PRISONERS DISPOSED OF IN CIRCUIT COURT TODAY

Timothy Garnett Sent to Jail for Six Months.

Nicholas DeLory, Rachel Burns and Catherine Melanson All Charged With Theft Allowed To Go—Settlement Probable in Mulhern-Berryman Case.

The circuit court case of James Mulhern against Dr. D. E. Berryman, which has been anticipated with interest, and in which the plaintiff seeks to recover \$1,500 as damages for alleged neglect in dressing a wound on his hand, was to have come up at the court house at 9:45 o'clock this morning before His Honor Mr. Justice Denington; but at the request of the defendant's counsel was made a remanet with a view to settlement.

After some little delay his honor directed that Nicholas DeLory, who had been acquitted by the jury on a charge of stealing a trunk and other articles, including a couple of watch chains from Ernest Wilson at Mrs. McDonald's boarding house, Fairville, on November 11th last, and Timothy Garnett, charged with obtaining goods on bogus orders, supposed to have been signed by Quinn & Co., be brought into court.

His honor ordered Timothy Garnett to stand up and told him that for a young man he was charged with a very serious crime, and that he had to go to the penitentiary, as in the first place he wanted to give him an opportunity to resign his good name and secondly because the life employers had, in a letter asked him to be as lenient as possible, as the prisoner had previously been faithful to his duty.

His honor then sentenced Garnett to six months in the St. John county jail, the term dating from November 26th, last. The Attorney General, with stealing, Nicholas DeLory charged with stealing, discharged as he had no further reason for detaining him.

Rachel Burns and Catherine Melanson who were recently committed for trial on evidence of Frederick Pace, who charged them with stealing \$15 from him were located were discharged. His honor informed the women that he thought the attorney general had acted very wisely in the matter, and pointed out to them that although they had been given their liberty they were none the less liable for the crime with which they were charged and if by no means followed that they would not be called upon to answer for it should the evidence of the prosecutor ever come before a jury.

The non-jury case of Purty vs. Porter, set down for hearing at 2:30 o'clock this afternoon. Hon. H. A. McKeown appears for the plaintiff and G. H. V. Belyea and W. B. Wallace as counsel for the defendant.

The two Italianas charged with shooting Antonio Ciodoppi at Nigger Brook, near Musquash, were to have been sentenced this morning, but owing to the absence of the interpreter, were remanded till this afternoon.

There being no further business to come before the petit jury, they were discharged and adjournment was made till 2:30 o'clock this afternoon.

A telephone message from Upper Gagetown, N. B., was given to the effect that the ice had completely melted for the past few days had been weather for the return a few days ago it was possible to walk across the river at Upper Gagetown.

PRaises THE LIBERAL RULE

Hon. Wm. Patterson Says the Laurier Administration Has Vastly Increased Canadian Trade.

WESTON, Ont., Dec. 12 (Special)—Hon. Wm. Patterson, M. P., speaking at a meeting at the town hall here last night in the interest of Dr. P. D. McLean, of Woodbridge, liberal candidate in Centre York, referred to the foreign trade of the country and stated that while the conservative government had increased foreign trade for the last eleven years of their rule \$200,000,000 in the eleven years of liberal rule the foreign trade had increased \$300,000,000.

Mr. Patterson referred to the great magnitude of the resources of Canada and asked the question why the conservative had not developed them. The liberal candidate, he declared, had done much during his eleven years of rule to develop Canada's products and while there was a hill now there was no pennyance about it.

TORONTO, JET., Dec. 12 (Special)—Hon. Adam Beck, addressing the meeting held here last night under the auspices of the local branch of the Canadian Public Ownership League, regarding the proposal made by President Roosevelt for the United States government to make arrangements with Canada for the purchase of pulpwood, Mr. Beck said that if Canada put a prohibitive duty on pulpwood the United States might retaliate by cutting off the supply of coal, and it was therefore most important that they should develop their white coal mine at Niagara.

MONCTON NEWS

MONCTON, N. B., Dec. 12 (Special)—The record for late navigation is being made on the Petiscoe this year by the steamer Wilfred C. of the Shepody Navigation Company. The steamer is still running and from present indications will continue to do so until Christmas. There was a little ice in the river last week, but it has all gone out with the wind of mild weather. Business has been exceedingly good on the river this season, and so heavy has the traffic been that the company will probably purchase another steamer next spring. There is a heavy traffic between Saint River, Alma and Waterville, points that are not on the present steamer's regular schedule.

The committee from the O. R. T. is in Moncton today to confer with General Manager Pottinger in reference to their schedule. Mr. Pottinger, accompanied by Mrs. Pottinger, returned this morning from Ottawa.

CANADA AND AUSTRALIA

Canada Resents the Trade Policy of the Australian Commonwealth.

OTTAWA, Dec. 12 (Special)—In the estimates for 1908-9 presented to parliament last evening, the subsidy for the Australian steamship line from Vancouver to Australia has been dropped. It amounted to \$180,000. This subsidy expired in August next and evidently it is not to be renewed. Although the service is not what it should be, it is not the real reason for the discontinuance of the subsidy.

As a matter of fact, Australia's treatment of Canada in regard to trade matters is not such as to encourage this country in providing trade facilities for the commonwealth when the latter continues to place obstacles in the way, instead of meeting the dominion government's repeated offer of a preference. The Dominion government presented as one time to be anxious for a trade arrangement with Canada but they have not only left Canada out of the preferential list but have turned the tariff against it.

HIRAM AND THE DENTIST.

Mr. Hiram Hornbeam is convinced that St. John is a town subject to sudden epidemics and that man can get a lot of fun out of his experience here — if he has a vein of humor, and the pain is not too severe. To the Times new reporter Hiram yesterday gave an illustration of what is meant by these observations. "I got an old tooth," said Hiram, "that's been giving me some trouble. I made up my mind yesterday I'd have the old snag filed or pulled—I didn't much care which. Well, sir, I went to a dentist. When I got there, they were three gals in the office, and the dentist was busy with somebody in the operatin' room. I said 'good-day' to the gals an' 'set down. I guess they didn't feel like talkin' for they just looked me over an' said nothin'. Nice lookin' gals, too. Well, sir, I got there—an' they set there. I 'pose we waited quarter of an hour. Then another gal walks in. Then a young feller comes in. Before long in comes another gal. The lady I seen here long till in comes a man. That made eight of us settin' around there, an' the dentist still busy in the operatin' room. "I guess," says I, "toothache must be in the air down here. Looks like it—don't it?" "Nobody said a word. They looked at me as if they thought I was makin' too free with strangers. Maybe I was, but out to the Settlement we're just as sociable when we've got toothache as we are any other time. By the time it was gettin' dark, an' when the dentist feller come out an' looked us over I seen he was worried. I ast him if it was his teeth— I did—by Hen! 'Well, sir, jist then the bell rung agin, an' I grabbed my hat, an' says I, 'if you'll excuse me I'll call tomorrow. I'm obliged to you fer lettin' me set here, an' I hope you'll get some rest to-morrow mornin'.' He shook hands with me an' I got out. I met two more gals goin' in. I guess I'll go home, tie a string around that old snag, fasten a flat iron to the string, an' let the flat iron drop. Great weather—ain't it? Good day."

EMPERESS WILL HAVE BIG LIST

Empress of Britain Will Sail Tomorrow Afternoon With Very Large Number of Passengers.

A large number of passengers for the steamer Empress of Britain arrived in the city today. To accommodate the large number the Montreal train was brought down in two sections, the second train following about an hour after the first one. The Empress of Britain will probably get away tomorrow afternoon and like her sister ship, the Empress of Ireland, will take away one of the largest passenger lists that ever left St. John. The bulk of people for the homeland shows no signs of abatement, as all the steamers leaving during the next two weeks will be taxed to their capacity.

FRESH FISH ARE SCARCE And Consequently Prices For All Lines Have Considerably Advanced.

Security of fresh goods is the cry among local fish dealers today, and as a result prices in both wholesale and retail markets have taken a leap skyward. Fishermen are receiving ten per cent more for fresh haddock, in consequence of which many haddocks are commanding seven cents a pound instead of six, wholesale, and nine cents instead of eight, retail. Kippers and blotters have advanced from twenty-four to thirty-six cents a dozen in the retail market.

MURDERER'S BULLET ENDS BORIS SARAFFOFF'S LIFE

Tragic Finale to the Career of Lawless Macedonian. Believed To Have Instigated the Abduction of Miss Ellen M. Stone the American Missionary—He Was Leader of Macedonian Revolutionists.

SOFIA, Bulgaria, Dec. 12—Boris Saraffoff, the most famous of all the leaders of the Bulgarian bands in Macedonia was shot dead at the threshold of his home today by Macedonians who at the same time shot and killed another revolutionary chief named Gavriloff while the latter was in the act of bidding Saraffoff farewell.

Boris Saraffoff was appointed commander of the Macedonian revolutionary forces that made so much trouble in the summer of 1903. His name was prominent in all the uprisings in Macedonia against the Turks, and he was popularly believed to be the instigator of the abduction of Miss Ellen M. Stone, the American missionary from the Vilayet of Saloniki, in September, 1901. His hatred of the Turks was imbedded at an early age through sectarian father and grandfather tortured, dragged off in chains to a dungeon and then transported for 15 years.

At the age of 16 he attacked single handed the prison in which his father and grandfather were confined, but he was flogged for his pains. The boy avenged himself on the Turks, and studied at this end, becoming an officer in the Bulgarian army.

In 1888 Saraffoff formed a band of deserters to lead Turkish territory. Since then he has headed no less than 300 expeditions into Turkey. Once he captured the Turkish town of Melnik with forty men, putting the garrison to flight. Saraffoff was familiar with hundreds of miles of tracks through the forests and mountains of Turkey. His aim was to organize a vast rebellion with the object of securing Constantinople and overthrowing the dynasty of the Sultan. The Turkish government set a price of \$20,000 on his head. He was about 37 years old.

Saraffoff was the organizer of the Macedonian committee. His pronounced methods made him many enemies among his own followers.

PRESIDENT TUTTLE KNOWS NOTHING OF B. AND M. DEAL

Head of the Boston and Maine Railway Says He Has Heard Rumors of a Change But Can Not Verify Them.

BOSTON, Dec. 12—Concerning the report of the negotiations for the transfer of the holdings of Boston & Maine stock by the New York New Haven & Hartford Railroad Co. to some other corporation, President Tuttle of the Boston & Maine says: "I know absolutely nothing about it. I have heard rumors for the past two or three weeks, that some such proposition was being considered but I have known nothing about its details. Certainly I have no voice in the matter, as a corporation has nothing to do with it and I have no means of knowing what individuals may be planning."

As to Mr. Mellen's statement that the people generally would be one of these days waking to a realization of the fact that the Boston & Maine would have been better in the New Haven treasury than in the hands of these to whom the big stock is to be sold, Mr. Tuttle remarked: "That is simply a question of individual opinion, we are not disposed to concern ourselves much about the future and we certainly are not worrying about the ultimate destination of the Boston & Maine system."

Wm. B. Lawrence, treasurer of the Boston & Maine road, who represents a large number of shares in the Boston & Maine stock and who has been active in organizing the proposed merger of the Boston & Maine with the New Haven said: "If a sale of any kind is in prospect very likely it is to the New York New Haven & Hartford Railroad Co. There are various indications that this road is working together with the New Haven and that I should not be at all surprised if some sort of deal were made."

MONTREAL, Dec. 12 (Special)—When asked about the report that the C. P. R. was negotiating with the New York New Haven & Hartford Railroad for a controlling interest in the Boston & Maine Sir Thos. Sturges, chairman of the board of directors of the road which now holds the controlling interest declines to name the negotiators and intimated that the deal was far from completed. President Tuttle of the Boston & Maine disavowed any knowledge of the deal while President Mellen's report was confirmed by Vice President Brynes of New Haven.

The Boston & Maine has played a prominent part in New England politics and advice from Boston say the report is a bluff to lighten the mass of the legislative into leaving the matter to outside control.

26-28 CHARLOTTE STREET, Opposite City Market. ALEX. CORBET, Manager

The Captain of the Kansas

By LOUIS TRACY.

(Entered according to Act of Parliament of Canada, in the year nineteen hundred and seven, by Melmed & Allen, at St. John, N. B.)

He did not stop to ask himself if solitude for the unfortunate wounded in the night were of any avail. His mind was clear, the habit of command strong in him. Now until the sea claimed him would he cease to rule. The clank of pulleys, the cries of the sailors heaving at the ropes, told him that the crew were at work. At last he was free to go to the bridge.

He found the quarter-master in the chart-house on his knees. When the ship struck, the officer of the watch had been thrown headlong to port. Recovering his feet before a tumbling sea could fling him overboard, he hauled himself out of danger just in time to take part in the fray on deck. He came back now, hurrying to join the captain. Courtenay, standing in the shelter of the chart-house, was peering through the flying scud to seaward. The sea was darker there than it had been for hours. Around the ship the surface was milk-like with foam, but beyond the area of the shoal there seemed to be a remote chance for a boat to live.

"We're on a sort of breaker, sir," said the second officer.

"Seems like it. Is the ship hard and fast?"

"I am afraid so."

"I think the weather is moderating. Go and see how the barometer stands."

"Steady improvement, sir," came the report.

"Any water coming in?"

"Mr. Walker said he thought not."

"Perhaps it doesn't matter. Try to get the first life-boat lowered. Let her carry as many extra hands as possible. We have lost two boats. But do not send any women in her. If all is well, let them go in the next one. Take charge of that yourself."

"Would you mind trying this handkerchiefly just here, sir?"

The second officer held out his left forearm.

"Were you knifed, too?" asked Courtenay.

"It is not much, but I am losing a good deal of blood."

"The brutes—the unreasoning brutes!" muttered the captain. As he knelt the linen into a rough tourniquet the other asked:

"Shall I report to you when the first boat gets away, sir?"

"No need. I shall see what happens. When she is clear I shall bring the ladies to you."

Pride of race helped those men to talk as collectedly as if the ship were laid alongside a Thames wharf. They knew not the instant the Kansas might lift again and turn turtle, yet they did not dream of diverting a hair's breadth from their duties. The second officer went aft to carry out the captain's instructions. Courtenay followed a little way, passing to leeward of the chart-house, until he reached his own quarters. There was no door on that side, but light streamed through a couple of large port-holes across which the curtains had not been drawn. He looked in. Elsie was leaning against the table to balance herself on the sloping deck. She held Joey in her arms. She seemed to be talking to the dog, who answered in his own way, by trying to lick her face. The glass was so blurred that Courtenay could not see that she was crying.

"Better wait," he muttered, and turned his gaze seaward again. Yes, there could be no doubt that the almost unbroken swell within half a cable's length of the ship promised a possibility of escape. There was no telling what dangers lay beyond. To his reckoning, the nearest land was twenty miles distant, but the shoal water might extend all the way, and, with a falling wind, waves once disintegrated would not regain any considerable force.

PROTECTS YOU FROM CATARRH

Just Breathe "Catarrh" and You're Insured Against Colds, Coughs, Bronchitis and Catarrh.

As the only way to reach catarrh is by inhaling medicated air, it follows that the healing balsams of Catarrh-ozone can't fail to cure. It is a purely vegetable, anti-septic, soothing and heals wherever it goes. The germ-killing vapor is inhaled at the mouth and instantly spreads through all the breathing organs. Every trace of bronchitis and catarrh is rooted out, and such health and strength is imparted that these troubles never again return.

Catarrh-ozone has cured thousands, and here is quoted the experience of Mrs. James A. Tweedie, of Jay Bridge, Maine, who sent for sixteen outfits of Catarrh-ozone for friends in her locality. This lady gives very full particulars why she did so. Her daughter, fourteen years old, had doctored for Catarrh, obtaining no benefit, tried lots of other remedies, but all failed—recommended by a neighbor to try Catarrh-ozone. Instead of despairing as she had good reason for doing, she obtained Catarrh-ozone, and before it was done, as she states, she was completely cured. No wonder she recommends it. Child had drooping in the throat, hawking, spitting; father thought she was going into consumption; could not sleep at night, and added: only wish anyone suffering from Catarrh to give it a fair trial; any druggist will enable you to do this for they all sell it—your money back if Catarrh-ozone does not benefit you.

Complete outfit is guaranteed, price \$1.00; small (trial) size 25c; all dealers or N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A.

BLACK AND WHITE HIGH STYLE MILLINERY NOTE. The magpie color combination which is more or less of a favorite each season is quite the fad in high class millinery this year. The most beautiful hats that have been seen this winter are those of black or white velvet or silk beaver with the trimmings in sharp contrast. The pictured model is the fashionable Gainsboro of black velvet with a double satin binding.

master appeared. "Thank God!" she said, all of a flutter now that the solitary waiting for a death which came not was ended. "I feared I should never see you again. Is the ship lost?"

THE KIDNEYS AND BLADDER

Readily Relieved By This Simple Home Mixture Which Anyone Can Prepare, of Pure, Harmless Ingredients.

Here is a prescription that anyone can mix at home. Any good prescription pharmacy can supply the ingredients named at little cost; being composed of vegetable extracts, it is harmless and inexpensive. Best of all it does its work well, relieving even the worst forms of bladder trouble, frequent urination, backache, kidney complaints, and by its direct action upon the eliminative tissues of the kidneys, makes these most vital organs rid the blood and system of uric acid which causes rheumatism.

Here it is: try it if you suffer. Fluid extract, Dandelion; one fluid ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in spoonful doses after each meal and at bedtime.

A well known local druggist is authorized to state that one week's use shows good results in nearly every instance, and such symptoms as lame back, frequent desire to urinate, pain in bladder and even chronic rheumatism are generally relieved within a few days, the pain and swelling diminishing with each dose.

Stanfield's Underwear

(Chapter 6)

After the best wool has been selected, washed, shrunk, combed, spun and knitted—the pure woolen fabrics go to the cutting room. Just as the tailor and dressmaker cut out garments by hand, so in the Stanfield mills, all the cutting is done by hand.

Some Underwear is cut out by machinery. Now, we have machines which do what human hands can't do. 18 of our spinning machines spin as much yarn as 16,546 spinning wheels. 88 of our knitting machines knit as much underwear as 17,234 women with needles—and do it without a dropped stitch or broken thread.

But we have never seen a machine that could cut out cloth as well as can be done with shears in the hands of a skilled cutter. This is why Stanfield's Underwear is cut by hand.

On the other hand, all Stanfield's Underwear is sewed by machinery. It is quicker and better, because the sewing machines are run by electricity and because they sew inter-locking stitches, which make it impossible for seams to ravel.

As fast as garments are completed, they go to the laundry, to be washed by being revolved in big machines for an hour to determine that they are absolutely unshrinkable. Then each garment is tested on models—which range in size from 22 to 70 inches chest or bust measure—and its size thus exactly determined.

When you buy Stanfield's Underwear, you know that you are getting Underwear

- made of the purest, strongest wool
- that can't rip or ravel
- that won't shrink or stretch
- that fits perfectly
- that wears longer.

Your dealer has all sizes and weights or can easily get them for you.

We'd Rather Count Dollars Than Broken Lots of Overcoats.

THAT'S WHY THIS SALE IS. And we're cheerfully taking fewer dollars than the Overcoats are worth, for the sake of adjusting the stocks.

Because of the extensiveness of this business, lots won't sell out evenly in the regular way. If we only sold a few dozen Overcoats in a season, we could figure on sizes fairly well—but we make and sell several hundreds, and there's no way to hit a correct average.

WHERE DOES THE PAPER GO?

The first question asked by a general advertiser. The *Telegraph* and *Times* reach that class of people who subscribe and agree to pay for the reading privilege. These papers go first hand from the publishers by carrier and not through street boys to be left in office or store by purchaser after reading. Common sense teaches that every paper passed into homes direct will be read. The *Telegraph* and *Times* are home papers. Do they contain your advertisement?

PROVIDE WORK The city of Ottawa is grappling with the problem of unemployed labor to which the Times has been directing the attention of those in authority in St. John. The Ottawa Citizen says: "Providing work for unemployed people, particularly immigrants arriving in the city at a very inopportune time, is proving somewhat of a problem for the people of the city charity department, the rescue mission and other organizations engaged in such work."

EFFICIENCY OF LABOR The Iron Age, in a recent issue made the following statement: "The gravest evil from which this country, the United States, is now suffering, graver by far than the exaggerated dangers from monopolies or from freight rebates, is the decline in the efficiency of labor."

Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

No other remedy has done, or can do, so much for those who are almost driven to distraction with the torturing, and so thousands of signed testimonials can testify to.

Mrs. Jno. R. Keady, Linton, N.B., writes: "I was so troubled with Eczema for a long time. It came out on my face and between my shoulders."

TURKEY STUFFED WITH GOLD AND PRECIOUS GEMS

Contents of its Crawl Would Stock a Country Jewelry Store if Properly Prepared.

DENVER, Col., Dec. 11.—When the family of Nelson J. Campbell, custodian of the state capitol, sat down to their Thanksgiving dinner, Mr. Campbell announced to the assembled guests:

"Now all of you must prepare to enjoy this dinner—the turkey stuffing especially, incidentally, you may name what kind of stuffing you will take—gold nugget, silver nugget, amethyst, moonstone—just name the kind you want, and it will be dished out to you. It is not often you have the opportunity to sit down to a Thanksgiving turkey which is stuffed with gold and silver and precious stones."

In the crawl of the turkey were found the following valuables: Four gold nuggets, assaying \$65,000 a ton, three silver nuggets, assaying \$4,000 to the ton; one amethyst, value not known; twelve moonstones, value not known; one turquoise, three emerald tips, three halves of marbles, particles of twine and a point of a knife blade.

Mr. Campbell was offered \$50 cash for the output of the turkey's gizzard, but refused it. The bird was bought from a commission company for \$1.25. Mr. Campbell discovered it was shipped to Denver from El Paso, Tex. The commission firm that handled the turkey shipment from El Paso through its shipper has secured a lease on the mineral lands on which the turkey grazed, and will at once take out a mineral patent under the mining laws of the United States.

THE CANTATA DANIEL

Excellent Production Given by the Choir of St. Luke's Before a Large Audience.

St. Luke's choir, assisted by outside talent, delighted a large number last evening with the sacred cantata Daniel. The church was crowded, there being scarcely standing room. Much favorable comment on the pleasing performance of the singers was heard. The whole was under the direction of Chas. Ritchie and the following soloists took part: Miss Louise Knight, Miss Constance Sturdes, S. J. McGowan, A. C. Ritchie and John B. Howe, while a trio was sung by Misses Sturdes, Farmer and Rubins. A good chorus of 60 voices gave effective rendering of the concerted parts. This was the first work of magnitude given by the choir since J. K. Scammell became conductor for the cantata. The presentation makes those present hope the choir will soon again be heard in a similar work. After the cantata the choir were entertained to light refreshments by Choirmaster Scammell.

VERDICT FOR PLAINTIFF

The Wilson-Bell Case Ended Yesterday Afternoon.

The Wilson-Bell case, which has been before the court for the past few days, was settled last night when the jury, after being out three hours, returned a verdict in the plaintiff's favor, assessing damages at \$179.87. The jury also found that on Oct. 1st, 1906 the plaintiff owed Mr. Bell the same amount (\$179.87), that while the verdict was ordered by his honor to be entered for the plaintiff for that sum, the parties to the suit have had their accounts balanced by the jury and Mr. Bell is out of the costs of the proceedings. It is not probable that there will be an appeal. A. W. MacNae, K. C., and J. A. Sinclair represented the plaintiff and W. H. Trueman represented the defendant. The case of Mulhern vs. Dr. D. E. Berryman, in which the plaintiff claims \$1,500 alleging negligence on the part of the defendant, came up this morning at 9:30 o'clock.

AND WILLIAM SMILED

It was a time of storm and stress On Ottawa's terraced hill, When men their inmost souls confess And never needs to cry from ill. The hours sped on toward noon One voice rose clear and shrill. There sat Sir Wilfrid grim and white Before that torrent wild. And faced in fear the awful sight Of Al. Kemp's nearly rickety chair. One man alone displayed no fright, Sweet William smiled. "Speak out," cried Kemp with angry screech, "You member for St. John, 'Tis hard on any child, to beseech 'I dare you to come on 'And show us if that Fairville speech 'Was not a game of con.' Then 'em Sir Wilfrid turned him round Gazed at that visage mild, But in that face no change he found, As bland as any child, With eyes demurely cast around Sweet William smiled. Then followed fast Armand Lavergne From ancient Mo-man-ye, And said: 'For truth I simply yearn 'Who'll furnish it to me? 'The awful details I would learn 'Of corruption in N. B. 'Till me what men put up the dough 'Whose were the dollars piled 'Who bought the votes for cash and so 'The doctrine defiled? 'Then in a sigh appeared his round Sweet William smiled. The storm was spent e're well begun. Back to their seats they fled, Lavergne and Kemp beaten, undone Defeated and beaten. To answer his questions won. Sweet William smiled.
