DEATH THE PORTION OF ALL WHO RUD TO PARTITION TURKEY

Proclamation issued by the Nationalist Leader Says Country Must Not Be Divided.

New York, Dec. 29.—Death to any person, whether a Moslem or of any other religious belief, if he assists in the partition of Turkish domains, was vowed in a proclamation recently issued by Kemal Pasha, leader of the Turkish Nationalists, according to Dr. George L. Richards of Fall River, Mass., who arrived here with his wife today on the steamer Black Arrow from Constantinople.

The proclamation, Dr. Richards said, declared Turkey was "one and inseparable," and the will of the nation must be absolute and that it is the right and purpose of the nationalists to resist and forbid unilaterally any attempt to occupy or interfere with any part of Turkey—particularly with reference to any attempt to turn a national and independent Armenia into a province of the United States.

COMMERCIAL BOARD DENIES STATEMENTS

Says Newspaper Reports of Its Orders Are Quite Untrue.

Ottawa, Ont., Dec. 29.—In a signed statement issued this evening, the board of commerce, and James Murdoch, a member of the board, declare that the statements in Toronto newspapers, published on Saturday last, at Toronto, have been erroneously presented to the public by the press.

The board of commerce of Canada, regrets being compelled to notice and repudiate erroneous statements of its proceedings of Saturday last at Toronto, since communicated from there to various newspapers. The proceedings of the board are of interest to and affect many persons and many diverse interests. It is very regrettable when the same are inaccurately reported to the public, as they frequently are, and especially in attempted summarization for sensational purposes.

No Embargo on Farm Products. "Notwithstanding precautions instituted by the board, really in defence of itself and its members, the misreporting of its doings and sayings has continued. For instance, no member of the board ever suggested that farm products should be embargoed to cause a reduction in prices. There never was any forty-day milk order prohibiting raises in price of milk for forty days. Yet even a cabinet minister, misled by press reports, stated in the house that there was. These two matters, out of many, are mentioned only because they served to occupy the time of a whole day's sitting of parliament. The board, obviously, cannot take the time to read all Canadian newspapers to correct all misstatements which are made with respect to it, whether in newspapers or otherwise.

No Packing Investigation. "It must now suffice for the board to say that the statements in various newspapers of this date that this board has declared its intention to investigate recent mergers of Canadian packing companies is not correct. (2) That the statement in such newspapers that the board has issued an order by which retailers are authorized to charge four cents additional per pound for sliced hams is not correct. (3) That the statements in such newspapers with reference to this board's proceedings at Toronto in the matter of a dispute between certain wholesale grocers and certain canning companies concerning rebates on canned goods are not correct. "As the third matter, the board's order has not yet been made, and when made it will involve only two and a half cents on every dozen of un-canned goods. Furthermore, newspaper reports exactly invert the contentions made to and the observations made by the board at Toronto as to the legality or illegality of the rebate involved."

DENONCE LABOR SECTION OF U. S. RAILWAY MEASURE

Four Railway Brotherhoods Meet in Washington and Are Firm on Anti-Strike Legislation—Say House Will Not Accept It.

Washington, Dec. 29.—Representatives of the four railway brotherhoods and heads of the affiliated trades adopted tonight a declaration of principles opposing legislation which would make strikes of railway workers unlawful. The declaration framed at the conference with President Gompers of the American Federation of Labor declared that in the sense of organized railway employees that penalties in pending railroad legislation against workers ceasing their employment should be eliminated. The White conference reiterated the demand of organized labor that the government should hold the railroads for a peace time test of two years, the railroads not to accept the labor section of the Cummins bill.

TO CURB EXPANSION OF SPECULATION

U. S. Bankers to Discuss New Discount Rates and Interest Rates on Deposits.

Washington, Dec. 29.—New discount rates and interest rates on deposits, designed to provide an indirect check on further expansion of speculative operations, will be discussed at a general conference of bankers called today by the federal reserve board to meet here Jan. 6.

The constant bidding of great financial houses for balances of smaller banking institutions thru the offering of higher rates of interest on deposits, was viewed by many officials as being conducive to speculation. Federal reserve bank officials hope thru the coming conference to effect a change in the present relationship between interest rates on deposits and the discount rates of the Federal Reserve Bank of New York. This relationship, established during the war, is vitally important to the credit situation. By any changes are made, Federal Reserve officials say, they desire to know the opinion of representative bankers as to means of abrogating the "existing entangling alliance."

Russian Soviet Welcomes Aid of British Unions

Copenhagen, Dec. 29.—The all-Russian Council of Trades Unions has passed a manifesto thanking the British Trades Union Congress for its resolution regarding Russia and welcoming the decision of the congress to send a deputation to soviet Russia. The manifesto says the deputation would be met at the frontier and given every opportunity to investigate the proletarian dictatorship.

TWENTY LIVES LOST WHEN DUTCH SHIP IS WRECKED ON NEWFOUNDLAND COAST

Five Men Still on Board the Antion Vandriel Battling for Foot Cliffs—Latest Report is Rescued Today.

Canadian Press Despatch. St. Johns, Nfld., Dec. 29.—The storm which drove the Dutch steamer Antion Vandriel on the rocks at the entrance to St. Mary's Bay early today, resulting in the loss of at least 20 members of her crew, was abating tonight. It was considered possible that before morning boats might be able to put out from shore in an effort to rescue the five men still clinging to the bridge of the steamer, which was fast breaking up.

Send Steamer to Aid. Halifax, N.S., Dec. 29.—Advices reaching Halifax late this afternoon would be to the effect that a steamer would proceed from St. Johns in an endeavor to rescue the five surviving members of the crew of the Dutch steamer Antion Vandriel, which struck on the ledges off the entrance to St. Mary's Bay early this morning. The success of the enterprise will depend on whether or not the wreck can hold together thru the night.

Men Battling for Life. And so the day has passed with five men fighting frantically for life in plain view of the fishermen and their families, anxious, but unable to lift a hand in their rescue. At times a sea would dislodge one of the five, but when it had passed and the bridge was again visible, he would be seen clinging to some other vantage ground. At times it would appear that one or two of the five were missing, but when another hull came to view, they were found all were there. It is extremely doubtful if the wreck can stand the buffeting of another night, but many of the villagers have returned to their homes praying that when they return to the top of the cliffs, at daybreak tomorrow, they may discern something more than a waste of angry seas.

DEATH REMOVES FAMOUS PHYSICIAN

Sir William Osler Succumbs to Illness of Some Weeks in Oxford.

Oxford, England, Dec. 29.—Sir William Osler, the noted physician, who has been ill for several weeks past, died here this evening. Altho Sir William Osler was known to be seriously ill at his home in Oxford, where he has been, regius professor of medicine since 1904, recent advices had given hope for his recovery. Sir William, who passed his seventieth birthday last July, was stricken with pneumonia in November, but about the middle of that month was reported convalescent. A fortnight ago, however, reports reached this country that he had taken a turn for the worse. Called advices shortly afterward announced that his condition was somewhat improved, while on Christmas Day a message from him was received at the Johns Hopkins Hospital in Baltimore, in which the famous physician extended Christmas greetings to all his old friends and announced that he was "making a good fight" after an empyema operation.

Sir William Osler was one of the great men who sprang from Canadian soil. He was born at Bonhead, in the province of Ontario, and grew to the most distinguished of four distinguished sons of a famous mother, the hundredth anniversary of whose birth was celebrated at Toronto on December 14, 1906.

EXPLAINS CONFLICT IN WHEAT FIGURES

Those Authorized by Sir George Foster Did Not Cover the Same Period.

Ottawa, Dec. 29.—Inquiry was made by the Canadian Press Limited today in regard to the statement by Mr. James Stewart, head of the Canadian wheat board at Winnipeg, that figures relating to exports and sales of Canadian wheat sent out from Ottawa, and attributed in some despatches to Sir George Foster, are incorrect, both as to quantities and prices received. It was learned that a considerable discrepancy exists and the figures quoted in the despatches were not given out or authorized by the minister of trade and commerce. They are figures compiled by the department of customs with the purpose of showing what nations are the greatest importers of Canadian wheat and they cover exports for the first eight months of the year only.

Another reason why the figures differ from those of the wheat board lies in the fact that the computations made by the department of customs include a portion of last year's wheat crop which has been exported since April 1, the beginning of the fiscal year, while the wheat board figures relate only to sales of this year's crop. The statement that about two-thirds of the exportable surplus of the Canadian wheat crop has already been sold and exported thru the medium of the Canadian wheat board is believed to be approximately correct, altho exact figures are not available here.

Men's Winter Overcoats at a Great Reduction at Dineen's.

This is not an ordinary sale of odds and ends, but a genuine sale of high-class overcoats for men, made from the choicest materials, at very much less than regular prices—\$27.50 and \$35.50 Overcoats, sale price \$18.75; \$45.00 Overcoats for \$29.75. Every man in Toronto should take advantage of this. No such bargains since the war. All \$50.00, \$60.00 and \$65.00 Overcoats also reduced at Dineen's. 140 Yonge Street.

KILLED BY BULLET FROM OWN PATROL, SAYS DUBLIN JURY

Two Inquests Held on Sunday's Affray and Doubts of Civilians' Guilt Expressed.

Dublin, Dec. 29.—Two inquests held today over the bodies of the victims killed in the Phoenix Park shooting affray early Sunday morning failed to solve the mystery surrounding the affair, but tended to show that there was no organized plan to attack the vice-regal lodge, the residence of Field Marshal Viscount French, lord lieutenant and governor-general of Ireland. The testimony was very conflicting and confusing, but, according to the coroner's summing up, Lieut. Boast, in charge of the military squad, was killed by the fragments of a military bullet, while Laurence Kennedy, the civilian victim, was killed while on his way home thru Phoenix Park by a military bullet.

The evidence failed to establish whether Kennedy was armed. Military witnesses testified that he was killed while attempting to draw a revolver from his pocket. From the different statements of the military witnesses, however, the probability seems not entirely excluding that Kennedy may have been innocent of firing or of any complicity in the supposed raid. Three civilians, who were arrested in Phoenix Park on the theory that they may have been participants in the shooting, proved their innocence and were liberated today. Therefore, as in the recent attempt on the life of Viscount French, there is no clear what-ever to the persons who started the shooting which resulted in the killing of Lieut. Boast and Kennedy.

PARLIAMENTARY GOVERNMENT THE SUPREME ISSUE IN CANADA

Two intimations, almost unofficial announcements, of no little significance, appear in Monday's issue of The Toronto Mail, which is credited with being the organ of the Union government. One is that some form of "empire government" is to be instituted. The phrase "imperial Federation" is studiously avoided, but the inference is clear that some governing body is to be superimposed upon the United Kingdom and the self-governing dominions of the British Empire to which Canada will be subject and in which she will be represented.

Nothing is said about any action on the part of the parliament of Canada or any appeal for a mandate to the Canadian people. Whatever is done will be accomplished by the imperial conference to be held in 1920, in which conference we may take it for granted Sir Robert Borden will participate on behalf of Canada. And this brings us to the present announcement of the Mail and Empire, which is to the effect that Sir Robert Borden will journey to South Africa with "Admiral Jellicoe" on his "empire-circling tour."

The admiral, to use an Americanism, seems to be swinging around the circle. The purpose of his visit to Canada has been variously interpreted. In some quarters it has been interpreted to mean direct pressure brought to bear upon the Canadian government by the government of the United Kingdom. In South Africa, it may be interpreted as a presentiment of the unity of the commonwealth, not only by the government of the United Kingdom, but also by the government of Canada. A sea voyage will no doubt benefit our prime minister, but has he any mandate from the Dominion parliament to visit South Africa on an imperial mission or to participate later in a constituent assembly of some kind which will create a new constitution for the British Empire? Perhaps we may be told that no mandate is necessary, and this brings sharply to the front the supreme issue of parliamentary government for Canada.

Our status as a self-governing dominion within the empire has been changed of late—at least so we are told by the prime minister and the president of the Dominion parliament to visit South Africa on an imperial mission or to participate later in a constituent assembly of some kind which will create a new constitution for the British Empire? Perhaps we may be told that no mandate is necessary, and this brings sharply to the front the supreme issue of parliamentary government for Canada.

Parliament is relegated to the rather humble position of marking time, and it remains to be seen whether we are to have a return to parliamentary government. Are we to have an empire government superimposed upon our Dominion government, without consulting the Dominion parliament? Is our prime minister or other ministers to go on empire-circling tours without a mandate from parliament? Is the pre-eminence of the country to be placed in the hands of a regency? Is parliament to have no voice either in domestic affairs or as to our external relations, including our relations with the mother country and the sister dominions of the empire? These are the questions that may well engage the attention of parliament and the people, and they bring us back to the main proposition—that parliamentary government has become the supreme issue in Canadian politics. When it is to be fought, and how it is to be decided, rests primarily with the house of commons at the coming session, but ultimately with the people. Hence the urgent and imperative necessity of a federal franchise act and an elections act which will enable the people to voice their views and register their judgment in a constitutional manner.

M.O.H. DESCRIBES SLEEPING SICKNESS

Six Cases in Toronto of Mysterious Disease—Not Contagious.

There have been six sleeping sickness cases reported in Toronto, three of which have proved fatal. In view of the number of inquiries received by Dr. Hastings on this subject, he yesterday issued the following statement:

"Unfortunately, the profession knows little about it, as to whether or not it is transmittable from one person to another. It is questionable, indeed, whether or not it is a new disease or a condition resulting from a smouldering fire from some other disease."

A Marked Resemblance.
"Some authorities claim that there is undoubtedly a marked resemblance between this and epidemic polio myelitis, a disease which embraces both the brain and the cord. It differs from spinal meningitis in that the latter affects principally the membrane around the brain. We have had several small epidemics of this polio myelitis in the city."
"To offset any suspicion of sleeping sickness being communicable, I may say that the recent experience with the disease in Winnipeg and Manitoba indicates that it is not the case. Investigation into cases reported in Europe and the United States show that in no instance have two cases occurred in the same family, nor have any attendants contracted the disease."
A Lethargic Condition
"In the onset of the disease the only apparent discomfort is that of a pain in the back of the head, which may be acute or simply dull in character. The patient very soon develops a heavy drowsy or lethargic condition, sleeping a greater part of the time, but in many cases may be roused from this sleep and made to answer questions intelligently. Some authorities claim that there is the same relationship between this disease and epidemic polio myelitis as exists between typhoid and paratyphoid."
"While there is nothing known that would justify a rigid quarantine of these cases," continued the doctor, "I have instructed that precautions be taken, in that the patient must be isolated."
"I might add," concluded the doctor, "that if, when my time to leave this world comes, and I had my choice of disease from which to pass away, I would certainly choose 'sleeping sickness.'"

MARCUS D. C. TAIT
RHODES SCHOLAR
University of Toronto Undergraduate Chosen for Oxford Honor.

The Ontario committee for the selection of Rhodes scholars announce that they have selected as Rhodes scholar for the year 1919 Mr. Marcus D. C. Tait, of University College, University of Toronto, son of the Rev. Donald Tait, of Port Dalhousie, Ont. Mr. Tait will go into residence in Oxford in October, 1920.

Mr. Tait has distinguished himself in the classical course of the University of Toronto and has been highly recommended by his professors. In addition to his academic work he has been president of his year and is the secretary of the Players' Club of the university.
Mr. Tait's appointment is the first appointment made in Ontario under the recognized scheme by which there is one central committee, consisting largely of ex-Rhodes scholars, for each province, which receives applications from the whole province. This supersedes the former method by which the appointments for each province were made by different universities in the

province in turn, each from its own members.

The present Ontario committee consists of the Right Honorable Mr. Justice Duff, supreme court, Ottawa, chairman, and the following Canadian graduates of the University of Oxford: Rev. L. R. Sherman, University of New Brunswick; Prof. G. M. Smith, University of Toronto; Mr. J. M. Macdonnell, Queen's University; Mr. C. V. Massey, University of Toronto.

The Toronto World

FOUNDED 1820. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

TUESDAY MORNING, DEC. 30.

The Star is Some Jinx.

A few days ago The Star, with the fine, dashing dexterity of the old parliamentary hand, began a leading article with the observation: "Of the eight candidates for board of control only one, Ald. Ball, is generally conceded to have no chance of being elected—just like that. This is an example of what The Star in its literary moments would call fine nonchalance, but it was written in its political moments, and was intended to convey the idea that Ald. Ball was not worth discussion. The real fact is, however, that Ald. Ball is the most dangerous competitor of those whom The Star has marked with its approbation. The odds are that Ald. Ball will run second in the race for the board of control, admitting Controller Maguire's easy majority."

Ald. Ball has shown a faithful attention to his duties, a careful knowledge of civic business, and an undoubted devotion to the interests of the people during his five years in council. Long before that in the town of North Toronto he was doing loyal service for the citizens, and his fidelity to the principles and practice of public ownership, together with his general knowledge of affairs render him an ideal candidate at this crisis.

And The Star does not like him. It expects him to be defeated. The Star also expects to elect Mr. McBride as mayor. It was The Star, too, that was so confident about the return of Sir William Hearst. The star is some jinx.

Alternate Candidates.

Are there no alternate candidates? Some correspondents ask in effect if not in so many words. Of course, there are, but most readers who want direction at all, want a list they can be assured of and do not want alternatives of whom they know nothing. Excellent men are thus overlooked in every election, because there are only so many seats to be filled.

In Ward Two, for instance, Frederick Hogg, who undoubtedly makes a good run and deserves support. In Ward Three there is a plethora, where last year there was a scarcity. Harry Winberg, a one time candidate for the mayoralty, is a shrewd business type, and will command a large constituency. A feature in Ward Three is the candidature of J. W. Beatty, one of Toronto's war artists, who was sent to the front by the government and recorded many scenes of the historic conflict. Joseph Singer is following his relative's footsteps in Ward Four and has a progressive policy for the police court. We have already mentioned Earl Hodgson in Ward Six. In Ward Eight Ald. Baker has strengthened himself and may once more defeat the Labor candidate, who is a strong favorite.

The Board of Education.

A new order of things is anticipated at the board of education since the appointment of a new business manager, and new and more progressive policies the citizens hope to see adopted. For this purpose there must be a large infusion of new blood in the board and there is plenty of new material offering. The Labor party has nominated a candidate in each ward and they will have outside support in several instances. Andrew Glen, in Ward Five, for instance. In Ward One Ernest Cooke is one of the new candidates who comes well recommended. Norman Beamish is the Labor man. In Ward Two the acclamations of last year Dr. Noble and Fred Hamby are not repeated but it will be difficult to displace these men. In Ward Three it will be equally difficult to displace C. A. B. Brown and Marmaduke Rawlinson. In Ward Four a similar verdict is likely for John McClelland and Constance Boulton. In Ward Five Dr. Brown has lost some ground, but is working hard. Mr. McClelland, Ward Six has an attractive list with Capt. Lawson, Mrs. Mary Singer, J. Hunt, Stanford, the architect, William Henry Shapley, manufacturer, Dr. John Hunter and J. S. Laxton. Mr. Stanford and Mr. Shapley are the new men who should receive support. In Ward Seven there will be competition for the other seat beside Mr. Groves who is likely to be elected. Henry Miller Alexander is a competent person and may succeed. In Ward Eight Mrs. Courtnie is sure of re-election. Dr. Beer is the favorite for second place. The Labor man, Richard C. Brown, is also in the running.

An Unnecessary Wait.

An unnecessary letter by Norman Lambert, the secretary of the Canadian Council of Agriculture, is nuts to the enemies of nationalization of railways, of which the council is a vocal friend. Mr. Lambert spent a night in Prince Edward county, and found no agent at the station when he went for

the early morning train to Trenton, and the conductor told him that government management had been followed by similar slackness along the line. There are delays, too, in freight delivery.

If Mr. Lambert had learned these things on a C.P.R. branch line, he wouldn't have written to the papers. To make a hue and cry was unnecessary and the same chance had been given the National that would have been accorded a privately-owned road. Mr. Hanna's men will straighten this out like any other cable operators.

The truth is that the thirty-mile branch from Trenton to Picton is one of those which should be electrified and handled like a radial, with more frequent service than is possible with steam trains. Probably Sir Adam Beck has this road on his list. At present if travelers want to spend a day in Toronto they must leave very early and return late. The passenger traffic is not heavy from the few villages west of Picton, and an electric service would be more economical and more efficient than is now possible.

As soon as the Grand Trunk comes to the Canadian National it will be possible to re-make some time-tables, without electrification, so as to give to districts like Prince Edward county the benefits of a dual main line service, instead of restricting them to the services which favor only one competitive road.

Sir William Osler.

A great loss has been sustained by the medical world in the death of the brilliant and celebrated Torontonian, Sir William Osler. Eminent in his profession as his brother, B. E. Osler, was in law, his elder brother, Featherston, as a judge, and his other brother, Sir Edmund, in finance, he had a wide field to display his talents, and gained great honor in other lands than his own. Born at Tecumseh, July 12, 1849, he raised in Dundas, near Hamilton, he graduated from Trinity College, Toronto, in 1868, and from McGill in 1872. It was in 1889 that he began the work at Johns Hopkins University, Baltimore, which proved to be the stepping-stone in 1905 to the great post at Oxford, which he filled till his death. The Regius professorship at Oxford was a position for which he was admirably qualified, not only in a professional way, but as a speaker and writer also.

The survivors of the brilliant family, of which he was such an ornament, have splendid memories to dwell upon, and Toronto is proud to share in these recollections and to associate them with her civic history.

Radial Bylaw in Kitchener.

A Hydro radial bylaw will be voted on in Kitchener on Thursday, but some opposition based on misleading statements is playing the usual corporation game. It is alleged that the bylaw, if passed, will lead to the diversion of Hydro power from its present uses to the railways, to the injury of existing industries. This is absolutely incorrect. The intention of the bylaw is to enable the roads to be constructed so as to be ready to take the surplus power from the new development at Chippawa, the consumption of which in this way will cheapen the cost all round, while the supply will be immensely increased. The other allegation is that the streets of the city will be controlled by the radial authority. This is merely misrepresentation. Only those properties allotted to the radial railway come under its control, and no street can be invaded without a special by-law and vote of the people. The bylaw should carry by a large majority.

PEACE.

Six Hundred Thousand British sons and more. Arm numbered 'mong the missing. And to augment this ghastly score. Those who have died in wars before. But our numbers now improve. The consummation of this war. Now by the Faith we have in God. The faith we gave the Cause. Let this be our prayer. The truth for which our nation bled. By honor for the words we said. And let us on which the millions fed. Let us have peace. The Angel of Destroying Men. Sheathes not his sword. The Seven Fat Years are growing lean. And from the Plane men's ca. Incessant. The missing watch "What might have been."

Peace flutters her wings piteously. And in her dove-like bill. The Olive-leaf sent by our missing men. Remains undimmed. Men want it not. A huge blood-clot. Presses the brain. And all have gone insane. For Gain. Peace! Peace! Peace! Go back to those. Tell them that men. Hide Truth in fear. Take back the leaf. Bring back The Sword. And let us slay each other. Of the word. PEACE. London, England, Oct., 1919. —Ray Lewis.

T. EATON CO. LOSES WINNIPEG MANAGER

A. A. Gilroy, Prominent Director, Dies After Some Years' Illness.

A. A. Gilroy, the general manager of the Winnipeg store of The T. Eaton Co. Limited, and a director of the company, died in Winnipeg on Sunday morning after an illness of some years.

Mr. Gilroy was well known in Toronto, where he was prominently connected with the Eaton Company from 1892 until 1905, when, upon the opening of the Winnipeg store, he was chosen to become its manager.

Mr. Gilroy was born at Cedar Creek, near Port Perry, Ont., on April 25, 1865. He received his education at the Cedar Creek public school and the Port Perry high school. At the age of 17 he entered the teaching profession, and continued to teach at Utica and Edson, Ont., for a period of four years, until compelled by ill-health to resign in 1884.

On Nov. 13, 1884, he married Miss Minnie E. Hopkins of Whitby, Ont. In January, 1892, Mr. Gilroy became connected with The T. Eaton Co. Limited, Toronto. His keen business acumen brought him rapidly to the front, and rising from one responsible position to another, he eventually became buyer of the china and hardware departments, and was always closely associated with the founder of the business.

When the Winnipeg store was opened in 1905, Mr. Gilroy was chosen to become its manager, and the marvelous growth and expansion of the business during the past fourteen years is partly attributable to his skillful management.

Esprit de Corps. One of the secrets of Mr. Gilroy's remarkable success has been the loyalty and esprit de corps among his business associates—very unusual in the business world. He developed under his management, and his personal personality made him fairly idolized by the store's thousands of customers who were his admirers.

In 1907 he was elected a director of the company. Mr. Gilroy's public-spirited interest in the welfare of the city made him a valued citizen. He was active in the affairs of the Winnipeg Industrial Exhibition, and it was during his term of office as president of the board in 1912, that H. R. H. the Duke of Connaught paid a visit to Winnipeg. Mr. Gilroy was president of the Winnipeg Horse Show for the year 1911, and a member of the board of directors for a period of five years.

Mr. Gilroy was associated with many clubs of a social and athletic nature, in which he held the following offices: Member executive committee of Winnipeg Automobile Club, honorary patron of the Winnipeg Beach Club, honorary patron of the St. Charles Country Club, the Elmhurst Golf Club and the Assiniboine Lawn Bowling Club. He was an enthusiastic member and a shareholder in the Winnipeg Hunt Club from the date of its inception. A Generous Giver. In religion Mr. Gilroy was a Methodist member of Broadway Methodist Church, and a generous philanthropic giver. He has always been a bright smile, a hearty laugh and a warm handshake for everyone. The city's foremost men found him a good man to meet, and his kindly influence extended to everyone in the city's establishment under his control.

In the spring of 1914 Mr. Gilroy suffered a very severe illness which was further aggravated by the death of his wife, to whom he was devotedly attached, and who died in March of that year at Los Angeles, Cal. Since that time he was obliged to rest, and his participation in business, and retirement from active life, sometimes at his summer home at Mink and

MOONLIGHT AND MONEY

BY MARION RUBINCAM

FRAGMENTS. CHAPTER 74. Louise awoke little that night, but when she awoke, after a few hours of rest, she was not sorry for what she said. That Harry took her seriously, she knew, for he did not come up to her room, either before breakfast, or before he left.

"I do," Louise said. "I'm so hungry I'd like breakfast now." "That's the best news I've heard for days," the nurse said enthusiastically. "In the afternoon Louise asked for one of her negligees and announced that she wanted to sit out in the yard. With the help of the delighted Anne, the nurse took her outdoors and fixed her comfortably under the shade of the single tree the back yard boasted.

"And doesn't she look fine, and won't Mr. More be pleased though?" Anne cried, fixing magazines on the table so they would be convenient. At Harry's name Louise made no comment. The change was acting like a magical tonic on her, half sitting, half lying back, wholly comfortable, she felt her strength flowing back into her once more. "There's nothing like fresh air and sunlight," said Louise. "I know. I knew it was more than that. She had come to a crisis and passed it, and her mind was at rest. She held Harry responsible indirectly for the death of the baby. She was sure she could never love him any more.

It was strange how indifferent she could be to him, she thought a little later. She had never made any plans year ago. To-day—yes, she was indifferent. A year ago it would have been the most terrible tragedy not the success of the Drury administration, but also that elements of the electorate which must face the possibility of the success of the reactionaries if the Drury government is brought down."

Judges' Chambers. Before Kelly, J. Re Imperial Wire & Steel Co.—R. S. Robertson, for petitioners, on motion to wind up. I. F. Hellmuth, K.C., and M. L. Gordon for the company. W. Nesbitt, K.C., for two shareholders (Royal and Albany) opposing the motion. Judgment: I am unable to say that the situation necessarily calls for a winding-up on the ground that it is should be made. I think, therefore, that both applications should be dismissed. It is clearly a case where the costs, including cost of the investigation, should be borne by the company. I cannot say, however, on consideration of these applications without expressing strong regret that the decision of the court is less to say that counsel and the solicitors engaged in the proceedings I wind up had no part in or so far as I know any knowledge of what I refer to. It is equally unnecessary to state that the decision I have arrived at is conceived to be the merits of the case and despite the insult implied in the suggestion that any member of the court is susceptible to such influence.

TURKEYS FOR HUNTER-ROSE EMPLOYEES

Nineteen hundred and twenty will be the anniversary of sixty years in business for the Hunter-Rose Company, Limited. To commemorate the event and show the good feeling existing between the company and its employees, and in appreciation of the loyal service rendered, the directors, through the president and manager, George MacLean Rose, presented every employee with a turkey for Christmas.

WHEAT PRICE TO BE PASSED ALONG

The boost in the price of hard wheat will be passed along to the public in a few days, according to prominent Toronto bakers, who declare that the single loaf will have to go up 1-1/2 or 2 cents. Regarding the rumor that many of the bakers, anticipating the advance, have had in a stock of flour, Mark Bredin and George Lawrence say that the bakers have not sufficient money to stock up and also lack storage room. The price of wheat to the millers was raised from \$2.30 to \$2.50 a bushel by the Canadian Wheat Board, which controls the whole Canadian supply, according to Mr. Bredin, and a half bushels of wheat are required to make a barrel of flour and this means an increase per barrel of \$2.25. One barrel of flour makes 175 one and a half pound loaves. The figures out an increase of 1.3 cents a loaf.

PROMINENT BAKERS DECLARE THAT BREAD MUST BE RAISED.

The millers will not be affected financially by the increase says Mr. Shaw, of the Hedley Shaw Milling Company. "Bread will just pass the increase to the bakers and the bakers will pass it to the public," he announced. "We have really nothing to say," said D. A. Campbell, of the Maple Milling Company. "We must not get excited. We are still \$1.50 below the price ruling in the United States for the same grade of flour." "There is no doubt," added Mr. Campbell, "that the Canadian Wheat Board has the interest of the consumer very much at heart in that they have not put up the price of wheat and flour as high as they are warranted in doing on the basis of what they can obtain for it in the United States."

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics, as long as they are not too long, and are on one side of the paper only. DRURY AND EDUCATION. Editor World: I note with pleasure that my brother Sir Sam Hughes, appointed one of the members of the Ontario Cabinet. I regret, however, that he does not fully approve of the premier, Hon. Mr. Hurry. As an owner who is more interested in education, I wish permission to state that I regard Drury's education as a very important thing and I am sure that he should be made more interested in education as a minister of education. I have more genuine hope of progress in education than I have seen for school boards and teachers, and commendation for children, with opportunity for their development in mind, their progress with knowledge—that I ever hope before. Drury's government, thru the attorney-general, Hon. Mr. Roney, has already undone the wrong done by the late attorney-general, Hon. Mr. Lucas, to the children of Toronto, by making a thoughtless people, by making a much-needed school, the Juvenile Court. Yours hopefully, James L. Hughes.

MANAGER CUMMINGS OF SYRACUSE

Albany, N.Y., Dec. 29.—Anthony Cummings of Green Island announced here tonight that he had signed a contract to manage the Syracuse Baseball Club of the New International League in 1920.

Cummings has played in the New York State, Connecticut and Ohio and Pennsylvania Leagues. Cummings has had twenty years' experience, and was a second baseman and shortstop. He will pilot the club from the bench.

MCCORMICK CENTRE ENTERTAINMENT.

The parents of the McCormick Recreation Centre, had the time of their lives at their annual Christmas entertainment. This is given each year by the McCormick Club of the Ontario and New York State Leagues. Cummings has had twenty years' experience, and was a second baseman and shortstop. He will pilot the club from the bench.

While the people were gathering, the movie man gave a comic entertainment. Miss Olive Twaltes gave a reading. The girls and boys put on a play called "The Lake of the World." Mrs. Wilson sang and Miss Helen Fleming, in the Holy-Berry dance made the hit of the evening. Miss Bryant, dramatic instructor for McCormick Centre, proved a splendid entertainer. Dresden china savouries, dancing and refreshments closed one of the most pleasant evenings spent at the centre.

PLAYERS SWAPPED.

Boston, Dec. 29.—A trade of players between the Washington and Boston clubs of the American League was announced today. Fred Hunter gave Boston an outfielder, and Maurice Shanley, second baseman and received in exchange Harper, a pitcher, Eddie Foster, second baseman, and Menosky, an outfielder. There was no money involved, it was said.

WHO CARES?

San Francisco, Cal., Dec. 29.—Jim Scott, pitcher for the San Francisco Baseball Club last season, formerly with the Chicago White Sox, announced his retirement from baseball today, in a letter to the local club stating that his business would prevent his playing ball next year.

CRICKETERS' CHRISTMAS TREE.

The T. and D. Cricketers' Association will hold a Christmas tree entertainment of children of the members at the Municipal Hall, Queen's Park, at 7.30 p.m. tonight, at seven o'clock. A good entertainment has been provided.

SHARKEY AGAIN.

Syracuse, N.Y., Dec. 29.—Jack Sharkey had a slight shade over Eddie Collins in a ten-round bout here tonight, according to newspaper verdict.

SOCCERITES MAKE MERRY AND GOOD TABLE

First Annual Banquet of United League is Real Love Feast.

GAME IS BOOMING

The United District Football League held their first annual banquet at the Caris-Rite Hotel last evening. The soccer men have just finished a wonderful playing season, and the nice things said at last night's love feast speaks well for the way the affairs of the league were handled.

Over two hundred sat down to a plentiful repast, after listening to the majority and board of control candidly elaborated on. The U.D.F.L. had a long list of invited guests with them last night, and some great men in other branches of sport had their eyes opened when they realized what a noble "football" game has on Toronto, and the progressive spirit in which the officers work.

Norman J. Howard, president of the league, was toastmaster, and Ed Spencer, the secretary, looked after the finer details of the smooth-working affair. "The King" as is right headed by the toast list. Aid. Sam Ryding replied to the toast to the "Trade and Prosperity of the City of Toronto" and Hays showed his heart was in the right place. Toronto's great part in the war, and her sporting spirit, she brought her through out the civilized world, he said. The alderman admitted more playing space, and seemed earnest.

President Tom Guthrie replied to the toast of "The United District Football Association." Tom outlined the growth of the game. He predicted an increased interest in the game during the coming year, and told of the preparations to handle the expansion.

Tom Watson told of Ontario's activities. They increase with marvelous rapidity. The kindred sports were not forgotten. Hockey, lacrosse, baseball, cricket and rugby were a few represented. The reply to this toast told of the love held for their brother sports.

Our fallen heroes were remembered. Soccer lost many a brilliant player in the greatest game of all. A silent tribute was paid and many an eye was wet when old comrades were remembered.

Capt. Givens and Lieut. Hays replied for the returned sporting men. Some of the distinguished visitors also told of the kindly feelings for the game of soccer, and an enjoyable evening was wound up with the singing of the national anthem, and a musical program had been rendered.

FAIL TO RECOGNIZE THE TRADES UNIONS

Gompers Objects to Omission in Report of President's Industrial Commission.

Washington, Dec. 29.—"Failure of the president's industrial conference to recognize definitely the organization of workers—trade unions—as the basis for representation is a fatal omission," Samuel Gompers, president of the A. F. of L., declared today in a statement discussing the tentative report of the commission.

Certainly, Mr. Gompers added, the conference should reconsider this point in order to make possible the confidence and co-operation of wage earners, "which can be expressed only through organizations of their own making."

Mr. Gompers said that any plan to establish or maintain anything like fair relations between workers and employers, declaring that the masses of American workers were "American citizens and in that sovereign citizenship they are free men."

RADIAL SMASH INJURES FOUR CHATHAM PEOPLE

Chatham, Dec. 29.—(Special).—Four local people were injured late last night when a C. W. & L. E. electric engine crashed into the auto block on St. Clair street, near the city hall.

The party were driving home from "Walkabout." The car was hurled some distance and demolished. Mrs. Cedar sustained bad cuts to her face, which doctors say will disfigure her for life. Her husband sustained injuries to his shoulder. Both are in St. Joseph's Hospital. Mr. and Mrs. Cedar were also badly cut and bruised about the face and body.

MINT LEAGUERS TO MEET NEXT MONTH

There will be a general meeting of the Michigan-Ontario League club owners at London on January 11. Many idle rumors have been circulated as to the future of the organization, some being to the effect that the Michigan clubs will not be included in the reorganized circuit and others creating the impression that an all-Canadian league, embracing Montreal and Ottawa may be formed.

KILBANE IS BESTED BY YOUNG CHANEY

Tom Cowler Wins Over Al Reich—Tunney Beats Pearce.

Jersey City, N.J., Dec. 29.—Young Chaney of Baltimore outfought and outpointed Johnny Kilbane, the featherweight champion, in an eight-round bout here tonight, in the opinion of a newspaper writer.

In a scheduled eight-round bout here tonight, Tom Cowler, the English heavyweight, won in the third round from Al Reich of New York, who was disqualified for a foul in the first round.

Tom Watson told of Ontario's activities. They increase with marvelous rapidity. The kindred sports were not forgotten. Hockey, lacrosse, baseball, cricket and rugby were a few represented. The reply to this toast told of the love held for their brother sports.

Our fallen heroes were remembered. Soccer lost many a brilliant player in the greatest game of all. A silent tribute was paid and many an eye was wet when old comrades were remembered.

Capt. Givens and Lieut. Hays replied for the returned sporting men. Some of the distinguished visitors also told of the kindly feelings for the game of soccer, and an enjoyable evening was wound up with the singing of the national anthem, and a musical program had been rendered.

BIG BASKETBALL TOURNEY PROGRAM

Opens Tonight at Central Y.M.C.A.—Strong Teams Are Entered.

That Central Y.M.C.A. basketball players are in earnest in the coming annual carnival was evidenced last night when nearly fifty players, boys and seniors, turned out in an effort to get on one of the teams. Both floors were given over to aspirants who knew the teams were to be picked to represent Central.

No one at the Central is the only one showing enthusiasm. Reports are constantly coming in on hot faithfully the majority of the teams entered, are training and it may be there will be a few surprises before the tournament closes.

The Y.M.C.A.'s are generally looked upon to clean up in anything that pretends to basketball, but look out for some of the outside teams that are entering. The Y's will have some fun holding them.

Players are reminded that those taking part in the first games must be on the gymnasium floor in uniform at 7.30 sharp to allow for weighing in prior to a 7.45 start.

Over the large entry in the unlimited class, games for the first night will be played in both gymnasiums, according to schedule.

Antarctic cards must be produced by every player in classes 125 lbs., 135 lbs. and the unlimited class, while the 95 lbs. and 110 lbs. classes must have managers' guarantee of age limit.

All competitors will receive a pass, which must be produced on night of games.

The full schedule nightly is given as follows and players are requested to keep this copy for reference:

EXHIBITION IN URGENT NEED OF NEW ARENA

Building is Absolutely Essential for Continued Development of Big Fair.

To the Ratepayers of Toronto:

The Canadian National Exhibition Association appeals to the ratepayers of Toronto for their whole-hearted support for the proposed By-Law for the new Arena on Exhibition Grounds.

Table with 2 columns: Year, Amount. 1917 ... \$ 61,465.16, 1918 ... 90,597.74, 1919 ... 175,007.49

The profits turned over by the Exhibition to the City have been more than sufficient in the past two years to pay the maintenance and repairs of the buildings, insurance on the buildings, interest charges and sinking fund.

As a result, the City obtained the use of the buildings for the other ten months of the year free, and also secured all the advantages to the City of the Exhibition, without cost to the City.

The proposed new Arena is not only needed for the new Winter Fair, with which the Canadian National Exhibition is in heartiest accord, but is absolutely essential for the continued development of our "World Famous Fall Fair."

Although we excel in many lines, our facilities for the judging and educational demonstration of live stock compare very unfavorably with a number of the leading State Fairs in the United States, and do not even keep pace with the facilities provided in Western Cities, like Regina, Edmonton and Calgary.

The new Arena on the lines suggested would make our facilities for the display of agricultural products what they should be, namely, the best on the continent.

The removal of the Horticultural, Dairy and Poultry Exhibits from their present buildings, to the new Arena, will make these buildings available for further development of the industrial and other sections of the Exhibition.

The Exhibition has, in the forty years of its existence, justified the confidence reposed in it by the Citizens of Toronto.

Let us again have that continued confidence and support, and enable the Exhibition to go on to further fields of public service.

T. A. RUSSELL, President. Toronto, Dec. 29, 1919.

WILL PUT AN END TO HOLD-UP GANGS

Chief of Police Has Scheme to Put Before Police Commissioners.

Chief of Police Grasset stated to The World yesterday afternoon that he would make recommendations to the board of police commissioners this afternoon, which, in his opinion, will ultimately put an end to the hold-up operators.

The number of cars that are insured against being stolen is, in the opinion of Col. Grasset, responsible for the careless manner in which they are left on the streets. It is likely that the commission will be asked by the head of the police department to take action along this line.

Nothing New. Inspector of Detectives G. Guthrie stated there was nothing new in connection with the hold-ups. He is also of the opinion that there is only one gang of three men holding up people and robbing them.

DIVER FINDS BODIES. Remains of Capt. Walsh of Schooner Beaver, One of Those Rescued.

Halifax, N.S., Dec. 29.—The body of Abraham Cox, a young Newfoundland seaman, was found by a diver at work at the end of the city wharf on Saturday morning.

Popular day train leaves Toronto, union station, 9.30 a.m. daily except Sunday, for Ottawa and intermediate points—Port Hope, Cobourg, Naperville, Belleville—with connections for Kingston and at Trenton for Picton and central Ontario points.

CHICKEN THIEVES FINED. Four young chicken thieves, Alfred John, Harold Ferris, Robert Gilmore and Fred Thompson, appeared in the police court yesterday and were described to be the terror of the respectable poultry owners of the east end.

A WINTER PLAYGROUND. Ideal weather conditions are being enjoyed by the guests at the "Highland Inn," Algonquin Park. Two thousand feet above sea level, the air is dry and pure in this wonderful winter playground.

WASHINGTON, Dec. 29.—Exportation of bituminous coal, shut off during the recent strike, will be permitted under restrictions through an order issued tonight by Director-General Hines. Instructions have been issued for export thru Newport News and Baltimore of fifty per cent. of the amount handled during October and similar arrangements are to be made soon for other ports.

APPEAL FILED ON PRICE OF PAPER

Canadian Daily Newspapers' Association Dissatisfied With Controller's Order.

The Canadian Daily Newspapers' Association filed on Saturday notice of appeal to the Paper Control Tribunal against the order made by the paper controller, R. A. Pringle, K.C., on the 24th inst. fixing prices for newspaper paper supplied by the Port Frances Pulp & Paper Co., Limited.

No Jurisdiction. The publishers contend that Mr. Pringle had no jurisdiction to revise at this time the prices for the first half of 1918, and that the effect of such revision is to deny the customers of the Port Frances Company the relief granted them by the Paper Control Tribunal on the publishers' appeal against Mr. Pringle's order of Sept. 26, 1918.

Experiments With Peat Tried At Parliament Buildings

A carload of peat from the government bog at Alford was delivered at parliament buildings yesterday. An experiment will be made with the fuel in the government furnaces and should it prove successful the use will be extended.

WILLS AND BEQUESTS.

The will of John Priestman, who died in England on May 29 last, was filed for ancillary probate yesterday. His widow, children and relatives inherit the estate, which is valued at \$280,018.

WARD 4 ELECT GEO. J. CASTLE AS ALDERMAN.

Guard and Promote Public Ownership

Con. C. A. Maguire has been vigilant in protecting and aggressive in furthering the city's public ownership interests.

RE-ELECT CONTROLLER MAGUIRE FOR 1920

T. L. CHURCH CONSISTENT FRIEND OF THE HYDRO

Toronto owes its happy position in the matter of cheap Hydro light and power to Sir Adam Beck and those who for years fought with him and supported him in the Council.

As President and as official head of the Hydro municipalities T. L. CHURCH stood by Adam Beck for years as his first lieutenant and fought for Hydro since the inception of the great municipal ownership enterprise.

He has supported and will continue to support Sir Adam Beck in the equally great battle for Hydro Radial Railways. Toronto's progress and development and the harbor improvements in the future will be immeasurably advanced by Hydro Radials.

T. L. CHURCH has proven that he is the right man to look after this City's great public ownership interests.

RE-ELECT T. L. CHURCH AS MAYOR FOR 1920

Public Ownership

Some men are naturally inclined to Public Ownership, others are converts, while confirmed opponents are those who regard themselves as solely responsible for their own care and existence in this life.

ALD. BALL is by nature a Public Ownership advocate, and can be relied upon to carry out this principle as member of next year's board of control.

HARRY WINBERG ALDERMAN WARD 3 MY PLATFORM

Economy—consistent with progress; honest, efficient expenditure of city's money; support all plans leading to extension of public ownership. Full support of Hydro System. Proper publicity to attract industries and capital to Toronto. Devise methods of relieving the house shortage difficulty. Homes for workers at reasonable rental.

A VOTE FOR McBRIDE A VOTE FOR LIBERTY

CONTROLLER McBRIDE has championed the cause of the people against those who would throttle their freedom.

CONTROLLER McBRIDE has opposed at the city hall all the Cliques, Classes, Combines and Cabals, organized to injure the interests of the city.

CONTROLLER McBRIDE has fought—sometimes single-handed and alone—against Sectional Proposals that were inimical to the City as a Whole.

CONTROLLER McBRIDE has never swerved, throughout his long career, one hair's breadth from the well-defined path of duty to those who placed their Trust in his Hands.

CONTROLLER McBRIDE has done his duty by YOU; will you do your duty by HIM?

KEEP McBRIDE THERE BY MAKING HIM MAYOR

An evening paper, opposed to Mr. McBride, has cancelled its contract to insert his election cards. Why?

WARD FOUR VOTE A. G. McINTYRE FOR ALDERMAN The Business Men's Representative.

I will use all my best endeavors to assist in the carrying on of an honest, economical and progressive administration of our city.

WARD 4 VOTE JOSEPH SINGER FOR ALDERMAN

To the Electors of Ward 1 In placing myself before you as a candidate to represent you as Alderman in the 1920 City Council, I ask for your support on the following grounds: 1. I am in no sense a newcomer to Ward One, where I was born and have always lived. 2. Having enjoyed your favor on a previous occasion as Alderman for Ward One, I can represent you in the City Council with all the benefit to you that previous experience gives. 3. I am a producer and employer of labor, interested in not only one section or subdivision, but in the whole east end. 4. As a heavy taxpayer myself, I appreciate the position of other rate-payers, and can promise an earnest endeavor to not only reduce the present rate, but to encourage a more equitable system of assessment. 5. I believe in prompt steps being taken individually to develop the Industrial Commission's Department, with a view to not only satisfy and help the great body of laboring men in the city, but reassure and encourage the manufacturers, to avoid the present tendency of some to keep away from Toronto and others to move from the city, which, if not corrected, will work harm for which Toronto will pay. Therefore, if the above sentiments or platform appeal to you and you wish as a representative a consistent believer in "Live and Let Live," on January first make sure by voting A. H. WAGSTAFF for Alderman WARD 1
