**STOP MOB LAW
 JUDGE ORDERS**

Cairo, Ill., Grand Jury to Prose-
 cute—Would-be Lynchers
 of Negro Purse
 Snatcher.

CAIRO, Ills., Feb. 18.—With three
 companies of militia guarding the
 courthouse and jail, under the direct
 supervision of Adjutant General
 Frank S. Dixon, Cairo settled down
 to-night to complete quiet after a
 strenuous 24 hours. It is believed the
 mob spirit is quelled. No crowd is
 allowed to congregate.

Threats were made to-day against
 Sheriff Fred Nellis for the killing of
 Alexander Halliday, and the wounding
 of four other men by deputies in beat-
 ing back the mob that attacked the
 jail last night, in an attempt to lynch
 a negro purse snatcher.

John Pratt, the negro, was sentenc-
 ed to-day to prison for not more than
 fourteen years. He will be taken to
 prison to-morrow morning with
 twelve other convicts in a special
 train. Lincoln Wilson, arrested as a
 suspected companion of Pratt, was re-
 leased to-night. A searching grand
 jury investigation of the attack on
 the jail was ordered by Judge Butler.
 His instructions to the grand jury
 were in substance a demand that the
 rioters be brought to justice and made
 to stand trial for rioting.

"This sort of procedure must be
 stopped," he said. "There have been
 five murders in Cairo since Nov. 1,
 when we had a previous occurrence
 of mob violence. These murders show
 that mob law is no deterrent to crime
 and it is your duty to see that mob
 law ceases to be."

Coroner McManus has not ordered
 an inquest of the killing of Halliday.
 He said he intended to go slowly.

The Sheriff's Story.
 Sheriff Nellis was in touch with
 Governor Deneen by telephone to-day.
 He said that his course had been com-
 mended by the governor.

He was standing on the front porch
 of the courthouse parrying with the
 mob, which was demanding that I
 give up Pratt," said the sheriff, "when
 some one in the crowd threw a stone
 at my deputies, watching the party from
 a second story window, thought that
 I fired the shot as a signal, and they
 fired a volley in the air. The mob fur-
 nished retreat and the deputies then
 fired into the crowd.

"My conscience is easy over the af-
 fair. The rioters were determined to
 get me unless I was passed. I did my
 duty by protecting my prisoners at
 any price."

A dozen broken windows in the
 courthouse to-day showed that shots
 were fired into the building by the
 mob.

Hard to Get Deputies.
 There were six negroes among the
 fourteen armed deputies that defended
 the jail with Nellis. There were twenty
 deputies in all, but there were not
 guns enough to go around. Nellis had
 great difficulty in enlisting deputies,
 and the negroes were impressed be-
 cause the sheriff could not get enough
 white men to serve.

Mayor Parsons has ordered saloons
 to remain closed until danger of fur-
 ther disturbances has passed.

The Halliday family to-night retain-
 ed an attorney to sue Sheriff Nellis
 and the county for damages. Halli-
 day, who was a son of former Mayor
 W. Halliday, was shot thru the
 neck. He lay on the ground near the
 house porch nearly three hours before
 Nellis would permit any one to re-
 move him to the hospital. He died two
 hours later. Nellis replied to criticisms
 of his refusal to permit the injured
 man to be removed by saying that he
 obeyed orders from Governor Deneen
 to permit no person near the
 building. He also said he thought
 Halliday had been killed instantly.

Samuel Wessinger is in St. Mary's
 hospital with eleven bullet wounds
 in the head. George B. Walker, corres-
 pondent of the Associated Press, who
 was shot in the leg while watching
 the affair to-day, discovered five shot
 holes in his clothes.

LONGER COMPULSORY TRAINING

Lord Kitchener's Advice to Australian
 Military Authorities.

SYDNEY, Australia, Feb. 18.—(C. A. P.)—Lord Kitchener's report reaffirms
 his high opinion of the military cap-
 acity of Australians, and insists that
 longer compulsory training of men
 and more education of officers is
 necessary. He advises the establish-
 ment of a college on the lines of West
 Point, N.Y., at first staffed by im-
 perial officers, and later by Australi-
 ans. A return to the system of in-
 spector-general instead of a board of
 inspectors is recommended. Kitchener
 approves of the government's deci-
 sion to manufacture locally arms and
 ammunition.

JOBS FOR FIFTY

Deputy Chief, Stark Wants Better
 Class of Canadians.

"We want the better class of young
 Canadians who are more and more
 forming the bulk of our force," declar-
 ed Deputy Chief of Police Stark yes-
 terday, in announcing that fifty re-
 sults would be taken into the ranks
 March 15, and applications are wanted
 at once.

The men must be over 21 years of
 age, physically sound and over five feet
 inches tall. They must also be able
 to read and write English.

**Hon. Redmond Will
 Please Everybody**

Expected That Nationalist Leader
 Will Offer an Amendment to the
 Budget and Let it Go at That.

LONDON, Feb. 18.—Individual
 Laborites to-day all savored the ul-
 timum which George N. Barnes, the
 new chairman of the Labor party
 in parliament, sent to premier
 Asquith, demanding that the
 veto question precede the budget
 measure in the house. They said
 that the Labor party had not
 reached as yet a decision, and as-
 serted that the chairman's mani-
 festo consisted merely of an expres-
 sion of his personal opinion.

Keir Hardie, however, endorses
 Barnes, having previously thought
 he says, that Asquith had guaran-
 teed from the King's speech.

It is expected that John Red-
 mond will save his conscience by
 offering an amendment, either to
 the premier's speech next Monday
 or to the budget measure, to the
 effect that Ireland shall be exclud-
 ed from the operation of the land
 and excise clauses of the financial
 bill.

The premier cannot possibly ac-
 cept such an amendment, but the
 Irish leader will be in a position
 to say that he did all he could and
 with this explanation, allow the
 budget to pass.

Herbert Samuel, the new P.M.G.,
 in a speech, declared the govern-
 ment's action respecting the lords
 would be swift, courageous and
 decisive.

SPECIAL TRAIN DERAILED

And Torontonians Who Went to
 Whitby Dance Are Detained.

WHITBY, Feb. 18.—(Special.)—The
 three hundred and more Torontonians
 who came to-night to grace the annual
 convalescing at the Ontario Ladies'
 College will not be home until break-
 fast to-morrow.

At 11.45 to-night, when the special
 train of seven coaches was being
 switched for the return journey, the
 engine was derailed, and all efforts
 to get it back on the track are unavailing,
 and are likely to be until the arrival
 of the auxiliary from Toronto.

The dance was the most successful
 on record.

Word was received here to-night that
 a Mrs. Lawrence of Creemore, Ont.,
 fell from a train platform while en-
 route to Toronto, but is now resting at
 a farm house between here and the
 city awaiting the arrival of friends.

CRISIS IN GREECE

Assembly Convoked and is Solemnly
 Warned by the Premier.

ATHENS, Feb. 18.—Premier Dragou-
 mis, in a statement before the cham-
 ber of deputies to-day, said that the
 convocation of the assembly in extraordi-
 nary session was necessitated as much
 by the condition of internal affairs as
 by the foreign situation. He explained
 that the military league had agreed to
 dissolve, and all those desiring a re-
 turn to a normal state of affairs had
 switched for the return journey, the
 engine was derailed, and all efforts
 to get it back on the track are unavailing,
 and are likely to be until the arrival
 of the auxiliary from Toronto.

The premier said he would submit a
 program approved by all the party
 leaders, and if three-fourths of the
 number supported a revision of the
 constitution, they would succeed in set-
 tling the crisis and would revivify the
 constitution into a "living, fertilizing
 spring of a great national consulta-
 tion."

If the chamber proved recalcitrant,
 however, there might be undesirable
 consequences, and he warned them that
 there was no other way out of the pre-
 dicament.

P.E.I. IS PROSPERING

Department of Agriculture Reports
 Exceptionally Good Year.

CHARLOTTETOWN, P.E.I., Feb. 18.—
 The public accounts presented in
 the report to-day show that the an-
 nual ordinary expenditure to be \$85,-
 000; capital, \$28,000; ordinary revenue,
 \$275,000; total liabilities, \$883,000. The
 biggest item of expenditure was \$129,-
 000 for education.

The department of agriculture re-
 ported the year as exceptionally pros-
 perous from an agricultural stand-
 point. The value of farm crops
 was \$9,000,000. The dairy in-
 dustry increased 30 per cent. over
 1908.

SERGT. M. J. HARE DEAD

Veteran of Egyptian Campaign Succ-
 umbs to Typhoid Fever.

Sergeant Michael J. Hare, of the
 Royal Canadian Regiment, who lived at
 127 Galley-avenue, died in Grace
 Hospital at 8 o'clock last night of ty-
 phoid fever. He had only been ill
 since Wednesday. Sergeant Hare was
 54 years of age and leaves besides his
 widow, one daughter, Mrs. Rogers,
 wife of Sergeant Rogers of his regiment.

The sergeant had been with the im-
 perial forces before coming to Canada
 and had seen service in the Egyptian
 campaign of 1882.

The funeral will be conducted with
 military honors, but the time has not
 yet been set. The body was taken to
 A. W. Miles' College-street undertak-
 ing rooms last night.

INSPECTION OF CANNED FISH

Next Endeavor of Government to En-
 sure Pure Foods.

OTTAWA, Feb. 18.—That an ade-
 quate system of government inspec-
 tion of canned fish of all kinds, pro-
 duced in Canada for export or inter-
 provincial trade, similar to that exercised
 over canned meats, will shortly be es-
 tablished under the control of the
 marine department, is the statement
 made by Hon. Sydney Fisher, minister
 of agriculture.

**CANADA SO SLOW
 UNCLE SAM PRODS**

Nothing Has Yet Been Done at
 Ottawa to Secure the U. S.
 Minimum Tariff, and
 Time is Short.

WASHINGTON, D.C., Feb. 18.—No
 steps have yet been taken by the
 British or Canadian governments
 looking to the determination of the
 question of whether Canada, in view
 of her tariff treaties with other coun-
 tries, is entitled to the minimum
 tariff rates of the United States under
 the Payne-Aldrich Act.

In view of the fact that the maxi-
 mum rates under this act will auto-
 matically be applied to Canada on
 March 31, only six weeks hence, un-
 less it is shown in the meantime
 that Canada is entitled to the lowest
 rates, the state department has sent
 a communication to Ambassador
 Bryce, stating in substance that the
 government, entertaining only feel-
 ings of the warmest friendship for the
 people of Canada, regrets that no steps
 have been taken, either by Canada or
 Great Britain, to place the United
 States in possession of facts which
 might prove that the Dominion is en-
 titled to the most favored rates.

It was suggested that the British
 Government indicate what course it
 would like to pursue in arriving at
 the facts, whether thru the British
 foreign office or the Ottawa officials.
 The state department is quite will-
 ing to adopt any feasible suggestion as
 to procedure that might be made, but
 owing to the short time yet remaining,
 it is thought that negotiations should
 be as prompt as possible.

Herbert Samuel, the new P.M.G.,
 in a speech, declared the govern-
 ment's action respecting the lords
 would be swift, courageous and
 decisive.

HALLEY'S COMET WON'T HURT

All Cyanogen in Tail Could Be Put in
 Pill Box.

"That there is cyanogen in the tail
 of Halley's comet is undoubted, but
 you could put it all in a pill box,"
 said Professor Chant, during the course
 of his interesting lecture on that pheno-
 menon, before a large audience at
 Wycliffe College last night.

Thus he disposed of the contention
 of Camille Flammarion, a French as-
 tronomer, that when the comet sweeps
 its tail across the face of the earth
 on the 18th of May next all life on this
 planet will be snuffed out in the
 twinkling of an eye.

And Prof. Chant was not even sur-
 prised that the tail of a comet, and
 an unerring path the tail sweeps from
 side to side, and it was just possi-
 ble that it would miss us.

Prof. Chant showed that the experi-
 ence of the earth with comets was not
 an unpleasant one. In 1861 we had
 passed thru the tail of a comet, and
 a few scintillations in the at-
 mosphere and a shooting star or two
 there was nothing to disturb us.

The lecture was illustrated with a
 great many photographs of comets,
 including some of 1910, the visitor of
 a couple of weeks ago. Prof. Chant
 gave credit to Halley for giving to the
 world Newton's Principia, and the cele-
 brated discoverer of the theory of gravitation
 was too timid to announce. It was from this that Hal-
 ley was able to predict the return of
 Halley's comet.

APPENDIX RECORD HOLDER

World's Record Beaten Twice in a
 Week by United States Patients.

WINTHROP, Mass., Feb. 18.—After
 holding the world's vermiform appendix
 record for four days, George Goss, the
 former Yale athlete, to-day surren-
 dered his honors to Howard Gould of Win-
 throp. Mr. Gould was operated upon
 for appendicitis to-day at a private
 hospital in Boston, and the surgeons
 removed an appendix 6 7/8 inches long.
 Last Monday an appendix six inches
 long was removed from Mr. Goss. At
 the time it was believed that this was
 the longest on record.

The average appendix is from two to
 three inches in length.

LAKE OF WOODS DIVIDEND

Common Stock Placed Practically on
 15 Per Cent. Basis.

MONTREAL, Feb. 18.—(Special.)—
 The directors of the Lake of the
 Woods Milling Co. to-day declared the
 regular quarterly dividend of one and
 three-quarters per cent. on the pre-
 ferred, and one and a half on the
 common, and a bonus of five per cent.
 besides on the common.

As a ten per cent. bonus was declar-
 ed six months ago this practically
 puts the common stock of the Lake
 of the Woods on a sixteen per cent.
 basis.

I. T. U. MORTUARY BENEFIT.

INDIANAPOLIS, Ind., Feb. 18.—(Spe-
 cial.)—J. W. Hays, secretary-treasurer
 of the International Typographical
 Union, said to-day that reports from
 the referendum being taken now on
 the establishment of a mortuary benefit
 fund have been defeated.

Complete results will not be on hand
 until Monday.

B. C. Orange Grand Lodge Adopt
 a Series of Principles For
 Approval of Brethren.

KAMLOOPS, Feb. 18.—The most im-
 portant business of the Orange Grand
 Lodge sessions just closed, was the
 adoption of a Protestant platform pre-
 pared by a special committee and
 adopted as whole. It was decided to
 publish this broadcast and send copies
 to all the provincial grand lodges in
 Canada and Newfoundland. The plat-
 form is as follows:

Entire separation of church and
 state.

A non-sectarian public school system
 which shall be the only system to re-
 ceive aid from the public treasury.

Resistance of any further special
 privileges to any section of population
 of the Dominion, either on account of
 race or religion, and a gradual elimi-
 nation of any special privileges which
 they now possess.

The English language as the only of-
 ficial language in Canada, and the
 compulsory teaching of the English
 language in all its schools.

The maintenance of British connec-
 tion, and support of any movement
 which tends to make closer and more
 binding the relations between Canada
 and the mother country.

Close supervision of all new settlers
 and encouragement of suitable white
 emigrants from the British empire,
 United States and Northern Europe.

Public inspection of all institutions
 under control of any religious denom-
 ination which receives aid in any way
 from the public treasury, either by di-
 rect grant or by rebate of taxes, and
 that provincial books and all other pub-
 lic documents be inspected by a public
 auditor at any time; also public in-
 spection of all nurseries, convents,
 monasteries, churches, schools,
 academies or other institutions, and
 that all teachers in the aforesaid insti-
 tutions be compelled to hold a govern-
 ment certificate.

Full recognition in every province of
 the Dominion of marriages performed
 by a qualified clergyman of any relig-
 ious denomination or any other persons
 vested by the law with that power.

ANTI-SEMITE LEADER DYING

Dr. Carl Lueger, Mayor of Vienna,
 Closing an Unusual Career.

VIENNA, Austria, Feb. 18.—Dr. Carl
 Lueger, anti-semitic leader and mayor
 of Vienna, is dying.

Dr. Lueger was born in Vienna in
 1844; graduated from Vienna Univer-
 sity, was admitted to the bar and prac-
 tised law until 1876.

When still a student, he gave much
 attention to political matters, and in
 1875, when elected a member of the
 Vienna municipal council, he joined the
 Democratic party. Subsequently he
 joined the anti-semitic party and in
 1885 was elected to the lower Austrian
 house of representatives. Later he
 became the leader of the anti-semitics.

Dr. Lueger repeatedly expressed him-
 self in public as opposed to the great
 degree of admiration with which all
 men who follow the profession of med-
 icine are considered in Austria. This
 made him many enemies.

Lueger was elected mayor of Vienna
 in 1895, but confirmation of his elec-
 tion was opposed by the administration
 and it was only after a long contest that
 the election was recognized. He has
 since done much good for the city.

A speech made at a political meet-
 ing in 1895, in which he warned the
 Jews of Vienna to behave with great
 circumspection, else they would meet
 with the same fate as that then being
 accorded their brethren in Russia, and
 another address, in which he counseled
 the Christian people of Vienna to
 boycott all Jews, created a vast amount
 of unfavorable comment, and it was
 thought that he would have to resign
 his office.

LANARK COUNTY STANDS ALOOF.

 proposed to be erected by the Counties
 of Lanark, Renfrew and Carleton.

**MORE THAN 200 WOUNDED
 IN RIOT AT FRANKFORT**

Protestants Against Proposed Prus-
 sian Suffrage Laws Come Into
 Conflict With the Police.

FRANKFORT, Germany, Feb. 18.—It
 was 2 o'clock this morning before the
 police had cleared the streets of the
 crowds gathered in public protest
 against the proposed Prussian suffrage
 laws. To-day some fifty of the demon-
 strators are in the hospitals and of
 the number five are seriously injured.

The Socialists insist that those at-
 tending the meetings had been ad-
 vised by the speakers to go quietly to
 their homes and that the most of them
 were so doing when a policeman who
 had arrested a man was fired upon by
 a party of would-be rescuers. This in-
 cident, the Socialists say, afforded the
 police detachments the opportunity for
 which they were waiting to attack the
 home-seekers brutally, regardless of age
 or sex.

Many of the wounded avoided the
 hospitals, receiving treatment from
 private physicians, in order to escape
 any possible legal consequences involv-
 ed. The number of wounded is now
 placed at between 200 and 300. Twenty
 policemen are among the injured.

Other demonstrations have been an-
 nounced for next Sunday, but the meet-
 ings have been forbidden by the police,
 who are acting under orders from Ber-
 lin. The police are not members of
 the municipal force, but of the Prus-
 sian State Constabulary, and to a great
 extent are former sergeants in the
 army.

**SEVERAL PERSONS BITTEN
 BY SUPPOSED MAD DOGS**

Two Canines in Hamilton Attack
 Quite a Few Pedestrians Until
 Killed by Police.

HAMILTON, Feb. 18.—(Special.)—
 The police were called upon to hunt
 down two alleged mad dogs this after-
 noon, both of which bit a num-
 ber of people. One was killed about 2
 o'clock, and the other started on a
 rampage a couple of hours later. The
 first one started out at the corner
 of King and Catharine-streets.

Amongst its victims were J. German,
 timekeeper at the Hamilton Bridge
 Works; William Skuland-Miss Pluck-
 er, Pearl-street. After a chase of
 about an hour the police succeeded in
 killing the dog.

James Mackay of the Canadian
 Transfer Co. was one of those bitten
 by the second dog, and several chil-
 dren were also attacked by the brute
 near the Sturt-street station. The
 heads of both animals were sent away
 to be tested for symptoms of rabies.

BITTEN BY MUZZLED DOG.

WOODSTOCK, Feb. 18.—(Special.)—
 Mary Kennedy, a girl, was bitten in
 the arm by a dog last night, and the
 authorities are watching the animal
 now to see if rabies will develop. The
 dog was muzzled, but the muzzle be-
 came displaced.

TWO DOGS SHOT.

WANSTEAD, Feb. 18.—A dog sup-
 posed to be mad was shot by Farmer
 Graham on the second line of Plym-
 outh Township to-day. Graham's dog
 was bitten by the strange dog, and
 was also shot.

BELEVEVILLE TAKES PRECAUTIONS.

BELEVEVILLE, Feb. 18.—The execu-
 tive committee of the city council has
 recommended that all dogs in the
 city be muzzled with metal muzzles.

The petition for the pavement be-
 tween Dovercourt-road and Manning-

 Of fourteen ratepayers, who it was
 alleged desired to have their names
 removed, only two appeared before
 Judge Winchester yesterday. His
 honor, after striking one name off
 the list, had closed the matter but
 reopened it when a second ratepayer
 appeared. This name also was struck
 from the list. This is a distinct vic-
 tory for the Ontario Asphalt Block

 submit a tender at a rate satisfactory
 to the petitioners. The efforts of rival
 companies to interfere with the peti-
 tion for pavement on the other side
 of the street as far as Lansdowne-

NEW WARD MARATHON BEING RUN BY RATS

Rodents Play Pussy-in-the-Corner and Cross-Tag With Youngsters.—Hebrew Landlords in Despair.

The inhabitants of the "Ward" are again in an uproar. This time, however, it is not fights, squabbles, or even the Irish, that are causing the excitement. It is a degree worse, in fact, it is pure and simple rats.

THE REAL SPRING SUIT

No Old Goods to Sell---Everything Red Hot From the Mills

THE ENTIRE STOCK IS HERE---THE ENTIRE STOCK OF NEW SPRING cloth for Suits or Overcoats. It is the product---the fresh product---of our OWN mills. And we are asking for this cloth, made-to-your-order, in Suits or Overcoats, the same as any ordinary tailor will ask for the shoddy, shop-tired goods that crowd his shelves.

We are able to do this because on the clothes we sell there is only one profit. As a rule the "ordinary tailor" has some eight charges to make to your bill. The company dealing in a larger way has sometimes the expense bill of a special representative who spends two months in Europe, and that adds a little more.

So we have rather what you call "the drop" on any other tailoring proposition in Toronto. Also we have our Spring Goods here---they are not coming---they are here.

MADE-TO-ORDER SUIT OR OVERCOAT

\$15

No More No Less

WHEN YOU ARE GOING TO BUY YOUR CLOTHES, WHY NOT SEE THAT YOU ARE GETTING THE LATEST, AND NOT SOME "CLEARING OUT" OF OLD GOODS? AND THE MADE-TO-ORDER SUIT OR OVERCOAT WE SELL YOU IS WORTH ANYWHERE FROM TWENTY-FIVE TO FORTY DOLLARS AT ANY OTHER CLOTHING STORE IN TORONTO.

We want you to call to-day, even if you do not purchase---see just what is right in the new patterns. Every inch of cloth has but recently arrived from the old land, and is guaranteed.

If you are not satisfied with the suit or overcoat you get here, just ask for your money back---it will be cheerfully refunded.

St. Andrews Beat U. C. C.

St. Andrews' College defeated Upper Canada yesterday afternoon at Mutual street rink before a large crowd of howling enthusiasts and supporters, by a score of 5 to 3. St. Andrews proving better finishers than U. C. C. for the latter were ahead at half-time, 2 to 1.

This annual game was not different from the others that have preceded it, for the rooting was loud and long, with supporters of both sides doing their share of it in the first half, but in the last period U. C. C. made only an echo to what St. Andrews did with their cries of "Hoot, Hoot," and other battles.

Content unless he was bumping or slashing someone, with McKinley as his special prey.

McKinley at centre for St. Andrews was good all thru, and he was given good support by his wings, while Munro as rover, also being a little shy on speed, was the nicest stick-handler on the ice. For U. C. C. Palmer at point was good, but did not get in any of his usual rushes, for the reason that he was too closely checked. Clark and Ellis did well at centre ice. The teams: St. Andrews (G)—Goal, Leischman; point, Mathewson; cover, Hasty; rover, Munro; centre, McKinley; left wing, McPherson; right wing, Wilson. Upper Canada (G)—Goal, Blackstock; point, Palmer; cover, Burkart; rover, Clark; centre, Ellis; right wing, Hallan; left wing, Gonthick. Referee—F. C. Washburne.

International Basketball.

To-night at the West End Y.M.C.A. the fast Rochester (N.Y.) Y.M.C.A. team will play the first international game since the trouble a few years ago. Rochester are considered the champions of the state, having defeated such teams as Buffalo, Syracuse Y.M.C.A., Brooklyn Y.M.C.A. and many of the smaller teams in the state. On New Year's Day they met and defeated Holyoke (Mass.) Y.M.C.A., champions of Massachusetts. With such a record, there is no doubt that the public will

West End—Forwards, Tait, Bickle; centre, Brock; guard, Montgomery; Vosgan.

The preliminary game will be between All Saints' Olympics and the West End Juniors. Both of these teams are tie for the city championship. This game will be the first of two to decide the championship of Toronto. The line-up: All Saints—Forwards, Smith, Alward; centre, Spencer; guards, Fullerton, Macklin. West End—Forwards, Robertson, Rhodes; centre, Granbery; guards, Downard, Clark. Referee George Smith, late physical director of Vancouver Y.M.C.A. will have charge of the games. With such an official, both teams will have to play clean, fast ball.

Withdraw Wins Section

Withdraw-avenue seniors defeated Bolton-avenue senior B' hockey team last night by 2-1. The half-time score was 1-0 in favor of winners. As the section depended on the outcome, both teams played fast and hard, at times the play being quite rough. However, Arnold Hoath, the referee, succeeded in keeping it fairly clean. Both sides suffered equally from the penalties. This win for Withdraw puts them in the finals with Bolton-avenue senior A team. The final game for the senior cup will be played from 4 to 6 Monday next, and should prove a fast one, as there is at present considerable friendly rivalry between these two teams. Bolton (2)—Goal, Herron; point, Gibson; cover, Robson; rover, Jones; centre, Welings; right, Simpson; left, Dorset. Withdraw (2)—Goal, C. Ashton; point, Williams; cover, Reid; rover, Hackett; centre, Crossland; right, B. Jones; left, Jackson.

POLLUTION OF STREAMS DANGEROUS TO HEALTH

Senate Committee Calls For United Action to Control the Disposal of Sewage, Etc.

OTTAWA, Feb. 18.—(Special).—In the senate to-day, a report upon the effect the pollution of streams has upon public health was made by the senate health committee thru the chairman, Senator Deveber. The report called attention to the evidence taken by the committee last year, and recently distributed in printed form, showing the dangers which threaten public health thru the sources of water supply. The committee to-day reported that it could not "fall to see that the public health of Canada is being seriously imperilled by the custom of disposing of sewage, garbage and so forth, by dumping it into the lakes, rivers and streams of the country," and was of the opinion that "the only remedy, and the only safeguard, lies in the passage of legislation to control this practice."

"The legislation to be effective must be uniform throughout the whole Dominion, and it cannot be brought about by co-operation by the Dominion and Provincial Governments. It is, therefore, recommended that the commission of conservation, representing as it does all the governments in Canada, be requested to call together the health authorities of each province, to meet in conference at an early date and endeavor to devise means whereby this end may be obtained."

Senator Deveber said that the question as to jurisdiction in matters of public health was not clear. However, he believed that where the public was fully educated to the danger to the general health from this practice of water pollution, a remedy would be found. Senator Belcourt said that he was confident that the Dominion had sufficient jurisdiction to control the practice of polluting navigable waters. Senator Deveber did not dispute this, but pointed out that if unnavigable streams were contaminated, the pollution was bound to find its way down to navigable waters.

NEW TROLLEY LINE

From Queenston to Niagara-on-the-Lake—Company Organized.

NIAGARA FALLS, Ont., Feb. 18.—(Special).—An abrupt ending to his few days of married happiness is the fate of William Gleason, an electrical engineer, who was arrested to-night charged with perjury. J. Bradley, the young man's father-in-law, swore out the warrant, alleging that Gleason had committed perjury in swearing that Miss Ithen Bradley, to whom he was married on St. Valentine's Day, was over eighteen years of age. Gleason is said to be interested in a company which has just been formed to construct an electric trolley line from Queenston to Niagara-on-the-Lake. The company has been capitalized for \$100,000. It is expected that steel will be laid this summer.

HOT AFTER FRENCH TRAFFIC

Three Steamship Lines From Canada in Operation Next Year.

MONTREAL, Feb. 18.—It was announced to-day that the Thomson Line would run a line of steamships to France next year, making three lines trying to get the trade which they think will follow the Franco-Canadian treaty. Up to the present there has only been one, the Atlantic, which runs to Havre. The second will be the Canadian Northern, which will run to Cherbourg. The Thomson will run probably to St. Malo, certainly not to Havre.

LATEST PARISIAN STYLES

What New Spring and Summer Models Show.

PARIS, France, Feb. 18.—This is the first day of the Paris showing of new fashions and summer models. Silks are largely used. Some of the colors are blue, cerise, and orange. White serge suits have green or black collar and cuffs. Cheruit shows long sleeves on morning gowns, and short sleeves on evening gowns. Full gowns of baby Irish. Coats are shorter and have long waists. Skirts are open V-shape in front. Waist line important because of Norfolk jacket effect, but higher. Paquin shows three-quarter sleeves. Glace taffetas for price bill to-day, decorated and chiffons for later wear. Poulard grounds entirely covered. Low-neck dinner and theatre gowns in walking length without train. Skirts with tulle effect of all-over thin lace on the Chantilly order. Corsets a little longer-waisted, but not long; very low bust, says Paquin. Cuffure under the hair parted and wavy, slightly, drawn a little over the ears. Chignon or puffs arranged to stand out from the crown of the head, with hand of hair all round. The style is typically Greek.

NO TAX ON INSURANCE

Brought into Canada From U. S.—Senate Committee Decide.

OTTAWA, Feb. 18.—The senate committee on banking and commerce dealing with the insurance bill to-day decided one of the most important and contentious clauses of the measure. It decided to throw out the clause requiring a tax on persons who go outside of Canada for insurance, which provided that a firm may go outside the country for fire insurance by paying 10 per cent. on the premiums. Senator Dandurand said there were many principles involved. The first was, shall citizens be allowed to freely insure in unlicensed foreign companies? This question the committee unanimously answered affirmatively. The next one was, shall all unlicensed fire companies be prohibited from having representatives in Canada to solicit insurance, or from soliciting directly or indirectly? The committee gave a unanimous affirmative answer to this also.

The third question was, shall the person or firm going outside be taxed to a certain extent to help maintain the insurance department? Supt. Fitzgerald wanted this, but the committee by a very large majority decided that there shall be no tax for going outside. The fourth question was, shall the insured, who goes outside Canada be obliged to send annual returns as to the amount of insurance placed? This was answered in the affirmative. The committee declared a return being made of premiums paid out and decided also to exempt inland marine insurance from the operations of the act.

MILLIKEN MAN KILLED

George Stonehouse Electrocuted at Rochester, Mich.

George Stonehouse, whose parents reside at Milliken, York county, was electrocuted by coming in contact with a live wire at Rochester, Mich., on Thursday. He was a motorman on the electric railway there, but particulars of the fatality have not been received. Stonehouse before going to Michigan, lived three or four years in Toronto, being employed by the T. Eaton Company. He was 29 years of age. He is survived by his parents, five brothers and three sisters. The body will be brought home for interment.

CONSTIPATION MUNYON'S PAW-PAW PILLS

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour; they do not grip; they do not irritate the stomach; but they do start all the secretions of the liver and stomach in a way that soon puts their organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are thirty-two tenths of human bowels, which is really a sewer pipe. When this pipe becomes clogged, the whole system becomes poisoned, causing biliousness, indigestion and impure blood, which often produces rheumatism and kidney ailments. No woman who suffers with constipation or any liver complaint can expect to have a clear complexion, or enjoy good health. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves; they invigorate instead of weakening; they purify the blood instead of impoverishing it; they cleanse the stomach to get all the nourishment from food that is put into it. These pills contain no alcohol, no dope, they are soothing, healing and strengthening. They school the bowels to act without physic. Price 25 cents.

AT THE THEATRES

KYRLE BELLEW. In the new four-act play, "The Builder of Bridges," by Alfred Suro, author "The Walls of Jericho."

At the Princess next week, Charles Frohman will present Kyrle Bellew and his superb company of distinguished players, direct from the Hudson Theatre, New York. In one of the season's most important dramatic productions, "The Builder of Bridges," a new four act play from the pen of that masterful modern English dramatist, Mr. Alfred Suro, author of "The Walls of Jericho." The new play has been accorded the foremost dramatic reviews of London and New York without a dissenting voice, during the recent presentation in the English metropolis and the long season at the Hudson Theatre.

Kyrle Bellew. At the Princess next week, Charles Frohman will present Kyrle Bellew and his superb company of distinguished players, direct from the Hudson Theatre, New York. In one of the season's most important dramatic productions, "The Builder of Bridges," a new four act play from the pen of that masterful modern English dramatist, Mr. Alfred Suro, author of "The Walls of Jericho." The new play has been accorded the foremost dramatic reviews of London and New York without a dissenting voice, during the recent presentation in the English metropolis and the long season at the Hudson Theatre.

A scene from "The Belle of Brittany," Frank Daniels' musical comedy. Royal Alexandra next week.

Gillman and Murray. "The Emperors of Black Face," and Sadie Weston, the dainty singing comedienne.

James T. Powers in "Havana," the big musical comedy success, which will be an early attraction in this city, is now playing by specialty business at the Lyric Theatre, Philadelphia. Despite the fact that numerous musical shows have been pitted against Mr. Powers and "Havana" in Philadelphia the play made such a success that it was sold out at practically every performance.

"Checkers" at the Grand. "Checkers," the popular and decidedly entertaining character comedy with its stirring race track flavor, is the attraction at the Grand next week. That the playgoers of this city appreciate "Checkers" is evidenced from the favor with which the piece was received on its previous visits here. It has been a long time since the American stage has had a more delightful offering, and it will have a more enduring success, for "Checkers" is now in the sixth year of its popularity and grows stronger with the play-going public as full of humor as an egg of meat. Its wit snaps like a breaking icicle. Its pathos is natural and delightfully unforced. There is a swift

he expects to wipe out the obligation. It develops that Raymond is in love with Babette, Paoulin's daughter; also that the miller has lost the valuable document. The Marquis thereupon declares that no such agreement ever existed between them, further adding that Paoulin, whose daughter however has pledged her hand in marriage to Baptiste Boublion, the famous Parisian chef, is crazy. She is unable to marry Raymond, but upon the arrival of Baptiste she immediately changes her mind and the Marquis is ousted by seeing his son marry the Belle of Brittany.

Mr. Daniels, it is said, has a splendid characteristic role with rich humor and the best songs out of the hundred good ones he has delivered to an audience, among them being, "I Must Go Home To-Night" and "Sing to Your Dear One."

New Majestic Music Hall. All roads will lead to the new Majestic Music Hall next week, not only because Fred Karno's famous combination of English comedians and pantomime performers are playing a return engagement, but for the excellence of the bill as a whole. Besides presenting their London success, "A Night in an English Music Hall," which is so uproariously funny as to make laughing incessant, the Karno troupe will also appear in a new sketch called "The Dandy Thieves," a one-act comedy piece, which has been received with flattering success. The famous Le Pages, whose stage setting comprises a college boy's den, do some trick jumping, which is said to be unparalleled in the annals of American vaudeville. They perform some extraordinary tricks. The Mayvilles, who style themselves the "Human Marionettes," produce a novelty act on a miniature stage. "The Brazilian Robbers of the Hills," Marshall and King, clever entertainers, introduce a Brazilian dance, which is something of a novelty. There is not much of a plot to the piece, but the lines and situations are cleverly furnished out. Other features of the bill will be Hallen and Hayes, in a high class singing and dancing act.

SOLVES PROBLEM OF BUST DEVELOPMENT "Mme. Du Barrie's Positive French Method a Marvel," Says Alvin DeCourcy, Different From Anything Else Ever Before Offered to American Women. "I never saw anything in all my life that equal the Mme. Du Barrie Positive French Method of Developing the Bust," says Alvin DeCourcy while on a recent visit to Mr. DeCourcy. "It is remarkable that it did in so short a time - in only three weeks. I began to think there was nothing which could develop the bust. I had tried everything before this Du Barrie Method was first introduced to American women some time ago. It is now acknowledged to be without an equal in existence. I immediately tried it. It is wonderful. There is nothing like it. The Mme. Du Barrie Positive French Method is different from anything else ever presented to American women for bust development. It is successful for women of any age above 16, no matter what the condition of health, whether they are thin, stout, or otherwise. Development at all or whether the bust hangs limp from no matter what cause. The development is luxurious and lasting, reaching from 2 to 8 inches in 30 days." Most fascinating book ever written on bust development. Mme. Du Barrie explains clearly the details of this French Method. It is simplicity itself, to the point of genius, yet different from any other, absolutely scientific, leaving nothing to guesswork. We suggest to our lady readers that they send their name and address in stamps to help cover postage, to Mme. Du Barrie, 316 Quinlan Bldg., Chicago, Ill., and receive by return mail, absolutely free of charge, a fine illustrated booklet by Mme. Du Barrie, with full particulars, etc., sent in plain sealed wrapper.

from beginning to end. Among its many features is the original famous 3011e ballet which was hailed by the New York critics as the one refreshing novelty of the year when it was first seen in the big extravaganza, "The Top o' the World," and the "One Girl" dancing number, which is said to be the best ensemble dance ever arranged by Wm. Rock, whose work as a director of stage dancing has made his name known thru all America. "Kris Kringle's Dream" is a big enough thing to overtop many traveling companies, furnishing an entire evening's entertainment. It travels with its own special passenger coach and baggage car. It has 22 people on all. The company is headed by Vivian Ford, a marvelously clever dancer, who plays the Doll Princess, Mr. Harry All and Bobbie Nolan, well known pantomime comedians, who play the "Peppermint Kid" and "Jack-in-the-Box" respectively, and Harry Bowitt, who plays the "Folar Bear."

The scene is Kris Kringle's workshop, and it is shown as a most faithful interior, filled with toys and dolls, most of which come to life during the action of this miniature extravaganza.

The Empire Show. In presenting Manager Jess Burns' Empire Show, the management of the Star Theatre offers a burlesque and vaudeville show of the high-class character. Manager Burns believes that the public wants to laugh and consequently make every reasonable effort to present a show brim full of comedy in situation and bright and snappy dialogue. To secure the resulting success, the management has remarkably strong company of comedians and clever girls, singers and dancers. Among the fun-makers are Tom Nolan, Jack Ryno, O'Neal Bros., and Walmoky.

and Tom McRae, and among the principal roles in the opening and closing burlesques are Cora White, Gus Emerson and the Fontaine Sisters. The burlesques are entitled "The Two Pikers" and "A Night in a Bathhouse." The vaudeville olio promises to be unusually entertaining because in part that of the great bill will appear several such favorites as the Fontaine Sisters, Ryno and Emerson, trapeze stars, Rowe and Ellis, jumping jacks, and the Garden City Trio.

"The Gay Masqueraders." From reports received here in relation to "The Gay Masqueraders Co.," there are good and sufficient reasons to understand why the appearance of this vaudeville troupe next week for the Gayety Theatre next week for the vaudeville company is being looked forward to with special satisfaction. Among the great variety of commitments paid to the production as a whole, a large measure of the praise is given to its plot pretensions and to the very formidable organization employed in its rollicking interpretation.

consisting in the main of as clever an assortment of comedians as were ever engaged for a similar purpose. Then, too, the large number of pretty girls, the brilliant costuming, fine scenic effects, as well as the quality of the introductions, appeal strongly to the audience. Novelty is said to be the prime factor in moving the fun features of "Gay Masqueraders" and this is something worth considering in these days of marvelous advancement.

Blanche Bates Coming. "The Fighting Hope," the three act American play by W. J. Hurlburt in which Blanche Bates and the present Miss Blanche Bates at the Royal Alexandra, the week of March 28 is essentially a play of to-day. The ideas, the characters and the interest are of the present moment. The story is told with few characters and with only one set of scenery running thru three acts.

"Three Twins." A musical comedy production of more than ordinary importance is the announcement made for the Princess week after next, where "Three Twins" will direct from a year in New York. The original company, with an entire new scenic and costume production, will be shown to Toronto theatregoers. This is the company, so widely celebrated, that played at all last season at the Herald Square Theatre, to the largest business ever done in that place of amusement. Clifford C. Crawford is the most prominent member of the organization, which is made up of seventy people.

The Beauty Of Firm Flesh

Lies in the Power of Rich Blood to Keep It Ever Clear and Clean. Stuart's Calcium Wafers Free. The secret of firm, strong, supple flesh is good, rich, constant flowing blood. When hollow cheeks appear, and the eyes look like burnt holes in a blanket, the blood is sick and out of tune.

Impurities fill it with poisons, the flesh harbors these poisons, and the lungs eliminate them as they should. It needs a purifier, Stuart's Calcium Wafers give to the blood thru the same channels as food all the strength and stimulus necessary to remove the impurities and to make rich corpuscles which will feed the body or fight its enemies.

Time was when poor blood purifiers had to be used, such as herbs and roots, and cathartics, but thanks to the great latter day achievement the Stuart process gives to the system the full rich strength of Calcium Sulphide, the great blood purifier known to science. These little powerful wafers are prepared by one of the most noted expert pharmacologists in the world and so far as science is concerned no expense has been spared to make them perfect.

Trained Nurses Great Aid to Medical Science

Dr. Fotheringham Delivers Address to Graduating Ladies at Lindsay—Recounts History of Profession—A Tribute to Nightingale.

The graduation of the nurses of the Ross Memorial Hospital, at Lindsay, on Tuesday evening, was the occasion of an address by Dr. Fotheringham of the Toronto General Hospital, and who ranks among the foremost physicians in America. It was a careful exposition of the duties and responsibilities of the trained nurse, and being delivered to an audience composed largely of the ladies, was couched in language that they could understand. In part he said:

"The trained nurse, like the doctor, belongs to what is known as a profession, an authoritative position of which states that it represents 'professed attainments in special knowledge as distinguished from mere skill, suggesting progress of some sort, not the mere routine. In proportion to the thoroughness of her training, the professional nurse is animated by esprit de corps, and feels that her behavior, good or bad, reflects upon the whole of that class to which she belongs. She, therefore, comes under the spell of what is known as 'professional etiquette,' a term which, to the lay mind, is of a forbidding darkness, indicating a realm within which the workings and motives of the professional mind can no longer be followed by the uninitiated mind. I hope that I will not say too much of the school teacher, but I say that centuries ago the greatest Teacher as well as the greatest Healer, that the world has ever known, laid down this principle in the Golden Rule, and that professional etiquette translated into action means only doing as one would be done by. No that, to take a familiar example, when a doctor or a nurse declines to supercede another without the other's knowledge, are not only observing the Golden Rule, but are taking the sure way to obtain the desired object with the least ultimate trouble."

Professional Secrecy.

Touching upon the matter of professional secrecy, the speaker said: "The most famous Canadian medical man to-day living, Prof. Wm. Osler, F.R.S., in a paper entitled 'Nurse and Patient,' says to this: 'To talk of diseases is a kind of Arabian Nights entertainment to which no discreet nurse will lend her talents.' Sir Thomas Brown, born in 1665 A.D., the most famous physician in England in his day, makes the exact distinction which I seek to make. 'Think not all the wisdom of fools, but, if rightly timed, the honor of wise men who have not the faculty but the virtue of confidentiality.' It is what Carlyle calls the 'talent for silence.' We of the profession are but frail like ourselves, being simply human beings, and we beseech you not to tempt us, but to check as sharply as you please in this matter of the talking of 'shop.'"

A nurse's rest is important. On this point he said: "My own habit in practice has always been to arrange with the family the nurse's hours of rest to save her the necessity of sleeping nearly as long as the patient. I am sure that you should be too preoccupied to think of it, and this duty I think every physician owes to his nurses if he is to get from them the fullest measure of service for his patients."

Florence Nightingale.

Continuing, the speaker said: "There are in North America, at a conservative estimate, nearly 25,000 trained nurses, and as has been said, twenty-five thousand persons devoted simultaneously to any honorable calling constitute a formidable influence for good when they choose to exert themselves, an influence which may be enhanced by the maintenance of a lofty esprit de corps. It surprises one who looks into this question for the first time to find that within the lifetime of the speaker, the first training school for nurses in the English-speaking world was established by the 'Lady with the Lamp,' the beloved Florence Nightingale, still living in extreme old age in London."

Hospital Policy.

Talking up the importance of hospital policy, Dr. Fotheringham continued: "I do not care to advise as to the proper policy for the smaller hospitals. Their efficiency at present is nearly equal to that of the larger school, so far as the patient is concerned, but of course, a greater number and variety of cases is an advantage to the nurse."

Sinking Spells Every Few Days

"At the time I began taking Dr. Miles' Heart Remedy I was having sinking spells every few days. My hands and feet would get cold; I could scarcely breathe, and could feel myself gradually sinking away until I would be unconscious. Those about me could not tell there was life in me. After these spells I would be very weak and nervous, sleepless and without appetite; had neuralgia in my head and heart. After taking the remedy a short time all this disappeared and in a few weeks all the heart trouble was gone."

—MRS. LIZZIE PAINTER, 83 1/2 3d Ave., Evansville, Ind.

For twenty years I have been constantly receiving just such letters as these. There is scarcely a locality in the United States where there is not some one who can testify to the merits of this remarkably successful Heart Remedy.

La Grippe Coming Again

Useful Information as to its Cause and Certain Cure.

Grippy infection is now very common. Colds are certainly the order of the day. Scarcely anyone you meet that is not affected. It is grippe, made you uncomfortable one might bear it. Strange how it weakens the system, destroys the nerves, and makes easy pneumonia or chronic bronchitis. It is clearly a duty to keep away from the disease, to escape it—if you can. Our citizens who are using Catarrhose are fortunate. It is certainly the most effective yet discovered. Catarrhose is not a medicine you take—you breathe the lungs full of rich, balsamic essences and germ-destroying antiseptics. It acts in two ways: In the first it kills the germs—that checks the progress of the disease. Its second action is to heal the sore places the germs caused. Nice to think of breathing little drops of healing so fine that the air carries it to every part of the lungs, bronchial tubes and nasal passages. It is the absolute thoroughness of the application to every part that makes Catarrhose so effective in grip, catarrh and colds. Then by its sedative influence upon the mucous surfaces it clears cough and throat tenderness very quickly. We owe something to the science that has given us Catarrhose—that so surely enables us to make direct application to diseases of the breathing apparatus. We all know that a cough during a cold, and the departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhose, three months' price \$1.99; smaller size 50c.; all dealers, or The Catarrhose Co., Buffalo, N. Y., and Kingston, Ont.

DR. WULLNER THRILLS CRITICAL AUDIENCE

Pours Into Songs Astonishing Amount of Passion, Horror, Sorrow or Happiness.

One would have expected all the Germans in Toronto to be in Massey Hall Music Hall last night, but they did not show up in any great number. Irish and English and Scotch Teutons were in stronger force, but their appreciation was just as keen and enthusiastic as if they had come from the fatherland. The applause that greeted Dr. Ludwig Wullner was of the heartiest, and at the close of each section of the program he was recalled over and over. He declined enclosures except in one instance, and when it is remembered that there were twenty songs on the program he cannot be accused of failure in generosity.

The program consisted of ten songs of Schubert's, four of Schumann's, and two each by Brahms, Hugo Wolf and Richard Strauss. It was "Cacilie" by Strauss that he repeated when encoored, and the splendid fire and passion of the rendering justified the applause. Several others were equally worthy of the distinction. Those who heard Herbert Witherappon sing "Die Heiden Grenadiere" last Wednesday in Cleveland were able to make an interesting comparison. While Dr. Wullner's voice lacks not the power his dramatic ability is far more intense. This was apparent in the Schubert songs. The subtle grailness which he imparts to the "Doppelganger," the pathos of "Der Wanderer," the despairing passion of "Du Liebst Mich Nicht," were all superb. In "Die Taubertaube" the yearning tenderness of "Die Taubertaube," the playful "Die Forelle," the rollicking joy of "Der Musenstich," which secured three recalls, and the picture of the "Alinde" showing an extraordinary range of temperament. Gramms' morbid songs were perfectly rendered, but Wolf's "Fussreise" was even surpassed in clarity by anything he sang. Dr. Wullner is able to take a little song and pour into it an astonishing amount of passion or horror or sorrow or happiness. This concentration he makes the compliment of his success. He feels his songs intensely and his audience must perform feel them too. And his voice is equal to the demands he makes upon it. (Continued N.Y. Box, his accompanist, is as great an artist as Dr. Wullner himself. The lovely music of the Schubert songs was perfectly rendered. In "Die Taubertaube" the charming setting of "Der Musenstich," and the daintiness of "Fussreise" gained every grace of interpretation.

MAYOR GEARY OPENS BIG CARNATION SHOW

Wyncote, Pa., Man Gets Gold Medal For Dorothy Gordons, Sir Henry Pellatt Second.

Exhibits of flowers and plants from all parts of Ontario and the United States were in evidence at the annual Carnation Exhibition of the Toronto Agricultural Society, which was opened by Mayor Geary at St. George's Hall, yesterday evening.

Joseph Heacock, Wyncote, Pa., carried off the gold medal for his fine display of Dorothy Gordons, and Col. Sir Henry Pellatt was awarded a certificate of merit for his exhibit.

Mayor Geary in his opening speech congratulated the members on the fine exhibition, which he stated the city would always encourage with a grant.

Deputy Minister of Agriculture C. C. James, volunteered the encouraging information that the Canadian exhibits were not one whit inferior to those of the United States.

A fine display of orchids by Thomas Morton of Eglington was a noticeable feature of the exhibition.

WILL SELL PART OF DOCK

Minister of Public Works Makes an Announcement.

OTTAWA, Feb. 18.—(Special.)—The house-to-night went into supply on public works estimates, and Mr. Pugsley and Mr. Crockett held the floor, the latter worrying the minister much regarding these New Brunswick wharves, which have occupied the attention of the public lately.

Mr. Pugsley announced, regarding the "wharves" at Richibucto, that he would utilize a portion of it and sell the rest for \$2500 to A. and R. Loggie, a firm which has done a good deal of government work.

NO VISIT FROM LLOYD-GEORGE.

OTTAWA, N. Y., Feb. 18.—Hon. Lloyd-George, chancellor of the British Exchequer, will not visit this country during the coming summer, as has been generally reported. Hugh Hughes of the staff of The Utica Press received a letter from the chancellor today stating that he had no intentions at present of visiting America this year.

DIES IN JAIL

Body of Robert Dickenson Held for Friends.

Unless some friends, now unknown to the authorities, step forward to claim the body of Robert Dickenson, who died in the jail yesterday of bronchitis, which developed into pneumonia, it will be turned over to the inspector of anatomy to-day. Captain Adam Lynn held an inquest yesterday, the verdict of the jury being that death was the result of natural causes. He was an Englishman and was serving a sentence for "vagrancy" for which he had been in the jail since the middle of January. He had been 15 years in the country.

HAY DEALERS SHUT OUT OF THE GERMAN MARKET

Would Have Appreciated a Chance to Share in the Concessions—No More Negotiations Now.

OTTAWA, Feb. 18.—(Special.)—There will be no more private members' days in the commons this session. Hon. W. S. Fielding, who is confined to his residence with a slight cold, moved that all subsequent Mondays, after questions, be given over to government business. The motion was adopted without discussion.

R. L. Borden put a number of questions to Mr. Fielding in respect to Canada's new trade agreement with Germany, eliciting the information that there were no negotiations going on with Germany at the present moment with the object of further extending the trade relations between the two countries, and that there were no likely to be any for some time.

Mr. Fielding explained that other British colonies shared in the trade favors which Germany extended to Great Britain, and got Germany's full privileges from the negotiations going on with Germany at the present moment at the same tariff rates as had been extended to France under the Franco-Canadian treaty.

He added that Canada, by the attitude adopted by the government, had beaten Germany in her contention that she should get the same trade privileges from the colonies as are extended to the mother country.

F. D. Monk said he had received a number of letters from Montreal hay dealers, who are anxious to have the agreement had been signed. He would be glad, however, to receive suggestions as to a further extension of the arrangement in the future.

GERMANS ON THE JOB

They Learn About English Army But Britons Learn Too.

LONDON, Feb. 18.—A prominent army official to-day made the following statement: "The Germans know about as much about our army and navy as we do ourselves, owing to the methods of their spies; but in the outcry against our friends the fact is quite overlooked that this country respects the compliment. Just now Germany is very sore at some descriptions of a new gun recently published. The details and tests were thought secret and it may be said the information was obtained by means which would not bear investigation."

A WELL KNOWN MAGISTRATE SAVED AS BY A MIRACLE

REDUCED TO A SKELETON AND Doctors Pronounced Case Incurable SAYS HE OWES HIS LIFE TO "FRUIT-A-TIVES"

Magistrate Speers' signed statement illustrates the unflinching curative and tonic properties of "Fruit-a-tives"—the marvelous fruit medicine that has brought health and strength to thousands in every part of the Dominion.

HENRY SPEERS, ESQ., J. P.

one of the greatest discoveries of the age—that has saved thousands of lives. It is why "Fruit-a-tives" cures when all else fails—why "Fruit-a-tives" gives instant relief when even the doctors cannot relieve the trouble. We state it, without hesitation, that "Fruit-a-tives" will positively cure every case of Indigestion and Dyspepsia, if properly used.

Remember, there is nothing else "just as good" or "just the same" as "Fruit-a-tives." Insist on having "Fruit-a-tives" and see that you get the genuine. 50c a box, 6 for \$2.50, or trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Moorefield, Ont., March 25th, 1909.

"I feel that my complete recovery from what seemed inevitable death is practically a miracle. I suffered from severe indigestion for nearly two years, and became almost a skeleton. I could not work—could not even walk. Two experienced doctors pronounced my case incurable. They could do nothing for me, as they said my heart was affected. I looked forward to death in a short time. I not only had the doctors, but tried many remedies and treatments, but got no better.

"My son asked me to try 'Fruit-a-tives,' and from the outset of taking these wonderful tablets, I was better and gradually this medicine completely cured me, and I have gained over thirty pounds in weight. I am well, thanks to 'Fruit-a-tives.' I have sold my farm, have sold my farm and bought 200 acres more land. I make this statement voluntarily for the sake of humanity, as I believe my recovery is a miracle, and I am convinced that 'Fruit-a-tives' is a wonderful cure for Stomach Trouble."

HENRY SPEERS, J.P.

"Fruit-a-tives" cured Mr. Speers because "Fruit-a-tives" is the most wonderful stomach, heart and nerve tonic in the world. "Fruit-a-tives" acts directly on the stomach, ensures sound digestion, regulates bowels and kidneys, purifies the blood, and relieves the distressing irritation of the heart.

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices. By the marvelous recovery of a well-known physician, fruit juices are combined with heart and nerve tonics in such a way that a new compound is formed. It is this new compound—thousands of lives. It is why "Fruit-a-tives" cures when all else fails—why "Fruit-a-tives" gives instant relief when even the doctors cannot relieve the trouble. We state it, without hesitation, that "Fruit-a-tives" will positively cure every case of Indigestion and Dyspepsia, if properly used.

It is probable that she will continue her travels further into the interior of the year than has hitherto been the case. Vancouver, B.C., Victoria, Etc., \$41.05.

OFFER TO WEAK MEN

I make this offer to weak men, particularly to those men who have spent their earnings for years on dope (the drugs that make them feel like a young colt one day and like an old, broken-down hack the day after), those men who have tried so many things that they are tired of fooling and want a cure. These are the men I appeal to, and to any man who will give me reasonable security I am willing to give my

ELECTRIC BELT ON TRIAL UNTIL YOU ARE CURED.

I claim that I can cure weak men; that I can pump new life into worn-out bodies; that I can cure your pains and aches, limber up your joints and make you feel as frisky and vigorous as you ever were. I am so well that I claim a good deal, but I have not a good remedy, and know it well enough to take all the risk if you will pay me when you are cured.

No man can lose on this. If the cure is worth the price you don't have to pay for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood; that you haven't got an ache or pain in your whole body, and that you feel better than you ever did in your life, I get paid. If you can't say it after using my Belt for three months, then give me back my old Belt and I won't ask a cent.

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt, and said I hadn't done him any good. He said he thought I had treated him honestly, and wanted to pay me the cost of the Belt, because it could not be used again. I refused, and told him that I had made a contract to cure him or get nothing, and I wouldn't take a dollar I hadn't earned.

Tell me where you are and I'll give you the name of a man in your neighborhood that I've cured. I've got cures in every town. That's enough. You need the cure. I've got it. You want it. I'll give it to you or you need not pay me a cent. Come and get it now. The pleasurable moments of this life are too few, so don't throw any away. While there is a chance to be husky and strong, to throw out your chest and look at yourself in the glass and say: "I'm a man," do it, and don't waste time thinking about it.

THIS IS THE WAY THEY FEEL.

The men who had given up hope, who thought there was no cure for them, until they came upon Dr. McLaughlin's Electric Belt. Now they are full of life and overflowing with joyous spirits. Pains are gone, weakness has gone, and full vigor is in every action.

Do you want to feel like that? Then wear the grand, life-giving appliance for two months at night. It will charge every nerve with electric life, and you will feel rejuvenated and invigorated. It puts steam into your run-down body, drives away pain, and renews youth.

MR. P. W. McNEILL, Colborne, Ont., says: "Dear Sir, I got one of your Belts some time ago for a sore back, which was very painful, and prevented me from sleeping, so at times I could hardly tie my shoes. Your Belt strengthened my back and took the pain and soreness away entirely. I would not take \$100 for it, and if I could not get another I would not part with it at any price. I can recommend your Belt as a complete cure to all afflicted with this trouble."

MR. WILLIAM P. MORTER, Box 27, Hawkesbury, Ont., says: "I am pleased to report a good account as regards my health. I am beginning to find myself stronger in every way. Certainly your Belt does its duty, and its work is sure."

MR. JOHN HUNT, Davisville, Ont., says: "I wish to say that your Belt has done me more good than all the medicine I ever took. I used it regularly for three months, and I have not needed it since."

Dr. McLaughlin: Chatsworth, Ont., Sept. 18, 1909.

Dear Sir, Your Belt has worked wonders with my back. It was very bad, but it seems quite strong now, and my general health is built up again in these few months far beyond my best expectations. In short, I count your Belt a heaven-sent blessing to me and my family. I cannot recommend it too strongly, as I feel it my bounden duty, as well as my greatest pleasure, to testify truly, as I feel it my bounden duty, as well as my greatest pleasure, to testify truly.

TROS. JORDISON.

GET SOME LIFE INTO YOU

What's the use of dragging your legs about like a wooden man? Feel like a man of spirit. Away with the aches and pains; off with this wretched feeling as if you were seventy years old and had one foot in the grave. Come and let me put life into your nerves; let me give you a new supply of youthful energy. Let me make you feel like throwing your chest out, and your head up, and saying to yourself: "I'M A MAN!" Let me give you back that old feeling of youthful fire, vim and courage. I can do it, so that in two minutes you will wonder that you ever felt so slow and poky as you do now. Act to-day. Life is sweet, so enjoy it every minute.

CIVIL SERVANTS TO BE PAID BETTER SALARIES

Sir James Whitney Speaks of the Increased Cost of Living—Chauffeurs Scored.

If there were any civil servants within the precincts of the legislature yesterday afternoon, they heard what must have made their hearts glad. The house was in committee of supply and the subject under discussion was increase in salary.

"In view of the increased cost of living," declared Sir James Whitney, "I am sure we would have been justified in granting a much larger increase than is being given. I can hardly understand how the average employe of the government can raise and educate a family in this City of Toronto on the salaries that have been given."

Hon. A. G. MacKay, concurred in the remarks of the premier. He would like to know, however, what system had been adopted in striking the schedule of increases.

Hon. Frank Cochrane explained that they were awarded largely according to merit.

Mr. Studholme said he understood the premier to begin at the top. If he couldn't understand how the \$1500 man could live on that about the \$200 man? The latter should yet the first consideration.

Hon. Col. Matheson explained that it was mainly the lower ones that were getting the increases. "I found," he said, "that they were leaving the service, getting into debt, etc."

D. J. McDougall (E. Ottawa) speaking of the enforcement of the automobile law, wanted the chauffeur made responsible for recklessness. As it was at present, the owner was prosecuted and the chauffeur continued to go his reckless way.

Hon. A. G. MacKay introduced his bill in amendment to the power act. It declares that the public works act shall apply in the matter of the acquisition of easements, that responsibility for accidents or damage to the crops, orchards, vineyards, land, fences, plantations, buildings, contents of buildings, farm implements, live stock, or any other property, or to the persons of the owners, occupiers, or other persons lawfully on the land or premises over which the transmission of lines runs, shall be with the commission, whether negligence is shown, or not, and that they may sue without a fiat of the attorney-general.

Mr. Proudfoot's bill to amend the Municipal Act, which places the fixing of the remuneration of county councillors in their own hands, was allowed to pass its second reading, and to go to committee, on the understanding that the principle of the bill was not approved of the committee.

Mr. Hoyle's bill to place the beginning of the close season for muskrat on Nov. 1, instead of Dec. 1, was sent to the fish and game committee. The time had come, he said, for protection of the mink.

A number of other bills were passed their second reading, and others put through committee.

Mr. Reed (Wentworth): Gives notice that he will on Tuesday next, the 22nd inst., move for an order of the house for a return of all awards by any arbitrator or board of arbitration, to settle disputes between the hydro-electric power commission, and those over whose lands the commission have taken easements.

Mr. Ferguson (Simcoe): Bill to amend the ditches and watercourses act. Mr. Brower: Bill to amend the electric railway act.

SCHWAB IS OPTIMISTIC OVER OUTLOOK FOR STEEL

NEW YORK, Feb. 18.—Chas. M. Schwab, president Bethlehem Steel Co., takes a conservatively optimistic view of the steel situation. He says: "Iron production of country is now running at rate of considerably more than 30,000,000 tons a year. Increase in steel capacity over last ten years has been considerably more than 10,000,000 tons."

Municipal Debentures. Messrs. Wood, Gundy & Co. were the successful bidders for the \$45,000 City of Moose Jaw, Sask., 4 1/2 per cent. debentures, due 1949. Moose Jaw is one of the most important railway centres in the west and its securities are very highly regarded.

HAVE MACKAY COMPANIES ALREADY REALIZED?

NEW YORK, Feb. 18.—Town Topics to-day says: "We stated some days ago that the Mackay Companies' American Telephone stock had to a large extent been already realized upon. It is now stated that a semblance of authority that nearly 80 per cent. of the \$2,000,000 shares formerly held in bulk by the Mackay Companies has been distributed through the market and by private sales to investors."

Finley Barrell wired J. P. Bickell, resignation of John D. Rockefeller, Jr., from the Steel Trust is rumored. We believe that the market is still a measurable distance from the top, but would be conservative and take profits on sharp rallies, maintaining a trading position on the long side.

Three Elephants Run Amuck. SAN FRANCISCO, Feb. 18.—Three elephants owned by a showman broke away from a street parade, and for thirty blocks ran amuck. With crowds scattering in pursuit the elephants took to the sidewalks, and many persons had narrow escapes of being trampled. Swearing into a butcher shop, the big beasts paused long enough to half wreck the place, then headed for a saloon where they tossed ed barrels and kegs about. They were finally cornered in a vacant lot.

Prisoner Cuts His Thumb. PLYMOUTH, Mass., Feb. 18.—Borrowing a pen knife from one of his keepers in the Plymouth County Jail on the plea that he wished to trim his finger nails, W. L. Fowler, awaiting sentence after conviction on a charge of obtaining money by promises to marry. He drew the blade of the knife across his thumb to-day and bled to death before a doctor could reach him.

Wall Street Market Irregular Prices Are Fairly Well Held

New York Stocks Show Few Changes During a Day's Business—Toronto Market Quiet and Steady.

World Offices. Friday Evening, Feb. 18. Speculation was only a minor quantity in the dealings at the Toronto Exchange to-day. Prices in the main were firm, and in some instances higher than yesterday. As usual the operations during the afternoon were small.

WALL STREET POINTERS. Kansas City reports opening of spring trade promising. C. H. and D. now earning all charges but nothing in sight for the stock. London fortnightly settlement begins Wednesday.

WALL STREET ADVICES. Joseph says: Tractions are still very good. Earnings of B.R.T. are making wonderful growth. The coalers are still the climbers. Better give attention to Ontario & Western. Rock Island, like the sun, 'do move.' Hold some Coppers and St. Paul.

REGULAR DIVIDEND ON LEAD. NEW YORK, Feb. 18.—The regular quarterly dividend of 1-1/4 per cent. was declared on Natural Lead common.

ON WALL STREET. Erickson Perkins & Co. had the following: While there were many cross currents in to-day's stock market, with evidence of heavy profit-taking by prominent interests and others who had bought lower down, the undertone was good and there were many substantial net gains.

Our diagnosis of the business and financial outlook, as well as the political situation, as given two days ago, is sufficient to explain the improvement in stocks. We pointed out that the Washington situation looks decidedly better. This imparted strength to everything else.

UTAH CONS. MINING COMPANY MAY SUSPEND DIVIDENDS. Irvin H. Broughton, president of Utah Cons. Mining Co., issued a circular to stockholders in which he says that he considers it advisable to suspend dividends at next meeting until benefits from new smelting contract, which will be in force in a few months, are obtained.

COAL AND COKE OUTPUT. Shipments of coal and coke originated on Penna lines east of Pittsburgh and Erie for January totalled 6,083,169 tons, increase 1,120,221 over previous year.

New York Metal Market. NEW YORK, Feb. 18.—Standard copper on the New York Metal Exchange was dull to-day, with spot and all forward deliveries up to the end of May closing at

Exports reported to-day were 1118 tons, making 19,259 tons so far this month. Arrivals, 425 tons. Tin was easy, with spot quoted at 32.10 to 33.30; Feb. 18, Mar. 18, April and May at 33.00 to 33.20. Lead—Dull; spot, 1.50 to 1.60. New York: 4.90 to 4.85. East St. Louis, spelter dull; 33.00 to 33.20.

Bodies Mummified in Mine. CHERRY, Ill., Feb. 18.—Eleven bodies of miners were recovered from the St. Paul Coal Mine to-day. To the amazement of veteran mine inspectors, the bodies, entombed since Nov. 13 last, were found to be almost perfectly mummified.

The Corporation has issued and outstanding \$1,875,000 7% Preferred Stock cumulative from January 1, 1910, and convertible at any time into Common Stock, and \$8,125,000 Common Stock. The Board of Directors has announced the first quarterly dividend of 1 3/4% on the Preferred Stock payable April 1, 1910.

The accounts of the Amalgamated Asbestos Corporation, Limited, were audited by Messrs. Deloitte, Plender, Griffiths & Company, of New York and London, and Messrs. Macintosh & Hyde of Montreal.

IMPORTANT FEATURES OF THIS ISSUE:

Net Earnings June 1 to December 1, 1909 \$348,161.67 Bond Interest for above period 187,500.00 Surplus 1160,661.67

12 Months' Net Earnings of Properties preceding merger, 550,961.83

Unfilled Orders January 1, 1910, of value of \$3,344,547.36

The Corporation owns and controls about 8,019 acres of land almost entirely situated in the vicinity of Black Lake and Theford, from which districts the greater portion of the world's supply of Asbestos is now obtained.

About 80 per cent. of the output of these districts is controlled by this Corporation. There is no known substitute for Asbestos and the demand is constantly increasing.

Present Stock Exchange prices for the shares of the Corporation and the equity in the bonds indicate a market equity following the bonds of more than \$4,600,000, which only in a small measure indicates the intrinsic equity behind this issue.

Bradstreet's Trade Review. Montreal reports to Bradstreet's say a healthy tone prevails all branches of trade here. Retail trade is reported brisk for this time of the year.

Montreal reports to Bradstreet's say a healthy tone prevails all branches of trade here. Retail trade is reported brisk for this time of the year. The weather has been more or less seasonable and as a result drygoods shelves are being pretty well cleared of winter lines. Dealers are beginning to show spring goods. Wholesale and retail trade are being pretty heavy. Western shipments are unusually plentiful in all lines.

Toronto reports to Bradstreet's say there are now signs that spring trade will open briskly and that the expected large turnover of goods will materialize. Wholesale and retail trade are being pretty forward and retailers are beginning to show the goods in their windows.

Winnipeg reports say trade during the past week has been rather more active, largely due to colder weather. Winter stocks are being cleared up and wholesalers are in receipt of some sorting orders. Montreal reports to Bradstreet's say a healthy tone prevails all branches of trade here. Retail trade is reported brisk for this time of the year. The weather has been more or less seasonable and as a result drygoods shelves are being pretty well cleared of winter lines. Dealers are beginning to show spring goods. Wholesale and retail trade are being pretty heavy. Western shipments are unusually plentiful in all lines.

FARMER'S STOCK PAGE

PLANT MORE HOGS.

There is money in hogs. There can be no question about that, because the demand exceeds the supply, and the market price is soaring away up into the realms of sure profit.

It is also certain that packing houses all over Ontario are empty. Their cellars are languishing for a few sides, a ham or a shoulder to relieve the monotony of this insistent demand.

Never before in the history of Ontario was there met such a scarcity and never before were conditions so favorable for successful prosecution of pig-feeding operations.

In six to eight months after the litter has arrived they may be hauled to the market and the farmer's pockets be swollen with a comfortable sum. His two farms this week told us that his one sow had brought him in a gross return for the past eleven months of \$1,200.

And he was telling a big truth. Another man may have a streak of bad breeding luck, but success is not the exception, it is the rule. Let a farmer select a good breeding strain of his favorite breed and then if he can't make money during the next season's operations with a good sow or two, he is indeed a nondescript in his calling.

There is no probability that hog production will catch up with the demand for at least three years to come and prices next fall will be as high as they are now, said a live stock man in Toronto yesterday who knows.

If farmers in Ontario will emulate the example of those who have planned ahead by a liberal supply of roots, a pasturage of oats, clover and peas, and a pasturage of barley, peas, and field corn, or a soiling crop of rape, they will be able to put the cost of production down so low that \$3 per cwt. will mean a big profit on their money invested.

Another man who made the study asserts that with the present prices of milk, cheese and pork, it would pay our farmers to feed the milk to the pigs and bigger returns would be gotten.

Get the pig-feeding habit now. Plant more good seed and then next fall the returns will begin to come in assuredly, for a drop in price seems beyond the range of possibility. Again we urge—feed more hogs.

Prices for farm live stock are soaring again, because the goods are scarce. Toronto markets paid \$8.75 for hogs this week. It is most gratifying to the World and must be to our readers, to know that The World was the only daily in Toronto that told this to the farmers this week. The others had \$8.50 as the high watermark, but the ubiquitous editor of the live stock department knows the ins and outs so well on the alphas that little escapes him, and so the readers get the values—and why should not the farmers get the benefits? They have broad shoulders and support navies, mergers and combines, and pay the whole bill. It is only fair play that they get every cent coming to them by way of live stock appreciation.

Cattle are stiff in tone. A carload of butchers' cattle sold Thursday for \$6.25; choice ones are quoted as high as \$6.25. The outlook for prices all thru the spring is rosy indeed.

MFARLANE'S SALE.
Big crowds assembled at Claremont on Thursday to attend James McFarlane's big sale of live stock and farm implements.

By reason of the throbbing advertising in The World everybody who wanted a horse was there. The day was bitterly cold, but the sleighing and horse accommodation at the barn good. They were a good natured crowd and bidding was fairly maintained thru-out.

The horses formed the chief centre of interest, for the fame of his carriage team had spread. In this department R. M. Holtby of Manchester was one of the biggest bidders, and although Bob always makes a good starting bid, he is a thorough judge of horse-flesh. He secured the pick of the sale in a big 5-year-old gelding, the imported mare and the team of drivers, the latter going for \$15.

SALE CALENDAR.
J. M. Madill's sale of Yorkshire swine, sheep, horses, cattle, implements, etc., at farm near Greenwood, Ont., March 3.

Annual Clydesdale sale of fillies at the Union Stock Yards, Toronto, March 4.

Arthur Johnston's sale of Scotch and Scotch-topped shorthorn cattle at his farm, Greenwood, Ont., March 5.

MADILL'S SALE.
James Madill of Greenwood, Ont., has rented the farm and will quit farming. His big stock of Yorkshire hogs, grade Cotswold sheep, 27 cattle and horses will be sold by auction on March 3. Keep this date.

Live Stock Markets Do Big Week's Trade

In Spite of High Prices and Slack Supply the Week Shows Big Run.

In spite of a diminished farm supply of live stock, the returns at the two Toronto stock yards during the past week have been decidedly encouraging to the dealers. Over 110 carloads of stock was the increase of this week over the corresponding week of last year. While this swelling of business has taken place at both yards, the big increases came from the Union Yards, which, as will be seen by the accompanying tables, were some 57 carloads more.

Prices are also on a high level, the recent ephemeral boycott not proving a very great offset to prevailing prices. Nor indeed could it. Our language for the time was strong in denunciation of the move as a blind-folded piece of artillery. It acted as a boomerang, and despite the laugh that such logic evoked, circumstances of the week have proved the correctness of the theory. At Chicago prices rose the next week and to-day we have higher prices in Toronto. It could not be otherwise, for the cause of the high prices of farm products at the yards is due to supply and demand. Wise men never play with such weapons as these. The following figures tell the story of the week. They are compiled by the live stock editor, whose

Total Live Stock.

Cars	179	154
Cattle	279	279
Hogs	253	115
Sheep	98	131
Calves	185	28
Horses	3	348

The total receipts of live stock at the City and Union Yards for the corresponding week of 1909 were:

Cars	129	128
Cattle	279	279
Hogs	253	115
Sheep	98	131
Calves	220	29
Horses	3	348

The above figures show a total increase of 50 cars and 33 calves for the week. At the City Yards there was an increase of 14 carloads, 125 cattle, 288 hogs and 3 horses, but a decrease of 54 sheep and 56 calves.

At the Union Yards there was an increase of 57 carloads, 153 cattle, 27 hogs, 27 calves, 51 horses, but a decrease of 12 sheep.

THE FARMSTEAD.

Ontario is enjoying plenty of snow. The Ontario farm is still good enough for us.

McFarlane had an immense crowd at his sale this week.

W. H. Major of Whitby reports farm trade to be booming in that good vicinity.

And still record prices are being made in hog prices. The meat boycott was short lived.

Are you planting any trees this coming spring? What looks worse than a treeless farm?

Jacob Burkholder of Cedar Grove lost a valuable Yorkshire brood sow that ate half-dressed pumpkins.

W. H. Tran of Markham Township, Ontario, reports that he has been cured of his recent illness, a out again after his recent illness.

Auctioneer Maw of Whitby reports business as good around that old country town.

R. M. Holtby of Manchester leaves for Brandon with a carload of valuable horses on Tuesday next.

The farmers will stand to gain in the matter of apple shipments by the removal of the German surtax.

Oshawa had an excellent Fruit Institute this week. Messrs. F. W. Fisher, of Burlington, Robert Thompson, of St. Catharines and L. Caeser, P.A., of Guelph, handled their subjects well.

Robert Bell of Gormley reports his herd of shorthorns doing well. Since leaving his farm near Bradford Mr. Bell has made good.

Many persons will grieve to learn of the death of Pickering on Friday of George Leng, whose farming operations in that place have been well known.

Drivers at the Union Stock Yards are learning gradually that feeding meat there does not pay.

Have you spotted your men yet for the spring supply of poultry and eggs? Do not deal with any old person, go after reliable men. You can depend on what you read on the Farm Page regarding the reliability of poultry and

Thomas Andrews of Pickering, John Gormley of Pickering, W. F. Disney of Greenwood and John Sinclair of Pictou are advertising in this issue. Write them for their prices and speak ahead for sittings.

If you go to Arthur Johnston's shorthorn sale, you will be so pleased with the young heifers, the matrons and the bulls, that you will want to take one home. Remember the date.

Any farmer who has seed grain for sale should advertise before the farmers in this page now, and he will be surprised to learn how quickly he will be all sold out at good prices.

J. E. Disney and W. P. Jones are advertising in this issue their syndicate Clydesdale stallion, Holystone Chief, Imp., for sale. Here is a horse that has left some of the most high priced colts in Pickering and Whitby townships.

His reputation is good. His present condition is O.K., and the buyer who does well to get in touch with the sellers at once.

Have you read Joe Wing's book on alfalfa yet? If not you are missing a great treat. As nearly every one knows Joe Wing is the staff correspondent of The Breeders' Gazette of Chicago and knows more about alfalfa than any other living man.

The book is well written and entertaining thru-out. Anyone can secure a copy by sending \$2.00 to F. M. Chapman, Farm Editor, at Pickering, Ont.

To do a thing well is a pleasure. The satisfaction felt at doing a thing right and bringing it to a successful ending is worth all the trouble and expense. However, if you wish to sell, buy or exchange any article, real estate, live stock, pet stock, poultry, etc., you can accomplish your purpose, and accomplish it to the best advantage as well, by referring to our classified columns for selling and buying. Make these columns your market place.

PASSING OF SHORTHORNS THAT HAVE MADE HISTORY

The Dispersion of Arthur Johnston's Herd at Greenwood Points a Long Career.

When Arthur Johnston will have dispersed his herd on March 3, there closes a career in the shorthorn world that may well be the envy of many a farmer and breeder. Early in life a school teacher, Mr. Johnston soon saw in the breeding of pedigreed shorthorns a more creditable to-do, and with such interest attached to it, as to occupy the energies of the most enthusiastic. Consequently he quit school, assented to a partnership with Mr. David Birrell, and began a business that expanded at once into a continental reputation for Cotswold sheep and shorthorn cattle.

In the eighties he began to do a business that expanded at once into a continental reputation for Cotswold sheep and shorthorn cattle. In the eighties he began to do a business that expanded at once into a continental reputation for Cotswold sheep and shorthorn cattle.

Others in point of volume of business transacted. It is said that he imported as many annually as did any other breeder. This came to be the basis of his operations was the well-known Greenwood acres situated on the seventh line of Pickering, and the Laurentian Hills that extend in one unbroken stretch across a province.

He has told the story of shorthorn cattle breeding. This soil has become richer and richer, until to-day it is far more productive than it was in its virgin days. What more market in its operations, is his country in localities flowing with milk. He has no less than three, and the last one is the biggest of all, a pure spring water bubbling at his door at the rate of three or four pails per minute. This soil has become richer and richer, until to-day it is far more productive than it was in its virgin days.

Every one of his present herd are money makers, and visitors to the farm when Col. May Jones fields the hammer on March 3, will be given a chance to plant of the good seed that has selected.

CLYDESDALE SALE.
Attention is called to the annual sale of Clydesdale fillies and stallions at the Union Stock Yards on March 4. All ready there are forty imported fillies and stallions, and also a number of good mares, all registered in Canada. Parties requiring a good farm brood mare, or a young stallion must keep this date in mind. Write Herbert Smith, care of the Union Stock Yards, for further information.

CATTLE MARKETS.
Cables Steady—Hogs Higher at East Buffalo.

A ROYAL FOWL.
The above cut is from an actual photograph of the first prize cockerel at the New York Show, 1909. It is the grandchild of the pullet in John Gormley's pen, No. 1, as told in his liner advertisement in this issue.

This cockerel is claimed to be the most valuable bird in America, and his stock in Mr. Gormley's hands is so good that single birds have been sold at fancy prices, and have won wherever shown. The barring is perfect, the body shape first-class, and his carriage faultless.

GEORGE LENG IS DEAD.
PICKERING, Feb. 18.—(Special.)—For a lifetime George Leng has farmed the big two hundred acre farm near Pickering, which he sold last year. Farm page readers will remember the dispersion sale of his Shorthorn grade cows which brought such record prices last week.

Unfortunate as it may seem, his cessation from active farm management has militated against his health and he succumbed to an attack of pneumonia this morning.

Deceased has lived here all his life, with his father before him on the same lands. As a farmer and stockman, he was always in the front rank, and in politics he was a staunch conservative, and has been the leading force in his part of the township in maintaining an efficient organization. He died at a time when he was about to be made a justice of the peace, as Pickering is without one.

PINGLE'S SALE.
Attention is directed to the dispersion sale of shorthorn cattle, hogs, pigs and implements belonging to Wm. Pingle, lot 18, con. 6, Unionville P.O., Ont.

These cows and heifers are fine large size and of the kind that make beef. The cow first named on his bill has already 24 descendants. She is a big deep milking cow. Another due at time of sale will weigh 1600 lbs. The young heifers are all good big ones, and these are all the types we should maintain on our Ontario farms. The bull is also a big one, weighing about 1900 lbs. at two years of age. Go to the sale and do something.

NEW YORK DAIRY MARKET.
NEW YORK, Feb. 18.—Butter—Firm; receipts, 5336; creamery, special, 1 1/2c; extras, 20c; third to first, 2c to 2 1/2c; held, 2c to 2 1/2c; process, 2c to 2 1/2c; western factors, 2 1/2c to 2c.

Good Friday Concert.
The third, this season, of Mr. Campbell's deservedly popular concerts, will be held in Mason's Hall, at 1005 Queen St. W., on Friday, March 25. The talented secured will include Jessie Alexander, favoring the men in that direction, favorite soloist; Harold Jarvis, Canada's ever popular tenor; the 887 Highlanders' Band, a fine double male quartet, etc.

DRESSED POULTRY IS OUR SPECIALTY.

LINE SULPHUR SPRAYS FOR FRUIT TREES SUCCESS

Interesting Discussions at Fruit Institute at Oshawa Recently.

OSHAWA, Feb. 18.—(Special.)—The work being done by the fruit institutes throughout Ontario will be told better in the fruit returns a few years hence.

A two days' meeting closed here last night after one of the most successful and interesting convention in the history of South Ontario.

Fruit growing has become a business in this country, where formerly a few big orchards were known to return their owners a large lump of money in certain favored years, but which were always regarded as a side issue to grain and stock farming, there now may be seen scores of farmers whose first aim is the well being of their apple trees.

The two days' session here was devoted to the application of line sulphur sprays, and marketing, with all going concerns. This true that myriads of pests have been revealed, which are fighting the fruit growers. New crawling, sucking insects, and dark, insidious sporadic cankers and scabs are doing their best to keep poor apples and weak trees as the chief stock in trade for the farmer.

But the work of science and study has been able to combat these evils. Man does not need to be faintly as the old lesson of fighting for everything he gets, but he goes about it in a businesslike way and wins out.

The Scale is a Blessing.
"The San Jose Scale has been the greatest blessing the fruit growers ever had," said Lecturer L. Caesar, B.S.A., of Guelph, "inasmuch as it has made investigation become the handmaid to our progress."

The two days' session here was devoted to the illustrated addresses and discussions by such men as Robert Thompson of St. Catharines, W. F. Fisher, ex-secretary of the Dominion Grange, and a prominent fruitman of Burlington, and local growers.

The chief point brought out were the efficiency of line sulphur as an insecticide and fungicide, the good effects of Bordeaux mixture, and the necessary use of observation, of our progress by the ordinary farmer, and to one's planting and care.

As an instance of the latter, Mr. Fisher said that Baldwin did best with them on light soil, while in South Ontario, Baldwin took the best clay soils.

Baldwin Best on Heavy Soil.
"Over the ridges, in that good district, surrounding Port Perry," said Elmer Lick, "the Baldwins, on the lighter soil all winter killed, but so on the heavy soil did well."

Again Penaukes proved a very poor tree with Mr. Fisher, while here his tree was most vigorous in its habits. The life histories of the various fungi and insects were described by L. Caesar, who detailed his experiments on properly sown white and green manures, such as clover and pullet manure, and sulfur sprays were proving most efficient. Three sprays were essential and these should be enough. The first should be just before the buds burst, the second just as blossoms fall, and the third just after fruit formed.

The presence of blackheart in many Baldwins was commented upon. "It is just possible that this may be a bacterial disease," remarked Mr. Caesar. R. J. Mackie, gave a demonstration in grafting that was of particular interest. It is easily seen that grafting can be done by the ordinary farmer with success if only the essentials are known.

J. H. Hare, B.S.A., local representative of the department of agriculture, has been making some experiments the past season in Mr. Treval's orchard, north of Oshawa, and obtaining good results.

Farmers from all surrounding districts were present. Apple canker is bad in some orchards. Effective ways of dealing with the trouble were outlined. This consisted in painting the diseased parts with white lead, Bordeaux and then painting with white lead mixture.
