ST. JOHN, N. B., FRIDAY, MARCH 17, 1922

SIXTEEN PAGES—ONE CENT

## FOR COLLINS AND GRIFFITH

### Boston Irish Repudiate De Valera Leadership.

### Clash in the Streets of Cork—Griffith Warns Against Holding of Irish Republican Army Convention.

Boston, March 17.—The leadership of De Valera was repudiated and his policy of external association with the British Empire was repudiated in a resolution passed last night at a meeting of the Friends of Irish Freedom at their St. Patrick's day dinner. Loyalty support was pledged to the provisional government of Ireland under the leadership of Collins and Griffith.

### Forbids Convention.

Dublin, March 17.—Arthur Griffith, president of the Dail, has addressed the following note to the ministry of defence: "It is quite evident to the unanimous Dail cabinet that at the army convention contemplated for March 26, it is proposed to endeavor to remove the army from the control of the government elected by the people, which is the Dail Eireann. Such a move is illegal and you are hereby informed that the holding of the convention is forbidden."

### Clash in Cork.

Cork, March 17.—Four persons were wounded in a clash at midnight between persons following the Little Green republican police. The members of the procession ignored orders to disperse and shots were exchanged. One of the wounded was a policeman.

### New York.

New York, March 17.—Irish residents of the five boroughs of the great city of New York joined together today to demonstrate the joy that was theirs on the dawn of what promises to be a new era of prosperity for the Little Green Isle. There was every indication it would be the biggest St. Patrick's day in the city's history. The day's biggest event was a parade which is to make its way between the big shops and wealthy homes of Fifth avenue, from 24th street to 119th. Thirty battalions, or divisions of "greens of the green" has been arranged for.

## SAY ULSTER WILL YIELD NO LAND

### Speeches at Orange Meeting in Killeel Last Evening.

Belfast, March 17.—Not an inch of Ulster territory will be yielded to southern Ireland, said speakers at a Killeel Orange meeting last evening.

Harry Mulholland, a member of the Ulster parliament, son of Lord Dunleath, said the Orangemen had decided to have nothing to do with the boundary commission provided for in the Anglo-Irish treaty. "Before we yield an inch of our territory to the rebels, they will have to kill 20,000 or 30,000 Orangemen," he declared. "If such a thing is attempted thousands of Orangemen in the colonies will flock to Ulster's aid."

Lady Craig, wife of the Ulster premier, said the premier's recent tour had resulted in a deterioration of his party never to allow an inch of territory to be sliced from Ulster.

Field Marshal Sir Henry Hughes Wilson, who is formulating plans for maintaining order in Ulster, arrived in Belfast today from England. He will leave for a tour of the border after consulting Home Secretary Bates. Men sentenced recently at Enniskillen to long terms of imprisonment in connection with the kidnapping raid have begun a hunger strike in the Londonderry jail.

In Belfast the protest of the Sinn Fein prisoners against their confinement has taken a novel form, the men refusing to exercise.

## HALIFAX GETS FOOT OF SNOW

Halifax, N. S., March 17.—A foot of snow fell in Halifax last night and this morning, succeeding a period of spring-like thaw which had melted away the greater part of the winter's heavy snowfalls.

## NEWFOUNDLAND BONDS

Montreal, March 17.—It has been announced that the government of Newfoundland has sold to the Dominion Securities Syndicate an issue of six million dollar five and half per cent. twenty year bonds, payable in New York at 98.75 American funds.

## MISSIONARY MEETING.

A very largely attended missionary meeting was held last evening under the auspices of the Women's Missionary Aid Society of the Tabernacle Baptist church, with the president, Mrs. Mary Colgan, in the chair. Mrs. C. I. Clarke of Fairville gave a missionary address on Bolivia, outlining the Baptist missionary work and the moral and religious atmosphere of the people. The meeting was sung by the pastor, Rev. A. L. Tedford. Lantern slides of Bolivia were shown by Mr. Cowan of the Main street Baptist church. The slides were furnished by the Baptist mission board.

TO WED MICHAEL COLLINS.

Miss Kitty Kiernan, a pretty young Irish girl, who is to be married to the Irish Free State Chief soon.

## FATHER BEDE IN ST. PATRICK DAY SERMON

### Eloquent Address This Morning in Cathedral by Missioner of Passionist Order.

One of the most eloquent and inspiring St. Patrick's Day sermons ever heard in the city was delivered in the Cathedral this morning at the ten o'clock mass by Rev. Father Bede, C. P., one of the mission fathers from West Hoboken. He traced the life of Ireland's patron saint and in an impressive manner showed how the faith had been spread throughout the world by the teachings of the sons of that land.

Rev. W. M. Duke, rector at the Cathedral, was the celebrant at high mass. He was assisted by Rev. A. P. Allan, deacon, and Rev. Raymond McCarty, sub-deacon. His Lordship Bishop LeBlanc was in the sanctuary.

Before the mass and at the offertory Irish airs were played on the organ by the organist, Arthur S. Godwin, who also played several selections on the chimes after mass. Tonight before the mission service at seven o'clock, Mr. Godwin will give an organ recital of Irish airs, the programme of which will cover about half an hour.

### The Sermon.

Many of the mysteries we find in nature, Father Bede said, cannot be explained. In the supernatural also there are mysteries beyond the understanding of man, but having the light of faith, the supernatural presents no difficulties to us. The light of faith will give us an explanation. And so it is that while we may see the natural effects of the mission of St. Patrick to a pagan nation, it is only in the supernatural effects that we can realize the real significance of his work. He went there as God's ambassador.

Man, he said, can see what others do, but only one who has the key to the secret interior of that soul knows what prompted the action. St. Patrick was a free-born child of noble parents, but in his sixteenth year was taken prisoner and held amongst the pagans of Ireland. Here he saw the light of God's grace; how he had forsaken God and broken his commandments, and this is what brought him to a life of sin, during which he, in the rain and the sleet and cold, bore his suffering patiently for his sins and for the conversion of sinners.

When God saw this youth so willing to serve Him, He sent an angel to guide him and return him to his family. There was great rejoicing and they begged him to remain. But the voice of Ireland was heard calling him back once more. Under the direction of St. Martin, a relative of his mother, he received his instruction and St. Patrick received the inspiration of God to go back to Ireland and preach His gospel. But this inspiration was not sufficient—he required the command of the voice of Christ's vicar. He was further instructed by St. Germain and received his consecration at the hands of Pope Celestine. While he was preparing for his mission there were many reasons why he could not turn his attention to foreign lands, for many and determined attempts were being made on the continent to separate the people from God.

It was with the memory of this that St. Patrick reached Ireland. He found there a people with a high sense of justice, law and order and to them did he deliver his message from God. To them it was a strange doctrine, but they were fascinated by his message and there was created there a Catholic nation—a holy people. It was through this man, preaching a strange doctrine, not flattering the people, but opposing their prejudice with the apostolic zeal of God's messenger, that the change was wrought.

## GRAND LODGE OF ONTARIO EAST

Smith Falls, Ont., March 17.—Yesterday's session of the Grand Orange Lodge of Ontario east was taken up with hearing reports connected with the progress of the order and the compilation of statistics. Strongly worded resolutions protesting against any change in the assessment act received hearty endorsement from the delegates.

It was decided that the next meeting of the Grand Lodge would be held in Picton, Ont. All of last year's officers were re-elected for this year.

## BOSTON STRIKE IS ON.

Boston, March 17.—Five hundred members of the iron and brass moulders' union went on strike yesterday in fifteen foundries affiliated with the Foundrymen's Association of Boston as a protest against a wage cut of five cents an hour.

## TWENTY KILLED IN AFRICAN RIOTING

### Natives Revolt Over Arrest of Indian Agitator.

### Riot Act Read Only to Bring Advance of Mob Against Police—Military Arrive and Fire, Killing Twenty and Wounding Thirty.

(Canadian Press Cable.) London, March 17.—Twenty natives were killed and thirty wounded at Nairobi, British East Africa, yesterday, in fighting which followed demonstrations over the arrest of the Indian agitator Thuku, says a belated Central News message. Thuku was arrested on Wednesday, and trouble immediately followed. About 1,000 natives armed with sticks assembled before the police station and demanded his release, but were dispersed by police forces, who used their bayonets.

Early yesterday a strike of house boys and other native workers was announced and further disturbances occurred, in which large numbers from the surrounding district participated. Mobs halted fishwives and forced all Europeans to alight and walk. The efforts of armed forces to clear the streets proved unavailing.

When the situation became menacing the riot act was read and the demonstrators were exhorted to disperse quickly. Instead, they advanced toward the police palisade, waving flags and shouting. Women were used as shields by the men to delay the police fire. Meanwhile military forces had arrived and, upon the mob attempting to rush the palisade, were ordered to fire. Fifty of their number cut down by the bullets, the remainder of the mob stampeded. Following this occurrence the demonstrations ceased and at the time the despatch was filed the situation was characterized as normal.

As the city hall closes at one o'clock and no arrangements have been made for keeping the change in tax rates after that hour, payment of taxes will have to be made in the morning.

## FRANCE WILL PAY HER DEBTS, SAYS THE PREMIER

Paris, March 17.—Premier Poincaré told the finance committee of the senate yesterday that France will pay all her debts, as has been her custom. This declaration is interpreted by the press as intended to correct the impression made by Louis P. Loucheur's speech in Lyons last month in which he said it was his belief that France would never be able to pay a sou of her debt to the United States.

### AUSTRALIA TO HELP BRITISH BOYS TO GET TO THAT COUNTRY

London, March 17.—(Canadian Press)—The Australian commonwealth government yesterday announced its intention of assisting 200 British boys monthly and South Australia's immigration scheme.

## POSTPONE ACTION ON ST. JOHN BILLS

### Municipalities Committee of Legislature Met Today—Evening Sessions of the House Next Week.

Fredrickton, N. B., March 17.—The municipalities committee met this morning and organized. Mr. Hayes chairman, and J. P. McPenske, secretary.

The committee recommended, with amendments, bills relating to the town of Dorchester, to authorize York to effect temporary loans, to authorize Chatham to issue debentures, to incorporate Perth and Amherst for electric light, heat and power, and relating to Bathurst debentures.

Bills relating to St. John city assistance and town of Campbellton debentures were allowed to stand until Wednesday to permit of delegation being heard. The debate on the budget will be continued this afternoon by Lewis Smith of Albert. He probably will be followed by O. W. Wetmore of Kings for the government. Mr. Fawcett, leader of the opposition, will speak at the first of the week. Evening sessions are expected to commence next week.

## PRESENTATIONS MARK MEETING OF CIRCLE

The sewing circle of Dominion Lodge No. 18 met at the home of Mrs. Albert McKinnon, 154 Union street last evening. The usual business of the circle was carried on. The officers of the Happy Home Club announced that a dance will be held on next Tuesday evening was postponed until Wednesday evening. Several members who have been on the sick list were welcomed back and all were glad to see them. Mrs. Theodore Vallis received the sympathy of the Circle in the loss of her mother, Mrs. J. A. A very pleasant surprise awaited two of the members, Mrs. Frank Lodge, 98 St. James street and Mrs. Albert McKinnon, when they were called upon by Mrs. Stacey to accept, on behalf of the circle a gift in pyrex was in honor of their wedding anniversaries just past. Although taken entirely by surprise both replied thanking the members for their thoughtfulness. Dainty refreshments were served by the hostess. Fifteen members were present; some others were reported sick. The next meeting will be at the home of Mrs. S. Wood, 77 Hawthorne avenue.

## As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I was in Moncton yesterday."

"Was you lookin' after them three Robby fellers?" queried Hiram. "I was," said the reporter. "Did the chief of police ask you to stay there a spell?"

"On account of my youth," smiled the reporter, "he encouraged me to come home. He said the cells would be full, anyhow."

"I bet them Moncton folks give you a good time," said Hiram. "They are the salt of the earth," said the reporter.

"An' the place is growin' all the time," said Hiram. "I'd like to see you fellers down here wot see their smoke. You'll see Moncton spread out an' take in Sunny Brae an' Fox Creek an' the Mountain Road an' a slice of Albert County. An' about that time Fairville 'll be takin' in St. John—Yes, sir."

## TAXES MUST BE PAID TOMORROW

### If Not, Then No Vote in the Election in Which Hydro Will Play a Part.

Tomorrow, March 18, will be the last day on which taxes in arrears can be paid in order to entitle taxpayers to a vote at the coming city election. It has been pointed out that at the question of hydro distribution will be one of the outstanding factors in the coming contest, as many citizens as possible should maintain their right to have a voice in this important matter. If they are in arrears so far as the chamberlain's office is concerned they will be denied the privilege of voting their convictions in the matter.

## Head of South Africa Federation Taken—Two Rebel Leaders Declared Suicides.

Johannesburg, March 17.—Joe Thompson, president of the augmented executive of the South African industrial federation, has been arrested in connection with the mine strike.

Two rebel leaders, Fisher and Spendiff, who were found dead in trades hall at Johannesburg, after the bombardment of the city by government forces, committed suicide, according to an official statement. Their bodies bore shrapnel wounds, but it is thought these came after their deaths.

Sydney, N. S. W., March 17.—The Sydney labor council, representing 100,000 trade unionists, yesterday adopted a resolution expressing whole-hearted sympathy with the South African trade unionists in their "fight against the armed forces of capitalism," and promising the utmost support. The resolution also urged workers to organize to prevent armed forces from being used in Australia to reduce wages as it alleged was done in South Africa.

## REGULATIONS FOR AIR FORCE

London, March 17.—The Sydney labor council, which has passed a resolution expressing sympathy with the South African trade unionists, according to Reuters' correspondent at Melbourne, Australia, a red flag is flying at half mast at the trades hall in Melbourne.

## Hon. Mr. Chamberlain Makes Announcement in the British Commons.

London, March 17.—Stating his conviction that the greatest danger to Great Britain in the future might well be from an action from air forces, Hon. Austen Chamberlain, leader of the government in the House of Commons announced yesterday that the standing committee of the committee on Imperial defence had arrived at the following conclusions:—

First, that the air force should be autonomous in matters of administration and education.

Second, in case of defense against air raids the army and navy must play a secondary role.

Third, in cases of military or aerial operations, the air force must be in strict subordination to the general or admiral in supreme command.

Fourth, in other cases, such as the protection of commerce and an attack on enemy harbors and inland towns, the relations between the air forces and the other services shall be regarded as a matter of co-operation.

## SUGGESTS PLACE FOR WOMEN ON HALIFAX CITY COUNCIL

Halifax, N. S., March 17.—Whether or not the privilege of offering for mayoralty or aldermanic honors in Halifax will be extended to women, will be considered at the next meeting of the Halifax city council.

A moment of tense silence, followed by a chorus of protests, greeted Alderman John Regan's notice of motion yesterday that he would move that women be admitted to civic honors.

## OBJECTS TO LABOR LEADERS FROM THE STATES

### General Smart, in the Quebec Legislature, Hopes International Unionism Will Disappear.

Quebec, March 17.—(Canadian Press)—General Smart, who opened the labor debate in the house yesterday especially objected to interference in the domestic affairs of Quebec province by labor leaders and agitators from the U. S., which of late years, he said become particularly offensive. He said that great credit was due to a number of unions that had already broken British-American connection and expressed the hope that the day was not far distant when international unionism would disappear from this country.

He contended that American leaders had sacrificed the interests of Canadian workmen in many instances. He further expressed the belief that there should be compensation provided when unions were obliged to forego their investments in the international unions and suggested that the federal government pass legislation providing for such compensation out of public funds.

## ARREST IN MINE STRIKE CASE

Head of South Africa Federation Taken—Two Rebel Leaders Declared Suicides.

Johannesburg, March 17.—Joe Thompson, president of the augmented executive of the South African industrial federation, has been arrested in connection with the mine strike.

Two rebel leaders, Fisher and Spendiff, who were found dead in trades hall at Johannesburg, after the bombardment of the city by government forces, committed suicide, according to an official statement. Their bodies bore shrapnel wounds, but it is thought these came after their deaths.

## ANOTHER FRENCH STEAMSHIP IS SEIZED BY GREEKS

Athens, March 17.—News has been received here of the seizure of another French steamship alleged to be carrying contraband of war destined for the Turkish Nationalists.

The Greek government appears to have reached a deadlock with France over the case of the steamship Espézie, which was seized last month, but which was reported released March 2, the cargo, however, being held.

## WILL HAVE TO BUY SEED GRAIN

Ottawa, March 17.—(Canadian Press)—Reports of agriculture conditions received by the seed commissioner, through the soldier settlement board, it is said, confirm reports reaching him from the inspectors of the seed branch that most of the farmers in Ontario, Quebec and the maritime provinces will have to purchase their supplies of seed grain this spring.

## MONCTON FIRE

Moncton, N. B., March 17.—Fire which started about two o'clock this morning in the Barker brick building, corner of Main and Luts streets, caused damage estimated at between \$10,000 and \$15,000.

The building is occupied on the ground floor by I. W. Keirstead's druggists and W. D. Charters, general clothing, and the stocks in both of these stores suffered considerable damage principally from water.

## ARBITRATE BRITISH CLAIMS AGAINST MEXICO

London, March 17.—Negotiations are proceeding with the Mexican government for conclusion of an agreement for the submission to arbitration of all British claims against Mexico.

## GUARD AGAINST JAP INVASION

### Hon. H. H. Stevens in Ottawa Speech.

### Says They Have Canada's Pacific Coast Charted and Mapped—Speaks Against Relaxing Laws re Immigration.

(Canadian Press)

Ottawa, March 17.—The Japanese have every foot of the Pacific coast charted and mapped, which would be a great benefit to them if the growing tendency of the Orientals to move towards the Pacific increases, said Hon. H. H. Stevens, M. P., who spoke in St. Andrew's church here last night. His subject was Asiatic immigration. He contended that the Oriental problem required careful consideration as it was one of the most vital difficulties which Canada had to face. Even in some of the centres of population in Ontario the people were commencing to realize that the Orientals provided a problem that required serious consideration.

Mr. Stevens said he did not entertain any racial prejudice in connection with the question. It was the wrong of right of Canadians to determine who should enter the country and Canada should not endanger the country's progress by carelessly opening the doors to any immigrant. British Columbia had been in constant fear that the regulations might be relaxed and the influx commenced.

In British Columbia practically every saw mill was operated either wholly or partially by Asiatics. Within a few years the fishing and fruit industries had been manned by Orientals and today it was the exception to encounter white men employed in the fishing smacks or in the orchards.

He desired to emphasize that the immigration barriers should not be lifted, but in the case of the Far East natives should be strictly enforced.

## WARNS MARINERS OF ICE DANGER

### U. S. Hydrographic Office Issues Statement re Steamship Lanes.

Washington, March 17.—The hydrographic office of the navy department issued a warning to mariners that the north Atlantic steamship lanes, normally used from February 1 to August 31, may be rendered hazardous by presence of extensive ice-fields. The lanes were described as those crossing longitude 47 west in latitude 40 degrees 30 minutes north east bound; and latitude 41 degrees 30 minutes west bound.

"Ice may be expected to threaten these lanes any time after April 1," the statement said, making their continued use hazardous. "When ice conditions render it imperative to safety, this office will issue definite explanations as to the routes to be used." It is announced that recent reports from the coast guard cutter Seneca indicated an unusual amount of ice south of Cape Race.

## COAL SITUATION

New York, March 17.—Negotiations to avert the threatened closing of the anthracite coal mines of the nation were expected to reach a climax at 11 a. m. today when operators were to present their reply to the 19 wage demands submitted by the miners in a joint conference last Wednesday.

Absolute secrecy had been maintained as to the nature of the reply. It was clear that the government's position of 74 mine operators after Secretary of Labor Davis had caused it to be understood that the government was threatening to involve the public by cutting off its supply.

Complete acceptance of the 19 demands of the workers was not anticipated in any quarter of the conference.

## INCORPORATION OF LABOR UNIONS IN QUEBEC

Quebec, March 17.—(Canadian Press)—The question of compelling labor organizations in the province of Quebec to become incorporated, was debated in the legislative assembly here yesterday. The general tone was hostile to the international unions, but there also had their defenders amongst labor members of the government, notably Hon. L. A. Lacombe, minister without portfolio.

## SPARROWS TAKE FOUR.

In the Y. M. C. House League last evening the Sparrows took four points from the Falcons. The winners won their first two points quite handily, but were forced to extend themselves in the third. The individual scores follow:

Sparrows	Total	Falcons	Total
Copp	81 95 107 283	McGrath	68 84 88 239
Shinclair	85 74 71 230	Magee	77 82 88 247
Harrington	88 84 287 852-3	Nixon	73 79 89 241
Brown	88 80 102 290 862-3	Power	79 78 82 240
	489 480 483 1322		375 391 446 1214

The next league game will be played Saturday evening at 7:30 o'clock between the Rollins and the Swans. This evening there will be no regular games, and a good opportunity will thus be afforded those striving to win the special weekly

Zion Ladies' Aid will hold a pantry sale Saturday, 18th, commencing at 11 a. m., 14 Wall street.

IRISH MUSIC AND FLAGS TONIGHT

A St. Patrick's night dance is being held at the Gardens tonight. The orchestra will play a programme arranged to suit the day, and Irish flags will be given to patrons. A good time is promised. Tomorrow afternoon from four till six a balloon dance for the younger dancers.

WARNER'S CORSETS

We are carrying a full line of the Warner corsets, so widely advertised in this paper, and inasmuch as Mrs. Gunn just recently returned from New York, where she took a comprehensive course in the fitting of back-laced models as well as front, you would reap much benefit in consulting her before buying your spring corset. Corset Specialty Shop, 8 King Square. 8-18

RETURN OF MAUD ADAMS.

(Christian Science Monitor.) Joyous anticipation alone can be occasioned by the news that Maude Adams is to return to the American stage next season. Her long absence, mainly due to ill health, has been deplored by those who love all that is fine and wholesome in our drama. Miss Adams occupies a place apart. She is the Peter Pan of our day. No one can play Barrie's play as she can and no one can quite manifest that whimsical tenderness that is so much a part of her art.

Toast—and Marmalade for Breakfast

BREAD—plain or toasted—is the staff and mainstay of life; it is also the most inexpensive food product in the world. Therefore, upon the quality of the bread depends the vitality of a nation.

FROM NOW ON eat more bread—eat better bread—insist on only the best. This is the guarantee that goes in every bag.

Our "MONEY BACK" Guarantee.—Robin Hood Flour is guaranteed to give you better satisfaction than any other flour milled in Canada. Your dealer is authorized to refund the full purchase price with a 10% penalty added if, after two bakings, you are not thoroughly satisfied with the flour, and will return the unused portion to him.

ROBIN HOOD gives this guarantee BECAUSE—

- (1) It is milled from the choicest hard spring wheat only.
(2) It is milled on the prairies right where the wheat is grown.
(3) The wheat is purchased direct from farmers thus avoiding elevator mixtures.
(4) No milling process is as up-to-date or as thorough.
(5) Each package contains all flour—no filler—no flour dust, therefore it actually has much greater strength (takes more water) yielding more loaves of light, flakey bread at every baking.

We know it is Better, otherwise we could not afford to give this Unqualified Guarantee

A POTENT FACTOR IN THE COMMUNITY—THE Y. M. C. A.

Business People Are Asked to Subscribe \$8,000 on Wednesday Next.

The Y. M. C. A. must pay its bills, and \$8,000 is needed for that purpose this year. Read what Kipling might say and remember when the cashier calls on Wednesday, March 22, that it ain't the words of encouragement, but the funds that you will pay. That will fill the canvassers full of pep and make them win the day. It ain't the talk of hard times nor the price of food and coal, but the exhilarating "come across" of every blooming soul. If you realize that the Y. M. C. A. through its work among the young men and boys of the city—its social activities—its ever ready aid to the stranger amongst us, and the boy who needs the guidance of many men—its educational and physical classes, and its teaching of true manliness—is helping the youth of St. John to be worthy to carry on in this community of ours. Then you will see how important it is that every man should subscribe toward the upkeep of such an institution. DON'T SAY NO. 8-17

RICH JOHN DODGE GETS FIVE DAYS

Son of Auto Man Also Fined \$100 for Speeding.

Detroit, March 17.—John J. Dodge, millionaire son of the late John F. Dodge, Detroit auto manufacturer, was sentenced to five days in the recorder's court here yesterday when he admitted driving his auto twenty-three miles an hour, three miles in excess of the speed limit. He was taken to the jail.

MORNING NEWS OVER THE WIRES

J. A. C. Ethier, of Laval-2 Mountain, was elected yesterday as chairman of the Liberal caucus at the meeting of the party in the railway committee room.

The Restigouche and Bay Chaleur Soldiers' Memorial Hospital at Campbellton was opened yesterday afternoon. A detachment of returned soldiers was on hand. Rev. F. E. Boothroy, of the Methodist church, and Col. T. E. Newcomen, M. C., gave addresses.

At the afternoon session of the Rotary conference in Moncton yesterday afternoon, the Rev. F. E. Boothroy, of the Methodist church, and Col. T. E. Newcomen, M. C., gave addresses.

Four men in disguise yesterday entered St. Bride's Home in Glasgow and killed Sergeant Gibbons and Gilman and seriously wounded a constable. About the same time three men entered the workhouse hospital and killed Patrick Cassidy of May.

During the debate on the Irish Free State bill at London yesterday, Lord Curzon attacked the government, declaring that it had abolished constitutional government.

A bill to change the rule of the road from left to right in Nova Scotia was introduced in the house yesterday. It is intended that a definite date will be fixed on which the new law will come into effect, such date to coincide with similar legislation in this province. A bill was also introduced to fix the residential indemnity at not more than \$1,000 for a session of over thirty days.

AT ITS BEST

The strongest complement ever paid to Scott's Emulsion is the vain attempts at imitation. Those who take cod-liver oil at its best, take Scott's Emulsion.

WHERE HALIFAX LEADS ST. JOHN

The Excellent Record of Its Health Centres for February—1,142 Families Under Supervision.

(Halifax Chronicle.) The chief nurse's summary of the clinic services and nursing activities of the health centres conducted by the Massachusetts-Halifax Health Commission for February shows that a total of 850 medical and nursing consultations were held. Of these 184 were in the child welfare and prenatal division; sixty-two in the pre-school age dental service; 179 in the nutrition classes; six in the eye clinic at Dartmouth; sixty in the nose and throat services; fifteen in the skin service; 129 in three tuberculosis clinics, twenty-eight of these being in the clinic conducted at the Halifax dispensary; and seventy-three in the venereal disease clinic operated by the provincial department of health at Health Centre No. 1.

One hundred and forty-three admissions were registered of those seeking medical advice and treatment; fifty-nine of those previously registered were discharged from the clinic rolls during the month, the larger portion of them to the follow-up service of the public health nurses. At the end of the month 1,882 patients were under medical and nursing supervision at the Health Centre clinic.

Summarizing the field work, this report states that the public health nurses from the centre of Halifax and Dartmouth during February made a total of 2,494 visits to homes in these communities, this large number being made notwithstanding bad weather conditions and the short month of twenty-eight days. At the end of February, 1,899 families were under clinic supervision from Health Centre No. 1, and 421 are being visited by the health nurses where no one is receiving medical care from the commission's staff. From Health Centre No. 2, ninety-six families are receiving clinic advice and medical and nursing guidance, and 290 are being visited by the public health nurses where no advice is being given by the medical staff.

A total of 21-42 families are under public health supervision; 1,498 of them having one or more members attending clinics and securing both nursing and medical advice. Seven hundred and seventy families are receiving nursing advice and instruction in the homes, either where no physician is attending or where a family doctor is attending, the nurse visiting to impress health lessons, or by request of the doctor to help with the medical problems.

The total number of babies under two years of age receiving medical and nursing attention total 870; of these 476 are under supervision of the nurses from Health Centre No. 1; 386 getting both medical and nursing guidance. At Health Centre No. 2, 294 are being visited by the public health nurses, twenty of whom attend the Baby Welfare clinic in the Health Centre.

The tuberculosis examiner studied nine cases of tuberculosis with the family doctors in addition, conducted a total of nineteen public clinics, made a total of seventy-four complete physical examinations in this part of the commission's services; in addition to this work, the tuberculosis examiner made twelve complete examinations in the City Tuberculosis Hospital; gave ten lectures to medical students; one to the public health nursing class; conducted a clinic for the medical school; and read a paper before the Halifax Medical Society.

The laboratory staff studied twenty-three samples from the public water supply; thirty of sputum; eighteen of urine; fifty-five samples of blood to determine the Wassermann reaction; performed additional services, such as making vaccine, and studied chest fluids.

Special features of the report bring out the fact that 108 instructional visits were made to expectant mothers, forty-one of these visits being to homes of women under the supervision of the prenatal clinics.

The pre-school age dental clinics report sixty-two consultations, at which 202 operations were performed; 323 special treatments given; and sixty-five teeth, too badly diseased for treatment, were removed under gas anaesthesia.

In seventy families where the public health nurses were helping with home problems during February, they advised calling in family doctors, and in some sixteen instances where necessary directed entirely free treatment, such medical service was secured in the home by an appeal to the Halifax Dispensary for a district physician.

Among the outstanding visitors to study the Health Centre work and public health activities especially along nursing lines, were Miss Alice Pitt-Gerald, formerly chief nurse of the League of Red Cross Societies at Geneva, Switzerland, now of the International Health Board; Miss Ann E. MacMahon of the Canadian Red Cross in charge of the demonstration on Prince Edward Island; Dr. McCarty, chief of the Venereal Division of the New Brunswick department of health; and Miss Helen J. Macdougall of the Women's Institutes of Nova Scotia.

BETTER THAN HARD COAL

Soft coal so free from soot that it does not make whiskers on stove covers or pipe and does not mat or cake when burning; is far better than Hard Coal for general household use. Quicker to light, takes less to make a fire, cheaper in price and can also be used for open fires and small heating stoves. Such a coal is Broad Cove soft coal. The main thing is to insist on getting the genuine article. No other soft coal burns just like Broad Cove. You will know it by the above characteristics.

SHAKESPEARE AND HIS SOLDIERS

A discerning address in appreciation of some of the soldiers in the plays of William Shakespeare and a comparison of the humanity of these characters with that of the men who gave their lives in the great war, was delivered at a Canadian Club luncheon last evening in Bond's restaurant by Professor Leo Harvey, of the department of English at the University of New Brunswick. Professor Harvey served in France throughout the war himself, having been wounded while there, and he spoke from a personal experience. Previous to the address of the evening, H. A. Porter, who presided, announced that various arrangements of great interest were being made for future meetings of the club. A unique address would, he said, be given by a member of the air board on a subject connected with the aerial navigation of the dominion.

The Evening Times and Star

ST. JOHN, N. B., MARCH 17, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act, 2417.

THE BUDGET.

The budget speech delivered by Premier Foster yesterday will be read with relief and satisfaction by a public which had been awaiting the government's taxation proposals with a measure of anxiety. There is practically no new taxation which will affect the general public, yet in spite of an immense decline in territorial revenue, which will be \$800,000 less this year than in 1920, the government expects a surplus of some \$10,000 at the end of the present fiscal year.

HEALTH OF CHILDREN.

Touching the matter of child-welfare, Miss Florence Taylor told the Child Welfare Association of Montreal recently that fully one-third of the school children of that city were mal-nourished. Surveys in American cities had shown that 20 to 40 per cent. were mal-nourished. Toronto showed a similar condition. Of 80 per cent. of the American army draft who were in this condition because of defects that could have been corrected during school life. There is an economic side to this subject which Miss Taylor discussed as follows:—

WHEN THE PAPER DOESN'T COME

My father says the paper he reads ain't put up right. He finds a lot of fault, he does, perusing it at night. He says there ain't a single thing in it worth while to read. And that it doesn't print the kind of stuff the people need.

LIGHTER VEIN.

"You are charged with going forty miles an hour," said the rural justice, "and you are fined \$20." "Judge," said the motorist, "I've only got \$5."

Hates to Get Up.

We are not interested in the proposal to add another month to the year, but we would like to see a few more hours added to the customary twenty-four, say, for instance, two or three more switched in about the time the alarm clock gets busy.

The Big Belly.

Mrs. Peck, kitchen knife in hand, had poked her meeker half until he ducked for protection into a closet and in trenched himself behind the garments that hung on the hooks.

In a Stew.

The missionary behind benevolently on the native tribe around him. "I will cure them all of cannibalism," he said, hopefully, as he retired to his tent.

There he was soon afterwards joined by a native.

"The king has sent me to dress you for dinner," said the man.

"Ah," smiled the missionary. "How thoughtful of him! You are the royal valet, I suppose?"

"We roped the native, 'I'm the royal cook."

TOOLERATION QUEBEC PROVINCE

An English historian, Castel Hopkins, said of the educational system of the province of Quebec. "This system is absolutely remarkable as having been created in a provincial domain by one race and one religion, yet nevertheless conceived and practiced with perfect equity towards the minority."

Some years ago, the Globe of Toronto published an article in which it stated: "Those who doubt that the population of the province of Quebec is exempt from religious intolerance should study the manner in which the Protestant minority is treated in the matter of education. The two hundred thousand Protestants of the province have nine hundred and sixteen schools supported by the government and controlled by the Protestant committee of the Educational Council. Besides, there is an annual grant to the Protestant high schools, academies and colleges. There are eight Protestant inspectors named by the government. In fact, the Protestants of the province receive more than their share of the money devoted to education if number is the standard of comparison."

As far back as 1864, according to the report of the superintendent of that period, the grant allowed to the Protestants for superior education was as high as thirty per cent, while a grant according to the population would have given them only fourteen per cent.

J. C. Sutherland, general inspector of the Protestant schools of Quebec, wrote a public letter in which he said: "In my opinion in general it is not as well known as it should be that we, who compose the English minority in Quebec, enjoy an absolute home rule in matters of education. The organization, discipline and administration of our schools depend solely on the regulations made by the Protestant Committee of Public Instruction. It is this committee of public instruction which decides what subjects and what languages shall be taught in Protestant schools."

In the same letter Mr. Sutherland adds that the article 98 was inserted in the British North America Act to safeguard the rights of the Protestant minority of Quebec. It was the only province in which it was feared the rights of the minority would not be respected from the time that education was left to the provincial authority.

"Now," continues Mr. Sutherland, "while in the other provinces of the dominion this article has caused so many difficulties in the course of the last forty-eight years, the Protestant minority of Quebec has never been obliged to appeal to it to make its rights respected. It has always been honorably carried out by the Roman majority of Quebec, and in my idea it is a duty incumbent on all Frenchmen to acknowledge it."

The Rev. J. W. Shaw wrote: "The Catholics of Quebec treat us in the matter of public instruction with a generosity which is almost unique. We control our taxes; we have a generous share in government grants; we train our own teachers and we make our own regulations for our schools."

And this broad-mindedness which has governed the making of the law of the schools now in force has always directed the public men of the province of Quebec.

As early as 1827, the Englishman Labouchere, speaking of the French-Canadians, said: "Let anyone point out one single law made by the Assembly of Quebec against the English colonists."

In the course of the debate on Confederation, M. Rose, delegate from Montreal Centre, rendered this striking testimony of the French-Canadians: "We English Protestants can never forget that even previous to the union of the provinces, when all the power was in the hands of the French majority, they granted us without restriction all our rights to the separate schools. We can never forget that they never tried to prevent us from educating and instructing our children according to our own views, and that we have always had our just share of the grants under the control of the French majority, together with every facility of establishing separate schools wherever we so desired."

Dr. Parmelee, the Protestant secretary of the Education Department, wrote in 1915 that nowhere in the world is there an educational system productive of more happy fruits and commercial enterprises than the system of education of the province of Quebec. Protestant education has been free to develop along its own lines in the province of Quebec."

Bearing in mind that the French language and separate schools are two valuable assets of the province, they are entitled to their legitimate claims and are not to be ignored.

During the late Hart administration our French-Canadian brethren put up a noble fight for the preservation of their language against big odds, and succeeded in convincing their opponents of the intrinsic value to such an extent that hundreds of English-speaking people are now endeavoring, with admirable success, to master the French language.

It is understood here that the French fight was not one to impose their language on any one—it was merely to preserve their beautiful "language of diplomacy" against an arbitrary act of said government to destroy it forthwith if possible. I am pleased to remember the active part my humble pen played in that struggle.

Our separate schools are not a mere supplement, but are part and parcel of that great body known as the "educational system" of our province, and almost invariably their pupils have had the highest percentage for entrance examinations.

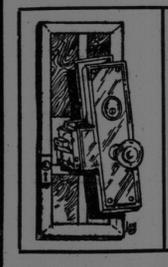

Our cause is not one for the courts to decide. It is one for humanity to settle with a spirit of justice—as has been done in Quebec—for the greatest benefit of the whole community. We hear so much about brotherly love, let us put it into practice. The "public utilities tax" is a "public" asset, and as such should be distributed with reasonable equality. Are the Catholics not equally interested in the industrial and commercial enterprises of the community, and the up-keeping of such, as are our Protestant brethren, and therefore as economically concerned in the same? It is the duty of the state, as the parent body, to harmonize and not to maladminister the affairs of the people.

MARGARET J. HOWARD. Ottawa, March 9, 1922.

LONGER TERM OF STUDY TO BECOME A LAWYER. Toronto, March 17.—At yesterday's session of the Ontario Bar Association, Dean Meltae of Dalhousie University, Halifax, suggested the advisability of longer study for those who entered the legal profession. He urged Ontario to make two years in university a requisite for the student desiring to enter law. Manitoba had adopted this standard, and he hoped to be able to announce next week that Nova Scotia had adopted it.

REMODELING RESIDENCE. J. E. Cowan is converting his brick residence in Main street, opposite Cedar street, into two fine, modern apartments, with separate entrances, and expects to have them ready about May 1. One apartment he will occupy himself and the other will be for rental.

GOOD HARDWARE

is one of the important things to consider when building or remodeling. You will find the best of

D. MAGEE'S SONS, LIMITED SINCE 1859 ST. JOHN, N. B.

JUDGE PLEADS FOR BOY WHO STOLE FOR MOTHER

When Charles Baynor, sixteen, of 2,349 Madison street, Brooklyn, received a suspended sentence in the county court in Brooklyn, after pleading guilty to a charge of burglary in the third degree, Judge J. Gratton MacMahon made a speech about the hardships of poor American boys. When he had finished, the foreman of the grand jury got up

and said to get the boy a job. District Attorney John E. Raston told the court, when the boy was brought before him, that he had investigated the boy's story that he had stolen in order to help his widowed mother, and had found it to be true. The boy had broken into a store and stolen nineteen cents.

"I will do all in my power for this boy," declared Judge MacMahon with feeling. "When I suspend sentence on him, I will be bitterly criticised by one eviling paper, but no power on earth will prevent my letting this boy go. I will do all in my power for this boy," declared Judge MacMahon with feeling. "When I suspend sentence on him, I will be bitterly criticised by one eviling paper, but no power on earth will prevent my letting this boy go. I will do all in my power for this boy," declared Judge MacMahon with feeling.

who have learned their trades on the other side, can come here and be welcomed into affluence, but to the poor boy of our own land, even the door to an apprenticeship is closed."

William Heisenhutte, foreman of the grand jury, arose and declared on behalf of the grand jury that he would assume responsibility for young Baynor and get him work.

ABOUT BEANS

For good rich baked beans use plenty of clear fat pork and always BEAN POT made by The FOLEY POTTERY, LTD., St. John, N. B.

When a Bean Pot is cold it should not be placed immediately on the hottest part of the stove. It is safer to put it at first on the shelf at the back and to move it forward a little at a time as it heats.

Baking the beans in the oven gives the pot a better chance, as in that case the sides are heated as well as the bottom.

FARMERS AS RULERS.

In its issue of March 1, Canadian Finance said:—"Alberta has a Farmer government; Ontario has a Farmer government; Manitoba will have a Farmer government for its next administration and Saskatchewan already has one waiting round the corner."

The Winnipeg financial journal does not look for continued strength in the Farmer movement. It says:—

There are many reasons why a Farmer political party could not be permanently successful. The first is that when those who control governments use their power for the particular benefit of one class of the people the rank and file outside of that class and the fair minded individuals within the class eventually combine and overthrow the autocracy. Perhaps the most apparent objection to the purely farmer political movement today is the fact that under present conditions our rural populations get more than their fair share of parliamentary representation on a population basis. Ontario has a concrete example of this. The Farmer Labor government of that province has 56 supporters in a total of 111 members, but these 56 supporters represent just about one-third of the people of Ontario and the opposition represents two-thirds of the people. Coming a little farther west and closer home we find a somewhat similar situation in the Manitoba legislature. Winnipeg is represented by ten members out of a total of 55, although the population of Winnipeg is about one-third of that of the entire province. Under the old two party system this inequality was not a very serious matter because each party represented a cross section in our national life. The Liberal party included in its ranks, capitalists, farmers, wage-earners, doctors and every other class and the Conservatives also obtained support from all classes. But now that we are going to have class lined up against class and the country marshalled against the cities and towns then the unequal representation becomes a menace and demands attention. If the farmers political parties in the provincial arenas drop the purely class doctrine and make their platform wide enough to appeal to other than the farming communities then there is some good in the movement, but if it is to be guided by selfish motives, it will succeed temporarily, but eventually fail."

The Kiwanis Clubs of Canada and the United States will devote the first week in April to the promotion of better feeling between the two countries. At every club meeting in both countries that week speakers will deliver addresses, those in the United States being on Canada and those in Canada on the United States. This will be an excellent contribution to the cause of better relations. Mr. R. T. Stanley of Toronto, who is an international officer, will address several clubs in the state of Illinois, later going to the New England states. His subject will be "Real Facts About Canada."

Montreal Gazette.—King George has conferred upon the Nizam of Hyderabad two unique titles. He now possesses the hereditary title of "His Exalted Highness" and the special title of "The Faithful Ally of the British Government."

The Nizam, who is the premier Indian prince and who rules over 12-1/2 millions of people, bore the cost of maintaining in the field the 20th Decan Horse and was a generous giver to many war charities. He has been described as occupying the position of "the greatest citizen of the greatest Empire the world has ever seen."

Canadian Finance:—One hundred years ago Oxford University expelled the poet Shelley for being a radical, among other things. Today his bust occupies a prominent position in the University buildings. Which all goes to prove that the main trouble with many of those whom we consider radical today is that they are thinking many years ahead of their time and are not very much wiser than those who are behind the times.

In the inter-society pool tournament in the Y. M. C. I. last night, A. O. H. No. 5, composed of J. McGovern and J. Hennessey, won from St. Peter's, represented by T. McGovern and M. Garvin. The Assumption Society, represented by M. Donovan and W. O'Leary, won from the K. of C. team, composed of S. McShane and Norman Dwyer. The teams representing A. O. H. No. 5 and the Assumption Society are now tied for first place and will play off on next Tuesday night for the championship of the first series.

William Rivers of 97 Main street had a narrow escape from death yesterday afternoon while working on the planer at the John E. Moore mill at Pleasant Point. His coat caught in the belt of the machine and he was whirled around several times and thrown violently to the ground. He was stunned, but a medical examination showed that no bones were broken and he was resting comfortably last night.

BRITAIN SAVES \$15,200,000 UNDER PACT

Things Have Been Scrapped to the Bone, Announces Lieut.-Col. Amory Parliamentary Secretary to the Admiralty.

(Canadian Press Despatch) London, March 16.—Lieutenant Colonel Leopold Amory, parliamentary and financial secretary of the admiralty, in presenting the naval estimates in the house of commons said the savings resulting from the Washington conference would amount to \$15,200,000.

"We have reached the limit," he said. "Things have been scrapped to the bone. Only a further fall in prices, or possibly other novies following up the Washington conference by a more advanced policy in the reduction of armaments can make possible additional economies in subsequent years."

Colonel Amory said Great Britain lived by her power to keep the sea highways open and free, and would never surrender it even to her best friend. He said it had been agreed at Washington to accept equality with the United States and accepting equality was not competition but co-operation for maintaining the world's peace. But even for purposes of such co-operation he declared Great Britain could not afford to be less than an equal."

TELL U. S. TO DEAL WITH GOVERNMENTS

(Canadian Press Despatch) Paris, March 17.—The text of the collective reply made by the finance ministers of France, Great Britain, Belgium and Italy to the demand made by the U. S. for consideration of the cost of United States occupation troops on the Rhine was made public yesterday. The essential part reads:—"While reserving the rights of the United States in whatever manner they shall be defined later, we consider that four decisions being taken under the treaty of Versailles, to which the government of the United States is not a party, the question which you have addressed to us concerns our respective governments and ought to be subject of communications addressed directly through diplomatic channels to the allied governments by the United States."

REMODELING RESIDENCE.

J. E. Cowan is converting his brick residence in Main street, opposite Cedar street, into two fine, modern apartments, with separate entrances, and expects to have them ready about May 1. One apartment he will occupy himself and the other will be for rental.

RECENT DEATHS

St. John lost one of its most prominent and highly respected citizens when Edward Caldwell Elkin passed away yesterday, in his seventy-fourth year, at his residence, 265 Princess street. His death was not entirely unexpected as his health had been failing and he had suffered from severe illness.

For many years the late Mr. Elkin had been a figure familiar to nearly every one in the city he had made his home and by all who knew him he was respected and esteemed. A man of sound integrity, of genial disposition and public spirit he had won an enviable place in the hearts of his fellow citizens and he will be sincerely mourned by many.

The late Captain Elkin was born on October 2, 1848, at Cumberland Bay, Queens County, the son of the late Robert and Sarah Caldwell Elkin. He came to St. John when but a young man and entered the shipping business, in which he continued for upwards of fifty years. He was connected first with the shipping firm of Elkin and Hatfield and later with R. C. Elkin Ltd. He has not been actively engaged in the shipping business for the last few years but has devoted his time to many industrial concerns in which he was interested. He was president of the Maritime Navigation Company, Ltd. and a director of many other corporations at the time of his death. From 1908 to 1912, he represented Queens Ward in the city council, having been elected once by acclamation. He also served a term as warden for St. John city and county. He was a trustee of Contemporary Methodist church.

He was responsible for many of the present aids to navigation in the Bay of Fundy and always retained an active interest in the port of St. John. The late Mr. Elkin was the first to establish what is now known as the West India trade route, having done so many years ago with the steamer Fortia. This same route is still followed today. He was for many years registrar here for the American Bureau of Shipping and was at one time a port warden.

He is survived by his wife, two sons, Stanley E. former M. P. of this city, and Bayard Y. of Montreal; three brothers, R. C. Elkin, of this city, E. G. Elkin, of Ontario, and Howard, of Bangor, (Me.); and three sisters, Mrs. John Wesson, Mrs. Silas Fenwick, and Mrs. W. McLean, all of Boston.

The family and relatives will have the sympathy of a wide circle of friends in their bereavement.

Hon. James W. Longley.

After several months' illness, Hon. James Wilberforce Longley, justice of the supreme court of Nova Scotia, died at Halifax yesterday. He leaves a wife, who was Miss Lois E. Fletcher of Norfolk, England. He was born in Paradise, N. S., in 1848. He was educated at Acadia University. He was admitted to the bar in 1875 and appointed to the bench in 1905. He sat in the Nova Scotia house from 1892 to 1905, and during the latter part of that time held the office of attorney-general and commissioner of lands and mines. Judge Longley was known throughout Canada as a lecturer, orator and author. At one time he was connected with the Morning Chronicle and the Assenian Recorder. He was also connected with many other societies in Nova Scotia and the dominion.

Don't Let That Cold Turn Into "Flu"

Rub on Good Old Musterole

That cold may turn into "Flu," Grippe or, even worse, Pneumonia, unless you take care of it at once. Rub good old Musterole on the congested parts and see how quickly it brings relief.

Colds are merely congestion. Musterole, made from pure oil of mustard, camphor, menthol and other simple ingredients, is a counter-irritant which restores circulation promptly and helps break up the cold.

As effective as the messy old mustard plaster, it does the work without the mustard plaster's stinging and blistering. During the "Flu" epidemic a few years ago Musterole was used in our training camps. The Y. M. C. A. War Board sent thousands of jars to France for our soldiers overseas.

Doctors have been recommending it to their patients for years for colds, aches and pains. Just rub it on with your finger tips. You will feel a warm tingle as it enters the pores, then a cooling sensation that brings welcome relief. Your druggist has Musterole.

TWO-PARTY SYSTEM NOT NECESSARY

Canada's Outstanding Need is "Common Denominator" Says J. W. Dafoe.

J. W. Dafoe, editor of the Manitoba Free Press, Winnipeg, in an address to the Toronto Canadian Club this week, said that Canada's outstanding need at present was a "common denominator"

W. J. Lockhart.

W. J. Lockhart died at his home in Moncton yesterday. He was seventy-two years of age and a veteran employee of the C. N. R. He is survived by his wife, two sons, and three daughters.

Mrs. Annie Ray.

Mrs. Annie Ray, widow of Richard Ray, died suddenly at her residence, 14 1/2 Prince Edward street, yesterday afternoon. She was sitting in an armchair reading a book when she passed away. She leaves two brothers, William and David, of this city; and one sister, Mrs. Thomas Rourke, of Boston.

Patrick Baldwin.

Relatives in Bathurst have received word of the death at Barryville, Northumberland county, of Professor Patrick Baldwin. He was sixty-two years of age, and was known as the armless wonder and the shortest man in the world. He traveled extensively with various circuses. Professor Baldwin is survived by his wife, two sisters, two uncles and three nephews. The funeral was held on March 7, at Barryville.

Announcing Spring Exposition In Our Men's Shop

On Saturday, Monday, Tuesday

With the first real touch of warmer weather our Men's shop announces a Spring Exposition of Men's and Boy's Clothing that represents selections and values of outstanding importance.

These displays have meant months of effort in searching the market for dependable qualities and extreme values.

There are new styles—new ideas—new fabrics.

Suits and Topcoats designed along fresh lines, built with a greater consideration for your comfort.

You'll like their appearance, their quality and the way we are able to fit you.

Prices are lower too.

"Society Brand" and other well known makes for men.

"Jack o' Leather" and "Kloth Klad" clothes for boys.

Come in and Look Them Over!

(Men's shop—second floor.)

Manchester Robertson Allison Limited KING STREET - GERMAIN STREET - MARKET SQUARE

which would act as a means of reconciling diverging interests and views.

The two-party system — a natural division when the struggle for emancipation of the masses of the people was in progress — Mr. Dafoe said, was neither natural nor necessary, for the moment at least, with political equality

an accomplished fact. In this connection he fastened the composition of the new parliament at Ottawa. Speaking from long personal connection with one of the old political parties, Mr. Dafoe contrasted the ready manner of the members of the Progressive party in contributing the

stewards of war in political contests, with the lack of enthusiasm of the old-line party rank and file to subscribe financial support for the party's legitimate purposes.

Mr. Dafoe spoke of the diversity of racial origin in Canada and said that in the near future the dominion would have to contend with this problem. "It is ob-

vious," he declared, "that if we are going to fill the country, we must open the doors to non-British stock, so long as they are worthy."

**AUTOMATIC TELEPHONES**

Complex Machinery is Being Installed in Three New York Exchanges—Eventually to Cover City.

The New York Telephone Company has begun installing automatic machinery which will cause each user of the telephone to be his own telephone operator, at the Pennsylvania exchange in downtown Manhattan, at Academy in upper Manhattan and at the Walker exchange in Brooklyn.

Complete substitution of the machine switching in these exchanges will not take place until next summer. The Pennsylvania central office and all the telephones of the Pennsylvania exchange will be converted at once from the present system of giving numbers by word of mouth to that of punching a dial. The other exchanges will be taken over as units in the same fashion.

The change will not involve the dismissal of telephone girls. Hiring of new girls will continue, it was stated at the telephone company offices.

The exchanges which have been scheduled for change to machine switching after the first three are Appleton, Nevin, Jerome and Windsor. The installation of the new apparatus will continue steadily, according to telephone officials, but replacements for the whole of New York will not be completed for more than ten years.

Involves 1,000,000 Instruments.

Telephones in service in New York City at present total 989,000, and the million mark will be passed this spring, according to company officials. The cost of replacing a million telephones will be tens of millions of dollars.

During the next ten years the New York telephone system will be a hybrid. In some parts of the city telephone users will punch the numbers. In other parts they will tell them to telephone operators, as at present. Operators are now being specially trained to connect the calls punched on dials with numbers still orally called. The connection of these mixed calls will require the service of nearly as many operators as at present. An increased number of "information" operators will be necessary, it is expected, for some months at least, until the public is broken into punching its telephone calls in a manner which resembles working the combination of a safe.

**Expect to Save Time.**

The new system has been introduced at Geneva, Ithaca and elsewhere in New York state and is soon to be installed at Paterson, N. J. According to Chief Engineer Carpenter, a slight saving of the time of the telephone users has been reported, because the service is quicker and because "mishearings" are eliminated. It takes some time for the public to learn the use of the automatic device, which requires a number of separate manipulations by the person seeking a number. The process is described as follows by the telephone company:

"Having secured the desired telephone number from the directory, which we will assume to be Pennsylvania 6280, the subscriber will first remove the receiver and listen for the 'dial tone', which indicates when the apparatus is ready to receive his call. He will then insert his finger in the opening of the hole over the letter 'P', rotate the dial until the finger comes in contact with the metal stop, and release the dial, which will automatically return to normal. He will then repeat this operation for the letters 'E' and 'N', and in turn for the four numerals 6-2-8-0."

When the subscriber has performed these operations correctly the complicated device at central does the rest. If the line should be out of order, connection would be made automatically to an operator, who would report to the person calling.

While no telephone girls will lose their positions because of the introduction of automatic machinery, the force eventually will be reduced, but not so rapidly as the girls now leave the service to get married or take other jobs. There will always be several thousand positions for operators, it was said, in private concerns, for superintending machinery and giving information.

None of the displaced machinery will be scrapped, but will be put to other uses, according to the telephone officials.

**REAL TACT.**

A Rosedale resident sent his negro chauffeur over to a neighbor's to complain about the howling of the latter's dog and added, "You have to use a good deal of tact."

"Yesuh, I suttingly will. That's the best thing I do." After the colonel had left, the orderly looked up a friend of his who was also a negro, and, relating what his employer had told him, asked: "Now, what is that tact? I said I'd use it all right cause I wants to carry out orders, but don't exactly know what it is."

"Well," replied his friend, "I will tell you. I'll illustrate it. For instance, when I was in Detroit I was waiting in a hotel. Goin' along the hall one day, I happened to open a bath room door, and there was a lady in there sittin' in the bath tub. I shut that door right quick, and I says: 'Excuse me—Suh!' Now that 'Excuse me' was just politeness. But the 'Suh' was tact."

**Toronto Firm's Trouble.**

**THOROBREAD FLOUR** *Becomes a Habit*

Milled by Hunt Bros Limited London, Canada  
"Flour for the Wise—It always satisfies."

Ltd. of Montreal, was presented to the creditors at a meeting yesterday and accepted after considerable discussion. Under the terms of the proposal, Bryant Bros. will assume the liabilities and pay the creditors one hundred cents on the dollar, payment to extend over a period of time.

**LUX**

It only takes a few minutes to wash your silk blouse, your silk stockings, underwear or anything dainty and "special"—if you use LUX.

The thin, white, silky Lux flakes, which are made by our own exclusive process, dissolve instantly into a bubbling lather that is as harmless as pure water itself. The lather gently squeezed through the fine fabrics quickly loosens the dirt and a few rinsings make the garments beautifully clean.

Lux stands univalued for washing silk and other fine garments.

Lux is sold only in sealed packets—dust-proof!

LEVER BROTHERS LIMITED, TORONTO

**LIGHTS ON HYDRO**

To the Editor of The Times:

Sir,—The Board of Trade on March 11 published a very well-prepared digest of the hydro distribution situation. There are, however, I think, several erroneous conclusions drawn. Their report states that it cannot be assumed that any likely growth of this community would warrant the existence of a duplicate distribution system. If this argument has any basis of fact, then it is true that no producer or consumer is justified—even by the sure prospect of effecting a substantial saving—in duplicating the equipment of his competitor. Such an assertion coming from a body of business men such as the Board of Trade is absurd. We might ask them if the growth of any industry with which they might be connected takes any stock of possible encroachment on the field served by their competitor. We think not. Competition, which is the very life-blood of healthy industry, of necessity involves a duplication of effort and an overlapping of service. Show me the business of which this is not true and I will show you a monopoly.

If one market is served by two or more industries and one develops a plant or an organization which can serve the market cheaper than the other with the same product, does not that industry get the business? A municipally owned distribution system can and will do just that, and any attempt by interested parties to deny the consumers complete justice in the present situation will be resented.

The imputation by the Board of Trade that St. John is not likely to experience a period of material growth, with the advent of cheaper power, needs only to be mentioned.

Why does the Board of Trade as a body support the suggestion that the city of St. John must carefully consider the merits of the Power Company, enumerating carefully all the various items of capitalization, interest, maintenance, etc., etc., with which they are overburdened, and suggest that the com-

munity at large should see that they (the Power Company) continue able to meet all these obligations at our expense?

In the six specific items of their "assessment" list there is no mention of profit to the Power Company. We presume that the Board of Trade, like the rest of us, considers them entitled to none. Where, then, is the incentive to the Power Company to undertake this noble work of serving the public? Well, they cannot survive competition by the municipality and perhaps are satisfied with the salvage of their own interests, invested and otherwise, by becoming a dormant parasite sucking their nourishment from hydro. Dormant because there remains no incentive, i. e., profit,

to improve and develop the market.

The conclusion is that any participation by the Power Company in the distribution of hydro will be fatal to the future of hydro because the success of the present development and the whole future of the hydro policy throughout the province is at stake and depends solely on a building up of the market by a policy of aggression with a desire and the ability to offer real inducements to new users of large blocks of power. Is there any prospect of the Power Company inaugurating and carrying out such a policy? They might inaugurate it, but what of the future after the city had been eliminated as a competitor?

JOHN N. FLOOD.  
St. John, N. B., March 16, 1922.

**BRIGGS IS SOLICITOR GENERAL FOR SCOTLAND**

London, March 17.—(Canadian Press)—Andrew H. Briggs, constable, K. C., dean of the faculty of advocates, a former sheriff of Caithness and a former sheriff of Argyll, has been appointed solicitor general for Scotland. His immediate predecessor, Col. Charles David Murray, K. C., was recently appointed Lord Advocate of Scotland, in succession to Right Hon. Thomas B. Morrison, K. C., M. P., elevated to a Scottish judgeship.

Use the Want Ad. Way

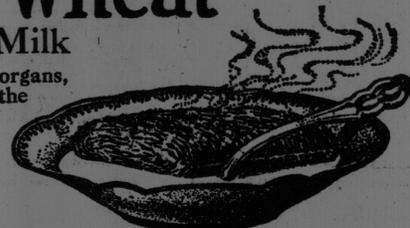

**Your Body is a Poison-Factory**

In the process of digestion certain poisons are liberated. Nature provides for their elimination by organs which function properly in the healthy body. Hence the necessity of eating in Winter an easily digested, nutritious, well-balanced ration like

**Shredded Wheat**

With HOT Milk

Does not overburden the eliminating organs, but actually assists them in keeping the blood-stream pure, rich and healthy. Eat the right kind of food and you will not "catch cold." Two Biscuits with hot milk make a warm, nourishing, satisfying meal. Ready-cooked and ready-to-serve.

**Warner's Rust-Proof Corsets**

THEY support the natural figure. They shape fashionably and fit comfortably. They represent real value at the prices sold, and are a most economical purchase.

For fifty years they have been made in the United States. For one year they have been manufactured in Canada, and have already won here the same popularity that has for many years made them so famous in the United States.

Carried by Leading Stores

From \$1.50 Up

A standard popular-priced, low-bust corset, well boned for average figures. Long skirt with large 5-inch elastic gore in lower back of skirt. Style 18

EVERY PAIR GUARANTEED Not to Rust, Break or Tear

This model with all around elastic top and lightly boned is an inexpensive style for average figures who do not want a heavy corset. Style 42

For the full figure or larger woman, this model with medium height bust is especially suitable. It is reinforced over the front and strongly boned throughout. A leader among reasonably priced corsets for larger women. Style 304

A particularly attractive pink brocade model with all around fancy elastic top, and special bone supporters. For average figures, and exceptionally good value. Style 304

A low-priced, small model, particularly designed for girls and slender women, with elastic gore in back. Style 63

### Organizations Unite for Hydro-Electric Campaign

At a meeting called by the "citizens committee" of representatives from city organizations favoring municipal ownership and distribution of the hydro-developed power now offered to the city, decided that the organizations represented should form a temporary amalgamated committee for the purpose of securing municipal distribution. Those which were lined up last night were: The St. John Hardware Clerks' Association, the citizens' committee, the Trades and Labor Council, St. John branch of Canadian Association of Building and Contracting Industries and the Dry Goods and Retail Clerks' Association.

The matter of a chairman to head the organization was then dealt with. After considerable discussion on the matter, C. Winter Brown, in a brief address to the representatives present, nominated Roy A. Willet, president of Hardware Clerks' Association. Mr. Brown said that it was absolutely necessary that the chairman be an official of one of the organizations represented, and a man who was thoroughly versed in the situation. Mr. Willet, he said, had probably given more study to the question than any man present, and was head of an organization which had been one of the first in the city to take up the fight for municipal distribution of the hydro-developed current. He felt that the new organization could not find a more competent or capable man. The nomination of Mr. Willet was seconded by Herbert Phillips, M. E. I. C., chairman of the citizens' committee, who said that it was with a good deal of satisfaction and pleasure that he seconded the nomination. The Hardware Clerks' Association had for the last three months carried on a very active campaign for municipal distribution, and their propaganda had been accurate, effective and to the point. The citizens of St. John had shown considerable interest in the articles written by

would not definitely declare himself for municipal ownership and operation of electrical distribution in St. John. A committee was appointed to interview all candidates. A resolution was passed authorizing the executive to prepare a petition to the New Brunswick legislature asking that the New Brunswick electric power commission act of 1920 be amended to

make it unlawful for either the power commission or any municipality being supplied by the commission to sell the power to any private person or corporation for distribution for profit. Representatives from organizations were as follows:—Hardware, clerks, H. D. Sullivan; citizens' committee, G. Fred Fisher; Trades and Labor Council, F. S. A. McMullin; Canadian Association

### INCREASED DEMAND FOR CLOSED CARS

All-year-round Automobile is Gaining in Popularity Over Open Model—Toronto's Motor Show.

(Toronto Mail and Empire.)

One of the striking facts thrown into relief by the Motor Show has been the growing interest taken by the general public in the closed car. There was a time not so many years since, when the sale of this type of car was confined to a few of the higher priced makes. Today the closed car has invaded the medium priced field and is growing more and more popular with the private buyer.

One dealer stated yesterday that nearly fifty per cent of the visitors to his show-rooms during the present Motor Week, had come primarily to gain information about closed models. Another said that of the orders taken since the first of the year, for sale to private buyers, four out of seven had been for sedan, or coupe types. A third declared that nearly fifty per cent of his sales during January and February were of closed types.

While some automobile men are inclined to attribute the increasing popularity of this type to a change in fashion, others feel that the change is a more fundamental one, indicative of a growing realization of the efficiency of the all-year-round model. "Naturally enough," stated W. H. Lee, of the State-baker agency, "the closed car first came into popularity with the city buyer. He has discovered that he can be comfortable in his car during the winter months and at the same time enjoy all the fresh air he wants during the summer. In the past the condition of the roads out through the province has somewhat restricted the use of the closed type in season and out of season, but as the roads are improved and they are being improved, the closed car will come into more general use."

Another factor which has contributed to bringing about the change has been the effort made by the manufacturers to produce a closed car at only a slightly higher cost than a touring model of the same power and capacity. Cutting down the weight of the permanent top and the simplification of construction has aided in the effort. The decrease in the weight of the top has also overcome the objection made by some users to the fact that some of the older models were top-heavy.

Much Interest in Show.

Interest in the Motor Show continues to be unabated in volume. Dealers are pointing to the size of the crowds visiting city showrooms as being an indication of the intention of owners of old cars to postpone their purchase of a replacement no longer. Successive and drastic price cuts are responsible to a great ex-

tent, but the feeling that prices have reached the bottom and are due for an upward turn has also played an important part.

Coincident with the demand for new cars there has been a slight tendency towards improved demand for used cars. Some dealers are still complaining that they are having difficulty in disposing of cars turned in on sales, but others are much more optimistic. One leading firm stated yesterday that their turn-over of used cars since the first of the year had been one hundred per cent, above that of the similar period last year. The same firm also quoted figures to show that the general turn-over has been increasing at a rapid rate, and expressed the conviction that so far as the automobile industry was concerned the depression corner had been turned. "We have sold fifty per cent more cars this year than we did last, and last year we sold twice as many as the year before," stated the dealer in question.

Bombs were thrown in daylight yesterday, which seriously injured twelve persons, but no deaths were recorded.

### DISCOVERED BY CHANCE.

Bottled Beer Came as Result of Accident. During the reign of Edward VI. Dr. Alexander Nowell was the headmaster of Westminster School. When Mary came to the throne she sent a party of soldiers to arrest him at his country house. When they arrived, the doctor was fishing, with a stone bottle of ale placed near him in the hollow of a tree. A servant came to warn him, whereupon Nowell fled across the meadows, and after many adventures succeeded in reaching Holland.

After Mary's death Nowell returned and quite by chance discovered the bottle of ale that he had left so hurriedly many years before. He sipped the liquid cautiously, and found that it was better than any he had ever tasted.

That night he collected all sorts of bottles and jars, filled them with ale, and placed them in his cellar. He had discovered bottled beer!—The Bits.

### Piles

are usually due to straining when constipated.

Nujol being a lubricant keeps the food waste soft and therefore prevents straining. Doctors prescribe Nujol because it not only soothes the suffering of piles but relieves the irritation, brings comfort and helps to remove them.

Nujol is a lubricant—not a medicine or laxative—so cannot grip. Try it today.

**Nujol**  
For Constipation

Semi-ready Clothes are made by wholesale—sold direct to the wearer—with much of the cloth woven by the Semi-ready Company in their own place in England.

Team-organized experts make the suits and overcoats. There are scores of cutters, collar moulders, seam runners, buttonhole specialists, sleeve experts, vest and trouser artists—all working as organized specialists on the particular work for which they show digital skill.

It is rapid-action Tailoring—without hurry or bungling—with clock-like regularity of movement—no waste energy—no lost motion.

The label in the pocket—whether it be \$25, \$30 or \$45—means that the garment will carry out every promise to the last dollar of value.

### The Brome Young Man's Two-button Model

—like its counterpart, the Crawford, will find favor mostly with the younger men who prefer dignity to dash. An ideal coat for the man of shorter stature.

**CONSCIENCE MONEY**  
The Collector of Customs this morning received a letter containing \$2, and bearing the single inscription, "Conscience Money."

**POLICE COURT.**  
Joseph Myles was allowed out on a deposit of \$20 for his appearance on Monday morning to answer a charge of assault.

**POSTPONED**  
The case of J. A. Stackhouse Co., Ltd., was further postponed in the bankruptcy court this morning before Francis Kerr, Registrar, until March 30.

**BURIED TODAY**  
The funeral of Albert S. May was held this afternoon from the residence of his son, 9 Spruce street, to Fernhill. Rev. R. G. Fulton conducted service.

**MRS. WILLIAM H. WHELPLEY.**  
The death of Mrs. William H. WHELPLEY occurred early this morning at her home, 78 Rock street, after a short illness. She was in her seventy-third year. Her husband, who was a well known river driver, died about twelve years ago. Mrs. WHELPLEY is survived by one son, Herbert, of this city, and one brother, Isaac Gerow, of Fredericton.

**C. P. R. OFFICERS.**  
R. L. Larmour, general freight agent of the C. P. R., and W. H. Steel, general passenger agent, both with headquarters in Montreal, are in the city after completing an inspection trip in the maritime provinces. They will return to Montreal this afternoon, and will be accompanied by J. M. Woodman, general superintendent of the New Brunswick district, who is en route to Montreal on business.

**PANTRY SALE**  
The Women's Missionary Society of Knox church held a pantry sale this afternoon in the lobby of the Imperial theatre. The tables were decorated with shamrocks in honor of the day. The committee in charge included Mrs. Joseph A. Smith, convener, Mrs. Brown, Mrs. S. Cunningham, Mrs. John Hastie, Mrs. M. Bartlett, Mrs. Cox, Mrs. Thomas Graham and Mrs. Frank Finmore.

**A KINDLY ACT**  
A very thoughtful act was performed by those in charge of the Y. M. H. A. dance this week. As some of the refreshments were left over, one of the committee called up the Red Cross secretary and obtained the names of nine families in need of help and to these families a parcel of the delicious food was sent. It is hoped by the Red Cross that other societies holding social events will bear this act in mind.

**MISS ELIZABETH R. FOSTER**  
The death of Elizabeth Rintoul, eldest daughter of James H. and Elizabeth Foster, occurred this morning at her parents' residence, 51 Stanley street, after a lengthy illness. She was twenty years of age and is survived by her parents, three brothers and three sisters. The brothers are William, Evan and Malcolm, at home and the sisters are Verna, Muriel and Ruth, also at home. The funeral will take place at a hearing afternoon, from her parents' residence. Interment will be in Fernhill. Many will sympathize with the bereaved ones in their loss.

**LAW SCHOOL EXAMS.**  
The yearly examination period of the King's College Law School began last evening, when twenty-five students wrote a paper on Domestic Relations, set by His Honor Judge H. O. McInerney, who is the lecturer on the subject. The next paper will be written on Wednesday evening, and papers will continue at intervals until well into May. Sixteen students expect to graduate from the law school this spring. The last year has been a successful one. There has been large attendance at the lectures, and debates and mock trials have been held, with the assistance of several of the lecturers.

**ON THE MELITA.**  
The Canadian Pacific Steamships Ltd. liner Melita will sail this afternoon or early this evening for Liverpool with approximately 140 cabin and 180 third class passengers, in addition to general cargo and Royal mails. Among the cabin passengers will be Hon. Frank Corral, of Quebec; James Cormack, of Ottawa, Canadian Trade Commissioner; Col. E. C. Compton, of Toronto, and one of the officers in charge of transportation at Argyll House, London, during the war; Mother Evangelist O'Keefe, of Ottawa, who is in charge of St. George's Home and who is going to England to bring out a party of boys and girls in May. She is being accompanied by Sister Maal Marie Demore.

**THE BOY WINS**  
A story in which a boy's quickness brought him out on top after he had apparently been about to get the worst of an argument was told recently to the detectives. The boy had driven a man to Millidgeville in his sleigh and, on arriving there, asked the man for his money. The man refused to pay, it is said, and took off his coat with the evident intention of giving the boy a beating if he insisted. Unfortunately for himself he threw the coat into the sleigh giving the boy an opportunity, which he was not slow to seize, of whipping up his horse and running away. On his arrival in the city he reported the matter to the detectives and gave them the coat. Should the man not come to claim his property, it is believed that it will go to pay the boy's bill for driving.

**ST. JUDE'S GIRLS' W. A.**  
The annual meeting of the St. Jude's Girls' branch of the W. A. was held last evening in St. Jude's school room, with the president, Mrs. J. H. A. Holmes in the chair. The reports showed a very successful year, although there was a slight decrease in membership. The treasurer reported \$68.76 as the total receipts for the year. The amounts voted to different pledges were as follows: General pledge fund, \$16; an increase of \$5 over last year's pledge; educational fund, \$4; expense fund, \$1; and Pickett Memorial fund, \$3. The following officers were elected for the year: President, Mrs. J. H. A. Holmes; first vice-president, Miss Muriel Ellis; second vice-president, Mrs. Johnson; corresponding secretary, Miss Ruth Coster; recording secretary, Miss Olive Seely; treasurer, Miss Hazel Smith; Dorcas secretary, Mrs. Barker; assistant Dorcas secretary, Miss Elsie Rogers; mite box and leaflet secretary, Miss Lena Nice; E. C. D. secretary, Miss Beatrice Whipple; prayer partner secretary, Miss Connie McLellan; delegate to diocesan annual, Mrs. Holmes and Mrs. Johnson; substitutes, Lena Nice and Ruth Coster. Additional members of the executive, appointed by the rector, Mary Wilcox and Phyllis Williams.

**MUCH AHEAD OF LAST SEASON**

C. P. R. Import and Export Business Here 57,414 Tons in Advance.

That business conditions are slowly but surely getting back to normal is regarded as evident from a statement showing the import and export business here during the seasons of 1920-1921 and 1921 and 1922. To date they have imported 7,215 tons more cargo than last season, and have exported 57,414 tons more. The figures follow:—

IMPORTS.		(1921.) Increase.	
(1920)	(1921)	(1920)	(1921)
November	1,867	1,868	1,481
December	12,421	15,599	3,178
(1921)	(1922)	(1921)	(1922)
January	14,073	16,150	2,077
February	11,699	12,135	529
Totals	38,337	45,752	7,215

EXPORTS.		Other freight.

**FATHER BEDE IN ST. PATRICK DAY SERMON**

(Continued from page 1)

wrought in them. St. Patrick planted in their hearts the faith that is still there. In sanctity and science they progressed until their sons, going back to the continent, brought back the faith, true and pure to those who had become corrupted.

How, the speaker asked, can we explain the reason for the great spread of the faith as St. Patrick taught it, throughout the world? Perhaps we can say that it is the result of the usurpers who came into their country and took away their land from them.

In St. John.

"The sons of St. Patrick are known in every nation on the globe. In my own country there is a clergy composed chiefly of Irish descendants, preparing now to go to the Far East to preach the gospel of God. But there is no need to turn to the old country—no need to go beyond your own borders. What is the story of St. John? Less than 100 years ago the Irish landed on your shores; the land was denied him on account of his blood and his faith; he was persecuted and he dared go no further than the boundaries of the city. But they dare not persecute you. Your forefathers adhered firmly to the command, 'Do good to them that hate you; bless them that persecute you,' and today you can go about your duties in peace and safety in your great free domain. While they suffered, they adhered to the faith of St. Patrick, and today the descendants of those who persecuted your forefathers share in the liberties handed out to all, regardless of creed, class or color."

Father Bede related how St. Patrick, on Tara's Hill, explained the mysteries of the Trinity to the chieftains gathered there, illustrating it by the shamrock leaf. He taught them of God the Father, and of His Son, born of the Virgin, and who redeemed the world on the Cross. And today the devotion of the people of Ireland to the Holy Trinity and their love for the Mother of God were the outstanding points in their faith.

At the time when there was danger of Ireland losing her religious liberty, it is recorded that O'Connell, sought for everywhere by his friends, was found saying his rosary. He told those who looked for him that what he was doing would be of greater effect than his most eloquent appeal.

"But we need not go back in history to find the supernatural in Ireland's sons. It is here in our own day; there is still the same devotion to the Trinity and to the Blessed Mother. But are you worthy descendants of those great ancestors of yours? They faced death and persecution to attend to the duties of their holy faith, while you may attend them in comfort and safety and yet there are some who have not the strength of faith which they should have. But nowhere is the faith so strong and pure as in the sons of Patrick; nowhere is greater the love for the Mother of the Crucified Christ."

He urged the people, not necessarily by word of mouth, but by their actions, to show that they were worthy sons of their Irish ancestors. If they did this, he said, they would receive the blessing of St. Patrick, the blessing of the Irish race.

**Representing Spring Fabrics**

After the heavier clothes of winter, the new Spring fabrics come, as a refreshing breeze on a hot summer day. The crispness as well as the new delightful shades have an appealing attractiveness that is irresistible.

**REAL SWISS ORGANDIES**—Of a very superior quality in the popular shades for spring such as—Coral, Beige, Orchid, Yellow, Pink, Turquoise, Apricot and White. 45 inches wide. 95c. Yard

ST. JOHN, N. B., FRIDAY, MARCH 17, 1922

SIXTEEN PAGES

FOR NOVA SCOTIA AMATEUR UNION

Arranging Meeting of Athletes for April. Reported Fifteen Clubs in Favor of Being Independent from A. A. U. of C.—The Baseball Situation in Fredericton and Vicinity.

(Canadian Press.) New Glasgow, N. S., March 17.—An early April meeting of Nova Scotia amateur athletic clubs which favor the formation of a Nova Scotia amateur athletic union independent of the Amateur Athletic Union of Canada, is being arranged for according to local sport information. More than fifteen clubs in the province, it is said, are known to favor such a move, including clubs in Westville, Shelburne, Theburn, Pictou, New Glasgow, Truro, Halifax, Dartmouth, Amherst, Springhill, Oxford, Annapolis and Sydney.

Fredericton, N. B., March 17.—There is almost an even split among the clubs of the York County Baseball League over the question of independent base-ball which has been suggested for this season. The Miramichi club went on record last night as favoring continuation of amateur baseball, while the Devon representatives favored independence. Fredericton is somewhat on the fence owing to the number of Fredericton players who would lose their amateur rights in hockey and football if they were to join the A. A. U. of C. It is hoped to arrange a conference here with President Covey, of the maritime branch of the A. A. U. of C. to force a definite decision is reached.

LOCKPORT, N. S., March 17.—Captain John MacKenzie, one of Lockport's fishing skippers, will take the Elsie, last American cotender in the international fishing schooner race, to the banks on a salt trip this season.

BETTER NEWS TODAY OF SIR JOHN EATON OF TORONTO Toronto, March 17.—(Canadian Press.) News came from the bedside of Sir John Eaton at his home today. A bulletin says he has not lost ground during the last 24 hours. He is resting more comfortably today.

MONTREAL STOCK EXCHANGE Montreal, March 17.—(10.30.) The first half hour's trading on the local stock exchange this morning was featured by Steel of Canada, which opened at 60 1/2 and 61, and rapidly rose to 60 7/8. A great many shares were sold during the early trading. This strength is due to the announcement that the regular quarterly 8-4 per cent dividends on the common and preferred shares would be paid as usual. Other leaders were quiet.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 cents.

DEATHS WHEPLEY.—At her residence, 75 Rock street, on March 17, 1922, Eleanor, widow of William H. Whepley, aged seventy-three years, leaving one son and one brother to mourn. Funeral Saturday afternoon at three o'clock. ELKIN.—At his residence, 265 Prince street, on March 16, 1922, Edward C. Elkin, in his seventy-fourth year, leaving his wife, two sons, three brothers and three sisters to mourn. Notices of funeral later. RAY.—Sudbury, at her residence, 141 1/2 Prince Edward street, on March 16, 1922, Annie, widow of Richard Ray and daughter of the late George and Mary Moore, leaving two brothers and one sister to mourn. Funeral Sunday afternoon at 2.30. Friends invited. FOSTER.—At her parents' residence, 51 Stanley street, on March 16, 1922, after a lengthy illness, Elizabeth Rintoul, eldest daughter of James H. and Elizabeth Foster, in the 26th year of her age, leaving her parents, three brothers and three sisters to mourn. Funeral Saturday from her late residence. Service at 2.30 o'clock.

IN MEMORIAM PARLEE.—In loving memory of Hiram W. Parlee, who departed this life March 17, 1920. WIFE AND FAMILY. McINTYRE.—In loving memory of Emma McIntyre, who died March 17, 1918. Gene but not forgotten. MOTHER, BROTHERS AND SISTERS. EVANS.—In loving memory of Richard Evans, who entered into rest on the evening of March 17, 1921. The months have passed, Oh how we miss him. Never will his memory fade, 'round thoughts will always linger 'round the spot where he is laid. WIFE AND FAMILY.

WILLIAM H. ROBSON

IS DEFINITE, SAYS MAJOR. Mayor Schofield said this morning that a number of people were evidently still in doubt regarding his decision to run in the coming campaign. He said he certainly is going to offer again.

A LITTLE IMPROVED. It was reported today that Harold McMenamin, who received an injury to his hand through falling off a trap on Tuesday, was slightly improved, although still suffering from a pain in his head.

PULP MILL TO SHUT DOWN. The plant mill of the Nashwaak Pulp and Paper Co., at Union Point, will be closed down for an indefinite period on Saturday, as it was announced this morning. Market conditions are given as the reason for the cessation of operations. About 200 men will be affected.

DUFFERIN AVENUE GRADE. Commissioner Frink said this morning that a change will have to be made in the grade of Dufferin avenue as a result of a new condition that may arise from the proposed extension of a thirty-six inch main from Wesley street to Newman Brook. The present pipe in Dufferin avenue is eight inches and is laid near the surface.

WILL HAVE TO DRAIN IT. For some time people have been making a public dump at the end of Somerset street and the fill is now so extensive that the Public Works Department will be forced to construct an aqueduct to carry off a flow of water from a brook which flows through the old golf course. Commissioner Frink said that this work will be carried out this summer.

ACADIA TEAM HERE Among the seven men of the Acadia basketball team which arrived here today to play the Trojans, are four men from the city and vicinity. H. H. Wetmore, R. D. H. Wigmore, and Thomas Robinson are all St. John and Sidney Chipman from Hampton. The other members of the team are Albert Corey, Arthur Brown and C. A. Lewis. They arrived today from Fredericton, where they played the U. N. B. team last night.

PLAN TRIP TO MEXICO According to a circular letter from the executive of the Canadian Manufacturers' Association, which was received in the city this morning, the association is trying to arrange for a party of its members to visit Mexico, leaving Canada about April 1 and returning about the last of April. The trip is being arranged on account of reports that the people there are willing to increase their purchases of Canadian goods. Final arrangements have not yet been completed.

BAR SILVER IS FOUND BURIED IN FARMER'S FIELD Buffalo, N. Y., March 17.—The police and the sheriff's office today were trying to solve the problem of how bar silver worth between \$3,500 and \$4,000 came to be buried on farm of Lewis Salmon, on the east bank of the Niagara River near Lasalle.

SAYS IT IS GOLD Harry McLaughlin, of this city, declared this afternoon that he had been assured that the mineral which he had discovered on one of the fourteen claims which he recently staked on the Tuxis River, is genuine gold. Miles Walker, a mining engineer, Mr. McLaughlin said, had assayed the ore and in the sample tested found that it yielded at the rate of ten pennyworth to the ton of ore. Mr. McLaughlin also exhibited another sample of ore which he declared was silver. It was like the silver ore he had mined in Cobalt and he said that Mr. Walker substantiated his view. When the announcement of the staking of the claims by Mr. McLaughlin was made last week officials of the provincial lands and mines department expressed themselves as sceptical regarding discovery of gold in the region of the parish of Stanley, York county, in which the Tuxis River lies.

THE GRACE LINK CASE. London, Ont., March 17.—If they do not keep the promises they made at Hamilton, within thirty days, then they can expect something. They will find me just as determined as they are. So declared Wm. Link, last evening, commenting upon a report from Hamilton that his daughter, Grace Jean, had in an interview with the press stated that she had no intention of coming home to him. "When I met Grace at St. Joseph's Convent," he said, "I asked her if she would come home. She made a gesture of resignation, however, exclaiming: 'Oh, my, I could not do that, I have taken the vows.'" Mr. Link said he did not pay particular attention to the "vows" at the moment, but since then both he and his wife have become possessed of the belief that she intends eventually to take the veil.

ESTIMATED RECEIPTS \$10,000 MORE THAN THE ESTIMATED EXPENDITURES

Big Cut in Some of Public Services Announced This Year By Premier Foster in Budget Speech

Heaviest Reductions Involve Ordinary Roads and Bridges and Forest Service—Tax on Liquor Exports and Increase in Road Tax—Striking Decrease in Estimated Receipts From Crown Lands—Premier Shows How Adequate Protection Has Been Provided for Bond Issues and Refers to High Credit of Province Among Financiers.

Fredericton, March 16.—The budget was brought down in the house today by Hon. Mr. Foster, who, in an address lasting nearly three hours, dealt with the finances of the province in a masterly and lucid manner. He went over conditions of not only last year but those of his term of office and compared them with the term of the opposition from 1908 to 1916 with striking effect. The estimates as submitted showed a remarkable decrease in estimated receipts from Crown Lands—\$850,000 as compared with 1920—and yet in the face of such a tremendous falling off in revenue the estimates as presented showed a credit balance of more than \$10,000. This has been brought about by retrenchment in the different departments of the government and by additional revenue arising from the profits of the liquor commission and the new tax on liquor stocks held for export.

AN EXHAUSTIVE SPEECH. In a speech that was exhaustive in every particular, the finances of the province were dealt with, and the progress that the administration had made by protecting bond issues by an adequate sinking fund, which is now nearly six times as large as that provided by the former administration, was shown. The increases allowed to the important public services, such as education, public works, health and vocational work, were brought out to account for the increased expenditure in previous years.

When dealing with the increase in the public debt, the premier pointed out that exclusive of what is expected to be revenue bearing debt incurred in the development of water power, the average yearly increase in the bonded debt from 1908 to 1917 was greater than the average yearly increase from 1917 to 1921. In discussing ordinary expenditures, stress was laid upon the fact that the cost of this administration was in an abnormal period of high costs following the war, while the ordinary expenditures of the preceding administration were made during a low cost normal period, and the percentage of increase was 65 per cent. for this administration against 100 per cent. for the previous administration.

HIGH CREDIT OF PROVINCE. The high credit of the province among financiers seeking to handle its bonds was pointed out, and records of bonds issued in June of last year showed that New Brunswick six per cent. bonds brought better prices than those of any other province.

The progress of the provinces was splendidly illustrated in tables showing the increase in motor vehicles, in collections of crown land revenue, and in the close attention to and large amounts derived from corporation and other taxes. Notices of enquiry were given for Tuesday next, as follows: By Mr. Dick, as to whether J. S. Morgan, of Carville, Kings County, is employed by the government? By Mr. Young, as to whether or not the government intends rebuilding a bridge across Taxis river during the present year. Also as to what position in the government service is occupied by Carleton Berry, of St. John, and as to what goods he has sold to the government since 1917, and whether the government has provided him with a car.

Hon. Mr. Veniot said that most of the information sought in the last enquiry would be found in the controller-general's report. Hon. Mr. Foster laid on the table the statement of consolidated revenue and expenditure from October 31, 1921, to March 1, 1922. The Estimates for 1922.

Hon. Mr. Foster presented a message from his honor the lieutenant-governor submitting the estimates for the ensuing year, and moved that such message and (Continued on pages 10 and 11.)

IN WALL STREET. New York, March 17.—(10.30.)—Crucible Steel was the outstanding feature at the opening of today's stock exchange, making an extreme decline of 1 3/4 points as a result of the passing of the dividend. Bethlehem forfeited a small fraction, but United States Steel was unchanged. In other quarters of the list initial dealings indicated a continuance of the recent advance. Coppers made substantial additions to yesterday's gains, and oil, motors, sugars and tobacco reflected the confident attitude of bull prices. Rails were irregular, low-priced issues strengthening, while investments inclined to ease.

Quebec, March 17.—(Canadian Press.)—Amendments to the Quebec liquor laws brought down by Hon. Jacob Nicol, provincial treasurer, were put through the legislative assembly last night. Premier Taschereau said he hoped the time would soon come when taverns would disappear altogether. He thought that that would bring joy to the true friends of temperance. The House regarding Sunday selling was amended restricting the sale in the county to hotels containing twenty-five rooms and in the city to hotels containing fifty rooms. Mr. Nicol, explaining the reduction of the strength of beer from five to four per cent, said the government had received complaints from various sources and, notably from the clergy.

Fredericton News. Fredericton, N. B., March 17.—F. G. Spencer is here today in connection with the new theatre which he is to build here. He will appear before the city council tonight. The Hart Shoe Company, playing this morning in one of the sections of the Fredericton Commercial Hockey League, defeated John Palmer Company, 1 to 0, and won the section.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

LIONEL BARRYMORE AND GLYDE COOK

King of Heavy Actors and King of Light Actors at the Imperial Tonight—St. Patrick's Day Music and the Serial. Lionel Barrymore in "Boomerang Bill," his very finest screen effort, will appear at the Imperial tonight and tomorrow. This Paramount feature is a powerful and very human narrative of a rough character who loved little children and made good at last. The great Barrymore certainly wins your heart. Then after your heart has had a good throbbing along comes jelly-legged Glyde Cook, acrobatic comedian in "The Chauffeur"—a scream about a silver driver and the tar and feather committee of the Jitney Drivers' Union. On top of this there is the serial, "Winners of the West." Throughout the programme the orchestra will discourse the sweet melodies of Ireland in celebration of St. Patrick's Day, the first St. Patrick's day of the green isle's independence. Usual prices.

REGRET VISIT OF PRINCE IS OVER

Delhi, March 17.—The legislative assembly, including non-official members of every race and province, yesterday passed by acclamation a resolution expressing appreciation of the visit of the prince of Wales and regretting that his visit was at a close.

In the budget debate the democrats indignantly protest that they were not allowed to discuss the administration's general policy, declaring that this rendered the assembly powerless and reforms a farce. They moved as a protest the reduction of the expenses of the executive council.

ARE SORRY THAT MONTAGUIS OUT

London, March 17.—(Canadian Press.)—Reuter's Bombay correspondent cables that the resignation of Hon. Edwin S. Montagu, secretary of state for India, may continue to be a subject of absorbing interest throughout India.

STOCK COMMENT

(McDougal and Cowans, Private Wire.) New York, March 17.—While the Crucible Steel dividend passing may encourage bear element this morning, the ease of money rates and heavy oversubscription to new investments, are regarded as a big volume of money pressing for investment. Buying orders are reported for wealthy interests under the market.

MAKE CULTURE PEARLS

Culture pearls are now being produced in Japan on a small scale by several companies, while one company is producing a variety which is very similar to the natural article, writes H. A. Butts, U. S. acting commercial attaché at Tokyo. Some of these cultured pearls are round and entirely coated, though most of them are flat on the back, where they are attached to the mother-of-pearl shell.

HON. GUSTAVE BOYER, M. P.

For Vandrevill, Quebec, who has been appointed to the Senate.

NOTABLE YEAR FOR BOY SCOUTS

A Headquarters Report on Activities in Canada.

Membership Has Now Grown to 38,445—Aims, Show Its Value in the Developing of the Lads—Honors Won. (From Dominion Headquarters.) We have been very much encouraged by an extension and deepening of interest in welfare work among boys on the part of people generally throughout Canada. Canadians are beginning to realize that in the boy of today we find the citizen of tomorrow, and men are turning in increasing numbers towards "Boys' work." Strange to say a fact that we overlooked in former years has now been brought clearly before us—that the best scoutmasters are fathers of boys.

In a number of places such organizations as the Canadian Club, the Kiwanis Club, the Rotary Club, the Overseas Club and the Daughters of the Empire have displayed interest in our work. We have studied various methods of bringing the Boy Scout programme and the results of its use to the attention of the people of Canada generally, and we have yet to discover a better piece of propaganda than a good Boy Scout. Good scouts, good patrols and good troops are the most effective means of showing the people what scouting is and does.

Perhaps there is no evidence that we could submit which would prove that scouting is being appreciated by the scouts themselves and by the public generally than the records of our awards for gallantry. During the year 1920 sixteen medals were made, each after careful consideration by a local board of honor, the provincial board of honor, the dominion board of honor, the chief commissioner and the chief scout for Canada. During 1921 the number of awards was increased to fifty-three, being made up of eight certificates of merit, six medals of merit, seventeen gilt crosses, fifteen silver crosses, five bronze crosses, two silver wolves.

It might be explained that the certificate of merit is granted when scouts do exceptionally good work, but are not considered worthy of the medal of merit, which is for performing meritorious acts or especially good work on behalf of the Boy Scout movement. The gilt cross is awarded to scouts who do exceptionally well in cases of emergency, but without special risk to themselves. The silver cross is awarded to scouts who have shown gallantry with considerable risk, and the bronze cross is for special acts of heroism, or where boys have faced extraordinary risks. The silver wolf is the V. C. of scouting, the highest and most coveted award, and is awarded to a scout who has shown exceptional gallantry and has saved the life of another scout.

Another evidence of progress is found in the number of warrants issued to scout officers. In 1919, 271 were issued. In 1920, 475 were issued. In 1921, 508 were issued.

Also our census returns show that during 1921 some 28,000 rank and proficiency badges were earned by scouts. In 1920 all had ranks in the organization, 28,626 members. In 1921 our membership had increased to 38,445. Since 1918 the number of scouts in Canada has increased by one hundred per cent.

We are glad to be able to record that the world's chief scout, Sir Robert Baden-Powell, last year achieved the dignity of a baronetcy. Our new chief scout for Canada, Lord Byng of Vimy, has been through every rank of scouting from tenderfoot to chief scout, and has personally won for himself the highest award in scouting, that is the silver wolf. Since coming to Canada, His Excellency has given demonstrations, lectures to patrons, leaders and scoutmasters, and has attended conferences and given addresses on a variety of occasions emphasizing the value of the scout training.

During the last year the dominion headquarters at Ottawa has been greatly strengthened, and has been publishing books on scouting, and its official magazine, "Canadian Boy." In July, 1921, a stores department was opened at Ottawa, and has been in a position to supply all the equipment and uniforms needed by scouts and scoutmasters throughout Canada. We are able to do this at a greatly reduced price, as we deal directly with the manufacturer, and a standard price has been established for all Canada, so that the Boy Scout in Dawson City pays the same price for his uniform as the Boy Scout in the City of Ottawa.

Not everyone is personally just what the scout programme is aiming to do. Briefly, it is character-forming, recreational educational, carried on to a large extent in the great healthy school of the outdoors. It develops the spirit and habit of resourcefulness and cheerful facing of difficulties. These were the qualities of the Canadian pioneers and, embodied in their descendants, have given us a large number of the great names of Canadian history. The Boy Scout programme meets the boy's craving for romance and adventure. It gives him an outlet for his superfluous energy, helps solve his personal problems, gives the scout safe outside advice, which strengthens the hands of his parents. It counters the pool room and teaches him to be gently, but enthusiastically willing to do public service when the opportunity offers. This scouting accomplishes, not through a code of "don'ts," but by working from within, by providing natural, attractive and directed channels of activity for the boy's own impulses. Through a system of handicraft hobbies—there are more than sixty of them—boys are led to study subjects for which they have a liking, and in many cases scouts have been enabled through this medium to discover their vocation in life. But the greatest thing in scouting is its spirit, which is made evident in the boy's realization of his promise to do a "good turn" to somebody each day, to do his duty to God and the King, to help other people at all times, and to obey the scout law. The latter requires him to be trustworthy, loyal, useful, courteous, friendly, obedient, cheerful, thrifty and clean.

LOCAL NEWS

ALMANAC FOR ST. JOHN, MAR. 17. A.M. High Tide... 2.25 Low Tide... 9.08

PORT OF ST. JOHN.

Sailed Yesterday. Str Dorothy, 1629, Higgins, for New York. Arrived Today. Strm Canadian Trooper, 1953, from Cardiff. Costwise—Gas schr Snow Maiden, 46, Foster, from Grand Harbor. Cleared Today. Strm Melita, 5352, Waite, for Liverpool. Strm Canadian Navigator, 1929, Gilbert, for Liverpool and Glasgow. Costwise—Gas schr J. A. H., 88, Alexander, for Alma. Sailed Today. Strm Ballygally Head, 3167, Saffern, for Belfast and Londonderry.

MARINE NOTES.

The steamer Canadian Trooper arrived in port early this morning from Cardiff. Canadian Navigator will sail tonight for Liverpool and Glasgow. The Ballygally Head sailed this morning for Belfast and Londonderry. The Albania sailed from Liverpool on March 15, for New York, via Halifax. She has forty-one cabin passengers for Halifax.

The R. M. S. P. Caraque will sail for Bermuda and the West Indies, via Halifax tomorrow. The Kaduna is still at New York. She will come here to load out for South Africa next, sailing from here the last of the month.

The Keyingham arrived at Halifax early yesterday morning from Digby. She is loaded 2,550 tons of pulp, docked at the South End Terminals to complete her cargo. She is expected to sail on Saturday for St. Louis-de-Bonaville, France. The Keyingham's part cargo was loaded at Digby in three days which is very good work for a small port. Canada Elliott is still in command. The Keyingham called at St. John on her way to Digby, bringing a cargo of Scotch coal.

The steamer Keith Cann, Captain A. L. MacKinnon, which arrived here on Monday evening brought a heavy cargo, including 50 tons of general freight, and 500 tons of United States to many points through New Brunswick and Prince Edward Island, indicated in it was a 2,000 pound bell for the St. Thomas' Catholic church at Newcastle, N. B. It was from the McShane Bell Foundry, Baltimore, Md., and was inscribed as follows: "February 12, 1922. In memory of the Coronation of Pope Pius XI, King George V, reigning, Right Rev. Patrick A. Chaisson, D. D. Bishop of Chatham, Rev. T. C. Ryan, pastor Red Bank, Rev. and Mrs. William Sullivan, sponsors."

USE THE WANT AD. WAY

Bayard Y. Elkin arrived today from Montreal to attend the funeral of his father.

PERSONALS

Bayard Y. Elkin arrived today from Montreal to attend the funeral of his father.

a little there upon the present methods will not meet the situation. The estimates presented are brought down by instructing the officials in each department to reduce as far as possible and after each minister has scrutinized as far as possible his own estimates. These estimates presented are food for thought. My friend opposite, and I have confidence in his judgment, will no doubt follow me. I trust his criticism will not be general in its character. It does not require ability to criticize. There is no responsibility to it. I trust he will point out those particular items which if he is called upon to assume the reins of government, he will reduce or altogether extinguish. I also invite every member of the house and the people generally to make suggestions. I assure my friend opposite I will have my pencil sharp and take notice of what he has to say.

"We have discussed the situation with many people and find that there are different suggestions made as a panacea for the situation. There are those of the happy-go-lucky class who say, 'Carry on, and borrow money for revenue purposes until conditions improve.' For myself and the government, we look upon that method as unsound. Further paring of estimates and increased revenue is the only remedy for the future. Some other provinces are imposing an income tax where such provincial tax is not in existence. In the province of Manitoba a direct tax upon income has been imposed on the basis of fifty per cent. of the Dominion tax for provincial purposes, the same statements being accepted as a basis. Can our people afford his method of taxation? Many industries and business concerns are already over-burdened.

"A tax upon the capital of local companies might be adopted, but our companies are small compared to those in other provinces where large companies are chartered or where the banks and trust companies have the head offices. This form of taxation yields a good return. A tax of one-tenth of one per cent. upon capital and reserves would give us perhaps \$10,000,000.

"A tax based upon the real estate valuations for assessment purposes has been proposed, but can the real estate and the farm lands under the present conditions pay such a tax is a question.

"We have, I am pleased to be able to announce, met the situation for the present at least, first by practicing strict economy, without the imposition of additional burdensome taxation. Some won't like this economy, more particularly the items which affect them. I am sure the house and the country will be pleased at this statement. The only additional taxation which I announce is as follows:

"An increase of our road tax, and a tax of \$1.25 per gallon on liquors now stored or which will be stored in warehouses in the province and which liquors are for export purposes. This mode of taxation the prohibitionists won't like, but the temperate people of the province will. The principle of obtaining revenue from liquor transactions was first proposed by the temperate people themselves, and that principle was laid down in the very Prohibition Act now upon the statute books of the province.

"In discussing the liquor question and the question of revenue from liquor, brings to my attention the speech made in this house by the member for Albert, Mr. Peck. He seemed to think it a laughable thing that this government should have on hand as he stated about one hundred and fifty thousand dollars' worth of liquor. He wanted to know what authority we had to take \$800,000 out of the treasury to buy whiskey. It is inconceivable to me that the gentleman will make statements of this kind without taking the trouble to inquire into the facts. The statute referred to by the honorable member states that \$80,000 is authorized for the purpose of purchasing liquors. When we took over the wholesale handling of liquors, as suggested to us by the Temperance Alliance, we were also authorized at that time to take over the stocks of the wholesale vendors. Thirty thousand dollars was not sufficient to pay for the stocks and a governor's warrant was issued in order that we might pay for the taking over of the stocks as provided for in the act. The books of the province 1911 and so enthusiastically supported show that at this time we have about ninety thousand dollars of the people's money invested in our stock of liquors for the supplying of retail vendors. The member for Albert pictured the situation as a terrible one, to think that the people of this province were making any money out of the liquor business. But what of the government of Canada, a government which was in power since the honorable member himself? When he was on his tour of inspection and inquiry and visited the provincial parliament, all that was necessary for him to do was to step across a short distance and there he could have inspected a warehouse owned and controlled by the Dominion government, piled to the roof with liquors and from which the Dominion government are deriving a far greater revenue than is this province. If it is wrong for us to derive revenue in this way, then it is wrong for the Dominion government and they have been walking in this crooked path for many years.

"I want to reply to one or two observations made by the leader of the opposition and the leader of the Farmer's party. The leader of the Farmer's party made a speech on the address which to say the least was the most defolent and pessimistic contribution that I have ever listened to, and there is not very much to reply to. He mentioned the fact that I had upon a former occasion held out the olive branch and stated that the door was on the latch for any member of the Farmer's party who desired to enlist in support of the government. I have come to the conclusion, however, that it would be just as well not to leave the latch too loose, but on the other hand to place a guard upon the door and see what manner of man it is who knocks for admittance."

A Word of Advice.  
My Honorable friend the leader of the opposition during the course of his remarks upon the address spoke of proposed legislation with respect to the transfer of the trust funds of the St. John and Quebec Railway from the Montreal company to this province. His words were that he confessed it was difficult for him to understand, he was at a loss to understand why a new company was necessary unless it was to furnish employment and remuneration for friends of the government. To answer his question I will ask him another question. Will he tell the members of this side of the House why in the first place a Montreal trust company was ever named as trustee for over \$4,000,000 of the people's money of this province? Well, if he does not know and cannot answer my question, I will tell him. My honorable friend will learn from a little experience that the less he talks about nearly all years. We certainly prefer to take the matters pertaining to the history of the late government, the better it will be for

himself. I warn him in a most friendly way anything he touches is apt to rebound.

"Since my honorable friend cannot tell me why a large amount of money was given in the control of the Prudential Trust Company, I will tell him. The first reason was because cold cash was paid to an ex-Premier of the province and a political ally of my honorable friend opposite for the privilege. The history of this transaction would be too long to go into at the present time. However, the government of the day and now led by Mr. Richards agreed with Mr. A. R. Gould that the Prudential Trust Company of Montreal should be the trustee. Let me tell him that before the trust company was appointed it agreed to make a loan to A. R. Gould and his associates for the sum of \$850,000. One hundred thousand dollars of this amount was advanced on this loan before the provincial secretary treasurer at that time would place the seal of the province upon the bonds as a guarantee for their payment. It was stated by Mr. Gould in giving evidence before an arbitrator that a similar sum of money was paid by him to J. K. Flemming who was then premier of the province. This was shortly before the election of 1912. One of the provisions of the trust is that there shall be paid into the trust company an annual sum of in the vicinity of fifty thousand dollars as a sinking fund towards the redemption of the bonds of the Valley Railway. Great difficulty has been experienced not only by this government, but by the government which preceded us, in getting our proper rights from the Prudential Trust Company and in the collection of the amounts due the province. I have myself personally and the directors of the Valley Railway have used every diligence and care and have taken a great deal of time in an endeavor to arrive at a settlement with this company in order that we might get this matter out of their hands. We succeeded in arriving at an arrangement and the bill which my honorable friend cannot understand will set forth the provisions which under the arrangement has been made.

Hydro.  
"The leader of the opposition devoted considerable of his time to criticism of the Hydro Electric development. His criticism rested mainly upon three points. First, that the site of development had been changed from the Lepreau to the Musquash River and in support of his contention quoted a letter from Mr. Henry Holgate, C. E., which I read to the house upon the introduction of the bill launching the most progressive policy. My honorable friend stated in plain words that such change had been made without the sanction of Mr. Holgate and that it had been done because some friends of the government were interested in the Musquash River. I want to give the most emphatic denial and to say that such an insinuation is unworthy of one who seeks to successfully lead a political party. I had hoped when my honorable friend assumed his position that the days of insinuations were gone and that if charges were to be made they would be openly made and the public not left to draw inferences. My honorable friend also complained that the government did not know at the present time what disposition it was going to make of the current, and lastly, that the power as stated by the commission would not be available, and he quoted a report of a Mr. Ross in support of his contention. A little review of the circumstances surrounding the organization of the commission will not be out of order just at this time. And I am going to take the opportunity of informing the members of this house and the people of the country as to the great care that was exercised by the government and the commission in its organization.

"The government was desirous that the advice received in the development of this policy which meant so much for the province, should be of the very highest and best. And after much consideration Mr. Henry Holgate, a most eminent hydraulic engineer, was asked to associate himself as a consulting engineer.

"Much has been made by honorable gentlemen opposite regarding the change of the site and in order to put the mind of my honorable friend at rest I would tell him that the government was not aware that the change was contemplated or that it was to be made until the report came from the consulting engineers. The development of the Musquash was not made without advice of our experts. Early in the summer of 1920 the engineers of the commission made a survey, determining the possibilities of the Musquash and they made the following discovery—first, that the west branch could be diverted into the east; that both could be brought into one power house and thus could be created two separate and independent units of power. Third, that more power could be developed there than at either site of the Lepreau. Fourth, that the bulk of the storage is much easier of access for construction and control. Fifth, that it is eight miles nearer St. John and Moncton. Based upon these facts the consulting engineers all approved of developing the Musquash before the Lepreau. The insinuation of my honorable friend that anyone was influenced by the ownership of the land is without foundation. The engineers when examining the possibilities of the Musquash knew nothing of the ownership of the land that might be affected by the development. The compensation for the land taken for the purposes of the commission will be determined by arbitration as provided by the power act. "Let my honorable friend have no fear as to the disposal of the power. He complained that we do not know to whom we are to sell it. There is nothing to it. The difficulty at present is that we have too many customers and too many wanting it. I will tell him this, however, that it will be sold in such a way that the benefits of it will accrue to the people of the province. Under the act we must first offer it to the municipalities. Upon the municipalities depends whether or not the great mass of the people are going to obtain the proper benefits to be derived. I am not at this time going to enter into the controversy that is being carried on between the people of St. John and their common council. I can only express the hope, however, that the city will have in view the carrying out of a broad idea, namely, that the full benefit for this policy and development shall accrue to the people.

The Power Available.  
"Now as to the charge of my honorable friend that the power as claimed for by the commission cannot be developed. I prefer to allow time to tell the tale as to whether or not our engineers are correct or as to whether or not Mr. Ross is correct. I do know this, however, that our own engineers have placed the amount of power available in years of minimum run off at 21,000,000 k. w. hours and we have the assurance of the consulting engineers, both Mr. Holgate and Messrs. Mitchell, that this amount will be available under the most unfavorable conditions of water supply shown by records covering the last thirty years. We certainly prefer to take the statements of our own engineering staff which are declared to be correct by the

consulting engineers, all of whom have studied the situation and are satisfied themselves that their calculations are correct. We prefer to rely on their statement rather than the speculations of Mr. Ross, who did not even visit the site.

Mr. Holgate's Letters.  
Montreal, Feb. 21, 1922.  
Mr. C. O. Foss, Chief Engineer,  
New Brunswick Electric Power Commission, St. John, N. B.  
Dear Mr. Foss—I notice in the daily press some prominence is given to the report of Mr. Ross.  
Much stress is laid by Mr. Ross on the run-off records of the Dominion Water Power Branch, but there is not any existing reason to question them; certainly do not, and these form the basis of the estimates of power output.  
I can only view the case from an engineering standpoint, and as I have before assured you, I consider your position quite reasonable from an engineering and also a commercial point of view.  
Truly yours,  
(Sgd.) HENRY HOLGATE.

The following is a letter from Mr. Holgate of recent date upon the same subject:  
Montreal, March 8, 1922.  
Hon. W. E. Foster,  
Premier of New Brunswick,  
Fredericton, N. B.

Dear Mr. Foster—I note in a daily newspaper of recent date a discussion in the house in regard to the development of hydro-electric power by the Electric Power Commission, and in which the member speaking is reported to have referred to a communication from me to you, in which I advised the first development at the Lepreau River.  
At this time and for some little time afterwards, the investigation of the Lepreau, Magaguadavic and Musquash rivers was continued, with the result that the Musquash river was found to afford better conditions for the initial development than the Lepreau, and after I had personally been over the ground and investigated the data, I approved of the change and undoubtedly this was the proper thing to do.

These three streams comprise a group essentially tributary to the city of St. John, and all ultimately should be developed and operated in parallel.  
The question was, which of these should be first developed so that economic results could be had from the initial power development?  
After comparing all of them, I concluded that the Musquash offered the best inducements as it would at once afford a net revenue, and that when demand would increase the other two rivers could be developed to augment the supply of power.

The commission proceeded on this programme, and I can assure you that in my opinion it is the proper course to have pursued, and that the results will be as I had expected.  
Sincerely yours,  
(Sgd.) HENRY HOLGATE.

The Future.

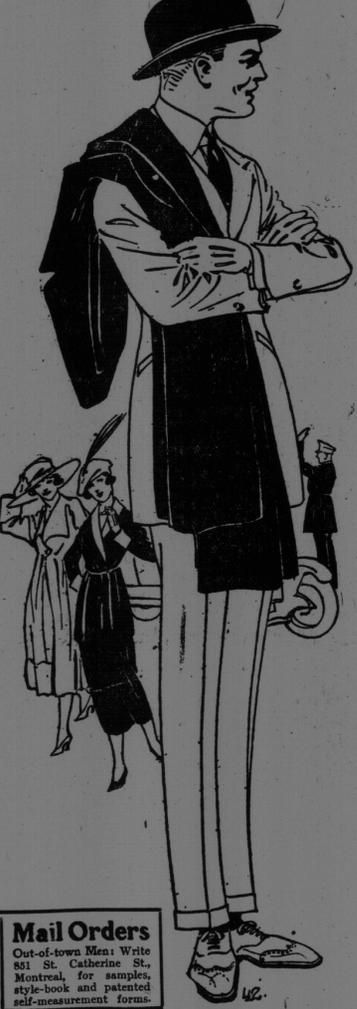

"At the beginning of my remarks I pointed out that the year 1921 would be remembered by all as the year of the worst depression in business we have ever known. There has been a rude awakening to those who thought the artificial conditions of the last few years would last forever. Of the future, who can tell. But in speaking with men who are in close touch with business conditions the best I can say is that they speak hopefully. But we must face the fact that there can be no prosperity until our two great basic industries, namely, agriculture and lumber, pick up, and until the farmer and the lumberman are able to show a substantial balance on the right side. In the meantime we must endure hardships and suffering for our lack of forethought. We can only get back to our original condition by everyone realizing that pleasure, enjoyment and extravagance must give way to thrift and industry. The aftermath of the war promises to be quite as long as the struggle itself. We should be happy that we are living in Canada, and more so that we live in New Brunswick, with our beautiful surroundings, our lovely valleys, streams and lakes, and all those things which nature has provided for our enjoyment. During the past year I had the pleasure of a short trip abroad. Unemployment and want were in every direction. In England trade and business at that time was stagnant. We do not realize the mighty heritage which we possess. These possessions which are ours are not equalled in the world over. Let us guard them to the utmost, carefully we should see that the burden of taxation does not become so great that our province will cease to be attractive, either for our own sons and daughters or those who seek admittance to our land. In comparison with other provinces we must endeavor to make conditions attractive. Other provinces seem in some way to be able to make better provision for the redemption of their indebtedness. We are far beyond our means to do so.

Business Revival Ahead.  
"I trust I have not painted too dark a picture of the present. If I have, we can, I think, brighten up the horizon of our landscape somewhat. For a review of the replacement of all classes of goods in the best position of any country on the globe as regards general business. A steady revival of business is ahead. This is the opinion of men closest in touch with economic conditions. In this province we have every reason for viewing the future hopefully, as the necessity for the replacement of all classes of goods the world over is apparent. The public has been buying in a conservative manner. Likewise the retailer and the wholesaler. The producer has been compelled to reduce production with the result that the world's supply of commodity is below normal.  
"The opportunity will soon be here. But with it will come keen competition. I hope and trust that we in New Brunswick will not be handicapped as we are at the present time by excessive and unfavorable transportation facilities, that the government fortunately now in charge of the affairs in Canada will realize our geographic position, that they will realize and understand that the promises under which we entered Confederation must be lived up to. We are a people who are intelligent, thrifty and industrious. The spirit of optimism that made us what we are is still in the hearts of the people. But give us a square chance with others, and we will not be found last in the race. No, Sir, the horizon of our landscape is not dark, it is brightening. On the horizon we see the red glow of the rising sun for Canada's trade balance is improving, foreign exchange is strengthening. These are healthy signs. We have resources wanted the world over. Our lumber, our agricultural products, our fish, will when the world conditions adjust themselves, be again in demand and then and only then can we hope for relief from this depression. I trust the time is not far off."

Mr. Smith (Albert) moved the adjournment of the debate which was made the order of the day for tomorrow at three o'clock.  
Adjourned at 6.30 p. m.

SUNDAY NIGHT NURSERY IN FIFTH AVE. CHURCH  
A Sunday night nursery, in which parents may leave children while attending divine services, was opened last Sunday in the basement of the Church of the Heavenly Rest, Fifth Avenue, New York.  
Five children, ranging from 3 to 10 years of age, enjoyed themselves playing games in the nursery last night. One

baby girl was pushing a toy elephant across a table, for some reason known only to herself, and two boys were engaged in a spelling game under the guidance of Miss Lillie J. E. Atkinson, a parish worker, and Mrs. Anna Benfich, a member of the Church Mother's Club.  
"Our aim in the nursery is to instruct as well as to entertain the children," Miss Atkinson said. "Instead of trying to make them sit still through sermons

they cannot understand and thus make them hate church, we believe it is best to entertain them and make them enjoy coming here. Thus they become a part of the church, and as they grow older they will come to the services. The nursery will enable parents to go to church who formerly were compelled to stay home on Sunday to care for their children—they know that their children are being well cared for."  
The nursery is conducted under the

auspices of the Mothers' Club of the church.  
The Willing Workers of the Central Baptist church met last evening at the home of Mrs. D. Davidson, 24 Seelye street. The meeting was largely attended and, after the usual business was transacted, the members were treated to refreshments served by the hostess.

Export Business in Paper Revives

Wayagamack, Price Bros. and Saguenay Figure Prominently in Export News.

The causes which led up to the reaction in the Canadian pulp and paper trade after the boom and inflation period following the armistice present an interesting study. This reaction is now passing away and giving place to brighter conditions in the trade. Paper buyers were undoubtedly at one time in a panic frame of mind for fear they would not be able to fill their requirements. In the American market, in which Canada is so keenly interested, imports were restricted to those from this country. Ocean freights at that time were of a prohibitive character and foreign products were unobtainable. So alarmed did paper merchants become that they began placing orders with mills months ahead. At the same time they made these orders larger than their actual requirements in the expectation that they would only be able to obtain a fraction of their orders. The result was that when the reaction started to make itself felt everyone found themselves stocked up either with goods or orders. Wholesalers and jobbers commenced to cancel their orders and consumers did the same, with the result that prices came down with a run. It took some time to absorb the surplus supplies and now a change for the better has come which is expected to bring the Canadian industry back to prosperous days again. Indications of this are already observable about the mills of the Wayagamack Pulp and Paper Co. Limited, where capacity operations have been reached during the past three weeks. This calls for the production of 240 tons of pulp and 100 tons of kraft paper. This highly satisfactory state of affairs is due to the fact that export business has been coming in

FARMER'S WIFE REGAINS HEALTH

Gives Credit to Lydia E. Pinkham's Vegetable Compound

Fork River, Manitoba.—"I saw in the newspapers where Lydia E. Pinkham's Vegetable Compound was doing so much good to women, and as I needed something I began to take it. I see what Lydia E. Pinkham's Vegetable Compound does for me. I think it saves me from going to a doctor and is the best medicine women can take."—Mrs. Wm. Coultas, Fork River, Manitoba. Lydia E. Pinkham's Vegetable Compound is a medicine for the ailments peculiar to women. It is prepared from medicinal plants, which are carefully and accurately prepared by women of any age. Women make a serious mistake in allowing themselves to become so weak and nervous that it is well-nigh impossible for them to attend to their necessary household duties. Such symptoms as pains and irregularities, all-gone feelings, backache, headache, hot flashes, nervousness, with a general run-down condition, indicate some form of female trouble. The Vegetable Compound has brought relief to thousands of women suffering from such ailments. Let it help you.

NO DECISION YET ON CITY BASEBALL

At a special meeting called by Frank White, president of the City Baseball League, held last evening in the office of the Commercial Club, the question of whether amateur or independent baseball was to be played this summer was discussed, but very little progress was made towards the organization of the league.

Mr. White said that, so far as the Commercial Club was concerned, the Commercial Club was an amateur association and they would not consider being represented by anything but a strictly amateur team.

The meeting opened with Frank White in the chair and also representing the Commercial Club. J. Dever and J. Doherty represented the St. Peter's and A. E. Seelye, the Pirates.

Mr. White said that, so far as the Commercial Club was concerned, the Commercial Club was an amateur association and they would not consider being represented by anything but a strictly amateur team.

The suggestion was raised that there should be some clause in the amateur rules which would permit an amateur to receive his regular salary or wages as well as his expenses when he was laid up as a result of an accident while participating in a ball game.

While the meeting practically was at a deadlock, so far as the question of a decision as to the class of ball which would be played this summer, the meeting brought out the main points which are holding up the reorganization of the league.

The report that a Moncton man was trying to promote an independent league, embracing St. John, Moncton, Amherst and Springhill, also came in for general discussion.

The meeting finally decided to adjourn until early next week and several questions, which were raised last night in regard to the amateur ruling on certain points, would be investigated in the meantime.

How "the weather man" complicates the vast accumulation of information upon which he bases his daily "probs" was explained to the St. John branch of the Engineering Institute of Canada at its meeting in the Orange hall, Germain street, last evening by D. L. Hutchinson, director of the local meteorological observatory.

Hon. Dr. J. E. Hetherington, provincial secretary-treasurer, arrived in the city yesterday and is registered at the Royal Hotel. His many friends will be glad to learn that Dr. Hetherington's health has improved to such an extent as to permit his return from Hot Springs, Virginia, where he went some weeks ago to recuperate.

It is human nature to want to find out "why." So far as science can tell us this is the reason: Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Get Fleischmann's Yeast fresh daily from your grocer.

Fleischmann's fresh yeast helps digestion and cleans a coated tongue

THOUSANDS of men and women have found relief from various digestive disturbances by eating Fleischmann's Yeast.

It is human nature to want to find out "why." So far as science can tell us this is the reason:

Fleischmann's Yeast is a food abundant in certain elements which are necessary to health and life itself. It promotes the flow of bile and of pancreatic juice. It has a remarkably beneficial effect on the whole digestive system. It cleans a coated tongue.

Try Fleischmann's fresh yeast in orange juice or, if you prefer, in milk. Men like it in milk shakes and malted milks. Women like it spread on bread or crackers.

Keep your digestion in the pink of condition and your tongue clean and healthy by eating 2 or 3 cakes of Fleischmann's Yeast fresh every day before or between meals. Get Fleischmann's Yeast fresh daily from your grocer.

The familiar tin-foil package with the yellow label is the only form in which Fleischmann's Yeast is sold

Advertisement for Ganong's Chocolates, featuring an illustration of a walnut fondant and text: 'To charm your fancy in flavours - over 130 different kinds!' and 'Ganong's Chocolates - The Gift of Gladness'.

LIONEL BARRYMORE AND CLYDE COOK

King of Heavy Actors and King of Light Actors at the Imperial Tonight—St. Patrick's Day Music and the Serial.

Lionel Barrymore in "Boomerang Bill," his very finest screen effort, will appear at the Imperial tonight and tomorrow. This Paramount feature is a powerful and very human narrative of a rough character who loved little children and made good at last.

ST. JOHN TO BE IN EASTERN CANADA BASEBALL LEAGUE

The lay-out of the proposed Eastern Canada baseball league, a new professional association, was definitely announced in Montreal yesterday from semi-official sources.

MISSION CIRCLE PRESENTS PLAY

The play entitled "The Pill Bottle" was presented last night in Centenary church hall by the Hirausa Mission Circle of the church, to an appreciative audience which completely filled the large hall.

The play was well presented and Goodwin, the Misses Starr, McAlpine, Pauline Jenkins, Gladys McLaughlin, Laura Baxter, Julia Hennegar and Messrs. Stanley Goodwin, Harold Barson, Edwin and Townsend Gunn. The Logic completely captivated the audience.

Mrs. R. B. Irving, Mrs. H. A. Goodwin, the Misses Starr, McAlpine, Pauline Jenkins, Gladys McLaughlin, Laura Baxter, Julia Hennegar and Messrs. Stanley Goodwin, Harold Barson, Edwin and Townsend Gunn. The Logic completely captivated the audience.

In the county court, in the case of the county against Stevens, judgment was given by Judge Armstrong in favor of the plaintiff for \$200 and costs.

A Good Name is better than great riches!

ROBINSON'S CLOTHES

THROUGH the past two years of generally depressed business conditions --- while the percentage of unemployment was high --- while competitors were on every hand failing--while other clothiers were resorting to trick advertising sales of all kinds, using almost any method whatsoever in order to raise a little money to keep from going under---

MY NEW SPRING PRICES

AND

ROBINSON'S UP-STAIRS CLOTHES SHOPS have ridden on the top wave of prosperity. Have never resorted to any fake sale methods---have never gone out to the Manufacturers to buy cheap throw-together goods to dump on the market at make-believe sale prices.

I HAVE carried on my business legitimately without any sensational advertising---and have always given the same conscientious service and stable maker-to-wearer values that have built my business in 9 short years to be the largest in Canada.

In the year 1921 I sold more garments than I have sold any year in the history of my business.

My Spring line is now ready---With not a single old suit or overcoat on my racks---With nothing but New Goods at New Prices \$25. and \$35. and with the usual Robinson guarantee of a saving of at least \$10. on every garment---because they are sold direct from my Factories to you---at the saving on up-stairs rents ---delivery expenses and credit losses.

Who Do You Want to Trade With?

SPORT NEWS OF  
A DAY; HOME  
AND ABROAD

**BOWLING.**  
Games Last Evening.  
In the Commercial League Amey-Holden-McCreedy took three points from Emerson & Fisher. The winners totalled 1262 and the losers 1209. They also took four points from the Imperial Opticary. Their total in this game was 1835 and the losers 1249.

**WRESTLING.**  
Did Not Need Head Lock.  
Nashville, Tenn., March 17.—Strangler Lewis demonstrated that he could defend his title as heavyweight wrestler without using the headlock in his victory here at night over Joe Petroff, a Bulgarian heavyweight, whom he agreed to grapple with this hold barred. By using the double cross bar the champion pinned his opponent for the first fall in one hour, thirty-three minutes. The second fall was secured with the hammer lock in thirteen minutes.

**W. Zbysko Wins.**  
Springfield, Mass., March 16.—Wladek Zbysko, Polish wrestler, defeated Laurent Guerstman, champion of Belgium, two falls in three here tonight. Guerstman won the first with a headlock in 44 minutes, 30 seconds. The second went to Zbysko in 32 minutes, 15 seconds, with a Cornish back hold; and a double arm-lock after 18 minutes gave Zbysko the third and deciding fall.

**BASEBALL.**  
Testing Cobb's Men.  
Detroit, Mich., March 17.—The Detroit Tigers were slated to play the second full game of their training season today with Georgia Tech at Atlanta. The college players surprised the Tigers yesterday and the Detroiters 4 to 2 victory came through errors of judgment in the Georgia infield, rather than on superior form of Cobb's men.

**Blake Makes Impression.**  
Pittsburg, Pa., March 17.—The Pittsburg Nationals regulars evened the training series with the Yannisins by winning a fast game at Hot Springs yesterday 7 to 3. Despatches from the Pittsburg training camp tell of the fine work of Freddie Blake, a West Virginia pitcher who took the mound for the veterans and held the second team to two hits in five innings.

**BASEBALL.**  
The Athletics.  
Philadelphia, March 17.—The Athletics gradually are rounding into shape. Regular nine inning practice games are held daily. Yesterday the Hawks evened the count in the family contests by defeating the Owls 4 to 1, making the games won two all. Six pitchers evened the mound and their work was reported to have been first class. The Philadelphia Nationals played yesterday, losing to the Washington Americans ten to eight, in Florida.

**Recruit Does Well.**  
Milwaukee, Wis., March 17.—Sentational improvement shown by Mollilo, recruit outfielder, was the most cheering bit of news today from the Milwaukee American Association's training camp at Caruthersville, Mo. The Brewer rookies dropped a 5 to 4 game to Minneapolis yesterday, and Mollilo started with two sensational catches.

**Last Are Signed.**  
St. Louis, March 17.—The St. Louis Nationals and the St. Paul American Association club have an exhibition game scheduled for this afternoon at Bogalusa, La. Manager Riecky announced that Wm. Petrica, the last hold-out had signed a 1922 contract, with the St. Louis team.

**White and Dundee Tonight.**  
New York, March 17.—Charlie White of Chicago, and Johnny Dundee of New York, veteran lightweights, will meet in Madison Square Garden tonight. They are booked to travel fifteen rounds. This will be their third meeting. The first resulted in a draw and the second was given to White on points. White rules a slight favorite today, chiefly because of his highly respected left hook. Dundee and White are real veterans and seemingly grow better with each match. White has been fighting for sixteen years and will celebrate his 31st birthday on March 25. Dundee, 28, has been fighting twelve years.

**Hartford Man Gets It.**  
Hartford, Conn., March 17.—Mike Morley of Hartford, former welterweight champion of New England, was given the referee's decision over Max Hierocowitch of Montreal, at the end of the 12th round here last night.

**BASKETBALL.**  
U. N. B. Wins Championship.  
Fredericton, March 16.—The University of New Brunswick basketball team tonight won the championship of the recently organized Maritime Intercollegiate Basketball League by defeating the team of Acadia University, 69 to 27. The match is the second which U. N. B. has played, having previously defeated Mt. Allison at Sackville. Mt. Allison and Acadia are still to play. These three universities comprise the league.

**HOCKEY.**  
Windsor Wins Championship.  
Amherst, N. S., March 16.—Windsor by defeating Thorburn 5 to 4 after an overtime session played in the Amherst arena tonight won the amateur hockey championship of Nova Scotia for 1922. The ice was fair and the play rough, the Valley boys being perhaps the worst offenders.

**In Boston.**  
Boston, March 17.—In the national amateur hockey championship, St. Paul will meet the Westminsters here tonight at a four goal disadvantage, but in spite of that followers of the game accorded them odds on tonight's contest. The second game of the two game series will be played Saturday night.

**Stanley Cup Tonight.**  
Toronto, March 17.—Vancouver and St. Patrick's will meet tonight in the first game of the Stanley Cup series and the visitors from across the continent will start equal favorites with the locals. Interest in the series is at fever height in the city. There has been a large demand for tickets and the officials are preparing to handle the largest crowd of this year.

**Haddfield to Row Paddon.**  
The world's champion sculler, Robert Haddfield, has signed an agreement to row James Paddon for the world's title on April 18. The contest will take place on the famous New Zealand course.

**AMATEURS SCORE DECIDED SUCCESS**  
"All the Comforts of Home"  
Delightfully Presented in St. Vincent's Auditorium.

Home with all its comforts, but lacking the tranquillity desired, was portrayed in an unique and clever manner in St. Vincent's auditorium last evening by the dramatic committee of the Y. M. C. I. The comedy-drama is entitled "All the Comforts of Home" and is a regular screen from beginning to end. The name might have been changed at times to "Home was never like this" when the characters had got themselves into apparently incurable tangles and their future happiness seemed threatened by a malignant fate and adverse circumstances, but by a sudden reversal of their fortunes the silver lining of the clouds appeared and home became home again. With all its climaxes the plot never lost its basic idea of humor and the response from the audience was quick and spontaneous. The actions of Tom, the negro waiting man, were an unending source of natural merriment, and his cry of "An' I get half" was sure to meet with laughter. The acting of Miss O'Malley, in the role of Mrs. Bender, deserved special mention even among the excellent work of the whole cast.

The plot hinged on Mr. Pettibone leaving his house in the hands of his nephew, Alfred Hastings, while he and his wife and daughter took a trip abroad. The young man, a medical student, was apparently in need of funds, and with the aid of a protegee, Tom, converted the rooms into a lodging house, advertising it to be "with all the comforts of home." The humorous and ludicrous situations reached by the household provided comedy of a high order. Fred A. Hazel portrayed the leading role of Alfred Hastings with a great deal of success and good teamwork with Miss O'Malley, who played opposite him in the part of Emily Pettibone. The work of David Higgins as Tom McDow showed talent in his rather hard line of colored comedian. F. X. Jennings, as Mr. Bender, played opposite Miss O'Malley and carried off several difficult scenes with a good interpretation of his part. Also deserving mention in connection with the play were F. J. McCullough, Roy McIntyre, Miss C. McGrath, Miss J. Conlon, F. E. Ed. Martin, Miss B. McGuigan, John L.

**NATURE TALE FROM BURMA.**  
Traveler Tells of Lizards Calling "Becky" and Ants Eating Shoes.  
Henry A. Mortimer, a timber merchant, who arrived in New York from Burma on his way home to England by the Olympic, said that he had met many American tourists at Rangoon, waiting to go up the Irrawaddy River by steamer to Mandalay.

The famous Shwe Dagon Pagoda in Rangoon is now cut off from tourists, Mr. Mortimer said, because an enthusiastic English army officer, full of either religious fervor or rum, took off his shoes and socks before ascending the steps to the platform, and since then the trustees have insisted that all visitors do likewise. With the risk of contracting bubonic plague by walking barefooted, Mr. Mortimer added, visitors are content to listen at a distance to the temple bells.

According to Mr. Mortimer, the tiny green and gold lizards which lurk in the corners of the ceilings in the hotels in Burma, and call out "Becky" all night in high-pitched tones, are still flourishing in Rangoon, and so is the small bird that sits on the branches of the sacred Bo tree, crying "Tucktoo" in plaintive tones during the night. This season Burma and the towns on the upper section of the Irrawaddy are infested by swarms of ants, which devour everything in sight, from the white canvas shoes worn by the tourists to their large white plth topees.

**SEAMEN'S WAGES ARE MATTER OF DISPUTE.**  
London, March 17.—(Canadian Press)—Reuters' Wellington correspondent cables that the New Zealand ship owners are applying to the arbitration court for permission to reduce seamen's wages to the level prevailing in 1917. The seamen have entered a counter application for an increase.

Estimated 6,000,000 Talking Machines Now in Use in United States.  
The development of the phonograph industry in the United States during the past two decades has been almost as phenomenal as the expansion of the automobile industry. Last year 1,150,000 perfect machines were produced in that country. That figure, based on the last census, represents one new machine for every seventy-two inhabitants. The production of phonograph records has also expanded rapidly during recent years. Sales of Caruso's records have increased approximately 200 per cent since his death.

POISON RUM KILLS 100 IN 30 DAYS

New York Official Says That While Some Escape Death, they Recover Slowly—Mis-branding is Common.

(New York Times) Impressed with the serious danger to the lives of consumers of "hooch" or bootleg whiskey being dispensed in Brooklyn, as indicated by the chemical analyses of many samples of the stuff seized in raids, District Attorney Ruston, of King's yesterday, issued a warning to the public. A somewhat similar warning was issued by Ralph A. Day, Federal Prohibition Director, who said that more than 100 deaths had been reported in New York alone in the last month from poisonous liquor. District Attorney Ruston said he was certain that thousands of bottles of the deadly poison was being sold in Brooklyn. The warning from the District Attorney followed a series of chemical analyses of "hooch" samples by Charles Wagner, chief chemist of the Police Department. The report of the analyses showed that industrial alcohol and kerosene, is being redistilled in an effort to rid it of poisonous ingredients and then used in bootleg whiskey. It is asserted that the redistilling does not rid the mixture entirely of wood alcohol, though the odor, which would warn many, is not present after this process. It is because the process robs the wood alcohol of the warning fumes that the redistilled stuff is considered even more dangerous than the straight wood alcohol.

Although a redistilling machine, according to the police, costs in the neighborhood of \$100,000, many bootleggers are now installing them. The huge profits makes this expense possible, it is said. Even such expensive stills do not entirely eliminate the poisonous alcohol, it is said. And there are many much cruder and less expensive stills being used.

Finds Conditions Serious.

"It is a desperate condition that finds innocent people victims of this poisonous concoction," District Attorney Ruston said. "Bootleg liquor containing this poisonous ingredient is a great menace to the health of this community. Human life must be cheap to the one who can place the dollar above it. Even if prohibition, were not a law, still the distribution of such poisonous concoction would be a crime that every law-abiding citizen should cry out to have avenged. "Denatured alcohol in vast quantities is being used by liquor law violators who, after attempts to withdraw the poisonous elements, convert it into bootleg whiskey which misguided purchasers, through counterfeit labels, are readily deceived. Bottles, are led to believe to be bonded liquor," said Director Day in his statement.

"Various methods of coloring are employed when the stuff is transformed into bootleg liquor. Iodine is in some instances being used and while the resultant fake whiskey does not necessarily kill, blind or paralyze, the tissues of the stomach are destroyed and organs generally so affected that disease is certain to ensue. "In view of the fact that the process of denaturing alcohol requires either bichloride of mercury, lysol, formaldehyde, carbolic acid or similar disinfectants, and that the process of compounding bootleg whiskey contemplates the use of lead, copper and zinc poisons, to say nothing of fuel oil, it naturally follows that drinkers of it are taking long chances on their health, if not their lives. "More than 100 deaths have been reported in New York alone in the past month as a result of drinking this poisonous liquor which is being manufactured by the unscrupulous bootlegger. Kings County Hospital in New York reports 842 patients in 1921 for treatment of alcohol poisoning. Even though some of the patients escaped death they are slow in recovering. "Counterfeiting of labels has become a profitable business. Foreign countries have been credited with counterfeiting labels on Scotch whiskey, champagne and cognac. Even strip stamps and bottled-in-bond labels are counterfeited. In some cases so-called bonded whiskey has been found to be wood alcohol. "From specialists in the treatment of psychopathic cases comes a warning that the toxins in home brew and moonshine are cumulative and remain permanently in the system, frequently producing a condition of imbecility which resembles perpetual drunkenness, without the exhilarating effect for which liquor is taken."

Supply Comes From Ships. Developments of the last two weeks have convinced the Federal prohibition authorities that a considerable proportion of New York's apparently never diminishing liquor supply is contributed from incoming steamers as well as small boats used exclusively for the "rum-running" trade. Both the police and the Federal authorities have men engaged in the harbor and on piers in an effort to detect the bootleggers, but the force is said to be inadequate.

The Lend-a-Hand circle of the King's Daughters, under the convener-ship of its president, Mrs. G. Wilford Campbell, provided a much enjoyed treat for the boys of the East End Club last night. About 100 boys were presented and quite evidently appreciated the programme of readings, vocal solos and piano selections as well as the treat of coffee, cake and good things which followed. The boys performed some gymnastic feats for their entertainers and were highly complimented on their skill.

EMIGRATION PLANS IN GREAT BRITAIN

Depopulation of Old Country Now Necessary, States Anglo-Canadian Editor. (Montreal Gazette.) To consult the new federal government with regard to the question of immigration, which he says is one of the most pressing problems that the British Government is now facing, is what brings Walter Lefroy, of London, founder and editor of "Canada," the illustrated weekly published on that side, here at the present moment. He and Mrs. Lefroy arrived on the new Canadian Pacific liner Montcalm, which docked at St. John on Sunday. It was pointed out in the King's speech at the recent opening of Parliament, stated Mr. Lefroy, when seen at the Windsor Hotel last night, that a bill is to be introduced this session with a view to an important emigration scheme, and it is understood that the sum of two million pounds sterling, which was mentioned, is not to be regarded as a capital sum, which would be absurdly inadequate, but that that amount will be the annual interest which will be available for the settlement of suitable emigrants in the British dominions. It is naturally a matter of great concern to a paper which represents Canadian interests in the British Isles, said Mr. Lefroy, to note the activity of Australia, New Zealand and South Africa, all of which are very busy with their propaganda both for immigration and trade with the Mother Country, while Canada is inactive. Unfortunately the action of the late Government taken last summer in the entire suspension of all such propaganda has caused a widespread impression in the United Kingdom that this country has no further de-

sire for immigrants, and this impression is naturally assisting the other dominions. Attitude of Labor. Explaining the attitude of labor to the question of emigration, Mr. Lefroy stated that the British Government was really waiting to secure the good-will and co-operation of labor in any action to be taken. Labor, he added, was by no means unanimous on the subject of emigration. The constitutional labor party is reasonable, and does not appear anxious to place any obstacle in the way of suitable men desirous of preceding overseas; but they do object to the Canadian immigration regulations, especially the unnecessarily high monetary qualifications, as well as the uncertainty of passing other tests. Mr. Lefroy was of the opinion that the question of health fitness should be decided at the port of embarkation by Canadian officials, as there had been some strong feeling raised on the other side in cases where families, after selling their all, were turned back on this side. It had also been suggested by certain labor organizations that friction

could be avoided on the St. Lawrence route if immigration officials were thoroughly acquainted with the English language. There was another section of labor, Mr. Lefroy admitted, which was hostile to emigration, the wish of this group being to exploit unemployed labor by having a large representation of it always on hand in order to force the Government for any action wanted. The only remedy to meet this obstructionist group, he suggested, is to reach the workmen directly by national propaganda and show them the opportunities overseas. Depopulation of Britain. Owing to the changed industrial conditions in India and the Far East the textile trade and certain other industries in Britain are in a bad way, and in the opinion of most people, the only solution is the diminution of the population of the Old Country, stated Mr. Lefroy. He emphasized his opinion that the Mother Country must shoulder the financial burden of emigrating her people, provided the dominions are ready to co-operate in settlement plans. He expressed his conviction that if the Canadian Government would look at this problem from an entirely new angle, it might find it practicable and profitable to go much beyond the admission of land workers and domestic servants. There were miners and other workers in the Old Country who could help to promote great new industries in this country, and if that were done, the great railway problem would be nearer solution.
