### CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business is fully up to normal in volume and the outlook for the future is satisfactory. There is evidence of buying in anticipation of fall and winter requirements, some dealers being disposed to place their orders earlier than usual in order to forestall the car famine which develops every fall. The lower grades of white pine are moderately active, but there is less call for the intermediate and higher grades. Manufacturers still report numerous inquiries for box lumber. The advisability of making an advance in the price of box grades has been discussed, but the general disposition seems to be to pursue a policy of conservatism and encourage consumption by keeping prices at a reasonable basis. A slight improvement in Norway lumber is reported from the Ottawa district. There continues to be a heavy trade in hemlock at unchanged quotations, the attempt to advance certain sizes having been frustrated by offerings by the smaller mills. The hardwood market is characterized by a short supply in relation to the demand. Very few mills are carrying more than a moderate stock, while some of the largest manufacturers are almost completely sold out.

Prices of white pine lath are tending towards weakness. The demand is not as large as might be expected at this season of the year, while the supply in certain districts is comparatively large.

### QUEBEC AND NEW BRUNSWICK.

The lumber trade of the Eastern Provinces continues in a healthy condition. There have been no recent sales of square or waney timber, consequently the list is unchanged. Large shipments of spruce lumber are being made to the New York market, where prices are about one dollar per thousand higher than at last writing. The den and is fully equal to the supply, with some sizes exceptionally scarce. Laths are more active and slightly higher. New Brunswick cedar shingles are still uncertain. Fancy brands bring \$3.50, but the bulk of sales are probably being made at \$3.40 for Boston delivery. Clears range from \$2.35 to \$3, and seconds from \$2.25 to \$2.40.

The lumbermen are sending men into the woods for the winter's operations. Wages are about the same as last year, \$26 to \$30 being paid for good men.

### MANITOBA AND BRITISH COLUMBIA.

The movement of lumber throughout the North-West continues large. Prices generally are firm, although some dealers are said to be making a slight cut in one or two grades. There is no abatement of

the building activity in Winnipeg and a large quantity of lumber is being consumed. The situation in respect to British Columbia shingles is unchanged, the mills being closed down. On the other hand, the saw mills are working full time and are behind with orders. This is largely the result of active local building operations. A recent trial in the courts to decide the legality of loggers holding logs for wages has resulted in a victory for the loggers.

UNITED STATES.

Dealers in pine lumber were much interested in the meeting of the Mississippi Valley Lumbermen's Association held last week, for two reasons, first, that changes in the price list would be considered, and, secondly, on account of the statistics that would be presented. The Price List Committee made only unimportant changes. Dimension over 18 feet was advanced 50 cents, and piece stuff of 10-foot length was made the same price as 12, 14 and 16 foot; 6-inch No. 3 fencing, E siding and lath were reduced 50 cents, and D siding \$1. The list, it may be said, remains unchanged, as the advances in some lines were offset by reductions in others. The report of the secretary showed the pine market to be in a strong position statistically, with a pronounced scarcity of box grades. Lumbermen are inclined to the opinion that all the lumber manufactured will find a market at prices now ruling.

In the East conditions continue to brighten. Box lumber and mill culls are as scarce as ever. A Buffalo dealer says that the price of 12-inch box pine is now established at \$20. There is not a large call for the higher grades and occasionally a slight cut in price is reported. There is no oversupply of hemlock, which continues in active demand. Piece stuff is taken as fast as it is ready for the market. Among the hardwoods birch and basswood are in short supply; dealers are meeting with some success in selling other kinds of lumber as a substitute for basswood. A slight advance has been made in the price of maple. In New York City the hardwood market is active and firm, with the better grades of both plain and quartered oak finding ready sale at high prices.

GREAT BRITAIN.

The British lumber market does not yet show any decided tendency. It is feared that unless the consumption shall improve lower prices will rule for Baltic lumber, of which the quantity on hand in the leading centres is somewhat large. A few cargoes of pitch pine lumber have lately been received at London on consignment, which is not regarded as a favorable sign. These circumstances have affected Canadian stocks to some extent, but on the whole they are relatively firm. Good pine stocks are in a strong position, and with an increase in consumption higher prices could easily be obtained, especially for first and

second qualities. There is a further slight improvement in spruce deals. Shipments from the St. Lawrence have been below the average this year and promise to be small for the balance of the season. A cargo is said to have been recently placed at London at £9 15s for 3x9 seconds and £9 for thirds. Prices of square and waney pine timber are very high, causing a curtailment in the consumption for certain purposes. At London the stock of elm timber is low, but prices realized at recent auction sales do not indicate that the market is particularly firm. There has been an improvement in flooring boards, the supply of which is light.

London dealers are making considerable shipments to South Africa. There is a fair demand there for building lumber, the price of deals ranging from 6d to 8d per foot run.

STOCKS AND PRICES.

Cedar 18-inch shingles are held in Chicago at \$2.60 and \$3.60, and 16-inch at \$2 and \$2.45.

Cleveland dealers report a great scarcity of Norway lumber and the winter will find yard assortments badly broken.

The steamer Forest Holme took on deals at Montreal for London, completing her cargo at Riviere de Loup, whence she will sail this week.

The steamer Bray Head sailed from Quebec on Saturday last with a full cargo of deals for Plymouth and Devonport, for the Imperial Government.

Lath in the cargo and carload trade at Chicago is moving moderately at \$3.45 to \$3.50 for white pine and Norway and \$2.50 for hemlock and No. 2 pine mixed.

The Pigeon River Lumber Company, of Port Arthur, Ont., have three logging camps and one road camp in operation on their limits, and more will be started as soon as men can be secured.

Raworth Bros. have cut 1,200,000 feet of lumber at Hampton, N. B., for Flewelling Manufacturing Company. The mill has been removed to Bonny River to saw 2,000,000 feet for John E. Moore.

The receipts of lumber at the Tonawandas for the week ending August 22 were about 10,000,000 feet, bringing the total for the month to that date up to 50,000,000 ft. There is considerable lumber on its way down the lake.

The Temiskaming and Northern Ontario Railway Commission are asking for tenders up to September 25th for the delivery of 135,000 ties along the right of way between the 72nd and the 112th mile of the Temiskaming and Northern Ontario Railway. Tenders are to be addressed to P. E. Ryan, Manning Arcade, Toronto.

A sale of No. 4 boards was recently made at Duluth, Minn., at \$12, which is the top of the market so far. No. 1 and

No. 2 strips are claimed to have been sold at about \$2 better than the ordinary price. The demand is far better for lower grades of pine than for higher qualities.

The attention of our readers, and especially dealers in shingles, is directed to the advertisement in this issue of Woods & Spicer, Limited, of Vancouver, B. C. They are anxious to hear from dealers either in the United States or Canada who handle 20 or 24 inch shingles, and no doubt they have something good to offer.

The Georgian Bay lumber firms are making preparations for work in the woods. The Victoria Harbor Lumber Company will employ about 600 men if they can be obtained. They will have three camps on the Wainapitac river, two on the Sturgeon river and one on the French river. The total cut will probably exceed 20,000,000 feet. Pitts & Charlton will operate on the Whitefish river and expect to cut between 15,000,000 and 20,000,000 feet.

The New Brunswick Government will offer the following timber berths for sale at the Crown Lands Office, Fredericton, on Wednesday, September 9th: Two square miles on West Branch, No. 18 Brook, Little River, A. Cushing, applicant; two square miles on Green river, below Emerson Farm, R. A. Estey, applicant; two miles on Nevers Brook, branch of Caxnan river, Thomas Campbell, applicant; two miles on North East Branch Pickett's Cove, C. H. Moti, applicant.

Though there is a report of light buying of various hardwood lumber in the eastern markets, it is all laid to the midsummer season, and there are already indications of a return to the former demand. All hardwoods, says the Buffalo correspondent of the American Lumberman, are doing well, unless it be white ash, which has given way to substitutes. The need of oak is so great that all grades are eagerly taken. There is a larger sale of basswood than formerly, though the price is strong at \$40 for inch. Maple is running up in price and will soon be one of the expensive woods. It brings \$22.50 in Michigan and reports come in that the Michigan Maple Company is turning down all orders, having sold so far ahead. Certain dealers report the receipt of chestnut and birch, but there is no regular supply of either to be had. They go out about as soon as the consumer learns of their existence.

The new list compiled by the Mississippi Valley Lumbermen's Association fixes the following prices for common boards f.o.b. Minneapolis, taking effect August 25, 1903: No. 1, 13 inch and wider—12, 14 and 16 ft. \$23; 18 and 20 ft. \$24. No. 1, 12 in.—10 ft. \$24.50; 12, 14 and 16 ft. \$23.50; 18 and 20 ft. \$25.50. No. 1, 10 in.—10 ft. \$21.50; 12 ft. \$20.50; 14 and 16 ft. \$19.

50; 18 and 20 ft. \$22.50. No. 1, 8 in. 10 ft. \$17.50; 12 and 14 ft. \$19.50; 16 ft. \$20; 18 and 20 ft. \$19.50. No. 2, 13 in. and wider—12, 14 and 16 ft. \$19. No. 2, 12 in.—10 ft. \$20.50; 12 and 14 ft. \$20; 16 ft. \$19; 18 and 20 ft. \$22.50. No. 2, 10 in.—10 and 12 ft. \$18; 14 and 16 ft. \$17; 18 and 20 ft. \$19.50. No. 2, 8 in.—10 ft. \$15.50; 12, 14 and 16 ft. \$17; 18 ft. \$15.50; 20 ft. \$16.50. No. 3, 12 in.—10 and 12 ft. \$17.50; 14 and 16 ft. \$16.50; 18 and 20 ft. \$18. No. 3, 10 in.—10, 12, 14 and 16 ft. \$15; 18 and 20 ft. \$18.50. No. 3, 8 in.—10 ft. \$14; 12, 14, 16, 18 and 20 ft. \$15. No. 3, 4 in. and wider—10 ft. \$13.50; 12, 14, 16, 18 and 20 ft. \$14.50. Lath prices were fixed as follows: No. 1 white pine, \$3.50; No. 2, \$2.50; mixed \$3.

BU INESS NOTES.

W. H. Higgins, of Vancouver, who has for several years conducted the largest individual logging business in British Columbia, has been compelled to make an assignment for the benefit of his creditors. The cause of the failure is officially stated to be the present stringency of the timber market, Mr. Higgins having now on hand between five and six million feet of logs which are unsaleable, but which at ordinary prices would realize more than sufficient to pay the liabilities. The liabilities are estimated at something like \$20,000. The plant for logging at Toba Inlet is said to be worth \$25,000. It is said that Mr. Higgins recently offered 3,000,000 feet of logs at \$4.50 per thousand, which is claimed to be less than cost price, whereas two months ago he could have obtained from \$7 to \$8 for the same logs.

**WHITE PINE STATISTICS.**

The report of the white pine production in the territory covered by the Mississippi and Wisconsin Valley Lumbermen's Association states that estimates of the probable production indicate that on the whole there will be a slight increase in this year's cut. The mills have so far this season sawed about 20 per cent. less piece stuff than last year. There has been a steady decrease in the percentage of piece stuff on hand during the past four years. There is less shop lumber being produced this year than last, as less No. 3 shop is being put in pile. No. 4 boards which were in plentiful stock at the beginning of the season are reported well cleaned up. This is particularly true in the Wisconsin valley.

An increase in the amount of lath on hand August 1st is reported, being in the neighborhood of 7 per cent. over that of August 1st of last year.

Statistics showed that the lumber manufacturers of the Mississippi and Wisconsin Valleys held on August 1, 1900, 11 per cent. less lumber than they had on August 1, 1899.

On August 1, 1901, they had 7 per cent. less stock on hand than on August 1, 1902, making a total shortage of last year over 1899, of 25 per cent.

We find, after as careful an investigation as we can make, that the stock on hand August 1 this year, is slightly in excess of that on hand last year, or about 3.7 per cent. This shows that stocks are still far from normal.

On January 1st the combined inventories showed a decrease of 1.3 per cent. over the stocks on hand January 1, 1902, or a total of 1,484,127,575 feet.

Shipments for the first seven months of the year by the members of both associations amounted to 1,235,133,863 ft., which is 1.4 per cent. greater than the total reported by the same firms for 1902. The consumption in the Northwest and shipments to Chicago and the East count for the increase.

The steam saw mill owned by William McNitt at Tay Creek, York County, N. B., was burned on August 24th, also 30,000 feet of lumber and 45,000 shingles.

**LUMBER PRICES IN LONDON.**

Prices realized at the last auction sale held by Churchill & Sim, London, England, were as follows:

**PINE**—Ex. **TIMBER LIMIT TRANSACTIONS.**

It is reported that the Rat Portage Lumber Company, of Port Arthur, Ont., have recently purchased a large area of standing timber in Minnesota.

The saw-mill and timber limits of S. C. Smith, of Enderby, B. C., have been purchased by J. A. Taylor, of Arrowhead. The limits are located on Sugar Lake.

Prouty & Miller, of Newport, Vt., last week purchased from the Eastman Lumber Company, of Eastman, Que., 34,000 acres of timber lands on the eastern side of Mount Orford and in Bolton township, Quebec. The price paid was in the vicinity of \$25,000.

The large demand for birch is a feature of the hardwood trade. This lumber is now used very largely for the manufacture of furniture.

**NOTES.**

Haines & Company, of Buffalo, have received 3,600,000 laths within the past ten days.

It is reported that Pacific coast red cedar shingles have been advanced 5 cents per thousand.

Hemlock is selling in Chicago at \$12.50 to \$14. Norway pine piece stuff is held at \$16.50 for short and \$18 for long.

His Honor Judge Bole, in County Court at Vancouver, B. C., decided that the men who claimed liens for wages against the booms taken out of the woods for G. H. Finlay & Company had valid claims. Finlay & Company were logging on the Squamish, and had a boom of 1,000,000 feet at the mouth of the river, another about twenty-five miles up from the river mouth, and also had timber in the woods near the camp. The firm assigned, and the loggers filed liens for their wages under the Woodman's Lien for Wages Act.
