STRONG DEMAND MADE FOR INTERVENTION IN MEXICO BY U. S.

Graft in Canal Payments--Asquith's Home Rule Compromise--Thirty Perished in St. Louis Fire

CANAL ACCOUNTS WERE PADDED LIBERALLY

Nearly Every Class of Business and Profession Represented as "Laborers" on Trent Valley Sheets--Starting Evidence Was Laid Before Parliament Yesterday.

OTTAWA, March 9.—Bankers, lawyers, doctors, dentists, undertakers, barbers, newspaper men, merchants, hotelkeepers, and almost every class of business and profession, are represented on the pay sheets of the Trent Valley Canal. The papers containing the evidence in this startling scandal were laid on the table of the commons today.

George Howard Ferguson, member for Grenville in the Ontario Legislature, conducted the investigation, and the evidence was taken under oath. The chief officials concerned are Joseph H. McClellan, canal superintendent; A. J. Grant, superintending engineer; and George A. Mothersill, auditing engineer at Ottawa.

Regarding McClellan, Mr. Ferguson says: "He has not only practiced deception and dishonesty himself, but has condoned it and winked at it in others," and then goes on to say that "the chaotic condition rendered complete examination of the affairs impossible."

The name "Besse Butler" occurs often. She is a vessel. She was christened on the canal, and "McClellan's daughter went to the christening and carried a bouquet. Mr. Blade, a Peterboro forist, supplied the flowers. He was paid by being put on the pay roll as a laborer until the account was wiped off. There was a funeral also, and McClellan ordered a wreath to show the grief of the canal employees. Mr. Blade was paid for the wreath in the same way. His name appears at other times for similar "labor."

Beneficiaries as Laborers. Hotelkeepers were paid for board at their hotels by being put on the pay sheets as "laborers." Among them were A. B. Spillman, Hastings; A. G. Lawless, Lakefield; and Bobcaygeon; W. W. D'Arcy, Burlington; Hector Campbell, Kirkfield; G. N. Graham, Peterboro; Patrick Logan, Peterboro, and

ARMED INVASION OF MEXICO TO PREVENT A FOREIGN CLASH DEMAND MADE IN U.S. SENATE

Republican Member From New Mexico, Thrusting Diplomacy Aside, Urged Prompt Action—Grave Danger of Conflict With Germany Was Declared to Exist—Speech Caused Sensation.

WASHINGTON, March 9.—The lid of secrecy regarding Mexico was lifted in the senate today by Senator Fall, Republican, of New Mexico, who urged armed intervention for the protection of Americans and other foreigners in the stricken republic. The galleries were crowded to overflowing. Senator Shively of Indiana, who spoke for the administration, expressed regret that the subject had been discussed in open session, avowing that no adequate suggestion had been offered to compose the difficulty.

Senator Fall, in a lengthy narration of incidents of outrages to Americans in Mexico, held the interest of the senate and galleries for more than three hours. Assailing the policy of the administration as inadequate in the situation, and declaring that President Wilson knew nothing about real conditions and had been mistaken in every act of his administration toward Mexico, the New Mexico senator pleaded for intervention for protection in order to avoid inevitable war.

Emphasizing the danger of war with a great foreign power, unless something should speedily be done, Senator Fall referred to comments in the German press over the killing of the British subject, Benton, by order of Gen. Villa's court-martial, and declared: "When the German official press says that should a German citizen be murdered in Mexico, Germany would not acquiesce like Great Britain, then I say to you, senators, there is imminent danger of a conflict between the United States and this country with which we should always be at peace."

"I believe the American people can be left to handle any critical condition, provided they are informed on the subject. I am not one who believes, when the press is full of reports of outrages and details of Mexican horrors, that it can be 'incompatible with the public interest' to send to this senate details of outrages upon American citizens. I am not one who believes that the constitution should be pushed aside and let one man assume the executive and legislative powers of the government."

Would Mean War. Senator Shively, replying as acting chairman of the foreign relations committee, declared that Senator Fall's policy would mean actual armed intervention, and that intervention meant war. He deplored that the situation had been thus discussed in the open senate, declaring that it would have a harmful influence upon the attitude and temper of the people of Mexico.

"No one doubts what intervention means," said Senator Shively. (Continued on Page 7, Col. 5)

OTTAWA, March 9.—J. W. Curran of The Daily Star, Sault Ste. Marie, Ont., Mayor Lyons of Steelton and Cyril Young of North Bay are here to interview the government regarding assistance in the production of ore, in order to put the steel industry on its feet. In 1913, they state that there was only one ton of Canadian ore used in Canadian blast furnaces out of every 22 1/2 tons used.

COMMITTEE TORN BY SPLIT IN OPINIONS

Chairman of School Board Left Meeting Called to Consider Winchester Report on Building Department—Proposal to Resume Inquiry Carried in His Absence.

Chairman McTaggart of the board of education, broke away from the other members of the special building department committee of investigation. He openly expressed regret that by his casting vote he had enabled the committee to be appointed. He voted under a misapprehension of the resolution calling for the committee as he overlooked the instruction to investigate into the present conditions prevailing in the department. His intention was the appointment of a committee to deal with Judge Winchester's report and Superintendent Bishop's reply.

The committee opened fire yesterday afternoon by taking up Judge Winchester's criticism of the department for its lack of system. System Was Lacking. Chairman McTaggart said he appreciated the generosity of Supt. Bishop in trying to shield his assistant, Mr. Waste, but he agreed entirely with the finding of Judge Winchester as to the lack of system, and from the evidence the judge had stated the matter pretty fairly. Up to 1905 Mr. Waste had been able to look after matters in his charge pretty satisfactorily. The building department's operations then averaged \$100,000 a year. In consequence Supt. Bishop had developed a feeling of confidence

COUNTIES AGAINST HOME RULE WILL BE GRANTED EXCLUSION FOR SIX YEARS, SAYS ASQUITH

Premier's Determined Effort to Overcome Ulster's Opposition Meets With Cold Reception From Unionist Leader—Vote to Be Taken in Counties Where Requisition is Presented.

LONDON, March 9.—(Via Reuter's Ottawa Agency).—The house of commons was packed this afternoon and the prime minister, Right Hon. Herbert Henry Asquith, was loudly cheered on rising to make a statement upon the Irish situation on the second reading of the home rule bill.

The premier, after reviewing the unsuccessful efforts to arrive at a compromise with their political opponents by a series of conferences, said they had then come to the practical question as to how far exclusion could be adopted without violating the principles of either side, and they had come to the conclusion that the only way was to allow the Ulster counties themselves to determine where they desired to be excluded.

BARE MAJORITY TO SUFFICE. His plan was that any county in the Province of Ulster was to be excluded for a certain period if, on a poll being taken of the parliamentary electors of any county before the bill came into operation, a bare majority of votes favored exclusion. The said poll would be taken in the county if a requisition were presented signed by one-tenth of the electors and presented within a certain time after the date of the passing of the bill. The persons entitled to vote were those entitled to vote at parliamentary elections, and the questions put would be: "Are you for the exclusion of the county from the government of Ireland for a period of years; or, are you against such exclusion?"

The poll would be taken by ballot similarly to parliamentary elections. If the poll resulted in favor of exclusion, the county would be automatically excluded for a prescribed period. In speaking of a "county," he would include as separate counties the Boroughs of Belfast and Londonderry. He did not believe they could select a more practicable area than a county. The government, after much consideration, thought that the period of exclusion should be six years from the first meeting of the Irish Legislature in Dublin.

Will Be Fair Test. Sir Edward Carson, what happens at the end of six years? Premier Asquith replied that the government had taken six years to insure that before the period of exclusion came to an end, and there should be ample time to test by experience the actual working of the Irish parliament. They were sure also that before the period of exclusion ended there should be a certain opportunity for the electors of the United Kingdom to pronounce whether or not exclusion should come to an end. (Cheers.) Mr. Asquith showed by examples

THIRTY LIVES PROBABLY LOST IN ST. LOUIS CLUB HOUSE FIRE

Death List May Reach Thirty-Five—Seven Bodies Have Been Recovered and More Than Score of Guests Reported Missing—Seven Storey Building Destroyed.

ST. LOUIS, March 9.—That from thirty to thirty-five guests of the Missouri Athletic Club perished in the flames that destroyed the building this morning is the belief of officers of the club tonight. Seven bodies have been recovered, and from 25 to 28 occupants of the structure are still unaccounted for. At sundown tonight, firemen continued the search for bodies in the smoldering ruins under the glare of searchlights.

The blaze was the fourth serious fire in the downtown district of St. Louis in eight days, and the most serious as to fatalities of any fire in the city's history. This fire completely wrecked the seven-storey building, occupied jointly by the Missouri Athletic Club and by the Boatmen's Bank, caused a property loss estimated at half a million dollars, and by destroying the list of entries and other club records, forged the abandonment of the intercollegiate track meet that was to have been held in St. Louis under the auspices of the club next Saturday night.

Cause a Mystery. The cause of the fire still was a mystery tonight. Reports that the blaze was accompanied by a terrific explosion, indicating that the fire was due to the efforts of bank robbers trying to dynamite into the Boatmen's Bank, were unconfirmed. Reports of explosions were denied by the night watchman of the bank. In the vaults of the Boatmen's Bank, which occupied part of the first floor of

A BUSY COUNCIL SESSION

Business done at the city council: No reduction in civic Hydro-Electric rates this year, the general manager declaring it impossible. Unanimous vote to abolish the treasury board and give the duties to the board of control. Killed a motion to have the union label on uniforms of civic car lines' employees. Turned down a motion to provide waterproof capes for the scavengers. Disapproved of buying a playground on Anderson place, between McCaul and William streets. Slaughtered motions to break off negotiations for street railway purchase. Civic housing policy was approved. Abolition of property qualifications for the city council was not adopted. Yonge street widening was approved. Two temporary incinerators are to be constructed. A resolution of condolence to the family of the late Sir George Ross is to be prepared by the city clerk.

CANNOT BANISH CIGARETTES BY LEGISLATION

Premier Borden Plainly Indicated That He Considered Brother's Proposals Unworkable—Resolution Was Referred to a Special Committee After Interesting Debate.

OTTAWA, March 9.—The galleries were crowded this afternoon by ladies eager to hear the anticipated debate on Mr. Broder's anti-cigarette resolution. But it was late in the evening before the member for Dundas obtained the floor, and in the meantime the house discussed the immigration question, the celebration of the semi-centenary of confederation, and the excessive subsidies granted to the Southampton Railway of York County, N.B.

Mr. Broder made a strong case against the deadly cigarette, and was warmly supported by Mr. Thornton of Durham and Hon. Frank Oliver. But upon motion of the prime minister, the whole subject was referred to a select committee of fifteen to be hereafter appointed. Mr. Borden said that stringent legislation had been passed from time to time by parliament, but these laws, intended to prevent cigarette smoking by the immature, had not been enforced, and it would be worse than idle to enact the statute book with still more drastic legislation. He said he had over and over again asked those who urged prohibitory legislation to explain why it was that the statutes already in force were merely dead letters.

Laws Not Enforced. Mr. W. F. MacLean (South York) said the solution of the riddle was not far to seek. Parliament passed laws but took no steps whatever to enforce them. He agreed that it was idle for the Dominion parliament to pass laws unless and

DOUBLE SUBSIDY GIVEN RAILWAY

False Returns and Padded Estimates Alleged in Relation to New Brunswick Line.

OTTAWA, March 9.—At the evening sitting of the house Mr. Carvell of Carleton, N. B., brought to the attention of the house some curious facts in relation to a railway in York County, N. B. 13 miles long, which cost about \$12,000 per mile, or \$156,000. The promoters had obtained \$12,000 a mile in bond guarantees from the legislature of New Brunswick and \$64,000 in cash in subsidies from the Dominion Government. They had, therefore, received from the two governments about \$60,000 more than the road cost. He said that under the Dominion statute the road could not possibly have earned more than the single subsidy of \$32,000 a mile, yet the double subsidy of \$84,000 a mile had been paid.

The statements were in main confirmed by Col. H. F. MacLeod, the Conservative member from York N. B., who said that the engineers of the railway department had been undoubtedly deceived by false returns and padded estimates. Hon. J. D. Reid, acting minister of railways, said that Mr. E. B. Johnson, the inspecting engineer of the department, had estimated the cost of construction at \$191,000. Mr. Cochrane, the minister, had undoubtedly relied upon this report, but in view of the serious charges made, a thorough investigation would be ordered immediately.

SIR HENRY PELLATT TO REPRESENT HIS HIGHNESS

The Duke of Connaught sent an official message to Sir Henry Pellatt yesterday, requesting him to represent him at the funeral of Sir George Ross which will take place this morning at 10.30, to Mount Pleasant Cemetery. The funeral will be private, and only the near friends of Sir George are expected to attend. A deputation from Strathroy, including the mayor and president of the board of trade, will be present.

A Little Touch of Spring. Just a fleeting touch of spring yesterday to remind us that the back of winter is broken and that it will not be long now before we get into that joyous season. Did it remind you that your hat looked somewhat shabby? It is a good chance to buy one now when all the late ones have just arrived for spring. # NEWS FROM THE CITY HALL

## NO WARM CAPES FOR SCAVENGERS

### Ridicule Killed Meredith Motion—Union Label Suggestion Voted Down.

## ANTI-PURCHASE FORCES

### Showed Very Weak on Several Divisions in Council Last Night.

The little band of followers of Ald. Maguire in the city council made a "forlorn hope" attack upon the street railway purchase last night. Ald. Meredith moved that negotiations for the clean-up of the franchises be broken off. Six voted for it—Church, Maguire, Merrett, Graham, Maguire, D. Spence, and it was killed.

The same six voted for a motion by Ald. Maguire, that the agreement be brought down at the next meeting of council, or the negotiations be broken off. It died.

Another motion by Controller Church, that a report be asked for a modified form of the harbor commission scheme for radials, was also slaughtered.

Ald. Robbins moved that the union label be on the clothing supplied the employees of the civic car lines, provided the city has the legal right. He contended that union pay to working men means that their incomes have the maximum purchasing value, and are therefore correspondingly beneficial to the business interests. Controller Simpson gave a strong support to the motion, but it did not carry. The vote was 12 to 8.

Ald. Meredith moved that the 450 scavengers be supplied with waterproof capes for inclement weather, to cost \$1111.

Made a Joke of It. "We have as much right to buy waterproof skirts for the ladies who scrub the floors of the city hall," Ald. McBride declared.

"This matter should not be made fun of," said Ald. Robbins. "There was no difficulty in voting \$10,000 for a saunt for a choir, or \$18,000 for a retiring allowance for a civic official, but when anything is asked for workingmen the jeers are too plentiful."

"The city now supplies certain of its employees with clothing as a protection against inclement weather," said Controller Simpson, "and it surely is not inconsistent to look after the scavengers, men who have to stay out in all weather, and who are exposed to the elements in this matter are out of place."

The motion was killed.

Ald. F. Spence set out to have the land reading in plan to purchase for playground purposes a piece of land on Anderson place, between McCaul and William streets. The parks and recreation committee, which had recommended the purchase, had recommended expropriation proceedings, to discover the cost of the property, but the board of control did not concur.

Commissioner Chambers. The commissioner's report is that the cost of the ground is too high for playground purposes.

The proposition was that the city expend \$75,552 on the purchase of the property and that St. Patrick's church donate \$11,000 worth of contiguous property. No action was taken.

Ald. Wanless gave notice of motion that a police training school be established.

Controller Simpson put through a motion that the Dominion Government be asked to appoint a royal commission to investigate the causes of unemployment, with a view to prevent a recurrence of unemployment.

Legislation is to be asked for power to erect dwellings on civic land and sell or rent them to workmen, the consent of the ratepayers to build to be necessary.

Property qualification for membership in the city council was not abolished.

Prizes are to be offered for plans and specifications for model houses for workmen.

Ald. D. Spence asked if the appointment of an assistant city auditor was "through the meddling of the civic supervisor people."

Controller McCarthy replied that the auditor has the sole power to appoint his assistant.

The award of the arbitrator, increasing the pay of foremen and inspectors of sewer construction, was approved.

Leath street is to be extended through Don Mills road, and Broadview avenue widening north of Danforth avenue was approved.

Subject to annexation of a small area still in the township.

Strachan avenue bridges over the railroad tracks was referred back.

Construction of two temporary incinerators was adopted.

## CAPTURE YOUTHS ROBBING CELLAR

### Police Officers Arrest Pair Suspected of Many Robberies After Fight.

Charged with housebreaking, Frank Feeney, 152 York street, and George Gorman, 104 Morse street, both about 20 years of age, were arrested in the cellar of a residence at 22 West Roxboro street at 3 o'clock last evening by Inspector Delworth and Acting Detective George Young.

These young men are blamed for many recent burglaries in the north end. The police officers heard the tinkling of glass, walked to the rear, and found the cellar window kicked in. Young crawled through and found two men hiding behind a barrel. He called on them to halt, but they rushed at him, and for a moment Young had a hard job at holding his own. Inspector Delworth, in going to his aid, became wedged in the window, but cut off the escape of the intruders. No goods were found on them.

## THE LAST LINK

For some time there have been negotiations by the city for the purchase of the plant and franchise of the Interurban Electric Co., operating in West and North Toronto. This franchise would be the only one not cleaned up when the agreement of purchase for the clean-up of the franchises is completed.

Now the Provincial Hydro-Electric Commission recommends the City Hydro Commission to purchase the Interurban plant and franchise at \$250,000. Of this \$100,000 is for surplus profits. The gross revenue of the company is about \$85,000 per year. The city commission will recommend to the board of control the purchase of the Interurban.

The Interurban Company has lines nearly all over Toronto, and does a large business in North Toronto. It possesses a small generating plant at Brindale and has had a work-rearrangement with Toronto Electric Light Company for the supply of additional power. Recently the company attempted to buy 3000 horse power from the local Hydro-Electric Commission, but the Provincial Commission would not approve of the sale. As a result the company now wants to sell at the price named.

## CANNOT BANISH CIGARETTES

(Continued From Page 1.)

until it provided some machinery for its enforcement.

Mr. Andrew Broder's resolution calling for the prohibition of the importation, sale and consumption of cigars, after some debate, was upon the prime minister's suggestion, modified so as to believe that the matter to a special committee of 15.

Mr. Broder and Mr. Thornton (Durham) made strong speeches against the cigar, its deleterious effect, physical, mental and moral, especially in the case of the immature.

Mr. Burham (West Peterboro) was opposed to summary legislation.

Borden is Dubious. The prime minister said that the subject was by no means a new one in the house. He recalled several discussions, running back at least before 1903. It was claimed that the cigar smoke was more likely to be inhaled, and that some imported cigars contained other drugs than tobacco. But, in all, generally speaking, it seemed difficult to show why the smoking of tobacco wrapped in paper could be more injurious than tobacco in a cigar or cigarette.

It might be said that cigars were more likely to be smoked by very young boys and girls, but he was inclined to believe that the factory and mother, of this country could deal more effectively with very young children than our parliament. He regretted the general disposition to shift upon the government those duties which involved upon parents. Tobacco was no doubt injurious to many people, as was also tea or coffee; but it would require a strong case to justify a law to prohibit the importation and use of either tea or tobacco.

Prohibition of Enforcement. Finally Mr. Borden said that it was idle to pass laws which could not be enforced. A stringent statute had been passed in 1905 intended to put a stop to all juvenile cigar smoking, and no doubt it had been enforced. It would have accomplished that purpose. But apparently no effort had been made to enforce it, and the consumption of cigars had increased enormously since its passage.

W. F. Maclean of South York said the situation suggested by the prime minister was serious to many people against the old question, namely, how were acts of parliament to be enforced? Parliament had long shirked its responsibility in not providing machinery for the enforcement of federal laws. Statutes were passed by parliament like the pure food statute, but their enforcement depended entirely upon the provinces. When the United States Congress passed a law, money was provided for enforcing it, and the attorney-general of the United States was directed to proceed against all persons who disobeyed it. In Canada parliament passed a law, but the attorney-general of the provinces are not responsible in any way to parliament, and were free to enforce the law or allow it to become a dead letter.

## MUFFLED SOUNDS OF DISCORD ISSUED FROM LIBERAL MEETING

### "You Are Not Representative of Toronto Liberals," One Delegate Shouted, at Heat of Session—A. A. Mulholland New President, and L. Gurofsky Elected Treasurer

The deepest mystery surrounded the meeting of the Toronto Liberal Association in Forum Hall last night. The representatives of the press were excluded at the very outset, and thereafter every precaution was taken to prevent their hearing any of the debate that took place. The resignations of the president, Walter Harland Smith, and of the treasurer, R. D. Ross, were considered.

Alto the acting secretary stated to the reporters after the meeting that there had been no opposition to the election of the new president, A. A. Mulholland, and that the resignation of the president, while L. Gurofsky will fill the position of treasurer. Mr. Smith did not attend the meeting.

Door Was Too Thin. When the reporters were excluded from the meeting, with the promise that they would be given all the news

after the session, it became necessary for them to take up their positions in the corridor of the hall and wait for the end. During their vigil, various sounds reached their ears. Things were apparently not running as smoothly as they were supposed to have done. At one time a Liberal was distinctly like "backguard" issued from the room.

One of the speakers who possessed an extraordinarily strong voice, was heard to say: "Ask the man on the street, and he will tell you that never before has this association been held in such contempt by the Liberals of this city as at the present time. Do not think that by putting blinds on, you can effectually blind the Liberals of this city. There was absolutely no use in your meeting here tonight, as you have not the confidence of the Liberals of this city. You are not representative of them."

This speaker moved that the resignations of the two officers be not considered at that meeting, but that a committee be appointed.

## COMMITTS MURDER IN JEALOUS RAGE

### Estrean, a Cloakmaker, Shot Anna Carlock and When Pursued, Shot Himself.

## HIS CONDITION CRITICAL

### Girl Rejected His Attentions When She Heard He Had Wife in Russia.

Crazed with jealousy, Isaac Estrean, a cloakmaker, living at 383 West Adelaide street, discharged four shots from a revolver into his sweetheart, Anna Carlock, 501 West Adelaide street, yesterday afternoon at two o'clock, almost instantly killing her. The shooting took place on West Adelaide street, opposite No. 412. After killing the girl, Estrean was pursued, and turning the revolver on himself put a bullet thru his abdomen. He now lies at the General Hospital in a critical condition, with a policeman on guard at the door of his room. Late last evening it was reported that his condition was slightly improved.

Found Girl in Death Throes. Several men playing cards in the back room of a grocery store at 405 West Adelaide street heard the shots, and rushing to the street found the girl breathing her last on the front door step. Estrean ran at full speed down Adelaide street, but seeing pursuers at his heels turned the weapon on himself.

Estrean was madly in love with the Jewish girl, who was about 22 years of age, but had repeatedly been rejected. On the night of the murder, he received word from Russia that Estrean had a wife and family living there, and it is thought by the police that it was when she reproached him for his actions that he committed the deed. According to eye-witnesses the two met on Adelaide street near Spadina avenue about 10 in the afternoon; they stopped for a moment and then walked along the street together, seemingly engaged in argument. Finally, the man drew a revolver and fired into the girl's pocket and discharged its contents at the girl.

Estrean Fought With Brother. Harry Carlock, the girl's brother, was the first to catch up to Estrean, and also wounded. Estrean fought with the brother as long as he could stand. Finally he was arrested by officer 364, and conveyed to the General Hospital in the police ambulance.

According to a brother-in-law of the murdered woman, who was present at the time that Annie was not worthy to live, and that he intended killing her and then taking his own life. According to him the climax of the affair was reached when Annie discovered that he had a wife in Russia, and flatter refused his advances.

When Acting Detective Holmes searched the man's rooms after the shooting he found a box of cartridges, out of which just six had been taken. The gun used by the murderer held just six shots, every one of which had been discharged. The girl was shot once thru the abdomen, after which he evidently turned and ran. The next shot must have missed her, and of the two succeeding shots, both of which her back one penetrating the heart.

The police know that Estrean wrote a letter to his wife in Russia the night after the tragedy, and that he intended to him the climax of the affair was the killing of the girl and himself was premeditated.

## HONOR CONFEDERATION FATHERS BY WORLD'S FAIR IN CANADA

### Premier Borden, Replying to Hon. Mr. Lemieux's Suggestion, Urged That Prompt Decision Be Reached—Celebration to Be Held Three Years Hence.

OTTAWA, Mar. 9.—Hon. Mr. Lemieux addressed the house this afternoon in support of his resolution, declaring that, in the opinion of this house, the federal government ought to encourage the projected international exhibition on the occasion of the fiftieth anniversary of the establishment of confederation.

Mr. Lemieux gave an interesting resume of the constitutional history of Canada, which culminated in the B. N. A. Act of 1867. He suggested that a proper way to commemorate the fiftieth anniversary of confederation would be to hold a world's fair in 1917. Letters had been received from 110 mayors in support of this project. Nearly every mayor, however, suggested that the world's fair should be held in his own city, but Mr. Lemieux suggested that Montreal would be the most suitable place.

Need Information. The prime minister said there could be no difference of opinion as to the propriety of appropriately celebrating the semi-centenary of confederation. We should have a celebration in which not only Canadians but the entire empire would join. He was not prepared to say that it would not be wise to invite all the nations of the world to join with us in the celebration, but if anything like a world's fair was to be attempted there was no time to be lost. Mr. Lemieux had given no facts or figures to show the support that such an undertaking would have. He could hardly expect the government or the house to adopt the proposed resolution without further discussion and without considerable investigation.

Mr. A. A. McLean (Queen's, P.E.I.) called attention to the fact that Prince Edward Island would hold a celebration in Charlottetown next August in commemoration of the semi-centenary of the Charlottetown conference, from which really dated confederation.

W. F. Cockshutt (Branford) suggested that if a world's fair was to be held, the best place would be Toronto. Should Revise Constitution. W. F. Maclean (South York) said that the semi-centenary of the adoption of the B. N. A. Act might well be commemorated by a careful revision of our constitution. The parliamentary machine should be simplified and made more efficient. We have been amending the B. N. A. Act and passing laws under it, and yet to this time we have found no way in which to enforce the federal law.

## MONTREAL RAILWAY IS HOPING TO GATHER IMMENSE PROFITS

### Extension of Franchise for Forty Years Will Enable Company to Secure Four Hundred Millions, While Receipts Will Be Double That Amount.

MONTREAL, March 9.—That reports from transportation in the City of Montreal during the next forty years (the period for which the Montreal Tramways Company desires an extension of franchise) will amount to the stupendous sum of \$800,000,000, of which \$400,000,000 will represent profits, is the statement made by Mr. Duncan McDonald, president of the Canadian Autobus Company, Limited, in a letter forwarded to the mayor, the commissioners and members of the city council.

Mr. McDonald has based his calculations on the earnings of the Tramways Company from 1892 to 1913, and the city's expectations of population during the next forty years. These estimates have been formed in the light of statistics covering the development of New York, Chicago, Philadelphia and Boston, and the receipts from transportation in those cities.

What Should City Get? Summing up his conclusions, Mr. McDonald declares that: "The contract which is at present being studied by our Montreal authorities amounts to the fabulous sum of \$800,000,000. It can be safely assumed that this large contract for \$800,000,000 can be operated at a cost of 50 per cent, leaving a profit of \$400,000,000. Therefore the question arises between the City of Montreal and the transportation contractors who are tendering for this contract for the benefit of the city?"

was a supporter of the motion that the treasury board be abolished and the board of control take over the duties.

"Then each controller would feel free to give information to the council upon civic finances," he said.

Ald. Wickett said he would not support the motion, because the council had already decided to enlarge the treasury board. He warned against making rapid changes of policy. Then he criticized Controller Church's attitude towards the question.

"The worthy alderman has the habit of deliberately making false statements here," Controller Church broke in.

Board is Abolished. "Any member of this council knows that he can get any information on civic finances he wants from the city treasurer," Ald. Dunn said.

"How much did the last New York loan cost us?" Ald. Maguire blurted out.

"That question proves to me that Ald. Maguire has a motive," said Ald. Dunn. "His motive is to create publicity on civic finances, to the detriment of the city's interests. We are not here to advertise treasury affairs to our friends," he hurried at Ald. Maguire.

Controller Simpson supported the motion. Unanimously the council voted to abolish the treasury board and give the duties to the board of control.

Controller McCarthy explained that the treasury board is handicapped by being held to more or less secrecy in selling debentures. He declared he

others. Many Peterboro business men are included.

Fenelon Falls folk had a bite off the juicy apple of "labor" also.

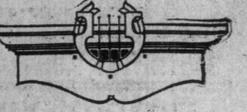

Cornell University had a representative of the laborer's motive in an undergraduate who was entered as a "laborer" to pay for some nice photos he took of the McClellan family and friends.

Vincent Eastwood, manager of the Royal Bank at Peterboro, is down as a laborer, but the account for which he was responsible could not be found.

F. Sandy, G.T.R. station agent at Peterboro, is down on the pay roll as a carpenter. This was to pay for a special train to take some rosters.

Fenelon Falls to hear Hon. George P. Graham, Hon. J. R. Stratton's name turns up here. He was a member of the late Ontario administration along with Mr. Graham. He is the owner of The Peterboro Examiner. J. Clark, an employee of The Examiner, got about \$70 for The Examiner, although there was no account owing that newspaper. Clark was down as a common laborer.

Exorbitant Rates. In 1912 a small boat called the Manita was rented by McClellan at \$8 per month; rent was paid from May 26 to June 12, while she was being repaired. One time and another she cost for repairs \$1094. Sir William Mackenzie had her for a while, but he paid for the use \$3 per day. The net cost to the government for this transaction was \$888 for 27 days' work, or \$33 per day. In 1910 McClellan sent a dredge to Lindsay to work for John Ritchie & Co. McClellan was paid \$550. The money was never accounted for. His statement is that he may have drawn the cash and left it with Clarry, the accountant, to hand over to Davidson for the Liberal campaign fund.

## Favorite Old Songs Made New

There's an indescribable fascination about playing the good old standard favorites—those songs of childhood that recall such pleasant memories. And now, science instills a new enthusiasm in those sweet melodies through the medium of the wonderful Gourlay-Angelus.

This is a player with positively a human touch. Just as the keys of a piano await the touch of the performer and respond to skilful execution, in like manner the marvelous Phrasing Lever of the

## GOURLAY-ANGELUS

awaits the delicate pressure of the finger and reproduces the musical temperament of the individual. Thus, one's whole attention may be given to artistic musical effects and the absolute control afforded by the Phrasing Lever makes this possible.

What a cherished possession, therefore, the Gourlay-Angelus becomes! Think of holding complete technical mastery over every kind of music from a simple song to a classical masterpiece.

## EASE OF PLAYING

Simply take your seat before a Gourlay-Angelus with the love of music in your soul, and you can play all the music of the world with the deepest musical feeling, although you have had no training whatever.

As for the mechanism of the Gourlay-Angelus, it is scientifically constructed with exclusive inventions to withstand the severest tests of time and wear. Its place in the musical world is without an equal. Call and hear for yourself your own favorite songs played on the wonderful Gourlay-Angelus.

A Character Study That Startles

PETER'S ADVENTURES IN MATRIMONY

By LEONA DALRYMPLE
Author of the new novel, "Diary of the Green Van," awarded a prize of \$10,000 by Ida M. Tarbell and S. S. McClure as judges.

The truth about "the girl in the case" distinguishes this new series by Miss Dalrymple. Her characters will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with growing interest.

Questionable Literature.
"Dear me, Peter," she said. "Surely you can see for yourself that the author touches upon subjects of which we ought never to speak or read. And in the plainest language, too. Such material should not be printed in any book."

"Peter," exclaimed Mary, "I don't see how you can speak so. The book is immoral."
I gasped.
"What," I begged, "is an immoral book?"

"One," said Mary lamely, "that is indecent."
"Indecent?" I replied patiently, "is essentially a woman's viewpoint." I could have qualified it and said a prudish woman's viewpoint, but I dialled the terse things men as a rule say to their wives, and so I forbore.

Secrets of Health and Happiness

When Might Is Right Odds Favor "Good Luck"

By Dr. LEONARD KEENE HIRSHBERG
A. B. M. A. M. D. (Johns Hopkins).
Copyright, 1914, by L. K. Hirschberg.

HOW does one man rise to the seats among the mighty and another lates him merely for his success? Is there any such thing as a secret formula of strength and power?
Frankly, there is not. Nor is there such a thing as "luck." "Luck," said Prof. Edward Livingston of Johns Hopkins University not long ago, "is merely the proof of our ignorance which shows itself in the law of probability."

Those who believe in magic and "good luck" explain such things to their own superstitious satisfaction, but the rest know, with Prof. Livingston, that if all of the possible conditions were known, if the action of the air, gravity, friction, hand-power, the forces above and below, and centillion million other physical conditions of the mineral and living worlds of thought and matter were available for calculation, that which you call "bad" or "good" luck would turn out to be only a matter of mathematics.

Answers to Health Questions
F. B., Philadelphia—What is good for little holes left in the face after blackheads are out? What will remove little, sore, red places on the nose?
Apply glycerine to the blackheads and put into the holes afterward. Too much greasy, rich, "filling" foods may be at the basis of your red nose. Touch the nose with a crystal of alum.

New Cottons Rival Silks

By Madge Marvel
LATEST WORD FROM MAKERS OF FASHION

A WOMAN quickly realizes, after looking through the dress goods sections of the department stores, that dressing well "on nothing a year" is a difficult matter, even if one sticks to cottons. That simple little wash frock, about which so much has been said and written for many moons, has passed into oblivion. Burying it this year means spending more than an elaborate costume of silk would cost. Indeed, when I went shopping the other day I was pleased with the prices of the new silks and staggered by those of the cotton goods.

Also the latter are far more wonderful in weave and coloring. But when you ask the price of a piece of dull blue crepe stuff in the cotton goods corner and the salesman says "\$7.50 a yard" without a tremor of the eyelid, it makes you doubt the condition of your ears. Never were they so expensive. I am firmly convinced the dry cleaners and the weavers have formed a compact of some kind, even if it is only mental.

Why the 1914 Girl Is Superior

By WINIFRED BLACK
Copyright, 1914, by Newspaper Feature Service.

DR. RICHARD ROOT SMITH says that the woman of 1914 is an imperfect and defective type. She is, says Dr. Smith, slight, thin-cheeked, nervous and in every way a bad business specimen.
Dr. Smith made this statement at the Race Betterment Conference at its recent session in Battle Creek, Mich.
Why, Dr. Richard Root Smith, whatever are you talking about, and why are you talking?
The woman of 1914 an imperfect and defective type, indeed! You're fooled, Doctor, the clothes or the lack of them are fooling you.

**DENTS WIN GROUP IN JENNINGS CUP**

Group B was decided yesterday in the Interfaculty Hockey League, when Dental College defeated Junior Meds. A large crowd was present at the arena, and the betting was even, with plenty of Dents in sight. It was the fastest Jennings Cup game witnessed this year. Several penalties were handed out on both sides by Referee Dean, who was satisfactory to both teams. For Dental College the stick-handling of Zinn, Beaton and Macdonald was very effective. Chartrand, who played a steady game, notched the first goal for Dents after ten minutes' play on a pass from Holmes. This was the only score in the first half. The second half was very fast. Holmes scored the next for Dents on a pass from Chartrand. Macdonald then scored for Dents. Meds worked hard, and Eames succeeded in scoring. The stellar defence work of Bricker and Brishois kept Meds from being dangerous at any stage of the game. For Meds, Blaney and Burns started. Bowles received very rough tactics in the last stage of the game. Dents now meet Senior School, winners of Group A, in the semi-final. The winners play off the cup final with Forestry. The teams lined up as follows:

Dents: (3)—Goal, Brishois; point, Bricker; cover, Beaton; centre, Chartrand; rover, Macdonald; left wing, Holmes; right wing, Zinn.

Meds: (1)—Goal, Sykes; point, Russell; cover, Bowles; centre, Blaney; rover, Burns; left wing, Adams; right wing, McKenzie.

Referee—Dean.

**SOCCER NOTES**

A Montreal despatch says: The president of the P.Q.F.A. has declared Harry Bingham, the celebrated Canadian soccer player, a professional. Bingham was amongst those who, after the collapse of the professional soccer league, had applied for reinstatement as an amateur. He would have been reinstated May next only he played under sanction in a match with the M.A.A.A. therefore his reinstatement was delayed till July 15. Now, since he accepted twenty dollars to box at the M.A.A.A. athletic smoker, he has been put entirely beyond the amateur pale, and can never play again as such.

At an enthusiastic meeting of the Rangers F.C., held in the clubrooms, Oak street, on Friday night, the following officials were appointed for the year 1914: Hon. president, Robert C. Hayes; hon. vice-president, Lew Brown; president, Bryce Kerr; vice-president, Thos. Macfarlane; treasurer, Geo. Macfarlane; secretary, Wm. Harvey; executive committee, Alex. Green, Jas. Callum, and D. Harrison; selection committee, Geo. Macfarlane, R. Kerr, A. Macfarlane, Jr., and A. Green; captain, L. Allan. Any player wishing to join this club, please write to secretary, 170 Langtry avenue, or assistant secretary, 55 Cambridge avenue.

A meeting of the Christie Football Club will be held in Occident Hall, corner Queen and Bathurst streets, on Wednesday, when a large turnout is specially requested, as business is very important. Anyone wishing to join will be heartily welcomed.

**NOVA SCOTIA INDUSTRIES PROSPEROUS.**

(Special Correspondence)

HALIFAX, N.S., March 9.—At the opening session of the Nova Scotia Legislature the lieutenant-governor said that in spite of the money stringency the growth of Nova Scotia industries had been very excellent and satisfactory, and that the general agricultural progress had been good. Regarding the coal output, he said that over 7,000,000 tons was the greatest yet in the history of Nova Scotia. While in the farming districts many vacant farms have been reoccupied, many of the buyers and renters being returned Nova Scotians. In the fish industry good prices have been obtained by the fishermen, and the general outlook for the year in the province is of the best.

**KINCARDINE CATTLE TRADE.**

KINCARDINE, March 9.—Cattle are being shipped steadily from here and farmers all over the district are getting good prices for all they bring in. Hogs are still in good demand, and the loads of them which are brought in on Wednesdays and Thursdays show that farmers believe in the money-making possibilities of hog raising.

**PROSPECTS GOOD FOR MAPLE SUGAR HARVEST**

HARRISTON, March 9.—Owners of sugar bushes in this neighborhood are predicting that as a result of the continued cold weather there will be a record run of sap this season, and that maple syrup and maple sugar will be more plentiful than for years past. They are busy getting their syrup and sap outfits in shape.

JUDGMENT TO BE DELIVERED LATER

McConkey's Appeal Against Suspension of License Heard by Judge Denton.

MAGISTRATE ATTACKED

Counsel Says Col. Denison Almost Put Words in Mouths of Witnesses.

The appeal of E. G. McConkey against the suspension of his liquor license was heard before Judge Denton yesterday and judgment was reserved.

Then M. H. Ludwig, K.C., appearing for the appellant, drew attention to a recent precedent where in the case of the King v. Farrow the judge had maintained that findings made in the police court were wholly irrelevant.

"I have read the evidence and I must again do so, therefore it is essential that you read all the police court evidence," said Judge Denton to Mr. Greer.

Mr. Ludwig's Defence. Mr. Ludwig said that the term "disorderly house" was scarcely applicable to McConkey's that night.

NOVA SCOTIA CARPENTERS WANT INCREASE IN PAY Three Dollars a Day Not High Enough for Maritime Workmen.

SYDNEY, N.S., March 9.—The secretary of the local Trades and Labor Council, acting on behalf of the carpenters of Sydney, Glace Bay and district, is sending out a personal letter to the master builders of the district, drawing attention to the conditions of labor and the wages paid in this district.

It is claimed that the conditions are not on a par with those of Halifax, St. John, Amherst and other parts nearby, to say nothing of the larger centres, where the cost of living is not so high. It is urgently pointed out that in order to retain the services in this district of the most competent men, some considerable betterment is necessary in the circumstances of the mechanics employed by local firms and building contractors. Journeymen joiners in this district are paid \$3 per day.

YOU DON'T HAVE TO KNOW HOW TO SING TO ENJOY "HEART SONGS"

The words are as full of heart-thrills as the music. Only when the words match the music perfectly—as they do in "Heart Songs"—do you have the greatest songs in the world. That is why the songs in this book will last forever! That is why these songs, sung fifty years ago, are of imperishable memory.

The World's Distribution of Heart Songs Will Soon Be Over

The men around the camp-fires at night, with only the distant stars looking on—with the leaves of the trees rustling in sympathy—with the rivulet murmuring in soft accord—they sang it, too—this wonderful song! What memories of home—of father, mother, sister, wife or sweetheart—it brought up! Somehow, its melody soothed them—its words brought rest to their weary bodies—and their sleep was sweeter and sounder for this song!

In "Heart Songs" are many War Time Melodies You don't have to know how to sing to enjoy them

## Notes of the New Silks

Silk Suitings from Vienna, Silk Taffets from Como, Foulards from New York, Duchesse Satins from Zurich, and the most beautiful Brocades from Paris.

The ranges in Suiting Silks surpass anything we have yet shown. The many different weaves and combinations give wide and select choice in these becoming spring fabrics.

The Silk Chiffon Taffets of this season are decided favorites—the soft finishes and rich sheen making them well adapted for present modes.

Cheney's Showerproof Foulards, in 23 and 44-inch widths, in the prettiest and newest pattern designs shown for many seasons meet every demand for style and service in a summer dress.

Parisian Brocades—Words cannot describe the wonderful designs and many varieties displayed to advantage in our spacious department, from new Cascade Brocades at \$2.00 to the more elaborate flowered effects running to \$10.00 and \$15.00 per yard.

A big shipment of Satin Charmeuse in colors and in black from C. J. Bonnet, priced at \$2.50 per yard just received.

In Trimming Silks we have reserved a special circle where all the newest Persian Brocades, Roman Stripes, Clan Plaids and Fancy Vestings are being displayed.
