## Word of Meatless Weeks Makes German Sensation

Amsterdam, July 9.—According to the Berlin Vorwarts, Herr Von Waldow, president of the German food regulation board, speaking in the Reichstag on Saturday, created a sensation by foretelling the imposition of meatless weeks in Germany.

"The harvest assuredly will not fulfill the good prospects of last spring," he said, "but, thanks to the recent rainfall, we may hope for a medium harvest so that, with additions from the east, we will be in a considerably better position than we were last year."

### INQUIRY INTO CHARGES AGAINST SPEAKER CURRIE

### HEARING IN CAMPBELLTON

### SCALAR PRINCIPAL WITNESS ON STAND SO FAR—MYSTERY ABOUT AFFIDAVIT WHICH HE SAID REACHED HIM BY POST WITH NO ACCOMPANYING LETTER

Campbellton, N. B., July 9.—The inquiry into charges preferred against Speaker Currie by Hon. J. B. Baxter in the legislature was begun here today under royal commission.

Archibald Murchie, former government scaler, on whose affidavit the charges were based, was the chief witness.

The court opened at ten o'clock with James Friel, K. C., of Moncton, presiding. A. B. Copp, K. C., of St. John, appeared for the government, A. T. LeBlanc of Campbellton for Hon. Mr. Currie, and Hon. J. B. Baxter, K. C., in support of the charges against Mr. Currie. The latter also was present. G. P. Leonard of St. John acted as official stenographer.

The session was held in the council room in the town hall, which was well filled with witnesses and spectators.

Mr. Friel read the commission authorizing the inquiry and Mr. Baxter opened the case. He called Charles Purdy, accountant for the Continental Lumber Co., but the latter was not present. Mr. Baxter said he wanted Purdy to produce the books and added that he wanted it understood that the books should be produced.

"The books must be produced," said the commissioner.

Joseph Lepoint, farmer, of Nash's Creek, was sworn. He testified, going with Archibald Murchie, the government scaler, to the office of the lumber company. After several jobs about the election he said, Murchie told Mr. Currie that he had called to make some statement about the company's affairs. Currie took the witness into his private office and closed the door and they remained there for twenty minutes or half an hour. The witness did not hear what went on.

Cross examined by Mr. LeBlanc the witness said he did not give the exact words that Murchie used to Mr. Currie. He might be mistaken about the exact words, but not as to the meaning.

Archibald Murchie of River Louisa, a former government scaler, on whose affidavit the inquiry is based, was next called. He told of his appointment in 1908 for district No. 5, including all lands on rivers draining into the Chaleur. He had no instructions or regulations regarding his duties. The scaler, he explained, has sufficient men under him to count the cut logs in the yards and skidways, and sometimes in the river. The scaler follows and estimates the contents of logs, rejecting those unfit for merchantable lumber. Sometimes additional logs arrive in the yard between the visits of the scaler and scaler. In scaling he took a certain number of logs, measured them there, averaged the result, taking off a certain percentage for culls and cedar. He submitted a statement to the crown land office and that office would send a copy to the operator. The witness identified a document as a copy of the statement of the Continental Company's scaler which he said he sent to the department.

At Mr. Baxter's request Mr. LeBlanc produced a copy secured from the department by the company. So far as he knew the company had not received an original copy at the time the statement was filed by Murchie.

Murchie, continuing, said that his statement did not show all the lumber produced and scaled. Sheet "B" next produced did contain the full count. His counter was J. A. McKay, from whom he received his returns. The witness visited some of the yards and made up his returns in the usual way. He testified (Continued on page 2, fourth column).

London, July 9.—British naval airplanes between July 4 and July 7 dropped six tons of explosives on German works at Ostend, Zeebrugge and Bruges. GOOD THINGS COMING TO THEATRES OF ST. JOHN

HARRY MOREY AT IMPERIAL TONIGHT  
Fascinating Vitaphone Romance and Well-Balanced Programme

Most people like Harry Morey, Vitaphone's blonde pompadour hero and most people like Vitaphone productions on general principles. That's why the Imperial enjoyed such a big run of patrons yesterday no doubt. The photo-play in which Mr. Morey appeared was entitled "A Bachelor's Children," just a sweet and soulful little tale of two kiddies and a big sister who had been orphaned out of their dear father's hands by a mining venture by an unscrupulous old uncle of a society millionaire bachelor. Harry Morey was the rich young Bachelor, Florence Deane the big sister and two of the sweetest kiddies imaginable were the fatherless boys. How Morey got the whole thing unravelled, how the sportsy young aristocrat who tried to mislead the big sister was lured by Harry and how Harry got his fortune back with a bride thrown in makes a corking picture filled with human interest.

They were on their way to attend a political meeting prior to the nominations for the provincial elections. The witness said the conversation was about the lumber cut. Mr. Currie told him he thought the cut would be about four and a half million. Mr. Currie had asked how the witness was getting along with the scale. The witness told Mr. Currie he did not think the latter had used him quite right in the previous winter by having him on the drive finding more lumber than the witness did. The witness said he intended to be more exact that year.

GERMANY AND POWER

William The Second, His Acts and Opinions

This is the Last of a Series of Ten Articles Written For The Times By W. FRANK HATHEWAY.

Catholic, Lutheran, Arab, Turk or Greek as the end in view requires, so is William the Second. He hobnobs with the Sultan, prays at Jerusalem, sermons in Prussia, and tells followers of Mahomet that he is ready to aid them. He drinks black coffee with Arab chiefs and seeks power in Morocco. Scarcely a year on the throne before he marries his sister to the Greek king. In 1890 he loves the Socialists, but hates them in 1900. He toasts Queen Victoria when he receives Heligoland from Lord

Salisbury and 1909-10 threatens Edward the Seventh with his fleet. He talked peace and good will until the Kiel Canal and fleet were finished. Then with hands on his hips, he rattles his sword and demands a place in the sun. His speeches rarely mention the great philosophers Hegel, Kant, Fichte, Schelling, Schlegel &c. of the older time. He never admits that he is the choice of the people, their friend or servant. No, he is in office by the office when he receives Heligoland from Lord

His orders to his troops in China, the acts of his army in Belgium, and the late attacks by aeroplanes and submarines on the coast of England, and the fact that he is either a crazy fanatic or an Attila determined to crush all that lies in his pathway. Influenced by the emperor, by the professors and by the poets, the Germans most of the German people have become lustful for power. There was a time when Germany had a religion, a religion of religious thought, music, drama and poetry. But in the last thirty years, no Schiller or Goethe, no Schopenhauer or Wagner, no Hegel or Schlegel has risen to illustrate music, or poetry or spiritual life. The commercialism that has come to Germany since 1871 has clouded all those marvellous aspirations of eighty years ago. In place of these we have a Germany and an emperor intent on world domination. The same disaster will come to this emperor and this people that always comes to a nation which grows rich, throws away the spiritual life, and relies only on the sword.

W. FRANK HATHEWAY. St. John, N. B., July 9th, 1918.

CONCERNING McLAUGHLIN MOTOR CARS. Word has just been received by the McLaughlin Motor Car branch in this city that the McLaughlin company have been successful in procuring an order from the department of militia and defence for 15 Motor Cars for the use of the militia officers in various parts of Canada. This order was only received after very extensive tests had been made in the city of Ottawa in regard to the stability of the cars and the gasoline consumption. Another large order booked up last week was from the Hydro-Electric Commission of the city of Toronto for 26 Motor Cars to be used by their staff in various parts of the country in which they operate. So far as the Hydro-Electric Company is concerned they began using McLaughlin cars in 1915, in which year they purchased fourteen, along with other makes of cars. Such good results were obtained from these cars that in 1917 they purchased thirty-two McLaughlin cars. By the end of the second year they were able to determine definitely that the McLaughlin cars were the most profitable cars for them to have, the result being that the order just received makes a total for 1918 of fifty McLaughlin cars, and it is their intention to concentrate on the McLaughlin line. From the foregoing it can be seen that the popularity of the McLaughlin Motor Cars in Canada has something to back it up which is of a permanent character. A very few people, comparatively speaking, having once purchased a McLaughlin car would never to other makes. Bringing this matter a little nearer home, Mr. McAlary, the general manager for the Maritime Provinces, stated that one customer in St. John had purchased since he has been in the business ten of their cars, another one had purchased nine, and throughout the Maritime Provinces the McLaughlin car is having an increasing demand. In Prince Edward Island, where the roads this year have been through open for motor traffic, the McLaughlin dealers report large sales, all of which for the intending purchaser, should be a good recommendation.

An entertainment was given last evening by the Triangle Club and the ladies of the West Side Field Comforts Association, for the boys of the battery on Partridge Island. A. O. Skinner acted as chairman.

RECENT DEATHS

Miss Julia Hall. Miss Julia Hall, younger daughter of Mr. and Mrs. Albert Hall of Penobscot, died at her home last evening. She had been ill about a month with typhoid fever and in spite of best nursing and medical care the illness terminated fatally. Besides her parents, two brothers and two sisters survive. Miss Hall, who was eighteen years of age, was a bright young woman and had a host of friends. Her sympathy will go out to the family in its bereavement. The news of her death came as a great shock to the community. Harry Hall, the younger son of Mr. and Mrs. Hall, is also critically ill.

Rev. Allan Pollok, D.D. Halifax, July 8.—The Herald records, with profound sorrow, this morning news which will be received throughout this province and, indeed, in widely distant parts of Canada, with a sense of irrepressible loss—that of the death last evening of the Rev. Allan Pollok, D.D., honorary principal of the Presbyterian College, Pine Hill, and for forty-three years associated with its life, as Professor of Church History there; and, successively thereafter as principal and honorary principal. Within the college circle, where he was regarded as a very "Father in God" the sadness in this foreboding cannot be expressed in words. Dr. Pollok would have been eighty-nine years old next October—he came to Halifax from his native Scotland in 1832. In short, of his eighty-eight years, Dr. G. W. Spratt and the late Dr. Alexander McLean. He came to the pastorate of St. Andrew's church, New Glasgow, in 1854, and held for twenty-five years, being rewarded for a most able and faithful ministry by the entire denomination. In 1875 he was appointed to the Chair of Church History at Pine Hill College. In 1884, on the death of Dr. McKnight, in 1884, he was appointed its principal. On his resignation in 1904, he returned to his native Scotland and kept up his work practically to the day of his last illness. Conducting during the term classes in pastoral theology and in 1904, he held for twenty-five years, being rewarded for a most able and faithful ministry by the entire denomination.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc. Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic dyspepsia is exceedingly dangerous and sufferers should do either one of two things. Either they eat go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarated Magnesia at their meals. There is probably no better, safer or more reliable stomachic antacid than Bismarated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of persin pills or any other medicine.

Get a few ounces of Bismarated Magnesia, in any reliable drug store, for either powder or tablets. It never comes as a liquid, milk or citrate and in the latter form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unperfumed coconut oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy suds, and cleanses the hair and scalp thoroughly. The latter rises out easily, and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get unperfumed coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Easiest Way to Remove Ugly Hairy Growth (Beauty Culture)

Here is a method for removing hair or face that is unattractive and is quite inexpensive: Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone.

PTE. R. THOMAS DEAD OF WOUNDS

Mrs. Alfrida Thomas, Drury Lane, advised yesterday that her husband, Private Rees Thomas, one of the few survivors of the original New Brunswick battalion, died of wounds on June 24, 1918. Private Rees had been twice before in the casualty lists, the first time as shell-shocked at Vimy Ridge and last year as suffering from gunshot wounds. Besides his wife, he leaves his parents and three sisters.

Derivation of "Lady"

The word "lady" comes from the Anglo-Saxon word "half-lige," "half" meaning "lord" and "lige" meaning "leader." Therefore, a "lady" in the original understanding of the word, was simply a breadmaker. If the war lasts a year or two longer we shall revert to the ancient meaning of this domestic word, and the ladies themselves will be the first to eulogize it and make it popular.—Rocheater Post-Express.

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS ENLISTED IN GREAT-ER PRODUCTION CAMPAIGN

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

A LETTUCE TIP.

Lettuce should be sown three times during July, and the young seedlings must be kept well watered. In fact, all lettuce should be kept very moist to prevent it from running to seed too quickly.

Good, crisp lettuce is something that all war gardeners are keen to have, and frequently it is a disappointment to them to find it going to seed and coarsening in the process.

If you have not planted your lettuce in a shaded place, you might build a cloche-cloth frame over the plants that are beginning to head up, and spray them night and morning during the war weather. This is the real secret of good, crisp lettuce.

Food Board Flashes For Feminine Folk

Help to harvest some of the wild fruits that grow so abundantly in certain districts in British Columbia, New Ontario and the Maritime Provinces where stretches of land are almost literally carpeted with blueberries.

There are wild raspberries, strawberries, blackberries and Saskatoon berries, but the blueberries come first and foremost in the list.

If you happen to live near a spot where wild berries abound take the kiddies with you and go out and pick those berries for all you are worth. The flavor of wild fruit when canned is unexcelled. In some parts of the country it would be quite practical for girls to organize wild berry-picking camps.

Scots the blueberry industry is so flourishing that some years the total exports run as high as \$5,000 crates. The Indians of the Georgian Bay and Muskoka regions do a large blueberry business, and the Mission Indians of Fort William have a raspberry picking camp on the mountain every summer. Families holidaying at the various summer resorts might well help in the same way.

I. O. D. E. SPLITS WITH THE NATIONAL COUNCIL

The Latter's Affiliation With Alien Association Leads to Action

Motion is Rejected—Council Declines to Accede to Request They Break With Enemy Organizations

The Imperial Order of the Daughters of the Empire has severed its affiliations with the National Council of Women. This was decided at a national executive meeting of the I. O. D. E. held on Wednesday and given out by Mrs. A. E. Gooderham, president of the organization.

At a session of the annual meeting of the Daughters of the Empire, held in Toronto in June, a resolution was unanimously passed, the substance of which was: "That unless the National Council of Women of Canada officially sever connections with Germany, Austria and Bulgaria, that the I. O. D. E. would sever its affiliation with the National Council."

A letter to this effect was soon after sent by the Daughters of the Empire to the National Council of Women, who referred it for discussion at the annual meeting to be held in Brantford later in June.

At the annual session of the National Council of the I. O. D. E. resolution was first brought before a private meeting of the national executive of the council, and later came before the delegates and members, to the exclusion of the I. O. D. E. After many hot arguments, a resolution was adopted by the council and given to the newspapers.

It said that the work of the women in internationally organized associations with the exception of the Red Cross had, since the beginning of the war, been in abeyance. It stated that the National Council of Women was in the same position in regard to international affiliations as other associations, including the Young Men's Christian Association, International Council of Nurses, and the International Suffrage Alliance. Furthermore, like these associations, it would wait until the war was won before pronouncing its policy.

This statement was sent by the National Council to the I. O. D. E. shortly after the session, saying that the resolution had been discussed, and that no action had been taken on the ground. The resolution of the council was also endorsed.

The answer was brought before a national executive meeting of the I. O. D. E. on Wednesday with the result that the I. O. D. E. has severed its connections with the National Council of Women. This answer has been sent to the council, according to Miss Gertrude McGuffin, secretary of the association.

It states that "in view of the last clause of the resolution so unanimously carried at the annual meeting of the I. O. D. E. I am instructed to notify you that the affiliation of the Imperial Order of the Daughters of the Empire with the National Council of Women is now severed. Signed, Gertrude McGuffin, assistant national secretary."

When asked what the National Council of Women would have to say regarding this answer this morning, Mrs. Ithys D. Fairbairn, secretary of the council, said that she has nothing whatever to say on the matter.

Rev. and Mrs. J. H. Jenner, of West St. John, left this morning for Halifax to join their daughter, Miss Lena Jenner, who is a nursing sister in the Cogswell street military hospital, and who has been accepted for overseas duty. Miss Jenner is a graduate of the Winnipeg General Hospital and previous to accepting this government position she practised her profession in St. John, and is a member of the New Brunswick Association of Nurses.

OLD AGE AND WIDOWS' PENSIONS

(Toronto Star)

A man died recently leaving a wife and eight children, and as he had served at the front as a soldier in the war, had been invalided home and discharged, a claim is put in for a war pension for his wife and children. The Pension Board, however, declines to grant the pension.

Whether this widow and these eight children receive this pension or not is a matter, to them, of the utmost importance. Whether they receive it or not will make every possible kind of difference to them, now and throughout their lives.

But now, while public attention is centred on this and similar cases, we would like to ask people to consider whether it would not be well to adopt a national plan whereby any widow with children under sixteen would receive a sufficient pension to ensure that the mother could maintain a home and keep her family together.

The question to which everybody should give serious thought. The mother and the home, if they are maintained, will give those children their best chance, and the family, if kept together, will be of most service and credit to the state and society at large. In making these assertions we believe there will be few who will feel inclined to dispute them.

Some like to say that in a young country like this there is no need for old age pensions and no need for pensions to widows with children. It is quite proper to think highly of one's country, but it is not right to close one's eyes to the facts of life as they are being spread open to view every day. There is need for such pensions even in this young country, for no matter how young the country may be many of its people are old and many widows and children are facing life with no fair chance at all. A young country like ours offers fine openings to the hearty and strong and fortunate, but men and women grow old here as elsewhere, and husbands die suddenly sometimes, leaving wives and children exposed.

There is need for such pensions. From facts and figures compiled—not by Socialists, but by the American Bankers' Association—it appears that: Out of 100 average healthy men twenty-five years old—when they reach the age of sixty-five— One will be rich. Four will be well-to-do. Six will be earning their own living. Fifty-four will be dependent upon relatives or charity.

The other thirty-five will not have lived to the age named. Of the hundred only one will be rich and only another ten self-supporting or better. As for the others who survive to the age of sixty-five, they will be dependent on charity or will be supported by their relatives—most of whom will themselves be marching towards the day when they, too, will be dependent on the support of others.

These are the hard facts of the busy life we see about us. The figures quoted are compiled, as we have said, not by Socialists, but by the American Bank-

ers' Association. The figures apply to the United States, a country nearly as young as our own.

When a generation of men devotes itself to industry with the result that in old age of those who survive one per cent is rich, and 88 per cent are dependent for support on others, there is, of course,

something seriously wrong with the distributive system by which the profits of a generation's toil are conserved and apportioned. That is another phase of the subject.

But there ought to be pensions for the old, and there ought to be pensions for the widows with children. Not only in

their interest, but in the public interest there ought to be pensions. It may be that such poverty and want is due to improvidence and lack of prudence in the days when one's earnings are large. But if the individual lacks prudence that is an additional reason why the community should exercise its

responsibility. The figures quoted are compiled, as we have said, not by Socialists, but by the American Bank-

ers' Association. The figures apply to the United States, a country nearly as young as our own.

It may be that such poverty and want is due to improvidence and lack of prudence in the days when one's earnings are large. But if the individual lacks prudence that is an additional reason why the community should exercise its

responsibility. The figures quoted are compiled, as we have said, not by Socialists, but by the American Bank-

ers' Association. The figures apply to the United States, a country nearly as young as our own.

When a generation of men devotes itself to industry with the result that in old age of those who survive one per cent is rich, and 88 per cent are dependent for support on others, there is, of course,

something seriously wrong with the distributive system by which the profits of a generation's toil are conserved and apportioned. That is another phase of the subject.

But there ought to be pensions for the old, and there ought to be pensions for the widows with children. Not only in their interest, but in the public interest there ought to be pensions.

It may be that such poverty and want is due to improvidence and lack of prudence in the days when one's earnings are large. But if the individual lacks prudence that is an additional reason why the community should exercise its

responsibility. The figures quoted are compiled, as we have said, not by Socialists, but by the American Bank-

BASEBALL Baker Appears Friendly

Washington, July 8.—Appeals from decisions of local draft boards holding baseball a non-productive occupation under the work or fight regulations are on their way to Washington for decision by Secretary of War Baker. Mr. Baker is confining reports that such appeals had been filed, said appreciating thoroughly the fact that baseball at the national level is a non-productive occupation for millions of people, he doubted that it would be adversely affected.

THE TURF Favorites Beaten on Grand Circuit

**SHORTAGE OF GASOLINE.**  
Difficulty in securing delivery of tank cars has caused considerable shortage in gasoline for a few days back. However, it was expected today's trains would relieve the situation. Some dealers doled out short rations to their customers, others had none to sell.

**PYTHIAN GRAND CHANCELLOR.**  
Robert L. Slipp, Grand Chancellor Commander of the Knights of Pythias in the Maritime Provinces, left the city at noon on an official visit to Westmorland Lodge, No. 3, at Moncton. Mr. Slipp says the grand lodge will meet at Summerside, P. E. I., the third week in August, at which numerous important matters will be taken up.

**HIGH SCHOOL ENTRANCE CLASS.**  
Examination of papers written by Grade VII pupils seeing entrance into High School is going on, and it is probable the names of the successful boys and girls will be made known about the middle of this month. It is expected this year's entrants will number close to 800. In the school life of John J. Slipp, promotion from intermediate to high school is next to final graduation in importance.

**THIRD ARBITRATOR NOT CHOSEN YET.**

Day, the company's arbitrator, met yesterday afternoon to discuss the choice of a third member, but arrived at no decision. They will meet again soon.

**HILLSBORO M. P. P., IN CITY TODAY, CHEERY OVER COUNTY OUTLOOK.**

**J. L. Peck Sees Much Good to Come From Government Taking Over Railway.**

John L. Peck, M.P.A., of Hillsboro, N. B., was in the city today, after an Albert county man was optimistic over the prospects of his native health, the member from Albert is that gentleman. He is assured that the taking over of the Albert railway by the Ottawa government will prove a great boon to that section of country. Lumber and produce of all kinds will now find a market, and everybody is filled with encouragement and a willingness to work their agricultural and lumbering resources to the very limit.

On Saturday last General Manager Hayes of the Government Railway System made a detailed inspection of the branch railway and ordered many improvements, reconstructions and complete replacements. It is now certain the Albert road will be made thoroughly efficient and accommodating to both passenger and freight traffic.

Spreading of crop conditions in his constituency, Mr. Peck said he thought excessive rains have not had bad effects. A bounteous harvest in everything except wheat is constantly expected. Hay will be only a fair crop. In view of general favorable prospects and the certainty of prompt relief services, Albert county should come into her own this year with a ramp, and in anticipation of these cheerful thoughts, Mr. Peck has risen from ten to twenty-five per cent within the month.

**MAY ESTABLISH SOCIAL WELFARE MISSION**

Option on The Old Brussels Street Church Property Secured

An option has been taken on the old Brussels street church property by a body of energetic young men who have in mind the establishment of a community mission, along the lines of one conducted elsewhere in the city, though on a larger scale. The scheme is not far developed as yet, but if carried out will be a long step forward in social welfare work.

**VERDICT FOR \$2,500**

Fegles-Bellows Company to Appeal From Judge Chandler's Court

In the supreme court this morning His Honor Judge Chandler ordered a verdict to be entered for the plaintiff in the case of F. Woodford Fulton vs. The Fegles-Bellows Engineering Co., Ltd. This case was tried before His Honor last week. The plaintiff claimed damages for injuries received while in the employ of the defendant company. Several questions were submitted to the jury, and before entering the verdict, His Honor said he would give consideration to the answers given to the questions.

The jury after answering the questions, assessed damages in favor of the plaintiff to the amount of \$2,500, under the common law, and \$500 under the Workmen's Compensation Act. His Honor this morning entered a verdict for the plaintiff for \$2,500. George H. V. Baynes, K. C., and G. S. Keith appeared for the plaintiff, and F. R. Taylor, K. C., for the defendant. The case will be appealed. The court was adjourned until Tuesday morning next.

**FARMERETTES TO BEGIN WORK ON WEDNESDAY**

President Jessie Church of the Young Women's Patriotic Association—those girls who are willing to do men's work in war-time—with a party of twenty-five associates, will leave on Wednesday for F. C. Pawcett's farm near Seckville to pick strawberries for market. The cash proceeds of their labor will be devoted to patriotic funds. Mr. Pawcett grows berries on a large scale and gladly availed himself of the offer of the Y. W. P. A. The young ladies were to have gone to Seckville on last Saturday, but weather conditions made berry picking impossible.

While on the Pawcett farm the Y. W. P. A. members will live under canvas and have their own field kitchen, so the overly arduous work of berry picking will be offset by the splendid camping outing they expect to enjoy.

Lieut. A. P. Allingham Going To France

Organizer of Rotarians Here Writes to F. A. Dykeman of Success at Last in Getting Under Way to Scenes of War—Now in Springfield, Mass.

F. A. Dykeman, at the Rotary Club luncheon yesterday, read the following letter from Lieut. A. P. Allingham, who failed to get across with a Canadian unit but is now in a fair way to see France in another capacity than as a fighting man. Lieut. Allingham was the chief promoter and organizer of the Rotary Club in this city. After he joined the colors the club presented to him a handsome watch. Being unable to get overseas he went to Buffalo, N. Y., where Mrs. Allingham still lives, at 712 Ashland avenue. In his letter to Mr. Dykeman, in which he asks to be considered to all Rotarians and friends in St. John, Lieut. Allingham says:

Y. M. C. A. College, Springfield, Mass., July 4th, 1918.

My Dear Dykeman—You may be interested to know that I am on the first leg of the course bound for France. I have been accepted by the American Y. M. C. A., and been detailed for service with the French army because of my knowledge of that tongue and have been two weeks getting next to the duties that will be necessary. My position will be that of physical director; the qualification course will be four weeks here and a week at Columbia University or Princeton. The teachers are all men who have served abroad on this work and are able to tell us what it is like.

Our class is 800 strong and is made up of university professors, professional ball players, army men, two professional prize fighters who so far have proved themselves good clean fellows and good boxing instructors; we also have a real wrestler in the group. Our time is occupied exactly as though we were in actual army service, discipline is severe and from 6 a. m. to 9:30 p. m. we are kept at it.

We athletic fellows have to be competent to teach every game known and be able to put on most any old stunt. We took part in the 4th of July parade in town today and made a big hit as we had no band we sang our way through the streets with every old college and army song we could think of; the other paraders were too solemn.

When we came to the saluting base we saluted and gave the mayor or whoever was in the stand the college yell and then sang "Smile, Smile." It was an innovation which rather upset the staid people in the stand but they were all game when we began the song and "smiled" along with us.

There are some mighty fine fellows in this class; all men, too. We have a Judge of one of the courts in the state of Wisconsin who is all boy. My roommate is a Presbyterian parson from Oregon so you can see that we are a heterogeneous bunch of live wires. You would have a whale of a time with us, Old Top.

**GAVE HIS LIFE IN WAR JUST YEAR AGO; ONE OF THREE IN KHAKI**

One year ago Sunday Charlie N. Sinnott of St. John, the young soldier whose picture is here shown, gave up his life in the great war, killed in action in France. And on the anniversary of the

THE LATE PTE. CHARLIE N. SINNOTT.

day on which he made the supreme sacrifice his family and friends recall their soldier boy with pride mingled with sorrow that it was necessary that he should die so that right might prevail.

Private Sinnott was a son of Mrs. R. K. Kirkpatrick of 127 Sydney street. He was one of that gallant regiment, the 20th, which has won such a name in the war. He was only twenty years old. In peace days he worked at lumbering and farming but he laid all aside when came the call of men of blood and he went bravely forth to do his share in the world conflict. Also with him went in the same regiment his brother, William H., who is still where the grim work goes on, while another brother, Edward W., has since gone overseas. There are three smaller brothers at home, two sisters are at home and a third is Mrs. George E. Duplissis of Gasperaux Station.

**REPAIRING STORM'S DAMAGE.**  
Commissioner Fisher's men were at work this morning bright and early repairing rain-hole damage to principal city streets. Small stone and heavy sand were used. The civic thoroughfares suffered considerably in the recent deluge and work on the Main street paving and Union street sewerage excavations—preparatory to the permanent paving work—were held up and upset.
