the Mar time markets.

Wool.—The market is quiet with prices easier if anything. Buyers and sellers apart on fleete.
